Notes/Sources:

[1] Data from Revenue Cycle Inc. review extracted from file 'OnePI - Marder 01012008to04152015 Patient Tabs Final Copy Ron and Zach edits.xlsx'

[2] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.

United States of America and the State of Florida, ex rel. Theodore A. Schiff, M.D. v Gary L. Marder, et al. **Exhibit 5.23**

Notes/Sources:

[1] Data from Revenue Cycle Inc. review extracted from file 'OnePI - Marder 01012008to04152015 Patient Tabs Final Copy Ron and Zach edits.xlsx'

[2] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.

United States of America and the State of Florida, ex rel. Theodore A. Schiff, M.D. v Gary L. Marder, et al. **Exhibit 5.24**

Notes/Sources:

[1] Data from Revenue Cycle Inc. review extracted from file 'OnePI - Marder 01012008to04152015 Patient Tabs Final Copy Ron and Zach edits.xlsx'

[2] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.

Notes/Sources:

[1] Data from Revenue Cycle Inc. review extracted from file 'OnePI - Marder 01012008to04152015 Patient Tabs Final Copy Ron and Zach edits.xlsx'

[2] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.

United States of America and the State of Florida, ex rel. Theodore A. Schiff, M.D. v Gary L. Marder, et al. **Exhibit 5.28**

Notes/Sources:

[1] Data from Revenue Cycle Inc. review extracted from file 'OnePI - Marder 01012008to04152015 Patient Tabs Final Copy Ron and Zach edits.xlsx'

[2] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.

United States of America and the State of Florida, ex rel. Theodore A. Schiff, M.D. v Gary L. Marder, et al. **Exhibit 5.29**

Notes/Sources:

[1] Data from Revenue Cycle Inc. review extracted from file 'OnePI - Marder 01012008to04152015 Patient Tabs Final Copy Ron and Zach edits.xlsx'

[2] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.

Notes/Sources:

[1] Data from Revenue Cycle Inc. review extracted from file 'OnePI - Marder 01012008to04152015 Patient Tabs Final Copy Ron and Zach edits.xlsx'

[2] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.

United States of America and the State of Florida, ex rel. Theodore A. Schiff, M.D. v Gary L. Marder, et al. **Exhibit 5.31**

Notes/Sources:

[1] Data from Revenue Cycle Inc. review extracted from file 'OnePI - Marder 01012008to04152015 Patient Tabs Final Copy Ron and Zach edits.xlsx'

[2] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.

United States of America and the State of Florida, ex rel. Theodore A. Schiff, M.D. v Gary L. Marder, et al. **Exhibit 5.34**

Summary of Evaluation and Management Procedure Codes by Year [1]

Year	Procedure Code	Procedure Description	Number of Beneficiaries	Number of Procedures	Amount Billed	Amount Paid
2012	99203	New patient office or other outpatient visit, typically 30 minutes	178	178	$ 24,030	$ 15,624
2012	99211	Established patient office or other outpatient visit, typically 5 minutes	60	123	6,765	2,038
2012	99212	Established patient office or other outpatient visit, typically 10 minutes	273	619	40,235	22,125
2012	99213	Established patient office or other outpatient visit, typically 15 minutes	210	338	28,710	19,806
2012	99214	Established patient office or other outpatient, visit typically 25 minutes	2	2	270	176
2012	99215	Established patient office or other outpatient, visit typically 40 minutes	182	200	34,000	21,264
2012 Total				**1,460**	**$ 134,010**	**$ 81,033**
2013	99202	New patient office or other outpatient visit, typically 20 minutes	1	1	$ 65	$ 51
2013	99203	New patient office or other outpatient visit, typically 30 minutes	131	131	17,637	10,942
2013	99211	Established patient office or other outpatient visit, typically 5 minutes	59	115	6,325	1,877
2013	99212	Established patient office or other outpatient visit, typically 10 minutes	294	732	47,580	25,546
2013	99213	Established patient office or other outpatient visit, typically 15 minutes	121	162	13,770	9,446
2013	99215	Established patient office or other outpatient, visit typically 40 minutes	184	204	34,680	20,827
2013 Total				**1,345**	**$ 120,057**	**$ 68,690**
2014	99203	New patient office or other outpatient visit, typically 30 minutes	106	106	$ 14,262	$ 8,630
2014	99205	New patient office or other outpatient visit, typically 60 minutes	1	1	170	133
2014	99211	Established patient office or other outpatient visit, typically 5 minutes	26	80	4,400	1,235
2014	99212	Established patient office or other outpatient visit, typically 10 minutes	250	551	35,815	18,764
2014	99213	Established patient office or other outpatient visit, typically 15 minutes	30	34	2,890	1,930
2014	99215	Established patient office or other outpatient, visit typically 40 minutes	123	124	21,085	13,300
2014 Total				**896**	**$ 78,622**	**$ 43,992**
Grand Total				**9,281**	**$ 841,401**	**$ 479,057**

Summary of Biopsy and Pathology Procedure Codes by Year [1]

Year	Procedure Code	Procedure Description	Number of Beneficiaries	Number of Procedures	Amount Billed	Amount Paid
2008	11100	Biopsy of single growth of skin and/or tissue	403	816	$ 155,500	$ 40,456
2008	11101	Biopsy of each additional growth of skin and/or tissue	338	600	512,755	64,785
2008	88305	Pathology examination of tissue using a microscope, intermediate complexity	414	1,112	1,304,980	$ 490,106
2008	88312	Special stained specimen slides to identify organisms including interpretation and report	58	68	12,925	7,500
2008	88342	Tissue or cell analysis by immunologic technique	1	1	2,475	863
2008 Total				**2,597**	**$ 1,988,635**	**$ 603,710**
2009	11100	Biopsy of single growth of skin and/or tissue	405	873	$ 166,395	$ 46,547
2009	11101	Biopsy of each additional growth of skin and/or tissue	356	674	620,410	83,186
2009	88305	Pathology examination of tissue using a microscope, intermediate complexity	426	1,249	1,489,195	574,809
2009	88312	Special stained specimen slides to identify organisms including interpretation and report	57	65	12,375	7,958
2009 Total				**2,861**	**$ 2,288,375**	**$ 712,500**
2010	11100	Biopsy of single growth of skin and/or tissue	353	661	$ 125,530	$ 36,916
2010	11101	Biopsy of each additional growth of skin and/or tissue	299	507	415,440	60,589
2010	88305	Pathology examination of tissue using a microscope, intermediate complexity	387	1,006	1,084,600	403,984
2010	88312	Special stained specimen slides to identify organisms including interpretation and report	41	46	8,375	5,422
2010 Total				**2,220**	**$ 1,633,945**	**$ 506,911**
2011	11100	Biopsy of single growth of skin and/or tissue	417	795	$ 150,789	$ 49,382
2011	11101	Biopsy of each additional growth of skin and/or tissue	349	585	450,045	71,112
2011	88305	Pathology examination of tissue using a microscope, intermediate complexity	438	1,103	1,123,145	440,387
2011	88312	Special stained specimen slides to identify organisms including interpretation and report	53	59	10,375	7,373
2011	88342	Tissue or cell analysis by immunologic technique	29	31	8,575	4,253
2011 Total				**2,573**	**$ 1,742,929**	**$ 572,507**
2012	11100	Biopsy of single growth of skin and/or tissue	383	701	$ 132,724	$ 47,700
2012	11101	Biopsy of each additional growth of skin and/or tissue	320	522	407,960	64,721
2012	88305	Pathology examination of tissue using a microscope, intermediate complexity	404	978	988,625	388,694
2012	88312	Special stained specimen slides to identify organisms including interpretation and report	39	42	7,250	4,551
2012	88342	Tissue or cell analysis by immunologic technique	44	51	18,400	9,209
2012 Total				**2,294**	**$ 1,554,959**	**$ 514,874**
2013	11100	Biopsy of single growth of skin and/or tissue	351	669	$ 126,975	$ 43,050
2013	11101	Biopsy of each additional growth of skin and/or tissue	294	512	409,160	62,852
2013	88305	Pathology examination of tissue using a microscope, intermediate complexity	368	993	1,060,550	262,159
2013	88312	Special stained specimen slides to identify organisms including interpretation and report	43	49	9,050	5,119
2013	88342	Tissue or cell analysis by immunologic technique	23	25	6,475	3,357
2013 Total				**2,248**	**$ 1,612,210**	**$ 376,537**
2014	11100	Biopsy of single growth of skin and/or tissue	312	542	$ 102,980	$ 32,209
2014	11101	Biopsy of each additional growth of skin and/or tissue	271	424	369,710	55,234
2014	88305	Pathology examination of tissue using a microscope, intermediate complexity	333	782	872,325	210,296
2014	88312	Special stained specimen slides to identify organisms including interpretation and report	26	28	7,700	3,193
2014 Total				**1,776**	**$ 1,352,715**	**$ 300,931**
Grand Total				**16,569**	**$ 12,173,768**	**$ 3,587,971**

Gary L. Marder, D.O.; Allergy, Dermatology & Skin Cancer Center, Inc., a Florida corporation Robert I. Kendall, M.D., and Kendall Medical Laboratory, Inc., A Florida corporation,	)	
Defendants.	)	

EXPERT REPORT OF MICHAEL J. PETRON, CPA, CFE

February 18, 2016

A. QUALIFICATIONS

1. I am a Managing Director with Stout Risius Ross, Inc. ("SRR"), a global financial advisory firm that specializes in Investment Banking, Valuation & Financial Opinions, and Dispute Advisory & Forensic Services. I am a Certified Public Accountant licensed in the state of Virginia and a Certified Fraud Examiner. My business address is 1100 Connecticut Avenue NW, Suite 825, Washington, DC 20036.

2. For the past 15 years, my practice has involved consulting with clients regarding the financial, accounting, and statistical aspects of matters primarily in litigation, in anticipation of litigation, or during investigations. I have testified as an expert witness on statistical issues, damages, forensic accounting, asset forfeiture, restitution, and loss. My experience includes various statistical analyses, forensic accounting investigations, damages or loss determinations, and ability-to-pay analyses.

3. I have written articles and given presentations on accounting and statistical related issues. I have given numerous training sessions to attorneys, Special Agents of the Federal Bureau of Investigation and the Department of Health and Human Services' Office of Inspector General ("OIG"), and other federal and local law enforcement personnel on sampling, advanced data analysis, and fraud detection at various United States Attorney's offices across the country. I received an Award for Excellence by the Council of Inspectors General on Integrity and Efficiency for my contributions to the joint Department of Justice ("DOJ") and OIG Advanced Data Intelligence and Analytics Team. I have also received a Special Commendation from the DOJ's Civil Division for my contributions to the Medicare Outlier Analysis Group.

4. **Exhibit 1** is a copy of my current curriculum vitae listing my work experience, academic

degrees and publications. **Exhibit 1** also lists the matters in which I have testified as an expert.

B. ASSIGNMENT

5. I was asked by the DOJ to develop and implement a sampling methodology that would estimate the amount of Medicare overpayment damages related to certain Radiation Oncology procedures billed by Dr. Gary L. Marder D.O. ("Dr. Marder"). My sample estimates of overpayment damages relate only to Radiation Oncology procedures as defined within this report. I have also been asked to estimate the statutory fines related to the claims submitted by Dr. Marder. Lastly, I was asked to provide various statistics that summarize the historical billings by Dr. Marder.

C. DATA AND OTHER INFORMATION REVIEWED AND CONSIDERED

6. In arriving at the conclusions outlined below, I have relied upon my expertise in accounting, finance, statistics, and damages analysis and reviewed and considered the documents and data that I requested or have been made available to me by the parties in this matter. A list of such documents and data is set forth in **Exhibit 2**. Under my supervision, other SRR personnel have assisted me with the review and analysis of the information available to me.

D. POSSIBLE REVISIONS TO THIS REPORT

7. The opinions and analyses expressed herein are based on the information made available to me as of the date of this report. I reserve the right to review any information produced by either party subsequent to the date of this report and to update this report as necessary to reflect any additional analyses and conclusions. In addition, I may create additional

exhibits, charts, summaries, or other demonstrative materials that may be used at points during this proceeding.

E. OVERVIEW

8. It is my understanding that Dr. Marder is accused of submitting numerous false claims to Medicare and TRICARE for radiation therapy and other related services that were (1) not rendered, (2) not properly supervised, (3) rendered by unqualified personnel or (4) were billed in violation of applicable guidelines.[1] This report presents the methodology and findings of a statistically valid random sample designed and implemented to estimate overpayment damages to the government, specifically the Medicare program, as a result of this alleged scheme. In connection with the sample estimation, I have formed no opinions and will express no opinions on whether or not any individual claim submitted by Dr. Marder was properly billed or paid. I rely on the work of Revenue Cycle Inc. ("RCI") in order to estimate overpayment damages. RCI conducted a "review of medical records and associated billing records" in this matter.[2]

F. TOTAL SURVEY DESIGN

9. The notion of a *total survey design* was developed over a number of years from the 1950s through 1970s. The United States Census Bureau and their statisticians were instrumental in its creation. The following passage briefly describes the process.

> Total survey design is concerned with obtaining the best possible precision in the survey estimates while striking an overall economic balance between sampling and nonsampling errors. For a view of total survey design, it is helpful to consider a survey from three perspectives:
>
> 1. The requirements

[1] United States' Complaint in Intervention, 11/19/2014, pp. 1-2. My sample estimates do not contain any estimate related to potential overpayment damages incurred by the TRICARE program.
[2] "10.7.15 Formal Report Marder Final Edits.docx" and "Original Marder File Purple Tabs Only 01.18.16.xlsx."

2. The survey specifications
3. The survey operations[3]

REQUIREMENTS

10. The total survey design requires that the objective of the sample be understood in order to create the sample. The objective of this sample was to estimate the overpayment damages related to certain Radiation Oncology related procedures billed by Dr. Marder.

SAMPLE SPECIFICATIONS

11. The second component of the total survey design, survey specifications, determines key elements of the sample, such as population, sampling design, measurement procedures, estimators and auxiliary variables.[4]

12. In order to arrive at the population of Radiation Oncology related procedures billed by Dr. Marder, I examined a data file provided to me by the DOJ.[5] This data contained 169,003 rows of Medicare procedures. I first eliminated data where the paid amount on a row was equal to zero. This eliminated 50,707 rows leaving 118,296. This elimination was done to avoid the possibility of sampling procedures for which there was no payment and therefore could have no overpayment.

13. After zero paid rows were removed, a further restriction was put into place based on the "Date From Claim" field. Any claim with a "Date from Claim" prior to January 1, 2008 was not part of the analysis.[6]

14. The next step was to limit the data to only those procedures that fell within the definition of a Radiation Oncology related procedures. For the purposes of this report, Radiation

[3] Särndal, Swensson & Wretman, *Model Assisted Survey Sampling*, Springer-Verlag (1992), p. 19.
[4] Särndal, Swensson & Wretman, *Model Assisted Survey Sampling*, Springer-Verlag (1992), p. 19.
[5] Marder Raw Data.xlsx, received November 24, 2014.
[6] September 11, 2014 was the maximum "Date from Claim."

Oncology related procedures are defined by Current Procedural Terminology ("CPT") codes 77261, 77280, 77300, 77332, 77334, 77336, 77427, 77401, 77402, 77407, or 77412.[7] After limiting the data to Radiation Oncology related procedures, there were a total of 73,110 rows remaining.

15. The remaining data was then summarized by beneficiary to create a set of 411 unique beneficiaries that received at least one paid Radiation Oncology service. These 411 beneficiaries received total paid services in the amount of $9,772,767 **Exhibit 6.0**. A further reduction was made to eliminate any beneficiary that had a total paid amount less than $10,000. This was done to reduce the potential variability in the sample results. The reduction eliminated 162 beneficiaries with a total paid amount of $806,732. This reduction will make the estimate of overpayment damages conservative because there will be no overpayment damages associated with any of the 162 excluded beneficiaries. The remaining set of 249 beneficiaries was used as the Sample Frame, with beneficiary as the Sample Unit.[8] The Sample Frame had a total paid amount of $8,966,035 **Exhibit 6.0**.

16. To further reduce the variability in the sample and potentially improve the precision of the resulting overpayment estimates, the Sample Frame was divided into two strata.[9] Stratification is the process by which the Population or Sample Frame is divided into subgroups that do not overlap.[10] Each Sample Unit, in this case beneficiary, belongs to one and only one stratum and the combination of all strata constitute the entire Sample

[7] American Medical Association, *Current Procedure Terminology*, 2010. There are other CPT codes that fall within the definition of Radiation Oncology services. For the purposes of this analysis, only those codes listed were considered and further analyzed.
[8] The Sample Unit is the item that is eligible to be selected into the sample while the Sample Frame is the complete listing of every Sample Unit. See Lohr, Sharon L., *Sampling: Design and Analysis*, Brooks/Cole (1999), pp. 3.
[9] Lohr, Sharon L., *Sampling: Design and Analysis*, Brooks/Cole (1999), pp. 95.
[10] Lohr, Sharon L., *Sampling: Design and Analysis*, Brooks/Cole (1999), pp. 95.

Frame. In general, the strata are created based upon the variable of interest. In this matter the variable that we are interested in estimating is the overpayment damages. Without any additional information on the behavior of the overpayment damages, I assumed for purposes of creating this sample that the overpayment damages behaved similarly to the total paid amount per beneficiary. This assumption was common and intuitive. When the total paid amount goes up, the overpayment damages likely also go up and vice-versa.

17. I determined that the first stratum should be all beneficiaries with total paid amounts greater than $100,000.[11] Stratum one consists of the top ten beneficiaries with a total paid amount across the entire stratum of $1,447,943 **Exhibit 6.0**. Stratum two consists of the remaining 239 beneficiaries with total paid amounts between $10,000 and $100,000. Stratum two has a total paid amount across the entire stratum of $7,518,092 **Exhibit 6.0**. The last column of **Exhibit 6.0** displays the coefficient of variation for the four different populations that I have described above. The coefficient of variation is a common statistic that measures the relative variability within a population.[12] The higher the coefficient of variation, the more variation there is in the population relative to the mean of the variable of interest. **Exhibit 6.0** shows that the coefficient of variation is less for each stratum (.19 and .64, respectively) than the Sample Frame as a whole at .84. This methodology is expected to lead to increased precision in the sample results.

18. A full listing of beneficiaries in each stratum is in **Exhibit 7.0.**

[11] There was a natural break in the total paid amount distribution with the top ten beneficiaries having more than $123,000 in paid services, while the 11th highest beneficiary was less than $98,000.
[12] Lohr, Sharon L., *Sampling: Design and Analysis*, Brooks/Cole (1999), pp. 29-30. The coefficient of variation is defined as the standard deviation divided by the mean.

19. The final step in the sample specification section was to determine an appropriate sample size based on simple random sampling techniques. There was no sample size for stratum one, as all ten beneficiaries were reviewed. To select a sample size for stratum two, it is important to understand the basic properties of the selection process. The following passage from Arkin provides a summary of that process.

> With the test objective specifically known, the auditor must make certain decisions in order to establish a proper sample size. The first of these is to decide how closely (or with what sampling precision) it is necessary to estimate the characteristic to be tested (such as the percentage of a certain types of errors, system failures, or certain dollar or other values). The second decision relates to the probability or assurance (confidence level) that the sample will actually fall within the required distance (sampling error) from the true or universe value.[13]

The first decision relates to the precision of the overpayment damages estimate. "The acceptable sampling precision must then be sufficiently small to distinguish the bad from the good."[14] There are no absolute rules for determining the appropriate precision amount, but there is guidance. For example, the Department of Health and Human Services ("HHS") requires that samples submitted under their Self-Assessment Guidelines have at least 25 percent precision after a probe sample has been conducted.[15] I selected a 20 percent precision level from stratum two when determining the appropriate sample size.

20. The second decision in determining an appropriate sample size is what Confidence Level to use. A high degree of confidence is needed for estimation to reflect something more than a mere guess. The Confidence Level selected in random samples is generally either 90 or 95 percent, and is usually any value above 90 percent. The Confidence Level

[13] Arkin, Herbert, *Handbook of Sampling for Auditing and Accounting, 3rd Edition*, New Jersey: Prentice Hall, 1984. p. 76.
[14] Arkin, Herbert, *Handbook of Sampling for Auditing and Accounting, 3rd Edition*, New Jersey: Prentice Hall, 1984. p. 78.
[15] Federal Register, Volume 63, No. 210, 10/30/1998, p. 58402. While a probe sample is not always necessary, it is often the only way to obtain information necessary to calculate the appropriate sample size.

assists in calculating the sample estimate's Confidence Interval.[16] For this stratum I selected a Confidence Level of 95 percent.

21. Based upon the hypothesis that overpayment damages behave similarly to the distribution of the paid amount per beneficiary, I calculated a sample size of 34 beneficiaries **Exhibit 8.0**.[17] The sample size of 34 can be seen on **Exhibit 8.0** as the intersection between the column labeled 95% confidence level and the row labeled 20% precision level. The estimated overpayment damages mean ($31,456) and standard deviation ($20,046) used for this calculation are those derived from the paid amount per beneficiary found in **Exhibit 6.0** for stratum two. To be clear, the actual overpayment damages will ultimately be estimated from this sample based upon the review by RCI. These paid amount per beneficiary statistics are used to estimate the necessary sample size to achieve a desired level of confidence and precision from the sample. The final overpayment damages estimate will vary depending on which sample units are selected and how much variation there is in the variable of interest, the overpayment damages.

22. The final sample size selected was 44, comprised of a full census of 10 beneficiaries in stratum one and a simple random sample of 34 beneficiaries in stratum two.

SAMPLE OPERATIONS

23. The sample operations of the total survey design are those activities which lead to sample selection, data collection, analysis, and estimation.[18] The following paragraphs detail the

[16] The confidence interval is an indication of the probable range of error associated with a sample value obtained from a probability sample.
[17] This calculation was done using the Department of Health and Human Services' Office of Inspector General Rat Stats software package ("RAT-STATS"). The calculations are based upon simple random sampling techniques which will be the sample method employed for stratum two.
[18] Särndal, Swensson & Wretman, *Model Assisted Survey Sampling*, Springer-Verlag (1992), pp. 14-17.

random sample selection, the results of the medical review, and the estimation of overpayment damages.

24. As I described above, stratum one did not require a sample to be drawn as a complete census of all ten beneficiaries was reviewed. Stratum two required a random selection of 34 beneficiaries from the 239 eligible beneficiaries using simple random sampling techniques. This selection was done using RAT-STATS' random number generator with a seed value of 7202 and the 239 eligible beneficiaries were arrayed by HICN number from smallest to largest. The random selection and random order of selection can be found in **Exhibit 9.0**. The first column, Value, represents the beneficiary number selected, while the second column, Order, represents the random order of selection. For example, Value of eight and Order of 33 in the first row of **Exhibit 9.0** corresponds to beneficiary B.B. with a total paid amount of $17,653 found in stratum two Sample ID 8 **Exhibit 7.0**. Beneficiary B.B. was selected as the 33rd random beneficiary out of the sample of 34. The final sample of 34 beneficiaries are identified in **Exhibit 7.0** with a number in the first column representing their sample order within each strata.

25. I produced a list of 44 beneficiaries to the DOJ and it is my understanding that DOJ obtained the medical charts for RCI to review. After RCI completed its review, they provided an Excel file containing a summary of their findings.[19] I have detailed the RCI findings by beneficiary for stratum one in **Exhibit 4.0** through **Exhibit 4.10**. RCI findings by beneficiary for stratum two are detailed in **Exhibit 5.0** through **Exhibit 5.34**.

[19] "Original Marder File Purple Tabs Only 01.18.16.xlsx." received on January 19, 2016. I was also provided a report title "Consulting Report: Medical Record Review Marder Derm Case" and earlier versions of RCI's findings in Excel format.

26. RCI reviewed many procedures that were outside of the Sample Frame described above. Any procedure reviewed by RCI that was not in the Sample Frame was excluded from further analysis to ensure accurate estimation procedures. There were also seven beneficiaries that contained at least one procedure in the Sample Frame that RCI did not categorize.[20] For these missing procedures, I have conservatively assumed that there are no overpayment damages. Lastly, one patient file was completely missing from the RCI review. I have reduced the stratum two sample size to 33 to reflect this missing patient.[21]

27. **Exhibit 4.0** contains the summary information by beneficiary for stratum one. RCI determined if each procedure in the sample was either billed correctly, incorrectly, or if additional information was needed to reach a conclusion, RCI categorized the procedure as "Maybe."[22] I included all paid amounts associated with procedures where RCI had a finding of "Maybe" into two columns labeled under "Maybe." The first column consists of all procedures for which RCI was not provided any records to review. This column is labeled as "No Medical Record" and totals $250,173 for stratum one **Exhibit 4.0.** All procedures in this category were not considered overpayment damages for estimation purposes.[23] The second column was for procedures that had documentation, but for which RCI was unable to make a clear determination as to whether or not the billing was correct. The second column is labeled "Unclear Determination" and all procedures in

[20] The seven patients can be found in Exhibits 4.1, 4.8, 4.10, 5.1, 5.2, 5.6, and 5.14.
[21] This treatment is conservative because it is my understanding the government could collect overpayments on procedures/patients for which the provider does not keep (or could not produce) adequate documentation of the services provided. See Section 1833 (e) of the Social Security Act, which provides: "No payment shall be made to any provider of services or other person under [the Medicare Program] unless there has been furnished such information as may be necessary in order to determine the amounts due such a provider or other person under this part for the period with respect to which the amounts are being paid or for any prior period."
[22] "Original Marder File Purple Tabs Only 01.18.16.xlsx." received on January 19, 2016. See column labeled "Yes/No/Maybe" and Notes columns.
[23] I have also been asked to calculate overpayment damages in the event that RCI's "Maybe" findings are re-categorized as incorrect.

this category were not considered overpayment damages for extrapolation purposes.[24] For stratum one there are $4,395 in this category **Exhibit 4.0**.

28. RCI determined that a number of procedures were incorrectly billed. For procedures that RCI determined were incorrectly billed, it is my understanding that 100 percent of the paid amount should be treated as an overpayment damage except for those procedures where RCI determined a different procedure was warranted.[25] I have grouped RCI's incorrectly billed procedures into four general categories. The first category is labeled "No Supervision" and contains $708,564 of procedures where Dr. Marder was believed to be outside of the office and therefore unavailable to provide the supervision that is required **Exhibit 4.0**. The second category is labeled "No Documentation" and contains $51,706 of procedures for which RCI noted that there was no documentation **Exhibit 4.0**. The third category is labeled "Incorrect Code and Quantity Billed" and is for all situations where RCI believed procedure 77401 should be billed instead of the existing code. This category contains $138,818 in overpayments **Exhibit 4.0**. The last category is labeled "Procedure Should Not Have Been Billed" and is for all other incorrectly billed procedures. The last category contains $274,681 in overpayments **Exhibit 4.0**. The details for each RCI finding in stratum one are located in **Exhibits 4.1** through **4.10**. In total for stratum one, there was $1,173,769 of incorrectly billed procedures leading to an overpayment damages of $1,173,769 **Exhibit 3.0**.[26]

[24] I have also been asked to calculate overpayment damages in the event that RCI's "Maybe" findings are re-categorized as incorrect.
[25] In situations where RCI determined that procedure 77401 should have been billed instead of the procedure that actually was billed, the overpayment damage estimate was calculated to be the actual paid amount minus $34.98. Based upon Dr. Marder's historical billing, on average, procedure 77401 was paid at the rate of $34.98.
[26] The total overpayment damage is equal to the stratum total because there was a complete census taken of the stratum. No estimation is therefore required and there is no associated sample error.

29. Stratum two had total incorrectly billed procedures amounting to $892,415, an average of $27,043 per beneficiary **Exhibit 3.0**. As with stratum one, I separated these findings into four categories. There was $517,225 in incorrectly billed procedures when Dr. Marder was not in the office. There was $101,863 in incorrectly billed procedures due to no documentation. There was $82,146 in estimated overpayments due to an incorrect procedure being billed and $191,181 for all other purposes. **Exhibit 5.0**. Any procedure which RCI determined was "Maybe" was not considered an overpayment damage for estimation purposes.[27] Any procedure that completely lacked documentation or where RCI could not make a clear determination was not considered an overpayment damage. There were $114,924 of procedures for these two categories **Exhibit 5.0**.

30. It is important to note that in many cases RCI found multiple reasons why a particular procedure may be problematic. For example, RCI notes "Cannot definitively determine tx was administered. If administered, incorrect code and quantity billed." In these situations, the procedure was categorized into the most conservative category available that corresponds to RCI's findings. For this example, this procedure would be placed into the "Incorrect Code and Quantity Billed" category as that category has a lower, more conservative, damage treatment. In the event that any particular category is found not to be an overpayment, one cannot simply subtract the results of that category from the estimates presented in this report. However, I could easily incorporate any such finding and recalculate the estimates, if needed.

31. To estimate the total overpayment damages derived from stratum two, the mean of the overpayments per beneficiary from the sample is multiplied by the number of

[27] I have also been asked to calculate overpayment damages in the event that RCI's "Maybe" findings are re-categorized as incorrect.

beneficiaries in the Sample Frame from stratum two.[28] This equation yields an overpayment damages estimate of $6,463,246 ($27,043 * 239) **Exhibit 3.0**. The corresponding 95% confidence interval is $4,977,567 to $7,948,925 **Exhibit 3.0**. In other words, if one were to take 100 additional samples from this population using the same procedures, we would expect 95 out of the 100 resulting confidence intervals would contain the true measure of the overpayment damages.[29] The precision level for stratum two is 23.0% which approximates the sample size calculation estimates described above **Exhibit 3.0**.

Sample Conclusion – Overpayment Damage Estimate

32. In order to arrive at an overall estimate for the overpayment damages, strata one and two must be combined. **Exhibit 3.0** details the total sample results. The final overpayment damages estimate related to Dr. Marder's Radiation Oncology procedures is $7,637,015 with a corresponding 95% confidence interval of $6,207,475 to $9,066,555.[30] The precision percent achieved in the overall sample was 18.7% and this falls within generally acceptable statistical practice. The overpayment damages estimate of $7,637,015 is a conservative estimate due to the exclusion of beneficiaries with total paid Radiation Oncology related procedures of less than $10,000.[31]

[28] Lohr, Sharon L., *Sampling: Design and Analysis*, Brooks/Cole (1999), pp. 95-103.
Cochran, W.G., *Sampling Techniques, 3rd Edition*, New York: John Wiley and Sons, 1977. pp. 89-96.
[29] Lohr, Sharon L., *Sampling: Design and Analysis*, Brooks/Cole (1999), p. 35.
[30] Lohr, Sharon L., *Sampling: Design and Analysis*, Brooks/Cole (1999), pp. 95-103. The HHS OIG Rat-Stats 2010 Version 4 software was used to make statistical calculations.
Cochran, W.G., *Sampling Techniques, 3rd Edition*, New York: John Wiley and Sons, 1977. pp. 89-96.
[31] Further, any procedure for which RCI could not make a definitive determination was excluded from the overpayment damage estimate. There was not one Radiation Oncology procedure reviewed which RCI determined the billings were done accurately, without any questions. Exhibit 3.0 also contains an estimation of overpayment damages if someone were to consider all "maybe" procedures as being incorrectly billed.

33. I have also been asked to calculate overpayment damages in the event that RCI's "Maybe" findings are re-categorized as incorrect. In that case, the overpayment damage estimate related to all Incorrect or "Maybe" procedures is $8,723,910 with a corresponding 95% confidence interval of $7,388,742 to $10,059,080 **Exhibit 3.0**. The precision percent increases to 15.3% and falls within generally acceptable statistical practice.

G. STATUTORY FINES

34. I was asked by the DOJ to estimate the statutory fines related to the allegations in this matter. I utilized the same RCI review and created a summary by beneficiary of each claim found in the sample.[32] These summaries differ from the work in Section F above as a unique claim may contain more than one procedure. It is my understanding that statutory fines may only be applied to the claim, not the procedure.

35. The beneficiary summary by unique claim can be found for strata one and two in **Exhibits 10.1** and **10.2**, respectively. For stratum one, no estimation procedures were needed to determine the number of claims in error as stratum one was a complete census. For stratum two, the total number of claims is estimated from the sample to be 2,386 **Exhibit 10.2**.

36. The minimum statutory fine is estimated to be $15,306,500 which is derived from multiplying the statutory rate of $5,500 per claim to the estimated number of claims from the full sample 2,783 **Exhibit 10.0**. The maximum statutory fine is the same calculation substituting $11,000 per claim instead of $5,500 per claim. The maximum statutory fine is estimated to be $30,613,000 **Exhibit 10.0**. The statutory fine calculations as presented

[32] A unique claim was determined using the variable 'CH ICN' found in the file Marder Raw Data.xlsx.

only relate to RCI's initial findings of a procedure being incorrect. In the event that RCI's findings of "Maybe" should be re-categorized as incorrect, the statutory fine calculations would increase.

H. SUMMARY STATISTICS BY YEAR

37. I was asked to provide a summary of Dr. Marder's billing for evaluation and management procedures for each year from 2008 through 2014. That summary can be found in **Exhibit 11.0**. A similar annual summary for biopsy and pathology procedures can be found in **Exhibit 12.0**. I have only included the top two biopsy codes 11100 and 11101.

38. I have also been provided a calendar that summarizes each day that Dr. Marder may not have been in the office.[33] The calendar identifies two different instances; 1) "DM OUT" written on a date in Dr. Marder's schedule book, and 2) "Empty Dates" for days when no patients were scheduled to see Dr. Marder. I have summarized all of Dr. Marder's billings into four categories based upon this calendar. The four categories are as follows:

    a. DM Out

    b. Empty Dates

    c. Weekend

    d. DM In – all other dates

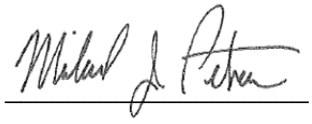
    The summary of billings by category can be found in **Exhibit 13.0.** This exhibit summarizes all procedures.

[33] "MARDER CALENDAR printable.xlsx" received on February 5, 2016.

I. PROFESSIONAL FEE ARRANGEMENT

39. SRR is compensated by the DOJ for my time at an hourly billing rate of $216.30 per hour plus out-of-pocket expenses for services performed in this matter. SRR's compensation is in no way dependent on the opinions I express or on the outcome of this litigation. The analyses upon which I have based my opinions in this report have been performed by me or by individuals working under my direction and supervision.

Respectfully submitted,



Michael J. Petron Date: February 18, 2016

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA and the STATE OF FLORIDA, ex rel. THEODORE A. SCHIFF, M.D.,

Plaintiff,

v.

GARY L. MARDER, D.O.; ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation, ROBERT I. KENDALL, M.D., and KENDALL MEDICAL LABORATORY, INC., a Florida corporation,

Defendant.

DECLARATION OF MARTIN BURKE

I, Martin Burke, do hereby declare and state:

1. I am a resident of the State of Florida and currently reside in Tampa, FL.

2. I earned a Bachelor's degree in Biomedical Science at the University of South Florida; and a Master's Degree in Physician Assistant Studies at the University of Florida

3. I have been licensed in the State of Florida as a Physician's Assistant since 2012.

4. From 2012 to 2014, I was employed as a Physician Assistant by Gary Marder, D.O., in Port St. Lucie and Okeechobee, Florida.

5. At the time I commenced employment with Dr. Marder, I had no prior experience in the administration of radiation therapy. After approximately four weeks of on-the-job training at Dr. Marder's main clinic in Port St. Lucie, Dr. Marder assigned me the responsibility of administering

03/21/2016 19:01 813--961-8518 FEDEX OFFICE 1531 PAGE 02

radiation to patients in his clinic located in Okeechobee, Florida.

6. Dr. Marder was physically present in the Okeechobee office approximately once every two weeks, usually on a Tuesday. I administered radiation to the Okeechobee location patients on all weekday mornings, even when Dr. Marder was not present at the location. Once all of the patients being treated with radiation at the Okeechobee location were finished, unless there were scheduled patient examinations at that office, I would close that office and then work for the remainder of the day in the Port. St. Lucie clinic.

7. Patients in the Port St. Lucie office were also irradiated on a daily basis even if Dr. Marder was not in the office.

8. No other physician covered for Dr. Marder and the only type of radiation administered at the Okeechobee and Port St. Lucie offices was superficial radiation.

9. The radiation treatments I rendered to patients were based on verbal instructions received directly from Dr. Marder. Dr. Marder instructed that every patient was to receive two radiation treatments a day to each lesion for 20 days. The treatment was the same for every lesion on every patient. I was not required to make reference to any plan of care or dose calculations before commencing treatment? (Except the already mentioned established standard protocol) The radiation dosage administered by the machine at each location was preset and I was instructed not to change any of the settings related to the Kilo-voltage or the amps (mA) at any time. The actual radiation treatments lasted approximately 8 to 15 seconds for each lesion, plus a few minutes to position the patients.

10. I was never taught to perform a simulation of the treatment before commencing the actual radiation, and never performed any simulations on any patient. I never took notes about the manner in which the machine was set up or the manner in which the patient was positioned for the

03/21/2016 19:01 813--961-8518 FEDEX OFFICE 1531 PAGE 03

administration of the treatment, nor ever took photographs of such positioning.

11. I was not required to make reference to any type of special instructions regarding the type of shield to use on the each individual patient or particular lesion or the manner in which it would be used. (Except during initial training period) I selected a shield for every patient from a small set of prefabricated shields shared among all patients based upon general verbal instructions from Dr. Marder, and no input from Dr. Marder was required or provided in that selection process thereafter for any particular patient after initial training period, with very few exceptions.

12. Although I was aware that Dr. Marder had an arrangement with a medical physicist, I was told the physicist only came to the Okeechobee and Port St. Lucie offices at night or on weekends. I never saw the medical physicist in person or any evidence that the medical physicist was involved in the care of any patients.

13. During the course of the 20 days of radiation treatments, Dr. Marder was not involved in the administration of the radiation on a routine basis. The patients were not required to see Dr. Marder and were not scheduled to meet with him until after the radiation therapy was concluded. Dr. Marder was only involved if specifically asked by myself or another person administering radiation at one of the clinics to assist with a particular problem.

14. I placed some information about the radiation treatments on a four page card stock fold out document called a Tumor Dose Record ("TDR"). The TDR contained columns for each treated lesion and rows for providing details of each application of radiation to a lesion. At the far right of the form, there were dedicated columns for the signatures of a medical physicist and medical doctor when appropriate. There were also designated places on the form for other information regarding the identity of the patient and the details of the treatment such as the dosage, use of shields, etc.

15. In the ordinary course of business, the TDR was the only medical record I ever saw

03/21/2016 19:01 813--961-8518 FEDEX OFFICE 1531 PAGE 04

regarding the details of the actual radiation treatments administered to particular patients.

16. In general, the only information I placed on the TDR was a basic description of the location of the lesions (i.e., forehead, mid-scapula, left forearm), the date of the radiation, and the time of the first radiation of the day, along with my initials.

17. I never wrote down the time of the second daily treatment because that was the way I was taught when I started working there. The second daily treatment was usually administered approximately 45 to 60 minutes after the first treatment, in part depending on how many other patients needed to receive radiation that day. I did not add information to the Tumor Dose Record about the cumulative dose. I would generally add comments regarding the daily progress of the treatments. When the 20 days of treatments were concluded, there were no signatures or initials in any of the other columns on the form from any other person when it was submitted for billing.

18. Dr. Marder generally worked in the Port St. Lucie office on Mondays and Wednesdays. He would occasionally come into the office on Fridays if he was unable to come on either Monday or Wednesday of that week.

19. Dr. Marder took vacations on a frequent basis, sometimes for up to a month at a time.

20. Patients continued to be treated on the occasions when Dr. Marder was not in the office. Most commonly, the patients would be scheduled for office visits during which they would undergo biopsies or the destruction of lesions.

21. I never played any role in the preparation or submission of claims to any insurance company, including Medicare, Tricare or any other insurance company. Dr. Marder employed two individuals at any given time assigned exclusively to billing duties.

22. Dr. Marder never offered or required any training regarding the rules of the Medicare

03/21/2016 19:01 813--961-8518 FEDEX OFFICE 1531 PAGE 05

program, or any other government program or private insurance plan.

23. When Dr. Marder was out of the office, he generally contacted the office via telephone to check on the status of the office. He would call late in the day to get such information as the number of biopsies performed for the day.

24. Dr. Marder's appointments with patients were tracked in an appointment book. If there were no appointments in the book for Dr. Marder for a particular day, it most likely meant that Dr. Marder would not be in the office that day.

25. The only laboratory related equipment that I saw in the clinics was a microscope, various slides, and the vials provided by Kendall Medical Laboratory that we used to ship the biopsy specimens to the laboratory. Once I obtained the biopsy specimens from the patient, I was not responsible for any analysis of said specimens, and those specimens were shipped to the laboratory. I performed radiation upon the lesions that were biopsied based entirely upon the results of the pathology report that came from the laboratory.

26. I never saw Dr. Kendall in either of Dr. Marder's offices.

27. I never saw Dr. Marder examine any pathology slides using the microscope in his office.

Pursuant to Title 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct and is based upon my personal knowledge this 21st day of March, 2016, in Tampa, Florida.

Dated: March 21, 2016,

By: _____
Martin Burke

03/21/2016 19:01 813--961-8518 FEDEX OFFICE 1531 PAGE 06

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA and the STATE OF FLORIDA, ex rel. THEODORE A. SCHIFF, M.D.,

Plaintiff,

v.

GARY L. MARDER, D.O.; ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation, ROBERT I. KENDALL, M.D., and KENDALL MEDICAL LABORATORY, INC., a Florida corporation,

Defendant.

DECLARATION OF SPECIAL AGENT WENDE BARDFELD IN SUPPORT OF THE UNITED STATES' MOTION FOR SUMMARY JUDGMENT

1. I am a Special Agent with the Federal Bureau of Investigation ("FBI"). I am responsible for investigating violations of United States federal law, including, but not limited to Title 18, United States Code, Section 1347 (Health Care Fraud); Title 18, United States Code, Section 1349 (Conspiracy to Commit Health Care Fraud); Title 18, United States Code, Section 371 (Conspiracy to Pay and Receive Kickbacks); Title 42, United States Code, Section 1320a-7b(b) (Paying and Receiving Kickbacks) and 31 U.S.C. § 3729 (False Claims). In connection with investigating these offenses, I have participated in the execution of search warrants for documents and other evidence in cases involving violations of these offenses.

2. As a Special Agent with the FBI my responsibilities include, among other things, effectuating asset forfeitures; analyzing voluminous bank records and other financial

records; preparing comprehensive reports, which have been used to recommend prosecutions for various violations of United States federal laws; overseeing undercover operations; and testifying in the grand jury and open court.

3. The statements in this Declaration are based upon information I have learned during the investigation of the defendants, including, but not limited to information provided to me by Special Agents of the FBI, Health and Human Services-Office of Inspector General, Department of Defense- Office of Inspector General-Defense Criminal Investigative Service, Railroad Retirement Board-Office of Inspector General, and Office of Personnel Management-Office of Inspector General, along with public source and business records, medical records and my experience and background as an FBI Special Agent. I have also obtained information from evidence seized during the execution of duly authorized search warrants on April 22, 2015. This Declaration is being submitted for the purpose of supporting the summary judgment sought by the United States in this matter, and I have not included each and every fact known to me concerning this investigation.

4. On April 22, 2015, FBI Special Agents, along with fellow Task Force Agencies personnel, executed three duly authorized search warrants at the following locations:

    a. 1 Ocean Lane, Units 1, 2 and 3, Palm Beach, FL, the residence of Gary L. Marder ("Marder");
    b. 9580 South Federal Highway, Suite 19, Port St. Lucie, FL, the main office of Allergy Dermatology and Skin Cancer Center, Inc. ("ALLERGY"); and
    c. 202 NE 2nd Street, Suite 2, Okeechobee, FL, the second office of ALLERGY.

5. Additional documents relevant to this case have also been obtained from multiple other sources, including the defendants, the Centers for Medicare and Medicaid

Services ("CMS"), First Coast Service Options, Inc. ("FCSO"), the State of Florida, the United States Department of Defense (regarding the Tricare program) and from the United States Office of Personnel Management (regarding Federal Employee Group Health Plans).

6. The statements made herein are based upon my examination of materials seized during the execution of the search warrants, data reflecting the claims billed by Marder to Medicare, documents received from the other sources described herein, interviews of witnesses, and other public information.

APPOINTMENT BOOKS

7. Multiple appointment books for scheduling patient visits were kept at Marder's offices. There were separate appointment books for the years 2006 through 2015 for each employee that rendered services to patients. Each appointment book contained information indicating the applicable employee.

8. I performed a more detailed review of the appointment books that indicated they were for Marder. The days on which Marder was not physically in one office or the other, could be determined by reference to his appointment books. All of the appointment books contained days on which there no appointments at all scheduled for Marder. On the days with no appointments, some of the appointment books also contained a handwritten notation stating "DM Out" or something similar. An example is attached hereto as Exhibit 1.

9. I prepared a summary of the days on which there were no appointments and the days on which there was a notation of "DM Out" in the appointment books covering the

years 2006 through 2015. The summary is contained in an Excel spreadsheet named Calendar.xls, a printed copy of which is attached hereto as Exhibit 2.

10. A review of the appointment books for 2006 through 2015 indicate Marder was out of the office on more than 50% of all business days. I provided a copy of the spreadsheet calendar to Revenue Cycle, Inc.

COMPLIANCE MANUALS

11. Marder had multiple books in his office that explained how to establish programs to help ensure compliance with health care laws and regulations. A copy of the cover page and table of contents for the 118-page Model Dermatology Compliance Program published by the American Academy of Dermatology is attached as Exhibit 3. A copy of the front and back cover of the OIG Compliance Manual, A Guide for Dermatology Practices is attached as Exhibit 4.

RADIATION EQUIPMENT CONTROLS

12. I personally observed the radiation machine located in Marder's Port St. Lucie office. I have seen photographs taken during the search warrant of the radiation machine in the Okeechobee office. The machines were roughly comparable in size to dental x-ray machines and they were not shielded from the room in which they were located or from other areas of the office. I observed that at the Port St. Lucie office, the controls that would normally be used to adjust the radiation dose for the particular size, type and location of the lesions of the patient being treated were declared off-limits to employees through "do not adjust either of these two dials" and "don't change" signs taped to the machines. Photographs of the radiation machines in his Port St. Lucie

office location are attached hereto as Exhibit 5. Photographs of the radiation machines in his Okeechobee office location are attached hereto as Exhibit 6.

SHIELDS

13. I personally observed the shields used to protect patients during the administration of radiation located in Marder's Port St. Lucie office. I have seen photographs taken during the search warrant of the shields used to protect patients during the administration of radiation located in the Okeechobee office. Photographs of the shields in his Port St. Lucie office location are attached hereto as Exhibit 7. Photographs of the shields in his Port St. Lucie office location are attached hereto as Exhibit 8.

DRIVING DISTANCE

14. Marder's office in Port St. Lucie, Florida is approximately 40 miles driving distance from his office in Okeechobee, Florida.

15. Kendall Medical Laboratory, Inc., ("KML") in Coral Gables, Florida, is approximately 130 miles driving distance from Marder's offices in Port St. Lucie, Florida.

FAKE DOCUMENT RESPOSITORY

16. During the execution of the search warrant at Marder's primary clinic in Port St. Lucie, hundreds of pages of pre-printed, mostly blank forms already containing signatures or initials of Marder and medical physicist Farhad Kader ("Kader") were located.

17. One folder contained almost 100 pages of pre-signed blank forms, including dozens of bits and pieces of forms containing signatures and initials of Marder or Kader, but no other patient information. A copy of those documents are attached hereto as Exhibit 9.

18. Two additional folders were found which contained dozens of pages of different versions of blank forms that already contained signatures or initials of Marder and Kader. One folder was labeled as "1 set Port St. Lucie" and "Port St. Lucie patients." A copy of those documents are attached hereto as Exhibit 10. The other folder was labeled as "1 set Okeechobee" and "Okeechobee pts." A copy of those documents are attached hereto as Exhibit 11.

19. Two other forms pre-printed with handwritten notes referencing radiation treatments were also located. There were hundreds of copies of each of these forms. There were no patient information or dates of services on these forms. A representative copy of each of those documents are attached hereto as Exhibits 12 and13, respectively.

PATHOLOGY

20. I performed a search of the Florida Sunbiz database for references to Marder Medical Laboratory and Gary I. Marder Medical Laboratory. The Florida Sunbiz database is a publicly available online database maintained by the State of Florida containing current and historical information regarding all Florida registered corporations, trademarks, limited partnerships, limited liability companies, fictitious names, general partnerships and limited liability partnerships. I found no listing for either Marder Medical Laboratory or Gary I. Marder Medical Laboratory. The State of Florida has no record of any entity using those names having any independent legal existence as a corporation, limited liability corporation, partnership or sole proprietorship, and of

those names being licensed as a trademark or fictitious name under which anyone does business.

21. In the course of the investigation of this case, I have seen many hundreds of the final pathology reports located in the medical records of Marder. There were an extremely small number of reports on the letterhead of KML, and these seemed to occur when KML referred the specimens out to another laboratory for a consult. Every other pathology report was on the letterhead of Gary L. Marder, D.O. Medical Lab and contained what appeared to be a digital signature of Marder or a stamp of Marder's signature.

22. In addition, although the exact wording varied over time, the pathology reports included a printed statement indicating that the Technical Component ("TC") services, to include such items on the pathology report as the gross description, slide preparation and block storage, were rendered by KML. There was no corresponding statement that the Professional Component ("PC") services, mainly the microscopic diagnosis section, were also rendered by Kendall and not by Marder, or that Marder's signature was on the report even though he had not performed any of the services (PC or TC) reflected on the report. Representative copies of those pathology reports are attached hereto as Exhibit 14.

23. Kendall provided a discounted service for the TC work that was performed for Marder's biopsies. According to the invoices from KML, Marder was billed $12.50 per slide for the TC work performed by KML. Occasionally there would be additional fees associated with the TC work, which included certain staining and slide preparation steps that were necessary for specific specimens. These specimens would

have the normal $12.50 slide fee, along with the additional fees placed on the invoices. See Exhibit 23 for a sample of TC charges billed to Marder for services performed on March 21, 2013 and March 22, 2103. As listed on this invoice across from the specific name of the "Patient" and the "CPT code" of 88305, the "Serv ID" of GX depicted the gross examinations and number of slides produced for that specimen. When that GX number is multiplied by $12.50 (the cost of the discounted service), the sum was tallied in the "Amount" column. It is also noted that three of the samples required a separate staining technique, however, on this particular invoice; the additional fee was billed at $0.00. Medicare claims data shows that Marder was paid approximately $55 to $80 per slide from Medicare for each claim he billed for pathology services using CPT Code 88305. In total, Marder was paid $ 2,829,231.13 by Medicare for pathology services rendered between January 2008 through September 2014. Marder paid Kendall a total of $1,479,566.53 for all services rendered by KML for the same time period. The $1,349,664.60 difference between these two figures represents part of the "kickback" received by Marder. Due to the fact that the $2,829,231.13 only covers the amount paid by the Medicare program and that Marder accepted other programs and secondary insurance carriers such as Tricare, Federal Employees Health Benefits Program, private insurance patients and self-pay patients to name a few; this "kickback" amount is undervalued. The true "kickback" amount would have to include all of the paid services from all patients who were provided biopsy/pathology services by Marder, to include whatever form of payment (insurance or individual patient payment) that was made to ALLERGY, minus the $ 1,479,566.53 total that was paid to Kendall for all services rendered by KML for the same time period.

DOCUMENTS PRODUCED BY KENDALL

24. In 2010, an attorney provided advice to Marder regarding his business relationship with Kendall via emails. Marder forwarded the e-mails to Kendall.

25. One email forwarded an employment agreement drafted by the attorney which on its face indicated that Kendall would become an employee of Marder. A copy of that e-mail was produced to the United States by Kendall in the course of the litigation and is attached hereto as Exhibit 15.

26. A second e-mail forwarded a lease drafted by the attorney which on its face indicated that Marder was going to lease Kendall's laboratory. A copy of that e-mail was produced to the United States by Kendall in the course of the litigation and is attached hereto as Exhibit 16.

27. The attorney also advised that other steps needed to also be implemented with regard to specification of hours, the volume of work rendered by Kendall for Marder and the nature of the services rendered on the premises of the laboratory. Exhibits 15 and 16.

28. Kendall signed the purported employment agreement in 2010. A copy of an email produced to the United States by Kendall in the course of the litigation is attached hereto as Exhibit 17.

29. The copy of the employment agreement signed by Kendall was not dated. A copy of a fax produced to the United States by Kendall in the course of the litigation is attached hereto as Exhibit 18. The fax shows that Kendall sent a copy of the employment agreement in his possession to Marder.

30. Marder also signed the purported employment document, but backdated it by 10 years to the year 2000. A copy of the document produced to the United States by Marder in the course of the litigation is attached hereto as Exhibit 19.

31. No signed version of the lease agreement was ever located or produced by the defendants to the United States. A copy of the unsigned lease agreement produced to the United States by Marder in the course of the litigation is attached hereto as Exhibit 20.

32. Kendall sent invoices to Marder on a monthly basis to bill him for the Technical Component of the pathology services. A copy of one of those monthly invoices from 2008 is attached hereto as Exhibit 21A. A copy of one of those monthly invoices from 2013 is attached hereto as Exhibit 21B.

33. A summary of all of the invoiced amounts and the payments thereon for 2008 through 2014 was produced to the United States by Kendall in the course of the litigation and is attached hereto as Exhibit 22.

34. The amounts reflected on the monthly summary, Exhibit 22, can be matched to the amounts on the monthly invoices. Exhibit 23.

35. Prior to the execution of the employment agreement and commencement of the supposed payment of a salary by Marder to Kendall effective in 2011, Marder paid the amounts reflected on Kendall's monthly invoices by credit card. Copies of several credit card receipts reflecting these payments are attached as Exhibit 24. These receipts were produced to the United States by Kendall in the course of the litigation.

36. Following the execution of the employment agreement and commencement of the supposed payment of a salary by Marder to Kendall effective in 2011, there was no

change in the monthly invoices billed by Kendall to Marder, and Marder continued to pay the amounts reflected on the invoices. See Exhibits 21, 22, 23 and 24.

37. Following the execution of the employment agreement and commencement of the supposed payment of a salary by Marder to Kendall effective in 2011, the amounts owed by Marder to Kendall as reflected on the monthly invoices were paid in part by the credit card previously used and in part by crediting Kendall's entire monthly net "salary" in the amount of $8,333.33. See Exhibit 24.

38. On March 22, 2016, I viewed the website for Marder's practice, which is located at http://www.marderdermatology.com/radiation-therapy#routine. The screen shots attached as Exhibit 25 are true and correct copies of what I observed.

39. Attached hereto as Exhibit 26 is a true and correct copy of an email located on one of Marder's computers in which Marder confirms that he was absent from the United States between December 20, 2013 and January 20, 2014.

40. Attached hereto as Exhibit 30 is a summary of the claims submitted by Medicare to Medicare for those dates of service, and the amounts he billed and was paid for those claims.

MEDICAL RECORDS

41. During the execution of the search warrant, a thorough review was performed to locate medical records relevant to the Medicare beneficiaries for whom Marder billed for radiation services. A small number of additional records not located at the time of the search were later provided to the United States by Marder. All of the beneficiaries in the random sample utilized in this case were among the medical records.

42. I personally reviewed the medical records for all of the beneficiaries in the random sample utilized in this case. I am also generally familiar with the data obtained from Medicare containing the claims billed by Marder which were downloaded into an Excel spreadsheet named Marder Raw Data.xls. That claims data was retrieved from a system maintained by Medicare for use in the ordinary course of business for the business purpose of operating the Medicare Program. The date is made available to law enforcement through a system known as One PI. The computer file "Marder Raw Data.xls" was provided to RCI to use in connection with its medical review.

43. My review of the medical records revealed that in the large majority of cases, there was no documentation at all of numerous services, especially the services billed in connection with the radiation services using CPT Codes in the 77xxx series. Also, in the cases where there was documentation of the radiation services, it was found to be all photocopied documents with no original signatures in the original patient file, or the documents appear to have been altered.

44. The medical charts (corresponding to all billed dates of service) obtained from Marder for many of the 44 beneficiaries in the random sample were largely complete, but only partials charts were obtained for a few of the sample.

45. My review of the medical charts revealed that the administration of the actual radiation treatments was tracked on a standard form titled "Tumor Dose Record" ("TDR") which was a four-page, folded document printed on cardstock. When the form was unfolded, the two inside pages constituted one large, 17-inch wide by 11-inch high form for tracking radiation treatments which contained columns for each treated lesion and rows for providing details of each application of radiation to a lesion. At the far

right of the form, there were dedicated columns for the signatures of a medical physicist and medical doctor when appropriate. There were also designated places on the form for other information regarding the identity of the patient and the details of the treatment such as the dosage, use of shields, etc.

46. In most cases, the charts included a document identifiable as the original TDR because it was on the four-page, folded document printed on cardstock and contained information written in ink, or was the older version of the document utilized before 2008. In total, the charts contained a total of approximately 132 original versions of the TDR. Every original TDR was missing some information, including the following items:

    a. the prescribed radiation regimen,
    b. the size of the "cone" utilized on the machine,
    c. daily radiation doses,
    d. cumulative radiation doses,
    e. an accurate indication of the time of day of the first daily radiation dose,
    f. time of day of the second daily radiation dose,
    g. physician signatures,
    h. medical physicist signatures,
    i. whether or not a shield was used, or its type.

47. In very few cases, the comments and observations regarding the treatment, side effects, etc. appeared to be filled in by the employee writing the date of treatment and initialing each date of service. However, in most cases, this column was also blank on the original TDR.

48. In some cases, in addition to the original TDR, the medical charts also contained one or more photocopies of the TDR. The documents were identifiable as photocopies because they were not on the fold-out card stock form. Instead, the 17-inch by 11-inch

form was copied onto two letter sized 8.5 inch by 11-inch pieces of paper which contained no information written in ink.

49. With respect to the services for which there was **no** photocopied TDR, there was no separate documentation of the services billed using CPT Codes 77280, 77332, 77334 or 77336. As for CPT Codes 77300 and 77427, there was only one original TDR (two separate patients for one round of radiation) in which the billed services had the supplemental documentation for the CPT codes.

50. On several occasions, a form labeled as being documentation for 77261 was located in the file. However, these forms were "templates" where the only information that varied was the patient's identifiers, the location for the radiation treatment and the date of service. In fact, the "additional orders" section contained verbatim language for each patient, regardless of the site of radiation, to include "decrease to 1 cm cone due to tumor shrinkage" instructions. Most of these forms also contained a photocopied signature for Dr. Marder.

DOCUMENTS FOUND TOGETHER WITH PHOTOCOPIED TDRs

51. In contrast, with respect to the services for which there was a photocopied TDR, the charts were very different.

52. For the services with a photocopied TDR, often the chart contained an "attestation letter" addressed to Medicare, signed by Marder attesting under civil and criminal penalty that the enclosed documents had been prepared in the course of treatment personally rendered by him. A representative copy of the attestation letter is attached as Exhibit 27.

53. The photocopied TDRs did not match the original version that was still located within the file. Instead, it contained substantially more information than the original, including:

    a. purported initials of Marder and the medical physicist on multiple dates,
    b. daily and cumulative dose information; and
    c. comments regarding the treatment, side effects, etc.

54. A representative copy of a photocopied TDR is attached as Exhibit 28 and a copy of the original version of that same TDR is attached as Exhibit 29.

55. For the services with a photocopied TDR, the charts also contained numerous other pages purporting to document the billed services.

56. For example, for CPT Codes 77261, 77280, 77300 and 77332, there were usually entire pages for each lesion for each billed date of service. Thus, if there were four lesions reflected as having been treated on the TDR, often there would be four separate pages relating to 77261, four for 77280, four for 77300 and four more for 77332. Representative copies of the documents relating to 77261, 77280, 77300 and 77332 are attached hereto as Exhibits 31, 32, 33, and 34, respectively.

57. From the representative sample, no supplemental documentation was found for CPT Code 77334.

58. The documents relating to 77261 always indicated that "due to tumor shrinkage" occurring part way through the course of treatment, the radiation was being revised upward from 25 to 40 treatments. See Exhibit 31 for a representative sample of the documents.

59. For CPT Code 77300, there was often a second set of forms corresponding to the date on which the treatment was supposedly revised upward from 25 to 40 treatments,

apparently to reflect new dosage calculations. See Exhibit 33 for a representative sample of the documents.

60. For CPT Codes 77336 and 77427, there would also be an entire page for each lesion, but these documents would cover all of the applicable dates of service, usually five. Representative copies of the documents relating to77336 and 77427 are attached hereto as Exhibits 35 and 36, respectively.

61. In many files there was also a two page document containing a narrative which, in part, described a meeting with the patient regarding the treatment. The date of this document always corresponds to the first date of treatment. At the end of this document, it always stated "I now prescribe 40 treatments - 2 treatments per day for 20 days at 130 rads with a total dose of 5200 rads." These documents contained undated copies of Marder's signature.

62. Except for the date and name of the patient, and the location and size of the lesions, these narrative reports contain identical language. A representative copy of a narrative report is attached hereto as Exhibit 37.

63. The radiation treatment reflected on the two-page narrative always indicates that 40 treatments are being ordered as of the first date of treatment. This information contradicts information on the documentation of 77261 which indicated that as of the first date of treatment only 25 services were ordered, and the modification to 40 treatments did not occur until midway through the treatment "due to tumor shrinkage." Compare Exhibit 31 to Exhibit 37.

64. My review of the documents found in connection with the services reflected on the photocopied TDRs also revealed that the initials of Marder and the medical physicist

on 25 of the 38 letter-size photocopies of the Tumor Dose Records were exactly identical, including the dust spots copied on each page. These initials were on the second page of each of these photocopied TDRs. 11 more of the photocopied TDRs only had an initial of Marder, and did not contain any initial for a medical physicist. Attached hereto as Exhibit 38 is a composite exhibit of the second page of the 38 TDRs, to include the 25 that contain the identical initials and the 11 others that only contained Marder's initials. Two TDRs had a second page to the report; therefore Exhibit 38 has 40 pages of signatures.

65. In addition, the 25 identical sets of initials also exactly matched a strip of paper found in a folder located in Marder's in-house billing office at the direction of Marder. A copy of that strip of paper is attached hereto as Exhibit 39.

66. Two of Marder's employees at the time the case was filed admitted to me that they were tasked with creating the photocopied Tumor Dose Records by adding the additional information and then cutting and pasting the initials from the strip of paper. They also admitted to me that they were tasked with generating the documents relating to CPT Codes 77261, 77280, 77300, 77332, 77336 and 77427.

Pursuant to Title 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct and is based upon my personal knowledge this 25 day of March, 2016, in West Palm Beach, FL.

By: Wende E. Bardfeld

SEARCH WARRANT EXECUTED

American Academy of Dermatology

Model Dermatology Compliance Program

"When fraud is discovered, both the Department of Justice and my office look at the entity to see if reasonable efforts have been made by management to avoid and detect any misbehavior that occurs within their operations. We use this analysis to determine the levels of sanctions, penalties and exclusions that will be imposed upon the provider. To my knowledge, this is the first time the Government is revealing the elements upon which we base those judgements."

