Thereupon:

Gary Marder, D.O.,

was called as a witness by the United States of America, and after being first duly sworn, was examined and testified under oath as follows:

MR. LAVINE: Jed, you want to state an appearance, on the phone?

MR. DWYER: Yeah, this is Jed Dwyer for Dr. Kendall and Kendall Medical Laboratories, appearing by telephone.

MS. ARANGO: Are you going to -- you can't conference in there, can you?

MR. LAVINE: No, we had a failure on trying to do a conference call, do you want to call Jack on your cell?

MS. ARANGO: Yeah.

MR. LAVINE: Do you mind if I do the basic intro.

MS. ARANGO: No, go right ahead.

DIRECT EXAMINATION

BY MR. LAVINE:

Q. Just a couple of ground rules on taking the deposition. I think it'll be fairly straightforward today because of the

position you're in, but --

A. Thank you.

Q. -- the more we can avoid speaking at the same time, the easier it is on the court reporter. So even though you know what you're going to say in response to my question before I'm done, the better you can do at waiting until I'm finished, the easier it will be, and then we can both avoid repeating ourself and help the court reporter come up with a better record.

A. Okay.

Q. Responses need to be verbal. Shaking the head or uh-huh or nu-huh --

A. (Witness shakes head.) Okay.

Q. -- don't transcribe well.

If you need to take a break, just say so, we can take a break.

If you don't understand a question I ask, just say so and I'll rephrase it, but otherwise I'll assume that you do understand it.

I don't know if that's going to come into play too much today or not.

Is there any reason why you wouldn't

be able to understand any of my questions today?

A. No.

Q. No medications or anything that would create a problem?

A. No.

Q. And you understand that you're answering these questions under oath and under penalty of perjury, right?

A. Yes.

Q. So you are now and have always been the hundred percent owner of Allergy, Dermatology, and Skin Care Center since it was first incorporated in 1998, right?

A. Skin Cancer Center, yes.

Q. And you have practiced medicine exclusively through -- well, can we call it ADSCC?

A. Sure.

Q. You've practiced medicine exclusively through ADSCC since at least 2008?

A. Yes.

Q. And ADSCC has its primary offices in Port St. Lucie and its satellite in Okeechobee?

A. Yes.
Q. And you're the only physician who has ever rendered medical care to patients at either of those locations of ADSCC?
A. Yes.
Q. You're the only person who has ever controlled the operation of ADSCC?
A. Yes.
Q. You're the only person who ever made final decisions on whether or not to hire somebody to work at ADSCC?
A. My office manager also does that.
Q. But am I correct, then, you're the only person who ever made a final decision on whether or not to hire a non-physician practitioner, such as an advanced registered nurse practitioner or a physician assistant?
A. My office manager also interviews them and --
Q. But you're the only person that makes the final decision on yes or no as to whether to hire a particular nurse practitioner or physician assistant?
A. Yes.
Q. So you were added as a participating

provider with Medicare in 1998, right?
A. No, earlier than that, I thought. I thought earlier than that.
Q. Well, since at least 1988 you were participating in Medicare?
A. Yes.
Q. And from that time forward you've been submitting claims to the Medicare program?
A. Yes.
Q. And as part of the process of participating in the Medicare program, you provided an application that you signed --
A. Yes.
Q. -- and sent to them?
A. Yes.
Q. In 2013 you revalidated your enrollment in Medicare, right?
A. Yes.
Q. Okay. When you signed the application, originally and in 2013, you signed and certified a statement that you would abide by all of the Medicare laws and regulations and program and instructions that applied to you.

A. Yes.
Q. The statement that you signed also said that you understand that the payment of a claim by Medicare is conditioned upon the underlying transaction complying with such laws, regulations, and program instructions?
A. Yes.
Q. And the statement also pointed out that that includes the Federal Anti-Kickback Statute and the Stark Law?
A. Yes.
Q. You also certified on the applications that you will not knowingly present or cause to be presented any false or fraudulent claim for payment by Medicare and that you will not submit any claim with deliberate ignorance or reckless disregard of their truth or falsity.
A. Yes.
Q. You've also submitted claims to the Tricare program using your provider identification number from at least 2008 through the present.
A. I am not an active Tricare provider.
Q. But you've submitted claims to the

Tricare program, though, right?

A. Yes.

Q. Okay. And in general, since at least 2008, you directly or through ADSCC have routinely submitted claims to numerous insurance companies, including Medicaid, Medicare, Tricare, federal employee group health plans, and other private insurance companies, right?

A. Yes.

Q. And you understand in business in general that those companies that pay for those claims are often referred to as third-party payors, right?

A. Yes.

Q. And you've understood since at least 2008 that Medicare, Medicaid, Tricare, were all publically funded health care programs, right?

A. Yes.

Q. And you've understood since at least 2008 that health insurance offered to federal employees were publically funded health care programs?

A. Yes.

Q. And since at least 2008, you're the only person who ever made the final decision on the manner in which any claim for insurance reimbursement would be made on behalf of ADSCC?

A. Respectfully, on advise of counsel, I assert my Fifth Amendment right.

Q. You've personally reviewed and approved every claim for medical care rendered to any patient of ADSCC before they were submitted for payment to any third-party payor?

A. Respectfully, on advice of counsel, I assert my Fifth Amendment right.

Q. ADSCC, with your approval, sought and received a separate identification number to indicate whether services that were being billed to Medicare or being rendered in your Okeechobee office, but you've never used that number?

A. Respectfully, on advice of counsel, I assert my Fifth Amendment right.

Q. You knew that failing to use that number, that would indicate the services were being rendered in the Okeechobee office, would

make it more difficult to determine where the place of service of those claims was?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You were the only person who ever made the final decision on whether or not to submit a claim to any third-party payor?

A. Respectfully, on advice of counsel, I assert my Fifth Amendment right.

Q. You were the only person who ever made the final decision on exactly what was billed on a claim?

A. Respectfully, on advice of counsel, I assert my Fifth Amendment right.

Q. Not a single claim for medical care was ever submitted for payment by ADSCC without having first been reviewed and approved by you.

A. Respectfully, on advice of counsel, I assert my Fifth Amendment right.

Q. If you weren't in the office, any services that were not yet billed were saved to await your return.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Those unbilled services would be placed in a bin or in what you called the library for you to review and approval on your return.

A. Respectfully, on advice of counsel, I assert my Fifth Amendment right.

Q. If records that had not yet been billed, collected, during the course of a vacation, you would sometimes have your driver pick up the entire bin of medical records and bring it to you at home so you could review and approve their billing personally.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. No claims would be submitted to billing personnel for processing and submission to any third-party payor until you had reviewed and proved it.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

MR. DWYAR: Mark, I apologize, but can you -- I cannot fully hear the answers, can you move the phone over?

MR. LAVINE: Yeah, the wire is a little short, but if we can get you to

hear one time I think you'll know -- it's -- yeah, I'm going to tilt it and move it as much as I can and let's hope that works.

BY MR. LAVINE:

Q. Since at least 2008, the normal schedule for your office in Port St. Lucie for rendering care to patients was for it to be open Monday to Friday from 9:00 to 5:00, is that right?

A. 9:00 to 6:00.

Q. However, since at least 2008, your normal schedule for you to be personally present in the office at Port St. Lucie was only on Monday and Wednesday from around 10:30 until the close of business.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And your main office in Port St. Lucie has always been about 40 miles away from your satellite office in Okeechobee, right?

A. Yes.

Q. And since at least 2008, the normal operating hours for your office in Okeechobee for rendering care to patients was Monday to

Friday beginning at around 9 o'clock and continuing until all patient care was completed around noon.

I can break that up if it's --

A. The office hours started anywhere between 8:00 and 8:30.

Q. So the normal schedule for your office in Okeechobee was to be open Monday to Friday between 8:00 and 8:30 to administer radiation to those patients who were in that area, in that office?

A. Right.

Q. And it stayed open until all the radiation treatments were completed?

A. Correct.

Q. And then once every two weeks, normally on a Tuesday, you personally would be present in the office in Okeechobee to see patients.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And your schedule to be in Okeechobee only once every two weeks has been that way since at least 2008, right?

A. Respectfully, on the advice of

counsel, I assert my Fifth Amendment right.

Q. You've also done a lot of traveling, both international and domestic, since 2008, haven't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. In fact, since 2008 you've been out of the country on over 250 days for international travel, is that right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And, of course, on all the days you were traveling, whether domestic or international, you were unable to and did not personally appear in either office of ADSCC in either Port St. Lucie or Okeechobee to render care to patients.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And while you were absent from the office, whether because it wasn't normal work hours or you were out of the country or traveling, you directed your employees to continue operations at both locations, in the Port St. Lucie and in Okeechobee?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And in particular, you knew that the ARNPs and PAs were administering radiation to patients, regardless of whether you were present in the office or not?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You've actually known for many years about the state rule addressing whether ARNPs or PAs could render radiation treatments without having a separate license as a radiation therapist.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And you knew that under state law ARNPs or PAs could render radiation treatments without having to get a separate license only if they were supervised by a radiation oncologist?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And you're not a radiation oncologist, are you?

A. Respectfully, on the advice of

counsel, I assert my Fifth Amendment right.

Q. And also, you knew the question of whether an ARNP or PA needed a separate license as a radiation therapist under state law was totally unrelated to the question of whether you could bill Medicare for radiation that had been administered by an ARNP or PA.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And since 2008, you have been aware of the Medicare rule for billing for radiation treatments performed by ARNPs or PAs, haven't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Particularly, you've known that since at least 1990, Medicare has required the direct personal supervision by the physician of any radiation treatments being performed by ARNPs or PAs.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You've also known that since at least 1990, Medicare has defined direct personal supervision of a physician means that,

although the physician need not be in the same room, the physician must be in the same area and immediately available to provide assistance and direction throughout the time the procedure is being performed.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Since at least 2008, the work performed by your employees when you were not personally in the office was done at your direction with your knowledge and approval.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Since at least 2008, you've also known that even if your ARNPs or PAs were performing services for which you didn't need to be in the office, that those services should still be billed under the NPI of the ARNP or PA performing the service, not under your NPI?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And you've known, since at least 2008, haven't you, that Medicare would only pay 85 percent of the amount they would pay if

you were in that office as compared to if you weren't in the office and you billed properly under the NPI of the ARNP or PA?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right that.

Q. And you knew that 15 percent reduction would, at a minimum. Apply to all the biopsies and office visits performed while you were absent.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And you also knew that if you had billed under the NPI of your ARNPs or PAs for the biopsies and office visits, you could reveal that you weren't in the office.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. One of the reasons you didn't bill under the NPI of your ARNP or PA for the biopsies and other office visits when you weren't in the office was that you feared that it would reveal that you weren't in the office and then all of the radiation claims would also be denied.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. So as part of your scheme, in order for you to help hide your absence from the office, you decided you would not bill under the NPI of your ARNPs or PAs, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And to date, even after this litigation commenced against you, you still aren't billing under the NPIs of your ARNPs or PAs?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Switching subjects. Even though you had complete cover over the hiring of personnel for ADSCC, you purposely hired employees to handle your billing that had no relevant experience, didn't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You've never hired any billing employee that had any experience in the claims submissions process, Medicare rule, Tricare rules, or medical coding, have you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Even though you had complete control over ADSCC, you never sent any of your employees to any kind of training of any type regarding the claims submission process, Medicare rules, Tricare rules, or medical coding, did you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

MR. LAVINE: Jackie, I'd ask if there is some evidence of employees having been sent for training, we be provided with that.

MS. ARANGO: Okay.

MR. LAVINE: I've definitely asked for that in the past.

BY MR. LAVINE:

Q. So your purpose in hiring employees with no relevant knowledge of these areas was to make it easier for you to direct them to submit claims the way you wanted to do it, without having to worry about them raising any objection, wasn't it?

A. Respectfully, on the advice of

counsel, I assert my Fifth Amendment right.

Q. In fact, you haven't been able to produce a single piece of documentation showing any evidence that you ever claimed to have received about the claim submission process, Medicare rules, Tricare rules, or medical coding.

A. I'm sorry, can you repeat that.

Q. You aren't able to produce any documentation showing any evidence you've ever claimed to have received about the claim submission process, Medicare rules, Tricare rules, or medical coding outside of what you may have received directly from the Medicare or other insurance programs?

A. I still don't understand the question.

MS. ARANGO: I would object, it's vague. I object.

THE WITNESS: I don't understand the question.

BY MR. LAVINE:

Q. You can't show any documentation to support having consulted any kind of an expert to answer any question you may have had about

the billing process or which CPT was appropriate to use?

MS. ARANGO: I object to the form.

BY MR. LAVINE:

Q. You still have to answer.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Before this case was commenced, you never consulted a coding expert about advice on which CPT code was appropriate to use to bill for your services, did you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Since at least 2008, you have steered your patients into treating their skin cancer through radiation rather than excisions, haven't you?

MR. LAVINE: Jackie, I know we're kind of short on time, and I don't know if any of your discussion is going to make a difference in the ultimate answer we get today. If -- and again, this is why I raised it before the deposition, that, you know, if -- I'm basing my questions on the documents that we've received in discovery

and my best understanding of the case, and I'd be happy to receive any evidence you are able to offer me that would contradict that.

THE WITNESS: Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. Since at least 2008, you've routinely told your patients, haven't you, that, no one wants surgery, or you direct your employees to tell them that?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. It's also your practice, since at least 2008, that if any patients complain about the high cost of the radiation treatments, you or your employees tell them that they aren't paying for it anyway.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Since 2008 you've known that if your patients had to actually pay out of pocket for the co-pays owed on the radiation services you bill, that the patients would consider that to

be an important factor in their decision on which treatment to select.

MS. ARANGO: Object to the form, I think I -- I don't understand that question.

BY MR. LAVINE:

Q. You can still answer it.

A. Could you repeat it.

Q. Since at least 2008, it's been your belief that if your patients had to actually pay out of pocket for the co-pays owed on the radiation treatments you bill, the patients would consider that amount of that co-pay to be an important factor in their decision on which treatment to select, radiation as compared to a surgical treatment?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. In fact, you've always believed that many of them would decline the radiation treatments if they were actually required to pay the applicable co-pay.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You knew that by waiving the co-pays

you prevented that out-of-pocket expense from being considered by the patients, didn't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. As a result, you've always had a policy and practice of purposely waiving all or substantially all of the co-payments owed by patients in connection with radiation treatment, as a way to induce them to agree to select those treatments over a surgical approach.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. It's true, isn't it, you've never explained to any patient that you often collect over $1,000 for each day of the 20 days of radiation treatment you prescribe to them?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. It's also true that you've never explained to any patient that if they selected the surgical treatment instead, that rather than $1,000 for each of the 20 days, you might collect less than $500 in total for that care.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You also knew if the patients understood you were collecting over $1,000 for each day of radiation, they might have considered that as part of your motivation in pushing them to select radiation as compared to a surgical option?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. So since 2008, you've owned three different devices capable of administering radiation treatment to patients, right?

A. No.

Q. How many machines have you used -- owned, sorry, since 2008?

A. Two.

Q. Two, okay. Are those the only two machines you've ever owned?

A. No, I had one in storage. I have a couple in storage.

Q. You don't use them -- since 2008 have you used them to treat patients?

A. No, I believe it was in 2012 that I took a machine out of storage and used it as a

backup.

Q. So from 2008 until the present, there's been a total of three different machines that have administered radiation to patients?

A. No, that's not what I said. I said in 2012 I took a machine that was in storage and I put it in as a backup.

Q. But you never used it.

A. It was never there in 2008, as far as being usable. It was in storage.

Q. Well -- I'm sorry, I'm just trying --

A. You're --

Q. My understand was there was one machine used in Okeechobee, one machine used in Port St. Lucie --

A. Right.

Q. And now a third machine as a backup.

A. But you said 2008. I said 2012.

Q. Right. So between 2008 until the present, there's been a total of three, the third one coming into play in 2012?

A. Oh, yes, I thought you meant it was 2008 that the third one was present.

Q. No. Not all three from 2008 but in

total three, correct?
A. Correct.
Q. Okay. And those are the only three machines ever used to treat patients at ADSCC at either location?
A. Yes.
Q. And those machines are only capable of generating radiation at a level that's known in the industry as superficial radiation, right?
A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.
Q. You've never owned any radiation device capable of generating radiation at a energy higher than superficial radiation.
A. On the advice of counsel, I assert my Fifth Amendment right.
Q. And it's always been your opinion that prescribing superficial radiation in order to treat skin cancer makes sense because the skin, and therefore the cancer, is on the surface of the body, right?
A. Say the question again, please.
Q. You would agree that prescribing superficial radiation in order to treat skin

cancer made sense to you because the skin, and therefore the cancer, was on the surface of the body.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You'd also agree that the superficial radiation would be appropriate because it's not strong enough to penetrate the skin, but that that's a good thing because you only want to treat the skin and nothing beneath the skin, right?

MS. ARANGO: Object to the form.

THE WITNESS: Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. You'd also be of the opinion that using stronger radiation to treat the skin cancer found in your patients would make no sense and would create unnecessary risk, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Well, you believe that the radiation machines that you own are appropriate for the

treatment you prescribe to your patients, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And it's your position that every patient for whom you ever submitted a claim for radiation treatment rendered in your office since 2008 or earlier, actually required superficial radiation treatment.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. If you claimed on a bill submitted to any third party payor to have treated the patient with radiation in your office, it was because it was your opinion that they needed superficial radiation to treat their cancer.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. All of the radiation treatments for which you ever submitted a claim to a third-party payor for services rendered in your office, were treatments that required energy of around 90 kilohertz of energy, right?

A. Respectfully, on the advice of

counsel, I assert my Fifth Amendment right.
Q. That's about 90,000 volts, correct?
A. On the advice of counsel, I assert my Fifth Amendment right.
Q. You've never owned, leased, borrowed or used any equipment capable of generating radiation at a level greater than what is known as superficial radiation, have you?
A. On the advice of counsel, I assert my Fifth Amendment right.
Q. So, for example, you've never treated any of your patients with equipment that could generate 250,000 volts of radiation or 500,000 volts of radiation, have you?
A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.
Q. And you certainly never treated any of your patients with equipment that could generate a million or five million volts of energy, have you?
A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.
Q. And five million volts of energy would be known as a five megahertz, right?
A. Respectfully, on the advice of

counsel, I assert my Fifth Amendment right.

Q. And that level of energy, five million volts, is more than 50 times as powerful as the superficial radiation that you administered to your patients, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. In order to have an ability for any of the equipment to generate energy up to five million volts, much different equipment is needed than what you own, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. The equipment needed to generate up to five million volts of energy is known as a Linear Accelerator, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And you've never owned a Linear Accelerator?

A. No.

Q. Prior to 2010, when you submitted claims to any third-party payor for radiation administered to your patients, the only code you ever used was Common Procedural Term, or

CPT Code, 77401, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And CPT Code 77401, for as long as you've been treating patients with radiation, as always been defined as "Radiation treatment delivery, superficial, or orthovoltage," right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. Prior to June of 2010, you billed for thousands of radiation treatments to your patients only using CPT Code 77401.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And then in June of 2010, you started to submit claims for radiation treatments rendered to your patients using CPT Code 77402, 77407, and 77412, didn't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You'd agree, wouldn't you, that the definitions of those three codes, 77402, 77407, and 77412, are different than the definition for 77401, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. From at least 2008 through 2014, those three CPT codes were defined, in part, as radiation treatment delivery of up to five megavolts, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. And five megavolts would be 50 times more energy than your equipment could generate, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. With five megavolts, as referenced in CPT Code 77402, 77407, and 77412, is at least 50 times more energy than you've prescribed to your patients, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And that's at least 50 times more energy than you actually administered, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you know in June of 2010 that the equipment necessary to generate radiation and

energy levels of up to five megavolts was vastly more expensive than the equipment you owned.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. In fact, the radiation devices you owned were very old, weren't they?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You knew in 2008, because you were billing for it, that 77401 was reimbursed at around $50, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Then in 2009, you know that the reimbursement for 77401 was reduced to approximately $36, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And then in 2010, the reimbursement for 77401 was reduced further to approximately $25, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you knew the reimbursement was

dropping on 77401 at the time it was happening because you were billing and getting paid pursuant to that reimbursement for that code.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. That reduction in that reimbursement amount reduced your income, didn't it?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You weren't happy about the reduction in income, were you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. But you also knew that in 2010 the reimbursement for CPT Code 77402 was approximately $150, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You also knew in 2010 that the reimbursement for CPT Code 77407 was approximately $200, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And the reimbursement for 77412 back in 2010 was also approximately $200, wasn't

it?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. So in 2010, you'd agree, wouldn't you, that the reimbursement for 77402, 77407, and 77412 was approximately six to eight times as much as the reimbursement for 77401?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You knew back in 2010 that there were significant differences in the equipment used to generate five megavolts of energy for treatment, as compared to the equipment you owned, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You knew the more powerful equipment was much more expensive than the equipment you owned, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And that equipment was typically used to treat more complex cancers than you treated, right?

MS. ARANGO: Object to form, that

equipment.

THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. You knew that the more powerful equipment necessary to generate energy levels of up five million volts was used to treat more complex cancers than the skin cancer you treated, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You knew that the higher energy levels were required in connection with that device, because they were used to treat cancers that were inside the body, not on the surface of the body, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Back in 2010 you knew the reimbursement for 77402, 407, and 412 was so much higher than the reimbursement for 77401, because those treatments required much more powerful machines that were more expensive to buy and maintain, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you knew that even though 77402, 77407, and 77412 were defined, in part, as applying energy levels of up to five megavolts, that those codes were not intended to be used to be billed for superficial radiation.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. In June of 2010, you knew the correct code to be used to bill for superficial radiation that you were administering to your patients was the same code you'd been using all along, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And up to then, the only code you had been using was CPT Code 77401, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. In 2010, you knew that even though you could come up with an argument that there was some overlap between the codes, between 77402, 77407, and 77412 on the one hand and

77401 on the other, you knew that the higher-level codes were not appropriate to use to bill for superficial radiation, didn't you?

MS. ARANGO: Object to form.

THE WITNESS: Are you saying that there's an overlap?

BY MR. LAVINE:

Q. I said, even though you --

A. No, you said that.

Q. -- thought you could come up with an argument -- even though you could come up with an argument about overlap, you weren't actually confused, were you?

A. No, what I'm asking you, your questions you asked me was that there's an overlap.

Q. Let me ask the question again.

A. Okay. That's what you said originally, was that there is an overlap.

Q. You knew that the right code to use back in 2010 was 77401, didn't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. You weren't actually confused about the definitions of those four codes and which

one was the appropriate one to use, were you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You pretended to be confused so that you could bill for the codes that paid six to eight times as much, didn't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. So over the years, you've often provided radiation to patients on more than one location at the time, right?

A. Yes.

Q. For example, a patient might have four lesions for which you prescribed separate radiation treatments, right?

A. Yes.

Q. And that the radiation equipment, for example, might be aimed at one lesion which would receive radiation for about 11 seconds, then you would aim the machine at another lesion and that would get 11 seconds of treatment, etcetera, right?

A. It depends on the calibration of that particular machine, how much seconds.

Q. But in general, each treatment took

between eight and fourteen seconds, depending upon the particular machine and the particular year in which the service was being rendered, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. So in general, the way it worked would be that the patient would be brought into the treatment room, and each lesion would receive between eight and fourteen seconds of radiation, and that's the entire treatment, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. In between each of those eight-to-fourteen second periods of radiation, the patient stayed in the treatment room on the same table, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. The patient didn't need to leave the room, there was just a need to reposition the arm of the machine, right?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. So during one of the Medicare audits to which you were subjected over the past several years, you learned a local billing policy that applied to what are known as T-1 lesions, didn't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. When you reviewed that local billing policy, you learned there were many provisions contained therein that contradicted the manner in which you were billing Medicare, didn't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. After you learned about that local billing policy, and that it only applied to T-1 lesions, you thereafter routinely lied in your medication records about the size of the lesions so that you could claim that policy wasn't applicable to your treatment, didn't you?

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. It's true, isn't it, that somewhere around 2007 you began prescribing

hyperfractionated radiation treatments to your patients?

A. 2007, I don't know.

Q. Well, you have been prescribing hyperfractionated radiation treatments since at least 2008, right?

A. No, I'm saying it could have been earlier, I don't recall.

Q. Since at least 2007.

A. Respectfully, on the advice of counsel, I assert my Fifth Amendment right.

Q. So for you to be prescribing hyperfractionated radiation treatments would necessarily mean that you were of the opinion that your patients would benefit medically from being irradiated two times a day instead of once a day, right?

A. Yes.

Q. But you've always known there was no reliable peer-reviewed literature concluding that treating skin cancer through twice-a-day hyperfractionated treatment was better for the patient, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You've always known that the only medical support and peer-reviewed literature that did exist for twice-a-day hyperfractionated treatments related to much more serious cancers than you treated, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You've also always known that the medical support that did exist for twice-a-day hyperfractionated treatments for those more serious cancers normally required a minimum of four hours between each of those treatments, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You've certainly always known there was no reliable peer-reviewed literature concluding that --

MS. ARANGO: I'm sorry, could we just take a quick break. Jack Goldberger is trying to call in.

MR. LAVINE: Sure.

(Thereupon, a recess was taken.)

MS. ARANGO: Jack Goldberger representing Dr. Marder in a criminal

action.

MR. GOLDBERGER: Thank you very much, thanks for putting me on speaker.

MR. LAVINE: Mr. Dwyer, do we still have you?

MR. DWYER: I'm here.

BY MR. LAVINE:

Q. You've certainly known at all times that there was no reliable peer-reviewed literature concluding that treating skin cancer through twice-a-day hyperfractionated treatments just 45 to 60 minutes apart was medically justifiable or beneficial.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. In fact, when Medicare audited you, you told them on more than one occasion that when you rendered hyperfractionated radiation treatments to your patients, you separated those treatments by at least four hours, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. But that was never true, was it, you never separated your twice-a-day treatments by

four our more hours, did you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Since at least 2008, the hyperfractionated radiation treatments you rendered to your patients were generally only 45 to 60 minutes apart, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And the true reason that you prescribed and subjected your patients to twice-a-day radiation treatments, was not for their benefit, but so that you could bill twice as much, wasn't it?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Since 2008 you've been paid over $1.7 million by Medicare for radiation treatment and management services, haven't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You billed for those services under CPT Code 77261 and 77427, right?

A. I assert my Fifth Amendment right.

Q. However, the vast majority of the

services for which you submitted claims under 77261 and 77427 were never actually rendered, were they?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. On many occasions the reason you couldn't have rendered those services was that you weren't even in the office, were you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And even when you were in the office, you still routinely failed to rendered those services, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Since 2008 you've been paid over $190,000 by Medicare for those dosimetry services you billed under code 77300?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You submitted a claim under CPT Code 77300 and you were stating that you were seeking reimbursement for having calculated the dose of the radiation treatments to be rendered to your patients, weren't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. However, the vast majority of those services were never rendered, were they?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Almost every one of your patients got the exact same radiation treatment and no calculation of the does was ever needed or provided, correct?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And many times you were not in the office and couldn't have rendered the services, or even if you were in the office you still failed to render the services.

A. On the advice of my counsel, I assert my Fifth Amendment right.

Q. Since 2008 you've been paid over $290,000 by Medicare for the simulation radiation therapy that you've billed under Code 77280, haven't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. However, just like the other services

for dosimetry and treatment management, the vast majority of the services billed under 77280 weren't rendered either, were they?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. One of the reasons was that almost every one of your patients got the same treatment and no simulations were actually needed or performed.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And many times you weren't in the office or even if you are in the office, you still failed to rendered the services.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Since 2008 you've been paid over $225,000 by Medicare for the design and construction of radiation treatment devices that you billed under CPT Code 77332 and 77334, haven't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. However, the vast majority of the services for which you billed under those two

codes were never rendered, were they?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Although you had a couple of devices in your office, they were not customized for each patient and you didn't fabricate any custom device for any patient.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Since at least 2008, you've been paid over $450,000 by Medicare for services you claimed were rendered by a physicist for which you billed under CPT Code 77336, isn't that right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And it's true, isn't it, the vast majority of those services were never rendered?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And that the physicists with whom you had a relationship since 2008 were primarily tasked with calibrating your radiation equipment and not rendering care to patients.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And in general, a consult by a physicist for your patients who were getting the same cookie-cutter treatment wasn't medically necessary.

MS. ARANGO: Object to form.

THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. So part of what you did as a dermatologist was to perform biopsies on patients, right?

A. Yes.

Q. Okay. You or your employees would perform the biopsies?

A. Yes.

Q. Either you or a physician assistant or a nurse practitioner, right?

A. Yes.

Q. And since 2008, you've submitted claims to Medicare for over 30,000 of those biopsies, haven't you?

A. On the advice of counsel, I assert my

Fifth Amendment right.

Q. Well, each of the biopsies resulted in one or more pieces of tissue that required examination under a microscope to see if it was cancerous, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. But you agreed that before those samples could be viewed under a microscope, they require special processing, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And since at least 2008, you've been aware that Medicare breaks up pathology services for biopsies into two components, right, the technical component and the professional component?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you've always been aware that the technical component for pathology services encompassed the multiple steps that were required to process the samples and place them on a slide so they could be viewed under a microscope?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. In order to perform the technical component of the pathology services, specialized laboratory equipment operated by properly trained personnel was required, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you've never owned any of the equipment necessary to perform the technical component of the any pathology service on tissue biopsies, have you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You've never had any of that equipment at any of your locations of ADSCC, in Port St. Lucie or Okeechobee or otherwise?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you've never employed any employees with the proper training to perform any of the technical component services of a pathology test?

A. On the advice of counsel, I assert my

Fifth Amendment right.

Q. But since at least 2008, you have been aware that the work of the pathologist in viewing the slide under a microscope to diagnose the tissue and prepare a report is the professional component of the laboratory services, is that right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. At some point before 2008, you reached a business agreement with Dr. Kendall regarding the performance of pathologist tests, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You were aware that Dr. Kendall worked out of a laboratory he had founded over 20 years ago named Kendall Medical Laboratory, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. A key part of the agreement that you reached with Dr. Kendall was, that in return for your promise of the referral of your biopsy specimens to him, he would perform both

the technical component and the professional component for each of the specimens, send you the completed pathology reports, and let you bill and collect all the money from Medicare, right?

MR. DWYER: Object to form.

MS. ARANGO: Object to the form as well.

THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. So one component of your agreement with Dr. Kendall was that you would refer all your biopsy specimens to him to be performed by him or by Kendall Medical Laboratory, right?

MR. DWYER: Object to form.

THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.

MR. LAVINE: Jed, what's wrong with my form?

MR. DWYER: I think you're assuming facts not in evidence would be my

argument. I don't know that -- and it's also compound.

MR. LAVINE: Okay.

BY MR. LAVINE:

Q. So another part of your agreement with Dr. Kendall was that he would perform both the technical component and the professional component for each of the tissue specimens you refer to him, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And another part of the agreement you had with Dr. Kendall is that he would then send you fully completed pathology reports regarding each of those specimens, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Another part of the agreement with Dr. Kendall was that he would also authorize you and allow you to bill for those services and collect all that money from the Medicare program, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. So you and Dr. Kendall agreed that,

part of your scheme was that you would collect all the money from Medicare for both the technical component and the professional component, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Another part of your agreement between you and Dr. Kendall was that you would pay him for the technical component of the services, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And an additional part of the agreement was that he would perform not just the technical component but also the professional component and generate a complete path report in your name without any additional charge to you, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And it's true, isn't it, that when Dr. Kendall provided you a completed pathology report, in exchange for your referral of tissue specimens to him, that it was very valuable to you, right?

MS. ARANGO: Object to the form.
BY MR. LAVINE:
Q. When Dr. Kendall sent completed pathology reports to you, which then you used as a basis for the submission of a claim to the Medicare program, it was financially valuable for you, wasn't it?
MR. DWYER: Object to form.
MS. ARANGO: Same objection.
THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.
BY MR. LAVINE:
Q. By getting the completed pathology report from Dr. Kendall, with the agreement that you could be the one to submit and collect the money from the Medicare program, you collected a lot of money, didn't you?
MS. ARANGO: Object to form.
THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.
BY MR. LAVINE:
Q. Part of the reason that was valuable to you was that Dr. Kendall was doing all of

the work of the professional component without you paying for him it, but he let you bill and collect and keep that money, didn't he?

MR. DWYER: Object to form.

THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. Your arrangement with Dr. Kendall was very beneficial to you because you didn't have to do any of the work of the professional component but you could still collect all of the money, right?

MS. ARANGO: Object to form.

MR. DWYER: Object to form.

THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. All you needed to do under the agreement, was to put the skin samples from your numerous biopsies into a vial and then ship them over a hundred miles to Dr. Kendall's office in Coral Gables, right?

A. On the advice of counsel, I assert my

Fifth Amendment right.

Q. You knew that as part of your agreement, that when the skin samples that you removed from your patients arrived at Kendall Medical Laboratory, that Dr. Kendall and his employees would perform all of the necessary pathology work on those samples, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. As part of the agreement with Dr. Kendall, you knew and intended that when Dr. Kendall was finished examining those tissue samples, Kendall Medical Laboratory would generate a final pathology report diagnosing those tissue samples for you, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Part of the agreement you reached with Dr. Kendall was that when the pathology report was printed out, it was not going to be issued on the letterhead of Kendall Medical Laboratory, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And it wasn't even going to be issued on the letterhead of Gary Marder, Doctor of Osteopathy, was it?

MS. ARANGO: Object to form.

THE WITNESS: But it was.

On the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. And it wasn't issued on the letterhead of Allergy Dermatology Skin Care Center, was it?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Actually, by agreement between you and Dr. Kendall, the pathology reports generated by Dr. Kendall would be on the letterhead of the Gary Marder, D.O. Medical Laboratory, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Okay. In fact, there actually is no such entity named Gary Marder Medical Laboratory, is there?

A. That's a question?

Q. Yeah, there is --

A. Okay.
Q. There is no such entity named Gary Marder Medical Laboratory, is there?
A. On the advice of counsel, I assert my Fifth Amendment right.
Q. There's never been any entity by the name of Gary Marder Medical Laboratory that's been licensed to run a laboratory, has there?
A. On the advice of counsel, I assert my Fifth Amendment right.
Q. Another part of the agreement you reached with Dr. Kendall was that the pathology reports that he printed out would have a signature block for you, right?
A. On the advice of counsel, I assert my Fifth Amendment right.
MR. DWYER: Object to form.
BY MR. LAVINE:
Q. But it was also agreed, between you and Dr. Kendall, that he or his staff would add your signature to that signature block, either with a rubber stamp or electronically during the printing process.
A. On the advice of counsel, I assert my Fifth Amendment right.

Q. So that before the pathology reports even left Kendall Medical Laboratory, they had what appeared to be your signature already on them, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. After he generated these pathology reports on the letterhead of Gary Marder Medical Laboratory with your signature preprinted on them, he then sent them to you, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And that, in turn, triggered another part of your agreement between you and Dr. Kendall, which was that you would be the one to bill the insurance companies for the labs services represented on that pathology report, right?

A. On the advice of counsel --

MR. DWYER: Same objection, Mark, form.

THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. Your agreement with Dr. Kendall applied not just for services that would be billed to the Medicare program, but to services that would be billed to any third party payor, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Because you've always known that you could just bill for the professional component of the pathology test by using a modifier, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. You've always known that Dr. Kendall could separately bill just for the technical component of that test also by using a modifier, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. But your agreement with Dr. Kendall was that you would bill for both the technical component and the professional component, right?

A. On the advice of counsel, I assert my

Fifth Amendment right.

Q. You're aware that billing for both the technical component and the professional component is referred to as billing globally, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. So you always billed globally for all of the pathology work that was performed by Kendall Medical Laboratory on your behalf, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. In fact, you never performed the technical component of any skin biopsy for which you billed an insurance company since you started this arrangement with Dr. Kendall.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you never even performed the professional component of any skin biopsy for which you billed any third party payor since you commenced this arrangement with Dr. Kendall.

A. On the advice of counsel, I assert my

Fifth Amendment right.

Q. Every bill you ever submitted for pathology services to any third party payor since you reached this agreement with Dr. Kendall, was for lab services completely performed by Dr. Kendall and his employees, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And that agreement with Dr. Kendall goes at least back to 2008 and earlier, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Billing globally for the lab work by Dr. Kendall was lucrative for you, wasn't it?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. For example, from Medicare, between January of 2008 and May of 2014, you were paid $2.77 million for the pathology work performed by Kendall Medical Laboratories, weren't you?

A. Under advice of counsel, I assert my Fifth Amendment right.

Q. But during that time frame the amount that you paid to Dr. Kendall wasn't merely as

much, was it?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. So you made a huge profit every time that Dr. Kendall did lab work for you, didn't you?

MS. ARANGO: Object to the form.

THE WITNESS: On the advice of counsel, I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. And in addition to the claims you submitted to the Medicare program, you also submitted claims for pathology services performed by Dr. Kendall to many other third party payors, public and private, didn't you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. For example, since the year 2000, there were over $3 million in payments to you for pathology services from Blue Cross Blue Shield programs insuring federal employees, wasn't there?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Over 2.1 million of that money paid by the federal employee plans was paid from 2008 forward, wasn't it?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you also submitted claims to Tricare for these pathology services performed by Kendall Medical Laboratory, didn't you?

A. We are not a provider of Tricare.

Q. You've submitted claims to Tricare and you've been paid, right?

A. I don't know.

Q. In another important part of the agreement between you and Dr. Kendall regarding the pathology test --

MR. DWYER: Objection to form.

Mark, just so there's a standing objection, I think the term agreement is vague.

MR. LAVINE: Conspiracy?

BY MR. LAVINE:

Q. Do you understand, Dr. Marder, what I mean when I say agreement?

A. No, what -- say it again.

Q. Do you know what an agreement is?

A. Could you repeat the question, I'm confused.

Q. I'll repeat the question but I just want to make sure when I'm asking you questions about what an agreement is, you understand that it relates to a meeting of the minds between you and Dr. Kendall, right?

A. A meeting of the minds, okay, that's what you said.

Q. Do you have a different definition of what an agreement is?

A. I don't know if it's verbal or written, or it's a handshake, I don't know what you're referring to, what agreement are you referring to?

Q. Well, you've had discussions with Dr. Kendall regarding his performance of pathology tests on skin specimens referred by you, right?

A. Yeah.

Q. And you came to an understanding of the manner in which that was going to be handled between the two of you.

You didn't just start sending specimens to him without knowing what he was

going to do with them, did you?
A. On whose behalf -- on the advice of counsel, I assert my Fifth Amendment right.
Q. When you sent specimens to Dr. Kendall, it's because you'd already had discussions with him about how the arrangements were going to be handled.
A. On the advice of counsel, I assert my Fifth Amendment right.
Q. And another part of the agreement --
MR. ARANGO: Can we take a five-minute break so he can go to the bathroom?
MR. LAVINE: Of course.
(Thereupon, a recess was taken.)
MR. LAVINE: Back on the record.
BY MR. LAVINE:
Q. Another part of the agreement between you and Dr. Kendall related to efforts that the two of you undertook in order to hide the true nature of your relationship, right?
A. That's a question?
MR. DWYER: Object to form.
THE WITNESS: What is the question?
BY MR. LAVINE:

Q. Another part of the agreement you had with Dr. Kendall related to your efforts to hide the true nature of your relationship.

A. On the advice of counsel, I assert my Fifth Amendment right.

MR. DWYER: Object to form.

BY MR. LAVINE:

Q. Well, for example, since at least 2011, as part of your arrangement with Dr. Kendall, the two of you agreed to pretend that he was an employee of your clinic, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

MR. DWYER: Object to form.

BY MR. LAVINE:

Q. So even though you issued him W-2s and paid state unemployment taxes, you only did so as a part of the attempted coverup of the actual nature of the relationship, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Another thing that you did was discuss with Dr. Kendall the execution of the lease whereby you would lease the premises of Kendall Medical Laboratories, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. The reason you were discussing the execution of the lease with Dr. Kendall was so that you could pretend that when Dr. Kendall was working on your specimens, he was also doing so in your laboratory as your employee, right?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. But you never executed a lease with Dr. Kendall or Kendall Medical Laboratory, did you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And you never made any lease payments to Dr. Kendall or Kendall Medical Laboratory, did you?

A. On advise of counsel, I assert the Fifth.

Q. And even though you signed a document called an employment agreement that was also signed by Dr. Kendall, it was never a bona fide employment agreement between the two of you, was it?

A. On the advice of counsel, I assert the Fifth.

MR. DWYER: Object to form.

BY MR. LAVINE:

Q. Of course, it's true, isn't it, that when you signed that employment agreement, it was in 2013?

A. On the advice of counsel, I assert the Fifth.

Q. But in order to further the scheme when you signed the agreement, you backdated it 13 years to the year 2000, didn't you?

A. On the advice of counsel, I assert the Fifth.

MR. DWYER: Object to form.

BY MR. LAVINE:

Q. So Dr. Kendall submitted invoices to you monthly for the technical component of each individual test that he ran for you, didn't he?

A. On the advice of counsel, I assert the Fifth.

Q. And it was the dollar value of the technical component invoices that controlled the total amount that was owed by you to him,

right?

A. On the advice of counsel, I assert the Fifth.

Q. And the total amount owed by you to him was inclusive of the fake salary payments, right?

A. On the advice of counsel, I assert the Fifth.

Q. In other words, you had an agreement with Dr. Kendall that the amounts you paid to him that you pretended to be salary would be applied to the amount due under the invoices for the technical component, right?

A. On the advice of counsel, I assert the Fifth.

Q. So at best, the real agreement you had with Dr. Kendall was that you would pay for the technical component only, right?

A. On the advice of counsel, I assert the Fifth.

Q. You expressly agreed with Dr. Kendall that part of the payment on the invoices for those technical components would be made through the salary paid as part of the fake employment agreement, right?

A. On the advice of counsel, I assert the Fifth.

Q. In fact, in normal circumstances, the amount that was invoiced to you for the technical component was more than the amount that you paid through the fake salary, right?

A. On the advice of counsel, I assert the Fifth.

Q. The additional balance that was owed on those invoices, above and beyond what was paid through the salary, was paid by you to Dr. Kendall typically through credit card payments, right?

A. On the advice of counsel, I assert the Fifth.

Q. But that the total amount you paid to Dr. Kendall was never more than what's shown on the invoices for the technical component, right?

A. On the advice of counsel, I assert the Fifth.

Q. You never paid Dr. Kendall any money besides what we would see on invoices as being credited thereon and the related credit card receipts, right?

A. On the advice of counsel, I assert the Fifth.

Q. And you never paid anything to Dr. Kendall for a lease of his laboratory.

A. On the advice of counsel, I assert the Fifth.

Q. And the reason you never paid anything for a lease of the laboratory was that there was never a lease, written or otherwise.

A. On the advice of counsel, I assert the Fifth.

Q. In connection with this case, you never provided the United States with any documents showing any other payments from you to Dr. Kendall, have you?

MS. ARANGO: Object to form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. The only documentary evidence you've produced has been related to the salary payments and to the credit card payments, right?

A. On the advice of counsel, I assert

the Fifth.

Q. And you've turned over W-2s but you've never produced any 1099 forms, for example, right?

A. On the advice of counsel, I assert the Fifth.

Q. You never even filed 1099s for the payments that you made to Dr. Kendall by credit card for the technical component, did you?

A. On the advice of counsel, I assert the Fifth.

Q. And you never filed a form 1099 for any other payment from you to Dr. Kendall, did you?

A. On the advice of counsel, I assert the Fifth.

Q. So the real reason that you and Dr. Kendall agreed to create this fake employment agreement was to hide the nature of the real agreement in case anyone ever investigated you, right?

MR. DWYAR: Object to form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. He was never your real employee, was he?

A. On the advice of counsel, I assert the Fifth.

Q. You never had the right to control the manner and means by which Dr. Kendall completed his assigned tasks, did you?

A. On the advice of counsel, I assert the Fifth.

Q. Dr. Kendall provided his own tools and instrumentalities necessary to perform the pathology services, right?

A. On the advice of counsel, I assert the Fifth.

Q. Dr. Kendall performed all of the services in his own medical laboratory, 120 miles away from your office, right?

A. On the advice of counsel, I assert the Fifth.

Q. All of the services were performed by Dr. Kendall in the same medical laboratory that he had owned and operated for more than 20 years, right?

A. On the advice of counsel, I assert

the Fifth.

Q. Outside of the specimens that you shipped to Dr. Kendall on which he was to perform pathology tests and send you the reports, you didn't have any right to assign any other projects to him, did you?

MS. ARANGO: Object to form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. So your agreement with Dr. Kendall was that he would process your tissue specimens and send you a pathology report for you to bill Medicare, but you couldn't assign him any other duties, could you?

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. Even though the written agreement you signed specified certain minimum and maximum hours to be worked by Dr. Kendall, in truth, you had no discretion over when and how long Dr. Kendall worked on your specimens, did you?

A. On the advice of counsel, I assert the Fifth.

Q. You didn't actually have any

knowledge about how many hours Dr. Kendall spent working on the specimens you sent to him, did you?

A. On the advice of counsel, I assert the Fifth.

Q. And you never controlled whether it was Dr. Kendall or some other employee who performed the work on the specimens you referred, did you?

A. On the advice of counsel, I assert the Fifth.

Q. But you didn't even know if it was Dr. Kendall or some other employee who did the pathology services until you saw the final path report, did you?

A. On the advice of counsel, I assert the Fifth.

Q. And you never had any role in being able to hire or pay for any assistant for Dr. Kendall.

A. On the advice of counsel, I assert the Fifth.

Q. And the work that Dr. Kendall was performing was not a part of your regular business because you can't perform the

technical component of the laboratory tests and you don't perform the professional component, right?

A. On the advice of counsel, I assert the Fifth.

Q. And you never provided Dr. Kendall with any employee benefits, did you?

A. On the advice of counsel, I assert the Fifth.

Q. You never tracked his vacation or sick time, did you?

A. On the advice of counsel, I assert the Fifth.

Q. You never evaluated his performance, did you?

A. On the advice of counsel, I assert the Fifth.

Q. You never considered whether or not Dr. Kendall deserved to get a raise, did you?

A. On the advice of counsel, I assert the Fifth.

Q. You never actually gave Dr. Kendall a raise, did you?

A. On the advice of counsel, I assert the Fifth.

Q. And the employment agreement that you signed with Dr. Kendall even stated right in there that you would not violate the Anti-Kickback Statute, didn't it?

A. On the advice of counsel, I assert the Fifth.

Q. The employment agreement also claims that the payments that were you making to Dr. Kendall were fair market value, right?

A. On the advice of counsel, I assert the Fifth.

Q. But you knew when you signed that couldn't be true, right?

A. On the advice of counsel, I assert the Fifth.

Q. You knew it couldn't be true because Dr. Kendall was performing both the technical component and the professional component, but you were only paying him for the technical component, right?

A. On the advice of counsel, I assert the Fifth.

Q. You never paid him anything for the professional component, did you?

A. On the advice of counsel, I assert

the Fifth.

Q. So there was no fair market value paid for the professional service that Dr. Kendall performed on your behalf, was there?

A. On the advice of counsel, I assert the Fifth.

Q. In fact, if you were, through ADSCC, to perform all of the professional component services that Dr. Kendall performed for you at no charge, you'd have to hire a pathologist, wouldn't you?

MS. ARANGO: Object to form.

THE WITNESS: Dr. Kendall is a pathologist.

What is your question?

BY MR. LAVINE:

Q. If the only thing that Dr. Kendall had done for you was send you slides --

A. Send me slides?

Q. -- you would have had to hire a pathologist to do all of the work of reading the slides and generating those reports, because you were hardly ever in the office anyway, right?

MS. ARANGO: Object to the form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. Other parts of the agreement with Dr. Kendall changed over time. For example, the original agreement was that Dr. Kendall would print the pathology reports on your letterhead but with your signature and either his signature or the signature of one of his employees, right?

A. On the advice of counsel, I assert the Fifth.

Q. So when he printed these pathology reports, they had two signatures, right?

A. On the advice of counsel, I assert the Fifth.

Q. Later on, to help you fool Medicare auditors and other third-party payors, you changed the agreement with Dr. Kendall so that only your signature would then be applied to the pathology reports, right?

A. On the advice of counsel, I assert the Fifth.

Q. For at least part of the time, part

of your agreement with Dr. Kendall was that the pathology reports would include a statement right there on the report stating that Dr. Kendall had performed the technical component of the test, right?

A. On the advice of counsel, I assert the Fifth.

Q. But it only referenced the technical component of the test, even though Dr. Kendall was actually performing the technical component and the professional component, right?

A. On the advice of counsel, I assert the Fifth.

Q. So part of the benefit that you received from your agreement with Dr. Kendall was that the more biopsies you ordered regarding your patients, the more you could bill to Medicare and other insurance companies and the more money you could collect, right?

A. On the advice of counsel, I assert the Fifth.

Q. The more biopsies you did, the more pathology reports would come back in the mail a couple of days later, each of which could

then be billed to insurance, right?
A. On the advice of counsel, I assert the Fifth.
Q. And because at best you were only paying for the technical component of those tests and the professional component of the those tests was free, you made a lot of money by billing and collecting for the professional component, right?
MS. ARANGO: Object to form.
THE WITNESS: On the advice of counsel, I assert the Fifth.
BY MR. LAVINE:
Q. And that gave you an incentive to perform as many biopsies on your patients as possible?
MR. DWYER: Object to form.
MS. ARANGO: Object to form also.
THE WITNESS: On the advice of counsel, I assert the Fifth.
BY MR. LAVINE:
Q. And, in fact, you were obsessed with the number of biopsies being performed for your patients, weren't you?
MS. ARANGO: Object to form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. You operated in a manner and design to generate as many biopsies as possible so that you could bill for as many pathology reports as possible, right?

A. On the advice of counsel, I assert the Fifth.

Q. One of the things you did to maximize the number of biopsies was to offer $10,000 cash bonuses to any of your physician assistants or advanced registered nurse practitioners that averaged a high enough number each day, right?

A. No, they came to me.

Q. I'm sorry, I didn't hear.

A. Okay. On the advice of counsel, I assert the Fifth.

Q. Well, some of the written agreements you had with your employees had that built right in there, didn't it, a $10,000 bonus if the average of the number of biopsies they did each day was high enough?

A. On the advice of counsel, I assert

the Fifth.

Q. And even when you weren't in the office, one of the things you did when you called in almost every day, was to ask about the number of biopsies performed that day, right?

MS. ARANGO: Object to form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. You even made your employees keep a separate daily log of the number of biopsies, didn't you?

A. On the advice of counsel, I assert the Fifth.

Q. That way you could track the number of biopsies more quickly and more easily than if you had to wait for the billing reports to come back, right?

A. On the advice of counsel, I assert the Fifth.

Q. And you've been audited by the Medicare program multiple times, right?

A. Yes.

Q. They've also denied many of your

claims.

A. No. No.

Q. They haven't denied many of your claims?

A. No.

Q. So you're saying if we went back to the claims data and looked to see if it was paid the first time through, we would generally see that they were paid?

A. Correct.

Q. Okay. And not just after an appeal.

A. Correct.

Q. Well, you've also been audited by Medicaid, right?

A. On the advice of counsel, I assert the Fifth.

Q. In fact, you paid the Medicaid program over $150,000 to settle allegations that you were billing for services while you were out of the country but which you should have been personally reviewing and supervising, right?

A. On the advice of counsel, I assert the Fifth.

Q. You've also had claims denied or been

audited at one time or another by lots of other insurance companies, haven't you?

A. That's a very vague question.

MS. ARANGO: Object to form.

THE WITNESS: Thirty-two years of practicing, I don't know --

BY MR. LAVINE:

Q. It's a routine part of your business for claims that you submit to third-party payors to be denied pending further documentation, right?

A. You're saying it's my routine that my claims are denied? What was your question, on occasion?

Q. On occasion. Not the bulk of your claims first time through, but --

A. I don't know doctors' offices --

Q. As part of the regular course of business, you encounter the denial of claims by just about every third-party payor. Right?

A. On the advice of counsel, I assert the Fifth.

Q. And it was your practice that whenever you needed to provide a third-party payor with additional medical records, that

you would just fabricate the documents that were needed, wasn't it?

A. On the advice of counsel, I assert the Fifth.

Q. You specifically trained your billing personnel in how to create these false documents after the fact, didn't you?

A. On the advice of counsel, I assert the Fifth.

Q. You trained them in how to do it, didn't you?

A. On the advice of counsel, I assert the Fifth.

Q. Well, you not only knew that your billing employees were cutting and pasting your signature onto documents, you directed them to do that, didn't you?

MS. ARANGO: Object to form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. You knew your billing employees would cut and paste your signature onto documents didn't you?

A. On the advice of counsel, I assert

the Fifth.

Q. The reason your billing employees were cutting and pasting your signature onto documents was that you told them to do that, right?

A. On the advice of counsel, I assert the Fifth.

Q. You even helped develop forms for your business that could easily be printed out to help with that process, didn't you?

A. On the advice of counsel, I assert the Fifth.

Q. Let me show you what we've marked as Exhibit 18 in prior depositions.

You knew that the billing employees at your office were using the materials shown in Exhibit 18 to help prepare medical records, didn't you?

A. On the advice of counsel, I assert the Fifth.

Q. Many of the documents in Exhibit 18 were designed by you in the first place, rights?

A. On the advice of counsel, I assert the Fifth.

MS. ARANGO: Is this what you handed to me earlier?

MR. LAVINE: Yes.

MS. ARANGO: Okay. And it's four radiation therapy treatment prescription sheets, that's one exhibit, or are they going to be four separate exhibits?

MR. LAVINE: Separate.

MS. ARANGO: Okay.

Can you refer to the Bates numbers for each one so that I can properly mark them?

MR. LAVINE: You know I always do, Jackie.

MS. ARANGO: Okay.

So which one is Exhibit 38?

Right here at the bottom --

(Government's Exhibit Nos. 38 to 40 were marked for identification, and retained by Counsel.)

BY MR. LAVINE:

Q. I'm going to mark as Exhibit 38 a two-page document with Bates numbers ending in 40 and 41.

And Exhibit 39, a two-page document

ending in Bates Number 11 and 12.

As Exhibit 40, a two-page document ending in Bates Number 20 and 21.

MS. ARANGO: And then the last one is going to be 41?

MR. LAVINE: I haven't decided yet.

BY MR. LAVINE:

Q. So I want to show you the three exhibits I just marked, 38, 39, and 40.

These are copies of the tumor dose record that you use when you're treating your patients, correct?

A. On the advice of counsel, I assert the Fifth.

Q. And the original of these particular documents is a large, fold-out document on thicker card stock, right?

A. Yes.

Q. And they're used in connection with any radiation treatment rendered to any of your patients as a way of tracking the treatments, right?

A. Yes.

Q. And the three exhibits that I just marked represent the typical manner in which

you fill out and maintain those documents when treating your patients, right?

A. On the advice of counsel, I assert the Fifth.

Q. In particular, on the second page of each one in the ordinary course of business --

A. On the advice of counsel, I assert the Fifth.

Q. Sorry, I didn't finish that one.

A. I'm sorry.

Q. In the ordinary course of business, neither you nor any of the employees fill out any of the information for the diode, dose, or cumulative for the individual fields that are there on page two, right?

A. On the advice of counsel, I assert the Fifth.

Q. So for these 40 different treatments, ordinarily, nobody ever writes down what the dose is that they were receiving during the course of the radiation treatment, do they?

A. On the advice of counsel, I assert the Fifth.

Q. And on page two, the left column of the daily instructions and comments is

typically blank, isn't it?

A. On the advice of counsel, I assert the Fifth.

Q. And the last two columns labeled physic's initials and M.D. initials, those are, in the ordinary course of business, completely blank, aren't they?

A. On the advice of counsel, I assert the Fifth.

(Government's Exhibit No. 41 was marked for identification, and retained by Counsel.)

MR. LAVINE: Mark as Exhibit 41 a document, the front page is a one-page letter dated May 23, 2013, Document Number ending in 165, and it's a stack of additional, I don't know, 20 documents not in numerical order. The numbers jump around.

BY MR. LAVINE:

Q. I just want to show you what I marked as Exhibit 41.

These materials relate to the same patient as we saw in Exhibits 38 and 39 and 40, correct?

A. 38, 39, and 40.
Q. Yeah, my question, just to confirm, it's the same patient for all four of these exhibits, isn't it?
A. Let me see.
Are you saying these are the same or different?
Q. Same patient.
A. Yes.
Q. But if we look at the materials attached to Exhibit 41, there are many additional documents that don't normally appear in the medical record, correct?
A. On the advice of counsel, I assert the Fifth Amendment right.
Q. For example, just a couple of pages in, there's a tumor dose record similar to what we saw in Exhibits 38, 39, and 40, right?
A. Say the question again.
Q. If we go to the third and fourth pages of Exhibit 41, we see a tumor dose record form that's similar to the documents we looked at in Exhibit 38, 39, and 40, right, but for different dates of service?
MS. ARANGO: Could you refer to --

THE WITNESS: The third page.

MR. LAVINE: Yeah, I don't see a number on the third page. The fourth page is a document number ending in 175.

It may be because it was a single large document that got split into two pieces, I'm not sure.

Oh, you know what, that's not right. It's just the document number on the third page is buried underneath some of the handwriting on the document. If you look at the field number three, the very last row under diode, you can see the number 174 and work your way backward, you can see the rest of it is there.

MS. ARANGO: I see it.

MR. LAVINE: So it's document ending in number 174 and 175.

BY MR. LAVINE:

Q. And the question is, this is the same type of tumor dose record that we see for the same patient in Exhibits 38, 39, and 40, right?

A. Yes.

Q. Except this particular form has much

more information included on it, correct?
A. Yes.
Q. The other three exhibits don't have anything under daily instructions and comments, but there's multiple entries on this particular document for that column, right?
A. Yes.
Q. And each of the fields for which treatment was rendered to this patient, there's an entry for every single day for the diode, the dose, and the cum, right?
A. Yes.
Q. And that information is not on the forms that we see on Exhibit 38, 39, or 40, right?
A. On the advice of counsel, I assert the Fifth Amendment.
Q. If we continue on to the additional documents in Exhibit 41, none of these additional documents are created by you or any of your employees in the ordinary course of business in connection with rendering medical care to patients, are they?
A. On the advice of counsel, I assert the Fifth.

Q. These additional documents never exist unless you need to create them for the purpose of sending them to the Medicare program or some other third party payor, right?

A. On the advice of counsel, I assert the Fifth.

Q. And these documents that are dated -- the dates of service from October and November of 2011 are attached to a letter to Medicare dated May 23, 2013, right?

A. On the advice of counsel, I assert the fifth.

Q. So the altered version of the tumor dose records and all these additional documents were created by your billing employees at your direction over a year after the services were actually rendered to this patient, weren't they?

A. On the advice of counsel, I assert the Fifth.

Q. Actually, yeah, almost a year and a-half, wasn't it?

And the front page of this document, Exhibit 41, that's your signature, isn't it?

A. Yes.
Q. And in this letter you were signing off and saying right in the letter, that you're attesting that the medical records accurately reflect signatures/notations that I made in my capacity as medical director, D.O., when I treated, diagnosed the above listed Medicare beneficiary, it says that, right?
A. On the advice of counsel, I assert the Fifth.
Q. And you signed off on it, right?
MS. ARANGO: Object to form.
THE WITNESS: On the advice of counsel, I assert the Fifth.
BY MR. LAVINE:
Q. And that's a false statement, wasn't it?
A. On the advice of counsel, I assert the Fifth.
Q. The medical records you attached to this letter were not made when you treated the patient, they were made over a year after the fact, weren't they?
A. On the advice of counsel, I assert the Fifth.

Q. The letter you sent says also that you attest the information relating to the medical records you're attaching as true, accurate, and complete to best of my knowledge, and that you understand that any falsification, omission, or concealment of material facts may subject you to administrative, civil, or criminal liability, right?

A. On the advice of counsel, I assert the Fifth.

Q. And the statement that this information is true, accurate, and complete was false also, wasn't it?

A. I assert under counsel, my Fifth Amendment right.

Q. And that all of the documents you sent were falsified, weren't they?

A. On the advice of counsel, I assert the Fifth.

Q. And you omitted and concealed material facts for, among other reasons, not disclosing that you manufactured these documents more than a year after the services were rendered.

MS. ARANGO: Object to form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. You also omitted and concealed material facts by not disclosing that many of the dates of services covered by the attached medical records, you weren't in the office and for two full weeks you were on vacation.

A. On the advice of counsel, I assert the Fifth.

Q. You also falsified and omitted and concealed material facts by placing your signature on these documents in a way that would suggest that it was applied at the time and date contained on the document itself, rather than more than a year later, correct?

MS. ARANGO: Object to form.

THE WITNESS: On the advice of counsel, I assert the Fifth.

BY MR. LAVINE:

Q. Your intention in submitting these records to the Medicare program was to fool them into thinking that you created these medical records at the time you treated the

patient, wasn't it?
A. On the advice of counsel, I assert the Fifth.
Q. And you knew if you didn't send Medicare all these fake documents, you weren't going to get paid for these services, didn't you?
A. I assert my Fifth Amendment right.
Q. And you had a whole system set up with your billing employees so that they knew this was a standard package of materials they needed to pull together whenever necessary for submission to a third party payor, right?
MS. ARANGO: Object to form.
THE WITNESS: I assert my Fifth Amendment right.
BY MR. LAVINE:
Q. It's a routine part of your business, since at least 2008 going forward, to fabricate a full set of medical records similar to what we see in Exhibit 40.
A. I assert my Fifth Amendment right.
Q. You knew and directed the billing employees to use the resources of all the different signatures in Exhibit 18 for cut and

pasting your signature, right?

A. I assert my Fifth Amendment right.

Q. Or they would print out brand new versions of documents and leave it for you to sign so that then you can review it and hand it back to them, right?

A. I assert my Fifth Amendment right.

Q. And when you handed it back to them it was with the instruction that they could then send that in to the Medicare program or other third party payor that was asking for the information, right?

A. I assert my Fifth Amendment right.

(Government's Exhibit No. 42 was marked for identification, and retained by Counsel.)

MR. LAVINE: I'm going to mark was Exhibit 42 --

MS. ARANGO: What Bates number is that?

MR. LAVINE: Page number 2, 6207, it's another radiation therapy treatment sheet. On page two it says tumor dose record.

BY MR. LAVINE:

Q. And this document also relates to the same patient as the prior four exhibits, correct, sir?

So Exhibit 42 is the same patient that we see on Exhibits 38 through 41, right?

A. Yes.

Q. And it's a radiation treatment sheet that you recognize to be --

A. Yes.

Q. -- produced as part of your treatment to this patient, right?

A. Yes.

Q. And this is the way this form looked in the ordinary course of business at the time and dates indicated thereon, right?

A. I assert my Fifth Amendment right.

Q. If we compare the second page of Exhibit 42 to the third and fourth pages of Exhibit 41, we can see it covers -- they both cover the same dates of service, right?

A. Say that again, please.

Q. If we compare the exhibit we just marked, 42, the second page, to the third and fourth pages of Exhibit 41, which is the one with the letter on the front --

A. Oh, I see.
Q. -- we can see that they cover the same dates of service, right?
A. Yes.
Q. It's for the same fields of the treatment, you see Field 1, left anterior chest, for example.
A. Is there a question, I'm sorry.
Q. Well, yeah, the question was, they cover the same patients, same dates of service, and the same treatment fields, for example, Field Number 1 on both documents is the left anterior chest, isn't it?
A. I assert my Fifth Amendment right.
Q. And the other fields match as well, correct?
A. I assert my Fifth Amendment right.
Q. And so the very same medical record that has the falsified version with all this additional information put in by your billing personnel, as we can see in Exhibit 41 is in there unchanged as we can see on Exhibit 42, right?
A. I assert my Fifth Amendment right.
Q. So your own medical record has the

original unaltered version of the document and the fraudulent version that you sent to the Medicare program, doesn't it?

A. I assert my Fifth Amendment right.

Q. And this is just one example of many that occurred whenever you needed to send a signature attestation letter, similar to what we see on the first page of Exhibit 41, to Medicare program.

MS. ARANGO: Object to form.

THE WITNESS: I assert my Fifth Amendment right.

BY MR. LAVINE:

Q. This was a normal course of business for you, every time information of this sort needed to be sent to the Medicare program, you would direct your billing employees to put together a package like this of false information, wouldn't you?

MS. ARANGO: Object to form.

THE WITNESS: I assert my Fifth Amendment right.

(Government's Exhibit Nos. 43, 44, and 45 were marked for identification, and retained by Counsel.)

MR. LAVINE: Let me give you 43.

MS. ARANGO: This is 43?

MR. LAVINE: Yes, and to be sure, that's ending in 392.

MS. ARANGO: Yes.

And the next one you just handed me is 44, and that's Bates Number 430.

MR. LAVINE: Right.

BY MR. LAVINE:

Q. So I just marked three new exhibits, three letters, Exhibit 43 is dated April 8, 2012 --

MS. ARANGO: While he reads, please, can I --

MR. LAVINE: -- ending in document 392.

MS. ARANGO: While he reads these, I'm just going to take a quick bathroom break.

MR. LAVINE: Okay. I won't ask him any questions.

Marked as Exhibit 44, a one-page letter titled "affidavit" dated May 19, 2008, document ending in 430.

And then the third document, Exhibit

45, it's two pages, on the letterhead of Gary Marder dated March 15, 2005, ending in document number 229.

Dr. Marder, when your had a chance to look at those and your counsel returns, I'll just ask you some questions.

(Thereupon, a recess was taken.)

MR. LAVINE: Back on the record.

BY MR. LAVINE:

Q. So first I wanted to just ask you about Exhibit 43. Is that your signature on there?

A. Yes.

Q. You stated in this letter to the Medicare program that you're a tertiary skin care cancer center, didn't you?

A. Yes.

Q. That's not true, though, is it?

A. What constitutes a tertiary to you?

Q. I'm asking you the question, you can answer it.

A. I believe that we are a tertiary skin cancer center, we're the only ones that can do radiation therapy, reconstructive surgery, as well as deal with regular and medical

dermatology in one office.

Q. But the majority of your patients come in as a result of your advertising, don't they?

A. Not at all. I only started advertising a year and a-half. I never advertised before that.

Q. First time you advertised was a year and a-half ago?

A. The first time I advertised on a billboard was a year and a-half ago. Yes, I never advertised on a billboard before.

Q. But you've done other advertising.

A. On television.

Q. Well, let's look at the next paragraph, you see patients that other doctors cannot treat because the tumors are too large, and what other doctors would consider inoperable, that's a false statement, isn't it?

A. Why would you say such a thing?

I get doctors referring me patients. I even had medical directors from some of the other insurance carriers personally call me up and send patients to me.

Q. Tell me the name of a patient --
A. I can't remember.
Q. -- that had a tumor that the other doctor considered inoperable that was then referred to you?
A. Well, I have a patient who actually paid cash for her radiation therapy and it's on our website. She had gone to five different doctors, including ocular plastic surgery and she came to me and had the radiation therapy.
Q. And what's her name?
A. I don't even remember her name. She's on our website. I don't remember her.
Q. And her other physicians considered the tumor to be inoperable?
A. No, they were going to cut out her eyelids. They were going to disfigure her.
Q. So they had treatment but they didn't --
A. They had treatment --
Q. -- like the way they would do the treatment?
A. Correct.
Q. Any other patients you can think of?

A. I have a man right now, we just finished treating him, they were going to do a penectomy on him, Mount Sinai Hospital, Miami Beach. We radiated his penis, he had squamous cell on his penis. They were going to cut off his penis. He came crying to me telling me he'd rather be dead. We radiated him, he's a hundred percent better.

Q. What is his name?

A. Alfred Siminary(phonetic).

Q. Any other patients that you claim other doctors considered inoperable?

A. I don't have their names. We see patients every day.

Now, that is operable, they were going to cut off his penis. We saved him.

Q. What's the name of the physician that was going to do that?

A. He's one of chiefs of urology at Mount Sinai Medical Center.

Q. What's his name?

A. I don't remember. The patient came to me. The doctor didn't refer him. The patient came to me, so I don't have an answer for you.

Q. What's the time frame for that?
A. We just treated him in -- I think it was February or March of this past year.
Q. As we sit here now, any other patients you can think of?
A. Mark, I can't, there are so many people. I mean, I have people come in -- if you downloaded our computers, you saw the pictures on our computers of people with huge tumors. I have people who would come in in wheelchairs, literally on -- just on the highway, on US1, and they would come in there with huge, fungating tumor, and he literally came in in his wheelchair. It was an electric wheelchair, we treated with radiation therapy, he plugged his chair in so he can make his way back up to his trailer home off of US1. I don't remember his name but his photo is actually on our website. You can look at that. Just go to Marderdermatology.com, it's there.
Q. Did any of these patients that you're describing come to you because the prior physician contacted you?
A. No, patients came to me. I mean, I

have patients where other doctors refer me and I never charge a consult, by the way. I always charge a regular fee, 99245, 99244, 99243. I have never charged for a consult, even if a patient is referred to me by the physician.

I mean, I had woman just -- I had a woman -- I can't remember. Monday, she has breast cancer right now, 30-year-old woman, referred to me by an OBG doctor. She has MRSA. I didn't charge for a consult, I mean, I'm just saying.

MS. ARANGO: Okay. Listen to the question.

THE WITNESS: Okay, we're off of question, I'm sorry.

MR. LAVINE: And I move to strike the last answer as nonresponsive.

BY MR. LAVINE:

Q. So again, I just want to know if you can give me a name of any physician that contacted you directly to refer a patient to you.

A. I don't have their names.

One of them was the medical director

for Quality Health Plans and they went out of business, but he was the medical director of Quality Health Plans. He referred patients to me from Vero Beach, huge, fungating tumor that no other doctor wanted to handle and he asked me to see.

Q. But you don't know the name of the patient or the doctor?

A. I don't remember, I just don't.

Q. Let's move on to Exhibit 44, this was also a letter that you sent to the Medicare program and that is your signature at the bottom, right?

A. Yes.

Q. And in this letter, you represented in 2008 that your patients wait for four hours between each radiation treatment session, right?

A. Uh-huh.

Q. And that's a false statement?

A. In 2008 that's what we did.

Q. But you didn't fill out any documentation that actually shows that, did you?

A. I didn't -- on advise of counsel, I

assert my Fifth.

Q. If you look at the tumor dose records, we're going to see that there's no entry for the second time of the treatment, right?

A. It may not.

Q. Let's look quickly at Exhibit 45, it's a two-page letter. This is also a letter from you to the Medicare program signed by you, correct?

A. Yes.

Q. In the last paragraph of the first page when you say, "All radiation therapy was performed by myself," you didn't actually mean you personally operated the machine, did you?

A. I used to do everything.

Q. How many years ago was that?

A. Up until I had my first PA.

Q. And when did you hire your first PA?

A. I don't recall.

Q. And you can't narrow down that time frame as all?

A. I'm sorry, I can't.

Q. Who was your first PA that you hired?

A. Makisha(phonetic).

Q. What is Makisha's last name?
A. Kurd.
Q. On the second page, last sentence of the first paragraph, it says, "If no photo is present, it is because the patient refused to have their photo taken," right?
A. Uh-huh.
Q. That's false also, because there was typically no photos, because it wasn't your practice to take photographs.
A. I will assert the Fifth.
MR. LAVINE: All right. Let's take a quick break.
(Thereupon, a recess was taken.)
MR. LAVINE: Let's go back on the record.
MS. ARANGO: Just for the record, Jack Goldberger is no longer on the line.
BY MR. LAVINE:
Q. Okay. I just wanted to take another look at Exhibit 41, it's the one with the May 2013 letter on top, it's 20 or 30 pages.
If you go to the second to the last document in that package, which ends in Document Number 204, you see to the left what

looks to be a rubber stamp signature line for Farhad Kader --

MS. ARANGO: Object to form.

BY MR. LAVINE:

Q. -- with initials on top of that. Do you see where it says Farhad Kader?

A. Yes.

Q. He was a physicist that you hired to assist with services at the clinic, correct?

A. I assert my Fifth Amendment right.

Q. Okay. You actually hired Mr. Kader only to calibrate your radiation equipment, right?

A. I assert my Fifth Amendment right.

Q. You had him do an annual calibration report on each machine, but he didn't assist in any patient care, did he?

A. I assert my Fifth Amendment right.

Q. And he didn't know you were putting his name on these documents, did he?

A. I assert my Fifth Amendment right.

Q. And where we see the signature over the name of Farhad Kader, were those put there by him or were they cut and pasted by your employees or did somebody forge that signature

at your office?

A. I assert my Fifth Amendment right.

Q. In general, Mr. Kader was rarely at the clinic, was he?

A. I assert my Fifth Amendment right.

Q. In connection with your relationship with Dr. Kendall, since 2008, you only were physically present at the offices of Kendall Medical Laboratory two times, right?

A. No.

Q. Well, how many times you were there?

A. I don't remember, more than two.

Q. More than two but you don't know how many more?

A. I don't remember. More than two.

Q. On the occasions in which you were physically present at Kendall Medical Laboratory, however, it wasn't so you could perform any pathology services, right?

A. Under counsel advice, I assert my Fifth Amendment right.

Q. The only reason you went there was to meet with Dr. Kendall to discuss business arrangements but not to provide any kind of pathology services.

A. On the advice of counsel, I assert my Fifth Amendment right.

Q. And did Dr. Kendall ever physically visit either of the locations of ADSCC?

A. Under legal counsel, I assert my Fifth Amendment.

Q. Dr. Kendall, though, never was present at the offices or either of the clinic locations of ADSCC because you needed him there as your employee, was he?

A. Under legal counsel advice, I assert my Fifth Amendment.

Q. He didn't have alleged duties that required his presence in the clinic.

A. Under legal advice of counsel, I assert my Fifth Amendment.

Q. When did you first hire Mr. Kader to work as a physicist?

A. I do not remember the year. I do not remember.

Q. You didn't have a written agreement with him?

A. I did not.

Q. You paid him $10,000 a year for his services?

A. No, no, I paid more.
Q. You paid him more than that?
A. (Witness shakes head.)
Q. And what documentation would there be of those payments?
A. On legal advice, I assert my Fifth Amendment right.
MR. LAVINE: Jackie, I think it's a problem to hear testimony that he paid more and then not be able to follow up on that, so.
MS. ARANGO: You can object.
MR. LAVINE: Well, I think it's going to open the door to a waiver on that subject matter. I can't have you asserting there were other payments and then he shut down when I ask a follow-up question about it.
MS. ARANGO: All right. You can answer that one question, how much did you pay Farhad?
THE WITNESS: $20,000.
BY MR. LAVINE:
Q. Annually?
A. (Witness shakes head.)

MS. ARANGO: You have to verbalize it.

THE WITNESS: Yes.

BY MR. LAVINE:

Q. Since when?

A. I assert my Fifth Amendment right.

Q. But you never issued any 1099 to show the payments you made to Mr. Kader?

A. I assert my Fifth Amendment right.

MR. LAVINE: Okay.

We're done for today. Thanks.

MS. ARANGO: All right.

(Thereupon, the deposition was concluded at 2:16 p.m.)

CERTIFICATE

STATE OF FLORIDA:
: SS.
COUNTY OF BROWARD:

I, SONNIA MARTINEZ, COURT REPORTER AND NOTARY PUBLIC, IN AND FOR THE STATE OF FLORIDA AT LARGE, DO HEREBY CERTIFY THAT GARY MARDER, D.O., WAS BY ME FIRST DULY SWORN TO TESTIFY THE WHOLE TRUTH; THAT I WAS AUTHORIZED TO AND DID REPORT SAID DEPOSITION IN STENOTYPE; THAT A FOREGOING PAGES, NUMBERED FROM 1 TO 128, INCLUSIVE, ARE A TRUE AND CORRECT TRANSCRIPT OF MY SHORTHAND NOTES OF SAID DEPOSITION.

I FURTHER CERTIFY THAT SAID DEPOSITION WAS TAKEN AT THE TIME AND PLACE HEREINABOVE SET FORTH AND THAT THE TAKING OF SAID DEPOSITION WAS COMMENCED AND COMPLETED AS HEREINABOVE SET OUT.

I FURTHER CERTIFY THAT I AM NOT AN ATTORNEY OR COUNSEL OF ANY OF THE PARTIES, NOR AM I A RELATIVE OR EMPLOYEE OF ANY ATTORNEY OR COUNSEL OF ANY PARTY CONNECTED WITH THE ACTION, NOR AM I FINANCIALLY INTERESTED IN THE ACTION.

THE FOREGOING CERTIFICATION OF THIS TRANSCRIPT DOES NOT APPLY TO ANY REPRODUCTION OF THE SAME BY ANY MEANS UNLESS UNDER THE DIRECT CONTROL AND/OR DIRECTION OF THE CERTIFYING REPORTER.

DATED IN MIRAMAR, BROWARD COUNTY, FLORIDA, THIS 16th DAY OF SEPTEMBER, 2015.

SONNIA MARTINEZ, NOTARY PUBLIC
STATE OF FLORIDA, AT LARGE.

CERTIFICATE

THE STATE OF FLORIDA,
COUNTY OF BROWARD.

I hereby certify that I have read the foregoing deposition by me given, and that the statements contained herein are true and correct to the best of my knowledge and belief, with the exception of any corrections or notations made on the errata sheet, if one was executed.

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV-MOORE/TORRES

UNITED STATES OF AMERICA; and the STATE OF FLORIDA, ex rel. THEODORE A. SCHIFF, M.D.,

Plaintiffs.

v.

GARY L. MARDER, D.O.; ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation, ROBERT I. KENDALL, M.D., and KENDALL MEDICAL LABORATORY, INC.,

Defendants.
_____/

DEFENDANTS' INITIAL DISCLOSURES

Defendants Gary L. Marder, D.O. and Allergy, Dermatology & Skin Cancer Center, Inc. ("ADSCC") make the following initial disclosures pursuant to Fed.R.Civ.P.26(a). Defendants reserve the right to amend and/or supplement these disclosures as information becomes available through discovery or further investigation.

1. Names and, if known, addresses and telephone numbers of individuals likely to have discoverable information supporting the Defendants' claims:

Witness	Discoverable Information	Contact
Gary Marder, D.O. Defendant	ADSCC's patient care services which are the subject of the complaint, as well as equipment used and operation of ADSCC's clinical laboratory.	Counsel: Jacqueline Arango One S.E. Third Avenue Suite 2500 Miami, Florida 33131 (305) 374-5600
Robert Kendall, M.D. Defendant	ADSCC's clinical laboratory services and operations.	Counsel: Jared Dwyer 333 S.E. Second Avenue

Witness	Discoverable Information	Contact
		Suite 4400 Miami, Florida 33131 (305) 579-0500
Megan Bock, P.A. Defendant	Physician's Assistant employed by ADSCC. Has knowledge of patient care services she provided.	Counsel: Bruce Reinhart 505 S. Flagler Drive Suite 300 West Palm Beach, Florida 33401 (561) 472-2970
Martin Burke, P.A.	Physician's Assistant formerly employed by ADSCC. Has knowledge of patient care services he provided.	Counsel: Stuart Kaplan
Elizabeth Modica	ADSCC's office manager since 2005. Has knowledge of ADSCC's operations and personnel.	Counsel: Jacqueline Arango One S.E. Third Avenue Miami, Florida 33131 (305) 374-5600
Irwin Condes	ADSCC's current billing person. Has knowledge of billing and coding since employment began.	Counsel: Jacqueline Arango One S.E. Third Avenue Miami, Florida 33131 (305) 374-5600

KENDALL MEDICAL LABORATORY, INC.,
a Florida corporation,

Defendants.
_____/

UNITED STATES' DISCLOSURES UNDER FED. R. CIV. P. 26(a)(1)

In compliance with Federal Rule of Civil Procedure 26(a)(1), the United States hereby provides its initial disclosures. The United States makes these disclosures based upon the information currently available to its component agencies that have been involved in the investigation of the allegations contained in its complaint, including the United States Department of Justice and the United States Department of Health and Human Services, but notes that its investigation of this matter is continuing and may result in the discovery of additional information in the future. The United States reserves the right to supplement these disclosures as discovery proceeds, as required by the Federal Rules of Civil Procedure.

These disclosures are made without waiving the United States' rights at any subsequent time to object based upon evidentiary bases such as competency, privilege, relevance, materiality, hearsay, or other established grounds to the use of such information or documents.

A. Individuals Likely to Have Discoverable Knowledge that the United States May Use to Support Its Claims

Pursuant to Fed. R. Civ. P. 26(a)(1)(A)(i), the United States discloses on Exhibit A attached to and made a part of these disclosures the name and, if known, identifying and/or contact information of each individual, aside from experts, who is likely to have discoverable information that the United States may use to support its claims (unless solely for impeachment), as well as the subject matter of that information.[1] The United States reserves its right to supplement this disclosure of individuals as discovery proceeds or new information becomes available. In particular, the United States may also rely upon testimony from other current or former Allergy, Dermatology & Skin Cancer Center, Inc. ("ADSCC") or Kendall Medical Laboratory, Inc. ("KML") employees (e.g., physician assistants, billing personnel, nurses, etc.). The United States will supplement these disclosures when it has identified additional individuals, who it may use to support its claims. The United States also reserves the right to rely upon the testimony of any witnesses listed by Defendant on its Rule 26(a)(1) disclosures.

This initial disclosure is not intended to disclose the identity of any expert witness (or supporting documents or information) that the United States may use in this case. The United States will make disclosures regarding expert witnesses, if any, in compliance with the Federal Rules of Civil Procedure and the Court's Scheduling Order.

B. Documents, Electronically Stored Information, and Tangible Things that the United States May Use to Support Its Claims

Pursuant to Fed. R. Civ. P. 26(a)(1)(A)(ii), the United States provides on Exhibit B,

[1] In order to protect the privacy of individuals being identified in these disclosures (other than the Relators), the United States has redacted the names and contact information of the individuals identified in Exhibit A for purposes of filing. Unredacted copies of Exhibit A are being provided to counsel for defendants and counsel for Relators contemporaneously with the filing of this disclosure.

attached hereto and made a part of these disclosures, a description, by category and location, of all documents, electronically stored information (ESI), and tangible things that it has in its possession, custody, or control that may be used to support its claims. The non-privileged documents and data identified on Exhibit B will be made available to Defendant at a mutually agreeable time for review and copying or copies will be provided upon request. To the extent that documents and ESI identified on Exhibit B are in the custody of Defendant and are not sufficiently identified (e.g., by Bates number or otherwise) to enable Defendant to locate such information, upon request the United States will provide further identifying information. The United States reserves its right to supplement the categories of documents and data listed on Exhibit B as discovery proceeds or new information becomes available. The United States does not, by disclosing its possession of these documents, waive its rights to assert any privileges or other protections in response to a request for their production.

C. **Computation of Categories of Damages**

The United States' damages in this case will be derived from the claims that the defendants submitted or caused to be submitted to Medicare and TRICARE from January 1, 2008 until the present for (1) oncological radiation therapy and related services that were not rendered, were rendered in violation of applicable rules and guidelines, or were medically unnecessary, unreasonable, unskilled, or otherwise not subject to reimbursement by Medicare or TRICARE and for (2) pathology services procured in violation of the Stark Act, 42 U.S.C. § 1395nn (the "Stark Act") and the Anti-Kickback Statute, 42 U.S.C. § 1320a-7b(b) (the "AKS") for which payment was made by Medicare.

The United States will determine the amount of damages it has sustained by (1) direct examination of the evidence as compared to the submitted claims (e.g. claims submitted during periods of international travel by defendant Marder, claims for pathology services

billed by defendant Marder for services rendered by KML, etc.) and (2) by extrapolating the results of a review of a statistically valid random sample of claims that Defendant submitted or caused to be submitted to Medicare and TRICARE. Pursuant to the provisions of the False Claims Act, 31 U.S.C. § 3729, the amount of damages sustained is trebled. In addition, the United States will seek statutory penalties of between $5,500 and $11,000 for each instance in which Defendant submitted or caused to be submitted a false claim to the United States.

1. Medicare Damages

With respect to any claims tainted by violations of the Stark Act or the AKS, for which relief is sought in Second, Fourth and Fifth Counts, the measure of damages is the full amount paid on the claim. *United States ex rel. Freedman v. Suarez-Hoyos*, 2012 U.S. Dist. LEXIS 135230 (M.D. Fla. Sept. 21, 2012); *United States v. Rogan*, 517 F.3d 449, 453 (7th Cir. 2008). At this point, based on the allegations that substantially all of the claims for pathology services were tainted by violations of the Stark Act or the AKS, the United States estimates that that single damages for Medicare from January 2, 2008 through September 15, 2014 are equal to $2,770,434.12 which when trebled equals damages in the amount of $8,311,302.36 sought jointly against all four defendants. In addition, approximately 15,273 individual claims were submitted in connection with those services thereby mandating penalties of between $84,001,500.00 and $168,003,000.00.

With respect to claims found to false as alleged in the First and Third Counts, the measure of damages will fall into two categories. In cases where no payment at all would have been made on the claim, e.g. unsupervised radiation, the measure of damages is the full amount paid on the claim. In cases where payment may have been allowed at a lesser level, e.g. properly supervised radiation billed falsely using CPT Code 77402 instead of CPT Code 77401, the measure of damages is the difference between what the government paid and the

value of what it received. *United States ex rel. Baklid-Kunz v. Halifax Hospital Medical Center*, 2014 WL 2968251 (M.D. Fla. July 1, 2014); *United States v. Aerodex, Inc.*, 469 F.2d 1003, 1011 (5th Cir.1972).

The damages for the administration of radiation billed using CPT Codes 77401, 77402, 77407 and 77412 will fall into both categories. For the radiation services which were unsupervised, no payment at all would have been made and the entire amount represents damages. The United States is hampered in estimating these damages because Dr. Marder and ADSCC failed to indicate whether services were rendered in the Port St. Lucie office or the Okeechobee office. The location affects any estimate of damages because Dr. Marder was in each office for differing amounts of time. In general, he was in the Port St. Lucie office only two days each week and was in the Okeechobee office just once every two weeks. In addition, there are at least 250 days of international travel during which Dr. Marder could not have supervised claims which cannot be factored in at this time. However, if it is assumed that 70 percent of the radiation payments were associated with Port St. Lucie and the remainder with Okeechobee, the United States estimates that the damages will amount to approximately 80 percent of the amount paid for the radiation codes due to the failure to supervise.

In addition, there are damages associated with using false CPT codes. Those damages will be the difference between what was paid for claims billed using CPT Codes 77402, 77407 and 77412 and what would have been paid had they been billed using CPT Code 77401. The United States estimates that the difference will amount to approximately 80 percent of the amounts paid for those three codes. Initially, a total of $4,788,281.44 was paid for CPT Codes 77402, 77407 and 77412. That amount will first be reduced by 80 percent based on the failure to supervise and the balance will be reduced by an additional 80 percent

based on the use of the wrong codes. In total, the United States' preliminary estimate of the damages associated with the four radiation codes is in excess of 85 percent of the $6,125,861.34 paid.

The damages for other unsupervised services rendered by non-physician providers but billed as if rendered by Dr. Marder will be the difference between the 100 percent payment that was made and the 85 percent payment that would have been made if billed properly. This category does not include damages for any services that would not have been paid at all if not properly supervised as is the case, for example, with the radiation services. At this time, it is estimated that these damages have been suffered with respect to the biopsies (CPT Codes 11100, 11101, 67810 and 69100), destruction of lesions (CPT Codes 11301-11313, 17000-111 and 67850) , radiation management services (CPT Codes 77427, 77261 ,77280, 77300, 77332 and 77336) and Evaluation and Management codes (CPT Codes 99202-215). It is estimated that these damages may exceed $725,000.

There are also additional damages associated with the radiation management codes (including but not limited to CPT Codes 77427, 77261 ,77280, 77300, 77332 and 77336) due to multiple issues, including false quantities, services not rendered and lack of supervision. Additional discovery is required in order to more precisely calculate these damages, but they are estimated to be between $700,000 and $1.9 million or more.

In total, the United States' preliminary estimate of single damages is between $10.5 million and $11.7 million. After trebling, the United States damages may be between $31.5 million and $35.1 million. In addition, the number of false claim upon which penalties will be based may exceed 100,000. However, discovery in this case may demonstrate that the damages and penalties are even higher than currently estimated, and the United States reserves all rights to seek damages and penalties beyond those estimated at this time.

Alternatively, the United States will seek damages under its common law causes of action of unjust enrichment, payment by mistake, and conversion. Damages for these causes of action consist of single damages from the direct examination of the evidence and the statistically valid random sample of claims submitted by Defendant. The damages in these two counts will be based upon the conduct alleged in the First through Fifth Counts and are only sought against Dr. Marder and ADSCC.

The United States will not be in a position to compute a more precise amount for each category of damages until it obtains more detailed information regarding the underlying evidence and receives and reviews the patient records for the statistically valid random sample of claims submitted by Defendant.

2. TRICARE Damages

The calculation of damages suffered by the TRICARE program will mirror the approach described above as to Medicare. At this time, it is estimated that the total TRICARE damages may exceed $124,000.

D. Insurance Agreements

Not applicable.

E. Reservations

This initial disclosure is based upon information reasonably known to the undersigned counsel for the United States at the present time. The United States reserves the right to amend or supplement this disclosure to the extent required by Fed. R. Civ. P. 26(e)(1). This disclosure is made without prejudice to the United States' right to name new individuals as well as to identify and produce additional documents. The United States anticipates that additional witnesses and documents, the relevance of which is not now appreciated, may come to light

after this disclosure, during the course of discovery. Accordingly, the United States specifically reserves the right to supplement this disclosure to include any inadvertently omitted documents, categories of documents, individuals, or claims of privilege, as well as any persons or documents that the United States determines at a later date are likely to provide information in support of the United States' case.

Dated: February 17, 2015

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV- MOORE/TORRES

UNITED STATES OF AMERICA; and the
STATE OF FLORIDA, *ex rel.*
THEODORE A. SCHIFF, M.D.

Plaintiffs,
v.

GARY L. MARDER, D.O.;
ALLERGY, DERMATOLOGY & SKIN
CANCER CENTER, INC., a Florida corporation
ROBERT I. KENDALL, M.D., and
KENDALL MEDICAL LABORATORY, INC.,
a Florida corporation, and
MEGAN BOCK, PA.

Defendants.
_____/

RELATOR'S DISCLOSURES UNDER FED. R. CIV. P. 26(a)(1)

In compliance with Federal Rule of Civil Procedure 26(a)(1), Theodore A. Schiff ('Relator") hereby provides its initial disclosures. By this reference, Realtor hereby incorporates each and every one of the disclosures filed by the United States Government in its disclosures filed under Federal Rule of Civil Procedure 26(a)(1) ("ECM__")(the "United States Initial Disclosure"), including but not limited to any and all amendments, supplements and modifications thereto, all as if fully set forth herein. Relator reserves the right to supplement these disclosures as discovery proceeds, as required by the Federal Rules of Civil Procedure.

These disclosures are made without waiving Relator's rights at any subsequent time to object based upon evidentiary bases such as competency, privilege, relevance, materiality, hearsay, or other established grounds to the use of such information or documents.

A. Individuals Likely to Have Discoverable Knowledge that the Relator May Use to Support Its Claims

Pursuant to Fed. R. Civ. P. 26(a)(1)(A)(i), the Relator incorporates by reference the list

of individuals attached as Exhibit A to the United States Initial Disclosure including but not limited to each name and, if known, identifying and/or contact information of each individual, aside from experts, who is likely to have discoverable information that Relator may use to support its claims (unless solely for impeachment), as well as the subject matter of that information.[1]

Relator reserves its right to supplement this disclosure of individuals as discovery proceeds or new information becomes available. In particular, Relator may also rely upon testimony from other current or former Allergy, Dermatology & Skin Cancer Center, Inc. ("ADSCC") or Kendall Medical Laboratory, Inc. ("KML") employees (e.g., physician assistants, billing personnel, nurses, etc.). Relator will supplement these disclosures when it has identified additional individuals, who it may use to support its claims. Relator also reserves the right to rely upon the testimony of any witnesses listed by any Defendants on their respective Rule 26(a)(1) disclosures.

B. Documents, Electronically Stored Information, and Tangible Things that Relator May Use to Support Its Claims

Pursuant to Fed. R. Civ. P. 26(a)(1)(A)(ii), the Relator incorporates by reference the documents attached as Exhibit B to the United States Initial Disclosure including but not limited to all descriptions therein contained, by category and location, of all documents, electronically stored information (ESI), and tangible things that the United States and/or Relator have in their possession, custody, or control that may be used to support Relator's claims. The non-privileged documents and data identified on Exhibit B to the United States Initial Disclosure will be made available to Defendant at a mutually agreeable time for review and copying or copies will be provided upon request. To the extent that documents and ESI

[1] In order to protect the privacy of individuals being identified in Exhibit A to the United States Initial Disclosure (other than the Relator), the names and contact information of the individuals identified in such Exhibit A have been redacted. Unredacted copies of Exhibit A were provided to counsel for defendants by the United States contemporaneously with the filing of the United States Initial Disclosure.

identified on Exhibit B to the United States Initial Disclosure are in the custody of Defendant and are not sufficiently identified (e.g., by Bates number or otherwise) to enable Defendant to locate such information, upon request Relator will provide further identifying information. Relator reserves its right to supplement the categories of documents and data listed on United States Initial Disclosure Exhibit B as discovery proceeds or new information becomes available. Relator does not waive its rights to assert any privileges or other protections in response to a request for the production of any documents herein referenced.

C. **Computation of Categories of Damages**

Relator incorporates by reference the calculation of damages as described in the United States Initial Disclosure paragraph C.

Relator will not be in a position to compute a more precise amount for each category of damages until it obtains more detailed information regarding the underlying evidence and receives and reviews the patient records for the statistically valid random sample of claims submitted by the Defendants.

D. Insurance Agreements

Not applicable.

Dated: February 17, 2015

I N D E X

Witness: Robert Kendall, M.D.

	Direct
By Mr. Lavine	4

E X H I B I T S

No. 44-50 Page 9

No. 51-54 Page 23 No. 55 Page 79

Thereupon:

Robert I. Kendall, M.D.

was called as a witness by the United States of America, and after being first duly sworn, was examined and testified under oath as follows:

DIRECT EXAMINATION

BY MR. LAVINE:

Q. Please state your name, for the record.

A. Robber I. Kendall, M.D.

Q. Thanks.

Have you ever been deposed before?

A. I don't think so. Not that I can remember.

Q. Just a few ground rules I'll walk through with you and hopefully it will help to go faster. One of the most important things is that you'll know what I'm going to say quite often before I finish my question, but the better we not talk at the same time, the easier it is for the court reporter to get a good record, and then the faster things go and I don't have to repeat the question and you repeat the answer. So, you know, the better

you can it --

A. Okay.

Q. -- wait until I'm done, the faster it will go.

The responses, of course, need to be verbal. Shaking your head can't be taken down by the court reporter or nodding. Uh-huhs or nu-huhs can't really be taken down in a transcript accurately, it's impossible to tell what they might mean, so --

A. Understood.

Q. -- yeses and nos.

A. Okay.

Q. If you don't understand any of my questions, just let me know and I'll try to rephrase it.

A. Sure.

Q. If you don't tell me you don't understand, I'll assume that you did.

A. Right.

Q. If you need to take a break at any point during the day, just let me know and we can take a break.

A. Okay.

Q. Is there any reason why you wouldn't

be able to understand my questions today?
A. No, I understand.
Q. Okay. You understand that in your deposition here, your statement is being taken under oath and under penalty of perjury?
A. Yes.
MR. LAVINE: Off the record.
(Thereupon, a recess was taken.)
MR. LAVINE: Back on the record.
BY MR. LAVINE:
Q. It's true, isn't it, that you're now and you've always been the hundred percent owner of Kendall Medical Laboratory?
A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
Q. You've practiced medicine exclusively through Kendall Medical Laboratory since at least 2008, right?
A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
Q. Okay. You are a pathologist, is that right?
A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. And the medicine you practice is limited to pathology, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Kendall Medical Laboratory's only office is located in Coral Gables, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silent.

Q. Since 2008, you and Uzza Farooq were the only physicians who have provided services at Kendall Medical Laboratories?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you're the only person who has ever controlled the operations of Kendall Medical Laboratories, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you're the only person whose ever

made important business decisions on behalf of Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Including, for example, you were the only person who ever made the decision on which insurance would be accepted by Kendall Medical Laboratories?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You are the person who decided whether or not Kendall Medical Laboratories would participate in the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And over the years you've sent in various different applications to government entities, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You were the one who sent these in on behalf of yourself and on behalf of Kendall Medical Laboratories, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And, in general, you're the one who signed all of those documents, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. For example, you first applied to become a provider in the Medicare program back in 1988, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. I just marked a series of exhibits from Number 44 through 50. Let me just hand one of each to you and to your counsel, and I want to ask some questions about those.

(Government's Exhibits 44 through 50 were marked for identification and retained by counsel.)

MR. LAVINE: That's the bulk of the

new exhibits we'll mark today, I think.

MR. DWYER: Okay.

BY MR. LAVINE:

Q. I just want you to have a chance to look over what we just marked as Exhibits 44 through 50, and I'll ask you some questions about those.

While you're doing that, I'll just clarify for the record what each one of them is.

Exhibit 44 is a one-page document on the letterhead of Department of Health and Human Services, dated June 23, 1988, and the last three of the document number is 435.

MS. ARANGO: I'm sorry, what was the date of the letter?

MR. LAVINE: June 23, 1988.

BY MR. LAVINE:

Q. Exhibit 34 is a two-page document with a title Medicare Participating Physician and Supplier Agreement, the last three document numbers are 426 and 427. The signature on page two reflects the date of August 15, 1988.

Exhibit 46 is a two-page document,

same title as Exhibit 45, ends in document number 424 and 425, the signature, though, is dated September 14, 1988.

Exhibit 47 is a one-page document on the letterhead of Kendall Medical Laboratories, dated April 9, 1990. There's no document number appearing on this one.

Exhibit 48 is a one-page document on the letterhead of the Department of Health and Human Services, dated October 3, 1990. And this document number at the bottom has been sliced off and can't read it.

Exhibit 49 is a one-page on the letterhead of Kendall Medical Laboratory, dated January 25, 1991. Last three of the document numbers, 428.

And Exhibit 50 is a letter, three-pages, on the letterhead of First Coast Service Options, dated March 2, 2010. Documents numbers ending 441 through 443.

So Exhibit 44 pertains to an application that you submitted on behalf of Kendall Medical Laboratories to become certified under the Clinical Laboratory Improvement Act back in 1988, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And this letter was sent to Kendall Medical Laboratories to inform it that its services would now be covered under the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. In Exhibit 45 and 46 are both agreements that you signed to participate in the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. The second page of both, Exhibit 45 and 46, contain your signature, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And, in fact, back in 1988 Kendall Medical Laboratories did become a participating provider in the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Kendall Medical Laboratories has continuously, since then, been a participating provider in the Medicare program, hasn't it?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Exhibit 47 is a copy of a letter that you signed and you sent to the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Exhibit 48 is a letter from 1990 back to Kendall Medical Laboratories, again, confirming that you had been approved under Clinical Laboratory Improvement Act to continue having your services covered under the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Medicare sent this letter back to

you back in 1990 because you, on behalf of Kendall Medical Labs, had submitted an application, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Exhibit 49 is a copy of a letter that you, again, sent on behalf of Kendall Medical Laboratories to the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And then Exhibit 50 is a copy of a letter from the Medicare program back to you, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And this was sent to you on March 2, 2010, and you actually received it shortly thereafter, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And where this starts off by saying that they have received your enrollment application, that's a correct statement, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

MS. DWYER: I'm going object to form to that, Mark.

BY MR. LAVINE:

Q. It's a correct statement that in 2010 you submitted an enrollment application to the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So it's correct, that when we look at Exhibits 45 and 46, we see that, as a result of the application that you sent to Medicare -- I'm sorry, as a result of this agreement you signed and sent to the Medicare program, they assigned Kendall Medical Laboratories a provider number, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. And that provider number or identification code is L-8495, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. The approval that we see evidenced by Exhibit 44 and the agreements we see as Exhibits 45 and 46 were important to you and to the business of Kendall Medical Laboratories, weren't they?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. It's important, for example, to be approved under CLIA, as we see in Exhibit 44, because then the services rendered by Kendall Medical Laboratories would be covered by Medicare, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And it was important to get Exhibits

44 -- I'm sorry, Exhibits 45 and 46 submitted to the Medicare program and approved so that Kendall Medical Laboratories can directly submit claims to the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And all of this was important because to be an independent laboratory, it was always important to be able to submit claims and be paid by the Medicare program for your services?

MR. DWYER: Objection to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. Kendall Medical Laboratories was founded in 1988, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And that very same year that Kendall Medical Laboratories was founded, it secured approval under the Clinical Laboratory

Improvement Act and signed up to be a participating provider with the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And all of these exhibits that we're looking at here, Exhibits 44 through 50, connect -- are connected to the efforts you've made over the years to remain a participating provider with the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And we see a letter from Kendall Medical Laboratory that contains your signature, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. It's a letter from the Medicare program that's directed to you or to Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. The address that we see for Kendall Medical Laboratory in Exhibit 44 is 2500 Douglas Road, Coral Gables, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. That's the same address where Kendall Medical Laboratory is located at today, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So Exhibit 49 is a letter signed by you and it talks about percentage of tests that were referred to outside laboratories by Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You sent this letter to the Medicare program because you knew that there was a rule about the number of referrals that could be made and you wanted to comply with that rule so that you could continue to be a participant in the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And then Exhibit 49 is a letter you sent in about the referral percentage in 1991, and also Exhibit 47 is a letter regarding the same subject that you sent in 1990, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And as needed, you sent this type of information to the Medicare program so that you could continue to be a participant in that program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You knew that if you didn't provide this type of information to the Medicare program, that you wouldn't be allowed to continue to participate in the program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And if you couldn't participate in

the program, neither you or Kendall Medical Labs would get paid by the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And other laboratories and physicians wouldn't be able to use your services if you were not approved under CLIA, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So continuously, since 1988, you, on behalf of Kendall Medical Laboratories, have done everything necessary to comply with the Medicare rules so that you can continue to be an approved and participating Medicare provider, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. Since 1988 it was always important for Kendall Medical Laboratories to

participate in the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And since 1988 it's always been important for Kendall Medical Laboratories to have its CLIA certification so as to be -- so as to have its services covered by the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Over the years you also did other applications with the Medicare program, such as, for example, executing an electronic data interchange agreement, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And also, on a regular basis, you knew that the pertinent regulations require that Kendall Medical Laboratories had to submit an application for approval under the Clinical Laboratory Improvement Amendment, is that right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

MR. LAVINE: I just marked Exhibits 51 through 54.

(Thereupon, Exhibit 51 through 54 were marked for identification and retained by counsel.)

BY MR. LAVINE:

Q. And Exhibits 51, 53, and 54, all have the same title at the top, it's on the letterhead of AHCA, the Florida Agency for Health Care Administration, and they all say health care licensing application.

Exhibit 52 --

MR. DWYER: Mark, can we just have a second?

MR. LAVINE: Sure. I'm going to describe them for the record.

MR. DWYER: All right.

BY MR. LAVINE:

Q. Exhibit 52 is just four pages, it's titled Clinical Laboratory Improvement Amendments, Application for Certification.

And when you've had a chance to look

at these, I just want to ask you a couple of questions.

So these are all applications submitted by you on behalf of Kendall Medical Laboratories to secure CLIA certifications on an as-required basis, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Each of these was prepared with your approval, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Each of these was signed by you, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you knew you had to send these in because it was important for Kendall Medical Laboratories to have its CLIA certification, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. So it was important for you and for Kendall Medical Laboratories to be aware that the applicable regulations require that these applications be submitted on a regular basis, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And it was important for Kendall Medical Laboratory to send these in in order to keep its CLIA certification, because without it you wouldn't be able to submit claims to the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And when you sent these forms in, you didn't send any false information, did you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You knew that when you filled these out, they needed to be complete and truthful, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So for example, when you said anywhere in here that your hours of operations were Monday to Friday from 9 o'clock in the morning until 4 p.m., that was information you believe to be accurate, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Kendall Medical Laboratories always operated in its own name during all of these years, didn't it?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. There was never any lease of the premises and facilities of Kendall Medical Labs, such that it operated in the name of some other person or entity during any of the time periods covered by these applications, was there?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. And that was true, since at least 2008 to the present, that Kendall Medical Laboratories never was leased to any other entity and operated on behalf of some other entity, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And nothing of that sort has ever been disclosed on any application that you ever prepared and submitted in connection with securing a certification with CLIA, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Over the years, Kendall Medical Laboratories, with your approval, after performing services, has submitted claims for reimbursement to various insurance companies, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. In general, you would submit the

claims to the insurance company that insured the person whose tissue specimen came into the laboratory, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So if the patient was insured by Medicare, you would submit the claim to the Medicare program, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Over the years Kendall Medical Laboratories, with your approval, has submitted claims to many federal employee group health plans, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And it's submitted claims for reimbursement to private insurance companies, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And it's submitted claims to the Medicaid program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And it's submitted claims to other government programs, such as the TriCare program or the railroad retirement program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you understand in the industry it's common to refer to all of these entities together, both the public and private version, as third-party payors, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So when somebody says third-party payors, you know that it means any of these insurance-company-type entities, whether public or private, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. And Kendall Medical Laboratory has been in business continuously since 1988, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And it's even been at the exact same location for all those years, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Probably not too many local laboratories that are able to say that, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And during that entire time, Kendall Medical Laboratory was run by you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Kendall Medical Laboratory has survived all those years under your direction, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And since 1988, you've been the one, on a day-to-day basis, to run and control the operations of Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You could consider yourself as someone who's knowledgeable about the operations of a pathology lab, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And having operated a pathology lab continuously since 1988 you understand the importance of the need to comply with applicable government regulations, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So as we've seen all these exhibits that we've marked today so far, you've

submitted many applications or sent in whatever letters were necessary to continue to remain a Medicare provider, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. One of the things -- one of the laws that you, of course, were aware of, as the operator of a laboratory since 1988, is a statute called the Stark Act, right?

MR. DWYER: Object to form.

BY MR. LAVINE: You still have to answer.

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You've been aware of the provisions of the Stark Act for many, many years, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You've understood for many years -- let me start again.

Since at least the year 2008, you've understood that the Stark Act prohibited a

physician from sending his own patients to an independent laboratory that he owns, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You knew that the Stark Act prohibited a physician from sending his own patients to a lab that he owned, because when that happened the doctors tended to order significantly more lab tests than they otherwise would have, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. You've always known that one of the key reasons behind the Stark Act was over utilization of laboratory services, right?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. You know that the general

understanding is that if doctors also own a laboratory, they make a profit when they bill for those tests, right?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. When a physician makes a profit on the labs, it gave him an incentive to order more laboratory tests, didn't it?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. As a physician who's owned an operated and independent laboratory on a daily basis since 1988, you've also understood that the Stark Act wasn't just limited to the labs that was owned by the doctor referring the patients, right, you knew that it was broader than that?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on

the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. For example, you knew that the Stark Act would also apply if the physician referring the patients had any financial relationship with the laboratory, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. For example, you knew that Kendall Medical Laboratories couldn't get new clients by sending them cash payments, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You knew that Kendall Medical Laboratory couldn't get new patients -- I'm sorry, new clients by sending the referring physician on expensive vacations, right?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. You knew that the Stark Act would prohibit Kendall Medical Labs from trying to get additional physicians to refer patients to it by providing free employees to those physicians, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You knew that the Stark Act prohibited all of that conduct, right?

MR. DWYER: Form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. You knew that the reason behind the prohibition of the Stark Act was that those types of financial inducements would create an incentive for that referring doctor to order unnecessary laboratory tests, right?

MR. DWYER: Form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And so it was important for you, as the operator of a laboratory, to make sure that you complied with the Stark Act, right?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. The Stark Act is something that any owner and operator of a laboratory over the last twenty-plus years would absolutely have to have known about, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE,

Q. You knew that if you violated the Stark Act, that it would be just the same effect as if you lost your CLIA certification or your provider status, you wouldn't be able to bill Medicare, right?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth

Amendment right to silence.
BY MR. LAVINE:
Q. So as the operator of a laboratory since 1988, you needed to be aware of the Stark Act, just like you needed to be aware of the CLIA rules and the Medicare application and participation rules, right?
MR. DWYER: Object on form.
THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
BY MR. LAVINE:
Q. And as the operator of a laboratory since 1988, you've also been aware about the prohibitions of the Anti-Kickback Statute, right?
MR. DWYER: Object to form.
THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
BY MR. LAVINE:
Q. You've always known that you couldn't go out and get a new physician or customers of Kendall Medical Laboratories by paying kickbacks to them, right?

MS. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. You've also known, since at least 2008, that Medicare and Medicaid, TriCare, and federal employee programs for the employees that got health care as a fringe benefit, they're all publically funded health care programs, didn't you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. When Kendall Medical Laboratories billed anything third-party payor for any of its services, it was done pursuant to your direction and approval, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. As the sole owner of Kendall Medical Laboratories since 1988, you were the only person who ever made the decision on how to bill for services that had been rendered by

Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Kendall Medical Labs has always been what's known as a pathology lab, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. It's never done blood tests, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Because it's a path lab or a pathology lab, that means that it specializes in performing laboratory tests on tissue specimens, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you've done hundreds of thousands of pathology tests on different tissue specimens over the years, haven't you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. The standard way for a tissue specimen -- sorry, let me start over.

One of the common reasons for a tissue specimen to be sent to Kendall Medical Laboratory for a test is because it was removed during the course of a biopsy by a dermatologist, right?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. If a dermatologist removed a piece of skin during the course of a biopsy, it would need a pathology test to examine it, both visually and under a microscope to determine whether or not it was cancerous, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And that was one of the most common sources of business for Kendall Medical Laboratories, right?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. And it's correct, isn't it, before you can look at a piece of tissue under a microscope, it requires special processing, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You've known since at least 2008 that Medicare breaks up pathology services into two components, correct, the technical component and the professional component?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And since at least 2008, you've been aware that the technical component for pathology services encompasses the multiple steps with regard to the process of the sample from when it's first sent to the lab through to it being placed on a slide ready for exam by a microscope.

MR. DWYER: Object to form.
THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
BY MR. LAVINE:
Q. Kendall Medical Laboratories has always had the ability to perform that technical component of a pathology test, right?
MR. DWYER: Object to form.
THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
BY MR. LAVINE:
Q. So, for example, the specimen, when it came into Kendall Medical Laboratory, would be fixated and then encased in a block of wax and then after that maybe stained and then placed on a slide where it could be viewed under microscopy, correct?
MR. DWYER: Object to form.
THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
BY MR. LAVINE:

Q. And all those types of services are what are you known as the technical component of the pathology test, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. You've also known, since at least 2008, that the work of the pathologist in viewing the slide under the microscope and then preparing a report is what is known as the professional component of the laboratory services?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. Again, as operator of a lab that's been participating in the Medicare program continuously since 1988, you've been aware of the different CPT codes and related modifiers that could be used to bill Medicare for laboratory services, right?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. So you knew that if you billed for pathology tests and added a modifier, you could submit a claim only for that technical component and not for the professional component?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you knew that you could also submit a claim to the Medicare program through the use of a modifier and only be submitting a claim for the professional component of the services, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Or you could submit a claim to the Medicare program without the use of a modifier and be paid for both the technical component and the professional component, correct, you

knew that?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And when you submit a claim to the Medicare program, or any other insurance company for the technical component and the professional component of a laboratory service, it's commonly referred to as billing globally for that service, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And that's something that you've been aware of since at least 2008, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And as an operator of an independent medical laboratory that's been continuously participating in the Medicare program since 1988, you're generally aware of the requirements to qualify for medical coverage

under the Medicare program, aren't you?
A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
Q. And you've always known that, in general, patients that are age 65 or older will qualify for the Medicare program right?
MR. DWYER: Object to form.
THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
BY MR. LAVINE:
Q. And you know that the largest majority of individuals over the age 65 in this country qualify for and sign up for the Medicare program, correct?
MR. DWYER: Object to form.
THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
BY MR. LAVINE:
Q. Far more often than not, if you saw a patient 65 or older, they would be insured by the Medicare program, correct?
MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And anybody whose operated a laboratory that's participated in Medicare continuously since 1988, would know that most of the patients that have been referred to him that were age 65 or older would be covered by the Medicare program?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. If you didn't know that most individuals in this country over the age 65 are going to be covered by the Medicare program, you wouldn't be able to effectively operate a laboratory?

MR. DWYER: What was the question, the air conditioner shut off?

BY MR. LAVINE:

Q. If you weren't aware that most patients in this country over the age 65 or

older were covered by the Medicare program, you wouldn't have the knowledge necessary to operate a laboratory, would you?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. At some point before 2008, you reached a business agreement with Dr. Gary Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. When did you first meet Dr. Marder?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. How was it that you met him, what were the circumstances?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You knew when you reached this business agreement with Dr. Marder that he

worked out of two clinics, correct, one in Port St. Lucie and one in Okeechobee?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And at the time you first reached an agreement with Dr. Marder, you knew that he didn't own any of the equipment necessary to perform the technical component of any laboratory tests, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. When you first entered into an agreement with Dr. Marder, you knew that he never had any of the equipment necessary to perform the technical component located at his clinic in Port St. Lucie or at his clinic in Okeechobee?

MR. DWYER: Object to form.

MS. ARANGO: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And you knew that Dr. Marder never had any employees with the proper training to perform the technical component of any laboratory services in either Port St. Lucie or in Okeechobee?

MR. DWYER: Object to form.

MS. ARANGO: Same objection.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

MR. LAVINE: What's wrong with the form?

MR. DWYER: I believe your question is super vague. He could have people that work up there who could do technical, how -- you know, anybody, pretty much, can do technical.

MR. LAVINE: That doesn't make it vague.

MR. DWYER: Well --

MR. LAVINE: That means you might say

it's not a correct statement --

MS. ARANGO: I think technical component is vague.

MR. DWYER: Yeah.

MS. ARANGO: To perform technical components, I think that question is vague.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. Dr. Kendall, you know what I mean when I refer to the technical component of a laboratory test, don't you?

MR. DWYER: Mark, objection, that's not how you heal it. If there's an objection on form, you rephrase. You don't rephrase, we're all stuck.

MR. LAVINE: You're not -- yeah, that's what I'm doing. I'm clarifying that the witness understands what I mean by technical component because you're saying that it's vague. I'm asking the witness if he understands what I mean, because I believe that he does, but,

unfortunately, he can't answer.

MR. DWYER: Could he have somebody up there that could cut a slide, I mean, that question is so open.

MR. LAVINE: Yeah, that doesn't make it vague. That means, Dr. Kendall could say, I didn't know whether he did or not.

MR. DWYER: You're just reading a paragraph from the complaint, basically, and asking it as a question. Well, they're vague, they're open-ended, and when I object on form and you don't correct it, we're all stuck.

MR. LAVINE: Well, I can't correct it because you're telling me what's vague is you don't understand what the technical component of a laboratory is when I use that term and --

MR. DWYER: Read the question back.

MR. LAVINE: -- and I tried to ask Dr. Kendall if he understands what that is and ask him to explain what that is so we can have an agreement upon definition of it, and, of course, I can't get an answer. So I don't know what you expect me to do

to clarify it to your satisfaction.

MR. DWYER: I mean, you form questions that are not vague, that's the job. I mean, you know --

MR. LAVINE: If you say so, I don't understand how you expect me to address that kind of a vagueness if your witness won't answer a question and --

MR. DWYER: A lot of these questions are vague and open-ended and industry standards, general understanding, and those types of things. Those are problematic.

You can't -- even if he wasn't taking -- even if he was not exercising his constitutional right, I would object.

MR. LAVINE: Right, and then I could say to the deponent, ask him what his understanding of particular words are and I can get an answer and we can drill-down and sort things out, but that's really not possible in a deposition like this, is it?

So, you know, if you look in the Medicare rules and CPT books, you'll see a description of the technical component and

the professional component of a pathology test. And I think in the industry, when you use those terms when you're speaking to somebody familiar with billing for laboratory services, that they know what the difference is between the technical component and the professional component of laboratory tests. So I don't really understand what you think is vague about asking a question that asks about the technical component of a laboratory test.

MR. DWYER: Okay.

MR. LAVINE: And I don't -- and if your witness won't tell me what his understanding of it is --

MR. DWYER: But that's not his job, Mark.

MR. LAVINE: Yes, yes, it certainly is.

MR. DWYER: His job is to answer questions, not to help you phrase properly.

MR. LAVINE: You're absolutely wrong, because if I asked him what his understanding of a technical component of

a laboratory test is and he told me, then I would say, okay, from now on when I refer to a technical component in my question, I am referring to the definition you just provided me so that we're in agreement on what it means. I can't do that. And that's the way a deposition would normally go. And that way I would make sure that when I said technical component I was referencing the exact same thing that the witness was considering to be the technical component.

So, you know, if some day I'm able to come back to answer these questions again -- ask these questions again and get an answer, I can clarify those things.

MS. ARANGO: I just want register -- my objection is that the term technical component is a broader term and you seem to be using it -- I don't know exactly how you're using it, but because it is broad, I mean, I believe, my understanding is, you know, includes not just, I mean, equipment, supplies, technicians, facilities, I mean, there's all sorts of

things when you say technical component. I think you need to fair it out, you know, you kind of need to -- I think it's vague because it's almost like a compound question just within the term itself, that's my objection.

MR. LAVINE: Okay.

It will be more helpful if there was a solution to the problem, because unless the witness can tell me that he agrees with the particular meaning of technical component that I'm using in my question, I think we're at an impasse. And you can suggest that there's other nuances to the meaning of technical component, but the fact is you can submit a claim to the Medicare program and put the letters TC on it and submit a claim just for the technical component, or you can submit a claim for the professional component with a different modifier, and that's the definition of technical component and professional component that I'm using in all my questions here today, is what would be encompassed by a claim for the

technical component submitted to Medicare and the professional component. All of which goes back to what is specified in the CPT books and the associated Medicare manuals.

BY MR. LAVINE:

Q. Dr. Kendall?

A. Repeat the question, I lost it.

Q. Yes. You're aware that when a claim is submitted to the Medicare program, it's within your power to specify whether you're submitting a claim for the technical component of a lab test or the professional component of the lab test, or both components together, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And the employees that you've hired over the years to work at Kendall Medical Laboratories to perform those services within the definition of the technical component of a laboratory test, have always had the appropriate training necessary to do that, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

MR. DWYER: Same objection.

BY MR. LAVINE:

Q. You hired trained testologist to do part of the tests, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You make sure that anybody who is operating any of your equipment or placing specimens on the slide are properly trained to did that, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And back when you first reached an agreement with Dr. Marder for him to refer his tissue specimens to you, you knew that he didn't have the trained employees like you do or the equipment like you do to perform those tests, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on

the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. So at some point prior to 2008, you reached an agreement with Dr. Marder where he would refer all of his tissue specimens to Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And, in return for his referrals of those tests, those tissue specimens to Kendall Medical Laboratories, one of the things you agreed to send him was fully completed pathology reports, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And, as part of that agreement of sending back to him completed pathology reports, you also agreed you would be doing all of the underlying work necessary to generate that report, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on

the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. So if your agreement, in part, was that if Dr. Marder referred his tissue specimens to Kendall Medical Laboratories, that Kendall Medical Laboratories would perform all of the associated and necessary pathology services necessary to generate a full and complete pathology report, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. One of other elements of the agreement you reached with Dr. Marder regarding his referral of specimens to Kendall Medical Laboratories, is you would cause a pathology report to be printed out on the letterhead of an entity that was called "The Gary Marder Medical Laboratory," correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. But you knew that Dr. Marder didn't actually have his own laboratory capable of performing these tests, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. Of course you knew that you were doing all of the work of the -- led up to the ability to create the pathology report, not any entity named Gary Marder Medical Laboratory, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. One of other key elements of the agreement you reached with Dr. Marder was that the pathology report would be preprinted by you with the signature block for Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. And that additionally you would cause Dr. Marder's signature to be placed on this signature block either by the use of a rubber stamp or through an electronic application of the signature, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And when you sent these pathology reports back to Dr. Marder on his letterhead with his name already signed on it, you knew that he was going to be using them to submit claims to insurance companies, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you knew that that was going to be very valuable to him, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. You knew that he would be collecting

money directly from any insurance companies that he billed for the work reflected on that pathology report, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you actually intended, when you send those path reports to them, that he would collect that money, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you knew that it was a benefit to Dr. Marder for the arrangement to be handled this way because then he would bill and collect the entire amount paid by the insurance company for that pathology test without having actually done any of the work, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. All that Dr. Marder needed to do was

to send tissue samples to you through a delivery service and then wait for the pathology reports to be returned in the next day or two, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You or other employees of Kendall Medical Laboratories performed all of the services necessary to perform the pathology tests on the tissue samples referred by Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Dr. Marder never performed any of the services related to the tissue samples that he referred to Kendall Medical Laboratories, did he?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. It was common for Kendall Medical Laboratories to perform laboratory tests on tissue samples and generate the resulting

pathology report on the letterhead of Kendall Medical Laboratory, wasn't it?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. In fact, the most common way for Kendall Medical Laboratories to handle the processing and generation of a pathology report for tissue samples referred to it by other physicians was for that report to be generated on the letterhead of Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And then Kendall Medical Laboratories was the entity which billed Medicare or other insurance programs for those pathology services, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Kendall Medical Laboratory, with your participation, prepared a customized requisition form for Dr. Marder's use when

sending tissue specimens to Kendall Medical Laboratory, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. The normal requisition used by Kendall Medical Laboratory always had a space for information about the patients' insurance, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. But with respect to the custom form you prepared for Dr. Marder, you purposely removed the section in which the doctor would place the insurance information, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. But even though the requisition form didn't require Dr. Marder to include information about the insurance for their particular patient, you knew the age of the

patients that were being referred to you, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Dr. Marder's requisition forms for Kendall Medical Laboratory included the date of birth of the patient for whom the tissue sample was taken, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And the computer system that was utilized by Kendall Medical Laboratory would calculate the age of that patient and include it on the pathology report that was generated after the tissue specimens were examined?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And so you could see exactly which patients were age 65 or older with respect to the tissue samples that Dr. Kendall(sic) was referring to Kendall Medical Laboratories, correct?

A. Do you want to restate that.
Q. You could tell which of the patients referred to Kendall Medical Laboratory by Dr. Marder were age 65 or older.
A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
Q. And you knew most of them would be covered by the Medicare program, correct?
A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
Q. And when you sent the fully completed path report back to Dr. Marder for those patients 65 or older, you knew and intended for him to submit a claim for those services to the Medicare program, correct?
MR. DWYER: Object to form.
THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.
BY MR. LAVINE:
Q. His collection of global amount paid when he billed for the pathology services reflected by those pathology reports was an

integral part of the scheme which was entered between you and Dr. Marder, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. In addition to referring these tissue specimens to you, part of your agreement was that Dr. Marder would send additional compensation to you in the form of cash payments, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. In other words, the basis --

MR. DWYER: Could you repeat that last questions, I'm sorry.

BY MR. LAVINE:

Q. So part of the deal was Dr. Marder would refer tissue specimens to Kendall Medical Laboratory, right, part of the deal was that --

MS. DWYER: Mark, I hope you -- do you have a basis for this question somewhere, because if you're just getting him to invoke on this question, I'm going -- I have a problem with that.

MR. LAVINE: I have plenty of basis.

MR. DWYER: For cash payments?

If you're just trying to get him to invoke so that we take an adverse --

MR. LAVINE: All right, let me -- no, you know what, Jed, let me interpret that to be an objection on the basis of vagueness and I'll restate it.

MR. DWYER: Okay. I don't mean to be --

MR. LAVINE: I'm not talking about a bag of dollar bills when I say cash.

MR. DWYER: Okay.

MR. LAVINE: But he sent money, either in the form of check or a credit card payment.

MR. DWYER: That's fine.

MR. LAVINE: To me, that's still a cash payment.

MR. DWYER: Okay, okay, I just didn't

-- I understood it differently, that's why --

MR. LAVINE: Okay. All right.

MR. LAVINE:

Q. So with that clarification. Let me just clarify three elements of the agreement that you had with Dr. Marder. One was that he would refer all his tissue specimens to you. Another element was that you would perform all of the work on those specimens and send a completed pathologist report back to him so that he could bill insurance companies for that work. And another key element was that Dr. Marder would also pay additional compensation to you, either through a check or a credit card payment, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And one of the reasons that this agreement was attractive to Kendall Medical Laboratory was that it secured a client that supplied a steady stream of tissue samples for the lab to work on, correct?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. And it was a beneficial agreement for Dr. Marder because he could bill and collect for 100 percent of the pathology services, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And then the payments that Dr. Marder sent back to you and/or Kendall Medical Laboratories represented only a portion of the money that Dr. Marder collected from insurance companies in connection with those pathology reports, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. So all of the money that was left over from the insurance company collections that Dr. Marder received after sending the payments owed to you, were very invaluable to Dr. Marder, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. It was part of the agreement -- an intended part of the agreement that you had with Dr. Marder was that the amount that he would collect from the insurance would be much more than the amount that he would then send back to you as a payment for the pathology services you were providing, right?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. In fact, the way that you specified the dollar value of the amount that Dr. Marder would pay you is by generating an invoice for the technical component of the services that you were performing, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. If I show you what we previously marked as Exhibit 30, you would agree those are examples of the manner in which you submitted invoices to Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And on the first page is a summary of all of the services that you performed on tissue samples referred by Dr. Marder for the month that's referenced therein, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And the pages that follow set out those services for each of the patients that were referred individually, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And so your agreement with Dr. Marder was that he would only be obligated to return to you the dollar amounts that were reflected on these invoices that you prepared monthly, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And at some point, however, you reached an agreement with Dr. Marder that you would pretend to be his employee as a method of helping to hide your arrangement from auditors or other investigators who might be looking at your business dealings, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. So you signed what was called an employment agreement but you weren't really Dr. Marder's employee, were you?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And the salary -- I'm sorry, let me start over.

The money that was paid to you and

called a salary, pursuant to the employment agreement, was actually just a payment for the technical component that we see reflected and invoiced in Exhibit 30, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And if that's not correct, please tell me the way that it did work.

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. I'm going to show you Exhibit 36 and just ask that if it's correct that the employment agreement that you signed with Dr. Marder was signed by you in the year 2013?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And that that information on the front of Exhibit 36 is something recognized to you to be the fax confirmation on the fax machine located at Kendall Medical Laboratory, correct?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. And the date and time on the fax machine at Kendall Medical Laboratories was always maintained to be accurate, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Because it was important for the laboratory to know what time faxes went in and out of the company, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So if that fax says that it was sent in August of 2013 -- I'm sorry, let's start over.

If this fax has a date on it saying that it was sent in April of 2013, you would agree that that would be the correct date that it was actually sent, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And the fax that we see in Exhibit 36

shows an employment agreement that you signed at or about the time that you sent the fax, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

(Government Exhibit 55 was marked for identification and is attached hereto.)

BY MR. LAVINE:

Q. I just marked as Exhibit 55 a document entitled Physician's Employment Agreement, initial document number is GM-0140.

If you look at the page with the Document Number of 0145, Dr. Kendall, you'll see your signature which matches with the signature you transmitted by fax in the year 2013, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Except Exhibit 55 is a version of the employment agreement that also has the signature of Dr. Marder on the final page, right?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. The version that you faxed, as we see in Exhibit 36, did not have a signature for Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And when you signed this document and sent it to Dr. Marder, the first page at the very top where there is a spot for the date, signature, was blank, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Exhibit 36 shows that you transmitted this document in April of 2013, whereas Exhibit 55 has a date on it of the year 2000, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And that handwriting on the first page of Document 55 is not your handwriting, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You didn't have any written agreement of any type with Dr. Marder prior to the date that you signed and transmitted this in the year 2013, did you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Another part of your discussions with Dr. Marder relating to your agreement relating to the referral of tissue specimens pertained to the execution of a lease between Dr. Marder and Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. But there was never any lease executed between Dr. Marder and Kendall Medical Laboratories, was there?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. The document that's previously been

marked as Exhibit 37 is not something that was ever converted to a final form and signed by you and Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. I'll just show you something, please, on the page Document Number GM-0088 under patient billing it refers to bone density scans, that reference to bone density scans was completely irrelevant to any of the business dealings that you had with Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Kendall Medical Laboratory never performed bone density scans, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Did you ever see this draft document, Exhibit 37?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. But there's certainly no signed version of that lease between you and/or Kendall Medical Laboratory and/or Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. There's never been any oral agreement for a lease between you and/or Kendall Medical Laboratory and/or Dr. Marder, has there?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Dr. Marder never made lease payments to Kendall Medical Laboratories or to you for the lease of any of the premises of Kendall Medical Laboratories?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. When Dr. Marder -- at all times that Dr. Marder was referring tissue specimens to Kendall Medical Laboratories, those tissue specimens were handled by Kendall Medical

Laboratories in the same manner that Kendall Medical Laboratories handled tissue specimens from every other one of its clients?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You knew that Dr. Marder was submitting claims to insurance for the pathology services that were reflected by your pathology reports, that he collected millions of dollars from 2008 forward, didn't you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Because you and Kendall Medical Laboratory would often bill for those services so you could easily calculate the approximate amount that Dr. Marder would have received when he was billing for those services, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And so you would have known that Dr. Marder was collecting approximately

$5 million or more in connection with the pathology services that you performed and were reflected in the pathology reports that you sent back to him, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. As part of your agreement with Dr. Marder, you applied any of the payments that were called to be salary against the amount owed on the invoices for the technical component, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So if we look at page two of Exhibit 30, we can see three entries in a row for $8,333.33, that was a credit to the technical component invoice in an amount equal to the so-called paychecks that Dr. Marder were sending to you, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Because Dr. Marder wasn't actually

sending you that money as a payment for a salary, he was actually sending that to you as a payment on these invoices, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And all the arrangements about a paycheck and employment agreement and any kind of related taxes, all had to do with helping to hide the true nature of the relationship between you and Dr. Marder, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And in the ordinary course of business, the amount that Dr. Marder owed as per the invoices that, where we've seen some examples in Exhibit 30, that amount typically exceeded the dollar value that was paid through the employment agreement, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So it was a normal course of business for Dr. Marder to pay the additional amounts owed on the invoices by credit card payment, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So in the end, the total amount ever paid to you by Dr. Marder never exceeded the amounts that are reflected on the invoices for the technical component, as we see on Exhibit 30, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So at best, Dr. Marder paid you and Kendall Medical Laboratories for the technical component of those pathology tests, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Because when we look at the invoices based upon the descriptions, you can tell whether the claim was being submitted for the technical component or not, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Because, for example, many of them have CPT codes with the letters TC after it, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And so that if the invoice says, for example, CPT 88305 and then the letters TC, that was an amount that you were invoicing to Dr. Marder for the technical component of those services, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And your agreement that you've always had with Dr. Marder was that he was never expected or required to pay you for any of the additional services that you provided on his behalf, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So there was never any payments from Dr. Marder to Kendall Medical Laboratories or to you above and beyond what we see invoiced on Exhibit 30, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And so, in general, Dr. Marder never paid any additional compensation to you or to Kendall Medical Laboratories for any of the professional component services of the laboratory tests that were performed on the tissue samples he referred to you, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So by agreement with Dr. Marder, your intent was to provide free professional component services for the lab specimens he referred to you, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And then you knew he could bill insurance companies and collect globally for

the professional component and the technical component, but only have to pay back to you the amount you were charging for the technical component, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And any additional money that was left over in the hands of Dr. Marder, after sending you a share related to the technical component that was invoiced, would be profit that Dr. Marder got to keep for himself, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. I mean, in effect, you were giving him a free pathologist to perform all of his examinations of the specimens under a microscope and generating a report, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And you knew that that was a violation of the Anti-Kickback Act and the

Stark Act, didn't you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. During the course of your relationship with Dr. Marder, you always provided your own tools and equipment necessary to perform the lab services, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. The only equipment and supplies that Kendall Medical Laboratory ever used to perform any pathology test on the tissue specimens referred by Dr. Marder were those that were acquired and used by Kendall Medical Laboratory in the ordinary course of business?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And, in other words, none of those supplies and equipment to perform the tests were provided to you by Dr. Marder?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. And Dr. Marder never had the right to tell you how you were to perform the professional services and technical component services associated with the tissue specimens he referred to you, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Except for the nature of the pathology report itself, you made all these decisions on how to perform everything that was necessary, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Kendall Medical Laboratories has always been 120 miles or more from any of the clinics owned and operated by Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And your agreement with Dr. Marder

meant that you would perform the professional services needed to generate a pathology report on those tissue samples, but Dr. Marder never had the right to assign any additional job duties to you.

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And even though the written employment agreement that we saw, Exhibit 36 is one version of it, specifies that Dr. Kendall shall devote no less than 15 hours per week to these duties to the client, that was a provision that was never actually tracked or enforced, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And where it says "you shall not spend more than 15 hours working for any other client," that provision was never tracked or enforced either, was it?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And on a day-to-day basis, Dr. Marder didn't really know what tissue specimens you were working on or what client they came from, did he?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Dr. Marder was only in your premises of Kendall Medical Laboratories a few times over all the years that you had a relationship with him, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Dr. Marder was never on the premises of Kendall Medical Laboratory in order to perform any actual pathology services, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Dr. Marder never had the ability to decide who would be hired as an employee at Kendall Medical Laboratories, did he?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. Did he -- did Dr. Kendall ever pay anything directly to any of the employees of Kendall Medical Laboratories?

MR. DWYER: You mean Dr. Marder?

BY MR. LAVINE:

I'm sorry. Did Dr. Marder ever pay any compensation of any type directly to any other employees of Kendall Medical Laboratories?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. The work that you performed in connection with the tissue specimens referred by Dr. Marder were not a part of Dr. Marder's regular business, were they?

Let me clarify, Dr. Marder's regular business didn't include processing tissue specimens and examining the tissue specimens under a microscope and generating a pathology report as did Kendall Medical Laboratories, right?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. Dr. Marder ran a physician's office, not a medical laboratory, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Dr. Marder never provided you with any employee benefits, did he?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You never had to report sick days or vacation time to Dr. Marder, did you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Dr. Marder never tracked your sick days or vacation days in any way, did he?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Dr. Marder didn't have any say in how many sick or vacation days you ever had, did he?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Dr. Marder never performed any type of performance evaluation of you, did he?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And Dr. Marder never gave you any kind of a raise, did he?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And the employment agreement that you did sign with Dr. Marder that we see in Exhibit 36, that's labeled an employment agreement, actually, on the same page as your signature references compliance with the Anti-Kickback Statute, doesn't it?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Sorry, I'm reading upside down.

Within the first paragraph that begins on the prior page, on the same page of

your signature, the top paragraph, cites to the Anti-Kickback Statute, doesn't it?

So that is a citation to the Anti-Kickback Statute that was there when you signed that document, correct?

There is a pending question.

A. Sorry. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So right there in the agreement, what you called an employee agreement, it says that, "Neither party will knowingly or intentionally conduct them self or itself in such a manner as to violate the prohibition against paying or receiving, offering or soliciting any remuneration, directly or indirectly, in exchange for the referral of patients in connection with the Medicare, Medicaid, and other federal benefit programs, and in connection with any other patients," it says that right there in the agreement that you signed, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. When in truth is that all of the money that was paid under this so-called physician employment agreement was intended exactly for that purpose, to induce the referral of patients, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So parts of your agreement with Dr. Marder changed over time, didn't they? For example, the original agreement was that you would cause pathology reports to be printed with both his signature and your signature or the signature of a pathologist employed by you, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So initially, there were always two signatures on any of the pathology reports that you generated, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. But later on you reached an agreement

with Dr. Marder that when you printed these pathology reports, they would then just include Dr. Marder's signature, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And at different times the pathology reports you printed on behalf of Dr. Marder included a statement to the effect that Kendall Medical Laboratory had done some portion or perhaps all of the technical component of the services, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And even though there was a statement relating that Kendall Medical Lab had performed the technical component of those services, the truth was that Kendall Medical Laboratories had always performed all of the services associated with the testing, including the professional component, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And all of the different variations in the way that you printed these pathology reports on the letterhead of Dr. Marder Medical Lab were done as part of the scheme that you entered into with Dr. Marder for him to refer the specimens to you in return for his pathology reports, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. But the changes that we've seen in pathology reports over time were implemented in order to further advance the agreement that you had with Dr. Marder, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. In large part, for example, the changes that were made to the pathology reports by agreement between you and Dr. Marder were done for the purpose of making

it easier for him to submit claims to insurance for the services reflected on those reports, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. Because at some point Dr. Marder only wanted his signature on the report and not yours, to make easier for him to submit claims?

MR. DWYER: Object to form?

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. And as part of the agreement, you knew that by eliminating the signature block for Kendall Medical Laboratories, it would make it easier for Dr. Marder to deceive the insurance companies into believing that he had performed some of those services, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on

the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. In a prior deposition we marked Exhibit 26, which I believe the first two pages are screen shots from an internal -- I'm sorry, let me show you this one which has the official sticker on it.

The first two pages are screen shots from the internal computer system at Kendall Medical Laboratories, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. This is the system that you helped to design, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You are completely conversant with all the details in the operation of this computer system, are you?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth

Amendment right to silence.

BY MR. LAVINE:

Q. You're the only one that's ever made any changes in this computer system that would affect the manner in which the pathology reports for Dr. Marder's tissue samples were printed, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So if the pathology reports for the tissue samples referred by Dr. Marder were printed out on the letterhead of -- that stated the name of the entity was Gary Marder Medical Laboratory, that was because you input that information, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. If those pathology reports came out with the signature block for Dr. Marder, it was because you input that information yourself, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. And if those pathology reports were thereafter changed to eliminate the signature block for Kendall Medical Laboratory, you or Dr. Farooq, that was due to changes that you personally input in this computer system, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. No other employees of Kendall Medical Laboratory were ever authorized to make any changes of that type, were they?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Exhibits 27 and 28 that were marked at a prior deposition, those examples are physician/clients of Kendall Medical Laboratory that referred tissue specimens for pathology exams through Kendall Medical Laboratories, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. But for these tissue samples referred by other physicians, Kendall Medical Laboratories billed the insurance companies directly, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. In fact, on these two particular examples, Kendall Medical Laboratory billed the Medicare program, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So here the doctors sent tissue samples to Kendall Medical Laboratories, Kendall Medical Laboratories performed all the services, generated a pathology report on the letterhead of Kendall Medical Laboratories, and it was Kendall Medical Laboratories that submitted the claim to the Medicare program for payment, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And that was a common way -- I'm

sorry, let me start over.

That was the most common way in which your dealings were handled with respect to tissue specimens referred by other physicians, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. The type of arrangement that you had with Dr. Marder whereby you sent and completed reports and let him bill the entire amount to insurance, was something that you only did with a couple of other physicians, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. For example, on Exhibit 29 you see documents reflecting that you had that type of arrangement with your ex-wife, Dr. Elena Kendall, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Exhibit 32 is an example of a scanned version of the signature of Dr. Marder that

you plugged into your computer system that we see reflected on Exhibit 26 so that it could be electronically applied to all the pathology reports that were thereafter completed, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And that signature was provided to you by Dr. Marder as part of your agreement with him and was used to further advance your scheme to defraud the Medicare program, correct?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. Were you aware that Dr. Marder's normal way of doing business involved routinely fabricating medical records to submit to the Medicare program?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth

Amendment right to silence.

BY MR. LAVINE:

Q. So no one had ever -- let me start over.

You didn't know that Dr. Marder would, sometimes months and years after services were performed, would create medical records solely for the purpose of sending them to the Medicare program in order to help him get paid?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

MR. LAVINE: Do you have any objection if we used a copy of what was marked?

MR. DWYER: No.

MR. LAVINE: This is a copy of what was marked as Exhibit 41.

