1. A patient presents with onycholysis in her right middle finger for a follow-up, level 2 visit. The provider performs avulsion of nail plate. Proper coding is:
   a. 99212, L60.1, 11730-L60.1
   b. 99212-25, L60.1, 11730-L60.1
   c. 99212-25, L60.1, 11730-51-L60.1
   d. Query the provider for an additional diagnosis to link to the E/M service.

2. The provider trims non-dystrophic nails on the right hand (five fingers) and the left hand (two fingers), with debridement of the same fingers. Proper coding is:
   a. 11719, 11721
   b. 11719, 11721-59
   c. 11719, 11721-51
   d. 11719

3. True or False: You should code services only from the actual record of service.
   a. True
   b. False

4. All new, initial, and emergency department codes must meet how many of the three defined levels for history, exam, and MDM?
   a. One
   b. Two
   c. Three
   d. None of the above: The services are time-based.

5. CMS’ CPC+ program will be implemented in all of the following areas, except:
   a. Pennsylvania
   b. California
   c. New York
   d. Colorado

6. How many tracks are there for a practitioner to select among in CMS’ CPC+ program?
   a. 1
   b. 2
   c. 3
   d. 4

7. CMS’ CPC+ program is a:
   a. One-year program that begins Jan. 1, 2017
   b. Three-year program that begins Jan. 1, 2017
   c. Three-year program that begins Jan. 1, 2018
   d. Five-year program that begins Jan. 1, 2017

8. Proper coding of Watchman™ implant is:
   a. 0218T
   b. 33282
   c. 33340
   d. 33999

9. Code the repair of an aortic valve via open approach with the patient on cardiopulmonary bypass. The procedure involves valvotomy, debridement, debulking, and simple commissural resuspension.
   a. 33390
   b. 33391
   c. 33405
   d. 33999

    a. 46430
    b. 46440
    c. 36450
    d. 36456

11. True or False: Generally speaking, posterior pelvic ring fracture is a more serious injury than anterior pelvic ring fracture.
    a. True
    b. False

    a. 27193
    b. 27194
    c. 27197
    d. 27198

    a. 27197
    b. 27198
    c. 27299
    d. Report an appropriate E/M services code.

14. Which is proper coding for intramuscular injection of trivalent influenza vaccine (IIV3), 0.5 mL dosage?
    a. 90655
    b. 90656
    c. 90658
    d. Proper coding cannot be determined without knowing the patient’s age.
   a. G0008
   b. 90471
   c. 90473
   d. You must know patient age to report administration correctly.

16. An expanded problem-focused home visit for a new patient typically lasts how long, per CPT®?
   a. 20 minutes
   b. 30 minutes
   c. 45 minutes
   d. 60 minutes

17. According to the 2017 Hospital Outpatient Prospective Payment System (OPPS) final rule, how many procedures were removed from the inpatient list?
   a. 0
   b. 5
   c. 7
   d. 14

18. Beginning in 2017, hospital outlier payments are triggered when costs for providing a service or procedure exceed both:
   a. 1.50 times the APC payment amount; and APC payment plus the $3,825 fixed-dollar threshold
   b. 1.75 times the APC payment amount; and APC payment plus the $3,825 fixed-dollar threshold
   c. 1.50 times the APC payment amount; and APC payment plus the $3,275 fixed-dollar threshold
   d. 1.75 times the APC payment amount; and APC payment plus the $3,275 fixed-dollar threshold

19. The proximal row of carpal bones consists of all of the following, except:
   a. Scaphoid bones
   b. Lunate bones
   c. Hamate bones
   d. Triquetral bones

20. Code for ablation of uterine fibroid(s) by surgical laparoscopy.
   a. 58674
   b. 58999
   c. 0281T
   d. 0336T