June Gibbs Brown,
Inspector General

DISCLAIMER

1. The information contained in this manual has been developed as an educational resource and reference manual, and is not intended to be legal or accounting advice. Individual practices should consult with legal counsel and other experts in developing their own compliance program.
2. The model compliance program and forms provided herein are samples, and will not be appropriate for every practice. The sample compliance plan and other material must be adapted to the particular facts and circumstances of each physician practice and will vary depending upon a variety of factors, such as size and financial state of the practice, the nature of its referral relationships, or whether the practice is affiliated with a hospital or university.
3. This manual only addresses compliance with federal fraud and abuse laws. It does not address numerous other state or federal laws and regulations affecting dermatology practices.
4. Every effort has been made to represent information that is current and accurate. The content of this material has not been endorsed or approved by any government agency or the American Academy of Dermatology.
5. Users are advised that this manual does not replace or supersede local or national Medicare policy disseminated in the monthly Medicare carrier bulletins or other official transmittals. It also does not replace billing policies and guidelines established by managed care organizations or other insurance companies or account for variations between carriers, insurance companies or managed care organizations. The user should always consult with the local contracted entity to obtain final interpretations regarding billing rules and regulations.
6. This material is based on information available from Congress and federal Medicare authorities at the time of publication. Further communications by the government or Medicare carriers may render portions of this material out of date. Because the laws and regulations in this area are constantly changing, practitioners must keep themselves informed of changes on an ongoing basis.
7. The publisher and the American Academy of Dermatology disclaim any liability arising out of the use of this manual or for any adverse outcome from the application of this information for any reason, including but not limited to the reader's misunderstandings or misinterpretations of the information contained within this manual. The information provided in this manual should not serve as a substitute for consulting with an attorney or other experts.

INTRODUCTION

This manual is an important tool to assist you in your effort to comply with Medicare and third party payors to avoid or reduce potential fines and sanctions.

Though at this time the implementation of a Dermatology Compliance Program in your office is voluntary, in an open letter to health care providers dated 3-3-97 from June Gibbs Brown, Inspector General, the following statement was made:

> *"When fraud is discovered, both the Department of Justice and my office look at the entity to see if reasonable efforts have been made by management to avoid and detect any misbehavior that occurs within their operations. We use this analysis to determine the level of sanctions, penalties, and exclusions that will be imposed upon the provider."*

The presence of a compliance program, demonstratively executed and maintained, could mean the difference between an advisory "cease", a slap on the wrist, a minor payback, or severe penalties, fines, and sanctions.

DEFINITIONS

Fraud is defined by the Health Care Financing Administration as "Knowingly and willfully executing, or attempting to execute, a scheme or artifice against the Medicare program."

Abuse is defined by the Health Care Financing Administration as "Unknowingly defrauding the Medicare program by gaining payment for items or services when there is no legal entitlement to the payment," and "Failing to meet professionally recognized standards of care, or failing to provide medically necessary services for Medicare patients."

MEDICARE COMPLIANCE vs. DERMATOLOGY COMPLIANCE

Many of you will notice that the Compliance Program you have received is no longer referred to as the ***Medicare Compliance Program.*** It is simply referred to as the ***Dermatology Compliance Program.***

Many physicians are under the incorrect impression that they are only liable under the Medicare program for fraud and abuse. The belief that only Medicare can fine, sanction and/or imprison offenders of the system is a far cry from the truth. Medicare is working together with the private insurance industry to reduce (and hopefully eliminate) fraud and abuse by providers of care. Under the Health Insurance Portability and Accountability Act (HIPAA), the Office of the Inspector General (OIG) has made available to all third party payers the same resources utilized by Medicare to identify fraud and abuse and punish offenders.

HIPAA requires the Secretary of Health and Human Services (HHS) to promulgate standards to comply with administrative simplification provisions of the law to improve Medicare and Medicaid programs, and the efficiency and effectiveness of the health care system.

By implementing a National Provider Identifier, carriers will be able to share data. Fined and/or sanctioned providers can be readily identified by any carrier; not just Medicare or Medicaid. Medicare and the private carriers already share software that can identify unbundling. Other proposed rules are in the workings to make the insurance industry as a whole more aware of fraud and abuse.

This Compliance Program, when properly implemented and monitored, will assure that your practice is not only compliant with federal programs but with all third-party carriers who pay for your medical claims.

DOCUMENTING YOUR COMPLIANCE PROGRAM

This manual is intended to serve as a guide to developing your own internal Dermatology Compliance Program. It is intended that you photocopy the forms and policies in this manual and incorporate them into your own Compliance Manual. We suggest using a 3-ring binder divided according to the sections of this manual.

This program is only as effective as your willingness to develop, record, and document your efforts. An auditor is only willing to look at documented facts. Verbal acknowledgment of compliance efforts is not acceptable in the eyes of an auditor. Compliance is very simple... follow the steps outlined in this manual, and document, document, document!

©1999, Inga Ellzey Practice Group, Inc.

I. PURPOSE and SCOPE:

Effective Date:___/___/___

A. The purpose of this Dermatology Compliance Program is to:

1. Assure that all persons associated with this medical entity in which health care is provided to the Medicare beneficiary are dedicated to complying with all Medicare rules and regulations in order to avoid waste, fraud, and abuse.
2. Provide officers and employees of this entity accurate and timely information regarding the rules and regulations of the Medicare program.
3. Assure that information is assimilated and understood by the appropriate departments and individuals.
4. Set forth the mechanism of early discovery of errors, omissions, or misconduct so that the issue can be investigated, understood, and appropriately corrected.
5. Provide all persons associated with this health-care entity a mechanism through which to report any conduct or billing practice seen that is suspect of violations, and to do so anonymously and without fear of reprisal.

B. The scope of this Dermatology Compliance Program includes:

1. All principals, officers, licensed and certified health care providers (Physicians, Physician Assistants, Registered Nurses, Licensed Vocational Nurses, Certified Medical Assistants, Histotechnologists), ancillary staff, billing and insurance staff, office staff, and any other individual who conducts business under the umbrella of this organization shall be subject to this program.

II. COMPLIANCE OFFICER

Effective Date:___/___/___

This health care delivery facility will designate a person to serve as Compliance Officer. This person shall be:

A. an individual hired for the specific position of Compliance Officer, or

B. a person who fills other roles in the office, such as the:

1. Surgical Supervisor
2. Office Manager
3. Billing Supervisor
4. Clinical Supervisor
5. Physician
6. Office Administrator

A Committee could be established to work with the Compliance Officer if the practice size necessitates more extensive involvement.

C. The Compliance Officer/Committee:

1. Shall have a direct responsibility and open access to the governing body of this organization.
2. Shall maintain a roster of every employee covered under the scope of this policy. The roster includes:

   a. name
   b. identification number (Social Security Number)
   c. dates of employment
   d. signature and initials

3. Shall establish and maintain reliable sources of information regarding Medicare rules and regulations.
4. Shall provide and document education and training of all persons covered under the scope of this policy regarding rules and regulations of the Medicare program.
5. Shall maintain a record that documents communication, education, and training of Medicare rules and regulations, especially as they pertain to waste, fraud, and abuse for each person covered under the scope of this policy.
6. Shall maintain an open door policy to all persons covered under the scope of this policy.

Job Description - Compliance Officer

A. Reports directly to the governing body of this organization.

B. Has direct access to the governing body:

1. for reporting the state of the Dermatology Compliance Program;
2. for direction and guidance regarding any compliance issue or policy manual procedural changes;
3. for problem solving; and
4. for development of corrective action processes.

C. The Compliance Officer Is empowered by the governing body of this organization with authority to perform the following responsibilities.

1. Develop and distribute all written policies regarding Compliance; material(s) developed for distribution must be understandable. Materials must be translated into appropriate language if needed.

2. To oversee the Dermatology Compliance Program, the Compliance Officer is responsible for:

   a. receiving, understanding, and retaining pertinent information communicated in all bulletins from Medicare, HCFA, OIG, or other federal entity;
   b. distributing all information to appropriate person(s);
   c. overseeing any manager or supervisor to whom the responsibility of direct education of others has been delegated;
   d. keeping records of educational sessions, employee testing, attendance and conferences; and
   e. initiating corrective action regarding infractions discovered or learned with the appropriate individual or department.

3. To achieve and maintain compliance in all areas through:

   a. education
   b. monitoring
   c. communication
   d. appropriate and effective compliance plans

Model Dermatology Compliance Program

D. Has "Open Door Policy" that affords any and every employee:

1. Open access to report/discuss any issue regarding compliance.

   a. Employee is assured complete anonymity.
   b. Employee is assured immunity against retribution, assuming that they are not responsible for the violation.
   c. Employee is assured corrective action if errors or misconduct is discovered.

E. Will interview with employees regarding:

   1. their need for further education,
   2. their compliance with policies, and
   3. "the Open Door Policy."

F. Monitors all supervisors activity as it relates to Compliance.

G. Develops corrective mechanisms when errors or misunderstandings are discovered.

H. Develops and implements educational programs as outlined in Section IV of this manual.

I. Maintains approved revisions to the policy manual.

J. Responsible for baseline testing of all employees on the following schedule:

1. at beginning of program,
2. within 30 days of their employment for new recruits,
3. yearly thereafter, and
4. at any time special education is needed.

K. Responsible for Medical Record Audits

1. 20 medical records per provider will be evaluated quarterly.
2. Match documentation with the codes selected that represent the service provided and determine appropriateness of selection.
3. Evaluate record to ascertain the service(s) provided were:

   a. medically necessary,
   b. coded properly, and
   c. documented properly.

©1999, Inga Ellzey Practice Group, Inc.

4. Accompany the provider of care to witness procedures performed in order to ascertain the code(s) selected not only is documented in the medical record correctly, but fairly represents the procedure performed.

   a. Advise providers of deficiencies or inaccuracies:

      (1) in writing, and
      (2) in conference.

   b. Educate providers in area of deficiencies, inaccuracies, misunderstandings.
   c. Monitor providers to ascertain correct application of remedial education and compliance to rules and regulations.
   d. Take appropriate action if deficiencies, inaccuracies, misunderstandings are not corrected.

5. The following tools are available and advised to facilitate and increase knowledge and competency in the areas of compliance issues such as medical necessity, and avoidance of waste, fraud, and abuse.

   a. _____

   b. _____

   c. _____

   d. _____

   e. _____

   f. _____

   g. _____

L. Responsible for maintaining a record on each employee covered under the scope of this program containing proof of:

1. completion of baseline testing,
2. continuing education,
3. counseling sessions,
4. conferences, and
5. evaluation of the compliance process.

Model Dermatology Compliance Program

M. Responsible for maintaining records regarding:

1. meetings with any provider,
2. meetings with the governing body, and
3. minutes of all compliance meetings/sessions.

N. Responsible for maintaining:

1. records that apply to any questionable behavior or misconduct of any person under the scope of this policy; and
2. records regarding any investigation of any compliance issue.

O. Compliance Program maintenance:

1. Elements of the Compliance Program must be reviewed and updated quarterly.
2. Risk assessment should be performed quarterly.
3. Results of quarterly analysis should be reviewed with staff.

    a. Deficiencies should be reported and appropriate steps should be outlined to correct the problems.
    b. Staff and physicians that are not in compliance or are marginal in their understanding of policies need to be retrained. Record the deficiencies and the steps taken to correct them.

CONFIDENTIALITY POLICY

Information in the medical record of the patient is private and is provided by the patient in trust to the physician. Patients must have the assurance that information entrusted to the physician will be shared only with persons to whom the patient has authorized.

To insure patients that this health care entity is aware of the patients trust, their right to privacy, and to insure their privacy is protected, all persons covered under the scope of this program are required to sign the following statement.

The employee's signature indicates that they understand their responsibility and will honor the patients right to privacy.

CONFIDENTIALITY STATEMENT

I understand and agree that in the performance of my duties as an employee of _____, I must hold medical information in confidence. I understand that any violation of the confidentiality of medical information may result in punitive action.

III. RISK ASSESSMENT

The following duties are to be completed by the Compliance Officer upon implementation of the Compliance Program and quarterly thereafter.

A. Overall evaluation of the company:

1. Evaluate billing processes.
2. Evaluate human resources.

   a. Are you in compliance with local, State, and federal regulations regarding discrimination, harassment, etc?
   b. Are your employees eligible to bill for Medicare? Medicare publishes a list of physicians and individuals who are excluded from interacting with Medicare (i.e., providing or billing for services). Lists of excluded employees can be checked on the internet.

      http://www.dhhs.gov/progorg/oig/cumsan/index.htm

3. Computers and software:

   a. Are your systems Y2K compliant?
   b. Is your billing program compliant with current CPT and ICD-9 coding procedures?
   c. Are your fee schedules current?

4. Evaluate joint ventures and business relationships:

   a. Are you in potential violation of any Stark regulations?

B. Survey key people involved in the Compliance Program:

1. Are they aware and do they understand the key elements of the Compliance Program?
2. Give benchmark test (first 3 months). See "Test" Section of this manual.
3. Retest annually.
4. Be sure they understand the importance of maintaining compliance oriented policies and procedures.

C. Review Policies and Procedures:

1. claims submission process
2. credit balances (patient)
3. integrity of data systems

4. retention of records
5. review contracts
6. overpayment

D. Medical Record Audit (see Section VI of this manual):

E. Review and record licensure and certifications:

1. coders
2. billers
3. doctors
4. CLIA certification
5. business license
6. facility license
7. Medicare and Medicaid provider numbers

F. Perform a confidentiality survey:

1. Have all of the staff members who are exposed to confidential patient information signed a statement of confidentiality?

2. Are electronic records and information secured with a password?

   a. Are checks and balances in place to eliminate embezzlement? Be sure that your system does not allow cash payments to be reverse posted and eliminated from the system.

3. Record retention and storage:

   a. Records must be stored for a minimum of 7 years.
   b. Obsolete (records with no activity for at least 7 years) may be stored off-site, archived electronically, or destroyed.

      (1) Records that are destroyed should be disposed of via a method that preserves confidentiality (i.e., burned, or shredded).
      (2) Obtain a receipt certifying the destruction method and the date the records were destroyed.

   c. Check your state medical society for state regulations regarding record retention.

G. Record the results of your risk assessment

1. Create a record of your initial and quarterly assessments, deficiencies noted, and steps taken to correct the problems.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology

IV. EDUCATION AND TRAINING

Effective Date: ___/___/___

The intention of this organization is to comply with the rules and regulations of the Medicare program. Education and training of the staff who deals with Medicare in delivering, billing, and/or reporting health services will be provided to all persons covered under the scope of this program.

Understanding of and compliance to the rules and regulations of Medicare is a requirement for continued employment.

This entity accepts responsibility for the initial training and continuing education of compliance and will offer to its employees, at no cost, the opportunity to maintain and elevate their knowledge of the Medicare program.

Failure of an employee to comply with this program and its guidelines will result in their termination.

Education will be accomplished by:

A. A baseline test of rules and regulations of the Medicare program regarding policies, medical necessity, billing, ICD-9, and CPT coding policies that are appropriate to the position and function, will be administered.

(Baseline test is in the "Test" section of this manual.)

B. Education will be provided to any employee who demonstrates a deficiency in any area tested.

C. Continuing education will be offered in the following manner:

1. Employees are required to attend all meetings held by Compliance Officer:

a. within 30 day of employment,
b. 4 times per year (quarterly),

(1) Medicare Part B changes in rules and regulations from carrier will be discussed.
(2) Information from private newsletters will be discussed.
(3) Any special bulletins or communications from the Medicare Part B carrier, HCFA (Health Care Financing Administration), or the OIG (Office of the Inspector General) will be presented.

c. anytime required.

©1999, Inga Ellzey Practice Group, Inc.

2. Employees identified by the Compliance Officer will be required to attend meeting presented by the Medicare carrier.
3. The presence of at least one resource person with special training and expertise in CPT and ICD-9 coding in both the clinical department and the Insurance/Billing department to act as a day-to-day resource for that department.
4. All physicians, PA's, NP's, and any other persons who are involved with the coding and documentation of services to the Medicare patient must demonstrate competency in CPT and ICD-9 coding by:

    a. taking the baseline test;
    b. accepting remedial education if needed;
    c. passing the baseline test after remedial education, if needed; and
    d. enrolling in educational programs as directed by Compliance Officer.

D. Yearly training will be provided to each employee under the scope of this policy regarding the rules and regulations of compliance.

E. Training of new or revised rules will be conducted as soon as the rule or change is known.

F. A record will be maintained by the Compliance Officer to demonstrate all training sessions provided by the facility for its providers of care.

1. A master record listing all programs offered and/or required will be maintained by the Compliance Officer that shall include:

    a. subject of program,
    b. persons attending or completing,
    c. date offered, and the
    d. name and credential of presenter.

2. Every person under the scope of this program will have a file in which will be kept:

    a. baseline test results;
    b. all counseling session dates, the subject, the content, the agreements and/or the directions; and
    c. evidence of attendance to any/all educational programs the provider may attend outside the facility.

3. All employee records under the scope of this program will be stored in a locked storage device.

4. Records of educational programs attended will be released only after authorization of provider.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

G. Persons covered under the scope of this policy will provide the Compliance Officer documentation that illustrates their attendance to any course or seminar outside this facility to become a part of their record.

H. Counseling will be given to any person who, in the opinion of their supervisors or the Compliance Officer, has failed to meet any policy requirements.

©1999, Inga Ellzey Practice Group, Inc.

Medicare Baseline Test

All persons covered under the scope of the Dermatology Compliance Program of this facility and any candidate for employment must complete the Medicare Baseline Test.

The test is used to determine, not just the current knowledge of the testee, but to identify areas where education and/or training is needed to bring employees or new employees to a high degree of knowledge regarding the Medicare health care system.

The test score is not, in itself, a disqualifying agent for continued employment or employment.

The baseline test appears in the "Test" section of this manual.

CRITIQUE OF PRESENTATION

Name of Program or Subject _____ Date ___/___/___

Please indicate by checking Yes or No to give an accurate indication of your response to the questions below.

1. Was material presented useful to you in the performance of your duties?
   ❑ Yes ❑ No
2. Was the material presented in a clear and understandable manner?
   ❑ Yes ❑ No
3. Was written material distributed for your information along with the spoken material?
   ❑ Yes ❑ No
4. Were you given resources for needed information?
   ❑ Yes ❑ No
5. Were questions from the attendee's responded to appropriately?
   ❑ Yes ❑ No
6. Were you given sufficient time to ask questions?
   ❑ Yes ❑ No
7. How would you rate the manner in which the material was presented?
   1 2 3 4 5 (1=Poor, 5=Excellent)
8. Please give us your suggestions on ways we can improve this presentation.

Support Material

The following products are available from The Inga Ellzey Practice Group, Inc. Products can be ordered by calling **1-888-434-4374.**

These products have been developed to assist you in compliance with the complicated rules and regulations of, not only the Medicare program, but the ever more complex managed care and commercial insurance environment.

1. Dermatology Coding Correspondence Course

The Dermatology Coding Correspondence Course is the first national certification course designed to educate and test individuals involved in claims processing and billing on how to correctly and completely code for dermatologic services. From the basics of modifiers to Medicare's new Correct Coding Initiative, this course is designed so that staff and/or providers can understand the nuances of dermatologic coding.

The course is designed around the *Complete Coder Plus*. Approximately once each week, or at the students own pace, the student will study a single topic and then be tested on the areas through the use of True/False and multiple choice questions. Many of the questions are clinical samples challenging the student as to how that visit's services should be coded. Test answers can also be submitted via the Internet!

The cost of the Dermatology Coding Correspondence Course includes all study materials, the 14 chapter tests, and course support. Once the student has completed and successfully passed the tests for all 14 chapters, they will be eligible for the final certification exam. Since not every individual who signs up for the course will complete all 14 chapters, the cost of the final certification exam is not included in the correspondence course cost.

Upon successful completion of the course, the student will be nationally certified by the Inga Ellzey Dermatology Institute as a Dermatology Coder and be eligible for 30 Category I CEUs. A handsome certificate will be mailed to newly certified coders. The certification is good for two years.

2. i.e., Newsletter and Fax service

Over half of all private practicing dermatologists and their staff in the U.S. keep informed by reading ***i.e.,*** Subscribe now and keep up with documentation criteria, Medicare updates, evaluation and management (E/M) services, managed care interaction, and integumentary procedural coding for flaps, excisions, repairs, I&Ds, and much more. ***i.e.***, is published six times per year.

©1999, Inga Ellzey Practice Group, Inc.

3. The Complete Coder Office Suite

We've *combined* our most requested products, the **Complete Coder Plus** (CPT) and **Complete Coder ICD-9** into one complete easy to use reference manual. The Complete Coder Office Suite is also available on CD-ROM for Windows compatible computers to view, search, and print the pages, just as they appear in the printed manual.

New to the Office Suite are...

- ICD-9 Numeric Listing
- Procedure postop day listings
- RVU listings
- Numeric ICD-9 code listings
- Over 50 different office forms

4. The Complete Medicare Handbook

Tired of the complex world of Medicare regulations? Having trouble interpreting the complex and ever changing rules? Are you up to date for '99? The solution is here!

This is the only book available anywhere that condenses the hard-to-understand language of the government (Health Care Financing Administration - HCFA) into easy-to-understand language. For the various Medicare regulations, the manual cites the rule, summarizes the rule into plain English, and provides simple to understand examples. The manual covers almost 100 topics affecting the specialty of dermatology.

5. The Correct Coding Initiative

Can you correctly use the -59 modifier and do you know when the modifier is not necessary to avoid overuse audits? We've taken the Integumentary section from HCFA's Correct Coding Initiative and have produced a dermatology specific version which takes the guesswork out of understanding the ever-changing rules of the Correct Coding Initiative. We give a detailed explanation of every regulation pertaining to Dermatology with examples on completing the HCFA-1500 form. The 137-page manual also includes a complete listing of the comprehensive and mutually exclusive coding edits for codes 10000-19999. This product is available as a one-time purchase or subscribe to our annual update service and automatically be updated with the newest rules!

©1999, Inga Ellzey Practice Group, Inc.

V. POLICIES AND PROCEDURES

Effective Date: ___/___/___

A. Standards of Conduct

All persons under the scope of this program are:

1. Committed to avoid waste, abuse, and fraud of any federally funded program, especially Medicare.
2. Provided information enabling them to recognize waste, abuse, and/or fraudulent practices.
3. Expected to report any suspect practices to the Compliance Officer, anonymously if they so desire, and without fear of reprisal and/or retribution.

B. Medical Necessity

All persons under the scope of this program and when performing in their position shall:

1. Meet Medical Necessity Guidelines as defined by Medicare when providing a service to the Medicare beneficiary for which Medicare will be billed.
2. Be able to provide documentation to support the medical necessity of any services rendered to the Medicare beneficiary for which Medicare will be billed, including, but not necessarily limited to:

    a. diagnosis,
    b. progress notes,
    c. laboratory reports,
    d. operative reports, and
    e. other documents.

3. Forms:

    Appropriate forms that communicate information regarding the delivery of health care to the Medicare beneficiary accurately and completely are essential tools.

    This health care entity will have:

    a. lifetime authorization signature form for Medicare and Medigap,
    b. patient registration form (including signature authorization), when appropriate, and
    c. progress note form.

©1999, Inga Ellzey Practice Group, Inc.

d. Others when appropriate:

(1) pathology report
(2) operative report
(3) laboratory report
(4) waiver-of-liability form

4. Storage of Documents

Documents shall be stored in an organized system that assures these standards.

a. Medical record

The medical record of the patient will be:

(1) Clearly labeled with identification of the patient.
(2) Protected by a hard cover unless electronic.
(3) Stored in an organized filing system.
(4) Maintained and protected according to standard rules for maintenance as governed by American Health Information and Management Association (AHIMA), Joint Commision on Accreditation of Healthcare Organizations (JCAHO), and/or American Hospital Association (AHA).

(Contact your local hospital, Medical Records division for guidance if needed.)

b. Confidentiality

(1) A statement of confidentiality shall govern the release of medical information consistent with locally accepted standards to assure compliance with the Privacy Information Act of 1974.

(a) All persons covered under the scope of this program will honor the right of the patient to the confidentiality of the contents of his/her medical record.
(b) All persons covered under the scope of this program will sign a statement indicating their understanding of confidentiality and their commitment to hold in confidence all information that may be learned regarding the patient and their medical condition.

c. Retrieval

Any person responsible for storage and retrieval of documents will be able to locate the appropriate document on request and upon proper authorization.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Elizey Practice Group, Inc.

5. Notice to Patients

Medicare's requirement of providers to deliver only medically necessary care will be distributed to the Medicare beneficiary through all of the following methods:

a. Upon the initial patient encounter, in writing.
b. Yearly to the established patient, in writing.
c. Statement will be posted on an informational bulletin board in patient's waiting area.
d. Waiver of Liability.

(1) Will be explained to the Medicare beneficiary prior to performance of any procedure or service that is considered (or may be considered) by Medicare to be medically not necessary.
(2) Patient will be told why it is believed that Medicare considers (or will consider) the service to be not medically necessary.
(3) Form must indicate the procedure code, diagnosis code, and date of service for the service provided.
(4) Patient, if they choose to accept the financial responsibility, will sign Waiver of Liability.
(5) Staff member will witness signature of patient.
(6) Staff member will sign the Waiver of Liability document as witness.
(7) Waiver of Liability document(s) will be stored:

___ Alpha by year ___ Patient Medical Record
___ Alpha mo./yr. ___ Patient Computer Record

6. Notice to Health Care Providers, Officers, Staff

Compliance Officer will communicate information regarding medical necessity to the appropriate health delivery providers, always in writing and/or face to face, when appropriate:

a. at yearly meetings,
b. any time new information is communicated by Medicare, or
c. any time any Medicare compliance issue is raised to the Compliance Officer.

7. All meetings and all written communication will be documented in the records of the Compliance Officer, and when deemed necessary, in the employee folder of health care provider.

©1999, Inga Ellzey Practice Group, Inc.

8. Acknowledgement of Responsibility for Adherence to Program and Policy Guidelines:

All persons covered under the scope of this Compliance Policy will be required to:

a. Sign on all minutes of any/all meetings indicating both their presence at the meeting and their understanding of the information therein communicated.
b. Sign a Dermatology Compliance Program signature sheet acknowledging they have read the Program Manual and accept and understand its contents.

9. Monitoring

The Compliance Officer will monitor medical necessity compliance issues in the following manner:

a. Tools:

(1) Computer generated Productivity/Procedure Reports
(2) Medical Record Components
(3) Encounter Forms
(4) Explanation of Medical Benefits
(5) Medical Record Survey Sheets

b. Quarterly audits of 20 medical record encounters for each provider of health care who submits charges to Medicare .
c. The following will be monitored on a rotating basis each quarter for medical necessity and accuracy in documentation:

(1) Evaluation and Management services, biopsy, and laboratory services,
(2) destruction of all type lesions and appropriate pathology,
(3) removal of lesions and appropriate pathology, and
(4) repairs and appropriate pathology.

d. Compliance will be determined by a survey sheet for each procedure or service type.
e. Survey sheets will be examined and a report prepared for each provider of service.
f. The Compliance Officer will deliver the report with a copy of survey sheets to each provider.
g. A conference will be held with each provider to ascertain his/her understanding of the evaluation, suggestions for improvement, compliance with Dermatology Compliance Program.
h. A conference will be documented and documentation stored in Compliance Officer's files and in the file of the provider, if appropriate.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

C. Billing

All providers, coders, and billing personnel covered under the scope of this policy are responsible to demonstrate their competency to select codes that appropriately represent the service provided to all patients.

- ICD-9 (International Classification of Diseases)
- CPT (Physicians Current Procedural Terminology)
- HCPCS (Health Care Financing Administration Common Procedural Coding System)

1. All providers and staff must take an examination to demonstrate, within 30 days of their employment:

   a. baseline knowledge level regarding ICD-9 and CPT coding, and
   b. baseline level of competency regarding the rules and regulations of the Medicare program upon beginning their association with this health care facility.

2. All providers and staff are required to:

   a. Attend a local Medicare seminar at least one time per year.
   b. Read all Medicare bulletins and communications.

      (1) Bulletin will be received by employee with pertinent information highlighted.
      (2) Bulletin will have a signature sheet attached, and an order in which the information is to be passed.
      (3) Employee's signature on the sheet indicates the highlighted information has been read, understood, and the intention of the staff to comply with the information.

   c. Attend all meetings scheduled with Compliance Officer.
   d. Take action to increase competency upon direction of the Compliance Officer.
   e. Participate in periodic review of Explanations of Benefits from the Medicare carrier with the Compliance Officer.

©1999, Inga Ellzey Practice Group, Inc.

D. Standing Orders

When services are performed under the standing order of providers in this health care facility (e.g., PUVA or allergy injections):

1. Prior to the initiation of course of therapy, the physician must clearly determine:

   a. the number of treatments to be performed,
   b. the treatment parameters,
   c. the time interval during and/or between treatment,
   d. the rules for exceptions in the time and/or interval as stated in the treatment parameters, and
   e. the circumstances under which the physician must see the patient prior to treatment being performed.

2. The physician must indicate time at which the patient must be seen for reevaluation during the course of treatment.
3. The reevaluation appointment will be made prior to beginning new or revised treatment series.
4. The physician must know that the diagnosis for which treatment is being prescribed is a covered service under the Medicare program.

   a. If not covered, the patient must be advised that the treatment will be considered medically unnecessary by the Medicare carrier and therefore a noncovered service.
   b. If not covered, the patient shall sign the Waiver of Liability after appropriate explanation by the provider prior to the provision of any treatment.

E. Compliance with Fraud Alerts

This health care entity shall make public any communication from the Office of the Inspector General, HCFA, and/or from their Medicare Carrier regarding fraud.

This health care facility will:

1. Communicate all notices received by:

   a. posting communications in the appropriate area, and

      (I.D. Area Here) _____

   b. including communications in the Compliance Officer meeting.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

2. All persons covered under the scope of this policy will:

   a. Be responsible to read any/all communications made available whether written or oral.
   b. Indicate their understanding of the communication by their signature on the communication, signature sheet or other roster/log.
   c. Discuss with the Compliance Officer any lack of understanding.
   d. Report to the Compliance Officer any observation of policy or practice that exists in this facility that appears or is suspect to be in violation of Medicare rules and regulations.

3. Any person who brings an issue of suspected violation of Medicare rules and regulations to the attention of the Compliance Officer may do anonymously (if desired) and without fear of reprisal.

F. Marketing

1. This health care facility, in marketing services to the Medicare beneficiary, shall clearly indicate:

   a. the participation status of the health care provider(s):

      (1) participating or
      (2) nonparticipating, and

   b. when any service marketed or advertised does not meet the medical necessity requirements of Medicare.

2. This health care facility will not represent a service as medically necessary when in the opinion of the health care provider, it does not meet Medicare's criteria of medical necessity.

3. This health care facility, its principals, officers, and health care providers will accept no remuneration, paybacks, or other incentive; nor will it split fees with any entity what so ever to which or from which Medicare beneficiaries may be referred.

G. Compliance to the Dermatology Compliance Program

Through the implementation of all policies outlined in this manual the principals of this health care facility assure that:

1. All persons under the scope of this program shall be expected to fully comply with the program policies.
2. The Compliance Officer shall be able to demonstrate that all persons under the scope of this policy are tested, informed, educated, and monitored.

©1999, Inga Ellzey Practice Group, Inc.

3. Competency and understanding must be demonstrable to the Compliance Officer.
4. The Compliance Officer shall be able to demonstrate to the appropriate party (director, manager, BOD) their own compliance and competency.
5. The Compliance Officer shall have the authority to perform evaluations, bring about discipline, and/or terminate employment of any individual(s) under the scope of this program who fail to comply with the requirements of this health care facility's Dermatology Compliance Program.

H. Protocol for a visit by a federal agent

1. Calmly and politely ask to see identification and write all the information down.
2. The Compliance Officer should inform the agent that you wish to contact your attorney. Ask, don't demand. A demand can be construed as obstruction.
3. Contact your attorney. It is recommended that you contact an attorney that specializes in medical fraud and abuse.
4. Do not answer any questions until your attorney is present.

    a. Do not impede the collection of documents by the agent. It is reasonable to request to have time to copy the requested documents.
    b. It is preferable to wait to turn over documents until your attorney is present.

CONFIDENTIALITY POLICY

Information in the medical record of the patient is private and is provided by the patient in trust to the physician. Patients must have the assurance that information entrusted to the physician will be shared only with persons to whom the patient has authorized.

To insure patients that this health care entity is aware of the patients trust, their right to privacy, and to insure their privacy is protected, all persons covered under the scope of this program are required to sign the following statement.

The employee's signature indicates that they understand their responsibility and will honor the patients right to privacy.

CONFIDENTIALITY STATEMENT

I understand and agree that in the performance of my duties as an employee of _____, I must hold medical information in confidence. I understand that any violation of the confidentiality of medical information may result in punitive action.

_____ ___/___/___

Signature of Employee **Date**

NOTICE TO MEDICARE PATIENTS

The providers of care in this facility have made a commitment to the Medicare Program and to you as our patients.

We assure you that our providers will deliver to you medical care of the highest quality possible.

We will abide by the Medicare rules and regulations in the delivery of care.

As physician(s) contracted with your Medicare program to provide services to the Medicare patient, only services that are defined as medically necessary can be charged to the Medicare Program.

When services are requested that are not defined as medically necessary, we will advise you in writing why Medicare considers the service to be noncovered. This will be done prior to your decision to schedule the procedure.

The cost of the procedure will be discussed with you prior to your determination to schedule the procedure to be performed. The payment for the procedure will be solely your responsibility. We will not bill any medically unnecessary procedure to your Medicare carrier or any other insurance entity.

We are committed to you and to the Medicare Program to bill for services provided to you accurately and timely.

Should we fail to fulfill your expectations we will appreciate your speaking to us about your concerns. We can only serve you and meet your expectation if you let us know your needs.

Should any person in this facility fail to address your concerns you are requested to report that failure to the Compliance Officer whose name and phone number is listed below.

_____ _____

Compliance Officer **Phone**

VI. MONITORING AND AUDITING

Effective Date:___/___/___

The Compliance Officer will conduct audits that will enable errors, omissions, and misunderstanding to be discovered and corrective action to be taken at the earliest possible time.

A. Areas to be Audited/Monitored

1. Billing and Coding

   a. The Compliance Officer will regularly conduct audits of the billing process to ascertain that billing practices are appropriate both to Medicare and to the Medicare insured.
   b. Physicians and any other person who provides services to the Medicare insured will be monitored for correctness of code selection by comparing progress notes with the codes selected.

2. Medical Record Audits

   a. The Compliance Officer will regularly conduct audits of the medical records created by each provider of care for:

      (1) medical necessity,
      (2) accuracy of code selection,
      (3) accuracy of documentation, and
      (4) condition of the medical record.

3. Explanation of Benefits

   a. Compliance Officer will examine the EOB's for :

      (1) messages from the carrier,
      (2) denials,
      (3) unbundling,
      (4) correct use of modifiers,
      (5) corrective action taken,
      (6) accuracy in coding,
      (7) correctness of charges and payments, and
      (8) incidence of duplicate claims submission.

©1999, Inga Ellzey Practice Group, Inc.

4. Procedure Analysis

   a. The Compliance Officer will examine the procedure analysis for:

      (1) over utilization,
      (2) under utilization, and
      (3) bundling of procedures.

5. Circulation of Educational Material

   a. The Compliance Officer will initiate the circulation of all information to be distributed.
   b. Information may be posted, circulated, and/or verbally communicated.
   c. Persons under the scope of this policy are responsible to read and understand information presented.
   d. Signature sheets must be signed by person(s) to whom information was circulated.
   e. A signature on the signature sheet indicates understanding of the material presented by the signee.

6. Fee Schedule

   Compliance Officer will ascertain that:

   a. The Medicare carrier is being charged properly for all services provided to its beneficiaries.
   b. Copayments and deductibles are appropriately collected.
   c. Refunds are issued in a timely fashion.
   d. The reason for refunds will be investigated so that over-collection can be avoided.
   e. The Medicare beneficiary is not charged for services and supplies which are bundled into other services.

7. Dermatology Compliance Program

   The Compliance Officer will periodically monitor the efficacy of the Dermatology Compliance Program. This will be accomplished by:

   a. Conducting quarterly surveys of the Dermatology Compliance Program to ascertain it is achieving its purpose.
   b. Conducting quarterly surveys of personnel records of all persons covered under the scope of the Dermatology Compliance Program to ascertain they have complied with its requirements.
   c. Evaluate survey tools to identify weaknesses that prevent or compromise the efficacy of the program.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

B. Corrective Action

The Compliance Officer will take the appropriate measures when weaknesses/deficiencies/aberrant behavior are discovered:

1. Any person in error will be counseled.

   a. All counseling sessions will be documented.
   b. Person(s) counseled will be provided education and information regarding the correction of their error.
   c. Person(s) counseled will indicate:

      (1) their understanding of the reason for the counseling session,
      (2) the error or omission made,
      (3) the correct procedure (policy) and
      (4) their willingness and intention to comply.

   d. The person counseled will affix their signature to the Compliance Counseling Conference sheet indicating their understanding and intention to comply.

2. The Compliance Officer shall monitor the counseled employee to assure that the error has been corrected.

3. Yearly, or at any time rules and regulations of Medicare dictates, the monitoring survey tools and The Compliance Counseling Conference sheet:

   a. Will be considered for revision by the governing body and the Compliance Officer.
   b. Any revision will be put in writing.
   c. Any revision will be communicated to persons under the scope of this policy through appropriate channels.
   d. Any revision will be incorporated into policy manual if required.
   e. Any rule replaced or revised will be retained for reference.

C. Documentation of Audits and Monitoring Efforts

The Compliance Officer shall maintain a detailed record of survey and monitoring tools, conferences, counseling sessions, educational sessions, errors discovered and corrective actions taken.

1. The record and reports will be in writing.
2. A summary of all activities will be stored in the master record kept by the Compliance Officer.
3. All records will be stored in individual(s) folder if appropriate.
4. All records will be stored in the custody of Compliance Officer under lock and key.
5. **Elements on survey and monitoring tools that are required for documentation will be identified by an asterisk.**

EVALUATION AND MANAGEMENT SERVICE SURVEY
(99201-99215, 99241-99275, 99301-99333)

1. Is the medical record identified by:

   a. Patient Name ❑ Yes ❑ No
   b. Date of Service ❑ Yes ❑ No

2. Chief Complaint ❑ Yes ❑ No

   a. Number of CC's _____
   b. Was CC stated concisely? ❑ Yes ❑ No

3. Number of HPI factors: _____

4. ROS:

   ❑ Skin (Integumentary):
   ❑ Constitutional:
   ❑ Eyes:
   ❑ ENT & Mouth:
   ❑ Cardiovascular:
   ❑ Respiratory:
   ❑ Gastrointestinal:
   ❑ Genitourinary:
   ❑ Musculoskeletal:
   ❑ Neurologic:
   ❑ Psychiatric:
   ❑ Endocrine:
   ❑ Hematologic/Lymph:
   ❑ Allergy/Immuno:

   a. Number of Systems Reviewed _____
   b. Are systems reviewed pertinent to CC? ❑ Yes ❑ No
   c. Are ROS findings stated properly? ❑ Yes ❑ No

5. Family History ❑ Yes ❑ No
   Medical History ❑ Yes ❑ No
   Social History ❑ Yes ❑ No

   a. Number of history factors stated: _____ of three

6. Physician Examination: (System/Body Area Examination)

   Constitutional: (any three) B/P (sit or stand)____ B/P Supine_____
   Temperature:_____ Ht:_____ Wt:_____
   Pulse, rate, and regularity:_____ Resp:_____
   General appearance:_____ Skin type:_____

   Ears, Nose, Mouth &Throat: Inspection lips, teeth, and gums ❑ Yes ❑ No

E/M SERVICE SURVEY (Continued)

Body Area Examination *(based on proposed June 1999 E/M guidelines)*:

❑ Yes ❑ No	Examination of hair of scalp, eyebrows, face, chest, pubic area (when indicated) and/or extremities	Hair quantity, type, color, distribution, loss pattern
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of the scalp	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, scar(s), dermatitis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of face	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, scar(s), dermatitis
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of eyelid	Color, lesion(s), mole(s), birthmark(s), dermatitis, xanthelasma
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of ears	Lesion(s), moles(s), chondrodermatitis nodules, cyst(s), seborrheic dermatitis, venous lakes
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of lips and/or oral mucosa	Color, lesion(s), mole(s), actinic or angular cheilitis, leukoplakia, venous lakes
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of neck	Color, texture, lesion(s), mole(s), tag(s)
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of chest, including breasts and/or axillae	Color, texture, lesion(s), mole(s), birthmark(s), Hyperhidrosis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of abdomen	Color, texture, lesion(s), mole(s), rashes
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of external genitalia	Color, texture, lesion(s), dermatitis, exudate, atrophy, cyst(s), condyloma
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of groin, and/or buttocks	Color, texture, lesion(s), mole(s), rashes, hyperhidrosis, chromhidroses, bromhidrosis, pressure sores
❑ Yes ❑ No	Examination of anus and perineum	Color, texture, condyloma, skin tag(s), dermatitis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of back	Color, texture, lesion(s), mole(s), rashes
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of right upper extremity	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, dermatitis, dermatoses, hyperhidrosis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of left upper extremity	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, dermatitis, dermatoses, hyperhidrosis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of right lower extremity	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, dermatitis, dermatoses, hyperhidrosis, ulcer(s)
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of left lower extremity	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, dermatitis, dermatoses, hyperhidrosis, ulcer(s)
❑ Yes ❑ No	Examination of fingernails and/or toenails	Dystrophies, mycosis, subungual tumor, infection, hematoma, psoriasis, abnormal curvature, separation or splitting
❑ Yes ❑ No	Other examination (specify) _____

E/M SERVICE SURVEY (Continued)

Body Area Examination *(continued)*:

For patients seen for melanoma or squamous cell cancer follow-up, or lymphoma related problems, other relevant individual examination items might include:

❑ Yes ❑ No	Palpate lymph nodes on neck
❑ Yes ❑ No	Palpate lymph nodes in axillae
❑ Yes ❑ No	Palpate lymph nodes in groin
❑ Yes ❑ No	Palpation of liver
❑ Yes ❑ No	Palpation of spleen

For some patients, notation of mood and affect (e.g., depression or anxiety, may be relevant to the skin exam. For others it may be pertinent to document vital signs (e.g., a preoperative evaluation). The guiding principle about what to document is whether an item is clinically relevant.

❑ Yes ❑ No	Notation of mood and affect
❑ Yes ❑ No	Vital signs

Number of body areas/organ systems examined _____

7. Medical Decision:

Diagnosis:_____ Differential Diagnosis:_____ Clinical Impression:_____

For established patients, does record show:

a. ❑ improved ❑ worsening ❑ well controlled ❑ resolving ❑ resolved
b. OTC or prescription drugs ordered? ❑ Yes ❑ No
c. Treatment ordered? ❑ Yes ❑ No
d. Lab or Pathology reviewed ❑ Yes ❑ No
e. Are treatment options, risks discussed? ❑ Yes ❑ No

8. Was this E/M performed on the same day as a procedure? ❑ Yes ❑ No

9. Was the E/M performed within the global period of another procedure? ❑ Yes ❑ No

10. If so, is the E/M "significant and separately identifiable" ❑ Yes ❑ No

11. If so, was a modifier used? ❑ Yes ❑ No

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology

(any other anatomical site biopsy code)

1.* Is the medical record identified by:

a. Patient name? ❑ Yes ❑ No
b. Date of service? ❑ Yes ❑ No

2.* Is location of lesion shown? ❑ Yes ❑ No

3. Is lesion measurement documented? ❑ Yes ❑ No

4.* Is medical necessity stated or inferred for the procedure? ❑ Yes ❑ No

5. Is technique documented? ❑ Yes ❑ No

6.* What is the diagnosis documented? _____

7. Is the diagnosis documented consistent with the diagnosis billed? ❑ Yes ❑ No

8. Is the procedure billed consistent with the documentation? ❑ Yes ❑ No

9.* Was the number of biopsies charged documented In the medical record? ❑ Yes ❑ No

10* Is the pathology report documented and present in the medical record? ❑ Yes ❑ No

Optional:

10. Was the skin prep documented? ❑ Yes ❑ No

11. Is anesthesia type stated? ❑ Yes ❑ No

12. Is repair stated, if any? ❑ Yes ❑ No

13. Is hemostasis method stated? ❑ Yes ❑ No

14. Is dressing type stated? ❑ Yes ❑ No

15. Are postsurgical care instructions stated as given? ❑ Yes ❑ No

16. Is a time for return given? ❑ Yes ❑ No

MOHS' MICROGRAPHIC SURGERY
17304-17310

1.* Is the medical record identified by:

a. Patient's name? ❑ Yes ❑ No
b. Date of service? ❑ Yes ❑ No

2.* Is there a path report to show the malignant nature of the lesion? ❑ Yes ❑ No

3. Is the location of the lesion documented? ❑ Yes ❑ No

4. Is the size of the lesion documented in cm's (diameter)? ❑ Yes ❑ No

5. Is the type of anesthesia noted? ❑ Yes ❑ No

6.* Is the procedure described properly? ❑ Yes ❑ No

7. Is the type of hemostasis noted? ❑ Yes ❑ No

8. Is there more than one lesion treated? ❑ Yes ❑ No

a. Is each destruction documented separately? ❑ Yes ❑ No

9. Is the dressing type stated? ❑ Yes ❑ No

10. Were postoperative instructions indicated as given? ❑ Yes ❑ No

11.* Are all stages charged for each lesion documented? ❑ Yes ❑ No

12. Are specimens over 5 documented if charged? ❑ Yes ❑ No

13.* Was the number of specimens correctly determined? ❑ Yes ❑ No

MEDICARE VIOLATION NOTICE

Date: ___/___/___

It is my concern that the following procedure or practice is in violation of the Medicare rules and regulations. I have described in detail below my understanding of the practice/procedure I believe to be in error. Additionally, I have identified individuals whom I believe to be committing the error.

I understand that I am not to sign this notice or identify myself in any way. I further understand that I am assured anonymity and protection from reprisal should my identity be discovered.

VII. CORRECTIVE ACTION

Effective Date: ___/___/___

When a reason for suspicion of misconduct is discovered the following action(s) will be taken:

A. Investigation

1. A prompt investigation by the Compliance Officer and/or others in management shall be initiated so that it can be determined whether a material violation has occurred.
2. The investigation may include interviews with persons covered under the scope of this program.
3. The investigation may include the examination of medical records, billing, coding, and documentation.
4. If the presence of the person suspected of material violations compromises the investigation, that person may be removed from the work assignment until the investigation is completed.
5. The integrity of any record(s) involved in an investigation will be retained by the Compliance Officer (or Risk Manager, if that position is present in the organization) under lock and key.

B. Reporting

If the governing body receives credible evidence of misconduct from any source and, after appropriate investigation, has established reasonable grounds to ascertain that a material violation did in fact occur, and that action violated either civil law, criminal law, or the rules and regulations governing federally funded health care programs, the governing body shall:

1. Notify the Office of the Inspector General (OIG) within 60 days of discovery.

   a. Identify your region from HHS Region Map at the end of this section.
   b. Refer to the appropriate Region sheet after the map in this section.
   c. The Office of Inspector General appears in each location with names and phone numbers of key personnel listed.

   (The names and numbers of personnel listed are subject to change.)

2. Department of Health and Human Services web site - http://www.hhs.gov/

3. The OIG shall be provided with any/all evidence collected or reported from any source.

   a. Address to contact HHS officials:

      The U.S. Department of Health and Human Services
      200 Independence Avenue, S.W.
      Washington, D.C. 20201

   b. Phone Number to contact officials of HHS:

      202-619-0257

4. The investigation should continue to conclusion.

5. The result of the internal investigation, upon completion, will be reported to the OIG.

C. Restitution

If investigation reveals that misconduct in fact did occur, the following action will be taken:

1. The facility recognizes that it has no right to retain any overpayment from a federal health care program.

2. Overpayments will be refunded promptly to:

   a. the Medicare program or third-party payor from which an overpayment was received, or
   b. the patient if the overpayment was received from the patient.

VIII. DISCIPLINE

Effective Date: ___/___/___

A. Employee Under Investigation

1. If, in the opinion of the Compliance Officer or supervisor, the presence of the employee under investigation may be a deterent to the investigation, the employee will be reassigned out of the area in question until the investigation has been concluded.
2. If the investigation leads to evidence that the employee has committed misconduct or fraud, the employee may be put on leave of absence until the conclusion of the investigation by both the facility and the Office of the Inspector General and the Justice Department.

B. Employee Found Guilty of Misconduct

1. Any suspected misconduct found to be upheld after appropriate investigation will result in the termination of the employment of the guilty employee.
2. Any employee separated from this facility for reason of misconduct, fraud or abuse of the Medicare program cannot expect a favorable reference, regardless of the efficiency with which they performed in any particular position.
3. Any entity inquiring for reference of an employee who has been separated from employment with this facility will be advised of the violation of this Compliance Policy.

C. Hiring Policy

1. Any applicant who has been guilty of misconduct at another facility will not be considered for employment.
2. Any applicant who was separated from this facility for reason of misconduct will not be considered for reemployment.

D. Retribution

1. Payback to Medicare in the form of overpayments, fines, sanctions for any abuse or fraudulent behavior will be made by the provider who committed the violation.

Medicare Baseline Test

All persons covered under the scope of the Dermatology Compliance Program of this facility and any candidate for employment must complete the Medicare Baseline Test.

The test is used to determine, not just the current knowledge of the testee, but to identify areas where education and/or training is needed to bring employees or new employees to a high degree of knowledge regarding the Medicare health care system.

The test score is not, in itself, a disqualifying agent for continued employment or employment.

Medicare Baseline Test

Name of Testing Person _____ Date test taken ___/___/___

Multiple Choice (Please circle the letter indicating the correct response)

1. What is the annual Medicare Part B deductible?

   a. $100.00
   b. $75.00
   c. $300.00
   d. None of the above.

2. A participating Medicare provider is one who:

   a. Does not see Medicare patients.
   b. Sees Medicare patients, but collects from the patient directly and does not bill the Medicare program.
   c. Can choose to accept assignment on claims whenever he/she chooses.
   d. None of the above.

3. A participating Medicare provider may:

   a. Charge whatever he/she wants on the Medicare claim.
   b. Collect the 20% copayment and deductible from the patient at the time of service.
   c. File to Medicare electronically.
   d. All of the above.

4. The Medicare patient must sign a form giving the provider permission to:

   a. Bill the Medicare program for surgical supplies.
   b. Release medical information to the Medicare carrier and assign Medicare benefits to the provider who files an assigned claim.
   c. Collect the entire bill from the patient at the time of service.
   d. None of the above.

5. For clinical laboratory services the Medicare provider:

   a. Must accept assignment and accept the payment from Medicare as payment in full for the lab service.
   b. Cannot collect the 20% or the copayment.
   c. Cannot collect the annual deductible.
   d. All of the above.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Elizey Practice Group, Inc.

Medicare Baseline Test (continued)

6. If a Medicare patient has Medicare as a primary insurance and Medicaid as a secondary insurance and the provider does not participate in the Medicaid program, he/she must:

   a. Accept assignment on both Medicare and Medicaid.
   b. Accept assignment on the Medicare portion only and balance bill the Medicaid patient.
   c. Accept assignment only if he/she is a participating provider in Medicare.
   d. None of the above.

7. A provider must obtain a proper signature on file in order to submit claims for services provided to a Medicare patient:

   a. At least one time per year.
   b. Once every 5 years.
   c. Once for every 25 claims submitted.
   d. One signature is good for the lifetime unless the patient revokes the signature.

8. A provider can change his/her participation status:

   a. Every December.
   b. Any time he/she wants with a written 90-day notice to Medicare.
   c. One time every three years.
   d. None of the above.

9. Under the Medicare "Incident to" provision, a staff member:

   a. Can perform services which will be billed to Medicare if the doctor has written the order for the treatment in the chart within the last 30 days.
   b. Can perform services which will be billed to Medicare if the doctor is present in the office and available to assist if needed.
   c. Cannot perform services to the Medicare patient unless the physician is physically present in the room with the patient.
   d. Can perform services to the Medicare patient only if they are an R.N. or L.P.N.

10. A participating provider renders a service to a Medicare patient who has Medicare and a Medigap secondary policy through their spouses' employment. To file a claim for services rendered you must:

    a. File a nonassigned claim to the second policy first.
    b. File an assigned claim to the Medicare carrier .
    c. Collect the entire amount from the patient at the time and then file to both insurance plans.
    d. None of the above.

©1999, Inga Ellzey Practice Group, Inc.

Medicare Baseline Test (continued)

11. If the provider files to Medigap for a Medicare patient:

    a. The signature on file for Medicare is also sufficient to file Medigap claims.
    b. A separate signature on file must be obtained to file Medigap claims.
    c. Medigap claims processing does not require a signature.
    d. None of the above.

12. If two doctors routinely cover for one another and both are Medicare participating providers, the doctor who is covering and provided services should:

    a. Bill for the services he/she provided under their own provider number.
    b. Do not bill. The regular provider will bill for the services provided by the covering physician as if he/she had personally provided the services.
    c. Bill for the services of the other doctor using the other physician's provider number, but with a modifier.
    d. None of the above.

13. Medicare uses the current year CPT book as a source for codes that identify the services provided by physicians.

    a. CPT stands for Current Procedure Terminology.
    b. CPT is published every other year by the AMA.
    c. CPT represents the diagnosis codes.
    d. All of the above.

14. The ICD-9 book is the book in which:

    a. Diagnosis codes are listed and defined.
    b. Procedure codes are listed and defined.
    c. Drugs are listed and described .
    d. None of the above.

15. The –59 modifier is used to unbundle:

    a. Certain unrelated services performed on the same date of service by the same physician.
    b. All unrelated services performed on the same date of service.
    c. Certain unrelated services performed in the postoperative period.
    d. All unrelated services performed in the postoperative period.

Model Dermatology Compliance Program

Medicare Baseline Test (continued)

16. In order to obtain a group number from Medicare:

    a. There must be at least two doctors in the practice, legally joined.
    b. There must be at least three doctors in the practice, legally joined.
    c. The group must be incorporated.
    d. None of the above.

17. The Correct Coding Initiative (Comprehensive Component Table and The Mutually Exclusive Table) are updated (revised):

    a. Once a year.
    b. Once a month.
    c. Twice a year.
    d. Quarterly.

18. In the Correct Coding Initiative tables, the codes appearing in Column II or in the "Component Column":

    a. Can never be billed.
    b. Can only be billed with a –59 modifier.
    c. Can only be billed with a –59 if it is unrelated to the Comprehensive Code or the code in Column I.
    d. Can only be billed if an operative report is submitted with the claim.

19. The -GA modifier means that:

    a. You are providing a medically unnecessary service to the Medicare patient and have informed the patient by explaining that situation to them and having them sign a "Waiver of Liability" form.
    b. The patient has been advised that they have not met their deductible.
    c. Medicare HMO now covers the service.
    d. None of the above.

20. If a nonparticipating provider performs surgical services in excess of $500.00 for a single service:

    a. The provider must accept assignment on the claim.
    b. The claim must be filed on paper with an operative report attached.
    c. A written estimate must be provided to the patient indicating how much the "out of pocket" money they must anticipate spending.
    d. All of the above.

©1999, Inga Ellzey Practice Group, Inc.

Medicare Baseline Test (continued)

21. As of 1-1-98, the provider can bill for an intermediate repair (layer closure) when a separate layer of deeper tissue was closed in addition to the epidermis if:

    a. Fascial tissue is repaired.
    b. At least 10 "deeper" stitches were taken.
    c. The lesion excised was benign and is at least 6 mm in diameter or malignant.
    d. All of the above.

22. The Medicare patient receives a service from a participating provider for which he is charged $150.00. The patient has not met their Medicare deductible for the calendar year. Medicare's approved amount for the service is $87.77. How much are you allowed to collect from the patient at the time of service?

    a. $100.00
    b. $ 87.77
    c. $ 62.23
    d. $150.00

23. The participating physician provides a service to the Medicare patient for which he/she charges $150.00. Medicare allows $87.77. The patient has met their deductible. What amount of money can be collected from the Medicare patient at the time of service?

    a. $150.00
    b. $ 87.77
    c. $ 17.55
    d. None of the above.

24. The physician can automatically write off the Medicare patient's copayment if :

    a. The patient is a close personal friend.
    b. The patient is a physician.
    c. The patient is a close relative.
    d. None of the above.

Medicare Baseline Test (continued)

True False Questions:

The following questions are True or False. Please circle the correct response.

1.	T	F	A new patient is one who has had no professional services for a period of three years.
2.	T	F	The suffix "A" behind the Medicare beneficiary's 9-digit Social Security Number on the Medicare card means the patient is a male.
3.	T	F	The place of service designator for doctor's office is "21".
4.	T	F	A Skilled Nursing Facility (SNF) is the same thing as a Nursing Home.
5.	T	F	A provider of care must accept Medigap if the patient has this type of coverage.
6.	T	F	Medicare never pays for surgical trays.
7.	T	F	If medically necessary, Medicare will approve an intermediate (layered closure) in addition to the excision.
8.	T	F	A patient was seen by the physician as a new patient on 1-1-94. On 3-3-96 they received a prescription refill by phone. When the physician saw the patient on 3-3-97 they were considered as a new patient.
9.	T	F	A physician can file for reimbursement for dressing supplies to Medicare Part B.
10.	T	F	Durable Medical Equipment claims are billed to the local Medicare carrier.
11.	T	F	A provider can purchase the technical component of the pathology service (e.g., the slide preparation). He/she can only mark up the cost charged to him/her by the preparing lab by 10%.

©1999, Inga Ellzey Practice Group, Inc.

Medicare Baseline Test (continued)

12. T F If Medicare denies a claim, the first step to take in an effort to have the denial reversed is to have the claim reviewed.

13. T F The "J" codes are HCPCS codes for billing Medicare for drugs that are "injected" into the patient during treatment in the office.

14. T F If an excision is performed and the wound is repaired with a flap, both the excision and the flap can be billed as long as the –59 modifier is attached to the flap.

15. T F If a provider is not paid properly the first step is to request a Review. The second step is called a "Hearing."

16. T F Medigap is a program Medicare offers to participating physicians wherein a claim is automatically transferred by the carrier to a secondary insurance that covers the "patient's part" of Medicare approved services.

17. T F All secondary/supplemental plans are Medigap plans because they fill the "gap" between what Medicare pays and what the patient owes.

18. T F Medicare does not pay for CPT code 99025, initial visit performed on the same date as a starred procedure.

19. T F Services beginning with an "8" must be filed with the UPIN or Payer ID number entered on the claim form indicating the "requesting physician" for a referred service.

20. T F Medicare will pay for the physician to see a patient in a Skilled Nursing Facility, one visit per day, but will only allow one visit per month in a Nursing Home.

21. T F A repair after Mohs' surgery can be performed on the same day as Mohs and is exempt from the multiple surgery rules.

22. T F The cost of medication injected into the patient by subcutaneous, intramuscular, or intralesional injections can be recovered by billing the appropriate J Code for the medication and its dosage.

Fill in the Blank

1. An inpatient consultation (CPT codes 99251-99255) can be charged _____ time(s) per admission.

2. In order to bill a 99203, _____ areas of the body (minimally) must be examined.

3. The only Evaluation and Management service which can be billed when the physician does not personally see the patient, but is present in the facility and seen by the assistant to the physician, is CPT code_____.

4. The three key components in documenting an Evaluation and Management services are History, Physical Examination, and _____.

5. For new patients, all _____ of the key components of evaluation and management service must be met.

6. For established patients, any _____ of the _____ key components of Evaluation and Management services must be met.

7. _____is the place of service designator for a service provided to a patient who is an inpatient in the hospital.

8. When greater than 50% of the physician to patient face-to-face time in Evaluation and Management is spent in counseling, the level of the visit can be based on _____.

9. When the physician has advised the patient the service may not be covered, and the patient is expected to assume the financial liability, the patient should be asked to sign a _____form.

10. The patient part of the approved amount for most services provided in physician's offices is _____%.

11. The surgeon performing Mohs' also acts as the _____ in that he/she reads the slides prepared from the tissue removed and makes the judgement of whether or not the diseased tissue has been completely removed.

12. Participating providers must accept _____ for covered services they provide to the Medicare patient.

13. Nonparticipating Medicare providers can collect from Medicare at the time of service up to the _____ _____.

14. All clinical laboratory services provided to the Medicare patient are approved at _____%.

Medicare Assignment

What does **"accept assignment"** mean?

The doctor has a **"charge"** for each service.
Medicare has an **"approved amount"** for each service. (The approved amount is the most they will pay for any given service.)

The doctor must "write-off" the difference between his/her "charge" and Medicare's "approved amount."

Medicare pays the doctor 80% of the "approved amount."

The patient is responsible to pay 20% of the "approved amount" and any unmet deductible to the doctor.

Example:

Charge	$100.00
Medicare Approved	80.00
Doctor Write-Off	20.00
Medicare Approved	80.00
Medicare Pays 80%	64.00
Patient Pays 20%	$16.00

Payment for your 20% and any unmet deductible is required at the time of service. If you have secondary insurance that pays some or all of the 20% copayment and deductible, ask the doctor if they will file to your secondary carrier.

Explanation of Medicare Patient Responsibility for Nonparticipating Physicians

The doctor is a nonparticipating provider of services to the Medicare insured patient in the Medicare program.

This means that the doctor will:

1. File a claim to Medicare for you, so that Medicare will pay you directly.

2. The doctor will limit charges for Medicare patients for services rendered to the limiting charge amount provided by your Medicare carrier. This charge is slightly higher than the Medicare approved amount. (The approved amount is the most Medicare will pay for any given service to a participating doctor.)

Example:

Medicare Limiting Charge ---------- $115.00
Patient Pays Limiting Charge ---------- $115.00

Medicare Approved Amount ---------- $100.00
Medicare Pays Patient 80% ---------- $80.00

The difference between the Limiting Charge and the Medicare approved amount is the patient's responsibility. You may bill your secondary insurance for the difference in what Medicare paid and the actual amount you paid your doctor.

OVERPAYMENT FORM

Date: ___/___/___

Provider of care: _____ Provider Number: _____

Patient: _____

Medicare/Insurance provider number: _____

Date of service: _____

Amount overpaid: _____

Reason for overpayment: _____

_____

_____

_____

_____

We are attaching a check in the amount of _____ which represents an overpayment for the above patient.

Attached is a copy of the EOMB which includes the ICN (Internal Control Number). This should assist you in correctly crediting this account.

Thank you,

Insurance Clerk

Answer questions below by placing a check in the appropriate column:

YES	NO	
❑	❑	Have you recently joined a Medicare HMO? If yes, identify: _____
❑	❑	Do you or your spouse work in a company which has more than 20 employees and have coverage through the insurance at that job?
❑	❑	Are you covered by a HMO/PPO which makes Medicare secondary?
❑	❑	Is this illness covered by the VA (Veteran's Administration)?
❑	❑	Is this illness covered by the Federal Black Lung or End-Stage Renal Disease Program?
❑	❑	Is this illness due to an automobile accident?
❑	❑	Is this illness due to an injury at work?
❑	❑	Are you receiving Medicaid?