BY MR. LAVINE:

Q. So your testimony would be that you never knew that all of the documents beyond the first couple of pages, that all the medical records after the first couple of pages were all falsified by Dr. Marder and

sent to the Medicare program, you didn't know about any of that?

MS. ARANGO: Objection to the form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. For example, you didn't know that those initials there on the right column were all cut and pasted into that document?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And then all the other documents thereafter reflecting dates of service in 2011 weren't actually created and signed until sometime in 2013, you didn't know any of that?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You didn't know that it was routine for Dr. Marder to fabricate a collection of documents in that manner in virtually every circumstance where the Medicare program or some other insurance company required

additional documentation for the services?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Dr. Marder never disclosed anything about his operations in this regard to you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Would knowledge on your part of routine fabrication of documents similar to what we see in Exhibit 41 have been something you would have wanted to have known when you entered into an arrangement with Dr. Marder?

MS. ARANGO: Objection to the form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. I wanted to show you Exhibit 42 and ask you if you've seen any kind of document like that that would have been prepared by Dr. Marder.

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. Did Dr. Marder ever issue any form 1099s to you or to Kendall Medical Laboratories in connection with any of the payments that were made in connection with the invoices that we see in Exhibit 30?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Is it fair to say that Dr. Marder did not issue any 1099s to you or to Kendall Medical Laboratory for any of those payments?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Did Dr. Marder ever tell you that he had employment agreements with his physician assistants that offered an extra $10,000 bonus if they averaged a high enough number of biopsies on a daily basis?

MS. ARANGO: Objection to the form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. Were you aware of any request that came from Dr. Marder or on his behalf around the 28th of July of this year for reprints of pathology reports at the time that it happened?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. When did you learn about that, if ever? Did you ever learn about any request -- sorry.

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Let's do that again.

Did you ever learn about a request from Dr. Marder or his office on or around the 28th of July for the reprint of a large number of pathology reports?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. So I assume anything else I ask about that incident would meet the same objection, is that correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. I don't know how I can ask that, sorry.

When Dr. Marder referred specimens to Kendall Medical Laboratories, they were tracked on the same accession system as specimens coming from every other client, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And after they were initially processed for a preliminary path report and started on their processing journey, it was the same way that Kendall Medical Labs did it for all the other clients, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. The only difference in the way that Dr. Marder's specimens were handled related to the manner in which the pathology reports were printed, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. You certainly didn't shut down the lab to all other clients so as to only work on Dr. Marder's specimens at some portion of the day, right?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

MR. LAVINE: Let's take a break, please.

(Thereupon, there was a discussion off the record.)

MR. LAVINE: We're back on the record.

BY MR. LAVINE:

Q. We marked at a previous deposition but never used Exhibit 35, which is a one-page document, and the last four numbers on the document number are 8132.

This is a copy of an e-mail that you sent to Dr. Marder, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to

silence.

Q. And he asked you to send to him a copy of the employment agreement that had been signed in connection with your arrangement with him, correct?

MS. ARANGO: I apologize, what exhibit number is that?

MR. LAVINE: Number 35.

MS. ARANGO: Got it.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. The date on here is correct, that on November 26, 2014, just a few days after the complaint in this case as served on you and on Dr. Marder, you sent to him a copy of that employment agreement by e-mail, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. All right. And is that a copy of the agreement that was transmitted by this fax something that's available in your documents?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. Do you know if the version of the agreement that you sent to him is the one with one signature or the one with two signatures?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Is Dr. Marder still referring tissue specimens to you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Are you still generating pathology reports on the letterhead of the entity called Gary Marder Medical Laboratory?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Are you still letting him bill globally for the work related to any such pathology reports?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And in return, are you still only receiving money from Dr. Marder in an amount that you've invoiced to him based upon the technical component of those tests?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Since this case was filed, have you made any changes to the nature of the way you do business with Dr. Marder?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. Do you still live in the same location, on Grove Isle?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. In all your dealings with Dr. Marder, it was your belief that if you insisted on submitting the claims to the insurance companies for these services, that he would not have referred any of these tissue specimens to you, correct?

A. Respectfully, and on the advice of

counsel, I assert my Fifth Amendment right to silence.

Q. And in evaluating this case, you've -- let me start over.

You've asserted an affirmative defense based upon advice of counsel, but is it correct that you've never consulted your own attorney in connection with any of the issues raised in this case?

MR. DWYER: Object to form.

THE WITNESS: Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

BY MR. LAVINE:

Q. It's true, isn't it, that at the time you decided to reconfigure the pathology reports and eliminate the signature block for anybody from Kendall Medical Laboratory, that you were questioned about the purpose for doing that by one of your employees, weren't you?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. That employee wanted to know why you

would be doing that, correct?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

Q. And at some point thereafter, that employee resigned from Kendall Medical Laboratories, didn't she?

A. Respectfully, and on the advice of counsel, I assert my Fifth Amendment right to silence.

MR. LAVINE: All right.

I have no further questions, unless we reach a point where no assertion of privilege is required.

MR. DWYER: Okay.

All right, Jackie, talk to you later.

(Thereupon, the deposition was concluded at 1:15 p.m.)

CERTIFICATE

STATE OF FLORIDA:
: SS.
COUNTY OF BROWARD:

I, SONNIA MARTINEZ, COURT REPORTER AND NOTARY PUBLIC, IN AND FOR THE STATE OF FLORIDA AT LARGE, DO HEREBY CERTIFY THAT ROBERT KENDALL, M.D., WAS BY ME FIRST DULY SWORN TO TESTIFY THE WHOLE TRUTH; THAT I WAS AUTHORIZED TO AND DID REPORT SAID DEPOSITION IN STENOTYPE; THAT A FOREGOING PAGES, NUMBERED FROM 1 TO 122, INCLUSIVE, ARE A TRUE AND CORRECT TRANSCRIPT OF MY SHORTHAND NOTES OF SAID DEPOSITION.

I FURTHER CERTIFY THAT SAID DEPOSITION WAS TAKEN AT THE TIME AND PLACE HEREINABOVE SET FORTH AND THAT THE TAKING OF SAID DEPOSITION WAS COMMENCED AND COMPLETED AS HEREINABOVE SET OUT.

I FURTHER CERTIFY THAT I AM NOT AN ATTORNEY OR COUNSEL OF ANY OF THE PARTIES, NOR AM I A RELATIVE OR EMPLOYEE OF ANY ATTORNEY OR COUNSEL OF ANY PARTY CONNECTED WITH THE ACTION, NOR AM I FINANCIALLY INTERESTED IN THE ACTION.

THE FOREGOING CERTIFICATION OF THIS TRANSCRIPT DOES NOT APPLY TO ANY REPRODUCTION OF THE SAME BY ANY MEANS UNLESS UNDER THE DIRECT CONTROL AND/OR DIRECTION OF THE CERTIFYING REPORTER.

DATED IN MIRAMAR, BROWARD COUNTY, FLORIDA, THIS 16th DAY OF SEPTEMBER, 2015.

SONNIA MARTINEZ, NOTARY PUBLIC
STATE OF FLORIDA, AT LARGE.

CERTIFICATE

THE STATE OF FLORIDA,
COUNTY OF BROWARD.

I hereby certify that I have read the foregoing deposition by me given, and that the statements contained herein are true and correct to the best of my knowledge and belief, with the exception of any corrections or notations made on the errata sheet, if one was executed.

Dated this _____ day of ___, 2015.

(Deponent's name)

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV- MOORE/TORRES

UNITED STATES OF AMERICA; and the
STATE OF FLORIDA, *ex rel.*
THEODORE A. SCHIFF, M.D.

Plaintiffs,

FILED IN CAMERA
AND UNDER SEAL

v.

GARY L. MARDER, D.O.;
ALLERGY, DERMATOLOGY & SKIN
CANCER CENTER, INC., a Florida corporation
ROBERT I. KENDALL, M.D., and
KENDALL MEDICAL LABORATORY, INC.,
a Florida corporation,

Defendants.
_____/

UNITED STATES' COMPLAINT IN INTERVENTION

The United States brings this action to recover damages and penalties under the False Claims Act (FCA), 31 U.S.C. §§ 3729-33, and to recover all available damages for common law fraud, payment under mistake of fact and unjust enrichment. This action is based upon false claims submitted to the Medicare and TRICARE programs as a result of the sustained fraudulent course of conduct of defendants Gary L. Marder D.O. ("Marder"), Allergy, Dermatology & Skin Cancer Center, Inc., a Florida corporation ("ADSCC"), Robert I. Kendall, M.D. ("Kendall") and Kendall Medical Laboratory, Inc., a Florida Corporation ("KML").

In connection with the first scheme, which commenced on or before January 1, 2008, Marder and ADSCC submitted numerous false claims to Medicare and TRICARE for radiation therapy and other related services that were (1) not rendered, (2) not properly supervised, (3)

rendered by unqualified personnel or (4) were billed in violation of applicable guidelines. All claims submitted or caused to be submitted in furtherance of this scheme violated the False Claims Act ("FCA"), 31 U.S.C. § 3729, *et seq*. and common law.

In connection with the second scheme, which also commenced on or before January 1, 2008, Marder and ADSCC entered into a kickback arrangement to obtain financial compensation from Kendall and KML in return for Medicare referrals. Kendall and KML allowed Marder and ADSCC to bill and collect payment from Medicare for laboratory work that had been performed by Kendall and KML. In return for being allowed to bill and collect funds for these services from Medicare, Marder and ADSCC referred Medicare patients to Kendall and KML, and paid Kendall and KML a discounted amount for the services. All claims submitted or caused to be submitted in furtherance of this kickback scheme violated the False Claims Act ("FCA"), 31 U.S.C. § 3729, *et seq*., and common law.

I. NATURE OF ACTION

1. This is an action brought by Plaintiff, the United States of America ("United States" or "Government"), to recover treble damages and civil penalties under the FCA, 31 U.S.C. §§ 3729-3733, and to recover damages under common law theories of payment by mistake of fact and unjust enrichment.

2. Relator Theodore A. Schiff, M.D. originally filed this action on behalf of the United States pursuant to the *qui tam* provisions of the FCA, 31 U.S.C. § 3730(b)(1). The United States files this complaint in intervention as to defendants Marder, ADSCC, Kendall and KML pursuant to 31 U.S.C. § 3730(b)(3).

a. Services not Rendered or Supervised, or Rendered by Unqualified Personnel

3. From January 1, 2008 through the present, Marder and ADSCC submitted or caused to be submitted to Medicare and TRICARE numerous claims for services which were (1) not rendered, (2) not properly supervised, (3) rendered by unqualified personnel or (4) were billed in violation of applicable guidelines. For example, ADSCC billed for radiation administered by employees lacking proper training and supervision because Marder was absent from the country when the radiation was administered and because Marder was the sole physician supervising two geographically separate medical offices. ADSCC also billed for the administration of radiation therapy in violation of numerous Medicare and TRICARE rules, including billing for high energy radiation with a device it did not even own.

b. Laboratory Kickback Scheme

4. From January 1, 2008 through the present, Marder and ADSCC solicited and received remuneration from Kendall and KML in return for the referral of Medicare patients to Kendall and KML. Kendall and KML provided remuneration to Marder and ADSCC by allowing them to bill and collect payment from Medicare for laboratory work that had been performed by Kendall and KML.

5. Kendall and KML provided this remuneration with the intent to induce patient referrals from Marder and ADSCC, and to reward Marder and ADSCC for prior referrals, in violation of the Anti-Kickback Statute ("AKS"), 42 U.S.C. § 1320a-7b. This remuneration also created a financial relationship with Marder and ADSCC, causing the referrals to be prohibited and in violation of the Stark Law, 42 U.S.C. § 1395nn. Marder and ADSCC were not entitled to reimbursement for the claims submitted for payment for laboratory services arising out of this illegal scheme and therefore submitted claims in violation of the FCA as well. Marder and

ADSCC knew ADSCC was not entitled to payment for services procured through violations of the AKS and Stark Law.

6. The United States' claims against Marder, ADSCC, Kendall and KML under the FCA are based upon false certifications and false or fraudulent claims that they presented or caused to be presented to Medicare for laboratory services provided to patients referred by Marder and ADSCC to Kendall and KML due to financial inducements and relationships that were illegal under the AKS and Stark Law.

II. JURISDICTION AND VENUE

7. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. §§ 1331, 1345 because this action is brought by the United States as a plaintiff pursuant to the FCA.

8. This Court may exercise personal jurisdiction over defendants pursuant to 31 U.S.C. § 3732(a) and because defendants reside and transact business in the Southern District of Florida.

9. Venue is proper in the Southern District of Florida under 31 U.S.C. § 3732 and 28 U.S.C. § 1391(b) and (c) because defendants reside and transact business in this District.

III. PARTIES

10. The United States brings this action on behalf of the Department of Health and Human Services ("HHS") and the Centers for Medicare & Medicaid Services ("CMS") (formerly known as the Health Care Financing Administration). HHS, through CMS, administers the Medicare program, which was created in 1965 as part of the Social Security Act, 42 U.S.C. § 1395, et seq., to provide federally-funded health insurance, including for laboratory services, for

persons age 65 or older, persons under 65 with certain disabilities, and persons of all ages with end-stage renal disease. The United States also brings this action on behalf of the Department of Defense ("DOD"). DOD administers the TRICARE program which is the federal health care system for uniformed service members, retirees, and their families worldwide established by 10 U.S.C. §§ 1071-1110.

11. Relator Theodore A. Schiff is a resident of Palm Beach County, Florida, and filed this action on behalf of himself, the STATE OF FLORIDA, and the UNITED STATES OF AMERICA. Relator is a double Board Certified Medical Doctor in Dermatology and Dermatopathology licensed to practice Medicine in the State of Florida.

12. Defendant Marder (a/k/a Gary L. Marder D.O.) (MARDER) is a physician, who resides in Palm Beach County, Florida, and who was licensed to practice Medicine in the State of Florida at all times relevant to this Complaint.

13. Defendant, Allergy, Dermatology & Skin Cancer Center, Inc. (ADSCC) is a Florida Corporation owned and operated by MARDER doing business at 9580 South Federal Highway, Port St. Lucie, FL 34952, with a satellite office located at 202 NE 2nd Street #2 Okeechobee, Florida 34972.

14. Marder was the President of and controlled the operations of ADSCC at all times relevant to this Complaint.

15. Since on or before January 1, 2008, Defendant ADSCC has submitted claims to Medicare and TRICARE for radiation oncology services and clinical laboratory services rendered to patients at two locations in Florida which are approximately 40 miles driving distance from each other:

a. 9580 South Federal Highway
Port St. Lucie, FL 34592

b. 202 NE 2d St., Suite #2
Okeechobee, FL 34972

16. Defendant Kendall (a/k/a Robert I. Kendall M.D.) (Kendall) is a physician and a Board Certified Pathologist, who resides in Miami-Dade County, Florida, and who was licensed to practice Medicine in the State of Florida at all times relevant to this Complaint.

17. Defendant, Kendall Medical Laboratory, Inc. (KML) is a Florida Corporation owned and operated by Kendall. doing business at 2500 Douglas Road, Suite A, Coral Gables, FL 33134.

18. At all times relevant hereto, Defendants Marder, ADSCC, KML and Kendall were enrolled as participating providers in the Medicare program. In order to enroll in the Medicare program, Defendants submitted a Medicare Enrollment Application, Clinics/Group Practices and Certain Other Suppliers, Form CMS 855B, in which they certified that:

> I agree to abide by the Medicare laws, regulations and program instructions that apply to this supplier. The Medicare laws, regulations, and program instructions are available through the Medicare contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited to, the Federal anti-kickback statute and the Stark law), and on the supplier's compliance with all applicable conditions of participation in Medicare.
>
> I will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and I will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity.

19. At all times relevant hereto, Defendant Marder and ADSCC have submitted or caused to be submitted claims to Medicare for radiation oncology services and clinical laboratory services performed at its two locations and received payment from Medicare for those claims.

On each claim, Marder and ADSCC certified that they were in compliance with the applicable regulations.

IV. THE LAW

a. The False Claims Act

20. Defendants Marder, ADSCC, Kendall and KML knowingly presented or caused to be presented false or fraudulent claims for payment or approval by the Medicare program and by the TRICARE program, in violation of the FCA, 31 U.S.C. § 3729(a)(1), for claims up to and through May 19, 2009, and in violation of § 3729(a)(1)(A), for claims from and after May 20, 2009.[1] In addition, the FCA prohibits knowingly making, using, or causing to be made or used, a false record or statement material to a false or fraudulent claim. 31 U.S.C. § 3729(a)(1)(B).[2] The FCA provides for treble damages and penalties.

21. The term "knowingly" under the FCA means that a person, with respect to information, (i) has actual knowledge of the information, (ii) acts in deliberate ignorance of the truth or falsity of the information, (iii) acts in reckless disregard of the truth or falsity of the information. 31 U.S.C. § 3729(b)(1). No proof of specific intent to defraud is required to show a person acted knowingly under the FCA.

22. Pursuant to the Federal Civil Penalties Inflation Adjustment Act of 1990, as amended by the Debt Collection Improvement Act of 1996, 28 U.S.C. § 2461 (notes), and 64

[1] On May 20, 2009, the Fraud Enforcement and Recovery Act of 2009 (FERA), P.L. 111-21, became law. Section 4 of FERA revised certain provisions of the False Claims Act. Congress amended the FCA again as part of the Patient Protection and Affordable Care Act on March 23, 2010.

[2] Section 3729(a)(1)(B) was also revised on May 20, 2009, but is retroactive and applies to all FCA cases pending as of June 7, 2008.

Fed. Reg. 47099, 47103 (1999), the FCA civil penalties were adjusted to $5,500 to $11,000 for violations occurring on or after September 29, 1999.

b. The Anti-Kickback Statute

23. The AKS arose out of Congressional concern that providing things of value to those who can influence healthcare decisions may corrupt professional healthcare decision-making and result in federal funds being diverted to pay for goods and services that are medically unnecessary, of poor quality, or even harmful to a vulnerable patient population. The AKS prohibits the payment of kickbacks in order to protect the integrity of Medicare. *See* Social Security Amendments of 1972, Pub. L. No. 92-603, §§ 242(b) and (c); 42 U.S.C. § 1320a-7b, Medicare-Medicaid Antifraud and Abuse Amendments, Pub. L. No. 95-142; Medicare and Medicaid Patient and Program Protection Act of 1987, Pub. L. No. 100-93.

24. The AKS prohibits any person or entity from offering, making, or accepting payment to induce or reward any person for referring, recommending, or arranging for the purchase of any item for which payment may be made in whole or in part by a federal health care program. In pertinent part, the statute provides:

> (b) Illegal remunerations
>
> > (1) Whoever knowingly and willfully solicits or receives any remuneration (including any kickback, bribe, or rebate) directly or indirectly, overtly or covertly, in cash or in kind—
> >
> > (A) in return for referring an individual to a person for the furnishing or arranging for the furnishing of any item or service for which payment may be made in whole or in part under a Federal health care program, or
> >
> > (B) in return for purchasing, leasing, ordering, or arranging for or recommending purchasing, leasing, or ordering any good, facility, service, or item for

> > which payment may be made in whole or in part under a Federal health care program,
>
> shall be guilty of a felony and upon conviction thereof, shall be fined not more than $25,000 or imprisoned for not more than five years, or both.
>
> > (2) Whoever knowingly and willfully offers or pays any remuneration (including any kickback, bribe, or rebate) directly or indirectly, overtly or covertly, in cash or in kind to any person to induce such person–
> >
> > (A) to refer an individual to a person for the furnishing or arranging for the furnishing of any item or service for which payment may be made in whole or in part under a Federal health care program, or
> >
> > (B) to purchase, lease, order or arrange for or recommend purchasing, leasing or ordering any good, facility, service, or item for which payment may be made in whole or in part under a Federal health care program,
>
> shall be guilty of a felony and upon conviction thereof, shall be fined not more than $25,000 or imprisoned for not more than five years, or both.

42 U.S.C. § 1320a-7b(b).

25. The AKS not only prohibits outright bribes, but also prohibits any remuneration by a laboratory company to a physician that has, as one of its purposes, inducement of the physician's referrals to the laboratory company.

26. Claims that are submitted to Medicare in violation of the AKS are false or fraudulent under the FCA. *See* 42 U.S.C. §1320a-7b(g) (incorporating FCA amendment clarifying that "a claim that includes items or services resulting from a violation of this section constitutes a false or fraudulent claim for purposes of [the False Claims Act].")

27. There is a statutory safe harbor provision of the AKS that exempts "any amount paid by an employer to an employee (who has a bona fide employment relationship with such

employer) for employment in the provision of covered items or services." 42 U.S.C. § 1320a-7b(b)(3)(B); *see also* 42 CFR § 1001.952(i). But ADSCC does not fall under this exemption because Kendall was not a "bona fide" employee of ADSCC. *See* Medicare and Medicaid Programs; Fraud and Abuse OIG Anti-kickback Provisions, 54 Fed. Reg. 3088, 3093 (Jan. 23, 1998) (the exemption "follows the statute in that it applies only to bona fide employer-employee relationships.").

c. The Stark Law

28. The Stark Law prohibits physicians and certain other entities providing healthcare items and services from submitting Medicare claims for payment for items and services that are the product of patient referrals from physicians having an impermissible "financial relationship" (as defined in the statute) with the physicians. *See* 42 U.S.C. § 1395nn. The Stark Law requires that the Medicare program deny payment for claims for any services billed in violation of its provisions. 42 U.S.C. § 1395nn(g). In addition, it requires that providers who have collected Medicare payments for a healthcare service "performed under a prohibited referral must refund all collected amounts on a timely basis." 42 C.F.R. § 411.353.

29. The Stark Law establishes the presumptive rule that providers may not bill and the Medicare program will not pay for designated health services (as defined in the statute) generated by a referral from a physician with whom the provider has a financial relationship. 42 U.S.C. §§ 1395nn(a)(1), (g)(1). Congress enacted the Stark Law because it found that financial relationships between physicians and entities to whom they refer patients can compromise the physicians' professional judgment as to whether an item or service is medically necessary, safe, effective, and of good quality. Congress relied upon various academic studies consistently showing that physicians who had financial relationships with entities to which they referred used

more of those entities' services than similarly situated physicians who did not have such relationships. The Stark Law was designed to protect the taxpayer from paying for the costs of questionable utilization of services by removing monetary influences on referral decisions.

30. At all times relevant to this Complaint, the Stark Law has applied to payments to referring physicians by physicians and the resulting claims to the Medicare program. *See* 42 U.S.C. §§ 1395nn(h)(6)(I), (h)(5)(B).

31. Relevant here, the Stark Law provides:

> (a) Prohibition of certain referrals
> (1) In general
>
> Except as provided in subsection (b) of this section, if a physician (or an immediate family member of such physician) has a financial relationship with an entity specified in paragraph (2), then --
> (A) the physician may not make a referral to the entity for the furnishing of designated health services for which payment otherwise may be made under this subchapter, and
>
> (B) the entity may not present or cause to be presented a claim under this subchapter or bill to any individual, third party payor, or other entity for designated health services furnished pursuant to a referral prohibited under subparagraph (A).

See 42 U.S.C. § 1395nn (emphasis added).

32. The Stark Law specifically prohibits physicians from referring to entities where the "physician (or an immediate family member of such physician) has a financial relationship." 42 U.S.C. § 1395nn(a)(1). The Stark Law broadly defines "financial relationship" to include any "compensation" paid directly or indirectly to a referring physician (or his/her immediate family member). 42 U.S.C. § 1395nn(a)(2).

33. There are statutory and regulatory safe harbor exceptions to the Stark Law that permit certain financial relationships between health care providers and physicians without triggering the Stark Law's referral, billing, and payment provisions. *See* 42 U.S.C. § 1395nn(e); 42 C.F.R. § 411.357. The Stark Law contains an exception, for example, for:

> "Any amount paid by an employer to a physician (or an immediate family member of such physician) who has a bona fide employment relationship with the employer for the provision of services if –
>
> (A) the employment is for identifiable services,
> (B) the amount of the remuneration under the employment--
>
> (i) is consistent with the fair market value of the services, and
>
> (ii) is not determined in a manner that takes into account (directly or indirectly) the volume or value of any referrals by the referring physician,
>
> (C) the remuneration is provided pursuant to an agreement which would be commercially reasonable even if no referrals were made to the employer, and
>
> (D) the employment meets such other requirements as the Secretary may impose by regulation as needed to protect against program or patient abuse.

See 42 U.S.C. § 1395nn(e)(2).

34. ADSCC does not fall under this Stark Law exemption because Kendall was not a "bona fide" employee of ADSCC.

d. Medicare Enrollment

35. KML executed a Medicare Participating Physician Agreement and was assigned an identification code in September 1988. The agreement was executed by Kendall on behalf of KML.

36. KML executed an Electronic Data Interchange agreement with Medicare in June 1998. The agreement was executed by Kendall on behalf of KML

37. Marder was added to the Medicare Provider file in 1998 and was assigned a Medicare Provider Transaction Access Number (PTAN) to allow for the submission of claims to Medicare.

38. KML applied to re-validate its enrollment in Medicare in January 2010 when it submitted a Form CMS-855B enrollment application ("Application"). The Application was executed by Kendall on behalf of KML.

39. Marder applied to re-validate his enrollment in Medicare in January 2013 when he submitted a Form CMS-855I enrollment application ("Application"). The application also covered both office locations of ADSCC.

40. On their respective Applications, Marder and Kendall signed and certified a statement that included the following:

> I agree to abide by the Medicare laws, regulations, and program instructions that apply to this provider. The Medicare laws, regulations, and program instructions are available through the Medicare contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations and program instructions (including, but not limited to, the federal anti-kickback statute and the Stark law), and on the provider's compliance with all applicable conditions of participation in Medicare.

(emphasis added).

41. Marder and Kendall also certified on the Application that they "will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare and will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity."

42. Marder is listed on the Application as the president of ADSCC.

V. REGULATORY SCHEME FOR MEDICARE AND TRICARE PAYMENT FOR RADIATION ONCOLOGY SERVICES

a. MEDICARE

43. The United States Medicare Healthcare Program (hereafter "Medicare") is a federal health insurance program for persons aged 65 or older, persons with permanent kidney failure, and persons receiving Social Security disability benefits.

44. Overall responsibility for the administration of Medicare, as authorized by 42 U.S.C. § 1395, et seq., (hereafter "Social Security Act or SSA"), resides with the Secretary of the Department of Health and Human Services (hereafter "HHS"). Within HHS, the responsibility for administration of the Medicare program has been delegated to the Centers for Medicare and Medicaid Services (hereafter "CMS").

45. Medicare provides two basic types of coverage – hospitalization insurance (commonly known as Medicare Part A) and medical insurance (commonly known as Medicare Part B). Part A hospital insurance provides coverage for inpatient hospital charges, post-hospital extended care for 100 days following hospital discharge, and hospice care. Part B medical insurance covers physician services, home health services, most skilled nursing home services, and other non-hospital related medical services. 42 U.S.C. § 1395k; 42 C.F.R. § 410.10.

46. The United States provides reimbursement for Medicare claims from the Medicare Trust Fund through CMS. To assist in the administration of Part B of the Medicare Program, CMS contracts with Medicare administrative contractors (MACs). 42 U.S.C. § 1395u. MACs are responsible for processing the payment of Part B claims to providers on behalf of CMS. Id. First Coast Service Options, Inc. (First Coast) is the MAC responsible for the payment of Part B claims to Defendants on behalf of CMS.

47. Florida providers claim Medicare Part B reimbursement from First Coast pursuant to written provider agreements. First Coast receives, processes, and pays or rejects those claims according to Medicare rules, regulations, and procedures.

48. At all relevant times hereto, Defendants signed or caused to be executed provider agreements with Medicare that permitted Defendants to submit claims and accept payment for services provided by Defendants.

49. As a condition of participation in the Medicare Part B program, providers agree to be familiar with, and abide by, the program's reimbursement policies. In particular, when Defendants submitted their Medicare Enrollment Applications, Defendants certified to the following requirements:

> I agree to abide by the Medicare laws, regulations and program instructions that apply to this supplier. The Medicare laws, regulations, and program instructions are available through the Medicare contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited to, the Federal anti-kickback statute and the Stark law), and on the supplier's compliance with all applicable conditions of participation in Medicare. I agree that any existing or future overpayment made to the supplier by the Medicare program may be recouped by Medicare through the withholding of future payments.
>
> I will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity. (emphasis added).

50. Accordingly, Defendants had a duty to be knowledgeable of the statutes, regulations, and guidelines regarding coverage for Medicare services, which include the policies relevant to radiation oncology and related services.

51. Defendants certified in their provider enrollment applications that they were knowledgeable regarding Medicare's requirements.

52. Medicare covers, and participating providers agree to submit claims, only for services that are medically necessary to diagnose and treat illness or injury, and for which the provider maintains adequate supporting documentation, for example, physician's orders, physician's review of work, and other pertinent documentation corroborating the treatment administered. 42 U.S.C. §1395y(a)(1)(A).

53. Absent certain exceptions, Medicare Part B does not cover, and providers agree not to submit claims for, services provided that are not necessary, not appropriately administered, or not properly documented.

54. In short, in order for Defendants to be properly reimbursed for patient care by the Medicare program, CMS requires that the treating physician order the applicable services, appropriately document the justification and administration of those services, submit only those codes that correlate with the notes made by the physician in the medical record, and that the physicians adhere to coding guidelines when assigning applicable codes.

55. After enrollment as a Medicare health care provider, Medicare assigns each participating provider a unique billing National Provider Identifier ("NPI"). Here, ADSCC had a NPI number for which it submitted claims for the two ADSCC clinics. KML submitted claims under its own NPI number.

56. A physician who treats a Medicare patient is required to submit an electronic or hard-copy Medicare Health Insurance Claim Form (CMS form 1500) to the carrier, here First Coast, who on behalf of CMS, pays for the claim. A sample claim form is attached hereto as

Exhibit 1. During all times set out in this complaint, providers have been required to submit these CMS-1500 forms electronically.

57. When filing the electronic equivalent of the CMS-1500, a provider certifies that:

> The services shown on this form were medically indicated and necessary for the health of the patient and were personally furnished by me or were furnished incident to my professional service by my employee under my immediate personal supervision, except as otherwise expressly permitted by Medicare or CHAMPUS regulations.

See Exhibit 1.

58. When submitting a claim using the CMS-1500 form, the provider/supplier also "certif[ies]" that (i) the information on the form is "true, accurate and complete"; (ii) payment of the claim will be from federal funds; and (iii) "any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal * * * laws."

b. TRICARE

59. TRICARE is the federal health care system for uniformed service members, retirees, and their families worldwide. TRICARE, formerly known as CHAMPUS, is a federal health benefits program, established by 10 U.S.C. §§ 1071-1110, that offers a triple option benefit plan: an HMO option; a PPO option; and a fee for service option.

60. The regulatory authority establishing the TRICARE program provides reimbursement to individual health care providers applying, to the extent practicable, the same reimbursement scheme and coding parameters that the Medicare program applies. 10 U.S.C. §§ 1079(j)(2)(institutional providers), (h)(1)(individual health care professional) (citing 42 U.S.C. § 1395, *et seq.*). Services and supplies that are not medically or psychologically necessary for the diagnosis or treatment of a covered illness or injury are specifically excluded from coverage. 32 C.F.R. § 199.4(g)(1). Moreover, TRICARE providers are obligated to provide services which are

"(i) furnished at the appropriate level and only when and to the extent medically necessary . . .; (ii) of a quality that meets professional recognized standards of health care; and, (iii) supported by adequate medical documentation . . . to evidence the medical necessity and quality of services furnished, as well as the appropriateness of the level of care." 32 C.F.R. § 199.6(a)(5).

61. TRICARE prohibits improper billing practices such as unbundling and fragmenting as a means of manipulating billing codes to increase reimbursement; misrepresenting the dates, frequency, duration, description of the services involved, or the identity of the person who rendered the services; and overutilization of services. 32 C.F.R. § 199.9(c). Such practices are considered fraudulent and abusive and a misrepresentation of services. 32 C.F.R. §§ 199.9(c)(1) - (c)(13).

62. Overall responsibility for the administration of TRICARE resides with the Secretary of the Department of Defense (DOD). The DOD has contracted with Humana Military Healthcare (Humana) for administration of the TRICARE program in the South Region, which includes Florida. Humana subcontracted with Palmetto Government Benefits Administrators, LLC (PGBA, LLC) to process claims for several states, including Florida.

63. In order to participate, Defendants Marder and ADSCC filed service provider applications wherein they certified that they would comply with TRICARE policy and regulations.

64. Marder submitted claims to TRICARE using his individual provider identification number for his individual services from at least 2008 through 2011 and using his group and individual NPIs and covers the period of 2008 through 2015.

65. As part of the TRICARE billing process, Defendants Marder and ADSCC filed CMS form 1500s whereon they certified: necessary to the health of this patient and were personally furnished by me or my employee under my personal direction.

See Exhibit 1, side 2.

c. MEDICARE COVERAGE AND CLAIMS SUBMISSIONS

66. Pursuant to the Social Security Act, Medicare pays physicians under the Medicare Physician's Fee Schedule for "all physicians' services." 42 U.S.C. § 1395w-4(a)(1). The SSA defines "physicians' services" for the purposes of the Medicare Physician's Fee Schedule to include certain items and services described in the SSA. 42 U.S.C. § 1395w-4(j)(3).

67. The American Medical Association assigns and publishes numeric codes, known as Current Procedural Terminology (CPT) and Health Care Financing Administration Procedure Coding System (HCPCS) codes. The codes are a systematic listing of procedures and services performed by health care providers. They include codes for radiation oncology and related services, based on complexity, supervision, and documentation requirements. Health care providers and health care benefit programs use CPT and HCPCS codes to describe and evaluate the services for which they claim, and to decide whether to issue or deny payment. Each health care benefit program establishes a fee reimbursement for each procedure described by a CPT or HCPCS code.

68. In the Medicare Physician's Fee Schedule, which Medicare publishes yearly, all of the CPT codes are listed, together with the reimbursement Medicare allows for each code. Medicare lists the amount of reimbursement paid in the facility setting (*i.e.*, hospital) and the non-facility setting (*i.e.*, office).

69. CPT Codes often are comprised of a Technical Component and a Professional Component. The Technical Component represents the cost of the equipment, supplies and personnel to perform the procedure. The Professional Component represents the physician or other healthcare professional work portion. A "Global Service" includes both the Technical Component and the Professional Component.

70. When completing the CMS 1500 claim form, the use or absence of a "modifier" with the applicable CPT code can supply additional information regarding the scope of the service being billed.

71. In order to bill globally when a CPT code includes both a technical and a professional component, no modifier is used with the CPT code for the procedure, indicating that the claim is for both the technical and professional services.

72. CPT Modifier "TC" is utilized for the technical component of a service in circumstances where a charge may be made for the technical component alone.

73. CPT Modifier "26" is utilized for the professional component.

74. CPT Modifier "59" is utilized to indicate a "Distinct Procedural Service" for procedures or services that are not normally reported together, but are appropriate under the circumstances because they were distinct or independent from other services performed on the same day. This may represent a different session or patient encounter, different Procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries) not ordinarily encountered or performed on the same day by the same physician. However, when another already established modifier is appropriate, it should be used rather than modifier 59. Only if there is not a more descriptive

modifier available, and the use of modifier 59 best explains the circumstances, should modifier 59 be used.

75. CPT Modifier "76" is utilized to indicate a Repeat Procedure by Same Physician where a procedure or service was repeated subsequent to the original procedure or service.

76. Fiscal intermediaries or carriers, such as First Coast, may issue decisions known as Local Coverage Determinations (LCDs) on whether to cover to cover a particular service. Such LCDs may also include requirements that a practitioner providing the service must complete to receive payment from Medicare.

77. In addition, Medicare covers, and participating providers agree to submit, medically necessary claims for which the provider maintains adequate supporting documentation, justifying the treatment administered. 42 U.S.C. Section § 1395y(a)(1)(A). Medicare will not reimburse a physician for medically unnecessary services. *See* Medicare Claims Processing Manual, Chapter 23, Section 30(A) ("If a service is not reasonable and necessary to treat illness or injury for any reason, carriers consider the service noncovered notwithstanding the presence of a payment amount for the service in the Medicare fee schedule." (internal parenthetical omitted)).

78. Accordingly, documentation of the medically necessity of these services requires legible, complete, dated, timed, and authenticated or signed entries in the patient's medical record by the person responsible for providing or evaluating the services provided. *See* First Coast LCD, L29200, August 2009; CMS Medical Learning Network, Fact Sheet: Complying with Medicare Signature Requirements (March 2011); TRICARE Policy Manual 6010.57-M, Chapter 1, Section 5.1 (2008).

d. RADIATION ONCOLOGY

79. Radiation oncology is a cancer treatment wherein ionizing radiation is utilized to control malignant cells. The radiation is used to damage the DNA of the malignant cells in hopes of causing the cells to die or reproduce at a slower rate. Radiation oncology is used as a palliative treatment (where cure is not possible and the aim is for local disease control or symptomatic relief) or as therapeutic treatment (where the therapy has survival benefit and it can be curative).

80. Radiation oncology items and services provided pursuant to the SSA include: (1) diagnostic X-ray tests . . . diagnostic laboratory tests, and other diagnostic tests, 42 U.S.C. § 1395x(s)(3); and (2) X-ray, radium, and radioactive isotope therapy, including materials and services of technicians, 42 U.S.C. § 1395x(s)(4).

1. Supervision Requirements for Radiation Therapy

81. The predominant CPT codes at issue here for therapeutic radiation services are covered under 42 U.S.C. § 1395x(s)(4) and are billed using CPT Codes 77261 through 77427 (hereafter referred to as "Radiation Therapy").

82. In the Medicare Benefit Policy Manual defining "covered services," Medicare covers radiation therapy services furnished in an office or free standing radiation therapy center rendered under the "direct personal supervision" of a physician. *See* Medicare Benefit Policy Manual, Chapter 15, Section 90 (Revised October 1, 2003).

83. "Direct personal supervision" requires the supervising physician to "be in the area and immediately available to provide assistance and direction throughout the time the procedure is being performed." *Id*.

84. If the supervising physician leaves the office or freestanding radiation therapy center, Medicare will not cover any radiation therapy services submitted by that supervising physician during his or her absence.

85. The availability of a physician by phone or other electronic means does not constitute direct personal supervision.

2. Training Requirements for Radiation Therapy

86. In an LCD effective February 13, 2011, First Coast explicitly informs providers that services are covered by Medicare only if ordered and furnished by qualified personnel with training acquired in an approved residency:

> "CMS Manual System, Pub. 100-08, Program Integrity Manual, Chapter 13, Section 13.5.1 outlines that "reasonable and necessary" services are "ordered and/or furnished by qualified personnel." Services will be considered medically reasonable and necessary only if performed by appropriately trained providers.
>
> A qualified physician for this service is defined as follows: Training and expertise must have been acquired within the framework of an accredited residency and/or fellowship program in the applicable specialty/subspecialty."

See First Coast LCD, L31510.

87. Marder has not acquired training or expertise in radiation oncology within the framework of an accredited residency and/or fellowship program.

3. Payment for Radiation Therapy

88. The CPT codes used to submit claims for the actual administration of radiation primarily at issue in this case, CPT codes 77401, 77402, 77407 and 77412, were first utilized in 1991.

89. CPT code 77401 is used when physicians administer low level radiation known as "superficial radiation" or "ortho-voltage" and is defined as "Radiation treatment delivery, superficial and/or ortho voltage."

90. CPT code 77401 is used to bill for any administration of superficial radiation, regardless of the level of complexity.

91. CPT codes 77402, 77407 and 77412 are used when physicians administer radiation at levels up to 5 MeV, a level which is up to 50 times higher than the superficial radiation described by CPT code 77401.

92. CPT codes 77402 is used for simple treatments at higher energy levels and is defined as "Radiation treatment delivery, two separate treatment areas, three or more ports on a single treatment area, use of multiple blocks; up to MeV."

93. CPT code 77407 is used for intermediate complexity treatments at higher energy levels and is defined as "Radiation treatment delivery, two separate treatment areas, three or more ports on a single treatment area, use of multiple blocks; up to5 MeV."

94. CPT code 77412 is used for complex treatment delivery at higher energy levels and is defined as "Radiation treatment delivery, three or more separate treatment areas, custom blocking, tangential ports, wedges, rotational beam, compensators, electron beam; up to 5 MeV."

95. First Coast LCD 31510 explicitly informs providers that it is not expected that the treatment delivery codes 77407, 77408, 77409, 77411, 77412, 77413, 77414, and 77416 will be utilized for treatment basal cell carcinoma or squamous cell carcinoma where the lesions are less than or equal to 2 cm (referred to as. T1 lesions).

96. In a 2003 Medicare Program Memorandum, Medicare specified for CPT codes 77401 through 77416 that "Only one of these codes may be reported for each treatment session

no matter how many areas are treated or no matter how much radiation is delivered**."** Medicare Program Memorandum, Transmittal No. A-03-020, dated April 2, 2003. The only exception to this rule was if there was a distinct break in the service and the same region or regions were treated again the same day (as might be the case for treatment referred to as Hyperfractionation), In that case only, a second unit of service is appropriate.

97. On January 1, 2008, CMS took steps to enforce this policy when it implemented national Medically Unlikely Edits (MUEs) for the 77401-77416 radiation delivery codes and those edits were set to deny anything greater than "2" services for the same beneficiary, same date of service, same provider, billed on one claim line. However, at that time, the national MUEs applied to a single claim line only. If the provider split the units across multiple claim lines or multiple claims and did not bill more than a quantity billed (QB) of 2, the MUE would not trigger a denial. Effective April 1, 2013 CMS enhanced its MUE logic to apply to the whole claim for certain CPT/HCPCS codes.

4. Payment for Hyperfractionation Radiation Therapy

98. Hyperfractionation Radiation Therapy refers to a treatment modality whereby the total dose of radiation is divided into small doses and treatments are given more than once in a single day, and may also span multiple days. In addition, the doses administered during the course of a single day need to be at least 6 hours apart.

99. First Coast LCD 31510 explicitly informs providers that hyperfractionation Radiation Therapy is not covered for basal cell carcinoma or squamous cell carcinoma where the lesions are less than or equal to 2 cm (referred to as. T1 lesions)": "Hyperfractionation (BID treatment delivery) is non-covered for treatment of BCC or SCC stage T1 lesions."

5. Payment for Professional Services Performed by the Physician

100. In addition to a physician's supervision of these services, several of these codes include integral physician-specific components and/or professional services that must be rendered, documented, dated, and signed to make the Medicare claim properly payable.

101. For instance, clinical treatment planning (CPT codes 77261 – 77263) reimburses physicians for evaluating the patient's overall medical condition and extent of disease, including a review and interpretation of multiple tests, before prescribing a specific type of radiation therapy for treatment. These are professional-only codes that reflect the work of the physician. The appropriate code is determined by the complexity of the planning required. *See* First Coast LCD, L29200, August 2009; ACRO Management Guide 2006; The ASTRO/ACR Guide to Radiation Oncology Coding 2007.

102. After the plan is completed, simulations (CPT codes 77280 – 77295) ensure accurate treatment delivery through the use of simulation equipment (similar to an X-ray or MRI) to define the exact and correct treatment position for the patient. The physician reviews these simulation images prior to treatment to ensure that the patient is properly aligned for the radiation beams to target the tumor. Supporting documentation should include "patient positioning and immobilization device, target verification, possible utilizing [sic] radiographic studies, and a description of the physician's work." The appropriate code is determined by the complexity of the simulation required. *See* First Coast LCD, L29200, August 2009; *see also* ACRO Management Guide 2006; The ASTRO/ACR Guide to Radiation Oncology Coding 2007.

103. A physician also must be directly involved in the use of treatment devices (CPT codes 77332 – 77334) to position the patient and ensure accurate radiation delivery. In particular, the physician must be involved in the design, selection, and placement of devices during the

patient's course of radiation therapy. The appropriate code is determined by the complexity of the device(s) required. *See* ACRO Management Guide 2006; The ASTRO/ACR Guide to Radiation Oncology Coding 2007.

104. Continuing medical physics is appropriate for the weekly continuing medical physics process and reports the work and oversight of the medical physicist in the care of the IMRT patient, and is billed under CPT Code 77336. It is not appropriately reported for work associated with the creation of the original IMRT plan.

105. A Radiation therapy dose plan (CPT code 77300) is used to report dosimetry calculations that arrive at the relationship between monitor units (or time) and dose, and the physician's verification, review and approval of this. The documentation should contain the independent check for each field, separate from the computer-generated IMRT plan. *See* First Coast LCD, L29200, August 2009.

106. During radiation treatment delivery, a physician may bill for radiation treatment management (CPT code 77427) to assess the patient's response to treatment and coordinate subsequent treatments. Because this code reports only the work of the physician, the code has only a professional component. It is not appropriate to charge for the weekly radiation treatment management if the physician is not meeting face-to-face with the patient and documenting this evaluation weekly. *See* First Coast LCD, L29200, August 2009; ACRO Management Guide 2006; The ASTRO/ACR Guide to Radiation Oncology Coding 2007.

e. PHYSICIAN SERVICES AND OFFICE VISITS

107. Many CPT codes are dedicated to billing for physician services, and in some cases they apply to services rendered by qualified "non-physician practitioners" such as nurse practitioners or physician assistants. For these codes, the concept of Professional Component

and Technical Component does not apply since physician services cannot be split into professional and technical components. Modifiers 26 & TC cannot be used with these codes.

108. If the physician does not provide a face-to-face encounter and the patient is only seen by the non-physician practitioner, or the procedure is performed by the non-physician practitioner, the services can be billed using these CPT Codes only in limited circumstances.

109. In certain circumstances, these CPT codes can be billed under the "incident to" rules. "Incident to" services are defined as those services that are furnished incident to physician professional services in the physician's office. These services are billed and paid as if the physician personally provided them. To qualify as "incident to," the services must be part of the patient's normal course of treatment, during which the physician personally performed an initial service and remained actively involved in the course of treatment. Although the physician does not have to be physically present in the patient's treatment room while these services are provided, the services must be rendered under the direct supervision of the physician.

110. Direct supervision requires the physician to be present in the office suite to render assistance, if necessary.

111. If the physician does not directly supervise these services and the services were otherwise performed following applicable rules, the claim must be submitted using the provider number of the non-physician practitioner to identify the performing provider and payment is made in a reduced amount.

1. Evaluation and Management (E/M) Services

112. One group of CPT codes relating to physician services are those used to bill for evaluation and management (E/M) services. E/M services refer to visits and consultations furnished by physicians. E/M codes are categorized and sub-categorized to define the following:

where the patient's service was provided; if the patient is new or established; and what level of service was provided by the physician. E/M codes 99201 through 99215 establish the medical requirements for services provided to patients treated at the physician's office (hereafter referred to as "E&M Services").

113. The higher the CPT code level within each category, the more substantial the services provided by the doctor to the patient, the more thorough the patient history taken, the more elaborate the physical examination given, the more complex the medical decision making required, the more severe the patient's problem, and the more time the physician typically spends face-to-face with the patient and/or family. The physician must ensure that all of the key components, i.e., history, examination, and medical decision making, meet or exceed the stated requirements for that particular level of E/M service to be charged.

114. CPT Code 99203 is used to bill for an office visit with a new patient and requires a detailed history, a detailed examination and medical decision making of low complexity. The code expressly provides that "Typically, 30 minutes are spent face-to-face with the patient and/or family."

115. CPT Codes 99211 through 99215 are used to bill for office visits with established patients.

116. CPT Code 99211, the lowest level for office visits with established patients, is used to bill for an office visit "for the evaluation and management of an established patient that may not require the presence of a physician. Usually the presenting problem(s) are minimal. Typically, 5 minutes are spent performing or supervising these services.

117. CPT Codes 99212 through 99215 are for higher level visits with established patients, with each requiring more detailed histories, examinations and more detailed decision

making, and typically requiring face-to-face time between the physician and the patient or family of between 10 and 40 minutes depending on the code

2. Dermatological Surgery Codes

118. Other CPT codes are used to bill for other dermatology related surgical services for biopsies, removal of malignant growths, removal of skin and tissue, repairs of wounds, tissue transfer repair of wounds, destruction of skin growths, and related repairs. These CPT codes are hereafter referred to as the "Surgery Services." In this case, those items were billed by Marder and ADSCC using CPT Codes 11040 through 69100.

119. Marder and ADSCC submitted numerous claims for E&M CPT Codes and for Surgery CPT Codes. All of the claims for these codes indicated that Marder was the performing physician.

f. PATHOLOGY SERVICES

120. The pathology laboratory services at issue in this case are included in the Stark Law's definition of Clinical Laboratory Services and are therefore within the definition of Designated Health Services. 42 CFR 411.351 Those items were billed using CPT Codes 88305, 88312 and 88342 (hereafter referred to as "Pathology Services").

121. Pathology Services are also comprised of a Professional Component and a Technical Component, both of which may be performed independently or by different providers.

122. The Technical Component for Pathology Services encompasses the multiple steps required to properly prepare samples of tissue for examination.

a. Fixation is a step used to prevent decay and preserve cells and tissues in a "life-like" state.

b. Grossing, also referred to as "cut-up", involves an examination and description of the specimen that will include the appearance, the number

of pieces and their dimensions. Larger specimens may require further dissection to produce representative pieces from appropriate areas.

c. Processing is where batches of specimens are processed to allow the specimens to be infiltrated with a sequence of different solvents finishing in molten paraffin wax.

d. The specimens then are placed in an embedding center where they are placed in wax-filled molds known as specimen blocks.

e. Sectioning is where the specimen blocks are cut using extremely fine steel blades. Paraffin sections are usually cut at a thickness of 3 - 5µm ensuring that only a single layer of cells makes up the section.

f. The cells and other elements making up most specimens are largely colorless. In order to reveal structural detail using microscopy some form of staining is required.

g. After staining, the sections are covered with a glass coverslip, at which point the specimen is ready.

123. The foregoing steps require specialized laboratory equipment operated by properly trained personnel.

124. After the forgoing steps are completed, the specimens are then ready to be sent to a pathologist who will view them under a microscope to make an appropriate diagnosis and prepare a report. The work of the pathologist in viewing the slide under a microscope and preparing a report is the Professional Component of these laboratory services.

VI. NON-RENDERED, UNSUPERVISED AND UNQUALIFIED SERVICES

125. From at least January 1, 2008 through May 2014, Marder and ADSCC massively overbilled for radiation related services claimed to have been rendered to Medicare and TRICARE patients.

126. The total amount billed by Marder and ADSCC was over $49 million.

127. Marder and ADSCC acted with actual knowledge or in deliberate ignorance or reckless disregard of the falsity of these claims.

128. Marder and ADSCC had knowledge of the applicable Medicare statutes, rules and regulations governing the submission of claims for these services.

129. Marder and ADSCC submitted these claims with knowledge that they were being submitted in violation of applicable Medicare statutes, rules and regulations.

a. Upcoding of Radiation Levels

130. Marder and ADSCC utilize a total of three (3) radiation machines for treating patients at the two clinics. Two of the machines are located in the Port St. Lucie office. The third machine is located in the Okeechobee office.

131. All three machines are only capable of administering "superficial radiation" and this has been the case at all times relevant herein.

132. Originally, Marder and ADSCC only used CPT Code 77401 to bill for radiation treatments. From at least January 1, 2008 through to mid-June 2010, Marder and ADSCC submitted claims to Medicare and TRICARE only utilizing CPT Code 77401 for radiation treatments. During that time period, Marder and ADSCC were paid for over 22,000 services under CPT Code 77401. No claims were submitted during that time frame using CPT Codes 77402, 77407 and 77412.

133. In 2008, CPT Code 77401 was reimbursed by Medicare at approximately $51.06.

134. In 2009, reimbursement for CPT Code 77401 was reduced by Medicare to approximately $37.93.

135. In 2010, reimbursement for CPT Code 77401 was again reduced by Medicare, this time to approximately $26.89, about half of what it had been in 2008.

136. The amount ultimately paid to Marder and ADSCC was 80% of the amounts described above because 20% of the allowed amount is owed by the beneficiary as a co-payment.

137. In mid-June 2010, although Marder and ADSCC did not acquire any new equipment with which to administer radiation treatment to patients, Marder and ADSCC began submitting claims to Medicare and TRICARE under CPT Codes 77402, 77407 and 77412.

138. The reimbursement for CPT Codes 77402, 77407 and 77412 increased from 2008 to 2009 and again in 2010. In 2010, CPT Codes 77402, 77407 and 77412 were reimbursed at approximately $131.86, $224.86 and $203.60 respectively.

139. In 2011 and 2012, the total amount paid to Marder and ADSCC under CPT Code 77401 was less than $50.

140. In contrast, from June 2010 through approximately August 2014, the total amount paid to Marder and ADSCC under CPT Codes 77402, 77407 and 77412 was over $6 million for over 40,000 services.

141. All of the claims submitted by Marder and ADSCC to Medicare and TRICARE using CPT Codes 77402, 77407 and 77412 were false claims because the radiation devices owned by Marder were incapable of administering anything but superficial radiation and every claim should have been submitted using CPT Code 77401.

b. Unqualified personnel

142. All of the claims submitted by Marder and ADSCC to Medicare for radiation oncology services were false claims because he was not qualified under Medicare guidelines to render or supervise such services.

c. Hyperfractionation

143. The vast majority of claims for radiation treatment billed by Marder and ADSCC included a second claim for the same date of service using Modifier 76 to indicate a Repeat Procedure as would be done if the patient were receiving Hyperfractionation treatment.

144. All of the claims submitted by Marder and ADSCC to Medicare for twice a day hyperfractionation treatments for basal cell carcinoma or squamous cell carcinoma where the lesions were less than or equal to 2 cm were in direct violation of Medicare rules and were false claims because such treatments are not a covered service.

145. In addition, Marder and ADSCC routinely administered twice a day hyperfractionation treatments separated by far less than the six hours required by the applicable standard of care, typically administering such treatments less than an hour apart and thereby putting patients at risk of harm from the radiation. Marder authorized this as an inducement to patients who might otherwise reject the treatment because of the inconvenience of returning to the clinic twice a day. The shorter interval between treatments also allowed Marder and ADSCC to process more patients per day and also to double revenues by billing two times per day.

146. All of the claims submitted by Marder and ADSCC to Medicare for twice a day hyperfractionation treatments in circumstances where there was less than 6 hours between treatments were below the standard of care and were false claims.

d. Billing in Excess Quantities

147. Marder and ADSCC routinely billed radiation services in quantities in excess of the single treatment per patient per day limit established by Medicare policy.

148. All of the claims for quantities in excess of the single treatment per patient per day allowed by Medicare are false.

e. Failure to Supervise Due to Travel

149. Marder traveled extensively outside the local Florida region during the time period at issue in this complaint. Many of his travels took him outside of the United States. Set

forth below is a partial listing of the time periods during which Marder engaged in international travel and therefore was completely absent from both office location of ADSCC:

Departure	Return	Length
07/11/08	07/29/08	18
10/12/08	10/23/08	11
01/11/09	01/18/09	7
09/29/09	10/11/09	12
12/17/09	01/04/10	17
02/03/10	02/11/10	8
03/17/10	03/19/10	2
06/23/10	07/16/10	23
09/19/10	10/01/10	12
06/27/11	07/18/11	21
10/01/11	10/21/11	20
07/08/12	08/06/12	28
09/27/12	10/09/12	12
01/23/13	01/27/13	4
07/20/13	08/04/13	14
09/15/13	09/27/13	12
12/22/13	01/20/14	28
02/28/14	03/07/14	7

150. Although not even in the country, Marder continued to bill for numerous physician services or services that required his direct supervision and direct personal supervision during the time periods identified above.

151. A summary of the Medicare claims for which Marder and ADSCC billed and were paid during the time periods described above is attached hereto as Exhibit 2.

152. A chart identifying each item on a line-by-line basis for which Marder and ADSCC billed and were paid by Medicare during the time periods described above is attached hereto as Exhibit 3.

153. The claims include services allegedly rendered by Marder and ADSCC to 579 different Medicare patients.

154. A summary of the TRICARE claims for which Marder and ADSCC billed and were paid during the time periods described above is attached hereto as Exhibit 4.

155. A chart identifying each item on a line-by-line basis for which Marder and ADSCC billed and were paid by TRICARE during the time periods described above is attached hereto as Exhibit 5.

156. Marder and ADSCC continued to bill for radiation therapy services that required the direct personal supervision of Marder during the time periods identified above. All of the claims submitted for radiation therapy while Marder was out of the country were false claims and are listed on the attached Exhibits 3 and 5. Those items were billed using CPT Codes 77261,77280,77300,77332,77334,77336,77401,77402,77407,77412 and 77427. Marder and ADSCC billed Medicare over $2.7 million for over 8,000 procedures under those codes and were paid over $830,000.00.

157. Marder and ADSCC continued to bill for E&M services that required his physical presence with the patient during the time periods identified above. All of the claims submitted for E&M services while Marder was out of the country were false claims and are listed on the attached Exhibits 3 and 5. Those items were billed using CPT Codes 99203, 99212, 99213, 99214 and 99215. Marder and ADSCC billed Medicare over $56,000 for almost 600 office visits under those codes and were paid over $33,000.00.

158. Marder and ADSCC continued to bill for Surgery CPT Codes indicating that Marder personally performed the services during the time periods identified above. All of the claims submitted for Surgery CPT Codes while Marder was out of the country were false claims and are listed on the attached Exhibits 3 and 5. Those items were billed using CPT Codes 11040

through 69100. Marder and ADSCC billed Medicare over $400,000 for almost 2100 of those surgical procedures under those codes and were paid over $100,000.00.

159. Marder and ADSCC continued to bill for Pathology CPT Codes indicating that Marder personally performed the services during the time periods identified above. All of the claims submitted for Pathology CPT Codes while Marder was out of the country were false claims and are listed on the attached Exhibits 3 and 5. Those items were billed using CPT Codes 88305, 88312 and 88342. Marder and ADSCC billed Medicare over $400,000 for over 1800 pathology procedures under those codes and were paid over $145,000.00.

f. Failure to Supervise Due to the Operation of Two Geographically Separate Offices

160. Marder treated patients at two geographically separate offices.

161. Marder's primary office was the one located at 9580 South Federal Highway, Port St. Lucie, FL 34592 (the "Port St. Lucie office").

162. Marder also operated a medical clinic at 202 NE 2d St., Suite #2, Okeechobee, FL 34972 (the "Okeechobee office").

163. Marder was only physically present in the Okeechobee office for half a day, twice a month.

164. Marder was often absent from the Port St. Lucie office, frequently taking time off, arriving late or departing early.

165. Marder and ADSCC submitted claims to Medicare and TRICARE without indicating whether the patient was treated at the Port St. Lucie office or the Okeechobee office.

166. The claims submitted to Medicare and TRICARE did not include information regarding the time of day the services were rendered.

167. The detailed information regarding whether the patient was treated at the Port St. Lucie office or the Okeechobee office, and the time of day the patient was treated, is exclusively within the possession of Marder and ADSCC.

168. All of the claims submitted for radiation therapy in one office while Marder was in the other office were false claims.

169. All of the claims submitted for E&M services in one office while Marder was in the other office were false claims.

170. All of the claims submitted for Surgery CPT Codes in one office while Marder was in the other office were false claims.

g. Additional Examples of False Claims

1. Medicare Beneficiary BM

171. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary BM during multiple encounters between 2010 through 2014. In total for this one patient, Marder and ADSCC were paid for over 1847 services for which they billed over $535,000 and were paid over $200,000. The co-payment owed by this patient for these services totaled over $52,000. The paid services included over 1000 radiation treatments, and over 200 biopsies/excisions and pathology services.

172. Beneficiary BM underwent a one-month course of radiation beginning September 11, 2013 and ending on October 8, 2013. Marder and ADSCC billed Medicare for the radiation services rendered during that time period, but the payments were denied. Marder and ADSCC billed Medicare for those services a second time, but on that occasion the claims were paid.

173. The first time they were billed, those claims reflected a recurring pattern of radiation treatments for each of the 20 days on which services were rendered. On each of the 20

days, Marder and ADSCC billed for a total of 8 radiation treatments under CPT Code 77402. Two treatments were billed using CPT Code 77402 with no modifier, two treatments were billed using CPT Code 77402 with a 76 modifier for a repeat procedure, two treatments were billed using CPT Code 77402 with a 59 modifier for Distinct Procedural Services and two treatments were billed using CPT Code 77402 with both modifier 76 and 59. The amount billed for the 160 radiation treatments was $2,200 per day for a total $44,000.

174. Marder and ADSCC thereafter billed the radiation treatments for those same 20 days a second time. This time, the radiation services were billed under CPT Code 77412 with a quantity of 2 and no modifiers were used. Each pair of treatments was billed at $700 and paid at $376.53. The total paid by Medicare for the radiation treatments during those 20 days was $7,530.60.

175. On October 9, 2013, Marder sent a letter to Medicare on the Letterhead of ADSCC. In that letter, he attested that the "signatures/notations" contained in the medical record for Beneficiary BM for September 11, 2013 and ending on October 8, 2013 were made by him when he "treated/diagnosed" the beneficiary. The letter additionally stated that "I do hereby attest that this information is true, accurate and complete to the best of my knowledge and I understand that any falsification, omission or concealment of materials fact may subject me to administrative, civil or criminal liability."

176. The accompanying medical record for Beneficiary BM included a "Tumor Dose Record" containing a separate dated line for each radiation treatment. Marder's signed initials appear eight times on the Tumor Dose Record. Four of the initials correspond to dates of service of September 17, 2013, September 23, 2013, September 25, 2013 and September 27, 2013.

177. On September 15, 2013, Marder departed for a trip to Frankfurt and did not return to the United States until September 27, 2013.

178. The October 9, 2013 letter sent by Marder to Medicare did not disclose any information regarding his absence from the country for 12 days of the time frame at issue.

2. Medicare Beneficiary AW

179. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary AW during multiple encounters between 2010 through 2014. In total for this one patient, Marder and ADSCC were paid for 730 services for which they billed over $200,000 and were paid over $73,000. The co-payment owed by this patient for these services totaled over $18,000.

180. Beneficiary AW underwent a one-month course of radiation beginning November 5, 2012 and ending on December 4, 2012. During that time period, Marder and ADSCC billed a recurring pattern of radiation treatments for each of the 20 days on which services were rendered. On each of the 20 days, Marder and ADSCC billed for a total of 8 radiation treatments under CPT Code 77402. Two treatments were billed using CPT Code 77402 with no modifier, two treatments were billed using CPT Code 77402 with a 76 modifier for a repeat procedure, two treatments were billed using CPT Code 77402 with a 59 modifier for Distinct Procedural Services and two treatments were billed using CPT Code 77402 with both modifier 76 and 59. Each pair of treatments was billed at $550 and paid at $308.45 for a total of $1,233.80 just for the radiation treatments each day. The total paid by Medicare for the radiation treatments during those 20 days was $19,908.

181. In addition to the radiation treatments themselves, Marder and ADSCC billed for another $18,790 in radiation management related services which, in part, were inflated by the

overbilled radiation treatment claims because some of the radiation management related services are paid based on the number of radiation treatments. Marder and ADSCC were paid an additional $8,163.39 for the radiation management related services

182. In total during that one-month, Marder and ADSCC were paid over $28,000 by Medicare. In addition, the patient owed another $7,017.97 to Marder and ADSCC as a co-payment.

3. Medicare Beneficiary SS

183. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary SS during multiple encounters from January 2013 through February 2014. In total for this one patient, Marder and ADSCC were paid for over 500 services for which they billed over $168,000 and were paid over $64,000. The co-payment owed by Beneficiary SS for these services totaled over $16,800.

184. Marder and ADSCC billed for radiation treatments allegedly administered to Beneficiary SS on a regular basis beginning December 10, 2013 and ending on February 18, 2014. There were also services billed and paid for biopsies, destruction of lesions and pathology on December 9, 2013.

185. Prior to December 9, 2013, the most recent services billed by Marder and ADSCC for Beneficiary SS were in April 2013, eight months earlier.

186. On December 9, 2013, in addition to billing for a Level V office visit under CPT Code 99215, Marder and ADSCC billed for four biopsies under CPT Codes 11100 and 11101, the destruction of four lesions under CPT Codes 17000 and 17003 and for four pathology services under CPT Codes 88305.

187. The very next day, Marder and ADSCC began billing for radiation treatments to Beneficiary SS.

188. During that time period, Marder and ADSCC billed for radiation treatments on each of the 41 days on which services were rendered to Beneficiary SS. On each of the 41 days, Marder and ADSCC billed for a total of 2 radiation treatments under CPT Code 77412 with no modifier. Each pair of treatments was billed at $700 and paid at $374.83. The total paid by Medicare for the radiation treatments during those 20 days was $15,018.70.

189. In addition to the radiation treatments themselves, Marder and ADSCC billed for another $20,630 in radiation management related services which, in part, were inflated by the overbilled radiation treatment claims because some of the radiation management related services are paid based on the number of radiation treatments. For example, Marder and ADSCC billed 14 times using CPT Code 77427 (used to bill for every 5 treatments) thereby indicating that a total of 70 treatments were managed during the 41 days of treatment. Marder and ADSCC billed using CPT Code 77300 (for calculating the radiation dose) eight times on four different days: December 10, 2013, December 27, 2013, January 20, 2014 and February 5, 2014.

190. Marder and ADSCC were paid an additional $3,781.64 for the radiation management related services.

191. Marder and ADSCC also billed and were paid for an office visit using CPT Code 99212 on January 9, 2014.

192. On December 22, 2013, Marder departed for a trip to France and Israel and did not return until January 20, 2014. While Marder was out of the country, Marder and ADSCC billed $15,500 for services allegedly rendered to Beneficiary SS for which payment was made in the amount of $5,694.15.

4. Medicare Beneficiary EW

193. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary EW during encounters on 22 days from October 26, 2009 through December 10, 2009. In total for this one patient, Marder and ADSCC were paid for 153 services for which they were paid over $10,000, including 80 radiation treatments and 30 pathology services.

194. The following is a summary of the paid claims for beneficiary EW during that time period:

CPT Code	Quantity	Paid
11100	1	$37.78
11101	9	$223.92
11303	1	$48.22
11312	1	$45.55
11313	1	$114.92
11604	2	$224.32
11623	1	$108.65
11626	1	$152.50
13101	1	$295.94
13121	1	$325.90
13132	2	$853.72
17111	1	$47.64
77261	2	$119.26
77280	2	$315.10
77401	80	$2,427.20
77427	16	$2,519.20
88305	30	$2,600.65
99213	1	$50.52
Total	153	$10,510.99

5. Medicare Beneficiary PB

194. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary PB during multiple encounters between 2008 through 2013. In total for this one patient, Marder and ADSCC were paid for over 645 services for which they billed over $191,000

and were paid over $53,000. The co-payment owed by this patient for these services totaled over $13,000.

195. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary PB during encounters on 22 days from January 5, 2010 through February 18, 2010. In total for this time period for this patient, Marder and ADSCC were paid for 110 services for which they were paid over $5,200, including 86 radiation treatments and 18 treatment management services.

196. The following is a summary of the paid claims for beneficiary EW during that time period:

CPT Code	Quantity Billed	Amt Billed	Amt Paid
77261	1	$395.00	$60.54
77280	1	$375.00	$146.44
77300	1	$550.00	$56.58
77332	1	$200.00	$62.49
77336	2	$550.00	$87.68
77401	86	$19,350.00	$1,849.86
77427	18	$12,150.00	$2,956.86
Total	110	$ 33,570.00	$ 5,220.45

6. Medicare Beneficiary CE

197. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary EW during encounters on 22 days from May 15, 2012 through July 16, 2012 with actual radiation treatment first commencing on June 11, 2012. In total for this one patient during this time period, Marder and ADSCC were paid for 236 services for which they were paid over $30,000, including 160 radiation treatments and 14 treatment management services.

198. During that time period, Marder and ADSCC billed a recurring pattern of radiation treatments for each of the 22 days on which services were rendered. On each of the 22 days, Marder and ADSCC billed for a total of 8 radiation treatments under CPT Code 77402. Two treatments were billed using CPT Code 77402 with no modifier, two treatments were billed using CPT Code 77402 with a 76 modifier for a repeat procedure, two treatments were billed using CPT Code 77402 with a 59 modifier for Distinct Procedural Services and two treatments were billed using CPT Code 77402 with both modifier 76 and 59. Each pair of treatments was billed at $550 and paid at $308.45 for a total of $1,233.80 just for the radiation treatments each day. The total paid by Medicare for the radiation treatments during those 20 days was $24,676.

199. The following is a summary of the paid claims for beneficiary EW during that time period:

CPT Code	Quantity Billed	Amt Paid
11100 Total	1	$88.95
11101 Total	11	$309.94
14021 Total	1	$764.74
77261 Total	2	$120.84
77280 Total	2	$315.46
77300 Total	4	$228.40
77332 Total	1	$65.23
77336 Total	14	$552.44
77402 Total	160	$24,676.00
77427 Total	14	$2,113.72
88305 Total	15	$1,327.07
99203 Total	1	$90.01
99212 Total	2	$72.24
J3303 Total	8	$9.16
Grand Total	236	$30,734.20

7. Medicare Beneficiary BL

200. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary BL during multiple encounters between 2008 through 2014. In total for this one patient, Marder and ADSCC were paid for over 1200 services for which they billed over $344,000 and were paid over $113,000. The co-payment owed by this patient for these services totaled over $28,000.

201. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary BL during encounters on 16 days from January 2011 through February 7, 2011 with actual radiation treatment first commencing on January 19, 2011. In total during this time frame, Marder and ADSCC were paid for 145 services for which they were paid over $20,000, including 56 radiation treatments, 10 treatment management services and 35 pathology services.

202. The following is a summary of the paid claims for beneficiary EW during that time period:

CPT Code	Quantity	Amt Paid
11100	2	$161.66
11101	17	$478.72
11604	1	$132.85
13121	1	$379.87
14021	1	$758.66
14060	1	$677.04
77261	2	$123.26
77280	2	$315.40
77300	4	$235.04
77332	1	$66.21
77336	10	$438.60
77407	56	$11,896.77
77427	10	$1,543.50
88305	35	$3,081.11
99212	1	$35.15
99213	1	$58.40
	289	$40,706.08

8. Medicare Beneficiary LG

203. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary LG during multiple encounters between 2008 through 2013. In total for this one patient, Marder and ADSCC were paid for over 1745 services for which they billed over $439,000 and were paid over $135,000. The co-payment owed by this patient for these services totaled over $34,000.

204. Marder and ADSCC submitted and were paid for numerous claims for Medicare Beneficiary LG during encounters on 21 days from June 12, 2008 through July 14, 2008. In total during this time frame, Marder and ADSCC were paid for 245 services for which they were paid over $16,000, including 138 radiation treatments and 29 treatment management services for the 21 days on which radiation was administered. On three days, Marder and ADSCC billed as many as 14 separate line items using CPT Code 77401 on each day. On June 17, 2008, Marder and ADSCC billed over $11,000 for 33 different services.

205. The following is a summary of the paid claims for beneficiary EW during that time period:

CPT Code	Quantity Billed	Amt Billed	Amt Paid
11100	1	$190.00	$71.15
77261	7	$2,765.00	$394.45
77280	7	$2,625.00	$1,095.99
77300	11	$6,050.00	$707.85
77332	21	$4,200.00	$1,385.01
77334	7	$2,625.00	$1,009.82
77336	22	$6,050.00	$1,566.39
77401	138	$31,050.00	$5,606.49
77427	29	$19,575.00	$4,165.64
88305	1	$225.00	$84.57
99212	1	$65.00	$30.81
Total	245	$75,420.00	$16,118.17

VII. THE ILLEGAL LABORATORY REFERRAL SCHEME

a. False and Fraudulent Claims and Statements

206. Marder and ADSCC referred large volumes of laboratory tests for Medicare patients to Kendall and KML in return for remuneration paid by Kendall and KML. The remuneration was paid by Kendall and KML through the device of allowing Marder and ADSCC to bill and collect payment from Medicare for the work performed by Kendall and KML.

207. From at least 2008 to the present, ADSCC submitted, and Marder, Kendall and KML caused to be submitted, and Marder and ADSCC received payment for, millions of dollars in false Medicare claims based on these illegal patient referrals. They made, and caused to be made, numerous false statements material to support the payment of these claims.

208. Marder, ADSCC, Kendall and KML acted with actual knowledge or in deliberate ignorance or reckless disregard of the falsity of these claims.

209. Marder, ADSCC, Kendall and KML submitted or caused the submission of these claims with knowledge that they were being submitted in violation of applicable Medicare statutes, rules and regulations.

b. Background

210. Marder, ADSCC, Kendall and KML have all participated in the Medicare Program for many years. As a result, they have had an obligation to be familiar with the Medicare laws, regulations, and program instructions during all times relevant herein.

211. The Stark Law, 42 U.S.C. § 1395nn, was first enacted in 1989, and the Anti-Kickback Statute, 42 U.S.C. § 1320a-7b, was first enacted in 1972.

212. KML is located over 120 miles driving distance from Marder's clinic in Port St. Lucie and over 130 miles driving distance from Marder's clinic in Okeechobee.

213. Approximately 80% of the laboratory work referred by Marder and ADSCC to Kendall and KML was for patients age 65 or older, and who were thereby eligible for Medicare.

214. Marder applied for and received a license to perform laboratory services in his Port St. Lucie clinic. However, the only laboratory equipment covered by the license was a microscope. The license, number 800016385, was issued to Marder individually. The license did not encompass the operation of any laboratory equipment or facilities needed to perform the Technical Component of processing of skin samples.

215. Marder and ADSCC billed Medicare for Clinical Laboratory Services using CPT Codes 88305 (Level IV – Surgical Pathology, gross and microscopic examination), 88312 (Special stained specimen slides to identify organisms including interpretation and report) and 88342 (Tissue or cell analysis by immunologic technique)(hereinafter referred to collectively as "Pathology Services").

c. The Operation of the Illegal Laboratory Referral

216. Marder and ADSCC performed numerous biopsies and excisions on their patients which resulted in the need for a tissue specimen to be examined microscopically.

217. Marder and ADSCC had the tissue samples delivered to Kendall and KML on a regular basis.

218. In order to advance the scheme to defraud, Kendall and KML performed both the Technical Component and the Professional Component of all laboratory work referred by Marder and ADSCC.

219. Then, rather than issuing a report on the letterhead of KML, Kendall and KML created a pathology report on letterhead indicating that the report had been prepared by Marder when that was not the case.

220. The false pathology report generated by Kendall and KML included a signature line for Marder, often with Marder's signature already digitally inserted.

221. In at least some cases, the false report was on the letterhead of a laboratory named "Marder Medical Laboratory." No legal entity by the name of Marder Medical Laboratory has ever existed. Marder's attempts to secure a laboratory license in the name of Marder Medical Laboratory were rejected for that reason.

222. Kendall and KML did not submit any claims to Medicare for any of the services rendered to the Medicare beneficiaries referred by Marder and ADSCC, but instead transmitted the false pathology reports to Marder and ADSCC in order to allow them to submit the false claims to Medicare.

223. In return, Marder shared the proceeds of the fraud with Kendall for his role in the scheme. Since at least 2010, Marder has paid Kendall approximately $120,000 a year in payments disguised as a salary to Kendall on the fictitious basis that Kendall was an employee of Marder or ADSCC.

224. As a result of the scheme, Marder and ADSCC were paid for laboratory work that they never performed. And, because Marder was the owner and sole physician at ADSCC, he was in a position where he made the decisions on the number of biopsies and excisions to perform on his patients knowing that the more biopsies and excisions he subjected his patients to, the more he would profit by being paid by Medicare for pathology services he never rendered.

225. Marder and ADSCC generally imposed a quota upon their employed physician assistants of at least 50 biopsies per day.

226. As a result of the scheme, between 2008 through approximately August 2014, Kendall and KML caused to be submitted and Marder and ADSCC submitted false claims to Medicare for over 35,000 Pathology Services. All but 61 of the Pathology Services were billed globally meaning that Marder and ADSCC were thereby claiming to have performed both the Professional Component and the Technical Component. None of the claims were submitted with Modifier 26 indicating that they were being submitted only for the Professional Component. Less than $4,000 in total was paid on the 61 claims were submitted using the Modifier TC to indicate that they were being submitted only for the Technical Component.

227. On the basis of the false claims, Marder and ADSCC were paid over $2.8 million by Medicare for the Pathology Services that were billed globally.

VIII. FIRST CAUSE OF ACTION

(False Claims Act: Presentation of False Claims)
(31 U.S.C. § 3729(a)(1) (claims up to and through May 19, 2009)
and 31 U.S.C. §3729(a)(1)(A) (claims from and after May 20, 2009))

228. The United States repeats and realleges the preceding paragraphs as if fully set forth herein.

229. Defendants Marder and ADSCC knowingly presented or caused to be presented false or fraudulent claims for payment or approval to the United States for Radiation Therapy, E&M Services, Surgery Services and Pathology Services.

230. Defendants Marder and ADSCC knowingly presented or caused to be presented false or fraudulent claims for services that were billed in violation of applicable Medicare

statutes, regulations and rules for Radiation Therapy, E&M Services, Surgery Services and Pathology Services.

231. By virtue of the false or fraudulent claims that Marder and ADSC made and/or caused to be made, the United States suffered damages and therefore is entitled to treble damages under the False Claims Act, to be determined at trial, plus civil penalties of not less than $5,500 and up to $11,000 for each violation.

IX. SECOND CAUSE OF ACTION

(False Claims Act: Presentation of False Claims)
(31 U.S.C. § 3729(a)(1) (claims up to and through May 19, 2009)
and 31 U.S.C. §3729(a)(1)(A) (claims from and after May 20, 2009))

232. The United States repeats and realleges the preceding paragraphs as if fully set forth herein.

233. Defendants Marder, ADSCC, Kendall and KML knowingly presented or caused to be presented false or fraudulent claims for payment or approval to the United States for laboratory services that were false as a result of illegal kickbacks.

234. Defendants Marder, ADSCC, Kendall and KML knowingly presented or caused to be presented false or fraudulent claims for payment or approval to the United States by submitting claims for laboratory services that were ineligible for reimbursement under the Stark Law's express prohibition on Medicare billing and Medicare reimbursement for services that are the product of a referral from a physician with whom the physicians has an illegal financial relationship.

235. Defendants Marder and ADSCC knowingly presented or caused to be presented false or fraudulent claims for services that were billed in violation of applicable Medicare statutes, regulations and rules.

236. By virtue of the false or fraudulent claims that Marder, ADSCC, Kendall and KML made and/or caused to be made, the United States suffered damages and therefore is entitled to treble damages under the False Claims Act, to be determined at trial, plus civil penalties of not less than $5,500 and up to $11,000 for each violation.

X. THIRD CAUSE OF ACTION

(False Claims Act: Presentation of False Statements Material to False Claims)
(31 U.S.C. § 3729(a)(1)(B))

237. The United States repeats and realleges the preceding paragraphs as if fully set forth herein.

238. Defendants Marder and ADSCC knowingly made, used, or caused to be made or used false records or statements material to false or fraudulent claims and to get such claims paid by the United States with respect to Radiation Therapy, E&M Services, Surgery Services and Pathology Services.

239. Defendants Marder and ADSCC knowingly made, used, or caused to be made or used false records or statements material to false or fraudulent claims and to get false or fraudulent claims paid by the United States with respect to for Radiation Therapy, E&M Services, Surgery Services and Pathology Services that were billed in violation of applicable Medicare statutes, regulations and rules.

240. By virtue of the false or fraudulent claims that Marder and ADSCC made and/or caused to be made, the United States suffered damages and therefore is entitled to treble damages under the False Claims Act, to be determined at trial, plus civil penalties of not less than $5,500 and up to $11,000 for each violation.

XI. FOURTH CAUSE OF ACTION

(False Claims Act: Presentation of False Statements Material to False Claims)
(31 U.S.C. § 3729(a)(1)(B))

241. The United States repeats and realleges the preceding paragraphs as if fully set forth herein.

242. Defendants Marder, ADSCC, Kendall and KML knowingly made, used, or caused to be made or used false records or statements material to false or fraudulent claims and to get such claims paid by the United States with respect to laboratory services that were ineligible for reimbursement as a result of illegal kickbacks.

243. Defendants Marder, ADSCC, Kendall and KML knowingly made, used, or caused to be made or used false records or statements material to false or fraudulent claims and to get false or fraudulent claims paid by the United States with respect to laboratory services ineligible for reimbursement under the Stark Law's express prohibition on Medicare billing and Medicare reimbursement for services that are the product of a referral from a physician with whom the physicians has an illegal financial relationship.

244. Defendants Marder and ADSCC knowingly presented and caused to be presented false or fraudulent claims for services that were billed in violation of applicable Medicare statutes, regulations and rules.

245. By virtue of the false or fraudulent claims that Marder, ADSCC, Kendall and KML made and/or caused to be made, the United States suffered damages and therefore is entitled to treble damages under the False Claims Act, to be determined at trial, plus civil penalties of not less than $5,500 and up to $11,000 for each violation.

XII. FIFTH CAUSE OF ACTION
(Conspiracy (31 U.S.C. § 3729(a)(3)))

246. The United States repeats and realleges the preceding paragraphs as if fully set forth herein.

247. Defendants Marder, ADSCC, Kendall and KML entered into an agreement to have the United States pay false or fraudulent claims by entering into a conspiracy for Kendall and KML to pay kickbacks to Marder and ADSCC in return for referrals for laboratory services to be sent from Marder and ADSCC to Kendall and KML.

248. Defendants Marder, ADSCC, Kendall and KML entered into an agreement to have the United States pay false or fraudulent claims by entering into a conspiracy with respect to laboratory services ineligible for reimbursement under the Stark Law's express prohibition on Medicare billing and Medicare reimbursement for services that are the product of a referral from a physician with whom the physician has an illegal financial relationship.

249. By virtue of the false or fraudulent claims that Marder, ADSCC, Kendall and KML conspired to be made and/or caused to be made, the United States suffered damages and therefore is entitled to treble damages under the False Claims Act, to be determined at trial, plus civil penalties of not less than $5,500 and up to $11,000 for each violation.

XIII. SIXTH CAUSE OF ACTION
(Unjust Enrichment)

250. The United States repeats and realleges the preceding paragraphs as if fully set forth herein.

251. The United States claims the recovery of all monies by which Marder and ADSCC have been unjustly enriched.

252. As a consequence of the acts set forth above, Marder and ADSCC were unjustly enriched at the expense of the United States in an amount to be determined at trial which, under the circumstances, in equity and good conscience, should be returned to the United States.

XIV. SEVENTH CAUSE OF ACTION
(Payment by Mistake)

253. The United States repeats and realleges the preceding paragraphs as if fully set forth herein.

254. The United States claims the recovery of all monies it paid to Marder and ADSCC by mistake.

255. As a consequence of the acts set forth above, Marder and ADSCC were paid by mistake at the expense of the United States in an amount to be determined at trial which should be returned to the United States.

PRAYER FOR RELIEF

WHEREFORE, the United States demands and prays that judgment be entered in its favor against defendants as follows:

I. On the First, Second, Third, Fourth and Fifth Counts under the False Claims Act, for the amount of the United States' damages, trebled as required by law, and such civil penalties as are required by law, together with all such further relief as may be just and proper.

II. On the Sixth Count for unjust enrichment, for the amounts by which defendants were unjustly enriched, plus interest, costs, and expenses, and for all such further relief as may be just and proper.

III. On the Seventh Count for payment by mistake, for the amounts the United States paid by mistake, plus interest, costs, and expenses, and for all such further relief as may be just and proper.

DEMAND FOR JURY TRIAL

The United States demands a jury trial in this case.

Dated: November 19, 2014

Respectfully submitted,

VII. COUNTS 25

I. INTRODUCTION

1. This is an action brought on behalf of the UNITED STATES OF AMERICA and the STATE OF FLORIDA (collectively, the "Government"), to recover treble damages and civil penalties against Defendants, pursuant to the Federal False Claims Act, 31 U.S.C. § 3729 et seq., as amended, and the Florida False Claims Act, Fla. Stat. § 68.082 et seq. (collectively "The False Claims Acts").

2. Plaintiff Theodore A. Schiff, M.D. ("Relator") brings this *qui tam* action to recover treble damages and civil penalties on behalf of the Government. The allegations in this Complaint arise from Plaintiff's evidence, as set forth more specifically below, that the above-captioned Defendants have submitted false and fraudulent claims for reimbursement to the Government.

3. Defendant, Gary L. Marder D.O. ("MARDER") has billed for tens of thousands of services which are not medically necessary, such as biopsies of patently benign tissue. After ordering the unnecessary biopsies, MARDER compounds the fraud by performing medically unnecessary radiation therapy and/or surgeries on benign and non-cancerous skin lesions. Moreover, MARDER utilizes a specialized, rarely used and medically unnecessary type of radiation therapy that he performs incorrectly, thus increasing the potential for adverse side effects to the patient. Further, MARDER permits Defendants Megan Bock PA ("BOCK") and Martin Burke PA ("BURKE") to routinely administer radiation therapy/treatment to MARDER patients, although BOCK and BURKE are neither qualified nor licensed to lawfully administer such treatments.

4. Additionally, Defendant MARDER and Defendant Robert I. Kendall, M.D. ("KENDALL") have come to an illegal arrangement for profit pursuant to which MARDER refers pathology work to KENDALL, KENDALL performs the work at KENDALL's office, and

KENDALL permits MARDER to bill globally for the work performed by KENDALL as if performed by MARDER. Thus, MARDER is engaging and paying KENDALL to perform MARDER's pathology work for which MARDER and KENDALL receive fees and/or referrals which violate the Medicare and Medicaid Patient Protection Act of 1987, 42 U.S.C. § 1320a-7b(b) ("Anti-Kickback Statute" or "AKS") and the Federal False Claims Act ("FCA"), 31 U.S.C. §§ 3729-3733 ("FCA"). KENDALL benefits because MARDER sends referrals to KENDALL. MARDER benefits because he bills for work performed by KENDALL.

II. JURISDICTION AND VENUE

5. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. Section 131 and 31 U.S.C. Sections 3730(b) and 3732(a), which specifically confers jurisdiction.

6. This Court has personal jurisdiction over Defendants pursuant to 31 U.S.C. section 3732(a) which authorizes nationwide service of process. Defendants can be found in, reside in, or have transacted business in the Southern District of Florida.

7. Venue is proper in this District pursuant to 31 U.S.C. Section 3732(a) because the Defendants can be found in, reside in, or have transacted business in the Southern District of Florida, and the alleged acts occurred in this District.

8. No allegation set forth in this Compliant is based on a public disclosure of allegations or transactions in a criminal, civil or administrative hearing, in a Congressional, administrative or General Accounting Office report, hearing audit, or investigation, or from the news media. Further, to the extent Relator is aware of any public disclosures, this complaint (the "Complaint") is not based upon such public disclosures. Plaintiff SCHIFF has direct and independent knowledge, within the meaning of 31 U.S.C. Section 3730(e)(4)(B) and the

analogous provisions of the Florida FCA, of the information on which the allegations set forth in this Complaint are based.

III. THE PARTIES

9. Relator Theodore A. Schiff is a resident of Palm Beach County, Florida, and brings this action on behalf of himself, the STATE OF FLORIDA, and the UNITED STATES OF AMERICA. Relator is a double Board Certified Medical Doctor in Dermatology and Dermatopathology licensed to practice Medicine in the State of Florida. Relator has among one of his specializations the treatment of skin cancer. Relator is the president and principal owner of Water's Edge Dermatology, LLC ("Water's Edge Dermatology"). The allegations set forth in this Complaint are based on personal investigation, testimony of witnesses, and the fact that Water's Edge Dermatology often receives patients who have been treated by Defendant Marder and are seeking a second opinion after receiving a "skin cancer" diagnosis from Defendant Marder.

10. Defendant Marder (a/k/a Gary L. Marder D.O.) (MARDER) is a physician, who resides in Palm Beach County, Florida, and who was licensed to practice Medicine in the State of Florida at all times relevant to this Complaint.

11. Defendant, Allergy, Dermatology & Skin Cancer Center, Inc. (ALLERGY) is a Florida Corporation owned and operated by MARDER doing business at 9580 South Federal Highway, Port St. Lucie, FL 34952, with a satellite office located at 202 NE 2nd Street #2 Okeechobee, Florida 34972.

12. Allergy, Dermatology & Skin Cancer Center, Inc. sometimes does business under an expired (as of October 31, 2007) fictitious name of Gary L. Marder D.O., Medical Lab (MARDER LABORATORY).

13. MARDER D.O., ALLERGY, and MARDER MEDICAL LABORATORY shall be collectively referred to as MARDER.

14. Defendant BOCK is a physician assistant (PA) who resides in Port Saint Lucie County, Florida, and who was licensed as a physician assistant in the State of Florida at all times relevant to this Complaint.

15. Defendant BURKE is a physician assistant (PA) who resides in Port Saint Lucie County, Florida, and who was licensed as a physician assistant in the State of Florida at all times relevant to this Complaint.

16. Defendant Kendall (a/k/a Robert I. Kendall M.D.) (KENDALL) is a physician and a Board Certified Pathologist, who resides in Miami-Dade County, Florida, and who was licensed to practice Medicine in the State of Florida at all times relevant to this Complaint.

17. Defendant, Kendall Medical Laboratory, Inc. (KML) is a Florida Corporation owned and operated by KENDALL M.D. doing business at 2500 Douglas Road, Suite A, Coral Gables, FL 33134.

18. KENDALL M.D. and KML shall be collectively referred to as KENDALL.

19. MARDER and KENDALL shall be collectively referred to as Defendants or MARDER and KENDALL.

20. MARDER and his affiliated entities are now, and at all times relevant hereto in the past, have been separate and distinct legal entities from KENDALL and his affiliated entities.

21. MARDER and his affiliated entities along with KENDALL and his affiliated entities do not qualify as a "group practice" as that term is defined under relevant sections of the Stark Law (more fully described below).

22. The sole association of MARDER and KENDALL is by virtue of an illegal scheme and agreement (the "Arrangement") that is the subject of this proceeding.

IV. GOVERNMENT HEALTHCARE PROGRAMS

23. The UNITED STATES OF AMERICA, through the Department of Health and Human Services (DHHS), administers and funds the Medicare Program (MEDICARE) under title XVIII of the Social Security Act 42 U.S.C. section 1395-1395ccc. MEDICARE is a federally subsidized health insurance system for disabled persons and persons over the age of sixty-five. Part A of the MEDICARE Program, 42 U.S.C. sections 1395c- 1395i-2, provides payments for basic hospitalization insurance costs. Part B of the MEDICARE Program, 42 U.S.C. sections 1395j- 1395 ww, provides payments for physician services and certain medical and other health services. Either MEDICARE Part A or Part B covers the expenses of medically necessary treatments and services, provided that the individual meets the qualifications for enrollment in MEDICARE.

24. For outpatient treatment, all MEDICARE reimbursement is subject to Part B. 42 U.S.C. §§ 1395j-1395w-4. To obtain MEDICARE reimbursement pursuant to Part B, providers submit claims using forms known as CMS 1500s. Among the information the provider includes on a CMS 1500 form are certain five-digit codes, known as Common Procedural Codes, or CPT codes, that identify the services rendered and for which reimbursement is sought.

25. Any provider seeking MEDICARE reimbursement through Part B must certify on a CMS Form 1500 that "the services shown on this form were medically indicated and necessary for the health of the patient and were personally furnished by me or were furnished incident to my professional service by my employee under my immediate personal supervision."

26. When procedures are performed that could be split between technical component (TC) and professional component (PC) – such as an x-ray, which involves the image itself (the technical component) and the "reading" of the image by a radiologist (the professional component – there are modifiers that when included in the bill, indicate to CMS that a specific physician is only billing for either of those services. The presence of no modifier indicates that the physician is billing MEDICARE globally (for both TC and PC).

27. Other government healthcare programs – such as Florida Medicaid and TRICARE – have similar structures and reimbursement rules.

28. As to Florida Medicaid, that program is jointly funded by the United States and by the State of Florida. Thus, to the extent the above-captioned defendants defrauded Florida Medicaid, they defrauded both the United States and the State of Florida.

V. THE LAW

A. The False Claims Act

29. The FCA, provides, *inter alia*, that any person who (1) "knowingly presents, or causes to be presented, a false or fraudulent claim for payment or approval," or (2) "knowingly makes, uses, or causes to be made or used, a false record or statement material to a false or fraudulent claim," is liable to the United States for a civil monetary penalty plus treble damages. 31 U.S.C. § 3729(a)(1)(A)-(B).

30. The terms "knowing" and "knowingly" are defined to mean "that a person, with respect to information (1) has actual knowledge of the information; (2) acts in deliberate ignorance of the truth or falsity of the information; or (3) acts in reckless disregard of the truth or falsity of the information." 31 U.S.C. § 3729(b)(1)(A)(i)-(iii). Proof of specific intent to defraud is not required. 31 U.S.C. § 3729(b)(1)(B).

31. The term "claim" means "any request or demand, whether under a contract or otherwise, for money or property and whether or not the United States has title to the money or property, that (1) is presented to an officer, employee, or agent of the United States; or (2) is made to a contractor, grantee, or other recipient, if the money or property is to be spent or used on the Governments behalf or to advance a Government program or interest, and if the United States Government (a) provides or has provided any portion of the money or property requested or demanded; or (b) will reimburse such contractor, grantee, or other recipient for any portion of the money or property which is requested or demanded . . . ." 31 U.S.C. § 3729(b)(2)(A)(i)-(ii).

32. "[T]he term 'material' means having a natural tendency to influence, or be capable of influencing, the payment or receipt of money or property." 31 U.S.C. § 3729(b)(4).

33. Florida has enacted a False Claims Act which is modeled after the Federal FCA, and each contains provisions similar to those quoted above. Relator asserts claims under the Florida FCA for the State portion of Medicaid false claims detailed in this complaint.

B. <u>The Anti-Kickback Statute</u>

34. The Anti-Kickback Statute is violated by:

> (1) who ever knowingly and willfully solicits or receives any remuneration (including any kickback, bribe or rebate) directly or indirectly, overtly or covertly, in cash or in kind
>
> > (A) in return for referring an individual to a person for the furnishing or arranging for the furnishing of any item or service for which payment may be made in whole or in part under a Federal health care program. . . .
> >
> > (B) in return for purchasing, leasing, ordering, or arranging for or recommending purchasing, leasing, or ordering any good, facility, service, or item for which payment may be made in whole or in part under a Federal health care program
>
> * * *

> (2) who ever knowingly and willfully offers and pays any remuneration (including any kickback, bribe or rebate) directly or indirectly, overtly or covertly, in cash or in kind to any person to induce such person
>
> (A) to refer an individual to a person for the furnishing or arranging for the furnishing of any item or service for which payment may be made in whole or in part under a Federal health care program.
>
> (B) to purchase, lease, order, or arrange for or recommend purchasing, leasing, or ordering any good, facility, service, or item for which payment may be made in whole or in part under a Federal health care program . . . .

U.S.C. § 1320a-7b(b).

35. A "Federal health care program" is defined as any plan or program providing health benefits funded, whether directly or indirectly, by the United States Government. 42 U.S.C. § 1320a-7b(f). The Anti-Kickback Statute applies to claims submitted to Medicare, Medicaid, and the other government payers such as Tricare, etc.

36. Congress has long viewed the elimination of kickbacks as central to any efforts to combat Medicare fraud and abuse. *See United States v. Greber*, 760 F.2d 68, 70-71 (3d. Cir. 1985). Because kickback schemes negatively affect the integrity of federal health care programs, the Government has a strong interest in ensuring the continued viability of False Claims Act actions to deter and redress health care fraud predicated upon kickbacks. *United States ex rel. Charles Wilkins and Daryl Willis v. United Health Group, Inc. et al.,* (3d Cir. Oct. 2010)(No. 10-2747) (Brief for the United States as Amicus Curie Supporting Appellant)("Amicus Brief").

37. To protect against the erosion of patient care and patient safety, courts uniformly agree that compliance with the AKS is a material condition of payment under the Medicare program. *See United States ex rel. Schmidt v. Zimmer, Inc.,* 386 F.3d 235, 243 (3d Cir. 2004); *United States ex rel. Conner v. Salina Regional Health Ctr.,* 543 F.3d 1211, 1223 n.8 (10th Cir. 2008); *United States ex rel. McNutt v. Haleyville Medical Supplies,* 423 F.3d 1256, 1259-1260

(11th Cir. 2005); and *United States v. Rogan,* 459 F. Supp. 2d 692, 717 (N.D. Ill. 2006), *aff'd*, 517 F.3d 449 (7th Cir. 2008).

38. These and other courts have held that a person or entity who violates the AKS and submits a claim or causes another to do so has violated the False Claims Act regardless of what form the claim or statement takes. Many of these courts have reasoned that the claims are false, and thus violate the FCA, because there is a false certification – either express or implied – as to compliance with the AKS each time a claim is submitted.[1]

39. Moreover, the AKS was recently amended to expressly state what these courts had already held, namely, that a violation of the AKS constitutes a "false or fraudulent" claim under the FCA. 42 U.S.C. § 1320(a)-7b(g).

C. Medical Necessity Rules

40. Medicare does not reimburse for devices which are not "reasonable and necessary" for the diagnosis and treatment of illness or injury. 42 U.S.C. § 1395y(a)(1)(A). Moreover, a device that is hazardous to patient health when used as directed in its labeling is "misbranded," FDCA § 502(j); 21 U.S.C. § 352(j), and certainly is not "safe and effective." Submitting a bill to

[1] *See, e.g., United States v. Rogan*, 517 F.3d 449, 452 (7th Cir. 2008); *United States ex rel. Thompson v. Columbia/HCA Healthcare Corp.*, 125 F.3d 899, 902 (5th Cir.1997); *United States ex rel. Schmidt v. Zimmer, Inc.*, 386 F.3d 235, 245 (3d Cir. 2004); *Mason v. Medline Industries, Inc.,* 2010 WL 653542, at *5-9 (N.D. Ill. Feb. 18, 2010); *United States v. ex rel. Jamison v. McKesson Corp.*, 2009 WL 3176168 (N.D. Miss. September 29, 2009); *In re Pharmaceutical Indus. Average Wholesale Price Litig.*, 491 F. Supp. 2d 12, 17-18 (D. Mass. 2007); *United States ex rel. Bidani v. Lewis*, 264 F. Supp. 2d 612, 615-16; *United States ex rel. Franklin v. Parke-Davis*, 2003 WL 20048255 (D. Mass. August 22, 2003); *United States ex rel. Pogue v. Diabetes Treatment Centers of America*, 238 F. Supp. 2d 258, 264 (D.D.C. 2002); and *United States ex rel. Bartlett v. Tyrone Hospital, Inc.*, 234 F.R.D. 113, 121 (W.D. Pa. 2001). When enrolling in Medicare, providers certify on CMS Form 855A that they "agree to abide by Medicare laws, regulations and program instructions that apply to me . . . I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations and program instructions (including, but not limited to, the Federal Anti-Kickback Statute and the Stark Law), and on my compliance with all applicable conditions of participation in Medicare."

the Government for a medically unnecessary or misbranded item or service – i.e., submitting a bill to Medicare for a non-reimbursable item or service – constitutes a false claim. In re Pharmaceutical Industry Average Wholesale Price Litigation, 147 F.Supp.2d 39, 52-53 (D. Mass. 2007) (knowing submission of non-reimbursable claims creates liability under the FCA). Stated differently, "[t]o the extent that a healthcare provider seeks reimbursement for a procedure that is ineligible for payment under a federal healthcare program, either because the program bars coverage for a particular off-label use of a device or because the program places other conditions on coverage that are not satisfied, the claim is false." U.S. ex rel. Nowak v. Medtronic, Inc., Case Nos. 1:08-cv-10368 and 09-cv-11625, D. Mass. (United States of Americas Statement of Interest), at 6. Further, services *related* to a non-covered device are, similarly, not covered by Medicare. 42 C.F.R. § 405.207 ("payment is not made for medical and hospital services that are related to the use of a device that is not covered because CMS determines that the device is not 'reasonable' and 'necessary' . . . or because it is excluded from coverage for other reasons").

D. The Stark Law

41. Section 1877 of the Social Security Act (42 U.S.C. 1395nn), also known as the Stark Law (Stark), imports a prohibition against physicians referring patients to receive designated health services (DHS) payable by MEDICARE or Medicaid from entities with which the physician or an immediate family member has a financial relationship, unless an exception applies.

42. Stark is a strict liability statute which provides as follows:

> (a) Prohibition of certain referrals:
>
> (i) In general . . . Except as provided in subsection (b) of this section, if a physician (or an immediate family member of such physician) has a financial relationship with an entity specified in paragraph (2), then—

> (a) the physician may not make a referral to the entity for the furnishing of designated health services for which payment otherwise may be made under this subchapter, and
>
> (b) the entity may not present or cause to be presented a claim under this subchapter or bill to any individual, third party payor, or other entity for designated health services furnished pursuant to a referral prohibited under subparagraph (A).

42 U.S.C. §1396nn(a)(1).

43. Stark also applies to claims for payment under Medicaid, and federal funds may not be used to pay for designated health services through a state Medicaid program. 42 U.S.C. §1396b(s).

44. Under Stark, "[t]he term 'remuneration' includes any remuneration, direct or indirect, overt or covert, in cash or in kind." 42 U.S.C. § 1395nn(h)(1)(B). "Designated health services" include certain outpatient hospital services, including the biopsies and other clinical laboratory work which are addressed in this complaint. 42 U.S.C. §1395nn(h)(6).

45. A referral is defined as a request, order, or certification by a physician for a DHS including any request for a test from another physician.

46. Clinical laboratory services are deemed to be DHS.

47. There are various financial relationships to which the Stark Law applies. A direct compensation arrangement is one of them. A direct compensation arrangement exists if remuneration passes between the referring physician and the entity furnishing DHS without any intervening person. Once the plaintiff proves that Stark applies – that is, once the plaintiff establishes that there is a financial relationship between the two providers, and that referrals are passing between them – the burden shifts to the defendant to prove that the conduct fits into one of the exceptions. *U.S. ex rel Kosenske v. Carlisle HMA, Inc.*, 554 F.3d 88, 95 (3rd Cir. 2009); *United States v. Rogan*, 459 F. Supp. 2d 692, 716 (N.D. Ill. 2006), *aff'd*, 517 F.3d 449 (7th Cir. 2008).

48. The main exceptions to the rule are the physician services exception and the in-office ancillary services exception. The physician services exception allows a physician to refer a DHS to another physician who is either: a (1) member of the same group or practice as the referring physician or (2) a physician in the same group or practice as the referring physician.

49. The in-office ancillary services exception permits a group practice to provide and bill for DHS that are ancillary to professional services provided by either (1) a member of the same group practice as the referring physician or (2) a physician in the same group practice as the referring physician.

50. For purposes of both exceptions, to constitute a "group practice" the practice must be:

> (1) a single legal entity, (2) have at least two members, (3) each physician must perform a full range of service and (4) substantially all of the patient care services of all the physician members of the group must be furnished by the group.

51. For purposes of both exceptions "member of the group practice" or a "physician in the group practice" means a physician owner of a group practice, a physician employee of the group practice, a locum tenens physician, or an on-call physician while the physician is providing on –call services for members of the group practice.

VI. DEFENDANTS' FRAUDULENT SCHEMES

A. Medically Unnecessary Biopsies, False Cancer Diagnoses, Medically Unnecessary Radiation, and Fraudulent Billing Practices for Radiation Doses

52. MARDER performs and bills the Government for large volumes of medically unnecessary biopsies.

53. MARDER requires his physician assistants, Defendants BOCK and BURKE, to perform a minimum daily quota of at least 50 biopsies, regardless of whether patients have lesions

which justify being biopsied. By way of example, MARDER instructs BOCK and BURKE to perform biopsies on skin disorders for which biopsies are not appropriate, such as acne, areas of dried skin, skin that has been scratched, and other obviously benign lesions. MARDER then sends the biopsied specimen to KENDALL, who performs an unnecessary biopsy analysis. The biopsy and the analysis are both paid for by the Government.

54. But that is not all. MARDER and KENDALL subsequently diagnose as cancerous biopsy slides which show benign skin conditions such as warts, excoriated (scratched) skin, and non-cancerous conditions such as actinic keratosis and solar lentigos ("freckles").

55. The MARDER-KENDALL pathology reports evidence a pattern of misdiagnosing non-cancerous lesions as cancerous.

56. Attached as Exhibit "A" is Report #1 ("Report #1") for Patient #1. Seven (7) specimens on Report #1 are misdiagnosed. Specimens B, D, E, F, H, J and L are all diagnosed as "SCC" (squamous cell carcinoma), a form of skin cancer. None of the specimens are cancerous. Of the seven (7) specimens, three (3) are warts, one (1) is most likely a wart but is clearly non-cancerous, one (1) is irritated skin, one (1) is dried blood, and one (1) is actinic keratosis.

57. Attached as Exhibit "B" is Report #2 Report #2 for Patient #2 Specimen E on Report #2 is a benign skin growth which is misdiagnosed as SCC.

58. Attached as Exhibit "C" is Report #3 3 ("Report #3") for Patient #3. Specimens C and E on Report #3 are freckles which are mis-diagnosed as SCC.

59. Attached as Exhibit "D" is Report #4 ("Report #4") for Patient #4. Specimen B on Report #4 reflects a case of actinic keratosis which was misdiagnosed as SCC.

60. Attached as Exhibit "E" is Report #5 ("Report #5") for Patient #5. Specimens-B and D on Report #5 reflect actinic keratosis which was misdiagnosed as SCC.

61. Non-cancerous lesions are intentionally misdiagnosed as cancerous by MARDER and KENDALL to afford MARDER the opportunity to offer procedures resulting in additional billing opportunities. Specifically, when patients are told they have cancer, they are easily persuaded by MARDER to undergo a highly specialized and rarely used technique of radiation therapy called hyper-fractionation, which generates considerable revenue for MARDER. As with the previously described unnecessary biopsies and analyses, the radiation treatments are paid for by the Government.

62. Even if such patients *did* have malignant lesions, this type of radiation therapy (hyper-fractionated) is never medically necessary for the treatment of skin cancer. In fact, the vast majority of patients who have skin cancer undergo a surgical procedure to have the cancer removed. The National Comprehensive Cancer Network (NCCN)[2] guidelines are the most relied upon source in this field and are the guidelines relied upon by competent dermatologists, oncologists and radiation oncologists. According to the NCCN guidelines, hyper-fractionated radiation therapy is only indicated for advanced and unresectable head and neck cancers that cannot be treated by surgery. In fact, according to NCCN guidelines, *hyper-fractionation is never recommended or endorsed for the treatment of skin cancer*.[3] Despite this, MARDER, BOCK and BURKE use hyper-fractionation on virtually 100% of the patients that are diagnosed with "skin cancer."

63. In addition to defrauding the Government, this practice presents considerable risk to patients. Hyper-fractionation therapy uses high-energy radiation to shrink tumors and kill cancer

---

[2] The NCCN is an alliance of 23 of the world's leading cancer centers.

[3] See generally National Comprehensive Cancer Network, NCCN Guidelines- Basal Cells and Squamous Cell Skin Cancers (2013).

cells by damaging DNA. This radiation therapy not only damages the cancer cells present in the body, but it is also has a damaging effect on healthy tissue which surround the tumor being treated. Side effects of radiation therapy can occur immediately after treatment or a considerable period of time thereafter. Side effects during the time radiation therapy is being received include skin irritation, damage at regions exposed to radiation, damage to salivary glands, hair loss when the head or neck is treated, and fatigue. Long-term effects include atrophy, fibrosis, telangiectasia, tooth loss, and gum damage. Moreover, hyper-fractionated radiation therapy yields higher rates of acute skin toxicity compared with conventional radiotherapy.[4]

64. Moreover, the Defendants perform the procedure in a manner that is both ineffective and dangerous. With hyper-fractionation, the total daily dose is usually ten or twenty percent greater than with standard fractionation. It is usually achieved by giving two treatments per day, five days per week. It is standard practice that time intervals between radiation doses on the same day be no less than six hours apart.[5]

65. The reason that time intervals between fractions must be sufficiently separated so as to be independent doses is to allow for the repair of sub-lethal damage to healthy tissue from the first dose to be completed before the next dose is delivered.[6]

---

[4] Cancer Care Ontario, Hyper-fractionated Radiotherapy for Locally Advanced Squamous Cell Carcinoma of the Head and Neck (2003) ; see Radiology for the Radiobiologist supra 3 at 401 ;

[5] Edward C. Halperin, David E. Wazer, Carlos A. Perez & Luther W. Brady, Principles and Practice of Radiation Oncology 85 (6th ed. 2013); Radiation Therapy for Skin Cancer 15 (Armand B. Cognetta Jr. & William M. Menderhall 2013).

[6] Eric J. Hall & Amato J. Giaccia, Radiology for the Radiobiologist 135 , 401 (7th ed. 2012); see Radiation Therapy for Skin Cancer, supra at 15.

66. Notwithstanding the guidelines and the associated risks, MARDER, BOCK and BURKE perform the procedures less than two hours apart from each other, and in most instances less than one hour apart.

67. The improperly short interval between fractions renders the hyper-fractionation treatment protocol dangerous because of the increased risk of injury to the healthy tissue surrounding the tumor when the healthy tissue is re-irradiated within 6 hours.
The 6 hour or longer interval is necessary to allow sufficient time for-healthy tissue to recover from the effects of the first dose of radiation. This is standard practice and is supported by medical studies and reports performed by radiation biologists and radiation oncologists who have verified the necessary interval as being between 6 and 12 hours. [7] If the healthy tissue is not fully recovered when the second dose of radiation is administered, the healthy tissue is more susceptible to the side effects described above.

68. There are three reasons why offering hyper-fractionated treatment in short intervals is beneficial to MARDER. First, a short interval treatment regimen is an easier "sell" to a patient, particularly when a patient is faced with a 20 day regimen of 2 treatments per day. A patient unknowing of the side effects is far more likely to agree to wait 45 minutes between treatments, as compared with 6 hours or more. Second, administering the treatments in short intervals enables MARDER to process more cases with less support staff. Third, and most significantly, hyper-fractionated treatments affords MARDER the ability to double revenues by billing MEDICARE for two (2) fractionations per day rather than one (1). MARDER's typical case involves a

[7] Radiation Therapy for Skin Cancer 89 (Armand B. Cognetta Jr. & William M. Menderhall 2013)

regimen of forty (40) fractions; this is at least four (4) times the maximum number of fractions for a typical radiation therapy regime according to literature in the field.[8]

69. Based on his knowledge of the standard of care for the procedures at issue in this case, Relator estimates that MARDER uses hyper-fractionation more than any single MEDICARE provider in the United States.

70. In addition to providing medically unnecessary and dangerous radiation treatments to healthy patients, MARDER blatantly violates the Government's reimbursement guidelines for radiation procedures.

71. To be safe and effective, radiation therapy must be administered properly by a properly trained and licensed physician or radiation therapist under the direction of a physician. CMS therefore imposes reimbursement guidelines for coverage when radiation therapy is performed in a doctor's office or freestanding radiation therapy center. For radiation therapy services provided in a physician's office or in a free standing radiation therapy center to be covered by MEDICARE, the Government requires direct personal supervision by a physician.[9] Specifically, the Government mandates that the physician, at the very least, needs to be on premises and immediately available to provide assistance in order to charge any fee whatsoever for radiation therapy services. If at any point during the radiation therapy treatment the physician leaves the office, any radiation therapy provided during his/her absence will not be covered at all by MEDICARE. [10]

---

[9] CFR 410.32(b)(3)
[10] CFR 410.32(b)(3)

72. Per all of the above requirements, all claims for radiation treatments performed when MARDER was not present in his office (i.e. Tuesdays, Thursdays or Fridays in Port St. Lucie and any time other than the 3 hours every other week during which MARDER is present in the Okeechobee office) constitute false claims. **(See, *infra.* ¶99).**

73. Finally, neither BOCK, nor BURKE hold the requisite licenses as required under Florida statute §468.203 to administer radiation therapy treatment in the state of Florida. Only MARDER is qualified to lawfully administer radiation therapy treatment to his patients.

74. If the Government was aware that unqualified and unsupervised personnel were performing medically unnecessary and dangerous radiation treatments on human beings, the Government would not have paid for said procedures.

B. Fraudulent Billing, AKS Violations, and Stark Law Violations

75. Relator operates an in-house dermatopathology laboratory. Relator prepares and reads his own slides in his lab and has done so for more than 10 years. Accordingly, Relator is uniquely qualified to comment on practices, procedures, and standards of practice in this specialized field.

76. Dermatologists who do not operate their own in-office dermatopathology lab must send their specimens to an outside independent laboratory for the preparation of a slide, and the preparation of a report which contains a gross microscopic description of the specimen. This work is known as the technical component (TC).

77. Some dermatologists read/analyze the slides and accompanying reports. This analysis is known as the professional component (PC).

78. When the lab is only preparing the slide for reading by the dermatologist, the lab is only allowed to bill under CPT code 88305-TC (TC indicating to the Government that the lab has

only performed the technical component). After the dermatologist reads the slide prepared by the lab, he/she is entitled to bill the Government using CPT code 88305-26 (26 indicates that the professional component of the service has been performed by the dermatologist).

79. Some dermatologists do not read the slides, and instead allow the independent laboratory to both prepare and read the slides. If the lab performs both the TC and the PC in the same location/zip code, the lab is entitled to send one "global" bill to the Government, using CPT code 88305, for both the technical component and the professional component. In such a situation, item 32 of the CMS 1500 requires the lab to provide its address, so CMS can determine the appropriate reimbursement for code 88305 in the lab's zip code.[11] The dermatologist – having performed none of the work – is not entitled to bill the Government.

80. But this is exactly what is happening. Here, KENDALL performs both the TC and the PC, signs the report, then sends it to MARDER, who simply stamps the report without looking at the slides or changing anything thereon.

81. Further, the reports contain dual signatures for both KENDALL and MARDER. This practice is highly unusual and is being done to create ambiguity as to which party is performing the services.

82. In fact, MARDER neither possesses the requisite computer software or hardware, nor employs support clerical staff such as transcription personnel, which would be required if MARDER was actually operating a pathology lab and creating pathology reports. Moreover, MARDER does not maintain an on-site daily control slide or a quality control log at his Port St.

---

[11] Pub. 100-04 Medicare Claims Processing, Trans. 2714 CR 8013 (2013).

Lucie office, both of which are required to be maintained on-site in a pathology lab under the federal Clinical Laboratory Improvement Amendments (CLIA).

83. Moreover, if MARDER was actually reading slides at his office (as would be required to qualify for the professional component billing, not to mention global billing) the slides would need to be returned to him at essentially the same frequency as which he was sending them out for preparation of the technical component. While biopsy specimens are shipped by MARDER to KENDALL on a daily basis, slides are retuned by KENDALL to MARDER only once or twice per month, generally via UPS.

84. This Arrangement violates the Stark Law. Here, MARDER and KENDALL have a "financial relationship" within the meaning of Stark, and large volumes of referrals for designated health services (clinical laboratory work) are flowing between MARDER and KENDALL. Moreover, as discussed above, this Arrangement does not fit within any of Stark's exceptions.

85. This Arrangement also violates the AKS, because remuneration is being provided in exchange for referrals. Specifically, KENDALL is effectively assigning – to MARDER – KENDALL'S rights to bill for services KENDALL provided. In exchange, MARDER refers all of his MEDICARE and MEDICAID laboratory work, to KENDALL and the profits are split by unknown means. As per the legal authority cited *supra*, no claims arising from these transactions are eligible for reimbursement.

86. This is true even if the claims were submitted by KENDALL instead of MARDER, because the claims are still tainted by the kickback arrangement. Consequently, all claims arising from the MARDER-KENDALL Arrangement are ineligible for payment and constitute false claims under the FCA. Several specific examples are outlined below.

87. Attached hereto as Exhibit "F" is the Explanation of Benefits ("EOB #1") of Patient

Number 6. This document establishes that MARDER billed Medicare globally for both procedures (the technical component and the professional component) of the pathology work for this patient. MARDER was paid $54.36 for the first (biopsy) pathology procedure (CPT Code 88305) and $597.99 for additional (biopsies) pathology procedures (CPT 88305-76).

88. As described in the first column of EOB #1, modifiers are used to bill for certain procedures. However, the billing of code 88305 in EOB #1 has no modifiers. This falsely indicated to MEDICARE that both the PC and the TC were performed by MARDER, when in fact MARDER performed no work. This is a material falsehood which establishes FCA liability. Moreover, because the claim arose from an illegal referral arrangement which violates the AKS, the claim is not reimbursable. As outlined in the legal section, *infra*, knowingly submitting a non-reimbursable claim creates FCA liability.[12] Finally, on the CMS 1500 form which accompanied this claim, MARDER falsely certified, *inter alia*, that the services were performed in a manner which complied with the AKS. This false certification provides a third foundation for FCA liability.

89. Attached hereto as Exhibit "G" is the EOB ("EOB #2") of Patient Number 7. EOB #2 also shows that MARDER billed globally for pathology.

---

[12] Knowingly submitting or causing the submission of claims to the Government for products or services which are not reimbursable creates liability under the FCA and the Florida FCA. *See U.S. ex. rel. Franklin v. Parke-Davis*, 147 F. Supp. 147, 152-153 (D. Mass. 2001); *See also U.S. ex rel. Nowak v. Medtronic, Inc.,* Case Nos. 1:08-cv-10368 and 09-cv-11625, D. Mass. (United States of America's Statement of Interest, at 6)("[t]o the extent that a healthcare provider seeks reimbursement for a procedure that is ineligible for payment under a federal healthcare program . . . because the program places other conditions on coverage that are not satisfied, the claim is false"), and *U. S. v. Medco Physicians Unlimited*, 2000 U.S. Dist. LEXIS 5843, at *27 (N.D. Ill. Mar. 15, 2000) (granting partial summary judgment for plaintiff on the issue of liability with respect to its claim that Medco submitted false claims for non-reimbursable meals and transportation costs.)

90. In EOB #2, the first column labeled "Service Provided" identifies the modifiers used to bill for various procedures. However, the billing of code 88305 has no modifiers. This falsely indicated to MEDICARE that both the PC and the TC were performed by MARDER, when in fact MARDER performed no work. This is a material falsehood which establishes FCA liability. Moreover, because the claim arose from an illegal referral arrangement which violates the AKS, the claim is not reimbursable. As outlined in the legal section, *infra*, knowingly submitting a non-reimbursable claim creates FCA liability. Finally, on the CMS 1500 form which accompanied this claim, MARDER falsely certified, *inter alia*, that the services were performed in a manner which complied with the AKS. This false certification provides a third foundation for FCA liability.

91. Attached hereto as Exhibit "H" is the EOB ('EOB #3") of Patient Number 8. EOB #3 also shows that MARDER bills globally for pathology.

92. In EOB #3, some "Procedure Codes" are billed with their corresponding modifiers (see, for example, page 21, line 1, line 2 and line 3.). However, none of the entries for billing code 88305 which appear on page 1, line 4; page 21, line 4; and page 22 line 3, include a modifier. This falsely indicated to MEDICARE that both the PC and the TC were performed by MARDER, when in fact MARDER performed no work. This is a material falsehood which establishes FCA liability. Moreover, because the claim arose from an illegal referral arrangement which violates the AKS, the claim is not reimbursable. As outlined in the legal section, *infra*, knowingly submitting a non-reimbursable claim creates FCA liability. Finally, on the CMS 1500 form which accompanied this claim, MARDER falsely certified, *inter alia*, that the services were performed in a manner which complied with the AKS. This false certification provides a third foundation for FCA liability.

93. MARDER and KENDALL may seek to argue that MARDER performs the PC – i.e., he reads/analyzes the slides – and thus he is entitled to bill for his work. This is not happening, for all of the reasons set forth above. However, even if MARDER was analyzing the slides, the Arrangement violates Medicare's global billing rules. Specifically, Pub. 100-04 Medicare Claims Processing, Trans. 2714 CR 8013 (2013) states, *inter alia*, as follows:

> Billing globally for services that are split into separate PC and TC services is only possible when the PC and TC are furnished by the same physician or supplier entity. For example, where the PC and the TC of a diagnostic service are provided in the same service location, this is reflected as the address entered into Item 32 on CMS Form 1500, which provides the ZIP Code to pay the right locality/GPCI. In this case, the physician/entity may bill globally. However, if the PC and the TC are each provided in different service locations (enrolled practice locations), the PC and the TC must be separately billed. Merely applying the same place of service (POS) code to the PC and the TC does not permit global billing for any diagnostic procedure.

94. Under the Arrangement between MARDER and KENDALL, these rules are being blatantly violated. First, MARDER and KENDALL are not "the same physician or supplier entity." Second, the TC and the PC are not "provided in the same service location," since KENDALL's laboratory is located 122 miles from MARDER's office.

C. <u>Physician Assistants Billing as Physicians</u>

95. MEDICARE guidelines are clear as to billing procedures regarding PAs. According to CMS guidelines, services that are provided by PAs for medical and surgical services are subject to a reimbursement rate, which is the lesser of 80 percent of the actual charge or 85 percent of the Physician's Fee Schedule amount reimbursement rate for the service being rendered.

96. Bills submitted to MEDICARE for services rendered by PA's must indicate the PA's National Provider Identification (NPI) to make MEDICARE aware that the payment should be made at 85% of the Physician's Fee Schedule. This mode of billing does not require the physical presence onsite of the physician as long as the service is being billed at the PA's rates.

97. In some circumstances the practice will be allowed to bill under the Physician Fee Schedule "incident-to" services even when the services were provided by PAs. However, this would require direct supervision from the physician. Direct supervision means that the physician needs to be physically on site during the patient's visit, and immediately available to furnish assistance if required when the PA is providing care.

98. MARDER routinely allows PA's to bill under the physician fee schedule when MARDER is not present in the office.

99. MARDER is generally present in the Port St. Lucie office only on Mondays and Wednesdays of each week. The office is open from 8:30 a.m. to 6:00 p.m. MARDER is generally present in the Okeechobee office one morning every other week for approximately 3 hours.

100. MARDER nonetheless submits bills to MEDICARE at the physician fee rate schedule for services performed by PA's during the periods in which MARDER is not present.

101. All bills submitted by MARDER to MEDICARE which misrepresent the presence of MARDER in the office from where services are being billed when MARDER is not actually present in such office, are false claims. Relator estimates that MARDER submits at least 250 such false bills to the Government each week. An example appears below.

102. MARDER was not on-site when Patient Number Six went for his initial consultation at MARDER's Port St. Lucie office.

103. Patient Number Six was treated solely by PA Burke on this visit.

104. Nonetheless, Patient Number Six's EOB indicates that MARDER billed MEDICARE for the full amount under the Physician Fee Schedule. (see EOB #1 – attached hereto as Exhibit "F" and made a part hereof).

VII. COUNTS

COUNT ONE
FEDERAL FALSE CLAIMS ACT
31 U.S.C. SECTION 3729 et seq.

105. Relator realleges and incorporates by reference the allegations made in Paragraphs 1 through 104 of this Complaint as though full set forth herein.

106. Through the acts described above, Defendants knowingly presented or knowingly caused its agents and employees to present to the United States Government false and fraudulent claims, records and statements in order to obtain reimbursement for health care services.

107. Defendants knowingly created, used and/or caused to be created or used false records or statements in order to have false and fraudulent claims approved and paid by the United States Government.

108. By reason of Defendants' conduct, the United States Government has been damaged by a significant loss of funds, the exact amount of which is unknown at this time.

COUNT TWO
THE FLORIDA FALSE CLAIMS ACT (the "Act"),
FLA. STAT. §§ 68.082(2) et seq.

109. Relator re-alleges and incorporates by reference each and every allegation contained in the paragraphs above as though fully set forth herein.

110. Through these acts, the Defendants have knowingly presented or caused to be presented false or fraudulent claims for payment to the State in violation of Section 68.082(2)(a) of the Act. Such claims caused actual damages to the State.

111. Through these acts, the Defendants knowingly made, used, or caused to be made or used false records or statements material to a false or fraudulent claim to the State, in violation of Section 68.082(2)(a) of the Act. Such claims caused actual damages to the State.

PRAYER FOR RELIEF

WHEREFORE, the United States demands and prays that judgment be entered in its favor against Defendants as follows:

(i) That the Court enters judgment against Defendants in an amount equal to three times the amount of damages the Government sustained as a result of Defendants' actions, as well as a civil penalty against each Defendant of $10,000 for each violation of 31 U.S.C. section 3729 et seq. and Florida Statute Section 68.082(2)(a), et seq., and a civil penalty against each Defendant of $15,000 for each individual with respect to whom false or misleading information was given pursuant to 42 U.S.C. section 1320a-7a;

(ii) That Relator SCHIFF is awarded all costs and expenses of this action, including attorneys' fees; and

(iii) That the Government and Relator SCHIFF receive all such other relief as the Court deems just and proper.

(iv) On the First and Second Counts under the False Claims Acts, for the amount of the United States' damages, trebled as required by law, and such civil penalties as are required by law, together with all such further relief as may be just and proper.

REQUEST FOR JURY TRIAL

Pursuant to Federal Rule of Civil Procedure 38, Relator demands a trial by jury.

U.S. Attorney's Office

Southern District of Florida

FOR IMMEDIATE RELEASE Tuesday, February 7, 2017

Dr. Gary Marder and the United States Consent to a Final Judgement of Over $18 Million to Settle False Claims Act Allegations

Gary L. Marder, D.O., a physician residing in Palm Beach County and the owner and operator of the Allergy, Dermatology & Skin Cancer Centers in Port St. Lucie and Okeechobee, and the United States of America have stipulated to a consent final judgment of over $18 million to settle False Claims Act allegations against Dr. Marder. Co-defendant, Robert I. Kendall, M.D., a physician practicing in Coral Gables, has also agreed to pay the United States $250,000 to settle allegations that he violated the False Claims Act.

Wifredo A. Ferrer, United States Attorney for the Southern District of Florida, Shimon R. Richmond, Special Agent in Charge, U.S. Department of Health and Human Services, Office of Inspector General (HHS-OIG), Miami Region, and John F. Khin, Special Agent in Charge, Defense Criminal Investigative Service (DCIS), Southeast Field Office, made the announcement.

The allegations arose from a qui tam lawsuit filed by whistleblower, Theodore A. Schiff, M.D., alleging that Dr. Marder knowingly submitted claims to federal healthcare programs for medically unnecessary biopsies and radiation therapy services, radiation therapy services performed in contravention of standard practice regarding the amount of time between radiation treatments, and radiation therapy services performed without direct supervision and by unlicensed and/or unqualified physician assistants. The lawsuit further alleged that Dr. Kendall submitted false claims to federal and state healthcare programs for laboratory services tainted by kickbacks to, and improper financial relationships with, Dr. Marder. The United States intervened in the Civil Action on October 14, 2014, and filed its Complaint in Intervention on November 19, 2014.

In September 2016, the Court granted summary judgment in favor of the United States with respect to several key issues in the case, finding that Dr. Marder knowingly submitted false claims to Medicare by requesting reimbursement for services that he never actually performed or directly supervised due to his frequent absence from his medical clinics (including expansive periods of foreign travel) on days corresponding to over fifty percent of the payments that Dr. Marder received from Medicare. The Court further found that all Dr. Marder's claims for medical physicist services submitted to Medicare since 2011 were false, and that Dr. Marder had actual knowledge that a physicist did not perform the corresponding services. The Court made no determination of liability against Dr. Kendall in this matter.

“Today’s settlement demonstrates this Office’s ongoing commitment to hold accountable healthcare providers who receive reimbursements from government-sponsored healthcare programs for services that are never actually performed. This conduct results in significantly increased costs to the federal government and others,” said Wifredo A. Ferrer, United States Attorney for the Southern District of Florida.

“Doctors who are more concerned with boosting their profits at the expense of taxpayer-funded health care programs than they are with patient safety will be held accountable,” said Shimon R. Richmond, HHS-OIG Miami Special Agent in Charge. “Working with our law enforcement partners, we will continue to protect the integrity of federal health care programs and the patients served by those programs.”

"This settlement highlights the commitment of DCIS and its law enforcement partners to protect the integrity of TRICARE, the Department of Defense health care program serving our warfighters, their family members, and military retirees," said Special Agent in Charge John F. Khin of DCIS Southeast Field Office. "Health care providers who seek financial gain through false claims and irresponsible treatment of their patients, will be diligently investigated and held accountable for their actions."

The settlement was the result of a coordinated effort by the United States Attorney’s Office for the Southern District of Florida, HHS-OIG, DCIS, U.S. Office of Personnel Management, Office of Inspector General (OPM-OIG) and the Federal Bureau of Investigation (FBI). The case was investigated and the settlement negotiated by Assistant U.S. Attorney’s Mark Lavine and John Spaccarotella.

The case is captioned United States of America and the State of Florida ex rel. Theodore A. Schiff, M.D. v. Gary L. Marder, D.O., Allergy, Dermatology & Skin Cancer Center, Inc., Megan Bock, P.A., Martin Burke, P.A., Robert I. Kendall, M.D., and Kendall Medical Laboratory, Inc., Case No. 1:13-cv-24503-KMM (S.D. Fla.). The claims asserted against Dr. Marder and Dr. Kendall are merely allegations.

Related court documents and information may be found on the website of the District Court for the Southern District of Florida at www.flsd.uscourts.gov or on http://pacer.flsd.uscourts.gov.

USAO - Florida, Southern

Updated February 8, 2017

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA and the STATE OF FLORIDA, ex rel. THEODORE A. SCHIFF, M.D.,
Plaintiff, v. GARY L. MARDER , D.O.; et.al. , INC., a Florida corporation,
Defendant.

UNITED STATES' STATEMENT OF UNDISPUTED MATERIAL FACTS IN SUPPORT OF SUMMARY JUDGMENT

The United States hereby Pursuant to Southern District of Florida Local Rule 56.1(a), Plaintiff United States of America hereby submits its Statement of Undisputed Material Facts in support of its Motion for Summary Judgment. [1]

UNDISPUTED FACTS

1. Defendant Gary L. Marder , D.O., ("Marder ") is a physician practicing in Port St. Lucie and Okeechobee, Florida through his clinic, Defendant Allergy, Dermatology & Skin Cancer Center, Inc., ("ADSCC").[2] DE 30, ¶ 12, 13, 14; DE 83, ¶ 12, 13, 14.

2. Defendant Robert I. Kendall ("Kendall") is a physician practicing in Coral Gables, Florida through his independent laboratory, Defendant Kendall Medical Laboratories, Inc.[3] DE 30, ¶ 16, 17; DE 84, ¶ 16, 17.

3. Marder refused to answer almost every question asked at his deposition on the basis of his assertion of his Fifth Amendment rights. A copy of the 127-p. transcript is attached hereto as App. A.

[1] All references to "App." are to the documents attached to the Appendix which are identified by the letters A to N. Any reference to Exhibits contained within the Appendix documents will include the corresponding letter as a prefix, i.e. the first exhibit attached to Appendix item C will be identified as C1.

[2] Marder and ADSCC are hereafter referred to jointly as Marder.

[3] Kendall and KML are hereafter referred to jointly as Kendall.

4. Kendall refused to answer almost every question asked at his deposition on the basis of his assertion of his Fifth Amendment rights. A copy of the 120-p. transcript is attached hereto as App. B.

5. In 1965, Congress the Medicare program. Medicare is administered by the Center for Medicare and Medicaid Services ("CMS"). For outpatient beneficiary treatment, all Medicare reimbursement is subject to Part B. 42 U.S.C. §§ 1395j-1395w-4. DE 30, ¶10; DE 83, ¶10; DE 84, ¶10.

6. First Coast Service Options, Inc. ("FCSO") is the CMS contractor tasked with administering Medicare payment processing and auditing functions in the geographic regions in which Marder and Kendall have done business. Affidavit of FCSO employee John Jacobs attached as App. C, ¶2.

7. Marder signed multiple Medicare enrollment applications, as far back as 2003, in which he expressly agreed to comply with Medicare's rules and regulations. App. C, ¶5 and Ex. C1.

8. Kendall signed a Medicare enrollment application, at least as far back as 2011 in which he expressly agreed to comply with Medicare's rules and regulations. App. C, ¶5 and Ex. C2.

9. Whether a particular medical procedure is covered by Medicare depends on the applicable statutes and regulations, and on the various manuals, coverage policies and other guidelines published by Medicare or its contractors. Relevant guidance is also published by professional associations, such as the American Society for Therapeutic Radiation and Oncology ("ASTRO") and the American College of Radiation ("ACR"). App. C, ¶7.

10. To obtain Medicare reimbursement providers submit claims using forms known as "CMS 1500s". The individual billed items are identified to Medicare using a 5-digit billing code based on the Current Procedural Terminology Manual ("CPT code"), published annually by the American Medical Association. App. C, ¶20.

11. In 1997, Medicare published guidelines about the documentation required for billed services. App. C - Ex. C14.

12. FCSO published a Newsletter in 2006 which summarized the Medicare requirements for the documentation of medical care. App. C, ¶13 and Ex. C6.

13. Since at least 2003, Chapter 15, Section 90 of the Medicare Benefit Policy Manual has stated that radiation services rendered to a Medicare beneficiary must be directly and personally supervised by a physician physically who is in the office and immediately available. Affidavit of Michael Steinberg, M.D., attached hereto as App. D, ¶21.

14. In 2007, the AMA published a Radiology FAQ which provided guidance regarding the use of CPT Codes for radiation. App. C, ¶14 and Ex. C9.

15. FCSO issued a Local Coverage Determination ("LCD") effective February 13, 2011 identified as L31510. App. C, ¶13 and Ex. C7 and C8.

16. For every year at issue in this case, the first page of the Introduction to the CPT Code Book directed billed to select the code that **accurately** identifies the service performed, not one that **merely approximates** the service provided"; and that all services should be **adequately documented** in the medical record.".(emphasis added). App. C, ¶27 and Ex. C11.

17. From 2008 through 2014, the definition in the CPT Code books for 77401 remained unchanged. App. C, ¶26 and Ex.C11.

18. From 2008 through 201 the definition in the CPT Code books for 77402 remained unchanged. App. C, ¶26 and Ex.C11.

19. From 2008 through 2014, the definition in the CPT Code books for 77407 remained unchanged. App. C, ¶26 and Ex.C11.

20. From 2008 through 2014, the definition in the CPT Code books for 77412 remained unchanged. App. C, ¶26 and Ex.C11.

21. Superficial radiation is universally used to refer to radiation at energy levels of up to 100,000 electron volts (100 Kev). Marder's equipment was only capable of administering radiation at superficial energy levels. App. C, ¶26 and Ex.C11.

22. CPT Codes 77402, 77407 and 77412 are used to reimburse providers for the administration of radiation at levels up to 5 million electron volts (5 Mev), 50 times higher than the energy output of superficial radiation. App. C, ¶26 and Ex.C11.

23. Between 2010 and 2014, reimbursement for 77401 had dropped to between $19.51 and $26.03 while the reimbursement amount for radiation reimbursed under 77402, 77407 and 77412 reached as high as $249.59. App. E, ¶54 and Ex. E2 and E3.

24. During the time period at issue in this case, the practice expense RVU for 77401 was approximately $150,000 while the practice expense for 77402, 77407 and 77412 was approximately $3 million. The reason for the differential is that the equipment used for superficial radiation is relatively inexpensive and in layman's terms looks similar to a dental x-ray device. App. D, ¶19-20; App. E, ¶52-53. App. E, ¶41.

25. In contrast, the equipment used for 77402, 77407 and 77412 is a much more expensive device known as a linear accelerator or "linac" which is so powerful that for safety purposes it requires placement inside an actual concrete bunker. App. D, ¶19-20; App. E, ¶52-53.

26. CPT Code 77261 is used to bill for Clinical Treatment Planning. This is the plan of care for the patient and must be documented by the physician. Affidavit of Ron DiGiaimo attached hereto as App. E, ¶ 18; App. C, ¶26 and Ex.C11.

27. CPT Code 77280 is used to bill for a Simulation which is a process conducted to establish the treatment area for the patient. This process is used to set the patient up on a daily basis to ensure radiation is only delivered to the area in which it is prescribed. In the event the patient is treated again, this information will ensure future treatment fields do not overlap resulting in overtreatment to any areas. App. E, ¶ 25; App. C, ¶26 and Ex.C11.

28. CPT Codes 77332 and 77334 are used to bill for Treatment devices utilized for shielding. When devices are utilized, the method in which they are used, the placement, etc. are thoroughly documented as well as photographed so no errors in set-up are likely. App. E, ¶ 27; App. C, ¶26 and Ex.C11.

29. CPT Code 77300 is used to bill for Calculations of the radiation dose. For superficial radiation treatments, calculations are performed to determine the amount of time needed for the treatment machine to deliver the prescribed dose of radiation. App. E, ¶ 32; App. C, ¶26 and Ex.C11.

30. CPT Code 77336 is used to bill for Continuing Physics which describes the ongoing support and work of the medical physicist on behalf of each patient under treatment. App. E, ¶ 45; App. C, ¶26 and Ex.C11.

31. CPT Code 77427 is used to bill for Physician Treatment Management. This service describes the ongoing management of the patient while undergoing radiation treatments. App. E, ¶ 50; App. C, ¶26 and Ex.C11.

32. In total from January 2008 through September 2014, Marder billed Medicare over $49 million and was paid $15,844,528. Report of Expert Michael Petron, Affidavit of Michael Petron attached hereto as App. F, ¶18, 23 and Ex. FA13.

33. CPT Codes in the 99xxx series are "Evaluation and Management Codes used to bill for office visits. App. F, ¶17, 18, 23, and Ex. FA11 and FA13.

34. CPT Codes between 10060 and 69100 are used to bill for biopsies, destruction of lesions, removal of malignant growths, and wound repair. App. F, ¶17, 18, 23, and Ex. FA11 and FA13.

35. CPT Codes 88035, 88312 and 88342 are used to bill for pathology services. App. F, ¶17, 18, 23, and Ex. FA11 and FA13.

36. In order to identify a subset of the fraud and resulting damages in this case, the United States employed a statistically-valid, random sample. App. F, ¶¶7-13, and Ex. FA.

37. The grand total paid to Marder under those codes was $9,772,767, with $8,966,035.26 paid to the 249 beneficiaries in the sample frame. App. F, ¶¶7-13, and Ex. FA.

38. Marder treated beneficiaries at two geographically separate offices. DE 30, ¶ 160-162; DE 83, ¶ 160-162. His primary office was located at 9580 South Federal Highway, Port St. Lucie, FL 34592 (the "Port St. Lucie office"). *Id*. Marder also operated a medical clinic at 202 NE 2d St., Suite #2, Okeechobee, FL 34972 (the "Okeechobee office"). *Id*. Marder is the only physician who has ever rendered services to patients in these offices. Deposition Excerpts of Elizabeth Modica-Dowling attached hereto as App. G, p. 24:13 to 24:16; Affidavit of Martin Burke attached hereto as App. H, ¶8.

39. Both Marder's main office in Port St. Lucie and his satellite office in Okeechobee were open Monday to Friday, App. H, ¶6, but Marder was physically present in the offices on a more limited basis. App. G, p. 23:11 to 23:25; App. H, ¶6 and 18. For the Port St. Lucie office, Marder's normal schedule was to be in the office only on Mondays and Wednesdays, arriving between 10:30 and 11:00 am. App. G, p. 64:19. App. H, ¶18.

40. For the Okeechobee office, Marder's normal schedule was to be in the office on Tuesday mornings **once every two weeks**. App. G, p. 64:17. App. H, ¶6.

41. Marder also took many vacations, sometimes for as long as a month at a time. App. H, ¶19; Affidavit of FBI Special Agent Wende Bardfeld attached hereto as App. I, ¶39 and Ex. I26.

42. Marder used appointment books for each office for scheduling patient visits. App. G, p. 20:1 to 20:25; 21:19 to 21:23; App. H, ¶24; App. I, ¶7-8 and Ex. I1. If the appointment book was blank for the entire day or said "Dr. Out", that meant that Marder was not in the office that day. Ex. G p. 22:18 to 22:25, 23:1 to 23:6; App. I, ¶7-8 and Ex. I1; App. H, ¶24.

43. A review of Marder's appointment books for 2008 through 2014 indicate Marder was out of the office on more than 50% of all business days. App. I, ¶9-10.

44. On the days when Marder's appointment books indicated he was not in the office, claims billed by Marder to Medicare resulted in payments of $8,189,068.00 as follows:

a. $5,746,399 for services billed under CPT codes in the 77xxx series for radiation related services;

b. $255,650 for services billed for office visits using CPT Codes 99202 through 99215;
c. $919,161 for biopsies and related services billed under CPT Codes 10060 through 69100;
d. $1,267,858 paid for 3,925 pathology procedures billed under CPT Codes 88305, 88312 and 88342.

App. F, ¶23.

45. Marder maintained tight control over the operations of both offices. App. G, p. 62:16 to 62:25, 63:2 to 63:2. No claims were submitted to any insurance company until he granted his approval. Ex. G p. 62:16 to 62:25, 63:2 to 63:2; 66:17 to 71:18. Even on the hundreds of days each year that he was absent from both offices, he would routinely telephone the Port St. Lucie office and speak individually with multiple employees. App. H, ¶23.

46. In general, Marder employed two individuals at any given time assigned exclusively to billing duties. App. G, 12:6 to 12:16; App. H, ¶21. However, they had no experience or training in medical claims processing and billing, or in healthcare regulatory compliance. Ex. G p. 158:2 to 158:13; Marder never sent any of his employees for any such training at any time. App. G, 158:2 to 158:13; App. H, ¶22; ADSCC Interrogatory Answers attached as App. J, Answer 8.

47. Marder had multiple resource manuals in his office that explained how to establish programs to help ensure compliance with health care laws and regulations, but he never established any such programs. App. I, ¶11 and Ex. I3 and 4; App. G, ¶22; App. J, Answer 8.

48. Both of Marder's office locations had equipment used to administer radiation to patients. Ex. G p. 98:8; App. H, ¶6-7. The maximum power of the devices was limited to approximately 90,000 volts (90 keV), a power level which is universally considered to be "superficial radiation". Ex. D ¶19; App. H, ¶8; Affidavit of Farhad Kader attached hereto as App. K, ¶7. Marder's radiation equipment was approximately the size of dental x-ray machines and required no special shielding. App. K, ¶8. Second-hand equipment that can administer superficial radiation is available for approximately $15,000 and new equipment is available for approximately $150,000. Ex. E ¶52; Ex. D ¶20.

49. The type of equipment powerful enough to generate radiation of 5MeV (5,000,000 electron volts) is known as a linear accelerator, or "linac" for short. Ex. E ¶53. Linacs are installed in concrete bunkers to provide shielding and cost between $2 million and $4 million or more. Ex. E ¶53; Ex. D ¶20.

50. Marder only administered superficial radiation treatments to his patients. Ex. D, ¶19; App. H, ¶8; App. K, ¶7. In general, after a few weeks of training, Marder allowed employees with no previous experience administering radiation to handle the entire process. App. H, ¶5.

51. Controls on the machines that would normally be used to adjust the radiation dose were declared off-limits to employees. App. H, ¶9; App. I, ¶12 and Ex. I5.

52. Marder established a standard radiation protocol which was used to treat his patients. App. H, ¶9. This protocol was used as the basis for the treatment of all patients and was relied upon by his employees as the basis for the entire radiation treatment rendered to patients. App. H, ¶9. The same regimen was utilized regardless of the size, location or type of lesion with only rare, minor modifications. App. H, ¶9; App. I, ¶¶41-65.

53. Marder's protocols allowed his employees to subject his patients to an entire regimen of radiation without additional direction. App. H, ¶9; App. I, ¶¶49-50.

54. They were not required to and did not perform a simulation. App. H, ¶9. They never took notes or photographs of the setup of the machine or position of the patient. Id.; App. I, ¶¶49-50.

55. They were not required to determine if the medical physicist had confirmed or modified the protocol because, with rare exceptions, no medical physicist rendered any patient related care outside of an annual calibration of the equipment, and such services were not needed. App. H, ¶12. App. K, ¶13, 16.

56. Marder never met with the patients during the course of the radiation. App. H, ¶13; App. I, ¶¶49-50.

57. Since at least 2008, the only medical physicist with which Marder has had a business relationship is Farhad Kader ("Kader"). App. K, ¶5.

58. The primary services rendered by Kader were to calibrate the radiation equipment annually, and prepare reports of the calibration. App. K, ¶5.

59. Kader rendered services related to the treatment being rendered to an individual patient on a limited number of cases, and none at all after August 2011. App. K, ¶13, 16.

60. In addition, in those few cases where Kader rendered services, he always included an original signature using a pen, and never authorized Marder to use his signature. App. K, ¶16.

61. In almost all cases, the services Kader rendered to Dr. Marder were in the evenings or on the weekends. App. K, ¶15; App. H, ¶12.

62. Each of the daily radiation treatments is known as a "fraction" as it represents only a portion of the total dose. Ex. E, ¶15; App. K, ¶10.

63. If the daily fraction is split into two separate applications of radiation, as Marder mandated for every patient, it is known as “hyper-fractionation.” Ex. D, ¶9.

64. Marder billed for these twice-a-day treatments for every patient. Ex. D, ¶9; App. I, ¶46.

65. Dr. Marder's routine use of radiation therapy and the application of twice a day ("BID" or "hyperfractionation") treatment varies extremely from accepted medical care for the use of radiation therapy in the treatment of skin cancer. Ex. D, ¶9-10.

66. Well known principles in the use of BID radiation treatment require a minimum of a 4 hours (6 hours is optimal) between treatment fractions to be beneficial. Ex. D, ¶11; App. E, ¶15.

67. Marder represented to Medicare that he performs all of the radiation therapy himself. Ex. C ¶28; App. I, ¶38, Ex. I25.

68. Marder represented to Medicare that his hyper-fractionated treatments were administered four hours apart. Ex. C ¶27 and Ex. C13.

69. The hyper-fractionated treatments administered to Marder’s patients were always administered just 45 to 60 minutes apart. App. G, p. 121:17 to 121:23; App. H, ¶14.

70. The minimal separation of the two treatments was partly as a convenience to patients so that only one trip to the office was needed. App. G, p. 120:17 to 120:22; App. H, ¶14.

71. It was Marder’s general practice to bill for CPT Codes 77261, 77280, 77332/34, 77300, 77336 and 77427 and to bill multiple quantities of one or more of the radiation treatments (CPT Codes 77401, 77402, 77407 and 77412) for every patient. Ex. F, ¶22, 29.

72. Radiation treatments were administered to multiple patients on a daily basis at both office locations. Ex. G p. 154:23-25; App. H, ¶6.

73. Patients did not require appointments with Marder to receive radiation treatments, but would report directly for radiation. App. H, ¶13.

74. There was never another doctor in either office on any occasion when Marder was absent. App. H, ¶6.

75. Marder also billed for office visits, biopsies and pathology tests, much of it on days that he was not in the office. Ex. F, ¶23 and Ex. FA13.

76. Every claim submitted by Marder identified himself as the rendering provider. Ex. F ¶20.

77. A thorough review of the medical chart for the patients in the random sample was performed by the coding expert, App. E, ¶¶ 11-51 and by an assigned investigative agent, App. I, ¶¶41-65. These medical charts, together with many other documents, were taken from Marder’s two offices and his residence during the execution of search warrants. App. I, ¶4. In the large

majority of cases, the medical records were found to have no or altered documentation of numerous services. App. I, ¶43

78. The administration of the actual radiation treatments was tracked on a standard form titled "Tumor Dose Record" ("TDR") printed on cardstock. When unfolded, the two inside pages constituted one large, 17-inch wide by 11-inch high form. App. I, ¶45.

79. In most cases, the charts included a document identifiable as the original TDR because it was on the cardstock. In total, the charts contained a total of approximately 132 original TDRs. Every original TDR was missing some information regarding the treatments. App. I, ¶46.

80. In very few cases, some of the comments appeared to have been filled in by the employee writing the date of treatment and initialing each date of service. However, in most cases, this column was also blank on the original TDR. App. I, ¶47.

81. In some cases, in addition to the original TDR, the medical charts also contained one or more photocopies of the TDR. The documents were identifiable as photocopies because they were copied onto two letter sized 8.5 inch by 11-inch pieces of paper. App. I, ¶48.

82. With respect to the services for which there was **no** photocopied TDR, with one exception, there was no documentation of the services billed using CPT Codes 77280, 77300, 77332, 77334, 77336 or 77427. App. I, ¶49.

83. On several occasions, a form labeled as being documentation for 77261 was located in these file. However, these forms were all cloned and most were not signed. App. I, ¶50.

84. The services for which there was a photocopied TDR were very different. App. I, ¶51.

85. For the services **with** a photocopied TDR, often the chart contained an "attestation letter" addressed signed by Marder under civil and criminal penalty that the enclosed documents were prepared in the course of treatment personally rendered by him. App. I, ¶52 and Ex. I27

a. The photocopied TDRs did not match the original version that was still located within the file. Instead, it contained substantially more information than the original, including purported initials of Marder and the medical physicist on multiple dates. App. I, ¶53-54, Ex. I28 and I29.

86. For the services with a photocopied TDR, the charts also contained numerous other pages purporting to document the billed services. App. I, ¶55.

87. For example, for CPT Codes 77261, 77280, 77300 and 77332, there were usually entire pages for each lesion for each billed date of service, i.e., as many as four of each document. App. I, ¶56 and Ex 31, 32, 33, and 34, respectively.

88. No documentation at all was found for CPT Code 77334. App. I, ¶57.

89. The 77261 documents always indicated that "due to tumor shrinkage" the radiation was being revised upward from 25 to 40 treatments. App. I, ¶58 and Ex. 31.

90. For CPT Code 77300, there was often a second set of forms corresponding to the date on which the treatment was supposedly revised upward from 25 to 40 treatments. App. I, ¶59 and Ex. 33.

91. For CPT Codes 77336 and 77427, the full page for each lesion would cover all of the applicable dates of service, usually five. App. I, ¶60 and Ex. 35 and 36.

92. In many files there was also a two page document containing a narrative dated as of the first date of treatment. This document always stated "I now prescribe 40 treatments - 2 treatments per day for 20 days at 130 rads with a total dose of 5200 rads." These documents contained undated copies of Marder's signature. App. I, ¶61.

93. Except for the date and name of the patient, and the location and size of the lesions, these narrative reports contain identical language. App. I, ¶62, Ex. I37.

94. The radiation treatment on the two-page narrative (App. I, ¶60, Ex. I37) always indicated that 40 treatments were being ordered as of the first date of treatment. This information directly contradicted information on the documentation of 77261 (App. I, ¶60, Ex. I31) which indicated that as of the first date of treatment only 25 services were ordered. App. I, ¶63.

95. The services on the photocopied TDRs also revealed that the initials of Marder and the medical physicist on 25 of the 38 letter-size photocopies of the Tumor Dose Records were exactly identical, including the dust spots copied on each page. 11 more of the photocopied TDRs only had an initial of Marder instead of a signature, and did not contain any initial or signature for a medical physicist. App. I, ¶64, and Ex. I38.

96. The 25 identical sets of initials also exactly matched a strip of paper found in a folder located in Marder's in-house billing office at the direction of Marder. App. I, ¶65 and Ex. I39.

97. Two of Marder's employees confessed that they were tasked with creating the photocopied TDRs, including by cutting and pasting the initials from the strip of paper, and for creating the documents for 77261, 77280, 77300, 77332, 77336 and 77427. App. I, ¶66.

98. During the execution of the search warrant at Marder's primary clinic in Port St. Lucie, hundreds of pages of pre-printed, mostly blank forms already containing signatures or initials of Marder and medical physicist Farhad Kader ("Kader") were located. App. I, ¶16.

99. One folder contained almost 100 pages of pre-signed forms, including dozens of bits and pieces of forms containing signatures and initials of Marder or Kader. App. I, ¶17 and Ex. I9.

100. Two additional folders were found which contained dozens of pages of different versions of blank forms that already contained signatures or initials of Marder and Kader. One folder was labeled as "1 set Port St. Lucie" and "Port St. Lucie patients." App. I, ¶18, and Ex. I10 and I11.

101. Two other forms pre-printed with handwritten" notes" were also located. There were hundreds of copies of each of these forms. App. I, ¶19, and Ex. I12 and I13.

102. The missing and fake documentation also translated into a failure to satisfy coding guidelines, the failure to satisfy other applicable Medicare documentation guidelines and the failure to meet the standard of care, and raised serious concerns regarding a basic concept in radiation known as reproducibility. App. E, ¶13.

103. The poor documentation is a material concern if the patient has a recurrence near or in the area previously treated, especially because there were no photographs as is the standard of care. In addition, there were an unusually high number of treatments per patient. App. E, ¶14.

104. No specific medical necessity documentation was found other than the cloned statements. App. E, ¶16.

105. Physician's signatures were routinely undated, and it appeared that radiation services were routinely rendered without the required physician supervision. App. E, ¶17.

106. Documentation of the services billed under 77261 were not consistently located. References to the radiation treatments located in the evaluation and management notes did not support this service. App. E, ¶19.

107. "Treatment Prescription Sheet" failed to include a prescription for each area treated, and also contained contradictory information about the number of treatments. App. E, ¶20.

108. The forms contained identical, cloned verbiage to start with a 3cm cone and then at the time the 15 fractions were added to switch to a 1cm cone due to tumor shrinkage. App. E, ¶21.

109. Some documents which said the patient was to receive 25 fractions also had other documents indicating that the patient was to receive 40 fractions. App. E, ¶22.

110. One patient reviewed had an indication that they had actually received 54 treatments, but both items detailing the prescription only indicated 40 treatments. App. E, ¶23.

111. The "tumor shrinkage" indicated on all of these forms was not documented anywhere else in the medical record. App. E, ¶4

112. Simulation documentation is not located in the majority of the charts. App. E, ¶26.

113. Treatment devices covered by CPT Codes 77332 and 77334 may be fabricated specifically for the individual patient, but there are also devices that are pre-fabricated but could be appropriate for the course prescribed. These are simple devices. App. E, ¶28.

114. Specific documentation regarding the treatment device, how it is utilized, and the placement of the treatment device and photographs of the treatment device in place are standard of care. App. E, ¶29.

115. Treatment devices were routinely billed for the patients reviewed; however, only minimal or cloned documentation was located. App. E, ¶30.

116. There are also instances when a treatment device form was located, but the treatment record circled "No" treatment device was utilized. App. E, ¶31.

117. When documenting radiation dosage calculations, if any shielding, it should be documented with a picture or diagram so the operator knows where to place that block with every treatment. App. E, ¶33.

118. Using all these input factors, the dose calculation is performed, and the time of the dose and the actual dose entered into the treatment card. App. E, ¶34.

119. If at any time, the cone size is changed or reduced, a new calculation is necessary, and new documentation is necessary. App. E, ¶35.

120. In the records reviewed, documentation of a calculation was not located except in a minority of the cases where the information was cloned. App. E, ¶36.

121. There were instances where the date of service did not match the actual treatment due to cloned documents. App. E, ¶37.

122. 77401 was evaluated as to code selection and documentation. App. E, ¶38.

123. The only code for superficial/ortho-voltage treatment is 77401. App. E, ¶39.

124. The clinician delivering the radiation dose must record the information in the medical record. All areas should be completed by the operator. App. E, ¶42.

125. The majority of the treatment cards were left blank. App. E, ¶43.

126. Proper charting was not seen in any records provided for the review. App. E, ¶44.

127. 77336 services were not documented within the patient's record, and incomplete information in the charts indicated that no physicist actually rendered services. App. E, ¶47.

128. The initials of a physicist do not appear in the majority of the records, but when they are present, they appear to have been photocopied onto the page. App. E, ¶48.

129. The separate form sometimes seen for 77336 contained a single signature and not a signature for each of the multiple dates on the form. App. E, ¶49.

130. Services billed using 77427 were not found to be documented properly. App. E, ¶51.

131. Reimbursement for 77401 was slashed started in 2009. The amount paid to Marder was 80% of the amounts described with 20% owed by the beneficiary as a co-payment. Ex. E. ¶54, Ex. 2 and 3. Reimbursement under codes 77402, 77407 and 77412 were as high as $250. *Id.*

132. For dates of services from at least January 1, 2008 through to mid-June 2010, Marder submitted claims to Medicare and TRICARE utilizing ***only* CPT Code 77401** for radiation treatments. During that time period, Marder was paid less than $800,000 for 77401. No claims were submitted during that time frame using CPT Codes 77402, 77407 and 77412. Ex. F, ¶24.

133. In 2008, total payments to Marder for CPT Code 77401 were $490,280.56, but those payments dropped to $169,178.48 in 2009 and just $130,363.75 in 2010. Ex. F, ¶25.

134. From June 2010 through approximately August 2014, the total amount paid to Marder under 77402, 77407 and 77412 was over $6 million for over 40,000 services. Ex. F, ¶28.

135. The 20% co-pay owed by the patients in the sample was $2,241,500 in total, an average of over $9,000 per patient, ranging from $2,000 to $38,200 for each beneficiary. Ex. F, ¶29.

136. Marder never billed or collected co-pays from any patients in connection with their alleged radiation treatment. App. G, p. 139:14 to 139:19.

137. Marder billed for numerous dermatology procedures using CPT codes ranging from 10060 through 69100. App. F, Ex. FA13.

138. Pathology services are comprised of a Professional Component (PC) and a Technical Component (TC). App. C ¶18.

139. The TC of physician pathology services refers to the preparation of the slide, involving tissue or cells that a pathologist will interpret. The pathologist's interpretation of the slide is the professional component (PC) service. App. C ¶19 and Ex. C10.

140. Pathology services can be billed three ways. The TC and the PC can be together "globally", or the TC and PC can be billed separately. Ex. C ¶20.

141. If a pathology claim is billed globally, the provider simply uses the applicable CPT Code. If the claim is being billed for only the TC or the PC used a "modifier". App. C, ¶21.

142. The "TC" modifier indicates that reimbursement is sought only for the TC. App. C, ¶22.

143. The "26" modifier indicates that reimbursement is sought only for the PC. App. C, ¶23.

144. Marder billed for over 35,000 pathology specimens. App. F, ¶21.

145. Marder was paid $ $2,829,231.13 for pathology he billed on a global basis. App. F, ¶31.

146. Marder did not bill Medicare for pathology claims using the 26 modifier. App. F, ¶30.

147. Marder was paid $3,319.47 for pathology claims using the TC modifier. App. F, ¶30.

148. Marder never owned the equipment or employed personnel with the necessary training to perform the TC of pathology tests. App. G, p. 37:15 to 37:17, 116:22 to 116:25, 117:1 to 117:3.

149. Marder owned a microscope, but he did not use it to perform the professional services. App. G, p. 37:15 to 37:17, 116:22 to 116:25, 117:1 to 117:3; App. H, ¶27.

150. KML is 130 miles driving distance from Marder's offices in Port St. Lucie. App. I, ¶15.

151. Both the TC and the PC for the pathology services billed by Marder were rendered by Kendall in Coral Gables, FL. App. G, p. 40:11 to 40:14; Boitel Deposition pp. 65:16 to 65:25, 71:15 to 71:25, 72:25, 73:1 to 73:25.

152. The biopsied specimens collected by Marder were shipped over 130 miles to Kendall to perform all necessary pathology services on a daily basis. Ex. G, p. 40:11 to 40:14; Boitel, p. 18:21 to 18:25, 19:1 to 19:25, 20:1 to 20:19.

153. Upon receipt from Marder, a KML histologist performed the TC services. Boitel, 65:16 to 65:25; to 66:1 to 66:25.

154. The next day, a KML pathologist then reviewed the slides, rendered a diagnosis, and prepared a **final** pathology report (the PC). Boitel Deposition pp. 45:19 to 45:25, 47:4 to 47:13**.**

155. The pathology report prepared by Kendall was printed on a letterhead under the name of Marder Medical Laboratory ("MML"). Boitel Deposition p. 133:1 to 133:25, 134:25.

156. MML has no independent legal existence. App. I, ¶20.

157. At the time the final pathology report was printed by Kendall it already included Marder's signature, Boitel, 112:1 to 112:23, and was in final form before the slides were ever returned to Marder. Boitel Deposition 165:1 to 165:25, 166:1, 166:23, Ex. 19.9.

158. The final reports indicated that the TC services were rendered by KML. Boitel Deposition p. 163:19 to 164:25; 165:18 to 167:8 and Ex. 19.9 and 26; App. I, ¶21 and Ex. 14.

159. Marder thereby collected approximately $55 to $80 per slide from Medicare. App. I, ¶23.

160. In order to track the amount of Kendall's share in the scheme, Kendall sent a monthly invoice for the TC services of each slide to Marder. Boitel Deposition p. 74:1 to 74:25, 75:1 to 75:25. The invoice reflected that Kendall was being paid $12.50 for the technical component of the pathology work on a per slide basis as full payment from Marder. App. L, p. 74:1 to 74:25, 75:1 to 75:25, 76:1 to 76:25 and Ex. 30.

161. The invoice specified that it was only for the TC by including the letters "TC" after the CPT code 88305. App. L, p. 74:1 to 74:25, 75:1 to 75:25, 76:1 to 76:25 and Ex. 30; App. I, ¶.

162. The invoices included a separate line item for each date of service for each patient at $12.50 per specimen. App. I, ¶23.

163. Up until 2011, Marder paid the entire amounts owed on the invoices using a credit card. Boitel Deposition p. 123:10 to 14; 170:11 to 170:25, 171:1 to 171:4.

164. The invoices represented the entire amount collected by Kendall from Marder. Kendall never billed Marder for and was never paid for any of the PC services. Boitel 164:15 to 164:25, Ex. 19, 165:1 to 165:25. Marder paid Kendall approximately $1,479,566.53 during the time period at issue. App. I, ¶23, 32-37, Ex. I21A, I21B, I22, I23 and I24.

165. In 2010, an attorney provided advice to Marder regarding their business relationship, which he shared with Kendall,. App. I, ¶24.

166. The attorney drafted a contract which on its face indicated that Kendall would become an employee of Marder. App. I, ¶25 and Ex. 15.

167. The attorney also drafted a contract which on its face indicated that Marder was going to lease Kendall's laboratory. App. I, ¶26 and Ex. 16.

168. Page three of that lease agreement, specifies that the lessee has responsibility for billing and collecting global fees for bone density scans conducted at the Facility. Deposition of Patricia Boitel attached hereto as App. L, 146:22 to 147:12 and Ex. L37; App. I, ¶26 and Ex. I16. KML never performed any bone density scans. App. L, 147:7 to 147:12.

169. The attorney also advised that other steps needed to also be implemented. App. I, ¶27 and Ex. I15-I16.

170. Kendall signed the purported employment agreement and sent it to Marder in 2010. App. I, ¶28-28 and Ex. I17-I18. The version sent by Kendall to Marder had no date filled in on the first page and had not been signed by Marder. *Id*.

171. Marder signed the document, but ***backdated it by 10 years***. App. I, ¶30, Ex. I19.

172. The lease agreement was never signed. App. I, ¶31, Ex. I20. No lease payments were ever made. App. L, p. 123:10 to 19

173. Prior to the execution of the employment agreement in 2011, Marder paid the amounts reflected on Kendall's monthly invoices by credit card. Boitel Deposition p. 170:11 to 170:25, 171:1 to 171:4. App. I, ¶36 and Ex. I24.

174. Following the execution of the employment agreement in 2011, there was no change in the monthly invoices billed by Kendall to Marder, and Marder continued to pay the amounts reflected on the invoices. App. I, ¶32 and Ex. I21A and I21B.

175. However, the amounts owed by Marder to Kendall were thereafter paid in part by the credit card and in part by crediting Kendall's monthly net "salary" of $8,333.33. Boitel Deposition p. 80:13 to 81:9; 82:15 to 82:25. App. I, ¶37.

176. The substance of the relationship between Kendall and Marder following the execution of the "employment agreement" was unchanged as is reflected in the following facts:

a. There were no changes in the agreement between Marder and Kendall;
b. specimens from Marder were processed in the same manner as those received from all of Kendall's other clients;
c. the pathology services continued to be rendered on the premises of KML, using the equipment and employees of KML;
d. Marder never exercised any day to day control over Kendall's work;
e. Marder could not assign additional work to Kendall;
f. Marder never provided any equipment to Kendall;
g. Marder had no discretion over when and how long Kendall worked;
h. Marder had no knowledge about when or how long Kendall worked;
i. Marder did not even know whether the PC services had been rendered by Kendall or by an employee of Kendall;
j. Marder never tracked any vacation or sick days taken by Kendall;
k. Marder's office manager tracked and reported hours worked to the payroll company for every other employee of Marder, but not for Kendall;
l. Kendall was exempted from participation in the pension program offered by Marder to other employees.

Boitel Deposition p. 7:21 to 8:9; 115:19 to 121:1; 123:10 to 128:7. Garcia Deposition p. 7:18 to 8:17; 72:13 to 73:13; 74:5 to 76:3; Modica Deposition 25:16 to 30:12; 45:15 to 45:8

177. Every claim submitted by Marder to Medicare represented that the services were rendered by him. App. F, ¶20.

178. Marder maintained some level of laboratory licensure with the State of Florida and under the Clinical Laboratory Improvement Act (CLIA). United States' Response to Marder's Request for Admissions attached as App. Q, ¶¶5-11.

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA and the STATE OF FLORIDA, ex rel. THEODORE A. SCHIFF, M.D.,

Plaintiff,

v.

GARY L. MARDER , D.O.; ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation, ROBERT I. KENDALL, M.D., and KENDALL MEDICAL LABORATORY, INC., a Florida corporation,

Defendant.

DECLARATION OF FIRST COAST SERVICE OPTIONS, INC. IN SUPPORT OF THE UNITED STATES' MOTION FOR SUMMARY JUDGMENT

I, John Jacobs, being duly sworn, do hereby depose and state:

1. I am employed as the Zone Program Integrity Contractor (ZPIC) Support Manager for First Coast Service Options, Inc. ("FCSO"). I have been employed with FCSO since January 27, 2003 and served in this position since January 4, 2014. As part of my work with FCSO, I serve as the First Coast point of contact for the ZPIC and various law enforcement agencies in support of investigations involving Medicare health care fraud, mail fraud, wire fraud, conspiracy, and money laundering. First Coast Service Options, Inc. ("FCSO") is the CMS contractor tasked with administering Medicare payment processing and auditing functions in the geographic region in which the defendants in this case have done business.

2. My responsibilities as the ZPIC Support Manager for FCSO involves supporting the ZPIC and law enforcement investigation of fraudulent claims submitted to the Medicare Program through FCSO by responding to requests for information and referrals for action addressed to FCSO from the ZPIC and law enforcement. FCSO has contracted to receive, adjudicate, process and pay Medicare claims submitted to it by Medicare beneficiaries or suppliers for physician services payable under Part B of the Medicare Program.

3. In the course of fulfilling my responsibilities for supporting the investigation of fraudulent claims, I have access to and utilize the correspondence and other materials exchanged between Medicare suppliers and FCSO. I also have access to and utilize information regarding the specific nature of the claims submitted by Medicare providers for services rendered to Medicare beneficiaries, including the patient, the item billed, the ordering physician, the diagnosis claimed to support the item billed, the amount billed and the amount paid.

4. I have knowledge of the facts stated herein concerning the investigation of the defendants in this lawsuit.

MEDICARE ENROLLMENT

5. In order to become and remain as qualified Medicare providers, the defendants each submitted applications to the Medicare Program. The defendants also submitted various other documents to identify the accounts to which its Medicare payments should be credited, the personnel associated with the company as well as

miscellaneous correspondence. FCSO maintains these documents in the course of its business and for a business purpose. I have obtained the documents in the possession of FCSO that were received from the defendants and FCSO's related materials. Copies of the applications filed by Gary Marder, D.O. ("Marder") are attached hereto as Exhibit 1 and copies of the applications filed by Robert Kendall, M.D. ("Kendall") are attached hereto as Exhibit 2.

MEDICARE COVERAGE

6. Medicare reimburses medical services that are "reasonable and necessary" for the diagnosis and treatment of illness or injury. The Medicare Program Integrity Manual, Chapter 13, Section 13.1, states that the primary authority for all coverage provisions and subsequent policies is the Social Security Act (the Act), and that contractors use Medicare policies in the form of regulations, National Coverage Determinations, coverage provisions in interpretive manuals, and Local Coverage Determinations ("LCD")to apply the provisions of the Act.

7. When decisions are made on the coverage of particular items or services, the Medicare Program Integrity Manual, Chapter 13, states, among other things, that relevant sources include published authoritative evidence derived from randomized clinical trials, as well as general acceptance by the medical community (standard of practice), as supported by sound medical evidence based on scientific data or research studies published in peer-reviewed medical journals; consensus of expert medical opinion (i.e., recognized authorities in the field); or medical opinion derived from consultations with medical associations or other health care experts.

RADIATION THERAPY

8. Radiation therapy is a covered service under the Medicare Program. 42 U.S.C. § 1395x(s)(4); 42 CFR 410.35.

9. Since at least 2001, Chapter 15, Section 90 of the Medicare Benefit Policy Manual has stated, among other things, that radiation services rendered to a Medicare beneficiary must be directly and personally supervised by a physician physically who is in the office and immediately available:

> X-ray, radium, and radioactive isotope therapy furnished in a non-provider facility require direct personal supervision of a physician. The physician need not be in the same room, but must be in the area and immediately available to provide assistance and direction throughout the time the procedure is being performed.

Medicare Benefit Policy Manual, Part 3 – Claims Process Transmittal 1725, Section 2075 - X-Ray, Radium, and Radioactive Isotope Therapy (Rev. 1, 10-01-03) attached hereto as Exhibit 3.

10. Since at least 2003, the Medicare Claims Processing Manual, Chapter 13 - Radiology Services and Other Diagnostic Procedures, Section 70.3 - Radiation Treatment Delivery (CPT 77401-77417) stated, among other things, that

> These services are paid for on a daily basis under CPT codes 77401-77416 for radiation treatment delivery.
> ....
> Multiple treatment sessions on the same day are payable as long as there has been a distinct break in therapy services, and the individual sessions are of the character usually furnished on different days.

Medicare Claims Processing Manual, Chapter 13 - Radiology Services and Other Diagnostic Procedures, Chapter 13, Section 70.3 attached hereto as Exhibit 4.

11. On April 2, 2003, the Centers for Medicare and Medicaid Services released a Program Memorandum (PM) (Transmittal A-03-020) which addressed Billing

for Radiation Therapy (CPT Codes 77401 through 77416) by hospitals for outpatient services, attached hereto as Exhibit 5. This Program Memorandum stated, among other things, that:

a. CPT Codes 77401 through 77416 may be reported more than once per date of service only when radiation treatment is provided during completely different sessions.

b. Only one of these codes may be reported for each treatment session no matter how many areas are treated or no matter how much radiation is delivered.

c. CPT Codes 77402 through 77406 describe treatment delivery for a single treatment area. CPT Codes 77407 through 77411 describe treatment delivery to two treatment areas. CPT Codes 77412 through 77416 describe treatment delivery to three or more treatment areas.

d. In the cases of CPT codes 77407 through 77416, the number of distinct treatment areas and complexity of the treatment determine which code series to report, which is then modified by the selection of energy (ie, MV).

12. As part of its duties, FCSO issues newsletters on a regular basis. A copy of Volume 4 Number 3 of the Medicare Part B Update for the Third Quarter 2006 is attached hereto as Exhibit 6. These Medicare Part B Updates are mailed to all Medicare providers and are available on the website maintained by FCSO. Pages 3 through 6 of this Update is an article entitled "Requirements for the Payment of Medicare Claims—A Selection of Some Important Criteria". The article address several different documentation requirements applicable to claims submitted to Medicare, including that all services must be supported by documentation created near the time of service and must also be signed and dated.

13. As part of its duties, FCSO also issues what are known as Local Coverage Determinations. FCSO issued a Local Coverage Determination ("LCD") effective February 13, 2011 with a revision effective October 1, 2011 titled Radiation Therapy for T1 Basal Cell and Squamous Cell Carcinomas of the Skin. This LCD was identified as L31510. A copy of the original and revised LCD are attached hereto as Exhibits 7 and 8, respectively.

14. FCSO also looks to information published by industry groups for further guidance in administering benefits under the Medicare Program. For example, the American Medical Association publishes Clinical Examples in Radiology. In 2007, it published a "Radiology FAQ" which addressed billing questions related to CPT Code 77401 through 77416. A copy of that document is attached hereto as Exhibit 9.

"INCIDENT TO" SERVICES

15. Medicare also allows physicians to submit claims for services rendered by other employees in certain circumstances. "Incident to services" are services that are furnished by other employees of the physician "incident to" the professional services personally rendered by the physician. These services, even though not rendered by the physician can be billed in the physician's name if certain requirements are met. One of the requirements is that although the physician does not have to be physically present in the treatment room while the service is being provided, they must be present in the immediate office suite to render assistance if needed.

16. "Incident to" services can also be directly supervised by non-physician practitioners such as physician assistants and nurse practitioners, but are then reimbursed at 85 percent of the physician fee schedule.

17. Medicare coverage of "incident to" services is limited to services for which payment is **not** made under a separate benefit category listed in §1861(s) of the Social Security Act. 42 CFR 410.26(a)(7). For example, diagnostic tests are covered under §1861(s)(3) of the Social Security Act, and radiation therapy services are covered

under §1861(s)(4) of the Social Security Act. Those services cannot be reimbursed under the incident to rules, but must adhere to the separate rules applicable to them.

PATHOLOGY SERVICES

18. Pathology services are comprised of a Professional Component and a Technical Component, both of which may be performed independently by different providers.

19. Multiple references confirm that the TC of physician pathology services refers to the preparation of the slide, involving tissue or cells that a pathologist will interpret, and that the pathologist's interpretation of the slide is the professional component (PC) service. Attached hereto as Exhibit 10 is a composite exhibit containing the following documents published by the United States, Medicare and FCSO which address this issue:

a. Federal Register, Volume 72 Issue 227 (Tuesday, November 27, 2007) (Section 104--Extension of Treatment of Certain Physician Pathology Services Under Medicare); Federal Register
b. Volume 77 Issue 222 (Friday, November 16, 2012) (F. Extension of Payment for Technical Component of Certain Physician Pathology Services, 1. Background and Statutory Authority)
c. FCSO Part B Update 2007 vol. 5 number 2 141058;
d. MLN Matters Number MM5347
e. MLN Matters Number MM5468 Revised.

20. Claims for pathology services included within CPT Codes 88305, 88312 and 88342 can be submitted in three ways. The claim can encompass both the Technical and Professional Components, in which case the claim is referred to as having billed "globally", or the claim can be limited to just the Technical Component or just the Professional Component.

21. If a pathology claim is billed globally, the provider simply uses the applicable CPT Code.

22. If the claim is being billed for only the technical component or the professional component, the provider bills the CPT Code together with a sub-code known as a "modifier".

23. The "TC" modifier attached to a pathology CPT code indicates that reimbursement is sought only for the technical component.

24. The "26" modifier attached to a pathology CPT code indicates that reimbursement is sought only for the Professional Component.

CLAIMS SUBMISSION

25. To obtain Medicare reimbursement for covered services pursuant to Part B, providers submit claims using forms known as "CMS 1500s". The individual billed items are identified to Medicare using a 5-digit billing code based on the Current Procedural Terminology Manual ("CPT code"), published annually by the American Medical Association. Each CPT code corresponds to a specific medical service, and the amount Medicare pays for a service is based on the CPT code.

26. A true and correct copy of the first page of the Introduction to the CPT Code Book For every year from 2008 through 2014 is attached hereto as Exhibit 11. The following is stated on that page for every year:

a. "Select the name of the procedure or service that accurately identifies the service performed. Do not select a CPT code that merely approximates the service provided"; and
b. "Any service or procedure should be adequately documented in the medical record."

27. In a letter dated May 19, 2008 which was sent to FCSO by Marder in connection with a Medicare Utilization Audit, a copy of which is attached hereto as

Exhibit 12, Marder represented to FCSO that the hyper-fractionated radiation treatments he administered to his patients were four hours apart.

28. In a letter dated May 15, 2005, which Marder sent to FCSO, Marder represented to Medicare that he performs all of the radiation therapy himself.

Pursuant to Title 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct and is based upon my personal knowledge this 23rd day of March, 2016, in Jacksonville, Florida.

Participating Physician or Supplier Agreement

I am already a participating Dr.

Name and Street Address of Participant *
Gary L. Marder, D.O., P.A.
8483 S. Federal Highway, Suite 19
Port St. Lucie, Fla. 34952
Dermatology & Dermatologic Surgery
Provider No. 82760

Physician or Supplier Identification Code *
82760

The above named person or organization, called "the participant," hereby enters into an agreement with the Medicare program to accept assignment of the Medicare Part B payment for all services for which the participant is eligible to accept assignment under the Medicare law and regulations, and which are furnished while this agreement is in effect.

(1) ***Meaning of Assignment*** — For purposes of this agreement, accepting assignment of the Medicare Part B payment means requesting direct Part B payment from the Medicare program. Under an assignment, the approved charge, determined by the Medicare carrier, shall be the full charge for the service covered under Part B. The participant shall not collect from the beneficiary or other person or organization for covered services more than the applicable deductible and coinsurance.

(2) ***Effective Date*** — If the participant files the agreement with any Medicare carrier during the enrollment period provided near the end of any calendar year, the agreement becomes effective on January 1 of the following year.

(3) ***Term and Termination of Agreement*** — This agreement shall continue in effect through December 31 following the date the agreement becomes effective and shall be renewed automatically for each 12-month period January 1 through December 31 thereafter unless one of the following occurs:

a. During the enrollment period provided near the end of any calendar year the participant notifies in writing every Medicare carrier with whom the participant has filed the agreement or a copy of the agreement that the participant wishes to terminate the agreement at the end of the current term. In the event such notification is mailed or delivered during the enrollment period provided near the end of any calendar year, the agreement shall end on December 31 of that year.

b. The Health Care Financing Administration may find, after notice to and opportunity for a hearing for the participant, that the participant has substantially failed to comply with the agreement. In the event such a finding is made, the Health Care Financing Administration will notify the participant in writing that the agreement will be terminated at a time designed in the notice. Civil and criminal penalties may also be imposed for violation of the agreement.

**List your main number (without suffix) or your Professional Association (P.A.) number (e.g. P.A. numbers begin with 00, 77, 97, 98, or 99) ONLY.*

MEDICARE FEDERAL HEALTH CARE PRACTITIONER ENROLLMENT APPLICATION

Application for Individual Health Care Practitioners

General Instructions

The Medicare Federal Health Care Practitioner Enrollment Application has been designed by the Centers for Medicare and Medicaid Services (CMS) to assist in the administration of the Medicare program and to ensure that the Medicare program is in compliance with all regulatory requirements. The information collected in this application will be used to ensure that payments made from the Medicare trust fund are only paid to qualified health care practitioners and that the amounts of the payments are correct. This information will also identify whether you are qualified to render health care services and/or supplies to Medicare beneficiaries. To accomplish this, Medicare must know basic identifying and qualifying information about you in order for you to be granted billing privileges in the Medicare program.

When completing this application to enroll and bill the Medicare program as an individual practitioner, you need to tell Medicare (1) who you are, (2) what qualifies you to render health care related services and/or supplies to Medicare beneficiaries, (3) where or how you intend to render these services and/or supplies, and (4) any individuals or organizations that manage your practice.

This application **MUST** be completed in its entirety, unless otherwise stated in these instructions, **or** the appropriate box is checked to indicate the section does not apply, **or** when reporting a change to previously submitted information. If a section does not apply to you, check (√) the appropriate box in that section. Sections 7, 11, 12, and 16, have been deliberately omitted from this application because they are not applicable to the enrollment of individual health care practitioners.

1. General Application Information

This section is to be completed with general information as to why you are submitting this application and whether you currently have a business relationship with another Federal health care program.
To ensure timely processing of this application, Numbers 1, 2, and 3 below MUST ALWAYS be completed.

A. Reason for Submittal of this Application

1. Check one: ☐ Initial Enrollment ☐ Reactivation CHANGE ADDRESS

☒ Change of Information (Check appropriate Section(s) below and furnish your Medicare Identification Number here 82760B):

☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 ☐ 8 ☐ 9 ☐ 10 ☐ 13

☐ Voluntary Deactivation of Billing Number—Effective Date (MM/DD/YYYY):_____

2. Social Security Number: 121 52 4904

3. Are you currently enrolled in the Medicare program? ☒ YES ☐ NO
IF YES, furnish the following information about your current carrier:

Current Carrier Name: First Coast Current Medicare Identification Number: 82760B

USFCS-010977

OMB Approval No. 0938-0685

SECTION 2: PRACTITIONER IDENTIFICATION

A. Personal Information – The information furnished in this section will allow us to uniquely identify you in the Medicare program. Check the box "Change" only if you are reporting a change to existing information in this section. Provide the new information, the effective date of the change, and sign and date the certification statement. Otherwise:

1. Provide your full name.
2. If you previously used another name(s), including a maiden name, supply that under "Other Name."
3. Provide your date, State, and country of birth.
4. Indicate your gender.
5. Furnish your year of graduation and the school you attended for your Physician or Non-Physician Medical Specialty.

B. Correspondence Address - This section will assist us in contacting you with any questions we have concerning your business relationship with the Medicare program.

Check the box "Change" only if you are reporting a change to existing information in this section. Provide the new information, the effective date of the change, and sign and date the certification statement. Otherwise:

- **You must provide an address and telephone number where we can <u>contact you directly</u> to resolve any issues that may arise as a result of your enrollment in the Medicare program.** It also may be necessary to send you important changes/information concerning the Medicare program that directly impacts you and/or your Medicare payments. Therefore, this address cannot be that of your billing agency, management service organization, or staffing company. You may furnish your home address and telephone number if you choose.

C. Residency Status - Your responses to the questions in this section will assist us in determining your eligibility to bill Medicare for the services you render to Medicare patients.

Check the box "Change" only if you are reporting a change to existing information in this section. Provide the new information, the effective date of the change, and sign and date the certification statement. Otherwise:

1. Check to identify if you are currently a resident, intern, or fellow at a health care facility.
- If "Yes," provide the name of the facility where you serve as a resident/intern/fellow.
- If "No," skip to Section 2D (Business Information).
2. State whether the services you render in the facility shown in Question 1 are part of your requirements for graduation from a formal residency program.
3. Indicate if you also render services at other facilities or practice locations.
   If "Yes," you **<u>must</u>** report these other practice locations in Section 4 (Practice Locations).
4. Indicate if any services that you render, at any practice location you report in Section 4, are required for graduation from a formal residency program.
- If "Yes," indicate if the teaching hospital has agreed to incur all or substantially all costs of the training in the other facility or practice location.

D. Business Information (if applicable) - Complete this section if you operate your practice as a business under a name different from your individual name. This information is needed to correctly report to the Internal Revenue Service (IRS) all Medicare payments you receive and the tax identification number under which these payments are made.

Check the box "Change" only if you are reporting a change to existing information in this section. Provide the new information, the effective date of the change, and sign and date the certification statement. Otherwise:

1. If this section does not apply to you, check the box provided and skip to Section 2E (Medical Speciality(s)).
2. Provide the legal business name you use when reporting tax information to the IRS. Supply your tax identification number as issued by the IRS.
3. Indicate whether your business is incorporated.

<u>NOTE</u>: If you answer "Yes" to number 3 above, you will need to complete two applications. One application will be to establish you with the Medicare program and the other application will be required to enroll your business. Once you complete the application identifying yourself, you must also enroll the business by completing the application for suppliers billing Medicare carriers (CMS 855B). You must also complete a CMS 855R to reassign benefits payable to you as an individual practitioner to your business, which will be submitting claims for the services you have rendered. In addition, any other practitioners who render services for your business, who will be reassigning their benefits to the business, must also complete a CMS 855R.

USFCS-010978

USFCS-010978

OMB Approval No. 0938-0685

2. Practitioner Identification

This section is to be completed with information about yourself; where Medicare can contact you directly; whether you are rendering services in a health care facility as a resident or an intern; and whether you have established your practice as a separate business entity. You must also designate your medical specialty.

A. Personal Information ☐ **Change** **Effective Date:**_____

1. Name	First	Middle	Last	Jr., Sr., etc.	M.D., D.O., etc.
2. Other Name (including Maiden)	First	Middle	Last	Jr., Sr., etc.	M.D., D.O., etc.

3. Date of Birth (MM/DD/YYYY)	State of Birth	Country of Birth
4. Gender ☐ Male ☐ Female		
5. Year of Graduation (YYYY)	Medical School	

B. Correspondence Address ☐ **Change** **Effective Date:**_____

You must furnish an address and telephone number where Medicare can contact you directly.

Mailing Address Line 1

Mailing Address Line 2

City	State	ZIP Code + 4
Telephone Number ( ) (Ext.) ( )	Fax Number (if applicable) ( )	E-mail Address (if applicable)

C. Residency Status ☐ **Change** **Effective Date:**_____

1. Are you currently: a resident? ☐ YES ☐ NO
   an intern? ☐ YES ☐ NO
   in a fellowship program? ☐ YES ☐ NO

   IF YES to any of the above questions, provide the name of the facility where you are a resident, intern, or fellow on the line below:

   _____

   IF NO, skip to Section 2D (Business Information) below.

2. Are the services that you render at the facility shown in Question 1 part of your requirements for graduation from a formal residency program? ☐ YES ☐ NO

3. Do you also render services at other facilities or practice locations? ☐ YES ☐ NO

   IF YES, you must report these practice locations in Section 4 (Practice Location).

4. Are the services that you render in any of the practice locations you will be reporting in Section 4 (Practice Location) part of your requirements for graduation from a formal residency program? ☐ YES ☐ NO

   IF YES, has the teaching hospital reported in Question 1 above agreed to incur all or substantially all of the costs of training in the non-hospital facility or location? ☐ YES ☐ NO

D. Business Information (if applicable) ☐ **Change** **Effective Date:**_____

1. Check here ☐ if this section does not apply to you and skip to Section 2E. Otherwise, furnish the following information if you operate your practice as a business under a name other than your own name.

2. Legal Business Name as Reported to the IRS	Tax Identification Number

3. Is your business incorporated? ☐ YES ☐ NO
   IF YES, see specific instructions on how to enroll your health care business in the Medicare program.

USFCS-010979

OMB Approval No. 0938-0685

E. Medical Specialty

1. **Physician Specialty** - Check the box "Change" only if you are reporting a change to existing information in this section. Provide the new information, the effective date of the change, and sign and date the certification statement. Otherwise:

If you are a physician, please enter the appropriate letter (P = primary, S = secondary) to indicate your specialty(s). If you do not see your specialty listed, check "Undefined physician type" and report your specialty in the space provided. You must also submit copies of your State physician license, medical school degree, and your Federal controlled substance registration certificate from the Drug Enforcement Agency.

****NOTE: Diagnostic Radiology –** If you checked diagnostic radiology as your specialty, and you will bill for the technical component (tc) of the diagnostic tests, you must contact the Medicare carrier prior to your enrollment to determine if you will also need to complete a CMS 855B to enroll in Medicare as an Independent Diagnostic Testing Facility (IDTF).

NOTE: Physicians who Bill for Diagnostic Tests (other than clinical laboratory or pathology tests) – As a physician, you may bill for these diagnostic tests as long as you do not provide a substantial portion of the diagnostic tests to patients who **are not** your patients. Patients are considered your own patients if:

- They have a prior relationship with you and are receiving medical treatment from you for a specific medical condition, or
- You are also billing for patient evaluation and management codes (E & M).

A separate (additional) enrollment as an IDTF may be required if, as stated above, substantial portions of your diagnostic tests (other than clinical laboratory or pathology) are provided to patients who are not your patients. Enrollment as an IDTF will not affect your enrollment as a physician. If you only furnish diagnostic tests, claims must be submitted as an IDTF. To enroll as an IDTF, you must complete and submit a CMS 855B.

2. **Non-Physician Specialty** - Check the box "Change" only if you are reporting a change to existing information in this section. Provide the new information, the effective date of the change, and sign and date the certification statement. Otherwise:

If you are a non-physician practitioner, enter the appropriate letter (P = primary, S = secondary) to indicate your specialty(s). If you do not see your specialty listed, check "Undefined non-physician type" and report your specialty in the space provided. All non-physician practitioners must meet specific licensing, educational (including any degrees), and work experience requirements. If you need information concerning the specific requirements for your specialty, contact the Medicare carrier. Be sure to include copies of all necessary documentation to prove your eligibility to enroll in Medicare.

F. Supervising and/or Collaborating Physician(s) - Indicate if you are adding or deleting a supervising and/or collaborating physician. Provide the new information and the effective date of the change. Provided that this is the only change in your information, you need to sign and date the certification statement. Otherwise:

- Furnish the name, social security number, and Medicare identification number of all applicable physicians who supervise or collaborate with you.

NOTE: All non-physician practitioners (excluding Physician Assistants who must complete Section 2J) who require a supervising and/or collaborating physician to qualify for Medicare billing privileges (as required by Federal law) must complete this section. In addition, **all** supervising and/or collaborating physicians reported in this section **must** be currently enrolled in the Medicare program.

2. Practitioner Identification (Continued)

E. Medical Specialty(s)

Designate your specialty(s) below using: **P=Primary** **S=Secondary (if applicable)**

1. Physician Specialty ☐ **Change** **Effective Date:**_____

Submit a copy of your State Physician License and Medical School Degree.

_____Addiction medicine
_____Allergy/Immunology
_____Anesthesiology
_____Cardiac surgery
_____Cardiovascular disease (Cardiology)
_____Chiropractic
_____Colorectal surgery (Proctology)
_____Critical care (Intensivists)
_____Dermatology
_____Diagnostic radiology**(see note)
_____Emergency medicine
_____Endocrinology
_____Family practice
_____Gastroenterology
_____General practice
_____General surgery
_____Geriatric medicine
_____Gynecological/Oncology
_____Hand surgery
_____Hematology
_____Hematology/Oncology
_____Infectious disease
_____Internal medicine
_____Interventional radiology
_____Maxillofacial surgery
_____Medical oncology
_____Nephrology
_____Neurology
_____Neuropsychiatry
_____Neurosurgery
_____Nuclear medicine
_____Obstetrics/Gynecology
_____Ophthalmology
_____Optometry
_____Oral surgery (Dentist only)
_____Orthopedic surgery
_____Osteopathic manipulative treatment
_____Otolaryngology
_____Pain Management

_____Rheumatology
_____Surgical oncology
_____Thoracic surgery
_____Urology
_____Vascular surgery

_____Undefined physician type (Specify):

_____

2. Non–Physician Specialty ☐ **Change** **Effective Date:**_____

See instructions for specific non-physician requirements that must be met to enroll in the Medicare program. You must submit documentation (e.g., copies of licenses, degrees) that confirms you have met the requirements for your specialty.

_____Audiologist
_____Certified clinical nurse specialist
_____Certified nurse midwife
_____Certified registered nurse anesthetist
_____Licensed clinical social worker
_____Mass immunization roster biller
_____Nurse practitioner
_____Occupational therapist in private practice (see Sec. I)
_____Registered Dietition or Nutrition Professional
_____Physical therapist in private practice (see Sec. I)
_____Physician assistant (see Section J)
_____Psychologist, Clinical (see Section G)
_____Psychologist billing independently (see Section H)
_____Undefined non-physician type (Specify):

_____

F. Supervising and/or Collaborating Physician(s) ☐ Add ☐ Delete Effective Date:_____

This section must be completed by all non-physicians (excluding physician assistants) who require a supervising and/or collaborating physician to qualify for Medicare billing privileges. The supervising and/or collaborating physician must be currently enrolled with Medicare.

Physician Name	Social Security Number	Medicare Identification Number

USFCS-010981

G. Clinical Psychologists - Questionnaire

Questions 1-4: All clinical psychologists must respond to these questions by checking "Yes" or "No" to determine your eligibility to bill Medicare.

H. Psychologists Billing Independently - Questionnaire

A psychologist billing independently is defined as:

- One who renders services free of the administrative and professional control of an employer such as a physician, institution, or agency, and
- Who maintains office space at his/her own expense and furnishes services only in that space or the patient's home, and
- Has the right to collect fees for the services rendered, and
- The patients treated are the psychologist's own patients.

Questions 1-4: All psychologists must respond to these questions by checking "Yes" or "No" to determine if you are eligible to bill Medicare as a psychologist who is independently billing.

I. Occupational/Physical Therapist in Private Practice (OT/PT) Only - Questionnaire

An occupational therapist/physical therapist in private practice is defined as one who maintains a private office even if services are always furnished in patients' homes. If services are furnished in private practice office space, that space must be owned, leased, or rented by the OT/PT and used for the exclusive purpose of operating the OT's /PT's practice.

Questions 1-5: All OTs/PTs must respond to these questions by checking "Yes" or "No." This information will determine your eligibility to bill Medicare.

J. Physician Assistants (PA) Only - Indicate if you are adding or deleting an employer. Provide the new information and the effective date of the addition or deletion. Provided that this is the only change in your information, you need to sign and date the certification statement. Otherwise:

1. Furnish the name, social security number and date of birth **or** the name and Medicare identification number of the physician listed on your degree or license. For States that do not require the Supervising Physician to be identified on the PA license, provide the information required in this section about the physician who qualified you for your license.

2. In order to determine who will be billing for your services, report all employers' Medicare billing numbers. This information will allow Medicare to appropriately associate you with each of your employers.

NOTE: Physician Assistants – When completing this application, PAs should only complete Sections 1, 2, 3, 10, 13, 15 and 17. Also, PAs should not use or submit the CMS 855R form to report employers. The CMS 855R is only used to reassign benefits that would otherwise be paid directly to the practitioner.

USFCS-010982

USFCS-010982

OMB Approval No. 0938-0685

2. Practitioner Identification (Continued)

G. Clinical Psychologists - Questionnaire

This section must be completed by all clinical psychologists in order to determine if you are eligible to bill Medicare. Please answer all questions in this section.

1. Do you hold a doctoral degree in psychology? ☐ YES ☐ NO
   IF YES, furnish the field of your psychology degree:_____
2. Do you inform each Medicare patient of the desireability of conferring with the patient's attending or primary care physician to consider potential medical conditions contributing to the patient's condition? ☐ YES ☐ NO
3. Contingent upon the patient's consent, do you consult with the patient's designated attending or primary care physician in accordance with accepted professional ethical norms, taking into consideration patient confidentiality? ☐ YES ☐ NO
4. If the patient assents to the consultation, do you attempt to consult with the patient's physician within a reasonable time after receiving consent? ☐ YES ☐ NO

H. Psychologists Billing Independently - Questionnaire

This section must be completed by all psychologists billing independently in order to determine if you are eligible to bill Medicare as a psychologist "independently billing." Please answer all questions in this section.

1. Do you render services of your own responsibility free from the administrative control of an employer such as a physician, institution, or agency? ☐ YES ☐ NO
2. Do you treat your own patients? ☐ YES ☐ NO
3. Do you have the right to bill directly, and to collect and retain the fee for your services? ☐ YES ☐ NO
4. Is your private practice located in an institution? ☐ YES ☐ NO
   IF YES to question 4 above, please answer questions "a" and "b" below.

a) If your private practice is located in an institution, is your office confined to a separately identified part of the facility that is used solely as your office and cannot be construed as extending throughout the entire institution? ☐ YES ☐ NO

b) If your private practice is located in an institution, are your services also rendered to patients from outside the institution or facility where your office is located? ☐ YES ☐ NO

I. Occupational/Physical Therapist in Private Practice (OT/PT) - Questionnaire

This section must be completed by all occupational and physical therapists in order to determine if you are eligible to bill Medicare for services rendered in your private practice. Please answer all questions in this section.

1. Are all of your PT/OT services only rendered in the patients' homes? ☐ YES ☐ NO
2. Do you maintain private office space? ☐ YES ☐ NO
3. Do you own, lease, or rent your private office space? ☐ YES ☐ NO
4. Is this private office space used exclusively for your private practice? ☐ YES ☐ NO
5. Do you provide PT/OT services outside of your office and/or patients' homes? ☐ YES ☐ NO
   IF YES, provide a copy of the lease agreement that gives you exclusive use of the facility for PT/OT services.

J. Physician Assistants Only ☐ Add ☐ Delete Effective Date:_____

This section must be completed by all physician assistants to ensure correct claims coding when billing for your services.

1. Provide the name, social security number and date of birth, or the name and Medicare Identification Number of the physician shown on your PA degree or license in the space below. See instructions if no physician is shown.

Name First	Middle	Last	Jr., Sr., etc.	M.D., D.O., etc.

Social Security Number	Date of Birth (MM/DD/YYYY)	Medicare Identification Number (if applicable)

2. Since physician assistants cannot bill the Medicare program directly, they must report the Medicare billing number for all employers that bill Medicare for their services.

_____ _____ _____

_____ _____ _____

_____ _____ _____

USFCS-010983

SECTION 3: ADVERSE LEGAL ACTIONS AND OVERPAYMENTS

A. Adverse Legal History - This section is to be completed with information concerning any adverse legal actions that have been imposed or levied against you. See Table A on the application form for a list of adverse actions that must be reported.

If reporting a change to existing information, check "Change," provide the effective date of the change, complete the appropriate fields in this section, and sign and date the certification statement. Otherwise:

1. You must state whether, under any current or former name or business identity, you have ever had any of the adverse legal actions listed in Table A of the application form imposed against you.

2. If the answer to this question is "Yes," supply all requested information. Attach copies of official documentation related to the adverse legal action. Such documentation includes adverse legal action notifications (e.g., notification of disciplinary action; criminal court documentation that verifies the conviction of a crime) and documents that evidence how the adverse legal action was finally resolved (e.g., reinstatement notices, etc.).

If you are uncertain as to whether you fall within one of the adverse legal action categories or whether a name reported on this application has an adverse legal action, you should query the Healthcare Integrity and Protection Data Bank. If you need information on how to access the data bank, call 1-800-767-6732 or visit www.npdb-hipdb.com. There is a charge for using this service.

Table A - This is the list of adverse legal actions that must be reported.

B. Overpayment Information - Current laws found in the Federal Streamlining Act and the Debt Collection Improvement Act require all Federal agencies to determine whether an individual or business entity that enters into a business relationship with that agency has any outstanding debts, including overpayments under different identifiers. Failure to furnish information about overpayments will put you in violation of these Acts and subject it to possible denial of its Medicare enrollment.

If reporting a change to existing information, check "Change," provide the effective date of the change, complete the appropriate fields in this section, and sign and date the certification statement. Otherwise:

1. You must report all outstanding Medicare overpayments that you are liable for, including those paid to you, or on your behalf under a different name. For purposes of this section, the term "outstanding Medicare overpayment" is defined as a debt that meets **all** of the conditions listed below:

   a) The overpayment arose out of your current or previous enrollment in Medicare. This includes any overpayment incurred by you under a different name or business identity, or in another Medicare contractor jurisdiction;

   b) CMS (or its contractors) has determined that you are liable for the overpayment; and

   c) The overpayment is not or has not been included as part of a repayment plan approved by CMS (or its contractors), nor is the overpayment amount being repaid through the withholding of Medicare payments to you.

Any overpayment not meeting all of these conditions should not be reported.

2. Furnish the name or business identity under which the overpayment occurred and the account number under which the overpayment exists.

NOTE: Overpayments that occur after your enrollment has been approved do not need to be reported unless you are enrolling with a different Medicare contractor.

USFCS-010984

3. Adverse Legal Actions and Overpayments

This section is to be completed with information concerning any adverse legal actions and/or overpayments that have been imposed or levied against you (see Table A below for list of adverse actions that must be reported).

A. Adverse Legal History ☐ **Change** **Effective Date:**_____

1. Have you, under any current or former name or business identity, ever had any of the adverse legal actions listed in Table A below imposed against you? ☐ YES ☐ NO
2. **IF YES,** report each adverse legal action, when it occurred, the law enforcement authority/court/administrative body that imposed the action, and the resolution. Attach a copy of the adverse legal action documentation(s) and resolution(s).

Adverse Legal Action:	Date:	Law Enforcement Authority:	Resolution:

Table A

1) Any felony or misdemeanor conviction, under Federal or State law, related to: (a) the delivery of an item or service under Medicare or a State health care program, or (b) the abuse or neglect of a patient in connection with the delivery of a health care item or service.

2) Any felony or misdemeanor conviction, under Federal or State law, related to theft, fraud, embezzlement, breach of fiduciary duty, or other financial misconduct in connection with the delivery of a health care item or service.

3) Any felony or misdemeanor conviction, under Federal or State law, relating to the interference with or obstruction of any investigation into any criminal offense described in 42 C.F.R. Section 1001.101 or 1001.201.

4) Any felony or misdemeanor conviction, under Federal or State law, relating to the unlawful manufacture, distribution, prescription, or dispensing of a controlled substance.

5) Any revocation or suspension of a license to provide health care by any State licensing authority. This includes the surrender of such a license while a formal disciplinary proceeding was pending before a State licensing authority.

6) Any revocation or suspension of accreditation.

7) Any suspension or exclusion from participation in, or any sanction imposed by, a Federal or State health care program, or any debarment from participation in any Federal Executive Branch procurement or non-procurement program.

8) Any current Medicare payment suspension under any Medicare billing number.

Note: All applicable adverse legal actions must be reported, regardless of whether any records were expunged or any appeals are pending.

B. Overpayment Information ☐ **Change** **Effective Date:**_____

1. Do you, under any current or former name or business identity, have any outstanding Medicare overpayments? ☐ YES ☒ NO
2. **IF YES,** furnish the name and account number under which the overpayment(s) exists.

Name under which the overpayment occurred:	Account number under which the overpayment exists:

USFCS-010985

SECTION 4: CURRENT PRACTICE LOCATION(S)

This section is to be completed with information about your private practice and group affiliations. If you want to make a change to existing information about your group affiliations, you must use the CMS 855R to report those changes.

A. Group Practice Information

1. Indicate whether **ALL** of your services will be rendered as part of a group or other organization. If "Yes," this means that you do not have a private practice where you treat Medicare patients. This also means that a group(s) or organization(s) will be billing Medicare for the services you render and that you have given the group or organization the authority to bill for you. To reassign your benefits, you must complete and submit a CMS 855R for each group to which your benefits will be reassigned.

   a-c) Provide the legal name and Medicare billing number for up to three groups. If the group's application is pending, indicate "pending" on your application in the space provided for the group's Medicare number. If you belong to more than three groups, copy and complete this section as needed. After completing this section, skip to Section 14.

2. Indicate whether **SOME** of your services will be rendered in a group setting. If not, check the box "No," and continue with Section 4B below. If "Yes," this means that in addition to your private practice you will render some services as part of a group practice, and that you have given the authority to the group to bill for these services.

   a-c) Provide the legal name and Medicare billing number for up to three groups. If the group's application is pending, indicate "pending" on your application in the space provided for the group's Medicare number. If you belong to more than three groups, copy and complete this section as needed. After completing this section, continue completing this application at Section 4B with information about your private practice.

B. Practice Location Information - Complete this section for each of your own private practice locations where you render services to Medicare beneficiaries. **The information provided in this section will pertain to your private practice only.** Check the box to indicate if you are adding a new practice location under an existing tax identification number, deleting a practice location, or changing information about an existing practice location. Provided that this is the only change in your information, provide the effective date of the change, complete the appropriate fields in this section, and sign and date the certification statement. Otherwise:

1. Provide the name of your practice location. If you use a "doing business as" name, provide that name in this section. State the date you started practicing at this location.

2. Furnish the complete street address for your practice location.

This address must be a specific street address as recorded by the United States Postal Service. Do not report a P.O. Box. Only report those practice locations within the Medicare carrier jurisdiction where you will be submitting this application, including reporting additions, deletions or other changes to these practice locations. If you render services in a hospital and/or other health care facility that bills Medicare directly for the services you render at that facility, furnish the name and address of that hospital or facility. In addition, provide the telephone number of this practice location. Do not provide a billing agency's telephone number. The fax number and e-mail address are optional.

If you only render services in patients' homes (house calls), you may supply your home address if you do not have an office. In Section 4E, explain that this address is for administrative purposes only and that all services are rendered in patients' homes.

If you render services in a retirement or assisted living community, complete this section with the names, telephone numbers and addresses of those communities.

3. Indicate whether you own/lease the practice location.

4. Indicate whether this address is that of a private practice office setting, hospital, retirement/assisted living community or other health care facility. Please specify if it does not fall within one of these categories.

5. If you have a CLIA number(s) and/or FDA/Radiology (Mammography) Certification Number(s) for this practice location, provide that information in this section. Submit a copy of the most current CLIA and FDA certification for each of the practice locations reported.

USFCS-010986

USFCS-010986

4. Current Practice Location(s)

This section is to be completed with information about where you currently render medical services to Medicare patients. You must complete this entire section beginning with Section 4A1 and carefully follow all instructions in each part. If you need additional space to report additional groups/organizations or if you have more than one private practice location, copy and complete this section as needed for each.

A. Group Practice Information

Beginning with Section 4A1, answer "**Yes**" or "**No**" to each question. When applicable, furnish the group/organization name and Medicare number for each group/organization to which you will reassign your benefits. In addition to identifying the group/organization to which you will reassign your benefits in this section, either you or each group/organization reported in this section must also complete and submit a CMS 855R (Individual Reassignment of Benefits) with this application. Reassigning benefits means that you are authorizing the group/organization to bill Medicare for the services you have rendered in the group/organization practice location.

1. Will **all** of your services be rendered as part of a group(s) or organization(s) to which you will reassign your benefits? ☐ YES ☐ NO
   IF YES, furnish the name and Medicare identification number of each group or organization below and skip to Section 14 (Penalties for Falsifying Information on this Enrollment Application).
   IF NO, proceed to Question 2 below.

a)	Name of Group/Organization	Group/Organization Medicare Number
b)	Name of Group/Organization	Group/Organization Medicare Number
c)	Name of Group/Organization	Group/Organization Medicare Number

2. Will **any** of your services be rendered as part of a group(s) or organization(s) to which you will reassign your benefits? ☐ YES ☐ NO
   IF YES, furnish the name and Medicare identification number of each group or organization below and continue completing the rest of this application at Section 4B.
   IF NO, continue with Section 4B below with information about your private practice.

a)	Name of Group/Organization	Group/Organization Medicare Number
b)	Name of Group/Organization	Group/Organization Medicare Number
c)	Name of Group/Organization	Group/Organization Medicare Number

B. Practice Location Information ☐ Add ☐ Delete ☒ Change Effective Date: 7/1/03

1. Practice Location Name: ALLERGY DERMATOLOGY & SKIN CANCER CTR
   Date you started practicing at this location (MM/YYYY): 7/1/03
2. Practice Location Street Address Line 1: 9580 SOUTH FEDERAL HWY
   Practice Location Street Address Line 2:

City	County/Parish	State	ZIP Code + 4
PORT ST. LUCIE	ST. LUCIE	FL	34952

Telephone Number	(Ext.)	Fax Number (if applicable)	E-mail Address (if applicable)
(772) 335-1500	( )	(772) 335	

3. Do you own/lease this practice location? ☒ YES ☐ NO
4. Is this practice location a:
   private practice office setting? ☒ YES ☐ NO
   hospital? ☐ YES ☐ NO
   retirement/assisted living community? ☐ YES ☐ NO
   other health care facility? (Specify): _____ ☐ YES ☐ NO
5. CLIA Number for this location (if applicable) | FDA/Radiology (Mammography) Certification Number for this location (if applicable)

USFCS-010987

USFCS-010987

C. Medicare Payment "Pay To" Address Information - Check the box "Change" only if you are reporting a change to existing information in this section. Provided that this is the only change in your information, furnish the effective date of the change, complete the appropriate fields in this section, and sign and date the certification statement. Otherwise:

If you are enrolling for the first time, state where you want your Medicare payments to be sent. The ability to establish more than one "Pay-To"-address will be addressed by the local Medicare carrier. Therefore, if you want to establish multiple "Pay-To"-addresses you need to contact the carrier. Some Medicare carriers do not allow multiple payment addresses.

- Provide the P.O. Box or street address, city, State and ZIP Code for your payment address.

If you would like your payments to be deposited to your bank account electronically, place a check in the box given and complete the "Medicare Authorization Agreement for Electronic Funds Transfers" (Form HCFA-588). Payment will be made in your name as shown in Section 2A1 or your legal business name as shown in Section 2D2.

- If payment is being paid by electronic funds transfer (EFT), the "Pay To" address should indicate where you want all other payment information, (e.g., remittance notices, special payments, etc.) sent.

D. Location of Patients' Medical Records - Check the box "Change" only if you are reporting a change to existing information in this section. Provided that this is the only change in your information, provide the effective date of the change, complete the appropriate fields in this section, and sign and date the certification statement. Otherwise:

1. If all of your patients' medical records are located at the practice location in Section 4B, check the box provided and skip this section.

2. If any of your patients' medical records are stored in a location other than the practice location in Section 4B, complete this section with the complete address of all storage locations.

Post Office boxes and drop boxes are not acceptable as physical addresses where patients' medical records are maintained.

E. Comments – This section is to be used as an opportunity to explain any unusual circumstances concerning your practice location, "Pay To" address, the location of your patients' medical records, or how they are maintained and/or stored.

USFCS-010988

4. Current Practice Location (Continued)

C. Medicare Payment "Pay To" Address Information ☒ **Change** **Effective Date:** 9/1/03

Furnish the address where payments should be sent for services rendered at the practice location in Section 4B.

"Pay To" Address Line 1: 9580 SOUTH FEDERAL Hwy.

"Pay To" Address Line 2:

City	State	ZIP Code + 4
PORT ST. LUCIE	FL.	34952

Check here ☐ and submit a completed Form HCFA-588 with this application if you would like to have your payments electronically transferred to your bank account.

D. Location of Patients' Medical Records ☐ **Add** ☐ **Delete** ☐ **Change** **Effective Date:**

1. Check here ☒ if **all** of your patients' medical records are stored in the practice location(s) shown in Section 4B, and skip this section.
2. If **any** of your patients' medical records are stored in a location other than the practice location(s) shown in Section 4B, complete this section for each additional storage location.

Name of Storage Facility/Location

Street Address Line 1

Street Address Line 2

City	State	ZIP Code + 4

E. Comments

Explain any unique or unusual circumstances concerning your practice location(s) or the method by which you render health care services (e.g., you only render services in patients' homes (house calls only)).

USFCS-010989

USFCS-010989

OMB Approval No. 0938-0685

SECTION 5: MANAGING CONTROL INFORMATION (ORGANIZATIONS)

This section is to be completed with information about any organization that manages your practice. See explanation below of organizations that should be reported in this section. If individuals, and not organizations, manage your practice, do not complete this section. These individuals must be reported in Section 6. If there are more than three organizations, copy and complete this section as needed.

A managing organization is defined as any organization that exercises operational or managerial control over the practitioner's practice/business, or conducts the day-to-day operations of the practitioner's practice/business. This could be a management services organization, either under contract or through some other arrangement with the practitioner to furnish management services for any of his/her practice/business location(s).

In most situations when you use a management services organization, the organization would be reported in this section and the individual person from the organization who works in your office, or handles the management or administrative duties from outside your office, would be reported in Section 6.

A. Check Box - Check the box if there are no organizations to be reported in this section. If this box is checked, proceed to Section 6.

B. 1st Organization with Managing Control - Identification Information – Indicate if you are adding or deleting a managing organization, or changing information about an existing managing organization. Provide the new information and the effective date of the change. Provided that this is the only change in your information, you need to sign and date the certification statement. Otherwise:

1. Provide the legal business name and effective date of managing control.
2. Provide the managing organization's "doing business as" name (if applicable) and its tax identification number.
3. Provide the managing organization's business street address and its Medicare identification number (if applicable).

IMPORTANT **– Only organizations should be reported in Section 5. Individuals must be reported in Section 6.**

C.-D. 2nd and 3rd Organization with Managing Control - Identification Information - Sections 5C and 5D may be used to provide information about additional managing organizations. Follow the instructions in Section 5B.

USFCS-010990

USFCS-010990

OMB Approval No. 0938-0685

5. Managing Control Information (Organizations)

This section is to be completed with information about all organizations that manage the day-to-day operations of the enrolling practitioner's practice. See instructions for an explanation of organizations that should be reported here. If there are more than three management organizations, copy and complete this section as needed.

A. Check here ☐ if this section does not apply and skip to Section 6.

B. 1st Organization with Managing Control—Identification Information

☐ Add ☐ Delete ☐ Change **Effective Date:**_____

1. Legal Business Name as Reported to the IRS	Effective Date of Managing Control (MM/DD/YYYY)
2. "Doing Business As" Name (if applicable)	Tax Identification Number
3. Business Address Line 1	Medicare Identification Number(s) (if applicable)
Business Address Line 2	
City / State / ZIP Code + 4	

C. 2nd Organization with Managing Control—Identification Information

USFCS-010991

OMB Approval No. 0938-0685

SECTION 6: MANAGING EMPLOYEE INFORMATION

This information is necessary to ensure that any managing employees you have hired, or managing individuals working at any of your practice locations, meet all the conditions of participation in the Medicare program.

A managing employee is defined as any individual (other than yourself), including a general manager, business manager, office manager or administrator, who exercises operational or managerial control over your practice/business, or who conducts the day-to-day operations of your practice/business. For Medicare enrollment purposes, a managing employee also includes any individual that manages your day-to-day operations, either under contract or through some other arrangement, but who is not your actual employee.

All managing employees at any of your practice locations shown in Section 4B must be reported in this section. Do not report individuals employed by hospitals, health care facilities or other organizations shown in Section 4B, or managing employees of any group or organization to which you reassign your benefits. For instance, the CEO of a hospital where one of your practice locations is situated should not be reported.

If you have more than two managing employees, copy and complete this section as needed.

A. Check Box - If you do not have a managing employee who meets the above definition, check the box provided and skip this section. Otherwise, provide information about all managing employees.

B. Identifying Information - Indicate whether you are adding or deleting a managing employee, or changing information about an existing managing employee. Provide the new information and the effective date of the change. Provided that this is the only change in your information, you need to sign and date the certification statement. Otherwise:

1. Provide the full name of the managing employee.

2. Provide the managing employee's social security number as required by Sections 1124 and 1124A of the Social Security Act, and furnish his/her date of birth and Medicare identification number (if applicable).

3. Indicate if this managing employee is actually employed by you (on your payroll as a W-2 employee).

C. Adverse Legal History

This section must be completed for all managing employees who are actually employed by you.

1. You must state whether the managing employee reported above, under any current or former name or business identity, has ever had any of the adverse legal actions listed in Section 3A (Table A) of this form imposed against him or her.

2. If the answer to this question is "Yes," supply all requested information. Attach a copy(s) of official documentation related to the adverse legal action. Such documentation includes adverse legal action notifications (e.g., notification of disciplinary action; criminal court documentation that verifies the conviction of a crime) and documents that evidence how the adverse legal action was finally resolved (e.g., reinstatement notices, etc.).

If you are uncertain as to whether the managing employee falls within one of the adverse legal action categories, you should review the Healthcare Integrity and Protection Data Bank. If you need information on how to access the data bank, call 1-800-767-6732 or visit www.npdb-hipdb.com.

D-E. Identifying Information/Adverse Legal History - Section 6D and 6E are additional sections to provide information about a second managing employee. Follow the instructions in Sections 6B and 6C above.

SECTION 7: CHAIN HOME OFFICE INFORMATION

This section has been omitted.

USFCS-010992

SECTION 8: BILLING AGENCY

OMB Approval No. 0938-0685

The purpose of collecting this data is to develop effective monitoring of agents/agencies that prepare and/or submit claims to bill the Medicare program. A billing agency is a company or individual you hired or contracted with to furnish claims processing functions for your practice. Any entity that meets this description must be reported in this section. If you have an agreement with a billing agency and that company has a subcontract with a clearinghouse for electronic claims submission, you must report the clearinghouse in Section 9, with a copy of the electronic data interchange agreement submitted with this application.

A. Check Box - If you do not have a billing agency, check the box and skip to Section 9.

B. Billing Agency Name and Address - Indicate if you are adding or deleting a billing agent and/or making a change concerning your existing relationship with your billing agency. Provide the new information and the effective date of the change. Provided that this is the only change you are making, you will need to sign and date the certification statement. Otherwise, if you use a billing agency:

1. Provide the billing agency's legal business name and tax identification number.
2. If the billing agency has a "doing business as" name, provide that information in this space.
3. Provide the street address, telephone number, fax number and e-mail address of the billing agency.

C. Billing Agreement/Contract Information

You are responsible for answering the questions listed. These questions are designed to show that you fully understand and comprehend your billing agreement and that you intend to adhere to all Medicare laws, regulations, and program instructions. If you do not understand a question or you need help in interpreting your agreement, contact the Medicare carrier. At any time, the carrier may request copies of all agreements/contracts associated with this billing agency.

6. Managing Employee Information

This section is to be completed with personal identification information (including adverse legal history) about all managing employees. See instructions for the definition of managing employee(s) to determine who should be reported here. If there are more than two managing employees, copy and complete this section as needed.

A. Check here ☐ if this section does not apply and skip to Section 8.

B. Identifying Information ☐ **Add** ☐ **Delete** ☐ **Change** **Effective Date:**_____

1. Name First	Middle	Last	Jr., Sr., etc.
2. Social Security Number	Date of Birth (MM/DD/YYYY)	Medicare Identification Number (if applicable)	

3. Is the above individual your own employee? ☐ YES ☐ NO

C. Adverse Legal History ☐ **Change** **Effective Date:**_____

Complete this section only if the above individual is your own employee.

1. Has the employee reported in Section 6B above, under any current or former name or business identity, ever had any of the adverse legal actions listed in Table A in Section 3A imposed against him or her? ☐ YES ☐ NO

2. **IF YES**, report each adverse legal action, when it occurred, the law enforcement authority/court/administrative body that imposed the action, and the resolution. Attach a copy of the adverse legal action documentation(s) and resolution(s).

Adverse Legal Action:	Date:	Law Enforcement Authority:	Resolution:

D. Identifying Information ☐ **Add** ☐ **Delete** ☐ **Change** **Effective Date:**_____

1. Name First	Middle	Last	Jr., Sr., etc.
2. Social Security Number	Date of Birth (MM/DD/YYYY)	Medicare Identification Number (if applicable)	

3. Is the above individual your own employee? ☐ YES ☐ NO

E. Adverse Legal History ☐ **Change** **Effective Date:**_____

Complete this section only if the above individual is your own employee.

1. Has the employee reported in Section 6D above, under any current or former name or business identity, ever had any of the adverse legal actions listed in Table A in Section 3A imposed against him or her? ☐ YES ☐ NO

2. **IF YES**, report each adverse legal action, when it occurred, the law enforcement authority/court/administrative body that imposed the action, and the resolution. Attach a copy of the adverse legal action documentation(s) and resolution(s).

Adverse Legal Action:	Date:	Law Enforcement Authority:	Resolution:

OMB Approval No. 0938-0685

8. Billing Agency

This section is to be completed if you use or contract with a billing agency to submit claims to Medicare on your behalf. If you use more than one billing agency, copy and complete this section for each. You may be required to submit a copy of your current signed billing agreement/contract if Medicare cannot verify the information furnished in this section.

A. Check here ☐ if this section does not apply and skip to Section 9.

B. Billing Agency Name and Address ☐ **Add** ☐ **Delete** ☐ **Change** **Effective Date:**_____

1. Legal Business Name as Reported to the IRS	Tax Identification Number
2. "Doing Business As" Name (if applicable)	
3. Business Street Address Line 1	
Business Street Address Line 2	

City	State	ZIP Code + 4
Telephone Number (Ext.) ( ) ( )	Fax Number (optional) ( )	E-mail Address (optional)

C. Billing Agreement/Contract Information ☐ **Change** **Effective Date:**_____

Answer the following questions about your agreement/contract with the above billing agency.

1. Do you have unrestricted access to your Medicare remittance notices? ☐ YES ☐ NO
2. Does your Medicare payment go directly to you? ☐ YES ☐ NO
   IF NO, proceed to Question 3.
   IF YES, skip Questions 3, 4 and 5.
3. Does your Medicare payment go directly to a bank? ☐ YES ☐ NO
   IF NO, proceed to Question 4.
   IF YES, answer the following questions and skip Questions 4 and 5.
   a) Is the bank account in your name only? ☐ YES ☐ NO
   b) Do you have unrestricted access to the bank account and statements? ☐ YES ☐ NO
   c) Does the bank only answer to you regarding what you want from the bank (e.g., sweep account instructions, bank statements, closing account, etc.)? ☐ YES ☐ NO
4. Does your Medicare payment go directly to your billing agent? ☐ YES ☐ NO
   IF NO, proceed to Question 5.
   IF YES, answer the following question and skip Question 5.
   a) Does the billing agent cash your check? ☐ YES ☐ NO
      IF NO, proceed to Question b.
      IF YES, are <u>all</u> of the following conditions included in the billing agreement?
      1) The agent receives payment under an agency agreement with you.
      2) The agent's compensation is not related in any way to the dollar amounts billed or collected.
      3) The agent's compensation is not dependent upon the actual collection of payment.
      4) The agent acts under payment disposition instructions that you may modify or revoke at any time.
      5) In receiving payment, the agent acts only on your behalf (except insofar as the agent uses part of that payment as compensation for the agent's billing and collection services). ☐ YES ☐ NO
   b) Does the billing agent either give the Medicare payment directly to you or deposit the payment into your bank account? ☐ YES ☐ NO
5. Who receives your Medicare payment?_____

USFCS-010995

OMB Approval No. 0938-0685

SECTION 9: ELECTRONIC CLAIMS SUBMISSION INFORMATION

This section is to be completed with information about any clearinghouse(s) that you use for electronic claims submission services, or if your billing agency or management services organization has a subcontract with a clearinghouse to submit your claims electronically. A copy of all **EDI** agreements between the clearinghouse(s) and the carrier(s) **must** be submitted with this application.

If you would like to submit claims electronically once you are enrolled in the Medicare program, you will need to complete an Electronic Data Interchange (EDI) agreement with your local Medicare carrier. These agreements cannot be established until the enrollment process has been completed and a Medicare billing number issued to you.

At the time of initial enrollment, if you know you will be submitting claims electronically through the use of a clearinghouse(s) and you know the clearinghouse(s) you will use, report the clearinghouse(s) in this section.

If you are already enrolled in Medicare and you are submitting this form to report that you (or your billing agency or management services organization) will begin submitting claims electronically through a clearinghouse, you must report the clearinghouse(s) in this section.

A. Check Box - Indicate if you or your billing agent does not use a clearinghouse. If checked, skip to Section 10.

B. Check Box - Indicate if you would like to submit claims electronically. Checking this box will alert the carrier to contact the claims processing department to process an EDI agreement once your enrollment has been completed and approved and a Medicare billing number issued.

C. Clearinghouse Name and Address - Indicate if you (or your billing agent) is adding or deleting a clearinghouse and/or making a change concerning your existing relationship with a clearinghouse. Provide the new information and the effective date of the change, and sign and date the certification statement Otherwise:

1. Furnish the legal business name and tax identification number of the clearinghouse.
2. If the clearinghouse uses a "doing business as" (DBA) name with you, furnish that information in this space. If the clearinghouse has more than one DBA name with you, report all that apply for Medicare claims.
3. Furnish the complete mailing address, telephone number, fax number and e-mail address for the clearinghouse.

NOTE: If you use a clearinghouse and a copy of the EDI agreement has not been prepared and submitted, contact the carrier to start this process.

SECTION 10: STAFFING COMPANY

A staffing company is an organization that contracts with health care professionals to furnish health care at medical facilities (such as hospital emergency rooms) where it is also under contract (or some similar agreement) to furnish such. A staffing company cannot bill Medicare in the staffing company's name for medical services or supplies furnished under this arrangement. If you have an agreement/contract with a staffing company to furnish services to Medicare beneficiaries, complete this section. At any time, the carrier can request a copy of the agreement/contract signed by you and the staffing company.

A. Check Box - If you do not work for (or do not contract with) a staffing company, check this box and skip to Section 13.

B. Staffing Company Name and Address - Indicate if you are "adding," "deleting," or "making a change," concerning your relationship with an existing staffing company by checking the appropriate box. Provide the new information and the effective date of the change, and sign and date the certification statement. Otherwise:

1. Furnish the legal business name and tax identification number of the staffing company.
2. If applicable, furnish the staffing company's "doing business as" (DBA) name. If the reported staffing company uses more than one DBA name with you, report all that apply for Medicare claims.
3. Furnish the complete mailing address, telephone number, fax number and e-mail address for the staffing company.

C. Staffing Company Contract/Agreement Information

Respond to the questions asked in this section to indicate that you fully understand and comprehend your contract with the staffing company and that you plan to adhere to all Medicare laws, regulations, and program instructions. At any time, the carrier can request a copy of the agreement/contract signed by you and the staffing company.

USFCS-010996

OMB Approval No. 0938-0685

9. Electronic Claims Submission Information

This section is to be completed with information about any company (clearinghouse) you use or contract with for electronic claims submission services. See the instructions to determine when and how this section is to be completed. If you submit (or will be submitting) claims electronically without the use of a 3rd party company (clearinghouse), check the box in Section 9A and submit a copy of your electronic data interchange (EDI) agreement if one has been established or check the box in Section 9B to start the EDI agreement process. If you use more than one clearinghouse, copy and complete this section for each. **A copy of all currently established EDI agreements MUST be submitted with this application.**

A. Check here ☐ if this section does not apply and skip to Section 10.

B. Check here ☐ if enrolling in Medicare for the first time and would like to submit claims electronically.

C. Clearinghouse Name and Address ☐ Add ☐ Delete ☐ Change Effective Date:_____

1. Legal Business Name as Reported to the IRS	Tax Identification Number
2. "Doing Business As" Name (if applicable)	
3. Business Street Address Line 1	
Business Street Address Line 2	

City	State	ZIP Code + 4
Telephone Number ( ) (Ext.) ( )	Fax Number (optional) ( )	E-mail Address (optional)

10. Staffing Company

This section is to be completed if you are employed by, or under contract to render medical services with, a company that staffs health care organizations (e.g., hospital emergency rooms) with medical professionals to treat patients. If you are employed by or under contract with more than one staffing company, copy and complete this section for each. You may be required to submit a copy of your current signed staffing company agreement/contract.

A. Check here ☐ if this section does not apply and skip to Section 13.

B. Staffing Company Name and Address ☐ Add ☐ Delete ☐ Change Effective Date:_____

1. Legal Business Name as Reported to the IRS	Tax Identification Number
2. "Doing Business As" Name (if applicable)	
3. Business Street Address Line 1	
Business Street Address Line 2	

City	State	ZIP Code + 4
Telephone Number ( ) (Ext.) ( )	Fax Number (optional) ( )	E-mail Address (optional)

C. Staffing Company Contract/Agreement Information

Answer the following questions about the staffing company and your contract/agreement with it.

1. If you have a contract/agreement with both a billing agency and a staffing company, does the staffing company shown in Section 10B **and** the billing agency identified in Section 8B have a common owner(s)? ☐ Not applicable ☐ YES ☐ NO

2. If you have a contract/agreement with both a billing agency and a staffing company (even if the billing agency and staffing company are the same), are there any provisions in your staffing company contract/agreement that supersede or contradict your billing agreement? ☐ Not applicable ☐ YES ☐ NO

USFCS-010997

SECTION 11 SURETY BOND INFORMATION

This section has been omitted.

SECTION 12 CAPITALIZATION REQUIREMENTS FOR HOME HEALTH AGENCIES

This section has been omitted.

SECTION 13: CONTACT PERSON(S) - OPTIONAL

To assist in the timely processing of your application, you may want to provide the full name and telephone number of one or two individuals who can be reached to answer questions regarding the information furnished in this application. You are not required to furnish a contact person in this section. It should be noted that if a contact person is not provided, all questions about this application will be directed to you.

A. **Check Box** - If you do not have a contact person, check this box and skip to Section 14.

B. **1st Contact Name and Telephone Number** - Indicate if you are completing this section to add or delete a contact person(s) currently on file. State the effective date for the change. If you are changing existing information, check the applicable box and provide the effective date of the change, and sign and date the certification statement. Otherwise:

- Furnish the name, e-mail address, and telephone number of an individual who can answer questions about the information furnished in this application.

C. **2nd Contact Name and Telephone Number** - Same as "B" above.

SECTION 14: PENALTIES FOR FALSIFYING INFORMATION ON THIS ENROLLMENT APPLICATION

This section explains the penalties for deliberately furnishing false information to acquire or maintain enrollment in the Medicare program. You should review this section to ensure that you understand those penalties that can be applied against you for deliberately furnishing false information in this Medicare enrollment application.

Name First	Last	E-mail Address (if applicable)	Telephone Number (Ext.) ( ) ( )

C. 2nd Contact Name and Telephone Number ☐ Add ☐ Delete ☐ Change Effective Date:_____

Name First	Last	E-mail Address (if applicable)	Telephone Number (Ext.) ( ) ( )

14. Penalties for Falsifying Information on this Enrollment Application

This section explains the penalties for deliberately furnishing false information to gain enrollment in the Medicare program.

1. 18 U.S.C. § 1001 authorizes criminal penalties against an individual who, in any matter within the jurisdiction of any department or agency of the United States, knowingly and willfully falsifies, conceals or covers up by any trick, scheme or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry.

Individual offenders are subject to fines of up to $250,000 and imprisonment for up to five years. Offenders that are organizations are subject to fines of up to $500,000 (18 U.S.C. § 3571). Section 3571(d) also authorizes fines of up to twice the gross gain derived by the offender if it is greater than the amount specifically authorized by the sentencing statute.

2. Section 1128B(a)(1) of the Social Security Act authorizes criminal penalties against any individual who, "knowingly and willfully," makes or causes to be made any false statement or representation of a material fact in any application for any benefit or payment under a Federal health care program.

The offender is subject to fines of up to $25,000 and/or imprisonment for up to five years.

3. The Civil False Claims Act, 31 U.S.C. § 3729, imposes civil liability, in part, on any person who:
   a.) knowingly presents, or causes to be presented, to an officer or any employee of the United States Government a false or fraudulent claim for payment or approval;
   b.) knowingly makes, uses, or causes to be made or used, a false record or statement to get a false or fraudulent claim paid or approved by the Government; or
   c.) conspires to defraud the Government by getting a false or fraudulent claim allowed or paid.

The Act imposes a civil penalty of $5,000 to $10,000 per violation, plus three times the amount of damages sustained by the Government.

4. Section 1128A(a)(1) of the Social Security Act imposes civil liability, in part, on any person (including an organization, agency or other entity) that knowingly presents or causes to be presented to an officer, employee, or agent of the United States, or of any department or agency thereof, or of any State agency…a claim…that the Secretary determines is for a medical or other item or service that the person knows or should know:
   a.) was not provided as claimed; and/or
   b.) the claim is false or fraudulent.

This provision authorizes a civil monetary penalty of up to $10,000 for each item or service, an assessment of up to three times the amount claimed, and exclusion from participation in the Medicare program and State health care programs.

5. The government may assert common law claims such as "common law fraud," "money paid by mistake," and "unjust enrichment."

Remedies include compensatory and punitive damages, restitution, and recovery of the amount of the unjust profit.

USFCS-010999

SECTION 15: CERTIFICATION STATEMENT

As an individual practitioner, you are the only person who can sign this application. This applies not only to initial enrollment and revalidation, but also to any changes and/or updates (e.g., new practice locations, change in specialties, address changes, etc.) to your status in the Medicare program. The authority to sign the application on your behalf may not be delegated to any other person.

The Certification Statement contains certain standards that must be met for initial and continuous enrollment in the Medicare program. Review these requirements carefully.

By signing the Certification Statement, you agree to adhere to all of the requirements listed therein and acknowledge that you may be denied entry to or revoked from the Medicare program if any requirements are not met. **Your signature must be an original.** Faxed, photocopied, or stamped signatures will not be accepted.

SECTION 16: DELEGATED OFFICIAL

This section has been omitted.

SECTION 17: ATTACHMENTS

This section contains a list of documents that, if applicable, must be submitted with this enrollment application. Failure to provide the required documents will delay the enrollment process.

- Check the appropriate boxes indicating which documents are being submitted with this application.

NOTE: Any licenses (business and professional) that are required by the State where your practice is located **must** be included with this application.

All enrolling practitioners are required to furnish information on all Federal, State and local (city/county) professional and business licenses, certifications and/or registrations as required by the practitioner's State to operate as a health care supplier (e.g., CLIA and FDA mammography certificates, hazardous waste disposal license, etc.). The Medicare contractor will supply specific licensing requirements for your supplier type upon request.

In lieu of copies of the above requested documents, you may submit a notarized Certificate of Good Standing from the State licensing/certification board or other medical associations. This certification cannot be more than 30 days old.

If you have had a previously revoked or suspended license, certification, or registration reinstated, attach a copy of the reinstatement notice with this application.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0685. The time required to complete this information collection is estimated at 3-5 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, N2-14-26, Baltimore, Maryland 21244-1850.

USFCS-011000

OMB Approval No. 0938-0685

15. Certification Statement

You **MUST** sign and date the certification statement below in order to be enrolled in the Medicare program. In doing so, you are attesting to meeting and maintaining the Medicare requirements stated below.

I, the undersigned, certify to the following:

1.) I have read the contents of this application, and the information contained herein is true, correct, and complete. If I become aware that any information in this application is not true, correct, or complete, I agree to notify the Medicare program contractor of this fact immediately.

2.) I authorize the Medicare contractor to verify the information contained herein. I agree to notify the Medicare contractor of any future changes to the information contained in this form within 90 days of the effective date of the change. I understand that any change in my status as an individual practitioner may require the submission of a new application.

3.) I have read and understand the Penalties for Falsifying Information, as printed in this application. I understand that any deliberate omission, misrepresentation, or falsification of any information contained in this application or contained in any communication supplying information to Medicare, or any deliberate alteration of any text on this application form, may be punished by criminal, civil, or administrative penalties including, but not limited to, the revocation of Medicare billing privileges, and/or the imposition of fines, civil damages, and/or imprisonment.

4.) I agree to abide by the Medicare laws, regulations and program instructions that apply to me. The Medicare laws, regulations, and program instructions are available through the Medicare contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited to, the Federal anti-kickback statute and the Stark law), and on my compliance with any applicable conditions of participation in Medicare.

5.) Neither I, nor any W-2 managing employee, is currently sanctioned, suspended, debarred, or excluded by the Medicare or Medicaid program, or any other Federal program, or is otherwise prohibited from providing services to Medicare or other Federal program beneficiaries.

6.) I agree that any existing or future overpayment made to me by the Medicare program may be recouped by Medicare through the withholding of future payments.

7.) I understand that the Medicare billing number issued to me can only be used by me or by a provider or supplier to whom I have reassigned my benefits under current Medicare regulations, when billing for services rendered by me.

8.) I will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity.

9.) I further certify that I am the individual practitioner who is applying for Medicare billing privileges.

Practitioner Name - **Print**	First	Middle	Last	Jr., Sr., etc.	M.D., D.O., etc.
	GARY	L.	MARDER		D.O.

Practitioner **Signature** (First, Middle, Last, Jr., Sr., M.D., D.O., etc.)	Date (MM/DD/YYYY) Signed

MEDICARE FEDERAL HEALTH CARE PROVIDER/SUPPLIER ENROLLMENT APPLICATION

Application for Health Care Suppliers that will Bill Medicare Carriers

General Instructions

The Medicare Federal Health Care Provider/Supplier Enrollment Application has been designed by the Centers for Medicare & Medicaid Services (CMS) to assist in the administration of the Medicare program and to ensure that the Medicare program is in compliance with all regulatory requirements. The information collected in this application will be used to ensure that payments made from the Medicare trust fund are only paid to qualified health care suppliers, and that the amounts of the payments are correct. This information will also identify whether the supplier is qualified to render health care services to Medicare beneficiaries. To accomplish this, Medicare must know basic identifying and qualifying information about the supplier that is seeking billing privileges in the Medicare program. If enrolling in the Medicare program as a supplier of durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) do not complete this application. DMEPOS suppliers should contact the National Supplier Clearinghouse (NSC) at 803-754-3951 to obtain a CMS 855S for Medicare enrollment.

Medicare needs to know: (1) the type of health care supplier enrolling, (2) what qualifies this supplier to furnish health care related services, (3) where and how this supplier intends to render these services, and (4) those persons or entities with an ownership interest, or managerial control, as defined in this application, over the supplier.

This application **MUST** be completed in its entirety, unless the appropriate box is checked to indicate the section does not apply or when reporting a change to previously submitted information. If a section does not apply to this supplier, check (√) the appropriate box in that section and skip to the next section. Sections 7, 11, and 12 have been deliberately omitted from this application because they are not applicable to the enrollment of suppliers that bill Medicare carriers.

1. General Application Information

This section is to be completed with general information as to why this application is being submitted and whether this supplier currently has a business relationship with Medicare or any another Federal health care program.
To ensure timely processing of this application, Numbers 1, 2 and 3 below MUST ALWAYS be completed.

A. Reason for Submittal of this Application

1. Check one:
   - ☐ Initial Enrollment
   - ☐ Reactivation
   - ☑ Change of Information (Check appropriate Section(s) below and furnish this supplier's Medicare Identification Number here): 82760 (B)

   ☐ 1 ☑ 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 ☐ 8 ☐ 9 ☐ 10 ☐ 13 ☐ 15 ☐ 16
   Attachment 1 - ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 Attachment 2 - ☐ 1 ☐ 2 ☐ 3 ☐ 4

   - ☐ Voluntary Termination of Billing Number—Effective Date (MM/DD/YYYY): _____
   - ☐ Change of Ownership (Hospitals, Portable X-Ray Facilities, and Ambulatory Surgical Centers) - **Only**

2. Tax Identification Number: 65-0869777

3. Is this supplier currently enrolled in the Medicare program? ☑ YES ☐ NO
   IF YES, furnish the following information about the current carrier:

Current Carrier Name: Allergy Dermatology + Skin Cancer Center Current Medicare Identification Number: 82760B

USFCS-020850

920510 OMB Approval No. 0938-0685

2. Supplier Identification

This section is to be completed with information specifically related to the supplier submitting this application. Furnish the following information about the supplier: (1) supplier type, (2) supplier name, and (3) the mailing address and telephone number where Medicare can contact the supplier directly.

A. Type of Supplier add to ☑ **Change** **Effective Date:** 4/11/05

The supplier must meet all Medicare requirements for the type of supplier checked below. If this supplier is a single specialty clinic/group practice, the specialty must be reported. Submit copies of all required licenses, certifications, and registrations with this application.

1. Type of Supplier (Check one):

- ☐ Ambulance Service Supplier
- ☐ Ambulatory Surgical Center
- ☐ Diagnostic Radiology Group Practice/Clinic
- ☐ Hospital Department(s), Hospital Outpatient Location(s) and/or Hospital Clinic(s) (complete # 4 below)
- ☐ Independent Clinical Laboratory (CLIA)
- ☐ Independent Diagnostic Testing Facility (IDTF)
- ☐ Mammography Screening Center
- ☐ Managed Care Plan (non-Medicare +Choice)
- ☐ Mass Immunization Roster Biller Only
- ☐ Medicare +Choice Organization
- ☐ Medical Faculty Practice Plan: See Instructions for specific documentation requirements
- ☑ Multi-Specialty Clinic or Group Practice
- ☐ Occupational Therapy Group (complete # 2 below)
- ☐ Other Medical Care Group
- ☐ Physical Therapy Group (complete # 2 below)
- ☐ Physiotherapy Group
- ☐ Portable X-ray Facility
- ☐ Public Health/Welfare Agency
- ☐ Voluntary Health/Charitable Agency
- ☐ ~~Single Specialty Clinic/Group Practice:~~ ~~Specify group/clinic specialty below:~~
- ☑ Other (Specify): (1) Radiation oncology (2) Dermatology (3) Vascular surgery

2. PT/OT Groups ONLY - All occupational and physical therapy groups must answer the following questions:

a)	Are all of the group's PT/OT services only rendered in patients' homes?	☐ YES ☐ NO
b)	Does this group maintain private office space?	☐ YES ☐ NO
c)	Does this group own, lease, or rent its private office space?	☐ YES ☐ NO
d)	Is this private office space used exclusively for the group's private practice?	☐ YES ☐ NO
e)	Does this group furnish PT/OT services outside of its office and/or patients' homes?	☐ YES ☐ NO

IF YES, provide a copy of the lease agreement which gives the group exclusive use of the facility for PT/OT services.

3. Will this supplier be receiving reassigned benefits from individual practitioners? ☐ YES ☐ NO
IF YES, submit a CMS 855R for each individual practitioner who will be reassigning benefits to this supplier.

4. Hospitals Only - If this supplier is a hospital applying for a billing number(s) for Part B practitioner services, check the appropriate box below. See instructions before completing this section.

☐ Single billing number for all departments ☐ Separate billing number for each department listed below

_____ _____ _____
_____ _____ _____
_____ _____ _____
_____ _____ _____

B. Supplier Identification Information ☐ **Change** **Effective Date:** _____

Furnish the supplier's legal business name (as reported to the IRS), "doing business as" name (name supplier generally known by to the public), and the various operating dates and places of formal business registration and/or incorporation.

1. Legal Business Name as Reported to the IRS	Date Business Started (MM/DD/YYYY)
2. "Doing Business As" (DBA) Name (if applicable)	County/Parish where DBA Name Registered (if applicable)
3. Identify the type of organizational structure for this supplier (Check one): ☐ Corporation ☐ Partnership ☐ Other (Specify):	
4. Incorporation Date (if applicable) (MM/DD/YYYY)	State where Incorporated (if applicable)

OMB Approval No. 0938-0685

15. Certification Statement

This section is used to officially notify the supplier of additional requirements that must be met and maintained in order for the supplier to be enrolled in the Medicare program. This section also requires the signature and date thereof of an "Authorized Official" who can legally and financially bind the supplier to the laws, regulations, and program instructions of the Medicare program. Section 16 permits the "Authorized Official" to delegate signature authority to other individual(s) (Delegated Officials) employed by the supplier for the purpose of reporting future changes to the supplier's enrollment record. See instructions to determine who qualifies as an Authorized Official and a Delegated Official for the supplier.

A. Additional Requirements for Medicare Enrollment

By his/her signature(s), the authorized official named below and the delegated official(s) named in Section 16 agree to adhere to the following requirements stated in this Certification Statement:

1.) I agree to notify the Medicare contractor of any future changes to the information contained in this form within 90 days of the effective date of the change. I understand that any change in the business structure of this supplier may require the submission of a new application.
2.) I have read and understand the Penalties for Falsifying Information, as printed in this application. I understand that any deliberate omission, misrepresentation, or falsification of any information contained in this application or contained in any communication supplying information to Medicare, or any deliberate alteration of any text on this application form, may be punished by criminal, civil, or administrative penalties including, but not limited to, the revocation of Medicare billing number(s), and/or the imposition of fines, civil damages, and/or imprisonment.
3.) I agree to abide by the Medicare laws, regulations and program instructions that apply to this supplier. The Medicare laws, regulations, and program instructions are available through the Medicare contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited to, the Federal anti-kickback statute and the Stark law), and on the supplier's compliance with all applicable conditions of participation in Medicare.
4.) Neither this supplier, nor any 5% or greater owner, partner, officer, director, W-2 managing employee, authorized official, or delegated official thereof is currently sanctioned, suspended, debarred, or excluded by the Medicare or Medicaid program, or any other Federal program, or is otherwise prohibited from supplying services to Medicare or other Federal program beneficiaries.
5.) I agree that any existing or future overpayment made to the supplier by the Medicare program may be recouped by Medicare through the withholding of future payments.
6.) I will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity.

B. Authorized Official Signature

☒ Add ☐ Delete ☐ Change **Effective Date:** 04/11/01

I have read the contents of this application. My signature legally and financially binds this supplier to the laws, regulations, and program instructions of the Medicare program. By my signature, I certify that the information contained herein is true, correct, and complete, to the best of my knowledge, and I authorize the Medicare program contractor to verify this information. If I become aware that any information in this application is not true, correct, or complete, I agree to notify the Medicare program contractor of this fact immediately.

Dear Provider/Supplier:

We have received your Medicare enrollment application(s). During our review of the application(s) we have found missing information and/or items that should be included with the application(s). In order to ensure accurate processing, we are returning the application(s) so that it/they may be corrected.

Given below is information that has been identified as incomplete or attachments that were omitted from the application(s).

In some cases additional application(s) may be needed if indicated below.

☐ CMS 855I application is needed for:
☐ CMS 855R is needed for:
☐ CMS 855B is needed for:

Please complete the appropriate section(s) of the application and/or obtain the necessary attachments as indicated below. When all needed sections of the application(s) are completed and all attachments have been obtained, **section 15 of the application should be re-signed and dated** and the application(s) may be resubmitted for processing. When Medicare receives the resubmitted application(s), they will be processed in the order in which they are received.

MEDICARE FEDERAL HEALTH CARE PRACTITIONER ENROLLMENT APPLICATION

Application for Individual Health Care Practitioners

General Instructions

The Medicare Federal Health Care Practitioner Enrollment Application has been designed by the Centers for Medicare & Medicaid Services (CMS) to assist in the administration of the Medicare program and to ensure that the Medicare program is in compliance with all regulatory requirements. The information collected in this application will be used to ensure that payments made from the Medicare trust fund are only paid to qualified health care practitioners and that the amounts of the payments are correct. This information will also identify whether you are qualified to render health care services and/or supplies to Medicare beneficiaries. To accomplish this, Medicare must know basic identifying and qualifying information about you in order for you to be granted billing privileges in the Medicare program.

When completing this application to enroll and bill the Medicare program as an individual practitioner, you need to tell Medicare (1) who you are, (2) what qualifies you to render health care related services and/or supplies to Medicare beneficiaries, (3) where or how you intend to render these services and/or supplies, and (4) any individuals or organizations that manage your practice.

This application **MUST** be completed in its entirety, unless otherwise stated in these instructions, **or** the appropriate box is checked to indicate the section does not apply, **or** when reporting a change to previously submitted information. If a section does not apply to you, check (√) the appropriate box in that section. Sections 7, 11, 12, and 16, have been deliberately omitted from this application because they are not applicable to the enrollment of individual health care practitioners.

1. General Application Information

This section is to be completed with general information as to why you are submitting this application and whether you currently have a business relationship with another Federal health care program.
To ensure timely processing of this application, Numbers 1, 2, and 3 below MUST ALWAYS be completed.

A. Reason for Submittal of this Application

1. Check one: ☐ Initial Enrollment ☐ Reactivation

☑ Change of Information (Check appropriate Section(s) below and furnish your Medicare Identification Number here 82760 B):

☐ 1 ☐ 2 ☐ 3 ☑ 4 ☐ 5 ☐ 6 ☐ 8 ☐ 9 ☐ 10 ☐ 13

☐ Voluntary Deactivation of Billing Number—Effective Date (MM/DD/YYYY): _____

2. Social Security Number: 121-52-4904

3. Are you currently enrolled in the Medicare program? ☑ YES ☐ NO
IF YES, furnish the following information about your current carrier:

Current Carrier Name: ALLERGY, DERMATOLOGY, SKIN CANCER CENTER Current Medicare Identification Number: 82760 B

USFCS-011040

4. Current Practice Location(s)

This section is to be completed with information about where you currently render medical services to Medicare patients. You must complete this entire section beginning with Section 4A1 and carefully follow all instructions in each part. If you need additional space to report additional groups/organizations or if you have more than one private practice location, copy and complete this section as needed for each.

A. Group Practice Information

Beginning with Section 4A1, answer "**Yes**" or "**No**" to each question. When applicable, furnish the group/organization name and Medicare number for each group/organization to which you will reassign your benefits. In addition to identifying the group/organization to which you will reassign your benefits in this section, either you or each group/organization reported in this section must also complete and submit a CMS 855R (Individual Reassignment of Benefits) with this application. Reassigning benefits means that you are authorizing the group/organization to bill Medicare for the services you have rendered in the group/organization practice location.

1. Will **all** of your services be rendered as part of a group(s) or organization(s) to which you will reassign your benefits? ☐ YES ☐ NO
   IF YES, furnish the name and Medicare identification number of each group or organization below and skip to Section 14 (Penalties for Falsifying Information on this Enrollment Application).
   IF NO, proceed to Question 2 below.

a) Name of Group/Organization	Group/Organization Medicare Number
b) Name of Group/Organization	Group/Organization Medicare Number
c) Name of Group/Organization	Group/Organization Medicare Number

2. Will **any** of your services be rendered as part of a group(s) or organization(s) to which you will reassign your benefits? ☐ YES ☐ NO
   IF YES, furnish the name and Medicare identification number of each group or organization below and continue completing the rest of this application at Section 4B.
   IF NO, continue with Section 4B below with information about your private practice.

a) Name of Group/Organization	Group/Organization Medicare Number
b) Name of Group/Organization	Group/Organization Medicare Number
c) Name of Group/Organization	Group/Organization Medicare Number

B. Practice Location Information ☑ Add ☐ Delete ☐ Change Effective Date: _____

1. Practice Location Name ALLERGY. DERMATOLOGY, SKIN CANCER CENTER — Date you started practicing at this location (MM/YYYY)
2. Practice Location Street Address Line 1: 1105 N. PARROT AVENUE
   Practice Location Street Address Line 2:

City	County/Parish	State	ZIP Code + 4
OKEECHOBEE	OKEECHOBEE	FLORIDA	34972

Telephone Number	(Ext.)	Fax Number (if applicable)	E-mail Address (if applicable)
(863) 763-9484	( )	(772) 335-1116	allerdermcenter@bellsouth.net

3. Do you own/lease this practice location? ☑ YES ☐ NO
4. Is this practice location a:
   - private practice office setting? ☑ YES ☐ NO
   - hospital? ☐ YES ☑ NO
   - retirement/assisted living community? ☐ YES ☑ NO
   - other health care facility? (Specify): Radiation Oncology ☑ YES ☐ NO
5. CLIA Number for this location (if applicable): 10D0988621 — FDA/Radiology (Mammography) Certification Number for this location (if applicable)

USFCS-011041

920609684711 8-0685

4. Current Practice Location (Continued)

C. Medicare Payment "Pay To" Address Information ☐ **Change** **Effective Date:**_____

Furnish the address where payments should be sent for services rendered at the practice location in Section 4B.

"Pay To" Address Line 1: 9580 SOUTH FEDERAL HWY (U.S.1)

"Pay To" Address Line 2:

City	State	ZIP Code + 4
PORT ST. LUCIE	FLORIDA	34952

Check here ☐ **and submit a completed Form HCFA-588 with this application if you would like to have your payments electronically transferred to your bank account.**

D. Location of Patients' Medical Records ☐ **Add** ☐ **Delete** ☐ **Change** **Effective Date:**_____

1. Check here ☑ if **all** of your patients' medical records are stored in the practice location(s) shown in Section 4B, and skip this section.
2. If **any** of your patients' medical records are stored in a location other than the practice location(s) shown in Section 4B, complete this section for each additional storage location.

Name of Storage Facility/Location

Street Address Line 1

Street Address Line 2

City	State	ZIP Code + 4

E. Comments

Explain any unique or unusual circumstances concerning your practice location(s) or the method by which you render health care services (e.g., you only render services in patients' homes (house calls only)).

15. Certification Statement

You **MUST** sign and date the certification statement below in order to be enrolled in the Medicare program. In doing so, you are attesting to meeting and maintaining the Medicare requirements stated below.

I, the undersigned, certify to the following:

1.) I have read the contents of this application, and the information contained herein is true, correct, and complete. If I become aware that any information in this application is not true, correct, or complete, I agree to notify the Medicare program contractor of this fact immediately.

2.) I authorize the Medicare contractor to verify the information contained herein. I agree to notify the Medicare contractor of any future changes to the information contained in this form within 90 days of the effective date of the change. I understand that any change in my status as an individual practitioner may require the submission of a new application.

3.) I have read and understand the Penalties for Falsifying Information, as printed in this application. I understand that any deliberate omission, misrepresentation, or falsification of any information contained in this application or contained in any communication supplying information to Medicare, or any deliberate alteration of any text on this application form, may be punished by criminal, civil, or administrative penalties including, but not limited to, the revocation of Medicare billing privileges, and/or the imposition of fines, civil damages, and/or imprisonment.

4.) I agree to abide by the Medicare laws, regulations and program instructions that apply to me. The Medicare laws, regulations, and program instructions are available through the Medicare contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited to, the Federal anti-kickback statute and the Stark law), and on my compliance with any applicable conditions of participation in Medicare.

5.) Neither I, nor any W-2 managing employee, is currently sanctioned, suspended, debarred, or excluded by the Medicare or Medicaid program, or any other Federal program, or is otherwise prohibited from providing services to Medicare or other Federal program beneficiaries.

6.) I agree that any existing or future overpayment made to me by the Medicare program may be recouped by Medicare through the withholding of future payments.

7.) I understand that the Medicare billing number issued to me can only be used by me or by a provider or supplier to whom I have reassigned my benefits under current Medicare regulations, when billing for services rendered by me.

8.) I will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity.

9.) I further certify that I am the individual practitioner who is applying for Medicare billing privileges.

Practitioner Name **Print** First	Middle	Last	Jr., Sr., etc.	M.D. (D.O.) etc.
GARY	LEE	MARDER		

Practitioner **Signature** (First, Middle, Last, Jr., Sr., M.D., D.O., etc.) — Date (MM/DD/YYYY) Signed 3/1/06

SECTION 3: FINAL ADVERSE LEGAL ACTIONS/CONVICTIONS *(Continued)*

FINAL ADVERSE LEGAL ACTION HISTORY

1. Have you, under any current or former name or business identity, ever had a final adverse legal action listed on page 12 of this application imposed against you?

☐ YES–Continue Below ☒ NO–Skip to Section 4

2. If yes, report each final adverse legal action, when it occurred, the Federal or State agency or the court/administrative body that imposed the action, and the resolution, if any.

   Attach a copy of the final adverse legal action documentation and resolution.

FINAL ADVERSE LEGAL ACTION	DATE	TAKEN BY	RESOLUTION

USFCS-010895

SECTION 4: PRACTICE LOCATION INFORMATION

A. Establishing a Professional Corporation, Professional Association, Limited Liability Company, etc. If you are the sole owner of a professional corporation, a professional association, or a limited liability company, and will bill Medicare through this business entity, complete this section 4A, skip to Section 4C, and complete the remainder of the application with information about your business entity.

Legal Business Name as Reported to the Internal Revenue Service	Tax Identification Number
ALLERGY DERMATOLOGYAND SKIN CANCER CENTER	65-0869777
Medicare Identification Number *(if issued)*	**NPI**
82760B	1730117003
Incorporation Date *(mm/dd/yyyy) (if applicable)*	**State Where Incorporated** *(if applicable)*

Is this supplier an Indian Health Facility enrolling with the designated Indian Health Services (IHS) Medicare Administrative Contractor (MAC)?

☐ Yes ☒ No

Identify the type of organizational structure of this provider/supplier *(Check one)*

☒ Corporation ☐ Limited Liability Company ☐ Partnership ☐ Sole Proprietor ☐ Other *(Specify)*: _____

Identify how your business is registered with the IRS. **(NOTE:** If your business is a Federal and/or State government provider or supplier, indicate "Non-Profit" below.)

☒ Proprietary ☐ Non-Profit

NOTE: If a checkbox indicating Proprietaryship or non-profit status is not completed, the provider/supplier will be defaulted to "Proprietary."

FINAL ADVERSE LEGAL ACTION HISTORY

1. Has your organization, under any current or former name or business identity, ever had any of the final adverse legal actions listed on page 12 of this application imposed against it?

   ☐ YES–Continue Below ☒ NO–Skip to Section 4B

2. If yes, report each final adverse legal action, when it occurred, the Federal or State agency or the court/ administrative body that imposed the action, and the resolution, if any.

   Attach a copy of the final adverse legal action documentation and resolution.

FINAL ADVERSE LEGAL ACTION	DATE	TAKEN BY	RESOLUTION

If you are the sole owner of a professional corporation, a professional association, or a limited liability company, and will bill Medicare through this business entity, you do not need to complete a CMS-855R that reassigns your benefits to the business entity.

B. Individual Affiliations

Complete this section with information about your private practice and group affiliations.

Furnish the requested information about each group/organization to which you will reassign your benefits. In addition, either you or each group/organization reported in this section must complete and submit a CMS 855R(s) (Individual Reassignment of Benefits) with this application. Reassigning benefits means that you are authorizing the group/organization to bill and receive payment from Medicare for the services you have rendered at the group/organization's practice location.

If you are an individual who is reassigning all of your benefits to a group, neither you nor the group needs to submit a CMS-588 (Electronic Funds Transfer Authorization Agreement) to facilitate that reassignment.

SECTION 15: CERTIFICATION STATEMENT *(Continued)*

As an individual practitioner, you are the only person who can sign this application. The authority to sign the application on your behalf may not be delegated to any other person.

The Certification Statement contains certain standards that must be met for initial and continuous enrollment in the Medicare program. Review these requirements carefully.

By signing the Certification Statement, you agree to adhere to all of the requirements listed therein and acknowledge that you may be denied entry to or revoked from the Medicare program if any requirements are not met.

Certification Statement

You MUST sign and date the certification statement below in order to be enrolled in the Medicare program. In doing so, you are attesting to meeting and maintaining the Medicare requirements stated below.

I, the undersigned, certify to the following:

1. I have read the contents of this application, and the information contained herein is true, correct, and complete. If I become aware that any information in this application is not true, correct, or complete, I agree to notify the Medicare fee-for-service contractor of this fact in accordance with the time frames established in 42 CFR § 424.516.
2. I authorize the Medicare contractor to verify the information contained herein. I agree to notify the Medicare contractor of a change in ownership, practice location and/or Final Adverse Action within 30 days of the reportable event. In addition, I agree to notify the Medicare contractor of any other changes to the information to this form within 90 days of the effective date of change. I understand that any change to my status as an individual practitioner may require the submission of a new application. I understand that any change in business structure of this supplier may require the submission of a new application.
3. I have read and understand the Penalties for Falsifying Information, as printed in this application. I understand that any deliberate omission, misrepresentation, or falsification of any information contained in this application or contained in any communication supplying information to Medicare, or any deliberate alteration of any text on this application form, may be punished by criminal, civil, or administrative penalties including, but not limited to, the denial or revocation of Medicare billing privileges, and/or the imposition of fines, civil damages, and/or imprisonment.
4. I agree to abide by the Medicare laws, regulations and program instructions that apply to me or to the organization listed in Section 4A of this application. The Medicare laws, regulations, and program instructions are available through the fee-for-service contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited to, the Federal anti-kickback statute and the Stark law), and on the supplier's compliance with all applicable conditions of participation in Medicare.
5. Neither I, nor any managing employee listed on this application, is currently sanctioned, suspended, debarred, or excluded by the Medicare or State Health Care Program, e.g., Medicaid program, or any other Federal program, or is otherwise prohibited from providing services to Medicare or other Federal program beneficiaries.
6. I agree that any existing or future overpayment made to me (or to the organization listed in Section 4A of this application) by the Medicare program may be recouped by Medicare through the withholding of future payments.
7. I understand that the Medicare identification number issued to me can only be used by me or by a provider or supplier to whom I have reassigned my benefits under current Medicare regulations, when billing for services rendered by me.
8. I will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity.
9. I further certify that I am the individual practitioner who is applying for Medicare billing privileges.

SECTION 15: CERTIFICATION STATEMENT *(Continued)*

First Name	Middle Initial	Last Name	M.D., D.O., etc.
GARY	L	MARDER	D.O

Practitioner Signature *(First, Middle, Last Name, Jr., Sr., M.D., D.O., etc.)*

Date Signed *(mm/dd/yyyy)*: 02/11/2013

All signatures must be original and signed in ink (blue ink preferred). Applications with signatures deemed not original will not be processed. Stamped, faxed or copied signatures will not be accepted.

SECTION 16: FOR FUTURE USE (THIS SECTION NOT APPLICABLE)

SECTION 17: SUPPORTING DOCUMENTS

This section lists the documents that, if applicable, must be submitted with this enrollment application. For changes, only submit documents that are applicable to the change requested. The fee-for-service contractor may request, at any time during the enrollment process, documentation to support or validate information reported on the application. In addition, the Medicare fee-for-service contractor may also request documents from you, other than those identified in this section 17, as are necessary to bill Medicare.

MANDATORY FOR ALL PROVIDER/SUPPLIER TYPES

☒ Completed Form CMS-588, for Electronic Funds Transfer Authorization Agreement.
NOTE: If a supplier already receives payments electronically and is not making a change to his/her banking information, the CMS-588 is not required. (Moreover, physicians and non-physician practitioners who are reassigning all of their payments to another entity are not required to submit the CMS-588.)

☒ Written confirmation from the IRS confirming your Tax Identification Number with the Legal Business Name (e.g., IRS form CP 575) provided in Section 2. (**NOTE:** This information is needed if the applicant is enrolling their professional corporation, professional association, or limited liability corporation with this application or enrolling as a sole proprietor using an Employer Identification Number.)

MANDATORY, IF APPLICABLE

☐ Copy of IRS Determination Letter, if provider is registered with the IRS as non-profit.

☐ Copy(s) of all final adverse action documentation (e.g., notifications, resolutions, and reinstatement letters).

☐ Completed Form CMS-460, Medicare Participating Physician or Supplier Agreement.

☐ Completed Form CMS-855R, Individual Reassignment of Medicare Benefits.

☐ Statement in writing from the bank. If Medicare payment due a supplier of services is being sent to a bank (or similar financial institution) where the supplier has a lending relationship (that is, any type of loan), then the supplier must provide a statement in writing from the bank (which must be in the loan agreement) that the bank has agreed to waive its right of offset for Medicare receivables.

☐ Written confirmation from the IRS confirming your Limited Liability Company (LLC) is automatically classified as a Disregarded Entity (e.g., Form 8832). (**NOTE:** A disregarded entity is an eligible entity that is treated as an entity not separate from its single owner for income tax purposes.)

☐ Copy of current CLIA and FDA certification for each practice location reported.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0685. The time required to complete this information collection is estimated to 4 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Baltimore, Maryland 21244-1850.

DO NOT MAIL APPLICATIONS TO THIS ADDRESS. Mailing your application to this address will significantly delay application processing.

PART V: AUTHORIZATION

I hereby authorize the Centers for Medicare & Medicaid Services (CMS) to initiate credit entries, and in accordance with 31 CFR part 210.6(f) initiate adjustments for any duplicate or erroneous entries made in error to the account indicated above. I hereby authorize the financial institution/bank named above to credit and/or debit the same to such account. CMS may assign its rights and obligations under this agreement to CMS' designated fee-for-service contractor. CMS may change its designated contractor at CMS' discretion.

If payment is being made to an account controlled by a Chain Home Office, the Provider of Services hereby acknowledges that payment to the Chain Office under these circumstances is still considered payment to the Provider, and the Provider authorizes the forwarding of Medicare payments to the Chain Home Office.

If the account is drawn in the Physician's or Individual Practitioner's Name, or the Legal Business Name of the Provider/ Supplier, the said Provider or Supplier certifies that he/she has sole control of the account referenced above, and certifies that all arrangements between the Financial Institution and the said Provider or Supplier are in accordance with all applicable Medicare regulations and instructions.

This authorization agreement is effective as of the signature date below and is to remain in full force and effect until CMS has received written notification from me of its termination in such time and such manner as to afford CMS and the Financial Institution a reasonable opportunity to act on it. CMS will continue to send the direct deposit to the Financial Institution indicated above until notified by me that I wish to change the Financial Institution receiving the direct deposit. If my Financial Institution information changes, I agree to submit to CMS an updated EFT Authorization Agreement.

PRIVACY ACT ADVISORY STATEMENT

Sections 1842, 1862(b) and 1874 of title XVIII of the Social Security Act authorize the collection of this information. The purpose of collecting this information is to authorize electronic funds transfers.

Per 42 CFR 424.510(e)(1), providers and suppliers are required to receive electronic funds transfer (EFT) at the time of enrollment, revalidation, change of Medicare contractors or submission of an enrollment change request; and (2) submit the CMS-588 form to receive Medicare payment via electronic funds transfer.

The information collected will be entered into system No. 09-70-0501, titled "Carrier Medicare Claims Records," and No. 09-70-0503, titled "Intermediary Medicare Claims Records" published in the Federal Register Privacy Act Issuances, 1991 Comp. Vol. 1, pages 419 and 424, or as updated and republished. Disclosures of information from this system can be found in this notice.

You should be aware that P.L. 100-503, the Computer Matching and Privacy Protection Act of 1988, permits the government, under certain circumstances, to verify the information you provide by way of computer matches.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0626. The time required to complete this information collection is estimated to average 60 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, Attn: PRA Reports Clearance Officer, 7500 Security Boulevard, Baltimore, Maryland 21244-1850.

DO NOT MAIL THIS FORM TO THIS ADDRESS.
MAILING YOUR APPLICATION TO THIS ADDRESS WILL SIGNIFICANTLY DELAY PROCESSING.

Dear Gary Marder, MD:

TERMINATION OF PAYMENTS NOTICE

IN ORDER TO RESUME PAYMENTS, **IMMEDIATELY** SUBMIT AN UPDATED

PROVIDER ENROLLMENT PAPER APPLICATION 855 FORM OR

REVIEW, UPDATE AND CERTIFY YOUR INFORMATION

VIA THE INTERNET-BASED PECOS SYSTEM

This letter is to inform you that all claims associated with your Medicare Provider Transaction Access Number (PTAN) 82760B have been placed in a Do Not Forward (DNF) status effective 1/11/2013 due to the failure to respond to a revalidation request mailed on 7/9/2012. As a result you will not receive any paper checks, Standard Remittance Advices (SPRs), or Electronic Funds Transfers (EFT). The Centers for Medicare & Medicaid Services (CMS) has the authority to perform off-cycle revalidations consistent with Medicare regulations found at 42 CFR §424.515.

To resolve this issue and to continue to bill the Medicare program for services furnished to Medicare beneficiaries you must complete and submit a Medicare enrollment application. Failure to submit this information could result in the deactivation of your Medicare billing privileges.

Providers and suppliers can revalidate their provider enrollment in the Medicare program using either the:

EDI Enrollment Form

The provider agrees to the following provisions for submitting Medicare claims electronically to HCFA or to HCFA's contractors.

A. The Provider Agrees:

1. That it will be responsible for all Medicare claims submitted to HCFA by itself, its employees, or its agents.

2. That it will not disclose any information concerning a Medicare beneficiary to any other person or organization, except HCFA and/or its contractors, without the express written permission of the Medicare beneficiary or his/her parent or legal guardian, or where required for the care and treatment of a beneficiary who is unable to provide written consent, or to bill insurance primary or supplementary to Medicare, or as required by State or Federal law.

3. That it will submit claims only on behalf of those Medicare beneficiaries who have given their written authorization to do so, and to certify that required beneficiary signatures, or legally authorized signatures on behalf of beneficiaries, are on file.

4. That it will ensure that every electronic entry can be readily associated and identified with an original source document. Each source document must reflect the following information.

- Beneficiary's name,
- Beneficiary's health insurance claim number,
- Date (s) of service,
- Diagnosis/nature of illness, and
- Procedure/service performed.

5. That the Secretary of Health and Human Services or his/her designee and/or the contractor has the right to audit and confirm information submitted by the provider and shall have access to all original source documents and medical records related to the provider's submissions, including the beneficiary's authorization and signature. All incorrect payments that are discovered as a result of such an audit shall be adjusted according to the applicable provisions of the Social Security Act, Federal Regulations, and HCFA guidelines.

6. That it will ensure that all claims for Medicare primary payment have been developed for other insurance involvement and that Medicare is the primary payer.

7. That it will submit claims that are accurate, complete, and truthful.

8. That it will retain all original source documentation and medical records pertaining to any such particular Medicare claim for a period of at least 6 years, 3 months after the bill is paid.

9. That it will affix the HCFA-assigned unique identifier number of the provider on each claim electronically transmitted to the contractor.

10. That the HCFA-assigned unique identifier number constitutes the provider's legal electronic signature and constitutes an assurance by the provider that services were performed as billed.

11. That it will use sufficient security procedures to ensure that all transmissions of documents are authorized and protect all beneficiary-specific data from improper access.

12. That it will acknowledge that all claims will be paid from Federal funds, that the submission of such claims is a claim for payment under the Medicare program, and that anyone who misrepresents or falsifies or causes to be misrepresented or falsified any record or other information relating to that claim that is required pursuant to this Agreement may, upon conviction, be subject to a fine and/or imprisonment under applicable Federal law.

13. That it will establish and maintain procedures and controls so that information concerning Medicare beneficiaries, or any information obtained from HCFA or its contractor, shall not be used by agents, officers, or employees of the billing service except as provided by the contractor (in accordance with §1106(a) of the Act).

14. That it will research and correct claim discrepancies.

15. That it will notify the contractor or the HCFA within 2 business days if any transmitted data are received in an unintelligible or garbled form.

B. The Health Care Financing Administration will:

1. Transmit to the provider an acknowledgment of claim receipt.

2. Affix the intermediary/carrier number, as its electronic signature, on each remittance advice sent to the provider.

3. Ensure that payments to providers are timely in accordance with HCFA's policies.

4. Ensure that no contractor may require the provider to purchase any or all electronic services from the contractor or from any subsidiary of the contractor or from any company for which the contractor has an interest. The contractor will make alternative means available to any electronic biller to obtain such services.

5. Ensure that all Medicare electronic billers have equal access to any services that HCFA requires Medicare contractors to make available to providers or their billing services regardless of the electronic billing technique or service they choose. Equal access will be granted to any services the contractor sells directly, indirectly, or by arrangement.

6. Notify the provider within 2 business days if any transmitted data are received in an unintelligible or garbled form.

NOTICE:

Federal law shall govern both the interpretation of this document and the appropriate jurisdiction and venue for appealing any final decision made by HCFA under this document.

This document shall become effective when signed by the provider. The responsibilities and obligations contained in this document will remain in effect as long as Medicare claims are submitted to HCFA or the contractor. Either party may terminate this arrangement by giving the other party (30) days written notice of its intent to terminate. In the event that the notice is mailed, the written notice of termination shall be deemed to have been given upon the date of mailing, as established by the postmark or other appropriate evidence of transmittal.

CMS
CENTERS for MEDICARE & MEDICAID SERVICES

ML-09051

DEPARTMENT OF HEALTH AND HUMAN SERVICES
CENTERS FOR MEDICARE & MEDICAID SERVICES

Form Approved
OMB NO. 0938-0685

WHO SHOULD SUBMIT THIS APPLICATION

The following suppliers must complete this application to initiate the enrollment process:

Ambulance Service Supplier
Ambulatory Surgical Center
Clinic/Group Practice
Competitive Acquisition Program (CAP)
Part B Drug Vendor
Independent Clinical Laboratory
Independent Diagnostic Testing Facility (IDTF)
Mammography Center
Mass Immunization (Roster Biller Only)
Portable X-ray Supplier
Radiation Therapy Center

If your supplier type is not listed above, contact your designated fee-for-service contractor before you submit this application.

Complete and submit this application if you are an organization/group that plans to bill Medicare and you are:

- A **medical practice or clinic that will bill for Medicare Part B services** (e.g., group practices, clinics, independent laboratories, portable x-ray suppliers).
- A **hospital or other medical practice or clinic** that may bill for Medicare Part A services but will also bill for Medicare Part B practitioner services or provide purchased laboratory tests to other entities that bill Medicare Part B.
- **Currently enrolled with a Medicare fee-for-service contractor but need to enroll in another fee-for-service contractor's jurisdiction** (e.g., you have opened a practice location in a geographic territory serviced by another Medicare fee-for-service contractor).
- **Currently enrolled in Medicare and need to make changes to your enrollment data** (e.g., you have added or changed a practice location). Changes must be reported in accordance with the timeframes established in 42 C.F.R. § 424.520(b). (IDTF changes of information must be reported in accordance with 42 C.F.R. § 410.33.)

BILLING NUMBER INFORMATION

The NPI is the standard unique health identifier for health care providers and is assigned by the National Plan and Provider Enumeration System (NPPES). **As a Medicare health supplier, you must obtain an NPI prior to enrolling in Medicare or before submitting a change for your existing Medicare enrollment information.** Applying for an NPI is a process separate from Medicare enrollment. As a supplier, it is your responsibility to determine if you have "subparts." A subpart is a component of an organization (supplier) that furnishes healthcare and is not itself a legal entity. If you do have subparts, you must determine if they should obtain their own unique NPIs. Before you complete this enrollment application, you need to make those determinations and obtain NPI(s) accordingly.

IMPORTANT: For NPI purposes, sole proprietors and sole proprietorships are considered to be "Type 1" providers. Organizations (e.g., corporations, partnerships) are treated as "Type 2" entities. When reporting the NPI of a sole proprietor on this application, therefore, the individual's Type 1 NPI should be reported; for organizations, the Type 2 NPI should be furnished.

To obtain an NPI, you may apply online at *https://NPPES.cms.hhs.gov*. For more information about subparts, visit *www.cms.hhs.gov/NationalProvIdentStand* to view the "Medicare Expectations Subparts Paper."

The Medicare Identification Number, often referred to as a Provider Transaction Access Number (PTAN) or Medicare "legacy" number, is a generic term for any number other than the NPI that is used to identify a Medicare supplier.

ML-09052

INSTRUCTIONS FOR COMPLETING AND SUBMITTING THIS APPLICATION

- Type or print all information so that it is legible. Do not use pencil.
- Report additional information within a section by copying and completing that section for each additional entry.
- Attach all required supporting documentation.
- Keep a copy of your completed Medicare enrollment package for your records.
- Send the completed application with original signatures and all required documentation to your designated Medicare fee-for-service contractor.

AVOID DELAYS IN YOUR ENROLLMENT

To avoid delays in the enrollment process, you should:

- Complete all required sections.
- Ensure that the legal business name shown in Section 2 matches the name on the tax documents.
- Ensure that the correspondence address shown in Section 2 is the supplier's address.
- Enter your NPI in the applicable sections.
- Enter all applicable dates.
- Ensure that the correct person signs the application.
- Send your application and all supporting documentation to the designated fee-for-service contractor.

ADDITIONAL INFORMATION

For additional information regarding the Medicare enrollment process, visit *www.cms.hhs.gov/MedicareProviderSupEnroll.*

The fee-for-service contractor may request, at any time during the enrollment process, documentation to support and validate information reported on the application. You are responsible for providing this documentation in a timely manner.

The information you provide on this application will not be shared. It is considered to be protected under 5 U.S.C. Section 552(b)(4) and/or (b)(6), respectively. For more information, see the last page of this application for the Privacy Act Statement.

MAIL YOUR APPLICATION

The Medicare fee-for-service contractor (also referred to as a carrier or a Medicare administrative contractor) that services your State is responsible for processing your enrollment application. To locate the mailing address for your fee-for-service contractor, go to *www.cms.hhs.gov/MedicareProviderSupEnroll.*

ML-09053

SECTION 1: BASIC INFORMATION

NEW ENROLLEES AND THOSE WITH A NEW TAX ID NUMBER

If you are:

- Enrolling in the Medicare program for the first time with this Medicare fee-for-service contractor under this tax identification number.
- Already enrolled with a Medicare fee-for-service contractor but are establishing a practice location in another fee-for-service contractor's jurisdiction.
- Enrolled with a Medicare fee-for-service contractor but have a new tax identification number. If you are reporting a change to your tax identification number, you must complete a new application.
- A hospital or an individual hospital department that is enrolling with a fee-for-service contractor to bill for Part B services.

ENROLLED MEDICARE SUPPLIERS

The following actions apply to Medicare suppliers already enrolled in the program:

Reactivation

To reactivate your Medicare billing privileges, submit this enrollment application. In addition, prior to being reactivated, you must be able to submit a valid claim and meet all current requirements for your supplier type before reactivation may occur.

Voluntary Termination

A supplier should voluntarily terminate its Medicare enrollment when it:

- Will no longer be rendering services to Medicare patients, or
- Is planning to cease (or has ceased) operations.

Change of Ownership

If a hospital, ambulatory surgical center, or portable X-ray supplier is undergoing a change of ownership (CHOW) in accordance with the principles outlined in 42 C.F.R. 489.18, the entity must submit a new application for the new ownership.

Change of Information

A change of information should be submitted if you are changing, adding or deleting information under your current tax identification number.

Changes in your existing enrollment data must be reported to the fee-for-service contractor in accordance with 42 C.F.R. § 424.516 (Physician and Non Physician Practitioner Organizations). (IDTF changes of information must comply with the provisions found at 42 C.F.R. § 410.33.)

If you are already enrolled in Medicare and are not receiving Medicare payments via EFT, any change to your enrollment information will require you to submit a CMS-588 form. All future payments will then be made via EFT.

Revalidation

CMS may require you to submit or update your enrollment information. The fee-for-service contractor will notify you when it is time for you to revalidate your enrollment information. Do not submit a revalidation application until you have been contacted by the fee-for-service contractor.

SECTION 1: BASIC INFORMATION

ALL APPLICANTS MUST COMPLETE THIS SECTION (See instructions for details.)

A. Check one box and complete the required sections.

REASON FOR APPLICATION	BILLING NUMBER INFORMATION	REQUIRED SECTIONS
☐ You are a **new enrollee** in Medicare	Enter your Medicare Identification Number *(if issued)* and the NPI you would like to link to this number in Section 4.	**Complete all sections** **Ambulance suppliers** must complete **Attachment 1** **IDTF suppliers** must complete **Attachment 2**
☐ You are **enrolling in another fee-for-service contractor's jurisdiction**	Enter your Medicare Identification Number *(if issued)* and the NPI you would like to link to this number in Section 4.	**Complete all sections** **Ambulance suppliers** must complete **Attachment 1** **IDTF suppliers** must complete **Attachment 2**
☐ You are **reactivating** your Medicare enrollment	Enter your Medicare Identification Number *(if issued)* and the NPI you would like to link to this number in Section 4.	**Complete all sections** **Ambulance suppliers** must complete **Attachment 1** **IDTF suppliers** must complete **Attachment 2**
☐ You are **voluntarily terminating** your Medicare enrollment. SECTION 2: IDENTIFYING INFORMATION

A. TYPE OF SUPPLIER

Check the appropriate box to identify the type of supplier you are enrolling as with Medicare. If you are more than one type of supplier, submit a separate application for each type. If you change the type of service that you provide (i.e., become a different supplier type), submit a new application.

Your organization must meet all Federal and State requirements for the type of supplier checked below.

TYPE OF SUPPLIER: (check one only)

- ☐ Ambulance Service Supplier
- ☐ Ambulatory Surgical Center
- Clinic/Group Practice
  - ☐ Single Specialty Clinic _____ *Provide Specialty*
  - ☐ Multi-Specialty Clinic
  - ☐ Hospital Department(s)
  - ☐ Physical/Occupational Therapy Group in Private Practice
- ☐ Competitive Acquisition Program (CAP) Part B Drug Vendor
- ☒ Independent Clinical Laboratory
- ☐ Independent Diagnostic Testing Facility
- ☐ Mammography Center
- ☐ Mass Immunization (Roster Biller Only)
- ☐ Pharmacy
- ☐ Portable X-ray Supplier
- ☐ Radiation Therapy Center
- ☐ Other (Specify):_____

B. SUPPLIER IDENTIFICATION INFORMATION

1. BUSINESS INFORMATION

Legal Business Name (not the "Doing Business As" name) as reported to the Internal Revenue Service

Kendall Medical Laboratory, Inc.