- Over -

This office is required to keep your signature on file authorizing us to file claims to Medicare for you and to release information to that payor if they require it for the proper consideration of a claim. Please read and sign the following statement:

I authorize any holder of medical or other information about me to release to the Social Security Administration and Health Care Financing Administration or its intermediaries or carrier any information needed for this or a related Medicare claim. I permit a copy of this authorization to be used in place of the original, and request payment of medical insurance benefits either to myself or the party who accepts assignment. Regulations pertaining to Medicare assignment of benefits apply.

_____ _____

Signature as it appears on Medicare Card Date

If you have a supplemental policy and it is a MEDIGAP policy to which your Medicare Carrier automatically "crosses over," we are required to keep a separate signature on file:

I request authorized MEDIGAP benefits be made on my behalf for any services furnished to me. I authorize any holder of medical information to release to the above MEDIGAP carrier any information needed to determine these benefits or the benefits payable for related services.

_____ _____

Signature as it appears on Medigap Card Date

Do we have your permission to:

Leave a message on your answering machine? ❑ YES ❑ NO

May we call you at work? ❑ YES ❑ NO

Please present your insurance cards and your photo identification to the receptionist. The receptionist will make a copy and return them to you promptly.

Thank you for choosing this office to assist in caring for your skin.

Medicare/Insurance Claim Review

Date: _____/_____/_____ Birth Date: _____/_____/_____

Patient Name: _____

Policy Number: _____ Group Number: _____

Date of Service: _____/_____/_____

Reason for Review:

1. Wrong Code was filed in error by ❑ our insurance clerk, ❑ by your clerk.
   Please replace code _____. The correct code should be _____.
2. Carrier paid incorrectly for Code _____. The correct reimbursement should be $ _____.
3. Wrong date of service was filed in error by ❑ our insurance clerk, ❑ your insurance clerk.
4. Carrier's coder omitted the following charge and code which appeared on the claims submitted:
   Code _____ Charge $ _____
5. ICD-9 Code to justify the service rendered was omitted by our coder. The omitted/correct ICD-9 Code was _____.
6. Visits were denied based on the diagnosis given. Proper Diagnosis code is _____.
7. ❑ Visit: ❑ Procedure: denied as over carrier's utilization limits. Please see attached letter to justify extensions of these limits.
8. Carrier indicated that the patient is covered by another plan that is Primary. This is incorrect. Patient indicates you are Primary.
9. The procedure was denied as medically not necessary. Documentation to support the medical necessity of this service is attached.

Possible Reasons For Denials

1. Medicare usually does not pay for removal/treatment of benign, asymptomatic lesions.
2. Medicare usually does not pay for cosmetic procedures.
3. Medicare usually does not pay for this many visits or treatments.
4. Medicare usually does not pay for this type of equipment.
5. Medicare does not pay for this lab test.
6. Medicare usually does not pay for routine physical examinations, tests or preventative screenings.
7. Medicare usually does not pay for immunizations except in emergencies such as injury or immediate risk of infection or pneumococcal vaccination.
8. Services performed to immediate relatives or members of the household.
9. Medicare does not pay for this treatment because it has not yet been proven effective.

Patient's Name:_____ Medicare # (HICN):_____

ADVANCE BENEFICIARY NOTICE (ABN)

NOTE: You need to make a choice about receiving these health care items or services.

We expect that Medicare will not pay for the item(s) or service(s) that are described below. Medicare does not pay for all of your health care costs. Medicare only pays for covered items and services when Medicare rules are met. The fact that Medicare may not pay for a particular item or service does not mean that you should not receive it. There may be a good reason your doctor recommended it. Right now, in your case, **Medicare probably will not pay for –**

Items or Services:
Because:

The purpose of this form is to help you make an informed choice about whether or not you want to receive these items or services, knowing that you might have to pay for them yourself. Before you make a decision about your options, you should **read this entire notice carefully.**

- Ask us to explain, if you don't understand why Medicare probably won't pay.
- Ask us how much these items or services will cost you (**Estimated Cost: $**_____), in case you have to pay for them yourself or through other insurance.

PLEASE CHOOSE **ONE** OPTION. CHECK **ONE** BOX. **SIGN & DATE** YOUR CHOICE.

O Option 1. YES. I want to receive these items or services.

I understand that Medicare will not decide whether to pay unless I receive these items or services. Please submit my claim to Medicare. I understand that you may bill me for items or services and that I may have to pay the bill while Medicare is making its decision. If Medicare does pay, you will refund to me any payments I made to you that are due to me. If Medicare denies payment, I agree to be personally and fully responsible for payment. That is, I will pay personally, either out of pocket or through any other insurance that I have. I understand I can appeal Medicare's decision.

O Option 2. NO. I have decided not to receive these items or services.

I will not receive these items or services. I understand that you will not be able to submit a claim to Medicare and that I will not be able to appeal your opinion that Medicare won't pay.

_____ _____

Date **Signature of patient or person acting on patient's behalf**

NOTE: Your health information will be kept confidential. Any information that we collect about you on this form will be kept confidential in our offices. If a claim is submitted to Medicare, your health information on this form may be shared with Medicare. Your health information which Medicare sees will be kept confidential by Medicare.

NEWS BRIEFS

CMS Issues National Coverage Policy on Actinic Keratoses
After over five years of concerted effort by the Academy, on July 19, 2001, the Center for Medicare and Medicaid Services (CMS formerly HCFA) issued a national coverage determination on Medicare coverage for treatment of actinic keratoses. The full text of the memo is available at **www.hcfa.gov/coverage** which:

(1) describes actinic keratosis (AK) and methods of managing this skin lesion;

(2) reviews the history of Medicare's coverage of management of actinic keratosis and provides a timeline of recent activities;

(3) presents and analyzes the relevant scientific and clinical data related to actinic keratosis; and

(4) delineates the reasons for making a positive national coverage decision.

CMS AK Decision
"The Coverage Issues Manual will be revised to indicate that Medicare will cover the destruction of actinic keratosis, without restrictions based on lesion or patient characteristics, using surgical or medical treatment methods, including but not limited to:

- **cryosurgery with liquid nitrogen,**
- **curettage,**
- **excision, and**
- **photodynamic therapy.**

CMS expects that practitioners will maintain sufficient information, as required under 42 CFR § 424.5(a)(6)[37], to enable them to demonstrate entitlement to Medicare reimbursement for covered procedures and services."

MEDICARE REVISES ADVANCE BENEFICIARY NOTICE

The Centers for Medicare and Medicaid (CMS, formerly HCFA) has made significant changes to the Advance Beneficiary Notice (ABN). In response to ongoing complaints from physicians regarding the tone and complexity of the ABN form, CMS committed to revise it as part of the Physician Regulatory Initiative Taskforce (PRIT) efforts to reduce the administrative burden on doctors. Simplifying the advance beneficiary notice was among the top five priority issues recently identified by doctors for HCFA to address and was given a fast track development.

The ABN form is given annually to millions of Medicare beneficiaries before they receive a medical service that Medicare may not pay for. The new one-page version of the form, has been redesigned to make it more readable and easier for the Medicare beneficiary to understand. The revised form is available on the HCFA Web site at **http://www.hcfa.gov/regs/prdact95.htm**. The new ABN form may also be photocopied from page 7 of this publication and put into immediate use.

In April, beneficiaries, health care providers and others were requested to send their comments on the new ABN to the Office of Management and Budget (OMB). OMB approved the revised Notice for use in June. The revised form will be published in the Medicare Carriers Manual in late August. However, CMS has advised the Academy as well as other medical specialty societies that doctors may begin using the new form at once.

"Advance notices are given out each year to beneficiaries who may not know whether Medicare will pay for their particular medical service," HHS Secretary Tommy G. Thompson said. "We heard suggestions and recommendations that helped us improve these forms so Medicare beneficiaries know what the paper they are given really means."

MEDICARE REVISES ADVANCE BENEFICIARY NOTICE

continued from page 1

A dermatologist may notify a beneficiary that Medicare probably will not pay for a cosmetic service or item. If the beneficiary still wants to get that service, the beneficiary will be asked to sign an agreement that the patient will pay for the service if Medicare does not pay for it. The revised form alerts beneficiaries they need to decide whether they want to receive medical items or services which may not be reimbursable by Medicare.

A major objection to the prior ABN was the tone of its language which seemed to imply that the physician was suggesting medically unnecessary services. The new form clarifies to the beneficiary that:

> "Medicare does not pay for all of your health care costs. Medicare only pays for covered items and services when Medicare rules are met. The fact that Medicare may not pay for a particular item or service does not mean that you should not receive it. There may be a good reason your doctor recommended it. Right now, in your case, Medicare probably will not pay" for the item or service.

The form also advises the beneficiary to ask for a further explanation if it is unclear why Medicare probably will not pay and to check how much the item or service will cost, either out-of-pocket or through other insurance. The beneficiary then is asked to check one of two options, and sign and date the form.

CODING UPDATE

continued from page 3

The example given discusses venipuncture performed in the office. In addition to coding for the venipuncture, "99000 should be reported when the physician's office centrifuges the specimen, separates the serum and labels, and packages the specimens for transport to the laboratory."

Medicare does not pay for this code as it is classified as a bundled service. However, this code is reimbursable by many of the insurance companies.

Order Coding Books Now

CPT 2002 will contain more than 700 code changes. Also included will be the new Category II and Category III codes. The Category II codes are for performance measurement. The Category III codes are for emerging technologies.

As performance measurements, CPT Category II codes will be identified by a 5-digit number with the letter in the last position. These codes are optional use codes and will not be assigned physician work value. They are not required for correct coding.

As emerging technologies, CPT Category III codes are used only for data collection purposes on assessing new procedures and services. These codes will likewise be alphanumeric with the letter in the last position. The additional instructions in the 2002 CPT book will guide you in the use of these two new code sets.

OIG Compliance Manual

A Guide for Dermatology Practices

Other titles available from the Practice Management Essentials series:

HIPAA Privacy Standards: *A Guide for Dermatology Practices*

Learn how to ensure your practice is compliant with the federal privacy requirements of HIPAA. *HIPAA Privacy Standards: A Guide for Dermatology Practices* provides an overview of the HIPAA legislation in addition to valuable information on identifying a privacy officer, conducting a privacy audit of your office, obtaining workforce confidentiality agreements, and training your staff. Remember, it's the law!

HIPAA Security Standards: *A Guide for Dermatology Practices*

Ensure the security of health information with *HIPAA Security Standards: A Guide for Dermatology Practices*. In this manual, you will learn how health information can be electronically collected, maintained, used, and transmitted securely. Also included on CD-ROM is the *HIPAA Transaction and Code Sets Standards* which illustrates how to implement the standardized method of electronically exchanging protected health information regarding health care claims, coordination of benefits, and payments and remittance advice.

OSHA Hazard Communication: *A Guide for Dermatology Practices*

Use *OSHA Hazard Communication: A Guide for Dermatology Practices* to assist in preparing your practice for implementing an OSHA program. This step-by-step guide summarizes OSHA federal regulations, gives you materials for training your staff, and provides successful monitoring, reviewing, and program updating techniques.

Bloodborne Pathogens: *A Guide for Dermatology Practices*

Review the requirements for building and monitoring your Exposure Control Plan with *Bloodborne Pathogens: A Guide for Dermatology Practices*. This manual summarizes the latest regulation changes in the Needle Stick Safety and Prevention Act which offers definitions of the eight compliance areas, as well as how to monitor your Exposure Control Plan, prepare for an inspection, and liability practices. A CD-ROM to customize your Exposure Control Plan with supporting forms and worksheets are also included.

Valuing a Dermatology Practice

Accurately assess practice value with this in-depth review of the appraisal process. *Valuing a Dermatology Practice* provides comprehensive information on the various valuing models in an easy-to-understand, step-by-step manner. Evaluate alternatives with confidence.

Starting and Marketing a Dermatology Practice

Smoothly transition to private practice with this detailed planning guide. *Starting and Marketing a Dermatology Practice* is filled with essential timelines and worksheets, equipment needs, staffing requirements, and marketing strategies to ensure a solid foundation for any type of dermatology practice. Plan your future with confidence.

Closing a Dermatology Practice

Make informed decisions on closing your practice with this comprehensive planning manual. *Closing a Dermatology Practice* thoroughly examines the legal, corporate, and psychological considerations involved when you realize it's time to do something else. A sensitive look at a tough subject.

Comments / Recommendations	**Diagnosis :** See attached pathology report. **Physician :** Dr. Gary L. Marder **Plan:**Prescribed 3250cGy dose. Daily dose of 260cGy, two fractions per day with 130 cGy per fraction. Dose to be delivered to Dmax, energy 90kv at 15 cm ssd. **Physicist :** Calculation was reviewed, dosage appropriate with the one cone size and blocked area and other treatment parameters. **Conclusion:**Plan and date utilized in the patient care is accurate. Proceed / continue treatment with the present calculation. Documentation is complete.

Independent Calculations	
Comments / Recommendations	**Diagnosis :** See attached pathology report. **Physician :** Dr. Gary L. Marder **Plan:**Prescribed 3250cGy dose. Daily dose of 260cGy, two fractions per day with 130 cGy per fraction. Dose to be delivered to Dmax, energy 90kv at 15 cm ssd. **Physicist :** Calculation was reviewed, dosage appropriate with the one cone size and blocked area and other treatment parameters. **Conclusion:**Plan and date utilized in the patient care is accurate. Proceed / continue treatment with the present calculation. Documentation is complete.
	Use lead shield at all times.

Comments / Recommendations	**Diagnosis :** See attached pathology report. **Physician :** Dr. Gary L. Marder **Plan:**Prescribed 3250cGy dose. Daily dose of 260cGy, two fractions per day with 130 cGy per fraction. Dose to be delivered to Dmax, energy 90kv at 15 cm ssd. **Physicist :** Calculation was reviewed, dosage appropriate with the one cone size and blocked area and other treatment parameters. **Conclusion:**Plan and date utilized in the patient care is accurate. Proceed / continue treatment with the present calculation. Documentation is complete.
	Use lead shield at all times.

Hi Dr Kendall,

please review lease agreement.I will go over it with you tomorrow when we meet at 2:30PM in your office.

You can call me at 561-309-0981 on my cell or 561-881-1175 at home in the AM ,

Thanks, Dr Marder

Privileged and Confidential

Attached please find the requested lease and professional services agreements for Dr. Kendall. I tried to emphasize in the professional services agreement the need for him to qualify as a member of the group and for the group to qualify as a group practice. As a result, it is essential that he either be an employee or shareholder, and that at least 75% of the services of the group members be in the name of the group.

You should also note that during the lease period at least some services other than pathology need to occur in that space.

—
Christopher L. Nuland

PHYISCIAN EMPLOYMENT AGREEMENT

THIS PHYSICIAN EMPLOYMENT AGREEMENT (the "Agreement") is entered into as of the _____ day of _____, 200__, by and between Robert I. Kendall, M.D.. a Florida licensed physician ("Dr. Kendall"), and Allergy, Dermatology, & Skin Cancer Center, Inc., a Florida corporation (the "Clinic").

RECITALS:

A. Dr. Kendall, a Florida physician, is engaged in rendering pathology services to patients at Clinics' clinics and medical offices.

B. The Clinic is duly licensed and authorized in the State of Florida to engage in the practice of medicine.

C. Dr. Kendall is a member of Clinic's group practice, as such terms are defined by 42 CFR 411.351 and 42 CFR 411.352.

D. The Clinic desires, in accordance with the terms of this Agreement and for the convenience of Clinic's patients, to engage Dr. Kendall to provide pathology services to Clinic's patients at its offices.

AGREEMENT:

In consideration of the foregoing premises and the mutual covenants herein contained, the parties agree as follows:

1. **EMPLOYMENT; DUTIES.**

1.1. Engagement. The Clinic hereby employs Dr. Kendall for the purpose of rendering pathology services to Clinic's patients at the Facility. Dr. Kendall hereby accepts such engagement.

1.2. Provision of Services. All services performed under this Agreement shall be rendered by Dr. Kendall on the premises of the Clinic. Upon the Clinic's order and determination of medical necessity, Dr. Kendall shall perform the requested pathology service and provide to the Clinic a record of the image and results for each procedure or service rendered.

1.3. Time Requirements. Dr. Kendall shall devote no less than fifteen hours per week to his duties for the Clinic and no more than fifteen hours per week to other clients. Dr. Kendall acknowledges that compliance with preceding sentence is critical to Clinic's maintenance of its status as a group practice and Dr. Kendall's status as a member of the group. Both parties shall ensure that the Clinic continues to qualify as a "group practice" under 42 CFR 411.352 and Florida Statute 456.053(

1.4. Clinic Orders and Interpretations. Clinic alone shall determine the

3.2.2. Termination With Cause. Either party may immediately terminate this Agreement by providing written notice to the other party upon the occurrence of any of the following events:

3.2.2.1. Any party's license or permit to practice medicine or render health services in the State of Florida is suspended, restricted or revoked.

3.2.2.2. Any party or its principals are convicted of a felony or suspended or excluded from participation in the Medicare, Medicaid, or any federal benefit program.

3.2.2.3. Any insurance policy required by this Agreement is revoked or canceled and coverage is not replaced without interruption within ten (10) days of notice of such revocation or cancellation;

3.2.2.4. Breach of any other material term or condition which has not been cured within fifteen (15) business days following receipt of notice from the non-breaching party stating with particularity the nature of the breach

3.3. Effect of Termination. Upon termination of this Agreement, neither party will have any further obligations hereunder other than (i) those obligations accruing prior to the date of termination, and (ii) those obligatory promises or covenants contained herein which are expressly made to extend beyond the terms of this Agreement.

4. **INTENTIONALLY OMITTED.**

5. **BOOKS AND RECORDS.**

5.1. Ownership of Records. Clinic shall retain ownership and control of the records, results, images, x-rays or other documentation produced in connection with the services rendered under this Agreement.

5.2. Access to Books and Records. In the event the Secretary of the Department of Health and Human Services, the Comptroller General of the U.S., or their duly authorized representatives shall be entitled to access, pursuant to Section 1861(v)(1)(I) of the Social Security Act and the regulations promulgated there under, any books, documents and records of either party relating to the services provided pursuant to this Agreement, such party shall promptly inform the other party of the request for production of or access to such documents and shall provide copies to such party. All requests made in compliance with the above-referenced federal statute and the regulations promulgated pursuant thereto shall be honored by the parties.

5.3. Confidentiality of Patient Information. Both parties will comply with applicable federal and state laws, rules and regulations regarding the patients' privacy rights and the use and disclosure of protected health information.

5.4. Confidential Information. At no time during the term of this Agreement or after the termination of this Agreement shall the Clinic or Dr. Kendall

medical necessity of and order any and all pathology procedures to be performed by Dr. Kendall under this Agreement. All orders for pathology procedures shall be in writing and duly entered into the medical record of the applicable patient.

2. COMPENSATION; BILLING AND COLLECTION

2.1. As full and exclusive compensation for all services rendered by Dr. Kendall hereunder, the Clinic shall pay Dr. Kendall a flat fee per month, as set forth on Exhibit A, subject to Clinic's normal withholding and other such deductions..

2.2. The Clinic agrees to reimburse Dr. Kendall for any and all reasonable expenses Dr. Kendall may incur, including interest and attorneys' fees, in taking action to collect any amounts due to Dr. Kendall hereunder. Payments to Dr. Kendall shall, when overdue, be subject to a late payment charge accrued at the rate of one and one-half percent (1 _%) per month of the unpaid balance. If the amount of such interest charged exceeds the maximum permitted by law for such charge, the interest charge shall be reduced to such maximum amount.

2.3. The Clinic shall be solely responsible for billing and collecting from its patients and any third party payors, including, without limitation, insurance companies, HMOs, PPOs, Medicare and Medicaid and any other governmental or private health care benefit programs ("Third-Party Payor") for services rendered pursuant to this Agreement. The Clinic will comply with all applicable laws, rules, regulations and reimbursement guidelines in connection with supervision and billing of all services rendered pursuant to this Agreement. Dr. Kendall shall neither bill nor collect from any patients or any Third-Party Payor for the services rendered pursuant to this Agreement and shall look solely to the Clinic for payment.

2.4. This **Section 2** shall survive the expiration or termination of this Agreement.

3. TERM AND TERMINATION.

3.1. Term. The term of the Agreement shall commence as of _____ and will continue for a period of one (1) year thereafter (the "Initial Term"), unless earlier terminated or otherwise renewed in accordance with the terms of this Agreement. Upon expiration of the Initial Term, this Agreement will automatically renew for successive terms of one (1) year each unless either party shall terminate the Agreement in accordance with its terms.

3.2. Termination.

3.2.1. Termination Without Cause. This Agreement may be terminated without cause by either party upon thirty (30) days prior written notice to the other party.

disclose any confidential or secret information concerning: (a) its business, affairs or operations, or (b) any trade secrets, new product developments, or special or unique processes. The covenant contained in this **Section 5.4** shall not apply to any information which was already known to the Clinic at the time of receipt thereof, subsequently becomes known to the general public through no fault or omission on the part of the Clinic, is subsequently disclosed by a third party which has the bona fide right to make such disclosure, or is required to be disclosed by law or a governmental agency.

5.5. The parties hereto acknowledge and agree that this **Section 5** shall survive termination of this Agreement.

6. NON-SOLICITATION.

6.1. During the term of this Agreement and for a period of one (1) year following its termination, for any reason, neither shall not directly or indirectly for himself or herself or for any other person, firm, corporation, partnership, association or other entity, employ or contract with any existing or former employee or contractor of the other. If either party is in violation of this covenant, then the time limitation thereof shall be extended for a period of time equal to the period of time during which such breach or breaches occur.

6.2. In the event of an actual or threatened breach of the provisions of this **Section 7**, the aggrieved party shall be entitled to an injunction, without the posting of a bond or security, restraining the offending party, or the entity the actions of which have caused the violations hereof, from the prohibited conduct. Nothing herein stated shall be construed as prohibiting the aggrieved party from pursuing any other remedies available to it for such breach or threatened breach.

6.3. The parties hereto acknowledge and agree that this **Section 6** shall survive the termination of this Agreement.

7. STATUS OF THE PARTIES.

Employee Relationship. In recognition of his relationship as a part-time employee of Clinic, Kendall shall turn over fees for all services provided on behalf of the Clinic to Clinic. To that end, all remuneration paid to Dr. Kendall for or in connection with professional services or activities related to or in connection with the business of the Clinic, whether from private or public entities (except for the remuneration paid Dr. Kendall pursuant to this Agreement) shall be the property of Clinic and is hereby assigned to Clinic. Any such remuneration not paid directly to the Clinic shall be remitted to the Clinic upon receipt by Dr. Kendall. Dr. Kendall shall take all steps reasonably requested by the Clinic to assist in the billing and collection of funds due for such professional services, including the establishment of an "assignment account" for purposes of Medicare and any other third party billing. This provision shall survive termination of the Agreement for services provided during the term of the Agreement.

8. **INDEMNIFICATION.**

Dr. Kendall shall indemnify and hold Clinic harmless from any and all actions and causes of action, suits, claims, demands and expenses whatsoever (including attorneys' fees through the appellate levels), at law or in equity arising out of the negligent acts or omissions of the Dr. Kendall, its employees, agents, or independent contractors, (including nurses and technicians. To assist in such indemnification, Dr. Kendall shall at all times, at his sole expenses, maintain professional liability insurance of at least $250,000 per incident and $750,000 annual aggregate covering his services under this Agreement. This provision shall survive termination of the Agrement

9. **MISCELLANEOUS.**

9.1. Notices. Any notice or communication required or permitted to be given under this Agreement shall be sufficient if in writing and if sent by registered or certified mail, by overnight delivery, by telecopy, or by hand delivery to the parties at the addresses set forth below, or to any other address specified in writing by a party:

9.2. Governing Law. This Agreement shall be governed by, interpreted and enforced in accordance with the laws of the State of Florida. All proceedings related to this Agreement or the transactions described herein shall be commenced and held in Palm Beach County, Florida.

9.3. Binding Effect. This Agreement is binding upon and inures to the benefit of Dr. Kendall, its representatives, successors, and assigns, and to the Clinic, its representatives, successors and assigns.

9.4. Assignment. Neither party may assign its rights or obligations under this Agreement without the express written consent of the other party, which consent may be withheld in its sole and absolute discretion.

9.5. Entire Agreement; Amendments. This Agreement constitutes the entire understanding between the parties with respect to the subject matter hereof and supersedes any and all prior agreements, whether oral or written, concerning such subject matter. This Amendment may not be modified or amended except by a writing executed by all the parties hereto.

9.6. Regulatory Provisions. The parties acknowledge that, although Dr. Kendall and the Clinic are obligated to provide services and compensation as specified in this Agreement, nothing contained in this Agreement shall require either party to refer or admit any patients to, or order any goods or services from the other. Notwithstanding any unanticipated effect of any provision of this Agreement, neither party will knowingly or intentionally conduct himself or itself in such a manner as to violate the prohibition

against paying or receiving, offering or soliciting, any remuneration, directly or indirectly, in exchange for the referral of patients in connection with the Medicare, Medicaid, and other federal benefit programs (42 USC Section 1320a-7a and 7b) and in connection with any other patients (Sections 456.054 and 817.505 of the Florida Statutes). The payments by the Clinic to Dr. Kendall hereunder reflect the parties' agreement as to the fair market value for Dr. Kendall's services based upon arm's length bargaining and the value of similar services in the community. Such payments are intended solely as compensation for the services provided by Dr. Kendall under this Agreement.

9.7. Change in Law. In the event of any change in federal or state law, regulation, rule, interpretation, guideline or policy which adversely affects either party's ability to perform or right to reimbursement for services performed under this Agreement, the parties agree to negotiate in good faith to amend this Agreement to conform to the change in law. In the event the parties are unable to agree to amend the Agreement within thirty (30) days of either party placing the other on notice of the change, either party may terminate the Agreement by providing the other party with not less than thirty (30) days advance written notice; provided, however, that the notice period shall be shortened as necessary to prevent either party from operating in violation of law.

9.8. Attorneys' Fees. In the event either party initiates litigation to interpret or enforce its rights under this Agreement, the prevailing party shall be entitled to recover from the other party its attorneys' fees and costs incurred at all levels of trial and appeal.

9.9. Waiver and Breach. The waiver of any term, condition, failure to perform, or breach of this Agreement shall not be deemed to constitute a waiver of a subsequent breach of the same, or a breach or subsequent breach of any other term or condition.

9.10. Additional Acts. Each party hereby agrees to perform any further acts and to execute and deliver any documents which may be reasonably necessary to carry out the provisions of this Agreement.

9.11. Severability. The provisions of this Agreement shall not be severable, and if any material provision shall be determined to be invalid, void or unenforceable in whole or in part for any reason by a court of competent jurisdiction, such determination, holding, or opinion shall not affect the validity and enforceability of the other provisions of this Agreement. The remaining provisions of this Agreement shall be considered valid and operative to the fullest extent permitted by law.

9.12. **IN WITNESS WHEREOF**, the parties have executed this Agreement on the date first above written.

DR. KENDALL,

By: _____
Robert I. Kendall, M.D.

THE CLINIC:

Gary L. Marder, DO/ President/CEO

PHYISCIAN EMPLOYMENT AGREEMENT

THIS PHYSICIAN EMPLOYMENT AGREEMENT (the "Agreement") is entered into as of the 3rd day of January, 2000, by and between Robert I. Kendall, M.D.. a Florida licensed physician ("Dr. Kendall"), and Allergy, Dermatology, & Skin Cancer Center, Inc., a Florida corporation (the "Clinic").

RECITALS:

A. Dr. Kendall, a Florida physician, is engaged in rendering pathology services to patients at Clinics' clinics and medical offices.

B. The Clinic is duly licensed and authorized in the State of Florida to engage in the practice of medicine.

C. Dr. Kendall is a member of Clinic's group practice, as such terms are defined by 42 CFR 411.351 and 42 CFR 411.352.

D. The Clinic desires, in accordance with the terms of this Agreement and for the convenience of Clinic's patients, to engage Dr. Kendall to provide pathology services to Clinic's patients at its offices.

AGREEMENT:

In consideration of the foregoing premises and the mutual covenants herein contained, the parties agree as follows:

1. **EMPLOYMENT; DUTIES.**

1.1. Engagement. The Clinic hereby employs Dr. Kendall for the purpose of rendering pathology services to Clinic's patients at the Facility. Dr. Kendall hereby accepts such engagement.

1.2. Provision of Services. All services performed under this Agreement shall be rendered by Dr. Kendall on the premises of the Clinic. Upon the Clinic's order and determination of medical necessity, Dr. Kendall shall perform the requested pathology service and provide to the Clinic a record of the image and results for each procedure or service rendered.

1.3. Time Requirements. Dr. Kendall shall devote no less than fifteen hours per week to his duties for the Clinic and no more than fifteen hours per week to other clients. Dr. Kendall acknowledges that compliance with preceding sentence is critical to Clinic's maintenance of its status as a group practice and Dr. Kendall's status as a member of the group. Both parties shall ensure that the Clinic continues to qualify as a "group practice" under 42 CFR 411.352 and Florida Statute 456.053(

1.4. Clinic Orders and Interpretations. Clinic alone shall determine the

medical necessity of and order any and all pathology procedures to be performed by Dr. Kendall under this Agreement. All orders for pathology procedures shall be in writing and duly entered into the medical record of the applicable patient.

2. **COMPENSATION; BILLING AND COLLECTION**

2.1. As full and exclusive compensation for all services rendered by Dr. Kendall hereunder, the Clinic shall pay Dr. Kendall a flat fee per month, as set forth on Exhibit A, subject to Clinic's normal withholding and other such deductions..

2.2. The Clinic agrees to reimburse Dr. Kendall for any and all reasonable expenses Dr. Kendall may incur, including interest and attorneys' fees, in taking action to collect any amounts due to Dr. Kendall hereunder. Payments to Dr. Kendall shall, when overdue, be subject to a late payment charge accrued at the rate of one and one-half percent (1 _%) per month of the unpaid balance. If the amount of such interest charged exceeds the maximum permitted by law for such charge, the interest charge shall be reduced to such maximum amount.

2.3. The Clinic shall be solely responsible for billing and collecting from its patients and any third party payors, including, without limitation, insurance companies, HMOs, PPOs, Medicare and Medicaid and any other governmental or private health care benefit programs ("Third-Party Payor") for services rendered pursuant to this Agreement. The Clinic will comply with all applicable laws, rules, regulations and reimbursement guidelines in connection with supervision and billing of all services rendered pursuant to this Agreement. Dr. Kendall shall neither bill nor collect from any patients or any Third-Party Payor for the services rendered pursuant to this Agreement and shall look solely to the Clinic for payment.

2.4. This **Section 2** shall survive the expiration or termination of this Agreement.

3. **TERM AND TERMINATION**.

3.1. Term. The term of the Agreement shall commence as of _____ and will continue for a period of one (1) year thereafter (the "Initial Term"), unless earlier terminated or otherwise renewed in accordance with the terms of this Agreement. Upon expiration of the Initial Term, this Agreement will automatically renew for successive terms of one (1) year each unless either party shall terminate the Agreement in accordance with its terms.

3.2. Termination.

3.2.1. Termination Without Cause. This Agreement may be terminated without cause by either party upon thirty (30) days prior written notice to the other party.

3.2.2. Termination With Cause. Either party may immediately terminate this Agreement by providing written notice to the other party upon the occurrence of any of the following events:

3.2.2.1. Any party's license or permit to practice medicine or render health services in the State of Florida is suspended, restricted or revoked.

3.2.2.2. Any party or its principals are convicted of a felony or suspended or excluded from participation in the Medicare, Medicaid, or any federal benefit program.

3.2.2.3. Any insurance policy required by this Agreement is revoked or canceled and coverage is not replaced without interruption within ten (10) days of notice of such revocation or cancellation;

3.2.2.4. Breach of any other material term or condition which has not been cured within fifteen (15) business days following receipt of notice from the non-breaching party stating with particularity the nature of the breach

3.3. Effect of Termination. Upon termination of this Agreement, neither party will have any further obligations hereunder other than (i) those obligations accruing prior to the date of termination, and (ii) those obligatory promises or covenants contained herein which are expressly made to extend beyond the terms of this Agreement.

4. **INTENTIONALLY OMITTED.**

5. **BOOKS AND RECORDS.**

5.1. Ownership of Records. Clinic shall retain ownership and control of the records, results, images, x-rays or other documentation produced in connection with the services rendered under this Agreement.

5.2. Access to Books and Records. In the event the Secretary of the Department of Health and Human Services, the Comptroller General of the U.S., or their duly authorized representatives shall be entitled to access, pursuant to Section 1861(v)(1)(I) of the Social Security Act and the regulations promulgated there under, any books, documents and records of either party relating to the services provided pursuant to this Agreement, such party shall promptly inform the other party of the request for production of or access to such documents and shall provide copies to such party. All requests made in compliance with the above-referenced federal statute and the regulations promulgated pursuant thereto shall be honored by the parties.

5.3. Confidentiality of Patient Information. Both parties will comply with applicable federal and state laws, rules and regulations regarding the patients' privacy rights and the use and disclosure of protected health information.

5.4. Confidential Information. At no time during the term of this Agreement or after the termination of this Agreement shall the Clinic or Dr. Kendall

disclose any confidential or secret information concerning: (a) its business, affairs or operations, or (b) any trade secrets, new product developments, or special or unique processes. The covenant contained in this **Section 5.4** shall not apply to any information which was already known to the Clinic at the time of receipt thereof, subsequently becomes known to the general public through no fault or omission on the part of the Clinic, is subsequently disclosed by a third party which has the bona fide right to make such disclosure, or is required to be disclosed by law or a governmental agency.

5.5. The parties hereto acknowledge and agree that this **Section 5** shall survive termination of this Agreement.

6. **NON-SOLICITATION**.

6.1. During the term of this Agreement and for a period of one (1) year following its termination, for any reason, neither shall not directly or indirectly for himself or herself or for any other person, firm, corporation, partnership, association or other entity, employ or contract with any existing or former employee or contractor of the other. If either party is in violation of this covenant, then the time limitation thereof shall be extended for a period of time equal to the period of time during which such breach or breaches occur.

6.2. In the event of an actual or threatened breach of the provisions of this **Section 7**, the aggrieved party shall be entitled to an injunction, without the posting of a bond or security, restraining the offending party, or the entity the actions of which have caused the violations hereof, from the prohibited conduct. Nothing herein stated shall be construed as prohibiting the aggrieved party from pursuing any other remedies available to it for such breach or threatened breach.

6.3. The parties hereto acknowledge and agree that this **Section 6** shall survive the termination of this Agreement.

7. **STATUS OF THE PARTIES**.

Employee Relationship. In recognition of his relationship as a part-time employee of Clinic, Kendall shall turn over fees for all services provided on behalf of the Clinic to Clinic. To that end, all remuneration paid to Dr. Kendall for or in connection with professional services or activities related to or in connection with the business of the Clinic, whether from private or public entities (except for the remuneration paid Dr. Kendall pursuant to this Agreement) shall be the property of Clinic and is hereby assigned to Clinic. Any such remuneration not paid directly to the Clinic shall be remitted to the Clinic upon receipt by Dr. Kendall. Dr. Kendall shall take all steps reasonably requested by the Clinic to assist in the billing and collection of funds due for such professional services, including the establishment of an "assignment account" for purposes of Medicare and any other third party billing. This provision shall survive termination of the Agreement for services provided during the term of the Agreement.

8. **INDEMNIFICATION.**

Dr. Kendall shall indemnify and hold Clinic harmless from any and all actions and causes of action, suits, claims, demands and expenses whatsoever (including attorneys' fees through the appellate levels), at law or in equity arising out of the negligent acts or omissions of the Dr. Kendall, its employees, agents, or independent contractors, (including nurses and technicians. To assist in such indemnification, Dr. Kendall shall at all times, at his sole expenses, maintain professional liability insurance of at least $250,000 per incident and $750,000 annual aggregate covering his services under this Agreement. This provision shall survive termination of the Agrement

9. **MISCELLANEOUS.**

9.1. Notices. Any notice or communication required or permitted to be given under this Agreement shall be sufficient if in writing and if sent by registered or certified mail, by overnight delivery, by telecopy, or by hand delivery to the parties at the addresses set forth below, or to any other address specified in writing by a party:

9.2. Governing Law. This Agreement shall be governed by, interpreted and enforced in accordance with the laws of the State of Florida. All proceedings related to this Agreement or the transactions described herein shall be commenced and held in Palm Beach County, Florida.

9.3. Binding Effect. This Agreement is binding upon and inures to the benefit of Dr. Kendall, its representatives, successors, and assigns, and to the Clinic, its representatives, successors and assigns.

9.4. Assignment. Neither party may assign its rights or obligations under this Agreement without the express written consent of the other party, which consent may be withheld in its sole and absolute discretion.

9.5. Entire Agreement; Amendments. This Agreement constitutes the entire understanding between the parties with respect to the subject matter hereof and supersedes any and all prior agreements, whether oral or written, concerning such subject matter. This Amendment may not be modified or amended except by a writing executed by all the parties hereto.

9.6. Regulatory Provisions. The parties acknowledge that, although Dr. Kendall and the Clinic are obligated to provide services and compensation as specified in this Agreement, nothing contained in this Agreement shall require either party to refer or admit any patients to, or order any goods or services from the other. Notwithstanding any unanticipated effect of any provision of this Agreement, neither party will knowingly or intentionally conduct himself or itself in such a manner as to violate the prohibition

against paying or receiving, offering or soliciting, any remuneration, directly or indirectly, in exchange for the referral of patients in connection with the Medicare, Medicaid, and other federal benefit programs (42 USC Section 1320a-7a and 7b) and in connection with any other patients (Sections 456.054 and 817.505 of the Florida Statutes). The payments by the Clinic to Dr. Kendall hereunder reflect the parties' agreement as to the fair market value for Dr. Kendall's services based upon arm's length bargaining and the value of similar services in the community. Such payments are intended solely as compensation for the services provided by Dr. Kendall under this Agreement.

9.7. Change in Law. In the event of any change in federal or state law, regulation, rule, interpretation, guideline or policy which adversely affects either party's ability to perform or right to reimbursement for services performed under this Agreement, the parties agree to negotiate in good faith to amend this Agreement to conform to the change in law. In the event the parties are unable to agree to amend the Agreement within thirty (30) days of either party placing the other on notice of the change, either party may terminate the Agreement by providing the other party with not less than thirty (30) days advance written notice; provided, however, that the notice period shall be shortened as necessary to prevent either party from operating in violation of law.

9.8. Attorneys' Fees. In the event either party initiates litigation to interpret or enforce its rights under this Agreement, the prevailing party shall be entitled to recover from the other party its attorneys' fees and costs incurred at all levels of trial and appeal.

9.9. Waiver and Breach. The waiver of any term, condition, failure to perform, or breach of this Agreement shall not be deemed to constitute a waiver of a subsequent breach of the same, or a breach or subsequent breach of any other term or condition.

9.10. Additional Acts. Each party hereby agrees to perform any further acts and to execute and deliver any documents which may be reasonably necessary to carry out the provisions of this Agreement.

9.11. Severability. The provisions of this Agreement shall not be severable, and if any material provision shall be determined to be invalid, void or unenforceable in whole or in part for any reason by a court of competent jurisdiction, such determination, holding, or opinion shall not affect the validity and enforceability of the other provisions of this Agreement. The remaining provisions of this Agreement shall be considered valid and operative to the fullest extent permitted by law.

9.12. **IN WITNESS WHEREOF**, the parties have executed this Agreement on the date first above written.

DR. KENDALL,

By: _____
Robert I. Kendall, M.D.

THE CLINIC:

Gary L. Marder, DO/ President/CEO

GM 0146

LEASE AGREEMENT

This Lease Agreement ("Lease" and/or "Agreement") is entered into this 1st day of August, 2001by and between Kendall Medical Laboratories, Inc. ("Lessor") and Allergy, Dermatology & Skin Cancer Center, P.A. ("Lessee").

WHEREAS, Lessor possesses a clinical laboratory (referred to as the "Facility") and is seeking to lease the Facility to health care providers in Florida for the provision of clinical laboratory services, and

WHEREAS, Lessee is a group practice or solo practitioner pursuant to the applicable law (Section 455.654, et. seq., Florida Statutes, and 42 U.S.C. 1395nn), and it is sometimes necessary to perform clinical laboratory services for and on behalf of its patients; and

WHEREAS, Lessor wishes to lease to Lessee and Lessee wishes to lease from Lessor the Facility so that Lessee may bill globally for the clinical laboratory services performed on Lessee's patients.

NOW THEREFORE, in consideration of the mutual covenants below, as well as other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

ARTICLE ONE
TERM, RENTAL AND RENEWAL

1.1 The term of this Lease shall be for a period of One (1) year, commencing on August 1, 2001 (the "Lease Commencement Date") and expiring twelve months thereafter (the "Initial Term"). This Lease shall automatically be extended for successive twelve (12) month periods ("Renewal Terms") subsequent to the expiration of the Initial Term, unless a party provides the other party written notice of its intent to terminate this Agreement at least thirty (30) days prior to the end of the then current term.

GM 0086

1.2 Lessee shall have exclusive use of the Facility during the days of the week and times of day as follows (the "Occupancy Period"):

Monday	_____	to	_____
Tuesday	_____	to	_____
Wednesday	_____	to	_____
Thursday	_____	to	_____
Friday	_____	to	_____
Saturday	_____	to	_____

Such hours may be changed from time to time upon the mutual agreement of the parties; provided, however, that such change may not be routine, and the Base Rent specified herein shall apply to any additional hours. As such, in the event a patient of Lessee urgently requires clinical laboratory services, Lessor shall use its reasonable efforts to schedule the case at times that meet the needs of the patient, and Lessee agrees to pay for the additional time in blocks of not less than one (1) hour each. Similarly, in the event that a patient of Lessor has a similar urgent need, the Lessee agrees to use its best efforts to allow the scheduling of such patients during Lessee's designated times. In such event, Lessor shall credit the Lessee with the amount of time released by Lessee. The determination of whether to permit Lessee to use the Facility during times other than those specified in Article 1.2 shall be entirely within the discretion of the Lessor. Moreover, the foregoing shall be employed only in the circumstances described herein, and shall not be used as a means to release the Lessee from its blocked time usage obligation specified in Section 1.2 hereof.

1.3 The Base Rent shall be Three Thousand Dollars ($ 3,000.00) per month, and includes sales and use taxes. All payments shall be made to Lessor at Lessor's address and shall be due on the first day of every month. All sums to be paid by Lessee hereunder shall be referred to as "Rental."

1.4 Rental payments hereunder are consistent with the fair market value without regard to the volume or value of referrals between the parties as otherwise required and defined pursuant to 42 U.S.C. 1395nn. The term "fair market value" means the value in arms length transactions, consistent with the general market value, and the value of rental property for general commercial purposes (not taking into account its intended use), and not adjusted to reflect the additional value the Lessee or Lessor would attribute to the proximity or convenience to Lessor or Lessee where either party is a potential source of referrals to the other. Any payment made for the use of a common area shall not exceed Lessee's pro rata share of expenses for such space based upon the ratio of the space used exclusively by

Lessee to the total amount of space (other than common areas) occupied by all persons using such common area. Rental hereunder shall not fluctuate during any term, including the Initial Term, or Lessee's increased or decreased utilization needs unrelated, directly or indirectly, to the volume or value of referrals, between Lessor and Lessee. There shall be no obligation or agreement, implied or otherwise, for the parties to refer any patient(s) between them.

ARTICLE TWO
USE OF FACILITY

Lessee shall have exclusive use of the Facility during the Occupancy Periods. The Facility is only to be used and occupied by Lessee to consult with its own patients and for the performance of clinical laboratory services for Lessee's patients as are determined to be medically necessary by Lessee, in its sole and absolute discretion (the "Permitted use"). Lessee shall have sole responsibility for (a) scheduling its own patients for testing procedures; (b) determining the medical necessity for the performance clinical laboratory services for Lessee's patients; and (c) billing and collecting from payers and from its patients the global fees for bone density scans conducted at the Facility. Lessee agrees that it or one of its employed personnel shall be responsible for performing and reading all such scans. Lessee agrees to be physically present at the Facility for the purposes of personally providing the services or providing direct supervision such services. Lessor shall have no responsibility for ensuring Lessee's compliance with any of the foregoing responsibilities.

ARTICLE THREE
PATIENT BILLING

Lessee shall be solely and entirely responsible for billing and collecting any and all fees in connection with rendering bone density scans to its patients at the Facility.

ARTICLE FOUR
PLACE AND PAYMENT OF RENT

Lessee shall pay rent, and any additional rent as provided below, to Lessor at Lessor's above-stated address, or at such other place as Lessor may designate in writing, without demand and without counterclaim, deduction, or setoff.

ARTICLE FIVE
CARE AND REPAIR OF FACILITY

Lessee shall commit no act of waste and shall take good care of the facility and the fixtures and appurtenances on it, and shall, in the use and occupancy of the premises, conform to all laws, orders, and regulations of the federal, state and municipal governments or any of their departments. Lessor shall make all necessary capital repairs to the Facility, except where the repair has been made necessary by misuse or neglect by Lessee or Lessee's agents, servants, visitors or licensees. All improvements made by Lessee to the premises which are so attached to the premises that they cannot be removed without material injury to the premises, shall become the property of Lessor upon installation.

Not later than the last day of the term the Lessee shall, at Lessee's expense, remove all of Lessee's personal property and those improvements made by Lessee which have not become the property of the Lessor, including trade fixtures, cabinetwork, movable paneling, partitions and the like; repair all injury done by or in connection with the installation or removal of the property and improvements; and surrender the Facility in as good condition as they were at the beginning of the term, reasonable wear, and damage by fire, the elements, casualty, or the other cause not due to the misuse or neglect by Lessee of Lessee's agents, servants, visitors or licensees excepted. All property of the Lessee remaining on the facility after the last day of the term of this Lease Agreement shall be conclusively deemed abandoned and may be removed by Lessor, and Lessee shall reimburse Lessor for the cost of such removal. Lessor may have any such property restored at Lessee's risk and expense.

ARTICLE SIX
ALTERATIONS, ADDITIONS OR IMPROVEMENTS

Lessee shall not, without first obtaining the written permission of Lessor, make any alterations, additions, or improvements in, to or about the Facility.

ARTICLE SEVEN
PROHIBITION AGAINST ACTIVITIES INCREASING FIRE INSURANCE RATES

Lessee shall not do or suffer anything to be done at the Facility which will cause an increase in the rate of fire insurance on the building.

ARTICLE EIGHT
ACCUMULATION OF WASTE AND REFUSE MATTER

Lessee shall not permit the accumulation of waste or refuse matter on the leased facility or anywhere in or near the building.

ARTICLE NINE
ABANDONMENT

Lessee shall not, without first obtaining the written consent of the Lessor, abandon the Facility, or allow the Facility to become vacant or deserted.

ARTICLE TEN
ASSIGNMENT OR SUBLEASE

Lessee shall not, without first obtaining the written consent of the Lessor, assign, mortgage, pledge, or otherwise encumber this Lease Agreement, in whole or in part, or sublet the Facility or any part thereof. This consent shall be binding upon the legal representatives of the Lessee, and upon every person to whom Lessee's interest under this Lease passes by operation of law, but shall not apply to the assignment or subletting to the parent or subsidiary of a corporate lessee or to a transfer of the leasehold interest occasioned by consolidation or merger involving such Lessee.

ARTICLE ELEVEN
COMPLIANCE WITH RULES AND REGULATIONS

Lessee shall observe and comply with the rules and regulations set forth below, which are made part of this Agreement, and with such further reasonable rules and regulations as Lessor may prescribe, upon written notice to the Lessee, for the safety, care, and cleanliness of the building and the comfort, quiet, and convenience of the other occupants of the building.

ARTICLE TWELVE
CARE OF PREMISES

Lessor shall provide or arrange for the provision of all garbage collection, outside maintenance, and janitorial services for the entire building.

ARTICLE THIRTEEN
UTILITIES

Lessor shall provide and ensure the availability of all basic utilities including, but not limited to, electricity and water.

ARTICLE FOURTEEN
DAMAGES TO FACILITY

If the Facility is damaged by fire or any other cause to such extent that the cost of restoration, as reasonably determined by Lessor, will equal or exceed twenty percent (20%) of the replacement value of the Facility, exclusive of foundations, just prior to the occurrence of the damage, then Lessor may, no later than the 10th day following the damage, give Lessee a notice of election to terminate this Lease, or if the cost of restoration will equal or exceed 20 percent (20%) of such replacement value and if the premises shall not be reasonably usable for the purposes for which they are leased under this Agreement, then Lessee may, no later than the 10th day following the damage, give Lessor a notice of election to terminate the Lease. In the event of either such election, this Lease shall be deemed to terminate on the 10th day after the giving of such notice, and Lessee shall surrender possession of the premises within a reasonable amount of time after that, and the rent, and any additional rent, shall be apportioned as of the date of surrender and any rent paid for any period beyond such date shall be repaid to Lessee.

In any case in which use of the Facility is affected by any damage to the Facility or for any other reason, there shall be either an abatement or an equitable reduction in rent depending on the period for which and the extent to which the Facility is not reasonably usable for the purpose for which it is leased under this Agreement. Except as described in the previous sentence, Lessee shall have no other remedy or cause of action against Lessor for an unavailability of the Facility. The words "restoration" and "restore" as used in Article Fourteen shall include repairs. If the damage results from the fault of Lessee, or Lessee's agents, servants, visitors, or licensees, Lessee shall not be entitled to any abatement or reduction in rent, except to the extent, if any, that Lessor receives the proceeds of rent insurance in lieu of such rent.

ARTICLE FIFTEEN
WAIVERS OF SUBROGATION

Notwithstanding other provisions of this Agreement, in any event of loss or damage to the Facility and/or any contents, each party shall look first to any insurance in its favor before making any claim against the other party; and, to the extent possible without additional cost, each party shall obtain, for each policy of such insurance, provisions permitting waiver of any claim against the other party for loss of damage within the scope of such insurance, and each party, to such extent permitted, for itself and its insurers waives all such insured claims against the other party.

ARTICLE SIXTEEN
EMINENT DOMAIN

If the premises or any part of the Facility or any estate in it, or any other part of the building materially affecting Lessee's use of the Facility, is taken by eminent domain, this Lease shall terminate on the date when title vests pursuant to such taking. The rent, and any additional rent, shall be apportioned as of the termination date and any rent paid for any period beyond that date shall be repaid to the Lessee. Lessee shall not be entitled to any part of the award for such taking or any payment in lieu of such taking, but Lessee may file a claim for any taking of fixtures and improvements owned by Lessee, and for moving expenses.

ARTICLE SEVENTEEN
LESSOR'S REMEDIES UPON DEFAULT

If Lessee defaults in the payment of rent, or any additional rent, or defaults in the performance of any other covenants or conditions of this Agreement, Lessor may give Lessee notice of such default. If Lessee does not cure any rent, or additional rent, default within 30 days, or other default within 30 days after the giving of such notice, of if such other default is of such nature that it cannot be completely cured within such period, Lessee does not commence such curing within such 30 days and thereafter proceed with reasonable diligence and in good faith to cure such default, then Lessor may terminate this Lease on not less than 30 days notice to Lessee. On the date specified in the notice the term of this Lease shall terminate and Lessee shall then quit and surrender the Facility to Lessor, but Lessee shall remain liable as provided elsewhere in this Article. If this Lease is terminated by Lessor in this manner, Lessor may at any time after that resume possession of the Facility by any lawful means and remove Lessee or other occupants and their personal property.

ARTICLE EIGHTEEN
DEFICIENCY

In any case where Lessor has recovered possession of the Facility by reason of Lessee's default, Lessor may, at Lessor's option, occupy the Facility or cause the Facility to be redecorated, altered, divided, consolidated with adjoining premises, or otherwise changed and prepared for reletting, and may relet the Facility or any part of the facility as an agent of Lessee or otherwise, for a term or terms to expire prior to, at the same time, or subsequent to the original expiration date of this Lease, at Lessor's option, and receive the rent for such reletting. Rent so received shall be applied first to the payment of such expenses as Lessor may have incurred in connection with the recovery of possession, redecorating, altering, dividing, consolidation with adjoining premises, or otherwise changing or preparing for reletting, and the reletting, including brokerage and reasonable attorney's fees, and then to the payment of damages in amounts equal to the rent under this Agreement and to the cost and expenses of performance of the other covenants of Lessee as provided herein. Lessee agrees, in any such case, whether or not Lessor has relet, to pay to Lessor damages equal to the rent and other sums agreed to be paid by the Lessee on the several rent days specified. In reletting the Facility, Lessor may grant rent concessions, and Lessor shall not be credited with such concessions. No such reletting shall constitute a surrender and acceptance or be deemed evidence of surrender and acceptance. If Lessor elects, pursuant to this Agreement, actually to occupy and use the Facility or any part of the Facility during any part of the balance of the term as originally fixed or since extended, there shall be allowed against Lessee's obligation for rent of damages as defined here, during the period of Lessor's occupancy, the reasonable value of such occupancy, not to exceed in any event the rent reserves, and such occupancy shall not be construed as a relief of Lessee's liability under this Agreement.

Lessee, by this Agreement, waives all rights of redemption to which Lessee or any person claiming under Lessee might be entitled by any law now or which may later be in force. Lessor's remedies under this Agreement are in addition to any remedy allowed by law.

ARTICLE NINETEEN
EFFECT OF FAILURE TO INSIST ON STRICT COMPLIANCE WITH CONDITIONS

The failure of either party to insist on strict performance of any covenant or provision of this Agreement, or to exercise any option contained in this Agreement, shall not be construed as a waiver of such covenant, condition, or option in any other instance. This Lease cannot be changed or terminated orally.

ARTICLE TWENTY
COLLECTION OF RENT FROM ANY OCCUPANT

If the Facility is sublet or occupied by any party other than Lessee and Lessee is in default under this Agreement, or if this Lease is assigned by Lessee, Lessor may collect rent from the assignee, subtenant, or occupant, and apply the net amount collected to the rent reserved here. No such collection shall be deemed a waiver of the covenant against assignment and subletting, or the acceptance of such assigned, subtenant, and occupant as Lessee, or release from further performance of the covenants contained in this Lease.

ARTICLE TWENTY-ONE
SUBORDINATION OF LEASE

This Lease shall be subject and subordinate to all underlying leases and to mortgages and trust deeds which may now or later affect such leases or the real property of which the Facility forms a part, and also to all renewals, modifications, consolidations, and replacements of the underlying leases and the mortgages and trust deeds. Although no instrument or act on the part of Lessee shall be necessary to effectuate such subordination, Lessee will nevertheless execute and deliver further instruments confirming the subordination of this Lease as may be desired by holders of the mortgages and trust deeds or by any of the Lessors under such underlying leases. Lessee, by this Agreement, appoints Lessor attorney in fact, irrevocably, to execute and deliver any such instrument for Lessee. If any underlying lease to which this Lease is subject terminates, Lessee shall, on timely request, attorn to the owner of the reversion.

ARTICLE TWENTY-TWO
SECURITY DEPOSIT

Lessee shall deposit with Lessor on the signing of this Lease the sum of $_____as security for the performance of Lessee's obligations under this Lease, including without limitation the surrender of possession of the Facility to Lessor as provided in the Lease. If Lessor applies any part of the deposit to cure any default of Lessee, Lessee shall upon demand deposit with Lessor the amount applied so that Lessor shall have the full deposit on hand at all times during the term of this Lease.

ARTICLE TWENTY-THREE
LESSOR'S RIGHT TO CURE LESSEE'S BREACH

If Lessee breaches any covenant or condition of this Lease, Lessor may, on reasonable notice to Lessee, except that no notice need be given in case of emergency, cure such breach at the expense of Lessee. The reasonable amount of all expenses, including attorney's fees, incurred by Lessor in so doing, whether paid by Lessor or not, shall be deemed additional rent payable upon demand.

ARTICLE TWENTY-FOUR
MECHANIC'S LIEN

Lessee shall within ten (10) days after notice from Lessor discharge any mechanics' liens for materials or labor claimed to have been furnished to the Facility on Lessee's behalf.

ARTICLE TWENTY-FIVE
LESSOR'S RIGHT TO INSPECTION, REPAIR, AND MAINTENANCE

Lessor may enter the Facility at any reasonable time, upon adequate notice to Lessee, except that no notice need be given in case of emergency, for the purpose of inspection or the making of such repairs, replacements, or additions in, to, on and about the Facility or the building, as Lessor deems necessary or desirable. Lessee shall have no claim or cause of action against Lessor by reason of such entry except as provided in Article Thirty of the Agreement.

ARTICLE TWENTY-SIX
INTERRUPTION OF SERVICES OF USE

Interruption or curtailment of any service maintained in the building, if caused by strikes, mechanical difficulties, or any causes beyond Lessor's control, whether similar or dissimilar to those enumerated, shall not entitle Lessee to any claim against the Lessor or to any abatement in rent, and shall not constitute constructive of partial eviction, unless Lessor fails to talk such measures as may be reasonable under the circumstances to restore the service without undue delay. If the Facility is rendered untenantable in whole or in part, for a period of seven (7) business days, by the making of repairs, replacements, or additions, other than those made with Lessee's consent or caused by misuse or neglect by Lessee or Lessee's agents, servants, visitors, or licensees there shall be a proportionate abatement of rent during the period of untenantability. In no event shall Lessor's obligation for such payment exceed the actual pro-rated amount of rent otherwise due.

ARTICLE TWENTY-SEVEN
CONDITIONS OF LESSOR'S LIABILITY

Lessor shall not be entitled to claim a constructive eviction from the Facility unless Lessee has first notified Lessor in writing of the conditions giving rise to the eviction. If the complaints are justified, and Lessor has failed within a reasonable time after receipt of such notices to remedy such conditions, Lessee is entitled to claim a constructive eviction.

ARTICLE TWENTY-EIGHT
LESSOR'S RIGHT TO SHOW PREMISES

Lessor may show the Facility to prospective purchasers and mortgagees and, during the six months prior to the termination of this Lease, to prospective tenants, during business hours upon reasonable notice to Lessee, unless this Lease has been renewed.

ARTICLE TWENTY-NINE
EFFECT OF OTHER REPRESENTATIONS

No representations or promises shall be binding on the parties to this Agreement except those representations and promises contained in this Lease or in some future writing signed by a party making those representations or promises.

ARTICLE THIRTY
PEACEFUL ENJOYMENT

Lessor covenants that if, and so long as Lessee pays the rent, and any additional rent as provided in this Lease, and performs the covenants of this Lease, Lessee shall peaceably and quietly have, hold, and enjoy the Facility for the term mentioned here, subject to the provisions of this Lease.

ARTICLE THIRTY-ONE
LESSEE'S CERTIFICATION AS TO FORCE AND EFFECT OF LEASE

Lessee shall, from time to time, upon not less than ten (10) days prior written notice by Lessor, execute, acknowledge, and deliver to Lessor a written statement certifying that the Lease is unmodified and in full force and effect, or that the Lease is in full force and effect as modified and listing the instruments of modification; the dates to which the rents and other charges have been paid; and, whether or not to the best of Lessee's knowledge Lessor is in default under this Lease and, if so, specifying the nature of the default. It is intended that any such statement delivered pursuant to this Article may be relied upon by a prospective purchaser of Lessor's interest or assignee of any mortgage upon Lessor's interest in the Facility.

ARTICLE THIRTY-TWO
BINDING EFFECT ON SUCCESSORS AND ASSIGNS

The provisions of this Lease shall apply to, bind, and inure to the benefit of Lessor and Lessee, and their respective heirs, successors, legal representatives, and assigns. It is understood that the term "Lessor" as used in this Lease means only a term lessee of the building, so that in the event of any sale of the Facility, or of any lease of the Facility, or if a mortgagee shall take possession of the Facility, the Lessor named herein shall be entirely freed and relived of all covenants and obligations subsequently accruing under this Agreement. It shall be deemed without further agreement that the purchaser, the term lessee of the Facility, or the mortgagee in possession has assumed and agreed to carry out any and all covenants and obligations of the Lessor under this Agreement.

ARTICLE THIRTY-THREE
DISCLAIMERS

Lessee hereby accepts complete responsibility for the proper maintenance of all furniture and equipment. In no event shall Lessor be responsible for the repair or replacement of any equipment other than the bone densometer, furniture and/or floor covering. The property owner shall, however, be responsible for any and all necessary capital improvements.

ARTICLE THIRTY-FOUR
LEASE NOT BASED ON REFERRALS

All parties hereby agree that none of the terms of this Agreement are based, in whole or in part, upon the procurement of any referrals to or from any party. All physician providing services at the Facility on behalf of Lessee shall be members of Lessee's group practice for purposes of 42 U.S.C. 1395nn and F.S. 455.654, et seq., as amended. Moreover, compensation paid to such physician(s) shall not be made on the basis of the value or volume of referrals made by or to such physician(s). Each party agrees to indemnify the other for any and all violations, assessments, costs, expenses, damages, claims, settlements, and liabilities of any kind, including reasonable attorney's fees at all levels of litigation, which result from such party's own con-compliance with such laws. This Lease shall remain in full force and effect during any period of non-compliance.

ARTICLE THIRTY-FIVE
AMENDMENTS

This Agreement may be modified or amended only in writing executed by both parties.

ARTICLE THIRTY-SIX
GOVERNING LAW

The validity, construction and performance of this Agreement shall be governed and construed in accordance with the laws of the State of Florida. Any legal proceeding related to this Agreement shall be brought in a Florida state court located in Palm Beach County, Florida.

ARTICLE THIRTY-SEVEN
MEDIATION

The parties hereby agree to attempt to settle any and all disputes arising out of this Agreement through good faith attempts to settle such differences. Should any such disputes not be resolved through negotiation, both parties agree to submit such disputes to a certified court mediator prior to initiating any litigation. If a settlement is not reached within ninety (90) days of the submission of a case for mediation, either party may then initiate litigation related to such dispute.

ARTICLE THIRTY-EIGHT
SEVERABILITY

If any provision of this Agreement is found to be invalid or unenforceable under any applicable law, that provision shall be enforced to the extent permissible, and the remaining provisions of this Agreement shall remain in full force and effect.

ARTICLE THIRTY-NINE
NON-WAIVER

No failure or delay by either party in exercising any right or remedy under this Agreement shall waive any provision of this Agreement, nor shall any right or remedy under this Agreement preclude either party from otherwise or further exercising these rights or remedies, or any other rights or remedies granted by law or any related document.

ARTICLE FORTY
CAPTIONS

The headings in this Agreement are for convenience only and do not affect the interpretation of this Agreement.

provider services provided at any location at which Dr. Marder or ADSCC conducted business or provided any type of medical services.

RESPONSE:

Objection to this request as being overly broad and irrelevant to the plaintiff's claims.

44. All documents which mention, evidence or reflect communications between any defendant and any medical association, including but not limited to the American Society for Radiation Oncology (ASTRO), the American College of Radiology (ACR), the American Academy of Dermatology.

RESPONSE:

See documents provided in response to Requests #19 and 20.

45. All documents which mention, evidence or reflect communications or contact between counsel for any of the Defendants and any other defendant or any other defendants' counsel.

RESPONSE:

Objection to this request as being overly broad and irrelevant to the plaintiff's claims. Additionally, defendants object to this request as it is protected by the attorney work-product and joint defense counsel doctrines.

46. All documents which mention, evidence or reflect any communications between Dr. Marder and any entity to which he submitted any writings for publication.

RESPONSE:

See attached documents Bates numbered GM0243 – GM0250.