Tax Identification Number

65 0037287

Other Name	Type of Other Name
N/A	☐ Former Legal Business Name ☐ Doing Business As Name ☐ Other (Specify): _____

Identify the type of organizational structure of this provider *(Check one)*

☒ Corporation ☐ Limited Liability Company ☐ Partnership ☐ Sole Proprietor ☐ Other (Specify):_____

Incorporation Date *(mm/dd/yyyy) (if applicable)*	State Where Incorporated *(if applicable)*
March 2, 1988	Florida

ML-09058

SECTION 2: IDENTIFYING INFORMATION (Continued)

2. STATE LICENSE INFORMATION/CERTIFICATION INFORMATION

Provide the following information if the supplier has a State license/certification to operate as the supplier type for which you are enrolling.

State License Information

☐ License Not Applicable

License Number	State Where Issued
80000 1636	Florida
Effective Date *(mm/dd/yyyy)*	**Expiration/Renewal Date** *(mm/dd/yyyy)*
10/11/2008	10/10/2010

Certification Information

☐ Certification Not Applicable

Certification Number	State Where Issued
CLIA 10D0645355	Florida
Effective Date *(mm/dd/yyyy)*	**Expiration/Renewal Date** *(mm/dd/yyyy)*
03/28/2009	03/27/2011

3. CORRESPONDENCE ADDRESS

Provide contact information for the entity or person listed in Question 1 of this section. Once enrolled, the information provided below will be used by the fee-for-service contractor if it needs to contact you directly. This address cannot be a billing agency's address.

Mailing Address Line 1 *(Street Name and Number)*
2500 Douglas Rd Ste A

Mailing Address Line 2 *(Suite, Room, etc.)*

City/Town	State	ZIP Code + 4
Coral Gables	FL	33134-6109

Telephone Number	Fax Number *(if applicable)*	E-mail Address *(if applicable)*
305-442-0800	305-442-0812	rikendall@hotmail.com

C. HOSPITALS ONLY

This section should only be completed by hospitals that are currently enrolled or enrolling with a fee-for-service contractor (the Part A Medicare contractor), and will be billing a fee-for-service contractor for Medicare Part B services, as follows:

- Hospitals that need departmental billing numbers to bill for Part B practitioner services.
- Hospitals requiring a Part B billing number to provide pathology services.
- Hospitals requiring a Medicare Part B billing number to provide purchased tests to other Medicare Part B billers.
- If the hospital requires more than one departmental Part B billing number, list each department needing a number.

N/A

If your organization is not a hospital, and believes it will need a Part B billing number, contact the local fee-for-service contractor to determine if this form should be submitted.

ML-09059

SECTION 2: IDENTIFYING INFORMATION (Continued)

C. HOSPITALS ONLY (Continued)

NOTE: If your hospital is enrolling a clinic that is not provider-based, do not complete this section. Check ☐ "Clinic/Group Practice" in Section 2A and complete this entire application for the clinic.

1. Are you going to:
   ☐ bill for the entire hospital with one billing number? (If yes, continue to Section 2D.)
   ☐ separately bill for each hospital department? (If yes, answer Question 2.)

2. List the hospital departments for which you plan to bill separately:

Department	Medicare Identification Number	NPI

D. COMMENTS/SPECIAL CIRCUMSTANCES

Explain any unique circumstances concerning your practice location, the method by which you render health care services, etc.

N/A

E. PHYSICAL THERAPY (PT) AND OCCUPATIONAL THERAPY (OT) GROUPS ONLY

1) Are all of the group's PT/OT services rendered in patients' homes or in the group's private office space? ☐ YES ☐ NO

2) Does this group maintain private office space? ☐ YES ☐ NO

3) Does this group own, lease, or rent its private office space? ☐ YES ☐ NO

4) Is this private office space used exclusively for the group's private practice? ☐ YES ☐ NO

5) Does this group provide PT/OT services outside of its office and/or patients' homes? ☐ YES ☐ NO

If you responded YES to any of the questions 2–5 above, submit a copy of the lease agreement that gives the group exclusive use of the facilities for PT/OT services.

F. ACCREDITATION FOR AMBULATORY SURGICAL CENTERS (ASCs) ONLY

Is this ASC accredited? ☐ YES ☐ NO

If YES, complete the following:

Date of Accreditation (mm/dd/yyyy) _____

Name of Accrediting Body _____

SECTION 2: IDENTIFYING INFORMATION (Continued)

G. TERMINATION OF PHYSICIAN ASSISTANTS (ONLY)

Complete this section to delete employed physician assistants from your group or clinic.

Effective Date of Departure	Physician Assistant's Name	Physician Assistant's Medicare Identification Number	Physician Assistant's NPI
		N/A	

ML-09061

SECTION 3: FINAL ADVERSE ACTIONS/CONVICTIONS

This section captures information on final adverse actions, such as convictions, exclusions, revocations, and suspensions. All applicable final legal actions must be reported, regardless of whether any records were expunged or any appeals are pending.

FINAL ADVERSE ACTIONS THAT MUST BE REPORTED

Convictions

1. The provider, supplier, or any owner of the provider or supplier was, within the last 10 years preceding enrollment or revalidation of enrollment, convicted of a Federal or State felony offense that CMS has determined to be detrimental to the best interests of the program and its beneficiaries. Offenses include:
   Felony crimes against persons and other similar crimes for which the individual was convicted, including guilty pleas and adjudicated pre-trial diversions; financial crimes, such as extortion, embezzlement, income tax evasion, insurance fraud and other similar crimes for which the individual was convicted, including guilty pleas and adjudicated pre-trial diversions; any felony that placed the Medicare program or its beneficiaries at immediate risk (such as a malpractice suit that results in a conviction of criminal neglect or misconduct); and any felonies that would result in a mandatory exclusion under Section 1128(a) of the Act.
2. Any misdemeanor conviction, under Federal or State law, related to: (a) the delivery of an item or service under Medicare or a State health care program, or (b) the abuse or neglect of a patient in connection with the delivery of a health care item or service.
3. Any misdemeanor conviction, under Federal or State law, related to theft, fraud, embezzlement, breach of fiduciary duty, or other financial misconduct in connection with the delivery of a health care item or service.
4. Any felony or misdemeanor conviction, under Federal or State law, relating to the interference with or obstruction of any investigation into any criminal offense described in 42 C.F.R. Section 1001.101 or 1001.201.
5. Any felony or misdemeanor conviction, under Federal or State law, relating to the unlawful manufacture, distribution, prescription, or dispensing of a controlled substance.

Exclusions, Revocations, or Suspensions

1. Any revocation or suspension of a license to provide health care by any State licensing authority. This includes the surrender of such a license while a formal disciplinary proceeding was pending before a State licensing authority.
2. Any revocation or suspension of accreditation.
3. Any suspension or exclusion from participation in, or any sanction imposed by, a Federal or State health care program, or any debarment from participation in any Federal Executive Branch procurement or non-procurement program.
4. Any current Medicare payment suspension under any Medicare billing number.
5. Any Medicare revocation of any Medicare billing number.

ML-09062
ML-09062

SECTION 3: FINAL ADVERSE ACTIONS/CONVICTIONS (Continued)

FINAL ADVERSE ACTION HISTORY

1. Has your organization, under any current or former name or business identity, ever had a final adverse action listed on page 11 of this application imposed against it?

☐ YES–Continue Below ☒ NO–Skip to Section 4

2. If yes, report each final adverse action, when it occurred, the Federal or State agency or the court/administrative body that imposed the action, and the resolution, if any.

Attach a copy of the final adverse action documentation and resolution.

Final Adverse Action	Date	Taken By	Resolution

ML-09063

SECTION 4: PRACTICE LOCATION INFORMATION

INSTRUCTIONS

This section captures information about the physical location(s) where you currently provide health care services. If you operate a mobile facility or portable unit, provide the address for the "Base of Operations," as well as vehicle information and the geographic area serviced by these facilities or units.

Only report those practice locations within the jurisdiction of the Medicare fee-for-service contractor to which you will submit this application. If you have practice locations in another Medicare fee-for-service contractor's jurisdiction, complete a separate enrollment application (CMS-855B) for those practice locations and submit it to the Medicare fee-for-service contractor that has jurisdiction over those locations.

Provide the specific street address as recorded by the United States Postal Service. Do not provide a P.O. Box. If you provide services in a hospital and/or other health care facility for which you bill Medicare directly for the services rendered at that facility, provide the name and address of the hospital or facility.

MOBILE FACILITY AND/OR PORTABLE UNIT

A "mobile facility" is generally a mobile home, trailer, or other large vehicle that has been converted, equipped, and licensed to render health care services. These vehicles usually travel to local shopping centers or community centers to see and treat patients inside the vehicle.

A "portable unit" is when the supplier transports medical equipment to a fixed location (e.g., physician's office, nursing home) to render services to the patient.

The most common types of mobile facilities/portable units are mobile IDTFs, portable X-ray suppliers, portable mammography, and mobile clinics. Physicians and non-physician practitioners (e.g., nurse practitioners, physician assistants) who perform services at multiple locations (e.g., house calls, assisted living facilities) are not considered to be mobile facilities/portable units.

ML-09064

SECTION 4: PRACTICE LOCATION INFORMATION (Continued)

A. PRACTICE LOCATION INFORMATION

If you see patients **in more than one practice location**, copy and complete Section 4A for each location.

To ensure that CMS establishes the correct association between your Medicare legacy number and your NPI, providers and suppliers must list a Medicare legacy number—NPI combination for each practice location. If you have multiple NPIs associated with both a single legacy number and a single practice location, please list below all NPIs and associated legacy numbers for that practice location.

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

CHECK ONE	Revalidation ? ☒ CHANGE ?	☐ ADD	☐ DELETE
DATE (mm/dd/yyyy)	01/28/2010

SECTION 4: PRACTICE LOCATION INFORMATION (Continued)

B. WHERE DO YOU WANT REMITTANCE NOTICES OR SPECIAL PAYMENTS SENT?

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

CHECK ONE	☒ CHANGE	☐ ADD	☐ DELETE
DATE (mm/dd/yyyy)	10/28/2010		

Medicare will issue payments via electronic funds transfer (EFT). Since payments will be made by EFT, the "Special Payments" address should indicate where all other payment information (e.g., remittance notices, special payments) should be sent.

☒ "Special Payments" address is the same as the practice location (only one address is listed in Section 4A). Skip to Section 4C.

☐ "Special Payments" address is different than that listed in Section 4A, or multiple locations are listed. Provide address below.

"Special Payments" Address Line 1 *(PO Box or Street Name and Number)*

"Special Payments" Address Line 2 *(Suite, Room, etc.)*

City/Town	State	ZIP Code + 4

C. WHERE DO YOU KEEP PATIENTS' MEDICAL RECORDS?

If you store patients' medical records (current and/or former patients) at a location other than the location in Section 4A or 4E, complete this section with the address of the storage location.

Post Office boxes and drop boxes are not acceptable as physical addresses where patients' records are maintained. For IDTFs and mobile facilities/portable units, the patients' medical records must be under the supplier's control. The records must be the supplier's records, not the records of another supplier. If this section is not completed, you are indicating that all records are stored at the practice locations reported in Section 4A or 4E.

ML-09067

SECTION 4: PRACTICE LOCATION INFORMATION (Continued)

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

CHECK ONE	☐ CHANGE	☐ ADD	☐ DELETE

F. VEHICLE INFORMATION

If the mobile health care services are rendered inside a vehicle, such as a mobile home or trailer, furnish the following vehicle information. Do not provide information about vehicles that are used only to transport medical equipment (e.g., when the equipment is transported in a van but is used in a fixed setting, such as a doctor's office) or ambulance vehicles. If more than two vehicles are used, copy and complete this section as needed.

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

CHECK ONE FOR EACH VEHICLE	Type of Vehicle *(van, mobile home, trailer, etc.)*	Vehicle Identification Number
☐ CHANGE ☐ ADD ☐ DELETE		
Effective Date:		
☐ CHANGE ☐ ADD ☐ DELETE		
Effective Date:		

For each vehicle, submit a copy of all health care related permits/licenses/registrations.

ML-09070

SECTION 4: PRACTICE LOCATION INFORMATION (Continued)

G. GEOGRAPHIC LOCATION FOR MOBILE OR PORTABLE SUPPLIERS WHERE THE BASE OF OPERATIONS AND/OR VEHICLE RENDERS SERVICES

Provide the city/town, State, and ZIP Code for all locations where mobile and/or portable services are rendered.

NOTE: If you provide mobile or portable health care services in more than one State and those States are serviced by different Medicare fee-for-service contractors, complete a separate enrollment application (CMS-855B) for each Medicare fee-for-service contractor's jurisdiction.

INITIAL REPORTING AND/OR ADDITIONS

If you are reporting or adding an entire State, it is not necessary to report each city/town. Simply check the box below and specify the State.

☐ Entire State of _____

If services are provided in selected cities/towns, provide the locations below. Only list ZIP codes if you are not servicing the entire city/town.

City/Town	State	ZIP Code

DELETIONS

If you are deleting an entire State, it is not necessary to report each city/town. Simply check the box below and specify the State.

☐ Entire State of _____

If services you are deleting are furnished in selected cities/towns, provide the locations below. Only list ZIP codes if you are not servicing the entire city/town.

City/Town	State	ZIP Code

ML-09071

SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS)

NOTE: ONLY REPORT ORGANIZATIONS IN THIS SECTION. INDIVIDUALS MUST BE REPORTED IN SECTION 6.

Complete this section with information about all organizations that have 5 percent or more (direct or indirect) ownership interest of, any partnership interest in, and/or managing control of, the supplier identified in Section 2, as well as information on any adverse legal actions that have been imposed against that organization. For examples of organizations that should be reported here, visit our Web site: *www.cms.hhs.gov/MedicareProviderSupEnroll*. If there is more than one organization that should be reported, copy and complete this section for each.

MANAGING CONTROL (ORGANIZATIONS)

Any organization that exercises operational or managerial control over the supplier, or conducts the day-to-day operations of the supplier, is a managing organization and must be reported. The organization need not have an ownership interest in the supplier in order to qualify as a managing organization. For instance, it could be a management services organization under contract with the supplier to furnish management services for the business.

SPECIAL TYPES OF ORGANIZATIONS

Governmental/Tribal Organizations: If a Federal, State, county, city or other level of government, or an Indian tribe, will be legally and financially responsible for Medicare payments received (including any potential overpayments), the name of that government or Indian tribe should be reported as an owner. The supplier must submit a letter on the letterhead of the responsible government (e.g., government agency) or tribal organization that attests that the government or tribal organization will be legally and financially responsible in the event that there is any outstanding debt owed to CMS. This letter must be signed by an appointed or elected official of the government or tribal organization who has the authority to legally and financially bind the government or tribal organization to the laws, regulations, and program instructions of the Medicare program.

Non-Profit, Charitable and Religious Organizations: Many non-profit organizations are charitable or religious in nature, and are operated and/or managed by a board of trustees or other governing body. The actual name of the board of trustees or other governing body should be reported in this section. While the organization should be listed in Section 5, individual board members should be listed in Section 6. Each non-profit organization should submit a copy of a 501(c)(3) document verifying its non-profit status.

ML-09072

SECTION 5: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (ORGANIZATIONS) (Continued)

All organizations that have any of the following must be reported in Section 5:

- 5 percent or more ownership of the supplier,
- Managing control of the supplier, or
- A partnership interest in the supplier, regardless of the percentage of ownership the partner has.

Owning/Managing organizations are generally one of the following types:

- Corporations (including non-profit corporations)
- Partnerships and Limited Partnerships (as indicated above)
- Limited Liability Companies
- Charitable and/or Religious organizations
- Governmental and/or Tribal organizations

B. FINAL ADVERSE HISTORY

If reporting a change to existing information, check "Change," provide the effective date of the change, and complete the appropriate fields in this section.

☐ Change ☐ Effective Date:_____

1. Has this organization in Section 5A, under any current or former name or business identity, ever had a final adverse action listed on page 11 of this application imposed against it?

☐ YES – Continue Below	☒ NO – Skip to Section 6

2. If YES, report each final adverse action, when it occurred, the Federal or State agency or the court/administrative body that imposed the action, and the resolution.

   Attach a copy of the final adverse action documentation(s) and resolution(s).

Final Adverse Action	Date	Taken By	Resolution

ML-09074

SECTION 6: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (INDIVIDUALS)

NOTE: Only Individuals should be reported in Section 6. Organizations must be reported in Section 5. For more information on "direct" and "indirect" owners, go to *www.cms.hhs.gov/MedicareProviderSupEnroll.*

The supplier MUST have at least ONE owner and/or managing employee.

The following individuals must be reported in Section 6A:

- All persons who have a 5 percent or greater direct or indirect ownership interest in the supplier;
- If (and only if) the supplier is a corporation (whether for-profit or non-profit), all officers and directors of the supplier;
- All managing employees of the supplier;
- All individuals with a partnership interest in the supplier, regardless of the percentage of ownership the partner has; and
- Authorized and delegated officials.

Example: A supplier is 100 percent owned by Company C, which itself is 100 percent owned by Individual D. Assume that Company C is reported in Section 5A as an owner of the supplier. Assume further that Individual D, as an indirect owner of the supplier, is reported in Section 6A1. Based on this example, the supplier would check the "5 percent or Greater Direct/Indirect Owner" box in Section 6A2.

NOTE: All partners within a partnership must be reported on this application. This applies to both "General" and "Limited" partnerships. For instance, if a limited partnership has several limited partners and each of them only has a 1 percent interest in the supplier, each limited partner must be reported on this application, even though each owns less than 5 percent. The 5 percent threshold primarily applies to corporations and other organizations that are not partnerships.

Non-Profit, Charitable or Religious Organizations: If you are a non-profit charitable or religious organization that has no organizational or individual owners (only board members, directors or managers), you should submit with your application a 501(c)(3) document verifying non-profit status.

For purposes of this application, the terms "officer," "director," and "managing employee" are defined as follows:

Officer is any person whose position is listed as being that of an officer in the supplier's "articles of incorporation" or "corporate bylaws," or anyone who is appointed by the board of directors as an officer in accordance with the supplier's corporate bylaws.

Director is a member of the supplier's "board of directors." It does not necessarily include a person who may have the word "director" in his/her job title (e.g., departmental director, director of operations). Moreover, where a supplier has a governing body that does not use the term "board of directors," the members of that governing body will still be considered "directors." Thus, if the supplier has a governing body titled "board of trustees" (as opposed to "board of directors"), the individual trustees are considered "directors" for Medicare enrollment purposes.

Managing Employee means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts, the day-to-day operations of the supplier, either under contract or through some other arrangement, regardless of whether the individual is a W-2 employee of the supplier.

NOTE: If a governmental or tribal organization will be legally and financially responsible for Medicare payments received (per the instructions for Governmental/Tribal Organizations in Section 5), the supplier is only required to report its managing employees in Section 6. Owners, partners, officers, and directors do not need to be reported, except those who are listed as authorized or delegated officials on this application.

ML-09075

SECTION 6: OWNERSHIP INTEREST AND/OR MANAGING CONTROL INFORMATION (INDIVIDUALS) (Continued)

Any information on final adverse actions that have been imposed against the individuals reported in this section must be furnished. If there is more than one individual, copy and complete this section for each individual. Owners, Authorized Officials and/or Delegated Officials must complete this section.

A. INDIVIDUALS WITH OWNERSHIP INTEREST AND/OR MANAGING CONTROL IDENTIFICATION INFORMATION

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section. The name, date of birth, and social security number of each person listed in this Section must coincide with the individual's information as listed with the Social Security Administration.

SECTION 14: PENALTIES FOR FALSIFYING INFORMATION

This section explains the penalties for deliberately falsifying information in this application to gain or maintain enrollment in the Medicare program.

1. 18 U.S.C. § 1001 authorizes criminal penalties against an individual who, in any matter within the jurisdiction of any department or agency of the United States, knowingly and willfully falsifies, conceals or covers up by any trick, scheme or device a material fact, or makes any false, fictitious or fraudulent statements or representations, or makes any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry.

   Individual offenders are subject to fines of up to $250,000 and imprisonment for up to five years. Offenders that are organizations are subject to fines of up to $500,000 (18 U.S.C. § 3571). Section 3571(d) also authorizes fines of up to twice the gross gain derived by the offender if it is greater than the amount specifically authorized by the sentencing statute.

2. Section 1128B(a)(1) of the Social Security Act authorizes criminal penalties against any individual who, "knowingly and willfully," makes or causes to be made any false statement or representation of a material fact in any application for any benefit or payment under a Federal health care program.

   The offender is subject to fines of up to $25,000 and/or imprisonment for up to five years.

3. The Civil False Claims Act, 31 U.S.C. § 3729, imposes civil liability, in part, on any person who:
   a) knowingly presents, or causes to be presented, to an officer or any employee of the United States Government a false or fraudulent claim for payment or approval;
   b) knowingly makes, uses, or causes to be made or used, a false record or statement to get a false or fraudulent claim paid or approved by the Government; or
   c) conspires to defraud the Government by getting a false or fraudulent claim allowed or paid.

   The Act imposes a civil penalty of $5,000 to $10,000 per violation, plus three times the amount of damages sustained by the Government.

4. Section 1128A(a)(1) of the Social Security Act imposes civil liability, in part, on any person (including an organization, agency or other entity) that knowingly presents or causes to be presented to an officer, employee, or agent of the United States, or of any department or agency thereof, or of any State agency…a claim…that the Secretary determines is for a medical or other item or service that the person knows or should know:
   a) was not provided as claimed; and/or
   b) the claim is false or fraudulent.

   This provision authorizes a civil monetary penalty of up to $10,000 for each item or service, an assessment of up to three times the amount claimed, and exclusion from participation in the Medicare program and State health care programs.

5. 18 U.S.C. 1035 authorizes criminal penalties against individuals in any matter involving a health care benefit program who knowingly and willfully falsifies, conceals or covers up by any trick, scheme, or device a material fact; or makes any materially false, fictitious, or fraudulent statements or representations, or makes or uses any materially false fictitious, or fraudulent statement or entry, in connection with the delivery of or payment for health care benefits, items or services. The individual shall be fined or imprisoned up to 5 years or both.

ML-09079

SECTION 14: PENALTIES FOR FALSIFYING INFORMATION (Continued)

6. 18 U.S.C. 1347 authorizes criminal penalties against individuals who knowing and willfully execute, or attempt, to executive a scheme or artifice to defraud any health care benefit program, or to obtain, by means of false or fraudulent pretenses, representations, or promises, any of the money or property owned by or under the control of any, health care benefit program in connection with the delivery of or payment for health care benefits, items, or services. Individuals shall be fined or imprisoned up to 10 years or both. If the violation results in serious bodily injury, an individual will be fined or imprisoned up to 20 years, or both. If the violation results in death, the individual shall be fined or imprisoned for any term of years or for life, or both.

7. The government may assert common law claims such as "common law fraud," "money paid by mistake," and "unjust enrichment."

   Remedies include compensatory and punitive damages, restitution, and recovery of the amount of the unjust profit.

ML-09080

SECTION 15: CERTIFICATION STATEMENT

An **AUTHORIZED OFFICIAL** means an appointed official (for example, chief executive officer, chief financial officer, general partner, chairman of the board, or direct owner) to whom the organization has granted the legal authority to enroll it in the Medicare program, to make changes or updates to the organization's status in the Medicare program, and to commit the organization to fully abide by the statutes, regulations, and program instructions of the Medicare program.

A **DELEGATED OFFICIAL** means an individual who is delegated by an authorized official the authority to report changes and updates to the supplier's enrollment record. A delegated official must be an individual with an "ownership or control interest" in (as that term is defined in Section 1124(a)(3) of the Social Security Act), or be a W-2 managing employee of, the supplier.

Delegated officials may not delegate their authority to any other individual. Only an authorized official may delegate the authority to make changes and/or updates to the supplier's Medicare status. Even when delegated officials are reported in this application, an authorized official retains the authority to make any such changes and/or updates by providing his or her printed name, signature, and date of signature as required in Section 15B.

NOTE: Authorized officials and delegated officials must be reported in Section 6, either on this application or on a previous application to this same Medicare fee-for-service contractor. **If this is the first time an authorized and/or delegated official has been reported on the CMS-855B, you must complete Section 6 for that individual.**

By his/her signature(s), an authorized official binds the supplier to all of the requirements listed in the Certification Statement and acknowledges that the supplier may be denied entry to or revoked from the Medicare program if any requirements are not met. All signatures must be original and in ink. Faxed, photocopied, or stamped signatures will not be accepted.

Only an authorized official has the authority to sign (1) the initial enrollment application on behalf of the supplier or (2) the enrollment application that must be submitted as part of the periodic revalidation process. A delegated official does not have this authority.

By signing this application, an authorized official agrees to immediately notify the Medicare fee-for-service contractor if any information furnished on the application is not true, correct, or complete. In addition, an authorized official, by his/her signature, agrees to notify the Medicare fee-for-service contractor of any future changes to the information contained in this form, after the supplier is enrolled in Medicare, in accordance with the timeframes established in 42 C.F.R. 424.520(b). (IDTF changes of information must be reported in accordance with 42 C.F.R. 410.33.)

The supplier can have as many authorized officials as it wants. If the supplier has more than two authorized officials, it should copy and complete this section as needed.

EACH AUTHORIZED AND DELEGATED OFFICIAL MUST HAVE AND DISCLOSE HIS/HER SOCIAL SECURITY NUMBER.

ML-09081

SECTION 15: CERTIFICATION STATEMENT (Continued)

A. ADDITIONAL REQUIREMENTS FOR MEDICARE ENROLLMENT

These are additional requirements that the supplier must meet and maintain in order to bill the Medicare program. Read these requirements carefully. By signing, the supplier is attesting to having read the requirements and understanding them.

By his/her signature(s), the authorized official(s) named below and the delegated official(s) named in Section 16 agree to adhere to the following requirements stated in this Certification Statement:

1. I authorize the Medicare contractor to verify the information contained herein. I agree to notify the Medicare contractor of any future changes to the information contained in this application in accordance with the timeframes established in 42 C.F.R. § 424.516. I understand that any change in the business structure of this supplier may require the submission of a new application.

2. I have read and understand the Penalties for Falsifying Information, as printed in this application. I understand that any deliberate omission, misrepresentation, or falsification of any information contained in this application or contained in any communication supplying information to Medicare

ML-09082

SECTION 15: CERTIFICATION STATEMENT (Continued)

A. ADDITIONAL REQUIREMENTS FOR MEDICARE ENROLLMENT

These are additional requirements that the supplier must meet and maintain in order to bill the Medicare program. Read these requirements carefully. By signing, the supplier is attesting to having read the requirements and understanding them.

By his/her signature(s), the authorized official(s) named below and the delegated official(s) named in Section 16 agree to adhere to the following requirements stated in this Certification Statement:

1. I authorize the Medicare contractor to verify the information contained herein. I agree to notify the Medicare contractor of any future changes to the information contained in this application in accordance with the timeframes established in 42 C.F.R. § 424.516. I understand that any change in the business structure of this supplier may require the submission of a new application.

2. I have read and understand the Penalties for Falsifying Information, as printed in this application. I understand that any deliberate omission, misrepresentation, or falsification of any information contained in this application or contained in any communication supplying information to Medicare, or any deliberate alteration of any text on this application form, may be punished by criminal, civil, or administrative penalties including, but not limited to, the denial or revocation of Medicare billing privileges, and/or the imposition of fines, civil damages, and/or imprisonment.

3. I agree to abide by the Medicare laws, regulations and program instructions that apply to this supplier. The Medicare laws, regulations, and program instructions are available through the Medicare contractor. I understand that payment of a claim by Medicare is conditioned upon the claim and the underlying transaction complying with such laws, regulations, and program instructions (including, but not limited to, the Federal anti-kickback statute and the Stark law), and on the supplier's compliance with all applicable conditions of participation in Medicare.

4. Neither this supplier, nor any five percent or greater owner, partner, officer, director, managing employee, authorized official, or delegated official thereof is currently sanctioned, suspended, debarred, or excluded by the Medicare or State Health Care Program, e.g., Medicaid program, or any other Federal program, or is otherwise prohibited from supplying services to Medicare or other Federal program beneficiaries.

5. I agree that any existing or future overpayment made to the supplier by the Medicare program may be recouped by Medicare through the withholding of future payments.

6. I will not knowingly present or cause to be presented a false or fraudulent claim for payment by Medicare, and I will not submit claims with deliberate ignorance or reckless disregard of their truth or falsity.

7. I authorize any national accrediting body whose standards are recognized by the Secretary as meeting the Medicare program participation requirements, to release to any authorized representative, employee, or agent of the Centers for Medicare & Medicaid Services (CMS) a copy of my most recent accreditation survey, together with any information related to the survey that CMS may require (including corrective action plans).

ML-09083

SECTION 15: CERTIFICATION STATEMENT (Continued)

B. 1ST AUTHORIZED OFFICIAL SIGNATURE

I have read the contents of this application. My signature legally and financially binds this supplier to the laws, regulations, and program instructions of the Medicare program. By my signature, I certify that the information contained herein is true, correct, and complete and I authorize the Medicare fee-for-service contractor to verify this information. If I become aware that any information in this application is not true, correct, or complete, I agree to notify the Medicare fee-for-service contractor of this fact immediately.

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

CHECK ONE	☐ CHANGE (Revalidation)	☐ ADD	☐ DELETE
DATE (mm/dd/yyyy)	01/28/2010

SECTION 16: DELEGATED OFFICIAL (OPTIONAL)

- You are not required to have a delegated official. However, if no delegated official is assigned, the authorized official(s) will be the only person(s) who can make changes and/or updates to the supplier's status in the Medicare program.
- The signature of a delegated official shall have the same force and effect as that of an authorized official, and shall legally and financially bind the supplier to the laws, regulations, and program instructions of the Medicare program. By his or her signature, the delegated official certifies that he or she has read the Certification Statement in Section 15 and agrees to adhere to all of the stated requirements. A delegated official also certifies that he/she meets the definition of a delegated official. When making changes and/or updates to the supplier's enrollment information maintained by the Medicare program, a delegated official certifies that the information provided is true, correct, and complete.
- Delegated officials being deleted do not have to sign or date this application.
- Independent contractors are not considered "employed" by the supplier, and therefore cannot be delegated officials.
- The signature(s) of an authorized official in Section 16 constitutes a legal delegation of authority to all delegated official(s) assigned in Section 16.
- If there are more than two individuals, copy and complete this section for each individual.

ML-09086

SECTION 17: SUPPORTING DOCUMENTS

This section lists the documents that, if applicable, must be submitted with this enrollment application. If you are newly enrolling, or are reactivating or revalidating your enrollment, you must provide all applicable documents. For changes, only submit documents that are applicable to that change.

The fee-for-service contractor may request, at any time during the enrollment process, documentation to support or validate information reported on the application.

MANDATORY FOR ALL PROVIDER/SUPPLIER TYPES

☒ Completed Form CMS-588, for Electronic Funds Transfer Authorization Agreement. Note: If a supplier already receives payments electronically and is not making a change to its banking information, the CMS-588 is not required.

MANDATORY FOR SELECTED PROVIDER/SUPPLIER TYPES

☐ Copy(s) of all documentation verifying IDTF Supervisory Physician(s) proficiency and/or State licenses or certification for IDTF non-physician personnel.

MANDATORY, IF APPLICABLE

☐ Statement in writing from the bank. If Medicare payment due a supplier of services is being sent to a bank (or similar financial institution) with whom the supplier has a lending relationship (that is, any type of loan), then the supplier must provide a statement in writing from the bank (which must be in the loan agreement) that the bank has agreed to waive its right of offset for Medicare receivables.

☐ Copy(s) of all final adverse action documentation (e.g., notifications, resolutions, and reinstatement letters).

☐ Completed Form(s) CMS 855R, Reassignment of Medicare Benefits.

☐ Completed Form CMS-460, Medicare Participating Physician or Supplier Agreement.

☐ Copy of an attestation for government entities and tribal organizations.

☐ Copy of FAA 135 certificate (air ambulance suppliers).

☐ Copy(s) of comprehensive liability insurance policy (IDTFs only).

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0685. The time required to complete this information collection is estimated to 6 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Baltimore, Maryland 21244-1850.

DO NOT MAIL APPLICATIONS TO THIS ADDRESS. Mailing your application to this address will significantly delay application processing.

ATTACHMENT 1: AMBULANCE SERVICE SUPPLIERS

All ambulance service suppliers enrolling in the Medicare program must complete this attachment.

A. GEOGRAPHIC AREA

This section is to be completed with information about the geographic area in which this company provides ambulance services. If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

CHECK ONE	☐ CHANGE	☐ ADD	☐ DELETE
DATE (mm/dd/yyyy)			

Provide the city/town, State, and ZIP code for all locations where this ambulance company renders services.

NOTE: If the ambulance company has vehicles garaged within a different Medicare contractor's jurisdiction, a separate CMS-855B enrollment application must be submitted to that fee-for-service contractor.

1. INITIAL REPORTING AND/OR ADDITIONS

If services are provided in selected cities/towns, provide the locations below. List ZIP codes only if they are not within the entire city/town.

City/Town	State	ZIP Code

2. DELETIONS

If services are no longer provided in selected cities/towns, provide the locations below. List ZIP codes only if they are not within the entire city/town.

City/Town	State	ZIP Code

ML-09088

ATTACHMENT 1: AMBULANCE SERVICE SUPPLIERS (Continued)

B. STATE LICENSE INFORMATION

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

Crew members must complete continuing education requirements in accordance with State and local licensing laws. Evidence of re-certification must be retained with the employer in case it is required by the Medicare fee-for-service contractor.

CHECK ONE	☐ CHANGE	☐ ADD	☐ DELETE
DATE (mm/dd/yyyy)			

Is this ambulance company licensed in the State where services are rendered and billed for? ☐ YES ☐ NO

If **NO**, explain why:

N/A

If **YES**, provide the license information for the State where this ambulance service supplier will be rendering services and billing Medicare. Attach a copy of the current State license.

License Number	Issuing State (if applicable)	Issuing City/Town *(if applicable)*

Effective Date *(mm/dd/yyyy)*	Expiration Date *(mm/dd/yyyy)*

C. PARAMEDIC INTERCEPT SERVICES INFORMATION

Paramedic Intercept Services involve an arrangement between a Basic Life Support (BLS) ambulance company and an Advanced Life Support (ALS) ambulance company whereby the latter provides the ALS services and the BLS ambulance company provides the transportation component. If such an arrangement exists between the enrolling ambulance company and another ambulance company, the enrolling ambulance company must attach a copy of the signed contract. For more information, see 42 C.F.R. 410.40.

If reporting a change to information about a previously reported agreement/contract, check "Change" and provide the effective date of the change.

☐ Change ☐ Effective Date:_____

Does this ambulance company currently participate in a paramedic intercept services arrangement? ☐ YES ☐ NO

D. VEHICLE INFORMATION

Complete this section with information about the vehicles used by this ambulance company and the services they provide. If there is more than one vehicle, copy and complete this section as needed. Attach a copy of each vehicle registration.

To qualify as an air ambulance supplier, the following is required:

- A written statement, signed by the President, Chief Executive Officer or Chief Operating Officer of the airport from where the aircraft is hangared that gives the name and address of the facility, and
- Proof that the enrolling ambulance company, or the company leasing the air ambulance vehicle to the enrolling ambulance company, possesses a valid charter flight license (FAA 135 Certificate) for the aircraft being used as an air ambulance. If the enrolling ambulance company owns the aircraft, the owner's name on the FAA 135 Certificate must be the same as the enrolling ambulance company's name (or the ambulance company owner as reported in Sections 5 or 6) in this application. If the enrolling ambulance company leases the aircraft from another company, a copy of the lease agreement must accompany this enrollment application.

If you are changing, adding, or deleting information, check the applicable box, furnish the effective date, and complete the appropriate fields in this section.

ATTACHMENT 2: INDEPENDENT DIAGNOSTIC TESTING FACILITIES

INDEPENDENT DIAGNOSTIC TESTING FACILITY (IDTF) PERFORMANCE STANDARDS

Below is a list of the performance standards that an IDTF must meet in order to obtain or maintain their Medicare billing privileges. These standards, in their entirety, can be found in 42 C.F.R section 410.33(g).

1. Operate its business in compliance with all applicable Federal and State licensure and regulatory requirements for the health and safety of patients.

2. Provides complete and accurate information on its enrollment application. Changes in ownership, changes of location, changes in general supervision, and adverse legal actions must be reported to the Medicare fee-for-service contractor on the Medicare enrollment application within 30 calendar days of the change. All other changes to the enrollment application must be reported within 90 calendar days.

3. Maintain a physical facility on an appropriate site. For the purposes of this standard, a post office box, commercial mail box, hotel or motel is not considered an appropriate site.
   (i) The physical facility, including mobile units, must contain space for equipment appropriate to the services designated on the enrollment application, facilities for hand washing, adequate patient privacy accommodations, and the storage of both business records and current medical records within the office setting of the IDTF, or IDTF home office, not within the actual mobile unit.
   (ii) IDTF suppliers that provide services remotely and do not see beneficiaries at their practice location are exempt from providing hand washing and adequate patient privacy accommodations.

4. Have all applicable diagnostic testing equipment available at the physical site excluding portable diagnostic testing equipment. A catalog of portable diagnostic equipment, including diagnostic testing equipment serial numbers, must be maintained at the physical site. In addition, portable diagnostic testing equipment must be available for inspection within two business days of a CMS inspection request. The IDTF must maintain a current inventory of the diagnostic testing equipment, including serial and registration numbers, provide this information to the designated fee-for-service contractor upon request, and notify the contractor of any changes in equipment within 90 days.

5. Maintain a primary business phone under the name of the designated business. The primary business phone must be located at the designated site of the business, or within the home office of the mobile IDTF units. The telephone number or toll free numbers must be available in a local directory and through directory assistance.

6. Have a comprehensive liability insurance policy of at least $300,000 per location that covers both the place of business and all customers and employees of the IDTF. The policy must be carried by a non-relative owned company. Failure to maintain required insurance at all times will result in revocation of the IDTF's billing privileges retroactive to the date the insurance lapsed. IDTF suppliers are responsible for providing the contact information for the issuing insurance agent and the underwriter. In addition, the IDTF must:
   (i) Ensure that the insurance policy must remain in force at all times and provide coverage of at least $300,000 per incident; and
   (ii) Notify the CMS designated contractor in writing of any policy changes or cancellations.

7. Agree not to directly solicit patients, which include, but is not limited to, a prohibition on telephone, computer, or in-person contacts. The IDTF must accept only those patients referred for diagnostic testing by an attending physician, who is furnishing a consultation or treating a beneficiary for a specific medical problem and who uses the results in the management of the beneficiary's specific medical problem. Nonphysician practitioners may order tests as set forth in §410.32(a)(3).

ML-09091

ATTACHMENT 2: INDEPENDENT DIAGNOSTIC TESTING FACILITIES (Continued)

8. Answer, document, and maintain documentation of a beneficiary's written clinical complaint at the physical site of the IDTF (For mobile IDTFs, this documentation would be stored at their home office.) This includes, but is not limited to, the following:
   (i) The name, address, telephone number, and health insurance claim number of the beneficiary.
   (ii) The date the complaint was received; the name of the person receiving the complaint; and a summary of actions taken to resolve the complaint.
   (iii) If an investigation was not conducted, the name of the person making the decision and the reason for the decision.

9. Openly post these standards for review by patients and the public.

10. Disclose to the government any person having ownership, financial, or control interest or any other legal interest in the supplier at the time of enrollment or within 30 days of a change.

11. Have its testing equipment calibrated and maintained per equipment instructions and in compliance with applicable manufacturers suggested maintenance and calibration standards.

12. Have technical staff on duty with the appropriate credentials to perform tests. The IDTF must be able to produce the applicable Federal or State licenses or certifications of the individuals performing these services.

13. Have proper medical record storage and be able to retrieve medical records upon request from CMS or its fee-for-service contractor within 2 business days.

14. Permit CMS, including its agents, or its designated fee-for-service contractors, to conduct unannounced, on-site inspections to confirm the IDTF's compliance with these standards. The IDTF must be accessible during regular business hours to CMS and beneficiaries and must maintain a visible sign posting the normal business hours of the IDTF.

15. With the exception of hospital-based and mobile IDTFs, a fixed base IDTF does not include the following:
   (i) Sharing a practice location with another Medicare-enrolled individual or organization.
   (ii) Leasing or subleasing its operations or its practice location to another Medicare enrolled individual or organization.
   (iii) Sharing diagnostic testing equipment using in the initial diagnostic test with another Medicare-enrolled individual or organization.

16. Enrolls in Medicare for any diagnostic testing services that it furnishes to a Medicare beneficiary, regardless of whether the service is furnished in a mobile or fixed base location.

17. Bills for all mobile diagnostic services that are furnished to a Medicare beneficiary, unless the mobile diagnostic service is part of a service provided under arrangement as described in section 1861(w)(1) of the Act.

ML-09092

ATTACHMENT 2: INDEPENDENT DIAGNOSTIC TESTING FACILITIES (Continued)

INSTRUCTIONS

If you perform diagnostic tests, other than clinical laboratory or pathology tests, and are required to enroll as an IDTF, you **must** complete this attachment. CMS requires the information in this attachment to determine whether the enrolling supplier meets all IDTF standards including, but not limited to, those listed on page 38 of this application. Not all suppliers that perform diagnostic tests are required to enroll as an IDTF

DIAGNOSTIC RADIOLOGY

Many diagnostic tests are radiological procedures that require the professional services of a radiologist. A radiologist's practice is generally different from those of other physicians because radiologists usually do not bill E&M codes or treat a patient's medical condition on an ongoing basis. A radiologist or group practice of radiologists is not necessarily required to enroll as an IDTF. If enrolling as a diagnostic radiology group practice or clinic and billing for the technical component of diagnostic radiological tests without enrolling as an IDTF (if the entity is a free standing diagnostic facility), it should contact the carrier to determine that it does not need to enroll as an IDTF.

A mobile IDTF that provides X-ray services is not classified as a portable X-ray supplier.

Regulations governing IDTFs can be found at 42 C.F.R. 410.33.

CPT-4 and HCPCS Codes—Report all CPT-4 and HCPCS codes for which this IDTF will bill Medicare. Include the following:

- Provide the CPT-4 or HCPCS codes for which this IDTF intends to bill Medicare,
- The name and type of equipment used to perform the reported procedure, and
- The model number of the reported equipment.

The IDTF should report all Current Procedural Terminology, Version 4 (CPT-4) codes, Healthcare Common Procedural Coding System codes (HCPCS), and types of equipment (including the model number), for which it will perform tests, supervise, interpret, and/or bill. All codes reported must be for diagnostic tests that an IDTF is allowed to perform. Diagnostic tests that are clearly surgical in nature, which must be performed in a hospital or ambulatory surgical center, should not be reported.

Consistent with IDTF supplier standard 6 on page 38 of this application, all IDTFs enrolling in Medicare must have a comprehensive liability insurance policy of at least $300,000 per location, that covers both the place of business and all customers and employees of the IDTF. The policy must be carried by a non-relative owned company. Failure to maintain the required insurance at all times will result in revocation of the Medicare supplier billing number, retroactive to the date the insurance lapsed. Malpractice insurance policies do not demonstrate compliance with this requirement.

All IDTFs must submit a complete copy of the aforementioned liability insurance policy with this application.

C. INTERPRETING PHYSICIAN INFORMATION

CHECK HERE ☐ if this section does not apply because the interpreting physician will bill separate from the IDTF.

All physicians whose interpretations will be billed by this IDTF with the technical component (TC) of the test (i.e., global billing) must be listed in this section. If there are more than three physicians, copy and complete this section as needed. All interpreting physicians must be currently enrolled in the Medicare program.

If you are billing for interpretations as an individual reassigning benefits, the interpreting physician must complete the Reassignment of Benefits Form (CMS 855R). Note: Both the IDTF and individual physician must be enrolled with the fee-for-service contractor where the IDTF is located.

If you are billing for purchased interpretations, all requirements for purchased interpretations must be met.

When a mobile unit of the IDTF performs a technical component of a diagnostic test and the interpretive physician is the same physician who ordered the test, the IDTF cannot bill for the interpretation. Therefore, these interpreting physicians should not be reported since the interpretive physician must submit his/her own claims for these tests.

E. SUPERVISING PHYSICIANS

Complete this section with identifying information about the physician(s) who supervise the operation of the IDTF and who provides the personal, direct, or general supervision per 42 C.F.R. 410.32(b)(3). The supervising physician must also attest to his/her supervising responsibilities for the enrolling IDTF.

Information concerning the type of supervision (personal, direct, or general) required for performance of specific IDTF tests can be obtained from your Medicare fee-for-service contractor. All IDTFs must report at least one supervisory physician, and at least one supervising physician must perform the supervision requirements stated in 42 C.F.R. 410.32(b)(3). All supervisory physician(s) must be currently enrolled in Medicare.

The type of supervision being performed by each physician who signs the attestation on page 44 of this application should be listed in this section.

Definitions of the types of supervision are as follows:

Personal Supervision means a physician must be in attendance in the room during the performance of the procedure.

Direct Supervision means the physician must be present in the office suite and immediately available to provide assistance and direction throughout the performance of the procedure. It does not mean that the physician must be present in the room when the procedure is performed.

General Supervision means the procedure is provided under the physician's overall direction and control, but the physician's presence is not required during the performance of the procedure. General supervision also includes the responsibility that the non-physician personnel who perform the tests are qualified and properly trained and that the equipment is operated properly, maintained, calibrated and that necessary supplies are available.

TYPE OF SUPERVISION PROVIDED

Check the appropriate box below indicating the type of supervision provided by the physician reported above for the tests performed by the IDTF in accordance with 42 C.F.R. 410.32 (b)(3) (See instructions for definitions).

N/A

☐ Personal Supervision ☐ Direct Supervision ☐ General Supervision

For each physician performing General Supervision, at least one of the three functions listed here must be checked. However, to meet the General Supervision requirement, in accordance with 42 C.F.R. 410.33(b), the enrolling IDTF must have at least one supervisory physician for each of the three functions. For example, two physicians may be responsible for function 1, a third physician may be responsible for function 2, and a fourth physician may be responsible for function 3. All four supervisory physicians must complete and sign the supervisory physician section of this application. Each physician should only check the function(s) he/she actually performs.

☐ Assumes responsibility for the overall direction and control of the quality of testing performed.

☐ Assumes responsibility for assuring that the non-physician personnel who actually perform the diagnostic procedures are properly trained and meet required qualifications.

☐ Assumes responsibility for the proper maintenance and calibration of the equipment and supplies necessary to perform the diagnostic procedures.

OTHER SUPERVISION SITES

Does this supervising physician provide supervision at any other IDTF? ☐ YES ☐ NO

If yes, list all other IDTFs for which this physician provides supervision. For more than five, copy this sheet.

E. SUPERVISING PHYSICIANS (Continued)

ATTESTATION STATEMENT FOR SUPERVISING PHYSICIANS

All Supervising Physician(s) rendering supervisory services for this IDTF must sign and date this section. All signatures must be original.

1. I hereby acknowledge that I have agreed to provide (IDTF Name)_____ with the Supervisory Physician services checked above for all CPT-4 and HCPCS codes reported in this Attachment. (See number 2 below if all reported CPT-4 and HCPCS codes do not apply). I also hereby certify that I have the required proficiency in the performance and interpretation of each type of diagnostic procedure, as reported by CPT-4 or HCPCS code in this Attachment (except for those CPT-4 or HCPCS codes identified in number 2 below). I have read and understand the Penalties for Falsifying Information on this Enrollment Application, as stated in Section 14 of this application. I am aware that falsifying information may result in fines and/or imprisonment. If I undertake supervisory responsibility at any additional IDTFs, I understand that it is my responsibility to notify this IDTF at that time.

2. I am not acting as a Supervising Physician for the following CPT-4 and/or HCPCS codes reported in this Attachment.

N/A

CPT–4 or HCPCS Code	CPT–4 or HCPCS Code	CPT–4 or HCPCS Code

3. Signature of Supervising Physician *(First, Middle, Last, Jr., Sr., M.D., D.O., etc.)* | Date *(mm/dd/yyyy)*

All signatures must be original and signed and dated in ink (blue ink preferred).
Applications with signatures deemed not original will not be processed.
Stamped, faxed or copied signatures will not be accepted.

ML-09099

MEDICARE SUPPLIER ENROLLMENT APPLICATION
PRIVACY ACT STATEMENT

The Centers for Medicare and Medicaid Services (CMS) is authorized to collect the information requested on this form by sections 1124(a)(1), 1124A(a)(3), 1128, 1814, 1815, 1833(e), and 1842(r) of the Social Security Act [42 U.S.C. §§ 1320a-3(a)(1), 1320a-7, 1395f, 1395g, 1395(l)(e), and 1395u(r)] and section 31001(1) of the Debt Collection Improvement Act [31 U.S.C. § 7701(c)].

The purpose of collecting this information is to determine or verify the eligibility of individuals and organizations to enroll in the Medicare program as suppliers of goods and services to Medicare beneficiaries and to assist in the administration of the Medicare program. This information will also be used to ensure that no payments will be made to providers who are excluded from participation in the Medicare program. All information on this form is required, with the exception of those sections marked as "optional" on the form. Without this information, the ability to make payments will be delayed or denied.

The information collected will be entered into the Provider Enrollment, Chain and Ownership System (PECOS), and system number 09-70-0525 titled Unique Physician/Practitioner Identification Number (UPIN) System (published in Vol. 61 of the Federal Register at page 20,528 (May 7, 1996)). The information in this application will be disclosed according to the routine uses described below.

Information from these systems may be disclosed under specific circumstances to:

1. CMS contractors to carry out Medicare functions, collating or analyzing data, or to detect fraud or abuse;
2. A congressional office from the record of an individual health care provider in response to an inquiry from the congressional office at the written request of that individual health care practitioner;
3. The Railroad Retirement Board to administer provisions of the Railroad Retirement or Social Security Acts;
4. Peer Review Organizations in connection with the review of claims, or in connection with studies or other review activities, conducted pursuant to Part B of Title XVIII of the Social Security Act;
5. To the Department of Justice or an adjudicative body when the agency, an agency employee, or the United States Government is a party to litigation and the use of the information is compatible with the purpose for which the agency collected the information;
6. To the Department of Justice for investigating and prosecuting violations of the Social Security Act, to which criminal penalties are attached;
7. To the American Medical Association (AMA), for the purpose of attempting to identify medical doctors when the Unique Physician Identification Number Registry is unable to establish identity after matching contractor submitted data to the data extract provided by the AMA;
8. An individual or organization for a research, evaluation, or epidemiological project related to the prevention of disease or disability, or to the restoration or maintenance of health;
9. Other Federal agencies that administer a Federal health care benefit program to enumerate/enroll providers of medical services or to detect fraud or abuse;
10. State Licensing Boards for review of unethical practices or non-professional conduct;
11. States for the purpose of administration of health care programs; and/or
12. Insurance companies, self insurers, health maintenance organizations, multiple employer trusts, and other health care groups providing health care claims processing, when a link to Medicare or Medicaid claims is established, and data are used solely to process supplier's health care claims.

The enrolling supplier should be aware that the Computer Matching and Privacy Protection Act of 1988 (P.L. 100-503) amended the Privacy Act, 5 U.S.C. § 552a, to permit the government to verify information through computer matching.

Protection of Proprietary Information

Privileged or confidential commercial or financial information collected in this form is protected from public disclosure by Federal law 5 U.S.C. § 552(b)(4) and Executive Order 12600.

Protection of Confidential Commercial and/or Sensitive Personal Information

If any information within this application (or attachments thereto) constitutes a trade secret or privileged or confidential information (as such terms are interpreted under the Freedom of Information Act and applicable case law), or is of a highly sensitive personal nature such that disclosure would constitute a clearly unwarranted invasion of the personal privacy of one or more persons, then such information will be protected from release by CMS under 5 U.S.C. §§ 552(b)(4) and/or (b)(6), respectively.

NEW/REVISED MATERIAL--EFFECTIVE DATE: July 1, 2001
IMPLEMENTATION DATE: September 27, 2001

Claims previously adjudicated are unaffected.

Section 2070 - 2070.1, Diagnostic X-Ray, Diagnostic Laboratory, and Other Diagnostic Tests, is revised to manualize Program Memorandum B-01-28 (released on April 19, 2001) regarding physician supervision of diagnostic tests, with the following corrections:

Physical therapists who do not possess the ABPTS (American Board of Physical Therapy Specialties) certification by July 1, 2001, may continue to furnish those diagnostic tests that require the certification if they have been furnishing such diagnostic tests prior to May 1, 2001.

The following codes are assigned the supervision levels set forth below:

76506 - 1	76519 - 1	76815 - 1
76511 - 2	76529 - 1	76825 - 1
76512 - 2	76800 - 1	76885 - 1
76513 - 2	76805 - 1	95070 - 2
76516 - 1	76810 - 1	95071 - 2

DISCLAIMER: The revision date and transmittal number only apply to the redlined material. All other material was previously published in the manual and is only being reprinted.

These instructions should be implemented within your current operating budget.

CMS-Pub. 14-3

Section 2070.5, Coverage of Independent Physiological Laboratory Services, is **deleted** due to obsolete policy.

Section 5217, Reasonable Charges Involving Exclusion of Refractive Services, is **deleted** due to obsolete policy.

Section 15006, Method for Computing Fee Schedule Amounts, reflects the conversion factor for year 2001, and the methods for computing payment amounts for 2001 through 2002.

Section 15021, Ordering Diagnostic Tests, is being added to clarify 42 CFR 410.32(a), which requires that all diagnostic tests be ordered by the treating practitioner.

Section 15039, Optometry Services, provides that refractions are a non-covered service.

Section 15044, Assistant at Surgery Services, is revised to clarify the services which may be billed for assistant at surgery services. Modifiers AK, AL, AN, AU, AV, and AW were discontinued December 31, 1998 and are deleted.

Section 15049, Ocular Photodynamic Therapy (OPT), is being added to reflect the use of CPT code 67221 to bill for this service.

Section 15050, Allergy Testing and Immunotherapy, clarifies Medicare policy regarding payment for doses of antigen.

Section 15360, Echocardiography Services (Codes 93303 - 93350, is revised to reflect the deletion of Q0188 effective 12/31/00 and replaced with A9700 effective 1/1/2001.

Section 15068M., Correct Coding Policy, is added to clarify when a component code is reported as services associated with services described by the comprehensive code, to report the former code represents a misuse in this code and should not be separately allowed.

Section 15068N., Use of Modifiers, to include eight new modifiers and a change in the -GB modifier to -59.

Section 15501, Evaluation and Management Services Codes - General (Codes 99201 - 99499), is revised to clarify when it is appropriate for specific non-physician practitioners to provide physician services, such as evaluation and management services. The revision also states that all provided services must be medically necessary for Medicare payment purposes.

Section 15501B., Selection of Level of Evaluation and Management Service, is revised to clarify that the physician or any non-physician practitioner with the ability to bill Medicare services must submit his/her bill to reflect the actual service or individual portion of a service performed.

Section 15502, Payment for Office/Outpatient Visits (Codes 99201 - 99215), is revised to clarify the definition of a new patient for selection of a visit code by inserting the term “face to face”.

Section 15506, Consultations Requested by Members of Same Group, is revised to clarify that non-physician practitioners may also perform consultations as well as requesting consultations when it is medically necessary and the service is within the scope of practice for the limited licensed practitioners in the State in which they practice.

Section 15510, Home Care and Domiciliary Care Visits (Codes 99321 - 99353), is clarified to identify the correct POS code when Part A SNF benefits apply.

Section 15511.1, Prolonged Services (Codes 99354 - 99355), is revised to include the Home Services visit codes to be used as companion codes for code 99354.

Appendix A, provides updated Geographic Practice Cost Indices.

CLARIFICATION--EFFECTIVE DATE: Not applicable
IMPLEMENTATION DATE: October 1, 2001

Section 15047, Postoperative Services Paid Under the Physician Fee Schedule, this instruction provides further clarification to payment policy for preoperative evaluations obtained outside of the global surgical period, and establishes a clear hierarchy for denying such services.

Services identified with ICD-9 CODE V72.81 through V72.84 are not considered routine services and may not be denied, by carriers, as routine services. However, these ICD-9 codes do not, in and of themselves, establish medical necessity, therefore claims containing these codes may be subject to medical necessity determinations as described in §15047H.

CHAPTER II

4. Parasomnia.--Parasomnias are a group of conditions that represent undesirable or unpleasant occurrences during sleep. Behavior during these times can often lead to damage to the surroundings and injury to the patient or to others. Parasomnia may include conditions such as sleepwalking, sleep terrors, and REM sleep behavior disorders. In many of these cases, the nature of these conditions may be established by careful clinical evaluation. Suspected seizure disorders as possible cause of the parasomnia are appropriately evaluated by standard or prolonged sleep EEG studies. In cases where seizure disorders have been ruled out and in cases that present a history of repeated violent or injurious episodes during sleep, polysomnography may be useful in providing a diagnostic classification or prognosis. Use HCPCS procedure codes 95828 and/or 95822.

C. Polysomnography for Chronic Insomnia Is Not Covered.--Evidence at the present time is not convincing that polysomnography in a sleep disorder clinic for chronic insomnia provides definitive diagnostic data or that such information is useful in patient treatment or is associated with improved clinical outcome. The use of polysomnography for diagnosis of patients with chronic insomnia is not covered under Medicare because it is not reasonable and necessary under §1862(a)(1)(A) of the Act.

D. Coverage of Therapeutic Services.--Sleep disorder clinics may at times render therapeutic as well as diagnostic services. Therapeutic services may be covered in a hospital outpatient setting or in a freestanding facility provided they meet the pertinent requirements for the particular type of services and are reasonable and necessary for the patient, and are performed under the direct personal supervision of a physician.

2070. DIAGNOSTIC X-RAY, DIAGNOSTIC LABORATORY, AND OTHER DIAGNOSTIC TESTS

This section sets forth the levels of physician supervision required for furnishing the technical component of diagnostic tests for a Medicare beneficiary who is not a hospital inpatient or outpatient. Section 410.32(b) of the Code of Federal Regulations, as adopted in the Medicare physician fee schedule Final Rule of October 31, 1997, requires that "diagnostic tests covered under §1861(s)(3) of the Social Security Act (the Act) and payable under the physician fee schedule, with certain exceptions listed in the regulation, have to be performed under the supervision of an individual meeting the definition of a physician" (§1861(r) of the Act) to be considered reasonable and necessary and, therefore, covered under Medicare. The regulation defines these levels of physician supervision for diagnostic tests as follows:

General supervision--means the procedure is furnished under the physician's overall direction and control, but the physician's presence is not required during the performance of the procedure. Under general supervision, the training of the non-physician personnel who actually performs the diagnostic procedure and the maintenance of the necessary equipment and supplies are the continuing responsibility of the physician.

Direct supervision--in the office setting means the physician must be present in the office suite and immediately available to furnish assistance and direction throughout the performance of the procedure. It does not mean that the physician must be present in the room when the procedure is performed.

Personal supervision--means a physician must be in attendance in the room during the performance of the procedure.

One of the following numerical levels is assigned to each CPT or HCPCS code in the Medicare Physician Fee Schedule Database:

0 = Procedure is not a diagnostic test or procedure is a diagnostic test which is not subject to the physician supervision policy.

1 = Procedure must be performed under the general supervision of a physician.

2 = Procedure must be performed under the direct supervision of a physician.

3 = Procedure must be performed under the personal supervision of a physician.

4 =Physician supervision policy does not apply when procedure is furnished by a qualified, independent psychologist or a clinical psychologist; otherwise must be performed under the general supervision of a physician.

5 = Physician supervision policy does not apply when procedure is furnished by a qualified audiologist; otherwise must be performed under the general supervision of a physician.

6 = Procedure must be performed by a physician or by a physical therapist (PT) who is certified by the American Board of Physical Therapy Specialties (ABPTS) as a qualified electrophysiologic clinical specialist and is permitted to provide the procedure under State law.

66 = Procedure must be performed by a physician or by a PT with ABPTS certification and certification in this specific procedure.

77 = Procedure must be performed by a PT with ABPTS certification or by a PT without certification under direct supervision of a physician, or by a technician with certification under general supervision of a physician.

6a = Supervision standards for level 66 apply; in addition, the PT with ABPTS certification may supervise another PT but only the PT with ABPTS certification may bill.

7a = Supervision standards for level 77 apply; in addition, the PT with ABPTS certification may supervise another PT but only the PT with ABPTS certification may bill.

22 = Procedure may be performed by a technician with on-line real-time contact with physician.

21 = Procedure must be performed by a technician with certification under general supervision of a physician; otherwise must be performed under direct supervision of a physician.

Nurse practitioners, clinical nurse specialists, and physician assistants are not defined as physicians under §1861(r) of the Act. Therefore, they may not function as supervisory physicians under the diagnostic tests benefit (§1861(s)(3) of the Act). However, when performing diagnostic tests under their own statutory benefits (§181(s)(2)(K) of the Act), they do not need to comply with §2070 of the Medical Carriers Manual (the manual). Instead, they may perform diagnostic tests pursuant to State scope of practice laws and under the applicable State requirements for physician supervision or collaboration.

Because the diagnostic tests benefit set forth in §1861(s)(3) of the Act is separate and distinct from the incident to benefit set forth in §1861(s)(2) of the Act, diagnostic tests need not meet the incident to requirements of §2050 of the manual. Diagnostic tests may be furnished under situations that meet the incident to requirements. However, the carriers must not scrutinize claims for diagnostic tests utilizing the incident to requirements.

C. Scope of Portable X-Ray Benefit.--In order to avoid payment for services which are inadequate or hazardous to the patient, the scope of the covered portable x-ray benefit is defined as:

- o Skeletal films involving arms and legs, pelvis, vertebral column, and skull;
- o Chest films which do not involve the use of contrast media (except routine screening procedures and tests in connection with routine physical examinations); and
- o Abdominal films which do not involve the use of contrast media.

D. Exclusions From Coverage as Portable X-Ray Services.--Procedures and examinations which are not covered under the portable x-ray provision include the following:

- o Procedures involving fluoroscopy;
- o Procedures involving the use of contrast media;
- o procedures requiring the administration of a substance to the patient or injection of a substance into the patient and/or special manipulation of the patient;
- o Procedures which require special medical skill or knowledge possessed by a doctor of medicine or doctor of osteopathy or which require that medical judgment be exercised;
- o Procedures requiring special technical competency and/or special equipment or materials;
- o Routine screening procedures; and
- o Procedures which are not of a diagnostic nature.

E. Reimbursement Procedure.--

1. Name of Ordering Physician.--Assure that portable x-ray tests have been provided on the written order of a physician. Accordingly, if a bill does not include the name of the physician who ordered the service, that information must be obtained before payment may be made.

2. Reason Chest X-Ray Ordered.--Because all routine screening procedures and tests in connection with routine physical examinations are excluded from coverage under Medicare, all bills for portable x-ray services involving the chest contain, in addition to the name of the physician who ordered the service, the reason an x-ray test was required. If this information is not shown, it is obtained from either the supplier or the physician. If the test was for an excluded routine service, no payment may be made.

See also §§4110 ff. for additional instructions on reviewing bills involving portable -ray.

F. Electrocardiograms.--The taking of an electrocardiogram tracing by an approved supplier of portable x-ray services may be covered as an "other diagnostic test." The health and safety standards referred to in §2070.4B are thus also applicable to such diagnostic EKG services, e.g., the technician must meet the personnel qualification requirements in the Conditions for Coverage of Portable x-ray Services. (See §50-15 (Electrocardiographic Services) in the Coverage Issues Manual.)

2075. X-RAY, RADIUM, AND RADIOACTIVE ISOTOPE THERAPY

These services also include materials and services of technicians.

X-ray, radium, and radioactive isotope therapy furnished in a nonprovider facility require direct personal supervision of a physician. The physician need not be in the same room, but must be in the area and immediately available to provide assistance and direction throughout the time the procedure is being performed. This level of physician involvement does not represent a physician's service and cannot be billed as a Part B service. The physician would have to furnish a reasonable and necessary professional service as defined in §§2020A, 8304.1 and 8314.1 in order for the service to be covered.

However, effective for radiation therapy services furnished on or after April 1, 1989, radiologists' weekly treatment management services are payable as set forth in §5262.K.

A separate charge for the services of a physicist is not recognized unless such services are covered under the "incident to" provision (§2050ff) or the services are included as part of a technical component service billed by a freestanding radiation therapy center. The incident to provision may also be extended to include all necessary and appropriate services supplied by a radiation physicist assisting a radiologist when the physicist is in the physician's employ and working under direct supervision. Accordingly, to make sure that the additional charge made by the radiologist for the physicist's service is reasonable, the carrier must, as is done for paraprofessionals, set up either a reasonable charge screen for the physician's services to include consideration of the additional charge or a screen just for the technical service component. However, for the services of a physicist furnished on or after April 1, 1989, see §5262K.

l. The ambulance company makes a separate charge to all patients, both Medicare and non-Medicare, for unusual waiting time.

2. It is the general practice of ambulance companies in the locality to make an extra charge for unusual waiting time.

3. The claim is completely documented as to why the ambulance was required to wait and the exact time involved. The ambulance company should ordinarily obtain this documentation from the physician or hospital personnel responsible for admitting or discharging patients.

However, if this is not possible, the documentation may be a statement from the ambulance company based on a record containing all pertinent facts necessary to support the claim. The ambulance company could establish the necessary record by instructing its crews to ascertain from the physician or responsible hospital personnel the reason for the wait at the time it occurs. The reason could be entered on the ambulance log over the signature of the physician or other informant.

5215.2 Apportionment of Payment for Ambulance Services.--Partial payments for ambulance services determined in accordance with §2125(5) should be apportioned among the suppliers where (l) more than one supplier has furnished the covered ambulance service; and (2) one or more such suppliers has accepted an assignment of the Medicare benefit. In such cases, the shares allocable to the respective suppliers for their services should be paid to those suppliers which have accepted assignments and the balance of the partial payment (if any) should be paid to the beneficiary. Where there is no assignment no apportionment by the carrier is necessary, since all of the partial payment is made to the beneficiary.

Where apportioning a partial payment (i.e., 80% of the reasonable charge that can be allowed after the deductible has been met) is necessary, the carrier should use the ratios of (l) the full reasonable charges that would have been applicable to the covered services of each supplier, had full (rather than partial) payment been involved, to (2) the total of such reasonable charges. For example, where a partial payment of $l00 can be made for the covered services that three ambulance companies have rendered, and the full reasonable charges for each company's covered services would have been $150, $75, and $75 respectively; then the first ambulance company would be paid $50 (i.e., one half of the partial payment), and the two other companies would each be paid $25 (i.e., one quarter of the partial payment).

The use of the ratios outlined above may entail some claims processing complexities. For example, one (or more) of the ambulance companies involved in a partial payment situation may not be located in the service area of the carrier with claims processing jurisdiction (see §3100).

In such instances, it will be necessary for the carrier processing the claim to obtain customary and prevailing charge data, (with regional office assistance), from the carrier in whose service area the ambulance company is located.

Appendix A - 2001 Geographic Practice Cost Indices by Medicare Carrier and Locality

15000. SCHEDULE FOR PHYSICIANS' SERVICES

Pay for physicians' services furnished on or after January 1, 1992 on the basis of a fee schedule. The Medicare allowed charge for such physicians' services is the lower of the actual charge or the fee schedule amount. The Medicare payment is 80 percent of the allowed charge after the deductible is met.

15002. PHYSICIANS' SERVICES PAID UNDER FEE SCHEDULE

Use the fee schedule when paying for the following physicians' services, if those services were payable on a reasonable charge or fee schedule basis prior to January 1, 1992.

- Professional services (including attending physicians' services furnished in teaching settings) of doctors of medicine and osteopathy (including osteopathic practitioners), doctors of optometry, doctors of podiatry, doctors of dental surgery and dental medicine, and chiropractors;

- Supplies and services covered incident to physicians' services other than certain drugs covered as incident to services;

- Physical and occupational therapy furnished by physical therapists and occupational therapists in independent practices;

- Diagnostic tests other than clinical laboratory tests. See §5114 for payment for clinical diagnostic laboratory tests;

- Radiology services; and

- Monthly capitation payment (MCP) for physicians' services associated with the continuing medical management of end stage renal disease (ESRD) services.

Prior to January 1, 1992, do not use the fee schedule as the basis for payment for physicians' outpatient services for occupational and physical therapy services rendered by providers such as hospitals, SNFs, CORFs, HHAs, etc. The pre-January 1, 1992 payment method for these services was neither fee schedule nor reasonable charge. Therefore, the payment method (i.e., the reasonable costs for outpatient PT and OT rendered by providers) is not replaced by the fee schedule. Also, do not use the fee schedule to pay for direct medical and surgical services of teaching physicians in hospitals that have elected cost payment under §1861(b)(7) of the Act. Note also that the administration or injection of pneumococcal, influenza, or hepatitis B vaccines is not paid for under the physician fee schedule. Continue to pay for these injection services under section 5202.

When processing a claim, continue to determine if a service is reasonable and necessary to treat illness or injury. If a service is not reasonable and necessary to treat illness or injury for any reason (including lack of safety and efficacy because it is an experimental procedure, etc.), consider the service to be noncovered notwithstanding the presence of a payment amount for the service in the Medicare fee schedule. The presence of a payment amount in the Medicare physician fee schedule and the Medicare physician fee schedule data base (MPFSDB) does not imply that CMS has determined that the service may be covered by Medicare. The nature of the status indicator in the database does not control coverage except where the status is N for noncovered.

15004. ENTITIES/SUPPLIERS WHOSE PHYSICIANS' SERVICES ARE PAID FOR UNDER FEE SCHEDULE

As appropriate, pay for the above listed physicians' services under the fee schedule when they are billed by:

- A physician or physician group including optometrists, dentists, oral and maxillofacial surgeons, podiatrists, and chiropractors,

- A privately practicing physical therapist, including a speech-language pathologist (for outpatient physical therapy and speech-language services),

- A privately practicing occupational therapist (for outpatient occupational therapy services),

- A non-physician practitioner including a nurse practitioner, a physician assistant and a clinical nurse specialist beginning January 1, 1998, with respect to services these practitioners are authorized to furnish under state law.

- Another entity that furnishes outpatient physical therapy, occupational therapy, and speech-language pathology services: namely, a rehabilitation agency, a public health agency, a clinic, a skilled nursing facility, a home health agency (for beneficiaries who are not eligible for home health benefits because they are not home bound beneficiaries entitled to home health benefits), hospitals (when such services are provided to an outpatient or to a hospital inpatient who is entitled to benefits under Part A but who has exhausted benefits during a spell of illness, or who is not entitled to Part A benefits) and comprehensive outpatient rehabilitation facilities (CORFs). The fee schedule also applies to outpatient rehabilitation services furnished under an arrangement with any of the enumerated entities that are to be paid on the basis of the physician fee schedule.

- The supplier of the technical component of any radiology or diagnostic service, or

- An independent laboratory doing anatomic pathology services.

Also, pay for the above listed physicians' services under the fee schedule when they are billed by entities authorized to bill for physicians, suppliers, etc. under the reassignment rules. See §3060ff.

15006. METHOD FOR COMPUTING FEE SCHEDULE AMOUNT

A. Formula.--Compute the fully implemented resource-based Medicare fee schedule amount for a given service by using the following formula:

Fee Schedule Amount = [(RVUw x GPCIw) + (RVUpe x GPCIpe) + (RVUm x GPCIm)] x CF

For each fee schedule service, there are three relative values:

- A relative value for physician work (RVUw),
- A relative value for practice expense (RVUpe), and
- A relative value for malpractice (RVUm).

For each payment locality, there are three geographic practice cost indices (GPCIs):

- A GPCI for physician work (GPCIw),
- A GPCI for practice expense (GPCIpe), and
- A GPCI for malpractice (GPCIm).

Use the applicable national conversion factor (CF) in the computation of every fee schedule amount. The national CFs are:

2001	$38.2581	2000	$36.6137	1999	$34.7315	1998	$36.6873

1997	$40.9603(S) $33.8454(NS) $35.7671(PC)	1996	$40.7986(S) $34.6293(NS) $35.4173(PC)	1995	$39.447(S) $34.616(NS) $36.382(PC)	1994	$35.158(S) $32.905(NS) $33.718(PC)

1993	$31.962(S) $31.249(NS)	1992	$31.001

S= Surgical NS= Nonsurgical PC= Primary Care

For the years 1999 through 2002, payment attributable to practice expenses will transition from charge-based amounts to resource-based practice expense RVUs. The practice expense RVUs calculated by CMS (formerly HCFA) reflect the following transition formula:

1999 - 75 percent of charged-based RVUs and 25 percent of the resource-based RVUs.

2000 - 50 percent of the charge-base RVUs and 50 percent of the resource-based RVUs.

2001 - 25 percent of the charge-based RVUs and 75 percent of the resource-based RVUs.

2002 - 100 percent of the resource-based RVUs.

CMS has calculated separate facility and non-facility resource-based practice expense RVUs. In addition, some services were subject to a reduction in payment in facility settings under the charge-based system. For these services, the transitioned facility practice expense RVUs will reflect the reduced charge-based RVUs and the facility resource based RVUs. The transitioned non-facility RVUs will reflect the unreduced charge-based RVUs and the resource-based non-facility RVU. For all other services, the facility or non-facility transitioned RVUs will reflect the base RVUs and the respective facility or non-facility resource-based RVUs.

Example of Computation of Fee Schedule Amount

To compute the payment amount for biopsy of skin lesion (CPT code 11100) in Birmingham, Alabama in 1996, use the following RVUs for work, practice expense, and malpractice:

Work RVU (RVUw) = 0.81
Practice expense RVU (RVUpe) = 0.51
Malpractice RVU (RVUm) = 0.04

Next, use the GPCI values for work, practice expense, and malpractice for Birmingham:

Work GPCI (GPCIw) = 0.994
Practice expense GPCI (GPCIpe) = 0.912
Malpractice GPCI (GPCIm) = 0.927

Finally, using $40.7986 as the uniform national CF, place the values into the formula provided and compute:

Payment = (RVUw x GPCIw) + (RVUpe x GPCIpe) + (RVUm x GPCIm) x CF
Payment = (0.81 x 0.994) + (0.51 x 0.912) + (0.04 x .927) x 40.7986
Payment = (0.81) + (0.47) + (0.04) x 40.7986
Payment = (1.32) x 40.7986
Payment = $53.85 (Full Fee Schedule Payment)

Round fee schedule amounts to the nearest cent.

CMS is providing you the essential components of the fee schedule, including the calculation of the fee schedule payment amounts for each locality, via the Medicare Fee Schedule Data Base.

B. No CMS RVUs.--The only services for which CMS does not give you relatives values are:

- Those with local codes,
- Those with national codes where national relative values have not been established,
- Those requiring “By Report” payment or carrier pricing, and
- Those which are not included in the definition of physicians’ services.

For services with national codes but for which national relative values have not been provided, establish local relative values (to be multiplied, in your system, by the national CF), as appropriate, or establish a flat local payment amount, whichever you prefer.

The “By Report” services (with national codes or modifiers) include services with codes ending in 99, team surgery services, unusual services, reduced services, and radio nuclide codes A4641 and 79900. The status indicators of the Medicare Fee Schedule Data Base identify these specific national codes and modifiers that you are to continue to pay for on a “By Report” basis. Do not establish RVUs for them. Similarly, do not establish RVUs for “By Report” services with local codes or modifiers.

Do not establish RVUs for noncovered and always bundled services for which CMS has not established national RVUs. The Medicare fee schedule data base identifies noncovered national codes and codes which are always bundled.

C. Diagnostic Procedures and Other Codes With Professional and Technical Components.--For diagnostic procedure codes and other codes describing services with both professional and technical components, relative values are provided for the global service, the professional component, and the technical component. The determination of which HCPCS codes fall into this category is made by CMS.

D. No Special RVUs for Limited License Practitioners.--There are no special RVUs for limited license physicians, e.g., optometrists, podiatrists. The fee schedule RVUs apply to a service regardless of whether a medical doctor, doctor of osteopathy, or limited license physician performs the service.

If a physician bills a visit on the same day that he or she also bills for physical therapy using CPT physical therapist codes, the physician must be prepared to document that the visit was unrelated to the physical therapy services for which separate payment is made.

Physicians and independently practicing physical therapists may bill for physical therapy modalities and therapies using the CPT codes (97010-97799). Do not restrict their use of these codes other than to ensure that duplicate payment is not made for services on the same date of service. For example, you may not restrict either physicians or independently practicing physical therapists to use of the alpha-numeric codes. Pay the same amount for a code regardless of whether an independently practicing physical therapist or a physician bills it.

15008. TRANSITION PAYMENTS

The fee schedule amounts computed above apply in 1996 if there is no transition to the fee schedule for that particular code in that area. The transition occurred from 1992 through 1995. To determine whether the transition provisions apply, the historical payment basis for a service is compared to the fee schedule amount computed under §15006. The results are transition fee schedule amounts applicable in 1992 through 1995.

15010. BUNDLED SERVICES/SUPPLIES

There are a number of services/supplies which are covered under Medicare and which have CPT codes, but they are services for which Medicare bundles payment into the payment for other related services.

A. Routinely Bundled.--These are services/supplies for which separate payment is almost never made. CMS has provided RVUs for many of the bundled services/supplies. However, the RVUs are not for Medicare payment use. Do not establish your own relative values for these services.

If you receive a claim which is solely for one of these always bundled services or supplies, develop the claim. If the physician has, at any time in the past year, rendered another service to the beneficiary, consider the bill for the service/supply part of or incident to that prior service. If the physician has not provided another service to the patient during that time period, use RVUs, if provided, as a guide for payment, for any service which is the subject of the claim on a "By Report" basis if it qualifies as a covered physician service. However, deny payment for any service/supply item which is the sole subject of the claim, since there is no service to which it can be incident.

B. Injection Services.--Injection services (codes 90782, 90783, 90784, 90788, and 90799) included in the fee schedule are not paid for separately if the physician is paid for any other physician fee schedule service rendered at the same time. Pay separately for those injection services only if

87164 Dark field examination, any source (e.g. penile, vaginal, oral, skin); includes specimen collection
87207 Smear, primary source, with interpretation; special stain for inclusion bodies or intracellular parasites (e.g. malaria, kala azar, herpes)
88371 Protein analysis of tissue by Western Blot, with interpretation and report.
88372 Protein analysis of tissue by Western Blot, immunological probe for band identification, each
89060 Crystal identification by light microscopy with or without polarizing lens analysis, any body fluid (except urine)

15021. ORDERING DIAGNOSTIC TESTS

A. Definitions.--

1. A "diagnostic test" includes all diagnostic x-ray tests, all diagnostic laboratory tests, and other diagnostic tests furnished to a beneficiary.

2. A "treating physician" is a physician, as defined in §1861(r) of the Social Security Act (the Act), who furnishes a consultation or treats a beneficiary for a specific medical problem, and who uses the results of a diagnostic test in the management of the beneficiary's specific medical problem.

NOTE: A radiologist performing a therapeutic interventional procedure is considered a treating physician. A radiologist performing a diagnostic interventional or diagnostic procedure is not considered a treating physician.

3. A "treating practitioner" is a nurse practitioner, clinical nurse specialist, or physician assistant, as defined in §1861(s)(2)(K) of the Act, who furnishes, pursuant to State law, a consultation or treats a beneficiary for a specific medical problem, and who uses the result of a diagnostic test in the management of the beneficiary's specific medical problem.

4. A "testing facility" is a Medicare provider or supplier that furnishes diagnostic tests. A testing facility may include a physician or a group of physicians (e.g., radiologist, pathologist), a laboratory, or an independent diagnostic testing facility (IDTF).

5. An "order" is a communication from the treating physician/practitioner requesting that a diagnostic test be performed for a beneficiary. The order may conditionally request an additional diagnostic test for a particular beneficiary if the result of the initial diagnostic test ordered yields to a certain value determined by the treating physician/practitioner (e.g., if test X is negative, then perform test Y). An order may include the following forms of communication:

a. A written document signed by the treating physician/practitioner, which is hand-delivered, mailed, or faxed to the testing facility;

b. A telephone call by the treating physician/practitioner or his/her office to the testing facility; and

c. An electronic mail by the treating physician/practitioner or his/her office to the testing facility.

NOTE: If the order is communicated via telephone, both the treating physician/practitioner or his/her office, and the testing facility must document the telephone call in their respective copies of the beneficiary's medical records.

B. Treating Physician/Practitioner Ordering of Diagnostic Tests.--The treating

physician/practitioner must order all diagnostic tests furnished to a beneficiary who is not an institutional inpatient or outpatient. A testing facility that furnishes a diagnostic test ordered by the treating physician/practitioner may not change the diagnostic test or perform an additional diagnostic test without a new order. This policy is intended to prevent the practice of some testing facilities to routinely apply protocols which require performance of sequential tests.

C. Different Radiology Diagnostic Test.--When the radiologist at a testing facility determines that an ordered diagnostic radiology test is clinically inappropriate or suboptimal, and that a different diagnostic test should be performed (e.g., an MRI should be performed instead of a CT scan because of the clinical indication), the radiologist/testing facility may not perform the unordered test until a new order from the treating physician/practitioner has been received. Similarly, if the result of an ordered diagnostic test is normal and the radiologist believes that another diagnostic test should be performed (e.g., a renal sonogram was normal and based on the clinical indication, the radiologist believes an MRI will reveal the diagnosis), an order from the treating physician must be received prior to performing the unordered diagnostic test.

D. Additional Diagnostic Radiology Test Exception.--If the testing facility cannot reach the treating physician/practitioner to change the order or obtain a new order and documents this in the medical record, then the testing facility may furnish the additional diagnostic test if all of the following criteria apply:

1. The testing center performs the diagnostic test ordered by the treating physician/practitioner;

2. The radiologist at the testing facility determines and documents that, because of the abnormal result of the diagnostic test performed, an additional diagnostic test is medically necessary;

3. Delaying the performance of the additional diagnostic test would have an adverse effect on the care of the beneficiary;

4. The result of the test is communicated to and is used by the treating physician/practitioner in the treatment of the beneficiary; and

5. The radiologist at the testing facility documents in his/her report why additional testing was done.

EXAMPLE: (a) the last cut of an abdominal CT scan with contrast shows a mass requiring a pelvic CT scan to further delineate the mass; (b) a bone scan reveals a lesion on the femur requiring plain films to make a diagnosis.

E. Radiologist Exception.--This exception applies to a radiologist of a testing facility who furnishes a diagnostic test to a beneficiary who is not a hospital inpatient or outpatient. The radiologist must document accordingly in his/her report to the treating physician/practitioner.

1. Test Design.--Unless specified in the order, the radiologist may determine, without notifying the treating physician/practitioner, the parameters of the diagnostic test (e.g., number of radiographic views obtained, thickness of tomographic sections acquired, use or non-use of contrast media).

2. Clear Error.--The radiologist may modify, without notifying the treating physician/practitioner, an order with clear and obvious errors that would be apparent to a reasonable layperson, such as the patient receiving the test (e.g., x-ray of wrong foot ordered).

3. Patient Condition.--The radiologist may cancel, without notifying the treating physician/practitioner, an order because the beneficiary's physical condition at the time of diagnostic testing will not permit performance of the test (e.g., a barium enema cannot be performed because of residual stool in colon on scout KUB; PA/LAT of the chest cannot be performed because the patient is unable to stand). When an ordered diagnostic test is cancelled, any medically necessary preliminary or scout testing performed is payable.

F. Surgical/Cytopathology Exception.--This exception applies to an independent laboratory's pathologist or a hospital pathologist who furnishes a pathology service to a beneficiary who is not a hospital inpatient or outpatient, and where the treating physician/practitioner does not specifically request additional tests the pathologist may need to perform. When a surgical or cytopathology specimen is sent to the pathology laboratory, it typically comes in a labeled container with a requisition form that reveals the patient demographics, the name of the physician/practitioner, and a clinical impression and/or brief history. There is no specific order from the surgeon or the treating physician/practitioner for a certain type of pathology service. While the pathologist will generally perform some type of examination or interpretation on the cells or tissue, there may be additional tests, such as special stains, that the pathologist may need to perform, even though they have not been specifically requested by the treating physician/practitioner. The pathologist may perform such additional tests under the following circumstances:

1. These services are medically necessary so that a complete and accurate diagnosis can be reported to the treating physician/practitioner;

2. The results of the tests are communicated to and are used by the treating physician/practitioner in the treatment of the beneficiary; and

3. The pathologist documents in his/her report why additional testing was done.

EXAMPLE: A lung biopsy is sent by the surgeon to the pathology department, and the pathologist finds a granuloma which is suspicious for tuberculosis. The pathologist cultures the granuloma, sends it to bacteriology, and requests smears for acid fast bacilli (tuberculosis). The pathologist is expected to determine the need for these studies so that the surgical pathology examination and interpretation can be completed and the definitive diagnosis reported to the treating physician for use in treating the beneficiary.

15022. PAYMENT CONDITIONS FOR RADIOLOGY SERVICES

A. Professional Component (PC).--Pay for the PC of radiology services furnished by a physician to an individual patient in all settings under the fee schedule for physician services regardless of the specialty of the physician who performs the service. For services furnished to hospital patients, pay only if the services meet the conditions for fee schedule payment in §15014.C.1 and are identifiable, direct, and discrete diagnostic or therapeutic services to an individual patient, such as an interpretation of diagnostic procedures and the PC of therapeutic procedures. The interpretation of a diagnostic procedure includes a written report.

B. Technical Component (TC).--

1. Hospital Patients.--Do not pay for the TC of radiology services furnished to hospital patients. Payment for physicians' radiological services to the hospital, e.g., administrative or supervisory services, and for provider services needed to produce the radiology service is made by the intermediary as provider services through various payment mechanisms.

2. Services Not Furnished in Hospitals.--Pay under the fee schedule for the TC of radiology services furnished to beneficiaries who are not patients of any hospital in a physician's office, a freestanding imaging or radiation oncology center, or other setting that is not part of a hospital.

3. Services Furnished in Leased Departments.--In the case of procedures furnished in a leased hospital radiology department to a beneficiary who is neither an inpatient nor an outpatient of any hospital, e.g., the patient is referred by an outside physician and is not registered as a hospital outpatient, both the PC and the TC of the services are payable under the fee schedule.

4. Purchased TC Services.--Apply the purchased services limitation as set forth in §15048 to the TC of radiologic services other than screening mammography procedures.

5. Computerized Axial Tomography (CT) Procedures.--Do not reduce or deny payment for medically necessary multiple CT scans of different areas of the body that are performed on the same day.

The TC RVUs for CT procedures that specify "with contrast" include payment for high osmolar contrast media. When separate payment is made for low osmolar contrast media under the conditions set forth in subsection F.1, reduce payment for the contrast media as set forth in subsection F.2.

6. Magnetic Resonance Imaging (MRI) Procedures.--Do not make additional payments for 3 or more MRI sequences. The RVUs reflect payment levels for 2 sequences.

The TC RVUs for MRI procedures that specify "with contrast" include payment for paramagnetic contrast media. Do not make separate payment under code A4647.

A diagnostic technique has been developed under which an MRI of the brain or spine is first performed without contrast material, then another MRI is performed with a standard (0.1mmol/kg) dose of contrast material and, based on the need to achieve a better image, a third MRI is performed with an additional double dosage (0.2mmol/kg) of contrast material. When the high-dose contrast technique is utilized:

- Do not pay separately for the contrast material used in the second MRI procedure;

- Pay for the contrast material given for the third MRI procedure through supply code A4643 when billed with CPT codes 70553, 72156, 72157, and 72158;

- Do not pay for the third MRI procedure. For example, in the case of an MRI of the brain, if CPT code 70553 (without contrast material, followed by with contrast material(s) and further sequences) is billed, make no payment for CPT code 70551 (without contrast material(s)), the additional procedure given for the purpose of administering the double dosage, furnished during the same session. Medicare does not pay for the third procedure (as distinguished from the contrast material) because the CPT definition of code 70553 includes all further sequences; and

- Do not apply the payment criteria for low osmolar contrast media in subsection F to billings for code A4643.

7. Stressing Agent.--Make separate payment under code J1245 for pharmacologic stressing agents used in connection with nuclear medicine and cardiovascular stress testing procedures furnished to beneficiaries in settings in which TCs are payable. Such an agent is classified as a supply and covered as an integral part of the diagnostic test. However, pay for code J1245 under the policy for determining payments for "incident to" drugs.

C. Nuclear Medicine (CPT 78000 Through 79999).--

1. Payments for Radionuclides.--The TC RVUs for nuclear medicine procedures (CPT codes 78XXX for diagnostic nuclear medicine, and codes 79XXX for therapeutic nuclear medicine) do not include the radionuclide used in connection with the procedure. These substances are separately billed under codes A4641 and A4642 for diagnostic procedures and code 79900 for therapeutic procedures and are paid on a "By Report" basis depending on the substance used. In addition, CPT code 79900 is separately payable in connection with certain clinical brachytherapy procedures. (See subsection D.3.)

2. Application of Multiple Procedure Policy (CPT Modifier 51).--Apply the multiple procedure reduction as set forth in §15038 to the following nuclear medicine diagnostic procedures: codes 78306, 78320, 78802, 78803, 78806, and 78807.

3. Generation and Interpretation of Automated Data.--Payment for CPT codes 78890 and 78891 is bundled into payments for the primary procedure.

15036. SITE-OF-SERVICE PAYMENT DIFFERENTIAL

Under the physician fee schedule, separate practice expense relative value units (PERVUs) are calculated for procedures furnished in facility and in non-facility settings. Facility PERVUs are applicable to procedures (except for therapy procedures) furnished:

- In hospitals;
- To patients in a Part A stay in a skilled nursing facility (SNF) identified on the HCFA 1500 claim form indicating Place of Service (POS) code 31; and
- In an ambulatory surgical center (ASC) that are included on the ASC approved list of procedures.

Non-facility PERVUs are applicable to procedures furnished:

- To patients who are not in a Part A stay in a SNF identified on the HCFA 1500 claim form indicating place of service (POS) code 32;
- In an ASC that is not included on the ASC approved list of procedures; and
- In all other facilities.

Non-facility PERVUs are applicable to therapy procedures regardless of whether they are furnished in facility or non-facility settings.

15038. MULTIPLE SURGERIES (CPT MODIFIER 51)

A. General.--When more than one surgical service is performed on the same patient, by the same physician, and on the same day:

- The fee schedule amount for a second procedure is 50 percent of the fee schedule amount that would have been otherwise applicable for that procedure; and
- The fee schedule amount for the third through fifth procedures is 50 percent of the fee schedule amount that would have been otherwise applicable for that procedure. Prior to January 1, 1995, the third through fifth procedures were paid at 25 percent of the fee schedule amount. Surgical procedures beyond the fifth are priced "by report" based on documentation of the services furnished. (See §4826.C for systems requirements related to payment for multiple surgeries.)

Sequence the procedures from the one which has the highest regular fee schedule amount to the one with the lowest. In the case of interventional radiology procedures, see §15022.E.

B. Multiple Endoscopies.--For multiple endoscopic procedures, use the full value of the highest valued endoscopy plus the difference between the next highest and the base endoscopy. For example, in the course of performing a fiberoptic colonoscopy (code 45378), a physician performs a biopsy (code 45380) and removes a polyp (code 45385). Both codes 45380 and 45385 contain the values of the base endoscopy, code 45378. Use the actual value of code 45385 plus the difference between codes 45380 and 45378. The endoscopic base codes are listed in the MFSDB. (See §4826.C.12 for additional information.)

15039. OPTOMETRY SERVICES

Effective April 1, 1987, Medicare pays for services of an optometrist, acting within the scope of his or her license, if he or she furnishes services that would be covered as physicians' services when performed by a doctor of medicine or osteopathy. To be covered under Medicare, the services must be medically reasonable and necessary for the diagnosis or treatment of illness or injury, and must meet all other applicable coverage requirements. (See also §§2020.5 and 5250.)

Medicare does not cover refractions. Therefore, payment for refractions is not included in the fee schedule amount for ophthalmological procedures (e.g., CPT codes 92002, 92004, 92012 and 92014). Physicians may bill the beneficiary separately for refractions using CPT code 92015.

15040. BILATERAL SURGERY

15040.1 General.--Make the reductions discussed in this section to subsequent bilateral surgical procedures performed by the same physician on the same day. See §4827 for systems requirements related to payment for bilateral procedures.

15040.2 Bilateral Surgery Indicators.--**{**tc \l4 "15040.2 Bilateral Surgery Indicators.--**}**Use the bilateral surgery indicator in the fee schedule data base shown for each code which indicates whether the bilateral surgery reduction policy applies to the code.

A. Bilateral Surgery Indicator Equals 0.--The bilateral adjustment is inappropriate for codes with indicator 0 because of physiology or anatomy or because the code description specifically states that it is a unilateral procedure and there is an existing code for the bilateral procedure.

Base payment on the lower of (a) the total actual charge for both sides or (b) 100 percent of the fee schedule amount for a single procedure if the procedure is reported with modifier -50 or is reported twice on the same day by any other method (e.g., with both RT and LT modifiers). This represents payment for the procedure performed on both sides of the body.

EXAMPLE: The fee schedule amount for code AAAAA is $125. The physician reports code AAAAA-LT and AAAAA-RT with an actual charge of $100 for each code. Base payment on the fee schedule amount for one code ($125) because it is lower than the actual charges for the procedure performed on both left and right sides ($200).

Some codes related to eyelids and/or eyelashes have a bilateral indicator of "0" but a multiple surgery indicator of "1" (standard or revised standard multiple surgery codes apply). (See §15038.) These codes may be provided as double bilaterals for which the physician bills as many units of the code as the number of procedures performed. For example, the physician bills for 4 units of the code if he or she performs the procedure on the top and bottom lid of each eye. You would then apply the multiple surgery rules in §15038 to the 4 units billed.

B. Bilateral Surgery Indicator Equals 1.--The bilateral adjustment is appropriate for codes with bilateral indicator of 1 because the code description is for a unilateral service and the payment amount is for a unilateral service, but physiology permits the service to be performed bilaterally.

Base payment on the lower of (a) the total actual charge for both sides or (b) 150 percent of the fee schedule payment for a single code if the code is billed with the bilateral modifier (CPT modifier -50) or is reported twice on the same day by any other means (e.g., with RT and LT modifiers or with a 2 in the units field).

EXAMPLE: The fee schedule amount for code BBBBB is $125. The physician reports code BBBBB-LT and BBBBB-RT with an actual charge of $100 for each code. Base payment on $187.50 (150 percent of the fee schedule amount for one code of $125) because it is lower than the actual charges for the left and right sides ($200). If the code is reported as a bilateral procedure and is reported with other procedure codes on the same date, apply the bilateral adjustment before applying any applicable multiple procedure rules.

C. Bilateral Surgery Indicator Equals 2.--The fee schedule amounts for these services were established as bilateral services because (a) the code description specifically states that the procedure is bilateral; (b) the code description states that the procedure may be performed either bilaterally or unilaterally; or 8 the procedure is typically performed as a bilateral procedure. Therefore, the bilateral adjustment does not apply.

Base payment on the lower of (a) the total actual charge for both sides or (b) 100 percent of the fee schedule amount for a single procedure if the procedure is reported with modifier -50 or is reported twice on the same day by any other means (e.g., with RT and LT modifiers or with a 2 in the units field). This represents payment for the procedure performed on both sides of the body.

EXAMPLE: The fee schedule amount for code CCCCC is $125. The physician reports codes CCCCC-LT and CCCCC-RT with an actual charge of $100 for each code. Base payment on $125 because it is lower than the actual charges for the procedure done on both left and right sides ($200).

D. Bilateral Surgery Indicator Equals 3.--Base payment for each procedure on the lower of (a) the actual charge for both sides or (b) 100 percent of the fee schedule for each procedure if the code is reported with modifier -50 or is reported for both sides on the same day by any other means (e.g., with RT and LT modifiers or with a 2 in the units column). The usual payment adjustment for bilateral procedures does not apply. Services in this category are generally radiology procedures or other diagnostic tests.

EXAMPLE: The fee schedule amount for code DDDDD is $125. The physician reports code DDDDD-LT and DDDDD-RT with an actual charge of $100 for each code. Base payment on $200 because it is the lower of the actual charge or the fee schedule amount ($250) for both procedures.

E. Bilateral Surgery Indicator Equals 9.--The concept does not apply. For example, visit codes cannot be bilateral.

15044. ASSISTANT AT SURGERY SERVICES

For assistant at surgery services performed by physicians, the fee schedule amount equals 16 percent of the amount otherwise applicable for the global surgery.

Do not pay assistants at surgery for surgical procedures in which a physician is used as an assistant at surgery in fewer than 5 percent of the cases for that procedure nationally. Use EOMB message 23.14 in §7012 to deny payment for the assistant at surgery services listed.

First, as the words denote, an assistant at surgery must actively assist when a physician performs a Medicare-covered surgical procedure. This necessarily entails that the assistant be involved in the actual performance of the procedure, not simply in other, ancillary services. Since an assistant would, thus, be occupied during the surgical procedure, the assistant would not be available to perform (and thus, could not bill for) another surgical procedure during the same time period.

In addition to the assistant at surgery modifiers 80, 81, or 82, any procedures submitted with modifiers AM, AS, AY, QB, or QU are subject to the assistant surgeon's policy enunciated in the Medicare physician fee schedule data base (MPFSDB). Accordingly, pay claims for procedures with these modifiers only if the services of an assistant surgeon are authorized.

Physicians are prohibited from billing a Medicare beneficiary for assistant at surgery services for procedure codes subject to the limit. Physicians who knowingly and willfully violate this prohibition and bill a beneficiary for an assistant at surgery service for these procedures codes may be subject to the penalties contained under §1842(j)(2) of the Act.

15046. CO-SURGEONS/SURGICAL TEAM

For co-surgeons (modifier 62), the fee schedule amount applicable to the payment for each co-surgeon is 62.5 percent of the global surgery fee schedule amount. Team surgery (modifier 66) is paid for on a "By Report" basis.

15047. PREOPERATIVE SERVICES

A. General.--This manual instruction addresses payment for preoperative services that are not included in the global surgery payment. Sections 4820 and 4821 of the Medicare Carriers Manual (MCM) describe the preoperative care that is included in the global surgery payment.

B. Non-global Preoperative Services.--Consist of evaluation and management (E/M) services (preoperative examinations) that are not included in the global surgical package and diagnostic tests performed for the purpose of evaluating a patient's risk of perioperative complications and optimizing perioperative care. Medicare will pay for all medically necessary preoperative services as described in §15047, subsections C and D.

C. Non-global Preoperative Examinations.--E/M services performed that are not included in the global surgical package for the purpose of evaluating a patient's risk of perioperative complications and to optimize perioperative care. Preoperative examinations may be billed by using an appropriate CPT code (e.g., new patient, established patient, or consultation). Such non-global preoperative examinations are payable if they are medically necessary and meet the documentation and other requirements for the service billed.

D. Preoperative Diagnostic Tests.--Tests performed to determine a patient's perioperative risk and optimize perioperative care. Preoperative diagnostic tests are payable if they are medically necessary and meet any other applicable requirements.

E. Statutory Basis for Payment.--

1. Section 1862(a)(7) of the Social Security Act (the Act) excludes payment for "routine physical checkups." Both physical examinations and diagnostic tests that are performed in the absence of signs or symptoms of illness or injury may be denied as a routine physical checkup under §1862(a)(7) of the Act. The regulatory provision that further explains this policy is contained in 42 CFR Part 411.15(a)(1).

2. Section 1862(a)(1)(A) of the Act states that no payment will be made for "items or services which are not reasonable and necessary for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member." Both physical examinations and diagnostic tests performed in the absence of signs or symptoms can be denied as unnecessary under §1862(a)(1)(A) of the Act.

3. Through previous program and decision memoranda, Medicare has established a clear hierarchy in the application of these two statutory provisions for use in denying payment for physical examinations and diagnostic tests. Claims are initially evaluated against the statutory requirements of §1862(a)(7) of the Act and, if not denied on that basis, they are evaluated against the statutory requirements of §1862 (a)(1)(A). If they meet the statutory requirements of §1862(a)(1)(A) of the Act, they are paid. In general, §1862(a)(1)(A) of the Act is to be invoked only for denying payment for services that are otherwise covered, and are not otherwise excluded from payment, but which are not covered in a particular case because they are not deemed "medically reasonable and necessary" when performed in that specific situation.

15049. OCULAR PHOTODYNAMIC THERAPY (OPT)

Ocular Photodynamic Therapy (OPT) is a treatment for age-related macular degeneration (AMD). Effective January 1, 2001, use CPT code 67221 to bill for OPT. Separate payment is made for any other services, e.g., evaluation and management services, fluorescein angiography, or other ocular diagnostic services, even when provided on the same day as OPT.

The drug, verteporfin (VisudyneTM) was approved by the Food and Drug Administration April 13, 2000, for the treatment of certain forms of AMD. Verteporfin is the first drug approved for OPT. Effective July 1, 2001, verteporfin was approved for inclusion in the United States Pharmacopeia (USP). Therefore, for dates of service beginning July 1, 2001, verteporfin is billed incident to a physician's service under drug code Q3013. When claims are submitted for OPT performed on both eyes on the same day, make a single payment for verteporfin and the infusion of verteporfin, as a single infusion is adequate for treatment of both eyes.

There is no national coverage policy for transpupillary thermal therapy, destruction of macular drusen by photocoagulation and feeder vessel technique (photocoagulation). These procedures should be coded as CPT 67299. Both coverage and payment for these procedures are carrier determined.

15050. ALLERGY TESTING AND IMMUNOTHERAPY

A. Allergy Testing.--Allergy testing services billed under codes 95004-95078 are paid under the Medicare fee schedule for physician services using the national RVUs included in the data base. The RVUs shown for each code are per test. Therefore, instruct physicians to show the quantity of tests provided when billing. Multiply the payment for one test by the quantity for the code.

EXAMPLE: If a physician performs 25 percutaneous tests (scratch, puncture, or prick) with allergenic extract, the physician must bill code 95004 and specify 25 in the units field of Form CMS-1500 (paper claims or electronic format). To compute payment, the Medicare carrier multiplies the payment for one test (i.e., the payment listed in the fee schedule) by the quantity listed in the units field.

B. Allergy Immunotherapy.--For services rendered on or after January 1, 1995, all antigen/allergy immunotherapy services are paid for under the Medicare physician fee schedule. Prior to that date, only the antigen injection services, i.e., only codes 95115 and 95117, were paid for under the fee schedule. Codes representing antigens and their preparation and single codes representing both the antigens and their injection were paid for under the Medicare reasonable charge system. A legislative change brought all of these services under the fee schedule at the beginning of 1995 and the following policies are effective as of January 1, 1995:

1. You are no longer to recognize and physicians are no longer to use the J antigen codes (i.e., J0220, J0230, J0240, J7010, and J7020) or CPT codes 95120 through 95134. Codes 95120 through 95134 represent complete services, i.e., services that include both the injection service as well as the antigen and its preparation.

2. You are to recognize and physicians are to bill only the component codes, i.e., the injection only codes (i.e., codes 95115 and 95117) and/or the codes representing antigens and their preparation (i.e., codes 95144 through 95170). Pay physicians billing for only the injection service the appropriate code 95115 or code 95117 allowance. Pay physicians billing for only an antigen/antigen preparation service for the appropriate code in the range from 95144 through 95170. Pay physicians providing both services both the injection and the antigen/antigen preparation allowance. This includes allergists who provide both services through the use of treatment boards. They will no longer use the complete service codes and instead are to bill and be paid for both the injection and the antigen services separately, even though the current CPT definitions of the antigen codes refer to vials and the physicians using treatment boards do not create vials.

3. If a physician bills both an injection code plus either codes 95165 or 95144, pay the appropriate injection code (i.e., code 95115 or code 95117) plus the code 95165 rate. When a provider bills for codes 95115 or 95117 plus code 95144, change 95144 to 95165 and pay accordingly. Code 95144 (single dose vials of antigen) should be billed only if the physician providing the antigen is providing it to be injected by some other entity. Single dose vials, which should be used only as a means of insuring proper dosage amounts for injections, are more costly than multiple dose vials (i.e., code 95165) and therefore their payment rate is higher. Allergists who prepare antigens are assumed to be able to administer proper doses from the less costly multiple dose vials. Thus, regardless of whether they use or bill for single or multiple dose vials at the same time that they are billing for an injection service, they are paid at the multiple dose vial rate.

4. The fee schedule amounts for the antigen codes (95144 through 95170) are for a single dose. When billing those codes, physicians are to specify the number of doses provided. When making payment, multiply the fee schedule amount by the number of doses specified in the units field.

5. If a patient's doses are adjusted, e.g., because of patient reaction, and the antigen provided is actually more or fewer doses than originally anticipated, the physician is to make no change in the number of doses for which he or she bills. The number of doses anticipated at the time of the antigen preparation is the number of doses to be billed. This is consistent with the notes on page 30 of the Spring 1994 issue of the American Medical Association's CPT Assistant. Those notes indicate that the antigen codes mean that the physician is to identify the number of doses "prospectively planned to be provided." The physician is to "identify the number of doses scheduled when the vial is provided." This means that in cases where the patient actually gets more doses than originally anticipated (because dose amounts were decreased during treatment) and in cases where the patient gets fewer doses (because dose amounts were increased), no change is to be made in the billing. In the first case, you are not to pay more because the number of doses provided in the original vial(s) increased and in the second case, you are not to seek recoupment (if you have already made payment) because the number of doses is less than originally planned. This is the case for both venom and non-venom antigen codes.

6. Venom Doses and Catch-Up Billing. Venom doses are prepared in separate vials and not mixed together--except in the case of the three vespid mix (white and yellow hornets and yellow jackets). A dose of code 95146 (the two-venom code) means getting some of two venoms. Similarly, a dose of code 95147 means getting some of three venoms; a dose of code 95148 means getting some of four venoms; and a dose of 95149 means getting some of five venoms. Some amount of each of the venoms must be provided. Questions arise when the administration of these venoms does not remain synchronized because of dosage adjustments due to patient reaction. For example, a physician prepares ten doses of code 95148 (the four venom code) in two vials--one containing 10 doses of three vespid mix and another containing 10 doses of wasp venom. Because of dose adjustment, the three vespid mix doses last longer, i.e., they last for 15 doses. Consequently, questions arise regarding the amount of "replacement" wasp venom antigen that should be prepared and how it should be billed. Medicare pricing amounts have savings built into the use of the higher venom codes. Therefore, if a patient is in two venom, three venom, four venom or five venom therapy, your objective is to pay at the highest venom level possible. This means that, to the greatest extent possible, code 95146 is to be billed for a patient in two venom therapy, code 95147 is to be billed for a patient in three venom therapy, code 95148 is to be billed for a patient in four venom therapy, and code 95149 is to be billed for a patient in five venom therapy. Thus, physicians are to be instructed that the venom antigen preparation, after dose adjustment, must be done in a manner that, as soon as possible, synchronizes the preparation back to the highest venom code possible. In the above example, the physician should prepare and bill for only 5 doses of "replacement" wasp venom - billing 5 doses of code 95145 (the one venom code). This will permit the physician to get back to preparing the four venoms at one time and therefore billing the doses of the "cheaper" four venom code. Use of a code below the venom treatment number for the particular patient should occur only for the purpose of "catching up".

7. Code 95165 Doses. Code 95165 represents preparation of vials of non-venom antigens. As in the case of venoms, some non-venom antigens cannot be mixed together, i.e., they must be prepared in separate vials. An example of this is mold and pollen. Therefore, some patients will be injected at one time from one vial - containing in one mixture all of the appropriate antigens - while other patients will be injected at one time from more than one vial. In establishing the practice expense component for mixing a multidose vial of antigens, we observed that the most common practice was to prepare a 10 cc vial; we also observed that the most common use was to remove aliquots with a volume of 1 cc. Our PE computations were based on those facts. Therefore, a physician's removing 10 1 cc aliquot doses captures the entire PE component for the service.

This does not mean that the physician must remove 1 cc aliquot doses from a multidose vial. It means that the practice expenses payable for the preparation of a 10cc vial remain the same irrespective of the size or number of aliquots removed from the vial. Therefore, a physician may not bill this vial preparation code for more than 10 doses per vial; paying for more than 10 doses per multidose vial would significantly overpay the practice expense component attributable to this service. (Note that this code does not include the injection of antigen(s); injections of antigen(s) is separately billable.)

When a multidose vial contains less than 10cc, physicians should bill Medicare for the number of 1 cc aliquots that may be removed from the vial. That is, a physician may bill Medicare up to a maximum of 10 doses per multidose vial, but should bill Medicare for fewer than 10 doses per vial when there is less than 10cc in the vial.

If it is medically necessary, physicians may bill Medicare for preparation of more than one multidose vial.

EXAMPLES:

(1) If a 10cc multidose vial is filled to 6 cc with antigen, the physician may bill Medicare for 6 doses since six 1cc aliquots may be removed from the vial.

(2) If a 5cc multidose vial is filled completely, the physician may bill Medicare for 5 doses for this vial.

(3) If a physician removes ½ cc aliquots from a 10cc multidose vial for a total of 20 doses from one vial, he/she may only bill Medicare for 10 doses. Billing for more than 10 doses would mean that Medicare is overpaying for the practice expense of making the vial.

(4) If a physician prepares two 10cc multidose vials, he/she may bill Medicare for 20 doses. However, he/she may remove aliquots of any amount from those vials. For example, the physician may remove ½ aliquots from one vial, and 1cc aliquots from the other vial, but may bill no more than a total of 20 doses.

(5) If a physician prepares a 20cc multidose vial, he/she may bill Medicare for 20 doses, since the practice expense is calculated based on the physician's removing 1cc aliquots from a vial. If a physician removes 2 cc aliquots from this vial, thus getting only 10 doses, he/she may nonetheless bill Medicare for 20 doses because the PE for 20 doses reflects the actual practice expense of preparing the vial.

(6) If a physician prepares a 5cc multidose vial, he may bill Medicare for 5 doses, based on the way that the practice expense component is calculated. However, if the physician removes 10 ½ cc aliquots from the vial, he/she may still bill only 5 doses because the practice expense of preparing the vial is the same, without regard to the number of additional doses that are removed from the vial.

C. Allergy Shots and Visit Services On Same Day.--At the outset of the physician fee schedule, the question was posed as to whether visits should be billed on the same day as an allergy injection (CPT codes 95115-95117), since these codes have status indicators of A rather than T.

Visits should not be billed with allergy injection services 95115 or 95117 unless the visit represents another separately identifiable service. This language parallels CPT editorial language that accompanies the allergen immunotherapy codes, which include codes 95115 and 95117. Prior to January 1, 1995, you appeared to be enforcing this policy through three (3) different means:

- o Advising physicians to use modifier 25 with the visit service;
- o Denying payment for the visit unless documentation has been provided; and
- o Paying for both the visit and the allergy shot if both are billed for.

For services rendered on or after January 1, 1995, you are to enforce the requirement that visits not be billed and paid for on the same day as an allergy injection through the following means. Effective for services rendered on or after that date, the global surgery policies will apply to all codes in the allergen immunotherapy series, including the allergy shot codes 95115 and 95117. To accomplish this, CMS changed the global surgery indicator for allergen immunotherapy codes from XXX, which meant that the global surgery concept did not apply to those codes, to 000, which means that the global surgery concept applies, but that there are no days in the postoperative global period. Now that the global surgery policies apply to these services, you are to rely on the use of modifier 25 as the only means through which you can make payment for visit services provided on the same day as allergen immunotherapy services. In order for a physician to receive payment for a visit service provided on the same day that the physician also provides a service in the allergen immunotherapy series (i.e., any service in the series from 95115 through 95199), the physician is to bill a modifier 25 with the visit code, indicating that the patient's condition required a significant, separately identifiable visit service above and beyond the allergen immunotherapy service provided.

D. Reasonable Supply of Antigens.--See §2049.4A regarding the coverage of antigens, including what constitutes a reasonable supply of antigens.

15052. HPSA BONUS PAYMENTS

In HPSA areas, pay physicians an additional 10 percent above the amount paid under the fee schedule (i.e., 10 percent of 80 percent of the lower of the fee schedule or the actual charge). See §3350 for detailed instructions.

15054. NO ADJUSTMENTS

Do not make fee schedule adjustments for:

- Inherent reasonableness (see §5246);
- Comparability (see §5026);
- Multiple visits to nursing homes (i.e., when more than one patient is seen during the same trip) (see §5210);
- Refractions. If you receive a claim for a service that also indicates that a refraction was done, do not reduce payment for the service. CMS has already made the reduction in the RVUs being provided to you. See §§4125 and 5217 for claims processing instructions;

- HCPCS alpha-numeric modifiers AT (acute treatment), ET (emergency treatment), LT (left side of body), RT (right side of body), SF (second opinion ordered by PRO), YY (second surgical opinion), and ZZ (third surgical opinion);

- CPT modifiers 23 (unusual anesthesia), 32 (mandated services), 47 (anesthesia by surgeon), 76 (repeat procedure by same physician), and 90 (reference laboratory); and

- Carrier-unique local modifiers (HCPCS level 3 modifiers beginning with the letters w through z).

15055. ALLOWABLE ADJUSTMENTS

Effective 1/1/2000, the replacement code (CPT 69990) for modifier -20, may be paid separately only when submitted with CPT codes 61304 through 61546, 61550 through 61711, 62010 through 62100, 63081 through 63308, 63704 through 63710, 64831, 64834 through 64836, 64840 through 64858, 64861 through 64870, 64885 through 64898 and 64905 through 64907.

15056. MULTIPLE ADJUSTMENTS

When multiple adjustments apply, see billing guidelines beginning at §4826 for the sequence.

15058. UPDATE FACTOR FOR FEE SCHEDULE SERVICES

CMS provides, on an annual basis, an update factor which you are to apply to update fee schedule amounts. (See §15006.)

Pay for all services rendered in 1992 on the basis of the 1992 fee schedule amounts and for all services rendered prior to 1992 on the basis of the 1991 screens. In processing fee schedule claims in 1993 and beyond, apply the fee schedule screen in effect on the date the service was rendered. However, maintain in your system no more than two update or payment periods, i.e., maintain in your system only the current fee schedule screens and the prior year screens. Therefore, if a service was rendered prior to the date that the prior year screens were in effect, and the claim is only just being processed, pay based on the prior year screen. Note that this seldom, if ever, occurs now that physicians and suppliers are required to submit unassigned claims within 12 months of providing a service.

An example of a mutually exclusive situation is when the repair of the organ can be performed by two different methods. One repair method must be chosen to repair the organ and must be billed. Another

example is the billing of an "initial" service and a "subsequent" service. It is contradictory for a service to be classified as an initial and a subsequent service at the same time.

CPT codes which are mutually exclusive of one another based either on the CPT definition or the medical impossibility/improbability that the procedures could be performed at the same session can be identified as code pairs. These codes are not necessarily linked to one another with one code narrative describing a more comprehensive procedure compared to the component code, but can be identified as code pairs which should not be billed together.

M. Misuse of Column 2 Code With Column 1 Code.--CPT codes have been written as precisely as possible to not only describe a specific service or procedure but to also avoid describing similar services or procedures which are already defined by other CPT codes. When a CPT code is reported, the physician or non-physician provider must have performed all of the services noted in the descriptor unless the descriptor states otherwise. (Frequently, a CPT descriptor will identify certain services that may or may be included, usually stating “with or without” a service.) A CPT code should not be reported out of the context for which it was intended.

N. Use of Modifiers.--When certain component codes or mutually exclusive codes are appropriately furnished, such as later on the same day or on a different digit or limb, it is appropriate that these services be reported using a HCPCS modifier. Such modifiers are modifiers E1 - E4, FA, F1 - F9, TA, T1 - T9, LT, RT, LC, LD, RC, 58, 59, 78, 79 and 91.

The -59 modifier is not appropriate to use with weekly radiation therapy management codes (77419-77430), nor with evaluation and management services codes (99201-99499).

Application of these modifiers prevent erroneous denials of claims for several procedures performed on different anatomical sites, on different sides of the body, or at different sessions on the same date of service. The medical record must reflect that the modifier is being used appropriately to describe separate services. (See §4630 for implementation related instructions.)

NEXT PAGE IS 15-71.

15360. ECHOCARDIOGRAPHY SERVICES (CODES 93303 - 93350)

A. Separate Payment for Contrast Media.--Effective October 1, 2000, physicians may separately bill for contrast agents used in echocardiography. Physicians should use HCPCS Code A9700 (Supply of injectable contrast material for use in echocardiography, per study). The type of service code is 9. This code will be carrier-priced.

15400. CHEMOTHERAPY ADMINISTRATION (CODES 96400-96549)

A. General Use of Codes.--Chemotherapy administration codes, 96400 through 96450, 96542, 96545, and 96549, are only to be used when reporting chemotherapy administration when the drug being used is an antineoplastic and the diagnosis is cancer. The administration of other drugs, such as growth factors, saline, and diuretics, to patients with cancer, or the administration of antineoplastics to patients with a diagnosis other than cancer, are reported with codes 90780 through 90784 as appropriate.

B. Chemotherapy Administration By Push and Infusion On Same Day.--Separate payment is allowed for chemotherapy administration by push and by infusion technique on the same day. Allow only one push administration on a single day.

C. Chemotherapy Infusion and Hydration Therapy Infusion On Same Day.--Separate payment is not allowed for the infusion of saline, an antiemetic, or any other nonchemotherapy drug under CPT codes 90780 and 90781 when administered at the same time as chemotherapy infusion (CPT codes 96410, 96412, or 96414). Separate payment is allowed for these two services on the same day when they are provided sequentially, rather than at the same time. Physicians use the modifier -GB to indicate when CPT codes 90780 and 90781 are provided sequentially with CPT codes 96410, 96412, and 96414.

D. Chemotherapy Administration and "Incident To" Services on Same Day.--On days when a patient receives chemotherapy administration but the physician has no face-to-face contact with the patient, the physician may report and be paid for "incident to" services furnished by one of the physician's employees, in addition to the chemotherapy administration, if they are furnished under direct personal supervision in the office by one of the physician's employees and the medical records reflect the physician's active participation in and management of the course of treatment. The correct code for this service is 99211.

E. Flushing Of Vascular Access Port.--Flushing of a vascular access port prior to administration of chemotherapy is integral to the chemotherapy administration and is not separately billable. If a special visit is made to a physician's office just for the port flushing, code 99211, brief office visit, should be used. Code 96530, refilling and maintenance of implantable pump or reservoir, while a payable service, should not be used to report port flushing.

F. Chemotherapy Administration and Hydration Therapy.--Do not pay separately for the infusion of saline, an antiemetic, or any other nonchemotherapy drug under codes 90780 and 90781 when these drugs are administered at the same time as chemotherapy infusion, codes 96410, 96412, or 96414. However, pay for the infusion of saline, antiemetics, or other nonchemotherapy drugs under codes 90780 and 90781 when these drugs are administered on the same day but sequentially to rather than at the same time as chemotherapy infusion, codes 96410, 96412, and 96414. Physicians should use modifier GB to indicate when codes 90780 and 90781 are provided sequentially rather than contemporaneously with codes 96410, 96412, and 96414. Both the chemotherapy and the nonchemotherapy drugs are payable regardless of whether they are administered sequentially or contemporaneously.

15501. EVALUATION AND MANAGEMENT SERVICE CODES - GENERAL (CODES 99201-99499)

A. Use Of CPT Codes.--Advise physicians to use CPT codes (level 1 of HCPCS) to code physician services, including evaluation and management services. Medicare will pay for E/M services for specific non-physician practitioners (i.e., nurse practitioner (NP), clinical nurse specialist (CNS) and certified nurse midwife (CNM)) whose Medicare benefit permits them to bill these services. A physician assistant (PA) may also provide a physician service, however, the physician collaboration and general supervision rules as well as all billing rules apply to all the above non-physician practitioners. The service provided must be medically necessary and the service must be within the scope of practice for a non-physician practitioner in the State in which he/she practices. Do not pay for CPT evaluation and management codes billed by physical therapists in independent practice or by occupational therapists in independent practice.

Medical necessity of a service is the overarching criterion for payment in addition to the individual requirements of a CPT code. It would not be medically necessary or appropriate to bill a higher level of evaluation and management service when a lower level of service is warranted. The volume of documentation should not be the primary influence upon which a specific level of service is billed. Documentation should support the level of service reported. The service should be documented during, or as soon as practicable after it is provided in order to maintain an accurate medical record.

B. Selection of Level Of Evaluation and Management Service.--Instruct physicians to select the code for the service based upon the content of the service. The duration of the visit is an ancillary factor and does not control the level of the service to be billed unless more than 50 percent of the face-to-face time (for non-inpatient services) or more than 50 percent of the floor time (for inpatient services)is spent providing counseling or coordination of care as described in subsection C.

The physician or any non-physician practitioner with the ability to bill Medicare services must submit his/her bill to reflect the actual service or portion of a service he/she performed. When a service performed is less than the CPT description of the level of the service, the physician and/or the non-physician practitioner must document and bill the service he/she individually provided. A claim for a service must always reflect the service actually provided. A physician and/or non-physician practitioner may submit a claim for CPA code 99499, Unlisted Evaluation and Management Service with a detailed report stating why the covered service was medically necessary and describing what service(s) was provided. The carrier has the discretion to value the service when the service does not meet the full terms of the CPT description (e.g., only a history is performed). The carrier will also determine the payment based on the applicable percentage of the physician fee schedule depending on whether the claim is paid at the physician rate or the limited licensed practitioner rate. CPT modifier -52 (reduced services) must not be used with an evaluation and management service. Medicare does not recognize modifier -52 for this purpose.

C. Selection Of Level Of Evaluation and Management Service Based On Duration Of Coordination Of Care and/or Counseling.{tc \l2 "C. Selection Of Level Of Evaluation and Management Service Based On Duration Of Coordination Of Care and/or Counseling.}--Advise physicians that when counseling and/or coordination of care dominates (more than 50%) the face-to-face physician/patient encounter or the floor time (in the case of inpatient services), time is the key or controlling factor in selecting the level of service. In general, to bill an E/M code, the physician must complete at least 2 out of 3 criteria applicable to the type/level of service provided. However, the physician may document time spent with the patient in conjunction with the medical decision-making involved and a description of the coordination of care or counseling provided. Documentation must be in sufficient detail to support the claim.

EXAMPLE: A cancer patient has had all preliminary studies completed and a medical decision to implement chemotherapy. At an office visit the physician discusses the treatment

options and subsequent lifestyle effects of treatment the patient may encounter or is experiencing. The physician need not complete a history and physical examination in order to select the level of service. The time spent in counseling/coordination of care and medical decision-making will determine the level of service billed.

The code selection is based on the total time of the face-to-face encounter or floor time, not just the counseling time. The medical record must be documented in sufficient detail to justify the selection of the specific code if time is the basis for selection of the code.

In the office and other outpatient setting, counseling and/or coordination of care must be provided in the presence of the patient if the time spent providing those services is used to determine the level of service reported. Face-to-face time refers to the time with the physician only. Counseling by other staff is not considered to be part of the face to face physician/patient encounter time. Therefore, the time spent by the other staff is not considered in selecting the appropriate level of service. The code used depends upon the physician service provided.

- When pre-operative critical care codes are being billed on the date of the procedure, the diagnosis must support that the service is unrelated to the performance of the procedure (see §15508.G.); or

- When a carrier has conducted a specific medical review process and determined, after reviewing the data, that an individual or a group has high use of modifier 25 compared to other physicians, has done a case-by-case review of the records to verify that the use of modifier was inappropriate, and has educated the individual or group, the carrier may impose pre-payment screens or documentation requirements for that provider or group.

Do not permit the use of CPT modifier 25 to generate payment for multiple evaluation and management services on the same day by the same physician, notwithstanding the CPT definition of the modifier.

C. CPT Modifier 57 - Decision For Surgery Made Within Global Surgical Period.--Pay for an evaluation and management service on the day of or on the day before a procedure with a 90 day global surgical period if the physician uses CPT modifier 57 to indicate that the service was for the decision to perform the procedure. Do not pay for an evaluation and management service billed with the CPT modifier 57 if it was provided on or the day before a procedure with a 0 or 10 day global surgical period.

15502. PAYMENT FOR OFFICE/OUTPATIENT VISITS (CODES 99201-99215)

A. Definition of New Patient For Selection Of Visit Code.--Interpret the phrase "new patient" to mean a patient who has not received any professional services from the physician within the previous 3 years. (See definition of physicians in group practice in Section 15501H.)

If no face to face encounter has previously occurred between the physician and the patient, then the patient may be coded as a new patient the first time a face to face encounter does occur. For example, if a professional component of a previous procedure is billed in a 3 year time period, e.g., a lab interpretation is billed but a face to face encounter does not take place, then this patient remains a new patient for whenever the initial evaluation and management service occurs. An interpretation of a diagnostic test, reading an x-ray or EKG etc., in the absence of a face to face encounter does not affect the new patient designation.

B. Office/Outpatient Visits Provided On Same Day For Unrelated Problems.--Do not pay two office visits billed by a physician for the same beneficiary on the same day unless the physician documents that the visits were for unrelated problems in the office or outpatient setting which could not be provided during the same encounter (e.g., office visit for blood pressure medication evaluation, followed 5 hours later by a visit for evaluation of leg pain following an accident).

C. Office/Outpatient or Emergency Department Visit On Day Of Admission To Nursing Facility.--Do not pay a physician for an emergency department visit or an office visit and a comprehensive nursing facility assessment on the same day. Bundle evaluation and management services on the same date provided in sites other than the nursing facility into the initial nursing facility care code when performed on the same date as the nursing facility admission by the same physician. (See §15509.)

D. Injection and Evaluation and Management Code Billed Separately on Same Day of Service.--Advise physicians that CPT code 99211 cannot be used to report a visit solely for the purpose of receiving an injection which meets the definition of CPT codes 90782, 90783, 90784, or 90788. Do not pay CPT codes 90782, 90783, 90784, or 90788 if any other physician fee schedule service was rendered.

The drug is billed as a J code, whether the injection is separately billable or not.

If no evaluation and management service or other service is provided on the same day as the injection, the injection code is billed.

15504. PAYMENT FOR HOSPITAL OBSERVATION SERVICES (CODES 99217-99220)

A. Who May Bill Initial Observation Care.--Pay for initial observation care billed by only the physician who admitted the patient to hospital observation and was responsible for the patient during his/her stay in observation. A physician who does not have inpatient admitting privileges but who is authorized to admit a patient to observation status may bill these codes.

For a physician to bill the initial observation care codes, there must be a medical observation record for the patient which contains dated and timed physician's admitting orders regarding the care the patient is to receive while in observation, nursing notes, and progress notes prepared by the physician while the patient was in observation status. This record must be in addition to any record prepared as a result of an emergency department or outpatient clinic encounter.

Payment for an initial observation care code is for all the care rendered by the admitting physician on the date the patient was admitted to observation. All other physicians who see the patient while he or she is in observation must bill the office and other outpatient service codes or outpatient consultation codes as appropriate when they provide services to the patient.

For example, if an internist admits a patient to observation and asks an allergist for a consultation on the patient's condition, only the internist may bill the initial observation care code. The allergist must bill using the outpatient consultation code that best represents the services he or she provided. The allergist cannot bill an inpatient consultation since the patient was not a hospital inpatient.

B. Physician Billing For Observation Care Following Admission To Observation.--If the patient is discharged on the same date as admission to observation, pay only the initial observation care code because that code represents a full day of care.

If the patient remains in observation after the first date following the admission to observation, it is expected that the patient would be discharged on that second calendar date. The physician bills CPT code 99217 for observation care discharge services provided on the second date.

In the rare circumstance when a patient is held in observation status for more than two calendar dates, the physician must bill subsequent services furnished before the date of discharge using the outpatient/office visit codes. The physician may not use the subsequent hospital care codes since the patient is not an inpatient of the hospital.

C. Admission To Inpatient Status From Observation.--If the same physician who admitted a patient to observation status also admits the patient to inpatient status from observation before the end of the date on which the patient was admitted to observation, pay only an initial hospital visit for the evaluation and management services provided on that date. Medicare payment for the initial hospital visit includes all services provided to the patient on the date of admission by that physician, regardless of the site of service. The physician may not bill an initial observation care code for services on the date that he or she admits the patient to inpatient status. If the patient is admitted to inpatient status from observation subsequent to the date of admission to observation, the physician must bill an initial hospital visit for the services provided on that date. The physician may not bill the hospital observation discharge management code (code 99217) or an outpatient/office visit for the care provided in observation on the date of admission to inpatient status.

D. Hospital Observation During Global Surgical Period.--The global surgical fee includes payment for hospital observation (codes 99217, 99218, 99219, and 99220) services unless the criteria for use of CPT modifiers 24, 25, or 57 are met. Pay for these services in addition to the global surgical fee only if both of the following requirements are met:

D. Transfer From One Hospital To Another By Same Physician; Transfer Within Facility To Prospective Payment System (PPS) Exempt Unit of Hospital; Transfer From One Facility To Another Separate Entity Under Same Ownership and/or Part of Same Complex; or Transfer From One Department To Another Within Single Facility.--Advise physicians that they may bill both the hospital discharge management code and an initial hospital care code when the discharge and admission do not occur on the same day if the transfer is between (1) different hospitals, (2) different facilities under common ownership which do not have merged records, or (3) between the acute care hospital and a PPS exempt unit within the same hospital when there are no merged records.

In all other transfer circumstances, the physician should bill only the appropriate level of subsequent hospital care for the date of transfer.

E. Initial Hospital Care Service History and Physical That Is Less Than Comprehensive.--Advise physicians that when a physician performs a visit or consultation that meets the definition of a level 5 office visit or consultation several days prior to an admission and then on the day of admission performs less than a comprehensive history and physical, he or she should report the office visit or consultation that reflects the services furnished and also report the lowest level initial hospital care code (i.e., code 99221) for the initial hospital admission. Pay the office visit as billed and the level 1 initial hospital care code.

F. Initial Hospital Care Visits by Two Different M.D.s or D.O.s When They Are Involved in Same Admission.--Advise physicians to use the initial hospital care codes (codes 99221-99223) to report the first hospital inpatient encounter with the patient when he or she is the admitting physician.

Consider only one M.D. or D.O. to be the admitting physician and permit only the admitting physician to use the initial hospital care codes. Advise physicians that if they participate in the care of a patient but are not the admitting physician of record, they should bill the inpatient evaluation and management services codes that describe their participation in the patient's care (i.e., subsequent hospital visit or inpatient consultation).

G. Initial Hospital Care and Nursing Facility Visit on Same Day.--Pay only the initial hospital care code if the patient is admitted to a hospital following a nursing facility visit on the same date by the same physician. Instruct physicians that they may not report a nursing facility service and an initial hospital care service on the same day. Payment for the initial hospital care service includes all work performed by the physician in all sites of service on that date.

15505.2 Subsequent Hospital Visit and Hospital Discharge Management (Codes 99231-99239).--

A. Subsequent Hospital Visit and Discharge Management on Same Day.--Pay only the hospital discharge management code on the day of discharge (unless it is also the day of admission, in which case, the admission service and not the discharge management service is billed). Do not pay both a subsequent hospital visit in addition to hospital discharge day management service on the same day by the same physician. Instruct physicians that they may not bill for both a hospital visit and hospital discharge management for the same date of service.

B. Hospital Discharge Management (CPT Codes 99238 and 99239) and Nursing Facility Admission Code When Patient Is Discharged From Hospital and Admitted To Nursing Facility on Same Day.--Pay the hospital discharge code (codes 99238 or 99239) in addition to a nursing facility admission code when they are billed by the same physician with the same date of service.

If a surgeon is admitting the patient to the nursing facility due to a condition that is not as a result of the surgery during the post-operative period of a service with the global surgical period, he/she bills for the nursing facility admission and care with a -24 modifier and provides documentation that the service is unrelated to the surgery (e.g., return of an elderly patient to the nursing facility in which he/she has resided for 5 years following discharge from the hospital for cholecystectomy).

Do not pay for a nursing facility admission by a surgeon in the postoperative period of a procedure with a global surgical period if the patient's admission to the nursing facility is to receive post operative care related to the surgery (e.g., admission to a nursing facility to receive physical therapy following a hip replacement). Payment for the nursing facility admission and subsequent nursing facility services are included in the global fee and cannot be paid separately.

15506. CONSULTATIONS (Codes 99241 - 99275)

Do not pay for a nursing facility admission by a surgeon in the postoperative period of a procedure with a global surgical period if the patient's admission to the nursing facility is to receive post operative care related to the surgery (e.g., admission to a nursing facility to receive physical therapy following a hip replacement). Payment for the nursing facility admission and subsequent nursing facility services are included in the global fee and cannot be paid separately.

A. Consultation Versus Visit.--Pay for a consultation when all of the criteria for the use of a consultation code are met:

(1) Specifically, a consultation is distinguished from a visit because it is provided by a physician whose opinion or advice regarding evaluation and/or management of a specific problem is requested by another physician or other appropriate source (unless it is a patient-generated confirmatory consultation).

(2) A request for a consultation from an appropriate source and the need for consultation must be documented in the patient's medical record.

(3) After the consultation is provided, the consultant prepares a written report of his/her findings which is provided to the referring physician.

Consultations may be billed for time if the counseling/coordination of care constitutes more than 50 percent of the face-to-face encounter between the physician and the patient. The preceding requirements must also be met.

B. Consultation Followed By Treatment.--Pay for an initial consultation if all the criteria for a consultation are satisfied. Payment may be made regardless of treatment initiation unless a transfer of care occurs. A transfer of care occurs when the referring physician transfers the responsibility for the patient's complete care to the receiving physician at the time of referral, and the receiving physician documents approval of care in advance. The receiving physician would report a new or established patient visit depending on the situation (a new patient is one who has not received any professional services from the physician or another physician of the same specialty who belongs to the same group practice, within the past 3 years) and setting (e.g., office or inpatient).

A physician consultant may initiate diagnostic and/or therapeutic services at an initial or subsequent visit. Subsequent visits (not performed to complete the initial consultation) to manage a portion or all of the patient's condition should be reported as established patient office visit or subsequent hospital care, depending on the setting.

C. Consultations Requested by Members of Same Group.--Pay for a consultation if one physician in a group practice requests a consultation from another physician in the same group practice as long as all of the requirements for use of the CPT consultation codes are met. (See §§15506A and 15501.H.)

Non-physician practitioners, e.g., nurse practitioners, certified nurse-midwives or physician assistants, may request a consultation. They may also perform other medically necessary services, e.g., consultations when the performance is within the scope of practice for that type of non-physician practitioner in the State in which they practice. Applicable collaboration and general supervision rules apply as well as billing rules.

D. Documentation for Consultations.—A request for a consultation from an appropriate source and the need for consultation must be documented in the patient's medical record. A written report must be furnished to the requesting physician.

In an emergency department or an inpatient or outpatient setting in which the medical record is shared between the referring physician and the consultant, the request may be documented as part

15509.1 Payment For Physician's Visits To Residents Of Skilled Nursing Facilities and Nursing Facilities.--

A. Visits to Perform Resident Assessments.--Pay for visits necessary to perform all Medicare required assessments. Physicians should use the CPT codes for comprehensive nursing facility assessments (99301-99303) to report evaluation and management services involving comprehensive resident assessments. Evaluation and Management documentation guidelines apply. (See §15510 for further clarification on use of SNF/NF codes.)

B. Visits to Comply With Federal Regulations (42 CFR 483.40).--Pay for visits required to monitor and evaluate residents at least once every 30 days for the first 90 days after admission and at least once every 60 days thereafter. These visits and all other medically necessary visits for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member are covered under Medicare Part B. Physicians should use CPT codes for subsequent nursing facility care (99311-99313) when reporting evaluation and management services that do not involve resident assessments. Medicare does not pay for additional visits required by State law for an admission unless the visits are necessary to meet the medical needs of the individual resident.

C. Medically Complex Care.--Pay for visits to residents in a SNF who are receiving services for medically complex care upon discharge from an acute care facility when the visits are medically necessary and documented in the medical record. Physicians should use CPT codes for subsequent nursing facility care (99311-99313) when reporting evaluation and management services.

D. Visits by Non-Physician Practitioners.--Visits to comply with Federal Regulations (see 15509.1B) in SNFs after the initial visit by the physician may, at the option of the physician, be provided by a non-physician practitioner, i.e., physician assistant (PA), nurse practitioner (NP) or clinical nurse specialist (CNS). (Refer to 42 CFR 483.40(4) and (e).)

Any medically necessary physician task in a NF (including tasks which the regulations specify must be performed personally by the physician) may also be satisfied, when performed by an NP, PA or CNS (at the option of the State) who is not an employee of the facility in which they practice. (Refer to 42 CFR 483.40 (f).)

Where a physician establishes an office in a SNF/NF, the "incident to" services and requirements are confined to this discrete part of the facility designated as his/her office. "Incident to" services may not be billed in a hospital setting. Thus, services performed outside the "office" area would be subject to the coverage rules applicable to services provided outside the office setting, i.e., nursing home. (Refer to CIM 45-15.)

Services provided by physician-employed or independent non-physician practitioners must meet Medicare requirements and fall within the scope of services that practitioners are licensed to perform. A physician assistant must be under the general supervision of the physician. These visits and all other medically necessary visits for the diagnosis or treatment of illness or injury or to improve the functioning of a malformed body member are covered under Medicare Part B.

E. Gang Visits.--Although the selection of the level of service for an evaluation and management encounter is not based on time, the CPT codes provide an approximate time typically spent with a resident. The level of service and code billed must be medically necessary (§§1862 (a)(1)(A)of the Social Security Act) for each resident. Claims for an unreasonable number of visits to residents at a facility within a 24-hour period may indicate an aberrancy and result in medical review to determine medical necessity. Medical records must document the specific services to each individual resident.

15510. HOME CARE AND DOMICILIARY CARE VISITS (CODES 99321 - 99353)

A. Physician Visits to Patients Residing in Various Places of Service.--Current Procedural Terminology (CPT) codes 99321 through 99333, Domiciliary, Rest Home (e.g., Boarding Home), or Custodial Care Services, are used to report evaluation and management (E/M) services to residents residing in a facility which provides, room, board, and other personal assistance services, generally on a long- term basis. These codes are limited to the specific two digit places of service (POS) 33 (Custodial Care Facility) and 55 (Residential Substance Abuse Facility). These facilities, also, often referred to as adult living facilities or assisted living facilities.

Physicians and providers furnishing E/M services to residents in a living arrangement described by one of the POS listed above must use the level of service code in the range of codes 99321- 99333 to report the service they provide.

CPT codes 99341 through 99350, Home Services codes, are used to report E/M services furnished to a patient residing in his or her own private residence and not any type of facility. These codes apply only to the specific two digit POS 12 (Patient's Home). Home Services codes, CPT codes 99341 through 99350, may not be used for billing for E/M services provided other than in the private residence of an individual.

E/M services provided to patients residing in a Skilled Nursing Facility (SNF) (CPT) definition formerly identified as SNFs, intermediate care facilities (ICFs), or long term care facilities (LTCFs) must be reported using the appropriate level of service code within the range identified for Comprehensive Nursing Facility Assessments and Subsequent Nursing Facility Care services. Codes range from 99301 through 99303 for the former and 99311 through 99313 for the latter, and Nursing Facility Discharge Services codes 99315 - 99316. These codes are limited to the specific two digit POS 31 (SNF), 32 (Nursing Home/Nursing Facility), 54 (Intermediate Care Facility/Mentally Retarded) and 56 (Psychiatric Residential Treatment Center).

The nursing facility codes should be used with POS 31 if the patient is in a Part A SNF stay and POS 32 if the patient does not have Part A SNF benefits.

15511. PROLONGED SERVICES AND STANDBY SERVICES (CODES 99354-99360)

15511.1 Prolonged Services (Codes 99354 - 99355).--

A. Required Companion Codes.--Pay prolonged services codes 99354-99355 when they are billed on the same day by the same physician as the companion evaluation and management codes and:

- The companion codes for 99354 are 99201-99205, 99212-99215, 99241-99245; or 99341- 99345; 99347 - 99350 to be used;

- The companion codes for 99355 are 99354 and one of the evaluation and management codes required for 99354 to be used;

- The companion codes for 99356 are 99221-99223, 99231-99233, 99251-99255, 99261-99263, 99301-99303, or 99311-99313; or

- The companion codes for 99357 are 99356 and one of the evaluation and management codes required for 99357 to be used.

Do not pay prolonged services codes 99354-99358 unless they are accompanied by one of these companion codes.

B. Requirement for Physician Presence.--Advise physicians to count only the duration of direct face-to-face contact between the physician and the patient (whether the service was continuous or not) beyond the typical time of the visit code billed to determine whether prolonged services can be billed and to determine the prolonged services codes that are allowable. In the case of prolonged office services, time spent by office staff with the patient, or time the patient remains unaccompanied in the office cannot be billed. In the case of prolonged hospital services, time spent waiting for test results, for changes in the patient's condition, for end of a therapy, or for use of facilities cannot be billed as prolonged services.

C. Documentation.--Do not require documentation to accompany the bill for prolonged services unless the physician has been targeted for medical review. Advise physicians that to support billing for prolonged services, the medical record must document the duration and content of the evaluation and management code billed and that the physician have personally furnished at least 30 minutes of direct service after the typical time of the evaluation and management service had been exceeded by at least 30 minutes.

D. Use of the Codes.--Advise physicians that prolonged services codes can be billed only if the total duration of all physician direct face-to-face service (including the visit) equals or exceeds the threshold time for the evaluation and management service the physician provided (typical time plus 30 minutes). If the total duration of direct face-to-face time does not equal or exceed the threshold time for the level of evaluation and management service the physician provided, the physician may not bill for prolonged services.

E. Threshold Times for Codes 99354 and 99355.--If the total direct face-to-face time equals or exceeds the threshold time for code 99354, but is less than the threshold time for code 99355, the physician should bill the visit and code 99354. Do not accept more than 1 unit of code 99354. If the total direct face-to-face time equals or exceeds the threshold time for code 99355 by no more than 29 minutes, the physician should bill the visit code 99354 and one unit of code 99355. One additional unit of code 99355 is billed for each additional increment of 30 minutes extended duration. Use the following threshold times to determine if the prolonged services codes 99354 and/or 99355 can be billed with the office/outpatient visit and consultation codes.

Code	Typical time for code	Threshold time to bill code 99354	Threshold time to bill codes 99354 and 99355
99201	10	40	85
99202	20	50	95
99203	30	60	105
99204	45	75	120
99205	60	90	135
99212	10	40	85
99213	15	45	90
99214	25	55	100
99215	40	70	115
99241	15	45	90
99242	30	60	105
99243	40	70	115
99244	60	90	135
99245	80	110	155
99341	20	50	95
99342	30	60	105
99343	45	75	120
99344	60	90	135
99345	75	105	150
99347	15	45	90
99348	25	55	100
99349	40	70	115
99350	60	90	135

Add 30 minutes to the threshold time for billing codes 99354 and 99355 to get the threshold time for billing code 99354 and 2 units of code 99355. For example, to bill code 99354 and 2 units of code 99355 when billing a code 99205, the threshold time is 150 minutes.

F. Threshold Times for Codes 99356 and 99357.--If the total direct face-to-face time equals or exceeds the threshold time for code 99356, but is less than the threshold time for code 99357, the physician should bill the visit and code 99356. Do not accept more than 1 unit of code 99356. If the total direct face-to-face time equals or exceeds the threshold time for code 99356 by no more than 29 minutes, the physician bills the visit code 99356 and one unit of code 99357. One additional unit of code 99357 is billed for each additional increment of 30 minutes extended duration. Use the following threshold times to determine if the prolonged services codes 99356 and/or 99357 can be billed with the office/outpatient visit and consultation codes.

Code	Threshold time for code	Threshold time to bill code 99356	Threshold time to bill codes 99356 and 99357
99221	30	60	105
99222	50	80	125
99223	70	100	145
99231	15	45	90
99232	25	55	100
99233	35	65	110

Code	Typical time for code	Threshold time to bill code 99356	Threshold time to bill codes 99356 and 99357
99251	20	50	95
99252	40	70	115
99253	55	85	130
99254	80	110	155
99255	110	140	185
99261	10	40	85
99262	20	50	95
99263	30	60	105
99301	30	60	105
99302	40	70	115
99303	50	80	125
99311	15	45	90
99312	25	55	100
99313	35	65	110

Add 30 minutes to the threshold time for billing codes 99356 and 99357 to get the threshold time for billing code 99356 and 2 units of 99357.

G. Examples of Billable Prolonged Services.--

1. A physician performed a visit that met the definition of visit code 99213 and the total duration of the direct face-to-face services (including the visit) was 65 minutes. The physician bills code 99213 and 1 unit of code 99354.

2. A physician performed a visit that met the definition of visit code 99303 and the total duration of the direct face-to-face contact (including the visit) was 115 minutes. The physician bills codes 99303, 99356, and 1 unit of code 99357.

H. Examples of Nonbillable Prolonged Services.--

1. A physician performed a visit that met the definition of visit code 99212 and the total duration of the direct face-to-face contact (including the visit) was 35 minutes. The physician cannot bill prolonged services because the total duration of direct face to face service did not meet the threshold time for billing prolonged services.

2. A physician performed a visit that met the definition of code 99213 and, while the patient was in the office receiving treatment for 4 hours, the total duration of the direct face-to-face service of the physician was 40 minutes. The physician cannot bill prolonged services because the total duration of direct face to face service did not meet the threshold time for billing prolonged services.

15511.2 Prolonged Services Without Face-to-Face Service (Codes 99358-99359).--Do not pay prolonged services codes 99358 and 99359, which do not require any direct patient contact. Payment for these services is included in the payment for direct face to face services that physicians bill. The physician cannot bill the patient for these services since they are Medicare covered services and payment is included in the payment for other billable services.

2001 GEOGRAPHIC PRACTICE COST INDICES BY MEDICARE CARRIER AND LOCALITY

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 13-24503-CIV-MOORE/MCALILEY

UNITED STATES OF AMERICA and the STATE OF FLORIDA, ex rel. THEODORE A. SCHIFF, M.D.,

Plaintiff,

v.

GARY L. MARDER , D.O.; ALLERGY, DERMATOLOGY & SKIN CANCER CENTER, INC., a Florida corporation, ROBERT I. KENDALL, M.D., and KENDALL MEDICAL LABORATORY, INC., a Florida corporation,

Defendant.

DECLARATION OF FIRST COAST SERVICE OPTIONS, INC. IN SUPPORT OF THE UNITED STATES' MOTION FOR SUMMARY JUDGMENT

I, John Jacobs, being duly sworn, do hereby depose and state:

1. I am employed as the Zone Program Integrity Contractor (ZPIC) Support Manager for First Coast Service Options, Inc. ("FCSO"). I have been employed with FCSO since January 27, 2003 and served in this position since January 4, 2014. As part of my work with FCSO, I serve as the First Coast point of contact for the ZPIC and various law enforcement agencies in support of investigations involving Medicare health care fraud, mail fraud, wire fraud, conspiracy, and money laundering. First Coast Service Options, Inc. ("FCSO") is the CMS contractor tasked with administering Medicare payment processing and auditing functions in the geographic region in which the defendants in this case have done business.

2. My responsibilities as the ZPIC Support Manager for FCSO involves supporting the ZPIC and law enforcement investigation of fraudulent claims submitted to the Medicare Program through FCSO by responding to requests for information and referrals for action addressed to FCSO from the ZPIC and law enforcement. FCSO has contracted to receive, adjudicate, process and pay Medicare claims submitted to it by Medicare beneficiaries or suppliers for physician services payable under Part B of the Medicare Program.

3. In the course of fulfilling my responsibilities for supporting the investigation of fraudulent claims, I have access to and utilize the correspondence and other materials exchanged between Medicare suppliers and FCSO. I also have access to and utilize information regarding the specific nature of the claims submitted by Medicare providers for services rendered to Medicare beneficiaries, including the patient, the item billed, the ordering physician, the diagnosis claimed to support the item billed, the amount billed and the amount paid.

4. I have knowledge of the facts stated herein concerning the investigation of the defendants in this lawsuit.

MEDICARE ENROLLMENT

5. In order to become and remain as qualified Medicare providers, the defendants each submitted applications to the Medicare Program. The defendants also submitted various other documents to identify the accounts to which its Medicare payments should be credited, the personnel associated with the company as well as

miscellaneous correspondence. FCSO maintains these documents in the course of its business and for a business purpose. I have obtained the documents in the possession of FCSO that were received from the defendants and FCSO's related materials. Copies of the applications filed by Gary Marder, D.O. ("Marder") are attached hereto as Exhibit 1 and copies of the applications filed by Robert Kendall, M.D. ("Kendall") are attached hereto as Exhibit 2.

MEDICARE COVERAGE

6. Medicare reimburses medical services that are "reasonable and necessary" for the diagnosis and treatment of illness or injury. The Medicare Program Integrity Manual, Chapter 13, Section 13.1, states that the primary authority for all coverage provisions and subsequent policies is the Social Security Act (the Act), and that contractors use Medicare policies in the form of regulations, National Coverage Determinations, coverage provisions in interpretive manuals, and Local Coverage Determinations ("LCD")to apply the provisions of the Act.

7. When decisions are made on the coverage of particular items or services, the Medicare Program Integrity Manual, Chapter 13, states, among other things, that relevant sources include published authoritative evidence derived from randomized clinical trials, as well as general acceptance by the medical community (standard of practice), as supported by sound medical evidence based on scientific data or research studies published in peer-reviewed medical journals; consensus of expert medical opinion (i.e., recognized authorities in the field); or medical opinion derived from consultations with medical associations or other health care experts.

RADIATION THERAPY

8. Radiation therapy is a covered service under the Medicare Program. 42 U.S.C. § 1395x(s)(4); 42 CFR 410.35.

9. Since at least 2001, Chapter 15, Section 90 of the Medicare Benefit Policy Manual has stated, among other things, that radiation services rendered to a Medicare beneficiary must be directly and personally supervised by a physician physically who is in the office and immediately available:

> X-ray, radium, and radioactive isotope therapy furnished in a non-provider facility require direct personal supervision of a physician. The physician need not be in the same room, but must be in the area and immediately available to provide assistance and direction throughout the time the procedure is being performed.

Medicare Benefit Policy Manual, Part 3 – Claims Process Transmittal 1725, Section 2075 - X-Ray, Radium, and Radioactive Isotope Therapy (Rev. 1, 10-01-03) attached hereto as Exhibit 3.

10. Since at least 2003, the Medicare Claims Processing Manual, Chapter 13 - Radiology Services and Other Diagnostic Procedures, Section 70.3 - Radiation Treatment Delivery (CPT 77401-77417) stated, among other things, that

> These services are paid for on a daily basis under CPT codes 77401-77416 for radiation treatment delivery.
> ....
> Multiple treatment sessions on the same day are payable as long as there has been a distinct break in therapy services, and the individual sessions are of the character usually furnished on different days.

Medicare Claims Processing Manual, Chapter 13 - Radiology Services and Other Diagnostic Procedures, Chapter 13, Section 70.3 attached hereto as Exhibit 4.

11. On April 2, 2003, the Centers for Medicare and Medicaid Services released a Program Memorandum (PM) (Transmittal A-03-020) which addressed Billing

for Radiation Therapy (CPT Codes 77401 through 77416) by hospitals for outpatient services, attached hereto as Exhibit 5. This Program Memorandum stated, among other things, that:

a. CPT Codes 77401 through 77416 may be reported more than once per date of service only when radiation treatment is provided during completely different sessions.

b. Only one of these codes may be reported for each treatment session no matter how many areas are treated or no matter how much radiation is delivered.

c. CPT Codes 77402 through 77406 describe treatment delivery for a single treatment area. CPT Codes 77407 through 77411 describe treatment delivery to two treatment areas. CPT Codes 77412 through 77416 describe treatment delivery to three or more treatment areas.

d. In the cases of CPT codes 77407 through 77416, the number of distinct treatment areas and complexity of the treatment determine which code series to report, which is then modified by the selection of energy (ie, MV).

12. As part of its duties, FCSO issues newsletters on a regular basis. A copy of Volume 4 Number 3 of the Medicare Part B Update for the Third Quarter 2006 is attached hereto as Exhibit 6. These Medicare Part B Updates are mailed to all Medicare providers and are available on the website maintained by FCSO. Pages 3 through 6 of this Update is an article entitled "Requirements for the Payment of Medicare Claims—A Selection of Some Important Criteria". The article address several different documentation requirements applicable to claims submitted to Medicare, including that all services must be supported by documentation created near the time of service and must also be signed and dated.

13. As part of its duties, FCSO also issues what are known as Local Coverage Determinations. FCSO issued a Local Coverage Determination ("LCD") effective February 13, 2011 with a revision effective October 1, 2011 titled Radiation Therapy for T1 Basal Cell and Squamous Cell Carcinomas of the Skin. This LCD was identified as L31510. A copy of the original and revised LCD are attached hereto as Exhibits 7 and 8, respectively.

14. FCSO also looks to information published by industry groups for further guidance in administering benefits under the Medicare Program. For example, the American Medical Association publishes Clinical Examples in Radiology. In 2007, it published a "Radiology FAQ" which addressed billing questions related to CPT Code 77401 through 77416. A copy of that document is attached hereto as Exhibit 9.

"INCIDENT TO" SERVICES

15. Medicare also allows physicians to submit claims for services rendered by other employees in certain circumstances. "Incident to services" are services that are furnished by other employees of the physician "incident to" the professional services personally rendered by the physician. These services, even though not rendered by the physician can be billed in the physician's name if certain requirements are met. One of the requirements is that although the physician does not have to be physically present in the treatment room while the service is being provided, they must be present in the immediate office suite to render assistance if needed.

16. "Incident to" services can also be directly supervised by non-physician practitioners such as physician assistants and nurse practitioners, but are then reimbursed at 85 percent of the physician fee schedule.

17. Medicare coverage of "incident to" services is limited to services for which payment is **not** made under a separate benefit category listed in §1861(s) of the Social Security Act. 42 CFR 410.26(a)(7). For example, diagnostic tests are covered under §1861(s)(3) of the Social Security Act, and radiation therapy services are covered

under §1861(s)(4) of the Social Security Act. Those services cannot be reimbursed under the incident to rules, but must adhere to the separate rules applicable to them.

PATHOLOGY SERVICES

18. Pathology services are comprised of a Professional Component and a Technical Component, both of which may be performed independently by different providers.

19. Multiple references confirm that the TC of physician pathology services refers to the preparation of the slide, involving tissue or cells that a pathologist will interpret, and that the pathologist's interpretation of the slide is the professional component (PC) service. Attached hereto as Exhibit 10 is a composite exhibit containing the following documents published by the United States, Medicare and FCSO which address this issue:

a. Federal Register, Volume 72 Issue 227 (Tuesday, November 27, 2007) (Section 104--Extension of Treatment of Certain Physician Pathology Services Under Medicare); Federal Register
b. Volume 77 Issue 222 (Friday, November 16, 2012) (F. Extension of Payment for Technical Component of Certain Physician Pathology Services, 1. Background and Statutory Authority)
c. FCSO Part B Update 2007 vol. 5 number 2 141058;
d. MLN Matters Number MM5347
e. MLN Matters Number MM5468 Revised.

20. Claims for pathology services included within CPT Codes 88305, 88312 and 88342 can be submitted in three ways. The claim can encompass both the Technical and Professional Components, in which case the claim is referred to as having billed "globally", or the claim can be limited to just the Technical Component or just the Professional Component.

21. If a pathology claim is billed globally, the provider simply uses the applicable CPT Code.

22. If the claim is being billed for only the technical component or the professional component, the provider bills the CPT Code together with a sub-code known as a "modifier".

23. The "TC" modifier attached to a pathology CPT code indicates that reimbursement is sought only for the technical component.

24. The "26" modifier attached to a pathology CPT code indicates that reimbursement is sought only for the Professional Component.

CLAIMS SUBMISSION

25. To obtain Medicare reimbursement for covered services pursuant to Part B, providers submit claims using forms known as "CMS 1500s". The individual billed items are identified to Medicare using a 5-digit billing code based on the Current Procedural Terminology Manual ("CPT code"), published annually by the American Medical Association. Each CPT code corresponds to a specific medical service, and the amount Medicare pays for a service is based on the CPT code.

26. A true and correct copy of the first page of the Introduction to the CPT Code Book For every year from 2008 through 2014 is attached hereto as Exhibit 11. The following is stated on that page for every year:

a. "Select the name of the procedure or service that accurately identifies the service performed. Do not select a CPT code that merely approximates the service provided"; and
b. "Any service or procedure should be adequately documented in the medical record."

27. In a letter dated May 19, 2008 which was sent to FCSO by Marder in connection with a Medicare Utilization Audit, a copy of which is attached hereto as

Exhibit 12, Marder represented to FCSO that the hyper-fractionated radiation treatments he administered to his patients were four hours apart.

28. In a letter dated May 15, 2005, which Marder sent to FCSO, Marder represented to Medicare that he performs all of the radiation therapy himself.

Pursuant to Title 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct and is based upon my personal knowledge this 23rd day of March, 2016, in Jacksonville, Florida.

140.4 - Advance Beneficiary Notices (ABNs)

150 - Place of Service (POS) Instructions for the Professional Component (PC or Interpretation) and the Technical Component (TC) of Diagnostic Tests

10 - ICD Coding for Diagnostic Tests

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

The ICD Coding Guidelines for Outpatient Services (hospital-based and physician office) have instructed physicians to report diagnoses based on test results. Instructions and examples for coding specialists, contractors, physicians, hospitals, and other health care providers to use in determining the use of ICD codes for coding diagnostic test results is found in chapter 23.

10.1 - Billing Part B Radiology Services and Other Diagnostic Procedures

(Rev. 1, 10-01-03)
SNF-533

Acceptable HCPCS codes for radiology and other diagnostic services are taken primarily from the CPT-4 portion of HCPCS. Payment is the lower of the charge or the Medicare physician fee schedule amount. Deductible and coinsurance apply, and coinsurance is based on the allowed amount.

For claims to intermediaries (FIs), revenue codes, HCPCS code, line item dates of service, units, and applicable HCPCS modifiers are required. Charges must be reported by HCPCS code. If the same revenue code applies to two or more HCPCS codes, providers should repeat the revenue code and show the line item date of service, units, and charge for each HCPCS code on a separate line.

20 - Payment Conditions for Radiology Services

(Rev. 1, 10-01-03)
B3-15022

20.1 - Professional Component (PC)

(Rev. 1, 10-01-03)

Carriers must pay for the PC of radiology services furnished by a physician to an individual patient in all settings under the fee schedule for physician services regardless of the specialty of the physician who performs the service. For services furnished to hospital patients, carriers pay only if the services meet the conditions for fee schedule payment and are identifiable, direct, and discrete diagnostic or therapeutic services to an individual patient, such as an interpretation of diagnostic procedures and the PC of

therapeutic procedures. The interpretation of a diagnostic procedure includes a written report.

20.2 - Technical Component (TC)
(Rev. 1, 10-01-03)

20.2.1 - Hospital and Skilled Nursing Facility (SNF) Patients
(Rev. 1782; Issued: 07-30-09; Effective Date: 07-01-09; Implementation Date: 07-06-09)

Carriers may not pay for the technical component (TC) of radiology services furnished to hospital patients. Payment for physicians' radiological services to the hospital, e.g., administrative or supervisory services, and for provider services needed to produce the radiology service, is made by the fiscal intermediary (FI)/AB MAC to the hospital as a provider service.

FIs/AB MACs include the TC of radiology services for hospital inpatients, except Critical Access Hospitals (CAHs), in the prospective payment system (PPS) payment to hospitals.

Hospital bundling rules exclude payment to suppliers of the TC of a radiology service for beneficiaries in a hospital inpatient stay. CWF performs reject edits to incoming claims from suppliers of radiology services.

Upon receipt of a hospital inpatient claim at the CWF, CWF searches paid claim history and compares the period between the hospital inpatient admission and discharge dates to the line item service date on a line item TC of a radiology service billed by a supplier. The CWF will generate an unsolicited response when the line item service date falls within the admission and discharge dates of the hospital inpatient claim.

Upon receipt of an unsolicited response, the carrier will adjust the TC of the radiology service and recoup the payment.

For CAHs, payment to the CAH for inpatients is made at 101 percent of reasonable cost.

Radiology and other diagnostic services furnished to hospital outpatients are paid under the Outpatient Prospective Payment System (OPPS) to the hospital. This applies to bill types 12X and 13X that are submitted to the FI/AB MAC. Effective 4/1/06, type of bill 14X is for non-patient laboratory specimens and is no longer applicable for radiology services.

As a result of SNF Consolidated Billing (Section 4432(b) of the Balanced Budget Act (BBA) of 1997), carriers may not pay for the TC of radiology services furnished to Skilled Nursing Facility (SNF) inpatients during a Part A covered stay. The SNF must bill radiology services furnished its inpatients in a Part A covered stay and payment is included in the SNF Prospective Payment System (PPS).

Radiology services furnished to outpatients of SNFs may be billed by the supplier performing the service or by the SNF under arrangements with the supplier. If billed by the SNF, Medicare pays according to the Medicare Physician Fee Schedule. SNFs submit claims to the FI/AB MAC with type of bill 22X or 23X.

20.2.2 - Services Not Furnished in Hospitals
(Rev. 1, 10-01-03)

Carriers must pay under the fee schedule for the TC of radiology services furnished to beneficiaries who are not patients of any hospital, and who receive services in a physician's office, a freestanding imaging or radiation oncology center, or other setting that is not part of a hospital.

20.2.3 - Services Furnished in Leased Departments
(Rev. 1, 10-01-03)

In the case of procedures furnished in a leased hospital radiology department to a beneficiary who is neither an inpatient nor an outpatient of any hospital, e.g., the patient is referred by an outside physician and is not registered as a hospital outpatient, both the PC and the TC of the services are payable under the fee schedule by the carrier.

20.3 – Anti-Markup Payment Limitation
(Rev. 1931, Issued: 03-12-10, Effective: 06-14-10, Implementation: 06-14-10)

Section 1842(n)(1) of the Social Security Act (the Act) establishes payment rules for certain diagnostic tests (other than clinical diagnostic laboratory tests) where the physician performing or supervising the test does not share a practice with the billing physician or other supplier. Examples of tests covered under this rule include, but are not limited to: x-rays, EKGs, EEGs, cardiac monitoring, and ultrasound services furnished on or after January 1, 1994. (Note that screening mammography services are covered under another provision of the Act and are not subject to the anti-markup payment limitation.) The anti-markup payment limitation applies to the technical component or "TC" of certain diagnostic tests that are payable on the Medicare Physician Fee Schedule (MPFS). Effective January 1, 2009, the anti-markup payment limitation also applies to the professional component or ("PC") of diagnostic tests (other than clinical diagnostic tests). The anti-markup payment limitation only applies when a physician (or other supplier) orders and bills for a diagnostic test in which the TC or PC is performed by a physician who does not "share a practice" with the ordering/billing physician (or other supplier). For more information on the anti-markup payment limitation, see chapter 1, §30.2.9.

20.3.1 – B/MAC Payment Rules
(Rev. 1931, Issued: 03-12-10, Effective: 06-14-10, Implementation: 06-14-10)

If a diagnostic test (other than a clinical diagnostic laboratory test) is personally performed or is supervised by a physician, such physician may bill under the normal

physician fee schedule rules. This includes situations in which the test is performed or supervised by another physician with whom the billing physician shares a practice (See Pub. 100-04, chapter 1, §30.2.9). Section 80, chapter 15, of Pub. 100-02, Medicare Benefit Policy, sets forth the various levels of physician supervision required for diagnostic tests. The supervision requirement for physician billing is not met when the test is administered by supplier personnel regardless of whether the test is performed at the physician's office or at another location.

If a physician bills for a diagnostic test that is subject to the anti-markup payment limitation, the fee schedule amount for the acquired service equals the lower of:

- The performing physician or other supplier's net charge to the billing physician or other supplier for performing the service;
- The billing physician or other supplier's actual charge; or
- The fee schedule amount allowed for the jurisdiction where the service was performed.

The lowest figure is the fee schedule amount for purposes of the limiting charge. (See chapter 1, §30.3.12.1 of this publication) The billing entity must identify the performing physician or other supplier (including the performing provider's NPI) and the amount the performing physician or other supplier charged the billing entity (net of any discounts). A physician who accepts assignment is permitted to bill and collect from the beneficiary only the applicable deductible and coinsurance for the acquired test. A physician who does not accept assignment is permitted to bill and collect from the beneficiary only the fee schedule amount (as defined above) for the acquired test. The limiting charge provision is not applicable.

If the physician does not identify who performed the test and provide the other required information, no payment is allowed. The physician may not bill the beneficiary any amount for the test.

20.3.2 - Billing for Services

(Rev. 1931, Issued: 03-12-10, Effective: 06-14-10, Implementation: 06-14-10)

A physician or other supplier may bill and receive Part B payment for the technical component (TC) or professional component (PC) of diagnostic tests which the physician or other supplier contracts a physician, medical group, or other supplier to perform. (This claim and payment procedure does not extend to clinical diagnostic laboratory tests.) The anti-markup rule will apply to the TC or PC of diagnostic tests that have been ordered by the billing physician or other supplier (or by a party financially related to the billing physician or other supplier through common ownership or control) if the performing physician or other supplier does not meet the criteria for "sharing a practice" with the ordering/billing entity. An example is when the attending physician orders radiology tests from a radiologist and the radiologist purchases the tests from an imaging center

with whom the radiologist does not meet the criteria for "sharing a practice." Under the anti-markup payment limitation, the billing physician or other supplier may not mark up the charge for a test from the acquisition price and must accept as full payment for the test (even if assignment is not accepted) the lowest of: the fee schedule amount as if the performing physician or other supplier had billed directly, the billing entity's actual charge, or the performing physician or other supplier's net charge to the billing entity. The billing physician or other supplier must be financially related to the physician or group that ordered the tests through common ownership or control.

If the performing physician or other supplier meets the criteria for "sharing a practice" with the billing physician or other supplier, then the anti-markup payment limitation will not apply and the lower of the physician fee schedule amount or the billed amount will be paid.

The physician or other supplier that performed the component that is subject to the anti-markup rule must be enrolled in the Medicare program. No formal reassignment is necessary; however, reassigned services are also subject to the anti-markup payment limitation.

A. Radiology Services

Contractors shall apply the anti-markup payment limitation to the TC and PC of radiology diagnostic testing services other than screening mammography procedures. See Publication 100-04, chapter 1, §30.2.9 for more information on the anti-markup payment limitation.

B. Payment to a Physician or Other Supplier of Diagnostic Tests for Services Subject to the Anti-Markup Payment Limitation

A physician or other supplier that provides diagnostic tests may bill and receive the Part B payment for the TC or PC of diagnostic tests which that physician or other supplier acquires from another physician, medical group, or other supplier. If the performing physician does not meet the requirements for sharing a practice with the ordering/billing physician or other supplier, then the anti-markup payment limitation rules will apply. (See section 30.2.9 of this chapter for more information.) If the performing physician is deemed to share a practice with the physician or other supplier that ordered the test, then the physician fee schedule amount may be billed and the anti-markup payment limitation will not apply. In either case, the performing physician or other supplier must be enrolled in the Medicare program. No formal reassignment is necessary; however, the anti-markup payment limitation will apply to reassigned services.

If the anti-markup rules apply, payment may not exceed the lowest of the following amounts:

- The performing physician or other supplier's net charge to the billing physician or other supplier;*

- The billing physician or other supplier's actual charges; or

- The fee schedule amount allowed for the test if the performing physician or other supplier billed directly.

*The net charge must be determined without regard to any charge that is intended to reflect the cost of equipment or space leased to the performing physician or supplier by or through the billing entity. For more information, see Pub. 100-04, chapter 1, §30.2.9.

The billing physician or other supplier must keep on file the name, address, and NPI of the physician or other supplier who performed the anti-markup service.

C. Sanctions

Physicians who knowingly and willfully, in repeated cases, bill Medicare beneficiaries amounts beyond those outlined in this chapter are subject to the penalties contained under §1842(j)(2) of the Act. Penalties are assigned after post-pay review depending on the severity.

D. Questionable Business Arrangements

No special charge or payment constraints are imposed on tests performed by a physician or a technician under the physician's supervision. There are two requirements for all diagnostic tests under §1861(s)(3) of the Act, as implemented by 42 CFR §410.32 and section 10 of chapter13 of this publication and section 80, chapter 15 of Pub. 100-02BP. Namely, the test must be ordered by the treating practitioner, and the test must be supervised by a physician. However, attempts may be made by the medical diagnostic community to adjust or establish arrangements which continue to allow physicians to profit from other's work or by creating the appearance that the physician has performed or supervised his/her technicians who are employed, contracted, or leased. Some of these arrangements may involve cardiac scanning services and mobile ultrasound companies leasing their equipment to physicians for the day the equipment is used, and hiring out their staff to the physicians to meet the supervision requirement.

The bona fides of such arrangements may be suspect and could be an attempt to circumvent the anti-markup payment limitation. If you have any doubt that a particular arrangement is a valid relationship where the physician is performing or supervising the services, this should be investigated. The Office of the Inspector General (OIG) has responsibility for investigating violations of §1842(n) of the Act.

Another arrangement to circumvent the anti-markup payment limitation is for the ordering physician to reassign his/her payment for the interpretation of the test to the supplier. The supplier, in turn, bills for both the test and the interpretation and pays the ordering physician a fee for the interpretation. This arrangement violates §1842(b)(6) of the Act, which prohibits Medicare from paying benefits due the person that furnished the

service to any other person, subject to limited exceptions discussed in Pub. 100-04, chapter 1, §30.2.2. Also, this arrangement could constitute a violation of §1128 B (b) of the Act, which prohibits remuneration for referrals (i.e., kickbacks).

Violations of §1128B (b) of the Act may subject the physician or supplier to criminal penalties or exclusion from the Medicare and Medicaid programs. Illegal remuneration for referrals can be found even when the ordering physician performs some service for the remuneration.

30 - Computerized Axial Tomography (CT) Procedures
(Rev. 1, 10-01-03)

Carriers do not reduce or deny payment for medically necessary multiple CT scans of different areas of the body that are performed on the same day.

The TC RVUs for CT procedures that specify "with contrast" include payment for high osmolar contrast media. When separate payment is made for low osmolar contrast media under the conditions set forth in §30.1.1, reduce payment for the contrast media as set forth in §30.1.2.

30.1 - Low Osmolar Contrast Media (LOCM) (HCPCS Codes Q9945-Q9951)
(Rev. 627, Issued: 07-29-05, Effective: 01-01-05, Implementation: 10-31-05)

HCPCS codes A4644-A4646 have been replaced with Q9945-Q0051.

30.1.1 - Payment Criteria
(Rev. 627, Issued: 07-29-05, Effective: 01-01-05, Implementation: 10-31-05)

Carriers make separate payments for LOCM (HCPCS codes Q9945-Q9951) in the case of all medically necessary intrathecal radiologic procedures furnished to nonhospital patients. Effective January 1, 2005 in the case of intraarterial and intravenous radiologic procedures, the five restrictive criteria (a history of previous adverse reaction to contrast material, with the exception of a sensation of heat, flushing, or a single episode of nausea or vomiting; a history of asthma or allergy; significant cardiac dysfunction including recent or imminent cardiac decompensation, severe arrhythmia, unstable angina pectoris, recent myocardial infarction, and pulmonary hypertension; generalized severe debilitation; or sickle cell disease) for the payment of LOCM are eliminated.

30.1.2 - Payment Level
(Rev. 627, Issued: 07-29-05, Effective: 01-01-05, Implementation: 10-31-05)

Determine payment in the same manner as for a drug furnished incident to a physician's service.

The payment methodology for LOCM for the period of January 1, 2005 through March 31, 2005 is made in accordance with the established payment for calendar year 2004 using codes A4644-A4646.

Effective April 1, 2005, the method of payment for LOCM is the average sales price (ASP) plus six percent in accordance with the standard methodology for drug pricing established by the Medicare Modernization Act (MMA0 for other than hospital outpatient claims. Payments for the new Q codes can be found in the respective quarterly Medicare Part B drug pricing files that are posted on the CMS Web site.

30.1.3 - SNF Billing and Intermediary (FI) Payment for Contrast Material Other Than Low Osmolar Contrast Material (LOCM) (Radiology)

(Rev. 1, 10-01-03)
SNF-533.1.F

When a radiology procedure is provided with contrast material, a SNF should bill using the CPT-4 code that indicates "with" contrast material. If the coding does not distinguish between "with" and "without" contrast material, the SNF should use the available code.

Contrast material other than LOCM may be billed separately in addition to the radiology procedure, or it may be billed as part of the amount for the radiology procedure. If the SNF bills separately for the contrast material and the charge for the procedure includes a charge for contrast material, the SNF must adjust the charge for the procedure to exclude any amount for the contrast material. Regardless of the billing method used, charges are subject to the fee schedule.

When billing separately for this contrast material, the SNF should use revenue code 0255 (drugs incident to radiology and subject to the payment limit) and report the charge on the same bill as the radiology procedure. The FI will not accept late charge bills for this service.

30.1.3.1 - A/B MAC (A) Payment for Low Osmolar Contrast Material (LOCM) (Radiology)

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

The LOCM is paid on a reasonable cost basis when rendered by a SNF to its Part B patients (in addition to payment for the radiology procedure) when it is used in one of the situations listed below.

The following HCPCS are used when billing for LOCM.

HCPCS Code	Description (January 1. 1994, and later)
A4644	Supply of low osmolar contrast material (100-199 mgs of iodine);
A4645	Supply of low osmolar contrast material (200-299 mgs of iodine); or
A4646	Supply of low osmolar contrast material (300-399 mgs of iodine).

When billing for LOCM, SNFs use revenue code 0636. If the SNF charge for the radiology procedure includes a charge for contrast material, the SNF must adjust the charge for the radiology procedure to exclude any amount for the contrast material.

NOTE: LOCM is never billed with revenue code 0255 or as part of the radiology procedure.

The A/B MAC (A) will edit for the intrathecal procedure codes and the following codes to determine if payment for LOCM is to be made. If an intrathecal procedure code is not present, or one of the ICD codes is not present to indicate that a required medical condition is met, the A/B MAC (A) will deny payment for LOCM. In these instances, LOCM is not covered and should not be billed to Medicare.

When LOCM Is Separately Billable and Related Coding Requirements

- In all intrathecal injections. HCPCS codes that indicate intrathecal injections are:

  70010 70015 72240 72255 72265 72270 72285 72295

  One of these must be included on the claim; or

- In intravenous and intra-arterial injections only when certain medical conditions are present in an outpatient. The SNF must verify the existence of at least one of the following medical conditions, and report the applicable diagnosis code(s) either as a principal diagnosis code or other diagnosis codes on the claim:

  - A history of previous adverse reaction to contrast material. The applicable ICD-9-CM codes are V14.8 and V14.9. The applicable ICD-10-CM codes are Z88.8 and Z88.9. The conditions which should not be considered adverse reactions are a sensation of heat, flushing, or a single episode of nausea or vomiting. If the adverse reaction occurs on that visit with the induction of contrast material, codes describing hives, urticaria, etc. should also be present, as well as a code describing the external cause of injury and poisoning, ICD-9-CM code E947.8. The applicable ICD-10 CM codes are: T50.8X5A Adverse effect of diagnostic agents, initial encounter, T50.8X5S Adverse effect of diagnostic agents, sequela , T50.995A Adverse effect of other drugs, medicaments and biological substances, initial encounter, or T50.995S

Adverse effect of other drugs, medicaments and biological substances, sequela;

- A history or condition of asthma or allergy. The applicable ICD-9-CM codes are V07.1, V14.0 through V14.9, V15.0, 493.00, 493.01, 493.10, 493.11, 493.20, 493.21, 493.90, 493.91, 495.0, 495.1, 495.2, 495.3, 495.4, 495.5, 495.6, 495.7, 495.8, 495.9, 995.0, 995.1, 995.2, and 995.3. The applicable ICD-10-CM codes are in the table below:

- Generalized severe debilitation. The applicable ICD-9-CM codes are: 203.00, 203.01, all codes for diabetes mellitus, 518.81, 585, 586, 799.3, 799.4, and V46.1. The applicable ICD-10-CM codes are: J96.850, J96.00

through J96.02, J96.90 through J96.91, N18.1 through N19, R53.81, R64, and Z99.11 through Z99.12. Or

- Sickle Cell disease. The applicable ICD-9-CM codes are 282.4, 282.60, 282.61, 282.62, 282.63, and 282.69. The applicable ICD-10-CM codes are D56.0 through D56.3, D56.5 through D56.9, D57.00 through D57.1, D57.20, D57.411 through D57.419, and D57.811 through D57.819.

40 - Magnetic Resonance Imaging (MRI) Procedures

(Rev. 2307, Issued: 09-22-11, Effective: 07-07-11/02-24-11(CR 7296), Implementation: 09-26-11)

Effective September 28, 2009

The Centers for Medicare & Medicaid Services (CMS) finds that the non-coverage of magnetic resonance imaging (MRI) for blood flow determination is no longer supported by the available evidence. CMS is removing the phrase "blood flow measurement" and local Medicare contractors will have the discretion to cover (or not cover).

Consult Publication (Pub.) 100-03, National Coverage Determinations (NCD) Manual, chapter 1, section 220.2, for specific coverage and non-coverage indications associated with MRI and MRA (Magnetic Resonance Angiography).

Prior to January 1, 2007

Carriers do not make additional payments for three or more MRI sequences. The relative value units (RVUs) reflect payment levels for two sequences.

The technical component (TC) RVUs for MRI procedures that specify "with contrast" include payment for paramagnetic contrast media. Carriers do not make separate payment under code A4647.

A diagnostic technique has been developed under which an MRI of the brain or spine is first performed without contrast material, then another MRI is performed with a standard (0.1mmol/kg) dose of contrast material and, based on the need to achieve a better image, a third MRI is performed with an additional double dosage (0.2mmol/kg) of contrast material. When the high-dose contrast technique is utilized, carriers:

- Do not pay separately for the contrast material used in the second MRI procedure;

- Pay for the contrast material given for the third MRI procedure through supply code Q9952, the replacement code for A4643, when billed with Current Procedural Terminology (CPT) codes 70553, 72156, 72157, and 72158;

- Do not pay for the third MRI procedure. For example, in the case of an MRI of the brain, if CPT code 70553 (without contrast material, followed by with contrast

material(s) and further sequences) is billed, make no payment for CPT code 70551 (without contrast material(s)), the additional procedure given for the purpose of administering the double dosage, furnished during the same session. Medicare does not pay for the third procedure (as distinguished from the contrast material) because the CPT definition of code 70553 includes all further sequences; and

- Do not apply the payment criteria for low osmolar contrast media in §30.1.2 to billings for code Q9952, the replacement code for A4643.

Effective January 1, 2007

With the implementation for calendar year 2007 of a bottom-up methodology, which utilizes the direct inputs to determine the practice expense (PE) relative value units (RVUs), the cost of the contrast media is not included in the PE RVUs. Therefore, a separate payment for the contrast media used in various imaging procedures is paid. In addition to the CPT code representing the imaging procedure, separately bill the appropriate HCPCS "Q" code (Q9945 – Q9954; Q9958-Q9964) for the contrast medium utilized in performing the service.

Effective February 24, 2011

Medicare will allow for coverage of MRI for beneficiaries with implanted PMs or cardioverter defibrillators (ICDs) for use in an MRI environment in a Medicare-approved clinical study as described in section 220.C.1 of the NCD manual.

Effective July 7, 2011

Medicare will allow for coverage of MRI for beneficiaries with implanted pacemakers (PMs) when the PMs are used according to the Food and Drug Administration (FDA)-approved labeling for use in an MRI environment as described in section 220.2.C.1 of the NCD Manual.

40.1 – Magnetic Resonance Angiography (MRA)

(Rev. 2171, Issued: 03-04-11, Effective: 02-24-11, Implementation: 04-04-11)

40.1.1 – Magnetic Resonance Angiography (MRA) Coverage Summary

(Rev. 2171, Issued: 03-04-11, Effective: 02-24-11, Implementation: 04-04-11)

Section 1861(s)(2)(C) of the Social Security Act provides for coverage of diagnostic testing. Coverage of magnetic resonance angiography (MRA) of the head and neck, and MRA of the peripheral vessels of the lower extremities is limited as described in Publication (Pub.) 100-03, the Medicare National Coverage Determinations (NCD) Manual. This instruction has been revised as of July 1, 2003, based on a determination that coverage is reasonable and necessary in additional circumstances. Under that instruction, MRA is generally covered only to the extent that it is used as a substitute for

contrast angiography, except to the extent that there are documented circumstances consistent with that instruction that demonstrates the medical necessity of both tests. Prior to June 3, 2010, there was no coverage of MRA outside of the indications and circumstances described in that instruction.

Effective for claims with dates of service on or after June 3, 2010, contractors have the discretion to cover or not cover all indications of MRA (and magnetic resonance imaging (MRI)) that are not specifically nationally covered or nationally non-covered as stated in section 220.2 of the NCD Manual.

Because the status codes for HCPCS codes 71555, 71555-TC, 71555-26, 74185, 74185-TC, and 74185-26 were changed in the Medicare Physician Fee Schedule Database from 'N' to 'R' on April 1, 1998, any MRA claims with those HCPCS codes with dates of service between April 1, 1998, and June 30, 1999, are to be processed according to the contractor's discretionary authority to determine payment in the absence of national policy.

Effective for claims with dates of service on or after February 24, 2011, Medicare will provide coverage for MRIs for beneficiaries with implanted cardiac pacemakers or implantable cardioverter defibrillators if the beneficiary is enrolled in an approved clinical study under the Coverage with Study Participation form of Coverage with Evidence Development that meets specific criteria per Pub. 100-03, the NCD Manual, chapter 1, section 220.2.C.1.

40.1.2 - HCPCS Coding Requirements

(Rev. 1472, Issued: 03-06-08, Effective: 05-23-07, Implementation: 04-07-08)

Providers must report HCPCS codes when submitting claims for MRA of the chest, abdomen, head, neck or peripheral vessels of lower extremities. The following HCPCS codes should be used to report these services:

MRA of head	70544, 70544-26, 70544-TC
MRA of head	70545, 70545-26, 70545-TC
MRA of head	70546, 70546-26, 70546-TC
MRA of neck	70547, 70547-26, 70547-TC
MRA of neck	70548, 70548-26, 70548-TC
MRA of neck	70549, 70549-26, 70549-TC
MRA of chest	71555, 71555-26, 71555-TC
MRA of pelvis	72198, 72198-26, 72198-TC

MRA of abdomen (dates of service on or after July 1, 2003) – see below.	74185, 74185-26, 74185-TC
MRA of peripheral vessels of lower extremities	73725, 73725-26, 73725-TC

Hospitals subject to OPPS should report the following C codes in place of the above HCPCS codes as follows:

- MRA of chest 71555: C8909 – C8911
- MRA of abdomen 74185: C8900 – C8902
- MRA of peripheral vessels of lower extremities 73725: C8912 – C8914

For claims with dates of service on or after July 1, 2003, coverage under this benefit has been expanded for the use of MRA for diagnosing pathology in the renal or aortoiliac arteries. The following HCPCS code should be used to report this expanded coverage of MRA:

- MRA, pelvis, with or without contrast material(s) 72198, 72198-26, 72198-TC

Hospitals subject to OPPS report the following C codes in place of HCPCS code 72198:

- MRA, pelvis, with or without contrast material(s) 72198: C8918 - C8920

NOTE: Information regarding the claim form locator that corresponds to the HCPCS code and a table to crosswalk its CMS-1450 form locator to the 837 transaction is found in Chapter 25.

40.1.3 - Special Billing Instructions for RHCs and FQHCs

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

Independent RHCs and free-standing FQHCs bill under bill type 71X and 73X for the professional component utilizing revenue codes 520 and 521 as appropriate. HCPCS coding is not required. The technical component is outside the scope of the RHC/FQHC benefit. The provider of the technical service bills using the ASC X12 837 professional claim format or on Form CMS-1500.

The technical component for a provider based RHC/FQHC is typically furnished by the provider. The provider of that service bills under bill type 13X or 85X as appropriate

using its outpatient provider number (not the RHC/FQHC provider number since these services are not covered as RHC/FQHC services). Effective 4/1/06, type of bill 14X is for non-patient laboratory specimens and is no longer applicable for radiology services.

40.1.4 – Payment Requirements

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

For claims with dates of service on and after February 24, 2011, the following diagnosis code and modifier shall be reported on MRI claims for beneficiaries with implanted PMs, that are outside FDA-approved labeling for use in an MRI environment (in a Medicare-approved clinical study):

- Appropriate MRI code
- Q0 modifier
- Condition code 30 (for institutional claims)
- **If ICD-9-CM is applicable**
    - ICD-9 code V70.7- Examination of participant in clinical trial (for institutional claims)
    - ICD-9 code V45.02 (automatic implantable cardiac defibrillator) or
    - ICD-9 code V45.01 (cardiac pacemaker)

- **If ICD-10-CM is applicable**
    - Z00.6 - Encounter for examination for normal comparison and control in clinical research program
    - Z95.810 - Presence of automatic (implantable) cardiac defibrillator or
    - Z95.0 - Presence of cardiac pacemaker

For claims with dates of services on and after July 7, 2011, the following codes shall be reported on MRI claims for beneficiaries with implanted PMs that have FDA-approved labeling for use in an MRI environment:

- Appropriate MRI code
- KX modifier
- **If ICD-9-CM is applicable**
    - ICD-9 code V45.01 (cardiac pacemaker)
- **If ICD-10-CM is applicable**
    - ICD-10 code Z95.0 (cardiac pacemaker)

Payment is as follows:

- Professional claims (practitioners and suppliers) - based on the Medicare Physician Fee Schedule (MPFS)

- Inpatient (11x) - Prospective payment system (PPS), based on the diagnosis-related group

- Hospital outpatient departments (13x) - Outpatient PPS, based on the ambulatory payment classification

- Rural Health Clinics/Federally Qualified Health Centers (RHCs/FQHCs) (71x/77x) - All-inclusive rate, professional component only, based on the visit furnished to the RHC/FQHC beneficiary to receive the MRI. The technical component is outside the scope of the RHC/FQHC benefit. Therefore the provider of the technical service bills their A/B MAC (B) on the ASC X12 837 professional claim format or hardcopy Form CMS-1500 and payment is made under the MPFS.

- Critical access hospitals (CAHs) (85x) –

    - For CAHs that elected the optional method of payment for outpatient services, the payment for technical services would be the same as the CAHs that did not elect the optional method - Reasonable cost.

    - The A/B MAC (A) pays the professional component at 115% of the MPFS.

Deductible and coinsurance apply.

40.2 – Medicare Summary Notices (MSN), Reason Codes, and Remark Codes

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

When denying MRI line items on institutional claims when billed with the appropriate MRI code and modifier KX is not present, use the following messages:

If ICD-9-CM is applicable, ICD-9 code V45.01

If ICD-10-CM is applicable, ICD-10 code Z95.0

- CARC 188 – This product/procedure is only covered when used according to the FDA recommendations

- MSN 21.8 – Services performed using equipment that has not been approved by the Food and Drug Administration are not covered. Spanish Version - "Servicios rendidos usando equipo que no es aprobado por la Administración de Alimentos y Drogas no son cubiertos".

When denying MRI line items on professional claims and modifier KX is not present, use the following messages:

If ICD-9-CM is applicable, ICD-9 code V45.01

If ICD-10-CM is applicable, ICD-10 code Z95.0

- CARC 188 - This product/procedure is only covered when used according to the FDA recommendations

- MSN 21.8 - Services performed using equipment that has not been approved by the Food and Drug Administration are not covered

When denying MRI line items that do not include all of the following line items:

- An appropriate MRI code,

- If ICD-9-CM is applicable, ICD-9 code V45.02 (automatic implantable cardiac defibrillator) or ICD-9 code V45.01 (cardiac pacemaker),

- ICD-10-CM is applicable, ICD-10 code Z95.810 (automatic implantable cardiac defibrillator)or ICD-10 code Z95.0 (cardiac pacemaker),

- Modifier Q0,

- If ICD-9-CM is applicable, ICD-9 code V70.7 Examination of participant in clinical trial (for institutional claims only)or

- If ICD-10-CM is applicable, ICD-10 code Z00.6 – Examination of participant in clinical trial (for institutional claims only), and

- Condition code 30 (for institutional claims only), use the following messages:

    - CARC B5 - Coverage/program guidelines were not met or exceeded

    - RARC N386 - This decision was based on a National Coverage Determination (NCD). An NCD provides a coverage determination as to whether a

particular item or service is covered. A copy of this policy is available at www.cms.gov/mcd/search.asp. If you do not have web access, you may contact the contractor to request a copy of the NCD.

- MSN 21.21 - This service was denied because Medicare only covers this service under certain circumstances. Spanish Version - Este servicio fue denegado porque Medicare solamente lo cubre bajo ciertas circunstancias.

50 - Nuclear Medicine (CPT 78000 - 79999)
(Rev. 1, 10-01-03)

50.1 - Payments for Radionuclides
(Rev. 1, 10-01-03)

The TC RVUs for nuclear medicine procedures (CPT codes 78XXX for diagnostic nuclear medicine, and codes 79XXX for therapeutic nuclear medicine) do not include the radionuclide used in connection with the procedure. These substances are separately billed under codes A4641 and A4642 for diagnostic procedures, and code 79900 for therapeutic procedures and are paid on a "By Report" basis depending on the substance used. In addition, CPT code 79900 is separately payable in connection with certain clinical brachytherapy procedures. (See §70.4 for brachytherapy procedures).

50.2 - Stressing Agent
(Rev. 1, 10-01-03)

Carriers must make separate payment under code J1245 for pharmacologic stressing agents used in connection with nuclear medicine and cardiovascular stress testing procedures furnished to beneficiaries in settings in which TCs are payable. Such an agent is classified as a supply and covered as an integral part of the diagnostic test. However, carriers pay for code J1245 under the policy for determining payments for "incident to" drugs. See Chapter 17 for payment for drugs.

50.2.1 - FI Payment for IV Persantine
(Rev. 1, 10-01-03)
SNF-533.1.I

The FIs pay drug IV Persantine based on the drug pricing methodology when used in conjunction with nuclear medicine and cardiovascular stress testing procedures furnished to SNF outpatients. Separate drug pricing methodology payments for IV Persantine is made in addition to payments made for the procedure. SNFs bill HCPCS code J1245 (injection, dipyridamole, per 10 mg.) with revenue code 0636.

50.2.2 - FI Payment for Adenosine
(Rev. 1, 10-01-03)
SNF-533.3

The drug adenosine is paid based on the drug payment methodology when used as a pharmacologic stressor for other diagnostic testing. Separate based payment for adenosine will be made in addition to payments made for the procedure for SNF Part B patients. When billing for adenosine, HCPCS code J0150 (Injection, adenosine, 6 mg.) should be reported with revenue code 0636.

50.3 - Application of Multiple Procedure Policy (CPT Modifier "-51")
(Rev. 1, 10-01-03)

Carriers must apply the multiple procedure reduction to the following nuclear medicine diagnostic procedures: codes 78306, 78320, 78802, 78803, 78806, and 78807.

50.4 - Generation and Interpretation of Automated Data
(Rev. 1, 10-01-03)

Payment for CPT codes 78890 and 78891 is bundled into payments for the primary procedure.

60 - Positron Emission Tomography (PET) Scans – General Information
(Rev. 1833; Issued: 10-16-09; Effective Date: 04-03-09; Implementation Date: 10-30-09)

Positron emission tomography (PET) is a noninvasive imaging procedure that assesses perfusion and the level of metabolic activity in various organ systems of the human body. A positron camera (tomograph) is used to produce cross-sectional tomographic images which are obtained by detecting radioactivity from a radioactive tracer substance (radiopharmaceutical) that emits a radioactive tracer substance (radiopharmaceutical FDG) such as 2 –[F-18] flouro-D-glucose FDG, that is administered intravenously to the patient.

The Medicare National Coverage Determinations (NCD) Manual, chapter 1, §220.6, contains additional coverage instructions to indicate the conditions under which a PET scan is performed.

A. Definitions

For all uses of PET, excluding Rubidium 82 for perfusion of the heart, myocardial viability and refractory seizures, the following definitions apply:

- **Diagnosis**: PET is covered only in clinical situations in which the PET results may assist in avoiding an invasive diagnostic procedure, or in which the PET results may assist in determining the optimal anatomical location to perform an invasive diagnostic procedure. In general, for most solid tumors, a tissue diagnosis is made prior to the performance of PET scanning. PET scans following a tissue diagnosis are generally performed for the purpose of staging, rather than diagnosis. Therefore, the use of PET in

the diagnosis of lymphoma, esophageal and colorectal cancers, as well as in melanoma, should be rare. PET is not covered for other diagnostic uses, and is not covered for screening (testing of patients without specific signs and symptoms of disease).

- **Staging**: PET is covered in clinical situations in which (1) (a) the stage of the cancer remains in doubt after completion of a standard diagnostic workup, including conventional imaging (computed tomography, magnetic resonance imaging, or ultrasound) or, (b) the use of PET would also be considered reasonable and necessary if it could potentially replace one or more conventional imaging studies when it is expected that conventional study information is insufficient for the clinical management of the patient and, (2) clinical management of the patient would differ depending on the stage of the cancer identified.

NOTE: Effective for services on or after April 3, 2009, the terms "diagnosis" and "staging" will be replaced with "Initial Treatment Strategy." For further information on this new term, refer to Pub. 100-03, NCD Manual, section 220.6.17.

- **Restaging**: PET will be covered for restaging: (1) after the completion of treatment for the purpose of detecting residual disease, (2) for detecting suspected recurrence, or metastasis, (3) to determine the extent of a known recurrence, or (4) if it could potentially replace one or more conventional imaging studies when it is expected that conventional study information is to determine the extent of a known recurrence, or if study information is insufficient for the clinical management of the patient. Restaging applies to testing after a course of treatment is completed and is covered subject to the conditions above.

- **Monitoring**: Use of PET to monitor tumor response to treatment during the planned course of therapy (i.e., when a change in therapy is anticipated).

NOTE: Effective for services on or after April 3, 2009, the terms "restaging" and "monitoring" will be replaced with "Subsequent Treatment Strategy." For further information on this new term, refer to Pub. 100-03, NCD Manual, section 220.6.17.

B. Limitations

For staging and restaging: PET is covered in either/or both of the following circumstances:

- The stage of the cancer remains in doubt after completion of a standard diagnostic workup, including conventional imaging (computed tomography, magnetic resonance imaging, or ultrasound); and/or

- The clinical management of the patient would differ depending on the stage of the cancer identified. PET will be covered for restaging after the completion of treatment for the purpose of detecting residual disease, for detecting suspected recurrence, or to determine the extent of a known recurrence. Use of PET would also be considered

reasonable and necessary if it could potentially replace one or more conventional imaging studies when it is expected that conventional study information is insufficient for the clinical management of the patient.

The PET is not covered for other diagnostic uses, and is not covered for screening (testing of patients without specific symptoms). Use of PET to monitor tumor response during the planned course of therapy (i.e., when no change in therapy is being contemplated) is not covered.

60.1 - Billing Instructions

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

A. Billing and Payment Instructions or Responsibilities for A/B MACs (B)

Claims for PET scan services must be billed using the ASC X12 837 professional claim format or on Form-CMS 1500 with the appropriate HCPCS or CPT code and diagnosis codes to the A/B MAC (B). Effective for claims received on or after July 1, 2001, PET modifiers were discontinued and are no longer a claims processing requirement for PET scan claims. Therefore, July 1, 2001, and after the MSN messages regarding the use of PET modifiers can be discontinued. The type of service (TOS) for the new PET scan procedure codes is TOS 4, Diagnostic Radiology. Payment is based on the Medicare Physician Fee Schedule.

B. Billing and Payment Instructions or Responsibilities for A/B MACs (A)

Claims for PET scan procedures must be billed to the A/B MAC (A) on the ASC X12 837 institutional claim format or on Form CMS-1450 with the appropriate diagnosis and HCPCS "G" code or CPT code to indicate the conditions under which a PET scan was done. These codes represent the technical component costs associated with these procedures when furnished to hospital and SNF outpatients. They are paid as follows:

- under OPPS for hospitals subject to OPPS
- under current payment methodologies for hospitals not subject to OPPS
- on a reasonable cost basis for critical access hospitals.
- on a reasonable cost basis for skilled nursing facilities.

Institutional providers bill these codes under Revenue Code 0404 (PET Scan).

Medicare contractors shall pay claims submitted for services provided by a critical access hospital (CAH) as follows: Method I technical services are paid at 101% of reasonable cost; Method II technical services are paid at 101% of reasonable cost, and professional services are paid at 115% of the Medicare Physician Fee Schedule Data Base.

C. Frequency

In the absence of national frequency limitations, for all indications covered on and after July 1, 2001, contractors can, if necessary, develop frequency limitations on any or all covered PET scan services.

D. Post-Payment Review for PET Scans

As with any claim, but particularly in view of the limitations on this coverage, Medicare may decide to conduct post-payment reviews to determine that the use of PET scans is consistent with coverage instructions. Pet scanning facilities must keep patient record information on file for each Medicare patient for whom a PET scan claim is made. These medical records can be used in any post-payment reviews and must include the information necessary to substantiate the need for the PET scan. These records must include standard information (e.g., age, sex, and height) along with sufficient patient histories to allow determination that the steps required in the coverage instructions were followed. Such information must include, but is not limited to, the date, place and results of previous diagnostic tests (e.g., cytopathology and surgical pathology reports, CT), as well as the results and reports of the PET scan(s) performed at the center. If available, such records should include the prognosis derived from the PET scan, together with information regarding the physician or institution to which the patient proceeded following the scan for treatment or evaluation. The ordering physician is responsible for forwarding appropriate clinical data to the PET scan facility.

Effective for claims received on or after July 1, 2001, CMS no longer requires paper documentation to be submitted up front with PET scan claims. Contractors shall be aware and advise providers of the specific documentation requirements for PET scans for dementia and neurodegenerative diseases. This information is outlined in section 60.12. Documentation requirements such as physician referral and medical necessity determination are to be maintained by the provider as part of the beneficiary's medical record. This information must be made available to the A/B MAC (A or B) upon request of additional documentation to determine appropriate payment of an individual claim.

60.2 - Use of Gamma Cameras and Full Ring and Partial Ring PET Scanners for PET Scans

(Rev. 527, Issued: 04-15-05, Effective: 01-28-05, Implementation: 04-18-05)

See the Medicare NCD Manual, Section 220.6, concerning 2-[F-18] Fluoro-D-Glucose (FDG) PET scanners and details about coverage.

On July 1, 2001, HCPCS codes G0210 - G0230 were added to allow billing for all currently covered indications for FDG PET. Although the codes do not indicate the type of PET scanner, these codes were used until January 1, 2002, by providers to bill for services in a manner consistent with the coverage policy.

Effective January 1, 2002, HCPCS codes G0210 – G0230 were updated with new descriptors to properly reflect the type of PET scanner used. In addition, four new HCPCS codes became effective for dates of service on and after January 1, 2002, (G0231, G0232, G0233, G0234) for covered conditions that may be billed if a gamma camera is used for the PET scan. For services performed from January 1, 2002, through January 27, 2005, providers should bill using the revised HCPCS codes G0210 - G0234. Beginning January 28, 2005 providers should bill using the appropriate CPT code.

60.2.1 - Coverage for Myocardial Viability

(Rev. 1, 10-01-03)
AB-02-065

The FDG PET is covered for the determination of myocardial viability following an inconclusive single photon computed tomography test (SPECT) from July 1, 2001, through September 30, 2002. Only full ring scanners are covered as the scanning medium for this service from July 1, 2001, through December 31, 2001. However, as of January 1, 2002, full and partial ring scanners are covered for myocardial viability following an inconclusive SPECT.

Beginning October 1, 2002, Medicare will cover FDG PET for the determination of myocardial viability as a primary or initial diagnostic study prior to revascularization, and will continue to cover FDG PET when used as a follow-up to an inconclusive SPECT. However, if a patient received a FDG PET study with inconclusive results, a follow-up SPECT is not covered. FDA full and partial ring PET scanners are covered.

In the event that a patient receives a SPECT with inconclusive results, a PET scan may be performed and covered by Medicare. However, a SPECT is not covered following a FDG PET with inconclusive results. See the Medicare National Coverage Determinations Manual for specific frequency limitations for Myocardial Viability following an inconclusive SPECT.

In the absence of national frequency limitations, contractors can, if necessary develop reasonable frequency limitations for myocardial viability.

Documentation that these conditions are met should be maintained by the referring physician as part of the beneficiary's medical record.

60.3 - PET Scan Qualifying Conditions and HCPCS Code Chart

(Rev. 527, Issued: 04-15-05, Effective: 01-28-05, Implementation: 04-18-05)

Below is a summary of all covered PET scan conditions, with effective dates.

NOTE: The G codes below except those a # can be used to bill for PET Scan services through January 27, 2005. Effective for dates of service on or after January 28, 2005, providers must bill for PET Scan services using the appropriate CPT codes. See section 60.3.1. The G codes with a # can continue to be used for billing after January 28, 2005 and these remain non-covered by Medicare. (**NOTE:** PET Scanners must be FDA-approved.)

Conditions	**Coverage Effective Date**	****HCPCS/CPT**
*Myocardial perfusion imaging (following previous PET G0030-G0047) single study, rest or stress (exercise and/or pharmacologic)	3/14/95	G0030
*Myocardial perfusion imaging (following previous PET G0030-G0047) multiple studies, rest or stress (exercise and/or pharmacologic)	3/14/95	G0031
*Myocardial perfusion imaging (following rest SPECT, 78464); single study, rest or stress (exercise and/or pharmacologic)	3/14/95	G0032
*Myocardial perfusion imaging (following rest SPECT 78464); multiple studies, rest or stress (exercise and/or pharmacologic)	3/14/95	G0033
*Myocardial perfusion (following stress SPECT 78465); single study, rest or stress (exercise and/or pharmacologic)	3/14/95	G0034
*Myocardial Perfusion Imaging (following stress SPECT 78465); multiple studies, rest or stress (exercise and/or pharmacologic)	3/14/95	G0035
*Myocardial Perfusion Imaging (following coronary angiography 93510-93529); single study, rest or stress (exercise and/or pharmacologic)	3/14/95	G0036
*Myocardial Perfusion Imaging, (following coronary angiography), 93510-93529); multiple studies, rest or stress (exercise and/or pharmacologic)	3/14/95	G0037

*Myocardial Perfusion Imaging (following stress planar myocardial perfusion, 78460); single study, rest or stress (exercise and/or pharmacologic)	3/14/95	G0038
Conditions	**Coverage Effective Date**	****HCPCS/CPT**
*Myocardial Perfusion Imaging (following stress planar myocardial perfusion, 78460); multiple studies, rest or stress (exercise and/or pharmacologic)	3/14/95	G0039
*Myocardial Perfusion Imaging (following stress echocardiogram 93350); single study, rest or stress (exercise and/or pharmacologic)	3/14/95	G0040
*Myocardial Perfusion Imaging (following stress echocardiogram, 93350); multiple studies, rest or stress (exercise and/or pharmacologic)	3/14/95	G0041
*Myocardial Perfusion Imaging (following stress nuclear ventriculogram 78481 or 78483); single study, rest or stress (exercise and/or pharmacologic)	3/14/95	G0042
*Myocardial Perfusion Imaging (following stress nuclear ventriculogram 78481 or 78483); multiple studies, rest or stress (exercise and/or pharmacologic)	3/14/95	G0043
*Myocardial Perfusion Imaging (following stress ECG, 93000); single study, rest or stress (exercise and/or pharmacologic)	3/14/95	G0044
*Myocardial perfusion (following stress ECG, 93000), multiple studies; rest or stress (exercise and/or pharmacologic)	3/14/95	G0045
*Myocardial perfusion (following stress ECG, 93015), single study; rest or stress (exercise and/or pharmacologic)	3/14/95	G0046
*Myocardial perfusion (following stress ECG, 93015); multiple studies, rest or stress (exercise and/or pharmacologic)	3/14/95	G0047

PET imaging regional or whole body; single pulmonary nodule	1/1/98	G0125
Conditions	**Coverage Effective Date**	******HCPCS/CPT**
Lung cancer, non-small cell (PET imaging whole body) Diagnosis, Initial Staging, Restaging	7/1/01	G0210 G0211 G0212
Colorectal cancer (PET imaging whole body) Diagnosis, Initial Staging, Restaging	7/1/01	G0213 G0214 G0215
Melanoma (PET imaging whole body) Diagnosis, Initial Staging, Restaging	7/1/01	G0216 G0217 G0218
Melanoma for non-covered indications	7/1/01	#G0219
Lymphoma (PET imaging whole body) Diagnosis, Initial Staging, Restaging	7/1/01	G0220 G0221 G0222
Head and neck cancer; excluding thyroid and CNS cancers (PET imaging whole body or regional) Diagnosis, Initial Staging, Restaging	7/1/01	G0223 G0224 G0225
Esophageal cancer (PET imaging whole body) Diagnosis, Initial Staging, Restaging	7/1/01	G0226 G0227 G0228
Metabolic brain imaging for pre-surgical evaluation of refractory seizures	7/1/01	G0229
Metabolic assessment for myocardial viability following inconclusive SPECT study	7/1/01	G0230

Recurrence of colorectal or colorectal metastatic cancer (PET whole body, gamma cameras only)	1/1/02	G0231
Staging and characterization of lymphoma (PET whole body, gamma cameras only)	1/1/02	G0232
Conditions	**Coverage Effective Date**	******HCPCS/CPT**
Recurrence of melanoma or melanoma metastatic cancer (PET whole body, gamma cameras only)	1/1/02	G0233
Regional or whole body, for solitary pulmonary nodule following CT, or for initial staging of non-small cell lung cancer (gamma cameras only)	1/1/02	G0234
Non-Covered Service PET imaging, any site not otherwise specified	1/28/05	#G0235
Non-Covered Service Initial diagnosis of breast cancer and/or surgical planning for breast cancer (e.g., initial staging of axillary lymph nodes), not covered (full- and partial-ring PET scanners only)	10/1/02	#G0252
Breast cancer, staging/restaging of local regional recurrence or distant metastases, i.e., staging/restaging after or prior to course of treatment (full- and partial-ring PET scanners only)	10/1/02	G0253
Breast cancer, evaluation of responses to treatment, performed during course of treatment (full- and partial-ring PET scanners only)	10/1/02	G0254
Myocardial imaging, positron emission tomography (PET), metabolic evaluation)	10/1/02	78459
Restaging or previously treated thyroid cancer of follicular cell origin following negative I-131 whole body scan (full- and partial-ring PET scanner only)	10/1/03	G0296

Tracer Rubidium**82 (Supply of Radiopharmaceutical Diagnostic Imaging Agent) (This is only billed through Outpatient Perspective Payment System, OPPS.) (Carriers must use HCPCS Code A4641).	10/1/03	Q3000
Supply of Radiopharmaceutical Diagnostic Imaging Agent, Ammonia N-13	01/1/04	A9526
Conditions	**Coverage Effective Date**	****HCPCS/CPT**
PET imaging, brain imaging for the differential diagnosis of Alzheimer's disease with aberrant features vs. fronto-temporal dementia	09/15/04	Appropriate CPT Code from section 60.3.1
PET Cervical Cancer Staging as adjunct to conventional imaging, other staging, diagnosis, restaging, monitoring	1/28/05	Appropriate CPT Code from section 60.3.1

***NOTE:** Carriers must report A4641 for the tracer Rubidium 82 when used with PET scan codes G0030 through G0047 for services performed on or before January 27, 2005

****NOTE:** Not FDG PET

*****NOTE:** For dates of service October 1, 2003, through December 31, 2003, use temporary code Q4078 for billing this radiopharmaceutical.

60.3.1 - Appropriate CPT Codes Effective for PET Scans for Services Performed on or After January 28, 2005

(Rev. 1301, Issued: 07-20-07, Effective: 01-28-05 CPT Code 78609/01-01-08 HCPCS Code A4641, Implementation: 01-07-08)

NOTE: All PET scan services require the use of a radiopharmaceutical diagnostic imaging agent (tracer). The applicable tracer code should be billed when billing for a PET scan service. See section 60.3.2 below for applicable tracer codes.

CPT Code	Description
78459	Myocardial imaging, positron emission tomography (PET), metabolic evaluation

78491	Myocardial imaging, positron emission tomography (PET), perfusion, single study at rest or stress
78492	Myocardial imaging, positron emission tomography (PET), perfusion, multiple studies at rest and/or stress
78608	Brain imaging, positron emission tomography (PET); metabolic evaluation
78811	Tumor imaging, positron emission tomography (PET); limited area (eg, chest, head/neck)
78812	Tumor imaging, positron emission tomography (PET); skull base to mid-thigh
78813	Tumor imaging, positron emission tomography (PET); whole body
78814	Tumor imaging, positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization; limited area (e.g., chest, head/neck)
78815	Tumor imaging, positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization; skull base to mid-thigh
78816	Tumor imaging, positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization; whole body

60.3.2 - Tracer Codes Required for PET Scans

(Rev. 2096, Issued: 11-19-10, Effective: 02-26-10, Implementation: 02-22-11)

The following tracer codes are applicable only to CPT 78491 and 78492. They can not be reported with any other code.

Institutional providers billing the fiscal intermediary

HCPCS	**Description**
*A9555	Rubidium Rb-82, Diagnostic, Per study dose, Up To 60 Millicuries
* Q3000 (Deleted effective 12/31/05)	Supply of Radiopharmaceutical Diagnostic Imaging Agent, Rubidium Rb-82, per dose
A9526	Nitrogen N-13 Ammonia, Diagnostic, Per study dose, Up To 40 Millicuries

NOTE: For claims with dates of service prior to 1/01/06, providers report Q3000 for supply of radiopharmaceutical diagnostic imaging agent, Rubidium Rb-82. For claims with dates of service 1/01/06 and later, providers report A9555 for radiopharmaceutical diagnostic imaging agent, Rubidium Rb-82 in place of Q3000.

Physicians / practitioners billing the carrier:

*A4641	Supply of Radiopharmaceutical Diagnostic Imaging Agent, Not Otherwise Classified
A9526	Nitrogen N-13 Ammonia, Diagnostic, Per study dose, Up To 40 Millicuries
A9555	Rubidium Rb-82, Diagnostic, Per study dose, Up To 60 Millicuries

***NOTE:** Effective January 1, 2008, tracer code A4641 is not applicable for PET Scans.

The following tracer codes are applicable only to CPT 78459, 78608, 78811-78816. They can not be reported with any other code:

Institutional providers billing the fiscal intermediary:

* A9552	Fluorodeoxyglucose F18, FDG, Diagnostic, Per study dose, Up to 45 Millicuries
* C1775 (Deleted effective 12/31/05)	Supply of Radiopharmaceutical Diagnostic Imaging Agent, Fluorodeoxyglucose F18, (2-Deoxy-2-18F Fluoro-D-Glucose), Per dose (4-40 Mci/Ml)
**A4641	Supply of Radiopharmaceutical Diagnostic Imaging Agent, Not Otherwise Classified

The following tracer codes are applicable only to CPT 78811-78816. They can not be reported with any other code:

A9580	Sodium Fluoride F-18, Diagnostic, per study dose, up to 30 Millicuries

NOTE: For claims with dates of service prior to 1/01/06, OPPS hospitals report C1775 for supply of radiopharmaceutical diagnostic imaging agent, Fluorodeoxyglucose F18. For claims with dates of service 1/01/06 and later, providers report A9552 for radiopharmaceutical diagnostic imaging agent, Fluorodeoxyglucose F18 in place of C1775.

****NOTE:** Effective January 1, 2008, tracer code A4641 is not applicable for PET Scans.

*****NOTE: Effective for claims with dates of service February 26, 2010 and later, tracer code A9580 is applicable for PET Scans.**

Physicians / practitioners billing the carrier:

A9552	Fluorodeoxyglucose F18, FDG, Diagnostic, Per study dose, Up to 45 Millicuries
*A4641	Supply of Radiopharmaceutical Diagnostic Imaging Agent, Not Otherwise Classified

The following tracer code is applicable only to 78811-78816. They can not be reported with any other code:

A9580	Sodium Fluoride F-18, Diagnostic, per study dose, up to 30 Millicuries

***NOTE:** Effective January 1, 2008, tracer code A4641 is not applicable for PET Scans.

*****NOTE: Effective for claims with dates of service February 26, 2010 and later, tracer code A9580 is applicable for PET Scans.**

Positron Emission Tomography Reference Table

CPT	Short Descriptor	Tracer/Code	or	Tracer/Code	Comment
78459	Myocardial imaging, positron emission tomography (PET), metabolic imaging	FDG A9552	--	--	N/A
78491	Myocardial imaging, positron emission tomography (PET), perfusion; single study at rest or stress	N-13 A9526	or	Rb-82 A9555	N/A
78492	Myocardial imaging, positron emission tomography (PET), perfusion; multiple studies at rest and/or stress	N-13 A9526	or	Rb-82 A9555	N/A

78608	Brain imaging, positron emission tomography (PET); metabolic evaluation	FDG A9552	--	--	Covered indications: Alzheimer's disease/dementias, intractable seizures Note: This code is also covered for dedicated PET brain tumor imaging.
78609	Brain imaging, positron emission tomography (PET); perfusion evaluation	--	--	--	Nationally noncovered
78811	Positron emission tomography (PET) imaging; limited area (e.g, chest, head/neck)	FDG A9552	or	NaF-18 A9580	NaF-18 PET is covered only to identify bone metastasis of cancer.
78812	Positron emission tomography (PET) imaging, skull base to mid-thigh	FDG A9552	or	NaF-18 A9580	NaF-18 PET is covered only to identify bone metastasis of cancer.
78813	Positron emission tomography (PET) imaging, whole body	FDG A9552	or	NaF-18 A9580	NaF-18 PET s covered only to identify bone metastasis of cancer.
78814	PET/CT imaging, limited area (e.g., chest, head/neck)	FDG A9552	or	NaF-18 A9580	NaF-18 PET is covered only to identify bone metastasis of cancer.
78815	PET/CT imaging , skull base to mid-thigh	FDG A9552	or	NaF-18 A9580	NaF-18 PET is covered only to identify bone metastasis of cancer.
78816	PET/CT imaging, whole body	FDG A9552	or	NaF-18 A9580	NaF-18 PET is covered only to identify bone metastasis of cancer.

60.3.3 - Medicare Summary Notice (MSN)

(Rev. 1301, Issued: 07-20-07, Effective: 01-28-05 CPT Code 78609/01-01-08 HCPCS Code A4641, Implementation: 01-07-08)

The following messages are used on the MSN.

If the claim is being denied for a noncovered procedure code such as 78609, the following message is used:

MSN 16.10
"Medicare does not pay for this item or service."

The Spanish version of this MSN message should read:
"Medicare no paga por este artículo o servicio."

60.3.4 - Remittance Advice Message

(Rev. 1301, Issued: 07-20-07, Effective: 01-28-05 CPT Code 78609/01-01-08 HCPCS Code A4641, Implementation: 01-07-08)

If the denial is based on a national coverage determination such as 78609 (non covered procedure), use:

Remittance Advice Remark Codes N386: "This decision was based on a National Coverage Determination (NCD). An NCD provides a coverage determination as to whether a particular item or service is covered. A copy of this policy is available at Http://www.cms.hhs.gov/mcd/search.asp. If you do not have web access, you may contact the contractor to request a copy of the NCD."

60.4 - PET Scans for Imaging of the Perfusion of the Heart Using Rubidium 82 (Rb 82)

(Rev. 223, Issued: 07-02-04) (Effective/Implementation: Not Applicable)

For dates of service on or after March 14, 1995, Medicare covers one PET scan for imaging of the perfusion of the heart using Rubidium 82 (Rb 82), provided that the following conditions are met:

- The PET is done at a PET imaging center with a PET scanner that has been approved by the FDA;
- The PET scan is a rest alone or rest with pharmacologic stress PET scan, used for noninvasive imaging of the perfusion of the heart for the diagnosis and management of patients with known or suspected coronary artery disease, using Rb 82; and
- Either the PET scan is used in place of, but not in addition to, a single photon emission computed tomography (SPECT) or the PET scan is used following a SPECT that was found inconclusive.

60.5 - Expanded Coverage of PET Scan for Solitary Pulmonary Nodules (SPNs)

(Rev. 223, Issued: 07-02-04) (Effective/Implementation: Not Applicable)

For dates of service on or after January 1, 1998, Medicare expanded PET scan coverage to include characterization of solitary pulmonary nodules (SPNs).

60.6 - Expanded Coverage of PET Scans Effective for Services on or after July 1, 1999

(Rev. 223, Issued: 07-02-04) (Effective/Implementation: Not Applicable)

Effective for services performed on or after July 1, 1999, Medicare expanded coverage of PET scans to include the evaluation of recurrent colorectal cancer in patients with rising levels of carinoembryonic antigen (CEA), for the staging of lymphoma (both Hodgkins and non-Hodgkins) when the PET scan substitutes for a gallium scan or lymphangiogram, and for the staging of recurrent melanoma prior to surgery, provided certain conditions are met. All three indications are covered only when using the radiopharmaceutical FDG- (2-[flourine-18]-fluoro-2-deoxy-D-glucose), and are further predicated on the legal availability of FDG for use in such scans.

60.7 - Expanded Coverage of PET Scans Effective for Services on or After July 1, 2001

(Rev. 223, Issued: 07-02-04) (Effective/Implementation: Not Applicable)

See the Medicare National Coverage Determinations Manual, section 220.6, for specific coverage criteria for PET Scans. Coverage is expanded for PET scans to include the following effective July 1, 2001:

- Scans performed with dedicated full-ring scanners will be covered. Gamma camera systems with at least a 1 inch thick crystal are eligible for coverage in addition to those already approved by CMS (FDA approved);

- The provider must maintain on file the doctor's referral and documentation that the procedure involved:

    - Only FDA approved drugs and devices and,
    - Did not involve investigational drugs, or procedures using investigational drugs, as determined by the FDA;

- The ordering physician is responsible for certifying the medical necessity of the study according to the conditions. The physician must have documentation in the beneficiary's medical record to support the referral supplied to the PET scan provider.

The following is a brief summary of the expanded coverage as of July 1, 2001:

- PET is covered for diagnosis, initial staging and restaging of non-small cell lung cancer (NSCLC).

- Usage of PET for colorectal cancer has been expanded to include diagnosis, staging, and restaging.

- Usage of PET for the initial staging, and restaging of both Hodgkin's and non-Hodgkin's disease.

- Usage of PET for the diagnosis, initial staging, and restaging of melanoma. **(PET Scans are NOT covered for the evaluation of regional nodes.)**

- Medicare covers PET for the diagnosis, initial staging, and restaging of esophageal cancer.

- Usage of PET for Head and Neck Cancers. **(PET scans for head and neck cancer is NOT covered for central nervous system or thyroid cancers.)**

- Usage of PET following an inconclusive single photon emission computed tomography (SPECT) only for myocardial viability. In the event that a patient has received a SPECT and the physician finds the results to be inconclusive, only then may a PET scan be ordered utilizing the proper documentation.

- Usage of PET for pre-surgical evaluation for patients with refractory seizures.

NOTE: Effective January 1, 2002, the definitions of HCPCS Codes G0210 through G0230 have been updated to properly reflect the type of PET scanner used.

60.8 - Expanded Coverage of PET Scans for Breast Cancer Effective for Dates of Service on or After October 1, 2002

(Rev. 527, Issued: 04-15-05, Effective: 01-28-05, Implementation: 04-18-05)

Effective for dates of service on or after October 1, 2002, Medicare will cover FDG PET as an adjunct to other imaging modalities for staging and restaging for locoregional, recurrence or metastasis of breast cancer. Monitoring treatment of a locally advanced breast cancer tumor and metastatic breast cancer when a change in therapy is contemplated is also covered as an adjunct to other imaging modalities. The baseline PET study for monitoring should be done under the code for staging or restaging.

Medicare continues to have a national non-coverage determination for initial diagnosis of breast cancer and initial staging of axillary lymph nodes. Medicare coverage now includes PET as an adjunct to standard imaging modalities for staging patients with distant metastasis or restaging patients with locoregional recurrence or metastasis of breast cancer; as an adjunct to standard imaging modalities for monitoring for women with locally advanced and metastatic breast cancer when a change in therapy is contemplated.

CPT Codes for PET Scans Performed on or After October 1, 2002 for Breast Cancer

Contractors shall advise providers to use the appropriate CPT code from section 60.3.1 for covered breast cancer indications for services performed on or after January 28, 2005.

NOTE: The NCD Manual contains a description of coverage. FDG Positron Emission Tomography is a minimally invasive diagnostic procedure using positron camera [tomograph] to measure the decay of radioisotopes such as FDG. The CMS determined that the benefit category for the requested indications fell under §1861(s)(3) of the Act diagnostic service.

60.9 - Coverage of PET Scans for Myocardial Viability

(Rev. 223, Issued: 07-02-04) (Effective/Implementation: Not Applicable)

FDG PET is covered for the determination of myocardial viability following an inconclusive single photon computed tomography test (SPECT) from July 1, 2001, through September 30, 2002. Only full ring scanners are covered as the scanning medium for this service from July 1, 2001, through December 31, 2001. However, as of January 1, 2002, full and partial ring scanners are covered for myocardial viability following an inconclusive SPECT.

Beginning October 1, 2002, Medicare will cover FDG PET for the determination of myocardial viability as a primary or initial diagnostic study prior to revascularization, and will continue to cover FDG PET when used as a follow-up to an inconclusive SPECT. However, if a patient received a FDG PET study with inconclusive results, a follow-up SPECT is not covered. FDA full and partial ring PET scanners are covered. In the event that a patient receives a SPECT with inconclusive results, a PET scan may be performed and covered by Medicare. However, a SPECT is not covered following a FDG PET with inconclusive results. See the Medicare National Coverage Determinations Manual, Section 220.6 for specific frequency limitations for Myocardial Viability following an inconclusive SPECT.

Documentation that these conditions are met should be maintained by the referring provider as part of the beneficiary's medical record.

HCPCS Code for PET Scan for Myocardial Viability

78459 - Myocardial imaging, positron emission tomography (PET), metabolic evaluation

60.10 - Coverage of PET Scans for PET Scan for Thyroid Cancer

(Rev. 527, Issued: 04-15-05, Effective: 01-28-05, Implementation: 04-18-05)

For services furnished on or after October 1, 2003, Medicare covers the use of FDG PET for thyroid cancer only for restaging of recurrent or residual thyroid cancers of follicular

cell origin that have previously been treated by thyroidectomy and radioiodine ablation and have a serum thyroglobulin > 10ng/ml and negative I-131 whole body scan. Contractors shall advise providers to use the appropriate CPT code from section 60.3.1 for thyroid cancer for services performed on or after January 28, 2005.

60.11 - Coverage of PET Scans for Perfusion of the Heart Using Ammonia N-13

(Rev. 223, Issued: 07-02-04) (Effective/Implementation: Not Applicable)

Effective for service performed on or after October 1, 2003, PET scans performed at rest or with pharmacological stress used for noninvasive imaging of the perfusion of the heart for the diagnosis and management of patients with known or suspected coronary artery disease using the FDA-approved radiopharmaceutical ammonia N-13 are covered, provided the following requirements are met.

60.12 - Coverage for PET Scans for Dementia and Neurodegenerative Diseases

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

Effective for dates of service on or after September 15, 2004, Medicare will cover FDG PET scans for a differential diagnosis of fronto-temporal dementia (FTD) and Alzheimer's disease OR; its use in a CMS-approved practical clinical trial focused on the utility of FDG-PET in the diagnosis or treatment of dementing neurodegenerative diseases. Refer to Pub. 100-03, NCD Manual, section 220.6.13, for complete coverage conditions and clinical trial requirements and section 60.15 of this manual for claims processing information.

A. A/B MAC (A and B) Billing Requirements for PET Scan Claims for FDG-PET for the Differential Diagnosis of Fronto-temporal Dementia and Alzheimer's Disease:

CPT Code for PET Scans for Dementia and Neurodegenerative Diseases

Contractors shall advise providers to use the appropriate CPT code from section 60.3.1 for dementia and neurodegenerative diseases for services performed on or after January 28, 2005.

Diagnosis Codes for PET Scans for Dementia and Neurodegenerative Diseases

The contractor shall ensure one of the following appropriate diagnosis codes is present on claims for PET Scans for AD:

- If ICD-9-CM is applicable, ICD-9 codes are: 290.0, 290.10 - 290.13, 290.20 - 290, 21, 290.3, 331.0, 331.11, 331.19, 331.2, 331.9, 780.93

- If ICD-10-CM is applicable, ICD-10 codes are: F03.90, F03.90 plus F05, G30.9, G31.01, G31.9, R41.2 or R41.3

Medicare contractors shall use an appropriate Medicare Summary Notice (MSN) message such as 16.48, "Medicare does not pay for this item or service for this condition" to deny claims when submitted with an appropriate CPT code from section 60.3.1 and with a diagnosis code other than the range of codes listed above. Also, contractors shall use an appropriate Remittance Advice (RA) such as 11, "The diagnosis is inconsistent with the procedure."

Medicare contractors shall instruct providers to issue an Advanced Beneficiary Notice to beneficiaries advising them of potential financial liability prior to delivering the service if one of the appropriate diagnosis codes will not be present on the claim.

Provider Documentation Required with the PET Scan Claim

Medicare contractors shall inform providers to ensure the conditions mentioned in the NCD Manual, section 220.6.13, have been met. The information must also be maintained in the beneficiary's medical record:

- Date of onset of symptoms;
- Diagnosis of clinical syndrome (normal aging, mild cognitive impairment or MCI: mild, moderate, or severe dementia);
- Mini mental status exam (MMSE) or similar test score;
- Presumptive cause (possible, probably, uncertain AD);
- Any neuropsychological testing performed;
- Results of any structural imaging (MRI, CT) performed;
- Relevant laboratory tests (B12, thyroid hormone); and,
- Number and name of prescribed medications.

B. Billing Requirements for Beta Amyloid Positron Emission Tomography (PET) in Dementia and Neurodegenerative Disease:

Effective for claims with dates of service on and after September 27, 2013, Medicare will only allow coverage with evidence development (CED) for Positron Emission Tomography (PET) beta amyloid (also referred to as amyloid-beta (Aβ)) imaging (HCPCS A9586)or (HCPCS **A9599)** (one PET Aβ scan per patient).

NOTE: Please note that effective January 1, 2014 the following code A9599 will be updated in the IOCE and HCPCS update. This code will be contractor priced.

Medicare Summary Notices, Remittance Advice Remark Codes, and Claim Adjustment Reason Codes

Effective for dates of service on or after September 27, 2013, contractors shall **return as unprocessable/return to provider** claims for PET Aβ imaging, through CED during a clinical trial, not containing the following:

- Condition code 30, (FI only)
- Modifier Q0 and/or modifier Q1 as appropriate
- ICD-9 dx code V70.7/ICD-10 dx code Z00.6 (on either the primary/secondary position)
- A PET HCPCS code (78811 or 78814)
- At least, one Dx code from the table below,

ICD-9 Codes	**Corresponding ICD-10 Codes**
290.0 Senile dementia, uncomplicated	F03.90 Unspecified dementia without behavioral disturbance
290.10 Presenile dementia, uncomplicated	F03.90 Unspecified dementia without behavioral disturbance
290.11 Presenile dementia with delirium	F03.90 Unspecified dementia without behavioral disturbance
290.12 Presenile dementia with delusional features	F03.90 Unspecified dementia without behavioral disturbance
290.13 Presenile dementia with depressive features	F03.90 Unspecified dementia without behavioral disturbance
290.20 Senile dementia with delusional features	F03.90 Unspecified dementia without behavioral disturbance
290.21 Senile dementia with depressive features	F03.90 Unspecified dementia without behavioral disturbance
290.3 Senile dementia with delirium	F03.90 Unspecified dementia without behavioral disturbance
290.40 Vascular dementia, uncomplicated	F01.50 Vascular dementia without behavioral disturbance
290.41 Vascular dementia with delirium	F01.51 Vascular dementia with behavioral disturbance
290.42 Vascular dementia with delusions	F01.51 Vascular dementia with behavioral disturbance

290.43 Vascular dementia with depressed mood	F01.51 Vascular dementia with behavioral disturbance
294.10 Dementia in conditions classified elsewhere without behavioral disturbance	F02.80 Dementia in other diseases classified elsewhere without behavioral disturbance
294.11 Dementia in conditions classified elsewhere with behavioral disturbance	F02.81 Dementia in other diseases classified elsewhere with behavioral disturbance
294.20 Dementia, unspecified, without behavioral disturbance	F03.90 Unspecified dementia without behavioral disturbance
294.21 Dementia, unspecified, with behavioral disturbance	F03.91 Unspecified dementia with behavioral disturbance
331.11 Pick's Disease	G31.01 Pick's disease
331.19 Other Frontotemporal dementia	G31.09 Other frontotemporal dementia
331.6 Corticobasal degeneration	G31.85 Corticobasal degeneration
331.82 Dementia with Lewy Bodies	G31.83 Dementia with Lewy bodies
331.83 Mild cognitive impairment, so stated	G31.84 Mild cognitive impairment, so stated
780.93 Memory Loss	R41.1 Anterograde amnesia R41.2 Retrograde amnesia R41.3 Other amnesia (Amnesia NOS, Memory loss NOS)
V70.7 Examination for normal comparison or control in clinical	Z00.6 Encounter for examination for normal comparison and control in clinical research program

and

- Aβ HCPCS code A9586 or A9599

Contractors shall return as unprocessable claims for PET Aβ imaging using the following messages:

-Claim Adjustment Reason Code 4 – the procedure code is inconsistent with the modifier used or a required modifier is missing.

Note: Refer to the 835 Healthcare Policy Identification Segment (loop 2110 Service Payment Information REF), if present.

-Remittance Advice Remark Code N517 - Resubmit a new claim with the requested information.

- Remittance Advice Remark Code N519 - Invalid combination of HCPCS modifiers.

Contractors shall line-item **deny** claims for PET Aβ , HCPCS code A9586 or A9599 , where a previous PET Aβ, HCPCS code A9586 or A9599 is paid in history using the following messages:

- CARC 149: "Lifetime benefit maximum has been reached for this service/benefit category."
- RARC N587: "Policy benefits have been exhausted".
- MSN 20.12: "This service was denied because Medicare only covers this service once a lifetime."
- Spanish Version: "Este servicio fue negado porque Medicare sólo cubre este servicio una vez en la vida."
- Group Code: PR, if a claim is received with a GA modifier
- Group Code: CO, if a claim is received with a GZ modifier

60.13 - Billing Requirements for PET Scans for Specific Indications of Cervical Cancer for Services Performed on or After January 28, 2005

(Rev. 1888; Issued: 01-06-10, Effective date: 11-10-09; Implementation Date: 01-04-10)

Contractors shall accept claims for these services with the appropriate CPT code listed in section 60.3.1. Refer to Pub. 100-03, section 220.6.17, for complete coverage guidelines for this new PET oncology indication. The implementation date for these CPT codes will be April 18, 2005. Also see section 60.17, of this chapter for further claims processing instructions for cervical cancer indications.

60.14 - Billing Requirements for PET Scans for Non-Covered Indications

(Rev. 527, Issued: 04-15-05, Effective: 01-28-05, Implementation: 04-18-05)

For services performed on or after January 28, 2005, contractors shall accept claims with the following HCPCS code for non-covered PET indications:

- G0235: PET imaging, any site not otherwise specified

Short Descriptor: PET not otherwise specified
Type of Service: 4

NOTE: This code is for a non-covered service.

60.15 - Billing Requirements for CMS - Approved Clinical Trials and Coverage With Evidence Development Claims for PET Scans for

Neurodegenerative Diseases, Previously Specified Cancer Indications, and All Other Cancer Indications Not Previously Specified

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

A/B MACs (A and B)

Effective for services on or after January 28, 2005, contractors shall accept and pay for claims for Positron Emission Tomography (PET) scans for lung cancer, esophageal cancer, colorectal cancer, lymphoma, melanoma, head & neck cancer, breast cancer, thyroid cancer, soft tissue sarcoma, brain cancer, ovarian cancer, pancreatic cancer, small cell lung cancer, and testicular cancer, as well as for neurodegenerative diseases and all other cancer indications not previously mentioned in this chapter, if these scans were performed as part of a Centers for Medicare & Medicaid (CMS)-approved clinical trial. (See Pub. 100-03, National Coverage Determinations (NCD) Manual, sections 220.6.13 and 220.6.17.)

Contractors shall also be aware that PET scans for all cancers not previously specified at Pub. 100-03, NCD Manual, section 220.6.17, remain nationally non-covered unless performed in conjunction with a CMS-approved clinical trial.

Effective for dates of service on or after June 11, 2013, Medicare has ended the coverage with evidence development (CED) requirement for FDG (2-[F18] fluoro-2-deoxy-D-glucose) PET and PET/computed tomography (CT) and PET/magnetic resonance imaging (MRI) for all oncologic indications contained in section 220.6.17 of the NCD Manual. Modifier -Q0 (Investigational clinical service provided in a clinical research study that is in an approved clinical research study) or -Q1 (routine clinical service provided in a clinical research study that is in an approved clinical research study) is no longer mandatory for these services when performed on or after June 11, 2013.

A/B MACs (B) Only

A/B MACs (B) shall pay claims for PET scans for beneficiaries participating in a CMS-approved clinical trial submitted with an appropriate current procedural terminology (CPT) code from section 60.3.1 of this chapter and modifier Q0/Q1 for services performed on or after January 1, 2008, through June 10, 2013. (NOTE: Modifier QR (Item or service provided in a Medicare specified study) and QA (FDA investigational device exemption) were replaced by modifier Q0 effective January 1, 2008.) Modifier QV (item or service provided as routine care in a Medicare qualifying clinical trial) was

replaced by modifier Q1 effective January 1, 2008.) Beginning with services performed on or after June 11, 2013, modifier Q0/Q1 is no longer required for PET FDG services.

A/B MACs (A) Only

In order to pay claims for PET scans on behalf of beneficiaries participating in a CMS-approved clinical trial, A/B MACs (A) require providers to submit claims with, if ICD-9-CM is applicable, ICD-9 code V70.7; if ICD-10-CM is applicable, ICD-10 code Z00.6 in the primary/secondary diagnosis position using the ASC X12 837 institutional claim format or on Form CMS-1450, with the appropriate principal diagnosis code and an appropriate CPT code from section 60.3.1. Effective for PET scan claims for dates of service on or after January 28, 2005, through December 31, 2007, A/B MACs (A) shall accept claims with the QR, QV, or QA modifier on other than inpatient claims. Effective for services on or after January 1, 2008, through June 10, 2013, modifier Q0 replaced the-QR and QA modifier, modifier Q1 replaced the QV modifier. Modifier Q0/Q1 is no longer required for services performed on or after June 11, 2013.

60.16 - Billing and Coverage Changes for PET Scans Effective for Services on or After April 3, 2009

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

A. Summary of Changes

Effective for services on or after April 3, 2009, Medicare will **not cover** the use of FDG PET imaging to determine **initial treatment strategy** in patients with adenocarcinoma of the prostate.

Medicare will also not cover FDG PET imaging for **subsequent treatment strategy** for tumor types other than breast, cervical, colorectal, esophagus, head and neck (non-CNS/thyroid), lymphoma, melanoma, myeloma, non-small cell lung, and ovarian, unless the FDG PET is provided under the coverage with evidence development (CED) paradigm (billed with modifier -Q0/-Q1, see section 60.15 of this chapter).

Medicare will cover FDG PET imaging **for initial treatment strategy** for myeloma.

Effective for services performed on or after June 11, 2013, Medicare has ended the CED requirement for FDG PET and PET/CT and PET/MRI for all oncologic indications contained in section 220.6.17 of the NCD Manual. Effective for services on or after June 11, 2013, the Q0/Q1 modifier is no longer required.

Beginning with services performed on or after June 11, 2013, contractors shall pay for up to three (3) FDG PET scans when used to guide subsequent management of anti-tumor treatment strategy (modifier PS) after completion of initial anti-cancer therapy (modifier PI) for the exact same cancer diagnosis.

Coverage of any additional FDG PET scans (that is, beyond 3) used to guide subsequent management of anti-tumor treatment strategy after completion of initial anti-tumor therapy for the same cancer diagnosis will be determined by the A/B MACs (A or B). Claims will include the KX modifier indicating the coverage criteria is met for coverage of four or more FDG PET scans for subsequent treatment strategy for the same cancer diagnosis under this NCD.

A different cancer diagnosis whether submitted with a PI or a PS modifier will begin the count of one initial and three subsequent FDG PET scans not requiring the KX modifier and four or more FDG PET scans for subsequent treatment strategy for the same cancer diagnosis requiring the KX modifier.

NOTE: The presence or absence of an initial treatment strategy claim in a beneficiary's record does not impact the frequency criteria for subsequent treatment strategy claims for the same cancer diagnosis.

NOTE: Providers please refer to the following link for a list of appropriate diagnosis codes,
http://cms.gov/medicare/coverage/determinationprocess/downloads/petforsolidtumorsoncologicdxcodesattachment_NCD220_6_17.pdf

For further information regarding the changes in coverage, refer to Pub.100-03, NCD Manual, section 220.6.17.

B. Modifiers for PET Scans

Effective for claims with dates of service on or after April 3, 2009, the following modifiers have been created for use to inform for the **initial treatment strategy** of biopsy-proven or strongly suspected tumors or **subsequent treatment strategy** of cancerous tumors:

PI Positron Emission Tomography (PET) or PET/Computed Tomography (CT) to inform the initial treatment strategy of tumors that are biopsy proven or strongly suspected of being cancerous based on other diagnostic testing.

Short descriptor: PET tumor init tx strat

PS Positron Emission Tomography (PET) or PET/Computed Tomography (CT) to inform the subsequent treatment strategy of cancerous tumors when the beneficiary's treatment

physician determines that the PET study is needed to inform subsequent anti-tumor strategy.

Short descriptor: PS - PET tumor subsq tx strategy

C. Billing for A/B MACs (A and B)

Effective for claims with dates of service on or after April 3, 2009, contractors shall accept FDG PET claims billed to inform **initial treatment strategy** with the following CPT codes **AND** modifier PI: 78608, 78811, 78812, 78813, 78814, 78815, 78816.

Effective for claims with dates of service on or after April 3, 2009, contractors shall accept FDG PET claims with modifier PS for the **subsequent treatment strategy** for solid tumors using a CPT code above **AND** a cancer diagnosis code.

Contractors shall also accept FDG PET claims billed to **inform initial treatment strategy or subsequent treatment strategy** when performed under CED with one of the PET or PET/CT CPT codes above **AND** modifier PI **OR** modifier PS **AND** a cancer diagnosis code **AND** modifier Q0/Q1. Effective for services performed on or after June 11, 2013, the CED requirement has ended and modifier Q0/Q1, along with condition code 30 (institutional claims only), or ICD-9 code V70.7, (both institutional and practitioner claims) are no longer required.

D. Medicare Summary Notices, Remittance Advice Remark Codes, and Claim Adjustment Reason Codes

Effective for dates of service on or after April 3, 2009, contractors shall **return as unprocessable/return to provider** claims that do not include the PI modifier with one of the PET/PET/CT CPT codes listed in subsection C. above when billing for **the initial treatment strategy** for solid tumors in accordance with Pub.100-03, NCD Manual, section 220.6.17.

In addition, contractors shall **return as unprocessable/return to provider** claims that do not include the PS modifier with one of the CPT codes listed in subsection C. above when billing for the **subsequent treatment strategy** for solid tumors in accordance with Pub.100-03, NCD Manual, section 220.6.17.

The following messages apply:

- Claim Adjustment Reason Code (CARC) 4 - The procedure code is inconsistent with the modifier used or a required modifier is missing.

- Remittance Advice Remark Code (RARC) MA-130 - Your claim contains incomplete and/or invalid information, and no appeal rights are afforded because the claim is unprocessable. Submit a new claim with the complete/correct information.

- RARC M16 - Alert: See our Web site, mailings, or bulletins for more details concerning this policy/procedure/decision.

Effective for claims with dates of service on or after April 3, 2009, through June 10, 2013, contractors shall **return as unprocessable/return to provider** FDG PET claims billed to **inform initial treatment strategy or subsequent treatment strategy** when performed under CED without one of the PET/PET/CT CPT codes listed in subsection C. above **AND** modifier PI **OR** modifier PS **AND** a cancer diagnosis code **AND** modifier Q0/Q1.

The following messages apply to **return as unprocessable** claims:

- CARC 4 - The procedure code is inconsistent with the modifier used or a required modifier is missing.

- RARC MA-130 - Your claim contains incomplete and/or invalid information, and no appeal rights are afforded because the claim is unprocessable. Submit a new claim with the complete/correct information.

- RARC M16 - Alert: See our Web site, mailings, or bulletins for more details concerning this policy/procedure/decision.

Effective April 3, 2009, contractors shall **deny** claims with ICD-9/ICD-10 diagnosis code 185/C61 for FDG PET imaging for the **initial treatment strategy** of patients with adenocarcinoma of the prostate.

For dates of service prior to June 11, 2013, contractors shall also **deny** claims for FDG PET imaging for **subsequent treatment strategy** for tumor types other than breast, cervical, colorectal, esophagus, head and neck (non-CNS/thyroid), lymphoma, melanoma, myeloma, non-small cell lung, and ovarian, unless the FDG PET is provided under CED (submitted with the Q0/Q1 modifier) and use the following messages:

- Medicare Summary Notice 15.4 - Medicare does not support the need for this service or item

- CARC 50 - These are non-covered services because this is not deemed a 'medical necessity' by the payer.

- Contractors shall use Group Code CO (Contractual Obligation)

If the service is submitted with a GA modifier indicating there is a signed Advance Beneficiary Notice (ABN) on file, the liability falls to the beneficiary. However, if the service is submitted with a GZ modifier indicating no ABN was provided, the liability falls to the provider.

Effective for dates of service on or after June 11, 2013, contractors shall use the following messages when denying claims in excess of **three** for PET FDG scans for subsequent treatment strategy when the KX modifier is not included, identified by CPT codes 78608, 78811, 78812, 78813, 78814, 78815, or 78816, modifier PS, HCPCS A9552, and the same cancer diagnosis code.

- CARC 96: "Non-Covered Charge(s). Note: Refer to the 835 Healthcare Policy Identification Segment (loop 2110 Service Payment Information REF), if present."

- RARC N435: "Exceeds number/frequency approved/allowed within time period without support documentation."

- MSN 23.17: "Medicare won't cover these services because they are not considered medically necessary."

Spanish Version: "Medicare no cubrirá estos servicios porque no son considerados necesarios por razones médicas."

Contractors shall use Group Code PR assigning financial liability to the beneficiary, if a claim is received with a GA modifier indicating a signed ABN is on file.

Contractors shall use Group Code CO assigning financial liability to the provider, if a claim is received with a GZ modifier indicating no signed ABN is on file.

60.17 – Billing and Coverage Changes for PET Scans for Cervical Cancer Effective for Services on or After November 10, 2009

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

A. Billing Changes for A/B MACs (A and B)

Effective for claims with dates of service on or after November 10, 2009, contractors shall accept FDG PET oncologic claims billed to inform initial treatment strategy; specifically for staging in beneficiaries who have biopsy-proven cervical cancer when the beneficiary's treating physician determines the FDG PET study is needed to determine the location and/or extent of the tumor as specified in Pub. 100-03, section 220.6.17.

EXCEPTION: CMS continues to non-cover FDG PET for initial diagnosis of cervical cancer related to initial treatment strategy.

NOTE: Effective for claims with dates of service on and after November 10, 2009, the –Q0 modifier is no longer necessary for FDG PET for cervical cancer.

B. Medicare Summary Notices, Remittance Advice Remark Codes, and Claim

Adjustment Reason Codes
Additionally, contractors shall return as unprocessable /return to provider for FDG PET for cervical cancer for initial treatment strategy billed without the following: one of the PET/PET/ CT CPT codes listed in 60.16 C above **AND** modifier PI **AND** a cervical cancer diagnosis code.
Use the following messages:

- Claim Adjustment Reason Code 4 - The procedure code is inconsistent with the modifier used or a required modifier is missing.

- Remittance Advice Remark Code MA-130 - Your claim contains incomplete and/or invalid information, and no appeal rights are afforded because the claim is unprocessable. Submit a new claim with the complete/correct information.

- Remittance Advice Remark Code M16 - Alert: See our Web site, mailings, or bulletins for more details concerning this policy/procedure/decision.

60.18 – Billing and Coverage Changes for PET (NaF-18) Scans to Identify Bone Metastasis of Cancer Effective for Claims With Dates of Services on or After February 26, 2010

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

A. Billing Changes for A/B MACs (A and B)

Effective for claims with dates of service on and after February 26, 2010, contractors shall pay for NaF-18 PET oncologic claims to inform of initial treatment strategy (PI) or subsequent treatment strategy (PS) for suspected or biopsy proven bone metastasis **ONLY** in the context of a clinical study and as specified in Pub. 100-03, section 220.6. All other claims for NaF-18 PET oncology claims remain non-covered.

B. Medicare Summary Notices, Remittance Advice Remark Codes, and Claim Adjustment Reason Codes

Effective for claims with dates of service on or after February 26, 2010, contractors shall return as unprocessable NaF-18 PET oncologic claims billed with **modifier TC or globally (for A/B MACs (A) modifier TC or globally does not apply**) and HCPCS A9580 to inform the initial treatment strategy or subsequent treatment strategy for bone metastasis that do not include ALL of the following:

- PI or PS modifier AND
- PET or PET/CT CPT code (78811, 78812, 78813, 78814, 78815, 78816) AND
- Cancer diagnosis code AND
- Q0 modifier - Investigational clinical service provided in a clinical research study, are present on the claim.

NOTE: For institutional claims, continue to include ICD-9 diagnosis code V70.7 or ICD-10 diagnosis code Z00.6 and condition code 30 to denote a clinical study.

Use the following messages:

- Claim Adjustment Reason Code 4 - The procedure code is inconsistent with the modifier used or a required modifier is missing. Note: Refer to the 835 Healthcare Policy Identification Segment (loop 2110 Service Payment Information REF), if present.

- Remittance Advice Remark Code MA-130 - Your claim contains incomplete and/or invalid information, and no appeal rights are afforded because the claim is unprocessable. Submit a new claim with the complete/correct information.

- Remittance Advice Remark Code M16 - Alert: See our Web site, mailings, or bulletins for more details concerning this policy/procedure/decision.

- Claim Adjustment Reason Code 167 - This (these) diagnosis(es) is (are) not covered.

Effective for claims with dates of service on or after February 26, 2010, contractors shall accept PET oncologic claims billed with **modifier 26** and modifier KX to inform the initial treatment strategy or subsequent treatment strategy for bone metastasis that include the following:

- PI or PS modifier AND
- PET or PET/CT CPT code (78811, 78812, 78813, 78814, 78815, 78816) AND
- Cancer diagnosis code AND
- Q0 modifier - Investigational clinical service provided in a clinical research study, are present on the claim.

NOTE: If modifier KX is present on the professional component service, Contractors shall process the service as PET NaF-18 rather than PET with FDG.

Contractors shall also return as unprocessable NaF-18 PET oncologic professional component claims (i.e., claims billed with **modifiers 26** and KX) to inform the initial treatment strategy or subsequent treatment strategy for bone metastasis billed with HCPCS A9580 and use the following message:

> Claim Adjustment Reason Code 97 - The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated.

NOTE: Refer to the 835 Healthcare Policy identification Segment (loop 2110 Service Payment Information REF), if present.

60.19 – Local Coverage Determination for PET Using New, Proprietary Radiopharmaceuticals for their FDA-Approved Labeled Indications for Oncologic Imaging Only

(Rev. 2750; Issued: 08-02-13; Effective Date: 03-07-13, Implementation Date: 09-03-13)

Effective for dates of service on or after March 7, 2013, local Medicare Administrative Contractors (MACs) may determine coverage within their respective jurisdictions for positron emission tomography (PET) using radiopharmaceuticals for their Food and Drug Administration (FDA) approved labeled indications for oncologic imaging. When the local MAC determines that a claim is noncovered, the following messages apply:

Claim Adjustment Reason Code (CARC) 167: This (these) diagnosis(es) is(are) not covered. Note: Refer to the 835 Healthcare Policy Identification Segment (loop 2110 Service Payment Information REF), if present.

Medicare Summary Notice (MSN) 15.4: The information provided does not support the need for this service or item.

If the service is submitted with a GA modifier indicating there is a signed Advance Beneficiary Notice (ABN) on file, the liability falls to the beneficiary. However, if the service is submitted with a GZ modifier indicating no ABN was provided, the liability falls to the provider.

70 - Radiation Oncology (Therapeutic Radiology)

(Rev. 1, 10-01-03)

70.1 - Weekly Radiation Therapy Management (CPT 77419 - 77430)

(Rev. 1, 10-01-03)

Carriers must pay for a physician's weekly treatment management services under code 77427. Billing entities must indicate on each claim the number of fractions for which payment is sought.

A weekly unit of treatment management is equal to five fractions or treatment sessions. A week for the purpose of making payments under these codes is comprised of five fractions regardless of the actual time period in which the services are furnished. It is not necessary that the radiation therapist personally examine the patient during each fraction for the weekly treatment management code to be payable. Multiple fractions representing two or more treatment sessions furnished on the same day may be counted as long as there has been a distinct break in therapy sessions, and the fractions are of the character usually furnished on different days. If, at the final billing of the treatment course, there are three or four fractions beyond a multiple of five, those three or four fractions are paid for as a week. If there are one or two fractions beyond a multiple of five, payment for these services is considered as having been made through prior payments.

EXAMPLE: 18 fractions = 4 weekly services

62 fractions = 12 weekly services

8 fractions = 2 weekly services

6 fractions = 1 weekly service

If billings have occurred which indicate that the treatment course has ended (and, therefore, the number of residual fractions has been determined), but treatments resume, adjust carrier payments for the additional services consistent with the above policy.

EXAMPLE: 8 fractions = payment for 2 weeks

2 additional fractions are furnished by the same physician. No additional Medicare payment is made for the 2 additional fractions.

A. SNF Treatment Management Delivery Services

A SNF may not bill weekly treatment management services for its outpatients (codes 77419, 77420, 77425, 77430, and 77431). Instead, the SNF should bill for radiation treatment delivery (codes 77401 - 77404, 77406 - 77409, 77411 - 77414, and 77416). Also, SNFs bill for therapeutic radiology port film (code 77417), which was previously a part of the weekly services. They enter the number of services in the units field.

70.2 - Services Bundled Into Treatment Management Codes
(Rev. 1, 10-01-03)

Carriers do not make separate payment for services rendered by the radiation oncologists or in conjunction with radiation therapy.

11920 Tattooing, intradermal introduction of insoluble opaque pigments to correct color defects of skin; 6.0 sq. cm or less

11921 6.11 to 20.0 sq. cm

11922 Each additional 20.0 sq. cm

16000 Initial treatment, first-degree burn, when no more than local treatment is required

16010 Dressings and/or debridement, initial or subsequent; under anesthesia, small

16015 Under anesthesia, medium or large, or with major debridement

16020 Without anesthesia, office or hospital, small

16025 Without anesthesia, medium (e.g., whole face or whole extremity)

16030 Without anesthesia, large (e.g., more than one extremity)

36425 Venipuncture, cut down age 1 or over

53670 Catheterization, urethra; simple

53675 Complicated (may include difficult removal of balloon catheter)

99211 Office or other outpatient visit, established patient; Level I

99212 Level II

99213 Level III

99214 Level IV

99215 Level V

99238 Hospital discharge day management

99281 Emergency department visit, new or established patient; Level I

99282 Level II

99283 Level III

99284 Level IV

99285 Level V

90780 IV Infusion therapy, administered by physician or under direct supervision of physician; up to one hour

90781 Each additional hour, up to 8 hours

90847 Family medical psychotherapy (conjoint psychotherapy) by a physician, with continuing medical diagnostic evaluation, and drug management when indicated

99050 Services requested after office hours in addition to basic service

99052 Services requested between 10:00 PM and 8:00 AM in addition to basic service

99054 Services requested on Sundays and holidays in addition to basic service

99058 Office services provided on an emergency basis

99071 Educational supplies, such as books, tapes, and pamphlets, provided by the physician for the patient's education at cost to physician

99090 Analysis of information data stored in computers (e.g., ECG, blood pressures, hematologic data)

99185 Hypothermia; regional

99371 Telephone call by a physician to patient or for consultation or medical management or for coordinating medical management with other health care professionals; simple or brief (e.g., to report on tests and/or laboratory results, to clarify or alter previous instructions, to integrate new information from other health professionals into the medical treatment plan, or to adjust therapy)

99372 Intermediate (e.g., to provide advice to an established patient on a new problem, to initiate therapy that can be handled by telephone, to discuss test results in detail, to coordinate medical management of a new problem in an established patient, to discuss and evaluate new information and details, or to initiate a new plan of care)

99373 Complex or lengthy (e.g., lengthy counseling session with anxious or distraught patient, detailed or prolonged discussion with family members regarding seriously ill patient, lengthy communication necessary to coordinate complex services or several different health professionals working on different aspects of the total patient care plan)

- Anesthesia (whatever code billed)
- Care of Infected Skin (whatever code billed)
- Checking of Treatment Charts
- Verification of Dosage, As Needed (whatever code billed)
- Continued Patient Evaluation, Examination, Written Progress Notes, As Needed (whatever code billed)
- Final Physical Examination (whatever code billed)
- Medical Prescription Writing (whatever code billed
- Nutritional Counseling (whatever code billed)
- Pain Management (whatever code billed)
- Review & Revision of Treatment Plan (whatever code billed)
- Routine Medical Management of Unrelated Problem (whatever code billed)
- Special Care of Ostomy (whatever code billed)
- Written Reports, Progress Note (whatever code billed)
- Follow-up Examination and Care for 90 Days After Last Treatment (whatever code billed)

70.3 - Radiation Treatment Delivery (CPT 77401 - 77417)
(Rev. 1, 10-01-03)

Carriers pay for these TC services on a daily basis under CPT codes 77401-77416 for radiation treatment delivery. They do not use local codes and RVUs in paying for the TC of radiation oncology services. Multiple treatment sessions on the same day are payable as long as there has been a distinct break in therapy services, and the individual sessions are of the character usually furnished on different days. Carriers pay for CPT code 77417 (Therapeutic radiology port film(s)) on a weekly (five fractions) basis.

70.4 - Clinical Brachytherapy (CPT Codes 77750 - 77799)
(Rev. 1, 10-01-03)

Carriers must apply the bundled services policy to procedures in this family of codes other than CPT code 77776. For procedures furnished in settings in which TC payments are made, carriers must pay separately for the expendable source associated with these procedures under CPT code 79900 except in the case of remote after-loading high intensity brachytherapy procedures (CPT codes 77781-77784). In the four codes cited, the expendable source is included in the RVUs for the TC of the procedures.

70.5 - Radiation Physics Services (CPT Codes 77300 - 77399)
(Rev. 1, 10-01-03)

Carriers pay for the PC and TC of CPT codes 77300-77334 and 77399 on the same basis as they pay for radiologic services generally. For professional component billings in all settings, carriers presume that the radiologist participated in the provision of the service, e.g., reviewed/validated the physicist's calculation. CPT codes 77336 and 77370 are technical services only codes that are payable by carriers in settings in which only technical component is are payable.

80 - Supervision and Interpretation (S&I) Codes and Interventional Radiology
(Rev. 1, 10-01-03)

80.1 - Physician Presence
(Rev. 1, 10-01-03)

Radiologic supervision and interpretation (S&I) codes are used to describe the personal supervision of the performance of the radiologic portion of a procedure by one or more physicians and the interpretation of the findings. In order to bill for the supervision aspect of the procedure, the physician must be present during its performance. This kind of personal supervision of the performance of the procedure is a service to an individual beneficiary and differs from the type of general supervision of the radiologic procedures performed in a hospital for which FIs pay the costs as physician services to the hospital. The interpretation of the procedure may be performed later by another physician. In

situations in which a cardiologist, for example, bills for the supervision (the "S") of the S&I code, and a radiologist bills for the interpretation (the "I") of the code, both physicians should use a "-52" modifier indicating a reduced service, e.g., only one of supervision and/or interpretation. Payment for the fragmented S&I code is no more than if a single physician furnished both aspects of the procedure.

80.2 - Multiple Procedure Reduction
(Rev. 1, 10-01-03)

Carriers make no multiple procedure reductions in the S&I or primary non-radiologic codes in these types of procedures, or in any procedure codes for which the descriptor and RVUs reflect a multiple service reduction. For additional procedure codes that do not reflect such a reduction, carriers apply the multiple procedure reductions.

90 - Services of Portable X-Ray Suppliers
(Rev. 1, 10-01-03)
B3-2070.4, B3-15022.G, B3-4131, B3-4831

Services furnished by portable x-ray suppliers may have as many as four components. Carriers must follow the following rules.

90.1 - Professional Component
(Rev. 1, 10-01-03)

Pay the PC of radiologic services furnished by portable x-ray suppliers on the same basis as other physician fee schedule services.

90.2 - Technical Component
(Rev. 1, 10-01-03)

Pay the TC of radiology services furnished by portable x-ray suppliers under the fee schedule on the same basis as TC services generally.

90.3 - Transportation Component (HCPCS Codes R0070 - R0076)
(Rev. 343, Issued: 10-29-04, Effective: 04-01-05, Implementation: 04-04-05)

This component represents the transportation of the equipment to the patient. Establish local RVUs for the transportation R codes based on carrier knowledge of the nature of the service furnished. Carriers shall allow only a single transportation payment for each trip the portable x-ray supplier makes to a particular location. When more than one Medicare patient is x-rayed at the same location, e.g., a nursing home, prorate the single fee schedule transportation payment among all patients receiving the services. For example, if two patients at the same location receive x-rays, make one-half of the transportation payment for each.

R0075 must be billed in conjunction with the CPT radiology codes (7000 series) and only when the x-ray equipment used was actually transported to the location where the x-ray was taken. R0075 would not apply to the x-ray equipment stored in the location where the x-ray was done (e.g., a nursing home) for use as needed.

Below are the definitions for each modifier that must be reported with R0075. Only one of these five modifiers shall be reported with R0075. **NOTE**: If only one patient is served, R0070 should be reported with no modifier since the descriptor for this code reflects only one patient seen.

UN - Two patients served

UP - Three patients served

UQ - Four patients served

UR - Five Patients served

US - Six or more patients served

Payment for the above modifiers must be consistent with the definition of the modifiers. Therefore, for R0075 reported with modifiers, -UN, -UP, -UQ, and –UR, the total payment for the service shall be divided by 2, 3, 4, and 5 respectively. For modifier –US, the total payment for the service shall be divided by 6 regardless of the number of patients served. For example, if 8 patients were served, R0075 would be reported with modifier –US and the total payment for this service would be divided by 6.

The units field for R0075 shall always be reported as "1" except in extremely unusual cases. The number in the units field should be completed in accordance with the provisions of 100-04, chapter 23, section 10.2 item 24 G which defines the units field as the number of times the patient has received the itemized service during the dates listed in the from/to field. The units field must never be used to report the number of patients served during a single trip. Specifically, the units field must reflect the number of services that the specific beneficiary received, not the number of services received by other beneficiaries.

As a carrier priced service, carriers must initially determine a payment rate for portable x-ray transportation services that is associated with the cost of providing the service. In order to determine an appropriate cost, the carrier should, at a minimum, cost out the vehicle, vehicle modifications, gasoline and the staff time involved in only the transportation for a portable x-ray service. A review of the pricing of this service should be done every five years.

Direct costs related to the vehicle carrying the x-ray machine are fully allocable to determining the payment rate. This includes the cost of the vehicle using a recognized depreciation method, the salary and fringe benefits associated with the staff who drive the vehicle, the communication equipment used between the vehicle and the home office, the salary and fringe benefits of the staff who determine the vehicles route (this could be proportional of office staff), repairs and maintenance of the vehicle(s), insurance for the

vehicle(s), operating expenses for the vehicles and any other reasonable costs associated with this service as determined by the carrier. The carrier will have discretion for allocating indirect costs (those costs that cannot be directly attributed to portable x-ray transportation) between the transportation service and the technical component of the x-ray tests.

Suppliers may send carriers unsolicited cost information. The carrier may use this cost data as a comparison to its carrier priced determination. The data supplied should reflect a year's worth (either calendar or corporate fiscal) of information. Each provider who submits such data is to be informed that the data is subject to verification and will be used to supplement other information that is used to determine Medicare's payment rate.

Carriers are required to update the rate on an annual basis using independently determined measures of the cost of providing the service. A number of readily available measures (e.g., ambulance inflation factor, the Medicare economic index) that are used by the Medicare program to adjust payment rates for other types of services may be appropriate to use to update the rate for years that the carrier does not recalibrate the payment. Each carrier has the flexibility to identify the index it will use to update the rate. In addition, the carrier can consider locally identified factors that are measured independently of CMS as an adjunct to the annual adjustment.

NOTE: No transportation charge is payable unless the portable x-ray equipment used was actually transported to the location where the x-ray was taken. For example, carriers do not allow a transportation charge when the x-ray equipment is stored in a nursing home for use as needed. However, a set-up payment (see §90.4, below) is payable in such situations. Further, for services furnished on or after January 1, 1997, carriers may not make separate payment under HCPCS code R0076 for the transportation of EKG equipment by portable x-ray suppliers or any other entity.

90.4 - Set-Up Component (HCPCS Code Q0092)

(Rev. 1, 10-01-03)

Carriers must pay a set-up component for each radiologic procedure (other than retakes of the same procedure) during both single patient and multiple patient trips under Level II HCPCS code Q0092. Carriers do not make the set-up payment for EKG services furnished by the portable x-ray supplier.

90.5 - Transportation of Equipment Billed by a SNF to a *MAC*

(Rev. 3230, Issued: 04-03-15, Effective: 06-15-15, Implementation: 06-15-15)

When a SNF bills for portable x-ray equipment transported to a site by van or other vehicle, the SNF should bill for the transportation costs using one of the following HCPCS codes along with the appropriate revenue code:

R0070 Transportation of Portable x-ray Equipment and Personnel to Home or

R0075	Nursing Home, Per Trip to Facility or Location, One Patient Seen. Transportation of Portable x-ray Equipment and Personnel to Home or Nursing Home, Per Trip to Facility or Location, More than One Patient Seen, Per Patient.

These HCPCS codes are subject to the fee schedule.

Effective April 1, 2006, SNFs are required to report the appropriate modifiers to identify the number of patients served when billing for R0075. See section 90.3, of this chapter for the list of modifiers used to identify on the claim the number of patients served.

MACs shall ensure that payment for R0075 is consistent with the definition of the modifiers.

NOTE: *When a SNF resident receives a portable x-ray service during the course of a Medicare-covered stay in the SNF, only the service's professional component (representing the physician's interpretation of the test results) is a separately billable physician service under Part B (see §20.1 of this chapter and §20.1.1 of Chapter 6). By contrast, the technical component representing the procedure itself, including any associated transportation and setup costs, would be subject to consolidated billing (the SNF "bundling" requirement for services furnished to the SNF's Part A residents), and must be included on the SNF's Part A bill for the resident's covered stay (Bill Type 21x) rather than being billed separately under Part B (see §20.2.1of this chapter).*

100 - Interpretation of Diagnostic Tests

(Rev. 1, 10-01-03)

B3-15023

100.1 - X-rays and EKGs Furnished to Emergency Room Patients

(Rev. 1, 10-01-03)

The professional component of a diagnostic procedure furnished to a beneficiary in a hospital includes an interpretation and written report for inclusion in the beneficiary's medical record maintained by the hospital. (See 42 CFR 415.120(a).)

Carriers generally distinguish between an "interpretation and report" of an x-ray or an EKG procedure and a "review" of the procedure. A professional component billing based on a review of the findings of these procedures, without a complete, written report similar to that which would be prepared by a specialist in the field, does not meet the conditions for separate payment of the service. This is because the review is already included in the emergency department evaluation and management (E/M) payment. For example, a notation in the medical records saying "fx-tibia" or EKG-normal would not suffice as a separately payable interpretation and report of the procedure and should be considered a review of the findings payable through the E/M code. An "interpretation and report" should address the findings, relevant clinical issues, and comparative data (when available).

Generally, carriers must pay for only one interpretation of an EKG or x-ray procedure furnished to an emergency room patient. They pay for a second interpretation (which may be identified through the use of modifier "-77") only under unusual circumstances (for which documentation is provided) such as a questionable finding for which the physician performing the initial interpretation believes another physician's expertise is needed or a changed diagnosis resulting from a second interpretation of the results of the procedure.

When carriers receive only one claim for an interpretation, they must presume that the one service billed was a service to the individual beneficiary rather than a quality control measure and pay the claim if it otherwise meets any applicable reasonable and necessary test.

When carriers receive multiple claims for the same interpretation, they must generally pay for the first bill received. Carriers must pay for the interpretation and report that directly contributed to the diagnosis and treatment of the individual patient. Consideration is not given to physician specialty as the primary factor in deciding which interpretation and report to pay regardless of when the service is performed. Consideration is not given to designation as the hospital's "official interpretation" as a factor in determining which claim to pay. Carriers pay for the interpretation billed by the cardiologist or radiologist if the interpretation of the procedure is performed at the same time as the diagnosis and treatment of the beneficiary. (This interpretation may be an oral report to the treating physician that will be written at a later time.)

If the first claim received is from a radiologist, carriers generally pay the claim because they would not know in advance that a second claim would be forthcoming. When carriers receive the claim from the emergency room (ER) physician and can identify that the two claims are for the same interpretation, they must determine whether the claim from the ER physician was the interpretation that contributed to the diagnosis and treatment of the patient and, if so, they pay that claim. In such cases, carriers must determine that the radiologist's claim was actually quality control and institute recovery action.

The two parties should reach an accommodation about who should bill for these interpretations. The following examples apply to carriers:

EXAMPLE A:

A physician sees a beneficiary in the ER on January 1 and orders a single view chest x-ray. The physician reviews the x-ray, treats, and discharges the beneficiary. A carrier receives a claim from a radiologist for CPT code 71010-26 indicating an interpretation with written report with a date of service of January 3. The carrier will pay the radiologist's claim as the first bill received. Carriers do not have to develop the claim to determine whether the interpretation was a quality control service.

EXAMPLE B:

Same circumstances as Example A, except that the physician who sees the beneficiary in the ER also bills for CPT code 71010-26 with a date of service of January 1. The carrier will pay the first claim received. If the first claim is from the treating physician in the ER, and there is no indication the claim should not be paid, e.g., no reason to think that a complete, written interpretation has not been performed, payment of the claim is appropriate. The carrier will deny a claim subsequently received from a radiologist for the same interpretation as a quality control service to the hospital rather than a service to the individual beneficiary.

EXAMPLE C:

Same as Example B except that the claim from the radiologist uses modifier "-77" and indicates that, while the ER physician's finding that the patient did not have pneumonia was correct, there was also a suspicious area of the lung suggesting a tumor that required further testing. In such situations, the carrier pays for both claims under the fee schedule.

EXAMPLE D:

The carrier receives separate claims for CPT code 71010-26 from a radiologist and a physician who treated that patient in the ER, both with a date of service of January 1. The first claim processed in the system is paid and the second claims will be identified and denied as a duplicate. If the denied "provider" is the radiologist and he raises an issue the carrier will develop the claim to determine whether the findings of the radiologist's interpretation were conveyed to the treating physician (orally or in writing) in time to contribute to the diagnosis and treatment of the patient. If the radiologist's interpretation was furnished in time to serve this purpose, that claim should be paid, and the claim from the other physician should be denied as not reasonable and necessary.

110 - Special Billing Instructions for Claims Submitted to FIs
(Rev. 1, 10-01-03)

Transmittal 368 (CR 1323 issued May 24-01) which revised the following SNF sections of the manual but not incorporated in the master manual.

SNF-533.1, SNF-533.1.A, SNF-533.1.B, SNF-533.1.C, SNF-533.1.D, SNF-533.1.E

For billing instructions, see chapter 25.

110.1 - Aborted Procedure
(Rev. 1, 10-01-03)

When a procedure is not completed, the SNF should bill an unlisted code (e.g., CPT code ending in 99) and show the actual charges for the procedure. The FI will request

additional data from the SNF to determine applicable payment. Deductible and coinsurance apply based on fee schedule rules.

110.2 - Combined Procedures (Radiology)
(Rev. 1, 10-01-03)

There are no separate codes covering certain combined procedures, e.g., a hand and forearm included in a single x-ray. The code with the higher fee schedule amount should be used.

110.3 - Payment for Radiopharmaceuticals
(Rev. 1, 10-01-03)
SNF-533.1.H

Radiopharmaceuticals are not subject to the fee schedule, but are paid based on reasonable cost when given in a SNF. SNFs report HCPCS codes 79900, A4641, A4642, A9500, A9503, and A9505, as appropriate, with revenue codes 0333, 034X, or 0636.

NOTE: The correct code to report is A4641. It replaced HCPCS code 78990. HCPCS code 78990 should not be reported because this code is not valid for Medicare purposes.

EXCEPTION: HCPCS codes 77781, 77782, 77783, and 77784 include payment for the radiopharmaceutical in the technical component. When these procedures are performed, SNFs do not report radiopharmaceutical codes 79900, A4641, A4642, A9500, A9503, and A9505. The FI will reject codes 79900, A4641, A4642, A9500, A9503, and A9505 when they are billed for supplies used in conjunction with procedure codes 77781, 77782, 77783, and 77784.

120 - Radiology or Other Diagnostic Unlisted Service or Procedure Billing Instructions for FI Claims
(Rev. 1, 10-01-03)
SNF-533.4

Some radiology and other diagnostic services may not have a corresponding HCPCS code. This is because these are typically services that are rarely provided, unusual, or new. The provider should assign the appropriate “unlisted procedure” code to any such service. The following list contains the “unlisted procedure” codes along with the suggested revenue code for billing. These services are paid on a fee schedule if one exists or cost if a fee has not been established for SNFs. However, before billing any of these codes the provider needs to furnish a complete description of the radiology procedure to the FI for review and analysis. The description should include a narrative definition of the procedure and a description of the nature, extent and need for the procedure and the time, effort, and equipment necessary. The FI will determine if the provider has correctly identified the procedure as “unlisted.” If the procedure is not identified correctly, the FI will inform the provider of the correct HCPCS code to assign

to the procedure. If there is no fee schedule amount established, these services are paid based on cost to SNFs.

For Radiology:

Revenue Code	HCPCS	Definition
032x	76499	Unlisted diagnostic radiologic procedure
0402	76999	Unlisted ultrasound procedure
0333	77299	Unlisted procedure, therapeutic radiology clinical treatment planning
0333	77399	Unlisted procedure, medical radiation physics, dosimetry and treatment devices
0333	77499	Unlisted procedure, therapeutic radiology clinical treatment management
0333	77799	Unlisted procedure, clinical brachytherapy
034x	78099	Unlisted endocrine procedure, diagnostic nuclear medicine
034x	78199	Unlisted hematopoietic, reticuloendothelial and lymphatic procedure, diagnostic nuclear medicine
034x	78299	Unlisted gastrointestinal procedure, diagnostic nuclear medicine
034x	78399	Unlisted musculoskeletal procedure, diagnostic nuclear medicine
034x	78499	Unlisted cardiovascular procedure, diagnostic nuclear medicine
034x	78599	Unlisted respiratory procedure, diagnostic nuclear medicine
034x	78699	Unlisted nervous system procedure, diagnostic nuclear medicine
034x	78799	Unlisted genitourinary procedure, diagnostic nuclear medicine
034x	78999	Unlisted miscellaneous procedure, diagnostic nuclear medicine

034x	79999	Unlisted radiopharmaceutical therapeutic procedure

For Other Diagnostic Procedures:

Revenue Code	HCPCS	Definition
075x	91299	Unlisted diagnostic gastroenterology procedure
047x	92599	Unlisted otorhinolaryngological service or procedure
048x	93799	Unlisted cardiovascular service or procedure
073x	93799	Unlisted cardiovascular service or procedure
0921	93799	Unlisted cardiovascular service or procedure
046x	94799	Unlisted pulmonary service or procedure
074x	95999	Unlisted neurological or neuromuscular diagnostic procedure
0922	95999	Unlisted neurological or neuromuscular diagnostic procedure

130 - EMC Formats

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

Billing instructions for the ASC X12 837 institutional claim format can be found in chapter 24 of this manual or, for Form CMS-1450 can be found in chapter 25 of this manual. Each revenue code requires a HCPCS code, modifier if applicable, units, line-item date of service, and charge.

Billing instructions for the ASC X12 837 professional claim format can be found in chapter 24 of this manual or for Form CMS-1500 can be found in this manual, Chapter 26, “Instructions for Completing Form CMS-1500."

140 - Bone Mass Measurements (BMMs)

(Rev. 1416; Issued: 01-18-08; Effective: 01-01-07; Implementation: 02-20-08)

Sections 1861(s)(15) and (rr)(1) of the Social Security Act (the Act) (as added by §4106 of the Balanced Budget Act (BBA) of 1997) standardize Medicare coverage of medically necessary bone mass measurements by providing for uniform coverage under Medicare Part B. This coverage is effective for claims with dates of service furnished on or after July 1, l998.

Effective for dates of service on and after January 1, 2007, the CY 2007 Physician Fee Schedule final rule expanded the number of beneficiaries qualifying for BMM by reducing the dosage requirement for glucocorticoid (steroid) therapy from 7.5 mg of prednisone per day to 5.0 mg. It also changed the definition of BMM by removing coverage for a single-photon absorptiometry as it is not considered reasonable and necessary under section 1862 (a)(1)(A) of the Act. Finally, it required that in the case of monitoring and confirmatory baseline BMMs, they be performed with a dual-energy x-ray absorptiometry (axial) test.

Conditions of Coverage for BMMs are located in Pub.100-02, Medicare Benefit Policy Manual, chapter 15.

140.1 - Payment Methodology and HCPCS Coding

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

A/B MAC (B) pay for BMM procedures based on the Medicare physician fee schedule. Claims from physicians, other practitioners, or suppliers where assignment was not taken are subject to the Medicare limiting charge.

The A/B MACs (A) pay for BMM procedures under the current payment methodologies for radiology services according to the type of provider.

Do not pay BMM procedure claims for dual photon absorptiometry, CPT procedure code 78351.

Deductible and coinsurance apply.

Any of the following CPT procedure codes may be used when billing for BMMs through December 31, 2006. All of these codes are bone densitometry measurements except code 76977, which is bone sonometry measurements. CPT procedure codes are applicable to billing A/B MACs (A and B).

76070 76071 76075 76076 76078 76977 78350 G0130

Effective for dates of services on and after January 1, 2007, the following changes apply to BMM:

- New 2007 CPT bone mass procedure codes have been assigned for BMM. The following codes will replace current codes, however the CPT descriptors for the services remain the same:

  77078 replaces 76070
  77079 replaces 76071
  77080 replaces 76075
  77081 replaces 76076
  77083 replaces 76078

- Certain BMM tests are covered when used to screen patients for osteoporosis subject to the frequency standards described in chapter 15, section 80.5.5 of the Medicare Benefit Policy Manual.

  - Contractors will pay claims for screening tests when coded as follows:

    - Contains CPT procedure code 77078, 77079, 77080, 77081, 77083, 76977 or G0130, and

    - Contains a valid diagnosis code indicating the reason for the test is postmenopausal female, vertebral fracture, hyperparathyroidism, or steroid therapy. Contractors are to maintain local lists of valid codes for the benefit's screening categories.

  - Contractors will deny claims for screening tests when coded as follows:

    - Contains CPT procedure code 77078, 77079, 77081, 77083, 76977 or G0130, but

    - Does not contain a valid diagnosis code from the local lists of valid diagnosis codes maintained by the contractor for the benefit's screening categories indicating the reason for the test is postmenopausal female, vertebral fracture, hyperparathyroidism, or steroid therapy.

- Dual-energy x-ray absorptiometry (axial) tests are covered when used to monitor FDA-approved osteoporosis drug therapy subject to the 2-year frequency standards described in chapter 15, section 80.5.5 of the Medicare Benefit Policy Manual.

- Contractors will pay claims for monitoring tests when coded as follows:
  - Contains CPT procedure code 77080, and
  - Contains 733.00, 733.01, 733.02, 733.03, 733.09, 733.90, or 255.0 as the ICD-9-CM diagnosis code or M81.0, M81.8, M81.6 or M94.9 as the ICD-10-CM diagnosis code.
- Contractors will deny claims for monitoring tests when coded as follows:
  - Contains CPT procedure code 77078, 77079, 77081, 77083, 76977 or G0130, and
  - Contains 733.00, 733.01, 733.02, 733.03, 733.09, 733.90, or 255.0 as the ICD-9-CM diagnosis code, but
  - Does not contain a valid ICD-9-CM diagnosis code from the local lists of valid ICD-9-CM diagnosis codes maintained by the contractor for the benefit's screening categories indicating the reason for the test is postmenopausal female, vertebral fracture, hyperparathyroidism, or steroid therapy.
  - Does not contain a valid ICD-10-CM diagnosis code from the local lists of valid ICD-10-CM diagnosis codes maintained by the contractor for the benefit's screening categories indicating the reason for the test is postmenopausal female, vertebral fracture, hyperparathyroidism, or steroid therapy.

- Single photon absorptiometry tests are not covered. Contractors will deny CPT procedure code 78350.

The A/B MACs (A) are billed using the ASC X12 837 institutional claim format or hardcopy Form CMS-1450. The appropriate bill types are: 12X, 13X, 22X, 23X, 34X, 71X (Provider-based and independent), 72X, 73X (Provider-based and freestanding), 83X, and 85X. Effective April 1, 2006, type of bill 14X is for non-patient laboratory specimens and is no longer applicable for bone mass measurements. Information regarding the claim form locators that correspond to the HCPCS/CPT code or Type of Bill are found in chapter 25.

Providers must report HCPCS codes for bone mass measurements under revenue code 320 with number of units and line item dates of service per revenue code line for each bone mass measurement reported.

A/B MACs (B) are billed for bone mass measurement procedures using the ASC X12 837 professional claim format or hardcopy Form CMS-1500.

140.2 - Medicare Summary Notice (MSN) Messages
(Rev. 1236, Issued: 05-11-07, Effective: 01-01-07, Implementation: 07-02-07)

Use appropriate MSN messages when processing claims.

For denials effective January 1, 2007, use the following MSN messages:

Include the following messages if an ABN was issued:

- MSN# 16.10: "Medicare does not pay for this item or service." (English version) or "Medicare no paga por este articulo o servicio." (Spanish version)

- MSN# 36.1: "Our records show that you were informed in writing, before receiving the service, that Medicare would not pay. You are liable for this charge. If you do not agree with this statement, you may ask for a review." (English version) or "Nuestros archivos indican que usted fue informado por escrito, antes de recibir el servicio, que Medicare no pagaría. Usted es responsable por esta cantidad. Si usted no está de acuerdo, usted puede pedir una revisión." (Spanish version)

NOTE: FIs are not to include MSN 16.10.