47. All documents which mention, evidence or reflect communications or contact between counsel for any of the Defendants and any third party regarding the coding, charting, documenting, billing, or delivery of radiation, pathology, or non-physician provider services.

RESPONSE:

Objection to this request as being overly broad and irrelevant to the plaintiff's claims. Additionally, defendants object to this request as it is protected by the attorney work-product and attorney work product doctrines.

ARTICLE FORTY-ONE
ENTIRE AGREEMENT

This Agreement constitutes the entire agreement between the parties hereto and supersedes all previous and contemporaneous oral and written negotiations, agreements, undertakings or other commitments. No covenant or condition not expressed in this Agreement or incorporated herein by reference shall affect or be effective to interpret, change, or restrict this Agreement.

ARTICLE FORTY-TWO
NOTICES

All notices and other communications required or permitted under this Agreement shall be in writing and shall be (i) hand-delivered, or (ii) sent by registered or certified first class mail, postage prepaid, or sent by nationally recognized express courier service. Such notices and other communications shall be effective upon receipt, and shall be sent to either party at the Facility.

ARTICLE FORTY-THREE
COUNTERPARTS

This Agreement may be executed in counterparts which, when combined either by original or facsimile, shall have the same force and effect as an original signed by both parties.

IN WITNESS WHEREOF, the parties have executed this Agreement on the day and year first above written.

Radiation Therapy

Dr. Gary L. Marder and associates at Marder Dermatology and Skin Cancer Center is the **only** State Licensed Dermatology Center from Orlando, FL to Ft. Lauderdale that specializes in Radiation Therapy for the treatment of skin cancers.Dr. Marder is the **most** experienced Dermatologist in the State of Florida having treated successfully with EXCELLENT cosmetic and curative results for over 45,000 non melanoma skin cancers with radiation therapy for the past 30 years.

Marder Dermatology offers **painless** Radiation Therapy with little to no side effects to those patients who do not want any surgery or disfiguring scars on their face, hands, ears nose, or any part of the body.

Advantages of Radiation Therapy

Radiation therapy detects and destroys any pre-cancerous, cancerous or other abnormal cells that have formed in and around the lesion, many of which would have gone undetected with normal surgical excision.

Fortunately, with the technology available today, radiation treatments leave most normal tissue unharmed, providing painless, cosmetically-pleasing results.

Patients can not see, smell, taste, hear or feel radiation treatment.

Our Specialties

Your daily radiation routine

Once Dr. Marder is done creating your unique treatment plan, your daily radiation routine will begin. Most of Dr. Marder's radiation therapy patients come to the Marder Dermatology and Skin Cancer Center for treatment everyday. Monday through Friday. Each lesion will be radiated accordingly to each treatment protocol daily. All of our patients continue to do all of their usual activities including walking, work, golf, and/or hobbies during their radiation treatment. Most importantly **no downtime occurs**.

In general, the most common side effect from radiation treatment is minimal skin irritation, which is an excellent sign that the treatments are working and treating any **Field of Cancerization** not seen by the naked eye. Treatments are offered at both of our locations, Port St. Lucie and Okeechobee, FL for our patients' convenience.

Our patients come to us daily from 7 different counties. We serve St. Lucie, Okeechobee, Martin, Indian River, Palm Beach, Hendry and Glades counties counties for a total population base of over 400,000 people.

Planning for your unique radiation treatment

Once you have decided to undergo radiation therapy, the planning for your specific treatment begins. Radiation therapy kills cancer by damaging DNA, causing cells to die at cell division. After the radiation kills the cancer, your body takes over and naturally eliminates the cancerous cells.

Many Patients have no side effects from radiation treatment.

Many patients have no side effects at all, but some patients do have mild side effects associated with the treatment area. Side effects vary from patient to patient and will depend mostly on the dose, the part of the body that is treated, and the patient's general health before treatment.

The most common side effects are itching and mild skin redness in the treatment area. The beauty of Board Certified Dermatologists is that, Dr. Marder and his associates have training to minimize all redness and itching and Dr. Marder is always available if you need him.

Radiation therapy can cause hair loss (alopecia), but only in the area being treated. For example, if the patient receives treatment to the spine, the patient will not lose hair on their head. However, radiation to the patient's head may cause the patient to lose some hair on their scalp. Most patients find that their hair grows back after the treatments are finished.

The most difficult aspect of radiation treatment is simply that it does require approximately 40 treatments in total which means treatment lasts anywhere from 4 to 5 weeks depending on the severity of the problem. Patients are encouraged to talk to Dr. Marder and obtain the specific details of their daily routine.

Skin Cancer Surgery

Testimonials

*Four weeks after radiation therapy **

Marder Dermatology Website
March 23, 2016

Marder Dermatology professionals will care for you during treatment.

During your daily routine, you will be cared for by many professionals in addition to Dr. Marder.

We are able to utilize Grenz Ray Therapy, which greatly helps in the treatment of psoriasis, Eczema of the hands and feet, Lichen Planus, Granuloma Annulare and Contact Dermatitis.

INDICTMENT

The Grand Jury charges that:

GENERAL ALLEGATIONS

At all times material to this Indictment,

The Medicare Program

1. The Medicare Program ("Medicare") was a federally funded program that provided free or below-cost health care benefits to certain individuals, primarily the elderly, blind, and disabled. The benefits available under Medicare were governed by federal statutes and regulations. The United States Department of Health and Human Services ("HHS"), through its agency, the Centers for Medicare and Medicaid Services ("CMS"), oversaw and administered Medicare. Individuals who received benefits under Medicare were commonly referred to as Medicare "beneficiaries."

2. Medicare was a "health care benefit program," as defined by Title 18, United States Code, Section 24(b) and a Federal health care program, as defined by Title 42, United States Code, Section 1320a-7b(f).

3. Medicare programs covering different types of benefits were separated into different program "parts." "Part A" of the Medicare program covered certain eligible home health care costs for medical services provided by a home health agency ("HHA"), also referred to as a "provider," to persons who already qualified for Medicare and who additionally required home health services because of an illness or disability that caused them to be homebound.

4. CMS did not directly pay Medicare Part A claims submitted by Medicare-certified HHAs. CMS contracted with different private companies to administer the Medicare Part A program throughout different parts of the United States. In the State of Florida, CMS contracted with Palmetto Government Benefits Administrators ("Palmetto"). As administrator, Palmetto was to receive, adjudicate and pay claims submitted by HHA providers under the Part A program for home health claims. Additionally, CMS separately contracted with companies in order to review HHA providers' claims data. CMS first contracted with TriCenturion, a Program Safeguard Contractor. Subsequently, on December 15, 2008, CMS contracted with SafeGuard Services, a Zone Program Integrity Contractor. Both TriCenturion and SafeGuard Services safeguarded the Medicare Trust Fund by reviewing HHA providers' claims for potential fraud, waste, and/or abuse.

5. Physicians, clinics and other health care providers, including HHAs, that provided services to Medicare beneficiaries were able to apply for and obtain a "provider number." A health care provider that received a Medicare provider number was able to file claims with Medicare to obtain reimbursement for services provided to beneficiaries. A Medicare claim was

required to set forth, among other things, the beneficiary's name and Medicare information number, the services that were performed for the beneficiary, the date that the services were provided, the cost of the services, and the name and provider number of the physician or other health care provider who ordered the services.

Part A Coverage and Regulations

Reimbursements

6. The Medicare Part A program reimbursed 100% of the allowable charges for participating HHAs providing home health care services only if the patient qualified for home health benefits. A patient qualified for home health benefits only if the patient:

(a) was confined to the home, also referred to as homebound;

(b) was under the care of a physician who specifically determined there was a need for home health care and established the Plan of Care ("P.O.C."); and

(c) the determining physician signed a certification statement specifying that the beneficiary needed intermittent skilled nursing, physical therapy, speech therapy, or a continued need for occupational therapy; the beneficiary was confined to the home; that a POC for furnishing services was established and periodically reviewed; and that the services were furnished while the beneficiary was under the care of the physician who established the P.O.C.

Record Keeping Requirements

7. Medicare Part A regulations required HHAs providing services to Medicare patients to maintain complete and accurate medical records reflecting the medical assessment and diagnoses of their patients, as well as records documenting the actual treatment of patients to whom services were provided and for whom claims for reimbursement were submitted by the HHA. These medical records were required to be sufficiently complete to permit Medicare,

through Palmetto and other contractors, to review the appropriateness of Medicare payments made to the HHA under the Part A program.

8. Among the written records required to document the appropriateness of home health care claims submitted under Part A of Medicare were a: (i) P.O.C. that included the physician order, diagnoses, types of services/frequency of visits, prognosis/rehab potential, functional limitations/activities permitted, medications/treatments/nutritional requirements, safety measures/discharge plans, goals, and the physician's signature; and (ii) a signed certification statement by an attending physician certifying that the patient was confined to his or her home and was in need of the planned home health services.

9. Medicare Part A regulations required provider HHAs to maintain medical records of every visit made by a nurse, therapist, and home health aide to a beneficiary. The record of a nurse's visit was required to describe, among other things, any significant observed signs or symptoms, any treatment and drugs administered, any reactions by the patient, any instruction provided to the patient and the understanding of the patient, and any changes in the patient's physical or emotional condition. The home health nurse, therapist, and aide were required to document the hands-on personal care provided to the beneficiary as the services were deemed necessary to maintain the beneficiary's health or to facilitate treatment of the beneficiary's primary illness or injury. These written medical records were generally created and maintained in the form of "clinical notes" and "home health aide notes/observations."

10. Medicare regulations allowed Medicare certified HHAs to subcontract home health care services to nursing companies, therapy staffing services agencies, registries, or groups (nursing groups), which would bill the certified home health agency. The Medicare certified HHA would, in turn, bill Medicare for all services rendered to the patient. The HHA's

professional supervision over subcontracted-for services required the same quality controls and supervision as of its own salaried employees.

The Defendants, Related Entities, and Co-Conspirators

11. Willsand Home Health Agency, Inc. ("Willsand") was incorporated on or about July 10, 2000, and did business in Miami-Dade County, Florida, purportedly providing home health care and physical therapy services to eligible Medicare beneficiaries.

12. JEM Home Health Care, LLC ("JEM") was a limited liability Florida corporation incorporated on or about May 29, 2003, and did business in Miami-Dade County, Florida, purportedly providing home health care and physical therapy services to eligible Medicare beneficiaries.

13. Healthy Choice Home Health Services Inc. ("Healthy Choice") was incorporated on or about October 4, 2007, and did business in Miami-Dade County, Florida, purportedly providing home health care and physical therapy services to eligible Medicare beneficiaries.

14. **JOSE AVILA**, a resident of ~~Miami-Dade~~ Broward County, was a medical doctor.

15. **MICHAEL BAHRAMI**, a resident of Miami-Dade County, was a medical doctor.

16. Co-Conspirator Khaled Elbeblawy, a resident of Broward County, was an office manager at Willsand, an owner of JEM, and an owner/manager of Healthy Choice.

17. Co-conspirator Eulises Escalona, a resident of Monroe County, was an owner of Willsand and JEM.

18. Co-conspirator Cynthia Vilches, a resident of Broward County, was an owner of Healthy Choice.

COUNT 1
Conspiracy to Defraud the United States and Receive Health Care Kickbacks
(18 U.S.C. § 371)

1. Paragraphs 1 through 18 of the General Allegations section of the Indictment are re-alleged and incorporated by reference as though fully set forth herein.

2. From in or around May of 2006, and continuing through in or around March of 2012, in Miami-Dade County, in the Southern District of Florida, and elsewhere, the defendants,

JOSE AVILA and
MICHAEL BAHRAMI,

did willfully, that is, with the intent to further the objects of the conspiracy, and knowingly combine, conspire, confederate, and agree with Khaled Elbeblawy, Eulises Escalona, Cynthia Vilches, each other, and with others known and unknown to the Grand Jury, to commit certain offenses against the United States, that is:

a. to defraud the United States by impairing, impeding, obstructing, and defeating through deceitful and dishonest means, the lawful government functions of the United States Department of Health and Human Services in its administration and oversight of the Medicare program, in violation of Title 18, United States Code, Section 371; and to commit an offense against the United States, that is:

b. to knowingly and willfully solicit and receive remuneration, including kickbacks and bribes, directly and indirectly, overtly and covertly, in cash and in kind, in return for referring an individual to a person for the furnishing and arranging for the furnishing of any item and service for which payment may be made in whole and in part by a Federal health care program, that is, Medicare, in violation of Title 42, United States Code, Section 1320a-7b(b)(1)(A).

PURPOSE OF THE CONSPIRACY

3. It was a purpose of the conspiracy for **JOSE AVILA**, **MICHAEL BAHRAMI** and their co-conspirators to unlawfully enrich themselves by, among other things: (1) soliciting and receiving kickbacks and bribes in return for referring Medicare beneficiaries to various HHAs to serve as patients; (2) submitting and causing the submission of claims to Medicare for home health services that the HHAs purportedly provided to those beneficiaries; and (3) to use the Medicare payments to pay the kickbacks and further the conspiracy.

MANNER AND MEANS OF THE CONSPIRACY

The manner and means by which the defendants and their co-conspirators sought to accomplish the objects and purpose of the conspiracy included, among other things:

4. **JOSE AVILA** and **MICHAEL BAHRAMI** received kickbacks from co-conspirators at Willsand, JEM, and Healthy Choice in exchange for referring Medicare beneficiaries to serve as patients at Willsand, JEM and Healthy Choice.

5. **JOSE AVILA**, **MICHAEL BAHRAMI**, and their co-conspirators caused Willsand, JEM and Healthy Choice to submit claims to Medicare for home health services purportedly provided to the recruited beneficiaries.

6. As a result of these claims, **JOSE AVILA** and **MICHAEL BAHRAMI** caused Medicare to make payments to Willsand, JEM, and Healthy Choice for home health services purportedly provided to Medicare beneficiaries, which payments were then used to continue the conspiracy.

OVERT ACTS

In furtherance of the conspiracy, and to accomplish its objects and purpose, at least one of the co-conspirators committed and caused to be committed in the Southern District of Florida

at least one of the following overt acts, among others.

1. On or about March 3, 2010, **JOSE AVILA** referred patient L.C. to Healthy Choice.

2. On or about March 4, 2010, **JOSE AVILA** referred patient I.G. to Healthy Choice.

3. On or about March 10, 2010, **JOSE AVILA** referred patient S.D. to Healthy Choice.

4. On or about March 10, 2010, **MICHAEL BAHRAMI** referred patient N.L. to Healthy Choice.

5. On or about June 1, 2010, Cynthia Vilches caused Healthy Choice to submit a claim to Medicare in the approximate amount of $6,700 for patient N.L., listing **MICHAEL BAHRAMI** as the referring physician.

6. On or about March 6, 2011, **MICHAEL BAHRAMI** referred patient A.R. to Healthy Choice.

7. On or about April 16, 2011, **MICHAEL BAHRAMI** referred patient P.R. to Healthy Choice.

8. On or about May 14, 2011, **MICHAEL BAHRAMI** referred patient F.P. to Healthy Choice.

9. On or about June 24, 2011, **MICHAEL BAHRAMI** referred patient S.G. to Healthy Choice.

10. On or about June 24, 2011, **JOSE AVILA** referred patient L.C. to Healthy Choice.

11. On or about June 27, 2011, **MICHAEL BAHRAMI** continued to allow his name

to be used as the referring physician resulting in **MICHAEL BAHRAMI** and Cynthia Vilches causing Healthy Choice to submit a claim to Medicare in the approximate amount of $2,800 for patient A.R.

12. On or about July 1, 2011, **MICHAEL BAHRAMI** continued to allow his name to be used as the referring physician resulting in **MICHAEL BAHRAMI** and Cynthia Vilches causing Healthy Choice to submit a claim to Medicare in the approximate amount of $2,500 for patient P.R.

13. On or about July 1, 2011, **MICHAEL BAHRAMI** continued to allow his name to be used as the referring physician resulting in **MICHAEL BAHRAMI** and Cynthia Vilches causing Healthy Choice to submit a claim to Medicare in the approximate amount of $1,200 for patient F.P.

14. On or about August 5, 2011, **MICHAEL BAHRAMI** continued to allow his name to be used as the referring physician resulting in **MICHAEL BAHRAMI** and Cynthia Vilches causing Healthy Choice to submit a claim to Medicare in the approximate amount of $2,300 for patient S.G.

15. On or about August 25, 2011, **JOSE AVILA** continued to allow his name to be used as the referring physician resulting in **JOSE AVILA** and Cynthia Vilches causing Healthy Choice to submit a claim to Medicare in the approximate amount of $2,000 for patient L.C.

16. On or about August 26, 2011, Khaled Elbeblawy withdrew approximately $7,500 in cash from an account he held at Chase Bank.

17. On or about October 5, 2011, Cynthia Vilches negotiated a check, numbered 1799, in the approximate amount of $7,~~500~~ 200, written from Healthy Choice's bank account to Cynthia Vilches.

18. On or about October 6, 2011, Cynthia Vilches withdrew approximately $3,500 in cash from an account she and Khaled Elbeblawy held at Chase Bank.

19. On or about October 6, 2011, Khaled Elbeblawy withdrew approximately $3,500 in cash from an account he and Cynthia Vilches held at Chase Bank.

20. On or about October 21, 2011, **JOSE AVILA** referred patient I.G. to Healthy Choice.

21. On or about November 16, 2011, **JOSE AVILA** referred patient S.D. to Healthy Choice.

22. On or about December 31, 2011, **JOSE AVILA** continued to allow his name to be used as the referring physician resulting in **JOSE AVILA** and Cynthia Vilches causing Healthy Choice to submit a claim to Medicare in the approximate amount of $1,800 for patient I.G.

23. On or about March 23, 2012, **JOSE AVILA** continued to allow his name to be used as the referring physician resulting in **JOSE AVILA** and Cynthia Vilches causing Healthy Choice to submit a claim to Medicare in the approximate amount of $2,700 for patient S.D.

All in violation of Title 18, United States Code, Section 371.

COUNT 2
Receipt of Kickbacks in Connection with a Federal Health Care Program
(42 U.S.C. § 1320a-7b(b)(1)(A))

1. Paragraphs 1 through 14 of the General Allegations section of the Indictment are re-alleged and incorporated by reference as though fully set forth herein.

2. On or about January 6, 2014, in Miami-Dade County, in the Southern District of Florida, and elsewhere, the defendant,

JOSE AVILA,

did knowingly and willfully solicit and receive remuneration, that is, kickbacks and bribes, directly and indirectly, overtly and covertly, in cash and in kind, in return for referring an individual to a person for the furnishing and arranging for the furnishing of any item and service for which payment may be made in whole and in part by a federal health care program, that is, Medicare, as set forth below:

Count	Approximate Date of Payment	Approximate Amount
2	January 6, 2014	$1,600

In violation of Title 42, United States Code, Section 1320a-7b(b)(1)(A) and Title 18, United States Code, Section 2.

FORFEITURE
(18 U.S.C. § 982)

1. The allegations contained in this Indictment are re-alleged and incorporated by reference as though fully set forth herein for the purpose of alleging forfeiture to the United States of America of certain property in which the defendants, **JOSE AVILA** and **MICHAEL BAHRAMI** have an interest.

2. Upon conviction of a violation of Title 18, United States Code, Section 371, as alleged in this Indictment, the defendants, **JOSE AVILA** and **MICHAEL BAHRAMI**, shall forfeit to the United States any property, real or personal, that constitutes or is derived, directly or indirectly, from gross proceeds traceable to the commission of the offense pursuant to Title 18, United States Code, Section 982(a)(7).

3. The property which is subject to forfeiture includes, but is not limited to, the sum of approximately $430,000, as to **JOSE AVILA** and approximately $515,000 as to **MICHAEL BAHRAMI**, which sums represent the gross proceeds of the offenses alleged in the Indictment.

4. If any of the property described above, as a result of any act or omission of the defendant:

a. cannot be located upon the exercise of due diligence;

b. has been transferred or sold to, or deposited with, a third party;

c. has been placed beyond the jurisdiction of the court;

d. has been substantially diminished in value; or

e. has been commingled with other property which cannot be divided without difficulty,

the United States of America shall be entitled to forfeiture of substitute property pursuant to Title 21, United States Code, Section 853(p), as incorporated by Title 18, United States Code, Section 982(b)(1).

All pursuant to Title 18, United States Code, Section 982(a)(7), and the procedures set forth in Title 21, United States Code, Section 853, made applicable by Title 18, United States Code Section 982(b)(1).

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF IOWA

UNITED STATES OF AMERICA,	)	Criminal No. 4:16-cr-157
v.	)	**INFORMATION**
RICHARD LEE HAUSER, M.D.,	)	T. 18 U.S.C. § 1347 T. 18 U.S.C. § 2
Defendant.	)	

THE UNITED STATES ATTORNEY CHARGES:

INTRODUCTORY ALLEGATIONS

At all times material to the Information:

The Defendant

1. The Defendant, RICHARD LEE HAUSER, M.D., was a doctor of medicine, licensed to practice in the state of Iowa.

2. The Defendant, RICHARD LEE HAUSER, M.D., was a board-certified psychiatrist. A psychiatrist is a medical doctor who specializes in mental health, including the diagnosis and treatment of mental disorders.

3. The Defendant, RICHARD LEE HAUSER, M.D., obtained his medical degree from the University of Iowa in 1975.

4. Between 1988 and 1992, the Defendant, RICHARD LEE HAUSER, M.D., was a resident in Psychiatry at the University of Iowa.

5. Between 1992 through 1996 Defendant Hauser was the Medical Director of the Jackson Addiction Center in Sioux City, Iowa.

6. From during or about October 2008, and continuing to about August 30, 2013, the Defendant, RICHARD LEE HAUSER, M.D., ran a clinic at 615 Horseshoe Drive in Grinnell,

Iowa, operating under the name Prevention Systems, Inc. and doing business more commonly under the name The Hauser Clinic.

7. During or about that time, Defendant, RICHARD LEE HAUSER, M.D., would also travel to a satellite location in Pella, Iowa, to provide medical services there.

Health Care Benefit Programs

8. A "health care benefit program" is defined as, "any public or private plan or contract, affecting commerce, under which any medical benefit, item, or service is provided to any individual, and includes any individual or entity who is providing a medical benefit, item, or service for which payment may be made under the plan or contract." 18 U.S.C. § 24(b).

9. The State of Iowa Medicaid program ("Iowa Medicaid") is a federal health care program that provides basic medical coverage, including mental and behavioral health coverage, for needy and indigent persons. The United States funds over 50% of the Iowa Medicaid program. At all times material, the Defendant, RICHARD LEE HAUSER, M.D., was a provider of Medicaid services.

10. At all times material, the mental and behavioral health services covered by Iowa Medicaid were administered by a managed care organization called Magellan Behavioral Care of Iowa, Inc. ("Magellan").

11. Wellmark Blue Cross and Blue Shield of Iowa (hereafter referred to as "Wellmark"), is an Iowa mutual insurance company providing health care benefits to covered members. At all times material, the Defendant, RICHARD LEE HAUSER, M.D., was a participating physician with Wellmark.

Reimbursement for Services

12. Reimbursement requests for medical services are made using a Health Insurance Claim Form (HCFA 1500). Each claim form submitted for reimbursement requires the diagnosis,

date of service, procedure code, type of services provided, charges, name of the physician providing the services, and a designation of the selected method of reimbursement. HCFA 1500 forms may be submitted electronically to the health care benefit program. Once the health care benefit program receives the claim for reimbursement, it reviews the claim and, if deemed appropriate, issues a reimbursement for the amount of the covered service to the provider, such as the Defendant, RICHARD LEE HAUSER, M.D.

13. Federal health care programs and private insurance companies require physicians to keep written medical records which accurately and truthfully describe the services rendered to the patient, patient histories, pertinent findings and examination results, test results, and bona fide recommendation for services to be rendered to the patient. These written medical records serve as documentary support for the HCFA 1500 claim forms submitted to a health care program.

CPT Codes/Medical Terminology

14. The American Medical Association publishes *Current Procedural Terminology*, otherwise known as CPT codes. The CPT coding system is a listing and coding of medical procedures and services performed by physicians. The purpose of the CPT code is to provide a uniform language that accurately describes medical, surgical and diagnostic services. Federal health care programs and private insurance companies use CPT codes in determining the amount of reimbursement a physician is entitled to for a particular service.

15. The CPT codes were revised effective January 1, 2013. However, at all times relevant to this Information, the prior edition of CPT codes was applicable and provided as detailed below.

16. CPT Code 90805 covered individual outpatient psychotherapy with medication evaluation/management with those services requiring 20-30 minutes of face-to-face time with the physician.

17. Psychotherapy is commonly referred to as "talk therapy." The definition of psychotherapy in the CPT is a process via communication where the practitioner, "...attempts to alleviate the emotional disturbances, reverse or change maladaptive patterns of behavior, and encourage personality growth and development."

18. Medication evaluation/management involves evaluating a patient in light of the medications being taken by the patient and adjusting the medication regimen as needed to achieve the desired outcomes, address the applicable behavioral health conditions, and minimize side effects.

19. CPT Code 90807 covered individual outpatient psychotherapy with medication evaluation/management with those services requiring 45-50 minutes of face-to-face time with the physician.

20. CPT Code 90862 covered pharmacologic management, that is, medication evaluation/management, with no more than minimal individual psychotherapy being provided.

21. CPT Code 90807 was reimbursed at a rate higher than CPT Code 90805.

22. Both CPT Code 90807 and CPT Code 90805 were reimbursed at a rate higher than CPT Code 90862.

Audits of The Hauser Clinic

23. On or about November 7, 2011, Magellan performed an on-site oversight review at The Hauser Clinic. The purpose of the review was to follow up on findings made in September of that year.

24. On or about November 8, 2011, Magellan notified the Defendant, RICHARD LEE HAUSER, M.D., that Defendant's billing procedures must be corrected as soon as possible so that the Defendant's billing reflects the service actually provided by the Defendant to the patient and the time actually spent with the patient. Specifically, Magellan noted that the Defendant

informed Magellan at the review that the typical 90807-coded service is scheduled at Defendant's clinic every 15 minutes. Magellan advised Defendant that a 90807-coded service is for 45-50 minutes of psychotherapy with evaluation/management and it was important for Defendant to justify that code if he is submitting bills for a 90807-coded service.

25. On or about May 8, 2012, Wellmark notified the Defendant, RICHARD LEE HAUSER, M.D., that it had conducted a post payment review of medical records for select Wellmark members who had been seen by the Defendant from January 5, 2011, through December 19, 2011. The Defendant was notified that the review found in all cases the medical records did not support CPT code 90807 despite Defendant's submissions for reimbursement under CPT 90807. Wellmark informed Defendant that CPT Code 90807 requires the physician provide individual psychotherapy with approximately 45-50 minutes face to face with the patient with medical and evaluation management services. Instead, Wellmark stated to the Defendant that the records support CPT code 90862 which reflects pharmacologic management, including prescription, use, and review of medication with no more than minimal medical psychotherapy. Wellmark advised the Defendant that it noted that a number of his patients were receiving individual psychotherapy from a provider other than Defendant.

SCHEME TO DEFRAUD

26. Beginning on a date unknown, but by at least November 8, 2011, and continuing to at least on or about December 31, 2012 in the Southern District of Iowa, the Defendant, RICHARD LEE HAUSER, M.D., did devise, participate in and intend to devise a scheme and artifice to obtain, by means of materially false and fraudulent representations, money and property owned by, and under the custody and control of health care benefit programs, including benefits provided by Iowa Medicaid and Wellmark, in connection with the delivery of and payment for health care benefits, items and services, which is a violation of Title 18, United

States Code, Section 1347.

EXECUTION OF THE SCHEME

The scheme to defraud as set forth above was carried out in the following manner, among others:

27. It was part of the scheme that the Defendant, RICHARD LEE HAUSER, M.D., would submit and cause to be submitted claims to health care benefit programs misrepresenting the service provided by charging for a more expensive service which was not, in fact, performed, for the purpose of increasing the amount of reimbursement received.

28. It was further part of the scheme that the Defendant, RICHARD LEE HAUSER, M.D., would routinely submit and cause to be submitted to health care benefit programs, claims for CPT code 90807 (individual outpatient psychotherapy with medication evaluation/management with those services requiring 45-50 minutes of face-to-face time with the physician), when in fact, Defendant, RICHARD LEE HAUSER, M.D., was not providing psychotherapy to nor providing 45-50 minutes of face-to-face time with the patients. Instead, Defendant, RICHARD LEE HAUSER, M.D., was providing medication evaluation/management services and said services required a significantly shorter time than 45-50 minutes.

29. It was further part of the scheme that the Defendant, RICHARD LEE HAUSER, M.D., would routinely submit and cause to be submitted to health care benefit programs, claims for CPT code 90805 (individual outpatient psychotherapy with medication evaluation/management with those services requiring 20-30 minutes of face-to-face time with the physician), when in fact, Defendant, RICHARD LEE HAUSER, M.D., was not providing psychotherapy to nor providing 20-30 minutes of face-to-face time with the patients. Instead, Defendant, RICHARD LEE HAUSER, M.D., was providing medication evaluation/management services and said services required a shorter time than 20-30 minutes.

30. The Hauser Clinic utilized a scheduling system by Valant software. Patients were routinely scheduled every 15 minutes throughout the work day. Defendant, RICHARD LEE HAUSER, M.D. made the decision as to which billing codes were submitted to third party payers such as Wellmark and the Iowa Medicaid program. At the end of the work day Defendant, RICHARD LEE HAUSER, M.D. would give his office manager, the daily schedule with his notations as to what CPT codes to bill for each patient on the schedule. The Hauser Clinic office manager would then submit claims for reimbursement to the applicable insurance providers, including Wellmark and Medicaid.

31. At times, Defendant, RICHARD LEE HAUSER, M.D. would see siblings at the same time and request reimbursement from the insurers as if he were seeing each patient individually.

32. Defendant, RICHARD LEE HAUSER, M.D. recommended that many of his patients receive talk therapy from other providers

33. After being notified on November 8, 2011, that he was improperly billing 90807 (i.e., up coding) RICHARD LEE HAUSER, M.D. continued to seek reimbursement from Wellmark at least 804 times under CPT code 90807.

34. After being notified on November 8, 2011, that he was improperly billing 90807 (i.e., up coding) RICHARD LEE HAUSER, M.D. continued to seek reimbursement from the Iowa Medicaid program at least 332 times under CPT code 90805.

35. As a result of Defendant's fraudulent scheme, the Defendant received monetary payments from the health care benefit programs for services not performed.

COUNTS 1 - 2
(Health Care Fraud)

36. The allegations set forth in paragraphs 1- 35 of the Introduction, Scheme to Defraud and Execution of the Scheme are hereby re-alleged and incorporated herein by reference.

37. On or about the following dates, in the Southern District of Iowa, the Defendant, RICHARD LEE HAUSER, M.D., did knowingly and willfully execute and attempt to execute a scheme and artifice to defraud the health care benefits programs listed below, in connection with the delivery of and payment for health care benefits, items and services, in that defendant billed for services not actually performed, but for which Prevention Systems, Inc. d/b/a The Hauser Clinic would be paid more money:

Count	Date of Service	Insurer	Patient	Procedure Billed
1	May 9, 2012	Medicaid	C.D.	90805 – Individual psychotherapy w/ med management (20-30 min.)
2	May 30, 2012	Wellmark	T.C.	90807 – Individual psychotherapy w/ med management (45-50 min.)

These are violations of Title 18, United States Code, Sections 1347 and 2.

DISCLAIMER

1. The information contained in this manual has been developed as an educational resource and reference manual, and is not intended to be legal or accounting advice. Individual practices should consult with legal counsel and other experts in developing their own compliance program.
2. The model compliance program and forms provided herein are samples, and will not be appropriate for every practice. The sample compliance plan and other material must be adapted to the particular facts and circumstances of each physician practice and will vary depending upon a variety of factors, such as size and financial state of the practice, the nature of its referral relationships, or whether the practice is affiliated with a hospital or university.
3. This manual only addresses compliance with federal fraud and abuse laws. It does not address numerous other state or federal laws and regulations affecting dermatology practices.
4. Every effort has been made to represent information that is current and accurate. The content of this material has not been endorsed or approved by any government agency or the American Academy of Dermatology.
5. Users are advised that this manual does not replace or supersede local or national Medicare policy disseminated in the monthly Medicare carrier bulletins or other official transmittals. It also does not replace billing policies and guidelines established by managed care organizations or other insurance companies or account for variations between carriers, insurance companies or managed care organizations. The user should always consult with the local contracted entity to obtain final interpretations regarding billing rules and regulations.
6. This material is based on information available from Congress and federal Medicare authorities at the time of publication. Further communications by the government or Medicare carriers may render portions of this material out of date. Because the laws and regulations in this area are constantly changing, practitioners must keep themselves informed of changes on an ongoing basis.
7. The publisher and the American Academy of Dermatology disclaim any liability arising out of the use of this manual or for any adverse outcome from the application of this information for any reason, including but not limited to the reader's misunderstandings or misinterpretations of the information contained within this manual. The information provided in this manual should not serve as a substitute for consulting with an attorney or other experts.

INTRODUCTION

This manual is an important tool to assist you in your effort to comply with Medicare and third party payors to avoid or reduce potential fines and sanctions.

Though at this time the implementation of a Dermatology Compliance Program in your office is voluntary, in an open letter to health care providers dated 3-3-97 from June Gibbs Brown, Inspector General, the following statement was made:

> *"When fraud is discovered, both the Department of Justice and my office look at the entity to see if reasonable efforts have been made by management to avoid and detect any misbehavior that occurs within their operations. We use this analysis to determine the level of sanctions, penalties, and exclusions that will be imposed upon the provider."*

The presence of a compliance program, demonstratively executed and maintained, could mean the difference between an advisory "cease", a slap on the wrist, a minor payback, or severe penalties, fines, and sanctions.

DEFINITIONS

Fraud is defined by the Health Care Financing Administration as "Knowingly and willfully executing, or attempting to execute, a scheme or artifice against the Medicare program."

Abuse is defined by the Health Care Financing Administration as "Unknowingly defrauding the Medicare program by gaining payment for items or services when there is no legal entitlement to the payment," and "Failing to meet professionally recognized standards of care, or failing to provide medically necessary services for Medicare patients."

©1999, Inga Ellzey Practice Group, Inc.

MEDICARE COMPLIANCE vs. DERMATOLOGY COMPLIANCE

Many of you will notice that the Compliance Program you have received is no longer referred to as the ***Medicare Compliance Program.*** It is simply referred to as the ***Dermatology Compliance Program.***

Many physicians are under the incorrect impression that they are only liable under the Medicare program for fraud and abuse. The belief that only Medicare can fine, sanction and/or imprison offenders of the system is a far cry from the truth. Medicare is working together with the private insurance industry to reduce (and hopefully eliminate) fraud and abuse by providers of care. Under the Health Insurance Portability and Accountability Act (HIPAA), the Office of the Inspector General (OIG) has made available to all third party payers the same resources utilized by Medicare to identify fraud and abuse and punish offenders.

HIPAA requires the Secretary of Health and Human Services (HHS) to promulgate standards to comply with administrative simplification provisions of the law to improve Medicare and Medicaid programs, and the efficiency and effectiveness of the health care system.

By implementing a National Provider Identifier, carriers will be able to share data. Fined and/or sanctioned providers can be readily identified by any carrier; not just Medicare or Medicaid. Medicare and the private carriers already share software that can identify unbundling. Other proposed rules are in the workings to make the insurance industry as a whole more aware of fraud and abuse.

This Compliance Program, when properly implemented and monitored, will assure that your practice is not only compliant with federal programs but with all third-party carriers who pay for your medical claims.

DOCUMENTING YOUR COMPLIANCE PROGRAM

This manual is intended to serve as a guide to developing your own internal Dermatology Compliance Program. It is intended that you photocopy the forms and policies in this manual and incorporate them into your own Compliance Manual. We suggest using a 3-ring binder divided according to the sections of this manual.

This program is only as effective as your willingness to develop, record, and document your efforts. An auditor is only willing to look at documented facts. Verbal acknowledgment of compliance efforts is not acceptable in the eyes of an auditor. Compliance is very simple... follow the steps outlined in this manual, and document, document, document!

©1999, Inga Ellzey Practice Group, Inc.

I. PURPOSE and SCOPE:

Effective Date:___/___/___

A. The purpose of this Dermatology Compliance Program is to:

1. Assure that all persons associated with this medical entity in which health care is provided to the Medicare beneficiary are dedicated to complying with all Medicare rules and regulations in order to avoid waste, fraud, and abuse.
2. Provide officers and employees of this entity accurate and timely information regarding the rules and regulations of the Medicare program.
3. Assure that information is assimilated and understood by the appropriate departments and individuals.
4. Set forth the mechanism of early discovery of errors, omissions, or misconduct so that the issue can be investigated, understood, and appropriately corrected.
5. Provide all persons associated with this health-care entity a mechanism through which to report any conduct or billing practice seen that is suspect of violations, and to do so anonymously and without fear of reprisal.

B. The scope of this Dermatology Compliance Program includes:

1. All principals, officers, licensed and certified health care providers (Physicians, Physician Assistants, Registered Nurses, Licensed Vocational Nurses, Certified Medical Assistants, Histotechnologists), ancillary staff, billing and insurance staff, office staff, and any other individual who conducts business under the umbrella of this organization shall be subject to this program.

II. COMPLIANCE OFFICER

Effective Date:___/___/___

This health care delivery facility will designate a person to serve as Compliance Officer. This person shall be:

A. an individual hired for the specific position of Compliance Officer, or

B. a person who fills other roles in the office, such as the:

1. Surgical Supervisor
2. Office Manager
3. Billing Supervisor
4. Clinical Supervisor
5. Physician
6. Office Administrator

A Committee could be established to work with the Compliance Officer if the practice size necessitates more extensive involvement.

C. The Compliance Officer/Committee:

1. Shall have a direct responsibility and open access to the governing body of this organization.
2. Shall maintain a roster of every employee covered under the scope of this policy. The roster includes:

   a. name
   b. identification number (Social Security Number)
   c. dates of employment
   d. signature and initials

3. Shall establish and maintain reliable sources of information regarding Medicare rules and regulations.
4. Shall provide and document education and training of all persons covered under the scope of this policy regarding rules and regulations of the Medicare program.
5. Shall maintain a record that documents communication, education, and training of Medicare rules and regulations, especially as they pertain to waste, fraud, and abuse for each person covered under the scope of this policy.
6. Shall maintain an open door policy to all persons covered under the scope of this policy.

©1999, Inga Ellzey Practice Group, Inc.

Job Description - Compliance Officer

A. Reports directly to the governing body of this organization.

B. Has direct access to the governing body:

1. for reporting the state of the Dermatology Compliance Program;
2. for direction and guidance regarding any compliance issue or policy manual procedural changes;
3. for problem solving; and
4. for development of corrective action processes.

C. The Compliance Officer Is empowered by the governing body of this organization with authority to perform the following responsibilities.

1. Develop and distribute all written policies regarding Compliance; material(s) developed for distribution must be understandable. Materials must be translated into appropriate language if needed.

2. To oversee the Dermatology Compliance Program, the Compliance Officer is responsible for:

   a. receiving, understanding, and retaining pertinent information communicated in all bulletins from Medicare, HCFA, OIG, or other federal entity;
   b. distributing all information to appropriate person(s);
   c. overseeing any manager or supervisor to whom the responsibility of direct education of others has been delegated;
   d. keeping records of educational sessions, employee testing, attendance and conferences; and
   e. initiating corrective action regarding infractions discovered or learned with the appropriate individual or department.

3. To achieve and maintain compliance in all areas through:

   a. education
   b. monitoring
   c. communication
   d. appropriate and effective compliance plans

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology

D. Has "Open Door Policy" that affords any and every employee:

1. Open access to report/discuss any issue regarding compliance.

   a. Employee is assured complete anonymity.
   b. Employee is assured immunity against retribution, assuming that they are not responsible for the violation.
   c. Employee is assured corrective action if errors or misconduct is discovered.

E. Will interview with employees regarding:

   1. their need for further education,
   2. their compliance with policies, and
   3. "the Open Door Policy."

F. Monitors all supervisors activity as it relates to Compliance.

G. Develops corrective mechanisms when errors or misunderstandings are discovered.

H. Develops and implements educational programs as outlined in Section IV of this manual.

I. Maintains approved revisions to the policy manual.

J. Responsible for baseline testing of all employees on the following schedule:

1. at beginning of program,
2. within 30 days of their employment for new recruits,
3. yearly thereafter, and
4. at any time special education is needed.

K. Responsible for Medical Record Audits

1. 20 medical records per provider will be evaluated quarterly.
2. Match documentation with the codes selected that represent the service provided and determine appropriateness of selection.
3. Evaluate record to ascertain the service(s) provided were:

   a. medically necessary,
   b. coded properly, and
   c. documented properly.

©1999, Inga Ellzey Practice Group, Inc.

4. Accompany the provider of care to witness procedures performed in order to ascertain the code(s) selected not only is documented in the medical record correctly, but fairly represents the procedure performed.

   a. Advise providers of deficiencies or inaccuracies:

      (1) in writing, and
      (2) in conference.

   b. Educate providers in area of deficiencies, inaccuracies, misunderstandings.
   c. Monitor providers to ascertain correct application of remedial education and compliance to rules and regulations.
   d. Take appropriate action if deficiencies, inaccuracies, misunderstandings are not corrected.

5. The following tools are available and advised to facilitate and increase knowledge and competency in the areas of compliance issues such as medical necessity, and avoidance of waste, fraud, and abuse.

   a. _____

   b. _____

   c. _____

   d. _____

   e. _____

   f. _____

   g. _____

L. Responsible for maintaining a record on each employee covered under the scope of this program containing proof of:

1. completion of baseline testing,
2. continuing education,
3. counseling sessions,
4. conferences, and
5. evaluation of the compliance process.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

M. Responsible for maintaining records regarding:

1. meetings with any provider,
2. meetings with the governing body, and
3. minutes of all compliance meetings/sessions.

N. Responsible for maintaining:

1. records that apply to any questionable behavior or misconduct of any person under the scope of this policy; and
2. records regarding any investigation of any compliance issue.

O. Compliance Program maintenance:

1. Elements of the Compliance Program must be reviewed and updated quarterly.
2. Risk assessment should be performed quarterly.
3. Results of quarterly analysis should be reviewed with staff.

    a. Deficiencies should be reported and appropriate steps should be outlined to correct the problems.
    b. Staff and physicians that are not in compliance or are marginal in their understanding of policies need to be retrained. Record the deficiencies and the steps taken to correct them.

III. RISK ASSESSMENT

The following duties are to be completed by the Compliance Officer upon implementation of the Compliance Program and quarterly thereafter.

A. Overall evaluation of the company:

1. Evaluate billing processes.
2. Evaluate human resources.

   a. Are you in compliance with local, State, and federal regulations regarding discrimination, harassment, etc?
   b. Are your employees eligible to bill for Medicare? Medicare publishes a list of physicians and individuals who are excluded from interacting with Medicare (i.e., providing or billing for services). Lists of excluded employees can be checked on the internet.

      http://www.dhhs.gov/progorg/oig/cumsan/index.htm

3. Computers and software:

   a. Are your systems Y2K compliant?
   b. Is your billing program compliant with current CPT and ICD-9 coding procedures?
   c. Are your fee schedules current?

4. Evaluate joint ventures and business relationships:

   a. Are you in potential violation of any Stark regulations?

B. Survey key people involved in the Compliance Program:

1. Are they aware and do they understand the key elements of the Compliance Program?
2. Give benchmark test (first 3 months). See "Test" Section of this manual.
3. Retest annually.
4. Be sure they understand the importance of maintaining compliance oriented policies and procedures.

C. Review Policies and Procedures:

1. claims submission process
2. credit balances (patient)
3. integrity of data systems

4. retention of records
5. review contracts
6. overpayment

D. Medical Record Audit (see Section VI of this manual):

E. Review and record licensure and certifications:

1. coders
2. billers
3. doctors
4. CLIA certification
5. business license
6. facility license
7. Medicare and Medicaid provider numbers

F. Perform a confidentiality survey:

1. Have all of the staff members who are exposed to confidential patient information signed a statement of confidentiality?

2. Are electronic records and information secured with a password?

   a. Are checks and balances in place to eliminate embezzlement? Be sure that your system does not allow cash payments to be reverse posted and eliminated from the system.

3. Record retention and storage:

   a. Records must be stored for a minimum of 7 years.
   b. Obsolete (records with no activity for at least 7 years) may be stored off-site, archived electronically, or destroyed.

      (1) Records that are destroyed should be disposed of via a method that preserves confidentiality (i.e., burned, or shredded).
      (2) Obtain a receipt certifying the destruction method and the date the records were destroyed.

   c. Check your state medical society for state regulations regarding record retention.

G. Record the results of your risk assessment

1. Create a record of your initial and quarterly assessments, deficiencies noted, and steps taken to correct the problems.

IV. EDUCATION AND TRAINING

Effective Date: ___/___/___

The intention of this organization is to comply with the rules and regulations of the Medicare program. Education and training of the staff who deals with Medicare in delivering, billing, and/or reporting health services will be provided to all persons covered under the scope of this program.

Understanding of and compliance to the rules and regulations of Medicare is a requirement for continued employment.

This entity accepts responsibility for the initial training and continuing education of compliance and will offer to its employees, at no cost, the opportunity to maintain and elevate their knowledge of the Medicare program.

Failure of an employee to comply with this program and its guidelines will result in their termination.

Education will be accomplished by:

A. A baseline test of rules and regulations of the Medicare program regarding policies, medical necessity, billing, ICD-9, and CPT coding policies that are appropriate to the position and function, will be administered.

(Baseline test is in the "Test" section of this manual.)

B. Education will be provided to any employee who demonstrates a deficiency in any area tested.

C. Continuing education will be offered in the following manner:

1. Employees are required to attend all meetings held by Compliance Officer:

a. within 30 day of employment,
b. 4 times per year (quarterly),

(1) Medicare Part B changes in rules and regulations from carrier will be discussed.
(2) Information from private newsletters will be discussed.
(3) Any special bulletins or communications from the Medicare Part B carrier, HCFA (Health Care Financing Administration), or the OIG (Office of the Inspector General) will be presented.

c. anytime required.

©1999, Inga Ellzey Practice Group, Inc.

2. Employees identified by the Compliance Officer will be required to attend meeting presented by the Medicare carrier.
3. The presence of at least one resource person with special training and expertise in CPT and ICD-9 coding in both the clinical department and the Insurance/Billing department to act as a day-to-day resource for that department.
4. All physicians, PA's, NP's, and any other persons who are involved with the coding and documentation of services to the Medicare patient must demonstrate competency in CPT and ICD-9 coding by:

    a. taking the baseline test;
    b. accepting remedial education if needed;
    c. passing the baseline test after remedial education, if needed; and
    d. enrolling in educational programs as directed by Compliance Officer.

D. Yearly training will be provided to each employee under the scope of this policy regarding the rules and regulations of compliance.

E. Training of new or revised rules will be conducted as soon as the rule or change is known.

F. A record will be maintained by the Compliance Officer to demonstrate all training sessions provided by the facility for its providers of care.

1. A master record listing all programs offered and/or required will be maintained by the Compliance Officer that shall include:

    a. subject of program,
    b. persons attending or completing,
    c. date offered, and the
    d. name and credential of presenter.

2. Every person under the scope of this program will have a file in which will be kept:

    a. baseline test results;
    b. all counseling session dates, the subject, the content, the agreements and/or the directions; and
    c. evidence of attendance to any/all educational programs the provider may attend outside the facility.

3. All employee records under the scope of this program will be stored in a locked storage device.

4. Records of educational programs attended will be released only after authorization of provider.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

G. Persons covered under the scope of this policy will provide the Compliance Officer documentation that illustrates their attendance to any course or seminar outside this facility to become a part of their record.

H. Counseling will be given to any person who, in the opinion of their supervisors or the Compliance Officer, has failed to meet any policy requirements.

Medicare Baseline Test

All persons covered under the scope of the Dermatology Compliance Program of this facility and any candidate for employment must complete the Medicare Baseline Test.

The test is used to determine, not just the current knowledge of the testee, but to identify areas where education and/or training is needed to bring employees or new employees to a high degree of knowledge regarding the Medicare health care system.

The test score is not, in itself, a disqualifying agent for continued employment or employment.

The baseline test appears in the "Test" section of this manual.

CRITIQUE OF PRESENTATION

Name of Program or Subject _____ Date ___/___/___

Please indicate by checking Yes or No to give an accurate indication of your response to the questions below.

1. Was material presented useful to you in the performance of your duties?
   ❑ Yes ❑ No
2. Was the material presented in a clear and understandable manner?
   ❑ Yes ❑ No
3. Was written material distributed for your information along with the spoken material?
   ❑ Yes ❑ No
4. Were you given resources for needed information?
   ❑ Yes ❑ No
5. Were questions from the attendee's responded to appropriately?
   ❑ Yes ❑ No
6. Were you given sufficient time to ask questions?
   ❑ Yes ❑ No
7. How would you rate the manner in which the material was presented?
   1 2 3 4 5 (1=Poor, 5=Excellent)
8. Please give us your suggestions on ways we can improve this presentation.

EMPLOYEE FILE SHEET

The following sheet will be in evidence in the Compliance Folders for all persons under the scope of this policy summarizing the chronology of events documented.

Record the completion date for each item.

Date Completed:

___/___/___ File is labeled with the name and Social Security Number of the individual for whom the folder is maintained.

___/___/___ Record of Baseline Testing, Education, and Training is present.

___/___/___ Employee Continuing Education Log is present.

___/___/___ Copy of conference sheet(s) is present.

___/___/___ Copy of any continuing education programs attended and completed external to this facility is present.

Other items, with date completed:

___/___/___ Documentation for any directed remedial action (if applicable)

___/___/___ Documentation of compliance of any remedial action directed (if applicable)

___/___/___ Documentation of disciplinary action warning (if applicable)

___/___/___ Documentation for disciplinary action (if applicable)

Support Material

The following products are available from The Inga Ellzey Practice Group, Inc. Products can be ordered by calling **1-888-434-4374.**

These products have been developed to assist you in compliance with the complicated rules and regulations of, not only the Medicare program, but the ever more complex managed care and commercial insurance environment.

1. Dermatology Coding Correspondence Course

The Dermatology Coding Correspondence Course is the first national certification course designed to educate and test individuals involved in claims processing and billing on how to correctly and completely code for dermatologic services. From the basics of modifiers to Medicare's new Correct Coding Initiative, this course is designed so that staff and/or providers can understand the nuances of dermatologic coding.

The course is designed around the *Complete Coder Plus*. Approximately once each week, or at the students own pace, the student will study a single topic and then be tested on the areas through the use of True/False and multiple choice questions. Many of the questions are clinical samples challenging the student as to how that visit's services should be coded. Test answers can also be submitted via the Internet!

The cost of the Dermatology Coding Correspondence Course includes all study materials, the 14 chapter tests, and course support. Once the student has completed and successfully passed the tests for all 14 chapters, they will be eligible for the final certification exam. Since not every individual who signs up for the course will complete all 14 chapters, the cost of the final certification exam is not included in the correspondence course cost.

Upon successful completion of the course, the student will be nationally certified by the Inga Ellzey Dermatology Institute as a Dermatology Coder and be eligible for 30 Category I CEUs. A handsome certificate will be mailed to newly certified coders. The certification is good for two years.

2. i.e., Newsletter and Fax service

Over half of all private practicing dermatologists and their staff in the U.S. keep informed by reading ***i.e.,*** Subscribe now and keep up with documentation criteria, Medicare updates, evaluation and management (E/M) services, managed care interaction, and integumentary procedural coding for flaps, excisions, repairs, I&Ds, and much more. ***i.e.***, is published six times per year.

©1999, Inga Ellzey Practice Group, Inc.

3. The Complete Coder Office Suite

We've *combined* our most requested products, the **Complete Coder Plus** (CPT) and **Complete Coder ICD-9** into one complete easy to use reference manual. The Complete Coder Office Suite is also available on CD-ROM for Windows compatible computers to view, search, and print the pages, just as they appear in the printed manual.

New to the Office Suite are...

- ICD-9 Numeric Listing
- Procedure postop day listings
- RVU listings
- Numeric ICD-9 code listings
- Over 50 different office forms

4. The Complete Medicare Handbook

Tired of the complex world of Medicare regulations? Having trouble interpreting the complex and ever changing rules? Are you up to date for '99? The solution is here!

This is the only book available anywhere that condenses the hard-to-understand language of the government (Health Care Financing Administration - HCFA) into easy-to-understand language. For the various Medicare regulations, the manual cites the rule, summarizes the rule into plain English, and provides simple to understand examples. The manual covers almost 100 topics affecting the specialty of dermatology.

5. The Correct Coding Initiative

Can you correctly use the -59 modifier and do you know when the modifier is not necessary to avoid overuse audits? We've taken the Integumentary section from HCFA's Correct Coding Initiative and have produced a dermatology specific version which takes the guesswork out of understanding the ever-changing rules of the Correct Coding Initiative. We give a detailed explanation of every regulation pertaining to Dermatology with examples on completing the HCFA-1500 form. The 137-page manual also includes a complete listing of the comprehensive and mutually exclusive coding edits for codes 10000-19999. This product is available as a one-time purchase or subscribe to our annual update service and automatically be updated with the newest rules!

V. POLICIES AND PROCEDURES

Effective Date: ___/___/___

A. Standards of Conduct

All persons under the scope of this program are:

1. Committed to avoid waste, abuse, and fraud of any federally funded program, especially Medicare.
2. Provided information enabling them to recognize waste, abuse, and/or fraudulent practices.
3. Expected to report any suspect practices to the Compliance Officer, anonymously if they so desire, and without fear of reprisal and/or retribution.

B. Medical Necessity

All persons under the scope of this program and when performing in their position shall:

1. Meet Medical Necessity Guidelines as defined by Medicare when providing a service to the Medicare beneficiary for which Medicare will be billed.
2. Be able to provide documentation to support the medical necessity of any services rendered to the Medicare beneficiary for which Medicare will be billed, including, but not necessarily limited to:

    a. diagnosis,
    b. progress notes,
    c. laboratory reports,
    d. operative reports, and
    e. other documents.

3. Forms:

    Appropriate forms that communicate information regarding the delivery of health care to the Medicare beneficiary accurately and completely are essential tools.

    This health care entity will have:

    a. lifetime authorization signature form for Medicare and Medigap,
    b. patient registration form (including signature authorization), when appropriate, and
    c. progress note form.

©1999, Inga Ellzey Practice Group, Inc.

d. Others when appropriate:

(1) pathology report
(2) operative report
(3) laboratory report
(4) waiver-of-liability form

4. Storage of Documents

Documents shall be stored in an organized system that assures these standards.

a. Medical record

The medical record of the patient will be:

(1) Clearly labeled with identification of the patient.
(2) Protected by a hard cover unless electronic.
(3) Stored in an organized filing system.
(4) Maintained and protected according to standard rules for maintenance as governed by American Health Information and Management Association (AHIMA), Joint Commision on Accreditation of Healthcare Organizations (JCAHO), and/or American Hospital Association (AHA).

(Contact your local hospital, Medical Records division for guidance if needed.)

b. Confidentiality

(1) A statement of confidentiality shall govern the release of medical information consistent with locally accepted standards to assure compliance with the Privacy Information Act of 1974.

(a) All persons covered under the scope of this program will honor the right of the patient to the confidentiality of the contents of his/her medical record.
(b) All persons covered under the scope of this program will sign a statement indicating their understanding of confidentiality and their commitment to hold in confidence all information that may be learned regarding the patient and their medical condition.

c. Retrieval

Any person responsible for storage and retrieval of documents will be able to locate the appropriate document on request and upon proper authorization.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Elizey Practice Group, Inc.

5. Notice to Patients

Medicare's requirement of providers to deliver only medically necessary care will be distributed to the Medicare beneficiary through all of the following methods:

a. Upon the initial patient encounter, in writing.
b. Yearly to the established patient, in writing.
c. Statement will be posted on an informational bulletin board in patient's waiting area.
d. Waiver of Liability.

(1) Will be explained to the Medicare beneficiary prior to performance of any procedure or service that is considered (or may be considered) by Medicare to be medically not necessary.
(2) Patient will be told why it is believed that Medicare considers (or will consider) the service to be not medically necessary.
(3) Form must indicate the procedure code, diagnosis code, and date of service for the service provided.
(4) Patient, if they choose to accept the financial responsibility, will sign Waiver of Liability.
(5) Staff member will witness signature of patient.
(6) Staff member will sign the Waiver of Liability document as witness.
(7) Waiver of Liability document(s) will be stored:

___ Alpha by year ___ Patient Medical Record
___ Alpha mo./yr. ___ Patient Computer Record

6. Notice to Health Care Providers, Officers, Staff

Compliance Officer will communicate information regarding medical necessity to the appropriate health delivery providers, always in writing and/or face to face, when appropriate:

a. at yearly meetings,
b. any time new information is communicated by Medicare, or
c. any time any Medicare compliance issue is raised to the Compliance Officer.

7. All meetings and all written communication will be documented in the records of the Compliance Officer, and when deemed necessary, in the employee folder of health care provider.

©1999, Inga Ellzey Practice Group, Inc.

8. Acknowledgement of Responsibility for Adherence to Program and Policy Guidelines:

All persons covered under the scope of this Compliance Policy will be required to:

a. Sign on all minutes of any/all meetings indicating both their presence at the meeting and their understanding of the information therein communicated.
b. Sign a Dermatology Compliance Program signature sheet acknowledging they have read the Program Manual and accept and understand its contents.

9. Monitoring

The Compliance Officer will monitor medical necessity compliance issues in the following manner:

a. Tools:

(1) Computer generated Productivity/Procedure Reports
(2) Medical Record Components
(3) Encounter Forms
(4) Explanation of Medical Benefits
(5) Medical Record Survey Sheets

b. Quarterly audits of 20 medical record encounters for each provider of health care who submits charges to Medicare .
c. The following will be monitored on a rotating basis each quarter for medical necessity and accuracy in documentation:

(1) Evaluation and Management services, biopsy, and laboratory services,
(2) destruction of all type lesions and appropriate pathology,
(3) removal of lesions and appropriate pathology, and
(4) repairs and appropriate pathology.

d. Compliance will be determined by a survey sheet for each procedure or service type.
e. Survey sheets will be examined and a report prepared for each provider of service.
f. The Compliance Officer will deliver the report with a copy of survey sheets to each provider.
g. A conference will be held with each provider to ascertain his/her understanding of the evaluation, suggestions for improvement, compliance with Dermatology Compliance Program.
h. A conference will be documented and documentation stored in Compliance Officer's files and in the file of the provider, if appropriate.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

C. Billing

All providers, coders, and billing personnel covered under the scope of this policy are responsible to demonstrate their competency to select codes that appropriately represent the service provided to all patients.

- ICD-9 (International Classification of Diseases)
- CPT (Physicians Current Procedural Terminology)
- HCPCS (Health Care Financing Administration Common Procedural Coding System)

1. All providers and staff must take an examination to demonstrate, within 30 days of their employment:

   a. baseline knowledge level regarding ICD-9 and CPT coding, and
   b. baseline level of competency regarding the rules and regulations of the Medicare program upon beginning their association with this health care facility.

2. All providers and staff are required to:

   a. Attend a local Medicare seminar at least one time per year.
   b. Read all Medicare bulletins and communications.

      (1) Bulletin will be received by employee with pertinent information highlighted.
      (2) Bulletin will have a signature sheet attached, and an order in which the information is to be passed.
      (3) Employee's signature on the sheet indicates the highlighted information has been read, understood, and the intention of the staff to comply with the information.

   c. Attend all meetings scheduled with Compliance Officer.
   d. Take action to increase competency upon direction of the Compliance Officer.
   e. Participate in periodic review of Explanations of Benefits from the Medicare carrier with the Compliance Officer.

©1999, Inga Ellzey Practice Group, Inc.

D. Standing Orders

When services are performed under the standing order of providers in this health care facility (e.g., PUVA or allergy injections):

1. Prior to the initiation of course of therapy, the physician must clearly determine:

   a. the number of treatments to be performed,
   b. the treatment parameters,
   c. the time interval during and/or between treatment,
   d. the rules for exceptions in the time and/or interval as stated in the treatment parameters, and
   e. the circumstances under which the physician must see the patient prior to treatment being performed.

2. The physician must indicate time at which the patient must be seen for reevaluation during the course of treatment.
3. The reevaluation appointment will be made prior to beginning new or revised treatment series.
4. The physician must know that the diagnosis for which treatment is being prescribed is a covered service under the Medicare program.

   a. If not covered, the patient must be advised that the treatment will be considered medically unnecessary by the Medicare carrier and therefore a noncovered service.
   b. If not covered, the patient shall sign the Waiver of Liability after appropriate explanation by the provider prior to the provision of any treatment.

E. Compliance with Fraud Alerts

This health care entity shall make public any communication from the Office of the Inspector General, HCFA, and/or from their Medicare Carrier regarding fraud.

This health care facility will:

1. Communicate all notices received by:

   a. posting communications in the appropriate area, and

      (I.D. Area Here) _____

   b. including communications in the Compliance Officer meeting.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

2. All persons covered under the scope of this policy will:

   a. Be responsible to read any/all communications made available whether written or oral.
   b. Indicate their understanding of the communication by their signature on the communication, signature sheet or other roster/log.
   c. Discuss with the Compliance Officer any lack of understanding.
   d. Report to the Compliance Officer any observation of policy or practice that exists in this facility that appears or is suspect to be in violation of Medicare rules and regulations.

3. Any person who brings an issue of suspected violation of Medicare rules and regulations to the attention of the Compliance Officer may do anonymously (if desired) and without fear of reprisal.

F. Marketing

1. This health care facility, in marketing services to the Medicare beneficiary, shall clearly indicate:

   a. the participation status of the health care provider(s):

      (1) participating or
      (2) nonparticipating, and

   b. when any service marketed or advertised does not meet the medical necessity requirements of Medicare.

2. This health care facility will not represent a service as medically necessary when in the opinion of the health care provider, it does not meet Medicare's criteria of medical necessity.

3. This health care facility, its principals, officers, and health care providers will accept no remuneration, paybacks, or other incentive; nor will it split fees with any entity what so ever to which or from which Medicare beneficiaries may be referred.

G. Compliance to the Dermatology Compliance Program

Through the implementation of all policies outlined in this manual the principals of this health care facility assure that:

1. All persons under the scope of this program shall be expected to fully comply with the program policies.
2. The Compliance Officer shall be able to demonstrate that all persons under the scope of this policy are tested, informed, educated, and monitored.

©1999, Inga Ellzey Practice Group, Inc.

3. Competency and understanding must be demonstrable to the Compliance Officer.
4. The Compliance Officer shall be able to demonstrate to the appropriate party (director, manager, BOD) their own compliance and competency.
5. The Compliance Officer shall have the authority to perform evaluations, bring about discipline, and/or terminate employment of any individual(s) under the scope of this program who fail to comply with the requirements of this health care facility's Dermatology Compliance Program.

H. Protocol for a visit by a federal agent

1. Calmly and politely ask to see identification and write all the information down.
2. The Compliance Officer should inform the agent that you wish to contact your attorney. Ask, don't demand. A demand can be construed as obstruction.
3. Contact your attorney. It is recommended that you contact an attorney that specializes in medical fraud and abuse.
4. Do not answer any questions until your attorney is present.

    a. Do not impede the collection of documents by the agent. It is reasonable to request to have time to copy the requested documents.
    b. It is preferable to wait to turn over documents until your attorney is present.