Include the following messages if an ABN was not issued:

- MSN# 16.10: "Medicare does not pay for this item or service." (English version) or "Medicare no paga por este articulo o servicio." (Spanish Version)

- MSN number 36.2: "It appears that you did not know that we would not pay for this service, so you are not liable. Do not pay your provider for this service. If you have paid your provider for this service, you should submit to this office three things: (1) a copy of this notice, (2) your provider's bill, and (3) a receipt or proof that you have paid the bill. You must file your written request for payment within 6 months of the date of this notice. Future services of this type provided to you will be your responsibility." (English version) or "Aparentemente, usted no sabia que nosotros no pagamos por este servicio, por lo tanto usted no es responsable. Si usted le pagó al proveedor por este servicio debe enviarnos lo siguiente: (1) Copia de esta notificación; (2) Factura del proveedor; (3) El recibo o prueba de que usted le pagó. Debe enviar su petición por escrito dentro de 6 meses de la fecha de esta notificación. Servicios de este tipo prestados en el futuro serán su responsabilidad." (Spanish Version)

- **NOTE:** FIs are not to include MSN 16.10.

140.3 - Remittance Advice (RA) Messages
(Rev. 1236, Issued: 05-11-07, Effective: 01-01-07, Implementation: 07-02-07)

Use appropriate RA messages when processing claims.

For denials effective January 1, 2007, use the following RA messages:

Claim adjustment reason code 50:

"These are non-covered services because this is not deemed a "medical necessity" by the payer".

Include the following RA messages if an ABN was issued:

- RA remark code M38:

"The patient is liable for the charges for this service as you informed the patient in writing before the service was furnished that we would not pay for it, and the patient agreed to pay."

- Group code PR:

"Patient Responsibility."

If an ABN was not issued include the following messages:

- RA remark code M27:

"The patient has been relieved of liability of payment of these items and services under the limitation of liability provision of the law. You, the provider, are ultimately liable for the patient's waived charges, including any charges for coinsurance, since the items or services were not reasonable and necessary or constituted custodial care, and you knew or could reasonably have been expected to know, that they were not covered.

You may appeal this determination. You may ask for an appeal regarding both the coverage determination and the issue of whether you exercised due care. The appeal request must be filed within 120 days of the date you receive this notice. You must make the request through this office."

- Group code CO:

"Contractual Obligations."

140.4 – Advance Beneficiary Notices (ABNs)

(Rev. 1236, Issued: 05-11-07, Effective: 01-01-07, Implementation: 07-02-07)

For the denial situations listed in Section 140.1, physicians, practitioners and hospitals are liable for payment unless they issue an appropriate ABN. Contractors will utilize the appropriate messages, see sections 140.2 and 140.3.

150 - Place of Service (POS) Instructions for the Professional Component (PC or Interpretation) and the Technical Component (TC) of Diagnostic Tests

(Rev. 3227, Issued: 04-02-15, Effective; ASC-X12: January 1, 2012 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: June 11, 2013, ICD-10: Upon Implementation of ICD-10 Implementation: ASC X12: November 10, 2014 Fluorodeoxyglucose (FDG) Positron Emission Tomography (PET) for Solid Tumors: May 19, 2014 - MAC Non-Shared System Edits; July 7, 2014 - CWF development/testing, FISS requirement development; October 6, 2014 - CWF, FISS, MCS Shared System Edits), ICD-10: Upon Implementation of ICD-10)

Many of the diagnostic services, including radiology services, provided by physicians/practitioners contain both a technical component (TC) and a professional component (PC). Often, the PC and TC of diagnostic services are furnished in different settings. As a general policy, the POS code assigned by the physician/practitioner for the PC of a diagnostic service shall be the setting in which the beneficiary received the TC service.

A. Interpretation Provided Telephonically by Wireless Remote

Teleradiology services (radiology services that do not require a face-to-face encounter with the patient furnished through the use of a telecommunications system) are discussed in Pub. 100-02, Medicare Benefit Policy Manual, chapter 15, section 30. The interpretation of an x-ray, electrocardiogram, electroencephalogram and tissue samples are listed as examples of these services.

In cases where the face-to-face requirement is obviated such as those when a physician/practitioner provides the PC/interpretation of a diagnostic test, from a distant site, the POS code assigned by the physician /practitioner shall be the setting in which the beneficiary received the TC service. The POS code for a teleradiology interpretation is generally the place where the beneficiary received the TC, or face-to-face encounter. The POS code representing the setting where the beneficiary received the TC is entered in the ASC X12 837 professional claim format or in item 24B on the paper claim Form CMS 1500. In cases where it is unclear which POS code applies, the Medicare contractor can provide guidance.

For example: A beneficiary receives an MRI at an outpatient hospital near his/her home. The outpatient hospital submits a claim that would correspond to the TC portion of the MRI. The physician furnishes the PC portion of the beneficiary's MRI from his/her office location - POS code 22(Outpatient Hospital) shall be used on the physician's claim

to indicate that the beneficiary received the face-to-face portion of the MRI, the TC, at the outpatient hospital.

B. Interpretation Provided Outside of the United States

Generally, Medicare will not pay for health care or supplies that are performed outside the United States (U.S.). The term "outside the U.S." means anywhere other than the 50 states of the U.S., the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands. See Pub. 100-02, chapter 16, section 60, for exceptions to the "outside the U.S." exclusions.

C. Interpretation Provided Under Arrangement --To A Hospital

Separate TC and PC

If a diagnostic test which has a separate TC and PC is provided under arrangement to a hospital, the physician who reads the test can bill and be paid for the professional component. Both the technical and professional components of the test are also subject to the physician self-referral prohibition.

The appropriate POS code for the interpretation (or PC) is the setting where the beneficiary received the TC service. If the interpretation is performed in the physician's office and the patient received the TC service in the provider-based outpatient hospital setting, the physician assigns POS code 22, for outpatient hospital, on the claim for the interpretation or PC.

Global Service

When a physician performs a diagnostic test under arrangement to a hospital and the test and the interpretation are not separately billable, the interpretation cannot be billed by the physician. In this scenario, the hospital is the only entity that can bill for the diagnostic test which encompasses the interpretation. There is no POS code for the interpretation since a physician claim is not generated.

D. Global Billing

Billing globally for services that are split into PC and TC components is only possible when the TC and the physician who provides the PC of the diagnostic service are furnished by the same physician or supplier entity and the PC and TC components are furnished within the same Medicare physician fee schedule payment locality. Merely applying the same POS code to the PC as that of the TC (as described in "A" above) does not permit global billing for any diagnostic procedure.

E. Determination of Payment Locality

Under the Medicare physician fee schedule (MPFS), payment amounts are based on the relative resources required to provide services and vary among payment localities as resource costs vary geographically as measured by the geographic practice cost indices (GPCIs). The payment locality is determined based on the location where a specific service code was furnished. For purposes of determining the appropriate payment locality, CMS requires that the address, including the ZIP code for each service code be included on the claim form in order to determine the appropriate payment locality. The location in which the service code was furnished is entered on the ASC X12 837 professional claim format or in Item 32 on the paper claim Form CMS 1500.

Global Service Code

If the global diagnostic service code is billed, the biller (either the entity that took the test, physician who interpreted the test, or separate billing agent) must report the address and ZIP code of where the test was furnished on the bill for the global diagnostic service code. In other words, when the global diagnostic service code is billed, for example, chest x-ray as described by HCPCS code 71010 (no modifier TC and no modifier -26), the locality is determined by the ZIP code applicable to the testing facility, i.e. where the TC of the chest x-ray was furnished. The testing facility (or its billing agent) enters the address and ZIP code of the setting/location where the test took place. This practice location is entered using the ASC X12 837 professional claim format or in Item 32 on the paper claim Form CMS 1500. As explained in D above, in order to bill for a global diagnostic service code, the same physician or supplier entity must furnish both the TC and the PC of the diagnostic service and the TC and PC must be furnished within the same MPFS payment locality.

Separate Billing of Professional Interpretation

If the same physician or other supplier entity does not furnish both the TC and PC of the diagnostic service, or if the same physician or other supplier entity furnishes both the TC and PC but the professional interpretation was furnished in a different payment locality from where the TC was furnished, the professional interpretation of a diagnostic test must be separately billed with modifier -26 by the interpreting physician.

When the physician's interpretation of a diagnostic test is billed separately from the technical component, as identified by modifier -26, the interpreting physician (or his or her billing agent) must report the address and ZIP code of the interpreting physician's location on the claim form. If the professional interpretation was furnished at an unusual and infrequent location for example, a hotel, the locality of the professional interpretation is determined based on the Medicare enrolled location where the interpreting physician most commonly practices. The address and ZIP code of this practice location is entered using the ASC X12 837 professional claim format or in Item 32 on the paper claim Form CMS 1500.

Centers for Medicare & Medicaid Services (CMS)

Transmittal A-03-020 **Date: APRIL 2, 2003**

CHANGE REQUEST 2671

SUBJECT: April 2003 Update of the Hospital Outpatient Prospective Payment System (OPPS)

This Program Memorandum (PM) provides changes to the OPPS for the April 2003 update. The April 2003 Outpatient Code Editor (OCE) and the OPPS PRICER will reflect the HCPCS and ambulatory payment classification (APC) additions and changes, and other revisions, identified in this document. This PM includes corrections of errors that appeared in the final rule with comment period published in the **Federal Register** on November 1, 2002 (67 FR 66719). The corrections were published in a Correction Notice (CN) in the **Federal Register** on February 10, 2003 (68 FR 6636). This PM also includes corrections of errors that were brought to our attention subsequent to publication of the Correction Notice on February 10, 2003. Unless otherwise noted, all changes addressed in this PM are effective for services furnished on or after April 1, 2003.
This PM addresses the following subjects:

I. New HCPCS Codes and Their Status Under the Hospital OPPS
II. Changes Affecting Drugs and Biologicals Eligible for Pass-Through Payments
III. Pass-Through Device Category Codes in Effect as of April 1, 2003
IV. Corrections to Information Published in the November 1, 2002 Final Rule With Comment Period
V. Modifications to Existing HCPCS Codes
VI. Modifications to APC Groups
VII. Deleted APCs
VIII. Corrections to Transmittal A-02-129 Issued on January 3, 2003
IX. Charges for Packaged Drug, Contrast Medium, or Radiopharmaceutical Agent Billed Separately and in Addition to Charges for the Procedure With Which They are Associated
X. New Code for Optison, Effective April 1, 2003
XI. Billing for Octreotide Acetate Depot
XII. Payment for A9518, Supply of Radiopharmaceutical Therapeutic Imaging Agent, I-131 Sodium Iodide Solution, Per uCi
XIII. Billing for Intravenous Immune Globulin

I. New HCPCS Codes and Their Status Under the Hospital OPPS

HCPCS Code	Effective Date	Status Indicator	Short Descriptor	Long Descriptor
G0281	04/01/03	A	Elec stim unattend for press	Electrical stimulation, (unattended), to one or more areas, for chronic stage III and stage IV pressure ulcers, arterial ulcers, diabetic ulcers, and venous statsis ulcers not demonstrating measurable signs of healing after 30 days of conventional care, as part of a therapy plan of care
G0282	04/01/03	E	Elec stim wound care not pd	Electrical stimulation, (unattended), to one or more areas, for wound care other than described in G0281
G0283	04/01/03	A	Elec stim other than wound	Electrical stimulation, (unattended), to one or more areas for indication(s) other than wound care, as part of a therapy plan of care
K0560	04/01/03	A	Mcp joint 2-piece for implant	Metacarpal Phalangeal Joint Replacement, Two Pieces, Metal (E.G., Stainless Steel Or Cobalt Chrome), Ceramic-Like Material (E.G., Pyrocarbon), For Surgical Implantation (All Sizes, Includes Entire System)
K0600	04/01/03	A	Functional neuromuscular stim	Functional neuromuscular stimulator, transcutaneous stimulation of muscles of ambulation with computer control, used for walking by spinal cord injured, entire system, after completion of training program
K0601	04/01/03	A	Repl batt silver oxide 1.5 v	Replacement Battery For External Infusion Pump Owned By Patient, Silver Oxide, 1.5 Volt, Each

HCPCS Code	Effective Date	Status Indicator	Short Descriptor	Long Descriptor
K0602	04/01/03	A	Repl batt silver oxide 3 v	Replacement Battery For External Infusion Pump Owned By Patient, Silver Oxide, 3 Volt,Each
K0603	04/01/03	A	Repl batt alkaline 1.5 v	Replacement Battery For External Infusion Pump Owned By Patient, Alkaline, 1.5 Volt,Each
K0604	04/01/03	A	Repl batt lithium 3.6 v	Replacement Battery For External Infusion Pump Owned By Patient, Lithium, 3.6 Volt, Each
K0605	04/01/03	A	Repl batt lithium	Replacement Battery For

			4.5 v	External Infusion Pump Owned By Patient, Lithium, 4.5 Volt, Each

II. Changes Affecting Drugs and Biologicals Eligible for Pass-Through Payments

A. The following drugs have been designated as eligible for pass-through payment under the OPPS effective April 1, 2003:

HCPCS Code	SI	APC	Short Descriptor	Long Descriptor	Payment Amount	Co-Payment Amount
C9202	G	9202	Octafluoropropane	Injection, suspension of microspheres of human serum albumin with octafluoropropane, per 3 ml	$148.20	$22.15
C9203	G	9203	Perflexane lipid micro	Injection, perflexane lipid microsheres, per single use vial	$142.50	$21.30
C9204	G	9204	Ziprasidone mesylate	Injection, ziprasidone mesylate, per 20 mg	$41.56	$6.21

B. The February 10, 2003 Correction Notice corrects the descriptor and the payment and copayment amounts for the following pass-through drugs, effective January 1, 2003.

HCPCS Code	SI	APC	Short Descriptor	Long Descriptor	Payment Amount	Co-Payment Amount
J2324	G	9114	Injection, Nesiritide, 0.5 mg	Nesiritide, per 0.5 mg vial	$144.40	$21.58
J3487	G	9115	Inj, zoledronic acid, 1 mg	Inj, zoledronic acid, per 1 mg	$203.49	$30.40

C. The February 10, 2003 Correction Notice corrects the payment status indicator from "K"to "G" and the payment and copayment amount for the following drug, effective January 1, 2003:

HCPCS Code	SI	APC	Short Descriptor	Long Descriptor	Payment Amount	Co-Payment Amount
J7517	G	9015	Mycophenolate mofetil oral	Mycophenolate mofetil oral, 250 mg	$2.53	$0.38

D. The February 10, 2003 CN corrects payment and copayment amounts for the following pass-through drugs, effective January 1, 2003 :

HCPCS Code	SI	APC	Short Descriptor	Long Descriptor	Payment Amount	Co-Payment Amount
C9112	G	9112	Perflutren lipid micro, 2ml	Perflutren lipid micro, 2ml	$148.20	$22.15
C9120	G	9120	Injection, Fulvestrant	Injection, Fulvestrant	$175.16	$26.18

III. Pass-Through Device Category Codes in Effect as of April 1, 2003

A. Device Categories Eligible for Pass-Through Payment

Below is a complete listing of the device categories that are eligible for pass-through payment under the OPPS, including one new category added effective April 1, 2003. If a device is described by one of the existing device categories but is packaged as a component of a system, only the device that meets the pass-through criteria would be eligible for pass-through payment under the appropriate category.

HCPCS Codes	Category Long Descriptor	Effective Date
C1765	Adhesion barrier	7/1/01
C1783	Ocular implant, aqueous drainage assist device	7/1/02
C1814*****	Retinal tamponade device, silicone oil	4/1/03
C1884	Embolization Protective System	1/1/03
C1888	Catheter, ablation, non-cardiac, endovascular (implantable)	7/1/02
C1900	Lead, left ventricular coronary venous system	7/1/02
C2614	Probe, percutaneous lumbar discectomy	1/1/03
C2618	Probe, cryoablation	4/1/01
C2632	Brachytherapy solution, iodine –125, per mCi	1/1/03

***** New pass-through device category code effective 4/1/03 .

B. Explanation of Terms/Definitions for Specific Category Codes

- **Adhesion barrier (C1765)** - A bioresorbable substance placed on and around the neural structures, which inhibits cell migration (fibroblasts) and minimizes scar tissue formation. It is principally used in spine surgeries, such as laminectomies and diskectomies.

- **Catheter, ablation, non-cardiac, endovascular (C1888)** – a radiofrequency catheter designed to occlude or obliterate blood vessels (e.g., veins).

- **Embolization protective system (C1884)** – A system designed and marketed for use to trap, pulverize, and remove atheromatous or thrombotic debris from the vascular system during an angioplasty, atherectomy, or stenting procedure.

- **Left ventricular coronary venous system lead (C1900)** - Designed for left heart placement in a cardiac vein via the coronary sinus and is intended to treat the symptoms associated with heart failure.

- **Retinal tamponade device, silicone oil (C1814)** – A device used as a permanent/prolonged retinal tamponade in the treatment of complex retinal detachments. This is used as a post-operative retinal tamponade following vitreoretinal surgery.

IV. Corrections to Information Published in the November 1, 2002 Final Rule With Comment Period (Corrections are in **bold** type).

HCPCS Code	Effective Date of Change	Status Indicator	APC	Short Descriptor	Payment Amount	Co-Payment Amount
76070	01/01/03	**S**	**0288**	CT scan, bone density study	**$67.71**	**$13.54**
G0267	01/01/03	**S**	**0110**	Bone marrow or psc harvest	**$210.22**	**$42.04**
C1207*****	01/01/03	**K**	**1207**	Octreotide acetate depot 1 mg	**$74.28**	**$14.86**
A9518	01/01/03	K	**1348**	**I-131 solution per uCi**	**$0.05**	**$0.01**
J1327	01/01/03	**K**	**1607**	Eptifibatide injection	**$7.58**	**$1.52**
C9111	01/01/03	G	9111	Inj, bivalirudin, 250mg vial	$397.81	**$59.46**

*****HCPCS code C1207 was erroneously designated as a deleted code with grace period in the November 1, 2002 final rule. HCPCS code C1207 is **not** deleted.

V. Modifications to Existing HCPCS Codes

A. Change to Status Indicator for Services Not Payable Under OPPS

HCPCS Code	Effective Date of Change	Status Indicator	Short Descriptor	Reference

VI. Modifications to APC Groups

(Changes from what was published in the November 1, 2002 Final Rule are in **bold** type.)

APC Code	Effective Date of Change	Status Indicator	Description	Payment Rate	Minimum Unadjusted CoPayment	Reference
0162	01/01/03	T	Level III cystourethroscopy and other genitourinary procedures	**$1,083.93**	**$216.79**	CN 02/10/03
0163	01/01/03	T	Level IV cystourethroscopy and other genitourinary procedures	**$1,683.75**	**$336.75**	CN 02/10/03
0235	01/01/03	T	Level I posterior segment eye procedures	**$260.24**	**$72.04**	CN 02/10/03
0285	01/01/03	S	**Heart muscle imaging (PET)**	$945.47	$189.09	CN 02/10/03
0905	01/01/03	K	**Immune globulin, 1 g**	**$43.46**	**$8.69**	CN 02/10/03

1045	01/01/03	K	**Iobenguane sulfate I-131 per 0.5 mCi**	**$201.63**	**$40.33**	CN 02/10/03
2616	01/01/03	K	Brachtyx seed, yttrium-90	**$6,485.37**	**$1,297.07**	CN 02/10/03

VII. Deleted APCs

APC Code	Effective Date of Deletion	Description	Reference
0650	01/01/03	Intermediate/Complex Proton Beam Radiation Therapy	CN 02/10/03
0916	01/01/03	Injection imiglucerase/unit	CN 02/10/03
0026	01/01/03	Level III Skin Repair	Final Rule 11/1/02

VIII. Corrections to Transmittal A-02-129 issued on January 3, 2003

A. Section XX. Billing for Radiation Therapy (CPT Codes 77401 through 77416) The instructions in Section XX of Transmittal A-02-129 were incorrect. Those instructions are revised to read as follows:

"CPT Codes 77401 through 77416 may be reported more than once per date of service only when radiation treatment is provided during completely different sessions. Only one of these codes may be reported for each treatment session no matter how many areas are treated or no matter how much radiation is delivered**.** CPT Codes 77402 through 77406 describe treatment delivery for a single treatment area. CPT Codes 77407 through 77411 describe treatment delivery to two treatment areas. CPT Codes 77412 through 77416 describe treatment delivery to three or more treatment areas. In the cases of CPT codes 77407 through 77416, the number of distinct treatment areas and complexity of the treatment determine which code series to report, which is then modified by the selection of energy (i.e. MV). For example, if three treatment areas are each treated with 11 MV, then the proper code to bill is 77414. It is incorrect to report 77404 – 77414 (for "11-19 MeV") three times. However, if there is a distinct break and the same region or regions are treated again the same day then a second charge describing the energy and level of complexity is appropriate."

B. Section VI. Payment Policy When a Surgical Procedure on the Inpatient List is Performed on an Emergency Basis or When a Patient Whose Status is Outpatient Dies:

- Paragraph 4 in the instructions in Section VI.A. of Transmittal A-02-129 is replaced by the following new instruction:

  "4. Effective for services furnished on or after 01/01/03, the OCE assigns status indicator 'N' and packaging flag '1' to lines billed with the same date of service as a procedure on a claim with modifier –CA appended to a HCPCS code that has a status indicator 'C'. "

- Instruct hospitals to report Patient Status Code 20 in FL 22 on a claim for a service billed with modifier –CA.

C. Section IV. A. Partial Hospitalization Program (PHP): Coding Partial Hospitalization Services

Instruct providers that HCPCS codes 90875 and 90876 are not covered by Medicare and should not be billed for partial hospitalization program (PHP) patients**.**

D. Section XXIII. A. Changes to Pass-Through Drugs, Biologicals and Radiopharmaceuticals/ HCPCS Replacement Codes for Retiring Pass-Through Drugs

Instruct hospitals that, effective for services furnished on or after January 1, 2003, they should use HCPCS code A9520, Technetiumtc-99m sulfu clld, to replace deleted HCPCS code C1202. (The crosswalk of HCPCS code C1202 to HCPCS code A9519 indicated in Section XXIII.A. of Transmittal A-02-129 was an error.)
.

IX. Charges for Packaged Drug, Contrast Medium, or Radiopharmaceutical Agent Billed Separately and in Addition to Charges for the Procedure With Which They are Associated

Instruct hospitals that bill for a drug, contrast medium, or a radiopharmaceutical agent using revenue center 025X or 062X, either with or without a HCPCS code, to exclude that charge from the charge for the associated procedure with which the drug, contrast, or radiopharmaceutical agent is used.

For example, hospitals may bill G0273 and G0274 using the revenue center that designates where the procedures were performed and include the charge for Zevalin within the charge for the appropriate G-code. However, hospitals that bill for Zevalin separately, using HCPCS codes A9522 and A9523, should report A9522 and A9523 using revenue center 621 and 622. Instruct hospitals that bill for Zevalin separately using HCPCS codes A9522 and A9523 and revenue centers 621 and 622 to also report the charge for G0273 and G0274, using the revenue center that designates where the service was furnished, and to exclude from the charge for G0273 and G0274 the charge for Zevalin.

X. New Code for Optison, effective April 1, 2003

Instruct hospitals to use new HCPCS code C9202 instead of A9700 to bill for Microspheres with octafluoropropane (Optison).

XI. Billing for Octreotide Acetate Depot

Instruct hospitals to use HCPCS code C1207 to bill for Octreotide acetate depot, 1 mg. This code is not deleted effective 04/01/03. HCPCS code C1207 will continue to be paid under APC 1207 for services furnished on or after April 1, 2003.

XII. Payment for HCPCS Code A9518, Supply of Radiopharmaceutical Therapeutic Imaging Agent, I-131 Sodium Iodide Solution, Per uCi:

The title for APC 1348 was incorrect in Addendum A of the November 1, 2002 final rule. The correct title, to conform with the descriptor of HCPCS code A9518, which replaces deleted HCPCS code C1065, is: I-131 solution, per uCi. The correct payment for HCPCS code A9518 is:

Payment Rate: $0.05
Copayment Amount: $0.01

You should identify claims for HCPCS code A9518 that were paid incorrectly. After the April 2003 OPPS release is installed, adjust claims that were paid incorrectly and release and process claims that were suspended in accordance with the Joint Signature Memorandum dated February 26, 2003.

Hospitals that bill HCPCS code C1065 for services furnished on or after January 1, 2003 through March 31, 2003 do not receive separate payment because C1065 is assigned status indicator "N" to designate a packaged service.

XIII. Billing for Intravenous Immune Globulin

Instruct hospitals to use HCPCS codes J1563 (Immune globulin, 1 g) and J1564 (Immune globulin, 10 mg) to bill for intravenous immune globulin (IVIG). Hospitals should report J1563 when billing for multiple units of 1-gram quantities of IVIG that they furnish to beneficiaries. One additional unit of J1563 can be reported for residual quantities greater than 0.75 gram. J1564 should be reported rarely and only during instances when patients receive residual quantities of IVIG less than 0.75 gram.

Example 1: If a beneficiary receives 40.50 grams of IVIG, the hospital should report 40 service units of J1563 and 50 service units of J1564 using revenue code 636, and the appropriate administration code.

Example 2: If a beneficiary receives 30.80 grams of IVIG, the hospital should report 31 service units of J1563 using revenue code 636, and the appropriate administration code.

Provider Notification:

Post a notice on your Web site regarding this information and include it in your next regularly scheduled bulletin. If you have electronic bulletin boards or listservs that are used to communicate with your provider community, post this message to your providers using that facility.

The *effective date* for this PM is April 1, 2003.

The *implementation date* for this PM is April 1, 2003.

These instructions should be implemented within your current operating budget.

This PM may be discarded after April 1, 2004.

If you have any questions, contact the your regional office.

A PHYSICIAN'S FOCUS

Requirements for the Payment of Medicare Claims—A Selection of Some Important Criteria

In addition to national and local coverage determinations (NCDs and LCDs), there are certain principles that apply to all Medicare claims. These are rooted in the Medicare laws and regulations. By drawing the attention of our provider community to these topics, we anticipate reducing the claim payment error rate and reimbursing for medically necessary services correctly and expeditiously. This is not an all-inclusive list, but it does represent frequent observations from our Medical Review and Medical Policy departments. The focus of this article is on professional services that are usually but not always billed to the carrier (Part B funds) as opposed to the fiscal intermediary (FI – Part A and B funds). However, the principles apply to FI services unless specific differences are noted in the Medicare manuals. We hope that this publication will be useful to our providers and their teams by facilitating the correct filing of claims and the submission of supportive information.

Documentation

General Information

Below are some key points:

- Medicare expects the documentation to be generated at the time of service or shortly thereafter. Delayed entries within a reasonable time frame (24-48 hrs.) are acceptable for purposes of clarification, error correction, the addition of information not initially available, and if certain unusual circumstances prevented the generation of the note at the time of service.
- The medical record cannot be altered. Errors must be legibly corrected so that the reviewer can draw an inference as to their origin. These corrections or additions must be dated, preferably timed, and legibly signed or initialed.
- Every note must stand alone, i.e., the performed services must be documented at the outset. Delayed written explanations will be considered. They serve for clarification only and cannot be used to add and authenticate services billed and not documented at the time of service or to retrospectively substantiate medical necessity. For that, the medical record must stand on its own with the original entry corroborating that the service was rendered and was medically necessary.
- If the provider elects to report the level of service based on counseling and/or coordination of care, the total length of time of the encounter must be documented in the medical record. Generally, the time must be documented when billing for all time-based codes, such as critical care, prolonged services, hospital discharge services, and others.
- All entries must be legible to another reader to a degree that a meaningful review may be conducted. All notes should be dated, preferably timed, and signed by the author. In the office setting, initials are acceptable as long as they clearly identify the author. If the signature is not legible and does not identify the author, a printed version should be also recorded.

Responding to Additional Documentation Request Letters and Requests from the Comprehensive Error Rate Testing Contractor

Although the terminology of these letters may vary, it is important to send all information that will support the claim. For non-laboratory services, this is the billing provider's responsibility, regardless if she or he has created it. For example, when seeking reimbursement for a diagnostic test, the performing (billing) provider should not only submit the report but also the order and the referring provider's office notes that document the medical necessity for the study. If the information received fails to support the coverage or coding of the claim, in full or in part, the contractor must deny the claim, in full or in part (CMS Online Manual System, Pub. 100-8, Program Integrity Manual, Chapter 3, Section 3.4.1.2A).

There are situations where test reports or other elements of the documentation are housed at a different location from the performing provider's office, for instance an EKG or X-ray read in the hospital. Because it is the performing provider who is required to submit this documentation upon request, it would be best practice if providers kept a copy of this information in their records so that it is readily available. This is a very important issue, as it continues to generate a high error rate in CMS' CERT (comprehensive error rate testing) program and results in numerous recoupments of payments already made.

Case 1:13-cv-24583-KMM Document 148-9 Entered on FLSD Docket 03/25/2016 Page 4 of 172

Requirements for the Payment of Medicare Claims—A Selection of Some Important Criteria (continued)

Cloning of Medical Notes

Documentation is considered cloned when each entry in the medical record for a beneficiary is worded exactly like or similar to the previous entries. Cloning also occurs when medical documentation is exactly the same from beneficiary to beneficiary. It would not be expected that every patient had the exact same problem, symptoms, and required the exact same treatment.

Cloned documentation does not meet medical necessity requirements for coverage of services rendered due to the lack of specific, individual information. All documentation in the medical record must be specific to the patient and her/his situation at the time of the encounter. Cloning of documentation is considered a misrepresentation of the medical necessity requirement for coverage of services. Identification of this type of documentation will lead to denial of services for lack of medical necessity and recoupment of all overpayments made.

Evaluation and Management Coding

Procedure Code/Diagnosis Code Linking

It is not enough to link the procedure code to a correct, payable ICD-9-CM code. The diagnosis or clinical signs/symptoms must be present for the procedure to be paid.

Volume of Documentation vs. Medical Necessity

The Social Security Act, Section 1862 (a)(1)(A) states: "No payment will be made … for items or services …not reasonable and necessary for the diagnosis or treatment of an injury or illness or to improve the functioning of a malformed body member." This medical reasonableness and necessity standard is the overarching criterion for the payment for all services billed to Medicare. Providers frequently "over document" and consequently select and bill for a higher-level E/M code than medically reasonable and necessary. Word processing software, the electronic medical record, and formatted note systems facilitate the "carry over" and repetitive "fill in" of stored information. Even if a "complete" note is generated, only the medically reasonable and necessary services for the condition of the particular patient at the time of the encounter as documented can be considered when selecting the appropriate level of an E/M service. Information that has no pertinence to the patient's situation at that specific time cannot be counted.

Shared Visits

Shared visits with non-physician providers (NPPs) may be reported as one visit, if each provider sees the patient separately and each documents separately. Each component of the visit must be medically necessary.

In the office/clinic setting:

- Providers may bill under the physician's provider identification number (PIN), if all "incident to" requirements are met (follow-up visit, direct supervision, etc.).
- The service must be billed under the non-physician provider's PIN if any of the "incident to" requirements are not met (example: new patient and/or physician not in the office suite).

In the hospital inpatient/outpatient/ER setting:

- Providers may bill under the physician's or NPP's PIN if the physician provides any face-to-face portion of the E/M encounter with the patient.
- The services must be billed under the NPP's PIN if there is no face-to-face encounter by the physician.

The medical necessity of a service is the overarching criterion of payment. All interventions must be aimed at benefiting the patient and not only satisfying a billing requirement. It must be apparent that the face-to-face encounter with the physician is medically necessary and benefits the patient (impacts evaluation, treatment, and outcome). Shared visits cannot be reported in the skilled nursing facility (SNF) or nursing facility (NF) settings.

Scribing

If a nurse or non-physician practitioner (PA, NP) acts as a scribe for the physician, the individual writing the note (or history or discharge summary, or any entry in the record) should note "written by xxxx, acting as scribe for Dr. yyyy." Then, Dr. yyyy should co-sign, indicating that the note accurately reflects work and decisions made by him/her.

It is inappropriate for an employee of the physician to make rounds at one time and make entries in the record, and then for the physician to make rounds several hours later and note "agree with above," unless the employee is a licensed, certified provider (PA, NP) billing Medicare for services under his/her own name and number.

Record entries made by a "scribe" should be made upon dictation by the physician, and should document clearly the level of service provided at that encounter. This requirement is no different from any other encounter documentation requirement. Medicare pays for medically necessary and reasonable services, and expects the person receiving payment to be the one delivering the services and creating the record. There is no carrier Part B "incident to" billing in the hospital setting (inpatient or outpatient). Thus, the scribe should be merely that, a person who writes what the physician dictates and does. This individual should not act independently, and there is no payment for this activity.

It is acceptable for a physician to use a scribe, but current documentation guidelines must be followed. The physician is ultimately accountable for the documentation, and should sign and note after the scribe's entry the affirmation above that the note accurately reflects work done by the physician.

Requirements for the Payment of Medicare Claims—A Selection of Some Important Criteria (continued)

Provider Qualification

Training and Expertise

CMS Online Manual System, Pub. 100-8, Program Integrity Manual, Chapter 13, Section 5.1 (*http://www.cms.hhs.gov/manuals/downloads/pim83c13.pdf*) outlines that "reasonable and necessary" services are "ordered and/or furnished by qualified personnel." Services will be considered medically reasonable and necessary only if performed by appropriately trained providers.

This training and expertise must have been acquired within the framework of an accredited residency and/or fellowship program in the applicable specialty/subspecialty or must reflect extensive continued medical education activities. If these skills have been acquired by way of continued medical education, the courses must be comprehensive, offered or sponsored or endorsed by an academic institution in the United States and/or by the applicable specialty/subspecialty society in the United States, and designated by the American Medical Association (AMA) as category I credit.

Drugs and Biologicals

General

In order to be covered under Medicare, use of a drug or biological must be safe and effective and otherwise reasonable and medically necessary. The medical reasonableness and necessity of drugs and biologicals are extensively discussed in the Medicare manuals.

First Coast Service Options, Inc. (FCSO) has published numerous local coverage determinations (LCDs) and educational articles about drugs and biologicals, specifically anti-cancer agents. Please refer to these publications for more detailed information. The training requirements listed under "Provider Qualification" apply.

Dosage and Frequency

Drugs or biologicals approved for marketing by the FDA are considered safe and effective when used for indications specified on the labeling. The labeling lists the safe and effective, i.e. medically reasonable and necessary dosage and frequency. Therefore, doses and frequencies that exceed the accepted standard of recommended dosage and/or frequency, as described in the package insert, are considered not medically reasonable and necessary and, therefore, not reimbursable.

Route of Administration

CMS Online Manual System, Pub. 100-2, Medicare Benefit Policy Manual, Chapter 15, Section 50.4.1 addresses medical reasonableness and necessity based on the FDA approval and labeling: "Drugs or biologicals approved for marketing by the FDA are considered safe and effective for purposes of this requirement when used for indications specified on the labeling." This statement extends to the mode of administration that is considered safe and effective, i.e., medically reasonable and necessary by Medicare's criteria. Furthermore, the CMS Online Manual System, Pub. 100-2, Medicare Benefit Policy Manual, Chapter 15, Section 50.2 K – Reasonable and Necessary, stipulates that "carriers and fiscal intermediaries will make the determination of reasonable and necessary with respect to the medical appropriateness of a drug to treat the patient's condition. Contractors will continue to make the determination of whether the intravenous or injection form of a drug is appropriate as opposed to the oral form."

Based on the above, for agents administered parenterally, the mode of administration (IV, IM, SQ) must be in keeping with the instructions in the package insert, as approved by the FDA. If a drug is available in both oral and injectable forms and both forms are equally effective, the oral preparation shall be used, unless there is a medical reason not to do so.

Wastage

CMS Online Manual System, Pub 100-4, Medicare Claims Processing Manual, Chapter 17, Section 40, Discarded Drugs and Biologicals addresses wastage as: "CMS encourages physicians to schedule patients in such a way that they can use drugs most efficiently. However, if a physician must discard the remainder of a vial or other package after administering it to a Medicare patient, the program covers the amount of drug discarded along with the amount administered.

Note: The coverage of discarded drugs applies only to single use vials. Multi-use vials are not subject to payment for discarded amounts of drug."
Payment for wastage will only be made when single-use vials have to be utilized. No reimbursement will be made for wastage in the case of multi-use vials.

Place of Service and Patient Safety

In situations when life threatening and other severe adverse reactions could be expected as a result of the administration of certain drugs or the performance of other services, the administration/performance of these services must take place in a facility equipped and staffed for cardiopulmonary resuscitation and where the patient can be closely monitored by qualified personnel for an appropriate period of time based on his or her health status. For specific services, FCSO may proscribe a place of service (POS) by way of an LCD or other publication.

Unit Dose and Decimal Point Errors

The number of billable units may not be equal to the dose administered. For example, if a HCPCS code descriptor calls for 100 mg of a given agent, the number of units for 1000 mg administered would be 10 and not 1000. Similarly, if the descriptor reads 50 mg and 100 mg are administered, the correct number of units to bill is 2.

Case 1:13-cv-24583-KMM Document 148-9 Entered on FLSD Docket 03/25/2016 Page 6 of 172

Requirements for the Payment of Medicare Claims—A Selection of Some Important Criteria (continued)

Diagnostic Tests

Medical Necessity and Documentation

Code of Federal Regulations (CFR), Title 42, part 410.32, specifies that all diagnostic tests must be ordered by a provider who is the treating provider for the patient and who will use the test results in the patient's care (in regards to the treating provider, there may be exceptions for the diagnostic radiologist in certain institutional inpatient or outpatient patient settings). For laboratory tests, additional documentation of medical necessity may be requested of the referring (treating) provider (CMS Online Manual System, Pub. 100-08, Chapter 3, Section 3.4.1.2).

Tests not ordered by the physician who is treating the beneficiary are not reasonable and necessary. Like with any service reimbursed by Medicare, to support medical necessity there must be documentation in the medical record as to why a certain modality was chosen/performed. This entire documentation - not just the test report or the finding/diagnosis on the order – must be available to Medicare upon request (please see also under "Responding to Additional Documentation Request (ADR) Letters and Requests from the Comprehensive Error Rate Testing (CERT) Contractor" in this article).

Portable Diagnostic Equipment

Medicare recognizes that the miniaturization of electronic devices is an on-going trend that may be associated with either improved or diminished test performance. Hand-carried diagnostic equipment ranges in complexity and capability from lightweight pocket-sized units completely contained within the examiner's hand, to complex equipment systems where only a part, such as the ultrasonic probe itself, is hand-held. The appropriate assignment of a specific ultrasound CPT code is not solely determined by the weight, size, or portability of the equipment, but rather by the extent, quality, and documentation of the procedure. To be reimbursable by Medicare, a diagnostic ultrasound test must meet at least these minimum criteria (this is not an all inclusive list):

- It must be medically reasonable and necessary for the diagnosis or treatment of illness or injury.
- It should be done for the same purpose as a reasonable physician would order a standard ultrasound examination.
- It must be billed using the CPT code that accurately describes the service performed.
- The technical quality of the exam must be in keeping with accepted national standards and not require a follow-up ultrasound examination to confirm the results.
- The study must be performed and interpreted by qualified individuals.
- The medical necessity, images, findings, interpretation and report must be documented in the medical record.

Purchased Interpretations

According to the CMS Online Manual System, Pub 100-4, Medicare Claims Processing Manual, Chapter 1, Section 30.2.9.1 "A person or entity that provides diagnostic tests may submit the claim, and (if assignment is accepted) receive the Part B payment, for diagnostic test interpretations which that person or entity purchases from an independent physician or medical group if:

- The tests are initiated by a physician or medical group, which is independent of the person or entity providing the tests and of the physician or medical group providing the interpretations;
- The physician or medical group providing the interpretations does not see the patient; and
- The purchaser (or employee, partner, or owner of the purchaser) performs the technical component of the test. The interpreting physician must be enrolled in the Medicare program. No formal reassignment is necessary."

Furthermore, it is noted in the Final Rule of 2005 that "Arrangements involving reassignment must not violate any other applicable Medicare laws or regulations governing billing or claims submission, including, but not limited to, those regarding "incident to" services, payment for purchased diagnostic tests, and payment for purchased test interpretations."

Consequently, a provider who initiates (orders) a test cannot purchase the interpretation and bill it to Medicare as professional component. For example, if a physician or a group perform testing on their patients with their own ultrasound equipment, and a radiologist, who is not a member of the practice, reads the tests, the group can bill only for the technical component (modifier TC). The radiologist must bill Medicare separately for the interpretation (professional component, modifier 26).

Eugene J. Winter, M.D.
Medical Director

THE FCSO MEDICARE B UPDATE!

About the Connecticut and Florida *Medicare B Update!*

The *Medicare B Update!* is a comprehensive magazine published quarterly by First Coast Service Options, Inc. (FCSO) for Part B providers in Connecticut and Florida. In accordance with notification requirements established by the Centers for Medicare & Medicaid Services, approximate delivery dates for fiscal year 2006 are:

Publication Name	Publication Date	Effective Date of Changes
First Quarter 2006	Mid-November 2005	January 1, 2006
Second Quarter 2006	Mid-February 2006	April 1, 2006
Third Quarter 2006	**Mid-May 2006**	**July 1, 2006**
Fourth Quarter 2006	Mid-August 2006	October 1, 2006

Important notifications that require communication in between these dates will be posted to the FCSO Medicare provider education websites, *http://www.connecticutmedicare.com* and *http://www.floridamedicare.com*. In some cases, additional unscheduled special issues may be posted.

Who Receives the *Update?*

Anyone may view, print, or download the *Update!* from our provider education website(s). Providers who cannot obtain the *Update!* from the Internet are required to register with us to receive a complimentary hardcopy or CD-ROM

Distribution of the *Update!* in hardcopy or CD-ROM format is limited to individual providers and professional association (PA) groups who have billed at least one Part B claim to either Connecticut or Florida Medicare for processing during the twelve months prior to the release of each issue. Providers meeting these criteria are eligible to receive a complimentary copy of that issue, *if a technical barrier exists that prevents them from obtaining it from the Internet and they have returned a completed registration form to us*.

For additional copies, providers may purchase a separate annual subscription in hardcopy or CD-ROM format (see order form on the inside back cover of this issue). All issues published since 1997 may be downloaded from the Internet, free of charge.

We use the same mailing address for *all* correspondence, and cannot designate that the *Update!* be sent to a specific person/department within a provider's office. To ensure continued receipt of all Medicare correspondence, providers must keep their addresses current with the Medicare Provider Registration department. Please remember that address changes must be done using the appropriate Form CMS-855.

Clear Identification of State-Specific Content

A blue header bar preceding articles clearly indicates whether the topic is applicable to both Connecticut and Florida, Connecticut only, or Florida only. Articles common to both states appear at the beginning of the publication. Within common articles, references to phone numbers, addresses, reimbursement amounts, past publications, etc., are state-specific as appropriate. Content specific to Connecticut is next, followed by content specific to Florida. Connecticut and Florida local coverage determination (LCD) summaries are maintained in separate sections.

Publication Format

The *Update!* is arranged into distinct sections.

Following the table of contents, a letter from the Carrier Medical Director, and an administrative information section, the *Update!* provides content applicable to both states, as noted previously. Within this section, information is categorized as follows.

- The **claims** section provides claim submission requirements and tips, plus correspondence (appeals and hearings) information.
- The **coverage/reimbursement** section discusses specific *CPT* and HCPCS procedure codes. It is arranged by specialty *categories* (not specialties). For example, "Mental Health" would present coverage information of interest to psychiatrists, clinical psychologists and clinical social workers, rather than listing articles separately under individual provider specialties. Also presented in this section are changes to the Medicare physician fee schedule, and other pricing issues.
- The section pertaining to **electronic media claim** (EMC) submission also includes information pertaining to the Health Insurance Portability and Accountability Act (HIPAA).
- The **general information** section includes fraud and abuse, provider registration, and Medicare Secondary Payer topics, plus additional topics not included elsewhere.

Medical review and **comprehensive data analysis** will *always* be in state-specific sections, as will **educational resources**. Important **addresses, phone numbers**, and **websites** are also listed for each state.

The *Medicare B Update!* Represents Formal Notice of Coverage Policies

Articles included in each *Update!* represent formal notice that specific coverage policies either have or will take effect on the date given. Providers who receive each issue are expected to read, understand, and abide by the policies outlined in this document to ensure compliance with Medicare coverage and payment guidelines. **The date the *Update!* is posted to the website is considered the notice date**, in the event there is a dispute over whether a provider received advance notice regarding coverage of a specific service and the financial liability for it.

Advance Beneficiary Notices (ABNs)

Medicare Part B allows coverage for services and items deemed medically reasonable and necessary for treatment and diagnosis of the patient. For some services, to ensure that payment is made only for medically necessary services or items, coverage may be limited based on one or more of the following factors (this list is not inclusive):

- Coverage for a service or item may be allowed only for specific diagnoses/conditions. Always code to the highest level of specificity.
- Coverage for a service or item may be allowed only when documentation supports the medical need for the service or item.
- Coverage for a service or item may be allowed only when its frequency is within the accepted standards of medical practice (i.e., a specified number of services in a specified timeframe for which the service may be covered).

If the provider believes that the service or item may not be covered as medically reasonable and necessary, the patient must be given an acceptable advance notice of Medicare's possible denial of payment if the provider does not want to accept financial responsibility for the service or item. ABNs advise beneficiaries, before items or services actually are furnished, when Medicare is likely to deny payment. ABNs allow beneficiaries to make informed consumer decisions about receiving items or services for which they may have to pay out-of-pocket, and to be more active participants in their own health care treatment decisions. An ABN must meet the following requirements:

- The ABN must be on an approved Form CMS-R-131 (see "New Patient Liability Notice" below).
- The ABN must be given in writing, in advance of furnishing the service or item.
- The ABN must include the patient's name, date(s) and description of the service or item, and the reason(s) why the service or item may not be considered medically reasonable and necessary (e.g., the service is not covered based on the patient's diagnosis, the frequency of the service was in excess of accepted standards of medical practice, etc.).
- The notice must be signed and dated by the patient, indicating the patient assumes financial responsibility for the service if payment is denied as being not medically reasonable and necessary for reason(s) indicated on the advance notice. The signature of the provider of service is not required.
- The ABN should be maintained with the patient's medical record.

New Patient Liability Notice

Form CMS-R-131 is the new approved ABN, ***required for services provided on or after January 1, 2003***. Form CMS-R-131 was developed as part of the Centers for Medicare & Medicaid Services' (CMS) Beneficiary Notices Initiative (BNI), and was approved by OMB (Office of Management and Budget) on June 18, 2002. The new ABNs are designed to be more beneficiary-friendly, more readable and understandable, with patient options more clearly defined.

There are two ABN forms - the General Use form (CMS-R-131G) and the Laboratory Tests form (CMS-R-131L). Both are standard forms that *may not be modified*; however, both contain customizable boxes for the individual requirements of users, following the guidance in CMS Program Memoranda (PM) AB-02-114 and AB-02-168, which may be found on the CMS website at *http://cms.hhs.gov/manuals/pm_trans/AB02114.pdf* and *http://cms.hhs.gov/manuals/pm_trans/AB02168.pdf*.

Reproducible copies of Form CMS-R-131 ABNs (in English and Spanish) and other BNI information may be found on CMS's BNI website at *http://www.cms.hhs.gov/medicare/bni*.

ABN Modifiers

When a patient is notified in advance that a service or item may be denied as not medically necessary, the provider must annotate this information on the claim (for both paper and electronic claims) by reporting modifier **GA** (waiver of liability statement on file) or **GZ** (item or service expected to be denied as not reasonable and necessary) with the service or item.

Failure to report modifier **GA** in cases where an appropriate advance notice was given to the patient may result in the provider having to assume financial responsibility for the denied service or item.

Modifier **GZ** may be used in cases where a signed ABN is *not* obtained from the patient; however, when modifier **GZ** is billed, the provider assumes financial responsibility if the service or item is denied.

"GA" Modifier and Appeals

When a patient is notified in advance that a service or item may be denied as not medically necessary, the provider must annotate this information on the claim (for both paper and electronic claims) by reporting the modifier **GA** (wavier of liability statement on file).

Failure to report modifier **GA** in cases where an appropriate advance notice was given to the patient may result in the provider having to assume financial responsibility for the denied service or item.

Nonassigned claims containing the modifier GA in which the patient has been found liable **must** have the patient's ***written consent*** for an appeal. Written appeals requests should be sent to:

Distribution of the *Medicare B Update!*

Use of the Internet has become an accepted standard of communication throughout the world. Publications produced by First Coast Service Options, Inc. (FCSO) for our Connecticut Medicare Part B and Florida Part A and B customers are available on our provider education websites (*http://www.connecticutmedicare.com* and *http://www.floridamedicare.com*).

We post our Medicare publications to our provider education website in PDF (portable document format) and you may view, print, or download them free of charge. By contrast, hardcopy publications cost the Medicare program a substantial amount of money for printing and postage nationally. Reducing the number of hardcopies produced is one way Medicare contractors can reduce costs that may be better used elsewhere. In addition, enhancements to online publications can be made that are not possible in print.

Providers Must Qualify and Register to Receive the *Medicare B Update!* in Hardcopy or CD-ROM Format

Hardcopy or CD-ROM distribution of the *Medicare B Update!* is limited to individual providers and professional association groups who billed at least one Part B claim (to either Connecticut or Florida Medicare) for processing during the twelve months prior to the release of each issue. **Medicare providers who meet these criteria have to register with us to receive the *Update!* in hardcopy or CD-ROM format.** Qualifying providers may be eligible to receive one hardcopy or CD-ROM of that issue, *if* a valid reason is given indicating why the electronic publication available on the Internet cannot be used. "I just prefer hardcopy" is an invalid reason – a valid reason might be lack of a personal computer with Internet access, lack of a CD-ROM drive, or similar technical barrier.

If you believe you meet these criteria, you must complete and return the "Medicare B Update! Hardcopy/CD ROM Registration Form" to receive hardcopies or CD-ROMs. (See page xx.)

You are required to re-register annually.

Do not complete the form if you are able to receive the *Update!* electronically from the Internet. Providers and other entities that do not meet the above criteria and desire a hardcopy or CD-ROM may purchase an annual subscription to the *Update!* (please see the "Part B Materials" order form on the last page of the Educational Resource section).

Note: If you have currently a paid subscription, you will receive hardcopies or CD-ROMs of the *Medicare B Update!* through your subscription period.

Features of the Electronic Publication

There are advantages to accessing the *Update!* online: the electronic version is posted to the Web before print copies are distributed, and you can view, print, or download only those articles important to your practice.

In addition, we enhance the format of electronic and CD-ROM newsletters to provide helpful features that do not appear in the current hardcopy format, including hyperlinks. A hyperlink is an element in an electronic document that links the user to another place in the same document, to an entirely different document, or to another website. This feature provides users instant access to the following items:

- ***Articles of Interest*** – The newsletter table of contents includes hyperlinks to each article, therefore providers can choose an article(s) of particular interest to their line of business or type of facility.
- ***Third-Party Websites*** – All third-party websites referenced within articles include hyperlinks to the applicable information on that website. (*Online publications only*.)
- ***References within the Contractor Websites*** – All additional resources or reference materials mentioned in the newsletter include hyperlinks to that information within the Medicare provider education website (e.g., full-text versions of local coverage determinations, prior publications, forms, online registration, etc.). Additionally, links to unique Web pages allow access to information applicable to the user's specialty classification. (*Online publications only*.)

The enhanced electronic publications are available at no charge through the FCSO Medicare provider education website and on CD-ROM at a minimal cost. In addition, you may sign up for the *FCSO eNews*, our free electronic mailing list. Subscribers receive an email notice when new publications are posted to our website, plus frequent notification of other items of interest. Anyone with an e-mail address may sign up for *eNews*; you don't have to be at the office. ❖

Sign up to our *eNews* electronic mailing list

Join our ***eNews*** mailing list and receive urgent and other critical information issued by First Coast Service Options, Inc. (FCSO), your Florida Medicare intermediary. By signing up, you will receive automatic email notification when new or updated information is posted to the provider education website *http://www.floridamedicare.com*. It's very easy to do. Simply go to the website, click on the "***eNews***" link on the navigational menu and follow the prompts.

Medicare B Update! Hardcopy/CD-ROM Registration Form

To receive the *Medicare B Update!* in hardcopy or CD-ROM format, you must complete this registration form. Please complete and fax or mail it to the number or address listed at the bottom of this form. **To receive a hardcopy or CD-ROM of the Fourth Quarter 2006 *Medicare B Update!* your form must be faxed or postmarked on or before July 1, 2006.**

Please note that you are not obligated to complete this form to obtain information published in the *Medicare B Update!* – issues published beginning in 1997 are available free of charge on our provider education website *http://www.floridamedicare.com*.

CLAIMS

Change Payment Floor Date for Paper Claims

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and suppliers who use paper claims to bill Medicare carriers, including durable medical equipment regional carriers (DMERCs), and fiscal intermediaries (FIs), including regional home health intermediaries (RHHIs)

Important Points to Remember

- CR 4284 changes the payment floor date for paper claims from the 27th day to the 29th date after receipt of a claim.
- Effective January 1, 2006, Medicare carriers, DMERCs, FIs, and RHHIs will not pay paper claims prior to the 29th day after receipt of the claim.

Background

The Social Security Act Section 1816b (c) (3) (B) (ii) and Section 1842 (c) (3) (B) (ii) provides for payment waiting periods for Medicare claims before a claim is paid by the Medicare contractor. Congress has amended the Social Security Act to extend the waiting period for paper claims from 27 to 29 days, effective January 1, 2006.

Implementation

The implementation date for this instruction is March 13, 2006.

Additional Information

The official instructions issued to your carrier regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R850CP.pdf* on the CMS website.

If you have questions, please contact your Medicare carrier, DMERC, FI, or RHHI at their toll-free number which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

MLN Matters Number: MM4284	Related Change Request (CR) #: 4284
Related CR Release Date: February 10, 2006	Effective Date: January 1, 2006
Related CR Transmittal #: R850CP	Implementation Date: March 13, 2006

Full Replacement for CR 4266, Revision for HPSA and PSA Bonus Billing for Some Globally Billed Services

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians billing Medicare carriers for the Health Professional Shortage Area (HPSA) and Physician Scarcity Area (PSA) bonus

Provider Action Needed

This article is based on Change Request (CR) 5015, which will allow physicians to submit global services and receive the HPSA and PSA bonuses without having to submit the professional component and technical component (PC/TC) separately.

Background

Currently, components of services with a professional component/technical component of four must be submitted separately in order to receive the HPSA and PSA bonus payments. CR 5015 is similar to CR 4266 (Transmittal 834) in that it also allows you to submit the global service and receive the bonus payment on all professional component/technical component (PC/TC) 4 codes.

However, CR 5015 further instructs that payment is excluded for the following Current Procedural Terminology (CPT) code:

CPT Code *93015* (cardiovascular stress test using maximal or submaximal treadmill or bicycle exercise, continuous electrocardiographic monitoring, and/or pharmacological stress; with physician supervision; with interpretation and report)

Note: The "technical component" of services relates to facilities, equipment, and technical staff required for the delivery of those services, and the "professional component" consists of fees paid to the physician for providing those services. When combined, the "professional and technical" components of a service are referred to as "global" service.

CR 5015 instructs that, effective for claims received on or after July 1, 2006:

- When your carrier receives a claim for a service with a PC/TC of 4, **except for CPT Code *93015***; and
- The service is provided in a HPSA or PSA bonus payment area; then
- Your claim will be accepted.

The bonus payment amount is calculated based on the payment amount for the associated professional component code.

Your carrier will make any necessary revision to their systems to be able to calculate the bonus payment just for the professional component of the service.

This action will be taken for bonuses paid automatically as well as bonuses paid based on the submission of the QB, QU, AR, or AQ modifiers.

Because there are two associated professional components to *93015*, your carrier will follow the instructions in the *Medicare Claims Processing Manual* and **return claims for *93015* as unprocessable**. The services must then be resubmitted as separate components in order to receive the bonus on the appropriate professional component.

Carriers will continue to allow the option of withholding HPSA/PSA bonuses if that is requested by physicians and the carriers will not pay the bonus on PCTC 4 to physicians who have already notified them of their decision to not receive HPSA/PSA bonuses.

Note: CR 5015 does not affect current HPSA or PSA payment policy.

Implementation

The implementation date for the instruction is July 3, 2006.

Additional Information

The revised *Medicare Claims Processing Manual* - Publication 100.4, Chapter 12 (Physician Practitioner Billing), Section 90.4.5 (Services Eligible for HPSA and Physician Scarcity Bonus Payments), is attached to CR 5015, which is the official instruction issued to your carrier regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R906CP.pdf* on the CMS website.

If you have any questions, please contact your carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Instructions for the Payment of Health Professional Shortage Area and Physician Scarcity Area Bonuses When the Place of Service Is Home

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians billing carriers for services provided in the home of Medicare beneficiaries in Health Professional Shortage Areas (HPSAs) and Physician Scarcity Areas (PSAs)

Provider Action Needed

This article is based on Change Request (CR) 4275, which provides instructions for the payment of HPSA/PSA bonuses when the place of service (POS) is home.

This change is necessary to allow bonuses to be paid correctly on HPSA/PSA claims eligible for bonuses that are provided in the POS "Home," when the address of where the service was rendered does not match what is on the beneficiary's file.

Background

When a physician provides services to a Medicare beneficiary and the POS is "home," carriers have been instructed to use the home address they have recorded in the beneficiary's file to determine eligibility for physician bonuses.

However, sometimes this address is a representative payee address or mailing address that does not reflect the physical location of that beneficiary. This can cause incorrect payment/non-payment of the bonuses.

CR 4275 indicates that this issue should be resolved when the next version of the ANSI X12 N837 Implementation Guide is published, because physicians will be required to enter where the service was performed on the claim, even when the POS is "home." CR 4275 also instructs carriers to investigate a claim (to determine the address where the service was actually performed) when they receive a notification from a physician that they have not received a HPSA/PSA bonus for which they are eligible, and the service was provided in the POS "home." If the carrier determines that the address where the service was

actually performed is in an HPSA/PSA eligible bonus payment area (even if it does not match the address on the beneficiary file), they will pay the bonus on the claim.

The physician will also be instructed to submit future claims for this beneficiary, when provided at that address, using the appropriate HPSA or PSA modifier so that the bonus shall be paid.

Implementation

The implementation date for this instruction is February 21, 2006.

Additional Information

An overview of the HPSA/PSA physician bonuses including HPSA and PSA modifiers can be found at *http://www.cms.hhs.gov/HPSAPSAPhysicianBonuses/* on the CMS website.

For complete details, please see the official instruction issued to your carrier regarding this change. That instruction may be viewed at *http://new.cms.hhs.gov/Transmittals/downloads/R813CP.pdf* on the CMS website.

If you have any questions, please contact your carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/MLNProducts/downloads/CallCenterTollNumDirectory.pdf* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

MLN Matters Number: MM4275	Related Change Request (CR) #: 4275
Related CR Release Date: January 20, 2006	Effective Date: February 21, 2006
Related CR Transmittal #: R813CP	Implementation Date: February 21, 2006

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. Modifier 50 – Bilateral Procedures

First Coast Service Options, Inc. (FCSO) Provider Contact Center has been receiving numerous inquiries regarding the usage of modifier 50. The purpose of this article is to provide clarification on how modifier 50 should be billed.

Bilateral surgery is defined as a procedure performed on both sides of the body at the same operative session or on the same day. This definition does not include procedures that are bilateral in nature or include the terms “bilateral” or “unilateral/bilateral” in their descriptors.

When submitting claims for bilateral surgery, use modifier 50 with the procedure code. Claims for bilateral surgical procedures should be billed on a single claim detail line with the appropriate procedure code and modifier 50.

When billing for claims that are bilateral in nature, whether the services are performed unilaterally or bilaterally, providers should bill the surgical procedure code as a single claim detail line item without the 50 modifier.

To determine if a procedure can be billed with the modifier 50 as a bilateral procedure, providers may access the on-line Medicare Physician Fee Schedule Database (MPFSDB) at *http://www.cms.hhs.gov/physicians/apps/pfslookup/*.

Moving to a Paperless Claim Processing Environment

As the CMS continues to seek new and innovative methods of reducing the cost of administering the Medicare Program, one immediate focus is on the reduction of paper handling. In an effort to prepare for future changes and to proactively support our provider population, First Coast Service Options, Inc. (FCSO) is initiating a campaign to help providers help us reduce the volume of paper claim submissions. Generally speaking, for Part B claims submissions, FCSO receives a significant volume of their total claims in a paper format.

In the next few months you will be receiving frequent communications in almost every medium available to us. We will continue to reinforce the benefits of filing claims electronically and offer any assistance we can to help you make the transition. So look for updates on the Web and on remits, and listen for information on the IVR.

ASCA – Required Electronic Submission

One current CMS initiative that already supports this effort is ASCA (Administrative Simplification and Compliance Act). Some providers have already received letters from our office requiring that documentation be provided to attest to your qualifications relative to meeting one of the exception criteria to be excluded from filing paper. If you have received a letter, we strongly encourage you to respond timely in order to avoid unnecessary paper claim denials (beginning 90 days from the date of the initial letter) as a result of “no reply” situations. *http://www.floridamedicare.com/edi_local_asca.asp#TopOfPage.*

1500 CLAIM FORM CHANGES /THERE IS NO BETTER TIME TO CONVERT TO ELECTRONIC CLAIM SUBMISSION

As you are aware, the 1500 claim form will be changing fairly significantly in October to accommodate the new National Provider Identifier (NPI) requirements. If you submit paper claims currently and are considering converting to electronic filing, we strongly encourage you to do so prior to October 1, 2006. If you do not convert prior to that date, you will have to implement all of the changes necessary for the new 1500 claim form to your existing programs/systems. Then if you decide (or are required) to convert to electronic submission at a later date, you will incur those expenses as well. Why go through two separate conversions? Let us help you convert to electronic submission prior to October 1, 2006.

GET PAID FASTER/MORE EFFICIENTLY

Of significant benefit to you, in converting from paper to electronic claims submissions, is the difference in payment schedules between paper claims and electronic claims. As you know, the CMS recently made a change to increase the paper claims payment floor by 2 additional days, from 27 to 29 days. This will result in checks being mailed 2 days later than they were previously. At the same time, the CMS removed the contractor performance requirement to process all clean paper claims in 30 days. This could result in additional delays in processing paper claims. If you file electronic claims you are held to a different payment floor of 14 days. This results in a much faster turn-around on claims payments.

In summary, our world, as we know it, is changing very quickly. FCSO is committed to helping our providers by keeping them updated on changes as quickly as possible. We would also like to partner with you to make the necessary changes to processes and systems that are mutually beneficial. If you need additional information on what you need to do to convert to electronic claims filing, please contact our EDI department at (904) 791-8767 or visit the EDI section of the Florida Part B website at *http://www.floridamedicare.com/EDI.asp#TopOfPage*

We look forward to working with you on this very important change!

Quarterly Update to Correct Coding Initiative Edits, Version 12.1, Effective April 1, 2006

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians billing Medicare carriers

Provider Action Needed

This is a reminder for physicians to note the quarterly updates to the coding initiatives. The next round of CCI edits will be effective on April 1, 2006.

Physicians may view the current Correct Coding Initiative (CCI) edits and the current Mutually Exclusive Code (MEC) edits at *http://www.cms.hhs.gov/physicians/cciedits* on the Centers for Medicare & Medicaid (CMS) website. The website will be updated with the version 12.1 edits as soon as they are effective.

Background

The National CCI developed by CMS helps promote national correct coding methodologies and controls improper coding. The coding policies developed are based on the following:

- Coding conventions defined in the American Medical Association's Current Procedural Terminology (CPT) manual;
- National and local policies and edits;
- Coding guidelines developed by national societies;
- Analysis of standard medical and surgical practice; and
- Review of current coding practice.

The latest package of CCI edits, version 12.1, is effective on April 1, 2006. This version will include all previous versions and updates from January 1, 1996, to the present and will be organized in two tables:

- Column 1/Column 2 Correct Coding Edits table; and
- MEC Edits table.

Additional Information

The CCI and MEC file formats will be maintained in the *Medicare Claims Processing Manual* (Publication 100-04), Chapter 23, Section 20.9, which can be found at *http://www.cms.hhs.gov/Manuals/IOM/list.asp#TopOfPage* on the CMS website.

Medlearn Matters Number: MM4308
Related Change Request (CR) #: 4308
Related CR Release Date: February 1, 2006
Effective Date: April 1, 2006
Related CR Transmittal #: R824CP
Implementation Date: April 3, 2006

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. AMBULANCE SERVICES

Ambulance Fee Schedule - CY 2006 Update: Correction to CR 4061

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers and suppliers of ambulance services billing Medicare carriers and fiscal intermediaries (FIs) for those services

Provider Action Needed

This article is for your information only. It references CR 4362, which provides the correct Ambulance Fee Schedule File for Calendar Year (CY) 2006.

Background

CR 4061, "Ambulance Inflation Factor for CY 2006" (released November 25, 2005), contained an incorrect file name for the CY 2006 Ambulance Fee Schedule File. CR 4362, from which this article is taken, corrects that file name. It also amends the *Medicare Claims Processing Manual*, Chapter 15 (Ambulance), Section 20.6 (Update Charges), Subsection 20.6.1 (Ambulance Inflation Factor [AIF]), to reflect this correction.

Your carriers and FIs will use this corrected file to determine the payment limit for ambulance services that you furnish during CY 2006. Of most importance to providers/suppliers, rather than process CY 2006 ambulance service claims using the incorrect file name contained in CR 4061, the carriers and FIs will hold these claims until the corrected file can be downloaded and used. In the event they processed any CY2006 ambulance claims using the incorrect file, the carriers and FIs will do mass adjustments of those claims to correct the payments.

Additional Information

You can find more information about the corrected Ambulance Inflation Factor file name by going to the official instruction (CR 4362) issued to your carrier/intermediary. That instruction is available at *http://www.cms.hhs.gov/Transmittals/downloads/R852CP.pdf* on the CMS website. In addition, you can learn more about the Ambulance Inflation Factor for CY 2006 in MedLearn Matters article MM4061, which you can find by going to *http://www.cms.hhs.gov/MLNMattersArticles/downloads/mm4061.pdf* on the CMS website.

Finally, if you have any questions, please contact your intermediary at their toll free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Collection and Verification of Ambulance Crew Member Information

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers and suppliers who bill Medicare carriers for ambulance services

Key Points

- Effective February 9, 2006, the Centers for Medicare & Medicaid Services (CMS) will no longer require enrolled ambulance suppliers to report ambulance crew member changes in Attachment 1 of the provider enrollment application CMS-855B.
- This policy change only applies to ambulance companies already enrolled with Medicare.
- Ambulance suppliers that are enrolling in the Medicare program for the first time or are submitting a new enrollment application are required to report ambulance crew member information in Attachment 1 of the provider enrollment application (CMS-855B).
- This change should reduce the paperwork burden imposed on ambulance suppliers and reduce the number of ambulance supplier changes processed by contractors.

Background

On January 27, 2006, CMS published a Federal Register notice requesting public comments on revisions to the provider enrollment applications. While CMS is seeking comments regarding proposed changes to its Medicare enrollment applications, it is also adopting a policy change that affects ambulance suppliers effective immediately with regard to reporting ambulance crew member information as noted above.

Relevant Links

The Medicare Federal Health Care Provider/Supplier Enrollment Application Form CMS-855B can be found at *http://www.cms.hhs.gov/MedicareProviderSupEnroll/downloads/cms855b.pdf* on the CMS website.

If you have any questions regarding this issue, contact your carrier at their toll free number, which is available at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

CARDIOLOGY SERVICES

Modification to Modifier QR Edit for Automatic Implantable Cardiac Defibrillator Services

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers who bill carriers or fiscal intermediaries (FIs) for ICD services rendered to Medicare beneficiaries.

Provider Action Needed

STOP – Impact to You

The modifier QR is not required to process claims with ICD-9-CM codes 996.04 (Mechanical complication of cardiac device, implant, and graft, due to automatic implantable cardiac defibrillator) or for V53.32 (Fitting and adjustment of other device, automatic implantable cardiac defibrillator) for ICD services with dates of service on or after April 1, 2005. The modifier QR should continue to be used on all claims for ICD device implants when the beneficiary is enrolled in a data collection system such as a registry.

CAUTION – What You Need to Know

The modifier QR is required on claims for primary prevention ICD device implantations (QR signifies that data is being reported on the patient and data reporting is a requirement of primary prevention device insertion).

However, claims submitted for replacement devices do not carry the patient's previous arrhythmic diagnoses; therefore, these claims look like claims for primary prevention clinical indications. CR 4273, from which this article is taken, adds two new ICD-9-CM codes (addressing ICD replacement due to instrument recall or device complication) to the list of codes that do not require the use of the modifier QR for claims processing (effective on or after April 1, 2006, for claims with dates of service on and after April 1, 2005).

GO – What You Need to Do

Make sure that your billing staffs continue to bill ICD implantation and replacement services appropriately according to professional coding guidelines. If claims with dates of service on or after April 1, 2005, were inappropriately denied, they should be brought to the attention of the local Medicare contractor.

Background

The modifier QR identifies services that are being covered under a clinical study(e.g., patients enrolled in a registry), and effective January 27, 2005, is required as a condition for payment on claims for ICD services rendered in the primary prevention of cardiac arrest.

CR3604, Transmittal 497 (released March 8, 2005), provides guidance for the coverage of ICD services under newly expanded coverage. One of the requirements for covering the new ICD indications (effective January 27, 2005) is that the patient be enrolled in a data collection system as indicated by the presence of the modifier QR on the claim, which identifies services being covered under a clinical study.

A *MLN Matt*ers article on CR 3604 is available at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM3604.pdf* on the CMS website.

Again, the modifier is used to identify patients, who meet the coverage requirement for any indication that is for the primary prevention of sudden cardiac arrest (i.e., no history of induced or spontaneous arrhythmias).

It is not required for ICD services rendered for the secondary prevention of cardiac arrest as documented by the secondary prevention diagnosis codes noted in the table below. (Note, however, that you can use the modifier QR for secondary prevention diagnoses if you deem it to be appropriate, i.e., in order to report the data to the data collection system, when this reporting applies).

Two New Diagnosis Codes Added

Since CR3604 was published, the Centers for Medicare & Medicaid Services (CMS) has become aware that there are other clinical situations for ICD services in which the diagnoses show neither primary nor secondary prevention of cardiac arrest. Such a situation could occur when the patient is having his/her ICD replaced, perhaps due to ICD recall, or to a device complication (such as the end of battery-life).

Since it would be incorrect to deny such claims because they lacked the QR modifier, in CR4273, CMS is adding two new ICD-9-CM diagnosis codes to the list of those that do not require it:

- **996.04, Mechanical complication of cardiac device, implant, and graft; due to automatic implantable cardiac defibrillator** Use this diagnosis code when the patient is having his/her ICD replaced due to a mechanical complication, as could occur due to ICD recall.
- **V53.32, Fitting and adjustment of other device; automatic implantable cardiac defibrillator** Use this diagnosis code when there is a fitting or an adjustment, including device removal or replacement; it would be used when the ICD reaches its natural end-of-battery life.

The table below displays the new list of diagnoses that do not require a QR modifier for ICD services in order to be paid (both those indicating the secondary prevention of cardiac arrest, and ICD replacement).

Diagnoses Not Requiring the Modifier QR

ICD-9-CM Code	Secondary Prevention Diagnosis
427.1	Ventricular Tachycardia
427.41	Ventricular fibrillation
427.42	Ventricular flutter
427.5	Cardiac arrest
427.9	Cardiac dysrhythmia, unspecified
	New "Replacement" Diagnoses
996.04	Mechanical complication of cardiac device, implant, and graft, due to automatic implantable cardiac defibrillator
V53.32	Fitting and adjustment of other device, automatic implantable cardiac defibrillator

Remember: Carriers and FIs will adjust, as appropriate, claims brought to their attention (with dates for service on or after April 1, 2005) that were denied because the diagnosis code was 996.04 or V53.32, and lacked a modifier QR.

Additional Information

More information about the use of the Modifier QR for Automatic Implantable Cardiac Defibrillator (ICD) Services is available in the official instruction (CR 4723) issued to your carrier/intermediary. That instruction is available at *http://www.cms.hhs.gov/Transmittals/downloads/R819CP.pdf* on the CMS website. Another good source for additional information is *MLN Matters* article MM3604, at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/mm3604.pdf* on the CMS website.

Finally, if you have any questions, please contact your carrier/intermediary at their toll-free number, which may be found at *http://www.cms.hhs.gov/MLNProducts/downloads/CallCenterTollNumDirectory.pdf* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

MLN Matters Number: MM4273 Related Change Request (CR) #: 4273
Related CR Release Date: January 27, 2006 Effective Date: April 1, 2005
Related CR Transmittal #: R819CP Implementation Date: April 3, 2006

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

Expansion of Coverage for Percutaneous Transluminal Angioplasty

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals. This information was previously published in the January 2006 Medicare B Update! Special Issue pages 42-44.

Note: This article was revised on April 3, 2006, to clarify that reporting of both 433.30 and 433.10, in either diagnosis position, needs to be done in the same claim as noted in the "Note" box at the top of page 5 of this article. All other information remains the same.

Provider Types Affected

Hospitals, physicians, and suppliers billing Medicare carriers or fiscal intermediaries (FIs) for Percutaneous Transluminal Angioplasty (PTA) services provided to Medicare beneficiaries.

Provider Action Needed

STOP – Impact to You

MM3811 and related CR3811 announce the expansion of Medicare coverage for PTA of the carotid artery.

CAUTION – What You Need to Know

Effective March 17, 2005, Medicare revised its coverage of PTA of the carotid artery as detailed in this article and CR 3811.

GO – What You Need to Do

If you are a provider of PTA services, be aware of the coverage changes and make certain that your billing staff is aware of the expanded national coverage allowed to Medicare beneficiaries receiving PTA services

Background

Medicare covers PTA of the carotid artery concurrent with carotid stent placement when all the requirements stipulated by the Food and Drug Administration (FDA)-approved policies for Category B Investigational Device Exemption (IDE) clinical trials are met, effective for dates of service on or after July 1, 2001.

PTA of the carotid artery concurrent with the placement of an FDA-approved carotid stent for an FDA-approved indication is covered, when all the requirements stipulated by the FDA-approved policies for post-approval studies are met, for dates of service on or after October 12, 2004.

Expanded Coverage

Effective March 17, 2005, The Centers for Medicare & Medicaid Services (CMS) expanded the coverage of PTA of the carotid artery concurrent with placement of an FDA-approved carotid stent with embolic protection for the following:

- Patients who are at high risk for carotid endarterectomy (CEA) and who also have symptomatic carotid artery stenosis ≥70%. Coverage is limited to procedures performed using FDA-approved carotid artery stenting systems and embolic protection devices;
- Patients who are at high risk for CEA and have symptomatic carotid artery stenosis between 50% and 70% in accordance to the Category B IDE clinical trials regulation (42 CFR 405.201), as a routine cost under the clinical trials policy (Medicare National Coverage Determination (NCD) Manual, Section 310.1), or according to the NCD on carotid artery stenting (CAS) post-approval studies (Medicare NCD Manual, Section 20.7); and
- Patients who are at high risk for CEA and have asymptomatic carotid artery stenosis ≥80% (according to the Category B IDE clinical trials regulation (42 CFR 405.201)), as a routine cost under the clinical trials policy (Medicare NCD Manual 310.1), or according to the NCD on CAS post-approval studies (Medicare NCD Manual, Section 20.7).

Significant Comorbidities

CMS defines high risk patients as those having significant comorbidities and/or anatomic risk factors and are considered by a surgeon to be poor candidates for CEA. The significant comorbidities, include, but are not limited to, those listed in Section 20.7 of the Medicare NCD Manual as follows:

- Congestive heart failure (CHF) class III/IV;
- Left ventricular ejection fraction (LVEF) < 30%;
- Unstable angina;
- Contralateral carotid occlusion;
- Recent myocardial infarction (MI);
- Previous CEA with recurrent stenosis ;
- Prior radiation treatment to the neck; and
- Other conditions that were used to determine patients at high risk for CEA in the prior CAS trials and studies, such as ARCHER, CABERNET, SAPPHIRE, BEACH, and MAVERIC II.

Carotid Artery Stenosis

Symptoms of carotid artery stenosis include carotid transient ischemic attack (distinct focal neurologic dysfunction persisting less than 24 hours), focal cerebral ischemia producing a non-disabling stroke (modified Rankin scale < 3 with symptoms for 24 hours or more), and transient molecular blindness (amaurosis fugax). Patients who have had a disabling stroke (modified Rankin > 3) would be excluded from coverage.

The appropriate documentation confirming that a patient is at high risk for CEA and records of the patient's symptoms of carotid artery stenosis should be available in the patient medical records prior to performing any procedure.

The degree of carotid artery stenosis should be measured by duplex Doppler ultrasound or carotid artery angiography and recorded in the patient medical records. If the stenosis is measured by ultrasound prior to the procedure, then the degree of stenosis must be confirmed by angiography at the start of the procedure. If the stenosis is determined to be less than 70% by angiography, the CAS should not proceed.

- Carotid artery stenting with embolic protection is reasonable and necessary only if performed in facilities that have been determined to be competent in performing the evaluation, procedure, and follow-up necessary to ensure optimal patient outcomes.
- All facilities must at least meet the minimum standards outlined in Pub 100-03, Section 20.7 of the NCD Manual in order to receive coverage for CAS for highrisk patients. Briefly, facilities must have high quality X-ray imaging equipment, device inventory, staffing, and infrastructure to support a dedicated CAS program.
- Advanced physiologic monitoring, including real time and archived physiologic, hemodynamic, and cardiac rhythm monitoring equipment, and associated support staff capable of interpreting findings and responding appropriately.
- Readily available emergency management equipment and systems, such as resuscitation equipment, a defibrillator, vasocative and antiarrhythmic drugs, endotracheal intubation capability, and anesthesia support.
- A clearly delineated program for granting CAS privileges and for monitoring the quality of the individual interventionists and the program as a whole. The oversight committee for this program is encouraged to apply published standards from national specialty societies recognized by the American Board of Medical Specialties to determine appropriate physician qualifications.

Examples of standards and clinical competence guidelines include those published in the December 2004 edition of the *American Journal of Neuroradiology* and those published in the August 18, 2004, *Journal of the American College of Cardiology.*

- A data collection system maintained by the facility or its contractor on all CAS procedures done at that facility. The data must be analyzed routinely to ensure patient safety (to be determined by the facility but should not be less frequent than 6-month intervals), will be used in re-credentialing the facility, and must be made available to CMS upon request.

Written Documentation

For evaluation purposes, all facilities must provide written documentation to CMS indicating it meets one of the following criteria:

- Was an FDA-approved site that enrolled patients in prior CAS IDE trials, such as SAPPHIRE, and ARCHER;
- Is a FDA-approved site that is participating and enrolling patients in ongoing CAS IDE trials, such as CREST;
- Is a FDA-approved site for one or more FDA post-approval studies; or
- Has provided a written affidavit to CMS affirming that the facility meets the minimum facility standards. The affidavit must include the facility's name and complete address, Medicare provider number, point-of-contact name and telephone number, CAS procedure data collection mechanism, and a senior facility administrative official's signature. (Note that a new affidavit is required every two years.)

  The affidavit should be sent to:

  Director, Coverage and Analysis Group
  7500 Security Boulevard, Mail-stop C1-09-06
  Baltimore, MD 21244

Note: Performance of PTA to treat obstructive lesions of the vertebral and cerebral arteries remains non-covered. All other indications of PTA for which CMS has not specifically indicated coverage remain non-covered.

Additional Information

All providers should note that the following relate to services on or after March 17, 2005:

- FIs and carriers will only pay CAS claims from providers who are listed on the approved facility list which is at *http://www.cms.hhs.gov/MedicareApprovedFacilitie/CASF/list.asp#TopOfPage* on the CMS website.
- Carriers will pay claims containing ICD-9 CM 433.10 and any of the following procedure codes: *37215, 37216, 0075T*, or *0076T*, for beneficiaries meeting the high-risk criteria previously specified.
- FIs will pay claims containing ICD-9 CM 433.10 and both procedures codes 00.61 and 00.63.
- FIs will reject claims that do not have both procedure codes 00.61 and 00.63.
- FIs and carriers will deny CAS services for patients at high risk if the appropriate diagnosis code is not on the claim and use the appropriate Medicare Summary Notice (MSN) message and claim adjustment reason code in doing so.
- FIs and carriers will deny claims where the service was performed in an unapproved facility and use the appropriate MSN message and claim adjustment reason code in doing so.

Note: Providers must also bill V70.7 (Exam – clinical trial) as a secondary diagnosis for claims with "From" dates before October 1, 2005. Providers must bill V70.7 in order to avoid unintentional Medicare Code Editor (MCE) editing. For claims that have "From" dates on or after October 1, 2005, hospitals are not required to bill V70.7 as the unintentional MCE editing will be corrected.

Coding for Carotid Artery Stents

In the American Hospital Association's (AHA's) publication *Coding Clinic for ICD-9-CM*, First Quarter 2002, page 10 (and corrected in Second Quarter 2002, page 19), there is a Q&A regarding coding of bilateral carotid artery stenosis. The answer said, "Assign only code 433.10, (Occlusion and stenosis of precerebral arteries, Carotid artery, without mention of cerebral infarction) as the principal diagnosis." The correction notice changed that advice to use code 433.30 (Occlusion and stenosis of precerebral arteries, multiple and bilateral, without mention of cerebral infarction) instead of 433.10. In an effort to reduce the confusion, CMS has decided to allow hospitals to be able to code both 433.30 and 433.10, in any diagnosis positions, on the same claim. Code 433.30 will identify the bilateral condition, while 433.10 will specifically identify the carotid vessel.

You may also want to review the following MLN Matters article MM3489 and CR 3489 for additional information relating to Medicare coverage of PTA. They are available at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM3489.pdf* and *http://www.cms.hhs.gov/Transmittals/downloads/R314CP.pdf* on the CMS website.

The official instruction issued to your carrier/FI regarding this change may be found at *http://www.cms.hhs.gov/Transmittals/downloads/R33NCD.pdf* on the CMS website. That site contains the NCD manual revision. The changes to the *Medicare Claims Processing Manual* are at *http://www.cms.hhs.gov/Transmittals/downloads/R531CP.pdf* on the CMS website.

If you have questions regarding this issue, contact your carrier/intermediary on their toll free number, which is available at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

Nesiritide for Treatment of Heart Failure Patients

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers and physicians that submit claims to Medicare fiscal intermediaries (FIs) and carriers for nesiritide when provided as a treatment for chronic heart failure.

Key Points

- Effective for dates of service **on or after March 2, 2006,** the Centers for Medicare & Medicaid Services (CMS) will deny coverage of nesiritide for the treatment of chronic heart failure in Medicare beneficiaries. For billing guidelines about the noncovered use of nesiritide, please refer to the *Additional Information* section of this article.
- CMS has determined that there is insufficient evidence to conclude that the use of nesiritide for the treatment of chronic heart failure is reasonable and necessary for Medicare beneficiaries in any setting.
  This determination does not change local contractor discretion for treatment of acute(ly) decompensated heart failure consistent with the FDA labeled indication in Medicare beneficiaries who may have underlying chronic heart failure. Nor does it affect local contractor discretion for other off-label uses of nesiritide in Medicare beneficiaries who may have underlying chronic heart failure.
- For claims submitted to FIs, the requirement to deny nesiritide for chronic heart failure will only affect type of bill (TOBs) 13x and 85x. TOBs 11x and 12x will be rejected. CMS recommends that FIs create medical policy parameters to deny outpatient claims for nesiritide for chronic heart failure in the absence of acutely decompensated heart failure.
  CMS recommends that FIs reject inpatient claims where the primary diagnosis is chronic heart failure in the absence of acutely decompensated heart failure (TOBs 11x and 12x) when billed with nesiritide for chronic heart failure.
- For inpatient claims where the beneficiary is admitted with a primary diagnosis other than heart failure and nesiritide is administered under a DRG (diagnosis related group) payment, the administration of nesiritide should not be the sole basis for denial of the entire inpatient claim.
- The provider will be held liable unless occurrence code 32 is present on the claim or modifier GA is present on the line on an outpatient bill.
- All other indications for the use of nesiritide not otherwise indicated as noncovered (other off-label uses or use consistent with the current Food and Drug Administration (FDA) indication for intravenous treatment of patients with acutely decompensated congestive heart failure (CHF) who have dyspnea at rest or with minimal activity) are left to local contractor (carrier or FI) discretion.
- This addition to Chapter 1, Section 200.1, of the *Medicare National Coverage Determinations Manual* (Publication 100-03) is a national coverage determination (NCD) made under section 1862(a)(1) of the Social Security Act (the Act).
- NCDs are binding on all carriers, FIs, quality improvement organizations, health maintenance organizations, competitive medical plans, health care prepayment plans, the Medicare Appeals Council, and administrative law judges (ALJs) (see 42 CFR 405.1064, effective May 1, 2005).
- An NCD that expands coverage is also binding on a Medicare advantage organization. In addition, an ALJ may not review an NCD. (See section 1869(f)(1)(A)(i) of the Act.)

Background

Nesiritide is FDA-approved for the short-term intravenous treatment of patients with acutely decompensated CHF who have dyspnea (shortness of breath) at rest or with minimal activity.

Recent published studies of nesiritide have highlighted safety concerns, specifically increased mortality and decreased renal function in patients treated with nsiritide.

In addition, an independent advisory panel of cardiac experts sponsored by Scios, manufacturer of Natrecor® (nesiritide), recommends that nesiritide be restricted to the treatment of acute decompensated heart failure in the inpatient hospital setting.

Additional Information

Claims submitted with Healthcare Common Procedure Coding System (HCPCS) code J2325 (Injection, nesiritide, 0.1 mg) with International Classification of Diseases (ICD-9) codes of:

428.0, 428.1, 428.20, 428.22, 428.30, 428.32, 428.40, 428.42, or 428.9; **and not accompanied by:**
428.21, 428.23, 428.31, 428.33, 428.41, or 428.43, **will be denied**.

Denied claims will be returned with the following claims adjustment codes:

- Reason code: These are noncovered services because the payer does not deem this a 'medical necessity'.
- Remark code M76: Missing/incomplete/invalid diagnosis or condition.

Contractors must apply the following Medicare summary notice messages:

- **15.20** – The following policy [NCD 200.1] was used when we made this decision.
- **15.4**: – The information provided does not support the need for this service or item.

Contractors will not search for, but may adjust, claims brought to their attention with dates of service March 2, 2006, through implementation.

External Counterpulsation Therapy

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers, physicians, and suppliers who bill Medicare contractors (fiscal intermediaries (FIs) and carriers) for external counterpulsation (ECP) therapy services

Key Points

- The Centers for Medicare & Medicaid Services (CMS) initiated a reconsideration of the National Coverage Determination (NCD) for ECP therapy in response to a request to reconsider that policy and expand coverage to certain additional cardiac conditions.
- Effective March 20, 2006, CMS decided to continue current coverage for ECP therapy, and not to expand coverage to additional cardiac indications.
- The CMS determined that the evidence is **not** adequate to conclude that ECP therapy is reasonable and necessary for (1) Canadian Cardiovascular Society Classification (CCSC) II angina, (2) heart failure (New York Heart Association (NYHA) Class II/III stable heart failure symptoms with an ejection fraction of = 35%, NYHA Class II/III stable heart failure symptoms with an ejection fraction of = 40%, NYHA Class IV heart failure, and acute heart failure), (3) cardiogenic shock, or (4) acute myocardial infarction.
- Continuing with current policy, effective for services performed on or after July 1, 1999, ECP therapy is considered reasonable and necessary relative to cardiac conditions **only when** the conditions for coverage identified in Publication 100-3, Section 20.20 of the *Medicare National Coverage Determinations Manual* (NCD Manual) are met.
- All other cardiac conditions that are not otherwise specified as nationally covered for the use of ECP remains nationally noncovered.

Background

Prior to July 1999, ECP therapy was non-covered for all indications. The coverage policy was amended, effective July 1, 1999, to allow coverage for ECP therapy under certain circumstances. Coverage for ECP was provided only for patients who were diagnosed with disabling angina (Class III or Class IV, CCSC or equivalent classification) and who, in the opinion of a cardiologist or cardiothoracic surgeon, are not readily amenable to surgical intervention.

Under this policy decision, the therapy was identified as Enhanced External Counterpulsation. Subsequent reconsiderations of the NCD in February 2000 and October 2001:

- Changed the description of the service back to ECP;
- Removed the requirement limiting coverage to specific ECP systems; and
- Clarified that the policy only pertains to ECP devices intended for the treatment of cardiac conditions.

Additional Information

Publication 100-04, *The Medicare Claims Processing Manual*, Chapter 32, Section 130, is updated to manualize current billing and payment requirements for both FIs and carriers. The revised section is attached to CR 4350, which is the official instruction issued to your FI or carrier regarding changes mentioned in this article, MM4350. There are two transmittals related to CR 4350. The first is the transmittal conveying the NCD, which is available at *http://www.cms.hhs.gov/Transmittals/downloads/R50NCD.pdf*, and the second, which revises the *Medicare Claims Processing Manual*, is at *http://www.cms.hhs.gov/Transmittals/downloads/R898CP.pdf* on the CMS website.

Microvolt T-wave Alternans Diagnostic Testing

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare carriers and/or fiscal intermediaries (FIs) for Microvolt T-wave Alternans (MTWA) diagnostic testing services

Provider Action Needed

This article is based on Change Request (CR) 4351, which announces that effective for dates of service on or after March 21, 2006, MTWA diagnostic testing is covered for the evaluation of patients at risk of sudden cardiac death (SCD), only when the spectral analysis method is used.

Background

MTWA testing is a non-invasive diagnostic test that detects minute electrical activity in a portion of the electrocardiogram (EKG) known as the T-wave. The test is performed by placing highly sensitive electrodes on a patient's chest prior to a period of controlled exercise.

These electrodes detect very small beat-to-beat voltage fluctuations (on the order of one-millionth of volt) in the EKG T-wave. Spectral analysis (a sensitive mathematical method of measuring and comparing time and the EKG signals) is then used to calculate these minute voltage changes. Computer software then analyzes these microvolt changes and produces a report to be interpreted by a physician.

Within patient groups that may be considered candidates for Implantable Cardioverter Defibrillator (ICD) therapy, published literature indicates that a negative MTWA test may be useful in identifying low-risk patients who are unlikely to benefit from, and who may experience worse outcomes from, ICD placement.

Effective for services performed on or after March 21, 2006, the following Current Procedural Terminology (CPT) code will be recognized as nationally payable for MTWA diagnostic testing.

CPT Code	Descriptor
93025	MTWA for assessment of ventricular arrhythmias

This is a national coverage determination (NCD) made under section 1862(a)(1) of the Social Security Act (the Act). NCDs are binding on all carriers, FIs, quality improvement organizations, health maintenance organizations, competitive medical plans, health care prepayment plans, the Medicare Appeals Council, and administrative law judges (ALJs) (see 42 CFR section 405.1064, effective May 1, 2005).

An NCD that expands coverage is also binding on a Medicare Advantage Organization. In addition, an ALJ may not review an NCD. (See section 1869(f)(1)(A)(i) of the Act.)

Notes: MTWA diagnostic testing is non-covered for the evaluation of patients at risk for SCD if measurement is not performed employing the spectral analysis method.

Prior to March 21, 2006, MTWA diagnostic testing was covered at local carrier/FI discretion. Carrier/FI discretion is no longer applicable.

Implementation

The implementation date for the instruction is April 3, 2006.

Additional Information

For complete details, please see the official instruction (CR 4351) issued to your carrier/FI regarding this change. There are two parts to CR 4351, transmittal R894CP, which includes the Medicare claims processing instructions at *http://www.cms.hhs.gov/Transmittals/downloads/R894CP.pdf* and transmittal R49NCD, which includes the National Coverage Determination Manual revision at *http://www.cms.hhs.gov/Transmittals/downloads/R49NCD.pdf* on the CMS website.

If you have questions, please contact your carrier/FI at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

Cardiac Rehabilitation Programs

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

All providers who bill Medicare for cardiac rehabilitation services

Provider Action Needed

STOP – Impact to You

Effective on and after March 22, 2006, Medicare has expanded coverage for cardiac rehabilitation programs to include three new indications, and has extended the time frame for performing the services to include up to 36 sessions.

CAUTION – What You Need to Know

CR 4401 updates the *National Coverage Determination (NCD) Manual*, Publication 100-03, Section 20.10, Cardiac Rehabilitation Programs (March 22, 2006), to include three newly covered indications: 1) heart valve repair/replacement; 2) percutaneous transluminal coronary angioplasty (PTCA) or coronary stenting; and 3) heart or heart-lung transplant. It also extends the program's possible duration to a total of 36 sessions (generally, two to three sessions per week for 12 to 18 weeks) and lists the services required to provide a comprehensive program. CR4401 also updates the *Medicare Claims Processing Manual*, Publication 100-04, Chapter 32, Section 140 to include billing requirements and language regarding physician supervision.

GO – What You Need to Do

Make sure that your billing staffs are aware of these coverage changes in the cardiac rehabilitation program.

Background

Phase II cardiac rehabilitation, as described by the U.S. Public Health Service, is a comprehensive, long-term program including medical evaluation, prescribed exercise, cardiac risk factor modification, education, and counseling. Phase II refers to outpatient, medically supervised programs that are typically initiated 1-3 weeks after hospital discharge and provide appropriate electrocardiographic monitoring.

CR 4401 updates *National Coverage Determinations (NCD) Manual* (100-03), Section 20.10 (effective for cardiac rehabilitation services provided on or after March 22, 2006) to:

- Expand the clinical indications for coverage
- Extend the program's possible duration.
- Simplify the language regarding physician supervision
- List the services required to provide a comprehensive program
- Update the relevant billing and claims related instructions found in the *Medicare Claims Processing Manual* (Publication 100.04).

CMS has historically covered cardiac rehabilitation services for patients who have: (1) a documented diagnosis of acute myocardial infarction (MI) within the preceding 12 months; (2) coronary artery bypass surgery; and /or (3) stable angina pectoris. The updated NCD now provides coverage for these three indications and adds three additional ones.

Expanded Coverage

Effective for services performed on or after March 22, 2006, Medicare covers cardiac rehabilitation exercise programs for patients who meet the following criteria:

- Have a documented diagnosis of acute myocardial infarction within the preceding 12 months; or
- Have had coronory bypass surgery; or
- Have stable angina pectoris; or
- Have had heart valve repair/replacement; or
- Have had percutaneous transluminal coronary angioplasty (PTCA) or coronary stenting; or
- Have had a heart or heart lung transplant.

Further, the updated policy also now allows up to 18 weeks for a beneficiary to receive their maximum of 36 cardiac rehabilitation services (Patients generally receive two to three sessions per week for 12 to 18 weeks).

Please note that additional services may be covered at the discretion of the local Medicare contractor, but may not exceed 72 sessions within a 36-week period.

Clarification of Physician and Facility Requirements

The updated policy also clarifies language regarding physician supervision and facility requirements and the physician's physical location during the rehabilitation services. Specifically the NCD requires that:

- The program must be staffed by personnel necessary to conduct the program safely and effectively, who are trained in both basic and advanced life support techniques and in exercise therapy for coronary disease.
- The facility must have available for immediate use the necessary cardiopulmonary, emergency, diagnostic, and therapeutic life-saving equipment accepted by the medical community as medically necessary, e.g., oxygen, cardiopulmonary resuscitation equipment, or defibrillator.

The *Medicare Claims Processing Manual* instructs that:

- Cardiac rehabilitation programs shall be performed incident to physician's services in outpatient hospitals, or outpatient settings such as clinics or offices. Follow the policies for services incident to the services of a physician as they apply in each setting. For example, see Pub. 100-02, chapter 6, section 2.4.1, and Pub. 100-02, chapter 15, section 60.1.

Coding Requirements

This CR also changes the *Medicare Claims Processing Manual*, Publication 100-04, Chapter 32, Section 140, to update the relevant billing and claims related instructions, and points out the following applicable *CPT* codes:

93797 Physician services for outpatient cardiac rehabilitation; without continuous ECG monitoring (per session)
93798 Physician services for outpatient cardiac rehabilitation; with continuous ECG monitoring (per session)

You should note that your carriers and FIs will apply current payment methodologies, rates, and payments policies for cardiac rehabilitation services when these services are performed according to the new policy stated in this CR.

However, they will not search and adjust claims that have already been processed unless brought to their attention.

Additional Information

The revision of Section 20.10 of the *Medicare National Coverage Determinations Manual* (Publication 100-03) is a national coverage determination (NCD) made under section 1862(a)(1) of the Social Security Act. Remember that:

- NCDs are binding on all carriers, fiscal intermediaries, quality improvement organizations, health maintenance organizations, competitive medical plans, health care prepayment plans, the Medicare Appeals Council, and administrative law judges (see 42 CFR 405.1064, effective May 1, 2005).
- An NCD that expands coverage is also binding on a Medicare advantage organization.
- In addition, an administrative law judge may not review an NCD. (See 1869(f)(1)(A)(i) of the Social Security Act.

You may view CR 4401, Transmittal 52, the revised *Medicare National Coverage Determinations Manual*, Chapter 1 – Coverage Determinations, Part 1, Section 20.10 (Cardiac Rehabilitation Programs – effective March 22, 2006), on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R52NCD.pdf*.

You may view CR 4401, Transmittal 909, the revised *Medicare Claims Processing Manual*, Chapter 32 (Billing Requirements for Special Services), Sections 140 (Cardiac Rehabilitation Programs) and 140.1 (Coding Requirements), on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R909CP.pdf*.

If you have any questions, please contact your carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/MLNProducts/downloads/CallCenterTollNumDirectory.pdf*.

DIAGNOSTIC SERVICES

Mammography Facility Certification File—Updated Procedures and Content

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers (facilities certified by the Food and Drug Administration [FDA[), who submit screening and diagnostic mammography claims to Medicare fiscal intermediaries (FIs) and to carriers

Key Points

- This article is related to CR 4303. It provides guidelines for carriers/intermediaries to download the most recent Mammography Quality Standards Act (MQSA) file **on a weekly basis** and use it to adjudicate claims.
- Currently, the FDA file does not contain information on terminated facilities. The Centers for Medicare & Medicaid Services (CMS) will be populating a new file, however, with terminated facilities to enable carriers/intermediaries to pay for services prior to the date of termination and to deny services rendered after the date of termination.

Background

The Mammography Quality Standards Act (MQSA) ensures that all facilities that provide mammography services meet national quality standards.

The FDA, Center for Devices and Radiological Health, is responsible for collecting certificate fees and surveying mammography facilities (screening and diagnostic).

FDA provides CMS with a file containing a list of all facilities that have been issued certificates to perform mammography services. CMS then provides the list to Medicare carriers and FIs, which also contains information about terminated facilities.

Additional Information

Section 104 of the Benefits Improvement and Protection Act (BIPA) of 2000, "Modernization of Screening Mammography Benefit," provided new payment methodologies for both diagnostic and screening mammograms that utilize digital technology.

For Medicare to determine whether the mammography facility is certified to perform digital mammography (due a higher payment rate), the FDA sends an updated file via the CMS Mainframe Telecommunications System (CMSTS) on a weekly basis.

Effective July 1, 2006, CMS will be populating a new Mammography Quality Standards Act (MQSA) file with terminated FDA-certified facilities (designated with a "T" value). This will enable carriers/intermediaries to pay for screening and diagnostic mammography services for terminated facilities prior to the date of termination and to deny services furnished after the date of termination. By doing so, it will enable the payment of claims that come into Medicare from a terminated facility if the date of service occurred before the facility was terminated.

DURABLE MEDICAL EQUIPMENT

Change in the Long Descriptor for HCPCS Code Q4080

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare carriers, including durable medical equipment regional carriers (DMERCs) and/or fiscal intermediaries (FIs), including regional home health intermediaries (RHHIs), for services related to ILOPROST inhalation treatment of Medicare beneficiaries.

Provider Action Needed

This article is based on Change Request (CR) 4324, which provides information on the revised code dosage descriptor for Q4080. This is a non-systems change CR.

Background

The Centers for Medicare & Medicaid Services (CMS) established HCPCS code Q4080 that was effective July 1, 2005, with a code descriptor that read: **"**ILOPROST, INHALATION SOLUTION, ADMINISTERED THROUGH DME**, 20 MICROGRAMS."**

Effective January 1, 2006, the long code descriptor for HCPCS code Q4080 will read: **"**ILOPROST, INHALATION SOLUTION, ADMINISTERED THROUGH DME**, UP TO 20 MCG"**

The short descriptor for HCPCS code Q4080 will continue to read: "Iloprost inhalation solution."

CR 4324 provides clarification on the change in the long descriptor for HCPCS code Q4080 effective January 1, 2006.

Implementation

The implementation date for the instruction is March 13, 2006.

Additional Information

For complete details, please see the official instruction issued to your carrier/DMERC/intermediary/RHHI regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R209OTN.pdf* on the CMS website.

If you have any questions, please contact your carrier/DMERC/intermediary/RHHI at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

April Quarterly Update for 2006 Durable Medical Equipment, Prosthetics, Orthotics, and Supplies Fee Schedule

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare carriers, including durable medical equipment regional carriers (DMERCs) and/or fiscal intermediaries (FIs), including regional home health intermediaries (RHHIs), for services paid under the DMEPOS Fee Schedule.

Provider Action Needed

This article is based on Change Request (CR) 4335 and provides specific information regarding the quarterly update for the April 2006 DMEPOS Fee Schedule.

Background

The DMEPOS fee schedules are updated on a quarterly basis in order to:

- Implement fee schedule amounts for new codes; and
- Revise any fee schedule amounts for existing codes that were calculated in error.

Payment on a fee schedule basis is required for:

- Durable Medical Equipment (DME), prosthetic devices, orthotics, prosthetics, and surgical dressings by the Social Security Act (Sections 1834(a)(h)(i)); and
- Parenteral and Enteral Nutrition (PEN), by regulations contained in the Code of Federal Regulations (42 CFR 414.102).

Changes made in this update include the following:

- The fee schedule amounts for HCPCS code **K0730**, *Controlled dose inhalation drug delivery system,* were added to the fee schedule file on April 1, 2006, and are effective for claims with dates of service on or after April 1, 2005. If processed claims for code K0730 with dates of service on or after April 1, 2005, are resubmitted as adjustments after April 1, 2006, carriers and DMERCs will adjust the claim.
- The fee schedule amounts for HCPCS code **E1010**, *Wheelchair accessory, addition to power seating system, power leg elevation system, including leg rest,* were inadvertently dropped from the January fee schedule file and are being added back to the file as part of the April 2006 update.
- The payment categories for codes **E0471 and E0472** are being revised to move Respiratory Assist Devices from the DME category for frequently serviced items to the DME payment category for capped rental items, effective on April 1, 2006.

Implementation

The implementation date for this instruction is April 3, 2006.

Additional Information

The official instructions issued to your intermediary, carrier, or DMERC regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R880CP.pdf* on the CMS website.

If you have questions, please contact your Medicare intermediary, carrier, or DMERC at their toll-free number which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

Payment for Power Mobility Device Claims

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and non-physician practitioners billing Medicare carriers, durable medical equipment regional carriers (DMERCs), regional home health intermediaries (RHHIs), and/or fiscal intermediaries (FIs) for power mobility devices (PMD) and services related to prescribing PMDs

Important Points to Remember

Options for Submitting G0372 and Evaluation and Management (E/M) Codes

Providers billing a Medicare carrier have the following options for submitting the G0372 code and the E/M code during January 1, 2006, through March 31, 2006:

- Submit the G0372 code and E/M now on the same claim. Payment for these claims will be held through March 31, 2006.
- Hold all claims containing the G0372 code until after March 31, 2006.
- Submit the E/M service now and bill the G0372 code after March 31, 2006. The E/M service will be paid now. Note that this is not intended to require that Medicare fiscal intermediaries or carriers split claims submitted with both the E/M and G0372 code. Rather, the physician/provider may choose to submit two separate claims for the individual services.

Providers submitting claims on or after April 1, 2006, must bill the E/M and the G0372 code on the same claim.

Critical Access Hospitals billing the FI under Method II have the following options from January 1, 2006, through July 2, 2006, for submitting the G0372 code and the E/M code:

- Submit the G0372 and E/M now on the same claim. Payment for these claims will be held by the FI through July 2, 2006.
- Hold all claims containing the G0372 code until after July 2, 2006.
- Submit the E/M service now and bill the G0372 code after July 2, 2006. The E/M service will be paid now. Note that this is not intended to require the FI or carrier to split claims submitted with both the E/M and G0372 code. Rather, the physician or treating practitioner may choose to submit two separate claims for the individual services.

Method II Critical Access Hospitals submitting claims on or after July 2, 2006, must bill the E/M and the G0372 code on the same claim.

Background

The Centers for Medicare & Medicaid Services (CMS) published an interim final rule on PMDs to conform its regulations to section 302(a)(2)(E)(iv) of the Medicare Modernization Act (MMA), which is codified at section 1834(a)(1)(E)(iv) of the Social Security Act (SSA). The effective date of the rule was October 25, 2005.

For PMDs, the MMA mandated that:

- A face-to-face examination of the individual be conducted by a physician, a physician assistant, a nurse practitioner, or a clinical nurse specialist; and
- That payment may not be made for a motorized or power wheelchair unless the physician or treating practitioner has written a prescription for the item.

By defining the practitioners allowed to conduct the face-to-face examination, it also effectively removed the current requirement that a beneficiary must be seen by a specialist in physical medicine, orthopedic surgery, neurology, or rheumatology in order to get a power-operated vehicle (POV).

Submission of Medical Record and Prescription

Apart from the MMA requirements, the other key change made by this regulation is a requirement that the physician or treating practitioner must submit pertinent parts of the medical record (in lieu of the certificate of medical necessity [CMN]), along with the prescription, to the durable medical equipment (DME) supplier within 30 days of the face-to-face examination.

A separate add-on payment (an add-on payment to the office visit billed with the code of G0372) was established by the rule to recognize the additional physician work and resources required for submitting pertinent parts of the medical record.

Payment for the history and physical examination is made through the appropriate E/M code along with the add-on payment (G0372), which goes to the local Medicare FI or carrier. The PMD claim will go to the local durable medical equipment regional carrier (DMERC).

Appropriations Act

Title II, Section 222, of the Departments of Labor, Health and Human Services, and Education and Related Agencies Appropriations Act, 2006 (H.R. 3010) (the Appropriations Act) was signed into law on December 30, 2005. It states, in part:

SEC. 222. None of the funds made available under this Act may be used to implement or enforce the interim final rule published in the Federal Register by the Centers for Medicare & Medicaid Services on August 26, 2005, (70 Fed. Reg. 50940) prior to April 1, 2006.

Although this section of the Appropriations Act does not allow federal funds to implement or enforce the rule, CMS believes that this section does not affect the validity of the rule. Therefore, CMS is instructing DMERCs and/or DME PSCs that, between January 1, 2006 to April 1, 2006, contractors will only pay PMD claims that satisfy the requirements of section 1834(a)(1)(E)(iv) of the SSA.

Based on the Appropriations Act, CMS is instructing FIs and carriers to hold claims that contain G0372. These claims must be held through March 31, 2006. Carriers will begin to release physician claims for processing on April 3, 2006.

Implementation

The implementation date for this instruction is no later than two weeks after release of CR4372 or March 24, 2006.

Additional Information

For additional information regarding PMDs you may want to review the following Medlearn Matters articles:

2006 Jurisdiction List

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and suppliers who submit claims to Medicare durable medical equipment regional carriers (DMERCs) and Part B local carriers.

Provider Action Needed

STOP – Impact to You

CR 4363 provides notice of the spreadsheet containing the annual updated list of Healthcare Common Procedure Coding System (HCPCS) for DMERC and Part B local carrier jurisdictions.

CAUTION – What You Need to Know

The excel spreadsheet containing these codes is available within the official instructions (CR4363) issued to your DMERC contractor and Part B carrier, which may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R893CP.pdf*.

The list will also be available at *http://www.cms.hhs.gov/center/dme.asp* on the CMS website.

GO – What You Need to Do

The above codes are updated on an annual basis. Be sure your billing staff is aware of these changes.

Background

The HCPCS is updated annually to reflect changes in medical practice and the provision of health care. The Centers for Medicare & Medicaid Services (CMS) provides a file containing updated HCPCS codes to Medicare carriers, DMERCs, and intermediaries and to Medicaid State Agencies 60 to 90 days before the implementation of the annual update.

CMS publishes a recurring update notification annually to notify the DMERCs and Part B carriers that the list has been updated and is available on the CMS website.

Both the DMERCs and the local carriers publish this list to educate providers as to which contractor—the DMERC or local Part B carrier—to bill for codes provided on that list.

Implementation

The implementation date for this instruction is June 26, 2006.

Additional Information

The official instructions issued to your DMERC and Carrier regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R893CP.pdf* on the CMS website.

If you have questions, please contact your Medicare DMERC or carrier at their toll free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

2006 Jurisdiction List

HCPCS	DESCRIPTION	JURISDICTION
A0021 - A0999	Ambulance Services	Local Carrier
A4206 - A4209	Medical, Surgical, and Self- Local Carrier if incident to a physician's Administered Injection service (not separately payable). If other Supplies	DME REGIONAL Carrier.
A4210	Needle Free Injection Device	DME REGIONAL Carrier
A4211	Medical, Surgical, and Self	Local Carrier if incident to a physician's Administered Injection service (not separately payable). If other Supplies DME REGIONAL Carrier.
A4212	Non Coring Needle or Stylet	Local Carrier with or without Catheter
A4213 - A4215	Medical , Surgical, and Self Administered Injection Supplies	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4216 - A4218	Saline	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4220	Refill Kit for Implantable Pump	Local Carrier
A4221 - A4250	Medical, Surgical, and Self Administered Injection Supplies	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4253 - A4259	Diabetic Supplies	DME REGIONAL Carrier
A4261	Cervical Cap for Contraceptive	Local Carrier Use
A4262 - A4263	Lacrimal Duct Implants	Local Carrier
A4265	Paraffin	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4266 - A4269	Contraceptives	Local Carrier
A4270	Endoscope Sheath	Local Carrier
A4280	Accessory for Breast Prosthesis	DME REGIONAL Carrier
A4281 - A4286	Accessory for Breast Pump	DME REGIONAL Carrier
A4290	Sacral Nerve Stimulation Test Lead	Local Carrier
A4300 - A4301	Implantable Catheter	Local Carrier
A4305 - A4306	Disposable Drug Delivery System	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4310 - A4359	Incontinence Supplies/ Urinary Supplies	If provided in the physician's office for a temporary condition, the item is incident to the physician's service & billed to the Local Carrier. If provided in the physician's office or other place of service for a permanent condition, the item is a prosthetic device billed to the DME REGIONAL Carrier.
A4361 - A4434	Ostomy Supplies	If provided in the physician's office for a temporary condition, the item is incident to the physician's service & billed to the Local Carrier. If provided in the physician's office or other place of service for a permanent condition, the item is a prosthetic device & billed to the DME REGIONAL Carrier.

2006 Jurisdiction List

HCPCS	Description	Jurisdiction
A4450 - A4455	Tape;Adhesive Remover	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4458	Enema Bag	DME REGIONAL Carrier
A4462	Abdominal Dressing	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4465	Non-elastic Binder for Extremity	DME REGIONAL Carrier
A4470	Gravlee Jet Washer	Local Carrier
A4480	Vabra Aspirator	Local Carrier
A4481	Tracheostomy Supply	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4483	Moisture Exchanger	DME REGIONAL Carrier
A4490 - A4510	Surgical Stockings	DME REGIONAL Carrier
A4520	Diapers	DME REGIONAL Carrier
A4550	Surgical Trays	Local Carrier
A4554	Disposable Underpads	DME REGIONAL Carrier
A4556 - A4558	Electrodes; Lead Wires; Conductive Paste	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4561 - A4562	Pessary	Local Carrier
A4565	Sling	Local Carrier
A4570	Splint	Local Carrier
A4575	Topical Hyperbaric Oxygen Chamber, Disposable	DME REGIONAL Carrier
A4580 - A4590	Casting Supplies & Material	Local Carrier
A4595	TENS Supplies	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4604	Tubing for Positive Airway Pressure Device	DME REGIONAL Carrier
A4605	Tracheal Suction Catheter	DME REGIONAL Carrier
A4606	Oxygen Probe for Oximeter	DME REGIONAL Carrier
A4608	Transtracheal Oxygen Catheter	DME REGIONAL Carrier
A4611 - A4613	Oxygen Equipment Batteries and Supplies	DME REGIONAL Carrier
A4614	Peak Flow Rate Meter	Local Carrier if incident to a physician's service (not separately payable). If other DME Regional Carrier.
A4615 - A4629	Oxygen & Tracheostomy Supplies	Local Carrier if incident to a physician's service (not separately payable). If other DME REGIONAL Carrier.
A4630 - A4640	DME Supplies	DME REGIONAL Carrier
A4641 - A4642	Imaging Agent; Contrast Material	Local Carrier
A4649	Miscellaneous Surgical Supplies	Local Carrier if incident to a physician's service (not separately payable) or if supply for implanted prosthetic device or implanted DME. If other DME REGIONAL Carrier.
A4651 - A4932	Supplies for ESRD	DME REGIONAL Carrier

2006 Jurisdiction List

HCPCS	DESCRIPTION	JURISDICTION
A5051 - A5093	Additional Ostomy Supplies	If provided in the physician's office for a temporary condition, the item is incident to the physician's service & billed to the Local Carrier. If provided in the physician's office or other place of service for a permanent condition, the item is a prosthetic device & billed to the DME REGIONAL Carrier.
A5102 - A5200	Additional Incontinence and Ostomy Supplies	If provided in the physician's office for a temporary condition, the item is incident to the physician's service & billed to the Local Carrier. If provided in the physician's office or other place of service for a permanent condition, the item is a prosthetic device & billed to the DME REGIONAL Carrier.
A5500 - A5513	Therapeutic Shoes	DME REGIONAL Carrier
A6000	Non-Contact Wound Warming	DME REGIONAL Carrier Cover
A6010-A6024	Surgical Dressing	Local Carrier if incident to a physician's service (not separately payable) or if supply for implanted prosthetic device or implanted DME. If other DME REGIONAL Carrier.
A6025	Silicone Gel Sheet	Local Carrier if incident to a physician's service (not separately payable) or if supply for implanted prosthetic device or implanted DME. If other DME REGIONAL Carrier.
A6154 - A6411	Surgical Dressing	Local Carrier if incident to a physician's service (not separately payable) or if supply for implanted prosthetic device or implanted DME. If other DME REGIONAL Carrier.
A6412	Eye Patch	Local Carrier if incident to a physician's service (not separately payable) or if supply for implanted prosthetic device or implanted DME. If other DME REGIONAL Carrier.
A6441 - A6512	Surgical Dressings	Local Carrier if incident to a physician's service (not separately payable) or if supply for implanted prosthetic device or implanted DME. If other DME REGIONAL Carrier.
A6513	Compression Burn Mask	DME REGIONAL Carrier
A6530 - A6549	Compression Gradient Stockings	DME REGIONA Carrier
A6550	Supplies for Negative Pressure Wound Therapy Electrical Pump	DME REGIONAL Carrier
A7000 - A7039	Accessories for Nebulizers, Aspirators, and Ventilators	DME REGIONAL Carrier
A7040 - A7041	Chest Drainage Supplies	Local Carrier
A7042 - A7043	Pleural Catheter	Local Carrier
A7044 - A7046	Respiratory Accessories	DME REGIONAL Carrier

2006 Oncology Demonstration Project—Inclusion of Gynecological Oncology

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Gynecological oncologists who bill Medicare for office-based oncological services

What You Need to Know

CR4347 (from which this article was taken) adds gynecological oncologists to the list of physician specialties qualified to participate in the 2006 Oncology Demonstration Project.

Background

CMS initiated a one-year oncology demonstration project for 2006 designed to identify and assess particular oncology office practice-based services that improve outcomes in the Medicare population (as stated in CR 4219, Transmittal 36, *2006 Oncology Demonstration Project*, issued on December 30, 2005).

That CR included the physician specialties of hematology (82), medical oncology (90), and hematology/oncology (83), as qualifying under the 2006 oncology demonstration.

In CR 4347, CMS adds the specialty of gynecological oncology (98) to this list.

Therefore, unless otherwise noted, the policy, instructions, messages, and business requirements in CR4219 apply equally to gynecological oncology.

Your carriers will not search their records for claims previously submitted for gynecological oncology services in 2006 that were denied payment under the oncology demonstration. They will, however, adjust claims that are brought to their attention.

Additional Information

You can find more information about the inclusion of gynecological oncologists in the 2006 Oncology Demonstration Project by going to *http://www.cms.hhs.gov/Transmittals/downloads/R41DEMO.pdf* on the CMS website.

In addition, you can learn more about the 2006 Oncology Demonstration Project itself by reading *MedLearn Matters* article MM4219. This article is at *http://www.cms.hhs.gov/MedLearnMattersArticles/downloads/MM4219.pdf* on the CMS website.

If you have any questions, please contact your carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

DRUGS AND BIOLOGICALS

April 2006 Quarterly Average Sales Price Medicare Part B Drug Pricing File and Revisions to January 2005, April 2005, July 2005, October 2005, and January 2006 Quarter ASP Medicare Part B Drug Pricing Files

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

All Medicare providers who bill Medicare for Part B drugs

Provider Action Needed

STOP – Impact to You

CR 4319 provides notice of the updated payment allowance limits for Medicare Part B drugs, effective April 1, 2006 through June 30, 2006, as well as revised payment files for the January 2005, April 2005, July 2005, October 2005, and January 2006 Quarter ASP Medicare Part B Drug Pricing Files.

CAUTION – What You Need to Know

Be aware that certain Medicare Part B drug payment limits have been revised and that the Centers for Medicare & Medicaid Services (CMS) updates the payment allowance quarterly. The revised payment limits included in the revised ASP and Not Otherwise Classified (NOC) payment files supersede the payment limits for these codes in any publication published prior to CR 4319.

GO – What You Need to Do

Make certain that your billing staffs are aware of these changes.

Background

According to Section 303 (c) of the Medicare Modernization Act of 2003 (MMA), CMS will update the payment allowances for Medicare Part B drugs on a quarterly basis.

Beginning January 1, 2005, Part B drugs that are not paid on a cost or prospective payment basis) are paid based on **106 percent** of the average sales price (ASP).

Additionally, in 2006, all ESRD drugs furnished by both independent and hospital based ESRD facilities, as well as specified covered outpatient drugs, and drugs and biologicals with pass-through status under the OPPS, will be paid based on the ASP methodology. The ASP methodology is based on quarterly data submitted to CMS by manufacturers. CMS will supply Medicare contractors with the ASP drug pricing files for Medicare Part B drugs on a quarterly basis.

Beginning January 1, 2005, the payment allowance limits for Medicare Part B drugs and biologicals that are not paid on a cost or prospective payment basis are **106 percent** of the ASP.

Beginning January 1, 2006, the payment allowance limits for all ESRD drugs when separately billed by freestanding and hospital-based ESRD facilities, as well as specified covered outpatient drugs, and drugs and biologicals with pass-through status under the OPPS, will be paid based on 106 percent of the ASP. CMS will update the payment allowance limits quarterly.

Exceptions to General Rule

There are exceptions to this general rule as summarized below:

Blood and Blood Products

For blood and blood products (with certain exceptions such as blood clotting factors), payment allowance limits are determined in the same manner they were determined on October 1, 2003.

The payment allowance limits for blood and blood products are 95 percent of the average wholesale price (AWP) as reflected in the published compendia. The payment allowance limits will be updated on a quarterly basis.

Infusion Drugs

For infusion drugs furnished through a covered item of durable medical equipment (DME) on or after January 1, 2005, payment allowance limits will continue to be 95 percent of the AWP reflected in the published compendia as of October 1, 2003, regardless of whether or not the DME is implanted.

The payment allowance limits were not updated in 2005. For infusion drugs furnished through a covered item of durable medical equipment that were not listed in the published compendia as of October 1, 2003 (i.e., new drugs), the payment allowance limits are 95 percent of the first published AWP.

Influenza, Pneumococcal, Hepatitis B Vaccines

For influenza, pneumococcal, and hepatitis B vaccines**,** payment allowance limits are 95 percent of the AWP as reflected in the published compendia.

Drugs Not Included in ASP Medicare Part B Drug Pricing File or Not Otherwise Classified (NOC) Pricing File

For drugs (other than new drugs) not included in the ASP Medicare Part B Drug Pricing File or Not Otherwise Classified (NOC) pricing file**,** payment allowance limits are based on the published wholesale acquisition cost (WAC) or invoice pricing.

In determining the WAC-based payment limit, Medicare contractors (carriers, including durable medical equipment regional carriers (DMERCs), and fiscal intermediaries, including regional home health intermediaries (RHHIs)) will follow the methodology specified in the *Medicare Claims Processing Manual* for calculating the AWP, but substitute WAC for AWP. (See Publication 100-04, Chapter 17, Drugs and Biologicals) at *http://www.cms.hhs.gov/manuals/downloads/clm104c17.pdf* on the CMS website. The payment limit is 100 percent of the lesser of the lowest brand or median generic WAC.

Your Medicare contractor may, at their discretion, contact CMS to obtain payment limits for drugs not included in the quarterly ASP or NOC files. If available, CMS will provide the payment limits either directly to the requesting contractor or will post them in an MS Excel file on the CMS website. If the payment limit is available from CMS, contractors will substitute the CMS-provided payment limits for pricing based on WAC or invoice pricing.

Radiopharmaceuticals

The payment allowance limits for **radiopharmaceuticals** are not subject to ASP.

Your carrier/FI will determine payment limits for radiopharmaceuticals based on the methodology in place as of November 2003.

New Drugs Produced or Distributed under a New Drug Application Approved by the Food and Drug Administration

The payment allowance limits for new drugs and biologicals not included in the ASP Medicare Part B Drug Pricing File or Not Otherwise Classified (NOC) Pricing File are based on 106 percent of the WAC. This policy applies only to new drugs that were first sold on or after January 1, 2005.

How the ASP is Calculated

The ASP is calculated using data submitted to CMS by manufacturers on a quarterly basis and each quarter, CMS will update your carrier payment allowance limits with the ASP files. On or after March 20, 2006, revised January 2005, April 2005, July 2005, October 2005, and January 2006 ASP and NOC payment files and the April 2006 ASP and NOC files will be available for download.

- The revised January 2005 payment allowance limits apply to dates of service January 1, 2005 through March 31, 2005.
- The revised April 2005 payment allowance limits apply to dates of service April 1, 2005 through June 30, 2005.
- The revised July 2005 payment allowance limits apply to dates of service July 1, 2005 through September 30, 2005.
- The revised October 2005 payment allowance limits apply to dates of service October 1, 2005 through December 31, 2005.
- The revised January 2006 payment allowance limits apply to dates of service January 1, 2006 through March 31, 2006.
- The April 2006 payment allowance limits apply to dates of service April 1, 2006 through June 30, 2006.

Note: The absence or presence of a HCPCS code and its associated payment limit does not indicate Medicare coverage of the drug or biological. Similarly, the inclusion of a payment limit within a specific column does not indicate Medicare coverage of the drug in that specific category. The carrier processing your claim will make these determinations.

For any drug or biological not listed in the ASP or NOC drug pricing files, your Medicare contractor will determine the payment allowance limits in accordance with the policies described in CR 4319 and fiscal intermediaries will seek payment allowances from the local Medicare carrier.

Implementation

The implementation date for the instruction is April 3, 2006

Additional Information

The official instructions issued to your carrier/FI/RHHI/DMERC regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R876CP.pdf* on the CMS website.

If you have questions, please contact your Medicare carrier/FI/RHHI/DMERC at their toll-free number which may be found at: *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

More information is available at *http://www.cms.hhs.gov/McrPartBDrugAvgSalesPrice/* on the CMS website.

Additional Requirements for the Competitive Acquisition Program for Part B Drugs and Biologicals

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians and suppliers billing Medicare carriers for Part B drugs and biologicals **not paid on a cost or prospective payment system basis.**

Provider Action Needed

STOP – Impact to You

This article is based on Change Request (CR) 4309, which provides additional requirement for the CAP for Part B drugs and biologicals.

CAUTION – What You Need to Know

CR 4309 provides additional instructions for the implementation of the CAP program. It builds on CR 4064 through business requirements that were identified through the implementation process of CR 4064 and the development of the final CAP rule published on November 21, 2005.

GO – What You Need to Do

See the *Background* section of this article for further details regarding these additional requirements.

Background

Change Request (CR) 4309 provides new requirements that were identified both during the coding process of CR 4064 (*http://new.cms.hhs.gov/transmittals/downloads/R777CP.pdf*) and the publication of the final rule for the CAP for Medicare Part B drugs. It provides additional instructions for the implementation of the CAP program as outlined in CR 4064, and it is tied to the business requirements in CR 4064. CR 4309 is not a stand-alone CR and needs to be understood in conjunction with CR 4064.

The Competitive Acquisition Program (CAP) for Drugs and Biologicals Not Paid on a Cost or Prospective Payment Basis

The Medicare Prescription Improvement and Modernization Act of 2003 (MMA, Section 303 [d]), requires the implementation of a CAP for Medicare Part B drugs and biologicals not paid on a cost or prospective payment system (PPS) basis.

Beginning with drugs administered on or after July 1, 2006, physicians will be given a choice between buying and billing these drugs under the average sales price (ASP) system, or obtaining these drugs from vendors selected in a competitive bidding process. For a complete overview of the program, see the MLN Matters article at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM4064.pdf* on the CMS website.

Note: For 2006, the first CAP year will run from July 1, 2006, through December 31, 2006. In subsequent years, it will run annually on a calendar year basis. MMA, Section 303 (d) may be found at *http://www.cms.hhs.gov/MMAUpdate/* on the CMS website.

Social Security Act, Section 1861(s) is available at *http://www.ssa.gov/OP_Home/ssact/title18/1861.htm.*

The Centers for Medicare & Medicaid Services (CMS) may exclude drugs from the CAP if competitive pricing will not result in significant savings, or is likely to have an adverse impact on access to such drugs.

Note: Physicians will still be able to continue to purchase and bill Medicare under the average sales price (ASP) system for those drugs that are covered under Medicare Part B but whose HCPCS codes are not provided by the chosen approved CAP vendor.

Providing a Drug from Physician's Stock

Under emergency situations, the CAP will allow a participating CAP physician to provide a drug to a Medicare beneficiary from his or her own stock and obtain the replacement drug from the approved CAP vendor when certain conditions are met.

The local carrier will monitor drugs ordered under the emergency replacement provision to ensure that the participating CAP physician is complying with Medicare payment rules.

Physician Election and Information Transfer between Carriers and the Designated Carrier for CAP Claims

For this first CAP year, by April 17, 2006, CMS will post on its website:

- A list of the vendors that have been selected to participate in the CAP for 2006 and their websites,
- The categories of drugs they will be providing, and
- The geographic areas within which each vendor will operate.

Physicians can then elect the vendors and the categories of drugs they choose to receive drugs from under the CAP program. For this first CAP cycle, there will be one category of drugs and one geographic area.

In subsequent years, the CAP election will take place in the fall of each year and CMS will post on its website the updated list of vendor information. The election process will end each year approximately 45 days after the list of vendors is posted on the CMS website.

Additional Requirements Regarding the CAP

Additional instructions and more complete details about the CAP requirements for Part B Drugs can be found in Change Request (CR) 4309 and its attachments. Some of these important requirements to remember are as follows:

- The CAP is only available to physicians billing Medicare on a fee-for-service basis and is not applicable to United Mine Worker, Railroad Retirement Board, or Medicare Advantage beneficiaries;
- Vendors can only submit claims for drugs provided by physicians who selected that vendor;
- Every claim from a vendor will indicate that all appeals on CAP claims must be adjudicated by the physician's carrier;
- Members of a group must elect to participate in the CAP as a whole group when billing as a group;
- Only members of a group who have prescriptive authority are eligible to participate in the CAP;
- Any carrier that is currently applying a local billing policy for unused drug (waste) that requires a separate detail line with the unused drug modifier (JW) may continue to apply that policy under the CAP, but they must require the addition of the CAP modifier to the line;
- Claims that include the no-pay, restocking, or furnished as written modifier (as noted in CR 4064) will be treated as unprocessable if they contain one of the following invalid modifier combinations:
- J1 and J3
- J2 without J1
- J2 and J3
- The J1 modifier must be on every physician claim for a CAP drug;
- Vendors may petition CMS to add new drugs to their vendor specific drug list on a quarterly basis;
- The UPIN (or NPI) of the ordering physician must be entered on every vendor claim and match the UPIN (or NPI) of a physician that has elected that vendor; and
- All HCPCS codes for the administration of CAP drugs must be billed as assigned.

When physicians or practitioners submit a paper claim with a no-pay modifier on a line, but without a prescription number on that line, the claim will be rejected and returned with remittance advice remark code MA130, indicating "Your claim contains incomplete information, and no appeals rights are afforded because the claim is unprocessable. Please submit a new claim with the complete/correct information."

Implementation

The implementation date for this instruction is July 3, 2006, except where otherwise indicated in this article.

Additional Information

For complete details, please see the official instruction issued to your carrier regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R866CP.pdf* on the CMS website. In addition, you may wish to review CR 4064 at *http://www.cms.hhs.gov/Transmittals/downloads/R777CP.pdf* and its related article at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM4064.pdf* on the CMS website.
If you have any questions, please contact your carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.
The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

April Quarterly Update to the 2006 Annual Update of HCPCS Codes Used for Skilled Nursing Facility Consolidated Billing Enforcement

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare carriers, including durable medical equipment regional carriers (DMERCs) and/or fiscal intermediaries (FIs), for services provided to Medicare beneficiaries in skilled nursing facilities (SNFs)

Provider Action Needed

STOP – Impact to You

This article is based on Change Request (CR) 4298, which provides updates to the lists of HCPCS codes that are subject to the Consolidated Billing (CB) provision of the SNF Prospective Payment System (PPS).

CAUTION – What You Need to Know

Services included on the SNF consolidated billing enforcement list will be paid to SNF Medicare providers only. Services excluded from the SNF consolidated billing enforcement list may be paid to Medicare providers other than SNFs. See *Background* and *Additional Information* sections for further explanation.

GO – What You Need to Do

See the *Background* section of this article for further details regarding these changes.

Background

The Social Security Act (Section 1888, *http://www.ssa.gov/OP_Home/ssact/title18/1883.htm*) codifies both the SNF PPS and CB. The Centers for Medicare & Medicaid Services (CMS) periodically updates the lists of Healthcare Common Procedure Coding System (HCPCS) codes subject to the CB provision of the SNF PPS.

Services that appear on this HCPCS code list (that are submitted on claims to both Medicare fiscal intermediaries (FIs) and carriers, including durable medical equipment regional carriers (DMERCs)) will not be paid by Medicare to providers (other than an SNF) when included in SNF CB.

For non-therapy services, SNF CB applies only when the services are furnished to an SNF resident during a covered Part A stay. However, SNF CB applies to the following services whenever they are furnished to an SNF resident, regardless of whether Part A covers the stay:

- Physical and occupational therapies; and
- Speech-language pathology.

Services for beneficiaries that are excluded from SNF PPS and CB may be paid to providers (other than SNFs) even when in an SNF stay. To assure proper payment in all settings, Medicare systems must edit for services provided to SNF beneficiaries both included and excluded from SNF CB.

2006 Annual Update

Each January, CMS publishes a combined instruction for FIs and Carriers/DMERCs for the annual notice on SNF CB. The 2006 Annual Update file for FIs can be found at *http://www.cms.hhs.gov/SNFConsolidatedBilling/01a_SNFCBforFIs.asp#TopOfPage* on the CMS website. This 2006 file will be updated with the changes addressed in CR 4298 by March 1, 2006.

Information on the 2006 Annual Update for carriers can be found at *http://cms.hhs.gov/SNFConsolidatedBilling/* on the CMS website.

Note: Quarterly updates apply to FIs and carriers/DMERCs. The update provided by CR 4298 affects claims with dates of service on or after the effective date of CR 4298 unless otherwise indicated. The following HCPCS codes are listed as being added or removed from the Annual Update:

HCPCS Codes Added or Removed from Annual Update

Computerized Axial Tomography (CT) Scans (Major Category I, FI Annual Update, EXCLUSION)

HCPCS Code REMOVED	Descriptor
76375	3D/holograph reconstr add-on

Radiation Therapy (Major Category I, FI Annual Update, EXCLUSION)

HCPCS Code REMOVED	Descriptor
C9722	KV imaging w/ir tracking
G0242	Lultisource photon ster plan
G0338	Linear accelerator stero pln

Angiography, Lymphatic, Venous (Major Category I, FI Annual Update, EXCLUSION)

HCPCS Code ADDED	Descriptor
36598	Contrast injection, radiologic eval of existing cent venous access device

Note: This code should be added to the SNF CB file effective April 1, 2006.

Outpatient Surgery and Related Procedures (Major Category I, FI Annual Update, INCLUSION)

HCPCS Code REMOVED	Descriptor
15810	Salabrasion
15811	Salabrasion
G0345	Intravenous infusion, hydration; initial, up to one hour

Ambulance Trips w/ Application to Major Category II (Major Category I, FI Annual Update, EXCLUSION)

HCPCS Code REMOVED	Descriptor
Q3019	ALS vehicle used, emergency transport, no ALS service furnished
Q3020	ALS vehicle used, non-emergency transport, no ALS service furnished service furnished

Dialysis Supplies (Major Category II, FI Annual Update, EXCLUSION)

HCPCS Code REMOVED	Descriptor
A4656	Needle, any size, for dialysis, each

Chemotherapy Administration (Major Category III, FI Annual Update, EXCLUSION)

HCPCS Code REMOVED	Descriptor
96408	Chemotherapy, push technique
96410	Chemotherapy,infusion method
96412	Chemo, infuse method add-on
96414	Chemo, infuse method add-on
96520	Pump refilling, maintenance
96530	Pump refilling, maintenance
G0357	Intravenous, push technique, single or initial substance/drug
G0358	Intravenous, push technique, each additional substance/drug
G0359	Chemotherapy administration, intravenous infusion technique, up to one hour, single or initial substance/drug
G0360	Each additional hour, one to eight hours
G0361	Initiation of prolonged chemotherapy infusion (more than 8 hours)
G0362	Each additional sequential infusion (different substance /drug), up to one hour

HCPCS Code ADDED	Descriptor
96409	Chemo admin; IV, push; single/initial drug
96411	Chemo admin; IV, push; each add'l drug
96413	Chemo admin; IV, infusion; up to 1 hr; single/initial drug
96415	Chemo admin; IV, infusion; each add'l hr, 1-8 hrs
96416	Chemo admin; IV, infusion; initiation of prolonged chemo, requiring pump
96417	Chemo admin; IV infusion; each add'l sequential infusion, up to 1 hr
C8953	Chemo admin; IV, push
C8954	Chemo admin; IV, infusion; up to 1 hr
C8955	Chemo admin; IV, infusion; each add'l hr

Implementation

The implementation date for the instruction is April 3, 2006.

Additional Information

For complete details, please see the official instruction issued to your carrier/intermediary regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R826CP.pdf* on the CMS website.

If you have any questions, please contact your carrier/intermediary at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Medlearn Matters Number: MM4298 Related Change Request (CR) #: 4298
Related CR Release Date: February 1, 2006 Effective Date: January 1, 2006
Related CR Transmittal #: R826CP Implementation Date: April 3, 2006

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. January 2006 Quarterly Average Sales Price Medicare Part B Drug Pricing File, Effective January 1, 2006, and Revisions to January 2005, April 2005, July 2005, and October 2005 Quarterly ASP Medicare Part B Drug Pricing Files

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals. This information was previously published in the HCPCS 2006 January Special Medicare B Update! page 30.

Note: This article was revised on February 17, 2006, to delete references to the revised January 2005 pricing file. CR 4140 was revised by CMS to delete the same references since the revised January 2005 pricing file was not provided as indicated in the original CR 4140. Also, the CR transmittal number, Web address, and release date were also changed. Other Web addresses were changed to conform to the new CMS website. All other information remains the same.

Provider Types Affected

All Medicare providers who bill Medicare for Part B drugs

Provider Action Needed

STOP – Impact to You

CR4140 provides notice of the updated payment allowance limits in the January 2006, April 2005, July 2005, and October 2005 drug pricing files.

CAUTION – What You Need to Know

Be aware that certain Medicare Part B drug payment limits have been revised and that CMS updates the payment allowance on a quarterly basis. The revised payment limits included in the revised average sales price (ASP) and Not Otherwise Classified (NOC) payment files supersede the payment limits for these codes in any publication published prior to this document.

GO – What You Need to Do

Make certain that your billing staffs are aware of these changes.

Background

According to Section 303 (c) of the Medicare Modernization Act of 2003 (MMA), the Centers for Medicare & Medicaid Services (CMS) will update the payment allowances for Medicare Part B drugs on a quarterly basis.

Beginning January 1, 2005, Part B drugs (that are not paid on a cost or prospective payment basis) are paid based on 106 percent of the ASP.

The ASP is calculated using data submitted to CMS by manufacturers on a quarterly basis and each quarter, CMS will update your carrier/FI payment allowance limits with the ASP files.

On or after December 19, 2005, revised April 2005, July 2005, and October 2005 ASP and NOC payment files and the January 2006 ASP and NOC files will be available for download.

- The revised April 2005 payment allowance limits apply to dates of service April 1, 2005, through June 30, 2005.
- The revised July 2005 payment allowance limits apply to dates of service July 1, 2005, through September 30, 2005.
- The revised October 2005 payment allowance limits apply to dates of service October 1, 2005, through December 31, 2005.
- The January 2006 payment allowance limits apply to dates of service January 1, 2006, through March 31, 2006.

Exceptions

There are, however, exceptions to the general rule and they were summarized in MM3846, effective July 1, 2005, and may be viewed at *http://www.cms.hhs.gov/MedlearnMattersArticles/downloads/MM3783.pdf* on the CMS website.

Implementation

The implementation date for the instruction is January 3, 2006.

Additional Information

The official instruction issued to your carrier/intermediary regarding this change may be found at *http://www.cms.hhs.gov/Transmittals/downloads/R856CP.pdf* on the CMS website.

CMS will also update the Microsoft Excel files on the CMS website to reflect these revised payment limits. Those files can be found at *http://www.cms.hhs.gov/McrPartBDrugAvgSalesPrice/* on the CMS website.

If you have any questions, please contact your carrier/intermediary at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Competitive Acquisition Program for Part B Drugs – Coding, Testing, and Implementation

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians billing Medicare carriers for Part B drugs and approved Competitive Acquisition Program (CAP) vendors billing the designated carrier

Provider Action Needed

STOP – Impact to You

Beginning in April 2006, Medicare physicians will be given the opportunity to elect to participate in the CAP for claims paid on or after July 1, 2006. Participating CAP physicians will obtain Medicare Part B covered drugs from selected drug categories through the CAP. Until further notice, there is only one drug category in the CAP. (**Note:** Exact dates of the physician election period will be announced on the comp bid website (*http://www.cms.hhs.gov/CompetitiveAcquisforBios*) and via a list serv notice).

CAUTION – What You Need to Know

Participating CAP physicians will receive all of their Part B drugs from the approved CAP vendor for the drug category (ies) they have selected.

The only exception is the **"furnish as written"** situation, in which the participating CAP physician requires that, because of medical necessity, the beneficiary must have a certain brand of a drug or a particular product identified by the product's national drug code (NDC) and that specific drug is not available for the HCPCS code listed on the approved CAP vendor's drug list. This one exception will be identified with the use of the new CAP modifier J3.

Physicians participating in the CAP program should pay particular attention to the discussion in this article concerning the CAP modifiers J1, J2, and J3.

GO – What You Need to Do

In April 2006, the Centers for Medicare & Medicaid Services (CMS) will post on its website a list of the CAP vendors and the drugs they will supply. Physicians wishing to participate in the CAP program in 2006 must elect to do so within 45 days of the date the election information is posted. The election agreement is effective on July 1, 2006. See the Background section of this article for further details regarding these changes.

Background

This article includes information from Change Request (CR) 4064, which provides instructions to Medicare carriers regarding the CAP program. This new CAP program applies to physician-injectable and infused drugs covered under Medicare's supplemental insurance (Part B) program that are commonly provided incident to a physician's service. This program does NOT apply to drugs included in the new Prescription Drug Benefit under Part D, which goes into effect on January 1, 2006.

Physicians (and other practitioners who provide physician services that include the authority to prescribe and order Medicare Part B drugs) wishing to participate in the CAP program in 2006 must elect to do within 45 days of the date that the election information is posted on the CMS website.

The election agreement is effective on July 1, 2006. Each subsequent year, the election period will be in the fall and physicians must make their participation decision within 45 days after CMS publishes the list of vendors and their drug list for the following year on the CMS website. Election decisions will take effect on the following January 1.

How Drugs Are Selected For CAP

The CMS may exclude drugs from the CAP if competitive pricing will not result in significant savings, or is likely to have an adverse impact on access to such drugs.

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) gives CMS the authority to:

- Select drugs (or categories of drugs) that will be included in the CAP program,
- Establish geographic competitive acquisition areas, and
- Phase in these elements as appropriate.

How Approved CAP Vendors Are Selected

A competition will be held every three years to award contracts to vendors that will supply drugs and biologicals for the program. A three-year contract will be awarded to qualified approved CAP vendors in each geographic area who have and maintain:

- Sufficient means to acquire and deliver competitively biddable drugs within the specified contract area;
- Arrangements in effect for shipping at least 5 days each week for the competitively biddable drugs under the contract and means to ship drugs in emergency situations;
- Quality, service, financial performance, and solvency standards; and
- A grievance and appeals process for dispute resolution.

Approved CAP vendors must qualify for enrollment as a Medicare supplier, and they will be enrolled as a new provider specialty type.

CMS will establish a single payment amount for each of the competitively bid drugs and areas. For this three year contract cycle there will be one drug category and one geographic area for CAP. After CAP drug prices are determined and vendor contracts are awarded, the information will be posted to a directory at *http://www.cms.hhs.gov/CompetitiveAcquisforBios* on the CMS website.

Obtaining Drugs in the CAP

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA, Section 303 (d)) requires the implementation of a CAP for Medicare Part B drugs and biologicals not paid on a cost or Prospective Payment System basis.

You can review the MMA, Section 303(d) at *http://www.cms.hhs.gov/CompetitiveAcquisforBios/Downloads/303d.pdf* on the CMS website.

Beginning with Part B drugs administered on or after July 1, 2006 incident to a physician service, Medicare physicians will be given a choice between:

- Buying and billing these drugs under the ASP system; or
- Obtaining these drugs from vendors selected in the CAP's competitive bidding process.

Physicians (and other practitioners who provide physician services that include the authority to prescribe and order Medicare Part B drugs) will be given the opportunity to participate in the CAP. Approved CAP vendors will supply the drugs and biologicals for the participants of this program.

Physicians who elect to participate in CAP will continue to bill their local carrier for drug administration.

Participating CAP physicians will receive all of their drugs from the approved CAP vendor for the drug categories they have selected, **with only one exception:**

The exception will be for **"furnish as written"** situations in which the participating CAP physician specifies that, because of medical necessity, the beneficiary must have a certain brand of a drug or a particular product defined by the product's NDC and that drug is not available for the HCPCS codes listed on the approved CAP vendor's drug list.

In those cases, the participating CAP physician may:

- Buy the drug;
- Administer it to the beneficiary; and
- Using the appropriate modifier (see below discussion of modifiers), bill Medicare using the ASP methodology.

In addition, under emergency situations, the CAP will allow a participating CAP physician to provide a drug to a Medicare beneficiary from his or her own stock and obtain the replacement drug from the approved CAP vendor under the emergency replacement provision when certain conditions are met as follows:

- The drug was required immediately;
- The need for the drug could not be anticipated;
- The CAP vendor could not deliver the drug in time;
- The drug was administered in an emergency situation; and
- Documentation is maintained on file to validate these conditions.

Note: Physicians will still be able to continue to purchase and bill Medicare under the ASP system those drugs that are covered under Medicare Part B but whose HCPCS codes are not provided by the chosen approved CAP vendor.

Physician Billing

Physicians will be given the opportunity to participate in the CAP on an annual basis, and those who elect to participate in CAP will continue to bill their local carrier for the drug's administration. They will agree to submit a claim to Medicare within 14 days of the administration of the CAP drug.

The carrier will deny any physician Part B claims for drugs included in the CAP unless the CAP modifier codes are appropriately included. CAP has three modifier codes that will need to be used when physicians submit claims to their carriers for the administration of CAP drugs. The new CAP modifier codes are:

- J1 – Competitive Acquisition Program, no-pay submission for a prescription number
- J2 – Competitive Acquisition Program (CAP), restocking of emergency drugs after emergency administration and a prescription number
- J3 – Competitive Acquisition Program (CAP), drug not available through CAP as written, reimbursed under ASP methodology.

Participating CAP physicians will also use a prescription/order number to identify each CAP drug administered. This number will be matched to the prescription/order number(s) on the approved CAP vendor's claim as verification that the beneficiary received the drug(s) and that the approved CAP vendor may now be paid by Medicare.

When physicians submit claims for the administration of CAP drug (s) to their carriers, they should include:

- A prescription/order number for each CAP drug administered;
- The HCPCS code for each CAP drug administered along with the new no-pay modifier "J1";
- The HCPCS code(s) that include the administration of each CAP drug on separate lines.

Note: On paper claims, the prescription numbers will be in Item 19.

When physicians submit claims for the administration of CAP drug(s) that have been administered in an emergency situation and required "emergency restocking" from the approved CAP vendor, the claim should be submitted with the:

- Prescription/order number for each CAP drug administered;
- HCPCS code for each administered CAP drug along with the new no-pay modifier J1 and also on that same line, the new modifier J2 denoting "Competitive Acquisition Program, (CAP) restocking of emergency drugs after emergency administration;" and
- HCPCS code(s) that include the administration of each CAP drug on separate lines. When physicians submit claims for **"furnish as written"** drugs to be paid outside the CAP program:
- Physicians should use only the new modifier J3 denoting "Competitive Acquisition Program (CAP), drug not available through CAP as written, reimbursed under the average sales price methodology."

Physicians who elect CAP should note:

- The administration services and the no-pay lines must be on the same claim or your carrier will return the claim as unprocessable and you will see a remittance advice reason code of 16 denoting claim lacks information which is needed for adjudication.
- The Medicare carrier will identify them as physicians who elected to participate in CAP and who will not be paid for the drugs obtained from the approved CAP vendor.

Additionally, unless claims for CAP administration do not include the CAP drug no-pay, restocking, or "furnish as written" modifier, the claim will be denied and you will see a remittance advice, N348, stating that "You chose that this service/supply/drug be rendered/supplied and billed by a different practitioner/supplier."

Note: The physician's local carrier will monitor drugs that are:

- Obtained using the "furnish as written" provision to ensure that the participating CAP physician is complying with Medicare payment rules; and
- Ordered under the replacement provision to ensure that the participating CAP physician is complying with Medicare payment rules.

Vendor Billing
The approved CAP vendor will bill the:

- Medicare designated carrier for the drug; and
- Beneficiary for any applicable coinsurance and deductible.

The approved CAP vendor will also include a prescription/order number on the claim to identify each CAP drug administered.

Note: Payment to the approved CAP vendor for the drug is conditioned on verification that the drug was administered to the Medicare beneficiary. Proof that the drug was administered shall be established by matching the participating CAP physician's claim for drug administration with the approved CAP vendor's claim for the drug in the Medicare claims processing system by means of a prescription number on both claims. When they are matched in the claims processing system, the approved CAP vendor will be paid in full.

Until drug administration is verified, the approved CAP vendor may not bill the beneficiary and/or his third party insurance for any applicable coinsurance and deductible.

Implementation

The implementation date for this instruction is July 3, 2006.

Additional Information

For complete details, please see the official instruction issued to your carrier regarding this change. That instruction may be viewed by going to *http://www.cms.hhs.gov/Transmittals/downloads/R777CP.pdf* on the CMS website.

Also, additional information on the CAP program is available at *http://www.cms.hhs.gov/CompetitiveAcquisforBios/* on the CMS website.

If you have any questions, please contact your carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

HCPCS Procedures J7317, J7318 and J7320

The January 2006 *Medicare B Update!* Special Issue indicates HCPCS J7317 and J7320 as discontinued procedure codes (page 10) for 2006. Additionally this publication referenced HCPCS J7318 as a new code for 2006 (page 6). This information is incorrect; procedures J7317 and J7320 are will remain active codes and J7318 was not activated as a new code for 2006.

Reminder: To determine the appropriate procedure code for services rendered, please refer to your current CPT/HCPCS coding manuals. Using an inappropriate code can result in underpayment/overpayments and subsequent requests for refunds.

We apologize for any inconvenience this may have caused.

Payment for HCPCS G0332

This information was previously published in the Second Quarter 2006 Medicare B Update! page 30.

Medicare will make separate payment for pre-administration related services associated with IVIG (G0332) rendered on the same date of service as the IVIG drug (J1566 - J1567) and a drug administration service.

Procedure G0332 must be billed on the same claim form as the corresponding drug (J1566 and/or J1567). If procedure G0332 is not billed on the same claim for the same date as the corresponding drug code or more than once per day and a drug administration service, code G0332 will be returned as unprocessable.

FEE SCHEDULE/MPFSDB

New 2006 Payment Rate for Services Paid Under the Medicare Physician Fee Schedule

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare contractors (carriers, regional home health intermediaries (RHHIs), and/or fiscal intermediaries (FIs)) for services paid under the Medicare Physician Fee Schedule (MPFS) provided to Medicare beneficiaries

Important Points to Remember

- This article is based on Change Request (CR) 4313, which states that Congress has amended the physician update from a negative 4.4 percent (- 4.4%) update to a zero-percent (0%) update for services provided on or after January 1, 2006, and paid under the MPFS.
- Within two days of the enactment of the new legislation, Medicare contractors (i.e., carriers, FIs, and RHHIs) will begin to automatically reprocess those claims paid at the -4.4% update.
- New MPFS fees will be posted on the carrier sites as soon as possible after the President signs the bill. Your carrier may charge a reasonable fee for mailing a hardcopy version of the MPFS if you choose not to access the MPFS via the Internet.
- The Centers for Medicare & Medicaid Services (CMS) will create another participation enrollment period that will begin after the President signs the bill and the enrollment period will run for 45 days.

Background

Congress has passed the Deficit Reduction Act (DRA) of 2005, which, among other things, changes the update to the 2006 conversion factor for services paid under the MPFS. The DRA replaces the previously announced -4.4 percent reduction with a zero-percent increase for services paid under the MPFS. The change is effective retroactive for service on or after January 1, 2006.

Because of the change in the 2006 MPFS rates, CMS will create another participation enrollment period that will run for 45 days. More specific information concerning a second participation enrollment period will be appear in a forthcoming CR and related *Medlearn Matters* article.

This CR only addresses the change in payment rates related to the new zero-percent update to the conversion factor and reprocessing of claims that were paid using the -4.4 percent update rates.

Claims processed with the -4.4 percent rates will be reprocessed with the new rates and adjustments will be made. Medicare contractors will complete the necessary adjustments no later than July 1, 2006. In the event your claims are not adjusted by your carrier/FI/RHHI, contact them to bring the issue to their attention and they will make the adjustments.

Note: Services not paid under the MPFS, i.e., DME, Lab, ambulance etc., are not affected by CR 4313.

Implementation

Medicare carriers and intermediaries will have two business days from the date of enactment of the DRA to begin to process claims using the new fees as well as to begin reprocessing claims using those new fees.

Additional Information

The official instructions issued to your Intermediary or Carrier regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R207OTN.pdf* on the CMS website.

If you have questions, please contact your Medicare carrier/FI/RHHI at their toll-free number which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Medlearn Matters Number: MM4313
Related CR Release Date: February 1, 2006
Related CR Transmittal #: R207OTN
Related Change Request (CR) #: 4313
Effective Date: January 1, 2006
Implementation Date: See "Implementation" section of article.

April Update to the 2006 Medicare Physician Fee Schedule Database

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare carriers, and/or fiscal intermediaries (FIs) for services paid under the Medicare Physician Fee Schedule (MPFS).

Provider Action Needed

This article is based on Change Request (CR) 4399, which informs your carrier/intermediary that payment files were issued to carriers based upon the November 21, 2005, Medicare Physician Fee Schedule Final Rule. CR 4399 amends those payment files and includes new G-codes for the Low Vision Rehabilitation Demonstration Project and new Category II codes *3046F* through *3050F* and *3076F* through *3080F*.

Background

The Social Security Act (Section 1848(c)(4); *http://www.ssa.gov/OP_Home/ssact/title18/1848.htm*), authorizes the Centers for Medicare & Medicaid Services (CMS) to establish ancillary policies necessary to implement relative values for physicians' services. CMS issued payment files to carriers/intermediaries based upon the November 21, 2005, MPFS Final Rule.

Note: CR 4399 amends those payment files and includes new G-codes for the Low Vision Rehabilitation Demonstration Project and new Category II codes *3046F* through *3050F* and *3076F* through *3080F*.

In the October 2005 update to the Medicare Physician Fee Schedule Database (MPFSDB) the multiple procedure indicators were inadvertently changed from a "0" to a "2" for CPT codes *20931*, *20937*, and *20938*. The emergency update to the 2006 MPFSDB reinstated the multiple procedure indicators for these codes to a "0" effective January 1, 2006. Also, in the October 2005 update to the MPFSDB, the bilateral surgical indicators were inadvertently changed from "1" to "0" for *CPT* codes *63035*, *63043*, *63044*, *64480*, and *64484*. This CR reinstates the bilateral surgical indicators for these codes to a "1" effective January 1, 2006.

Your carrier will not search their files for claims paid incorrectly from October 1, 2005, through December 31, 2005, but will adjust claims brought to their attention.

In addition, your carrier will manually adjust their systems and the 2005 MPFSDB to reflect a multiple procedure indicator of a "0" for CPT codes *20931*, *20937*, and *20938* and a bilateral surgical indicator of a "1" for *CPT* codes *63035*, *63043*, *63044*, *64480*, and 64484.

CR 4399 instructs that:

- Your carrier/intermediary should reinstate the bilateral surgical indicators for codes *63035*, *63043*, *63044*, *64480*, and *64484* to a "1" effective January 1, 2006.
- For services performed on or after March 17, 2005, Medicare will not pay for carotid artery stenting (CAS) with embolic protection claims that have procedure code *37216* (Transcatheter placement of intravascular stent(s) without distal embolic protection).
- *CPT* code *43842* (Gastric restrictive procedure, without gastric bypass, for morbid obesity, vertical banded gastroplasty) is non-covered for Medicare effective for services on or after February 21, 2006.
- Your carrier/intermediary should manually update the HCPCS file to reflect a coverage indicator of "C" for category II codes *0001F* through *4018F*.
- The descriptors for Category II modifiers 1P and 2P have been modified, effective for dates of service on or after January, 1, 2006, as follows:
- 1P – Performance Measure Exclusion Modifier due to Medical Reasons
- 2P – Performance Measure Exclusion Modifier due to Patient Reasons
- Effective for dates of service on or after April 1, 2006, the Category II modifier 3P (Performance Measure Exclusion

Modifier due to System Reasons) is recognized. Those system reasons include resources to perform the services were unavailable, insurance coverage/payer-related limitations, and other reasons attributable to the health care delivery system.

Note: Your carrier/intermediary will not search their files to either retract payment for claims already paid or to retroactively pay claims. However, your carrier/intermediary will adjust claims brought to their attention.

Unless otherwise stated in CR4399, changes are retroactive to January 1, 2006.

Implementation

The implementation date for this instruction is April 3, 2006.

Additional Information

Other changes included in the April update of the MPFS are attached to CR4399.

To see that official instruction issued to your carrier/intermediary, go to *http://www.cms.hhs.gov/Transmittals/downloads/R897CP.pdf* on the CMS website.

If you have any questions, please contact your carrier/intermediary at their toll-free number, which may be found at http://www.cms.hhs.gov/apps/contacts/ on the CMS website.

Revision to the 2006 Medicare Physician Fee Schedule–Florida only

The Centers for Medicare & Medicaid Services (CMS) has released a revised Medicare physician fee schedule (MPFS) file for 2006. The Medicare claim-processing systems have been updated with the 2006 revised MPFS file. As of February 10, 2006, First Coast Service Options, Inc. (FCSO) is processing and releasing all affected claims for services provided on or after January 1, 2006, based on the revised fee schedules.

FCSO began to mass adjust previously processed claims on April 19, 2006. All adjustments are scheduled for completion by July 1, 2006. .

No Action Required by Providers at This Time

Providers do not need to take action at this time. FCSO is requesting that providers do not submit appeal or reopening requests, and to refrain from calling the customer services lines in regards to the additional payment of claims that have been affected by this issue. Since the adjustments will be performed systematically, requesting appeals, reopenings and or telephone inquiries will not expedite payments and will result in increased appeal/inquiry backlogs.

FCSO, on behalf of CMS, apologize for any inconvenience this may cause.

Source: Joint Signature Memorandum (JSM) 06280 dated February 8, 2006.

2006 Anesthesia Conversion Factors

The anesthesia conversion factors published on page 8 of the Revised 2006 Medicare Part B Physician and Nonphysician Practitioner Fee Schedule book are incorrect. The correct conversion factors are:

Connecticut

Participants	18.54
Nonparticipants	17.61

Florida

LOCALITY	PARTICIPATING PHYSICIAN	NONPARTICIPATING PHYSICIAN
01/02	18.03	17.13
03	18.82	17.88
04	19.82	18.83

Understanding the Revised 2006 Medicare Physician Fee Schedule

Although Change Request (CR) 4313 indicates that the Medicare Physician Fee Schedule (MPFS) has been revised from a –4.4 percent increase to a 0.0 percent increase for the conversion factor, other factors included in the calculation of the MPFS allowed amount may have increased or decreased. These factor changes will affect the final result of the calculation. Therefore, the MPFS allowed amounts for 2006 may have been increased or decreased as well.

To help our provider community better understand the total calculation involved, the following information is being provided.

MPFS Calculation Method

The information that follows is designed to assist you in understanding how the MPFS is calculated. For the majority of physician services, this calculation is performed by and provided to carriers by the Centers for Medicare & Medicaid Services (CMS). The elements used to calculate the fee schedule amounts are as follows:

- **Resource Based Relative Value Units (RBRVU):** This factor takes into consideration the physician work required for the service, practice expenses, and the malpractice insurance premium. RBRVUs are established at a national level and do not vary among Medicare carriers.
- **Geographic Practice Cost Index (GPCI):** This factor represents the variations in practice costs, which exist in different geographic areas. For MPFS purposes, Connecticut comprises a single geographical area (locality); Florida is comprised of three geographical areas. The GPCI is established for each RBRVU component (work, overhead, and malpractice) in each pricing locality for a given state.
- **Conversion Factor (CF):** This factor is a single number set at a national level and is used by all carriers in calculating the final fee schedule amounts. ***This is the factor that was originally –4.4 percent and was changed to 0.00 percent increase.***

For each fee schedule service, there are three RBRVUs:

- A relative value for physician work (RVUw),
- A relative value for practice expense (RVUpe),
- A relative value for malpractice (RVUm).

Note: For certain services, there are different practice expense RVUs depending on the place of service– facility or non-facility.

For each payment locality, there are three GPCIs:

- A GPCI for physician work (GPCIw),
- A GPCI for practice expense (GPCIpe), and
- A GPCI for malpractice (GPCIm).

The formula for calculating the payment allowance for a given service under the fee schedule is:

Fee Schedule Amount = [(RVUw x GPCIw) + (RVUpe x GPCIpe) + (RVUm x GPCIm)] x CF

The RBRVUs, GPCIs, and the conversion factor are published in a Final Rule in the *Federal Register*, generally on or near November 1 of each year. These calculations *do not* take into account any reductions based on fee schedule payment policies (e.g., pre- post- and intraoperative percentages, professional and technical components, multiple surgery, bilateral surgery, assistant-at-surgery, co-surgery, team surgery, or facility pricing rules). Information regarding fee schedule payment policies may be found at *http://cms.hhs.gov/physicians/mpfsapp/step0.asp*.

PATHOLOGY

Repeat Tests for Automated Multi-Channel Chemistries for End Stage Renal Disease Beneficiaries

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare carriers and/or fiscal intermediaries (FIs) for services provided to Medicare ESRD beneficiaries.

Provider Action Needed

STOP – Impact to You

This article is based on Change Request (CR) 4101 provides details regarding the payment policy for End Stage Renal Disease (ESRD)-related automated multi-channel chemistry (AMCC) tests (i.e., the ESRD 50/50 rule), and clarifies a coding issue concerning repeat tests using the current procedure terminology (CPT) modifier 91.

CAUTION – What You Need to Know

Clinical diagnostic laboratory tests ordered by an ESRD facility must follow accepted CPT guidelines. Specifically, **modifier 91 must be used on any subsequent service** being billed if 1) any single service (same CPT code) is ordered (for the same beneficiary), and 2) the specimen is collected more than once in a single day, and the service is medically necessary. Also, any line item on a claim with a modifier 91 will be included into the calculation of the 50/50 rule, and after the calculation of the 50/50 rule, services used to determine the payment amount may never exceed 22.

GO – What You Need to Do

Please see the *Background* section of this article for further details.

Background

ESRD 50/50 Rule

The Centers for Medicare & Medicaid Services (CMS) previously issued instructions to Medicare carriers regarding procedures to enforce compliance with the payment policy for End Stage Renal Disease (ESRD)-related automated multi-channel chemistry (AMCC) tests (i.e., the ESRD 50/50 rule). The ESRD 50/50 rule requires a count of AMCC tests ordered to capture:

- The number of tests included in the composite payment rate paid to the ESRD facility; or
- The monthly capitation payment made to the furnishing physician; ***Versus***
- The number of covered non-composite tests performed for the same beneficiary, on the same date of service.

The proportion of the composite payment rate tests **versus** the number of covered non-composite tests calculated by the billing laboratory is used to determine whether separate payment may be made for all tests performed on that day.

In CR 2813, CMS directed Medicare carriers to make the necessary systems changes to implement front-end edits in preparation for the standard system implementation of CR 2813 in the January 2005 release.

Note: The carrier standard system changes needed to implement the new ESRD 50/50 rule compliance guidelines were partially implemented in the October 2004 release. Intermediary billing guidelines for ESRD 50/50 rule compliance have been in effect since October 2003.

CR 2813 also directed the carriers not to post any information concerning the business requirements associated with the implementation of CR 2813 until receiving further guidance from CMS.

Business Requirements Relating to Modifier 91

In June 2005, CMS issued CR 3890, which required the implementation of the ESRD 50/50 rule for Carriers, effective January 2006. During the preparation for implementation, the provider community commented that business requirements relating to the use of modifier 91 (Repeat Clinical Diagnostic Laboratory Test) were ***inconsistent*** with Current Procedural Terminology (CPT) procedures. CMS is adjusting the business requirements for proper use of modifier 91.

A Medlearn Matters article, MM3890, is available for CR 3890 at *http://www.cms.hhs.gov/MedlearnMattersArticles/downloads/MM3890.pdf* on the CMS website.

Therefore, CR 4101 directs that clinical diagnostic laboratory tests ordered by an ESRD facility must follow accepted CPT guidelines. Specifically, **modifier 91 must be used on any subsequent service** being billed if:

- Any single service (same CPT code) is ordered (for the same beneficiary); and
- The specimen is collected more than once in a single day; and
- The service is medically necessary.

In addition, when using CPT modifier 91, it must be used without regard to whether it is a:

- Composite rate test (healthcare common procedure coding system (HCPCS) modifier CD);
- Composite rate test beyond the normal frequency (HCPCS modifier CE); or

- Non-composite rate test (HCPCS modifier CF).

Note: Any claim with a modifier 91 will be included into the calculation of the 50/50 rule, and after the calculation of the 50/50 rule, services used to determine the payment amount may never exceed 22.

Implementation

The implementation date for the instruction is April 3, 2006.

Additional Information

For complete details regarding CR 4101, please see the official instruction issued to your carrier or intermediary regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R733CP.pdf* on the CMS website.

If you have any questions, please contact your carrier or intermediary at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Medlearn Matters Number: MM4101 Related Change Request (CR) #: 4101
Related CR Release Date: October 28, 2005 Effective Date: January 1, 2006
Related CR Transmittal #: R733CP Implementation Date: April 3, 2006

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. HCPCS Subject to, and Excluded from Clinical Laboratory Improvement Amendments Edits

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers and clinical laboratories that submit claims to Medicare carriers for CLIA-related services

Key Points

The HCPCS codes that are considered laboratory tests under CLIA are subject to change each year. Effective January 1, 2006, there are new HCPCS codes, including modifiers, for 2006 that are either subject to CLIA edits or excluded from CLIA edits.

HCPCS codes subject to or excluded from CLIA edits are described in Change Request (CR) 4321 and in the attachments to that CR which revise the *Medicare Claims Processing Manual* (Publication 100-04), Chapter 16, Laboratory Services.

The new 2006 HCPCS codes are listed in Table 1, Appendix A, of this article.

Please note that this list **does not** include new HCPCS codes for waived tests or provider-performed procedures.

These HCPCS codes are subject to CLIA edits, therefore a CLIA number must be submitted on claims by facilities for these HCPCS codes. The HCPCS codes listed in the Table 1 **require a facility to have** either:

- A CLIA certificate of registration (certificate type code 9);
- A CLIA certificate of compliance (certificate type code 1); **or**
- A CLIA certificate of accreditation (certificate type code 3).

Facilities will not be permitted to bill for the tests listed in Table 1, Appendix A, of this article:

- If they **do not have** a valid, current, CLIA certificate;
- If they **have** a current CLIA certificate of waiver (certificate type code 2); or
- If they **have** a current CLIA certificate for provider-performed microscopy procedures (certificate type code 4).

Effective January 19, 1993, a laboratory that holds a certificate for provider-performed microscopy procedures may perform only those tests specified as provider-performed microscopy procedures and waived tests, and no others. The provider-performed microscopy procedures are described in Table 2, Appendix A of this article.

The following new HCPCS codes for 2006 in the 80000 series are excluded from CLIA edits and **do not require** a facility to have any CLIA certificate:

- *86923* - Compatibility test each unit; electronic;
- *86960* - Volume reduction of blood or blood products (e.g., red blood cells or platelets), each unit; and
- *87900* - Infectious agent drug susceptibility phenotype prediction using regularly updated genotypic bioinformatics.

Relevant Links

For a complete list of the specific HCPCS codes subject to CLIA edits please refer to *http://www.cms.hhs.gov/CLIA/downloads/Subject.to.CLIA.pdf* on the Centers for Medicare & Medicaid Services (CMS) website.

For a complete list of the specific HCPCS codes in the 80000 series that are excluded from CLIA edits please refer to *http://www.cms.hhs.gov/CLIA/downloads/cpt4exc.pdf* on the CMS website.

CR 4321 is the official instruction issued to your carrier regarding changes mentioned in this article, MM4321. CR 4321 may be found by going to *http://www.cms.hhs.gov/Transmittals/downloads/R865CP.pdf* on the CMS website.

Please refer to your local carrier if you have questions about this issue. To find the toll free phone number, go to *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

Appendix A

The HCPCS codes listed in the chart below are new for 2006 and are subject to CLIA edits. The list does not include new HCPCS codes for waived tests or provider-performed procedures. Effective January 1, 2006, the HCPCS codes listed below require a facility to have either a CLIA certificate of registration (certificate type code 9), a CLIA certificate of compliance (certificate type code 1), or a CLIA certificate of accreditation (certificate type code 3).

Table 1: 2006 HCPCS Codes Subject to CLIA Edits

Code/Modifier	Description
0103T	*Holotranscobalamin, quantitative*
0111T	*Long-chain (C20 – 22) omega-3 fatty acids in red blood cell (RBC) membranes*
80195	*Sirolimus*
82271	*Blood, occult, by peroxidase activity (e.g., guaiac), qualitative; other sources*
83631	*Lactoferrin, fecal; quantitative*
83695	*Lipoprotein (a)*
83700	*Lipoprotein, blood; electrophoretic separation and quantitation*
83701	*Lipoprotein, blood; high resolution fractionation and quantitation of lipoproteins including lipoprotein subclasses when performed (e.g., electrophoresis, ultracentrifugation)*
83704	*Lipoprotein, blood; quantitation of lipoprotein particle numbers and lipoprotein particle subclasses (e.g., by nuclear magnetic resonance spectroscopy)*
83900	*Molecular diagnostics; amplification of patient nucleic acid, multiplex, first two nucleic acid sequences*
83907	*Molecular diagnostics; lysis of cells prior to nucleic acid extraction (e.g., stool specimens, paraffin embedded tissue)*
83908	*Molecular diagnostics; signal amplification of patient nucleic acid, each nucleic acid sequence*
83909	*Molecular diagnostics; separation and indentification by high resolution technique (e.g., capillary electrophoresis)*
83914	*Mutation identification by enzymatic ligation or primer extension, single segment, each segment (eg, oligonucleotide ligation assay (OLA), single base chain extension (SBCE), or allele-specific primer extension (ASPE))*
86200	*Cyclic citrullinated peptide (CCP), antibody*
86355	*B cells, total count*
86357	*Natural killer (NK) cells, total count*
86367	*Stem cells (i.e., CD34), total count*
86480	*Tuberculosis test, cell mediated immunity measurement of gamma interferon antigen response*
87209	*Smear, primary source with interpretation; complex special stain (e.g., trichrome, iron hemotoxylin) for ova and parasites*
88333	*Pathology consultation during surgery; cytologic examination (eg, touch prep, squash prep), initial site*
88333 TC	*Pathology consultation during surgery; cytologic examination (e.g., touch prep, squash prep), initial site*
88333 26	*Pathology consultation during surgery; cytologic examination (e.g., touch prep, squash prep), initial site*
88334	*Pathology consultation during surgery; cytologic examination (eg, touch prep, squash prep), each additional site*
88334 TC	*Pathology consultation during surgery; cytologic examination (e.g., touch prep, squash prep), each additional site*
88334 26	*Pathology consultation during surgery; cytologic examination (e.g., touch prep, squash prep), each additional site*
88384	*Array-based evaluation of multiple molecular probes; 11 through 50 probes*
88384 TC	*Array-based evaluation of multiple molecular probes; 11 through 50 probes*
88384 26	*Array-based evaluation of multiple molecular probes; 11 through 50 probes*
88385	*Array-based evaluation of multiple molecular probes; 51 through 250 probes*
88385 TC	*Array-based evaluation of multiple molecular probes; 51 through 250 probes*
88385 26	*Array-based evaluation of multiple molecular probes; 51 through 250 probes*
88386	*Array-based evaluation of multiple molecular probes; 251 through 500 probes*
88386 TC	*Array-based evaluation of multiple molecular probes; 251 through 500 probes*
88386 26	*Array-based evaluation of multiple molecular probes; 251 through 500 probes*
89049	*Caffeine halothane contracture test (CHCT) for malignant hyperthermia susceptibility, including interpretation and report*

Effective January 19, 1993, a laboratory that holds a certificate for provider-performed microscopy procedures may perform only waived tests and those tests specified as provider-performed microscopy procedures in the following table, and no others.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

Table 2: Provider-Performed Microscopy Procedures

Code	Description
Q0111	Wet mounts, including preparations of vaginal, cervical, or skin specimens
Q0112	All potassium hydroxide (KOH) preparations
Q0113	Pinworm examinations
Q0114	Fern test
Q0115	Post-coital direct, qualitative examinations of vaginal or cervical mucous
81015	*Urinalysis; microscopic only*
81000	*Urinalysis, by dipstick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, pH, protein, specific gravity, urobilinogen, any number of these constituents; non-automated, with microscopy*
81001	*Urinalysis, by dipstick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, pH, protein, specific gravity, urobilinogen, any number of these constituents; automated, with microscopy* (**NOTE**: May only be used when the lab is using an automated dipstick urinalysis instrument approved as waived.)
81020	*Urinalysis; two or three glass test*
89055	*Fecal leukocyte examination*
89190	*Nasal smears for eosinophils*
G0027	Semen analysis; presence and/or motility of sperm excluding Huhner

Changes to the Laboratory National Coverage Determination Edit Software for April 2006

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare carriers and/or fiscal intermediaries (FIs) for clinical diagnostic laboratory services.

Provider Action Needed

STOP – Impact to You

This article is based on Change Request (CR) 4328, which announces the implementation of changes to the list of codes associated with the 23 negotiated laboratory NCDs, and the update of the laboratory edit module for changes in the laboratory NCD code lists for April 2006.

CAUTION – What You Need to Know

The changes to the list of codes are a result of coding analysis decisions developed under the procedures for maintenance of codes in the negotiated NCDs. Several of the listed changes correct codes to reflect the recent Current Procedural Terminology (CPT) update and are necessary so that the laboratory edit module will appropriately process claims using the most current negotiated laboratory NCDs and code lists.

GO – What You Need to Do

See the *Background* section of this article for further details regarding these changes.

Background

In accordance with the Balanced Budget Act of 1997 (Section 4554), the Centers for Medicare & Medicaid Services (CMS) entered into negotiated rulemaking proceedings to develop national coverage determinations (NCDs) for clinical diagnostic laboratory services. Under the negotiations, CMS developed 23 laboratory NCDs, and these NCDs are different than most other Medicare NCDs in that they include lists of ICD-9-CM codes. All codes are included on one of the following lists:

- Covered codes;
- Not covered codes; and
- Codes that do not support medical necessity.

The NCDs were published under the Administrative Procedures Act in the Federal Register of November 23, 2001 (*http://www.access.gpo.gov/su_docs/fedreg/a011123c.html*), and the list of 23 laboratory NCDs is included in the *Additional Information* section of this article. In addition, the CMS website for laboratory NCDs can be found at *http://www.cms.hhs.gov/CoverageGenInfo/05_LabNCDs.asp* on the CMS website.

Nationally uniform software was developed by Computer Sciences Corporation (CSC) and incorporated in the shared systems so that laboratory claims subject to one of the 23 NCDs are processed uniformly throughout the nation effective January 1, 2003. The laboratory edit module for the NCDs is updated quarterly as necessary to reflect ministerial coding updates and substantive changes to the NCDs developed through the NCD process.

(See the *Medicare Claims Processing Manual* (Publication 100-4, Chapter 16, Section 120.2, at *http://www.cms.hhs.gov/Manuals/IOM/list.asp#TopOfPage* on the CMS web site.)

CMS updates the NCD code list quarterly as necessary to incorporate new codes, correct ministerial errors, incorporate the results of Coding Analysis published elsewhere on this site, and incorporate reconsideration of the NCDs that alter covered indications. The quarterly updates are published in the NCD Coding Policy Manual, and you can download the current and previous coding manuals from this site. Alternatively, you can access individual NCDs from the lab index included on the following CMS website: *http://www.cms.hhs.gov/mcd/index_section.asp?ncd_sections=40*

Change Request (CR) 4238 announces the changes that will be included in the April 2006 release of the edit module for clinical diagnostic laboratory services.

The changes are a result of coding analysis decisions developed under the procedures for maintenance of codes in the negotiated NCDs. Several of the listed changes correct codes to reflect the current CPT update. CR 4238 communicates requirements to the laboratory edit module to update it for the following changes in laboratory NCD code lists for April 2006:

Blood Count NCD

Add the following ICD-9-CM code to the list of **codes that do not support medical necessity** for the Blood Count NCD:

Add ICD-9-CM Code Descriptor
V76.51 Special screening for malignant neoplasms, colon

ICD-9-CM Codes Never Covered by Medicare

Delete the following ICD-9-CM code from the list of ICD-9-CM **codes never covered** by Medicare:

Delete ICD-9-CM Code Descriptor
V76.51 Special screening for malignant neoplasms, colon

Fecal Occult Blood Test NCD

Add the following new CPT code to the list of HCPCS/CPT codes covered by Medicare for Fecal Occult Blood Test NCD:

Add CPT Codes Descriptor
82272 Blood occult peroxidase

Delete the following CPT code from the HCPCS/CPT code list for Fecal Occult Blood Test NCD:

Delete CPT Code Descriptor
82270 Fecal occult blood

Hepatitis Panel/Acute Hepatitis Panel NCD

Add the following ICD-9-CM code to the list of ICD-9-CM codes covered by Medicare for Hepatitis Panel/Acute Hepatitis Panel NCD:

Add ICD-9-CM Code Descriptor
790.4 Nonspecific Elevation of Levels of Transaminase or Lactic Acid Dehydrogenase

Lipids Testing NCD

Add the following new CPT codes to the list of HCPCS/CPT codes covered by Medicare for Lipids Testing NCD:

Add CPT Codes Descriptor
83700 Lipoprotein bld, electrophoretic
83701 Lipoprotein bld, hr fraction

Delete the following CPT codes from the HCPCS/CPT code list for Lipids Testing NCD:

Delete CPT Codes Descriptor
83715 Lipoprotein, blood: electrophoretic separation and quantitation
83716 High resolution fractionation and quantitation of lipoprotein cholesterols

Urine Culture, Bacterial NCD

Delete Coding Guideline 1 in the Urine Culture, Bacterial NCD, and renumber the remaining Coding Guidelines.

Note: Changes included in the April 2006 release of the edit module for clinical diagnostic laboratory services become effective for services furnished on or after April 1, 2006.

Implementation

The implementation date for the instruction is April 3, 2006.

Additional Information

For complete details, please see the official instruction issued to your carrier/intermediary regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R864CP.pdf* on the CMS web site.

If you have any questions, please contact your carrier/intermediary at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The following table includes the list of all twenty-three (23) Laboratory National Coverage Determinations, and each NCD can be reviewed at *http://www.cms.hhs.gov/mcd/index_section.asp?ncd_sections=40* on the CMS website.

Laboratory National Coverage Determination (NCD)

Alpha-fetoprotein (AFP) (190.25)
Blood Counts (190.15)
Blood Glucose Testing (190.20)
Carcinoembryonic Antigen (CEA) (190.26)
Collagen Crosslinks, any Method (190.19)
Digoxin Therapeutic Drug Assay (190.24)
Fecal Occult Blood Test (FOBT) (190.34)
Gamma Glutamyl Transferase (GGT) (190.32)
Glycated Hemoglobin/Glycated Protein (190.21)
Hepatitis Panel/Acute Hepatitis Panel (190.33)
Human Chorionic Gonadotropin (hCG) (190.27)
Human Immunodeficiency Virus (HIV) Testing (Diagnosis) (190.14)
Human Immunodeficiency Virus (HIV) Testing (Prognosis Including Monitoring) (190.13)
Lipid Testing (190.23)
Partial Thromboplastin Time (PTT) (190.16)
Prostate Specific Antigen (PSA) (190.31)
Prothrombin Time (PT) (190.17)
Serum Iron Studies (190.18)
Thyroid Testing (190.22)
Tumor Antigen by Immunoassay - CA 125 (190.28)
Tumor Antigen by Immunoassay - CA 15-3/CA 27.29 (190.29)
Tumor Antigen by Immunoassay - CA 19-9 (190.30)
Urine Culture, Bacterial (190.12)

PREVENTIVE SERVICES

Colorectal Cancer: Preventable, Treatable, and Beatable: Medicare Coverage and Billing for Colorectal Cancer Screening

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, nurse practitioners, physician assistants, clinical nurse specialists, outpatient hospital departments, community surgical centers

Provider Action Needed

STOP – Impact to You

March is National Colorectal Cancer Awareness Month. The Centers for Medicare & Medicaid Services (CMS) would like to remind providers to encourage their eligible Medicare patients ages 50 and older to get screened for colorectal cancer. This MLN Matters Special Edition issue reviews Medicare coverage and billing processes for colorectal cancer screening.

CAUTION – What You Need to Know

Medicare has covered colorectal cancer screening since 1998, but the benefit is underused. Claims data from 1998-2002 indicate that less than half of Medicare beneficiaries had any screening test during this five-year period, and less than one-third were tested according to recommended intervals.

GO – What You Need to Do

Encourage your patients to be screened, appropriately bill Medicare for the screening test you provide, and follow up with patients, as needed.

Background

Colorectal cancer is the second leading cause of cancer death in the United States and the third most common type of cancer. In 2005, colorectal cancer was expected to account for 56,290 deaths and 145,290 new cases. Colorectal cancer primarily affects men and women ages 50 and older, and risk increases with age. If detected early, colorectal cancer can be treated and cured.

In January 1998, Medicare began covering colorectal cancer screening. The data currently available (1998 - 2002) indicates that the colorectal cancer screening benefit is underused. Less than half of enrollees had any colorectal cancer test during the five-year period and less than one-third were tested according to recommended intervals.

The U.S. Preventive Services Task Force (USPSTF) evaluates the clinical merits of preventive measures, and strongly recommends ("A" rating) that clinicians screen men and women ages 50 and older for colorectal cancer. The choice of screening strategy should be based on patient preferences, medical contraindications, patient adherence, and resources for testing and follow-up. To read the full recommendation, go to the following link: *http://www.ahrq.gov/clinic/uspstf/uspscolo.htm.*

The Partnership for Prevention conducted a systematic assessment of the clinical preventive services recommended by the USPSTF to help decision-makers identify those services that provide the most value based on two criteria—burden of disease prevented and cost-effectiveness. Screening adults for colorectal cancer screening was among the services considered to be of the greatest value.

Colorectal Cancer Screening Methods

There are a variety of methods available for colorectal cancer screening, including fecal occult blood testing, flexible sigmoidoscopy, colonoscopy, and screening barium enema. It is important that practitioners follow the practice guidelines for screening and follow-up.

Two studies published in January 2005 in the *Annals of Internal Medicine* suggest that the office-based single sample screening fecal occult blood test is of limited value, and that many physicians are not following practice guidelines for screening and follow-up. Click on the following link for information on colorectal cancer detection and American Cancer Society screening recommendations and guidelines: *http://www.cancer.org/docroot/CRI/content/CRI_2_6X_Colorectal_Cancer_Early_Detection_10.asp?sitearea=&level.*

Coverage

Medicare covers the following colorectal cancer screening tests and procedures:

Fecal Occult Blood Test (FOBT)

Medicare covers one FOBT annually for beneficiaries 50 and older. A written order from the beneficiary's attending physician is required. Medicare will pay for an immunoassay-based FOBT as an alternative to the guaiac-based FOBT, but will only pay for one FOBT, not both, per year.

Beneficiaries do not have to pay coinsurance for the FOBT, and don't have to meet the annual Medicare Part B deductible.

Screening Flexible Sigmoidoscopy

Medicare covers a screening flexible sigmoidoscopy once every four years for beneficiaries 50 and older. If a beneficiary had a screening colonoscopy in the previous 10 years, then the next screening flexible sigmoidoscopy would be covered only after 119 months have passed following the month in which the last screening colonoscopy was performed. A doctor of medicine or osteopathy, a physician assistant, a nurse practitioner, or a clinical nurse specialist may perform a screening flexible sigmoidoscopy.

Screening Colonoscopy

Medicare coverage for a screening colonoscopy is based on beneficiary risk.

- For beneficiaries 50 and older not considered to be at high risk for developing colorectal cancer, Medicare covers one screening colonoscopy every 10 years, but not within 47 months of a previous screening flexible sigmoidoscopy.
- For beneficiaries considered to be at high risk for developing colorectal cancer, Medicare covers one screening colonoscopy every two years, regardless of age.

A screening colonoscopy must be ordered and provided by a doctor of medicine or osteopathy.

Screening Barium Enema

Medicare covers a screening barium enema as an alternative to a screening flexible sigmoidoscopy or a screening colonoscopy.

- For beneficiaries 50 and older not considered to be at high risk for developing colorectal cancer, Medicare covers one screening barium enema every four years.
- For beneficiaries considered to be at high risk for developing colorectal cancer, Medicare covers one screening barium enema every two years regardless of age.

A screening barium enema must be ordered in writing and provided by a doctor of medicine or osteopathy once it is determined that it is the appropriate screening method for a beneficiary. A double contrast barium enema is preferable, but the physician may order a single contrast barium enema if it is more appropriate for the beneficiary.

The beneficiary is liable for paying 20% of the Medicare-approved amount (the coinsurance) for screening flexible sigmoidoscopy, screening colonoscopy, and screening barium enema after meeting the annual Medicare Part B deductible.

For a screening flexible sigmoidoscopy or a screening colonoscopy performed in a hospital outpatient department, the beneficiary is liable for paying the Medicare-approved amount (the coinsurance) after meeting the annual Medicare Part B deductible.

Beneficiaries are considered to be at high risk for colorectal cancer if they have any of the following:

- A close relative (sibling, parent, or child) who has had colorectal cancer or an adenomatous polyp;
- A family history of adenomatous polyposis;
- A family history of hereditary nonpolyposis colorectal cancer;
- A personal history of adenomatous polyps;
- A personal history of colorectal cancer;
- A personal history of inflammatory bowel disease, including Crohn's Disease and ulcerative colitis.

How to Bill Medicare

The following Healthcare Common Procedure Coding System (HCPCS) codes should be used to bill for colorectal cancer screening:

HCPCS Code

HCPCS Code	Descriptor
G0104	Colon cancer screening; flexible sigmoidoscopy
G0105*	Colon cancer screening; colonoscopy on individual at high risk
G0106	Colon cancer screening; barium enema as an alternative to G0104
G0107	Colon cancer screening; FOBT, 1-3 simultaneous determinations
G0120	Colon cancer screening; barium enema as an alternative to G0105
G0121	Colon cancer screening; colonoscopy for individuals not meeting criteria for high risk

G0122** Colon cancer screening; barium enema (non-covered)
G0328 Colon cancer screening; as an alternative to G0107; fecal occult blood test, immunoassay, 1-3 simultaneous determinations

* When billing for the "high risk" beneficiary, the screening diagnosis code on the claim must reflect at least one of the high risk conditions mentioned previously. Examples of diagnostic codes are in the colorectal cancer screening chapter (page 81) of the Guide to Preventive Services. This guide is available at *http://www.cms.hhs.gov/MLNProducts/downloads/PSGUID.pdf* on the CMS website.

Code G0122 should be used when a screening barium enema is performed **not as an alternative to either to G0104 or G0105. This service is denied as non-covered because it fails to meet the requirements of the benefit. **The beneficiary is liable for payment.** Reporting of this noncovered code will also allow claims to be billed and denied for beneficiaries who need a Medicare denial for other insurance purposes.

If billing Medicare carriers, the appropriate HCPCS and corresponding diagnosis codes must be provided on Form CMS-1500 (or the HIPAA 837 Professional electronic claim record).

If billing Medicare intermediaries, the appropriate HCPCS, revenue, and corresponding diagnosis codes must be provided on Form CMS-1450 (or the HIPAA Institutional electronic claim record). Information on the type of bill and associated revenue code is also provided in the colorectal cancer-screening chapter (page 82) of the Guide to Preventive Services. This guide is available at: *http://www.cms.hhs.gov/MLNProducts/downloads/PSGUID.pdf* on the CMS website. Reimbursement information is also provided in this guide.

Other Helpful Information

CMS has developed a comprehensive prevention website that provides information and resources for all Medicare preventive benefits. The following link is to the colorectal cancer screening section, and includes website links to information and resources developed by other organizations interested in promoting colorectal cancer screening, including the National Cancer Institute, the Centers for Disease Control and Prevention, and the American Cancer Society: *http://www.cms.hhs.gov/ColorectalCancerScreening/*.

Also, visit the Medicare Learning Network (MLN) website at *http://www.cms.hhs.gov/MLN/* to access the *Guide to Medicare Preventive Services for Physicians, Providers, Suppliers, and Other Health Care Professionals* as well as other educational resources designed for health care professionals to promote and increase national awareness of Medicare-covered preventive services. Once on the MLN site, scroll to the bottom of the page and click on Products, then click on Preventive Services.

RADIOLOGY

Billing Requirements for Positron Emission Tomography Scans for Dementia and Neurodegenerative Diseases

CMS has issued the following "MLN Matters... Information for Medicare Providers" article.
This information was previously published in the Third Quarter 2005 Medicare B Update! pages 82-83.

IMPORTANT NOTE: This article has been revised to include web addresses consistent with the new CMS website. Previously, this article was revised on April 22, 2005, to show that Change Request (CR) 3426 was revised by CR 3640 (Transmittal 428, dated January 14, 2005). CR 3640 revised billing requirements in CR 3426 for PET Scans for Alzheimer's Disease (AD) by 1) removing the edit for one scan per beneficiary's lifetime for PET AD Scans, and 2) adding requirements for specifying ICD-9 diagnosis coding. In addition, Section 60.1 of the *Medicare Claims Processing Manual* (Publication 100-04) was updated to include specific payment information for claims for all PET Scans for services submitted by Critical Access Hospitals (CAHs). To see CR 3640, go to *http://www.cms.hhs.gov/Transmittals/downloads/R428CP.pdf* on the CMS website. Also, the MLN Matters article related to CR 3640 is located at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM3640.pdf* on the CMS website.

Provider Types Affected

Physicians and providers

Provider Action Needed

This instruction notifies physicians and providers that Medicare will provide coverage for 2-deoxy-2- [F-18] fluoro-D-glucose (FDG)-PET scans for beneficiaries with a recent diagnosis of dementia and documented cognitive decline of at least 6 months duration. This service may be covered:

- When the patient meets diagnostic criteria for both fronto-temporal dementia (FTD) and Alzheimer's disease (AD) under specific requirements; **or**
- For use in a Centers for Medicare & Medicaid Services (CMS)-approved practical clinical trial focused on the utility of FDG-PET in the diagnosis or treatment of dementing neurodegenerative diseases.

Background

Effective for dates of service on or after September 15, 2004, Medicare will provide coverage for FDG Positron Emission Tomography PET for one of the following:

- When the patient meets diagnostic criteria for both fronto-temporal dementia (FTD) and Alzheimer's disease; **or**
- When used in a CMS-approved practical neurodegenerative disease clinical trial.

Clinical trial results are expected to help in determining if PET scans contribute to the effective diagnosis and treatment of Medicare beneficiaries with mild cognitive impairment or early dementia, and add information that will help monitor, evaluate, and improve clinical outcomes of patients with this disease.

Refer to the *Medicare Claims Processing Manual*, Publication 100-04, Chapter 13, Section 60, for general Medicare coverage and billing requirements for PET scans for dementia and neurodegenerative diseases.

Also, refer to the *Medicare National Coverage Determinations* (NCD) *Manual*, Publication 100-03, Section 220.6 for complete coverage policy and clinical trial requirements. The revision to the *NCD Manual*, Section 220.6 is an NCD. NCDs are binding on all carriers, fiscal intermediaries, quality improvement organizations, health maintenance organizations, competitive medical plans, and health care prepayment plans.

Under 42 Code of Federal Regulations (CFR) 422.256(b), an NCD that expands coverage is also binding on Medicare Advantage Organizations. In addition, an administrative law judge may not review an NCD. (See §1869(f)(1)(A)(i) of the Social Security Act.)

Key portions of these revised manuals are as follows:

FDG-PET Requirements for Use in the Differential Diagnosis of AD and FTD

According to the NCD on this issue, Medicare covers FDG-PET scans for either a) the differential diagnosis of both FTD and Alzheimer's disease AD under specific requirements **or,** b) its use in a CMS-approved practical clinical trial focused on the utility of FDG-PET in the diagnosis or treatment of dementing neurodegenerative diseases.

For use in the differential diagnosis of FTD and AD, an FDG-PET scan is considered reasonable and necessary for patients with a recent diagnosis of dementia and documented cognitive decline of at least 6 months, who meet diagnostic criteria for both AD and FTD. These patients have been evaluated for specific alternative neurodegenerative diseases or causative factors, but the cause of the clinical symptoms remains uncertain.

The following additional conditions must be met before an FDG-PET scan can be ordered:

- The patient's onset, clinical presentation, or course of cognitive impairment is such that FTD is suspected as an alternative neurodegenerative cause of the cognitive decline. Specifically, symptoms such as social disinhibition, awkwardness, difficulties with language, or loss of executive function are more prominent early in the course of FTD than the memory loss typical of AD;
- The patient has had a comprehensive clinical evaluation (as defined by the American Academy of Neurology (AAN)) encompassing a medical history from the patient and a well-acquainted informant (including assessment of activities of daily living), physical and mental status examination (including formal documentation of cognitive decline occurring over at least 6 months) aided by cognitive scales or neuropsychological testing, laboratory tests, and structural imaging such as magnetic resonance imaging (MRI) or computed tomography (CT);
- The evaluation of the patient has been conducted by a physician experienced in the diagnosis and assessment of dementia;
- The evaluation of the patient did not clearly determine a specific neurodegenerative disease or other cause for the clinical symptoms, and information available through FDG-PET is reasonably expected to help clarify the diagnosis between FTD and AD and help guide future treatment;
- The FDG-PET scan is performed in a facility that has all the accreditation necessary to operate nuclear medicine equipment. The reading of the scan should be done by an expert in nuclear medicine, radiology, neurology, or psychiatry, with experience interpreting such scans in the presence of dementia;
- A brain single photon emission computed tomography (SPECT) or FDG-PET scan has not been obtained for the same indication. The indication can be considered to be different in patients who exhibit important changes in scope or severity of cognitive decline, and meet all other qualifying criteria listed above and below (including the judgment that the likely diagnosis remains uncertain).
- The results of a prior SPECT or FDG-PET scan must have been inconclusive or, in the case of SPECT, difficult to interpret due to immature or inadequate technology. In these instances, an FDG-PET scan may be covered after 1 year has passed from the time the first SPECT or FDG-PET scan was performed.
- The referring and billing provider(s) have documented the appropriate evaluation of the Medicare beneficiary. Providers should establish the medical necessity of an FDG-PET scan by ensuring that the following information has been collected and is maintained in the beneficiary medical record:
- Date of onset of symptoms;
- Diagnosis of clinical syndrome (normal aging; mild cognitive impairment or MCI; mild, moderate or severe dementia);
- Mini mental status exam (MMSE) or similar test score;
- Presumptive cause (possible, probable, uncertain AD);
- Any neuropsychological testing performed;
- Results of any structural imaging (MRI or CT) performed;
- Relevant laboratory tests (B12, thyroid hormone); and
- Number and name of prescribed medications.
- The billing provider must furnish a copy of the FDG-PET scan result for use by CMS and its contractors upon request.
- These services should be billed with HCPCS code of G0336 (Pet imaging, brain imaging for the differential diagnosis of Alzheimer's disease with aberrant features vs. FTD).

FDG-PET Requirements for Use in the Context of a CMS-Approved Neurodegenerative Disease Practical Clinical Trial Utilizing Specific Protocol

With regard to use of the FDG-PET in the context of a CMS-approved clinical trial, the clinical trial must compare patients who do and those who do not receive an FDG-PET scan and have as its goal to monitor, evaluate, and improve clinical outcomes. In addition, it must meet the following basic criteria:

- Written protocol on file;
- Institutional Review Board review and approval;
- Scientific review and approval by two or more qualified individuals who are not part of the research team; and
- Certification that investigators have not been disqualified.

Physicians should note that a **QV** modifier must be used when billing Medicare carriers for a CMS-approved neurodegenerative disease practical clinical trial. In addition, on such claims from trials that are billed to Medicare intermediaries, a second diagnosis code **(ICD-9) of V70, 7,** along with the appropriate principal diagnosis code and **HCPCS code G0336** must be entered on the CMS-1450 or its electronic equivalent. There will be a link on the *http://www.cms.hhs.gov/center/coverage.asp* website that will have a list of all the participating trial facilities once they have been selected.

Implementation

The implementation date for this instruction is October 4, 2004.

Additional Information

As previously mentioned, the *Medicare Claims Processing Manual* (Publication 100-04), Chapter 13 (Radiology Services), Section 60 (Positron Emission Tomography (PET) Scans), is being updated by this instruction. It includes billing and claims processing requirements for PET Scans for beneficiaries with a recent diagnosis of dementia and documented cognitive decline of at least six months duration who meet diagnostic criteria for both FTD and AD, or its use in a CMS-approved practical clinical trial focused on the utility of FDG-PET in the diagnosis or treatment of dementing neurodegenerative diseases.

In addition, the *Medicare NCD Manual* (Publications 100-03), Chapter 1 (Coverage Determinations) Section 220 (Radiology), Subsection 6 (Positron Emission Tomography (PET)) Scans, is being updated by this instruction to include complete coverage policy and requirements for related clinical trials.

These updated manual instructions are included in the official instruction issued to your carrier/intermediary, which can be found by going to *http://www.cms.hhs.gov/Transmittals/downloads/R310CP.pdf* on the CMS website.

If you have questions, please contact your intermediary at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

MLN Matters Number: MM3426 *Revised* Related Change Request (CR) #: 3426
Related CR Release Date: October 1, 2004 Effective Date: September 15, 2004
Related CR Transmittal #:24 Implementation Date: October 4, 2004

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. SURGERY

Coverage and Billing for Ultrasound Stimulation for Nonunion Fracture Healing

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, and providers billing Medicare fiscal intermediaries (FIs), including regional home health intermediaries (RHHIs) for ultrasound stimulation for nonunion fracture healing.

Provider Action Needed

STOP – Impact to You

This article is based on Change Request (CR) 4085, which supplements CR 3836 - Coverage and Billing Requirements for Ultrasound Stimulation for Nonunion Fracture Healing.

CAUTION – What You Need to Know

Effective for services performed on or after April 27, 2005, ultrasonic osteogenic stimulators are covered as medically reasonable and necessary for the treatment of nonunion bone fractures prior to surgery. Please note that there have been changes made to CR 3836 business requirements.

These changes are discussed in the *Additional Information* section of this article.

All other material and information remain the same as in the original CR 3836.

GO – What You Need to Do

See the *Background* section of this article for further details regarding this change.

Background

The Centers for Medicare & Medicaid Services (CMS) determined that evidence is adequate to conclude that it is reasonable and necessary to use non-invasive ultrasound stimulation for the treatment of nonunion bone fractures prior to surgical intervention.

Therefore, effective for services performed on or after April 27, 2005, ultrasonic osteogenic stimulators are covered as medically reasonable and necessary for the treatment of nonunion bone fractures prior to surgery.

Coverage and Billing for Ultrasound Stimulation for Nonunion Fracture Healing

An ultrasonic osteogenic stimulator is a non-invasive device that emits low intensity, pulsed ultrasound. This device is applied to the surface of the skin at the fracture site and ultrasound waves are emitted via a conductive coupling gel to stimulate fracture healing.

Ultrasonic osteogenic stimulators are not to be used concurrently with other non-invasive osteogenic devices.

Coverage Requirements

Effective for dates of service on and after April 27, 2005, ultrasonic osteogenic stimulators are covered as medically reasonable and necessary for the treatment of nonunion bone fractures prior to surgical intervention. In demonstrating nonunion fractures, CMS expects a minimum of **two** sets of radiographs, obtained prior to starting treatment with the osteogenic stimulator, separated by a minimum of 90 days.

Each radiograph set must include multiple views of the fracture site, accompanied with a written interpretation by a physician stating that there has been no clinically significant evidence of fracture healing between the two sets of radiographs.

For further coverage information, please refer to the Medicare *National Coverage Determinations Manual* (Pub.100-03), Chapter 1, Section 150.2, which can be found at *http://www.cms.hhs.gov/manuals/downloads/ncd103c1_Part2.pdf* on the CMS website.

Note: Hospitals should note that there are no covered services for ultrasonic osteogenic stimulation for which hospitals can be paid by the FI. Thus, hospitals cannot bill for ultrasonic osteogenic stimulators.

Bill Types When Billing RHHIs

When billed to RHHIs, ultrasonic osteogenic stimulators must be billed on type of bill 32X, 33X, 34X, and is payable under the durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) fee schedule.

Note: Ultrasonic osteogenic stimulators must be in the patient's home health plan of care if billed on TOBs 32X or 33X.

Billing Instructions When Billing Medicare Carriers

Effective for dates of service on or after April 27, 2005, carriers will allow payment for ultrasonic osteogenic stimulators with the following current procedural terminology (CPT) code:

- ***20979*** - Low intensity ultrasound stimulation to aid bone healing, noninvasive (nonoperative).

Billing Instructions for Durable Medical Equipment Regional Carriers (DMERCs) and Regional Home Health Intermediaries (RHHIs)

Effective for dates of service on or after April 27, 2005:

- DMERCs and RHHIs will allow payment for ultrasonic osteogenic stimulators with the following HCPCS codes:
- **E0760** for low-intensity ultrasound (include modifier "KF"); or
- **E1399** for other ultrasound stimulation (include modifier "KF").
- RHHIs will:
- Pay for ultrasonic osteogenic stimulators only when services are submitted on type of bills (TOBs) 32X, 33X, or 34X;
- Pay HHAs on TOBs 32X, 33X, and 34X for ultrasonic osteogenic stimulators on the DMEPOS fee schedule.

Note: Medicare carriers, FIs, and RHHIs will adjust claims with dates of service on and after April 27, 2005, if brought to their attention.

Implementation

The implementation date for the instruction is April 3, 2006.

Additional Information

Some of the differences between CR 3836 and the new CR 4085 include the following:

- A modifier is not needed when billing code *20979* to a carrier as a result of CR 4085.
- Modifier "KF" is now to be used when billing code E0760 or code E1399 to a DMERC or RHHI.

For complete details, please see the official instruction issued to your carrier/DMERC/FI/RHHI regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R816CP.pdf* on the CMS website.

If you have any questions, please contact your carrier/DMERC/FI/RHHI at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

THERAPY SERVICES

Therapy Caps Exception Process

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers, physicians, and nonphysician practitioners (NPPs) who bill Medicare contractors (fiscal intermediaries (FIs) including regional home health intermediaries (RHHIs), and carriers) under the Part B benefit for therapy services

Key Points

- Effective January 1, 2006, a financial limitation (therapy cap) was placed on outpatient rehabilitation services received by Medicare beneficiaries. These limits apply to outpatient Part B therapy services from all settings except the outpatient hospital (place of service code 22 on carrier claims) and the hospital emergency room (place of service code 23 on carrier claims).

Outpatient rehabilitation services include:

- **Physical therapy –** including outpatient speech-language pathology: Combined annual limit for 2006 is $1,740; and
- **Occupational therapy –** annual limit for 2006 is $1,740.

- In 2006 Congress passed the Deficit Reduction Act (DRA), which allows the Centers for Medicare & Medicaid Services (CMS) to grant, at the request of the individual enrolled under the Part B benefit or a person acting on behalf of that individual, **exceptions to therapy caps for services provided during calendar year 2006**, if these services meet certain qualifications as medically necessary services (Section 1833(g)(5) of the Social Security Act).
- The exception process may be accomplished automatically for certain services, and by request for exception, with the accompanied submission of supporting documentation, for certain other services.
- Medicare beneficiaries will be automatically excepted from the therapy cap and will not be required to submit requests for exception or supporting documentation if those beneficiaries:
  - Meet specific conditions and complexities listed in the *Medicare Claims Processing Manual*, Pub. 100-04, Chapter 5, (as revised by CR 4364) for exception from the therapy cap; or
  - Meet specific criteria for exception, in addition to those listed in the *Medicare Claims Processing Manual*, Pub. 100-4, Chapter 5, where the Medicare contractor has published additional exceptions, when the contractor believes, based on the strongest evidence available, that the beneficiary will require additional therapy visits beyond those payable under the therapy cap.
    - Medicare beneficiaries may be manually excepted from the therapy cap if their providers believe that the beneficiaries will require more therapy visits than those payable under the therapy cap, but the patients do not meet at least one of the above bulleted criteria for automatic exceptions.

You may submit a request, with supporting documentation, for a specific number (not to exceed 15 future treatment days for each discipline of occupational therapy, physical therapy, and speech language pathology services) of additional therapy visits.

- Please refer to the *Additional Information* section of this article for more detailed information about the therapy caps exception process.

Background

Financial limitations on Medicare-covered therapy services (therapy caps) were initiated by the Balanced Budget Act of 1997. These caps were implemented in 1999 and for a short time in 2003. Congress placed moratoria on the limits for 2004 and 2005.

The moratoria are no longer in place, and caps were implemented on January 1, 2006. Congress has provided that exceptions to these dollar limitations of $1,740 for each cap in 2006 may be made when provision of additional therapy services is determined to be medically necessary.

Additional Information

Billing Guidelines

- **Modifier KX –** You must include modifier KX on the claim identified as a therapy service with a GN, GO, GP modifier when a therapy cap exception has been approved, or it meets all the guidelines for an automatic exception. This allows the approved therapy services to be paid, even though they are above the therapy cap financial limits.
- **Separate requests –** You must submit separate requests for exception from the combined physical therapy and speech language pathology cap and from the occupational therapy cap. In general, requests for exception from the therapy cap should be received **before** the cap is exceeded because the patient is liable for denied services based on caps.

- **Subsequent requests during the same episode of care –** To request therapy services in addition to those previously approved, you must submit a request for approval along with supporting documentation for a specific number of additional therapy treatment days, not to exceed 15, **each time** the beneficiary is expected to require more therapy days than previously approved. It is appropriate to send documentation for the entire planned episode of care if the episode exceeds the 15 treatment days allowed.
    - When those additional visits are approved as reasonable and necessary based on the documentation you submit, an exception to the therapy cap will be approved and bills may be submitted using t modifier KX. If the contractors have reason to believe that fraud, misrepresentation, or abusive billing has occurred, they have the authority to review claims and may deny claims even though prior approval was granted.

ICD-9 Codes That Qualify for the Automatic Therapy Cap Exception Process Based Upon Clinical Condition or Complexity

CR 4364 transmittal that contains these codes is the one that revises the *Medicare Claims Processing Manual*, available on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R855CP.pdf.*

You may wish to bookmark that link so you may easily reference these codes.

Documentation

Providers who believe that it is medically necessary for their patient to receive therapy services in excess of the therapy cap limitations (and the patient does not fall into the automatically excepted categories mentioned above) must submit documentation, sufficient to support medical necessity, in accordance with the revised *Medicare Benefit Policy Manual*, Pub.100-02 Chapter 15, Section 220.3; and the revised *Medicare Claims Processing Manual*, Pub. 100-04, Chapter 5, Sections 10.2 and 20, with the request for treatment days in excess of those payable under the therapy cap.

These manual sections contain important definitions, as well as examples of acceptable documentation, and are attached to CR 4364. CR 4364 is in three parts, one each for the revised manuals, i.e.:

- The *Medicare Benefit Policy Manual*, located on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R47BP.pdf*.
- The *Medicare Claims Processing Manual*, located at *http://www.cms.hhs.gov/Transmittals/downloads/R855CP.pdf*.
- The *Medicare Program Integrity Manual*, located on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R140PI.pdf*.

The following types of documentation of therapy services are expected to be submitted in response to any requests for documentation, unless the contractor requests otherwise:

1. **Evaluation and Certified Plan of Care** – 1-2 documents.
2. **Certification** – Physician/NPP approval of the plan required 30 days after initial treatment-or delayed certification.
3. **Clinician-signed Interval Progress Reports** (when treatment exceeds ten treatment days or 30 days) – These must be sufficient to explain the beneficiary's current functional status and need for continued therapy with the request for therapy visits in excess of those payable under the therapy cap. This is not required to be provided daily in treatment encounter notes or for an incomplete interval when unexpected discontinuation of treatment occurs.
4. **Treatment Encounter Notes** – The treatment encounter note is acceptable if it records the name of the treatment; intervention, or activity provided; the time spent in services represented by timed codes; the total treatment time; and the identity of the individual providing the intervention. These may substitute for progress reports if they contain the requirements of interval progress reports at least once every ten treatment days or once in the interval.
5. For therapy caps exceptions purposes, records justifying services over the cap, either included in the above or as a separate document.

Please see the revised Section 220.3 of the *Medicare Claims Processing Manual* located at *http://www.cms.hhs.gov/Transmittals/downloads/R855CP.pdf* for more details about the types of documentation required and explanations of what that documentation should contain.

When reviewing documentation, Medicare contractors will:

- Consider the entire record when reviewing claims for medical necessity so that the absence of an individual item of documentation does not negate the medical necessity of a service when the documentation as a whole indicates the service is necessary.
- Consider a dictated document to be completed on the day it is dictated if the identity of the qualified professional is included in the dictation.
- Consider a document an evaluation or re-evaluation (for documentation purposes, but not necessarily for billing purposes) if it includes a diagnosis, subjective and/or objective condition, and prognosis. This information may be included in or attached to a plan. The inclusion of this information in the documentation does not necessarily constitute a billable evaluation or reevaluation unless it represents a service.
- Accept a referral/order and evaluation as complete documentation (certification and plan of care) when an evaluation is the only service provided by a provider/supplier in an episode of treatment.

Medicare Contractor Decisions

If determined to be medically necessary, your Medicare contractor will grant additional treatment days for occupational therapy, physical therapy, and speech language pathology.

It is preferable that the request for exception be received before the therapy cap is actually exceeded. However, your Medicare contractor will approve additional therapy treatment days retroactively if they are deemed medically necessary, in the exceptional circumstance where a timely request for exception from the therapy cap is not received before the therapy cap is surpassed.

Your Medicare contractor may also approve additional therapy visits already provided when the request is accompanied by documentation supporting medical necessity of the services.

Please note that outpatient therapy services appropriately provided by assistants or qualified personnel will be considered covered services only when the supervising clinician personally performs or participates actively in at least one treatment session during an interval of treatment. Claims for services above the cap that are not deemed medically necessary will be denied as a benefit category denial.

Note: If your Medicare contractor does *not* make a decision within ten business days of receipt of the request and documentation, then the decision for therapy cap exception is considered to be deemed approved as medically necessary for the number of future visits requested (not to exceed 15).

Notification

You will be notified as to whether or not an exception to the cap has been made (and if so, for how many additional future visits) as soon as practicable once the contractor has made its decision.

This notification is not an initial determination and, therefore, does not carry with it administrative appeal rights. For examples of the standard letters from the *Medicare Program Integrity Manual*, 100-8, Section 3.3.1.2, please refer to the Attachments to CR 4364. The examples include:

- Letter #1 – Approved
- Letter #2 – Negative Decision-Medical Necessity
- Letter #3 – Denied-Insufficient Documentation

Revised Medicare Summary Notice (MSN) Messages

The MSN messages (17.13; 38.18) are revised to inform beneficiaries about the therapy caps and approved medically necessary exceptions. These notices are also part of CR4 364.

Once again, there are three transmittals that comprise CR 4364. They are:

- The *Medicare Benefit Policy Manual* revision on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R47BP.pdf*.
- The *Medicare Claims Processing Manual* revision, located on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R855CP.pdf*.
- The *Medicare Program Integrity Manual* revision, located on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R140PI.pdf*.

If you have any questions, contact your Medicare contractor at their toll free number, which is available on the CMS website at *http://www.cms.hhs.gov/apps/contacts/*.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

Guidelines for Therapy Cap Exception Process

The Deficit Reduction Act of 2005 (DRA) directed CMS to create a process to allow exceptions to the therapy caps where continued therapy services are medically necessary services provided **on or after January 1, 2006.**

This article provides:

- Key points of interest to providers submitting claims under the automatic exceptions process.
- Instructions for submitting requests via the manual exceptions process.
- Important tips and reminders.

Key Points of Interest to Providers Submitting Claims Under the Automatic Exceptions Process

- No request is required, simply verify that the patient's records meet all documentation requirements and submit your claim-attaching **modifier KX** to all therapy line items. *(Do not submit documentation unless requested.)*
- The following ICD-9-CM codes and ranges describe the conditions (etiology or underlying medical conditions) that may result in excepted conditions and complexities (marked *) that may cause medically necessary therapy services to qualify for the automatic therapy cap exception. If a diagnosis code is not listed here, then the disorder may still qualify for an exception by approval via the manual exceptions request process. The codes apply to all therapy disciplines, but may be used only when the code is applicable to the condition being actively treated. For example, an exception should not be claimed for a diagnosis of hip replacement when the service provided is for an unrelated dysphagia.

349.0 – 349.9	478.30 – 478.5	724.02	821.0 – 821.39	

* Complexities

- The following examples are clinical complexities that may also justify an automatic exception to the therapy caps for **any** condition that necessitates skilled therapy services, regardless of whether it is on the list of diagnosis codes. As in all exceptions, the services rendered above the caps must be documented, covered, medically necessary services. The mere existence of one of these complexities **does not assure** that the services were medically necessary. The clinician's documentation must justify the use of **modifier KX.**
- The beneficiary was discharged from a hospital or skilled nursing facility (SNF) within 30 treatment days of starting this episode of outpatient therapy. Indicate date of discharge and name of hospital or SNF.
- The beneficiary has, in addition to another disease or condition being treated, generalized musculoskeletal conditions or conditions affecting multiple sites not listed as automatically excepted by conditions that will directly and significantly impact the rate of recovery.
- The beneficiary has a mental or cognitive disorder in addition to the conditions being treated that will directly and significantly impact the rate of recovery.

  For the above complexities, list in your documentation all relevant disorders or conditions and describe the impact. For example: A sprained ankle does not qualify for exception by condition, but if the patient also has a dysfunctional wrist on the opposite side that precludes the use of a cane, it would cause a direct and significant impact on the patient's need for skilled physical therapy, and might require services that exceed caps.
- The beneficiary requires PT and SLP services concurrently. If the combination of the two services causes the cap to be exceeded for necessary services, the services are excepted from the PT/SLP cap. The OT cap is not affected.
- The beneficiary had a prior episode of outpatient therapy during this calendar year for a **different** condition. The second condition treated in the year may not be on the list of excepted conditions. If services are medically necessary and would be payable under the cap, an exception is allowed if prior use of services for a different condition caused the cap to be exceeded and the medically necessary services to be denied. In cases where the beneficiary was treated in the same year for the same condition, contractor approval is required for use of **modifier KX**.
- The beneficiary requires this treatment in order to return to a premorbid living environment. Document what environment and what is needed to return. For example: Patient is progressing (see FIM scores) and has good potential for completing goals for independent toileting, which is required for discharge from the nursing home setting and return to the assisted living facility where she resided prior to the CVA.

    - The following therapy evaluation services are excepted from the therapy caps. When submitting claims for evaluation services that exceed the caps, providers and suppliers are instructed to attach **modifier KX.**

92506 92597 92607 92608 92610 92611 92612 92614
92616 96105 97001 97002 97003 97004

Instructions for Submitting Requests Via the Manual Exception Process

Providers need to submitt a written request to the contractor for medical review for patients who are expected to exceed the therapy caps, but do **not** meet one of the conditions for the automatic exception.

- You **must** submit in writing and complete in its entirety the "Request for Exception from Therapy Cap" form.
- The following documentation **must** be faxed along with your completed form. If all required documentation is not attached, a decision will be made based solely on the submitted documentation:

- Evaluation and certified plan of care
- Certification
- Clinician's signed progress reports
- Treatment encounter notes
- Medical justification (explanation of medical necessity)

- Requests will only be accepted via the fax number 1-904-791-8006. Requests sent any other way (e.g., mail, appeals etc,) will be returned with instructions on how to correctly submit. In the very near future, the fax number shown above will change to allow for a separate toll free fax number for Florida Part A, Florida Part B and Connecticut Part B. This information will be posted to our website along with a new updated form.

One of the following responses will be faxed within 10 business days of receipt of your request to the fax number provided on the request form:

1. Based on your documentation, the beneficiary does not meet medical necessity requirements for granting the exception.
2. Based on your documentation, the beneficiary meets the medical necessity requirements for granting an exception, for all days requested. You may submit claims using **modifier KX** for the requested number of days.
3. Based on your documentation, the beneficiary meets medical necessity requirements for granting the exception, but not for all days requested. You may submit claims using **modifier KX** for the number of days indicated in this letter.
4. We received your request, but did not meet the 10-day requirement; therefore all days requested are granted. You may submit claims using **modifier KX** for the number of days indicated in this letter.

Important Tips and Reminders

- The automatic exceptions process will be closely monitored via the normal progressive corrective action (PCA) process.
- If you are a Medicare provider currently going through the progressive corrective action process and are on prepayment review due to a high error rate, **you are not allowed** to participate in the therapy cap exception process.
- Due to changes required by the Centers for Medicare & Medicaid Services (CMS) implemented with change request 4364 (transmittals 855, 140 and 47), the local coverage determination (LCD) for Florida providers titled "Therapy and Rehabilitation Services (L6196), and for Connecticut providers titled "Physical Medicine and Rehabilitation (L13920), have been updated. It is your responsibility to be aware of these changes. To view this LCD, access the provider education website *http://www.floridamedicare.com* or *http://www.connecticutmedicare.com*. From the home page, select "Part B" on the top navigational menu. On the next screen, click on "Final" under the local Medical Coverage section on the left navigational menu.
- For all claims submitted with **modifier KX** during the interim process that may have been denied in error (rejected for Part A providers), you may resubmit your claim for reprocessing.
- It is expected that a manual request for therapy cap exceptions will be submitted prior to the beneficiaries meeting the financial limitation. However, a request for exceptions for services already provided may sometimes be necessary. Please provide the appropriate documentation and justification of the medical necessity for the services provided and include the dates with your manual request as retroactive services in the block titled "*First date of denied Services and/or Estimated Date Service Cap is Exceeded"* of the "Request for Exception from the Therapy Caps" form. Providers are cautioned against abuse of this process by routinely requesting exceptions for past services.
- You must continue to use modifiers GN, GP, and GO on all therapy services when using **modifier KX.** There is no specific order that must be followed.

To download the "Request for Exception from Therapy Cap" form, from the home page on the provider education website *http://www.floridamedicare.com* or *http://www.connecticutmedicare.com*, select "Forms" under the "Resources" section on the left navigational menu. On the next screen, click on "Request for Exception from the Therapy Caps" under the "Resource Order Forms" section.

FIRST COAST SERVICE OPTIONS, INC.
A CMS contracted Intermediary & Carrier

CMS CENTERS for MEDICARE & MEDICAID SERVICES

REQUEST FOR EXCEPTION FROM THE THERAPY CAPS

Attention Provider

You must submit the following types of documentation of therapy services:

1. Evaluation and Certified Plan of Care
2. Certification
3. Clinician-signed Progress Reports
4. Treatment Encounter Notes
5. Justification (Explanation of Medical Necessity)

If all required documentation is not attached, a decision will be made based solely on information received

You must provide documentation that is sufficient to support medical necessity for the additional treatment days, which shall be in accordance with the revised Medicare Benefit Policy Manual, Pub 100-02, Chapter 15, Section 220.3 and the revised Medicare Claims Processing Manual, Pub 100-04, Chapter 5, Sections 10.2 and 20.

It is preferable that all manual requests for exception be submitted before the therapy cap has actually been exceeded. However, in the exceptional circumstance where a timely request is not made before the cap is surpassed, additional treatment days may be approved retroactively if they are deemed medically necessary.

Date of Request	Date to Start Requested Exception	First Date of Denied Services and/or Estimated Date Service Cap is Exceeded	
Beneficiary Name & HIC#			
Request is for: *(check only one; submit a separate request for each therapy)* Physical Therapy ☐ Occupational Therapy ☐ Speech-language Pathology ☐			
Provider Name			Provider Number
Number of Exceptions Already Requested for this Episode of Care *(If applicable)*	Number of Treatment Days Being Requested *(Not to exceed 15 days)*	**Primary Diagnosis Code (Please list only one)** 1.	Secondary/ Additional Diagnosis Codes 1. 2. 3. 4.
Name, and telephone number of person to contact regarding this request			*Fax number for purposes of receiving a response to this request*

Annual Update to the Therapy Code List

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Private practicing therapists, physicians, suppliers, and providers of therapy services billing Medicare carriers and/or fiscal intermediaries (FIs), including regional home health intermediaries (RHHIs) for rehabilitation therapy services.

Provider Action Needed

STOP – Impact to You

This article is based on change request (CR) 4226, which implements policy changes discussed in the outpatient prospective payment system (OPPS) final rule for calendar year (CY) 2006 and the Medicare physician fee schedule (MPFS) final rule for CY 2006.

CAUTION – What You Need to Know

CR 4226 describes changes to, and billing instructions for, payment policies for rehabilitation therapy services, including physical therapy, occupational therapy and speech-language pathology. It also updates the list of codes that sometimes or always describe therapy services and their associated policies.

GO – What You Need to Do

See the *Background* section of this article for further details regarding these changes.

Background

The Social Security Act (Section 1834(k)(5)) requires that all claims for outpatient rehabilitation therapy services and all comprehensive outpatient rehabilitation facility (CORF) services be reported using a uniform coding system.

The Healthcare Common Procedure Coding System/*Current Procedural Terminology*, 2006 – Fourth Edition (HCPCS/*CPT-4*), is the coding system used for the reporting of these services.

The uniform coding requirement in the Social Security Act is specific to payment for all CORF services and outpatient rehabilitation therapy services that are provided and billed to carriers and FIs including:

- Physical therapy
- Occupational therapy
- Speech-language pathology.

Note: Section 1834(k)(5) of the Social Security Act may be found at *http://www.ssa.gov/OP_Home/ssact/title18/1834.htm*.

The Medicare physician fee schedule (MPFS) is used to make payment for these therapy services at the nonfacility rate. The following "providers of therapy services" must bill the FI/RHHI for outpatient rehabilitation services using HCPCS codes:

- Hospitals (to outpatients and inpatients who are not in a covered Part A[1] stay)
- Skilled nursing facilities (SNFs) (to residents not in a covered Part A stay and to nonresidents who receive outpatient rehabilitation services from the SNF)
- Home health agencies (HHAs) (to individuals who are not homebound or otherwise are not receiving services under a home health plan of care[2] [POC])
- Comprehensive outpatient rehabilitation facilities (CORFs)
- Providers of outpatient physical therapy and speech-language pathology services (OPTs), also known as rehabilitation agencies (previously termed outpatient rehabilitation facilities).

[1] The requirements for hospitals and SNFs apply to inpatient Part B and outpatient services only. Inpatient Part A services are bundled into the respective prospective payment system payment; no separate payment is made.

[2] For HHAs, HCPCS/*CPT* coding for outpatient rehabilitation services is required only when the HHA provides such service to individuals that are not homebound and, therefore, not under a home health plan of care.

The following practitioners must bill the carriers for outpatient rehabilitation therapy services using HCPCS/*CPT* codes:

- Physical therapists in private practice (PTPPs)
- Occupational therapists in private practice (OTPPs)
- Physicians, including MDs, DOs, podiatrists and optometrists
- Certain nonphysician practitioners (NPPs), acting within their state scope of practice, e.g., nurse practitioners and clinical nurse specialists.

Change Request 4226 Requirements

- Describes changes to, and billing instructions for, payment policies for rehabilitation therapy services, including physical therapy, occupational therapy and speech-language pathology.
- Updates the list of codes that sometimes or always describe therapy services and their associated policies
- Reflects policy changes implemented in (a) the OPPS final rule for CY 2006 and (b) the Medicare physician fee schedule (MPFS) final rule for CY 2006.

Other policies contained in CR 4226 correct or clarify the previous policy noted in CR 3647 (Transmittal 515 dated April 1, 2005).

The therapy code list and associated policies for CY 2006 is updated by CR4226 as described below.

Note: **CR 3647 may be found on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R515CP.pdf*.**

The MLN Matters article that corresponds to CR3647 may be reviewed on the CMS website at *http://www.cms.hhs.gov/MedlearnMattersArticles/downloads/MM3647.pdf*.

Orthotic Management and Prosthetic Management Services

In order to create a new category under the section for physical medicine and rehabilitation services, HCPCS/*CPT* modified the descriptors of one of these codes, *CPT* code *97504* (2005), and renumbered it as well as two other HCPCS/*CPT* codes.

The new therapy code list removes the CY 2005 CPT codes *97504, 97520 and 97703*, and replaces them with *CPT* codes *97760, 97761 and 97762*, respectively, for use in CY 2006. The following table contains a list of the added CY 2006 CPT codes and the new short descriptor for *CPT* code *97760*:

2006 Code	2006 Short Descriptor	2005 Code
97760	Orthotic management and training	97504
97761	Prosthetic training	97520
97762	C/o for orthotic/prosth use	97703

Active Wound Care Management Services

The therapy code list contains five (5) HCPCS/*CPT* codes that represent active wound care services: *CPT* codes *97602, 97605, 97606, 97597 and 97598*. Three of these *CPT* codes for wound care (*97602, 97605, and 97606*) were previously noted as "bundled" services for payment purposes under the MPFS and represented "always therapy" services.

For CY 2006, these three codes were changed to "sometimes therapy" services. While *CPT* code *97602* remains a bundled service under the MPFS, *CPT* codes *97605* and *97606*, which represent services for negative pressure wound therapy, are now valued and active codes under the MPFS.

Except as noted below for hospitals subject to the OPPS, the requirements for "sometimes therapy" apply. These requirements are described in more detail in Publication 100-04, Chapter 5, Section 20, of the *Medicare Claims Processing Manual*. That manual is available on the CMS website at *http://www.cms.hhs.gov/Manuals/IOM/list.asp#TopOfPage*.

A new payment policy for hospitals paid under the OPPS is being implemented for these five wound care HCPCS/*CPT* codes – *97602, 97605, 97606, 97597, and 97598*, and the indicator **"?"** is being added as a note to the code list. The indicator **"?"** signifies that these codes represent "sometimes therapy" services and will be paid under the OPPS when (a) the service is not performed by a therapist (i.e., under the therapy benefit); and (b) it is inappropriate to bill the service under a therapy plan of care.

Wound care provided, which meets these two requirements, should not be billed with a therapy modifier (e.g., GP, G0, or GN) or a therapy revenue code (e.g., 42x, 43x, or 44x). As for other "sometimes therapy" codes, these services are considered therapy services (i.e.; under the therapy benefit) when rendered by a therapist.

They are also considered therapy services when rendered by physicians and nonphysician practitioners who are not therapists in situations where the service provided is integral to an outpatient rehabilitation therapy plan of care. When such services are therapy services as noted above, the appropriate therapy modifier is required.

2006 Status	HCPCS/*CPT* Code	Short Descriptor	2005 Status
Bundled service for payment purposes under the MPFS; sometimes therapy service.	97602	Wound (s) care, non-selective	Bundled service for payment purposes under the MPFS; always therapy service.
Valued and active code under the MPFS; sometimes therapy service.	97605	Neg press wound tx,< 50 cm	Bundled service for payment purposes under the MPFS; always therapy service.
Valued and active code under the MPFS; sometimes therapy service.	97606	Neg press wound tx, > 50 cm	Bundled service for payment purposes under the MPFS; always therapy service.
Sometimes therapy service.	97597	Active wound care/20 cm or <	Sometimes therapy service.
Sometimes therapy service.	97598	Active wound care > 20 cm	Sometimes therapy service.

Carrier Pricing of Unspecified Therapy Codes

The 2006 policy adds Note **"?"** to HCPCS/*CPT* codes *97039 and 97139* to indicate that the MPFS payment has changed to carrier-pricing and these two codes will no longer be paid using the relative values units previously listed in Addendum B of the 2006 MPFS final rule.

As with other carrier-priced services, where an existing HCPCS/*CPT* code does not accurately describe the services performed, the provider submits information, for the contractor's review, to describe the "unspecified" modality(s) or therapeutic procedure(s) performed.

In addition to a detailed service description for *CPT* code *97039*, information submitted to the contractor must specify the type of modality utilized and, if the modality requires the constant attendance of the therapist, the time spent by the therapist one-on-one with the beneficiary must also be noted.

For *CPT code 97139*, the information supplied to the carrier must specify the procedure furnished and also meet the other requirements for therapeutic procedures, i.e., the process of effecting change, through the application of clinical skills or services that attempt to improve function.

CPT codes *97039 and 97139* remain designated as "always therapy" and require the use of modifier GP or GO, as appropriate.

HCPCS/CPT	Code Short Descriptor
97039	Physical therapy treatment
97139	Physical medicine procedure

Speech, Language, Voice, Communication and/or Auditory Processing

The 2006 policy creates a **"?"** indicator to indicate that the CY 2006 code descriptors were revised for the following *CPT* codes: *92506 and 92507*. *CPT* code *97760* is also flagged with the **"?."** Although this code number is new, it reflects a revision to the descriptor of the code it replaces, *CPT* code *97504*. The revised 2006 descriptors for *CPT* code *95206* and *95207* are the following:

2006 Code	2006 Short Descriptor
92506	Speech/hearing evaluation
92507	Speech/hearing therapy

Microwave Modality

The 2006 policy removes deleted HCPCS/*CPT* codes *96115 and 97020*. *CPT 96115* was deleted for CY 2006. *CPT* code *97020*, for the microwave modality, was combined with CPT code *97024* for diathermy.

2006	Code 2006 Short Descriptor
97024	Diathermy e.g., microwave

Code 0019T

The 2006 policy adds HCPCS/*CPT* code *0019T*, as a "sometimes" therapy service, to replace HCPCS codes G0279 and G0280 that were both deleted for CY2006. This code is carrier priced.

2006 Code	2006 Short Descriptor	2006 Status
0019T	Extracorp shock wv tx, ms nos	Sometimes therapy

Diagnostic Services

The 2006 policy clarifies in the *Medicare Claims Processing Manual* (Publication 100-04, Chapter 5, Section 20, Subsection C (Additional HCPCS Codes), that the listed HCPCS/*CPT* codes *95860, 95861, 95863, 95864, 95867, 95869, 95870, 95900, 95903, 95904 and 95934* represent diagnostic services, under MPFS, and do not represent therapy services and cannot be billed as such. Those codes and their short descriptors are in the following table:

CPT	Short Descriptor	Status under MPFS	CPT	Short Descriptor	Status under MPFS
95860	Muscle trest, one limb	Diagnostic Service	*95869*	Muscle test, thor paraspinal	Diagnostic Service
95861	Muscle test, 2 limbs	Diagnostic Service	*95870*	Muscle test, nonparaspinal	Diagnostic Service
95863	Muscle test, 3 limbs	Diagnostic Service	*95900*	Motor nerve conduction test	Diagnostic Service
95864	Muscle tesl, 4 limbs	Diagnostic Service	*95903*	Motor nerve conduction test	Diagnostic Service
95867	Muscle test cran nerv unilat	Diagnostic Service	*95904*	Sense nerve conduction test	Diagnostic Service
95868	Muscle test cran nerve bilat	Diagnostic Service	*95934*	H-reflex test	Diagnostic Service

CPT* Code *96110

The 2006 policy removes the **"?"** note for *CPT* code *96110*, because it is no longer applicable. The **"?"** note indicated that, effective January 1, 2004, *CPT* code *96110* became an active code on the Medicare physician fee schedule and that carriers no longer priced this code.

HCPCS/CPT Code	Short Descriptor
96110	*Developmental test, lim*

Summary

In summary, CR 4226 instructs your carrier and/or FI/RHHI to change any policies or edits that are not consistent with the policies or list of codes provided in CR 4226.

The changes noted in CR 4226 are effective for services furnished on or after January 1, 2006. The additions, changes, and deletions to the therapy code list reflect those made in the CY 2006 HCPCS/*CPT-4*.

Implementation

The implementation date for the instruction is February 6, 2006.

Additional Information

For complete details, please see the official instruction issued to your carrier/FI/RHHI regarding this change. That instruction may be viewed on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R805CP.pdf*.

If you have any questions, please contact your carrier/intermediary at their toll-free number, which may be found on the CMS website at *http://www.cms.hhs.gov/apps/contacts/*.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Therapy Caps Effective January 1, 2006

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals. This information was previously published in the HCPCS 2006 January Special Medicare B Update! pages 40-41.

Note: This article was revised on March 3, 2006, to include clarifying language (***bold, italicized print***) in the STOP section under "Provider Action Needed".

Provider Types Affected

Therapists and providers who bill Medicare carriers or fiscal intermediaries (FIs) for therapy services for their patients

Provider Action Needed

STOP – Impact to You

Beginning January 1, 2006, financial limitation of therapy services (therapy caps) will be implemented. ***The dollar amount for the 2006 limitation on physical therapy and speech-language pathology services from January 1, 2006, through December 31, 2006, will be $1,740.00 both services combined. The limitation on occupational therapy services separately is also $1,740.00. The limits do not apply to outpatient Part B therapy services in outpatient hospital or hospital emergency room settings or to services that meet Medicare criteria for exceptions.***

CAUTION – What You Need to Know

Please be aware of the January 1, 2006, therapy services caps.

GO – What You Need to Do

Remember that services must meet the Medicare policies in the Medicare Benefit Policy Manual (publication 100-02), Chapter 15, Sections 220and 230. This manual is available at *http://www.cms.hhs.gov/Manuals/IOM/list.asp#TopOfPage* on the CMS website.

Background

Financial limitations on therapy services (therapy caps) are currently described in the *Medicare Claims Processing Manual* (Pub. 100-04), chapter 5, section 10.2, which is available at *http://www.cms.hhs.gov/Manuals/IOM/list.asp#TopOfPage* on the CMS website. The dollar amount for the limitations in 2006 is based on the Medicare Economic Index that is published in the final rule for the Medicare Physician Fee Schedule in November 2005.

Section 4541(a)(2) of the Balanced Budget Act (BBA) (P.L. 105-33) of 1997, required payment under a prospective payment system for outpatient rehabilitation services (physical therapy, including outpatient speech-language pathology, and occupational therapy). Section 4541(c) of the BBA required the application of a financial limitation to all outpatient rehabilitation services (except outpatient departments of hospitals).

These limits were in effect in 1999, but were removed by law in 2000-2002. The statutory limits went back into effect September 1, 2003. The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 re-enacted the moratorium and extended it until December 31, 2005.

Additional Information

There is additional information located on the Rehabilitation Therapy Information Resource for Medicare website located at *http://new.cms.hhs.gov/TherapyServices/01_overview.asp#TopOfPage* on the CMS website.

The official instruction issued to your FI or carrier regarding this change may be found by going to *http://www.cms.hhs.gov/transmittals/downloads/R759CP.pdf* on the CMS website.

Please refer to your local FI or carrier if you have any questions. To find the toll-free phone number, go to *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

VISION

Expansion of Glaucoma Screening Services

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians and providers who submit claims to Medicare fiscal intermediaries (FIs) and carriers for glaucoma screening examinations

Important Points to Remember

- CR 4365 provides notice that beginning January 1, 2006, the definition of an eligible beneficiary in a high-risk category is expanded to include Hispanic Americans age 65 and over.
- Because of this revised definition, Medicare will pay for glaucoma screening examinations for Hispanic Americans age 65 and older when they are furnished by or under the direct supervision in the office setting of an ophthalmologist or optometrist who is legally authorized to perform the services under state law.
- If service is denied because the individual does not meet the age-related and/or ethnic-related coverage criteria, Medicare contractors will return Medicare Summary Notice 21.21 (This service was denied because Medicare only covers this service under certain circumstances).
- If service is denied because the individual is not Hispanic-American age 65 or over, the remittance advice claim will show reason adjustment code 96 (Non-covered charge), and existing remark codes M83 (Services not covered unless the patient is classified as at high risk), and N129 (This amount represents the dollar amount not eligible due to patient's age.).
- Your Medicare FI or carrier will not search for or adjust claims with dates of service January 1, 2006, that were processed before the April 3, 2006, implementation date of CR 4365. They will adjust any such claims that you bring to their attention.
- The following HCPCS codes apply for glaucoma screening:
  - G0117– Glaucoma screening for high risk patients furnished by an optometrist or ophthalmologist; and
  - G0118– Glaucoma screening for high risk patients furnished under the direct supervision of an optometrist or ophthalmologist.

Background

On January 1, 2002, CMS implemented regulations at 42 CFR, Section 410.23(a)(2). The regulations set conditions for and limitations on coverage of screening for glaucoma, requiring that the term "eligible beneficiary" be defined to include individuals in the following high-risk categories:

- Individuals with diabetes mellitus;
- Individuals with a family history of glaucoma; or
- African-Americans age 50 and over.

The Physician Fee Schedule for calendar year 2006 Final Rule, 70 FR 70270, dated November 21, 2005, expands Medicare coverage of high-risk individuals eligible to receive glaucoma screening services to include Hispanic Americans age 65 and over.

This expansion of coverage is effective for services performed on or after January 1, 2006, and revises 42 CFR, section 410.23(a)(2) accordingly.

Implementation

The implementation date for this instruction is April 3, 2006.

Additional Information

The official instructions (CR 4365) issued to your FI or Carrier regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R48BP.pdf* **and** *http://www.cms.hhs.gov/Transmittals/downloads/R895CP.pdf* on the CMS website.

If you have questions, please contact your Medicare FI or Carrier at their toll-free number which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

HIPAA - The Health Insurance Portability and Accountability Act

Welcome to the World of Medicare Electronic Data Interchange

Whether you are already a provider who submits electronic claims data to First Coast Service Options, Inc. (FCSO), a provider who submits paper claims, or a new provider, the information below may be of benefit to you. Please read further.

Administrative Simplification and Compliance Act Provision (ASCA)

This mandate dictates that all claims submitted to Medicare should be submitted electronically (with few exceptions). The enforcement of this provision will entail identifying providers who are currently submitting paper claims and contacting them directly to ensure they meet the exception criteria. Providers not meeting the exception criteria will be given a specific period of time to come into compliance, after which time any paper claims received for that provider will be denied. Providers not meeting the criteria should do the following:

- If you are a new provider, **or** a provider who submits only paper claims – Contact our EDI office. We will discuss available options for submitting your claims electronically. Medicare can also provide free software to you that will allow claims to be submitted electronically.
- If you are a provider who submits claims electronically – Many providers have processes in place that do generate some paper claims. Check to ensure that all claims are being submitted electronically.

Health Insurance Portability and Accountability Act (HIPAA)

This law requires that claims submitted electronically be submitted in a standardized/compliant electronic format, currently the ANSI x12 837 4010A1 format. Claims submitted by providers in a non-compliant format are being paid as if they were paper claims (29 days vs. 14 days for electronic claims).

The compliant format requirement also applies to the electronic remittance advice (ERA), which is the ability to receive payment information electronically for auto posting into your practice management system (see electronic applications below for more information).

All Providers – Ensure your electronic software (or your clearinghouse software, if using a clearinghouse) is sending claims (or receiving remittance) in a HIPAA compliant format. Work with your vendor to obtain a compliant format if you are not in compliance.

Other Electronic Applications

Electronic Funds Transfer

Have your Medicare payments deposited directly into your bank account. No waiting for a paper check in the mail, or last minute trips to the bank to make deposits! Combine this with ERA for a paperless environment.

Electronic Remittance Advice

This is a valuable tool for provider offices, allowing individual claim payment information (identical to the paper remittance form) to be electronically retrieved and automatically posted into your account management system. This eliminates both clerical entry errors and entry time in posting this data and allows your staff to concentrate on other office functions. **IMPORTANT** – contact your vendor or Medicare EDI for additional information regarding this application.

Medicare Remit Easy Print (MREP) Software

Free software that enables you to read and print a remittance advice from the HIPAA compliant electronic remittance in a format similar to the standard paper remittance.

Free Software (PC-ACE Pro32)

This is claim submission software, not a practice management system. It creates HIPAA format compliant claims to be transmitted electronically.

Electronic Reject Reports

This is an important report that provides details about your claim transmissions. It contains information reflecting the volume of claims that were submitted during the transmission, the number of claims successfully received, and the number of claims that rejected based on edit criteria. It also provides specific information on the claims that rejected. Your software vendor would need to make this capability available to you.

Electronic Claim Status Request and Verification

Instead of manually researching the status of your outstanding claims via the Interactive Voice Response (IVR) unit, you can obtain your claim status information electronically.

For additional information, please contact our EDI department:

Florida - (904) 791-8767, option 1 or visit our website, *http://www.floridamedicare.com*.
Connecticut – (203) 639-3160,option 4 or visit our website, *http://www.connecticutmedicare.com*.

Medicare Secondary Payer Claims Must Be Sent Electronically

The Administrative Simplification Compliance Act (ASCA) requires that claims be submitted to Medicare electronically, with few exceptions. **MSP claims are not an exception unless the provider submits the claim for Medicare payment after receiving payment from more than one other payer and at least one of those payers reduced their payment due to an Obligated to Accept as payment in Full (OTAF) adjustment.** The 837-4010A1 Implementation Guides, section 1.4.2.1, contain detailed information on how to submit MSP claims electronically. **In the near future MSP paper claims will not be processed for electronic submitters.**

We ask that you contact your vendor, billing service, clearinghouse or internal IT staff to ensure that your software is correctly set up to capture the data required and begin submission of your MSP claims electronically.

For assistance from Medicare Part B EDI, please contact the appropriate support group based on your location:

Medicare Part B Florida (904) 354-5977, option 4
Medicare Part B Connecticut 203-639-3160, option 6

Batch Detail Control Listing Changes—Connecticut Only

Beginning May 1st, 2006, the paper version of the Batch Detail Control Listing Report will only be generated if the transmission contains rejected information (claim or batch rejections that must be corrected and resubmitted). To obtain the full report, we strongly recommend you utilize the electronic version of the report (read more below).

The electronic Batch Detail Control Listing Report contains both accepted and rejected file/claim submission information and is available for retrieval the next business day after file transmission. It will provide you with detailed feedback on the number of claims received and whether they were accepted or rejected.

In order to obtain this electronic application, contact your software vendor to ensure your software is capable of retrieving the report from your mailbox. Unfortunately, not all vendors' software currently provides the capability to retrieve this report electronically: however, your vendor can access our website at *http://www.connecticutmedicare.com* for the Guide to Gateway, which will provide them with script information that allows for the retrieval of the report.

Another alternative, if your vendor does not provide the capability to retrieve the error report, is Medicare's free software (PC-ACE Pro32®) that (in conjunction with a communications program) is able to retrieve this report.

For more information about retrieving the Batch Detail Control Listing electronically, or using the PC-ACE Pro32® software, call EDI Marketing/Operations at (203) 639-3160 Option 4.

Requirements for Use and Editing of National Provider Identifier Numbers Received in Electronic Data Interchange Transactions, via Direct Data Entry Screens or Paper Claim Forms

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals. This information was previously published in the Second Quarter 2006 Medicare B Update! pages 47-50.

Note: This article was revised on November 29, 2005, to clarify that the end date of the transition period for the revised CMS-1500 form is February 1, 2007. (See the paper claims form section)

Provider Types Affected

Physicians, providers, and suppliers who submit claims for services to Medicare carriers, including durable medical equipment regional carriers (DMERCs) and fiscal intermediaries (FIs), to include regional home health intermediaries (RHHIs)

Provider Action Needed

The requirements for Stage 2 apply to all transactions that are first processed by Medicare systems on or after October 2, 2006, and are not based on the date of receipt of a transaction, unless otherwise stated in a business requirement.

Please note that the effective and implementation dates shown above reflect the dates that Medicare systems will be ready, but the key date for providers regarding the use of the NPI in Stage 2 is October 1, 2006.

Background

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 requires issuance of a unique national provider identifier (NPI) to each physician, supplier, and other provider of health care (45 CFR Part 162, Subpart D (162.402-162.414).

To comply with this requirement, the Centers for Medicare & Medicaid Services (CMS) began to accept applications for, and to issue NPIs, on May 23, 2005.

Applications can be made by mail and also online at *https://nppes.cms.hhs.gov*.

NPI and Legacy Identifiers

The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in which they live or their medical specialty. **Beginning May 23, 2007 (May 23, 2008, for small health plans), the NPI must be used in lieu of legacy provider identifiers**.

Requirements for Use and Editing of NPI Numbers Received in EDI Transactions, via DDE Screens or Paper Claim Forms

Legacy provider identifiers include:

- Online Survey Certification and Reporting (OSCAR) system numbers;
- National Supplier Clearinghouse (NSC) numbers;
- Provider Identification Numbers (PINs); and
- Unique Physician Identification Numbers (UPINs) used by Medicare.

They **do not** include taxpayer identifier numbers (TINs) such as:

- Employer Identification Numbers (EINs); or
- Social Security Numbers (SSNs).

Primary and Secondary Providers

Providers are categorized as either "primary" or "secondary" providers:

- ***Primary providers*** include billing, pay-to, rendering, or performing providers.

In the DMERCs, primary providers include ordering providers.

- ***Secondary providers*** include supervising physicians, operating physicians, referring providers, and so on.

Crosswalk

During Stage 2, Medicare will utilize a crosswalk between NPIs and legacy identifiers to validate NPIs received in transactions, assist with population of NPIs in Medicare data center provider files, and report NPIs on remittance advice (RA) and coordination of benefit (COB) transactions. Key elements of this crosswalk include the following:

- Each primary provider's NPI reported on an inbound claim or claim status query will be cross-walked to the Medicare legacy identifier that applies to the owner of that NPI.
- The crosswalk will be able to do a two-directional search, from a Medicare legacy identifier to NPI, and from NPI to a legacy identifier.
- The Medicare crosswalk will be updated daily to reflect new provider registrations.

NPI Transition Plans for Medicare FFS Providers

Medicare's implementation involving acceptance and processing of transactions with the NPI will occur in separate stages, as shown in the table below:

Stage	Medicare Implementation
May 23, 2005 - January 2, 2006:	Providers should submit Medicare claims using only their existing Medicare numbers. They should not use their NPI numbers during this time period. CMS claims processing systems will reject, as unprocessable, any claim that includes an NPI during this phase.
January 3, 2006 - October 1, 2006:	Medicare systems will accept claims with an NPI, but an existing legacy Medicare number must also be on the claim. Note that CMS claims processing systems will reject, as unprocessable, any claim that includes only an NPI. Medicare will be capable of sending the NPI as primary provider identifier and legacy identifier as a secondary identifier in outbound claims, claim status response, and eligibility benefit response electronic transactions.
October 2, 2006 - May 22, 2007: (*This is stage 2, the subject of CR4023)*	CMS systems will accept an existing legacy Medicare billing number and/or an NPI on claims. If there is any issue with the provider's NPI and no Medicare legacy identifier is submitted, the provider may not be paid for the claim. *Therefore, Medicare strongly recommends that providers, clearinghouses, and billing services continue to submit the Medicare legacy identifier as a secondary identifier.* Medicare will be capable of sending the NPI as primary provider identifier and legacy identifier as a secondary identifier in outbound claim, claim status response, remittance advice (electronic but not paper), and eligibility response electronic transactions.
May 23, 2007 – Forward:	CMS systems will only accept NPI numbers. Coordination of benefit transactions sent to small health plans will continue to carry legacy identifiers, if requested by such a plan, through May 22, 2007.

Requirements for Use and Editing of NPI Numbers Received in EDI Transactions, via DDE Screens or Paper Claim Forms

Claim Rejection
Claims will be rejected if:

- The NPI included in a claim or claim status request does not meet the content criteria requirements for a valid NPI; this affects:
- X12 837 and Direct Data Entry (DDE) screen claims (DDE claims are submitted to Medicare intermediaries only);
- National Council of Prescription Drug Plan (NCPDP) claims (submitted to Medicare DMERCs only);
- Claims submitted using Medicare's free billing software;
- Electronic claim status request received via X12 276 or DDE screen; and
- Non-X12 electronic claim status queries;
- An NPI reported cannot be located in Medicare files;
- The NPI is located, but a legacy identifier reported for the same provider in the transaction does not match the legacy identifier in the Medicare file for that NPI;
- Claims include the NPI but do not have a taxpayer identification number (TIN) reported for the billing or pay-to provider in electronic claims received via X12 837, DDE screen (FISS only), or Medicare's free billing software.

Note: If only provider legacy identifiers are reported on an inbound transaction prior to May 23, 2007, pre-NPI provider legacy number edit rules will be applied to those legacy identifiers.

Additional Information

X12 837 Incoming Claims and COB

During Stage 2, an X12 837 claim may technically be submitted with only an NPI for a provider, **but you are strongly encouraged to also submit the corresponding Medicare legacy identifier for each NPI** in X12 837 Medicare claims.

Use of both numbers could facilitate investigation of errors if one identifier or the other cannot be located in the Medicare validation file. When an NPI is reported in a claim for a billing or pay-to provider, a TIN must also be submitted in addition to the provider's legacy identifier as required by the claim implementation guide.

National Council of Prescription Drug Plans (NCPDP) Claims

The NCPDP format was designed to permit a prescription drug claim to be submitted with either **an NPI or a legacy identifier, but not more than one identifier** for the same retail pharmacy or prescribing physician. The NCPDP did provide qualifiers, including one for NPIs, to be used to identify the type of provider identifier being reported.

- For Stage 1, retail pharmacies were directed to continue filing their NCPDP claims with their individual NSC number and to report the UPIN of the prescribing physician.
- During Stage 2, retail pharmacies will be allowed to report their NPI, and/or the NPI of the prescribing physician (if they have the prescribing physician's NPI) in their claims.

When an NPI is submitted in an NCPDP claim, it will be edited in the same way as an NPI submitted in an X12 837 version 4010A1 claim. The retail pharmacy will be considered the primary provider and the prescribing physician as the secondary provider for NPI editing purposes.

Paper Claim Forms

The transition period for the revised CMS-1500 is currently scheduled to begin October 1, 2006 and end February 1, 2007. The transition period for the UB-04 is currently scheduled for March 1, 2007 - May 22, 2007.

Pending the start of submission of the revised CMS-1500 and the UB-04, **providers must continue to report legacy identifiers, and not NPIs**, **when submitting claims on the non-revised CMS-1500 and the UB-92 paper claim forms**.

Provider identifiers reported on those claim forms are presumed to be legacy identifiers and will be edited accordingly. "Old" form paper claims, received through the end of the transition period that applies to each form, may be rejected if submitted with an NPI.

Or, if they are not rejected—since some legacy identifiers were also 10-digits in length—could be incorrectly processed, preventing payment to the provider that submitted that paper claim.

Standard Paper Remits (SPRs)

The SPR FI and carrier/DMERC formats are being revised to allow reporting of both a provider's NPI and legacy identifier when both are available in Medicare's files. If a provider's NPI is available in the data center provider file, it will be reported on the SPR, even if the NPI was not reported for the billing/pay-to, or rendering provider on each of the claims included in that SPR. The revised FI and carrier/DMERC SPR formats are attached to CR 4023:

- CR 4023 Attachment 1: FI Standard Paper Remit (SPR) Amended Format for Stage 2; and
- CR 4023 Attachment 2: Carrier/DMERC SPRAmended Stage 2 Format.

Remit Print Software

The 835 PC-Print and Medicare Remit Easy Print software will be modified by October 2, 2006, to enable either the NPI or a Medicare legacy number, or both, if included in the 835, to be printed during Stage 2.

Free Billing Software

Medicare will ensure that this software is changed as needed by October 2, 2006, to enable reporting of both an NPI and a Medicare legacy identifier for each provider for which data is furnished in a claim, and to identify whether an entered identifier is an NPI or a legacy identifier.

Requirements for Use and Editing of NPI Numbers Received in EDI Transactions, via DDE Screens or Paper Claim Forms

In-Depth Information

Please refer to CR 4023 for additional detailed NPI-related claim information about the following topics:

- Crosswalk
- X12 837 Incoming Claims and COB
- Non-HIPAA COB Claims
- NCPDP Claims
- DDE Screens
- Paper Claim Forms
- Free Billing Software
- X12 276/277 Claim Status Inquiry and Response Transactions
- 270/271 Eligibility Inquiry and Response Transactions
- 835 Payment and Remittance Advice Transactions
- Electronic Funds Transfer (EFT)
- Standard Paper Remits (SPRs)
- Remit Print Software
- Claims History
- Proprietary Error Reports
- Carrier, DMERC, and FI Local Provider Files, including EDI System Access Security Files
- Med A and Med B Translators
- Other Translators
- Stages 3 and 4

CR 4023, the official instruction issued to your FI/ regional home health intermediary (RHHI) or carrier/durable medical equipment regional carrier (DMERC) regarding this change, may be found by going to *http://www.cms.hhs.gov/transmittals/downloads/R190OTN.pdf* on the CMS website.

You may also wish to review *Medlearn Matters* article SE0555, "Medicare's Implementation of the National Provider Identifier (NPI): The Second in the Series of Special Edition *Medlearn Matters* Articles on NPI-Related Activities," which is available at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/SE0555.pdf* on the CMS website. This article contains further details on the NPI and how to obtain one.

Please refer to your local carrier/DMERC/FI for more information about this issue. To find the toll free phone number, go to *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

MLN Matters Number: MM4023 *Revised* Related Change Request (CR) #: 4023
Related CR Release Date: November 3, 2005 Effective Date: April 1, 2006
Related CR Transmittal #: 190 Implementation Date: April 3, 2006

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. Shared Systems Medicare Secondary Payer Balancing Edit and Administrative Simplification Compliance Act Enforcement Update

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers and providers billing MSP claims to Medicare carriers, fiscal intermediaries (FI), durable medical equipment regional carriers (DMERCs) and regional home health intermediaries (RHHIs)

Key Points for Providers

Change request (CR) 4261 makes two key changes to Medicare claims processing as follows:

- **First,** CR 4261 states that inbound MSP claims will be rejected if the paid amounts and the adjusted amounts paid by the primary payer do not equal the billed amounts at the line level and if the claim lacks standard claim adjustment reason codes to identify adjustments performed.

While Medicare may be able to handle such a discrepancy because it does not always use this information, it may pass such claims to other payers. Such other payers may then reject the claims because they do not comply with the 837 version 4010A1 institutional and professional implementation guides. As a result, Medicare will not accept such claims in order to be fully compliant with HIPAA.

- **Second,** if a provider's paper claims have been denied due to Administrative Simplification Compliance Act (ASCA) electronic claims provision enforcement by Medicare contractors (carriers, FIs, RHHIs, and DMERCs), the provider may resubmit the paper claims if they submit appropriate documentation that establishes that they meet the criteria for submitting paper claims.

Providers have until the 91st day after the initial ASCA letter to submit documentation that proves eligibility for submission of paper claims. If a provider establishes eligibility later than the 91st day of the initial enforcement letter and then resubmits paper claims, payment will be denied for dates of service between the 91st day and the effective date for submission of claims.

Implementation

The implementation date for the instruction is July 3, 2006

Administrative Simplification Compliance Act Enforcement Update

Additional Information

For details of enforcement of the ASCA, please see related MLN Matters article MM3440, "Administrative Simplification Compliance Act (ASCA) Enforcement of Mandatory Electronic Submission of Medicare Claims," on the CMS website at *http://www.cms.hhs.gov/MedlearnMattersArticles/downloads/MM3440.pdf*.

The official instruction on this change, CR 4261, may be viewed on the CMS website at *http://www.cms.hhs.gov/Transmittals/downloads/R831CP.pdf*.

If you have questions, please contact your carrier/intermediary/DMERC at their toll-free number, which may be found on the CMS website at *http://www.cms.hhs.gov/apps/contacts/*.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Medicare Remit Easy Print Enhancements, and Clarification of Check Issue/Electronic Funds Transfer Effective Date

Provider Types Affected

Providers and suppliers billing Medicare carriers, including durable medical equipment regional carriers (DMERCs), for services to Medicare beneficiaries

Provider Action Needed

This article is based on Change Request (CR) 4289, which instructs ViPs (the company that maintains the Medicare Remit Easy Print [MREP] software), carriers, and DMERCs to add enhancements to the current version of the MREP software and provides clarification of the check issue/ electronic funds transfer (EFT) effective date.

Background

On October 11, 2005, the Centers for Medicare & Medicaid Services (CMS) made available the MREP software to enable Medicare providers and suppliers to view and print the Health Insurance Portability and Accountability Act (HIPAA)-compliant 835 (Electronic Remittance Advice (RA). Using the HIPAA 835 files, MREP enables providers and suppliers to view and print Medicare Part B and DMERC 835 in a human readable format. The format is on the current standard paper remittance (SPR) format Medicare uses. MREP provides the ability to:

- View the 835
- Search the 835;
- Print the 835 in a format providers are familiar with; and
- View and print special reports.

Providers who use MREP can print reports to reconcile accounts receivable as well as create document(s) that can be included with claim submission to Coordination of Benefits (COB) payers. MREP is available free to Medicare providers and suppliers, and it can be installed on a personal computer or network. Please contact your Medicare contractor to download a copy of the MREP software.

Keeping MREP Up to Date

In order to continuously improve this product, CMS set up a process to collect valuable suggestions and recommendations to improve MREP's functionality and effectiveness from providers, contractors (carriers and DMERCs), and CMS staff.

Using the suggestions and recommendations received before the cutoff date of November 15, 2005, CMS determined enhancements that were needed for MREP, and CR 4289 includes a summary page attachment listing the MREP enhancements to be implemented in the MREP software release in July 2006.

ViPs will update the MREP software to incorporate the listed enhancements.

Enhancement updates to be implemented in October 2006 will include suggestions/recommendations received between November 16, 2005, and the next cut-off date. Annual enhancement updates to MREP will be scheduled for each year in October.

If you are on the contractor list serv, you will be notified when the Claim Adjustment Reason Code (CARC) and Remittance Advice Remark Code (RARC) file is updated three times a year, in April, August, and December. This file is the master listing of CARC and RARC used in printing the glossary on the MREP printout. Washington Publishing Company (WPC) publishes updates to this list three times a year. An update to the MREP application will be issued to correspond to the WPC updates. Your Medicare carrier will post a notification when these updates will be available, and a MLN Matters article is usually published to explain the changes in these updates.

MREP Enhancements,and Clarification of Check Issue/Electronic Funds Transfer Effective Date

Clarification of the Check Issue/EFT Effective Date

The providers receiving both electronic and paper remittance advice (RA) reported an issue to contractors.

- The MREP software populates the "Check Issues/EFT Effective Date" from the BPR16 data field (in the 835 transaction).
- The SPR uses the information contained in the "Production Date" from the DTM 02 data field (in the 835 transaction).

These two dates are the same if:

- The qualifier in the BPR 04 data field (in the 835 transaction) is either "CHK" or "NON"

However, if the qualifier in BPR 04 data field is "ACH" (for electronic funds transfer), then the BPR 16 data field may be different than the "Production Date."

This acknowledges the fact that it may take a few days to have the funds electronically moved from the Medicare financial institution to the provider's financial institution.

CMS requires that the paper RA must mirror the electronic RA, and any software reading the electronic RA must have the same information in the output as in the electronic RA.

CR 4289 repeats the instruction originally included in CR1953 (Transmittal B-01-76, dated December 11, 2001, *http://www.cms.hhs.gov/Transmittals/Downloads/B0176.pdf*), which states that **the information for Check Issue /EFT Effective Date must**:

- Be populated from the BPR16 data field, and
- Not from the DTM 02 data field.

Implementation

The implementation date for this instruction is July 3, 2006.

Additional Information

For complete details, please see the official instruction issued to your carrier/DMERC regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R833CP.pdf* on the CMS website. Attached to that instruction is the list of enhancements that will be incorporated in the July 3, 2006, version of the MREP software.

If you have any questions, please contact your carrier/DMERC at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

Medicare Remit Easy Print Software

CMS has issued the following "MLN Matters... Information for Medicare Providers" article.

Provider Types Affected

Providers, physicians, suppliers, and qualified non-physician practitioners billing Medicare carriers, including durable medical equipment regional carriers (DMERCs)

Provider Action Needed

STOP – Impact to You

This article provides an overview of the new Medicare Remit Easy Print (MREP) software developed by the Centers for Medicare & Medicaid Services (CMS), which is now available for you to view and print the Health Insurance Portability and Accountability Act (HIPAA) compliant electronic remittance advice (ERA).

CAUTION – What You Need to Know

With the new MREP software, you can view and print as many or as few claims as needed. This is especially helpful when you need to print only one claim from the remittance advice (RA) when forwarding the claim to a secondary payer.

GO – What You Need to Do

See the *Background* section of this article for further details regarding **this free software**.

Background

In June 2005,CMS announced to carriers (including DMERCs) their Remittance Advice (RA) Initiative, which included plans to reduce the number of standard paper remittance advices (SPRs) printed and mailed as well as increase usage of the ERA.

Medicare Remit Easy Print Software

As part of the RA initiative, CMS developed MREP software to enable physicians and suppliers to read and print the HIPAA-compliant ERA (also known as Transaction 835 or "the 835").

MREP software uses the ERA file that is sent to you by your carrier/DMERC in the HIPAA-compliant 835 format.[1] Other electronic formats cannot be used.

Medicare Remit Easy Print Software, continued

[2]With the new MREP software, you will be able to:

- Navigate and view the ERA using your personal computer;
- Search and find ERA/claims information easily;
- Print the ERA in the SPR format;
- Print and export reports about ERAs including denied, adjusted and deductible applied claims; and
- Archive, restore, and delete imported ERAs.

To utilize the MREP software, you will need to receive a HIPAA-compliant ERA (HIPAA 835). Contact your carrier/DMERC to find out more about MREP and/or for information on how to receive HIPAA compliant ERAs.

MREP software will be revised three times per year to accommodate claim adjustment reason and remittance advice remark code set changes. You can sign up to be notified automatically when a new version of MREP is available at your carrier's/DMERC's website.

[1] Beginning October 1, 2005, new Medicare contractors are called Medicare Administrative Contractors (MACs). Also, from October 2004 through October 2011, all existing fiscal intermediaries (FIs) and carrier contracts will be transitioned into MAC contracts, using competitive procedures. Providers may access the most current Medicare Contracting Reform information to determine the impact of these changes at *http://www.cms.hhs.gov/MedicareContractingReform/* on the CMS website.

[2] CMS plans to end the use of other formats soon.

Availability and Cost

MREP software can save you time resolving Medicare claim issues, and it provides features unavailable with the SPR. MREP is available to you **free of charge**, and further information on the software (including how to obtain a free copy) is available at your carrier's or DMERC's website.

Benefits of Using MREP Software

1. Save Time and Money

You can print remittance information directly from your computer the day the HIPAA 835 is available. No more time is spent waiting for the mail!

2. Create and Print Special Reports

With MREP, you can run several useful reports including:

- **Deductible Service Lines Report**: Shows claim service lines that have a deductible amount.
- **Adjusted Service Lines Report**: Shows claims within a single remittance that have a claim status 22 (reversed claim).
- **Denied Service Lines Report**: Shows only claim service lines that have an allowed amount of zero *and* are associated with a claim that does not have a claim status 22 (reversed claim).

3. Print and Forward Claims for Other Payers

MREP provides the ability to print remittance information for individual or multiple selected claims, and it allows you to forward only those claims that are needed by other payers for secondary payment.

You may view and/or print as many or as few claims as needed. This eliminates the need for you to darken individually identifiable data on the SPR, as you may do today, that does not pertain to the claim for which you are requesting payment.

4. Navigate and View Remittance Information

MREP organizes and presents information in a manner that makes it easy for you to view. It also provides separate tabs to access the following:

- A list of claims
- Details for individually selected claims
- Summary information
- Glossary information containing claim adjustment reason codes, remittance advice remark codes, and their definitions
- A data view that allows you to look at the various loops and segments containing data in the HIPAA 835
- A search function to find claims containing specific information.

5. Search for Claim(s) Information Quickly and Easily

MREP's search function can help you find a claim (or multiple claims) based on your customized search criteria. Using it, you can search by names, numbers, and even portions of information such as:

- Health Insurance Claim Number (HICN)
- Beneficiary Last Name
- Internal Control Number (ICN)
- Beneficiary Account Number
- Procedure Code
- Service Date
- Rendering Provider Number.

Note: MREP's search capability provides a powerful way to save time and money when examining remittance information.

Medicare Remit Easy Print Software, continued

6. Eliminate Need for Physical Filing and Storage Space

MREP software imports a HIPAA 835 (once you have received it from your carrier/DMERC) and saves the information as a separate Import file to help ensure that the original HIPAA 835 file remains intact.

It also provides an easy-to-use method to archive, restore, and delete these import files as you maintain your remittance records (further reducing the need for physical filing of printed copies and additional storage space).

As you gain familiarity with the MREP software, you will be able to take advantage of the numerous keystroke shortcuts designed to streamline use of the software and save you time while viewing your remittance information.

Installing and Using MREP Software

To install and use the MREP software, your computer system(s) must meet the following minimum criteria:

- IBM-compatible PC
- Windows XP (Recommended), Windows 2000, Windows NT, or Windows 98 SE
- 2.0 GHz processor
- 256 MB RAM
- 3 MB hard disk space
- NET Framework version 1.1 or higher.

Additional Information

For more information about the MREP software and how to receive the HIPAA 835, please contact your carrier/DMERC. Medicare Part B Electronic Data Interchange (EDI) Helpline phone numbers are available at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/* on the CMS website.

MLN Matters Number: SE0611	Related Change Request (CR) #: N/A
Related CR Release Date: N/A	Effective Date: N/A
Related CR Transmittal #: N/A	Implementation Date: N/A

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

Medicare Remit Easy Print Software Is Available from Medicare Carrier or DMERC Website

In an effort to advance toward an electronic environment, the Centers for Medicare & Medicaid Services (CMS) has developed software called Medicare Remit Easy Print that enables physicians, providers, suppliers, and qualified nonphysician practitioners that bill Medicare carriers and durable medical equipment regional carriers (DMERCs), to view and print Health Insurance Portability and Accountability Act of 1996 (HIPAA)-compliant 835s from their own computer. Remittance advices printed from the MREP software mirror the current standard paper remittance advice (SPR) format.

Before using the MREP software, physicians and suppliers must have access to HIPAA 835 files. For your reference, a Special Edition Medlearn Matters article – SE0611 is available at: *http://www.cms.hhs.gov/MedlearnMattersArticles/downloads/SE0611.pdf*.

Physicians and suppliers can save time and money with MREP! Benefits for physicians and suppliers include the ability to:

- View, search, and print remittance information.
- Print and export reports of denied, adjusted and deductible service lines.
- Print remittance information for individual or multiple selected claims, which allows physicians/suppliers to forward only those claims that are needed by other payers for secondary/tertiary payment. This eliminates the need for physicians and suppliers darkening individually identifiable data on the SPR, as they may do today, that does not pertain to the claim for which they are requesting payment.
- Receive updates to claim adjustment reason codes and remittance advice remark codes three times a year. Physicians and suppliers can sign up on their carrier or DMERC website to be notified of these updates.
- Eliminates physical filing and storage space needs.

Providers using MREP have told CMS:

"I am very impressed with the free easy print software. It works great - and I am finding it is a great timesaver for billing secondaries to denial management. Thank you."

"We love our Easy Print Software and so do our other 17 providers that this business office supports."

"With the latest update we like the claim detail printing when we print the EOB."

MREP software information (including how to obtain a free copy) is available on Medicare contractor websites. To learn more about the new MREP software and how to receive the HIPAA 835, physicians and suppliers should contact their Medicare carrier or DMERC. Medicare Part B Electronic Data Interchange (EDI) helpline phone numbers are available on the CMS website at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/*.

The toll-free number for First Coast Service Options, Inc. Electronic Data Interchange helpline is

FL: 1-904-791-8767, option 1
CT: 1-203-639-3160, option 1

Medicare Remit Easy Print Version 1.7 Available to Download!

Version 1.7 includes the latest version of the claim adjustment reason codes and the remittance advice remark codes, as well as fixes for importing 835 files. These fixes help you specifically identify any problems encountered while importing your 835 with an Import Exception Summary report!

In addition, there are some documentation changes to the user guide. Remember you can save time and money by taking advantage of **FREE** Medicare Remit Easy Print (MREP) software now available to view and print the HIPAA compliant 835!

In order to use the latest version of MREP (Version 1.7), you must click on the link and download the software in its entirety: *http://www.cms.hhs.gov/AccesstoDataApplication/02_MedicareRemitEasyPrint.asp#TopOfPage*

2005 Revised American National Standards Institute X12N 837 Professional Health Care Claim Companion Document

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians and suppliers who submit electronic X12N 837 claim forms to Medicare carriers, including durable medical equipment regional carriers (DMERCs).

Background

The Centers for Medicare & Medicaid Services (CMS) is updating the current inbound 837 Professional companion document to provide revisions, correct errors, and implement additional language to cover the new national provider identifier (NPI).

This companion document, attached to CR 4260, supplements (but does not contradict) the X12N 837 Professional Implementation Guide and clarifies Medicare carrier and DMERC expectations regarding data/claim submission, processing, and adjudication. The revised companion guide will be available through your Medicare carrier and DMERC via their newsletter, website, and and/or list serve postings.

Key Points

The most important changes to the X12N 837 Professional Health Care Claim Companion Document clarify the specific processing or adjudication of the X12 837, and include the following:

Additions

- New NPI information statement – "The National Provider Identifier (NPI) must be submitted in the NM109 segment (NM108 = XX)";
- Revised taxonomy code set statement for an updated Washington Publishing Company URL, which is http://www.wpc-edi.com/codes/taxonomy;
- New "Application Receiver Code" title to GS03 statement;

Corrections/Clarifications

- Corrected qualifier statement to show that only valid qualifiers may be submitted and qualifiers submitted for Medicare processing that are not defined for use by Medicare could result in claim/transaction rejection;
- Correction of the SV104 anesthesia value statement - changing "units" to "minutes" and correcting the implementation guide page reference from "400" to "403";
- Clarification of the SV104 and PS102 language to show that negative values submitted in these fields could result in claim rejection.

Additional Information

Please note the following message, which will be included in the revised X12N 837 companion document:

"The Health Insurance Portability and Accountability Act (HIPAA) requires that Medicare, and all other health insurance payers in the United States, comply with the EDI standards for health care as established by the Secretary of Health and Human Services. The X12N 837 implementation guides have been established as the standards of compliance for submission of claims for all services, supplies, equipment, and health care other than retail pharmacy prescription drug claims. The implementation guides for each X12 transaction adopted as a HIPAA standard are available electronically at *http://www.wpc-edi.com*. This companion document supplements, but does not contradict any requirements in the X12N 837 Professional Implementation Guide."

Attestation Form for Conducting Real Time Eligibility Inquiries with Medicare

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals. This information was previously published in the Second Quarter 2006 Medicare B Update! pages 50-51.

Note: This article was revised on January 31, 2006, to change the effective date from October 1, 2006, to October 1, 2005. All other information remains the same.

Provider Types Affected

Providers who access the 270/271 health care eligibility inquiry and response application in real time

Provider Action Needed

STOP – Impact to You

Beginning September 1, 2005, an on-line attestation form (*Trading Partner Agreement for Submission of 270s to Medicare on a Real-Time Basis)* must be completed by submitters authenticated by the Centers for Medicare & Medicaid Services (CMS) to conduct 270/271 transactions with CMS before providers may access the real-time 270/271 health care eligibility inquiry and response application.

CAUTION – What You Need to Know

Submitters requesting access to the Medicare beneficiary database must follow the procedure outlined in the *Additional Information* section below.

GO – What You Need to Do

Please be sure to fill out this new agreement form located at *http://www.cms.hhs.gov/it* so you can conduct 270/271 transactions with Medicare.

Background

The purpose of Change Request (CR) 4093 is to alert Medicare providers to the revision in the *Medicare Claims Processing Manual*, Chapter 31 (ANSI X12N Formats Other than Claims or Remittance).

This revision addresses the standards for Medicare beneficiary eligibility inquiries, and creates the database and infrastructure needed to provide a real-time, centralized Health Insurance Portability and Accountability Act (HIPAA) compliant Health Care Eligibility Benefit Inquiry and Response transaction (270/271).

Additional Information

Access Process for Clearinghouses/Provider

Beginning September 1, 2005:

- The Medicare Eligibility Integration Contractor (MEIC) will e-mail the on-line attestation form outlining security and privacy procedures for submitters already submitting authenticated 270 transactions on a real time basis.
- Each Submitter should complete the form in its entirety and transmit it back via e-mail to *MCAREHD@emdeon.com.*

Beginning October 1, 2005:

- Submitters will be able to access the appropriate forms for the CMS 270/271 Medicare Eligibility transaction at: *http://www.cms.hhs.gov/AccessToDataApplication*
- The submitter must provide the information requested on the form electronically and click on the appropriate assurances. If the submitter does not consent to the terms of the agreement, by appropriately completing the form, the access process will be terminated.
- A copy of the appropriately completed form must be electronically submitted to CMS. Once CMS has the completed form, it will be authenticated, at which time the submitter will then be directed to complete an Medicare Data Communications Network (MDCN) connectivity form and submit it electronically in order to be connected to the 270/271 eligibility database.

CMS staff will make sure that all of the necessary information is provided on the form, and will ensure the complete connectivity to the 270/271 application.

A CMS contractor known as the Medicare Eligibility Integration Contractor (MEIC) will contact the submitter in order to authenticate the accessing entity's identity.

Once authentication has been completed, the MEIC will provide the Clearinghouses, Providers, and Trading Partners with a submitter identification (ID) that must be used on all 270/271 transactions.

The MDCN extranet application is suitable for many providers that can create, send, and receive complete X12 eligibility transactions. CMS will soon offer a second solution for providers that desire to conduct the transaction using the Direct Data Entry (DDE) version. The DDE version will allow all approved providers to conduct eligibility transactions over the public Internet at no cost to the provider.

Please note that in order to access the MDCN, an entity must obtain the necessary telecommunication software from the AT&T reseller on its own. AT&T Resellers and contact cumbers include the following:

- IVANS: *http://www.ivans.com*; Telephone: 1-800-548-2675
- McKesson: *http://www.mckesson.com*; Telephone: 1-800-782-7426; Key option 5, then key option 8

MEIC Helpdesk Support

You may also contact the MEIC help desk for connectivity issues on Monday through Friday, 7:00 a.m. - 9:00 p.m. EST; Telephone: 1-866-324-7315; E-mail address: *MCARE@cms.hhs.gov*.

FRAUD AND ABUSE

An Open Letter to Health Care Providers from the Inspector General

This open letter discusses certain of my perspectives on compliance, the resolution of health care fraud cases, corporate integrity agreements (CIAs), and the OIG's provider self-disclosure protocol (SDP). I am also announcing an initiative that promotes the use of the SDP to resolve civil monetary penalty (CMP) liability under the physician self-referral and anti-kickback statutes for financial arrangements between hospitals and physicians.

In addition to working with our law enforcement partners to sanction companies and individuals who violate the law, OIG also commits substantial resources to promote voluntary compliance by the health care industry. Our guidance to the industry, in the form of advisory opinions, special fraud alerts, special advisory bulletins, and compliance program guidance, offers substantive assistance to program participants committed to promoting ethical and lawful conduct in their organizations. Examples of recent guidance include a special advisory bulletin in concerning patient assistance programs for Medicare Part D enrollees, and a supplemental compliance program guidance for hospitals. All of our compliance materials may be found at OIG's website, *http://www.oig.hhs.gov*.

When a health care provider is alleged to have violated the law, OIG's first priority is to protect the Department's programs and their beneficiaries. OIG has several tools available for pursuing this goal, including program exclusion, CMPs, and integrity agreements. We will continue to seek the exclusion of providers that demonstrate a lack of integrity, or that provide substandard care to beneficiaries. For those providers that demonstrate the requisite level of trustworthiness and that also have in place, or are willing to develop, an effective compliance program, OIG will waive its exclusion authority concurrent with resolution of monetary liability under the False Claims Act and the CMP Law. Typically, these settlements include an integrity agreement between OIG and the provider.

Effective compliance systems are key to strengthening the integrity of the health care system. OIG integrity agreements have been a catalyst for change in corporate culture, and can result in the development of comprehensive internal control systems. Our communications with providers during the course of our compliance monitoring efforts have also enhanced compliance within their organizations.

While we are committed to working collaboratively with providers operating under integrity agreements, some providers fail to demonstrate a commitment to compliance even while operating under such agreements. Integrity agreements typically include contractual remedies for breach of the agreement, including stipulated penalties and exclusion from federal health care programs. Since 1999, OIG has imposed stipulated penalties totaling about $300,000 in 21 cases where providers have failed to meet explicit requirements of their integrity agreements. In a recent case involving repeated and flagrant violations of a CIA, we excluded a hospital.

The OIG's November 2001 "Open Letter to Health Care Providers" continues to guide decisions about whether to require an integrity agreement and the specific terms of these agreements. Many providers have independently developed robust and effective compliance programs, which include internal auditing mechanisms. In appropriate cases, we have agreed to reduce the obligation on providers settling health care fraud matters by entering into certification of compliance agreements (CCAs), rather than more extensive CIAs. CCAs require providers to certify that they will continue to operate their existing compliance programs for a fixed term, typically three years, rather than enter into a more extensive CIA with a five-year term. CCAs do not require independent review organizations to conduct or verify audits or claims reviews.

A provider's self-disclosure of conduct continues to be an important factor in determining whether a CCA is appropriate, because detection and prompt disclosure of potential fraud are evidence of an effective compliance program. The OIG's 1998 SDP (available on OIG website) sets forth a mechanism for providers to investigate, quantify, and resolve potential fraud matters. Consistent with the 2001 open letter, we have required CIAs in only 27 of the 136 self-disclosures resolved with a monetary payment.

OIG has heard from hospitals that, through their compliance programs, they are discovering improper arrangements under the physician self-referral law (42 U.S.C. section 1395nn) and are seeking a way to resolve violations. The SDP is one vehicle to resolve this type of administrative liability. OIG has the authority to impose CMPs of up to $15,000 for each service billed in knowing violation of the physician self-referral law, and assessments of up to three times the amount claimed for such services (see 42 U.S.C. section 1395nn(g)(3)). Hospitals and physicians also have potential liability for these arrangements under OIG's anti-kickback CMP (see 42 U.S.C. section 1320a-7a(a)(7)), which authorizes a penalty of $50,000 for each kickback, plus an assessment of not more than three times the total amount of remuneration offered, paid, solicited, or received. In addition to CMPs, OIG may also seek exclusion under these authorities.

An Open Letter to Health Care Providers from the Inspector General, continued

We are now seeking to increase awareness in the hospital and physician communities of a way to resolve conduct that may result in liability under the OIG's CMP authorities for physician self-referral and anti-kickback violations. This new initiative supplements the SDP by providing guidance on how these types of disclosures will be resolved. The initiative incorporates the SDP process, whereby OIG confers with the Department of Justice (DOJ) to ensure that it is aware of each disclosure and has an opportunity to opine before OIG accepts a provider into the Protocol and is presented with the results of OIG's review of the SDP matter before it is resolved under OIG's CMP authorities. It is important to stress that OIG's agreement to resolve an SDP matter is not binding upon DOJ.

The initiative is limited to matters that, in the provider's reasonable assessment, involve conduct that subjects the provider to CMP liability under the OIG's physician self-referral and anti-kickback authorities-in particular, situations involving a financial benefit knowingly conferred by a hospital upon one or more physicians. The financial benefit conferred upon a physician may take various forms, for example, an arrangement under which the physician pays the hospital below fair market value for a good or service (e.g., lease of office space).

Because multiple OIG authorities are implicated, a provider's liability in these cases typically falls along a continuum—the CMP damages calculation for physician self-referral violations is based on the number and dollar value of improper claims, while the CMP damages calculation for kickbacks is based on the number and dollar value of improper payments or remuneration. Subject to the facts and circumstances of the case, OIG will generally settle SDP matters for an amount near the lower end of this continuum, i.e., a multiplier of the value of the financial benefit conferred by the hospital upon the physician(s).

A provider's participation in the SDP is contingent upon full cooperation and complete disclosure of the facts and circumstances surrounding the violation. Providers will be removed from participation in the initiative unless they disclose in good faith and timely perform the required self-assessment, including quantifying the financial benefits conferred upon the physician(s) and quantify the full amount of the overpayment. The degree of the provider's cooperation is considered when determining the appropriate terms of an administrative settlement. OIG will also consider the provider's existing compliance program when evaluating whether a CIA, CCA, or no additional compliance measures will be required.

This new self-disclosure initiative will serve as an additional opportunity for providers to work collaboratively with OIG and to tae responsibility for further strengthening the integrity of our health care system. I look forward to continuing our joint efforts to promote compliance in the federal health care programs. ❖

Source: Mr. Daniel L. Levinson, Inspector General, April 24, 2006

Revised CMS-1500 Claim Form

CMS has issued the following "MLN Matters... Information for Medicare Providers" article.