©1999, Inga Ellzey Practice Group, Inc.

CONFIDENTIALITY POLICY

Information in the medical record of the patient is private and is provided by the patient in trust to the physician. Patients must have the assurance that information entrusted to the physician will be shared only with persons to whom the patient has authorized.

To insure patients that this health care entity is aware of the patients trust, their right to privacy, and to insure their privacy is protected, all persons covered under the scope of this program are required to sign the following statement.

The employee's signature indicates that they understand their responsibility and will honor the patients right to privacy.

CONFIDENTIALITY STATEMENT

I understand and agree that in the performance of my duties as an employee of _____, I must hold medical information in confidence. I understand that any violation of the confidentiality of medical information may result in punitive action.

_____ ___/___/___

Signature of Employee **Date**

NOTICE TO MEDICARE PATIENTS

The providers of care in this facility have made a commitment to the Medicare Program and to you as our patients.

We assure you that our providers will deliver to you medical care of the highest quality possible.

We will abide by the Medicare rules and regulations in the delivery of care.

As physician(s) contracted with your Medicare program to provide services to the Medicare patient, only services that are defined as medically necessary can be charged to the Medicare Program.

When services are requested that are not defined as medically necessary, we will advise you in writing why Medicare considers the service to be noncovered. This will be done prior to your decision to schedule the procedure.

The cost of the procedure will be discussed with you prior to your determination to schedule the procedure to be performed. The payment for the procedure will be solely your responsibility. We will not bill any medically unnecessary procedure to your Medicare carrier or any other insurance entity.

We are committed to you and to the Medicare Program to bill for services provided to you accurately and timely.

Should we fail to fulfill your expectations we will appreciate your speaking to us about your concerns. We can only serve you and meet your expectation if you let us know your needs.

Should any person in this facility fail to address your concerns you are requested to report that failure to the Compliance Officer whose name and phone number is listed below.

_____ _____

Compliance Officer **Phone**

Model Dermatology Compliance Program

VI. MONITORING AND AUDITING

Effective Date:___/___/___

The Compliance Officer will conduct audits that will enable errors, omissions, and misunderstanding to be discovered and corrective action to be taken at the earliest possible time.

A. Areas to be Audited/Monitored

1. Billing and Coding

   a. The Compliance Officer will regularly conduct audits of the billing process to ascertain that billing practices are appropriate both to Medicare and to the Medicare insured.
   b. Physicians and any other person who provides services to the Medicare insured will be monitored for correctness of code selection by comparing progress notes with the codes selected.

2. Medical Record Audits

   a. The Compliance Officer will regularly conduct audits of the medical records created by each provider of care for:

      (1) medical necessity,
      (2) accuracy of code selection,
      (3) accuracy of documentation, and
      (4) condition of the medical record.

3. Explanation of Benefits

   a. Compliance Officer will examine the EOB's for :

      (1) messages from the carrier,
      (2) denials,
      (3) unbundling,
      (4) correct use of modifiers,
      (5) corrective action taken,
      (6) accuracy in coding,
      (7) correctness of charges and payments, and
      (8) incidence of duplicate claims submission.

©1999, Inga Ellzey Practice Group, Inc.

4. Procedure Analysis

   a. The Compliance Officer will examine the procedure analysis for:

      (1) over utilization,
      (2) under utilization, and
      (3) bundling of procedures.

5. Circulation of Educational Material

   a. The Compliance Officer will initiate the circulation of all information to be distributed.
   b. Information may be posted, circulated, and/or verbally communicated.
   c. Persons under the scope of this policy are responsible to read and understand information presented.
   d. Signature sheets must be signed by person(s) to whom information was circulated.
   e. A signature on the signature sheet indicates understanding of the material presented by the signee.

6. Fee Schedule

   Compliance Officer will ascertain that:

   a. The Medicare carrier is being charged properly for all services provided to its beneficiaries.
   b. Copayments and deductibles are appropriately collected.
   c. Refunds are issued in a timely fashion.
   d. The reason for refunds will be investigated so that over-collection can be avoided.
   e. The Medicare beneficiary is not charged for services and supplies which are bundled into other services.

7. Dermatology Compliance Program

   The Compliance Officer will periodically monitor the efficacy of the Dermatology Compliance Program. This will be accomplished by:

   a. Conducting quarterly surveys of the Dermatology Compliance Program to ascertain it is achieving its purpose.
   b. Conducting quarterly surveys of personnel records of all persons covered under the scope of the Dermatology Compliance Program to ascertain they have complied with its requirements.
   c. Evaluate survey tools to identify weaknesses that prevent or compromise the efficacy of the program.

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology
©1999, Inga Ellzey Practice Group, Inc.

B. Corrective Action

The Compliance Officer will take the appropriate measures when weaknesses/deficiencies/aberrant behavior are discovered:

1. Any person in error will be counseled.

   a. All counseling sessions will be documented.
   b. Person(s) counseled will be provided education and information regarding the correction of their error.
   c. Person(s) counseled will indicate:

      (1) their understanding of the reason for the counseling session,
      (2) the error or omission made,
      (3) the correct procedure (policy) and
      (4) their willingness and intention to comply.

   d. The person counseled will affix their signature to the Compliance Counseling Conference sheet indicating their understanding and intention to comply.

2. The Compliance Officer shall monitor the counseled employee to assure that the error has been corrected.

3. Yearly, or at any time rules and regulations of Medicare dictates, the monitoring survey tools and The Compliance Counseling Conference sheet:

   a. Will be considered for revision by the governing body and the Compliance Officer.
   b. Any revision will be put in writing.
   c. Any revision will be communicated to persons under the scope of this policy through appropriate channels.
   d. Any revision will be incorporated into policy manual if required.
   e. Any rule replaced or revised will be retained for reference.

C. Documentation of Audits and Monitoring Efforts

The Compliance Officer shall maintain a detailed record of survey and monitoring tools, conferences, counseling sessions, educational sessions, errors discovered and corrective actions taken.

1. The record and reports will be in writing.
2. A summary of all activities will be stored in the master record kept by the Compliance Officer.
3. All records will be stored in individual(s) folder if appropriate.
4. All records will be stored in the custody of Compliance Officer under lock and key.
5. **Elements on survey and monitoring tools that are required for documentation will be identified by an asterisk.**

E/M SERVICE SURVEY (Continued)

Body Area Examination *(based on proposed June 1999 E/M guidelines)*:

❑ Yes ❑ No	Examination of hair of scalp, eyebrows, face, chest, pubic area (when indicated) and/or extremities	Hair quantity, type, color, distribution, loss pattern
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of the scalp	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, scar(s), dermatitis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of face	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, scar(s), dermatitis
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of eyelid	Color, lesion(s), mole(s), birthmark(s), dermatitis, xanthelasma
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of ears	Lesion(s), moles(s), chondrodermatitis nodules, cyst(s), seborrheic dermatitis, venous lakes
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of lips and/or oral mucosa	Color, lesion(s), mole(s), actinic or angular cheilitis, leukoplakia, venous lakes
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of neck	Color, texture, lesion(s), mole(s), tag(s)
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of chest, including breasts and/or axillae	Color, texture, lesion(s), mole(s), birthmark(s), Hyperhidrosis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of abdomen	Color, texture, lesion(s), mole(s), rashes
❑ Yes ❑ No	Examination of skin and subcutaneous tissue of external genitalia	Color, texture, lesion(s), dermatitis, exudate, atrophy, cyst(s), condyloma
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of groin, and/or buttocks	Color, texture, lesion(s), mole(s), rashes, hyperhidrosis, chromhidroses, bromhidrosis, pressure sores
❑ Yes ❑ No	Examination of anus and perineum	Color, texture, condyloma, skin tag(s), dermatitis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of back	Color, texture, lesion(s), mole(s), rashes
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of right upper extremity	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, dermatitis, dermatoses, hyperhidrosis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of left upper extremity	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, dermatitis, dermatoses, hyperhidrosis
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of right lower extremity	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, dermatitis, dermatoses, hyperhidrosis, ulcer(s)
❑ Yes ❑ No	Examination of skin and subcutaneous tissues of left lower extremity	Color, texture, lesion(s), mole(s), birthmark(s), actinic damage, dermatitis, dermatoses, hyperhidrosis, ulcer(s)
❑ Yes ❑ No	Examination of fingernails and/or toenails	Dystrophies, mycosis, subungual tumor, infection, hematoma, psoriasis, abnormal curvature, separation or splitting
❑ Yes ❑ No	Other examination (specify) _____	

Model Dermatology Compliance Program

E/M SERVICE SURVEY (Continued)

Body Area Examination *(continued)*:

For patients seen for melanoma or squamous cell cancer follow-up, or lymphoma related problems, other relevant individual examination items might include:

❑ Yes ❑ No	Palpate lymph nodes on neck
❑ Yes ❑ No	Palpate lymph nodes in axillae
❑ Yes ❑ No	Palpate lymph nodes in groin
❑ Yes ❑ No	Palpation of liver
❑ Yes ❑ No	Palpation of spleen

For some patients, notation of mood and affect (e.g., depression or anxiety, may be relevant to the skin exam. For others it may be pertinent to document vital signs (e.g., a preoperative evaluation). The guiding principle about what to document is whether an item is clinically relevant.

❑ Yes ❑ No	Notation of mood and affect
❑ Yes ❑ No	Vital signs

Number of body areas/organ systems examined _____

7. Medical Decision:

Diagnosis:_____ Differential Diagnosis:_____ Clinical Impression:_____

For established patients, does record show:

a. ❑ improved ❑ worsening ❑ well controlled ❑ resolving ❑ resolved
b. OTC or prescription drugs ordered? ❑ Yes ❑ No
c. Treatment ordered? ❑ Yes ❑ No
d. Lab or Pathology reviewed ❑ Yes ❑ No
e. Are treatment options, risks discussed? ❑ Yes ❑ No

8. Was this E/M performed on the same day as a procedure? ❑ Yes ❑ No

9. Was the E/M performed within the global period of another procedure? ❑ Yes ❑ No

10. If so, is the E/M "significant and separately identifiable" ❑ Yes ❑ No

11. If so, was a modifier used? ❑ Yes ❑ No

Model Dermatology Compliance Program
Distributed compliments of the American Academy of Dermatology

E/M SERVICE SURVEY (Continued)

12. If modifier was used, was it the correct modifier? ❑ Yes ❑ No

    Modifier should have been _____.

13. Was Evaluation & Management based on time (e.g., counseling) ❑ Yes ❑ No

    Was reason for counseling documented? ❑ Yes ❑ No
    Was time indicated in medical record? ❑ Yes ❑ No

14. What code was selected to represent the E/M service? _____

15. Did the documentation substantiate the code selected? ❑ Yes ❑ No

BIOPSY SURVEY
11100, 11101, 11755, 40490, 54100, 56605, 67810, 68100, 69100
(any other anatomical site biopsy code)

1.* Is the medical record identified by:

a. Patient name? ❑ Yes ❑ No
b. Date of service? ❑ Yes ❑ No

2.* Is location of lesion shown? ❑ Yes ❑ No

3. Is lesion measurement documented? ❑ Yes ❑ No

4.* Is medical necessity stated or inferred for the procedure? ❑ Yes ❑ No

5. Is technique documented? ❑ Yes ❑ No

6.* What is the diagnosis documented? _____

7. Is the diagnosis documented consistent with the diagnosis billed? ❑ Yes ❑ No

8. Is the procedure billed consistent with the documentation? ❑ Yes ❑ No

9.* Was the number of biopsies charged documented In the medical record? ❑ Yes ❑ No

10* Is the pathology report documented and present in the medical record? ❑ Yes ❑ No

Optional:

10. Was the skin prep documented? ❑ Yes ❑ No

11. Is anesthesia type stated? ❑ Yes ❑ No

12. Is repair stated, if any? ❑ Yes ❑ No

13. Is hemostasis method stated? ❑ Yes ❑ No

14. Is dressing type stated? ❑ Yes ❑ No

15. Are postsurgical care instructions stated as given? ❑ Yes ❑ No

16. Is a time for return given? ❑ Yes ❑ No

SHAVE REMOVAL SURVEY
11300-11313

1.* Is the medical record identified by:

a. Patient name? ❑ Yes ❑ No
b. Date of service? ❑ Yes ❑ No

2.* Is the location of the lesion documented? ❑ Yes ❑ No

3.* Is the size of the lesion documented? ❑ Yes ❑ No

4.* Is the medical necessity for removal stated or inferred? ❑ Yes ❑ No

5.* What is the diagnosis documented? _____

6.* Is the pathology report documented and present in the medical record? ❑ Yes ❑ No

7.* Does the documentation meet the local Medicare carriers guidelines for medical necessity? ❑ Yes ❑ No

Optional:

8. Is the skin prep documented? ❑ Yes ❑ No

9. Is the type of anesthesia stated? ❑ Yes ❑ No

10. Is the method of hemostasis stated? ❑ Yes ❑ No

11. Is dressing type given? ❑ Yes ❑ No

12. Are postsurgical care instructions stated as given? ❑ Yes ❑ No

EXCISION SURVEY
11400-11646

1.* Is the medical record identified by:

a. Patient name? ❑ Yes ❑ No
b. Date of service? ❑ Yes ❑ No

2.* Is location of lesion shown? ❑ Yes ❑ No

3.* Is lesion measurement documented? ❑ Yes ❑ No

4.* Is medical necessity stated or inferred for the procedure? ❑ Yes ❑ No

5.* Is technique documented ("excised through the full thickness of the dermis" or "to the fat"?) ❑ Yes ❑ No

6.* What is the diagnosis documented? _____

7.* Is the diagnosis documented consistent with the diagnosis billed? ❑ Yes ❑ No

8.* If diagnosis is "malignant" is path report present to support the 11600 series? ❑ Yes ❑ No

9.* Is the procedure billed consistent with the documentation? ❑ Yes ❑ No

10. Is skin prep documented? ❑ Yes ❑ No

11. Is anesthesia type stated? ❑ Yes ❑ No

12. Is repair stated, if any? ❑ Yes ❑ No

13.* If layered closure or complex repair, is it documented separately? ❑ Yes ❑ No

14. Is hemostasis method stated ❑ Yes ❑ No

15. Is dressing type stated: ❑ Yes ❑ No

16. Are postsurgical care instructions stated as given? ❑ Yes ❑ No

REPAIRS SURVEY

Intermediate (Layered Closure) Repair: (12031-12057)

1.* Is the medical record identified by:

a. Patient name? ❑ Yes ❑ No
b. Date of service? ❑ Yes ❑ No

2.* Is medical necessity stated or inferred for layer closure? ❑ Yes ❑ No

3.* Is the procedure described? ❑ Yes ❑ No

4. Is number and type of suture given? ❑ Yes ❑ No

5.* Is length of suture line measured? ❑ Yes ❑ No

6.* Is measurement stated correctly? ❑ Yes ❑ No

FLAPS AND GRAFTS SURVEY
14000-15400

1.*	Is the medical record identified by:	
	a. Patient's name?	❑ Yes ❑ No
	b. Date of service?	❑ Yes ❑ No
2.*	Is the medical necessity for the repair stated?	❑ Yes ❑ No
3.*	Is the excision of the lesion stated?	❑ Yes ❑ No
4.	Is the size of the lesion excised stated?	❑ Yes ❑ No
5.*	Is the location of the repair listed?	❑ Yes ❑ No
7.	Is the type of skin prep documented?	❑ Yes ❑ No
8.	Is the type of anesthesia documented?	❑ Yes ❑ No
9.*	Is the type of repair documented?	❑ Yes ❑ No
10.*	Is the procedure performed described?	❑ Yes ❑ No
11.	Is the method of closure documented?	❑ Yes ❑ No
12.	Are type and number of sutures listed?	❑ Yes ❑ No
13.*	Is there a donor site listed?	❑ Yes ❑ No
14.	If so, is closure of donor site documented?	❑ Yes ❑ No
15.	Was closure of donor site billed?	❑ Yes ❑ No
	a. If so, is that correct?	❑ Yes ❑ No
16.*	Is measurement of surgical defect stated in square cm's?	❑ Yes ❑ No
17.	Is dressing type documented?	❑ Yes ❑ No
18.	Are postsurgical instructions stated as given?	❑ Yes ❑ No
19.	Is condition of patient at discharge documented?	❑ Yes ❑ No
20.*	If lesion excised was malignant, is there a pathology report?	❑ Yes ❑ No
21.	Is a signed and witnessed Informed Consent present?	❑ Yes ❑ No
22.	Is a time for return stated?	❑ Yes ❑ No

DESTRUCTION MALIGNANT LESION SURVEY
17260-17286

1.* Is the medical record identified by:

a. Patient's name? ❑ Yes ❑ No
b. Date of service? ❑ Yes ❑ No

2.* Is there a path report to show the malignant nature of the lesion? ❑ Yes ❑ No

3.* Is the location of the lesion documented? ❑ Yes ❑ No

4.* Is the size of the lesion documented in cm's (diameter)? ❑ Yes ❑ No

5. Is the type of anesthesia noted? ❑ Yes ❑ No

6.* Is the procedure described properly? ❑ Yes ❑ No

7. Is the type of hemostasis noted? ❑ Yes ❑ No

8. Is there more than one lesion treated? ❑ Yes ❑ No

a. Is each destruction documented separately? ❑ Yes ❑ No

9. Is the dressing type stated? ❑ Yes ❑ No

10. Were postoperative instructions indicated as given? ❑ Yes ❑ No

11. Is the time to return stated in the record? ❑ Yes ❑ No

DESTRUCTION BENIGN LESION SURVEY
17000-17250

1.* Is the medical record identified by:

a. Patient's name? ❑ Yes ❑ No
b. Date of service? ❑ Yes ❑ No

2.* Is the medical necessity for treatment stated? ❑ Yes ❑ No

3.* Is the type of destruction stated? ❑ Yes ❑ No

4.* Is the total number of lesions destroyed stated? ❑ Yes ❑ No

5.* Is each lesion treated located by narrative or diagram? ❑ Yes ❑ No

6.* Is each lesion measurement recorded in CM's? ❑ Yes ❑ No

7. Are the procedures coded correctly? ❑ Yes ❑ No

If no, what should the code(s) have been? _____

8.* Are the diagnosis codes correctly documented? ❑ Yes ❑ No

9.* Does the documentation illustrate the medical necessity for treatment of benign lesions according to local carrier guidelines? ❑ Yes ❑ No

MEDICARE VIOLATION NOTICE

Date: ___/___/___

It is my concern that the following procedure or practice is in violation of the Medicare rules and regulations. I have described in detail below my understanding of the practice/procedure I believe to be in error. Additionally, I have identified individuals whom I believe to be committing the error.

I understand that I am not to sign this notice or identify myself in any way. I further understand that I am assured anonymity and protection from reprisal should my identity be discovered.

VII. CORRECTIVE ACTION

Effective Date: ___/___/___

When a reason for suspicion of misconduct is discovered the following action(s) will be taken:

A. Investigation

1. A prompt investigation by the Compliance Officer and/or others in management shall be initiated so that it can be determined whether a material violation has occurred.
2. The investigation may include interviews with persons covered under the scope of this program.
3. The investigation may include the examination of medical records, billing, coding, and documentation.
4. If the presence of the person suspected of material violations compromises the investigation, that person may be removed from the work assignment until the investigation is completed.
5. The integrity of any record(s) involved in an investigation will be retained by the Compliance Officer (or Risk Manager, if that position is present in the organization) under lock and key.

B. Reporting

If the governing body receives credible evidence of misconduct from any source and, after appropriate investigation, has established reasonable grounds to ascertain that a material violation did in fact occur, and that action violated either civil law, criminal law, or the rules and regulations governing federally funded health care programs, the governing body shall:

1. Notify the Office of the Inspector General (OIG) within 60 days of discovery.

   a. Identify your region from HHS Region Map at the end of this section.
   b. Refer to the appropriate Region sheet after the map in this section.
   c. The Office of Inspector General appears in each location with names and phone numbers of key personnel listed.

   (The names and numbers of personnel listed are subject to change.)

2. Department of Health and Human Services web site - http://www.hhs.gov/

3. The OIG shall be provided with any/all evidence collected or reported from any source.

   a. Address to contact HHS officials:

      The U.S. Department of Health and Human Services
      200 Independence Avenue, S.W.
      Washington, D.C. 20201

   b. Phone Number to contact officials of HHS:

      202-619-0257

4. The investigation should continue to conclusion.

5. The result of the internal investigation, upon completion, will be reported to the OIG.

C. Restitution

If investigation reveals that misconduct in fact did occur, the following action will be taken:

1. The facility recognizes that it has no right to retain any overpayment from a federal health care program.

2. Overpayments will be refunded promptly to:

   a. the Medicare program or third-party payor from which an overpayment was received, or
   b. the patient if the overpayment was received from the patient.

VIII. DISCIPLINE

Effective Date: ___/___/___

A. Employee Under Investigation

1. If, in the opinion of the Compliance Officer or supervisor, the presence of the employee under investigation may be a deterent to the investigation, the employee will be reassigned out of the area in question until the investigation has been concluded.
2. If the investigation leads to evidence that the employee has committed misconduct or fraud, the employee may be put on leave of absence until the conclusion of the investigation by both the facility and the Office of the Inspector General and the Justice Department.

B. Employee Found Guilty of Misconduct

1. Any suspected misconduct found to be upheld after appropriate investigation will result in the termination of the employment of the guilty employee.
2. Any employee separated from this facility for reason of misconduct, fraud or abuse of the Medicare program cannot expect a favorable reference, regardless of the efficiency with which they performed in any particular position.
3. Any entity inquiring for reference of an employee who has been separated from employment with this facility will be advised of the violation of this Compliance Policy.

C. Hiring Policy

1. Any applicant who has been guilty of misconduct at another facility will not be considered for employment.
2. Any applicant who was separated from this facility for reason of misconduct will not be considered for reemployment.

D. Retribution

1. Payback to Medicare in the form of overpayments, fines, sanctions for any abuse or fraudulent behavior will be made by the provider who committed the violation.

Medicare Baseline Test

All persons covered under the scope of the Dermatology Compliance Program of this facility and any candidate for employment must complete the Medicare Baseline Test.

The test is used to determine, not just the current knowledge of the testee, but to identify areas where education and/or training is needed to bring employees or new employees to a high degree of knowledge regarding the Medicare health care system.

The test score is not, in itself, a disqualifying agent for continued employment or employment.

Medicare Baseline Test

Name of Testing Person _____ Date test taken ___/___/___

Multiple Choice (Please circle the letter indicating the correct response)

1. What is the annual Medicare Part B deductible?

   a. $100.00
   b. $75.00
   c. $300.00
   d. None of the above.

2. A participating Medicare provider is one who:

   a. Does not see Medicare patients.
   b. Sees Medicare patients, but collects from the patient directly and does not bill the Medicare program.
   c. Can choose to accept assignment on claims whenever he/she chooses.
   d. None of the above.

3. A participating Medicare provider may:

   a. Charge whatever he/she wants on the Medicare claim.
   b. Collect the 20% copayment and deductible from the patient at the time of service.
   c. File to Medicare electronically.
   d. All of the above.

4. The Medicare patient must sign a form giving the provider permission to:

   a. Bill the Medicare program for surgical supplies.
   b. Release medical information to the Medicare carrier and assign Medicare benefits to the provider who files an assigned claim.
   c. Collect the entire bill from the patient at the time of service.
   d. None of the above.

5. For clinical laboratory services the Medicare provider:

   a. Must accept assignment and accept the payment from Medicare as payment in full for the lab service.
   b. Cannot collect the 20% or the copayment.
   c. Cannot collect the annual deductible.
   d. All of the above.

Model Dermatology Compliance Program

Medicare Baseline Test (continued)

6. If a Medicare patient has Medicare as a primary insurance and Medicaid as a secondary insurance and the provider does not participate in the Medicaid program, he/she must:

   a. Accept assignment on both Medicare and Medicaid.
   b. Accept assignment on the Medicare portion only and balance bill the Medicaid patient.
   c. Accept assignment only if he/she is a participating provider in Medicare.
   d. None of the above.

7. A provider must obtain a proper signature on file in order to submit claims for services provided to a Medicare patient:

   a. At least one time per year.
   b. Once every 5 years.
   c. Once for every 25 claims submitted.
   d. One signature is good for the lifetime unless the patient revokes the signature.

8. A provider can change his/her participation status:

   a. Every December.
   b. Any time he/she wants with a written 90-day notice to Medicare.
   c. One time every three years.
   d. None of the above.

9. Under the Medicare "Incident to" provision, a staff member:

   a. Can perform services which will be billed to Medicare if the doctor has written the order for the treatment in the chart within the last 30 days.
   b. Can perform services which will be billed to Medicare if the doctor is present in the office and available to assist if needed.
   c. Cannot perform services to the Medicare patient unless the physician is physically present in the room with the patient.
   d. Can perform services to the Medicare patient only if they are an R.N. or L.P.N.

10. A participating provider renders a service to a Medicare patient who has Medicare and a Medigap secondary policy through their spouses' employment. To file a claim for services rendered you must:

    a. File a nonassigned claim to the second policy first.
    b. File an assigned claim to the Medicare carrier .
    c. Collect the entire amount from the patient at the time and then file to both insurance plans.
    d. None of the above.

©1999, Inga Ellzey Practice Group, Inc.

Medicare Baseline Test (continued)

11. If the provider files to Medigap for a Medicare patient:

    a. The signature on file for Medicare is also sufficient to file Medigap claims.
    b. A separate signature on file must be obtained to file Medigap claims.
    c. Medigap claims processing does not require a signature.
    d. None of the above.

12. If two doctors routinely cover for one another and both are Medicare participating providers, the doctor who is covering and provided services should:

    a. Bill for the services he/she provided under their own provider number.
    b. Do not bill. The regular provider will bill for the services provided by the covering physician as if he/she had personally provided the services.
    c. Bill for the services of the other doctor using the other physician's provider number, but with a modifier.
    d. None of the above.

13. Medicare uses the current year CPT book as a source for codes that identify the services provided by physicians.

    a. CPT stands for Current Procedure Terminology.
    b. CPT is published every other year by the AMA.
    c. CPT represents the diagnosis codes.
    d. All of the above.

14. The ICD-9 book is the book in which:

    a. Diagnosis codes are listed and defined.
    b. Procedure codes are listed and defined.
    c. Drugs are listed and described .
    d. None of the above.

15. The –59 modifier is used to unbundle:

    a. Certain unrelated services performed on the same date of service by the same physician.
    b. All unrelated services performed on the same date of service.
    c. Certain unrelated services performed in the postoperative period.
    d. All unrelated services performed in the postoperative period.

Medicare Baseline Test (continued)

16. In order to obtain a group number from Medicare:

    a. There must be at least two doctors in the practice, legally joined.
    b. There must be at least three doctors in the practice, legally joined.
    c. The group must be incorporated.
    d. None of the above.

17. The Correct Coding Initiative (Comprehensive Component Table and The Mutually Exclusive Table) are updated (revised):

    a. Once a year.
    b. Once a month.
    c. Twice a year.
    d. Quarterly.

18. In the Correct Coding Initiative tables, the codes appearing in Column II or in the "Component Column":

    a. Can never be billed.
    b. Can only be billed with a –59 modifier.
    c. Can only be billed with a –59 if it is unrelated to the Comprehensive Code or the code in Column I.
    d. Can only be billed if an operative report is submitted with the claim.

19. The -GA modifier means that:

    a. You are providing a medically unnecessary service to the Medicare patient and have informed the patient by explaining that situation to them and having them sign a "Waiver of Liability" form.
    b. The patient has been advised that they have not met their deductible.
    c. Medicare HMO now covers the service.
    d. None of the above.

20. If a nonparticipating provider performs surgical services in excess of $500.00 for a single service:

    a. The provider must accept assignment on the claim.
    b. The claim must be filed on paper with an operative report attached.
    c. A written estimate must be provided to the patient indicating how much the "out of pocket" money they must anticipate spending.
    d. All of the above.

©1999, Inga Ellzey Practice Group, Inc.

Medicare Baseline Test (continued)

21. As of 1-1-98, the provider can bill for an intermediate repair (layer closure) when a separate layer of deeper tissue was closed in addition to the epidermis if:

    a. Fascial tissue is repaired.
    b. At least 10 "deeper" stitches were taken.
    c. The lesion excised was benign and is at least 6 mm in diameter or malignant.
    d. All of the above.

22. The Medicare patient receives a service from a participating provider for which he is charged $150.00. The patient has not met their Medicare deductible for the calendar year. Medicare's approved amount for the service is $87.77. How much are you allowed to collect from the patient at the time of service?

    a. $100.00
    b. $ 87.77
    c. $ 62.23
    d. $150.00

23. The participating physician provides a service to the Medicare patient for which he/she charges $150.00. Medicare allows $87.77. The patient has met their deductible. What amount of money can be collected from the Medicare patient at the time of service?

    a. $150.00
    b. $ 87.77
    c. $ 17.55
    d. None of the above.

24. The physician can automatically write off the Medicare patient's copayment if :

    a. The patient is a close personal friend.
    b. The patient is a physician.
    c. The patient is a close relative.
    d. None of the above.

Medicare Baseline Test (continued)

True False Questions:

The following questions are True or False. Please circle the correct response.

1.	T	F	A new patient is one who has had no professional services for a period of three years.
2.	T	F	The suffix "A" behind the Medicare beneficiary's 9-digit Social Security Number on the Medicare card means the patient is a male.
3.	T	F	The place of service designator for doctor's office is "21".
4.	T	F	A Skilled Nursing Facility (SNF) is the same thing as a Nursing Home.
5.	T	F	A provider of care must accept Medigap if the patient has this type of coverage.
6.	T	F	Medicare never pays for surgical trays.
7.	T	F	If medically necessary, Medicare will approve an intermediate (layered closure) in addition to the excision.
8.	T	F	A patient was seen by the physician as a new patient on 1-1-94. On 3-3-96 they received a prescription refill by phone. When the physician saw the patient on 3-3-97 they were considered as a new patient.
9.	T	F	A physician can file for reimbursement for dressing supplies to Medicare Part B.
10.	T	F	Durable Medical Equipment claims are billed to the local Medicare carrier.
11.	T	F	A provider can purchase the technical component of the pathology service (e.g., the slide preparation). He/she can only mark up the cost charged to him/her by the preparing lab by 10%.

©1999, Inga Ellzey Practice Group, Inc.

Medicare Baseline Test (continued)

12. T F If Medicare denies a claim, the first step to take in an effort to have the denial reversed is to have the claim reviewed.

13. T F The "J" codes are HCPCS codes for billing Medicare for drugs that are "injected" into the patient during treatment in the office.

14. T F If an excision is performed and the wound is repaired with a flap, both the excision and the flap can be billed as long as the –59 modifier is attached to the flap.

15. T F If a provider is not paid properly the first step is to request a Review. The second step is called a "Hearing."

16. T F Medigap is a program Medicare offers to participating physicians wherein a claim is automatically transferred by the carrier to a secondary insurance that covers the "patient's part" of Medicare approved services.

17. T F All secondary/supplemental plans are Medigap plans because they fill the "gap" between what Medicare pays and what the patient owes.

18. T F Medicare does not pay for CPT code 99025, initial visit performed on the same date as a starred procedure.

19. T F Services beginning with an "8" must be filed with the UPIN or Payer ID number entered on the claim form indicating the "requesting physician" for a referred service.

20. T F Medicare will pay for the physician to see a patient in a Skilled Nursing Facility, one visit per day, but will only allow one visit per month in a Nursing Home.

21. T F A repair after Mohs' surgery can be performed on the same day as Mohs and is exempt from the multiple surgery rules.

22. T F The cost of medication injected into the patient by subcutaneous, intramuscular, or intralesional injections can be recovered by billing the appropriate J Code for the medication and its dosage.

Fill in the Blank

1. An inpatient consultation (CPT codes 99251-99255) can be charged _____ time(s) per admission.

2. In order to bill a 99203, _____ areas of the body (minimally) must be examined.

3. The only Evaluation and Management service which can be billed when the physician does not personally see the patient, but is present in the facility and seen by the assistant to the physician, is CPT code_____.

4. The three key components in documenting an Evaluation and Management services are History, Physical Examination, and _____.

5. For new patients, all _____ of the key components of evaluation and management service must be met.

6. For established patients, any _____ of the _____ key components of Evaluation and Management services must be met.

7. _____is the place of service designator for a service provided to a patient who is an inpatient in the hospital.

8. When greater than 50% of the physician to patient face-to-face time in Evaluation and Management is spent in counseling, the level of the visit can be based on _____.

9. When the physician has advised the patient the service may not be covered, and the patient is expected to assume the financial liability, the patient should be asked to sign a _____form.

10. The patient part of the approved amount for most services provided in physician's offices is _____%.

11. The surgeon performing Mohs' also acts as the _____ in that he/she reads the slides prepared from the tissue removed and makes the judgement of whether or not the diseased tissue has been completely removed.

12. Participating providers must accept _____ for covered services they provide to the Medicare patient.

13. Nonparticipating Medicare providers can collect from Medicare at the time of service up to the _____ _____.

14. All clinical laboratory services provided to the Medicare patient are approved at _____%.

Medicare Assignment

What does **"accept assignment"** mean?

The doctor has a **"charge"** for each service.
Medicare has an **"approved amount"** for each service. (The approved amount is the most they will pay for any given service.)

The doctor must "write-off" the difference between his/her "charge" and Medicare's "approved amount."

Medicare pays the doctor 80% of the "approved amount."

The patient is responsible to pay 20% of the "approved amount" and any unmet deductible to the doctor.

Example:

Charge	$100.00
Medicare Approved	80.00
Doctor Write-Off	20.00
Medicare Approved	80.00
Medicare Pays 80%	64.00
Patient Pays 20%	$16.00

Payment for your 20% and any unmet deductible is required at the time of service. If you have secondary insurance that pays some or all of the 20% copayment and deductible, ask the doctor if they will file to your secondary carrier.

Explanation of Medicare Patient Responsibility for Nonparticipating Physicians

The doctor is a nonparticipating provider of services to the Medicare insured patient in the Medicare program.

This means that the doctor will:

1. File a claim to Medicare for you, so that Medicare will pay you directly.

2. The doctor will limit charges for Medicare patients for services rendered to the limiting charge amount provided by your Medicare carrier. This charge is slightly higher than the Medicare approved amount. (The approved amount is the most Medicare will pay for any given service to a participating doctor.)

Example:

Medicare Limiting Charge ---------- $115.00
Patient Pays Limiting Charge ---------- $115.00

Medicare Approved Amount ---------- $100.00
Medicare Pays Patient 80% ---------- $80.00

The difference between the Limiting Charge and the Medicare approved amount is the patient's responsibility. You may bill your secondary insurance for the difference in what Medicare paid and the actual amount you paid your doctor.

Possible Reasons For Denials

1. Medicare usually does not pay for removal/treatment of benign, asymptomatic lesions.
2. Medicare usually does not pay for cosmetic procedures.
3. Medicare usually does not pay for this many visits or treatments.
4. Medicare usually does not pay for this type of equipment.
5. Medicare does not pay for this lab test.
6. Medicare usually does not pay for routine physical examinations, tests or preventative screenings.
7. Medicare usually does not pay for immunizations except in emergencies such as injury or immediate risk of infection or pneumococcal vaccination.
8. Services performed to immediate relatives or members of the household.
9. Medicare does not pay for this treatment because it has not yet been proven effective.

Patient's Name:_____ Medicare # (HICN):_____

ADVANCE BENEFICIARY NOTICE (ABN)

NOTE: You need to make a choice about receiving these health care items or services.

We expect that Medicare will not pay for the item(s) or service(s) that are described below. Medicare does not pay for all of your health care costs. Medicare only pays for covered items and services when Medicare rules are met. The fact that Medicare may not pay for a particular item or service does not mean that you should not receive it. There may be a good reason your doctor recommended it. Right now, in your case, **Medicare probably will not pay for –**

Items or Services:
Because:

The purpose of this form is to help you make an informed choice about whether or not you want to receive these items or services, knowing that you might have to pay for them yourself. Before you make a decision about your options, you should **read this entire notice carefully.**

- Ask us to explain, if you don't understand why Medicare probably won't pay.
- Ask us how much these items or services will cost you (**Estimated Cost: $**_____), in case you have to pay for them yourself or through other insurance.

PLEASE CHOOSE **ONE** OPTION. CHECK **ONE** BOX. **SIGN & DATE** YOUR CHOICE.

O Option 1. YES. I want to receive these items or services.

I understand that Medicare will not decide whether to pay unless I receive these items or services. Please submit my claim to Medicare. I understand that you may bill me for items or services and that I may have to pay the bill while Medicare is making its decision. If Medicare does pay, you will refund to me any payments I made to you that are due to me. If Medicare denies payment, I agree to be personally and fully responsible for payment. That is, I will pay personally, either out of pocket or through any other insurance that I have. I understand I can appeal Medicare's decision.

O Option 2. NO. I have decided not to receive these items or services.

I will not receive these items or services. I understand that you will not be able to submit a claim to Medicare and that I will not be able to appeal your opinion that Medicare won't pay.

_____ _____

Date **Signature of patient or person acting on patient's behalf**

NOTE: Your health information will be kept confidential. Any information that we collect about you on this form will be kept confidential in our offices. If a claim is submitted to Medicare, your health information on this form may be shared with Medicare. Your health information which Medicare sees will be kept confidential by Medicare.

DERM CODING CONSULT

Published by the American Academy of Dermatology

Volume 5, Number 3 September 2001

NEWS BRIEFS

CMS Issues National Coverage Policy on Actinic Keratoses
After over five years of concerted effort by the Academy, on July 19, 2001, the Center for Medicare and Medicaid Services (CMS formerly HCFA) issued a national coverage determination on Medicare coverage for treatment of actinic keratoses. The full text of the memo is available at **www.hcfa.gov/coverage** which:

(1) describes actinic keratosis (AK) and methods of managing this skin lesion;

(2) reviews the history of Medicare's coverage of management of actinic keratosis and provides a timeline of recent activities;

(3) presents and analyzes the relevant scientific and clinical data related to actinic keratosis; and

(4) delineates the reasons for making a positive national coverage decision.

CMS AK Decision
"The Coverage Issues Manual will be revised to indicate that Medicare will cover the destruction of actinic keratosis, without restrictions based on lesion or patient characteristics, using surgical or medical treatment methods, including but not limited to:

- **cryosurgery with liquid nitrogen,**
- **curettage,**
- **excision, and**
- **photodynamic therapy.**

CMS expects that practitioners will maintain sufficient information, as required under 42 CFR § 424.5(a)(6)[37], to enable them to demonstrate entitlement to Medicare reimbursement for covered procedures and services."

MEDICARE REVISES ADVANCE BENEFICIARY NOTICE

The Centers for Medicare and Medicaid (CMS, formerly HCFA) has made significant changes to the Advance Beneficiary Notice (ABN). In response to ongoing complaints from physicians regarding the tone and complexity of the ABN form, CMS committed to revise it as part of the Physician Regulatory Initiative Taskforce (PRIT) efforts to reduce the administrative burden on doctors. Simplifying the advance beneficiary notice was among the top five priority issues recently identified by doctors for HCFA to address and was given a fast track development.

The ABN form is given annually to millions of Medicare beneficiaries before they receive a medical service that Medicare may not pay for. The new one-page version of the form, has been redesigned to make it more readable and easier for the Medicare beneficiary to understand. The revised form is available on the HCFA Web site at **http://www.hcfa.gov/regs/prdact95.htm**. The new ABN form may also be photocopied from page 7 of this publication and put into immediate use.

In April, beneficiaries, health care providers and others were requested to send their comments on the new ABN to the Office of Management and Budget (OMB). OMB approved the revised Notice for use in June. The revised form will be published in the Medicare Carriers Manual in late August. However, CMS has advised the Academy as well as other medical specialty societies that doctors may begin using the new form at once.

"Advance notices are given out each year to beneficiaries who may not know whether Medicare will pay for their particular medical service," HHS Secretary Tommy G. Thompson said. "We heard suggestions and recommendations that helped us improve these forms so Medicare beneficiaries know what the paper they are given really means."

ADVANCE BENEFICIARY NOTICE FORM 7

Derm Coding Consult is funded by an educational grant from the Dermatology Products Division of Schering Pharmaceuticals.

MEDICARE REVISES ADVANCE BENEFICIARY NOTICE

continued from page 1

A dermatologist may notify a beneficiary that Medicare probably will not pay for a cosmetic service or item. If the beneficiary still wants to get that service, the beneficiary will be asked to sign an agreement that the patient will pay for the service if Medicare does not pay for it. The revised form alerts beneficiaries they need to decide whether they want to receive medical items or services which may not be reimbursable by Medicare.

A major objection to the prior ABN was the tone of its language which seemed to imply that the physician was suggesting medically unnecessary services. The new form clarifies to the beneficiary that:

> "Medicare does not pay for all of your health care costs. Medicare only pays for covered items and services when Medicare rules are met. The fact that Medicare may not pay for a particular item or service does not mean that you should not receive it. There may be a good reason your doctor recommended it. Right now, in your case, Medicare probably will not pay" for the item or service.

The form also advises the beneficiary to ask for a further explanation if it is unclear why Medicare probably will not pay and to check how much the item or service will cost, either out-of-pocket or through other insurance. The beneficiary then is asked to check one of two options, and sign and date the form.

CODING UPDATE

continued from page 3

The example given discusses venipuncture performed in the office. In addition to coding for the venipuncture, "99000 should be reported when the physician's office centrifuges the specimen, separates the serum and labels, and packages the specimens for transport to the laboratory."

Medicare does not pay for this code as it is classified as a bundled service. However, this code is reimbursable by many of the insurance companies.

Order Coding Books Now

CPT 2002 will contain more than 700 code changes. Also included will be the new Category II and Category III codes. The Category II codes are for performance measurement. The Category III codes are for emerging technologies.

As performance measurements, CPT Category II codes will be identified by a 5-digit number with the letter in the last position. These codes are optional use codes and will not be assigned physician work value. They are not required for correct coding.

As emerging technologies, CPT Category III codes are used only for data collection purposes on assessing new procedures and services. These codes will likewise be alphanumeric with the letter in the last position. The additional instructions in the 2002 CPT book will guide you in the use of these two new code sets.

v1 Sheet 1

UNITED STATES DISTRICT COURT

SOUTHERN DISTRICT OF IOWA

UNITED STATES OF AMERICA
v.
Richard Lee Hauser, M.D.

JUDGMENT IN A CRIMINAL CASE

Case Number: 4:16-cr-00157-001

USM Number: 177733-030

P. Gail Brashers-King
Defendant's Attorney

THE DEFENDANT:

☑ pleaded guilty to count(s) One and Two of the Information filed October 19, 2016

☐ pleaded nolo contendere to count(s) which was accepted by the court.

☐ was found guilty on count(s) after a plea of not guilty.

The defendant is adjudicated guilty of these offenses:

Title & Section	Nature of Offense	Offense Ended	Count
18 U.S.C. § 1347	Health Care Fraud	05/09/2012	One
18 U.S.C. § 1347	Health Care Fraud	05/30/2012	Two

☐ See additional count(s) on page 2

The defendant is sentenced as provided in pages through 7 of this judgment. The sentence is imposed pursuant to the Sentencing Reform Act of 1984.

☐ The defendant has been found not guilty on count(s)

☐ Count(s) ☐ is ☐ are dismissed on the motion of the United States.

It is ordered that the defendant must notify the United States attorney for this district within 30 days of any change of name, residence, or mailing address until all fines, restitution, costs, and special assessments imposed by this judgment are fully paid. If ordered to pay restitution, the defendant must notify the court and United States attorney of material changes in economic circumstances.

IMPRISONMENT

The defendant is hereby committed to the custody of the United States Bureau of Prisons to be imprisoned for a total term of:

Two months as to Counts One and Two of the Information filed on October 19, 2016, both counts to be served concurrently.

☐ The court makes the following recommendations to the Bureau of Prisons:

☐ The defendant is remanded to the custody of the United States Marshal.

☐ The defendant shall surrender to the United States Marshal for this district:

☐ at _____ ☐ a.m. ☐ p.m. on _____

☐ as notified by the United States Marshal.

☑ The defendant shall surrender for service of sentence at the institution designated by the Bureau of Prisons:

☐ before on _____

☑ as notified by the United States Marshal.

☐ as notified by the Probation or Pretrial Services Office.

RETURN

I have executed this judgment as follows:

Defendant delivered on _____ to _____

a _____ , with a certified copy of this judgment.

_____
UNITED STATES MARSHAL

By _____
DEPUTY UNITED STATES MARSHAL

DEFENDANT: Richard Lee Hauser, M.D.
CASE NUMBER: 4:16-cr-00157-001

SUPERVISED RELEASE

Upon release from imprisonment, the defendant shall be on supervised release for a term of :
3 years as to Counts One and Two of the Information filed on October 19, 2016, both counts to be served concurrently.

MANDATORY CONDITIONS

1. You must not commit another federal, state or local crime.
2. You must not unlawfully possess a controlled substance.
3. You must refrain from any unlawful use of a controlled substance. You must submit to one drug test within 15 days of release from imprisonment and at least two periodic drug tests thereafter, as determined by the court.
   - ☐ The above drug testing condition is suspended, based on the court's determination that you pose a low risk of future substance abuse. *(check if applicable)*
4. ☐ You must cooperate in the collection of DNA as directed by the probation officer. *(check if applicable)*
5. ☐ You must comply with the requirements of the Sex Offender Registration and Notification Act (42 U.S.C. § 16901, *et seq*.) as directed by the probation officer, the Bureau of Prisons, or any state sex offender registration agency in which you reside, work, are a student, or were convicted of a qualifying offense. *(check if applicable)*
6. ☐ You must participate in an approved program for domestic violence. *(check if applicable)*

You must comply with the standard conditions that have been adopted by this court as well as with any other conditions on the attached page.

DEFENDANT: Richard Lee Hauser, M.D.
CASE NUMBER: 4:16-cr-00157-001

STANDARD CONDITIONS OF SUPERVISION

As part of your supervised release, you must comply with the following standard conditions of supervision. These conditions are imposed because they establish the basic expectations for your behavior while on supervision and identify the minimum tools needed by probation officers to keep informed, report to the court about, and bring about improvements in your conduct and condition.

1. You must report to the probation office in the federal judicial district where you are authorized to reside within 72 hours of your release from imprisonment, unless the probation officer instructs you to report to a different probation office or within a different time frame.
2. After initially reporting to the probation office, you will receive instructions from the court or the probation officer about how and when you must report to the probation officer, and you must report to the probation officer as instructed.
3. You must not knowingly leave the federal judicial district where you are authorized to reside without first getting permission from the court or the probation officer.
4. You must answer truthfully the questions asked by your probation officer.
5. You must live at a place approved by the probation officer. If you plan to change where you live or anything about your living arrangements (such as the people you live with), you must notify the probation officer at least 10 days before the change. If notifying the probation officer in advance is not possible due to unanticipated circumstances, you must notify the probation officer within 72 hours of becoming aware of a change or expected change.
6. You must allow the probation officer to visit you at any time at your home or elsewhere, and you must permit the probation officer to take any items prohibited by the conditions of your supervision that he or she observes in plain view.
7. You must work full time (at least 30 hours per week) at a lawful type of employment, unless the probation officer excuses you from doing so. If you do not have full-time employment you must try to find full-time employment, unless the probation officer excuses you from doing so. If you plan to change where you work or anything about your work (such as your position or your job responsibilities), you must notify the probation officer at least 10 days before the change. If notifying the probation officer at least 10 days in advance is not possible due to unanticipated circumstances, you must notify the probation officer within 72 hours of becoming aware of a change or expected change.
8. You must not communicate or interact with someone you know is engaged in criminal activity. If you know someone has been convicted of a felony, you must not knowingly communicate or interact with that person without first getting the permission of the probation officer.
9. If you are arrested or questioned by a law enforcement officer, you must notify the probation officer within 72 hours.
10. You must not own, possess, or have access to a firearm, ammunition, destructive device, or dangerous weapon (i.e., anything that was designed, or was modified for, the specific purpose of causing bodily injury or death to another person such as nunchakus or tasers).
11. You must not act or make any agreement with a law enforcement agency to act as a confidential human source or informant without first getting the permission of the court.
12. If the probation officer determines that you pose a risk to another person (including an organization), the probation officer may require you to notify the person about the risk and you must comply with that instruction. The probation officer may contact the person and confirm that you have notified the person about the risk.
13. You must follow the instructions of the probation officer related to the conditions of supervision.

U.S. Probation Office Use Only

A U.S. probation officer has instructed me on the conditions specified by the court and has provided me with a written copy of this judgment containing these conditions. I understand additional information regarding these conditions is available at the www.uscourts.gov.

Defendant's Signature _____ Date _____

DEFENDANT: Richard Lee Hauser, M.D.
CASE NUMBER: 4:16-cr-00157-001

SPECIAL CONDITIONS OF SUPERVISION

The defendant shall participate in a program of testing and/or treatment for substance abuse, as directed by the Probation Officer, until such time as the defendant is released from the program by the Probation Office. At the direction of the probation office, the defendant shall receive a substance abuse evaluation and participate in inpatient and/or outpatient treatment, as recommended. Participation may also include compliance with a medication regimen. The defendant will contribute to the costs of services rendered (co-payment) based on ability to pay or availability of third party payment. The defendant shall not use alcohol and/or other intoxicants during the course of supervision.

The defendant shall not patronize business establishments where more than fifty percent of the revenue is derived from the sale of alcoholic beverages.

The defendant shall submit to a search of his person, property, residence, adjacent structures, office, vehicle, papers, computers (as defined in 18 U.S.C. § 1030(e)(1)), and other electronic communications or data storage devices or media, conducted by a U.S. Probation Officer. Failure to submit to a search may be grounds for revocation. The defendant shall warn any other residents or occupants that the premises and/or vehicle may be subject to searches pursuant to this condition. An officer may conduct a search pursuant to this condition only when reasonable suspicion exists that the defendant has violated a condition of his release and/or that the area(s) or item(s) to be searched contain evidence of this violation or contain contraband. Any search must be conducted at a reasonable time and in a reasonable manner. This condition may be invoked with or without the assistance of law enforcement, including the U.S. Marshals Service.

The defendant shall pay restitution to $25,965.72 to Wellmark Blue Cross and Blue Shield of Iowa and $4,913.60 to the state of Iowa Medicaid program, for a total restitution amount of $30,879.32. The defendant shall cooperate with the U.S. Probation Officer in developing a monthly payment plan consistent with a schedule of allowable expenses provided by the U.S. Probation Office. The defendant may be required to participate in an IRS offset program which may include the garnishment of wages or seizure of all or part of any income tax refund to be applied toward the restitution balance. You may be required to participate in the Treasury Offset Program which would include the seizure of any government payment to be applied toward the restitution balance.

The defendant shall provide complete access to financial information, including disclosure of all business and personal finances, to the U.S. Probation Officer.

The defendant shall not apply for, solicit, or incur any further debt, included but not limited to loans, lines of credit, or credit card charges, either as a principal or cosigner, as an individual, or through any corporate entity, without first obtaining written permission from the U.S. Probation Officer.

DEFENDANT: Richard Lee Hauser, M.D.
CASE NUMBER: 4:16-cr-00157-001

CRIMINAL MONETARY PENALTIES

The defendant must pay the total criminal monetary penalties under the schedule of payments on Sheet 6.

	Assessment	JVTA Assessment *	Fine	Restitution
TOTALS	$ 200.00	$	$	$ 30,879.32

☐ The determination of restitution is deferred until _____. An *Amended Judgment in a Criminal Case (AO 245C)* will be entered after such determination.

☑ The defendant must make restitution (including community restitution) to the following payees in the amount listed below.

If the defendant makes a partial payment, each payee shall receive an approximately proportioned payment, unless specified otherwise in the priority order or percentage payment column below. However, pursuant to 18 U.S.C. § 3664(i), all nonfederal victims must be paid before the United States is paid.

Name of Payee	Total Loss**	Restitution Ordered	Priority or Percentage
Wellmark Blue Cross Blue Shield of Iowa	$25,965.72	$25,965.72	
1331 Grand Avenue			
Des Moines, Iowa 50309			
Iowa Medicaid Enterprise	$4,913.60	$4,913.60	
100 Army Post Road			
Des Moines, Iowa 50315			
TOTALS	$30,879.32	$30,879.32	

☐ Restitution amount ordered pursuant to plea agreement $ _____

☐ The defendant must pay interest on restitution and a fine of more than $2,500, unless the restitution or fine is paid in full before the fifteenth day after the date of the judgment, pursuant to 18 U.S.C. § 3612(f). All of the payment options on Sheet 6 may be subject to penalties for delinquency and default, pursuant to 18 U.S.C. § 3612(g).

☑ The court determined that the defendant does not have the ability to pay interest and it is ordered that:

☑ the interest requirement is waived for the ☐ fine ☑ restitution.

☐ the interest requirement for the ☐ fine ☐ restitution is modified as follows:

* Justice for Victitims of Trafficking Act of 2015, Pub. L. No. 114-22.
** Findings for the total amount of losses are required under Chapters 109A, 110, 110A, and 113A of Title 18 for offenses committed on or after September 13, 1994, but before April 23, 1996.

DEFENDANT: Richard Lee Hauser, M.D.
CASE NUMBER: 4:16-cr-00157-001

SCHEDULE OF PAYMENTS

Having assessed the defendant's ability to pay, payment of the total criminal monetary penalties is due as follows:

A ☑ Lump sum payment of $ 31,079.32 due immediately, balance due

☐ not later than _____ , or
☑ in accordance ☐ C, ☐ D, ☐ E, or ☑ F below; or

B ☐ Payment to begin immediately (may be combined with ☐ C, ☐ D, or ☐ F below); or

C ☐ Payment in equal _____ *(e.g., weekly, monthly, quarterly)* installments of $ _____ over a period of _____ *(e.g., months or years)*, to commence _____ *(e.g., 30 or 60 days)* after the date of this judgment; or

D ☐ Payment in equal _____ *(e.g., weekly, monthly, quarterly)* installments of $ _____ over a period of _____ *(e.g., months or years)*, to commence _____ *(e.g., 30 or 60 days)* after release from imprisonment to a term of supervision; or

E ☐ Payment during the term of supervised release will commence within _____ *(e.g., 30 or 60 days)* after release from imprisonment. The court will set the payment plan based on an assessment of the defendant's ability to pay at that time; or

F ☑ Special instructions regarding the payment of criminal monetary penalties:

All criminal monetary payments are to be made to the Clerk's Office, U.S. District Court, P.O. Box 9344, Des Moines, IA. 50306-9344.
While on supervised release, you shall cooperate with the Probation Officer in developing a monthly payment plan consistent with a schedule of allowable expenses provided by the Probation Office.

Unless the court has expressly ordered otherwise, if this judgment imposes imprisonment, payment of criminal monetary penalties is due during the period of imprisonment. All crimnal monetary penalties, except those payments made through the Federal Bureau of Prisons' Inmate Financial Responsibility Program, are made to the clerk of the court.

The defendant shall receive credit for all payments previously made toward any criminal monetary penalties imposed.

☐ Joint and Several

Defendant and Co-Defendant Names and Case Numbers *(including defendant number)*, Total Amount, Joint and Several Amount, and corresponding payee, if appropriate.

☐ The defendant shall pay the cost of prosecution.

☐ The defendant shall pay the following court cost(s):

☐ The defendant shall forfeit the defendant's interest in the following property to the United States:

Payments shall be applied in the following order: (1) assessment, (2) restitution principal, (3) restitution interest, (4) fine principal,(5) fine interest, (6) community restitution, (7) JVTA assessment, and (8) costs, including cost of prosecution and court costs.

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

Case No. 16-20471-CR-ALTONAGA

UNITED STATES OF AMERICA

vs.

MICHAEL BAHRAMI,

Defendant.
_____/

COURT'S INSTRUCTIONS TO THE JURY

Members of the Jury:

It is my duty to instruct you on the rules of law that you must use in deciding this case. After I have completed these instructions, you will go to the jury room and begin your discussions – what we call your deliberations.

You must decide whether the Government has proved the specific facts necessary to find the Defendant guilty beyond a reasonable doubt.

Your decision must be based only on the evidence presented during the trial. You must not be influenced in any way by either sympathy for or prejudice against the Defendant or the Government.

You must follow the law as I explain it – even if you do not agree with the law – and you must follow all of my instructions as a whole. You must not single out or disregard any of the Court's instructions on the law.

The indictment or formal charge against a defendant is not evidence of guilt. The law presumes every defendant is innocent. The Defendant does not have to prove his innocence or produce any evidence at all. A defendant does not have to testify, and if the Defendant chose not to testify, you cannot consider that in any way while making your decision. The Government must prove guilt beyond a reasonable doubt. If it fails to do so, you must find the Defendant not guilty.

The Government's burden of proof is heavy, but it does not have to prove a Defendant's guilt beyond all possible doubt. The Government's proof only has to exclude any "reasonable doubt" concerning the Defendant's guilt.

A "reasonable doubt" is a real doubt, based on your reason and common sense after you have carefully and impartially considered all the evidence in the case.

"Proof beyond a reasonable doubt" is proof so convincing that you would be willing to rely and act on it without hesitation in the most important of your own affairs. If you are convinced that the Defendant has been proved guilty beyond a reasonable doubt, say so. If you are not convinced, say so.

As I said before, you must consider only the evidence that I have admitted in the case. Evidence includes the testimony of witnesses and the exhibits admitted. But, anything the lawyers say is not evidence and is not binding on you.

You should not assume from anything I have said that I have any opinion about any factual issue in this case. Except for my instructions to you on the law, you should disregard anything I may have said during the trial in arriving at your own decision about the facts.

Your own recollection and interpretation of the evidence are what matters.

In considering the evidence you may use reasoning and common sense to make deductions and reach conclusions. You should not be concerned about whether the evidence is direct or circumstantial.

"Direct evidence" is the testimony of a person who asserts that he or she has actual knowledge of a fact, such as an eyewitness.

"Circumstantial evidence" is proof of a chain of facts and circumstances that tend to prove or disprove a fact. There is no legal difference in the weight you may give to either direct or circumstantial evidence.

When I say you must consider all the evidence, I do not mean that you must accept all the evidence as true or accurate. You should decide whether you believe what each witness had to say, and how important that testimony was. In making that decision you may believe or disbelieve any witness, in whole or in part. The

number of witnesses testifying concerning a particular point does not necessarily matter.

To decide whether you believe any witness I suggest that you ask yourself a few questions:

- Did the witness impress you as one who was telling the truth?
- Did the witness have any particular reason not to tell the truth?
- Did the witness have a personal interest in the outcome of the case?
- Did the witness seem to have a good memory?
- Did the witness have the opportunity and ability to accurately observe the things he or she testified about?
- Did the witness appear to understand the questions clearly and answer them directly?
- Did the witness's testimony differ from other testimony or other evidence?

You should also ask yourself whether there was evidence that a witness testified falsely about an important fact. And ask whether there was evidence that at some other time a witness said or did something, or did not say or do something, that was different from the testimony the witness gave during this trial.

To decide whether you believe a witness, you may consider the fact that the witness has been convicted of a felony or a crime involving dishonesty or a false statement.

But keep in mind that a simple mistake does not mean a witness was not telling the truth as he or she remembers it. People naturally tend to forget some things or remember them inaccurately. So, if a witness misstated something, you must decide whether it was because of an innocent lapse in memory or an intentional deception. The significance of your decision may depend on whether the misstatement is about an important fact or about an unimportant detail.

When scientific, technical or other specialized knowledge might be helpful, a person who has special training or experience in that field is allowed to state an opinion about the matter.

But that does not mean you must accept the witness's opinion. As with any other witness's testimony, you must decide for yourself whether to rely upon the opinion.

Certain exhibits have been identified as typewritten transcripts of the oral conversations heard on tape recordings received in evidence. The transcripts also purports to identify the speakers engaged in the conversations.

I have admitted the transcript for the limited and secondary purpose of helping you follow the content of the conversation as you listen to the recordings and also to help you identify the speakers.

But you are specifically instructed that whether the transcript correctly reflects the content of the conversation or the identity of the speakers is entirely for you to decide based on your own examination of the transcript in relation to hearing the tape recording itself as the primary evidence of its own contents.

If you determine that the transcript is in any respect incorrect or unreliable, you should disregard it to that extent.

If the Government offers evidence that a Defendant made a statement or admission to someone after being arrested or detained, you must consider that evidence with caution and great care.

You must decide for yourself (1) whether the Defendant made the statement, and (2) if so, how much weight to give to it. To make these decisions, you must consider all the evidence about the statement – including the circumstances under which it was made.

You must consider some witnesses' testimony with more caution than others.

The Government has made a plea agreement with a Codefendant and two witnesses in exchange for their testimony. Such "plea bargaining," as it is called, provides for the possibility of a lesser sentence than the Codefendant or witnesses

would normally face. Plea bargaining is lawful and proper, and the rules of this Court expressly provide for it.

But a witness who hopes to gain more favorable treatment may have a reason to make a false statement in order to strike a good bargain with the Government.

So while a witness of that kind may be entirely truthful when testifying, you should consider that testimony with more caution than the testimony of other witnesses.

And the fact that a witness – including one of Defendant's co-defendants – has pleaded guilty to an offense is not evidence of the guilt of Defendant or any other person.

You have heard evidence about Khaled Elbeblawy, who has not been called to testify as a witness in this case. Mr. Elbeblawy was unavailable to both parties because he indicated that: (1) if called by the defense, he would invoke his Fifth Amendment privilege against self-incrimination; and (2) if called by prosecution, he would invoke his Fifth Amendment privilege against self-incrimination unless he was given immunity from prosecution for his statements, in other words, unless his statements would not be used against him by the prosecution. Accordingly, you may not draw any inference that any testimony he would have given here in court would have been favorable or unfavorable to either side.

The Indictment charges one crime, called a "count," against the Defendant. That count is identified by the number 1. You will be given a copy of the Indictment to refer to during your deliberations.

Count 1 charges that the Defendant knowingly and willfully conspired to defraud the United States and to receive health care kickbacks.

First, note that the Defendant is not charged in Count 1 with committing a substantive offense – he is charged with conspiring to commit an offense.

I will also give you specific instructions on conspiracy.

It is a federal crime for anyone to conspire or agree with someone else to defraud the United States or any of its agencies.

It is also a federal crime for anyone to conspire or agree with someone to do something that, if carried out, would result in the crime of receiving health care kickbacks. I will instruct you on the elements of receiving health care kickbacks in a moment.

A "conspiracy" is an agreement by two or more persons to commit an unlawful act. In other words, it is a kind of partnership for criminal purposes. Every member of the conspiracy becomes the agent or partner of every other member.

The Government does not have to prove that all the people named in the indictment were members of the plan, or that those who were members made any kind of formal agreement.

The Government does not have to prove that the members planned together all the details of the plan or the "overt acts" that the indictment charges would be carried out in an effort to commit the intended crime.

The heart of a conspiracy is the making of the unlawful plan itself followed by the commission of any overt act. The Government does not have to prove that the conspirators succeeded in carrying out the plan.

The Defendant can be found guilty of this crime only if all the following facts are proved beyond a reasonable doubt:

(1) Two or more people in some way agreed to try to accomplish a shared and unlawful plan;

(2) the Defendant knew the unlawful purpose of the plan and willfully joined in it;

(3) during the conspiracy, one of the conspirators knowingly engaged in at least one overt act described in the Indictment; and

(4) the overt act was knowingly committed at or about the time alleged and with the purpose of carrying out or accomplishing some object of the conspiracy.

An "overt act" is any transaction or event, even one which may be entirely innocent when viewed alone, that a conspirator commits to accomplish some object of the conspiracy.

A person may be a conspirator even without knowing all the details of the unlawful plan or the names and identities of all the other alleged conspirators.

If the Defendant played only a minor part in the plan but had a general understanding of the unlawful purpose of the plan – and willfully joined in the plan on at least one occasion – that is sufficient for you to find the Defendant guilty.

But simply being present at the scene of an event or merely associating with certain people and discussing common goals and interests does not establish proof of a conspiracy. Also a person who does not know about a conspiracy but happens to act in a way that advances some purpose of one does not automatically become a conspirator.

In Count 1, the Defendant is charged with conspiring to receive health care bribes and kickbacks and defraud the United States Department of Health and Human Services. I will now define each of these objects of the conspiracy.

Regarding conspiring to defraud the United States, it is a federal crime for anyone to conspire or agree with someone else to defraud the United States or any of its agencies. To "defraud" the United States means to cheat the Government out of property or money or to interfere with any of its lawful governmental functions by deceit, craft, or trickery.

With respect to receiving health care bribes and kickbacks, the Defendant can be found guilty of violating 42 U.S.C. § 1320a-7b(b)(1)(A), also called the Anti-Kickback Statute, only if the following facts are proven beyond a reasonable doubt:

(1) the Defendant solicited or received any remuneration (including any bribe or kickback), directly or indirectly, openly or secretly;

(2) the Defendant solicited or received payment in return for referring an individual to a person for the furnishing or arranging for the furnishing of an item or service that could be paid for, in whole or in part, by a federal health care program which, in this case, is Medicare; and

(3) the Defendant did so knowingly and willfully.

As used in these instructions, the term "remuneration" means the transfer of anything of value from one person or entity to another person or entity. Remuneration includes money. Remuneration can be direct or indirect.

As used in these instructions, the term "bribe" means the corrupt transfer of anything of value from one person or entity to another person or entity usually to accomplish some unlawful result or to accomplish some lawful result by some unlawful means.

As used in these instructions, the term "kickback" means the return of a portion of the original payment.

As used in these instructions, the term "federal health care program" means any plan or program that provides health benefits, whether directly, through insurance, or otherwise, which is funded directly, in whole or in part, by the United States Government.

In this case, regarding the alleged conspiracy, the Indictment charges that the Defendant conspired to defraud the United States and to receive health care kickbacks. In other words, the Defendant is charged with conspiring to commit two separate substantive crimes.

The Government does not have to prove that the Defendant willfully conspired to commit both crimes. It is sufficient if the Government proves beyond a reasonable doubt that the Defendant willfully conspired to commit one of those crimes. But to return a verdict of guilty, you must all agree on which of the two crimes the Defendant conspired to commit.

During the trial you have seen or heard summary evidence in the form of charts, testimony, and similar material. Some of these summaries were admitted into evidence because they may assist you in understanding the evidence that has been presented. The summaries, however, are only as valid and reliable as the underlying material they summarize.

You will see that the Indictment charges that a crime was committed "on or about" a certain date. The Government does not have to prove that the crime

occurred on an exact date. The Government only has to prove beyond a reasonable doubt that the crime was committed on a date reasonably close to the date alleged.

The word "knowingly" means that an act was done voluntarily and intentionally and not because of a mistake or by accident.

The word "willfully" means that the act was committed voluntarily and purposely, with the intent to do something the law forbids; that is, with the bad purpose to disobey or disregard the law. While a person must have acted with the intent to do something the law forbids before you can find that the person acted "willfully," the person need not be aware of the specific law or rule that his conduct may be violating.

I caution you that the Defendant is on trial only for the specific crime charged in the Indictment. You are here to determine from the evidence in this case whether the Defendant is guilty or not guilty of that specific crime.

You must never consider punishment in any way to decide whether the Defendant is guilty or not guilty. If you find the Defendant guilty, the punishment is for the Judge alone to decide later.

Your verdict, whether guilty or not guilty, must be unanimous – in other words, you must all agree. Your deliberations are secret, and you will never have to explain your verdict to anyone.

Each of you must decide the case for yourself, but only after fully considering the evidence with the other jurors. So you must discuss the case with one another and try to reach an agreement. While you are discussing the case, do not hesitate to reexamine your own opinion and change your mind if you become convinced that you were wrong. But do not give up your honest beliefs just because others think differently or because you simply want to get the case over with.

Remember that, in a very real way, you are judges – judges of the facts. Your only interest is to seek the truth from the evidence in the case.

When you get to the jury room, choose one of your members to act as foreperson. The foreperson will direct your deliberations and will speak for you in court.

A verdict form has been prepared for your convenience.

Take the verdict form with you to the jury room. When you have all agreed on the verdict, your foreperson must fill in the form, sign it, date it, and carry it. Then you will return it to the courtroom.

If you wish to communicate with me at any time, please write down your message or question and give it to the marshal. The marshal will bring it to me and I will respond as promptly as possible – either in writing or by talking to you in the courtroom. But I caution you not to tell me how many jurors have voted one way or the other at that time.

Affidavit of Farhad Kader

I, Farhad Kader, do hereby declare and state:

1. I am a resident of the State of Florida and currently reside in Palm Beach Gardens, FL.
2. I graduated from Florida International University with a Bachelor of Science degree in 1980. I graduated from the University of Miami with a Master of Science degree in Radiological Sciences in 1982. I was enrolled in the doctoral program in Medical Physics at Wayne State University from 1984 to 1989.
3. Since 1986, I have been employed continuously in the field of medical physics. Most recently, I have been employed on a full-time basis since August of 2009 as a Medical Physicist at South Florida Radiation Oncology (previously at Florida Cancer Specialists and Palm Beach Cancer Institute) located in West Palm Beach, Florida. From March 2003 to June 2009, I was employed on a full-time basis as the Director of Medical Physics at Mid Florida Radiation Oncology in Fort Pierce, FL.
4. I have been licensed as a Therapeutic Radiological Physicist in the State of Florida since 1997.
5. Since around 2004, I have been performing services as an independent contractor for Gary Marder, M.D. in connection with his operation of two clinic locations doing business under the name of Allergy, Dermatology and Skin Cancer Center.
6. Throughout my business relationship with Dr. Marder, my primary services were to calibrate his radiation equipment annually, and prepare reports of the calibration. I was also on retainer with Dr. Marder as an on-call professional to answer questions about radiation therapy, to include such things as general billing questions. If needed, I would consult other individuals in my field in order to provide the correct information to Dr.

3/22/16

Marder. Over the years, I was paid between approximately $5,000 and $20,000 annually.

7. The equipment which I calibrated for Dr. Marder was located in his offices in Port St. Lucie and Okeechobee. The maximum power of the devices was limited to approximately 90,000 volts (90 keV), a power level which is universally considered to be "superficial radiation".
8. The machines were roughly comparable to dental x-ray machines in size and required no special shielding.
9. The type of equipment powerful enough to generate radiation of 5 MeV (5,000,000 electron volts) is known as a linear accelerator, or "linac" for short. For safety purposes, Linacs must be installed in concrete bunkers to provide shielding.
10. Each daily radiation treatment is known as a "fraction" as it represents only a portion of the total dose. If the daily fraction is split into two separate applications of radiation, it is referred to as "hyper-fractionation."
11. It is common knowledge in the field of radiation oncology that hyper-fractionated radiation treatments must be separated by a minimum of four hours, and optimally six hours.
12. Early on in our relationship, I also provided consulting services to Dr. Marder regarding therapeutic radiation. One example of that is that I assisted him in designing forms which could be used to document radiation services.
13. During that early time period in which I provided physicist services related to radiation treatments being rendered to individual Marder's patients, it was on a very limited number of cases. In those circumstances where I rendered these services to Marder patients for the radiation treatment, I always signed off on my work with an original signature using a pen. At no time have I ever given Marder and/or any of his staff permission to photocopy my

3/22/16

signatures, sign any form on my behalf or use a stamp of my signature.

14. In general, Dr. Marder utilized a straightforward radiation protocol and my services were not necessary.

15. In almost all cases, the services I rendered to Dr. Marder were in the evenings or on the weekends.

16. In August 2009, after commencing employment at my current position in West Palm Beach, FL, I no longer drove to the Fort Pierce area on a daily basis. Due to this change in location, within a year at the very latest, I stopped rendering physicist services related to the treatment being rendered to individual Marder patients. Since this time I have only provided calibration services to Dr. Marder's radiation machines at his two office locations, along with the on-call professional advice. Therefore, from approximately August 2010 to the present, the only services I rendered to Dr. Marder or Allergy, Dermatology and Skin Cancer Center were related to the annual calibration of equipment and professional advice. No other medical physicist services have been provided with respect to any patient, nor have I signed or authorized my signature to be utilized on any patient file for any reason at either of Dr. Marder's office locations.

17. I have not set forth each and every fact known to me regarding this situation at this time.

FURTHER DECLARANT SAYETH NAUGHT.

Pursuant to Title 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct and is based upon my personal knowledge this 22nd day of March, 2016, in West Palm Beach, Florida.

Dated: March 22, 2016,

By: _____ 3/22/16

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV- MOORE/TORRES

UNITED STATES OF AMERICA; and the STATE OF FLORIDA, *ex rel.* THEODORE A. SCHIFF, M.D.
Plaintiffs,

v.

GARY L. MARDER, D.O. and ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation
Defendants.
_____/

DEFENDANT GARY L. MARDER, D.O.'S RESPONSE TO UNITED STATES' FIRST SET OF INTERROGATORIES AND REQUEST FOR ADMISSIONS

Pursuant to Rules 33 and 36 of the Federal Rules of Civil Procedure and Rule 26.1(g) of the Local Rules of the United States District Court for the Southern District of Florida, defendant Gary L. Marder , D.O. (Dr. Marder") hereby responds to plaintiff, United States' First Set of Interrogatories and Request for Admissions as follows:

GENERAL OBJECTIONS

1. Defendant objects to the interrogatories and request for admissions to the extent that they seek information or the production or identification of documents not in the possession, custody or control of Defendant within the meaning of the Federal Rules of Civil Procedure or the Federal Evidence Code on the grounds that said interrogatories and request for admissions are overbroad, unreasonable, unduly burdensome, improper and that their scope is not limited to information known to Defendant.

2. Defendant objects to the interrogatories and request for admissions to the extent that they seek information concerning matters that are irrelevant and not reasonably calculated to lead to the discovery of admissible evidence concerning Plaintiff's claims and/or Defendant's defenses in the pending litigation.

3. Defendant objects to the interrogatories and request for admissions to the extent that they seek information or the production or identification of documents protected by the attorney-client privilege, by the work product privilege, or by any other privilege.

4. Defendant submits these responses without conceding the relevance or materiality of the subject matter of any document or information which may be produced or identified, and without prejudice to Defendant's right to object to further discovery or to object to the admissibility of any proof on the subject matter of any discovery of any document. Defendant reserves the right to change or to supplement any response that may subsequently appear to be incomplete or incorrect. Defendant reserves the right to object at such later time that any document produced or response given hereunder is protected by the attorney-client privilege, or as attorney work product or trial preparation material, and that the production or response was inadvertent.

5. In responding to the interrogatories and request for admissions, Defendant has conducted a reasonable inquiry of those persons most likely to possess information responsive thereto and a reasonable search of records where information requested would most likely be maintained. To the extent defendant seeks to require Defendant to respond further, Defendant objects on the grounds that the interrogatories and request for admissions are, to said extent, overbroad, unduly burdensome, unreasonable and oppressive.

6. Defendant will make any documents identified in response to any interrogatory and request for admission available for inspection and copying at a time mutually convenient to the parties and their respective counsel. By agreeing to produce responsive documents, Defendant does not acknowledge that such documents exist.

7. Defendant objections to these interrogatories and request for admissions on the basis of his Fifth Amendment right against self-incrimination. Defendant adopts all arguments and legal authorities contained within any court filings made by Defendant in connection with the Motion for Stay of Civil Proceedings, Motion for Protective Order, and Renewed Motion for Stay of Discovery. Defendant also objects on the basis of his Sixth Amendment rights, secured by the Due Process Clause, and any other applicable provisions of the United States Constitution that relate to and encompass his right to counsel and right to prepare a criminal defense free from government intrusion.

Subject to the foregoing, Defendant responds as follows:

SPECIFIC RESPONSES TO INTERROGATORIES

1. If you contend that any of the radiation services for which you submitted claims using CPT Codes 77401, 77402, 77407 and 77412 did not require direct supervision or direct personal supervision by a physician during the provision of the services in order to be covered by Medicare, for each of these specific CPT codes, state all reasons why you contend that direct or direct personal supervision was not required and identify any authority upon which you rely (person or document).

ANSWER TO INTERROGATORY NO. 1: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

2. Provide the definition(s) of the physician supervision requirement that you contend was applicable to the claims you submitted to Medicare using CPT Codes 77401, 77402, 77407 and 77412, and identify any authority upon which you rely (person or document).

ANSWER TO INTERROGATORY NO. 2: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

3. If you contend that any of the services rendered by non-physician providers and billed by ADSCC or Dr. Marder to Medicare did not require direct supervision by a physician during the provision of the services in order to have been billed as having been rendered by a physician, for each of the CPT Codes included within the definition of non-physician provider services, state all reasons why you contend that direct supervision was not required and identify any authority upon which you rely (person or document).

ANSWER TO INTERROGATORY NO. 3: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

4. If you contend that any of the radiation services or non-physician provider services billed by ADSCC or Dr. Marder to Medicare at such times as Dr. Marder was not on the premises of either of ADSCC's clinics were in fact supervised, identify each specific service, the nature of the supervision and the person who supervised the service.

ANSWER TO INTERROGATORY NO. 4: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

5. Please explain every step taken by you which you claim supported the decision to use the National Provider Identifier or similar number of Dr. Marder as the rendering or performing provider in submitting claims to Medicare for services rendered by non-physician providers at such times as Dr. Marder was not present in the office where the services were being rendered.

ANSWER TO INTERROGATORY NO. 5: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

6. Please identify all persons whom you permitted to select the Current Procedural Terminology (CPT) codes to be used in claims submitted by you to the Medicare, Medicaid or TRICARE programs.

ANSWER TO INTERROGATORY NO. 6: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

7. Please state all reasons why you contend the claims submitted by you to Medicare, Medicaid or TRICARE using CPT Codes 77402, 77407 and 77412 instead of CPT code 77401 were not false, and all steps taken by you in order to determine whether utilizing those codes was appropriate and accurate.

ANSWER TO INTERROGATORY NO. 7: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

8. Please list all training courses or seminars that Dr. Marder or ADSCC and their employees attended which pertain to billing the Medicare or Medicaid programs or to the use of CPT codes. Please specify the name of the person who attended the training or seminar, be it Dr. Marder himself or an employee.

ANSWER TO INTERROGATORY NO. 8: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

9. Please estimate separately for each location on a monthly basis, e.g. 40 hours per week in January 2008, the number of hours per week that Dr. Marder physically spent inside:

a. the ADSCC clinic in Port St. Lucie, Florida;

b. the ADSCC clinic in Okeechobee, Florida; and

c. the physical location of KML in Coral Gables, Florida.

ANSWER TO INTERROGATORY NO. 9: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

10. Please list all facilities at which Dr. Marder has or had privileges (including, but not limited to, admitting and consulting privileges), credentials, or medical directorships, or at which Dr. Marder was otherwise authorized to practice.

ANSWER TO INTERROGATORY NO. 10: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

11. Please list all professional associations with which Dr. Marder has or had any affiliation, including but not limited to as a member, subscriber, employee, agent, volunteer or author.

ANSWER TO INTERROGATORY NO. 11: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

12. Identify any occasion on which you were asked to repay money, or actually did repay money, to any third party payor or insurance company, including but not limited to Medicare, Medicaid and TRICARE, and the amounts and reasons therefor.

ANSWER TO INTERROGATORY NO. 12: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

VERIFICATION OF INTERROGATORIES

Pursuant to 28 U.S.C. §1746, I declare under penalty of perjury that the forgoing is true and correct.

Executed on 10/5/, 2015

Dr. Gary L. Marder, D.O.

SPECIFIC RESPONSES TO REQUEST FOR ADMISSIONS

1. Dr. Marder and ADSCC certified to Medicare, Medicaid and TRICARE on provider agreements that they would abide by the rules of the Medicare, Medicaid and TRICARE programs.

ANSWER TO REQUEST FOR ADMISSION NO. 1: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

2. Dr. Marder and ADSCC signed Medicare provider agreements which certified that they would "retain all original source documentation and medical records pertaining to any such particular Medicare claim for a period of at least six years, three months after the bill is paid."

ANSWER TO REQUEST FOR ADMISSION NO. 2: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

3. It was Dr. Marder's practice to review the medical records of his patients before they were sent to be processed for billing.

ANSWER TO REQUEST FOR ADMISSION NO. 3: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

4. ADSCC's employees did not submit claims to Medicare, Medicaid and TRICARE unless Dr. Marder had first reviewed the CPT code selected on the claim.

ANSWER TO REQUEST FOR ADMISSION NO. 4: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

5. Dr. Marder personally selected the CPT codes that he and ADSCC used to submit claims to Medicare, Medicaid and TRICARE, including claims for services rendered by non-physician providers.

ANSWER TO REQUEST FOR ADMISSION NO. 5: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

6. It was the practice of Dr. Marder and ADSCC to identify Dr. Marder as the rendering or performing provider when submitting claims to Medicare, Medicaid and TRICARE for all services rendered by non-physician providers working for him or ADSCC, including services rendered while Dr. Marder was not on the premises of the location where the services were being rendered.

ANSWER TO REQUEST FOR ADMISSION NO. 6: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

7. It was the practice of Dr. Marder and ADSCC to bill Medicare, Medicaid and TRICARE using CPT Codes 77401, 77402, 77407 and 77412 for every external beam radiation

treatment rendered to patients regardless of whether or not the treatment was rendered under the personal supervision or the direct personal supervision of Dr. Marder.

ANSWER TO REQUEST FOR ADMISSION NO. 7: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

8. Dr. Marder and ADSCC never owned the laboratory equipment, never employed the appropriately trained personnel, and never secured the required certification under the Clinical Laboratory Improvement Act necessary to perform the Technical Component of the laboratory tests for which they submitted claims to Medicare and Medicaid using CPT Codes 88305 or 88312.

ANSWER TO REQUEST FOR ADMISSION NO. 8: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

9. None of the laboratory equipment necessary to perform the Technical Component of the laboratory tests for which Dr. Marder and ADSCC submitted claims to Medicare and Medicaid using CPT Codes 88305 or 88312 was ever located in the clinics operated by Dr. Marder and ADSCC in Okeechobee, Florida or Port St. Lucie, Florida.

ANSWER TO REQUEST FOR ADMISSION NO. 9: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

10. No certification under the Clinical Laboratory Improvement Act ever existed which covered the clinics operated by Dr. Marder and ADSCC in Okeechobee, Florida or Port St. Lucie, Florida with respect to any of the laboratory equipment necessary to perform the Technical Component of the laboratory tests for which Dr. Marder and ADSCC submitted claims to Medicare and Medicaid using CPT Codes 88305 or 88312.

ANSWER TO REQUEST FOR ADMISSION NO. 10: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

11. Dr. Marder and ADSCC never personally performed or supervised the Technical Component of any of the laboratory tests for which they submitted claims to Medicare and Medicaid using CPT Codes 88305 or 88312.

ANSWER TO REQUEST FOR ADMISSION NO. 11: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

12. Dr. Kendall and KML performed the Professional Component for substantially all of the laboratory tests for which Dr. Marder or ADSCC submitted claims to Medicare and Medicaid using CPT Codes 88305 or 88312.

ANSWER TO REQUEST FOR ADMISSION NO. 12: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

13. Dr. Marder's normal schedule was to be physically present in the ADSCC office located in Okeechobee, Florida once every two weeks, and to be physically present in the office located in Port St. Lucie, Florida two days a week.

ANSWER TO REQUEST FOR ADMISSION NO. 13: On the advice of counsel and out of an abundance of caution, I respectfully assert my Fifth Amendment right to remain silent.

Case No.: 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA and the
STATE OF FLORIDA, ex rel.
THEODORE A. SCHIFF, M.D.,

Plaintiffs,

vs.

GARY L. MARDER, D.O.; ALLERGY,
DERMATOLOGY & SKIN CANCER
CENTER, INC., a Florida corporation,
ROBERT I. KENDALL, M.D., and
KENDALL MEDICAL LABORATORY,
INC., a Florida corporation,

Defendants.

_____/

DEFENDANT KENDALL MEDICAL LABORATORY RESPONSES AND OBJECTIONS TO UNITED STATES' INTERROGATORIES AND REQUESTS TO ADMIT

Defendant, Kendall Medical Laboratory ("Defendant" or "KML"), by and through the undersigned counsel and pursuant to Federal Rules of Civil Procedure 33 and 36, hereby submits the following Responses and Objections to the Interrogatories and Request to Admit served upon it by Plaintiff, United States of America ("Plaintiff").

NUMBERED OBJECTIONS

The following General Objections apply to and are expressly incorporated in the Responses set forth below:

1. Defendant objects to Plaintiff's Interrogatories and Requests to Admit to the extent that they seek to impose a duty on Defendant different from or beyond that required by the

Federal Rules of Civil Procedure.

2. Defendant objects to the Interrogatories and Requests to Admit to the extent that they seek information concerning matters that are irrelevant and not reasonably calculated to lead to the discovery of admissible evidence concerning Plaintiff's claims and/or Defendant's defenses in the pending litigation.

3. Defendant objects to the Interrogatories and Requests to Admit to the extent that they call for the disclosure of the contents of any document or communication that is privileged, that was prepared in anticipation of litigation or for trial, that constitutes attorney-client privileged information, attorney work product, or that is otherwise immune from discovery or protected by any other applicable privilege or law. Inadvertent identification or production of any such document or information shall not constitute a waiver of any privilege with respect to the subject matter thereof or the information contained therein, and shall not waive Defendant's right to object to the use of any such document or the information contained therein during this or any subsequent proceeding.

4. Defendant objects to the Interrogatories and Requests to Admit to the extent that they fail to describe the information or documents sought with reasonable particularity such that Defendant must speculate as to the information or documents sought.

5. Defendant submits these Responses without conceding the relevance or materiality of the subject matter of any information and/or documents which may be disclosed and without prejudice to Defendant's right to further object to the admissibility of any evidence relating to such information and/or documents. Defendant reserves the right to change or supplement any Response which may subsequently appear to be incomplete or incorrect. Defendant reserves the right to object at such later time that any Response given hereunder is

protected by the attorney-client privilege or any other privilege, or is attorney work product or trial preparation material, or was provided in violation of the Defendant's constitutional rights, and that the disclosure of such information and/or documents was inadvertent.

6. Defendant reserves the right to amend or supplement its Responses should that become necessary or appropriate.

7. Defendant objects to these Interrogatories and Requests to Admit on the basis of that they violate Dr. Robert I. Kendall's Fifth Amendment right against self-incrimination. In that regard, such objection adopts all arguments and legal citations contained within any filings made by any defendant in this action in connection with the Motion to Stay, the Motion for a Protective Order, and Motion for a Stay of Discovery. This includes, but is not limited to, docket entries 70, 72, 85, 87, 92, 93, 99, and 100. Defendant also objects to these Interrogatories and Requests to Admit on the basis that their result violates the Defendant's and/or Dr. Robert I. Kendall's Sixth Amendment rights, rights secured by the Due Process Clause, and other applicable provisions of the United States Constitution that relate to and encompass the right to counsel and the right to prepare a criminal defense free from government intrusion. Defendant also objects to these Interrogatories and Requests to Admit as they impermissibly seek attorney-client privileged and work product material related to the representation of Defendant and/or Dr. Robert I. Kendall in connection with a parallel criminal matter. The enclosed responses do not waive any of the foregoing objections.[1]

8. Defendant objects to any usage of the enclosed documents in connection with the Plaintiff's parallel criminal investigation and reserves its right to seek a related protective order.

---

[1] To be clear, Defendant does not allege that any government attorney or actor is acting in bad faith or intentionally violating the defendant's constitutional or other rights.

RESPONSES TO FIRST SET OF INTERROGATORIES

Interrogatory One:

Please list all training courses or seminars that Dr. Kendall or his employees attended which pertain to billing the Medicare or Medicaid programs or to the use of CPT codes. Please specify the name of the person who attended the training or seminar, be it Dr. Kendall himself or an employee.

> **Response to Interrogatory One:** Based on the information known by Defendant KML,[2] no employee of Defendant KML attended any training courses or seminars which pertain to billing and Medicare or Medicaid programs or to the use of CPT codes. This answer is limited to KML employees other than Dr. Robert I. Kendall.

Interrogatory Two:

Please estimate the number of hours per week that Dr. Kendall physically spent inside Dr. Marder's clinics in Port St. Lucie, Florida and Okeechobee, Florida. Please give this estimate separately for each clinic and on a monthly basis, *e.g.*, 40 hours per week in January 2008.

> **Response to Interrogatory Two:** No employee or individual at KML can make an estimate as to the number of hours that Dr. Kendall physically spent inside of Dr. Marder's clinics, except for Dr. Kendall. Dr. Kendall, however, has invoked his Fifth Amendment right to silence.

Interrogatory Three:

Please estimate the number of hours per week that Dr. Kendall physically spent inside the physical location of KML. Please give this estimate separately for each clinic and on a monthly basis, *e.g.*, 40 hours per week in January 2008.

> **Response to Interrogatory Three:** Dr. Kendall did not maintain set hours of employment at KML. However, based on the information known by Defendant KML, Defendant KML estimates that Dr. Kendall would spend approximately 30 hours per week inside the physical location of KML, excluding those periods during which he was on vacation. This estimate applies for the period of 2008 through the present.

Interrogatory Four:

Please list all facilities to which Dr. Kendall had privileges (including, but not limited to, admitting and consulting privileges), credentials, or medical directorships, or at which Dr. Kendall was otherwise authorized to practice.

---

[2] The knowledge of Defendant KML as referenced throughout the instant responses and objections does not include the knowledge of Defendant Robert I. Kendall as he has asserted his Fifth Amendment right against self-incrimination.

Response to Interrogatory Four: Based on the information known by Defendant KML, Defendant KML has no knowledge that Dr. Kendall had any privileges, credentials, medical directorships, or was otherwise authorized to practice at any facility.

Interrogatory Five:

Please list all professional associations with which Dr. Kendall had any affiliation, including but not limited to as a member, subscriber, employee, agent, volunteer or author.

Response to Interrogatory Five: Based on the information know by Defendant KML, Dr. Kendall is a member of the American Society of Clinical Pathologists, the College of American Pathologists, and the American Board of Pathology.

Interrogatory Six:

Identify any occasion on which you were asked to repay money, or actually did repay money, to any third party payor or insurance company, including but not limited to Medicare, Medicaid and TRICARE, and the amounts and reasons therefore.

Response to Interrogatory Six: Based on the information known by Defendant KML, on various occasions, KML was asked to repay certain overpayments to third party payers and/or insurance companies. Representatives of KML will attempt to locate documents and records evidencing any specific repayments.

VERIFICATION OF INTERROGATORIES

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on March 4, 2016

Patricia Boitel

RESPONSES TO REQUESTS TO ADMIT

Request to Admit One:

Dr. Kendall and KML certified to Medicare, Medicaid and TRICARE on provider agreements that they would abide by the rules of the Medicare, Medicaid and TRICARE programs.

> **Response to Request to Admit One:** Without waiving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit as vague, overbroad, and/or not reasonably calculated to lead to the discovery of admissible evidence in that the Request is not limited in time or scope and the Request seeks admissions concerning events for an unspecified period.

Request to Admit Two:

Dr. Kendall and KML signed Medicare provider agreements which certified that they would "retain all original source documentation and medical records pertaining to any such particular Medicare claim for a period of at least six years, three months after the bill is paid."

> **Response to Request to Admit Two:** Without waiving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit as vague, overbroad, compound and/or not reasonably calculated to lead to the discovery of admissible evidence in that the Request is not limited in time or scope and seeks admissions concerning events for an unspecified period. To the extent the Request to Admit seeks authentication of a specific document from which it quotes, there is no document attached to the Request such that Defendant cannot properly formulate a response.

Request to Admit Three:

Dr. Marder and ADSCC never owned the laboratory equipment, never employed appropriately trained personnel, and never secured the certification under the Clinical Laboratory Improvement Act necessary to perform the Technical Component of the laboratory tests for which they submitted claims to Medicare and Medicaid using CPT Codes 88305 or 88312.

> **Response to Request to Admit Three:** Without waiving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit because it does not seeks an admission with respect to Defendant, but rather with respect to other defendants to this action. Defendant has made reasonable inquiry and the information it knows or can readily obtain is insufficient to enable it to admit or deny.

Request to Admit Four:

None of the laboratory equipment necessary to perform the Technical Component of the laboratory tests performed by Dr. Kendall and KML for Dr. Marder and ADSCC was located in the clinics operated by Dr. Marder and ADSCC in Okeechobee, Florida or Port St. Lucie, Florida.

> **Response to Request to Admit Four:** Without waiving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit because it does not seek an admission with respect to Defendant, but rather with respect to other defendants to this

action. Defendant has made reasonable inquiry and the information it knows or can readily obtain is insufficient to enable it to admit or deny.

Request to Admit Five:

No certification under the Clinical Laboratory Improvement Act ever existed which covered the clinics operated by Dr. Marder and ADSCC in Okeechobee, Florida or Port St. Lucie, Florida, with respect to any of the laboratory equipment necessary to perform the Technical Component of the laboratory tests rendered by Dr. Kendall and KML for Dr. Marder and ADSCC.

Response to Request to Admit Five: Without waiving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit because it does not seek an admission with respect to Defendant, but rather with respect to other defendants to this action. Defendant has made reasonable inquiry and the information it knows or can readily obtain is insufficient to enable it to admit or deny.

Request to Admit Six:

Dr. Marder never personally performed or supervised the Technical Component of any of the laboratory tests on specimens sent by Dr. Marder and ADSCC to Dr. Kendall and KML.

Response to Request to Admit Six: Without waiving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit because it does not seeks an admission with respect to Defendant, but rather with respect to other defendants to this action. Defendant further objects to the Request to Admit as vague and overbroad in that it uses the term "supervised" without definition. Subject to the foregoing objections, Defendant admits that Dr. Marder has never personally performed the Technical Component of any of the laboratory tests on specimens sent by Dr. Marder and ADSCC to Dr. Kendall and Defendant.

Request to Admit Seven:

KML performed the Professional Component for substantially all of the laboratory tests or specimens sent by Dr. Marder and ADSCC to Dr. Kendall and KML.

Response to Request to Admit Seven: Without waiving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit because it does not seeks an admission with respect to Defendant, but rather with respect to other defendants to this action. Defendant further objects to the Request to Admit as vague and overbroad in that it uses the term "substantially" without definition. Defendant admits that KML did diagnose specimens sent to KML it by ADSCC.

DEFENDANT ROBERT I. KENDALL, M.D.'S RESPONSES AND OBJECTIONS TO UNITED STATES' INTERROGATORIES AND REQUESTS TO ADMIT

Defendant, Dr. Robert I. Kendall ("Defendant"), by and through the undersigned counsel and pursuant to Federal Rules of Civil Procedure 33 and 36, hereby submits the following Responses and Objections to the Interrogatories and Request to Admit served upon him by Plaintiff, United States of America ("Plaintiff").

NUMBERED OBJECTIONS

The following General Objections apply to and are expressly incorporated in the Responses set forth below:

1. Defendant objects to Plaintiff's Interrogatories and Requests to Admit to the extent that they seek to impose a duty on Defendant different from or beyond that required by the Federal Rules of Civil Procedure.

2. Defendant objects to the Interrogatories and Requests to Admit to the extent that they seek information concerning matters that are irrelevant and not reasonably calculated to lead to the discovery of admissible evidence concerning Plaintiff's claims and/or Defendant's defenses in the pending litigation.

3. Defendant objects to the Interrogatories and Requests to Admit to the extent that they call for the disclosure of the contents of any document or communication that is privileged, that was prepared in anticipation of litigation or for trial, that constitutes attorney-client privileged information, attorney work product, or that is otherwise immune from discovery or protected by any other applicable privilege or law. Inadvertent identification or production of any such document or information shall not constitute a waiver of any privilege with respect to the subject matter thereof or the information contained therein, and shall not waive Defendant's right to object to the use of any such document or the information contained therein during any subsequent procedure.

4. Defendant objects to the Interrogatories and Requests to Admit to the extent that they fail to describe the information or documents sought with reasonable particularity such that Defendant must speculate as to the information or documents sought.

5. Defendant submits these Responses without conceding the relevance or materiality of the subject matter of any information and/or documents which may be disclosed and without prejudice to Defendant's right to further object to the admissibility of any evidence relating to such information and/or documents. Defendant reserves the right to change or supplement any Response which may subsequently appear to be incomplete or incorrect. Defendant reserves the right to object at such later time that any Response given hereunder is protected by the attorney-client privilege or any other privilege, or is attorney work product or

trial preparation material, or was provided in violation of the Defendant's constitutional rights, and that the disclosure of such information and/or documents was inadvertent.

6. Defendant reserves the right to amend or supplement its Responses should that become necessary or appropriate. Defendant also reserves the right to withdraw his invocation of his right to remain silent should he choose at a later date.

7. Defendant objects to these Interrogatories and Requests to Admit on the basis of his Fifth Amendment right against self-incrimination. In that regard, such objection adopts all arguments and legal citations contained within any filings made by any defendant and filed in connection with the Motion to Stay, the Motion for a Protective Order, and Motion for a Stay of Discovery. This includes, but is not limited to, docket entries 70, 72, 85, 87, 92, 93, 99, and 100. Defendant also objects to these Interrogatories and Requests to Admit on the basis that their result violates the Defendant's Sixth Amendment rights, rights secured by the Due Process Clause, and other applicable provisions of the United States Constitution that relate to and encompass his right to counsel and his right to prepare a criminal defense free from government intrusion. Defendant also objects to these Interrogatories and Requests to Admit as they impermissibly seek attorney-client privileged and work product material related to the representation of Defendant in connection with the parallel criminal matter. The enclosed responses do not waive any of the foregoing objections.[1]

8. Currently pending before the Court is a Motion to Stay Discovery filed by Defendant on August 24, 2015. *See* ECF No. 100. That Motion seeks relief from providing the discovery requested through the instant Interrogatories and Requests to Admit. Defendant is not waiving any of the arguments raised therein. Moreover, Defendant reserves the right to pursue

[1] To be clear, the defendant does not allege that any government attorney or actor is acting in bad faith or intentionally violating the defendant's constitutional or other rights.

any such arguments on appeal, in a subsequent motion for protective order, or other motion for any relief. Such rights are not waived by Defendant's provision of the attached discovery Responses. Defendant specifically reserves all rights related to such motion.

9. Defendant objects to any usage of the enclosed documents in connection with the criminal investigation and reserves his right to seek a protective order on that basis.

10. Should the pending Motion to Stay (ECF No. 100) now before the Court be granted, in its current form or in a form updated in light of events that have occurred since its filing, Defendant reserves his right to seek the return of the enclosed Responses and bar the United States from the usage of the Responses.

RESPONSES TO FIRST SET OF INTERROGATORIES

Interrogatory One:

Please list all training courses or seminars that Dr. Kendall or his employees attended which pertain to billing the Medicare or Medicaid programs or to the use of CPT codes. Please specify the name of the person who attended the training or seminar, be it Dr. Kendall himself or an employee.

Response to Interrogatory One: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Two:

Please estimate the number of hours per week that Dr. Kendall physically spent inside Dr. Marder's clinics in Port St. Lucie, Florida and Okeechobee, Florida. Please give this estimate separately for each clinic and on a monthly basis, *e.g.*, 40 hours per week in January 2008.

Response to Interrogatory Two: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my right Fifth Amendment to remain silent.

Interrogatory Three:

Please estimate the number of hours per week that Dr. Kendall physically spent inside the physical location of KML. Please give this estimate separately for each clinic and on a monthly basis, *e.g.*, 40 hours per week in January 2008.

Response to Interrogatory Three: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert Fifth Amendment my right to remain silent.

Interrogatory Four:

Please list all facilities to which Dr. Kendall had privileges (including, but not limited to, admitting and consulting privileges), credentials, or medical directorships, or at which Dr. Kendall was otherwise authorized to practice.

Response to Interrogatory Four: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Five:

Please list all professional associations with which Dr. Kendall had any affiliation, including but not limited to as a member, subscriber, employee, agent, volunteer or author.

Response to Interrogatory Five: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Six:

Identify any occasion on which you were asked to repay money, or actually did repay money, to any third party payor or insurance company, including but not limited to Medicare, Medicaid and TRICARE, and the amounts and reasons therefor.

Response to Interrogatory Six: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

VERIFICATION OF INTERROGATORIES

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Robert I. Kendall, M.D.

Executed on 9/3, 2015

RESPONSES TO SECOND SET OF INTERROGATORIES

Interrogatory One:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the First Affirmative Defense that Plaintiff's claims are barred in whole or in part by applicable statute of limitations.

Response to Interrogatory One: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Two:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Second Affirmative Defense that Defendant KML did not violate the False Claims Act, 31 U.S.C. § 3729, et seq.

Response to Interrogatory Two: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Three:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Third Affirmative Defense that Defendant KML did not act with the state of knowledge or intent necessary to give rise to liability or that no act or omission of the Defendant KML was malicious, willful, wanton, reckless or made with intent to violate any statute or law.

Response to Interrogatory Three: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Four:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Fourth Affirmative Defense that any actions taken by Defendant KML with respect to the allegations in the Complaint were undertaken in good faith, including, but not limited to, based on reliance on the advice of counsel and/or reliance on the advice of individuals apparently and actually empowered to administer the programs at issue, and constitute lawful, proper, justified and/or privileged conduct.

Response to Interrogatory Four: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Five:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Fifth Affirmative Defense that Defendant KML did not knowingly present, or cause to be presented, any false or fraudulent claim for payment to the government.

Response to Interrogatory Five: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Six:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Sixth Affirmative Defense that Defendant KML never knowingly made, used, or caused to be made or used a false record or statement material to a false or fraudulent claim.

Response to Interrogatory Six: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Seven:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegations in the Seventh Affirmative Defense that any alleged false statement or claim was immaterial.

Response to Interrogatory Seven: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Eight:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Eighth Affirmative Defense that Defendant KML did not violate the Anti-Kickback Statute ("AKS"), 42 U.S.C. § 1320a-7b, including, but not limited to, that the alleged conduct complied with applicable "safe harbor" regulations under the AKS, including, but not limited to, 42 C.F.R. § 1001.952.

Response to Interrogatory Eight: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Nine:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Ninth Affirmative Defense that Defendant KML did not give or receive any remuneration in violation of the AKS or the Stark Law, 42 U.S.C. § 1395nn.

Response to Interrogatory Nine: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Ten:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Tenth Affirmative Defense that conduct alleged in the Complaint falls under the bona fide employment exceptions of the AKS and the Stark Law.

Response to Interrogatory Ten: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Eleven:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Eleventh Affirmative Defense that conduct alleged in the Complaint constitutes in-office ancillary services.

Response to Interrogatory Eleven: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Twelve:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Twelfth Affirmative Defense that Defendant KML was acting as independent contractors at all times material to the Complaint's allegations.

Response to Interrogatory Twelve: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Thirteen:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Thirteenth Affirmative Defense that the conduct alleged in the Complaint constitutes a lawful, legitimate reassignment of a claim.

Response to Interrogatory Thirteen: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Fourteen:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Fourteenth Affirmative Defense that Defendant KML's conduct was in compliance with, or authorized by, laws or regulations administered by a regulatory body or officer acting under state or federal statutory authority.

Response to Interrogatory Fourteen: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Fifteen:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Fifteenth Affirmative Defense that the United States approved and ratified the alleged acts of which the United States now complains.

Response to Interrogatory Fifteen: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Sixteen:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Sixteenth Affirmative Defense that the occurrences alleged in the Complaint and all damages, if any, resulting there from were caused

by the acts or omissions of third parties over whom the Defendant KML had no control and that the Defendant KML's conduct was not the proximate cause of the United States' damages.

Response to Interrogatory Sixteen: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Seventeen:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Seventeenth Affirmative Defense that the alleged damages, if any, are not attributable to any act, conduct, or omission on the part of the Defendant KML.

Response to Interrogatory Seventeen: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Eighteen:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Eighteenth Affirmative Defense that United States has not sustained any damages.

Response to Interrogatory Eighteen: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Nineteen:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Nineteenth Affirmative Defense that the intra-corporate conspiracy doctrine may be appropriately invoked.

Response to Interrogatory Nineteen: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Interrogatory Twenty:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Twentieth Affirmative Defense that Defendant KML did not enter into an agreement with any co-conspirator to violate the False Claims Act or to get a false claim paid by the government.

Response to Interrogatory Twenty: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my right Fifth Amendment to remain silent.

Interrogatory Twenty-One:

Describe all material facts, identify each person with personal knowledge and identify all documents which support the allegation in the Twenty-First Affirmative Defense that the purported conduct that forms the basis for the alleged conspiracy is not unlawful or actionable.

Response to Interrogatory Twenty-One: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

VERIFICATION OF INTERROGATORIES

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on 9/3, 2015

Robert I. Kendall, M.D.

RESPONSES TO REQUESTS TO ADMIT

Request to Admit One:

Dr. Kendall and KML certified to Medicare, Medicaid and TRICARE on provider agreements that they would abide by the rules of the Medicare, Medicaid and TRICARE programs.

Response to Request to Admit One: Without waving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit as vague, overbroad, and/or not reasonably calculated to lead to the discovery of admissible evidence in that the Request is not limited in time or scope and the Request seeks admissions concerning events for an unspecified period.

Request to Admit Two:

Dr. Kendall and KML signed Medicare provider agreements which certified that they would "retain all original source documentation and medical records pertaining to any such particular Medicare claim for a period of at least six years, three months after the bill is paid."

Response to Request to Admit Two: Without waving any applicable privileges and/or any other objections, Defendant objects to this Request to Admit as vague, overbroad, compound and/or not reasonably calculated to lead to the discovery of admissible evidence in that the Request is not limited in time or scope and seeks admissions concerning events for an unspecified period. To the extent the Request to Admit seeks authentication of a specific document from which it quotes, there is no document attached to the Request such that Defendant cannot properly formulate a response.

Request to Admit Three:

Dr. Marder and ADSCC never owned the laboratory equipment, never employed appropriately trained personnel, and never secured the certification under the Clinical Laboratory Improvement Act necessary to perform the Technical Component of the laboratory tests for which they submitted claims to Medicare and Medicaid using CPT Codes 88305 or 88312.

Response to Request to Admit Three: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Request to Admit Four:

None of the laboratory equipment necessary to perform the Technical Component of the laboratory tests performed by Dr. Kendall and KML for Dr. Marder and ADSCC was located in the clinics operated by Dr. Marder and ADSCC in Okeechobee, Florida or Port St. Lucie, Florida.

Response to Request to Admit Four: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Request to Admit Five:

No certification under the Clinical Laboratory Improvement Act ever existed which covered the clinics operated by Dr. Marder and ADSCC in Okeechobee, Florida or Port St. Lucie, Florida, with respect to any of the laboratory equipment necessary to perform the Technical Component of the laboratory tests rendered by Dr. Kendall and KML for Dr. Marder and ADSCC.

Response to Request to Admit Five: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Request to Admit Six:

Dr. Marder never personally performed or supervised the Technical Component of any of the laboratory tests on specimens sent by Dr. Marder and ADSCC to Dr. Kendall and KML.

Response to Request to Admit Six: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Request to Admit Seven:

KML performed the Professional Component for substantially all of the laboratory tests or specimens sent by Dr. Marder and ADSCC to Dr. Kendall and KML.

Response to Request to Admit Seven: At this time, out of an abundance of caution and on the advice of counsel, I respectfully assert my Fifth Amendment right to remain silent.

Respectfully submitted,

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF IOWA

UNITED STATES OF AMERICA,	)	
	)	Case No. 4:16-cr-157
v.	)	
	)	PLEA AGREEMENT
RICHARD LEE HAUSER, M.D.,	)	
	)	
Defendant.	)	

The United States of America (also referred to as "the Government") and the Defendant, RICHARD LEE HAUSER, M.D., and Defendant's attorney, enter into this Plea Agreement.

A. CHARGES

1. Subject Offenses. Defendant will waive Indictment (by executing a separate waiver of Indictment form) and plead guilty to Counts 1 and 2 of a United States Attorney's Information each charging a violation of Title 18, United States Code, Section 1347, that is Health Care Fraud.

2. No Charges to be Dismissed. There are no charges to be dismissed.

3. No Further Prosecution. The Government agrees that Defendant will not be charged in the Southern District of Iowa with any other federal criminal offense arising from or directly relating to this investigation. This paragraph and this Plea Agreement do not apply to (1) any criminal act occurring after the date of this agreement, or (2) any crime of violence.

B. MAXIMUM PENALTIES

4. Maximum Punishment. Defendant understands that each of Counts 1 and 2, to which Defendant is pleading guilty, carries a maximum sentence of 10 years in prison; a maximum fine of $250,000; and a term of supervised release of up to 3 years. A mandatory special assessment of $100 per count also must be imposed by the sentencing court.

5. Supervised Release--Explained. Defendant understands that, during any period of supervised release or probation, Defendant will be under supervision and will be required to comply with certain conditions. If Defendant were to violate a condition of supervised release, Defendant could be sentenced up to two (2) years in prison, without any credit for time previously served.

6. Detention. Provided that Defendant does not violate any conditions of Defendant's pretrial release, and does not appear to be mentally at risk to harm himself or any other person, the Government agrees to recommend that Defendant may remain on pretrial release pending imposition of sentence and will recommend that Defendant be permitted to self-report to serve any term of imprisonment imposed by the Court.

C. NATURE OF THE OFFENSE -- FACTUAL BASIS

7. Elements Understood. Defendant understands that to prove the offense alleged under **Count 1 (Health Care Fraud)**, the Government would be required to prove beyond a reasonable doubt the following elements:

a. Defendant knowingly executed a scheme to obtain money and property owned by, or under the custody and control of, the State of Iowa Medicaid program, by means of materially false or fraudulent representations, which are described in the Information;

b. Defendant did so with intent to defraud;

c. Defendant did so in connection with the delivery of or payment for health care benefits, items, or services;

d. The State of Iowa Medicaid program was a public plan or contract, affecting commerce in some way or degree, under which mental and behavioral health benefits or services was provided to any individual; and

e. Some or all of this activity occurred in the Southern District of Iowa.

Defendant understands that to prove the offense alleged under **Count 2 (Health Care Fraud)**, the Government would be required to prove beyond a reasonable doubt the following elements:

a. Defendant knowingly executed a scheme to obtain money and property owned by, or under the custody and control of, Wellmark Blue Cross and Blue Shield of Iowa, by means of materially false or fraudulent representations, which are described in the Information;

b. Defendant did so with intent to defraud;

c. Defendant did so in connection with the delivery of or payment for health care benefits, items, or services;

d. Wellmark Blue Cross and Blue Shield of Iowa was a private plan or contract, affecting commerce in some way or degree, under which mental and behavioral health benefits or services was provided to any individual; and

e. Some or all of this activity occurred in the Southern District of Iowa.

8. Elements Admitted. As a factual basis for his plea of guilty, Defendant admits the following:

a. The Defendant, Richard Lee Hauser, M.D. (hereinafter "Defendant" or "Hauser") was at all times relevant to this matter a doctor of medicine licensed to practice in the state of Iowa and a board-certified psychiatrist. From during or about October 2008, and continuing to about August 30, 2013, Hauser both oversaw and personally provided services at a medical clinic in Grinnell, Iowa, said clinic operating under the name Prevention Systems, Inc. and doing business more commonly under the name The Hauser Clinic.

b. The State of Iowa Medicaid program ("Iowa Medicaid") is a federal health care program that provides basic medical coverage, including mental and behavioral health coverage, for needy and indigent persons. The United States funds over 50% of the Iowa Medicaid program. At all times material to this matter, Hauser was a provider of Medicaid services. At all times material to this matter, the mental and behavioral health services covered by Iowa Medicaid were administered by a managed care

organization called Magellan Behavioral Care of Iowa, Inc. ("Magellan"). Iowa Medicaid is a "health care benefit program" as that term is defined in 18 U.S.C. § 24(b).

c. Wellmark Blue Cross and Blue Shield of Iowa ("Wellmark") is an Iowa mutual insurance company providing health care benefits to covered members. At all times material to this matter, Hauser was a participating physician with Wellmark. Wellmark is a "health care benefit program" as that term is defined in 18 U.S.C. § 24(b).

d. The American Medical Association publishes *Current Procedural Terminology*, otherwise known as CPT codes. The CPT coding system is a listing and coding of medical procedures and services performed by physicians. The purpose of the CPT code is to provide a uniform language that accurately describes medical, surgical and diagnostic services. Federal health care programs and private insurance companies use CPT codes in determining the amount of reimbursement a physician is entitled to for a particular service. The CPT codes were revised effective January 1, 2013; however, at all times relevant to this Indictment, the prior edition of CPT codes was applicable and provided as detailed below. CPT Code 90805 covered individual outpatient psychotherapy with medication evaluation/management with those services requiring 20-30 minutes of face-to-face time with the physician. Psychotherapy is commonly referred to as "talk therapy." The definition of psychotherapy in the CPT is a process via communication where the practitioner, "...attempts to alleviate the emotional disturbances, reverse or change maladaptive patterns of behavior, and encourage personality growth and development." Medication evaluation/management involves evaluating a patient in light of the medications being taken by the patient and adjusting the medication regimen as needed to achieve the desired outcomes, address the applicable behavioral health conditions, and minimize side effects. CPT Code 90807 covered individual outpatient psychotherapy with medication evaluation/management with those services requiring 45-50 minutes of face-to-face time with the physician. CPT Code 90862 covered pharmacologic management, that is, medication evaluation/management, with no more than minimal individual psychotherapy being provided. Both Iowa Medicaid and Wellmark reimbursed a provider for CPT Code 90807 at a rate higher than for CPT Code 90805. Both Iowa Medicaid and Wellmark reimbursed a provider for CPT Code 90807 and 90805 at rates higher than for CPT Code 90862. It was Hauser, not administrative staff at The Hauser Clinic, who determined what CPT code would be submitted to third-party payers such as Iowa Medicaid and Wellmark for reimbursement for each patient Hauser serviced.

e. On November 7, 2011, Magellan performed an on-site oversight review at The Hauser Clinic. The purpose of the review was to follow up on findings it made in September of 2011. On November 8, 2011, Magellan notified Hauser that Hauser's billing procedures must be corrected as soon as possible so that his billing reflects the service actually provided by Hauser to the patient and the time actually spent with the patient. Specifically, Magellan noted that Hauser informed Magellan at the review that the typical 90807-coded service is scheduled at Hauser's clinic every 15 minutes. Magellan advised Hauser that a 90807-coded service is for 45-50 minutes of psychotherapy with evaluation/management and it was important for Defendant to justify that code if he is submitting bills for a 90807-coded service.

f. On May 8, 2012, Wellmark notified Hauser, that it had conducted a post payment review of medical records for select Wellmark members who had been seen by Hauser from January 5, 2011, through December 19, 2011. Hauser was notified that the review found in all cases the medical records did not support CPT code 90807 despite Hauser's submissions for reimbursement under CPT 90807. Wellmark informed Hauser that CPT Code 90807 requires the physician provide individual psychotherapy with approximately 45-50 minutes face to face with the patient with medical and evaluation management services. Instead, Wellmark stated to Hauser that the records support CPT code 90862 which reflects pharmacologic management, including prescription, use, and review of medication with no more than minimal medical psychotherapy. Wellmark advised Hauser that it noted that a number of his patients were receiving individual psychotherapy from a provider other than Hauser.

g. Beginning on a date unknown, but by at least November 8, 2011, and continuing to at least on or about December 31, 2012 in the Southern District of Iowa, Hauser did devise, participate in and intend to devise a scheme and artifice to obtain, by means of materially false and fraudulent representations, money and property owned by and under the custody and control of Iowa Medicaid and Wellmark, in connection with the delivery of and payment for health care benefits and services. As part of this scheme, Hauser would "up code"—that is, submit and cause to be submitted claims to both Iowa Medicaid and Wellmark misrepresenting the service Hauser provided by coding for a more expensive service which was not, in fact, performed, for the purpose of increasing the amount of reimbursement received from Iowa Medicaid and Wellmark.

   i. It was part of the scheme that Hauser, would submit and cause to be submitted to Wellmark, claims for CPT code 90807, when in fact, Hauser was not providing more than minimal individual psychotherapy to nor providing 45-50 minutes of face-to-face time

with the patients. Instead, Hauser was providing medication evaluation/management services and said services required a significantly shorter time than 45-50 minutes. On or about May 31, 2012, with the intend to defraud, Hauser submitted a request for reimbursement to Wellmark requesting reimbursement under CPT code 90807 for services provided to T.C. on May 30, 2012, when in fact Hauser did not provide more than minimal psychotherapy nor provide 45-50 minutes of face-to-face time with T.C.

ii. It was part of the scheme that Hauser, would submit and cause to be submitted to Iowa Medicaid, claims for CPT code 90805, when in fact, Hauser was not providing more than minimal individual psychotherapy to nor providing 20-30 minutes of face-to-face time with the patients. Instead, Hauser was providing medication evaluation/management services and said services required a shorter time than 20-30 minutes. On or about May 11, 2012, with the intent to defraud, Hauser submitted a request for reimbursement to Iowa Medicaid requesting reimbursement under CPT code 90805 for services provided to C.D. on May 9, 2012, when in fact Hauser did not provide more than minimal psychotherapy nor provide 20-30 minutes of face-to-face time with C.D.

h. After being notified on November 8, 2011, that Hauser was improperly billing 90807, Hauser continued to seek reimbursement from Wellmark at least 804 times under CPT code 90807 from that date through December 31, 2012. CPT code 90807 was not the appropriate CPT code for each of the 804 reimbursement requests. Rather, for at least some portion of those 804, the proper CPT code for which Hauser should have sought reimbursement from Wellmark was 90862. And, in some of the 804 cases, the proper CPT code for which Hauser should have sought reimbursement from Wellmark may have been 90805. The parties agree that an appropriate estimate by which Hauser was over-reimbursed by Wellmark as a result of his conduct is $32,964. Wellmark recouped $6,998.28 from Hauser on or about August 20, 2012, for some of the aforementioned over-reimbursement. A balance of $25,965.72 remains.

i. After being notified on November 8, 2011, that Hauser was improperly billing 90807, Hauser thereafter sought reimbursement from Iowa Medicaid at least 332 times under CPT code 90805 from that date through December 31, 2012. The proper CPT code for which Hauser should have sought reimbursement from Iowa Medicaid was 90862. Iowa Medicaid reimbursed providers at $63.69 for 90805 and $48.89 for 90862. The parties agree that an appropriate estimate by which Hauser was over-reimbursed by Iowa Medicaid as a result of his conduct is $4,913.60.

9. Truthfulness of Factual Basis. Defendant acknowledges that the above statements are true. Defendant understands that, during the change of plea hearing, the judge and the prosecutor may ask Defendant questions under oath about the offense to which Defendant is pleading guilty, in the presence of Defendant's attorney. Defendant understands that Defendant must answer these questions truthfully, and that Defendant can be prosecuted for perjury if Defendant gives any false answers.

10. Venue. Defendant agrees that venue for this case is proper for the United States District Court for the Southern District of Iowa.

D. SENTENCING

11. Sentencing Guidelines. Defendant understands that Defendant's sentence will be determined by the Court after considering the advisory United States Sentencing Guidelines, together with other factors set forth by law. The Sentencing Guidelines establish a sentencing range based upon factors determined to be present in the case, which include, but are not limited to the following:

(a) The nature of the offenses to which Defendant is pleading guilty;

(b) The amount of loss, with the parties stipulating as a recommendation to the District Court that the loss is more than $15,000 but not more than $95,000 under USSG § 2B1.1(b)(1);

(c) Whether sophisticated means were used to commit all or part of the offense;

(d) Defendant's role in the offense;

(e) Whether Defendant attempted to obstruct justice in the investigation or prosecution of the offense;

(f) The nature and extent of Defendant's criminal history (prior convictions); and

(g) Acceptance or lack of acceptance of responsibility.

Defendant understands that, under some circumstances, the Court may "depart" or "vary" from the Sentencing Guidelines and impose a sentence more severe or less severe than provided by the guidelines, up to the maximum in the statute of conviction. Defendant has discussed the Sentencing Guidelines with Defendant's attorney.

12. Acceptance of Responsibility. The Government agrees to recommend that Defendant receive credit for acceptance of responsibility under USSG §3E1.1. The Government reserves the right to oppose a reduction under §3E1.1 if after the plea proceeding Defendant obstructs justice, fails to cooperate fully and truthfully with the United States Probation Office, attempts to withdraw Defendant's plea, or otherwise engages in conduct not consistent with acceptance of responsibility. If the base offense level is 16 or above, as determined by the Court, the Government agrees that Defendant should receive a 3-level reduction, based on timely notification to the Government of Defendant's intent to plead guilty.

13. Presentence Report. Defendant understands that the Court may defer a decision as to whether to accept this Plea Agreement until after a Presentence Report has been prepared by the United States Probation Office, and after Defendant's attorney and the Government have had an opportunity to review and challenge the Presentence Report. The parties are free to provide all relevant information to the Probation Office for use in preparing a Presentence Report.

14. Evidence at Sentencing. The parties may make whatever comment and evidentiary offer they deem appropriate at the time of sentencing and entry of plea, provided that such offer or comment does not violate any other provision of this Plea Agreement. Nothing in this Plea Agreement restricts the right of Defendant or any victim to make an allocution statement, to the extent permitted under the Federal Rules of Criminal Procedure, nor does this Plea

Agreement convey any rights to appear at proceedings or make statements that do not otherwise exist.

15. Sentence to be Decided by Judge -- No Promises. This Plea Agreement is entered pursuant to Rule 11(c)(1)(B) of the Federal Rules of Criminal Procedure, with the parties jointly recommending that the sentencing judge impose a sentence of five years of probation. Neither party will advocate for a higher sentence at the time of sentencing. Defendant understands that the final sentence, including the application of the Sentencing Guidelines and any upward or downward departures, is within the sole discretion of the sentencing judge, and that the sentencing judge is not required to accept any factual or legal stipulations agreed to by the parties. Any estimate of the possible sentence to be imposed, by a defense attorney or the Government, is only a prediction, and not a promise, and is not binding. Therefore, it is uncertain at this time what each Defendant's actual sentence will be.

16. No Right to Withdraw Plea. Defendant understands that Defendant will have no right to withdraw Defendant's plea if the sentence imposed, or the application of the Sentencing Guidelines, is other than what Defendant anticipated, or if the sentencing judge declines to follow the parties' recommendations.

E. FINES, COSTS, AND RESTITUTION

17. Fines and Costs. Issues relating to fines and/or costs of incarceration are not dealt with in this agreement, and the parties are free to espouse their respective positions at sentencing.

18. Special Assessment. Defendant agrees to pay the mandatory special assessment of $200 ($100 per count) at or before the time of sentencing, as required by 18 U.S.C. § 3013.

19. Restitution. Defendant agrees that the Court should impose an order of restitution in the amount of $30,879.32 (comprised of $4,913.60 to the State of Iowa Medicaid program and

$25,965.72 to Wellmark Blue Cross and Blue Shield of Iowa); that such order of restitution shall be due and payable immediately; and that if Defendant is not able to make full payment immediately, Defendant shall cooperate with the United States Probation Office in establishing an appropriate payment plan, which shall be subject to the approval of the Court, and thereafter in making the required payments. Any such payment plan does not preclude the Government from utilizing any collections procedures pursuant to the Federal Debt Collections Act and including the Treasury offset program.

20. Financial Statement. Unless already completed, Defendant agrees to complete truthfully and in full a financial statement provided by the U.S. Attorney's Office, and return the financial statement to the U.S. Attorney's Office within 30 days of the filing of this Plea Agreement.

F. LIMITED SCOPE OF AGREEMENT

21. Limited Scope of Agreement. This Plea Agreement does not limit, in any way, the right or ability of the Government to investigate or prosecute Defendant for crimes occurring outside the scope of this Plea Agreement. Additionally, this Plea Agreement does not preclude the Government from pursuing any civil or administrative matters against Defendant, including, but not limited to, civil tax matters and civil forfeiture which arise from, or are related to, the facts upon which this investigation is based.

22. Agreement Limited to Southern District of Iowa. This Plea Agreement is limited to the United States Attorney's Office for the Southern District of Iowa, and cannot bind any other federal, state or local prosecuting, administrative, or regulatory authorities.

23. Victims not a party to this Agreement. Defendant understands that neither State of Iowa Medicaid nor Wellmark Blue Cross and Blue Shield of Iowa are a party to this Plea

Agreement, and that the "loss" and "restitution" amounts applicable to this criminal case do not resolve any claims that either of these entities may have against Defendant. Defendant understands that State of Iowa Medicaid and Wellmark Blue Cross and Blue Shield of Iowa remain free to pursue all lawful civil remedies they may deem appropriate.

G. WAIVER OF TRIAL, APPEAL AND POST-CONVICTION RIGHTS

24. Trial Rights Explained. Defendant understands that this guilty plea waives the right to:

(a) Continue to plead not guilty and require the Government to prove the elements of the crime beyond a reasonable doubt;

(b) A speedy and public trial by jury, which must unanimously find Defendant guilty before there can be a conviction;

(c) The assistance of an attorney at all stages of trial and related proceedings, to be paid at Government expense if Defendant cannot afford to hire an attorney;

(d) Confront and cross-examine adverse witnesses;

(e) Present evidence and to have witnesses testify on behalf of Defendant, including having the court issue subpoenas to compel witnesses to testify on Defendant's behalf;

(f) Not testify or have any adverse inferences drawn from the failure to testify (although Defendant also has the right to testify, if Defendant so chooses); and

(g) If Defendant is convicted, the right to appeal, with the assistance of an attorney, to be paid at Government expense if Defendant cannot afford to hire an attorney.

25. Waiver of Appeal and Post-Conviction Review. Defendant knowingly and expressly waives any and all rights to appeal Defendant's conviction in this case, including a waiver of all motions, defenses and objections which Defendant could assert to the charge(s) or to the court's entry of judgment against Defendant; except that both Defendant and the United States

preserve the right to appeal any sentence imposed by the district court, to the extent that an appeal is authorized by law. Also, Defendant knowingly and expressly waives any and all rights to contest Defendant's conviction in any post-conviction proceedings, including any proceedings under 28 U.S.C. § 2255. These waivers are full and complete, except that they do not extend to the right to appeal or seek post-conviction relief based on grounds of ineffective assistance of counsel or prosecutorial misconduct. These waivers also do not preclude Defendant from seeking relief under 28 U.S.C. § 2255 based on any change in the law deemed to be retroactive as a matter of law as determined by the Courts, as a matter of express statutory language enacted by the Congress, or as a matter of policy as determined by the United States Department of Justice.

H. VOLUNTARINESS OF PLEA AND OPPORTUNITY TO CONSULT WITH COUNSEL

26. Voluntariness of Plea. Defendant represents that Defendant's decision to plead guilty is Defendant's own, voluntary decision, and that the following is true:

(a) Defendant has had a full opportunity to discuss all the facts and circumstances of this case with Defendant's attorney, and Defendant has a clear understanding of the charges and the consequences of this plea, including the maximum penalties provided by law.

(b) No one has made any promises or offered any rewards in return for this guilty plea, other than those contained in this written agreement.

(c) No one has threatened Defendant or Defendant's family to induce this guilty plea.

(d) Defendant is pleading guilty because in truth and in fact Defendant is guilty and for no other reason.

27. Consultation with Attorney. Defendant has discussed this case and this plea with Defendant's attorney and states that the following is true:

(a) Defendant states that Defendant is satisfied with the representation provided by Defendant's attorney.

(b) Defendant has no complaint about the time or attention Defendant's attorney has devoted to this case nor the advice the attorney has given.

(c) Although Defendant's attorney has given Defendant advice on this guilty plea, the decision to plead guilty is Defendant's own decision. Defendant's decision to enter this plea was made after full and careful thought, with the advice of Defendant's attorney, and with a full understanding of Defendant's rights, the facts and circumstances of the case, and the consequences of the plea.

I. GENERAL PROVISIONS

28. Entire Agreement. This Plea Agreement, and any attachments, is the entire agreement between the parties. Any modifications to this Plea Agreement must be in writing and signed by all parties.

29. Public Interest. The parties state this Plea Agreement is in the public interest and it takes into account the benefit to the public of a prompt and certain disposition of the case and furnishes adequate protection to the public interest and is in keeping with the gravity of the offense and promotes respect for the law.

30. Execution/Effective Date. This Plea Agreement does not become valid and binding until executed by each of the individuals (or their designated representatives) shown below.

J. SIGNATURES

31. Defendant. I have read all of this Plea Agreement and have discussed it with my attorney. I fully understand the Plea Agreement and accept and agree to it without reservation. I do this voluntarily and of my own free will. No promises have been made to me other than the promises in this Plea Agreement. I have not been threatened in any way to get me to enter into this Plea Agreement. I am satisfied with the services of my attorney with regard to this Plea

Agreement and other matters associated with this case. I am entering into this Plea Agreement and will enter my plea of guilty under this Agreement because I committed the crime to which I am pleading guilty. I know that I may ask my attorney and the judge any questions about this Plea Agreement, and about the rights that I am giving up, before entering into the plea of guilty.

32. Defendant's Attorney. I have read this Plea Agreement and have discussed it in its entirety with my client. There is no Plea Agreement other than the agreement set forth in this writing. My client fully understands this Plea Agreement. I am satisfied my client is capable of entering into this Plea Agreement, and does so voluntarily of Defendant's own free will, with full knowledge of Defendant's legal rights, and without any coercion or compulsion. I have had full access to the Government's discovery materials, and I believe there is a factual basis for the plea. I concur with my client entering into this Plea Agreement and in entering a plea of guilty pursuant to the Plea Agreement.

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA and the STATE OF FLORIDA, ex rel. THEODORE A. SCHIFF, M.D.,
Plaintiff,
v.
GARY L. MARDER, D.O.; ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation, ROBERT I. KENDALL, M.D., and KENDALL MEDICAL LABORATORY, INC., a Florida corporation,
Defendant.

UNITED STATES' RESPONSES AND OBJECTIONS TO GARY L. MARDER, M.D. AND ALLERGY DERMATOLOGY & SKIN CARE CENTER, INC.'s REQUEST FOR ADMISSIONS TO PLAINTIFF UNITED STATES OF AMERICA

COMES NOW the United States, pursuant to Federal Rules of Civil Procedure 26 and 34, and hereby responds and objects to Gary L. Marder, M.D. and Allergy Dermatology & Skin Care Center, Inc., (collectively, "Defendants"), Request for Admissions to the United States.

PRELIMINARY STATEMENT AND GENERAL OBJECTIONS

1. The United States has not been able to complete its pretrial investigation, discovery, or preparation of its case for trial in this matter. These responses are based on present knowledge and recollection and the information currently and reasonably available. The United States reserves its right to update or supplement its responses and objections to the Defendants' Request for Admissions.

In addition, the United States notes that it has been denied significant information during discovery in this case. The United States conducted a deposition of Defendant Kendall but he refused to answer any questions, instead asserting his right to remain silent under the 5th Amendment in response to every question except his name. The United States also served written discovery on Kendall in March 2015 and in June 2015 seeking numerous details regarding the allegations in this case and his defenses thereto. However, Kendall refused to provide any substantive response to any of the discovery and asserted his right to remain silent under the 5th Amendment in response to every interrogatory and request to admit. The United States also served written discovery on KML in March 2015 and in June 2015 seeking numerous details regarding the allegations in this case and any claimed defenses thereto. However, KML has still failed to provide any substantive response to any of the discovery.

2. The United States objects to Defendant's definitions to the extent they exceed or are inconsistent with the requirements of the Federal Rules of Civil Procedure or the Local Rules of the United States District Court for the Southern District of Florida.

3. The United States objects to Defendant's definition of the "United States" as overly broad because it expressly encompasses agencies, employees, agents, representatives, and attorneys of the United States not involved in this litigation.

4. The United States objects to the Defendants' Request for Admissions to the extent that they require the United States to draw legal conclusions or otherwise seek to impose upon the United States any requirements beyond those established by the Federal Rules of Civil Procedure or the Local Rules of the United States District Court for the Southern District of Florida.

5. Each response is subject to all objections as to relevance, privilege, and

admissibility, and any and all other objections on grounds that would require the exclusion of any statement or information contained herein if the introduction of such evidence was sought at the time of trial, all of which objections and grounds are reserved and may be interposed at the time of trial. The fact that the United States has responded to any part or all of any particular Request is not intended to and shall not be construed to be a waiver by the United States of any such objection.

6. The objections set forth herein are based on information now known to the United States and its attorneys, and are made without prejudice to the United States' right to assert additional objections should grounds for objection be discovered at a later time. The United States' responses to the Defendants' Request for Admissions shall not be construed as a waiver of any objection to other discovery involving or relating to the same or similar subject matter of any of this Request for Admissions. The United States' response to any particular Request should not be construed as an admission or acknowledgement of any fact set forth in, assumed by, or inferred from the Request.

7. The United States objects to the Defendants' Request for Admissions or parts thereof to the extent that they seek information or documents which are in the possession, custody or control of Defendants or are publicly available and thus can be obtained from some other source (including, but not limited to, a public source), which is more convenient and less burdensome.

8. The United States objects to the Defendants' Request for Admissions to the extent they seek information protected from disclosure by any privilege or doctrine, including the attorney-client privilege, the work-product doctrine, the joint prosecution/common interest

doctrine, the deliberative process privilege, the law enforcement privilege, the investigative files privilege, informant's privilege, protections afforded by Fed. R. Civ. P. 26, or any other applicable basis for invoking the privilege. The United States reserves its right to object to the introduction into evidence before the Court at any time before or at trial of information that is privileged or otherwise protected under law that was revealed or produced inadvertently. The United States does not, by responding to the Defendants' Request for Admissions, waive any claim of privilege or the protection of any doctrine.

9. The United States objects to the Defendants' Request for Admissions to the extent that they are overly broad, vague, unduly burdensome, cumulative, premature, not relevant, and not reasonably calculated to lead to the discovery of admissible evidence. When the United States responds that it will produce documents in response to a Request, it will produce such documents to the extent they exist and can be reasonably obtained. By stating that it will produce documents, the United States does not represent that any such documents or things in fact exist, or that they are within its possession, custody, or control.

10. These General Objections apply to each Request and thus, for convenience, are not repeated after each Request, but rather are set forth herein and hereby incorporated into each response. The assertion of the same, similar, or additional objections or the provision of partial responses to individual requests to admit does not and should not be construed to waive or modify any of the United States' General Objections to each Request.

11. To the extent not specifically admitted herein, the Requests are denied.

RESPONSES

1. **Admit that ADSCC never submitted any claims to Tricare for services during the period described in the intervening complaint.**

Denied.

2. **Admit that Dr. Marder never submitted any claims to Tricare for services during the period described in the intervening complaint.**

Denied.

3. **Admit that ADSCC never submitted any claims to Florida Medicaid for services during the period described in the intervening complaint.**

The United States objects to this Request on the basis that the Complaint does not seek relief in connection with claims submitted to Medicaid. Subject to the foregoing objection, denied.

4. **Admit that Dr. Marder never submitted any claims to Florida Medicaid for services during the period described in the intervening complaint.**

The United States objects to this Request on the basis that the Complaint does not seek relief in connection with claims submitted to Medicaid. Subject to the foregoing objection, denied.

5. **Admit that ADSCC is licensed in the state of Florida as a laboratory.**

The United States objects to this Request on the basis that it is vague as to the type and scope of any such license. Denied that ADSCC was licensed in the State of Florida as a laboratory prior to August 1, 2011. Admitted that certificates were issued regarding license number 800016385 by the State of Florida to ADSCC effective August 1, 2011 and expiring July 31, 2013, and on August 1, 2013 expiring July 31, 2015. The United States has insufficient knowledge to admit or deny this Request regarding any similar certificates issued for subsequent dates and therefore denies this Request with respect thereto. To the extent not specifically admitted herein, this

Request is denied.

6. Admit that, in connection with its Florida laboratory license application, ADSCC was required to comply with all statutory and regulatory requirements for becoming a licensed laboratory.

The United States objects to this Request on the basis that it is vague as to the time period covered by any such license, and as to the type and scope of any such license. Subject to the foregoing objection, admitted that ADSCC was required to comply with applicable statutory and regulatory requirements in order to be approved for and maintain a Florida laboratory license. To the extent not specifically admitted herein, this Request is denied.

7. Admit that, in connection with its Florida laboratory license, ADSCC was physically inspected by the Florida Agency for Health Care Administration, both prior to initial licensure and at periodic license renewal periods.

The United States objects to this Request on the basis that it is vague and overbroad as to the time period, is vague as to what is meant by initial licensure especially given that the certificates were issued in different names for different subspecialties over the years, and is misleading in that many of the potential inspections at issue found deficiencies and/or proposed sanctions. Subject to the foregoing objection, admitted that ADSCC was physically inspected by the Florida Agency for Health Care Administration. To the extent not specifically admitted herein, this Request is denied.

8. Admit that ADSCC is certified by the Centers for Medicare & Medicaid Services CLIA program as a clinical laboratory.

The United States objects to this Request on the basis that it is vague and overbroad as to the time period, and as to the type of CLIA certification. Subject to the foregoing objection, admitted that CMS issued a Certificate of Compliance to ADSCC effective August 1, 2013 expiring July 31, 2015. The United States has insufficient knowledge to admit or deny this Request regarding any similar certificates issued for subsequent dates and therefore denies this Request with respect

thereto. To the extent not specifically admitted herein, this Request is denied.

9. Admit that, in connection with its application for CLIA certification, ADSCC was required to comply with all statutory and regulatory requirements for becoming a CLIA-certified laboratory.

The United States objects to this Request on the basis that it is vague and overbroad as to the time period and the type of CLIA certification. Subject to the foregoing objection, admitted that ADSCC was required to comply with applicable statutory and regulatory requirements in order to be approved for and maintain certification under CLIA. To the extent not specifically admitted herein, this Request is denied.

10. Admit that ADSCC met CMS' licensure requirements for billing Medicare for the pathology services which are the subject of the intervening complaint.

The United States objects to this Request on the basis that it is vague and overbroad as to the time period, as to the nature and type of licensure and as to the type of pathology services. Subject to the foregoing objection, this Request is denied. In addition, the only tests for which ADSCC ever received any license or certification were those that could be performed with a microscope, and did not include any tests requiring other equipment.

11. Admit that, in connection with its CLIA certification, ADSCC was physically inspected by CLIA representatives, both at initial certification and renewal periods.

The United States objects to this Request on the basis that it is vague and overbroad as to the time period, is vague as to the meaning and identity of CLIA representatives, is vague as to what is meant by initial certification especially given that the underlying Florida laboratory certificates were issued in different names for different subspecialties over the years, and is misleading to the extent that the potential inspections at issue found deficiencies and/or resulted in proposed sanctions. Subject to the foregoing objection, this Request is denied.

12. Admit that Robert Kendall, M.D. ("Dr. Kendall") was an employee of ADSCC.

Denied.

13. Admit that ADSCC withheld payroll taxes for Robert Kendall, M.D.

The United States objects to this Request on the basis that Kendall was never a bona fide employee of ADSCC, ADSCC and Kendall falsely claimed Kendall to be an employee as part of a scheme and conspiracy to defraud Medicare, and that any funds withheld by ADSCC could therefore not qualify as payroll taxes. The United States additionally objects to this Request on the basis that it is vague and overbroad as to the time period. Admitted that ADSCC, as part of its fraudulent scheme and conspiracy, pretended to withhold payroll taxes for Kendall. To the extent not specifically admitted herein, this Request is denied.

14. Admit that you do not allege that any patients who received skin cancer treatment from ADSCC and Dr. Marder did not actually have skin cancer.

The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove whether any particular patient actually had skin cancer, the United States does not concede that any particular patient actually had skin cancer, and moreover, the United States is aware of patients treated by ADSCC and Marder for cancer who in fact did not have cancer. The United States also objects to this Request on the basis that the meaning of “skin cancer treatment” is vague and ambiguous.

The United States also objects to this Request because Marder’s routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to reliably demonstrate the actual condition of or treatment rendered to any particular patient. Subject to the forgoing objections, admitted that the complaint does not directly allege that Marder treated non-existent skin cancer. To the extent not specifically admitted herein, this

Request is denied.

15. Admit that the skin cancer treatment medical services provided by ADSCC and Dr. Marder to their patients were medically necessary.

The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not medically necessary, the United States does not concede that any treatment was medically necessary, and moreover, the United States is aware of services that were not medically necessary because the patients did not have cancer. The United States objects to this Request on the basis that it is misleading and unjustifiably assumes there was actually any "skin cancer treatment medical services" provided by ADSCC and/or Dr. Marder. In addition, the services rendered to patients in the form of hyper-fractionated radiation treatments were not medically necessary. The United States also objects to this Request on the basis that the meaning of "skin cancer treatment medical services" is vague and ambiguous.
The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually rendered or were necessary or reasonable as required to be covered under Medicare or Tricare. In addition, a primary reason for the enactment of the Stark Law was "to address overutilization of services by physicians who stood to profit from referring patients to facilities or entities in which they had a financial interest." *U.S. exrel Drakeford v. Tuomey Healthcare Sys., Inc.*, 675 F.3d 394, 397 (4th Cir.2012). Similarly, the "statutory history of the AKS reflects Congress' specific concern about the effect such incentives have on doctors making referrals to labs." *United States v. Greber*, 760 F.2d 68, 71 (3d Cir. 1985). Liability under the Stark Law and the AKS does not require proof that the services were not medically reasonable or necessary.
Subject to the forgoing objections, denied.

16. Admit that the United States, through its contractor, First Coast Service Options, conducted a manual prepayment review of Dr. Marder's claims and underlying medical records for CPT codes 77402 and 77407 prior to April 10, 2014.

Admitted that prior to March 28, 2013, FCSO, in its role as the Medicare Contractor for Part B services in the State of Florida, had conducted a post payment probe sample review of the claims submitted by Marder and ADSCC for certain CPT code (s) to determine if services billed to Medicare were documented as having been performed, appropriately coded, medically reasonable and necessary and covered by the Medicare Program, that the post payment probe sample review of the claims found an error rate of 100%, that as a result of the 100% error rate a prepayment manual review of claims was instituted for CPT codes 77402 and 77407. To the extent not specifically admitted herein, this Request is denied.

17. Admit that the manual prepayment review of Dr. Marder's claims discussed in paragraph 13 was discontinued because the contractor found that it was "no longer required."

The United States objects to this Request as extremely misleading. Notwithstanding the foregoing objection, admitted that the prepayment manual review of claims submitted by Marder and ADSCC for CPT codes 77402 and 77407 with dates of service of April 10, 2014 and thereafter was suspended, but denied that the manual prepayment review was suspended because the contractor found that it was "no longer required." Rather, the prepayment manual review of claims submitted by Marder and ADSCC for CPT codes 77402 and 77407 was suspended because Marder and ADSCC stopped billing under CPT code 77407 in 2013, and because Marder and ADSCC sent falsified documentation to FCSO to deceive FCSO into concluding that Marder and ADSCC had properly documented the claims billed under CPT Code 77402 when that was not the case. In addition, FCSO **never** stated that the prepayment manual review was no longer necessary. Rather, FCSO was clearly stating that it was no longer necessary for Marder to send documents to FCSO. To the extent not specifically admitted herein, this Request is denied.

18. Admit that Medicare Benefits Policy Manual, Chapter 15, Section 190 governs physician supervision requirements for physician assistants.

The United States objects to this request on the basis that it seeks an admission regarding a legal conclusion, and is vague and overbroad as to the service which is being supervised. Subject to the foregoing objection, denied. In addition, there are numerous provisions of the Medicare Benefits Policy Manual which govern physician supervision requirements as to specific therapies and as to physician assistants. For example, Medicare Benefits Policy Manual, Chapter 15, Section 90 specifies that radiation therapy requires the direct personal supervision of a physician, and further explains that the physician need not be in the same room, but must be in the area and immediately available to provide assistance and direction throughout the time the procedure is being performed. Admitted that although the Medicare Benefits Policy Manual, Chapter 15, Section 190 does not directly address the physician supervision requirement for the administration of radiation, for some services it references the licensure laws of the State where the physician assistant is practicing. To the extent not specifically admitted herein, this Request is denied.

19. Admit that, for Medicare purposes, the required level of physician supervision of physician assistants depends on the licensure laws of the State where the physician assistant is practicing.

The United States objects to this request on the basis that it seeks an admission regarding a legal conclusion, and is vague and overbroad as to the service which is being supervised. Subject to the foregoing objection, denied. In addition, the request is misleading to the extent it suggests that the required level of physician supervision for Medicare purposes is exclusively dependent upon state law. There are numerous provisions of the Medicare Benefits Policy Manual which govern physician supervision requirements as to specific therapies and as to physician assistants. For example, Medicare Benefits Policy Manual, Chapter 15, Section 90 specifies that radiation therapy requires the direct personal supervision of a physician, and further explains that the physician need not be in the same room, but must be in the area and immediately available to provide assistance and direction throughout the time the procedure is being performed. Admitted that the supervision required by Medicare for some services references the licensure laws of the

State where the physician assistant is practicing. To the extent not specifically admitted herein, this Request is denied.

20. Admit that, in Florida, the required level of physician supervision of physician assistants conducting radiation therapy is general, not direct, supervision.

The United States objects to this request on the basis that it seeks an admission regarding a legal conclusion, and is vague as to (1) the type of radiation, (2) the time period at issue, (3) the type of radiation therapy, (4) the qualifications of the supervising physician and (5) the meaning of general supervision. In addition, this Request is misleading in that it is inappropriately combines the question of whether a physician assistant, if appropriately supervised by a radiologist, can administer radiation therapy without being licensed as a radiation therapist with the question of the appropriate level of supervision required to do so. Subject to the foregoing objection, denied.

21. Admit that physicians' assistants practicing in Florida are authorized to conduct radiation treatment therapy to skin cancer patients under general, not direct, supervision.

The United States objects to this request on the basis that it seeks an admission regarding a legal conclusion, and is vague as to (1) the type of radiation, (2) the time period at issue, (3) the type of radiation therapy, (4) the qualifications of the supervising physician and (5) the meaning of general supervision. In addition, this Request is misleading in that it inappropriately combines the question of whether a physician assistant, if appropriately supervised by a radiologist, can administer radiation therapy without being licensed as a radiation therapist with the question of the appropriate level of supervision required to do so. Subject to the foregoing objection, denied.

22. Admit that CPT Codes 77402, 77407, and 77412 are appropriate for billing of radiation treatment delivered at a level "up to 5 MeV."

Denied.

23. Admit that CPT Codes 77402, 77407, and 77412 which are appropriate for billing of radiation treatment delivered at a level "up to 5 MeV," includes radiation treatment delivered at 90kV.

Denied.

24. Admit that there is no witness or documentary evidence showing that radiation treatment delivered at 90kV is inappropriate to bill CPT Codes 77402, 77407, and 77412.

Denied.

25. Admit that ADSCC and Dr. Marder have continued to bill CPT code 77401 since 2010.

The United States objects to this request on the basis that it is vague as to the meaning of continuing to bill or to whom the bills were submitted. Also, the claims data includes the exact details of the codes billed by Marder and ADSCC to Medicare and Tricare since 2008. Admitted that for dates of service from January 1, 2008 through July 30, 2010, Marder and ADSCC billed Medicare an average of approximately $280,000 every month using CPT Code 77401, that in August and September 2010 Marder and ADSCC billed approximately $58,000 and $22,000 respectively, that in the 28 month period from December 2010 to March 2013, Marder and ADSCC did not bill any claims using CPT Code 77401 except for $450 in December 2010 and July 2011. It is further admitted that from April 2013 through December 2014, Marder and ADSCC billed an average of approximately $26,000 per month (and was paid an average of approximately $1,700 per month) using CPT Code 77401. To the extent not specifically admitted herein, this Request is denied.

26. Admit that hyperfractionation is a treatment schedule within the medical standard of care for use on skin cancer lesions.

The United States objects to this request on the basis that it is vague as to (1) the type of radiation, (2) the meaning of a “treatment schedule”, (3) the qualifications of the supervising physician, (4)

the type and location of the lesions and (5) the manner in which the radiation is administered, especially as to timing. Subject to the foregoing objection, denied.

27. Admit that there is no witness or documentary evidence showing that hyperfractionation is not within the medical standard of care for use on skin cancer lesions.

The United States objects to this request on the basis that it is vague as to (1) the type of radiation, (2) the meaning of a "treatment schedule", (3) the qualifications of the supervising physician, (4) the type and location of the lesions and (5) the manner in which the radiation is administered, especially as to timing. Subject to the foregoing objection, denied.

28. Admit that there is no set number of hours that are required between hyperfractionation treatments.

The United States objects to this Request because it is vague as to the meaning of a "set number of hours". Subject to the foregoing objection, denied.

29. Admit that there is no witness or documentary evidence showing that there is a set number of hours required between hyperfractionation treatments.

The United States objects to this Request because it is vague as to the meaning of a "set number of hours". Subject to the foregoing objection, denied.

30. Admit that Dr. Kendall had a written employment agreement with ADSCC.

The United States objects to this Request on the basis that Kendall was never a bona fide employee of ADSCC, ADSCC and Kendall falsely held out Kendall as an employee as part of a scheme and conspiracy to defraud Medicare and Tricare, that the document signed by Kendall in 2010 and then backdated by Marder to the year 2000 also was intended only to advance the scheme and conspiracy to defraud Medicare and not to be an actual agreement binding the parties to its terms. Admitted that Kendall and Marder signed a document with the title of employment agreement but denied that it actually was an employment agreement. To the extent not

specifically admitted herein, this Request is denied.

31. Admit that all of the basal cell carcinoma and squamous cell carcinoma lesions treated by ADSCC and Dr. Marder during the time period alleged in the intervening complaint were greater than 2 centimeters.

The United States objects to this Request because it is vague as to the lesions which are the subject of the request. Subject to the foregoing objection, denied.

32. Admit that the medical treatment provided by ADSCC and/or Dr. Marder to the individuals identified in pages 38-47 of the intervening complaint was actually performed.

The United States objects that this request is vague and ambiguous as to the treatments at issue. The United States objects to this Request on the basis that it is misleading and unjustifiably assumes there was actually any medical treatment provided by ADSCC and/or Dr. Marder. The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not actually performed. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services for which they submitted claims were actually performed. Subject to the foregoing objection, denied.

33. Admit that there is no witness or documentary evidence showing that the medical treatment provided by ADSCC and/or Dr. Marder to the individuals identified in pages 38-47 of the intervening complaint was actually performed.

The United States objects that this request is vague and ambiguous as to the treatments at issue.

The United States objects to this Request on the basis that it is misleading and unjustifiably assumes there was actually any medical treatment provided by ADSCC and/or Dr. Marder. The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not actually performed. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services for which they submitted claims were actually performed. Admitted that in numerous cases there is no witness or documentary evidence showing that the medical treatment billed by ADSCC and/or Dr. Marder their patients was actually performed. To the extent not specifically admitted herein, this Request is denied.

34. Admit that the medical treatment provided by ADSCC and Dr. Marder to the individuals identified in pages 38-47 of your complaint was medically necessary.

The United States objects that this request is vague and ambiguous as to the treatments at issue. The United States objects to this Request on the basis that it is misleading and unjustifiably assumes there was actually any medical treatment provided by ADSCC and/or Dr. Marder. The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not actually performed. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services for which they submitted claims were actually rendered or were medically necessary or reasonable as required to be covered under Medicare or Tricare. In addition, a

primary reason for the enactment of the Stark Law was "to address overutilization of services by physicians who stood to profit from referring patients to facilities or entities in which they had a financial interest." *U.S. exrel Drakeford v. Tuomey Healthcare Sys., Inc.*, 675 F.3d 394, 397 (4th Cir.2012). Similarly, the "statutory history of the AKS reflects Congress' specific concern about the effect such incentives have on doctors making referrals to labs." *United States v. Greber*, 760 F.2d 68, 71 (3d Cir. 1985). Liability under the Stark Law and the AKS does not require proof that the services were not medically reasonable or necessary.

Subject to the foregoing objection, denied.

35. Admit that that the radiation treatment services provided by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were actually performed.

The United States objects to this Request on the basis that it is vague as to the meaning of "radiation treatment services", is misleading and unjustifiably assumes there was actually any radiation treatment provided by ADSCC and/or Dr. Marder. The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not performed. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually performed or were necessary or reasonable as required to be covered under Medicare or Tricare. Subject to the foregoing objection, denied.

36. Admit that there is no witness or documentary evidence showing that the radiation treatment services provided by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were not actually performed.

The United States objects to this Request on the basis that it is vague as to the meaning of "radiation treatment services", is misleading and unjustifiably assumes there was actually any radiation treatment provided by ADSCC and/or Dr. Marder. The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not performed. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually performed or were necessary or reasonable as required to be covered under Medicare or Tricare. Subject to the foregoing objection, denied.

37. Admit that that the radiation treatment services provided by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were medically necessary.

The United States objects to this Request on the basis that it is vague as to the meaning of "radiation treatment services", is misleading and unjustifiably assumes there was actually any radiation treatment services provided by ADSCC and/or Dr. Marder. The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not medically necessary. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually rendered or were necessary or reasonable as required to be covered under Medicare or Tricare.

In addition, a primary reason for the enactment of the Stark Law was "to address overutilization of services by physicians who stood to profit from referring patients to facilities or entities in which they had a financial interest." *U.S. exrel Drakeford v. Tuomey Healthcare Sys., Inc.*, 675 F.3d 394, 397 (4th Cir.2012). Similarly, the "statutory history of the AKS reflects Congress' specific concern about the effect such incentives have on doctors making referrals to labs." *United States v. Greber*, 760 F.2d 68, 71 (3d Cir. 1985). Liability under the Stark Law and the AKS does not require proof that the services were not medically reasonable or necessary. Subject to the foregoing objection, denied.

38. Admit that the biopsies performed by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were actually performed.

The United States objects to this request as being vague and a confusing tautology as it seeks an admission that the biopsies performed were actually performed. The United States objects to this request as assuming facts not in evidence and being vague as to the persons allegedly performing the biopsies as ADSCC as a corporate entity does not actually perform the services and Dr. Marder was routinely absent from ADSCC and could not have performed many of the services. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually rendered or were necessary or reasonable as required to be covered under Medicare or Tricare.
Subject to the foregoing objections, denied.

39. Admit that there is no witness or documentary evidence showing that the biopsies performed by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were not performed.

The United States objects to this request as assuming facts not in evidence and being vague as to

the persons allegedly performing the biopsies as ADSCC as a corporate entity does not actually perform the services and Dr. Marder was routinely absent from ADSCC and could not have performed many of the services. The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not performed. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually rendered or were necessary or reasonable as required to be covered under Medicare or Tricare. Subject to the foregoing objections, denied.

40. Admit that the biopsies performed by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were medically necessary.

The United States objects to this request as assuming facts not in evidence and being vague as to the persons allegedly performing the biopsies as ADSCC as a corporate entity does not actually perform the services and Dr. Marder was routinely absent from ADSCC and could not have performed the services. The United States objects to this Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the treatments were not medically necessary. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually rendered or were necessary or reasonable as required to be covered under Medicare or Tricare.
In addition, a primary reason for the enactment of the Stark Law was "to address overutilization

of services by physicians who stood to profit from referring patients to facilities or entities in which they had a financial interest." *U.S. exrel Drakeford v. Tuomey Healthcare Sys., Inc.*, 675 F.3d 394, 397 (4th Cir.2012). Similarly, the "statutory history of the AKS reflects Congress' specific concern about the effect such incentives have on doctors making referrals to labs." *United States v. Greber*, 760 F.2d 68, 71 (3d Cir. 1985). Liability under the Stark Law and the AKS does not require proof that the services were not medically reasonable or necessary. Subject to the foregoing objections, denied.

41. Admit that the Professional Component of the pathology services performed by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were actually performed.

The United States objects to this request as being vague and a confusing tautology as it seeks an admission that the biopsies performed were actually performed. The United States objects to this request as assuming facts not in evidence and being vague as to the persons allegedly performing the biopsies as ADSCC as a corporate entity does not actually perform the services and Dr. Marder was routinely absent from ADSCC and could not have performed many of the services. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually rendered or were necessary or reasonable as required to be covered under Medicare or Tricare. Subject to the forgoing objection, denied that Marder or ADSCC performed the Professional Component of the pathology services billed by them to Medicare, Tricare or other insurance companies but admitted that to the extent the Professional Component of the pathology services billed by Marder or ADSCC to Medicare, Tricare or other insurance companies was actually performed, all of the services were rendered by Kendall and/or KML and not by Marder or ADSCC. To the extent not specifically admitted herein, this Request is denied.

42. Admit that there is no witness or documentary evidence showing that the Professional Component of the pathology services performed by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were not performed.

The United States objects to this request as assuming facts not in evidence and being vague as to the persons allegedly performing the biopsies as ADSCC as a corporate entity does not actually perform the services and Dr. Marder was routinely absent from ADSCC and could not have performed many of the services. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually rendered or were necessary or reasonable as required to be covered under Medicare or Tricare. Subject to the forgoing objection, denied that there is no evidence that Marder or ADSCC never performed the Professional Component of the pathology services billed by them to Medicare, Tricare or other insurance companies, but admitted that to the extent the Professional Component of the pathology services billed by Marder or ADSCC to Medicare, Tricare or other insurance companies was actually performed, all of the services were rendered by Kendall and/or KML and not by Marder or ADSCC. To the extent not specifically admitted herein, this Request is denied.

43. Admit that the Professional Component of the pathology services performed by ADSCC and Dr. Marder during the time frame alleged in the intervening complaint were medically necessary.

The United States objects to this request as assuming facts not in evidence and being vague as to the persons allegedly performing the Professional Component of the pathology services as ADSCC as a corporate entity does not actually perform the services and Dr. Marder was routinely absent from ADSCC and could not have performed the services. The United States objects to this

Request on the basis that it is misleading in that it inappropriately suggests the existence of factual and legal burdens which do not exist. The United States is not obligated to prove the services were not medically necessary. The United States also objects to this Request because Marder's routine absence from ADSCC, his acceptance of kickbacks in return for referring biopsies to Kendall and/or KML, his failure to maintain proper documentation in the ordinary course of business combined with his routine fabrication of massive amounts of fake documentation when necessary to present documentation to insurance companies, including Medicare and Tricare, make it impossible for Marder and ADSCC to demonstrate that the medical services they billed were actually rendered or were necessary or reasonable as required to be covered under Medicare or Tricare.

In addition, a primary reason for the enactment of the Stark Law was "to address overutilization of services by physicians who stood to profit from referring patients to facilities or entities in which they had a financial interest." *U.S. exrel Drakeford v. Tuomey Healthcare Sys., Inc.*, 675 F.3d 394, 397 (4th Cir.2012). Similarly, the "statutory history of the AKS reflects Congress' specific concern about the effect such incentives have on doctors making referrals to labs." *United States v. Greber*, 760 F.2d 68, 71 (3d Cir. 1985). Liability under the Stark Law and the AKS does not require proof that the services were not medically reasonable or necessary. Subject to the foregoing objections, denied.

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

Case No.: 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA and the STATE OF FLORIDA, *ex rel.* THEODORE A. SCHIFF, M.D.,

Plaintiffs,

vs.

GARY L. MARDER, D.O.; ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation, ROBERT I. KENDALL, M.D., and KENDALL MEDICAL LABORATORY, INC., a Florida corporation, and MEGAN BOCK, P.A.,

Defendants.
_____/

STIPULATION OF DISMISSAL

Relator Theodore A. Schiff, M.D. ("Relator"), Defendants Robert I. Kendall, M.D. ("Dr. Kendall") and Kendall Medical Laboratory, Inc. ("KML") (collectively, the "Kendall Defendants") and the United States have entered into a Settlement Agreement ("Settlement Agreement"). Pursuant and subject to the Settlement Agreement, and pursuant to Federal Rule of Civil Procedure 41(a)(1) and 31 U.S.C. § 3730(b)(1), the Relator, the Defendants, and the United States stipulate and consent to the dismissal of this action: (a) with prejudice to the Relator for the claims released by the Relator in the parties' Settlement Agreement ; (b) with prejudice to the United States for the claims released by the United States in the parties' Settlement Agreement; and (c) without prejudice to the United States for any claims in this action that are not specifically released by the United States in the parties' Settlement Agreement.

Relator and the Defendants respectfully request that the Court shall retain jurisdiction of Relator's claim for attorney's fees, costs, and expenses pursuant to 31 U.S.C. 3130(d)(1) and Fla. Stat. §68.085(c).

The United States, Relator and the Defendants further request that the Court retain jurisdiction to enforce the terms, conditions, and releases of the Parties' Settlement Agreement to the extent reasonably necessary and appropriate, and that such jurisdiction permits the Kendall Defendants the ability to raise any defense or claim they may have related to any claim or petition by the Relator or his attorneys for expenses, attorneys' fees or costs under 31 U.S.C. § 3730(d).

The dismissal of the above-styled case, *US ex rel. Schiff v. Marder*, Case No. 13-CV-24503-KMM also includes the later filed case with which this case was consolidated, *US ex rel. Schiff v. Marder*, Case No. 14-14246-CIV-KMM (formerly assigned Case No. 14-CV-61423-KMM)(Order of Consolidation, D.E. 31).

A proposed Order is attached as Exhibit 1.

ORDER OF DISMISSAL WITH PREJUDICE OF CLAIMS

Pursuant to Rule 41(a) of the Federal Rules of Civil Procedure and the *qui tam* provisions of the federal False Claims Act, Relator Theodore A. Schiff, M.D. ("Relator"), Defendants Robert I. Kendall, M.D. ("Dr. Kendall") and Kendall Medical Laboratory, Inc. ("KML") (collectively, the "Kendall Defendants") and the United States filed with this Court, a Stipulation of Dismissal. Upon due consideration of the Stipulation and the Parties' Settlement Agreement ("Settlement Agreement"), IT IS ORDERED, that,

1. As to Defendants Dr. Kendall and KML, this action is dismissed

(a) with prejudice to the Relator for all claims released by the Relator in the parties' Settlement Agreement;

(b) with prejudice to the United States for the claims released by the United States in the parties' Settlement Agreement; and

(c) without prejudice to the United States for any claims in this action that are not specifically released by the United States in the parties' Settlement Agreement.

2. Except as specified in the Settlement Agreement, each party shall be responsible for its own expense, attorney's fees and costs.

3. The Court shall retain jurisdiction of Relator's claim for attorney's fees, costs, and expenses pursuant to 31 U.S.C. 3130(d)(1) and Fla. Stat. §68.085(c) and such jurisdiction permits the Kendall Defendants the ability to raise any defense or claim they may have related to any claim or petition by the Relator or his attorneys for expenses, attorneys' fees, costs or expenses.

4. The Court shall retain jurisdiction to enforce the terms, conditions, and releases of the Parties' Settlement Agreement to the extent reasonably necessary and appropriate.

DONE AND ORDERED in Chambers in _____, Florida, on this _____day of _____, 2017.

Plaintiffs,

v.

GARY L. MARDER, D.O., ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation, ROBERT I. KENDALL, M.D., and KENDALL MEDICAL LABORATORY, INC., a Florida corporation,

Defendants.
_____/

ORDER

This is a *qui tam* action in which Theodore A. Schiff, M.D.—a double board certified dermatologist based in Palm Beach County, Florida—brought this action as Relator[1] on behalf of the United States (the "Government") under the False Claims Act, ("FCA"), 31 U.S.C. §§ 3729–3733. In the Complaint (ECF No. 1) filed December 13, 2013, Relator alleges that Defendants Gary L. Marder, D.O. ("Dr. Marder") and Allergy, Dermatology and Skin Cancer Center, Inc. ("ADSCC") (collectively, the "Marder Defendants") and Robert I. Kendall, M.D. ("Dr. Kendall") and Kendall Medical Laboratory, Inc. ("KML") (collectively, the "Kendall

[1] The FCA allows a private person, known as a relator, to bring an FCA suit on behalf of the government in a *qui tam* action. 31 U.S.C. § 3730(b)(1). A relator serves the Government with a copy of the complaint, and the Government then has sixty days to intervene and proceed with the action once served; otherwise, the relator individually proceeds with the action. 31 U.S.C. § 3730(b)(4).

Defendants") violated the FCA by knowingly creating and submitting false claims to Medicare for reimbursement of dermatology and pathology services. On October 14, 2014, the Government notified the Court of its decision to intervene and filed its intervening complaint (ECF No. 30) on November 19, 2014.

This suit was shepherded to its current state over the fourteen months following the Government's intervention through these subsequent activities: (1) the parties' extensive, albeit troubled, discovery process;[2] (2) the Court's denial of defendants' motions to dismiss (ECF No. 75); and (3) the Court's grant of the parties' joint motion for a continuance wherein the Court reset the trial date from the two-week trial period beginning January 25, 2016 to the two-week trial period commencing June 13, 2016. *See* (ECF No. 123). On July 8, 2016, the Court entered its aforementioned third omnibus order and sua sponte reset the trial date for the two-week trial period beginning October 31, 2016.

Now pending before the Court is the Government's Motion for Summary Judgment (ECF No. 146). Each set of defendants filed a Response (ECF Nos. 182, 204) and the Government replied (ECF No. 211). Thus, the motion initially came ripe for review on May 6, 2016. However, on June 16, 2016, the United States Supreme Court issued its unanimous decision in *Universal Health Services, Inc. v. United States ex rel. Escobar*, 136 S. Ct. 1989 (2016) where the Court held that "the implied false certification theory can be a basis for [FCA] liability."[3]

[2] In an effort to keep this FCA litigation on track towards a final resolution the Court entered three omnibus orders of which the parties are intimately familiar with the contents of those orders. *See* (ECF Nos. 196, 223, 242). Accordingly, the Court will not reiterate its previous guidance here.

[3] In the opinion authored by Justice Thomas, the Court held that the implied false certification theory can serve as a basis for FCA liability when two conditions are met. According to the Court, when "the claim does not merely request payment, but also makes specific representations about the goods or services provided," the first condition is met. *Id.* Second, the implied

Escobar, 136 S. Ct. at 1995. As briefing on the Government's Motion for Summary Judgment was already complete, the Court ordered the parties to conduct supplemental briefing to discuss the effects of *Escobar* on the Government's summary judgment motion. (ECF No. 242) at 15–16.

I. Factual and Regulatory Background

The vast majority of facts set forth in this Order are taken exclusively from Plaintiff's Statement of Undisputed Material Facts in Support of Summary Judgment (ECF No. 147) as it comports with the Federal Rules of Civil Procedure and the Local Rules of this Court. Defendants also filed their Statements of Undisputed Material Facts opposing Summary Judgment (ECF Nos. 202, 204), which were rife with evidentiary objections and other deficiencies as explained more fully below.[4]

The Federal Rules of Civil Procedure expressly provide that a party opposing summary judgment may "object that the material cited to support or dispute a fact cannot be presented in a form that would be admissible in evidence." Fed. R. Civ. P. 56(c)(2). However, only disputes

---

certification theory also applies when a "defendant's failure to disclose noncompliance with material statutory, regulatory, or contractual requirements makes those representations misleading half-truths." *Id.*

[4] For example, the Marder Defendants' Amended Statement of Material Facts (ECF No. 202) sets forth thirteen separate evidentiary objections—labeled A through M—in opposition to the Government's Motion for Summary Judgment. As a trial court in the Eastern District of California recognized, many types of evidentiary objections are superfluous at the summary judgment stage. *Burch v. Regents of Univ. of California*, 433 F. Supp. 2d 1110, 1119–22 (E.D. Cal. 2006). Here, the Marder Defendants' objections that (1) challenge the relevancy of the facts supporting the Government's summary judgment motion, (2) call for the exclusion of evidence based on Federal Rule of Evidence 403, and (3) challenge the Government's factual statements as improper legal opinions are all "duplicative of the summary judgment standard itself." *Id.* at 1119; *see also Anderson v. Liberty Lobby, Inc.*, 477 U.S. 242, 248 ("Factual disputes that are irrelevant or unnecessary will not be counted."). The Kendall Defendants also assert four evidentiary objections in their opposition to the Government's motion, which suffer from similar maladies.

over material facts—that is, "facts that might affect the outcome of the suit under the governing law"—can properly preclude the entry of summary judgment. *Anderson*, 477 U.S. at 248. Where there is a dispute about a declaration or document that does "little more than provide cumulative evidence" on issues already established, summary judgment is not precluded. *See e.g., The Offshore Drilling Co. v. Gulf Copper & Mfg. Corp*., 604 F.3d 221, 227 (5th Cir. 2010) ("Only disputes over facts that might affect the outcome of the suit under the governing law will preclude summary judgment.").

The primary deficiency in Defendants' *amended* statements of material facts is the dearth of facts or citations to the record contained within these documents. That is, the sheer amount of conclusory denials, unsubstantiated assertions and legal argument presented obfuscates any statements of material fact that are likely contained within their pages. *See Oliver v. Scott*, 276 F.3d 736, 744 (5th Cir. 2002) ("Conclusional allegations and denials, speculation, improbable inferences, unsubstantiated assertions, and legalistic argumentation do not adequately substitute for specific facts showing a genuine issue for trial."); *Hilburn v. Murata Elects. N. Am., Inc*., 181 F.3d 1220, 1227–28 (11th Cir. 1999) (noting that a "conclusory statement is insufficient to create a genuine issue of a material fact").

In fact, a close review of the Marder Defendants' amended statement of material facts reveals that of the 178 numbered paragraphs submitted in opposition to the Government's statement of material facts approximately ten contain record citations. *See* (ECF No. 202). Additionally, the separately listed material facts listed at the end of that statement of material facts only provide broad record citations to various exhibits, which forces the Court into the position of choosing between either outright ignoring these purported facts or delving even deeper into the record in an attempt to unearth a genuine issue involving a material fact.

Our circuit has made clear that Local Rule 56.1(b) serves a vital purpose in "help[ing] the court identify and organize the issues in the case." *Mann v. Taser Int'l, Inc*., 588 F.3d 1291, 1303 (11th Cir. 2009). It indubitably preserves scarce judicial resources by preventing a court from "having to scour the record and perform time-intensive fact searching." *Joseph v. Napolitano*, 839 F.Supp.2d 1324, 1329 (S.D. Fla. 2012); *see also Alsina-Ortiz v. Laboy*, 400 F.3d 77, 81 (1st Cir. 2005) ("Burying the district court in a mass of supposedly material contested facts, many irrelevant and many unsupported by citations, creates the very morass from which the rule aims to protect the district judge."). Given its import to the judicial process, the Eleventh Circuit holds the local rule governing summary judgment in "high esteem" much like its sister circuits. *Reese v. Herbert*, 527 F.3d 1253, 1268 (11th Cir. 2008); *see also Caban Hernandez v. Philip Morris USA, Inc*., 486 F.3d 1, 7 (1st Cir.2007) ("Given the vital purpose that such rules serve, litigants ignore them at their peril.").

A party engaging in a pattern of practice that comports with a court's local rules governing summary judgment greatly improves—rather than impedes—that court's ability to efficiently and fairly resolve a motion for summary judgment in a timely manner. This is why Local Rule 56.1 mandates that a parties' Statement of Material Facts "(1) [n]ot exceed ten (10) pages in length; (2) [b]e supported by specific references to pleadings, depositions, answers to interrogatories, admissions, and affidavits on file with the Court; and (3) [c]onsist of separately numbered paragraphs." S.D. Fla. L.R. 56.1(a). Unfortunately, Defendants' non-compliance with Local Rule 56.1 has already been the subject of two of the Court's previous orders. *See* (ECF No. 196); *see also* (ECF No. 223) at 14 n.11 ("Whether the Court will afford yet another opportunity to the Marder Defendants to submit a coherent statement of material facts—given

the onslaught of evidentiary objections contained in the one the Marder Defendants have currently submitted—will be resolved in a forthcoming order.").

That forthcoming order has arrived. To the extent either the Marder Defendants or the Kendall Defendants raised a genuine issue of material fact that precludes the entry of summary judgment, the Court will honor its commitment to draw all reasonable factual inferences in favor of Defendants as the non-moving parties at this stage of disposition. However, to the extent Defendants merely objected to the evidentiary basis for an otherwise undisputed fact, set forth unsubstantiated assertions, or other unsupported legal arguments, the Court deems those facts set forth by the Government as uncontroverted under the Federal Rules of Civil Procedure and the Local Rules of the Court. *See* S.D. Fla. L.R. 56.1(b).

The Court is essentially left with a "functional analog of an unopposed motion for summary judgment" given the fact that the individual defendants, Drs. Kendall and Marder, invoked the Fifth Amendment[5] throughout the course of the Government's investigation. *See Reese*, 527 F.3d at 1268. Despite the virtually unopposed summary judgment motion, the Government as the moving party "continues to shoulder the initial burden of production in demonstrating the absence of any genuine issue of material fact, and the court must satisfy itself that the burden has been satisfactorily discharged." *Id.*

[5] "Although the Fifth Amendment protects individuals from compelled, incriminating testimony, it does not do the same for corporations." *Grand Jury Subpoena Dated Apr. 9, 1996 v. Smith*, 87 F.3d 1198, 1200 (11th Cir. 1996). Accordingly, "[a]dverse inferences drawn against the individual defendants may also be drawn against the corporate defendant because the individual defendants were acting in the scope of their employment when they engaged in the conduct they refused to testify about." *S.E.C. v. Monterosso*, 746 F. Supp. 2d 1253, 1263 (S.D. Fla. 2010). "An individual's status as a corporate officer gives rise to a presumption of ability to control and the degree of their participation in business is probative as to their knowledge." *F.T.C. v. Transnet Wireless Corp.*, 506 F.Supp.2d 1247, 1270 (S.D. Fla. 2007).

The Government contends that the Court should draw an adverse inference against Dr. Marder and Dr. Kendall for their invocation of the Fifth Amendment right against self-incrimination in their deposition testimony and other discovery responses. *See Baxter v. Palmigiano*, 425 U.S. 308 (1976). In *Baxter*, the Supreme Court held that "the Fifth Amendment does not forbid adverse inferences against parties to civil actions when they refuse to testify in response to probative evidence offered against them: the Amendment does not preclude the inference where the privilege is claimed by a party to a Civil cause." *Id.* at 318 (internal citation and quotations omitted).

However, both sets of defendants challenge the Government's reliance on *Baxter* by arguing that the drawing of adverse inferences is improper in this case and the Government is merely attempting to circumvent its burden on summary judgment. *See* (ECF No. 204) at 3; (ECF No. 182) at 3–5. Defendants are correct that an exception exists to *Baxter's* general rule that prevents the Court from drawing an adverse inference in situations where the inference would result in the automatic grant of summary judgment against the party or parties invoking their constitutional right. *See United States v. Premises Located at Route 13*, 946 F.2d 749, 756 (11th Cir. 1991) ("[T]he Fifth Amendment is violated when a person, who is a defendant in both a civil and a criminal case, is forced to choose between waiving his privilege against self-incrimination or losing the civil case on summary judgment."). Contrary to Defendants' assertions, this argument does not sound the death knell of the Government's case.

The invocation of the privilege is not without its costs to both the party asserting this constitutional claim and their opposition. After all, it is widely recognized that "[u]se of the privilege in a civil case may . . . carry some disadvantages for the party who seeks its protection." *S.E.C. v. Graystone Nash, Inc.*, 25 F.3d 187, 190 (3d Cir. 1994); *see also* 8 Wright,

Miller & Marcus, *Federal Practice & Procedure* § 2018 (3d ed. 2014) ("It is certainly true that a party may hurt his or her own cause by the claim of the privilege since that can deprive the party of whatever benefit his or her own testimony might provide."). Additionally, the opponent, unable to obtain discovery, is likewise disadvantaged. Yet, when considering these competing interests, the Court remains mindful of Justice Brandeis' famous declaration that "[s]ilence is often evidence of the most persuasive character." *U.S. ex rel. Bilokumsky v. Tod*, 263 U.S. 149, 153–54 (1923); *see also LiButti v. United States*, 178 F.3d 114, 120 (2d Cir. 1999) ("An adverse inference may be given significant weight because silence when one would be expected to speak is a powerful persuader.").

Here, in light of the myriad uncontroverted evidence presented by the Government, any adverse inferences drawn against Defendants will not result in the automatic entry of summary judgment. Although Defendants may have lost their best defense through invocation of the Fifth Amendment privilege against self-incrimination, the burdens on the parties at summary judgment remain the same. Accordingly, the Court will draw adverse inferences where it deems appropriate and only in situations where the inference is complementary to the evidence presented by the Government rather than its proxy.

Given the muddled and delayed presentation of material facts by the parties, the Court—in ruling on the Government's Motion for Summary Judgment—relies predominantly on its own comprehensive review of the record.[6] However, before turning to a recitation of the undisputed

[6] With this in mind, the Court implores the parties to consider Judge Zloch's admonition that "Federal Judges are not archaeologists. We possess neither the luxury nor the inclination to sift through that mound of obfuscation in hopes of finding a genuine issue of material fact to deny summary judgment." *Carolina Acquisition, LLC v. Double Billed, LLC*, 627 F. Supp. 2d 1337, 1340 (S.D. Fla. 2009) (internal citation omitted).

facts that are supported by the record evidence, the Court will set forth the relevant regulatory framework at issue in this case.

A. Regulatory Framework for Medicare Reimbursement for Services Rendered

The Marder and Kendall Defendants—like other physician group practices—are reimbursed for the services they provide to patients covered by government benefit programs. For example, Medicare[7] reimbursements, which make up the heart of the Government's intervening complaint, are made according to the Medicare Fee Schedule (the "Fee Schedule"). The Fee Schedule is based on the American Medical Association's ("AMA") Current Procedural Terminology ("CPT") codes,[8] which are assigned to different medical services and "provide a uniform terminology that accurately describes specific medical, surgical, and diagnostic services and procedures to facilitate efficient health care record keeping, information sharing, and efficient processing of claims for payment for services or procedures provided to patients." *Neotonus, Inc. v. Am. Med. Ass'n.*, 554 F. Supp. 2d 1368, 1370 (N.D. Ga. 2007), *aff'd sub nom. Neotonus, Inc. v. Am. Med. Ass'n*, 270 F. App'x 813 (11th Cir. 2008).

[7] In 1965, Congress established Medicare as "a federally funded health insurance program for the elderly and disabled." *Thomas Jefferson Univ. v. Shalala*, 512 U.S. 504, 506 (1994); *see also* 42 U.S.C. § 1395c. Medicare is administered by the Center for Medicare and Medicaid Services ("CMS"). *Grant Med. Ctr. v. Burwell*, No. CV 15-480 (RMC), 2016 WL 4574648, at *2 (D.D.C. Sept. 1, 2016). For outpatient beneficiary treatment, all Medicare reimbursements are subject to Part B, which covers the costs of, among other things, home health services, physician services, and outpatient physical therapy services. See 42 U.S.C. § 1395k.

[8] Congress directed the Secretary of Health and Human Services ("HHS") to "prescribe such regulations as may be necessary to carry out the administration of" Medicare, 42 U.S.C. § 1395hh(a)(1), and to "establish a uniform procedure coding system for the coding of all physicians' services," *id.* § 1395w–4(c)(5). The Secretary of HHS acted on this authority by adopting the CPT code set drafted by the AMA. 45 C.F.R. § 162.1002; *see also United States v. Semrau*, 693 F.3d 510, 530 (6th Cir. 2012).

Under the Social Security Act, 42 U.S.C. § 1395y(a)(1)(A), Medicare is authorized to pay only for items and services that are medically "reasonable and necessary for the diagnosis or treatment of illness or injury." In limited circumstances, Medicare allows physicians to submit claims for "services and supplies" furnished by other employees of the physician "incident to"[9] the professional services personally rendered by the physician. 42 C.F.R. § 410.26(b)(5). Generally, Medicare covers 80 percent of the reasonable cost of medical services. *See* 42 U.S.C. § 1395l(a)(1). Accordingly, the patient is normally required to contribute the remaining 20 percent as a copayment.

Since at least 2003, Chapter 15, Section 90 of the Medicare Benefit Policy Manual, has stated, among other things, that radiation therapy "furnished in a nonprovider facility require[s] direct personal supervision of a physician. The physician need not be in the same room, but must be in the area and immediately available to provide assistance and direction throughout the time the procedure is being performed." Medicare Benefit Policy Manual,[10] ch. 15, § 90 (May 13, 2016). However, there is no direct supervision requirement for "incident to" services related to radiation therapy. *See United States v. Space Coast Med. Assocs., L.L.P.*, 94 F. Supp. 3d 1250, 1262 (M.D. Fla. 2015) (recognizing that radiation therapy is not included in the definition of "'services and supplies' because it is listed as a separate Medicare benefit . . . . Thus, the

[9] "Incident to services" are services that are furnished by other employees of the physician—such as a PA or NP—incident to" the professional services personally rendered by the physician.

[10] Available online at https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/downloads/bp102c15.pdf, at 115. Direct supervision, as consistently defined throughout the Medicare Benefit Manual and the Code of Federal Regulations, means the physician "must be present and immediately available to furnish assistance and direction throughout the performance of the procedure. It does not mean that the physician must be present in the room where the procedure is performed." *See e.g.*, 42 C.F.R. §410.32. As originally defined in the 2011 Outpatient Prospective Payment System Final Rule, "immediately available" means "interruptible and able to furnish assistance and direction throughout the performance of the procedure but without reference to any particular physical boundary."

direct supervision requirement in § 410.26(b)(5) does not apply.") (citing 42 C.F.R. § 410.26(a)(7); 42 U.S.C. § 1395x(s)(4)).

Payment for services performed by either a physician's assistants ("PA") or nurse practitioner ("NP") (collectively, "NPP's"), must not be more than "85 percent of the physician fee schedule amount." *Landau v. Lucasti*, 680 F. Supp. 2d 659, 662, 667 (D.N.J. 2010) (citing 42 C.F.R. §§ 405.520(a), 414.52, 414.56); *see also U.S. ex rel. Heater v. Holy Cross Hosp., Inc.*, 510 F. Supp. 2d 1027, 1035 (S.D. Fla. 2007) ("When the Government is billed for services rendered by a nurse or nurse practitioner which are not incident to the services of a physician, the provider is reimbursed at 85–percent of the rate otherwise paid.").

To ensure compliance with these laws and governing agency regulations, the "[s]ubmission of Medicare claims through a carrier requires providers to submit a '1500 Form'[11] that includes information regarding the patient, the provider, and the services rendered, including the CPT code." *Semrau*, 693 F.3d at 513. For every year at issue in this case, the first page of the Introduction to the CPT Code Book directed those submitting bills to select the code that accurately identifies the service performed, rather than one that merely approximates the service provided, and required that all services be adequately documented in the patient's medical record. Each CPT code corresponds to a different level of service and is used by insurance carriers to reimburse providers the appropriate amount depending on the code submitted. *Id.*

Having set forth the relevant regulatory framework, the Court now turns to the undisputed facts supported by the record evidence.

---

[11] The 1500 Form also includes a notice stating: "Anyone who misrepresents or falsifies essential information to receive payment from federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable federal laws." First Coast Service Options, Inc. ("FCSO") is the CMS contractor tasked with administering Medicare payment, processing and auditing functions in the geographic regions where Drs. Kendall and Marder operate.

B. The Relevant Parties

It is undisputed that Dr. Marder is a physician practicing in Port St. Lucie and Okeechobee, Florida through the clinic he owns, ADSCC. In this capacity, Dr. Marder has enrolled ADSCC in the Medicare program since at least 2003. Doing so required Dr. Marder to sign certain statements acknowledging his familiarity with Medicare laws and regulations and affirming his intent to abide by them. Dr. Marder also agreed that he would not present or cause to be presented any false or fraudulent claims. Dr. Kendall is a board certified pathologist operating an independent laboratory, KML, in Coral Gables, Florida, which is approximately 130 miles from Dr. Marder's offices. Dr. Kendall also signed a Medicare enrollment application for KML dating back to 2011 and made the same affirmations as Dr. Marder.

C. Dr. Marder's Dermatology Practice

Dr. Marder treated Medicare beneficiaries at his main Port St. Lucie office and his satellite office in Okeechobee, Florida by providing radiation oncology services and other clinical laboratory services as part of his practice. Dr. Marder is the only physician to have ever rendered services to patients in these offices. Notably, no other doctor was present at either office on the occasions when Marder was absent.

Both offices were open Monday through Friday, but Marder was physically present in the offices on a more limited basis. For example, Dr. Marder normally only spent Mondays and Wednesdays in the Port St. Lucie office, arriving between 10:30 and 11:00 a.m. For the Okeechobee office, Dr. Marder spent one Tuesday every two weeks at that location. Dr. Marder used appointment books at each office in order to schedule patient visits. If the appointment book was blank for the entire day or said "Dr. Out," that meant that Dr. Marder was not in the

office that day. From 2008 to 2014, a review of Dr. Marder's appointment book indicates that he spent more than fifty percent of all business days out of the office.

Dr. Marder also maintained tight control over the operations of both offices. In fact, no claims were submitted to any insurance company for services rendered until he provided his approval. Generally, Dr. Marder employed two individuals at any given time assigned exclusively to billing duties. However, they had no experience or training in medical claims processing and billing, or in healthcare regulatory compliance. Notably, Dr. Marder never sent his employees to any training on these subjects.

Radiation treatments were administered to multiple patients on a daily basis at both the Okeechobee office and the Port St. Lucie office. The maximum power of the devices at Marder's offices was limited to approximately 90,000 volts ("90 keV"), a power level which is considered to be "superficial radiation" or ortho-voltage radiation. Dr. Marder, or one of his NPP's, only administered "superficial radiation" to the patients under Dr. Marder's standard radiation protocol.[12] Each of the daily radiation treatments allegedly performed by Marder are known as "fractions" as they represent only a portion of the total dose. If the daily fraction is split into two separate applications of radiation, it is a treatment modality known as "hyper-fractionation." Dr. Marder represented to Medicare that he performs all the radiation therapy himself and that the hyper-fractionated treatments are administered four hours apart. However, Marder's current radiation protocol requires the treatments to be administered just forty-five to sixty minutes apart.

[12] Superficial radiation can be distinguished from radiation provided by a linear accelerator (up to 5,000,000 volts), or "linac" for short. Machines that can administer superficial radiation can be purchased new for $150,000 while a linac costs between $2 and $4 million and must be installed in a concrete bunker to provide adequate shielding.

Martin Burke, a PA employed by Dr. Marder from 2012 to 2014, provided a sworn affidavit regarding the daily operations of Dr. Marder's radiation practice. Specifically, Burke declared that Dr. Marder never met with patients during the course of radiation and that Burke individually provided radiation treatments to patients based on verbal instructions he received from Dr. Marder. Burke also testified that he was (1) instructed not to change any settings on the radiation machine; (2) not required to perform any simulations of treatment before commencing; (3) not required to make reference to any type of special instructions regarding the type of shield to use on each patient; and (4) unaware of any times that a medical physicist was involved in the care of patients.

Since at least 2008, the only medical physicist[13] with whom Dr. Marder had a business relationship is Farhad Kader. The primary services Kader rendered were the annual calibration of the radiology equipment and the preparation of calibration reports. Kader rarely provided services related to the treatment being rendered to an individual patient, and has not done so in any capacity since August 2011. In those few cases where he did render services, Kader did so only in evenings and on the weekend.

D. Dr. Kendall's Pathology Services and Relationship with Marder

The biopsied specimens collected by Dr. Marder during the relevant time period were shipped over 130 miles to KML so that the Kendall Defendants could perform certain pathology services on a daily basis. Upon receipt from Marder, a KML histologist performed the Technical

[13] "A Qualified Medical Physicist is an individual who is competent to practice independently in one or more of the subfields in medical physics. The medical physicist has responsibility for overseeing the [radiological] equipment quality control program, and for monitoring performance upon installation and routinely thereafter." 75 Am. Jur. *Trials* § 43 (2000).

Component ("TC")[14] services. The next day, a KML pathologist then reviewed the slides, rendered a diagnosis, and prepared a pathology report. The pathology report prepared by KML was printed on a letterhead under the name of Marder Medical Laboratory ("MML"). At the time the report was printed by KML it already had Dr. Marder's signature. The reports sent to Marder fully indicated the services that KML rendered.

In order to track the amount that Kendall was due for services provided, Dr. Kendall sent a monthly invoice to the Marder Defendants for the work done on each slide sent by Dr. Marder. The invoice reflected that Dr. Kendall was paid $12.50 per slide as full compensation from Marder for the pathology work that Kendall performed. The invoice further indicated that payment was sought for only the TC by including the letters "TC" after the CPT Code 88305. Up until 2011, Dr. Marder paid the entire amounts owed on the invoices using a credit card. The invoices represented the total amount –approximately $1,479,566.53—collected by Kendall from Marder during the relevant time period. During this same period, Dr. Marder was paid over $2,829,000 for the pathology he billed on a global basis.

At some point in 2010, an attorney gave Marder advice regarding his pecuniary relationship with Dr. Kendall. The attorney drafted a contract, which indicated that Kendall would become an employee of Marder. An additional contract was drafted indicating that Dr. Marder was going to lease Kendall's laboratory. Page three of the lease agreement specifies that the lessee has responsibility for billing and collecting global fees for bone density scans

[14] Pathology services are comprised of a Professional Component ("PC") and a Technical Component ("TC"). Pathology services can be billed in one of three ways: The TC and PC can be "globally" billed, or the TC and PC can be billed separately. If a pathology claim is billed globally, the provider simply uses the applicable CPT Code. If the claim is being billed for only the TC or PC, a modifier code is used. The TC modifier indicates that reimbursement is sought only for the TC. The "26" modifier indicates that reimbursement is sought only for the PC. During the relevant timeframe, Marder billed for approximately 35,000 pathology specimens, none of which were billed under the PC modifier.

conducted at KML's facility. To date, no bone density scans have been performed by KML. Dr. Kendall signed the purported employment agreement and sent it to Dr. Marder in 2010. The version that Kendall sent Marder was undated and had not yet been signed by Dr. Marder.

With this factual and regulatory background in mind, the Court now turns to the merits of the Government's motion for summary judgment.

II. Legal Standard

Summary judgment is appropriate where there is "no genuine issue as to any material fact [such] that the moving party is entitled to judgment as a matter of law." *Celotex Corp. v. Catrett*, 477 U.S. 317, 322 (1986); *see also* Fed R. Civ. P. 56. A dispute about a material fact is genuine if the evidence is such that a reasonable fact-finder could return a verdict for the non-moving party. *Anderson*, 477 U.S. at 248. Speculation or conjecture cannot create a genuine issue of material fact sufficient to defeat a well-supported motion for summary judgment. *Cordoba v. Dillard's, Inc.*, 419 F.3d 1169, 1181 (11th Cir. 2005).

The moving party shoulders the initial burden of showing the absence of a genuine issue as to any material fact. *Shiver v. Chertoff*, 549 F.3d 1342, 1343 (11th Cir. 2008). In deciding whether the movant has met this burden, "[t]he court must view the movant's evidence and all factual inferences arising from it in the light most favorable to the non-moving party." *Denney v. City of Albany*, 247 F.3d 1172, 1181 (11th Cir. 2001). Once the moving party satisfies its initial burden, the non-moving party must come forward with evidence showing a genuine issue of material fact that precludes summary judgment. *Bailey v. Allgas, Inc.*, 284 F.3d 1237, 1243 (11th Cir. 2002). "A party asserting that a fact . . . is genuinely disputed must support the assertion by . . . citing to particular parts of materials in the record . . . or . . . showing that the

materials cited do not establish the absence or presence of a genuine dispute." *In re Fisher Island Invs., Inc.*, 778 F.3d 1172, 1195 (11th Cir. 2015) (quotation omitted).

"If reasonable minds could differ on any inferences arising from undisputed facts, summary judgment should be denied." *Twiss v. Kury*, 25 F.3d 1551, 1555 (11th Cir. 1994); *see also Jeffery v. Sarasota White Sox, Inc.*, 64 F.3d 590, 594 (11th Cir. 1995) ("When more than one inference reasonably can be drawn, it is for the trier of fact to determine the proper one.") (quotation omitted). After all, "[c]redibility determinations, the weighing of the evidence, and the drawing of legitimate inferences from the facts are jury functions, not those of a judge." *Reeves v. Sanderson Plumbing Prod., Inc.*, 530 U.S. 133, 150 (2000). A trial court has the discretion "to deny even a well-supported motion for summary judgment, if it believes the case would benefit from a full hearing." *United States v. Certain Real & Pers. Prop. Belonging to Hayes*, 943 F.2d 1292, 1297 (11th Cir. 1991); *see also Anderson*, 477 U.S. at 255 (recognizing that a trial court has discretion to "deny summary judgment in a case where there is reason to believe that the better course would be to proceed to a full trial") (citation omitted).

III. Discussion

The Government moves for summary judgment on the seven counts[15] it asserted in the Intervenor Complaint and additionally seeks summary judgment on all of Defendants' affirmative defenses. According to the Government, there remains no genuine issue of material fact that the claims Dr. Marder submitted in connection with the dermatology and radiation services he allegedly provided were false and provide a basis for FCA liability. As to the Kendall Defendants, the Government asserts that the pathology services KML provided to

[15] The seven counts are: Presentation of False Claims in violation of §3729(a)(1)(A) (Counts I and II); Presentation of False Statements Material to False Claims in violation of 31 U.S.C. § 3729(a)(1)(B) (Counts III and IV); Conspiracy in violation of 31 U.S.C. § 3729(a)(3) (Count V); Unjust Enrichment (Count VI); and Payment by Mistake (Count VII).

Marder constituted impermissible "remuneration" under the Anti-Kickback Statute ("AKS") and the Stark Act. Additionally, the Government argues that the Kendall Defendants are liable for the false claims submitted by the Marder Defendants. In sum, the Government contends that the Defendants collectively violated the FCA in multiple ways: (1) submitting—or causing to be submitted—false claims with the requisite scienter; (2) engaging in a conspiracy to submit false claims; (3) and by falsely certifying compliance with AKS and Stark Act.

A. False Claims Act

The FCA was "enacted in 1863 with the principal goal of 'stopping the massive frauds perpetrated by large [private] contractors during the Civil War.'" *Vermont Agency of Nat. Res. v. U.S. ex rel. Stevens*, 529 U.S. 765, 78 (2000). At its core, "[t]he FCA is designed to protect the Government from fraud by imposing civil liability and penalties upon those who seek federal funds under false pretenses." *United States ex rel. Lesinski v. S. Fla. Water Mgmt. Dist.*, 739 F.3d 598, 600 (11th Cir. 2014). Despite its broad reach, courts acknowledge that the FCA "is not a vehicle to police technical compliance with complex federal regulations." *U.S. ex rel. Hobbs v. MedQuest Assocs., Inc*., 711 F.3d 707, 717 (6th Cir. 2013) (quotation omitted).

In order to establish its prima facie case, a plaintiff asserting claims under Section 3729(a)(1)(A)[16] of the FCA must establish three elements: (1) a false or fraudulent claim; (2)

[16] In May 2009, Congress enacted the Fraud Enforcement & Recovery Act of 2009 ("FERA"), which amended the FCA and re-designated various sections including 31 U.S.C. § 3729(a)(1) as 31 U.S.C. § 3729(a)(1)(A), and 31 U.S.C. § 3729(a)(3) as 31 U.S.C. § 3729(a)(1)(C). *See* Fraud Enforcement & Recovery Act of 2009, Pub. L. 111–21, § 4(d), 123 Stat. 1617, 1624–25 (2009). The pre-FERA version of the Act imposed liability on any person who "conspires to defraud the Government by getting a false or fraudulent claim allowed or paid." 31 U.S.C. § 3729(a)(3). The amendments to this subsection only apply to conduct occurring on or after May 20, 2009. *See* 31 U.S.C. § 3729(a)(1)(C). Because the Government alleges that some conduct occurred before May 2009, the pre-FERA version of this subsection would apply to the alleged schemes involving that conduct. For ease of reference, only the post-FERA version, 31 U.S.C. §

which was presented, or caused to be presented, by the defendant to the Government for payment or approval; (3) with the knowledge that the claim was false. 31 U.S.C. § 3729(a)(1)(A); *see also McNutt ex rel. United States v. Haleyville Med. Supplies, Inc*., 423 F.3d 1256, 1259 (11th Cir. 2005) ("The False Claims Act does not create liability merely for a health care provider's disregard of Government regulations or improper internal policies unless, as a result of such acts, the provider knowingly asks the Government to pay amounts it does not owe.").

Additionally, the FCA prohibits an individual from knowingly making, using, or causing to be made or used, "a false record or statement material to a false or fraudulent claim." 31 U.S.C. § 3729(a)(1)(B).[17] Under the statute, material[18] "means having a natural tendency to influence, or be capable of influencing, the payment or receipt of money or property." § 3729(b)(4).

1. Falsity

False claims under the FCA may assume a variety of forms. "A factually false claim occurs . . . when a supplier submits a claim that misidentifies the goods supplied or requests reimbursement for goods that it never provided." *United States ex rel. Phalp v. Lincare Holdings, Inc*., 116 F. Supp. 3d 1326, 1344 (S.D. Fla. 2015). On the other hand, "[a] claim is legally false when it rests on a false representation of compliance with an applicable federal statute, federal regulation, or contractual term." *U.S. ex rel. Davis v. D.C.*, 793 F.3d 120, 124

3729(a)(1)(C) is cited throughout this Order, although many of the cases discussed cite the pre-FERA version.

[17] The prior version of this section of the FCA, Section 3729(a)(2), was also amended pursuant to FERA and applies retroactively to all FCA cases pending on or after June 7, 2008. *See Sanders v. Allison Engine Co.*, 703 F.3d 930, 936–42 (6th Cir. 2012).

[18] As no party disputes Defendants' representations that they were in compliance with federal law are material to the Government's payment decisions in this case, the Court will not conduct an analysis of this element.

(D.C. Cir. 2015) (internal quotation marks omitted). Legally false claims, otherwise known as false certifications, can "be either express or implied." *United States v. Sci. Applications Int'l Corp.*, 626 F.3d 1257, 1266 (D.C. Cir. 2010).

2. Presentment

The submission of a false claim is the "*sine qua non*" of a [FCA] violation. *U.S. ex rel. Clausen v. Lab. Corp. of Am.*, 290 F.3d 1301, 1311 (11th Cir. 2002) ("Without the presentment of such a claim, while the practices of an entity that provides services to the Government may be unwise or improper, there is simply no actionable damage to the public fisc as required under the False Claims Act."). Additionally, an individual or entity that does not directly submit a false claim to the government may still be liable under the FCA. *See* 31 U.S.C. § 3729(a)(1)(A), (B).

Although the FCA does not define the phrase "cause to be presented," courts have applied traditional concepts of proximate causation "to determine whether there is a sufficient nexus between the Defendants' conduct and the ultimate presentation of the allegedly false claim." *United States v. Abbott Labs.*, No. 3:06-CV-1769-M, 2016 WL 80000, at *6 (N.D. Tex. Jan. 7, 2016) (citing *U.S. ex rel. Sikkenga v. Regence Bluecross Blueshield of Utah*, 472 F.3d 702, 714–15 (10th Cir. 2006)). Under this analysis, a defendant's "conduct may be found to have caused the submission of a claim for Medicare reimbursement if the conduct was (1) a substantial factor in inducing providers to submit claims for reimbursement, and (2) if the submission of claims for reimbursement was reasonably foreseeable or anticipated as a natural consequence of [d]efendants' conduct." *Id.* (citing *U.S. ex rel. Franklin v. Parke-Davis, Div. of Warner-Lambert Co.*, No. CIV.A. 96-11651PBS, 2003 WL 22048255, at *5 (D. Mass. Aug. 22, 2003)).

3. Knowledge or Scienter

For purposes of the FCA, the term "knowingly" means that a person (1) has actual knowledge of the truth or falsity of the information, (2) acts in deliberate ignorance of the truth or falsity of the information, or (3) acts in reckless disregard[19] of the truth or falsity of the information. *See* 31 U.S.C. § 3729(b). Moreover, no proof of specific intent to defraud is required. *See* § 3729(b)(1)(B). Strict enforcement of the FCA's knowledge requirement helps to ensure that innocent mistakes made in the absence of binding interpretive guidance are not converted into FCA liability." *U.S. ex rel. Purcell v. MWI Corp.*, 807 F.3d 281, 287 (D.C. Cir. 2015). Courts recognize that FCA's "'scienter requirement is actually quite nuanced.'" *Urquilla-Diaz*, 780 F.3d at 1058 (quoting *United States v. King–Vassel*, 728 F.3d 707, 712 (7th Cir. 2013)).

4. Conspiracy

Lastly, a person who "conspires to defraud the Government by getting a false or fraudulent claim allowed or paid" is subject to FCA liability. 31 U.S.C. § 3729(a)(1)(C). Although the FCA does not define the elements of conspiracy, courts recognize that "general civil conspiracy principles apply." *U.S. ex rel. Durcholz v. FKW Inc*., 189 F.3d 542, 545 n.3 (7th Cir. 1999) (citing *U.S. v. Murphy*, 937 F.2d 1032, 1039 (6th Cir. 1991)); *see also Corsello v. Lincare, Inc*., 428 F.3d 1008, 1014 (11th Cir. 2005). Thus, a plaintiff bringing a cause of action for FCA conspiracy must allege (1) that "an agreement existed to have false or fraudulent claims allowed or paid" to the government, (2) that each alleged member of the conspiracy "joined that

[19] "Congress added the 'reckless disregard' provision to the [FCA] in 1986." *Urquilla-Diaz v. Kaplan Univ*., 780 F.3d 1039, 1058 (11th Cir. 2015) (citation omitted). According to the legislative history, "this language was added to ensure that 'knowingly' captured "the 'ostrich' type situation where an individual has 'buried his head in the sand' and failed to make simple inquiries which would alert him that false claims are being submitted." *Id* (quoting S. Rep. 99–345, at 21, *reprinted in* 1986 U.S.C.C.A.N. 5266, 5286).

agreement," and (3) that "one or more conspirators knowingly committed one or more overt acts in furtherance of the object of the conspiracy." *See United States ex rel. Miller v. Bill Harbert Int'l Constr., Inc.*, 608 F.3d 871, 899 (D.C. Cir. 2010) (citations omitted); *Rutledge v. Aveda*, No. 2:14-CV-00145-AKK, 2015 WL 2238786, at *12 (N.D. Ala. May 12, 2015) (citing *Corsello*, 428 F.3d at 1014).

B. Marder Defendants Knowingly Submitted False Claims in Violation of the FCA

Based on the present record, there is no genuine issue of material fact that, during the relevant time period, the Marder Defendants knowingly submitted false claims to Medicare by requesting reimbursement for services that were never actually performed—or directly supervised by—Dr. Marder. Specifically, the undisputed evidence shows that Dr. Marder acted at least with reckless disregard when he submitted claims for services he allegedly performed despite Marder's frequent absence from the offices (including expansive periods of foreign travel) on days corresponding to over fifty percent of the payments that Dr. Marder received from Medicare. Quite simply, a reasonable jury could infer Dr. Marder's actual knowledge—or at least his reckless disregard for the veracity of his claims for Medicare reimbursement—simply from the physical impossibility of his seeking payment for services he claimed to have performed or directly supervised despite being absent from the office.

Dr. Marder also received $436,026 for services billed under the CPT code for a Medical Physicist (77336). However, it is undisputed that since 2011 Mr. Kader—the only Medical Physicist to ever work with Dr. Marder and ADSCC—has not rendered care related to any patient except on a limited number of cases during nights and weekends. Mr. Kader also confirmed that if he actually worked on a file he always signed in ink, yet the Government's review of the files revealed hundreds of copies of his signature, but not any originals.

Accordingly, all claims for Medical Physicist services submitted to Medicare by the Marder Defendants since 2011 are false as Dr. Marder had actual knowledge that the Mr. Kader did not perform the corresponding services.

Weighing all inferences in the Marder Defendants' favor, the Court is able to determine as a matter of law that Dr. Marder acted with reckless disregard when he *personally* billed for services, such as biopsies and office visits, using his own identification number rather than the number of his PA's. The result was that Dr. Marder was reimbursed at the 100% rate instead of the 85% rate assigned to PA's, which renders these submitted claims expressly false.

The Government also asserted that the Marder Defendants routinely submitted claims that were false because the services were (1) supported by false documentation,[20] (2) upcoded[21] to a higher CPT reimbursement rate, and (3) not medically necessary. As to the medical necessity of Dr. Marder's use of "hyperfractionation," the Government is essentially asking the Court to weigh the inferences in its favor by relying on its expert testimony to confirm the implausibility of twice a day treatments being medically necessary for a considerable number of patients. This position misconstrues the court's role at the summary judgment stage. *Mize v. Jefferson City Bd. of Educ.*, 93 F.3d 739, 742 (11th Cir. 1996) ("It is not the court's role to weigh

[20] The Government's theory of FCA liability based on document fabrication and duplication—an actionable claim under Section 3729(a)(1)(B)—is raised for the first time on summary judgment and thus it is improper for the Court to resolve it at this juncture. *Ganstine v. Sec'y, Florida Dep't of Corr.*, 502 F. App'x 905, 909 (11th Cir. 2012) ("A plaintiff may not, however, 'amend' his complaint at the summary judgment stage by raising a new claim.").

[21] "Upcoding," refers to "the practice of billing Medicare for services or equipment designated under a code that is more expensive than what a patient actually needed or was provided" the submission of a claim containing a higher CPT code than the visit actually warranted." *United States ex rel. Bledsoe v. Cmty. Health Sys.*, 501 F.3d 493, 498 n.2 (6th Cir. 2007) (explaining that upcoding is a "common form of Medicare fraud") (internal citation and quotations omitted).

conflicting evidence or to make credibility determinations."). Instead, this issue is one that needs to be submitted to the trier of fact.

Although the Government contends otherwise, the result is the same when reviewing the factual record as it relates to the allegations that the Marder Defendants engaged in Medicare "upcoding." Even with an adverse inference, the Court cannot say as a matter of law that no reasonable jury could reach a verdict in favor of the Marder Defendants' use of certain CPT codes—77402, 77407, and 77412 (reimbursed as high as $249.59) versus 77401 (reimbursed between $19.51 and $26.03)—for the superficial radiation services provided at the Port St. Lucie and Okeechobee clinics. Based on the briefs before the court, it is evident that the Government's theory of FCA liability based on a theory of "upcoding" is best left to the assessment of the factfinder. As the Court could not conclude that the claims submitted under CPT Codes 77402, 77407, and 77412 were false as a matter of law, it need not determine whether Dr. Marder acted with the requisite deliberate ignorance or reckless disregard by taking advantage of a disputed legal question over which CPT Code superficial radiation is properly billed under.

Accordingly, the Government's Motion for Summary Judgment against the Marder Defendants as to Counts I and III of the Intervenor Complaint is GRANTED in PART and DENIED in PART for the reasons the Court previously enunciated.

C. Factual Issues Remain on Whether Kendall Defendants Caused False Claims to be Submitted

While the Court was able to determine as a matter of law that the Marder Defendants knowingly submitted false claims in violation of Sections 3729(a)(1)(A) and (B), the record evidence does not support a related finding that the Kendall Defendants caused such false claims to be submitted. Without any specific evidence that the Kendall Defendants acted "knowingly" for purposes of the FCA, summary judgment is not warranted on the Government's FCA claims

that are directed at the Kendall Defendants.[22] Given that a factual dispute remains for trial as to whether the Kendall Defendants knowingly assisted in causing the submission of false claims to the United States, the Government's Motion on Count II of the Intervention Complaint as it pertains to the Kendall Defendants is DENIED.

D. Lack of Record Evidence Regarding Alleged Conspiracy

The Government has not met its initial summary judgment burden by demonstrating an absence of a genuine material dispute of fact regarding the parties' role in a conspiracy to submit a false claim pursuant to 31 U.S.C. § 3729(a)(1)(C). First, there is no undisputed record evidence of an agreement between Marder and Kendall to submit a false claim. Although the Government asserts that the employment agreement between Marder and Kendall was a "sham," such an unsubstantiated assertion does not present the type of situation where the Court can rule as a matter of law that the parties engaged in a conspiracy to submit a false claim. At best, the evidence is conflicting and the decision now lies with the jury to weigh the inferences and judge the credibility of testimony surrounding the Defendants' employment arrangement or alleged conspiratorial behavior.

Accordingly, the Government's Motion for Summary Judgment as to Count V of the Intervenor Complaint is DENIED.

E. Anti-Kickback Statute and Stark Act

Because compliance with the AKS and the Stark Act is a condition of payment for Medicare and Medicaid, claims submitted for services rendered in violation of these statutes "can

[22] Because the Government has failed to establish the requisite level of scienter, the Court need not consider whether the Kendall Defendants met the proximate causation standard set forth earlier in this Order. Even if the Court could determine as a matter of law that the Kendall Defendants acted "knowingly," the Court finds in this instance the better approach is to submit the issue of causation to a jury. *See e.g. Hayes*, 943 F.2d at 1297.

form the basis of liability under the F[CA]." *United States v. Baycare Health Sys*., No. 8:14-CV-73-T-23EAJ, 2015 WL 4878456, at *1 (M.D. Fla. Aug. 14, 2015). The AKS prohibits the payment, receipt, offering, or solicitation of "remuneration" to induce business that is reimbursable under a federal health care program. 42 U.S.C. § 1320a–7b; *see also U.S. ex rel. Osheroff v. Humana Inc*., 776 F.3d 805, 808 (11th Cir. 2015). However, there is no violation of the statute for a payment "by an employer to an employee (who has a bona fide employment relationship with such employer) for employment in the provision of covered items or services." 42 U.S.C. 1320a-7b(b)(3)(B). The bona fide employee safe harbor is discussed further in 42 C.F.R. § 1001.952(i), which provides that payments to employees "for employment in the furnishing of any item or service for which payment may be made in whole or in part under Medicare, Medicaid or other Federal health care programs" are not remuneration and therefore cannot form the basis of AKS violation. *See* 42 C.F.R. § 1001.952(i). The AKS, while often criticized,[23] "is not a highly technical tax or financial regulation that poses a danger of ensnaring persons engaged in apparently innocent conduct. Indeed, the giving or taking of kickbacks for medical referrals is hardly the sort of activity a person might expect to be legal." *United States v. Starks*, 157 F.3d 833, 838 (11th Cir. 1998).

Similarly, the Stark Act prohibits healthcare entities from submitting Medicare claims for payment based on patient referrals from physicians having a "financial relationship" with the entity. 42 U.S.C. § 1395nn; *see also United States ex rel. Mastej v. Health Mgmt. Assocs., Inc*., 591 F. App'x 693, 698 (11th Cir. 2014) ("In its most general terms, the Stark statute prohibits doctors from referring Medicare patients to a hospital if those doctors have certain specified

[23] "The Anti-Kickback Statute is a blunt rather than a precise weapon, an axe rather than a scalpel." Joan H. Krause, *Skilling and the Pursuit of Healthcare Fraud*, 66 U. Miami L. Rev. 363, 371 (2012).

types of financial relationships with that hospital."). Stark also proscribes a healthcare entity from presenting or causing to be presented a Medicare claim for services furnished pursuant to a prohibited self-referral. 42 U.S.C. § 1395nn(a)(1)(B).

The definition of "remuneration" under the AKS "is materially indistinguishable" from the Stark Act's definition. *Ameritox, Ltd. v. Millennium Labs., Inc*., 803 F.3d 518, 521–22 (11th Cir. 2015). The AKS definition includes "'any remuneration (including any kickback, bribe, or rebate) directly or indirectly, overtly or covertly, in cash or in kind.'" *See id*. at 522 (quoting 42 U.S.C. § 1320a–7b(b)). Under Stark, "remuneration" is broadly defined as "'any remuneration, directly or indirectly, overtly or covertly, in cash or in kind.'" *See id.* (quoting 42 U.S.C. § 1395nn(h)(1)(B)).

Because the AKS and Stark Act do not create private rights of action, *see Ameritox*, 803 F.3d at 522, an FCA claim dependent on one of these statutory regimes needs to meet all of the other elements of an FCA violation. *See e.g., U.S. ex rel. Hartwig v. Medtronic, Inc.*, No. 3:11CV413-CWR-LRA, 2014 WL 1324339, at *12 (S.D. Miss. Mar. 31, 2014) ("However, an AKS violation alone does not create a cause of action under the FCA because evidence of an actual false claim is essential to an FCA violation."); *see also McNutt*, 423 F.3d at 1259 ("When a violator of government regulations is ineligible to participate in a government program" for violating AKS or another condition of payment "and that violator persists in presenting claims for payment that the violator knows the government does not owe, that violator is liable, under the Act, for its submission of those false claims").

1. Factual Issues Remain on Whether Defendants Committed a FCA Violation based on Predicate Offenses of AKS and Stark Law

To prevail at summary judgment, the Government must show not only that Defendants paid, or offered to pay, remuneration in exchange for referrals, but also that payments led to false certifications or claims. Drawing every inference in favor of the Defendants, the Court cannot determine as a matter of law that the purported employment relationship between the Marder Defendants and the Kendall Defendants for pathology services was a mere smokescreen for kickbacks, sufficient to take it out of the safe harbor provisions expressly provided for by the AKS and Stark Act. At the very least, there are factual issues remaining on whether (1) Dr. Kendall was an employee entitled to the applicable safe harbor protections and, (2) Dr. Marder actually performed the PC components of the pathology services for which he billed.[24]

The Court is also not convinced by the Government's argument that summary judgment is warranted based on the reasoning set forth in the district court's decision in *Ameritox*. *See Ameritox, Ltd. v. Millennium Labs., Inc.*, 20 F. Supp. 3d 1348, 1356 (M.D. Fla. 2014) (denying in part plaintiff's motion for summary judgment by concluding jury must determine whether provision of free services constituted remuneration). Since it may be likely that Dr. Kendall's provision of discounted pathology services may be considered remuneration, and that one of the safe harbor exceptions may apply, the issue of whether the Marder Defendants and Kendall Defendants engaged in an impermissible referral scheme in violation of AKS and the Stark Act presents a question for the jury. Notably, one specific matter the jury must weigh is whether Dr. Kendall's "fee" for his pathology services is consistent with the fair market value of the services he provided the Marder Defendants. *See* 42 U.S.C. § 1395nn(e)(2).

[24] To be clear, the Government bears the initial burden of proving no issues of material fact remains for each element of a violation of the Stark Act or AKS. Once that occurs, the burden then shifts to Defendants to establish an affirmative defense that their conduct was protected by a safe harbor or exception. *See e.g.*, *Halifax*, 2013 WL 6989775, at *4.

The next issue for the jury—and the crux of whether the AKS and the Stark Act were violated in this case—is whether Defendants possessed the requisite intent to violate the statutes. That is, a trier of fact must also determine whether the parties entered these business arrangements in exchange for, or to induce, patient referrals to Kendall. As it is, the Court concludes that a rational jury could decide in either side's favor on the material questions of whether Defendants paid or obtained remuneration in exchange for referrals, and if so whether this wrongful conduct was willful. *See United States v. Halifax Hosp. Med. Ctr.*, No. 6:09-CV-1002-ORL-31, 2013 WL 6989775, at *6 (M.D. Fla. Nov. 18, 2013).

Accordingly, the Government's Motion for Summary Judgment as to Counts II and IV of the Intervenor Complaint is DENIED as to any claims against the Marder and Kendall Defendants stemming from their alleged involvement in an illegal kickback scheme that violates either the AKS or Stark Act.

F. Government's Common Law Claims

In addition to the aforementioned FCA claims, the Government also moves for summary judgment on its asserted common law claims: (1) Unjust Enrichment (Count VI); and (2) Payment by Mistake (Count VII). Because these common-law claims involve rights of the United States under a nationwide federal program, federal common law governs. *See United States v. Kimbell Foods, Inc.*, 440 U.S. 715, 726 (1979); *Clearfield Trust Co. v. United States*, 318 U.S. 363, 366–67 (1943).

As these are common law claims, the Government may recover the amounts wrongfully or erroneously paid to Defendants by the Medicare program, but it is not entitled to recover any penalties or punitive damages. Because summary judgment was granted as to the FCA claims against the Marder Defendants (Counts I and III), summary judgment is due for these claims as

well. *See e.g., United States v. Aegis Therapies, Inc.*, No. CV 210-072, 2015 WL 1541491, at *14 (S.D. Ga. Mar. 31, 2015).

G. Affirmative Defenses

The Marder Defendants assert twelve purported affirmative defenses including: (1) the Government failed to show that the Marder Defendants had the requisite scienter for FCA liability (Seventh Affirmative Defense); (2) the alleged false certifications were not material to payments made (Tenth Affirmative Defense); and (3) and the relationship between the Marder Defendants and the Kendall Defendants falls under various safe harbor provisions of the AKS and the Stark Law (Twelfth Affirmative Defense). *See* (ECF No. 83) at 24–25. Similarly, the Kendall Defendants plead twenty-one affirmative defenses that for the most part challenge the sufficiency of the Government's prima facie case. *See* (ECF No. 84) at 35–38. Both sets of defendants claim that these affirmative defenses preclude the entry of summary judgment as the Government has failed to rebut them. *See* (ECF No. 182) at 20–21; *see also* (ECF No. 204) at 19.

Although "[e]ntry of a summary judgment is improper when there is no evidence contradicting or opposing an affirmative defense," *Acciard v. Whitney*, No. 2:07-CV-00476-FTM-36, 2011 WL 4552564, at *5 (M.D. Fla. Sept. 30, 2011), merely labeling what is otherwise a denial of an element of plaintiff's prima facie case as an affirmative defense does not preclude the entry of summary judgment. *In re Rawson Food Service, Inc.*, 846 F.2d 1343, 1349 (11th Cir. 1988) ("A defense which points out a defect in the plaintiff's prima facie case is not an affirmative defense.").

In fact, "[t]he defending party must rely on or submit record evidence in support of the purported affirmative defenses to create a genuine issue of material fact preventing the entry of

summary judgment." *Meth Lab Cleanup, LLC v. Spaulding Decon, LLC*, No. 8:14-CV-3129-T-30TBM, 2015 WL 4496193, at *7 (M.D. Fla. July 23, 2015). A review of the Defendants' affirmative defenses reveals that only four of the thirty-two actually qualify as such—the Kendall Defendants' Eighth, Tenth, and Eleventh Affirmative Defenses and the Marder Defendants Twelfth Affirmative Defense—and are fully addressed by the Government's summary judgment motion.

Specifically, the Kendall Defendants' Tenth Affirmative Defense overlaps significantly with the Marder Defendants' Twelfth Affirmative Defense in that the Defendants' claim that their relationship surrounding the pathology services Medicare reimbursed fits within the bona fide employment exceptions of AKS and the Stark Act. Likewise, the Kendall Defendants' Eighth Affirmative Defense is based on the AKS's safe harbor provision. As the Court has already identified that there remains a question of fact on these issues, the Government is not entitled to summary judgment on Defendants' actual affirmative defenses that involve a safe harbor or bona fide employment exceptions. However, the Court finds no record support for the Kendall Defendants' in-office ancillary services affirmative defense to a potential Stark Act violation. Therefore, the Government is entitled to summary judgment as to that affirmative defense.

IV. Conclusion

The FCA was designed by Congress to ". . . encourage private citizens to help the executive branch deter and redress violations of federal law." Evan Carminker, *The Constitutionality of Qui Tam Actions*, 99 Yale L.J. 341, 344 (1989). Throughout its approximate 150 years of existence, the FCA has broadly expanded its scope to recover fraudulent gains from a variety of government contractors. No longer does the statute focus on solely protecting the

Government from purchasing "dying donkeys" or sand instead of sugar. *See United States ex rel. Newsham v. Lockheed Missiles & Space Co., Inc*., 722 F. Supp. 607, 609 (N.D. Cal. 1989) ("For sugar [the government] often got sand; for coffee, rye; for leather, something no better than brown paper; for sound horses and mules, spavined beasts and dying donkeys; and for serviceable muskets and pistols, the experimental failures of sanguine inventors, or the refuse of shops and foreign armories") (quoting Tomes, *Fortunes of War*, 29 Harper's Monthly Mag. 228 (1864)).

Since the passage of the Patient Protection and Affordable Care Act ("PPACA"), a new billion dollar battlefield has emerged with the FCA serving as a "potent weapon in the [G]overnment's . . . arsenal" to combat alleged health care fraud. *See* David L. Douglass, Esq. & Matthew M. Benov, Esq., *Healthcare Fraud Enforcement After Healthcare Reform (or "More. More. More. How Do You Like It? How Do You Like It?")*, 23 No. 6 Health Law. 35 (Aug. 2011) (discussing the evolution of the Government's approach to healthcare enforcement and fraud reduction). While the Government may have scored a minor victory here, the skirmish in this *qui tam* action is far from over. For the counts of the Intervenor's Complaint not resolved by this Order for which there remains a genuine issue of material fact—and for purposes of a damages calculation—the litigants must march forth to trial in order to reach a resolution for any claims triggered by Defendants' allegedly wrongful actions. Therefore, consistent with the Court's most recent scheduling Order, the jury trial on the remaining counts in this cause of action will be held on Monday, October 31, 2016 at 9:00 AM. All other pretrial deadlines remain in effect.

For the foregoing reasons, it is hereby ORDERED AND ADJUDGED that the Government's Motion for Summary Judgment (ECF No. 44) is GRANTED in PART and DENIED in PART.

DONE AND ORDERED in Chambers at Miami, Florida, this 23rd day of September, 2016.

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

Case No.: 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA
and the STATE OF FLORIDA, *ex rel.*
THEODORE A. SCHIFF, M.D.,

Plaintiffs,

vs.

GARY L. MARDER, D.O.; et al.

Defendants.

UNITED STATES' SUPPLEMENTAL BRIEF IN SUPPORT OF ITS MOTION FOR SUMMARY JUDGMENT ADDRESSING THE ISSUES RAISED IN UNIVERSAL HEALTH SERVICES

I. Introduction

On July 8, 2016 (ECF 242)[1], the Court instructed the Government to file a supplemental brief in support of its motion for summary judgment ("MSJ", ECF 146) addressing the "potential effects" of the Supreme Court's decision in *Universal Health Services, Inc. v. United States ex rel. Escobar*, 579 U.S. ---, 136 S. Ct. 1989 (June 16, 2016). As set forth below, the *Escobar* decision does not alter the conclusion that this Court should grant the government's motion for summary judgment.

II. The Supreme Court's Decision in *Escobar*

In *Escobar*, the Supreme Court unanimously held that liability under the False Claims Act, 31 U.S.C. § 3729 *et seq*., could be based upon an implied false certification theory. "When, as here, a defendant makes representations in submitting a claim but omits its violations of statutory, regulatory, or contractual requirements, those omissions can be a basis for liability if they render the defendant's representations misleading with respect to the goods or services

[1] The Court's order was dated July 7, 2016, but was entered in the FLSD Docket system on July 8, 2016.

provided." 136 S. Ct. at 1999. The Court expressly declined to address whether implied false certification liability can exist in other situations, even absent a misleading partial disclosure or half-truth. *Id.* at 2000 ("We need not resolve whether all claims for payment implicitly represent that the billing party is legally entitled to payment."). The Court also affirmed that the FCA materiality standard is the "natural tendency," and clarified the manner in which that test should be applied. *Id. at* 1995, 2002.

A. Misleading Half Truths or Omissions in the Claims for Payment Are False or Fraudulent Claims Under the FCA

The *Escobar* defendants provided federally funded mental health services using unqualified and unlicensed counselors. Their claims for payment consisted, in pertinent part, of valid Medicaid billing codes for the healthcare services furnished, but those claims did not disclose that those services were performed largely by unqualified and unlicensed healthcare personnel. Although nothing in the defendants' claims was *per se* false, the Court concluded that, in context, they were "misleading half-truths." *Id.* at 2001. "By using payment and other codes that conveyed this information without disclosing Arbour's many violations of basic staff and licensing requirements for mental health facilities, Universal Health's claims constituted misrepresentations." *Id.* at 2000-01.

Relying on the "well-settled meaning of common-law terms," the Court reasoned that "[b]ecause common-law fraud has long encompassed certain misrepresentations by omission, 'false or fraudulent claims' include more than just claims containing express falsehoods." *Id.at* 1999. The Court explained that the claims in *Escobar* fell "squarely within the rule that half-truths ... can be actionable misrepresentations." *Id.* at 2000 and n.3 *(citing* 3 D. Dobbs, P. Hayden, & H. Bublick, LAW OF TORTS §682, pp. 702-703, and n.14 (2d ed. 2011)). The Court also explained that "[t]his rule recurs throughout the common law. In tort law, for example, 'if the defendant does speak, he must disclose enough to prevent his words from being misleading.'" *Id. (citing* W. Keeton, D. Dobbs, R. Keeton, & D. Owen, PROSSER AND KEETON ON LAW OF TORTS § 106, p. 738 (5th ed. 1984)).

B. *Escobar* Materiality Discussion

The Supreme Court also reaffirmed that the "term 'material' means having a natural tendency to influence, or be capable of influencing, the payment or receipt of money or property." *Escobar*, 136 S. Ct. at 2002 (c*iting Neder v. United States*, 527 U.S. 1, 16 (1999) (as using this definition to interpret the mail, bank, and wire fraud statutes), and *Kungys v. United*

States, 485 U.S. 759, 770, (1988) (same for fraudulent statements to immigration officials)). The Court explained that the focus of this inquiry is "the effect on the likely or actual behavior of the recipient of the alleged misrepresentation." *Id.* (citing 26 R. Lord, Williston on Contracts § 69:12, p. 549 (4th ed. 2003) (Williston)). The Court further explained that this inquiry can be undertaken from either the perspective of a "reasonable person" or the particular defendant: a matter is material (1) if a reasonable person would attach importance to it in determining a choice of action in the transaction; or (2) if the defendant knew or had reason to know that the recipient of the representation attaches importance to the specific matter in determining a choice of action, regardless of whether a reasonable person would do so. *Id.*at 2002-2003 (*citing* Restatement (Second) of Torts § 538, at 80)).

The Supreme Court explained that in applying this standard, the label attached to a particular rule, regulation or contract term may be relevant, but is not determinative. Thus, the Court rejected the false dichotomy invoked by some courts between a so-called condition of participation and a condition of payment: "Section 3729(a)(1)(A) imposes liability on those who present 'false or fraudulent claims' but does not limit such claims to misrepresentations about express conditions of payment." *Id.* at 2001 (c*iting United States v. Science Applications Int'l Corp.*, 626 F.3d 1257, 1268 (D.C. Cir. 2010)); *see also Id.* at 2003 ("the Government's decision to expressly identify a provision as a condition of payment is relevant but not automatically dispositive"). Instead, the Supreme Court identified a variety of additional factors bearing on the materiality inquiry, including whether the violation is significant or "minor or insubstantial," *id.* at 2003, whether the violation goes to the "essence of the bargain," *id.* at 2003 n.5 (quoting *Junius Constr. Co. v. Cohen*, 257 N.Y. 393, 400 (1931)), and the actions the government took in this or other cases where the government had knowledge of similar violations, *id.* at 2003-2004. The Supreme Court in *Escobar*, therefore, makes clear that the materiality of a misrepresentation depends not on the specific label attached to the violation but rather the *capacity* of the violation to affect the government decision maker.

III. *Escobar* Supports a Finding of Liability

A. Defendants' Claims Are "False or Fraudulent"

Escobar held a claim could be "false or fraudulent" under the implied false certification theory where "the claim does not merely request payment, but also makes specific representations about the goods or services provided." 136 S. Ct. at 2001. That holding does not

govern this case for two reasons. First, many of the claims in the instant case involve affirmative misrepresentations, not half -truths. The majority of the claims at issue in the MSJ addressed blatantly false misrepresentations regarding *services not rendered* , purported provision of services supported by *fake, cloned* documentation, and services that were "upcoded," which disguised the fact some other lower cost service was actually rendered. MSJ at p.2. Examples of these claims include those that sought payment for (a) Medical Physicist services,[2] (b) Radiation Management services[3] and (c) radiation therapy using Linac Codes.[4] Because these claims were factually false or included factual misrepresentations on their face, the question of whether they were half-truths due to the defendant's *failure to disclose* its noncompliance with a statutory, regulatory, or contractual requirement is irrelevant. *See Escobar*, 136 S. Ct. at 1999 (recognizing the difference between an implicitly false claim and "claims containing express falsehoods").

Second, to the extent the claims at issue here contain implied false certifications, they would be governed by existing Eleventh Circuit precedent that was not overruled by *Escobar*. In particular, the Supreme Court left open the possibility that a claim could be "false or fraudulent" even if it "merely request[ed] payment." 136 S. Ct. at 2000. In leaving that door open, *Escobar* left intact existing Eleventh Circuit case-law finding a claim can be "false or fraudulent" without imposing the additional requirement of a representation about the goods or services provided. For example, in *McNutt v. Haleyville Medical Supplies, Inc.*, 423 F.3d 1256, 1259-60 (11th Cir. 2005), the Court held that the government alleged a valid claim based upon the defendant's violation of the Anti-Kickback Statute ("AKS"), 42 U.S.C. § 1320a-7b(b)(1) and (2), because compliance with the Statute was necessary for reimbursement under the Medicare program. *Id.* at 1260. *See also U.S. ex rel. Keeler v. Eisai, Inc.*, 568 Fed. Appx. 783, 799 (11th Cir. 2014); *United States v. Health Mgmt. Assocs.*, 591 F. App'x 693, 705 (11th Cir. 2014); *United States ex*

[2] CPT Code 77336. MSJ, p 9- 12; US Statement of Facts (ECT 147)("SOF"), ¶¶57-61 and ¶¶77-98.

[3] CPT codes 77261, 77300, 77280, 77332, 77334, 77336, or 77427. MSJ, p 9- 12; SOF, ¶¶57-61, SOF, ¶¶77-98.

[4] (CPT Codes 77402, 77407 and 77412. MSJ, p. 4 8, 13, SOF, ¶¶16-25, 48-49, 99-102.

rel. Freedman v. Suarez-Hoyos, 781 F. Supp. 2d 1270, 1278-79 (M.D. Fla. 2011).[5] Moreover, since defendants failed to argue their claims were not "false or fraudulent" for this reason, either at the pleadings stage or in their opposition to the summary judgment motion, *see* Motions to Dismiss (ECF 50 and 51) and Responses to the MSJ (ECF 182 and 204), they should not be permitted to do so now.

In any event, even analyzed under the rubric of *Escobar*, the claims alleged here are precisely the sort of "half-truths" that gives rise to FCA liability. In particular, the claims at issue use the very sort of coding that *Escobar* found to constitute "specific representations about the goods or services provided." 136 S. Ct. at 2001. These claims bore CPT codes designated for radiation related services, office visits, biopsies and related services, and pathology procedures. MSJ at p. 3-4, 8-9, 12, 16-21; SOF 44. "[B]y submitting codes that corresponded to specific [medical] services, [the defendant] represented that it had provided [certain] treatment," "[a]nd these representations were clearly misleading, in context" because they "conveyed this information without disclosing [defendant's] many violations of [regulatory] requirements …." *Escobar*, 136 S. Ct. at 2000.

The misleading nature of defendants' claims is illustrated by their use of CPT codes in the 77xxx series for services related to high-energy radiation treatment. Anyone informed that defendants claimed to have provided such treatments would "probably--but wrongly--conclude" that (1) the high-energy radiation service was actually provided; (2) the service was provided with the necessary level of supervision from a licensed physician; and (3) the service was prescribed by a licensed physician based upon an exercise of professional judgment regarding the particular cancerous lesion afflicting that patient. Thus, the claims at issue here are, at a minimum, the very sort of "half-truths" *Escobar* concluded were "false or fraudulent" under the FCA.

B. The Misrepresentations at Issue Are Material

Escobar reaffirmed that, under the FCA, "term 'material' means having a natural tendency to influence, or be capable of influencing, the payment or receipt of money or

[5] In such circumstances, such a "specific representation: may exist, but the Eleventh Circuit recognized the validity of the theory without imposing such a requirement.

property." 136 S. Ct. at 2002; *U.S. ex rel. Matheny v. Medco Health Sols., Inc.*, 671 F.3d 1217, 1228–29 (11th Cir. 2012) (citing *Neder*, 527 U.S. at 16). See *United States v. All Children's Health Sys., Inc.*, No. 8:11-CV-01687-T-27, 2013 WL 6054803, at *8 (M.D. Fla. Nov. 15, 2013) (same); *U.S. ex rel. Bibby v. Wells Fargo Bank, N.A.*, 906 F. Supp. 2d 1288, 1303 (N.D. Ga. 2012) (same). Here, the defendants' violations include claims that: (1) sought payment for services not provided, (2) sought payment for a more expensive procedure that was not provided, *i.e.*, "upcoded," (3) sought payment for services tainted by an improper inducement, (4) sought payment for services that were provided without adequate supervision, and (5) sought payment for services that were not documented. Each of these violations go to the core nature of the services the Government thought it was paying for and were therefore material.

No reasonable person would pay for services that were not rendered. Nor would a reasonable person pay an inflated price for a higher level of service than what was actually provided. *See Hill v. Morehouse Med. Associates, Inc.*, No. 02-14429, 2003 WL 22019936, at *1-2 (11th Cir. Aug. 15, 2003) (claims to Medicare using more expensive CPT billing codes when less expensive ones would have sufficed, altering diagnosis codes, using inappropriate and more expensive diagnosis codes, and billing visits unsupervised by physicians as if physicians were present, was sufficiently pleaded as a False Claims Act violation). Here, for instance, the reimbursement rate for the service defendants actually provided (CPT Code 77401) was between $19.51 and $26.03 per treatment while, for the same period, the reimbursement rates for the service the defendants falsely claim they provided (CPT Codes 77402, 77407, and 77412) were as high as $249.59. SOF 23. This nearly tenfold difference in reimbursement rates would be significant to any reasonable person and thus material.

Likewise, defendants' omission of information regarding their noncompliance with Federal statutes prohibiting the acceptance of kickbacks in connection with provision of medical services is also material. The AKS and the Stark Law both include language that establishes congressional intent that compliance therewith is material. The AKS makes it a felony to offer kickbacks or other payments in exchange for referring patients "for the furnishing of any item or service for which payment may be made in whole or in part under a Federal health care program." 42 U.S.C. § 1320a–7b(b)(2)(A). Further, the AKS states that a claim that includes items or services resulting from its violation constitutes a false or fraudulent claim for purposes of … [the FCA]." 42 U.S.C. § 1320a-7b(g). The Stark Law expressly prohibits the presentation

or payment of claims for any services referred in violation of its provisions. 42 U.S.C. §§ 1395nn(a)(1), (g)(1). The undisputed and well-established laws, regulations, and guidance about the AKS and Stark Law, along with their label as a condition of payment, are very strong evidence of their materiality. Compliance with the AKS and the Stark Law go to the essence of the claims by ensuring that a patient receives a particular service because he or she needs it, and not because a doctor benefits financially for providing it. *McNutt*, 423 F.3d at 1259.

Lastly, here, the kickbacks were neither minor nor insignificant, and had a value of at least $1.3 million. MSJ, p. 18, SOF, ¶¶165. As was the case with representations for services not rendered and inflated billing codes, no reasonable person could conclude such significant kickbacks were not material to the government's payment decision. See *McNutt*, 423 F.3d at 1260 (Compliance with the AKS "is necessary for reimbursement under the Medicare program; and the [defendants] submitted claims for reimbursement knowing that they were ineligible for the payments demanded in those claims.").

The fourth category of violations, Defendants' omission of information regarding noncompliance with critical Medicare requirements that require that services rendered to a Medicare beneficiary be directly and personally supervised by a physician who is in the office and immediately available is also material. SOF, ¶14 and App. C, ¶14 and Ex. C9 (ECF 148-6, p. 9). Given the self-evident danger and complexity of irradiating a human being to cure cancer, direct supervision by a doctor would be important to any reasonable person. The materiality of these requirements is further reinforced by related rules dictating that in the physician's absence no payment at all can be made, with the one exception being when specialized, highly trained personnel known as *non-physician practitioners* (NPPs) are in the office, but even then the reimbursement is cut to 85 percent of the physician fee schedule. *See U.S. v. R&F Properties of Lake County, Inc.*, 433 F.3d 1349, 1356 (11th Cir. 2005) (with respect to claims submitted without the required physician supervision, the Court notes that Medicare claims may be false if they claim reimbursement for services that are not reimbursable or not rendered as claimed); MSJ, p. 8-9.

Here, Marder did not just fail to supervise the radiation or other services on an occasional basis. The undisputed evidence established that he was only physically present in his satellite office once every two weeks even though radiation was administered every day. Even in his main office, he normally worked only on Monday and Wednesday, and also took off most of

July and December each year. SOF, ¶¶39-43. Indeed, on at least one occasion, Marder billed for radiation treatments he was ostensibly "supervising" when he was halfway across the world in Israel for an entire month (claiming to be receiving medical treatment for his own illness) with no other physician having ever stepped foot in his offices while he was gone. SOF, 41 App. H, ¶19; App. I, ¶39 and Ex. I26. Despite his extensive absences, every single claim that he ever billed was in his own name thereby representing that he was in the office. SOF, ¶178.

The last category of violations, defendants failure to disclose their violation of Medicare regulations that require providers to maintain records containing sufficient information to determine whether payment is due and the amount to be paid, 42 USC 1395l(e); 42 USC 1395g(a); 42 CFR § 424.5(a)(6), is likewise material. These directly impact the care provided to the patient, and a reasonable person would understand their importance. For instance, such records would be necessary for a patient who has a recurrence of cancer near an area previously treated. SOF 102-103. Here, such a patient would be seriously disadvantaged because the documentation was not just deficient in an inconsequential manner, but absent in its entirety. Indeed, the undisputed evidence was that no genuine documentation of the radiation prescription or other management services existed at all. The only documents that did exist were faked and contradictory. SOF, ¶¶77-98. Thus, both a reasonable person, as well as the defendant, would find the violation of these Medicare regulations by the defendant to be material.

Finally, defendants cannot credibly claim they did not know each of these violations were material. As an initial matter, Department of Health and Human Services has repeatedly advised health care providers for many years, both in formal and informal guidance as well as enforcement actions, of the centrality of the adhering to its regulations in general and the AKS and Stark Law in particular. Any provider that participates in federal health care programs knows or should have known of the centrality of the AKS and the Stark Law. Indeed, the defendants themselves had to acknowledge that fact when they signed multiple Medicare enrollment applications. SOF 7-8. Moreover, given the importance of each of these violations to the nature of the services the Government thought it was paying for, "a defendant's failure to appreciate the materiality of that condition would amount to 'deliberate ignorance' or 'reckless disregard' of the 'truth or falsity of the information' even if the Government did not spell this out." *Escobar*, 136 S. Ct. at 2002 (quotation marks in original).

IV. Conclusion

For the foregoing reasons, plaintiff respectfully submits that the Supreme Court's decision in *Escobar* reaffirms that the Court should grant plaintiff's motion for summary judgement.

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

Case No. 16-20471-CR-ALTONAGA

UNITED STATES OF AMERICA

vs.

MICHAEL BAHRAMI,

Defendant.
_____/

GOVERNMENT'S TRIAL BRIEF

The United States of America, through undersigned counsel, submits this trial brief for purposes of summarizing certain legal and factual issues it believes will be relevant for the upcoming trial in this case, which is scheduled to begin on January 17, 2017.

I. Facts to Be Presented At Trial

The Government submits that the evidence at trial will establish the following facts:

Defendant MICHAEL BAHRAMI (the "Defendant"), a medical doctor, conspired to defraud the United States and to receive kickbacks in exchange for referring patients for purported home health services that often were not medically necessary and/or were not provided. The conspiracy lasted from at least 2006 until at least 2011, and the referrals were made to a series of home health agencies ("HHAs") that were owned and/or managed by the Defendant's co-conspirators. Those HHAs were Willsand Home Health Agency, Inc. ("Willsand"), JEM Home Health Care, LLC ("JEM"), and Healthy Choice Home Health Services ("Healthy Choice). In total, the Defendant and his co-conspirators caused Medicare to pay more than $500,000 in claims that were based on referrals procured by the payment of kickbacks to the Defendant.

Home health care generally consists of services provided to Medicare beneficiaries who are confined to the home, i.e. are "homebound." If a patient is homebound, Medicare will cover a

variety of services, including physical therapy, skilled nursing care, home health aide services, and occupational therapy. For an agency to bill for home health therapy, it must develop a plan of care ("POC") with a physician who is overseeing the care of the patient.

The conspiracy charged in the Indictment began at Willsand, which was owned by Eulises Escalona. In 2005, Khaled Elbeblawy began working at Willsand. Soon thereafter, Mr. Escalona put Mr. Elbeblawy in charge of paying illegal bribes and kickbacks to doctors, patient recruiters, and staffing companies. Specifically, Mr. Elbeblawy personally paid cash kickbacks to doctors, including the Defendant, Jose Avila and Kansky Delisma, in exchange for patient referrals and the doctors' signatures on POCs and other medical records authorizing treatment that was not medically necessary and/or not provided. The Defendant joined the conspiracy in 2006, when Mr. Elbeblawy began paying the Defendant bribes and kickbacks in exchange for referrals to Willsand.

As Willsand grew, Mr. Elbeblawy and Mr. Escalona decided to expand the fraud and jointly purchased JEM, another HHA, in approximately 2007. Mr. Elbeblawy and Mr. Escalona ran the fraud in the same way at JEM as they had at Willsand. At the time, the Defendant was working in the same building as JEM, and Mr. Elbeblawy paid him bribes and kickbacks in exchange for referrals to both JEM and Willsand. In approximately 2009, Mr. Elbeblawy and Mr. Escalona had a falling out, and Mr. Elbeblawy took sole control of JEM.

Once Mr. Elbeblawy took control of JEM, he continued to run the fraud as he had with Mr. Escalona. He continued to pay kickbacks to the Defendant, and others, and JEM continued to bill Medicare for treatment that was not medically necessary, not provided, and/or procured by the payment of kickbacks.

In or about 2009, Medicare suspended JEM's status as a Medicare provider on suspicion of fraud. As Mr. Elbeblawy could no longer use JEM to bill Medicare, he and his then-wife,

Cynthia Vilches bought Healthy Choice, a third HHA, where he continued to run the exact same fraud scheme, including paying the Defendant kickbacks and bribes in exchange for patient referrals.

From January 2006 until May 2013, Willsand, JEM, and Health Choice submitted more than $56 million in claims to Medicare. Medicare paid more than $40 million based on these claims. During the pendency of the conspiracy, Medicare paid Willsand, JEM, and Healthy Choice more than $500,000 based on referrals made by the Defendant, which were procured by the payment of kickbacks and bribes.

The evidence to be presented at trial includes the testimony of the Defendant's co-conspirators, including Mr. Escalona, Ms. Vilches, Mr. Delisma and Mr. Avila. The United States will also introduce documents and other exhibits to corroborate the co-conspirator testimony, including bank records, Medicare claims data, and logs obtained from the home health agencies recording patient referrals from the Defendant. The United States will also introduce video recordings containing conversations between Mr. Elbeblawy and Defendant in which the Defendant agreed to accept money from Mr. Elbeblawy in exchange for patient referrals, and a video recording of Defendant's post-arrest statements, in which that the Defendant admits that Mr. Elbeblawy offered him kickbacks and admits to accepting kickbacks from others in the past, despite knowing it was wrong to do so.

II. Anticipated Legal Issues

A. The Defendant Should Be Precluded from Presenting Evidence of "Good Conduct" to Defeat the Charges in the Indictment

The United States expects that the Defendant intends to elicit testimony about patients the Defendant referred without soliciting or receiving kickbacks, patients for whom medically necessary treatment was ordered, and/or patients for whom services were actually provided.

The Eleventh Circuit has stated that evidence that a defendant engaged in legal, honest conduct some of the time is simply irrelevant to the question of whether the defendant engaged in, and/or had knowledge of, the charged fraud, because "evidence of good conduct is not admissible to negate fraudulent intent." *United States v. Ellisor*, 522 F.3d 1255, 1270 (11th Cir. 2008) (quoting *United States v. Camejo*, 929 F.2d 610, 613 (11th Cir. 1991)); *see also United States v. Grimm*, 568 F.2d 1136, 1138 (5th Cir. 1978) ("Evidence of noncriminal conduct to negate the inference of criminal conduct is generally irrelevant"); *United States v. Walker*, 191 F.3d 326, 336 (2d Cir. 1999) (whether the defendant "had prepared other, non-fraudulent [immigration] applications was simply irrelevant to whether the applications charged as false statements were fraudulent"); *United States v. Scarpa*, 897 F.2d 63, 70 (2d Cir. 1990) ("A defendant may not seek to establish his innocence . . . through proof of the absence of criminal acts on specific occasions.").

The Eleventh Circuit in *Ellisor* – a mail fraud case involving a scheme to promote and sell tickets for a Christmas show that never took place – affirmed the district court's ruling precluding the defendant from offering evidence that he had produced actual shows in the past to negate his fraudulent intent. *Ellisor*, 522 F.3d at 1259-62, 1270-71. Specifically, the Eleventh Circuit ruled these specific acts of "good character" were inadmissible under Federal Rules of Evidence 404(b) and 405(b). *Id*. at 1270-71.

Ellisor cites to *United States v. Marrero*, a false claims case involving overbilling and billing for services not rendered by a psychologist. *Ellisor*, 522 F.3d at 1270-71 and n. 21 (citing *Marrero*, 904 F.2d 251, 254-56 (5th Cir. 1990)). In *Marrero*, the Fifth Circuit precluded the psychologist from entering evidence of her legitimate billings. The court noted that "[t]he fact that [the defendant] did not overcharge in every instance in which she had the opportunity to do so is not relevant to whether she, in fact, overcharged as alleged in the indictment." *Id.* at 260. The

court also excluded as irrelevant a survey of all of the defendant's patients, which purportedly showed that seventy-seven out of the ninety-nine responding patients attested that her office's bills were accurate. *Id.* (citing *Grimm*, 568 F.2d at 1138).

Here, the Indictment alleges a conspiracy to receive kickbacks. Thus, at issue are the payment and receipt of kickbacks underlying the conspiracy, as well as the fraudulent billings that served as the impetus for the conspirators to pay and receive kickbacks. At trial the government will introduce evidence to establish the general falsity of billings and treatments and the payments of specific kickbacks. In response, the Defendant is free to attack the accuracy of the government's allegations regarding the falsity of those billings and treatments and the existence of the kickbacks. However, whether the Defendant also referred patients that resulted in the submission of true billings or did not receive kickbacks on certain occasions are inadmissible.

B. The Court Should Preclude Any Evidence Statements, Commentary, and Arguments Related to Shifting Blame to the Victim.

Evidence that Medicare failed to take adequate precautions to insulate itself from fraud, waste and abuse is not admissible. It is well-established that the negligence of the victim in failing to discover a fraudulent scheme is not a defense to the defendant's criminal misconduct. "A perpetrator of fraud is no less guilty of fraud because his victim is also guilty of negligence." *United States v. Svete*, 556 F.3d 1157, 1165 (11th Cir. 2009); *see also United States v. Coyle*, 63 F.3d 1239, 1244 (3d Cir. 1995) (negligence of victim in failing to discover a fraudulent scheme is not a defense to criminal conduct).

Indeed, "a victim of fraud need not "exercise the care of a reasonable man for his own protection." *Svete*, 556 F.3d at 1164. In *Svete*, the Eleventh Circuit, sitting *en banc*, explained, "whatever role, if any, a victim's negligence plays as a bar to civil recovery, it makes little sense

as a defense under a criminal statute that embraces '*any* scheme or artifice to defraud.'"[1] *Id.* at 1165. Therefore, the Defendant cannot point at Medicare's failure or inability to discover the crime as an excuse for his own conduct.

C. Summary Testimony

Towards the end of its case-in-chief, the government intends to offer a number of summary exhibits pursuant to Federal Rule of Evidence 1006. For example, the government will introduce summaries of the Medicare claims made by Willsand, JEM, and Healthy Choice with the Defendant listed as the referring physician.[2] It will also offer summary exhibits of financial transactions in bank accounts controlled by the Defendant, Willsand, JEM and Healthy Choice. Additionally, the government intends to elicit brief summary testimony related to evidence previously admitted in order to provide context for the summary exhibits. Because such testimony would be helpful to the jury in determining the truth, such testimony should be permitted.

Such testimony is authorized under Federal Rule of Evidence 611(a), which allows a court to "exercise reasonable control over the mode . . . of presenting evidence so as to . . . make the . . . presentation effective for the ascertainment of the truth." FED. R. EVID. 611(a). Particularly for

[1] "Any scheme or artifice to defraud" is part of the health care fraud statute, 18 U.S.C. §1347, which is modeled after the mail, bank and wire fraud statutes. *United States v. Mermelstein*, 487 F. Supp. 2d 242, 254 n.2 (E.D.N.Y. 2007) ("The health care fraud statute is modeled after the bank fraud statute, 18 U.S.C. § 1344, and the bank fraud statute was modeled after the federal mail and wire fraud statutes, §§ 1341 and 1343.").

[2] Rule 1006 permits the government to "use a summary, chart, or calculation to prove the content of voluminous writings, recordings, or photographs that cannot be conveniently examined in court," provided the originals or duplicates are available for inspection and admissible. FED. R. EVID. 1006. Although the government intends to offer many of the underlying voluminous documents into evidence for the jury's inspection, such admission is not necessary so long as the materials or documents are admissible. *Peat, Inc. v. Vanguard Research, Inc.*, 378 F.3d 1154, 1160 (11th Cir. 2004). Similarly, the admission of such evidence does not preclude the use of summary exhibits; "[t]he fact that the underlying documents are already in evidence does not mean that they can be 'conveniently examined in court.'" *United States v. Milkiewicz*, 470 F.3d 390, 397 (1st Cir. 2006).

complex cases, courts generally allow the government to offer such limited summary testimony. *See e.g.*, *United States v. Armstrong*, 619 F.3d 380, 385 (5th Cir. 2010); *United States v. Whitfield*, 590 F.3d 325, 364 (5th Cir. 2009); *United States v. Ollison*, 555 F.3d 152, 162 (5th Cir. 2009); *United States v. Pree*, 408 F.3d 855, 868 (7th Cir. 2005); *United States v. Johnson*, 54 F.3d 1150, 1161 (4th Cir. 1995). The admission of such testimony pursuant to Rule 611(a) is particularly appropriate during more complex cases where juror confusion may result from a large number of exhibits and/or witnesses. *See United States v. Ray*, 370 F.3d 1039, 1046–47 (10th Cir. 2004), *vacated on other grounds*, 125 S. Ct. 995 (2005); *United States v. Scales*, 594 F.2d 558, 562 (6th Cir. 1979).

When summary testimony is given, the evidence being summarized has already been admitted at trial via exhibits or prior witness testimony. *See e.g.*, *United States v. Bishop*, 264 F.3d 535, 547 (5th Cir. 2001); *United States v. Shirley*, 884 F.2d 1130, 1133 (9th Cir. 1989); *United States v. Lemire*, 720 F.2d 1327, 1347 (D.C. Cir. 1983). In this case, such admitted "evidence—involving numerous witnesses, technical testimony, and scores of exhibits—has sufficient complexity to justify use of a summary witness." *Armstrong*, 619 F.3d at 385 (affirming use of summary witness in insurance fraud trial); *see also United States v. Echols*, 574 F. App'x 350, 356 (5th Cir. 2014) (affirming use of summary testimony in Medicare fraud trial based on fact that "case had complexity because it involved multiple billings for numerous patients over years"). Such summary testimony will serve the jurors as an essential "aid to put the myriad of complex and intricate pieces of testimonial and documentary evidence comprising the puzzle together." *United States v. Winn*, 948 F.2d 145, 157 (5th Cir. 1991). Allowing such summary testimony in this case will promote the interests of the public and the parties in the efficient ascertainment of truth. Additionally, the government requests that at the time summary testimony or charts are

offered, the court give a contemporaneous instruction to the jury on the nature of summaries. *See United States v. Whitfield*, 590 F.3d 325, 365 & n.29 (5th Cir. 2009) (noting, approvingly, that district court gave instruction that "'[c]harts and summaries are valid only to the extent that they accurately reflect the underlying supporting evidence'"). The government has proposed such an instruction, which is attached as Exhibit A.

EXHIBIT A

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

Case No. 16-20471-CR-ALTONAGA

UNITED STATES OF AMERICA

vs.

MICHAEL BAHRAMI,

Defendant.
_____/

GOVERNMENT'S PROPOSED JURY INSTRUCTION REGARDING THE USE OF SUMMARY EVIDENCE

The government has presented exhibits in the form of charts and summaries. I have decided to admit these charts and summaries in addition to or in lieu of the underlying documents that they represent in order to save time and avoid unnecessary inconvenience. These charts and summaries do not constitute any findings by the court. You should consider these charts and summaries as you would any other evidence. It is for you to decide whether the charts, schedule or summaries correctly present the information contained in the testimony and in the exhibits upon which they are based. You are entitled to consider the charts, schedule and summaries if you find that they are of assistance to you in analyzing and understanding the evidence. You are to make the ultimate decision as to what weight, if any, should be given to the evidence.