Provider Types Affected

Physicians, providers, and suppliers who are excluded from the mandatory electronic claims submission requirements and submit claims to Medicare carriers using the CMS-1500 paper claim form

Important Points to Remember

CR4293 describes the claim form **CMS-1500 (12-90)** that is being revised to accommodate the reporting of the National Provider Identifier (NPI) and will then be named **CMS-1500 (08-05).** The following timeline outlines the schedule for using the revised CMS-1500 claim form:

- October 1, 2006: Health plans, clearinghouses, and other information support vendors should be ready to handle and accept the revised CMS-1500 (08/05) claim form.
- October 1, 2006 – January 31, 2007: Providers can use either the current CMS-1500 (12/90) version or the revised CMS-1500 (08/05) version of the claim form.
- February 1, 2007: The current CMS-1500 (12/90) version of the claim form is discontinued; only the revised CMS-1500 (08/05) form is to be used. All rebilling of claims should use the revised CMS-1500 (08/05) form from this date forward, even though earlier submissions may have been on the current CMS-1500 (12/90) claim form.

Background

The Form CMS-1500 form answers the needs of many health insurers. It is the basic form prescribed by the Centers for Medicare & Medicaid Services (CMS) for the Medicare program and is accepted only from physicians and suppliers that are excluded from the mandatory electronic claims submission requirements set forth in the Administrative Simplification Compliance Act, Pub.L. 107-105 (ASCA), and the implementing regulation at 42 CFR 424.32.

The CMS-1500 (12-90) claim form is being revised to accommodate the reporting of the National Provider Identifier (NPI). The intent of the new form is to best accommodate the NPI with minimal changes to the current claim form. The CMS-1500 (08-05) version will be effective October 1, 2006, but will not be mandated for use until February 1, 2007. Therefore, there will be a period when the current and the revised forms will both be acceptable.

The change log that lists the various changes made to the CMS-1500 (08-05) version can be viewed at the National Uniform Claim Committee (NUCC) website at *http://www.nucc.org/images/stories/PDF/change_log.pdf.*

Implementation

The implementation date for the instruction is October 2, 2006

Additional Information

The official instructions issued to your Intermediary regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R899CP.pdf* on the CMS website.

If you have questions, please contact your Medicare carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

NATIONAL PROVIDER IDENTIFIER

NPI – Medicare Policy on Subpart Designation

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Provider types affected include organization health care providers and suppliers who are covered entities under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and who are enrolled in the Medicare program. These are certified providers and suppliers, supplier groups and supplier organizations, and suppliers of durable medical equipment, prosthetics, orthotics and supplies (DMEPOS).

(This information does not apply to health care providers who are enrolled in Medicare as individual practitioners, such as physicians and nurse practitioners, nor does it apply to sole proprietors.)

Key Points

- Medicare is transitioning from the provider identifiers it currently uses in HIPAA standard transactions to the new National Provider Identifier, or NPI.
- For Medicare organization health care providers, the current identifiers could include:
- Online Survey Certification and Reporting (OSCAR) system numbers;
- National Supplier Clearinghouse (NSC) numbers;
- Provider Identification Numbers (PINs); and
- Unique Physician Identification Numbers (UPINs) used by Medicare.

These numbers are now considered legacy identifiers or legacy numbers.
Medicare is transitioning from these legacy identifiers to **National Provider Identifiers**, or **NPIs**.

Note: When applying for an NPI, Medicare providers are urged to include their legacy numbers, particularly their Medicare legacy number, on the NPI application form.

- By regulation, Medicare organization health care providers who are HIPAA covered entities must obtain NPIs. The NPIs will replace the identifiers currently in use in standard transactions with Medicare and with other health plans. Additionally, these **health care providers must determine if they have subparts that need to be uniquely identified** in standard transactions with their own NPIs.

Background

Organization health care providers are corporations, partnerships, or other types of businesses that are considered separate from an individual by the state in which they exist. Subparts of such organization health care providers are also organizations. All of these health care providers would apply for NPIs as organizations (Entity Type 2).

Note: In terms of NPI assignment, an Individual is an Entity Type 1 (Individual), and is eligible for a single NPI. As an individual, a physician or nurse practitioner, for example, as well as a sole proprietor/sole proprietorship, cannot have subparts and cannot designate subparts.

Most Medicare organization health care providers (Entity Type 2 providers) send electronic claims to Medicare (standard transactions), making them covered health care providers (HIPAA covered entities).

Subpart Designation Guidelines

Covered organization health care providers are responsible for determining if they have "subparts" that need to have NPIs. If they do, the covered organization health care providers must ensure that the subparts obtain their own unique NPIs, or they must obtain them for them.

Below are some guidelines to help determine if an enrolled Medicare organization health care provider has a subpart, which will need its own unique NPI.

Regarding all of the entities that could be considered subparts:

- A subpart is not itself a separate legal entity, but is a part of a covered organization healthcare provider that is a legal entity. (All covered entities under HIPAA are legal entities.)
- A subpart furnishes health care as defined at 45 CFR 160.103. (This information can be found at *http://www.hhs.gov/ocr/regtext.html* on the Department of Health and Human Services (DHHS) website.)

Regarding some or all of the entities that a Medicare covered organization health care provider could consider as subparts:

- A subpart may or may not be located at the same location as the covered organization health care provider of which it is a part.
- A subpart may or may not have a Taxonomy (Medicare specialty) that is the same as the covered organization health care provider of which it is a part.

NPI – Medicare Policy on Subpart Designation, continued

Federal statutes or regulations pertaining to requirements for the unique identification of enrolled Medicare providers may relate to entities that could be considered subparts according to the discussion in the NPI Final Rule. If such statutes or regulations exist, the health care providers to whom they apply would need NPIs in order to ensure they can continue to be uniquely identified.

- A subpart that conducts any of the HIPAA standard transactions separately from the covered organization health care provider of which it is a part must have its own unique NPI.

Medicare Organization Subpart Examples

Enrolled Certified Providers and Suppliers

An enrolled provider (a hospital) owns 10 home health agencies, all operating under the TIN (Tax Identification Number) of the hospital. Because the hospital and each of the 10 home health agencies is separately surveyed and enters into its own provider agreement with Medicare, Medicare encourages that the hospital mirror its Medicare enrollment and obtain a total of 11 unique NPIs in order to help avoid claims processing delays (one NPI for the hospital, and one for each of the 10 home health agencies).

Enrolled Supplier Group or Supplier Organization

An enrolled Independent Diagnostic Testing Facility (IDTF) has four different locations, and each one must be separately inspected by the carrier. All four locations operate under a single TIN. Because each location is separately inspected in order to enroll in Medicare, Medicare encourages the IDTF to mirror its Medicare enrollment and obtain a total of four unique NPIs in order to help avoid claims processing delays (one NPI for each location).

Enrolled Suppliers of Durable Medical Equipment, Prosthetics, Orthotics and Supplies (DMEPOS)

Each enrolled supplier of DMEPOS that is a covered entity under HIPAA must designate each practice location (if it has more than one) as a subpart and ensure that each subpart obtains its own unique NPI. Federal regulations require that each location of a Medicare DMEPOS supplier have its own unique billing number.

In order to comply with that regulation, each location must have its own unique NPI.

Please note that regardless of how subparts are determined and NPIs obtained, Medicare payments, by law, may be made only to an enrolled Medicare provider or supplier.

Important Medicare NPI Implementation Dates

January 3, 2006 - October 1, 2006

Medicare systems will accept claims with an NPI, but an existing legacy Medicare number must also be on the claim. Note that CMS claims processing systems will reject, as unprocessable, any claim that includes only an NPI.

Medicare will be capable of sending the NPI as primary provider identifier and legacy identifier as a secondary identifier in outbound claims, claim status response, and eligibility benefit response electronic transactions.

October 2, 2006 - May 22, 2007

CMS systems will accept an existing legacy Medicare billing number and/or an NPI on claims. If there is any issue with the provider's NPI and no Medicare legacy identifier is submitted, the provider may not be paid for the claim.

Therefore, Medicare strongly recommends that providers, clearinghouses, and billing services continue to submit the Medicare legacy identifier as a secondary identifier.

Medicare will be capable of sending the NPI as primary provider identifier and legacy identifier as a secondary identifier in outbound claim, claim status response, remittance advice (electronic but not paper), and eligibility response electronic transactions.

May 23, 2007 – Forward

CMS systems will only accept NPI numbers. Small health plans have an additional year to be NPI compliant.

Final Notes About NPIs

With regard to enrolled organization health care providers or subparts who **bill more than one** Medicare contractor:

- An enrolled organization health care provider or subpart is expected to use a
- single (the same) NPI when billing more than one Medicare contractor.
- For example, a physician group practice billing a Maryland carrier and also billing a Pennsylvania carrier would use a single (the same) NPI to bill both carriers.

With regard to enrolled organization health care providers or subparts who bill **more than one type** of Medicare contractor:

- Generally, the type of service being reported on a Medicare claim determines the type of Medicare contractor who processes the claim. Medicare will expect an enrolled organization health care provider or subpart to use a single (the same) NPI when billing more than one type (fiscal intermediary, carrier, RHHI, DMERC) of Medicare contractor.
- In certain situations, Medicare requires that the organization health care provider (or possibly even a subpart) enroll in Medicare as **more than one type of provider**.

For example, an ambulatory surgical center enrolls in Medicare as a Certified Supplier, and bills its services to a carrier. If the ambulatory surgical center also sells durable medical equipment, it must also enroll in Medicare as a Supplier of DME and bill the DME to a DMERC. This ambulatory surgical center would obtain a single NPI and use it to bill the carrier and the DMERC.

NPI – Medicare Policy on Subpart Designation, continued

- Medicare expects that this ambulatory surgical center would report two different taxonomies when it applies for its NPI:
- Ambulatory Health Care Facility—Clinic/Center - Ambulatory Surgical (261QA1903X); and
- Suppliers—Durable Medical Equipment & Medical Supplies (332B00000X) or the appropriate sub-specialization under the 332B00000X specialization.

With regard to enrolled organization health care providers who determine subparts for **reasons unrelated to** Medicare statutes, regulations or policies:

- Consistent with the NPI Final Rule, covered organization health care providers may designate subparts for reasons that are not necessarily related to Medicare statutes or regulations.
- If a Medicare organization health care provider designates as subparts entities **other than** those who are enrolled Medicare providers, and those subparts obtain their own NPIs and use those NPIs to identify themselves in HIPAA standard transactions with Medicare, **those NPIs will not identify enrolled Medicare providers**. Medicare is not required to enroll them.

NPI Final Rule, page 3441 says the following: "If an organization health care provider consists of subparts that are identified with their own unique NPIs, a health plan may decide to enroll none, one, or a limited number of them (and to use only the NPIs of the one(s) it enrolls."

Additional Information

Medicare's NPI Responsibilities

Medicare will:

- Use NPIs to **identify** health care providers and subparts in HIPAA standard transactions; NPI Final Rule, page 3469: section 162.412(a): "A health plan must use the NPI of any health care provider (or subpart(s), if applicable) that has been assigned an NPI to identify that health care provider on all standard transactions where that health care provider's identifier is required."
- Ensure that the NPIs it receives in HIPAA standard transactions are valid;
- Reject HIPAA standard transactions that contain invalid NPIs.

Valid NPIs, however, like the provider identifiers used today, must be "known" to Medicare. Medicare is not permitted to make payments for services rendered by non-Medicare providers, nor is it permitted to reimburse providers who are not enrolled in the Medicare program. Medicare will return, with appropriate messages, any HIPAA standard transactions containing valid but unrecognizable NPIs.

Related Links

In preparation for the release of the Electronic File Interchange (EFI) system, CMS released several documents on the EFI process. EFI, also referred to as "bulk enumeration," is a process by which a health care provider or group of providers can have a particular organization (the "EFIO") apply for NPIs on their behalf.

EFI documents posted to the Web include a summary, user's guide, and technical companion manual. Visit *http://www.cms.hhs.gov/NationalProvIdentStand/07_efi.asp* to download these new items.

NPI-related information, including how to apply for an NPI and a new fact sheet for health care providers who are individuals, is available at *http://www.cms.hhs.gov/NationalProvIdentStand/* on the CMS website.

The NPI Final Rule can be found at: *http://www.cms.hhs.gov/NationalProvIdentStand/Downloads/NPIfinalrule.pdf* on the CMS website.

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

NPI Applications Through the Electronic File Interchange Capability Starts May 1, 2006

Beginning May 1, 2006, the Centers for Medicare & Medicaid Services (CMS) announces the capability for health industry organizations to submit health care providers' applications for National Provider Identifiers (NPIs) to the National Plan and Provider Enumeration System (NPPES) via Electronic File Interchange (EFI). With EFI, a CMS-approved health industry organization can submit a health care provider's NPI application data, along with the application data of many other health care providers, in a single electronic file in a CMS-specified format.

EFI is an alternative to health care providers having to apply for their NPI via the Web based or paper application process.

After the NPPES processes a file, it makes available to the organization a downloadable file containing the NPIs of the enumerated health care providers.

NPI Applications Through the Electronic File Interchange Capability, continued

Interested health industry organizations should avail themselves of the EFI materials available from the CMS NPI page (*http://www.cms.hhs.gov/NationalProvIdentStand/*) and from the NPPES page (*https://nppes.cms.hhs.gov*) before downloading and completing the certification statement (available at *https://nppes.cms.hhs.gov*) and registering as EFI organizations. A completed certification statement must be approved by CMS before an interested health industry organization can participate in EFI.

NPI Tip

When applying for your NPI, CMS urges you to include your legacy identifiers, not only for Medicare but also for all payers. If reporting a Medicaid number, include the associated State name. This information is critical for payers in the development of crosswalks to aid in the transition to the NPI CMS has released three new educational products on the National Provider Identifier (NPI):

- **"Guidance for Organization Health Care Providers Who Apply for National Provider Identifiers (NPIs) for Their Health Care Provider Employees" Tip Sheet**— contains helpful information for organization health care providers who wish to apply for NPIs, or submit updates using the NPPES Web-based process, on behalf of their employed health care providers. This is NOT the EFI process.
- **"Tips for Health Care Professionals - Preparing Your Office Staff for NPI" Tip Sheet** - provides basic steps to prepare your office staff, and your business, for NPI implementation.
- **"NPI Overview" PowerPoint Presentation** - this presentation was presented by a CMS staff member at a recent WEDI meeting and contains basic information on the NPI that is suitable for self-education, as well as training purposes.

Visit the Educational Resources page on CMS' NPI website at http://www.cms.hhs.gov/NationalProvIdentStand/04_education.asp to view these new products.

Stage 1 Use and Editing of National Provider Identifier Numbers Received in Electronic Data Interchange Transactions, via Direct Data Entry Screens, or Paper Claim Forms

Provider Types Affected

Physicians, providers, and suppliers who submit claims to Medicare carriers, including durable medical equipment regional carriers (DMERCs), fiscal intermediaries (FIs), and regional home health intermediaries (RHHIs)

Provider Action Needed

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 requires issuance of a unique national provider identifier (NPI) to each physician, supplier, and other provider of health care (45 CFR Part 162, Subpart D (162.402-162.414).

To comply with this requirement, the Centers for Medicare & Medicaid Services (CMS) began accepting applications for and issuing NPIs on May 23, 2005.

Applications can be made by mail, and online at *https://nppes.cms.hhs.gov* on the CMS website.

CMS has endorsed the Workgroup for Electronic Data Interchange (WEDI) Dual NPI-Legacy Identifier strategy for cross-health care industry implementation of the NPI.

The *Dual Use of NPI & Legacy Identifiers* paper is available at: *http://www.wedi.org/snip/public/articles/.* (Once at the site, scroll down and look for the paper issued on Janury 22, 2006.)

The remainder of this article describes CMS' current plans for a staged process leading to full implementation of the adoption of the NPI in Medicare transactions involving providers.

Background

Implementation involves acceptance and processing of transactions that use the NPI in lieu of the previously used OSCAR, UPIN, PIN, and National Supplier Clearinghouse (NSC) numbers. The WEDI strategy provides for four stages during which system change schedules of trading partners will occur independently of each other.

Medicare fee-for-service (FFS) transaction implementation for NPI will occur in the following stages:

Stage 1 (January 1, 2006 – October 1, 2006)

During this stage, the NPI will be accepted on inbound claims, other than NCPDP claims, and other transactions but will not be used for Medicare processing.

CR 4320 focuses primarily on Stage 1 of the NPI implementation process. During stage 1:

- The "Legacy Identifier" (pre-NPI provider identifiers) will be used to identify providers while Medicare carriers, DMERCs, and intermediaries make sure that X12 837 version 4010A1 claims and other X12 HIPAA adopted transactions are not rejected due to the presence of an NPI. (Transactions may be submitted with or without an NPI during stage 1, as long as the Medicare legacy identifier is still reported.)
- Additionally, NPIs will be edited to verify that they meet basic structure requirements established for NPIs.

Stage 1 Use and Editing of NPI Received in EDI Transactions, continued

- Medicare will allow NPIs on the X12 270 version 4010A1 eligibility inquiry and the 276 claim status inquiry and return them in the respective X12 271 or 277 response, as long as the legacy identifier is also reported in the 270 or the 276.
- NPIs, as well as legacy identifiers, will be reported in coordination of benefit claims sent to trading partners when submitted on claims submitted to Medicare.
- NPIs will NOT be reported in the following outbound transactions during Stage 1, even if an NPI was submitted on related claims:

- X12 835 claims; or
- SPRs (standard paper remittance) formats.
- Medicare carriers, DMERCs, and intermediaries must **reject the following transactions if submitted with NPIs**, since it is not possible to report both NPIs and legacy identifiers for providers in these transactions:
- NCPDP claims;
- DDE claims, claim status and eligibility inquiries;
- UB-92 (CMS-1450) paper claims (the National Uniform Billing Committee [NUBC] announced that the use of the UB-04, which is able to report the NPI and a legacy identifier for each provider involved with a claim, will begin March 1, 2007, and that May 22, 2007, is the last day that a payer should accept a UB-92 form). Since it is not possible to report both a legacy identifier and an NPI on the UB-92, submitters of the UB-92 will be limited to reporting of their legacy identifier on those claims; and
- CMS-1500 paper claims until the National Uniform Claim Committee implements a revised 1500 and CMS announces its implementation of that revised form.

  The NUCC has approved a revised CMS-1500 form and has announced that payers should begin to accept the revised form effective October 1, 2006. Between October 1, 2006, and January 31, 2007, payers should accept either the current or the revised CMS-1500 form. Effective February 1, 2007, and later, payers should accept only the revised CMS-1500 form. Both the NPI and the legacy identifier can be reported on the revised CMS-1500 form, but not on the form currently in use. Until a provider begins to use the revised form, that provider will be limited to submission of legacy identifiers on the non-revised CMS-1500 form.

Stage 2: (October 2, 2006 – May 22, 2007)
During this stage:

- Providers, clearinghouses, and billing services will be directed to provide a Medicare legacy identifier as a secondary identifier when NPIs are submitted as the primary provider identifiers in their X12 837 claims.
- The Legacy Identifier alone can still be used to identify those providers that have not yet obtained an NPI.
- The transitional Dual NPI-Legacy Identifier strategy includes the development of a crosswalk between Medicare legacy numbers and their associated NPIs. The crosswalk should help Medicare validate most NPIs to ascertain that they were actually issued to the providers for which reported, and will help to identify transcription errors in a reported NPI. The Crosswalk will begin operating at the onset of stage 2.
- If you use free billing software supplied by your carrier, DMERC, or intermediary/RHHI, it will be modified for stage 2 to permit reporting of your NPI, once received, and your legacy Medicare provider identifier. You will need to download the new version of the software when notified it is available.
- The 835 PC-Print and Easy Print software for printing of remittances will also be updated for stage 2 to permit reporting of NPIs as well as legacy numbers when both are reported in an 835 transaction. Be sure to download the new version of that software when notified it is available.
- DDE screens will be modified for this stage to accept and return both NPIs, when available, and legacy identifiers.
- NPIs, when available in Medicare provider files, as well as legacy identifiers will be returned in 835 transactions and SPRs during stage 2.

Stage 3 (May 23, 2007 – and Later)

Stage 3 involves the transition to full use of the NPI for acceptance and processing of transactions, **except** for coordination of benefits (COB) claims that Medicare sends to small trading partners.

- HIPAA prohibits the reporting of any provider legacy identifiers to other than small health plans during this period (e.g., plans with less than $5 million in annual receipts).
- All claims, including NCPDP claims, and 270, 276, and 277 attachment transactions sent to Medicare, must contain the NPI in lieu of the legacy identifier (please see Stage 4 below regarding claims). Those that do not are to be rejected.
- Legacy identifiers will no longer be sent to coordination of benefits (COB) trading partners or on outbound electronic or paper Medicare transactions or correspondence.

Stage 4 (May 23, 2007 – May 22, 2008)

Stage 4 involves completion of transition to the full use of NPI by all small trading partners. NPIs, rather than legacy identifiers, will be reported in all 837 version 4010A COB and NCPDP claims sent to small trading partners.

Additional Information

CR 4320 is the official instruction issued to your FI, including RHHI, or carrier, including DMERC, regarding changes mentioned in this article. CR 4320 can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R204OTN.pdf* on the CMS website.

Stage 1 Use and Editing of NPI Received in EDI Transactions, continued

You may also want to review *Medlearn Matters* Special Edition SE0555, concerning the NPI. That article is available at *http://www.cms.hhs.gov/MedlearnMattersArticles/downloads/SE0555.pdf* on the CMS website.

Please refer to your local FI/RHHI or carrier/DMERC if you have questions about this issue. To find their toll free phone number, go to: *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

NPI Outreach Initiative

NPI Tip

When applying for your National Provider Identifer (NPI), CMS urges you to include your legacy identifiers, not only for Medicare but for all payors. If reporting a Medicaid number, include the associated State name. This information is critical for payors in the development of crosswalks to aid in the transition to the NPI.

New Educational Products

CMS has released three new educational products on the NPI:

Suitable for All Health Care Providers

- A Subparts Fact Sheet that contains high-level information on Medicare's guidance on subpart designation. Although the guidance is geared toward Medicare organization providers, non-Medicare organization providers may find it helpful.
- An Electronic File Interchange (EFI) Fact Sheet that contains basic information and links to helpful resources that will prepare providers and their staff for the release of the EFI system. This information is essential for organizations that wish to submit electronic files for bulk enumeration, and may be of interest to any health care provider for whom an organization will be submitting NPI application data.

Suitable for Medicare Providers

- A MLN Matters Article (SE0608) that takes a detailed look at Medicare's guidance on subpart designation and the impact on Medicare providers.

Visit the Educational Resources link at *http://www.cms.hhs.gov/NationalProvIdentStand/* to view these new products, as well as existing products such as four ***MLN Matters*** articles, two fact sheets and the NPI Viewlet.

For more information on private industry NPI outreach, including upcoming meetings, visit the Workgroup for Electronic Data Interchange (WEDI) NPI Outreach Initiative website at *http://www.wedi.org/npioi/index.shtml* on the Web.

Source: Source: Provider Education Resources Listserv, Message 200603-06

GENERAL INFORMATION

Medicare to Stop Mailing Standard Paper Remittance for Providers/ Suppliers Receiving An Electronic Remittance Advice

Beginning June 1, 2006, the standard paper remittance (SPR) received through the mail will no longer be available to providers/suppliers who also receive an electronic remittance advice (ERA), whether the ERA is received directly or through a billing agent, clearinghouse, or other entity representing a provider/supplier.

In response to the provider/supplier communities continued need for SPRs, the Centers for Medicare & Medicare Services (CMS) has developed free software called Medicare Remit Easy Print (MREP) that gives providers/suppliers a tool to read and print a remittance advice (RA) from the HIPAA compliant Health Care Claim Payment/Advice (835) file. The MREP software was designed to incorporate new functionality to save providers/suppliers time and money. The paper output generated by MREP is similar to the SPR format. CMS has worked with other payers to ensure their acceptance of the SPR generated by the MREP software for coordination of benefit claim submission.

Additionally, CMS has worked with clearinghouses to assure similar software is available to read and print an electronic remittance advice (ERA) for those providers/suppliers that utilize clearinghouse services.

We encourage providers/suppliers currently receiving the ERA, who don't use software to read and print RAs from these files, to begin using MREP or other similar software before the June 1st cutoff.

Medicare to Stop Mailing SPR for Providers/Suppliers Receiving An ERA, continued

Additional information is available at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/SE0627.pdf*

For further information regarding MREP software, please go to:

Florida: *http://www.floridamedicare.com/edi_getstarted_edepl.asp#TopOfPage*.

Connecticut: *http://www.connecticutmedicare.com/edi_getstarted_edepl.asp#TopOfPage*.

Source: Pub 100-04, Transmittal 885, Change Request 4376
CMS Joint Signature Memorandum (JSM) 06422, dated May 1, 2006

Suppression of Standard Paper Remittance Advice to Providers and Suppliers Also Receiving Electronic Remittance Advice for 45 Days or More

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

All Medicare providers, physicians, suppliers, and qualified non-physician practitioners billing Medicare carriers and durable medical equipment regional carriers (DMERCs)

Provider Action Needed

STOP – Impact to You

CR 4376 provides notice that beginning June 1, 2006, carriers and DMERCs will stop sending standard paper remittance (SPR) advices to you (or a billing agent, clearinghouse, or other entity representing you) if you have been receiving 835s or electronic remittance advice (ERA) transactions, either directly or through a billing agent, clearinghouse, or other entity representing you, for 45 days or more.

CAUTION – What You Need to Know

If you need a paper copy of a remittance advice for accounts reconciliation or to forward to secondary/tertiary payers, be aware that the Centers for Medicare & Medicaid Services (CMS) has developed software that gives you a tool to view and print an 835 in a readable format locally on your computer. This software is called Medicare Remit Easy Print (MREP). See the *Additional Information* section of this article to learn how to access MREP software. Your clearinghouse may also offer software that allows you to view and print your remittance advice.

GO – What You Need to Do

Make certain that your billing staffs are aware of these changes. Try MREP software to view and print your own remittance and see the benefits for yourself. Or, check with your clearinghouse to see if it provides similar software.

Background

The *Medicare Claims Processing Manual*, Chapter 22, Section 40.1, Remittance Advice, describes the instructions issued by CMS to carriers and DMERCs. The section instructs carriers and DMERCs to eliminate SPRs to those providers/suppliers who were receiving ERA transactions for 45 days or more.

MREP was developed in response to comments CMS received from the provider/supplier community that they need a paper document for accounts reconciliation, and claim submission for secondary/tertiary payments.

Providers/suppliers who use the MREP software package have the ability to print paper remittances and reports that can be used to reconcile accounts receivable, as well as to create document(s) that can be included with claim submissions to secondary/tertiary payers. The output of MREP is similar to the current SPR format.

Benefits of using MREP software include the ability to:

Save Time and Money

You can print remittance information directly from your computer the day the HIPAA 835 is available. No more time is spent waiting for the mail.

Create and Print Special Reports

With MREP, you can run, export, or print several useful reports including:

- **Deductible Service Lines Report**: Shows claim service lines that have deductible amount.
- **Adjusted Service Lines Report**: Shows claims within a single remittance that have a claim status 22 (reversed claim).
- **Denied Service Lines Report**: Shows only claim service lines that have an allowed amount of zero and are associated with a claim that does not have a claim status 22 (reversed claim).

Print and Forward Claims for Other Payers

MREP provides the ability to print remittance information for individual or multiple selected claims, and it allows you to forward only those claims that are needed by other payers for secondary payment. You may view and/or print as many or as few claims as needed. This eliminates the need for you to darken individually identifiable data on the SPR, as you may do today, that does not pertain to the claim for which you are requesting payment.

Suppression of SPR to Providers and Suppliers Also Receiving ERA for 45 Days or More, continued

Navigate and View Remittance Information

MREP organizes and presents information in a manner that makes it easy for you to view. It also provides separate tabs to access the following:

- A list of claims;
- Details for individually selected claims;
- Summary information;
- Glossary information containing Claim Adjustment Reason Codes, Remittance Advice Remark Codes, and their definitions;
- A data view that allows you to look at the various loops and segments containing data in the HIPAA 835; and
- A search function to find claims containing specific information.

Note: MREP software will be revised three times per year to accommodate claim adjustment reason and remittance advice remark code set changes. You can sign up to be notified automatically when a new version of MREP is available at your carrier's/DMERC's website.

Search for Claim(s) Information Quickly and Easily

MREP's search function can help you find a claim (or multiple claims) based on your customized search criteria. Using it, you can search by names, numbers, and even portions of information such as:

- Health Insurance Claim Number (HICN);
- Beneficiary Last Name;
- Internal Control Number (ICN);
- Beneficiary Account Number;
- Procedure Code;
- Service Date; and
- Rendering Provider Number

Note: **MREP's search capability provides a powerful way to save time and money when examining remittance information.**

Eliminate Need for Physical Filing and Storage Space

MREP software imports a HIPAA 835 (once you have received it from your carrier/DMERC) and saves the information as a separate import file to help ensure that the original HIPAA 835 file remains intact.

It also provides an easy-to-use method to archive, restore, and delete these Import files as you maintain your remittance records (further reducing the need for physical filing of printed copies and additional storage space).

As you gain familiarity with the MREP software, you will be able to take advantage of the numerous keystroke shortcuts designed to streamline use of the software and save you time while viewing your remittance information.

Implementation

The implementation date for this instruction is June 1, 2006

Additional Information

To learn about more MREP benefits, download the brochure available at *http://www.cms.hhs.gov/MLNProducts/downloads/remit_easy_print.pdf* on the CMS website.

Or, you can view Special Edition MLN Matters article SE0611 at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/SE0611.pdf* on the CMS website.

If you have questions, please contact your Medicare carrier/DMERC at their toll-free number which may be found at *http://www.cms.hhs.gov/MedlearnProducts/downloads/CallCenterTollNumDirectory.pdf* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

For more information about the MREP software and how to receive the HIPAA 835, please contact your carrier/DMERC. Medicare Part B Electronic Data Interchange (EDI) helpline phone numbers are available at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/* on the CMS website.

The official instructions issued to your carrier/DMERC regarding this change can be found at *http://www.cms.hhs.gov/transmittals/downloads/R885CP.pdf* on the CMS website.

Options for Providers/Suppliers Affected by CR4376: Suppression of Standard Paper Remittance Advice to Providers and Suppliers Also Receiving Electronic Remittance Advice for 45 Days or More

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, suppliers, qualified non-physician practitioners, and other providers billing Medicare carriers, including durable medical equipment regional carriers (DMERCs).

Provider Action Needed

STOP – Impact to You

This article reminds providers that as of June 1, 2006, if you have been receiving **both** an electronic remittance advice (ERA), either directly from your Medicare carrier/DMERC or indirectly from a clearinghouse, billing agent, or other entity representing you, **and** a standard paper remittance (SPR) from your carrier/DMERC for 45 days or more, that **you will no longer be mailed an SPR** by your carrier/DMERC, in accordance with Change Request (CR) 4376.

This article outlines some of the options available to providers who will no longer receive the SPR directly from their carrier/DMERC.

CAUTION – What You Need to Know

Are you receiving an ERA? Make sure you know if and how you receive the ERA. You may be receiving your ERA directly from your carrier/DMERC or you may be receiving your ERA indirectly through a billing agent, clearinghouse, or other entity representing you. No matter how you receive your ERA, if you are also receiving an SPR from your carrier/DMERC in addition to receiving an ERA for 45 days or more, after June 1, 2006, your carrier/DMERC will no longer mail you an SPR. **If you still need both, take appropriate action now.**

GO – What You Need to Do

If you need the SPR, take action **NOW** so you can avoid any business disruption associated with the June 1, 2006, cutoff of the SPR. If your clearinghouse, billing agent, or other entity cannot offer a way (e.g. print software) for you to receive or generate a paper remittance, it may be beneficial to explore other options.

Determine which of the following scenarios represents your situation:

You are receiving the ERA directly from your carrier in the HIPAA compliant 835 format:

Use the Medicare Remit Easy Print (MREP) software. * MREP requires that you import ERAs in the HIPAA-compliant 835 format. (See the *Additional Information* section of this article for further information.). MREP is **free** software that allows you to:

- Print the ERA for individual or multiple selected claims in a format mirroring the SPR, so you can forward your remittance to secondary/tertiary payers;
- Easily navigate and view remittance information;
- Quickly access claim information;
- Print and export useful reports about ERAs including denied, adjusted, and deductible service lines;
- Receive the latest version of claim adjustment reason and remittance advice remark code sets, three times a year;
- Archive, restore, and delete imported ERAs; and
- Eliminate physical filing and storage space needs.

*This software was developed by the Centers for Medicare & Medicaid Services (CMS) for use by Medicare providers/suppliers to view and print a Health Insurance Portability and Accountability (HIPAA)-compliant Medicare 835. Medicare has no liability and takes no responsibility for any other use of this software.

You are receiving a HIPAA-compliant 835 from a billing agent, clearinghouse, or other entity:

Use MREP or software offered by the billing agent, clearinghouse, or other entity representing you to view and print your paper remittance advice.

You are receiving the ERA directly in a format that is not the HIPAA compliant 835-format:

Transition to the HIPAA-compliant 835 format now, so you can begin using MREP. CMS ended the contingency plan for non-HIPAA claims, i.e., 837-transaction, in 2005. CMS will be ending the contingency plan for the non-HIPAA remittance advice, i.e., the 835, next.

You are receiving an ERA that is not the HIPAA-compliant 835 format from your billing agent, clearinghouse, or other entity representing youand they do not offer software or other means that allows you to view and print your remittance advice:

Work with them so that they will send you a HIPAA-compliant 835, so you can use MREP.

You have a need for the paper remittance advice and your clearinghouse, billing agent, or other entity representing you is receiving the ERA on your behalf, but does not currently forward the ERA to you:

Work with your clearinghouse, billing agent, or other entity to receive the ERA and use MREP. This may be your situation if the clearinghouse, billing agent, or other entity representing you receives the ERA for you, but until now there has been no business reason to forward the ERA to you.

Options for Providers/Suppliers Affected by CR4376, continued

Background

CMS has an initiative for moving to a more electronic transaction environment and reducing the cost associated with producing and mailing the paper remittances sent by CMS contractors. The *Medicare Claims Processing Manual*, Chapter 22, Section 40.1, Remittance Advice, describes the instructions issued by CMS to carriers and DMERCs. The section instructs carriers and DMERCs to eliminate SPRs to those providers/suppliers who were receiving ERA transactions for 45 days or more.

Implementation

The implementation date is June 1, 2006

Additional Information

To learn about more MREP benefits, download the brochure available at *http://www.cms.hhs.gov/MLNProducts/downloads/remit_easy_print.pdf* on the CMS website. Or, you can view Special Edition MLN Matters article SE0611 at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/SE0611.pdf* or a related MLN Matters article (MM4376) at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM4376.pdf* on the CMS website.

For more information about the MREP software and how to receive the HIPAA 835, please contact your carrier/DMERC. Medicare Part B Electronic Data Interchange (EDI) helpline phone numbers are available at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/* on the CMS website.

If you have other questions, please contact your Medicare carrier/DMERC at their toll-free number, which may be found at *http://www.cms.hhs.gov/MLNProducts/downloads/CallCenterTollNumDirectory.pdf* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

The official instructions (CR4376) issued to your carrier/DMERC regarding this change can be found at *http://www.cms.hhs.gov/transmittals/downloads/R885CP.pdf* on the CMS website.

Note: CMS issued reminders of this change via the Contractor Provider Education Resources Listserv on: April 21, 2006, posted to our provider education website on April 25, 2006. and April 28, 2006, posted to our provider education website on April 28, 2006.

Provider Enrollment in the Medicare Program

CMS has issued the following "MLN Matters... Information for Medicare Providers" article.

Provider Types Affected

All Medicare physicians, providers, and suppliers

What You Need To Know

- You must enroll in the Medicare program in order to receive Medicare payment for covered services that you provide to Medicare beneficiaries.
- The Medicare enrollment application and process are used to collect information about you and to secure the necessary documentation to ensure you are qualified and eligible to enroll in the Medicare program.
- This article contains helpful information about the Medicare enrollment process.

Background

Physicians, providers, and suppliers must enroll in the Medicare program in order to receive Medicare payment for services provided to its beneficiaries.

You can accomplish this enrollment by completing the Medicare enrollment application, in which you provide the information and supporting documentation needed to ascertain your qualifications for, and your eligibility to enroll in, the Medicare program.

When submitted, a designated Medicare fee-for-service contractor (known as a carrier or fiscal intermediary [FI]) will process your application and verify the information that you have provided.

To ensure timely processing of your application, make certain to completely fill out the application and provide all required supporting documentation at the time of filing. Section 17 of the Medicare enrollment application lists the types of supporting documentation that you will need to submit with your enrollment application

To obtain a list of specific supporting documentation that you must submit with your enrollment application, call or visit the Medicare fee-for-service contractor serving your area (see *Additional Information* section below.)

Be aware that, at any time during the enrollment process, your carrier or FI may request documentation to support or validate information that you have reported on your application.

Provider Enrollment in the Medicare Program, continued

Applicants are responsible for providing this documentation in a timely manner.
Failure to provide documentation in a timely manner may delay your enrollment into the Medicare program.

Additional Information

For additional information regarding the Medicare enrollment process, including the mailing address and telephone number for the carrier or FI serving your area, visit *http://www.cms.hhs.gov/MedicareProviderSupEnroll* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Creation of a Second Participation Enrollment Period for 2006

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians who bill Medicare carriers for their services

Key Points

- The Centers for Medicare & Medicaid Services (CMS) is offering a second participation enrollment period for 2006 for physicians.
- This second enrollment period will run for 45 days. It will begin on February 15, 2006, and end on March 31, 2006. Your Medicare carrier will accept any participation enrollment changes for 2006 that are received or post-marked by March 31, 2006.
- Any revisions to the participation election during this new enrollment period will be **retroactive to January 1, 2006**.
- This second enrollment period will allow you to reconsider your decisions in light of the revised 0 percent update stemming from the Deficit Reduction Act of 2005, and the related revision to the 2006 Medicare Physician Fee Schedule (MPFS).
- If you choose to submit your participation election (or withdrawal request) during this second enrollment period, you must begin to bill claims in accordance with your decision once the election is submitted to your local carrier.
- If you do not wish to change your current participation, or non-participation status, you do not need to do anything.

Additional Information

Enrollment Information

- To enroll, please use the **Medicare Participating Physician or Supplier Agreement** (Form CMS-460). A copy of this form is attached to Change Request (CR) 4051, Transmittal R730CP, *Calendar Year (CY) 2006 Participation Enrollment and Medicare Participating Physicians and Suppliers Directory (MEDPARD) Procedures*. This CR can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R730CP.pdf* on the CMS website.
- If you are unable to access the Internet, please contact your Medicare carrier (toll-free telephone numbers are available through the link below) to request a hard copy of the **Medicare Participating Physician or Supplier Agreement** (Form CMS-460).
- The Medicare fee-for-service contractor that serves your state is responsible for processing your **participation election (or withdrawal request).** To locate the mailing address for the Medicare fee-for-service contractor for your state and provider type, please use the link to your carrier's toll free phone number located below.

Note: To avoid processing delays, do *not* mail your application to the Centers for Medicare & Medicaid Services in Baltimore, Maryland.

- Your carrier will not automatically adjust any claims paid for services on or after January 1 based on any participation change made during this second period. However, the carrier will adjust such claims if you bring the claims to their attention.

CR 4346 is the official instruction issued to your carrier regarding changes mentioned in this article. CR 4346 may be found by going to *http://www.cms.hhs.gov/Transmittals/downloads/R210OTN.pdf* on the CMS website.

Please refer to your local carrier if you have questions about this issue. To find your carrier's toll free phone number, go to: *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Rescind Change Request 4177 – Eliminate the Use of Surrogate UPINs on Medicare Claims

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, non-physician practitioners, suppliers, and providers billing Medicare carriers, durable medical equipment regional carriers (DMERCs), fiscal intermediaries (FIs), or regional home health intermediaries (RHHIs) for diagnostic, radiology, consultation services, and equipment

Provider Action Needed

This article is based on Change Request (CR) 5019, which rescinds CR 4177.

CR 4177 eliminated the use of the surrogate Unique Physician Identification Number (UPIN) OTH000 on claims submitted by billers, suppliers, physicians and non-physician practitioners. CR 5019 instructs Medicare contractors to discontinue all work to eliminate the use of the Surrogate UPIN "OTH000" in claims processing, and continue to use Surrogate UPIN "OTH000" for submitted claims and other internal purposes.

Background

The Social Security Act (Section 1833(q); *http://www.ssa.gov/OP_Home/ssact/title18/1833.htm*) requires that:

- All physicians meeting the definition of a physician (Section 1861(r); *http://www.ssa.gov/OP_Home/ssact/title18/1861.htm*) must have a UPIN, **and**
- All claims for services ordered or referred by one of these physicians must include the names and UPINs of the ordering/referring physician.

Currently, durable medical equipment (DME) suppliers, physicians, and nonphysician practitioners are allowed to use a surrogate UPIN to bill for the following:

- Diagnostic services;
- Radiology services;
- Consultation services; and
- Durable medical equipment

CR 4177 (Transmittal R752CP, dated November 10, 2005) instructed Medicare affiliated contractors (carriers, DMERCs, FIs, and RHHIs) not to accept the Surrogate UPIN "OTH000" on Medicare claims submitted by billers, suppliers, physicians, and non-physician practitioners.

However, because of the possibility that this will adversely impact the ability of providers to bill the Medicare program, the Centers for Medicare & Medicaid (CMS) is rescinding CR 4177.

Surrogate UPINs are intended to be used during an interim period when a UPIN has been requested but has not yet been received. Currently, durable medical equipment (DME) suppliers, physicians, and non-physician practitioners are allowed to use a surrogate UPIN to bill for:

- Diagnostic services;
- Radiology services;
- Consultation services; and
- Durable medical equipment.

CR 5019 instructs your Medicare contractor(s) to:

- Discontinue all work to eliminate the use of the surrogate UPIN "OTH000" in claims processing; and
- Continue to use surrogate UPIN "OTH000" for submitted claims and other internal purposes.

Implementation

The implementation date for CR5019 is April 3, 2006.

Additional Information

For complete details, please see the official instruction issued to your carrier/DMERC/FI/RHHI regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R145PI.pdf* on the CMS website.

Inquirers can obtain providers' UPINs *at http://www.upinregistry.com/*.

If you have any questions, please contact your carrier/DMERC/FI/RHHI at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Appeals of Claims Decisions: Administrative Law Judge; Departmental Appeals Board; U.S. District Court Review

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and suppliers who submit Part A or Part B Fee-for-Service claims to Medicare for services

Background

The Medicare claim appeals process was amended by the Medicare, Medicaid and SCHIP Benefits Improvement and Protection Act of 2000 (BIPA). Section 1869(c) of the Social Security Act (the Act), as amended by BIPA, requires a new second level in the administrative appeals process called a *reconsideration*. It is different from the previous first level of appeal for Part A claims performed by fiscal intermediaries (FIs). Reconsiderations will be processed by Qualified Independent Contractors (QICs).

The purpose of this article is to notify you about changes to the manual provisions that address Administrative Law Judge, Departmental Appeals Board, and U.S District Court review levels of appeal.

Key Points

Administrative Law Judge (ALJ) - The Third Level of Appeal

Parties to an appeal who are not satisfied with decisions made by the QIC at the second level of appeal (reconsideration), have the right to request an ALJ hearing as long as all of the ALJ hearing request requirements are met (see *Medicare Claims Processing Manual*, Chapter 29, Section 330 for details). Outlined below is some pertinent information about the ALJ level of the appeal process.

ALJ Hearing Amount in Controversy

Parties requesting an ALJ hearing must meet the amount in controversy requirements:

- The amount remaining in controversy requirement for requests made before January 1, 2006 is $100.
- The amount remaining in controversy will increase to $110 for requests made on or after January 1, 2006.
- Beginning in 2005, for requests made for an ALJ hearing or judicial court review, the dollar amount in controversy requirement will increase by the percentage increase in the medical care component of the consumer price index for all urban consumers (U.S. city average) for July 2003 to the July preceding the year involved. Any amount that is not a multiple of $10 will be rounded to the nearest multiple of $10.

Time Limits and Responsibilities

Decisions: The official ALJ decision is a signed copy of the ALJ decision. When issuing decisions, the ALJ will either:

- Issue a decision based on the request for ALJ hearing; or
- Issue an order of dismissal of the appellant's request for ALJ hearing.

Effectuation (No Agency Referral): Often, the ALJ's decision will require an effectuation action (payment of the claim) on the Medicare contractor's part.

Contractors will effectuate ALJ decisions within 30 days of the receipt of the official ALJ decision if:

- The decision is partially or wholly favorable;
- The decision gives a specific amount to be paid; and
- There is no agency referral to the DAB.

Computation of the Amount (No Agency Referral): If the amount must be computed by the Medicare contractor, the decision must be effectuated within 30 days after the contractor computes the amount to be paid to the appellant. The computation should be done as soon as possible, but no later than 30 calendar days of the date of receipt of the official ALJ decision or effectuation notice.

Clarification (No Agency Referral): If clarification from the ALJ is necessary, then the date of the clarification is considered to be the final determination for purposes of effectuation. If clarification is needed from the physician/supplier (e.g., splitting charges), this clarification should be requested as soon as possible and the amount payable should be computed within 30 calendar days after the receipt of the necessary clarification. The date of receipt of the clarification is considered to be the final determination for purposes of effectuation.

Departmental Appeals Board (DAB) - The Fourth Level of Appeal

The DAB evaluates requests for review, and makes final decisions whether to review, or to decline to review, decisions of ALJs as well as orders of dismissal by ALJs.

DAB Effectuation Time Limits: DAB decisions requiring contractor effectuation must be initiated within 30 days of receipt of a DAB decision. Effectuation must be completed within 60 days.

U.S. District Court: The Fifth Level of Appeal

A party may request court review of the DAB's decision. Medicare contractors are not responsible for reviewing ALJ decisions issued by the Department of Health and Human Services (HHS) ALJs to determine if an agency referral is appropriate, and will not accept a request for U.S District Court review by a party.

Appeals of Claims Decisions: ALJ; Departmental Appeals Board; U.S. District Court Review, continued

Appeals of Claims Decisions: Redeterminations and Reconsiderations (Implementation Date May 1, 2005)

CMS has issued the following "MLN Matters... Information for Medicare Providers" article.
This information was previously published in the Second Quarter 2006 Medicare B Update! pages 59-60.

Note: This article was revised on February 21, 2006, to update the language regarding the appeals process. In addition, the article now contains Web addresses that conform to the new CMS website.

Provider Types Affected

Physicians, providers, and suppliers who submit claims to Medicare for services

Provider Action Needed

The new second level in the administrative appeals process is called a **"reconsideration."** Reconsiderations are processed by Qualified Independent Contractors (QICs).

Background

The Medicare claim appeals process was amended by the Medicare, Medicaid and SCHIP Benefits Improvement and Protection Act of 2000 (BIPA). Section 1869(c) of the Social Security Act (the Act), as amended by BIPA, now requires a new second level in the administrative appeals process called a reconsideration.

Requests for reconsideration of appeal decisions (redeterminations) should go either to the Qualified Independent Contractor (QIC), or the Hearing Officer (HO), when the redetermination was issued by a carrier prior to January 1, 2006.

Time Limit for Filing a Request for Reconsideration

A request for reconsideration must be filed within 180 days of the date of receipt of the notice of redetermination. For requests filed in writing - the date received is defined as the date received by the QIC in the corporate mailroom.

Please refer to the following table for clarification.

Appeal Rights for Requests for Reconsideration
The Second Level of Appeal

Medicare Claims	Medicare Contractor Issuing Redetermination	Date Redetermination Issued and Mailed	Where to Appeal the Redetermination*
Part A/Part B	FI	On or after May 1, 2005	QIC
Part B	Carrier	On or after January 1, 2006	QIC
Part A	FI	Before May 1, 2005	ALJ
Part B	FI	Before May 1, 2005	HO
Part B	Carrier	Before January 1, 2006	HO

*Qualified Independent Contractor (QIC); Administrative Law Judge (ALJ); Hearing Officer (HO)

Appeals of Claims and Appeal Decisions for Medicare Part B

Effective January 1, 2006 the Medicare claim appeals process was amended. The reconsideration process has been added as the new second level of appeal. In addition, it is no longer necessary to appeal a claim if a minor error or omission was made which caused the claim to deny. In these cases, the provider can request that the claim be reopened and the error or omission corrected.

Definitions

Levels of Appeal	Definition	Time Limit from Determination	Address
1st - Redetermination	The first appeal level after the initial determination. A redetermination must be submitted to the carrier in writing.	120 days from initial or revised initial determination	**Connecticut** Medicare Part B Appeals First Coast Service Options, Inc. P.O. Box 45041 Jacksonville, FL 32232-5041 **Florida** Medicare Part B Claims Review P.O Box 2360 Jacksonville, FL 32231-2100
2nd - Hearings	The second level of appeal for redeterminations made **prior to 01/01/06**. These appeals should be submitted to the **carrier** as instructed in your redetermination notice. New 2nd - Reconsideration	The new second level of appeal for redeterminations made **on or after 01/01/06**. These appeals should be submitted to the **Qualified Independent Contractor** (QIC) as instructed in your redetermination notice.	180 days from redetermination	**Connecticut/Florida** Q2 Administrators, LLC Part B QIC East Operations P.O. Box 183092 Columbus, Ohio 43218-3092 Attn: Administration Manager

Appeals of Claims and Appeal Decisions for Medicare Part B, continued

Appeal Process

If you are dissatisfied with the determination made on your case you should file an appeal with the appropriate entity. The appropriate entity depends on the level of appeal and the completion date of the determination you are appealing. The name and address for the next level of appeal will appear on your decision notice. Providers, physicians, and other suppliers are responsible for submitting all required documentation with the appeal request.

REMINDER: Unprocessable claims (CO16 denial code) result when the provider submits an incomplete or invalid Medicare claim (EMC or paper). Claims denied as unprocessable because information is incomplete, missing, invalid or non-linked (diagnosis code reference number) cannot be corrected over the telephone or via written appeal. The provider must determine what information is missing or incomplete, correct the billing error and file a new claim to the carrier. Example: A claim submitted with an invalid modifier.

Telephone Reopenings

If you feel your office has made a minor clerical error or omission, (that did not deny as unprocessable) you may request that we reopen the claim to correct the error.

Florida Contact Provider Customer Service - 8:00 a.m. – 4:00 p.m. Monday through Friday at 1-866-419-9455

Connecticut Contact Telephone Reopening - Monday – Friday at 1-866-535-6790 (9:00 a.m. – 4:00 p.m.)

Continue to contact Provider Services Monday – Friday (8:00a.m. and 4:00p.m).at 1-866-419-9455 if you feel that Medicare has processed your claim incorrectly.

The provider must be able to provide the beneficiary's:

- Date of Birth;
- Name;
- Medicare HICN

When you call, please have your Remittance Advice and any other documentation on hand. We will only be able to handle three different claims during each call. The following information will be verified during the call.

- Caller's Name
- Caller's Phone Number
- Provider's Name
- Date(s) of Service
- Item(s) or Service(s) at issue

Examples of minor omissions or clerical errors are as follows:

- Diagnosis code changes
- Number of Services changes
- Place of Service change
- Submitted charge correction
- Date of Service correction
- Add, Change or Delete modifiers excluding 22, 24, 25, 52, 53, 58, 59, 62, 66, 78 and 79
- Procedure code changes excluding codes requiring documentation on the initial submission or codes now being upcoded.

Telephone reopenings are generally inappropriate for the following issues:

- ❑ Limitation of liability;
- ❑ Medical necessity denials and reductions, or
- ❑ Denials requiring manual review of medical documentation

A written redetermination must be requested for the type of denials above.

Redetermination Request

Redetermination requests should be submitted on the Redetermination form with documentation attached to support the service(s) rendered. The redetermination forms are located at:

- Connecticut - *http://www.connecticutmedicare.com*
- Florida - *http://www.floridamedicare.com*.

Reconsideration Request

Reconsideration requests should be submitted on the reconsideration form attached to your redetermination notice.

Source: CMS Pub 100-4, Chapter 29, Section 310

Denial of Claims Not Timely Filed

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers billing fiscal intermediaries (FIs), regional home health intermediaries (RHHIs), carriers, and durable medical equipment regional carriers (DMERCs) for services provided to Medicare beneficiaries

Provider Action Needed

STOP – Impact to You

This article is based on information contained in CR4041, which clarifies that a determination relating to the untimely submission of a Medicare claim by a provider or supplier is not an initial determination and cannot be appealed.

CAUTION – What You Need to Know

Claims that are filed after the "timely filing period" will be denied as specified in the *Medicare Claims Processing Manual*, Publication 100-4, Chapter 1, Section 70.1. When a claim is denied because it was filed after the timely filing period, the denial will not constitute an "initial determination." As such, the determination that a claim was not filed timely cannot be appealed.

GO – What You Need to Do

Be aware of the time limits for filing Medicare claims and the consequences of untimely filing.

Background

The Centers For Medicare & Medicaid Services (CMS) issued a technical correction to the June 30, 2005 Federal Register, Interim Final Rule, "Medicare Program: Changes to the Medicare Claims Appeal Procedures (42 CFR Parts 401 and 405)," that clarified that a determination regarding the untimely submission of a Medicare claim is not an initial determination and cannot be appealed.

Specifically, 42 CFR Section 405.926(n) indicates that a determination that a provider or supplier failed to submit a claim timely or failed to submit a timely claim, despite being requested to do so by the beneficiary or the beneficiary's subrogee, is not an initial determination and cannot be appealed.

CR4041 informs all Medicare providers of the above technical correction to the June 30, 2005 interim final rule, "Medicare Program: Changes to the Medicare Claims Appeal Procedures" and revises the *Medicare Claims Processing Manual*, Publication 100-4, Chapter 1 (General Billing Requirements), Sections 70.4 and 70.8.6 to incorporate these changes.

Additional Information

For complete details, including the revised sections of the *Medicare Claims Processing Manual* and a table that illustrates the timely filing limit for dates of service in each calendar month, please see the official instruction issued to your carriers, FIs, DMERCS, or RHHIs regarding this change. That instruction may be viewed by going to *http://www.cms.hhs.gov/Transmittals/downloads/R830CP.pdf* on the CMS website.

If you have any questions, please contact your Medicare contractor (carrier, FI, etc.) at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Hold on Medicare Payments

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers and physicians who bill Medicare contractors—fiscal intermediaries (FIs), including regional home health intermediaries (RHHIs), and carriers—for their services

Provider Action Needed

STOP – Impact to You

A brief hold will be placed on Medicare payments for all claims for the last nine days of the Federal fiscal year, i.e., September 22, 2006 - September 30, 2006. Claims held as a result of this one-time policy will be paid on October 2, 2006. No interest or late penalty will be paid to an entity or individual for any delay in a payment by reason of this one-time hold on payments.

CAUTION – What You Need to Know

Additionally, Medicare contractors will continue to apply the Centers for Medicare & Medicaid Services (CMS) regulations for the 14-day electronic claim payment floor and the 29-day paper claim payment floor.

GO – What You Need to Do

Please note that this policy applies only to claims subject to payment. It does not apply to full denials and no-pay claims.

Essentially, no payments on claims will be made from September 22-30, 2006, and providers should be aware of these payment delays, which are mandated by section 5203 of the Deficit Reduction Act of 2006.

Additional Information

CR 4349 is the official instruction issued to your FI, RHHI, or carrier regarding changes mentioned in this article. CR 4349 may be found at *http://www.cms.hhs.gov/Transmittals/downloads/R847CP.pdf* on the CMS website.

Please refer to your local FI/RHHI or carrier if you have questions about this issue.

To find their toll free phone number, go to *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Medlearn Matters Number: MM4349	Related Change Request (CR) #: 4349

Update of the Medicare Claims Processing Manual to Show New CMS Website URL References

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and suppliers who submit claims for services to the Centers for Medicare & Medicaid Services (CMS) Medicare contractors (carriers, fiscal intermediaries (FIs), regional home health intermediaries (RHHIs), and durable medical equipment regional carriers [DMERCs])

Background

This article, based on CR 4398, highlights the fact that the *http://www.cms.hhs.gov* website has been completely redesigned. Currently, Chapter 24 (EDI Support Requirements) of the *Medicare Claims Processing Manual contains* URLs that no longer direct the user to the new CMS website. If used, the following message will appear. '*We're sorry. The page you requested cannot be found. CMS has recently launched a website redesign and many addresses have changed.*'

This instruction updates the URLs that are currently in Chapter 24, removes the URLs that no longer apply, and replaces them with the new URLs.

Key Points

The key new Web addresses are as follows:

- The new address for accessing and downloading the CMS EDI instructions is *http://www.cms.hhs.gov/ElectronicBillingEDITrans/01_Overview.asp*.
- The X12N 837 implementation guide (IG) version 4010A1 for Institutional (I) and Professional (P) claims is now at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/08_HealthCareClaims.asp* on the CMS website.
- The implementation guide for coordination of benefits (COB) with other payers is at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/12_COB.asp* on the CMS website.
- The NCPDP Telecommunications Standard Specifications and IG version 5.1 and Batch Standard 1.1 for retail prescription drug claims (Billed to Medicare DMERCs only) and COB are at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/08_HealthCareClaims.asp* on the CMS website.

Update of the Medicare Claims Processing Manual to Show New CMS Website URL References, continued

- The X12 835 IG version 4010A1 for Remittance Advice is at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/11_Remittance.asp* on the CMS website.
- The X12 276/277 IG version 4010A1 for Claim Status Inquiry and Response is located at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/10_ClaimStatus.asp* on the CMS website.
- Information on the X12 270/271 IG version 4010A1 transactions for Beneficiary Eligibility Inquiry and response are at *http://www.cms.hhs.gov/ElectronicBillingEDITrans/09_Eligibility.asp* on the CMS website.
- HIPAA IG "companion documents" are available at *http://www.cms.hhs.gov/ElectronicBillingEDITrans* on the CMS website.

Once at that site, select the specific transaction desired from the left side of the screen and you will then get a link to the companion document at the bottom of the page for that transaction.

Additional Information

The official instructions issued to your carrier or intermediary regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R900CP.pdf* on the CMS website.

If you have questions, please contact your Medicare FI/RHHI or carrier/DMERC at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

MLN Matters Number: MM4398	Related Change Request (CR) #: 4398
Related CR Release Date: April 7, 2006	Effective Date: May 8, 2006
Related CR Transmittal #: R900CP	Implementation Date: July 7, 2006

New Skilled Nursing Facility Consolidated Billing Website Address

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, non-physician practitioners, institutional providers, and suppliers billing Medicare carriers or fiscal intermediaries (FIs) for services provided to skilled nursing facility (SNF) patients.

Provider Action Needed

The purpose of the instruction in CR 4297 is to inform affected providers of the new Web address for SNF consolidated billing information. The new address corresponds to the new website from the Centers for Medicare & Medicaid Services (CMS), and this new address is also being placed in the *Medicare Claims Processing Manual.*

Background

The purpose of Change Request (CR) 4297 is to place the following new Skilled Nursing Facility (SNF) Consolidated Billing (CB) website address into the CMS *Medicare Claims Processing Manual* (Pub. 100-04): *http://www.cms.hhs.gov/SNFConsolidatedBilling/*.

Information regarding SNF consolidated billing at this Web page includes the following:

- Services Beyond the Scope of the Part A SNF Benefit
- Edit for Therapy Services Separately Payable When Furnished by a Physician
- Annual Update Process for SNF CB
- Carrier Claims Processing for Consolidated Billing for Physician and Non-Physician Practitioner Services Rendered to Beneficiaries in a Non-covered SNF Stay

Additional Information

For complete details, please see the official instruction issued to your carrier/FI regarding this change. That instruction may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R846CP.pdf* on the CMS website.

If you have any questions, please contact your carrier/FI at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Medlearn Matters Number: MM4297	Related Change Request (CR) #: 4297

Remittance Advice Remark Code and Claim Adjustment Reason Code Update

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers, physicians, and suppliers who bill Medicare fiscal intermediaries (FIs), including regional home health intermediaries (RHHIs), and Medicare carriers including durable medical equipment regional carriers (DMERCs)

Key Points

- Effective December 29, 2005, **Remark Code MA02** was updated to reflect the following narrative:

"If you do not agree with this determination, you have the right to appeal. You must file a written request for an appeal within 180 days of the date you receive this notice. Decisions made by a Quality Improvement Organization (QIO) must be appealed to that QIO within 60 days."

- Within 30 days of release of CR 4326, **Remark Code MA03** will not be used for Medicare Fee for Service (FFS) and Medicare will update the current narrative of remark code MA02 in the same timeframe.
- Please use the text posted on the Washington Publishing Company (WPC) website if there are discrepancies between any code text included in this article and the corresponding text on the WPC website: *http://www.wpcedi.com/codes*.

Background

There are two code sets that must be used to report payment adjustments, appeal rights, and related information for transaction 835 (Health Care Claim Payment/Advice) and standard paper remittance advice. These code sets, updated on a regular basis, include:

- Claim Adjustment Reason Code (CARC); and
- Remittance Advice Remark Code (RARC)

Additionally, for transaction 837 COB, CARC must be used.

Additional Information

CR 4326 is the official instruction issued to your FI/RHHI or your carrier/DMERC regarding changes mentioned in this article, MM4326. CR 4326 may be found by going to *http://www.cms.hhs.gov/Transmittals/downloads/R860CP.pdf* on the CMS website

Please refer to your local FI/RHHI or your carrier/DMERC if you have questions about this issue. To find their toll free phone number, go to *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Remittance Advice Remark Code and Claim Adjustment Reason Code Update

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and suppliers who submit claims to Medicare contractors (carriers, fiscal intermediaries (FIs), regional home health intermediaries (RHHIs), and durable medical equipment regional carriers (DMERCs)) for services.

Provider Action Needed

STOP – Impact to You

The complete list, including changes made from July 1, 2005, through October 30, 2005, of X12N 835 Remittance Advice Remark Codes (RARC) and X12N 835 Claim Adjustment Reason Codes (CARC) have been posted. The most current and complete code list will be found at *http://www.wpc-edi.com/codes*.

CAUTION – What You Need to Know

Please refer to the *Additional Information* section of this article for remark and reason code changes approved between July 1, 2005, to October 30, 2005, and in September, 2005, respectively. By April 3, 2006, all applicable code text changes and new codes should be in use and the deactivated codes terminated.

GO – What You Need to Do

The above codes are updated three times a year. Be sure your staff is aware of these changes in order to ensure correct interpretation of the electronic or paper remittance advice notices sent by Medicare.

Background

Two code sets—the claim adjustment reason code set and the remittance advice remark code set—must be used to report payment adjustments in remittance advice transactions. The reason codes are also used in some coordination of benefits transactions.

The RARC list is maintained by the Centers for Medicare & Medicaid Services (CMS), and used by all payers. Additions, deactivations, and modifications to the code list may be initiated by Medicare and non-Medicare entities. This list is updated three times a year, and posted at *http://wpc-edi.com/codes*.

The RARC database has expanded rapidly in the last couple of years. CMS has developed a new Web site to help navigate the database more easily. A tool is provided to help search if you are looking for a specific category of code. You can also find at this site some other information that is available from the WPC website. The new website address is: *http://www.cmsremarkcodes.info/*.

Note: This website is not replacing the WPC website as the official site where the most current RARC list resides. If there is any discrepancy, always use the list posted at the WPC website.

Implementation

The implementation date for the instruction is April 3, 2006.

Additional Information

The following list summarizes changes made from July 1, 2005, through October 30, 2005:

Remittance Advice Remark Code Changes

Code	Status	Current Narrative	Comment
N357	New	Time frame requirements between this service procedure/ supply and a related service procedure/supply have not been met	Medicare Initiated
N358	New	This decision may be reviewed if additional documentation as described in the contract or plan benefit documents is submitted.	Not Medicare Initiated
N359	New	Missing/incomplete/invalid height.	Not Medicare Initiated
N360	New	Coordination of benefits has not been calculated when estimating benefits for this pre-determination. Submit payment information from the primary payer with the secondary claim.	Not Medicare Initiated
N361	New	Charges are adjusted based on multiple diagnostic imaging procedure rules.	Not Medicare Initiated
N362	New	The number of Days or Units of Service exceeds our acceptable maximum.	Not Medicare Initiated
N363	New	Alert: in the near future we are implementing new policies/procedures that would affect this determination.	Not Medicare Initiated

Remittance Advice Remark Code and Claim Adjustment Reason Code Update, continued

Code	Status	Current Narrative	Comment
N364	New	According to our agreement, you must waive the deductible and/or coinsurance amounts.	Medicare Initiated
M16	Modified	Please see our web site, mailings, or bulletins for more details concerning this policy/procedure/decision.	Modified effective 11/18/05
MA02	Modified	If you do not agree with this determination, you have the right to appeal. You must file a written request for an appeal within 180 days of the date you receive this notice. Decisions made by a Quality Improvement Organization (QIO) must be appealed to that QIO within 60 days.	Modified effective 12/29/05 (1)
MA03	Modified	If you do not agree with the approved amounts and $100 or more is in dispute (less deductible and coinsurance), you may ask for a hearing within six months of the date of this notice. To meet the $100, you may combine amounts on other claims that have been denied, including reopened appeals if you received a revised decision. You must appeal each claim on time.	Modified effective 11/18/05 (2)
N9	Modified	Adjustment represents the estimated amount a previous payer may pay.	Modified effective 11/18/05
N34	Modified	Incorrect claim form/format for this service.	Modified effective 11/18/05
N207	Modified	Missing/incomplete/invalid weight.	Modified effective 11/18/05
N355	Modified	The law permits exceptions to the refund requirement in two cases: - If you did not know, and could not have reasonably been expected to know, that we would not pay for this service; or - If you notified the patient in writing before providing the service that you believed that we were likely to deny the service, and the patient signed a statement agreeing to pay for the service. If you come within either exception, or if you believe the carrier was wrong in its determination that we do not pay for this service, you should request appeal of this determination within 30 days of the date of this notice. Your request for review should include any additional information necessary to support your position. If you request an appeal within 30 days of receiving this notice, you may delay refunding the amount to the patient until you receive the results of the review. If the review decision is favorable to you, you do not need to make any refund. If, however, the review is unfavorable, the law specifies that you must make the refund within 15 days of receiving the unfavorable review decision. The law also permits you to request an appeal at anytime within 120 days of the date you receive this notice. However, an appeal request that is received more than 30 days after the date of this notice does not permit you to delay making the refund. Regardless of when a review is requested, the patient will be notified that you have requested one, and will receive a copy of the determination. The patient has received a separate notice of this denial decision. The notice advises that he/she may be entitled to a refund of any amounts paid, if you should have known that we would not pay and did not tell him/her. It also instructs the patient to contact our office if he/she does not hear anything about a refund within 30 days.	Modified effective 11/18/05

Remittance Advice Remark Code and Claim Adjustment Reason Code Update, continued

Code	Status	Current Narrative	Comment
M78	Deactivated	Missing/incomplete/invalid HCPCS modifier.	Deactivated effective 5/18/06, consider using reason code 4.

Claim Adjustment Reason Code Changes

Code	Status	Current Narrative	Comment
190	New	Payment is included in the allowance for a Skilled Nursing Facility (SNF) qualified stay.	New as of 10/05
191	New	Claim denied because this is not a work related injury/illness and thus not the liability of the workers' compensation carrier.	New as of 10/05
192(3)	New	Non standard adjustment code from paper remittance advice.	New as of 10/05
182	Modified	Payment adjusted because the procedure modifier was invalid on the date of service.	Modified 8/8/05
B18	Modified	Payment adjusted because this procedure code and modifier were invalid on the date of service.	Modified 8/8/05
52	Retired	The referring/prescribing/rendering provider is not eligible to refer/prescribe/order/perform the service billed.	Inactive as of 2/1/06
B17	Retired	Payment adjusted because this service was not prescribed by a physician, not prescribed prior to delivery, the prescription is incomplete, or the prescription is not current.	Inactive as of 2/1/06

1 This modification is effective January 1, 2006, and has been communicated in a separate instruction (CR 4326).
2 Medicare will not use MA03 effective from January 1, 2006, and that has been communicated in CR4326.
3 This new code was created at the request of Medicare because:

- Providers who do not qualify for Administrative Simplification Compliance Act (ASCA) exemption must submit claims electronically;
- If Medicare is secondary, and the primary payer has sent a paper RA with proprietary code(s), the provider could not send a compliant electronic claim unless a crosswalk between the payer proprietary codes and the standard CARC is available.

In CR 4123, Medicare contractors were instructed to complete entry of 192 as a valid code, and accept claims containing this code for adjudication. CMS encourages providers to utilize this code, and submit COB claims electronically.

Reason Codes 1 and 2

In September, CMS requested two new codes to be used in lieu of current reason codes 1 ("Deductible") and 2 ("Coinsurance Amount") when a provider is not allowed to collect any deductible and/or any coinsurance.

Section 630 of the Medicare Modernization Act (MMA) permits Indian Health Service (IHS) facilities to directly bill Medicare for durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS). Federal government agencies do not permit providers to collect coinsurance or deductible payments from IHS patients.

The committee did not approve the CMS request for new codes, but suggested that reason codes 1 and 2 should be used with Group Code CO (Contractual Obligation) instead of PR (Patient Responsibility). Currently, in most situations Group Code PR is used with reason codes 1 and 2. Medicare contractors must use Group code CO under this special situation with codes 1 and 2. (See related CR 3845 and the Medlearn Matters article at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM3845.pdf* on the CMS website.)

The official instructions (CR4314) issued to your Medicare carrier, intermediary, DMERC, or RHHI regarding this change can be found at *http://www.cms.hhs.gov/Transmittals/downloads/R859CP.pdf* on the CMS website.

If you have questions, please contact your Medicare carrier, DMERC, FI, or RHHI at their toll-free number which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Understanding the Remittance Advice – Updated Guide

Understanding the Remittance Advice: A Guide for Medicare Providers, Physicians, Suppliers, and Billers has been updated and is now available online through the Medicare Learning Network's publication page located at *http://www.cms.hhs.gov/MLNProducts/downloads/RA_Guide_Full_03-22-06.pdf*, on the CMS website.

This comprehensive publication provides practical information on the types, uses, components of and standardized codes sets used on the RA as well as how to read the standard paper remittance advice and the electronic remittance advice using PC-Print software (for institutional providers who receive RAs from fiscal intermediaries or regional home health intermediaries) and Medicare Remit Easy Print (MREP) software (for professional providers who receive RAs from carriers or DMERCs). It also includes a number of helpful resources including field indexes (for institutional RAs and professional RAs), an acronym list, and a glossary.

In addition to the online version of *"The RA Guide"*, it will also be available in print and on CD ROM later this spring. CMS will announce the availability of these products as they become accessible.

Instructions for Provider Notification Regarding Streamlined Drug Coverage Materials for Health Care Professionals, a New Fact Sheet and Script for Recent Audio Conference

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers, physicians, and suppliers and their staff who prescribe medications for Medicare patients

Key Points

The Centers for Medicare & Medicaid Services (CMS) has developed three new products as part of the Medicare Prescription Drug Coverage (Part D) campaign for health care professionals:

Consolidated List of Links

A consolidated list of links to resources for prescribers is located at *http://www.cms.hhs.gov/center/provider.asp* on the CMS website.

At this Web page, offices can get access to direct telephone numbers to a Medicare drug plan's coverage determination staff, as well as to obtain model forms that will help speed this process.

Educational information for Fee-For-Service (FFS) providers is always available through our Medicare Learning Network drug coverage page at *http://www.cms.hhs.gov/MedlearnProducts/23_DrugCoverage.asp* on the CMS website.

Transition Policy Fact Sheet

A new fact sheet regarding the new transition policy, as well as the exceptions and appeals process for Medicare Prescription Drug Coverage, is available for use in prescriber offices. This resource fact sheet provides ready links to tools that will streamline the prescribing process under the new coverage.

CMS continues to work with groups representing physicians, pharmacists, patients, and Part D plans to simplify and standardize the information that physicians need to provide to plans.

The fact sheet is at *http://www.cms.hhs.gov/MedlearnProducts/downloads/Part_D_Resource_Factsheet.pdf* on the CMS website.

An Important Message for Providers Regarding Medicare Part D from CMS Administrator Dr. Mark McClellan

Dr. McClellan's message to providers describes the steps CMS is taking to implement the new Medicare prescription drug coverage. Dr. McClellan also discusses helpful resources for providers. Streaming video of this message is available at *http://media.cms.hhs.gov/cms/McClellanPartDProvider.wmv* on the CMS website.

Instructions for Provider Notification Regarding Streamlined Drug Coverage Materials, continued

Phone Conference Training Session

A PowerPoint presentation and audio replay of a recent phone conference training session is available, entitled "Working with Plan Formularies: Transition Supplies, Prior Authorization, Quantity Limits, Step Therapy, and Exceptions."

This training session is geared towards guiding office staff through the exceptions process. These materials are located at *http://media.cms.hhs.gov/cms/partner03022006.wma* on the CMS website.

Other Special Edition Articles

Other special edition articles regarding the prescription drug program include, but are not limited to, the following:

An Important Message for Providers Regarding Medicare Part D

Prescribers are vital to the well being of their patients. The Centers for Medicare & Medicaid Services (CMS) is doing everything we can to streamline the new Part D coverage to make it easier for you to help your patients, while not infringing on the scarce clinical time you have with them.

The following link will take you to a video that we hope explains what we are doing during the transition to help prescribers and their office staffs smooth the process of prior authorizations, exceptions and appeals. Go to our provider center at *http://www.cms.hhs.gov/center/provider.asp* (go to Part D tools) and select the video. There are a number of other useful lists that we have assembled there to help ease the process of helping your patients with their new drug coverage.

CMS has a dedicated email for prescriber's questions at *PRIT@cms.hhs.gov*, as well as a standing teleconference every Tuesday at 2PM by calling 1-800-619-2457 Passcode: RBDML

Streamlined Drug Coverage Materials for Health Care Professionals

NEW! Visit *http://www.cms.hhs.gov/center/provider.asp* and scroll down to "Part D Tools for Health Care Professionals" for a comprehensive list of links to agency-wide resources for providers on Medicare prescription coverage. These resources can help providers and office staff access direct phone numbers to a Medicare drug plan's coverage determination staff, as well as obtain model forms that will help speed the process.

Additionally, a new fact sheet, as well as other educational products for the Medicare fee-for-service community, is now available on the CMS website at *http://www.cms.hhs.gov/MLNProducts/23_drugcoverage.asp*.

Assignment of Physicians, Providers, and Suppliers to the Medicare Administrative Contractors

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Providers, physicians and suppliers who bill Medicare contractors (fiscal intermediaries (FIs) including regional home health intermediaries (RHHIs), and carriers, including durable medical equipment regional carriers (DMERCs)) for their services.

Key Points

The Centers for Medicare & Medicaid Services (CMS) is implementing significant changes to the Medicare fee-for-service program's administrative structure. This Medicare Contracting Reform (MCR) will:

- Integrate and simplify the administration of Medicare Parts A and B with primary A/B Medicare Administrative Contractors (MACs) which will process both Part A and Part B claims for the fee-for-service benefit;
- Make contracting dynamic, competitive and performance-based, resulting in more accurate claims payments and greater consistency in payment decisions; and

- Centralize information, creating a platform for advances in the delivery of comprehensive care.

Under MCR, there will be 23 MACs with no national MAC. These new MACs will include:

- Fifteen primary A/B MACs to serve the majority of all types of providers for Part A and Part B;
- Four specialty MACs to serve home health and hospice providers; and
- Four specialty MACs to serve durable medical equipment (DME) suppliers.

MACs will serve as the primary point of contact for provider enrollment, Medicare coverage and billing requirements training for providers, and the receipt, processing and payment of Medicare fee-for-service claims for Medicare providers' respective jurisdictions.

Medicare providers will be assigned to the local designated MAC based on their geographic location to the MAC, which has jurisdiction for that benefit category and location.

Note: Please be aware that in the event that your current FI does not win the contract to serve the area where you are located, you will be required to be reassigned to the MAC that has won the jurisdiction for your area.

The new MAC jurisdictions will be more similar to each other in size than the existing fiscal intermediary (FI) and carrier jurisdictions. The workload allocation and the number of fee-for-service beneficiaries and providers in each MAC jurisdiction will be reasonably balanced. The jurisdictions of the eight specialty MACs will overlay the boundaries of the fifteen primary A/B MAC jurisdictions.

Background

The Medicare Prescription Drug Improvement and Modernization Act of 2003 (MMA) (P.L. 108-173) allows the CMS to take appropriate steps to transition from agreements under Section 1816 of the Social Security Act to contracts with Medicare Administrative Contractors (MACs) under section 1874A. The changes to Medicare's administration are designed to increase the efficiency of Medicare's claims processing and related functions. They will benefit Medicare providers and Medicare's enrollee population.

Additional Information

During the initial implementation phase (2005-2011) of the Medicare fee-for-service administrative contracting reform, CMS intends to issue Requests for Proposals (RFPs) to compete and award contracts for 23 MACs (four DME and four Home Health/Hospice MACs, and 15 primary A/B MACs).

The transition to the MAC administrative structure will be implemented through a series of acquisition cycles (9-12 months from solicitation to award). The subsequent workload transition to the new MAC system is projected to take 6-13 months after contract award.

Medicare's MAC Jurisdictions

Specialty MAC Jurisdictions (DME and Home Health/Hospice)

Jurisdiction	States Included	RFP Issuance	Award Date
A	Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont	**DME** March 2005 **Home Health/ Hospice** Sept. 2007	**DME** Jan. 2006 **Home Health/Hospice** Sept. 2008
B	Illinois, Indiana, Kentucky, Michigan, Minnesota, Ohio, and Wisconsin		
C	Alabama, Arkansas, Colorado, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, Puerto Rico, South Carolina, Tennessee, Texas, U.S. Virgin Islands, Virginia, and West Virginia		
D	Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Iowa, Kansas, Missouri, Montana, Nebraska, Nevada, North Dakota, Northern Mariana Islands, Oregon, South Dakota, Utah, Washington, and Wyoming		

Assignment of Physicians, Providers, and Suppliers to the Medicare Administrative Contractors, continued

Primary A/B MAC Jurisdictions

Jurisdiction	States Included	RFP Issuance	Award Date
1	American Samoa, California, Guam, Hawaii, Nevada, and Northern Mariana Islands	Sept. 2006	Sept. 2007
2	Alaska, Idaho, Oregon, and Washington	Sept. 2006	Sept. 2007

11	North Carolina, South Carolina, Virginia and West Virginia	Sept. 2007	Sept. 2008
12	Delaware, District of Columbia, Maryland, New Jersey, and Pennsylvania	Sept. 2006	Sept. 2007
13	Connecticut and New York	Sept. 2006	Sept. 2007
14	Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont	Sept. 2007	Sept. 2008
15	Kentucky and Ohio	Sept. 2007	Sept. 2008

For additional information about the MCR process, please refer to *http://www.cms.hhs.gov/MedicareContractingReform/* on the CMS website.

CR 4002, transmittal 670, *Realignment of States and Medicare Claims Processing Workload from DMERC Regions A, B, C and D to the DME MAC Jurisdictions A, B, C, and D* discusses phase 1 of the MAC acquisition and transition schedule. It can be found at *http://www.cms.hhs.gov/transmittals/downloads/R670CP.pdf* on the CMS website.

MLN Matters Number: SE0624 Related Change Request (CR) #: N/A
Related CR Release Date: N/A Effective Date: N/A
Related CR Transmittal #: N/A Implementation Date: N/A

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

The Centers for Medicare & Medicaid Services Recovery Audit Contractor Initiative

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and suppliers, especially in California, Florida, and New York

Provider Action Needed

Based on comments received during provider open door forums and community meetings, CMS has amended the payment methodology for the Recovery Audit Contractors (RAC) to include payment for the identification of Medicare underpayments.

Background

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA), Section 306, directs the Secretary of the U.S. Department of Health and Human Services (HHS) to demonstrate the use of RACs under the Medicare Integrity Program in: 1) identifying underpayments and overpayments; and 2) recouping overpayments under the Medicare program (for services for which payment is made under Part A or Part B of Title XVIII of the Social Security Act).

Update

The RACs are paid on a contingency basis; that is, the RACs receive a portion of what they identify and collect. Beginning with underpayments identified on or after March 1, 2006, the RACs will receive an equivalent percentage for all underpayment and overpayment identifications.

The RACs will use the same methodologies of automated and complex reviews to identify potential Medicare underpayments.

The Centers for Medicare & Medicaid Services Recovery Audit Contractor Initiative, continued

Important Things Providers Need to Know About the Underpayment Identification Portion of the Recovery Audit Contractor Demonstration

- The RAC may request a medical record for an underpayment determination. However, the medical record request letter will not indicate if the medical record is being requested for overpayment or underpayment review. When responding to a medical record request from the RAC, the provider may attach its own opinion regarding an underpayment. However, the findings from the RAC may differ from that of the provider.
- Upon identification of a potential underpayment, the RAC will forward the claim and all supporting documentation to the appropriate Medicare fiscal intermediary, carrier or durable medical equipment regional carrier (DMERC) for their review. An underpayment identification will not be final unless the fiscal intermediary, carrier or DMERC agrees with the identification. The RAC or the fiscal intermediary, carrier or DMERC will NOT ask the provider to correct and resubmit the claim. Under the RAC demonstration, the RAC contractors have no authority to make refunds. Therefore, once the underpayment has been validated by the appropriate fiscal intermediary, carrier or DMERC, the RAC will send the provider written notice of the underpayment determination. This notice will include claim and beneficiary details.
- The RACs do not have the authority to review unsolicited cases from providers where underpayment is thought to have occurred. Outside of the RAC program if a provider feels they have received an underpayment they may resubmit a corrected claim if the timely filing limit has not yet passed.
- The provider does not have any official appeals rights in relation to an underpayment determination. The provider may utilize the RAC rebuttal process and discuss the underpayment determination with the RAC. If the provider disagrees with the RAC that an underpayment exists, the RAC will defer to the billing provider's judgment.

Definition of an Underpayment

For purposes of the RAC demonstration, a Medicare underpayment is defined as those lines or payment groups (APC, RUG) on a claim that were billed at a low level of payment but should have been billed at a higher level of payment. The RAC will review each claim line or payment group and consider all possible occurrences of an underpayment in that one line or payment group.

If changes to the diagnosis, procedure or order of diagnoses would change a line or payment group on the claim from a low level of payment to a higher level of payment (and the medical record supports such a change), an underpayment exists. Service lines or payment groups that a provider failed to include on a claim are **not** considered underpayments for the purposes of this demonstration.

Note: CMS has excluded the review of physician evaluation and management codes relevant to the level of an office visit or the medical necessity of the level of office visit from the RAC demonstration. This includes the review of overpayments and underpayments.

Examples of an Underpayment

The following **are** considered underpayments:

- The provider billed for 15 minutes of therapy when the medical record clearly indicates 30 minutes of therapy was provided. (This provider type is paid based on a fee schedule that pays more for 30 minutes of therapy than for 15 minutes of therapy.)
- The provider billed for a particular service and the amount the provider was paid was lower than the amount on the CMS physician fee schedule.
- A diagnosis/condition was left off the MDS but appears in the medical record. Had this diagnosis or condition been listed on the MDS, a higher payment group would have been the result.
- The physician submitted a claim for a surgical procedure using a code for a simpler procedure when in fact the procedure was a more complex one such as in the case of skin repair which can be billed at a simple, intermediate, or complex level depending upon size and complexity.

The following are **not** considered underpayments:

- The medical record indicates that the provider performed additional services such as an EKG, but did not bill for the service.
- The provider billed for 15 minutes of therapy when the medical record clearly indicates 30 minutes of therapy was provided; however, the additional minutes do not affect the grouper or the pricer. (This provider type is paid based on a prospective payment system that does not pay more for this much additional therapy.)
- The medical record indicates that the provider implanted a particular device for which a device APC exists (and is separately payable over and above the service APC), but the provider did not bill for the device APC.

Questions concerning the recovery audit contractor demonstration may be directed to a special email address CMS has established specifically for the demonstration: *cmsrecoveryauditdemo@cms.hhs.gov*.

Additional Information

If you have any questions, please contact your carrier/intermediary at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

Find out more about the Medicare Prescription Drug and Modernization Act of 2003 (MMA) at *http://www.cms.hhs.gov/MMAUpdate/* on the CMS website.

Centers for Medicare & Medicaid Services Seeks Provider Input on Satisfaction with Medicare Fee-for-Service Contractor Services

CMS has issued the following "MLN Matters... Information for Medicare Providers" article.
This information was previously published in the HCPCS 2006 January Special Medicare B Update! page 98.

Note: This article was revised on March 17, 2006, to show the data collection period will continue through April 2006.

Provider Types Affected

Sample of 25,000 Medicare providers served by 42 Medicare fee-for-service (FFS) contractors, including fiscal intermediaries (FIs), carriers, durable medical equipment regional carriers (DMERCs), and rural home health intermediaries (RHHIs)

Provider Action Needed

STOP – Impact to You

The Centers for Medicare & Medicaid Services (CMS) would like to provide a channel for you to voice your opinions about the services you receive from your FFS contractors. The Medicare Contractor Provider Satisfaction Survey (MCPSS) is designed to gather quantifiable data on provider satisfaction with the performance of FFS contractors. The MCPSS is one of the tools CMS will use to measure provider satisfaction levels, a requirement of the Medicare Modernization Act (MMA). Specifically, the survey will enable CMS to gauge provider satisfaction with key services performed by the 42 contractors that process and pay the more than $280 billion in Medicare claims each year.

Those Medicare contractors will use the results to improve service. CMS will use the results to improve its oversight of and increase the efficiency of the administration of the Medicare program.

CAUTION – What You Need to Know

The first national implementation of the MCPSS will begin January 3, 2006. If you have been selected, you will receive a notification packet in the mail with background information about the survey, as well as an instruction sheet with information on how to access and complete the survey instrument via a secure Internet website. The letter will also include a phone number that you can call to request a paper copy of the survey instrument to submit your responses by mail or fax, if you prefer to do so.

GO – What You Need to Do

Be alert for a notification packet in the mail. If you are selected and receive the notification packet, please take the time to complete and submit your survey responses as soon as possible. The data collection period will continue through April 2006.

Background

The 2006 survey will query approximately 25,000 randomly selected providers – those physicians, healthcare practitioners, and facilities that serve Medicare beneficiaries across the country – on the seven key areas of the provider-contractor interface:

- Provider communications
- Provider inquiries
- Claims processing
- Appeals
- Provider enrollment
- Medical review
- Provider audit and reimbursement

It contains a total of 76 questions and takes approximately 21 minutes to complete. The target date to respond is approximately three weeks after receipt of the notification packet. CMS will analyze the data and release a summary report in July that will be made available on the Internet. Contractors will also receive an individual report on their performance in June. The MCPSS will be conducted on an annual basis.

CMS has awarded a contract to Westat, a survey research firm, to administer the MCPSS.

Additional Information

For questions or additional information about the MCPSS, please visit *http://www.cms.hhs.gov/MCPSS/* on the CMS website.

Physician Voluntary Reporting Program Using Quality G-Codes and CPT Category II Codes

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals. MLN Matters article MM4183 was previously published in the Second Quarter 2006 Medicare B Update! pages 75-81.

Note: This article was revised on March 30, 2006, to show that the implementation date is April 3, 2006, as shown in CR5036. Several Physician Voluntary Reporting Program (PVRP) performance measure CPT codes in CR 4183 have been modified as a result of additional input received by CMS from medical specialty societies. In addition, CPT Category II codes are now available for certain measures. The changes are reflected in CR 5036 and, if you are viewing a color print of this article, are highlighted yellow. This article contains the same information as MLN Matters article MM4183 with the following additions:

- The code changes and the addition of Category II CPT codes in the attachments.
- An "Introduction" section that helps physicians understand who can report and the benefits of registering their intent to participate in the program.
- Announcement of a website address that contains additional information on the PVRP. This Web address is *http://www.cms.hhs.gov/PVRP*. Also, in the "Additional Information" section of this article is a note about some helpful worksheets that will be placed on this site in the near future.

Provider Types Affected

Physicians

Introduction

In January of 2006, the Centers for Medicare and Medicaid Services (CMS) launched the PVRP with a core starter set of 16 measures. Collection of data on the 16 measures is currently underway.

Physicians can report on the PVRP measures regardless of whether or not they register their intent to participate. However, CMS is strongly encouraging physicians to register their intent to participate in the PVRP through the secured link *http://www.qualitynet.org*. By registering their intent to participate, physicians will be able to receive confidential feedback on their reporting rate and performance rate for each measure they report on. Registering the intent to participate is the first step to receiving the confidential feedback report. In June, CMS will begin contacting those who register their intent to participate to walk them through finishing the confidential registration process. By registering the intent to participate now, physicians not only have the ultimate benefit of receiving feedback reports on the PVRP measures, but will also have CMS assistance in completing the full registration for the feedback reports.

Registration of intent to participate does not obligate a physician to participate. CMS understands that unpredictable events may occur that would ultimately prevent one from actually participating. Also, as stated earlier, physicians can submit data on the PVRP measures without registering their intent to participate.

CMS encourages physicians to register their intent to participate by April 1, 2006. The first physician feedback reports will be available in December 2006.

Reports will be based on second quarter data, collected from claims data with dates of service between April 1 and June 30. Although registration of intent to participate will be welcomed after April 1, CMS encourages physicians to register their intent by April 1 so that comprehensive feedback reports reflect as much data collected in the second quarter as possible. Again, physicians can continue to submit data on PVRP measures whether they register their intent or not.

Provider Action Needed

This article provides information about the CMS PVRP. It will assist physicians in understanding this new voluntary reporting program and the use of G-codes or newly added CPT II codes to report data about the quality of care provided to Medicare beneficiaries.

Background

As part of its overall quality improvement efforts, CMS launched the PVRP in January 2006. This new program builds on Medicare's comprehensive efforts to substantially improve the health and function of our beneficiaries by preventing chronic disease complications, avoiding preventable hospitalizations, and improving the quality of care delivered.

Under the voluntary reporting program, physicians who choose to participate will help capture data about the quality of care provided to Medicare beneficiaries, in order to identify the most effective ways to use the quality measures in routine practice and to support physicians in their efforts to improve quality of care. Voluntary reporting of quality data through the PVRP began in January 2006.

National Consensus Measures and Indicators

CMS has begun the process of developing a comprehensive set of national consensus measures and indicators that will allow physicians to more efficiently report quality information on the health services provided to Medicare beneficiaries.

CMS identified 36 evidence-based clinically valid measures that have been part of the guidelines endorsed by physicians and medical specialty societies. The 36 measures are the result of extensive input and feedback from physicians and other quality care experts.

However, after announcing the PVRP on October 28, 2005, suggestions were made by several physician organizations to identify a starter set in order to lessen the potential reporting burden for physicians and better align the PVRP with other quality measurement activities affecting physicians.

PVRP Using Quality G-Codes and CPT Category II Codes,continued

CMS decided to adopt the suggestion of a smaller core starter set of PVRP measures. The core set consists of 16 measures, which will significantly reduce the number of measures applicable to any individual physician practice specialty.

Despite the reduction to a core starter set of 16 measures, the PVRP maintains the same scope of coverage for physician specialties. Additional measures to cover a broader set of specialties will be developed in the future.

CMS has selected measures based on the work of the National Quality Forum (NQF) and the Ambulatory Care Quality Alliance (AQA).

Confidential feedback reports available to physicians will be limited to the 16 core starter set. The confidential feedback reports will provide physicians with information about their performance and reporting rates for measures associated with submitted data. The feedback reports are intended to assist physicians in improving their data accuracy and reporting rate. The first feedback report will be available December 2006 and will reflect data submitted during the second quarter (April 1 – June 30).

Data Collection Through the Administrative Claims System

The usual source of the clinical data for quality measures is retrospective chart abstraction, but data collection through chart abstraction can be quite burdensome. In addition, while electronic health records (EHRs) may greatly facilitate clinical data reporting in the future, most physicians currently are not using an EHR.

Therefore, to avoid the necessity for chart abstraction, CMS is beginning the process of collecting quality information on services provided to the Medicare population by using the administrative claims system.

Use of G-Codes and CPT II Codes

Specifically, CMS has defined a set of HCPCS codes to report data for the calculation of the quality measures. These new codes will supplement the usual claims data with clinical data that can be used to measure the quality of services rendered to beneficiaries.

Each measure has a defined numerator (the appropriate G-code or CPT II code) and a denominator (specifically defined according to the appropriate services or condition). The reporting rate is calculated as a percentage for each of the 16 measures.

You can use G-codes or CPT II codes when all of the following circumstances are met:

- The G-code or CPT II code reported on the claim relates to a covered diagnosis, covered treatment(s), or covered preventive service(s) that are applicable to the beneficiary.
- The basis for the G-code or CPT II code is documented in the beneficiary medical record.

Note: Submit either a G-code or a CPT II code, but never both.

Important Points: PVRP Reporting on Medicare Claims G-codes or CPT II codes:

- Are submitted on the Medicare claim form generated after a covered service has been performed.
- Should be reported with a submitted charge of zero ($0.00).
- Are not specialty-specific. However, it is anticipated that the reporting of certain G-codes or CPT II codes will be predominated by physicians in certain specialties.

Additional Information

The specific quality measures related to the G-codes or CPT II codes in this initial program launch are reflected in the table at the end of this article.

You can find more information about the PVRP and quality G-Codes and CPT II codes in CR 5036. CR 5036 is available at *http://www.cms.hhs.gov/Transmittals/downloads/R43DEMO.pdf* on the CMS website. CR 4183 is also available at *http://www.cms.hhs.gov/Transmittals/downloads/R35DEMO.pdf* on the CMS website.

Additional information about the program is available at *http://www.cms.hhs.gov/PVRP* on the CMS website. You may want to visit this site periodically for updates. CMS will soon post the one-page worksheets developed specifically for certain specialties to assist in reporting relevant information to the PVRP.

Finally, if you have any questions, please contact your Medicare carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

The toll-free number for First Coast Service Options, Inc. Medicare Part B Customer Service Center is 1-866-454-9007 (FL) or 1-866-419-9455 (CT).

Physician Voluntary Reporting Program
G-Codes and CPT II Codes and Descriptions for Clinical Measures
Effective April 1, 2006

Aspirin at arrival for acute myocardial infarction

- **G8006**: Acute myocardial infarction: patient documented to have received aspirin at arrival
- **G8007**: Acute myocardial infarction: patient not documented to have received aspirin at arrival
- **G8008**: Clinician documented that acute myocardial infarction patient was not an eligible candidate to receive aspirin at arrival measure

Beta blocker at time of arrival for acute myocardial infarction

- **G8009**: Acute myocardial infarction: patient documented to have received beta-blocker at arrival OR *CPT* Cat II code *4006F:* Beta-blocker therapy prescribed
- **G8010**: Acute myocardial infarction: patient not documented to have received beta-blocker at arrival
- **G8011**: Clinician documented that acute myocardial infarction patient was not an eligible candidate for beta-blocker at arrival measure OR CPT Cat II code 4006F WITH modifier 1P, 2P, or 3P: Beta-blocker therapy prescribed with exclusion

PVRP Using Quality G-Codes and CPT Category II Codes,continued

Hemoglobin A1c control in patient with Type I orType II diabetes mellitus

- **G8015**: Diabetic patient with most recent hemoglobin A1c level (within the last 12 months) documented as greater than 9% OR *CPT* Cat II code 3046F: Most recent hemoglobin A1c level > 9.0%
- **G8016**: Diabetic patient with most recent hemoglobin A1c level (within the last 12 months) documented as less than or equal to 9% OR *CPT* Cat II code *3047F*: Most recent hemoglobin A1c level = 9.0%
- **G8017**: Clinician documented that diabetic patient was not an eligible candidate for hemoglobin A1c measure OR CPT Cat II code 3046F WITH modifier 1P, 2P, or 3P: Most recent hemoglobin A1c level > 9.0% with exclusion
- **G8018**: Clinician has not provided care for the diabetic patient for the required time for hemoglobin A1c measure (12 months)

Low-density lipoprotein control in patient with Type I orType II diabetes mellitus

- **G8020**: Diabetic patient with most recent low-density lipoprotein (within the last 12 months) documented as less than 100 mg/dl OR *CPT* Cat II code *3048F*: Most recent LDL-C < 100 mg/dL
- **G8019**: Diabetic patient with most recent low-density lipoprotein (within the last 12 months) documented as greater than or equal to 100 mg/dl OR *CPT* Cat II code *3049F*: Most recent LDL-C 100-129 mg/dL OR CPT Cat II code 3050F: Most recent LDL-C > 130 mg/dL
- **G8021**: Clinician documented that diabetic patient was not eligible candidate for low-density lipoprotein measure OR *CPT* Cat II code *3048F* WITH modifier 1P, 2P, or 3P: Most recent LDL-C < 100 mg/dL with exclusion
- **G8022**: Clinician has not provided care for the diabetic patient for the required time for low-density lipoprotein measure (12 months)

High blood pressure control in patient with Type I or Type II diabetes mellitus

- **G8024**: Diabetic patient with most recent blood pressure (within the last 12 months) documented less than 140 systolic and less than 80 diastolic OR *CPT* Cat II code **3076F**: Most recent systolic blood pressure <140 mm Hg AND *CPT* Cat II code *3078F*: Most recent diastolic blood pressure < 80 mm Hg
- **G8023**: Diabetic patient with most recent blood pressure (within the last 12 months) documented as equal to or greater than 140 systolic or equal to or greater than 80 mmHg diastolic OR *CPT* Cat II code *3077F*: Most recent systolic blood pressure > 140 mm Hg AND *CPT* Cat II code *3079F*: Most recent diastolic blood pressure 80-89 mm Hg OR *CPT* Cat II code *3077F*: Most recent systolic blood pressure > 140 mm Hg AND *CPT* Cat II code *3080F*: Most recent diastolic blood pressure > 90 mm Hg
- **G8025**: Clinician documented that the diabetic patient was not an eligible candidate for blood pressure measure OR *CPT* Cat II code *3076F* WITH modifier 1P, 2P, or 3P: Most recent systolic blood pressure < 140 mm Hg with exclusion AND *CPT* Cat II code *3078F* WITH modifier 1P, 2P, or 3P: Most recent diastolic blood pressure < 80 mm Hg with exclusion
- **G8026**: Clinician has not provided care for the diabetic patient for the required time for blood pressure measure (within the last 12 months)

Angiotensin-converting enzyme inhibitor or angiotensin-receptor blocker therapy for left ventricular systolic dysfunction

- **G8027**: Heart failure patient with left ventricular systolic dysfunction (LVSD) documented to be on either angiotensin-converting enzyme-inhibitor or angiotensin-receptor blocker (ACE-I or ARB) therapy OR *CPT* Cat II code *4009F*: Angiotensin converting enzyme (ACE) inhibitor or angiotensin receptor blocker (ARB) therapy prescribed
- **G8028**: Heart failure patient with left ventricular systolic dysfunction (LVSD) not documented to be on either angiotensin-converting enzyme-inhibitor or angiotensin-receptor blocker (ACE-I or ARB) therapy
- **G8029**: Clinician documented that heart failure patient was not an eligible candidate for either angiotensinconverting enzyme-inhibitor or angiotensin-receptor blocker (ACE-I or ARB) therapy measure OR *CPT* Cat II code *4009F* WITH modifier 1P, 2P, or 3P: Angiotensin converting enzyme (ACE) inhibitor or angiotensin receptor blocker (ARB) therapy prescribed with exclusion

Beta-blocker therapy for patient with prior myocardial infarction

- **G8033**: Prior myocardial infarction - coronary artery disease patient documented to be on beta-blocker therapy OR *CPT* Cat II code *4006F*: Beta-blocker therapy prescribed
- **G8034**: Prior myocardial infarction - coronary artery disease patient not documented to be on beta –blocker therapy
- **G8035**: Clinician documented that prior myocardial infarction - coronary artery disease patient was not an eligible candidate for beta - blocker therapy measure or the patient had no prior myocardial infarction OR *CPT* Cat II code *4006F* WITH modifier 1P, 2P, or 3P: Beta-blocker therapy prescribed with exclusion

Assessment of elderly patients for falls

- **G8055**: Patient documented for the assessment for falls within last 12 months
- **G8054**: Patient not documented for the assessment for falls within last 12 months
- **G8056**: Clinician documented that patient was not an eligible candidate for the falls assessment measure within the last 12 months

Dialysis dose in end stage renal disease patient

- **G8075**: End-stage renal disease patient with documented dialysis dose of URR greater than or equal to 65% (or Kt/V greater than or equal to 1.2)
- **G8076**: End-stage renal disease patient with documented dialysis dose of URR less than 65% (or Kt/V less than 1.2)
- **G8077**: Clinician documented that end-stage renal disease patient was not an eligible candidate for URR or Kt/V measure

PVRP Using Quality G-Codes and CPT Category II Codes,continued

Hematocrit level in end stage renal disease patient

- **G8078**: End-stage renal disease patient with documented hematocrit greater than or equal to 33 (or hemoglobin greater than or equal to 11)
- **G8079**: End-stage renal disease patient with documented hematocrit less than 33 (or hemoglobin less than 11)
- **G8080**: Clinician documented that end-stage renal disease patient was not an eligible candidate for hematocrit (hemoglobin) measure

Receipt of autogenous arteriovenous fistula in end-stage renal disease patient requiring hemodialysis

- **G8081**: End-stage renal disease patient requiring hemodialysis vascular access documented to have received autogenous AV fistula
- **G8082**: End-stage renal disease patient requiring hemodialysis documented to have received vascular access other than autogenous AV fistula
- **G8085**: End-stage renal disease patient requiring hemodialysis vascular access was not an eligible candidate for autogenous AV fistula

Antidepressant medication

- **G8126**: Patient documented as being treated with antidepressant medication during the entire 12 week during acute phase for patient diagnosed with new episode of major depression acute treatment phase
- **G8127**: Patient not documented as being treated with antidepressant medication during the entire 12 weeks acute treatment phase
- **G8128**: Patient was not treated with antidepressant medication or was not an eligible candidate for completion of the entire 12 week acute treatment phase

Antibiotic prophylaxis in surgical patient

- **G8152**: Patient documented to have received antibiotic prophylaxis one hour prior to incision time (two hours for vancomycin and fluoroquinolone)
- **G8153**: Patient not documented to have received antibiotic prophylaxis one hour prior to incision time (two hours for vancomycin and fluoroquinolone)
- **G8154**: Clinician documented that patient was not an eligible candidate for antibiotic prophylaxis one hour prior to incision time (two hours for vancomycin and fluoroquinolone) measure

Thromboembolism prophylaxis in surgical patient

- **G8155**: Patient with documented receipt of thromboemoblism prophylaxis
- **G8156**: Patient without documented receipt of thromboemoblism prophylaxis
- **G8157**: Clinician documented that patient was not an eligible candidate for thromboembolism prophylaxis measure

Use of internal mammary artery in coronary artery bypass graft surgery

- **G8158**: Patient documented to have received coronary artery bypass graft with use of internal mammary artery
- **G8159**: Patient documented to have received coronary artery bypass graft without use of internal mammary artery
- **G8160**: Clinician documented that patient was not an eligible candidate for coronary artery bypass graft with use of internal mammary artery measure

Pre-operative beta blocker for patient with isolated coronary artery bypass graft

- **G8161**: Patient with isolated coronary artery bypass graft documented to have received pre-operative beta-blockade OR *CPT* Cat II code *4006F*: Beta-blocker therapy prescribed
- **G8162**: Patient with isolated coronary artery bypass graft not documented to have received pre-operative beta-blockade
- **G8163**: Clinician documented that patient with isolated coronary artery bypass graft was not an eligible candidate for pre-operative beta-blockade measure OR CPT Cat II code *4006F* WITH modifier 1P, 2P, or 3P: Beta-blocker therapy prescribed with exclusion

2006 Oncology Demonstration Project

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Hematologists and oncologists who bill Medicare for the care of cancer patients

Provider Action Needed

This article provides information on the oncology demonstration project for 2006.

Additional information and guidance is available in *Medlearn Matters* article SE0588, which is available at *http://www.cms.hhs.gov/MedlearnMattersArticles/downloads/SE0588.pdf* on the Centers for Medicare & Medicaid Services' (CMS) website.

Background

The Social Security Act Amendments of 1967 (Pub. L. 90-248, Sections 402(a) (1) (B) and 402(b)), give the Secretary of Health and Human Services the authority to develop and implement experiments and demonstration projects to:

- Provide incentives for economy, while
- Maintaining or improving quality in health services delivery.

In this context, CR4219, upon which this article is based, announces the implementation of the Medicare oncology demonstration project for 2006. This one-year demonstration project's purpose is to identify and assess, in office-based oncology practices, certain oncology services that positively affect outcomes in the Medicare population.

This 2006 oncology demonstration project replaces the 2005 chemotherapy demonstration project, and substantially changes the reporting emphasis. In the 2006 project, your reporting will no longer be specific to chemotherapy administration services, but, instead, will be associated with physician evaluation and management (E & M) visits for established patients with cancer.

The project builds on the use of G-codes (temporary national codes for items or services requiring uniform national coding between one year's update and the next) to gather more specific information about patients with particular types of cancer (noted below), including information about the primary focus of the visit and the spectrum of care that you provide.

It will emphasize practice guidelines as the source for standards of care, permitting CMS to monitor and encourage quality care to cancer patients, and to identify and promote best cancer care practices that should lead to improved patient outcomes.

This purpose is facilitated by the elimination of some G-codes and the adoption of new ones. Calendar year 2005 G-codes (G0921 to G0932), specific to the assessment of patient symptoms, have been eliminated, effective December 31, 2005.

G-Codes Address Three Reporting Categories

To facilitate the collection of the oncology demonstration information, CMS has established 81 new G-codes that address three reporting categories:

1) The primary focus of the evaluation and management visit;

2) Whether current management adheres to clinical guidelines; and

3) The current disease state.

Capturing these variables will form the building blocks of efficiency-oriented demonstrations in the future. You can find these new G-codes in the table at the end of this article.

Diagnostic Categories

Office-based hematologists and oncologists can participate in this demonstration, for services they furnish in 2006, when they provide an evaluation & management (E & M) service of level 2, 3, 4, or 5 to an established patient (American Medical Association's Current Procedural Terminology (CPT) codes 99212, 99213, 99214 and 99215) with a primary diagnosis of cancer belonging to one of the following 13 major diagnostic categories:

1.) Head and neck cancer (140.0 –149.9, 161.0-161.9)
2.) Esophageal cancer (150.0-150.9)
3.) Gastric cancer (151.0-151.9)
4.) Colon cancer (153.0-153.9)
5.) Rectal cancer (154.0, 154.1)
6.) Pancreatic cancer (157.0, 157.1, 157.2, 157.3, 157.8, 157.9)
7.) Lung cancer (both non-small cell and small cell) (162.2-162.9)
8.) Female breast cancer (invasive) (174.0-174.9)
9.) Ovarian cancer (183.0)
10.) Prostate cancer (185)
11.) Non-Hodgkin's lymphoma (202.00-202.08, 202.80-202.98)
12.) Multiple myeloma (203.00, 203.01)
13.) Chronic myelogenous leukemia (205.10, 205.11)

To Qualify for the Payment

To qualify for the payment associated with this demonstration payment, you must submit one G-code from each of the three categories mentioned above when you bill for an E & M of level 2, 3, 4, or 5 for established patients. Practices reporting data on all three categories will qualify for an additional oncology demonstration payment of $23 in addition to the E & M visit.

Important Details

The following are some important details that you should be aware of:

Participation is Voluntary

Participation in this demonstration is voluntary and the physician participates by filing a claim for services (i.e., a level 2, 3, 4, or 5 established office visit with three separate G codes, one from each category) with the Medicare carrier.

Qualifying Specialties

The physician specialties that qualify for this 2006 oncology demonstration are hematology (specialty code 82), medical oncology (specialty 90), and hematology/oncology (specialty 83).

Mid-level practitioners, such as nurse practitioners or others who may bill independently for Medicare services, are not eligible to participate in the demonstration. Medicare carriers will deny claims for the 2006 oncology demonstration submitted by other than a qualifying specialty. Such claims will be denied with remittance advice code N95 and claim adjustment reason code 185.

Other Cancer Types Not Included

E & M services that you furnish for patients with cancer types as the principal diagnosis, other than these mentioned in this CR, will not be included in the demonstration. If you report

2006 Oncology Demonstration Project, continued

claims with these demonstration G codes that are not related to the 13 specific cancer types, those G codes will be denied.

Applies to Beneficiaries Not Enrolled in Medicare Advantage Plan

The project applies only to Medicare beneficiaries who are not enrolled in a Medicare Advantage plan, and is effective only for services provided on or after January 1, 2006, and before January 1, 2007. Medicare carriers will return/reject, as not able to process, oncology demonstration G-codes that are billed for dates of service not within CY 2006, using Remittance Advice reason code B18 and remark code N56 and Medicare Summary Notice (MSN) message 16.13.

Chemotherapy

While chemotherapy may be provided to the patient on the same day as the E & M visit, it is only the latter that is linked to the demonstration project. In this instance, therefore, you should attach modifier 25 to the E & M service. This denotes that you have performed a significant, separately identifiable evaluation and management service on the same day of a procedure (the chemotherapy administration service). Further, you should appropriately document the patient's record to support the level of the E & M service billed.

Billing Codes

You must bill a code from each of the three categories mentioned above. If you bill one or more (but not one from all three categories) of the demonstration codes on a single claim, carriers will return/reject the claim as not able to process and use Remittance Advice reason code 16 and remark code MA 130.

Conversely, if you bill more than one G-code from the same category for the same date of service on the same claim (for instance, you submit a claim for more than two G-codes from the category of "primary focus of the visit"), carriers will also reject the claim as not able to process, and use remittance advice reason code 125 and remittance advice remark code MA130.

Note: Some Medicare carriers may choose to manually split the claim and only return the not-able-to-process portion (i.e., the portion related to submitting data for the oncology demonstration). However, CMS will not require carriers to do this.

Claims Must Be Assigned

Your claims must be assigned. If a participating provider submits a non-assigned claim for the oncology demonstration G codes, carriers will process the claim as assigned and generate Remittance Advice remark code MA09.

If a nonparticipating provider submits a non-assigned claim for the G-codes and related E & M service, carriers will process the claim for coverage and payment of those services that do not require assignment (e.g., the evaluation and management service) and deny the G-codes using Remittance Advice reason code 111, remark code N149, and MSN message 16.6.

Resubmitting G-Codes

Providers may resubmit oncology demonstration G-codes that were denied for not accepting assignment and, in such instances, the G-codes will be approved if the related E & M codes were approved. However, if there is no approved E & M code for the same service date and place of service as the G-codes on the claim or in the history, carriers will deny the G-codes using Remittance Advice reason code 107 and MSM code 16.26.

Place of Service

The place of service reported for codes must be "office" (place of service code 11). If the place of service reported is other than "office," carriers will return/reject the claim as not able to process, using Remittance Advice reason code 5 and MSN code 16.2.

Payment Allowances

Carriers will establish the following payment allowances for the demonstration codes and determine payment based on the lesser of 80% of the actual charge or on the allowance by code:

1. G9050 to G9055 - $7.67
2. G9056 to G9062 - $7.67
3. G9063 to G9130 - $7.66

These amounts apply in all localities, and the usual Part B coinsurance and deductible apply.

SNF Consolidated Billing

During the demonstration, the oncology G-codes will bypass SNF consolidated billing for beneficiaries in a Part A stay.

Additional Information

The new 2006 oncology G codes and their descriptors can be viewed beginning on the next page of this article.

In addition, a special edition *Medlearn Matters* article is available to provide additional coding guidance. That article is available at *http://www.cms.hhs.gov/MedlearnMattersArticles/downloads/SE0588.pdf* on the CMS website.

To view the actual instruction, CR4219, issued to your carrier, visit *http://www.cms.hhs.gov/Transmittals/downloads/R42DEMO.pdf* on the CMS website.

If you have any questions, please contact your carrier at their toll-free number, which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

Oncology Demonstration Project G-codes (in Numerical Order by Code)

Primary focus of the visit

G9050	ONCOLOGY; PRIMARY FOCUS OF VISIT; WORK-UP, EVALUATION, OR STAGING AT THE TIME OF CANCER DIAGNOSIS OR RECURRENCE (FOR USE IN A MEDICARE-APPROVED DEMONSTRATION PROJECT)
G9051	ONCOLOGY; PRIMARY FOCUS OF VISIT; TREATMENT DECISION-MAKING AFTER DISEASE IS STAGED OR RESTAGED, DISCUSSION OF TREATMENT OPTIONS, SUPERVISING/COORDINATING ACTIVE CANCER DIRECTED THERAPY OR MANAGING CONSEQUENCES OF CANCER DIRECTED THERAPY
G9052	ONCOLOGY; PRIMARY FOCUS OF VISIT; SURVEILLANCE FOR DISEASE RECURRENCE FOR PATIENT WHO HAS COMPLETED DEFINITIVE CANCER-DIRECTED THERAPY AND CURRENTLY LACKS EVIDENCE OF RECURRENT DISEASE; CANCER DIRECTED THERAPY MIGHT BE CONSIDERED IN THE FUTURE
G9053	ONCOLOGY; PRIMARY FOCUS OF VISIT; EXPECTANT MANAGEMENT OF PATIENT WITH EVIDENCE OF CANCER FOR WHOM NO CANCER DIRECTED THERAPY IS BEING ADMINISTERED OR ARRANGED AT PRESENT; CANCER DIRECTED THERAPY MIGHT BE CONSIDERED IN THE FUTURE

2006 Oncology Demonstration Project, continued

G9054 ONCOLOGY; PRIMARY FOCUS OF VISIT; SUPERVISING, COORDINATING OR MANAGING CARE OF PATIENT WITH TERMINAL CANCER OR FOR WHOM OTHER MEDICAL ILLNESS PREVENTS FURTHER CANCER TREATMENT; INCLUDES SYMPTOM MANAGEMENT, END-OF-LIFE CARE PLANNING, MANAGEMENT OF PALLIATIVE THERAPIES

G9055 ONCOLOGY; PRIMARY FOCUS OF VISIT; OTHER, UNSPECIFIED SERVICE NOT OTHERWISE LISTED

Guideline Adherence Codes

G9056 ONCOLOGY; PRACTICE GUIDELINES; MANAGEMENT ADHERES TO GUIDELINES

G9057 ONCOLOGY; PRACTICE GUIDELINES; MANAGEMENT DIFFERS FROM GUIDELINES AS A RESULT OF PATIENT ENROLLMENT IN AN INSTITUTIONAL REVIEW BOARD APPROVED CLINICAL TRIAL

G9058 ONCOLOGY; PRACTICE GUIDELINES; MANAGEMENT DIFFERS FROM GUIDELINES BECAUSE THE TREATING PHYSICIAN DISAGREES WITH GUIDELINE RECOMMENDATIONS

G9059 ONCOLOGY; PRACTICE GUIDELINES; MANAGEMENT DIFFERS FROM GUIDELINES BECAUSE THE PATIENT, AFTER BEING OFFERED TREATMENT CONSISTENT WITH GUIDELINES, HAS OPTED FOR ALTERNATIVE TREATMENT OR MANAGEMENT, INCLUDING NO TREATMENT

G9060 ONCOLOGY; PRACTICE GUIDELINES; MANAGEMENT DIFFERS FROM GUIDELINES FOR REASON(S) ASSOCIATED WITH PATIENT COMORBID ILLNESS OR PERFORMANCE STATUS NOT FACTORED INTO GUIDELINES

G9061 ONCOLOGY; PRACTICE GUIDELINES; PATIENT'S CONDITION NOT ADDRESSED BY AVAILABLE GUIDELINES

G9062 ONCOLOGY; PRACTICE GUIDELINES; MANAGEMENT DIFFERS FROM GUIDELINES FOR OTHER REASON(S) NOT LISTED

Lung cancer, Non-small cell, small cell lung cancer (162.2-162.9)

G9063 ONCOLOGY; DISEASE STATUS; LIMITED TO NON-SMALL CELL LUNG CANCER; EXTENT OF DISEASE INITIALLY ESTABLISHED AS STAGE I (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9064 ONCOLOGY; DISEASE STATUS; LIMITED TO NON-SMALL CELL LUNG CANCER; EXTENT OF DISEASE INITIALLY ESTABLISHED AS STAGE II (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9065 ONCOLOGY; DISEASE STATUS; LIMITED TO NON-SMALL CELL LUNG CANCER; EXTENT OF DISEASE INITIALLY ESTABLISHED AS STAGE III A (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9066 ONCOLOGY; DISEASE STATUS; LIMITED TO NON-SMALL CELL LUNG CANCER; STAGE III B- IV AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE

G9067 ONCOLOGY; DISEASE STATUS; LIMITED TO NON-SMALL CELL LUNG CANCER; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION, NOT YET DETERMINED, OR NOT LISTED

G9068 ONCOLOGY; DISEASE STATUS; LIMITED TO SMALL CELL AND COMBINED SMALL CELL/NON-SMALL CELL; EXTENT OF DISEASE INITIALLY ESTABLISHED AS LIMITED WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9069 ONCOLOGY; DISEASE STATUS; SMALL CELL LUNG CANCER, LIMITED TO SMALL CELL AND COMBINED SMALL CELL/NON-SMALL CELL; EXTENSIVE STAGE AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE

G9070 ONCOLOGY; DISEASE STATUS; SMALL CELL LUNG CANCER, LIMITED TO SMALL CELL AND COMBINED SMALL CELL/NON-SMALL; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION, PRE-SURGICAL, OR NOT LISTED

Female breast cancer (174.0-174.9)

G9071 ONCOLOGY; DISEASE STATUS; INVASIVE FEMALE BREAST CANCER (DOES NOT INCLUDE DUCTAL CARCINOMA IN SITU); ADENOCARCINOMA AS PREDOMINANT CELL TYPE; STAGE I OR STAGE IIA-IIB; OR T3, N1, M0; AND ER AND/OR PR POSITIVE; WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9072 ONCOLOGY; DISEASE STATUS; INVASIVE FEMALE BREAST CANCER (DOES NOT INCLUDE DUCTAL CARCINOMA IN SITU); ADENOCARCINOMA AS PREDOMINANT CELL TYPE; STAGE I, OR STAGE IIA-IIB; OR T3, N1, M0; AND ER AND PR NEGATIVE; WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9073 ONCOLOGY; DISEASE STATUS; INVASIVE FEMALE BREAST CANCER (DOES NOT INCLUDE DUCTAL CARCINOMA IN SITU); ADENOCARCINOMA AS PREDOMINANT CELL TYPE; STAGE IIIA-IIIB; AND NOT T3, N1, M0; AND ER AND/OR PR POSITIVE; WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9074 ONCOLOGY; DISEASE STATUS; INVASIVE FEMALE BREAST CANCER (DOES NOT INCLUDE DUCTAL CARCINOMA IN SITU); ADENOCARCINOMA AS PREDOMINANT CELL TYPE; STAGE IIIA-IIIB; AND NOT T3, N1, M0; AND ER AND PR NEGATIVE; WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9075 ONCOLOGY; DISEASE STATUS; INVASIVE FEMALE BREAST CANCER (DOES NOT INCLUDE DUCTAL CARCINOMA IN SITU); ADENOCARCINOMA AS PREDOMINANT CELL TYPE; M1 AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE

2006 Oncology Demonstration Project, continued

G9076 ONCOLOGY; DISEASE STATUS; INVASIVE FEMALE BREAST CANCER (DOES NOT INCLUDE DUCTAL CARCINOMA IN SITU); ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION, PRE-SURGICAL OR NOT LISTED

Prostate cancer (185)

G9077 ONCOLOGY; DISEASE STATUS; PROSTATE CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; T1-T2C AND GLEASON 2-7 AND PSA < OR EQUAL TO 20 AT DIAGNOSIS WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9078 ONCOLOGY; DISEASE STATUS; PROSTATE CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; T2 *OR T3A+* GLEASON 8-10 OR PSA > 20 AT DIAGNOSIS WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9079 ONCOLOGY; DISEASE STATUS; PROSTATE CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; T3B-T4, ANY N; ANY T, N1 AT DIAGNOSIS WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9080 ONCOLOGY; DISEASE STATUS; PROSTATE CANCER, LIMITED TO ADENOCARCINOMA; AFTER INITIAL TREATMENT WITH RISING PSA OR FAILURE OF PSA DECLINE

G9081 ONCOLOGY; DISEASE STATUS; PROSTATE CANCER, LIMITED TO ADENOCARCINOMA; NON-CASTRATE, INCOMPLETELY CASTRATE; CLINICAL METASTASES OR M1 AT DIAGNOSIS

G9082 ONCOLOGY; DISEASE STATUS; PROSTATE CANCER, LIMITED TO ADENOCARCINOMA; CASTRATE; CLINICAL METASTASES OR M1 AT DIAGNOSIS

G9083 ONCOLOGY; DISEASE STATUS; PROSTATE CANCER, LIMITED TO ADENOCARCINOMA; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION OR NOT LISTED

Colon cancer (153.0-153.9)

G9084 ONCOLOGY; DISEASE STATUS; COLON CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T1-3, N0, M0 WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9085 ONCOLOGY; DISEASE STATUS; COLON CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T4, N0, M0 WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9086 ONCOLOGY; DISEASE STATUS; COLON CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T1-4, N1-2, M0 WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9087 ONCOLOGY; DISEASE STATUS; COLON CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; M1 AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE WITH CURRENT CLINICAL, RADIOLOGIC, OR BIOCHEMICAL EVIDENCE OF DISEASE

G9088 ONCOLOGY; DISEASE STATUS; COLON CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; M1 AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE WITHOUT CURRENT CLINICAL, RADIOLOGIC, OR BIOCHEMICAL EVIDENCE OF DISEASE

G9089 ONCOLOGY; DISEASE STATUS; COLON CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE UNKNOWN, NOT YET DETERMINED, UNDER EVALUATION, PRE-SURGICAL, OR NOT LISTED

Rectal cancer (154.0, 154.1)

G9090 ONCOLOGY; DISEASE STATUS; RECTAL CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T1-2, N0, M0 (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9091 ONCOLOGY; DISEASE STATUS; RECTAL CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T3, N0, M0 (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9092 ONCOLOGY; DISEASE STATUS; RECTAL CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T1-3, N1-2, M0 (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE OR METASTASES

G9093 ONCOLOGY; DISEASE STATUS; RECTAL CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T4, ANY N, M0 (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9094 ONCOLOGY; DISEASE STATUS; RECTAL CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMAAS PREDOMINANT CELL TYPE; M1 AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE

G9095 ONCOLOGY; DISEASE STATUS; RECTAL CANCER, LIMITED TO INVASIVE CANCER, ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE UNKNOWN, NOT YET DETERMINED, UNDER EVALUATION, PRE-SURGICAL, OR NOT LISTED

2006 Oncology Demonstration Project, continued

Esophageal cancer (150.0-150.9)

G9096 ONCOLOGY; DISEASE STATUS; ESOPHAGEAL CANCER, LIMITED TO ADENOCARCINOMA OR SQUAMOUS CELL CARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T1-T3, N0-N1 OR NX (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9097 ONCOLOGY; DISEASE STATUS; ESOPHAGEAL CANCER, LIMITED TO ADENOCARCINOMA OR SQUAMOUS CELL CARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T4, ANY N, M0 (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9098 ONCOLOGY; DISEASE STATUS; ESOPHAGEAL CANCER, LIMITED TO ADENOCARCINOMA OR SQUAMOUS CELL CARCINOMA AS PREDOMINANT CELL TYPE; M1 AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE

G9099 ONCOLOGY; DISEASE STATUS; ESOPHAGEAL CANCER, LIMITED TO ADENOCARCINOMA OR SQUAMOUS CELL CARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE UNKNOWN, NOT YET DETERMINED, UNDER EVALUATION, PRE-SURGICAL, OR NOT LISTED

Gastric cancer (151.0-151.9)

G9100 ONCOLOGY; DISEASE STATUS; GASTRIC CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; POST R0 RESECTION (WITH OR WITHOUT NEOADJUVANT THERAPY) WITH NO EVIDENCE OF DISEASE RECURRENCE, PROGRESSION, OR METASTASES

G9101 ONCOLOGY; DISEASE STATUS; GASTRIC CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; POST R1 OR R2 RESECTION (WITH OR WITHOUT NEOADJUVANT THERAPY) WITH NO EVIDENCE OF DISEASE PROGRESSION, OR METASTASES

G9102 ONCOLOGY; DISEASE STATUS; GASTRIC CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; CLINICAL OR PATHOLOGIC M0, UNRESECTABLE WITH NO EVIDENCE OF DISEASE PROGRESSION, OR METASTASES

G9103 ONCOLOGY; DISEASE STATUS; GASTRIC CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; CLINICAL OR PATHOLOGIC M1 AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE

G9104 ONCOLOGY; DISEASE STATUS; GASTRIC CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION, NOT YET DETERMINED, PRESURGICAL, OR NOT LISTED

Pancreatic cancer (157.0-157.3, 157.8, 157.9)

G9105 ONCOLOGY; DISEASE STATUS; PANCREATIC CANCER, LIMITED TO ADENOCARCINOMA AS PREDOMINANT CELL TYPE; POST R0 RESECTION WITHOUT EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9106 ONCOLOGY; DISEASE STATUS; PANCREATIC CANCER, LIMITED TO ADENOCARCINOMA; POST R1 OR R2 RESECTION WITH NO EVIDENCE OF DISEASE PROGRESSION, OR METASTASES

G9107 ONCOLOGY; DISEASE STATUS; PANCREATIC CANCER, LIMITED TO ADENOCARCINOMA; UNRESECTABLE AT DIAGNOSIS, M1 AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE

G9108 ONCOLOGY; DISEASE STATUS; PANCREATIC CANCER, LIMITED TO ADENOCARCINOMA; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION, NOT YET DETERMINED, PRE-SURGICAL, OR NOT LISTED

Head and neck cancer (140.0-149.9, 161.0-161.9)

G9109 ONCOLOGY; DISEASE STATUS; HEAD AND NECK CANCER, LIMITED TO CANCERS OF ORAL CAVITY, PHARYNX AND LARYNX WITH SQUAMOUS CELL AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T1-T2 AND N0, M0 (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9110 ONCOLOGY; DISEASE STATUS; HEAD AND NECK CANCER, LIMITED TO CANCERS OF ORAL CAVITY, PHARYNX AND LARYNX WITH SQUAMOUS CELL AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE INITIALLY ESTABLISHED AS T3-4 AND/OR N1-3, M0 (PRIOR TO NEO-ADJUVANT THERAPY, IF ANY) WITH NO EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

G9111 ONCOLOGY; DISEASE STATUS; HEAD AND NECK CANCER, LIMITED TO CANCERS OF ORAL CAVITY, PHARYNX AND LARYNX WITH SQUAMOUS CELL AS PREDOMINANT CELL TYPE; M1 AT DIAGNOSIS, METASTATIC, LOCALLY RECURRENT, OR PROGRESSIVE

G9112 ONCOLOGY; DISEASE STATUS; HEAD AND NECK CANCER, LIMITED TO CANCERS OF ORAL CAVITY, PHARYNX AND LARYNX WITH SQUAMOUS CELL AS PREDOMINANT CELL TYPE; EXTENT OF DISEASE UNKNOWN, NOT YET DETERMINED, PRE-SURGICAL, OR NOT LISTED

Ovarian cancer (183.0)

G9113 ONCOLOGY; DISEASE STATUS; OVARIAN CANCER, LIMITED TO EPITHELIAL CANCER; PATHOLOGIC STAGE IA-B (GRADE 1) WITHOUT EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES (FOR USE IN A MEDICARE-APPROVED DEMONSTRATION PROJECT)

G9114 ONCOLOGY; DISEASE STATUS; OVARIAN CANCER, LIMITED TO EPITHELIAL CANCER; PATHOLOGIC STAGE IA-B (GRADE 2-3); OR STAGE IC (ALL GRADES); OR STAGE II; WITHOUT EVIDENCE OF DISEASE PROGRESSION, RECURRENCE, OR METASTASES

2006 Oncology Demonstration Project, continued

G9115 ONCOLOGY; DISEASE STATUS; OVARIAN CANCER, LIMITED TO EPITHELIAL CANCER; PATHOLOGIC STAGE III-IV; WITHOUT EVIDENCE OF PROGRESSION, RECURRENCE

G9116 ONCOLOGY; DISEASE STATUS; OVARIAN CANCER, LIMITED TO EPITHELIAL CANCER; EVIDENCE OF DISEASE PROGRESSION, OR RECURRENCE, AND/OR PLATINUM RESISTANCE

G9117 ONCOLOGY; DISEASE STATUS; OVARIAN CANCER, LIMITED TO EPITHELIAL CANCER; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION, INCOMPLETE SURGICAL STAGING, PRE-SURGICAL STAGING, OR NOT LISTED (FOR USE IN A MEDICARE-APPROVED DEMONSTRATION PROJECT)

Non-Hodgkin's lymphoma (202.00-202.08, 202.80-202.98)

G9118 ONCOLOGY; DISEASE STATUS; NON-HODGKIN'S LYMPHOMA, LIMITED TO FOLLICULAR LYMPHOMA, MANTLE CELL LYMPHOMA, DIFFUSE LARGE B-CELL LYMPHOMA, SMALL LYMPHOCYTIC LYMPHOMA; STAGE I, II AT DIAGNOSIS, NOT RELAPSED, NOT REFRACTORY

G9119 ONCOLOGY; DISEASE STATUS; NON-HODGKIN'S LYMPHOMA, LIMITED TO FOLLICULAR LYMPHOMA, MANTLE CELL LYMPHOMA, DIFFUSE LARGE B-CELL LYMPHOMA, SMALL LYMPHOCYTIC LYMPHOMA; STAGE III, IV NOT RELAPSED, NOT REFRACTORY (FOR USE IN A MEDICARE –APPROVED DEMONSTRATION PROJECT)

G9120 ONCOLOGY; DISEASE STATUS; NON-HODGKIN'S LYMPHOMA, TRANSFORMED FROM FOLLICULAR LYMPHOMA TO DIFFUSE LARGE B-CELL LYMPHOMA

G9121 ONCOLOGY; DISEASE STATUS; NON-HODGKIN'S LYMPHOMA, LIMITED TO FOLLICULAR LYMPHOMA, MANTLE CELL LYMPHOMA, DIFFUSE LARGE B-CELL LYMPHOMA, SMALL LYMPHOCYTIC LYMPHOMA; RELAPSED/ REFRACTORY

G9122 ONCOLOGY; DISEASE STATUS; NON-HODGKIN'S LYMPHOMA, LIMITED TO FOLLICULAR LYMPHOMA, MANTLE CELL LYMPHOMA, DIFFUSE LARGE B-CELL LYMPHOMA, SMALL LYMPHOCYTIC LYMPHOMA; DIAGNOSTIC EVALUATION, STAGE NOT DETERMINED, EVALUATION OF POSSIBLE RELAPSE OR NONRESPONSE TO THERAPY, OR NOT LISTED

Chronic Myelogenous leukemia (205.10, 205.11)

G9123 ONCOLOGY; DISEASE STATUS; CHRONIC MYELOGENOUS LEUKEMIA, LIMITED TO PHILADELPHIA CHROMOSOME POSITIVE AND/OR BCR-ABL POSITIVE; CHRONIC PHASE NOT IN HEMATOLOGIC, CYTOGENETIC, OR MOLECULAR REMISSION

G9124 ONCOLOGY; DISEASE STATUS; CHRONIC MYELOGENOUS LEUKEMIA, LIMITED TO PHILADELPHIA CHROMOSOME POSITIVE AND /OR BCR-ABL POSITIVE; ACCELERATED PHASE NOT IN HEMATOLOGIC CYTOGENETIC, OR MOLECULAR REMISSION

G9125 ONCOLOGY; DISEASE STATUS; CHRONIC MYLOGENOUS LEUKEMIA, LIMITED TO PHILADELPHIACHROMOSOME POSITIVE AND /OR BCR-ABL POSITIVE; *BLAST PHASE NOT†* IN HEMATOLOGIC, CYTOGENETIC, OR MOLECULAR REMISSION

G9126 ONCOLOGY; DISEASE STATUS; CHRONIC MYELOGENOUS LEUKEMIA, LIMITED TO PHILADELPHIA CHROMOSOME POSITIVE AND /OR BCR-ABL POSITIVE; IN HEMATOLOGIC, CYTOGENETIC, OR MOLECULAR REMISSION

G9127 ONCOLOGY; DISEASE STATUS; CHRONIC MEYLOGENOUS LEUKEMIA, LIMITED TO PHILADELPHIA CHROMOSOME POSITIVE AND /OR BCR-ABL POSITIVE; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION, NOT LISTED (FOR USE IN A MEDICARE-APPROVED DEMONSTRATION PROJECT

Multiple Myeloma (203.00, 203.01)

G9128 ONCOLOGY; DISEASE STATUS; LIMITED TO MULTIPLE MYELOMA, SYSTEMIC DISEASE; SMOLDERING, STAGE I

G9129 ONCOLOGY; DISEASE STATUS; LIMITED TO MULTIPLE MYELOMA, SYSTEMIC DISEASE; STAGE II OR HIGHER

G9130 ONCOLOGY; DISEASE STATUS; LIMITED TO MULTIPLE MYELOMA, SYSTEMIC DISEASE; EXTENT OF DISEASE UNKNOWN, UNDER EVALUATION, OR NOT LISTED

†Italicized text reflects impending change to long descriptor to be implemented in January 2006. The coding physician should assume the long descriptor includes this change.

2006 Oncology Demonstration Project - Reminder

To qualify for the payment associated with this demonstration payment, you must submit one G-code from each of the three categories mentioned above when you bill for an E & M of level 2, 3, 4, or 5 for established patients. In addition, the G-codes and the E & M must be billed on the same claim. If billed on separate claims, the service will be denied.

March is National Kidney Month

As you know, chronic kidney disease (CKD) is a growing problem in the United States. CKD can lead to cardiovascular disease, among other serious health conditions, and left unchecked can eventually lead to kidney failure. Over 400,000 Americans suffer from kidney failure (end stage renal disease, or ESRD) and require either kidney dialysis or transplantation to live. Additionally, 8 to 20 million Americans have reduced kidney function, due primarily to diabetes and hypertension, which can lead to kidney failure. ESRD is Medicare's only disease-specific program that entitles people of all ages to Medicare coverage on the basis of their diagnosis. Your patients may be at risk for chronic kidney disease if they:

- Have Diabetes
- Have High Blood Pressure
- Have a Family History of Chronic Kidney Disease
- Are 60 Years of Age or Older
- Are from the following ethnic groups (African American, Hispanic, Asian or Pacific Islander)

The Medicare Program provides coverage of kidney dialysis and kidney transplant services for eligible Medicare patients. Your Medicare patients may also be eligible for coverage of cardiovascular disease and diabetes screenings, diseases that may increase the risk of kidney damage.

What can you do?

Prevention is possible! Talk with your patients about their risk for kidney disease and encourage them to take advantage of the appropriate Medicare benefits, such as cardiovascular disease and diabetes screenings and medical nutrition therapy services. Early treatment can slow progression of kidney disease and reduce cardiovascular risk.

Resources

To learn more about Medicare's coverage of and payment for kidney related services, please refer to the following publications, developed by the Medicare Learning Network (MLN) for health care professionals:

- Physician's Guide to Medicare Coverage of Kidney Dialysis and Kidney Transplant Services *www.cms.hhs.gov/MedlearnProducts/downloads/Book_Kidney_Dialysis-Final.pdf* (Available in print or download)
- Fistula First Breakthrough Initiative *http://www.cms.hhs.gov/MedlearnProducts/downloads/FistulaFirstbroch.pdf* (Available in download only)
- End Stage Renal Disease Composite Payment Rate System *http://www.cms.hhs.gov/MedlearnProducts/downloads/ESRDCompRatePaymentSys.pdf* (Available in download only)
- The Guide to Medicare Preventive Services for Physicians, Providers, Suppliers, and Other Health Care Professionals *http://www.cms.hhs.gov/MedlearnProducts/downloads/PSGUID.pdf* (Available in print or download)

Print products may be ordered, free of charge, from the MLN Product Ordering page located at *http://www.cms.hhs.gov/medlearn* on the CMS website. These products are also available to view on line as a download and may be reprinted or redistributed as needed.

Revisions to Instructions for Contractors Other Than the RNHCI Specialty Contractor Regarding Claims for Beneficiaries with RNHCI Elections

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and suppliers who may treat Medicare patients who have elected Religious Nonmedical Health Care Institutions (RNHCI) care and bill Medicare fiscal intermediaries (FIs), regional home health intermediaries (RHHIs), carriers, and durable medical equipment regional carriers (DMERCs) for those services.

Provider Action Needed

STOP – Impact to You

This change request (1) replaces the current process that develops claims via telephone inquiry for beneficiaries with RNHCI elections with a letter using "yes" or "no" questions; (2) places into the *Medicare Claims Processing Manual* RNHCI claims processing instructions; (3) restructures much of the existing RNHCI manual material to be more complete and accessible; (4) defines the RNHCI; and (5) lists the qualifying criteria for RNHCI benefits.

CAUTION – What You Need to Know

Note the business requirements in this CR that apply to your billing area.

GO – What You Need to Do

For providers other than RNHCIs, use the letter issued by your contractor that asks questions key to determining excepted versus nonexcepted care. For RNHCIs, incorporate the new claims submission instructions into your billing procedures.

Background

The transmittal publishes enhancements to Medicare manuals to more clearly explain the RNHCI benefit. The majority of these manual changes do not create any new business requirements. However, the transmittal revises instructions from Program Memorandum (PM) AB-03-145.

That PM changed the development process for claims for beneficiaries with RNHCI elections from a review of medical records to a telephone contact process.

The intent of PM AB-03-145 was to simplify the development process. Since the issuance of PM AB-03-145, a number of Medicare contractors (i.e., carriers and fiscal intermediaries) other than the RNHCI specialty contractor have expressed sufficient concerns about the telephone contact process to cause the Centers for Medicare & Medicaid Services (CMS) to revise that process.

Non-specialty contractors with high volumes of RNHCI-related claims rejects reported difficulty contacting providers. In addition, they reported beneficiaries were not willing or able to supply the necessary information to enable the contractor to determine whether the care was excepted or non-excepted care under RNHCI benefit policies.

These contractors also expressed concerns about the lack of written documentation from the provider in the telephone-based process. To address these concerns without reverting to a review of medical records, CMS has developed the requirements listed below that will be incorporated into the letter issued to providers.

Briefly, if you bill Medicare for services provided to a patient who has elected RNHCI coverage, the following requirements of CR4218 will apply.

Requirements of CR4218

Development Letters for Providers Other than RNHCIs

Upon receipt of a claim rejected by Medicare systems due to an RNHCI election on file for that Medicare beneficiary, contractors must issue a development letter designed to determine whether care was excepted or nonexcepted.

Contractors must issue RNHCI development letters that ask questions about the following:

- Whether the beneficiary paid for the services out of pocket in lieu of requesting payment from Medicare;
- Whether the beneficiary was unable to make his/her beliefs and wishes known before receiving the services that have been billed; and
- Whether, for a vaccination service, the vaccination performed was required by a government jurisdiction.

The letters will phrase questions in RNHCI to be answered with a Yes or No response. The wording and format of this letter will be based on the experience of your contractor in effectively communicating with their community of providers.

Determinations Based on Development Letter

- Contractors will make determinations of excepted or non-excepted care based on provider responses to development letters.
- Contractors will make determinations within 30 days of receipt of the provider's response.
- Contractors will make determinations of excepted care when a provider responds 'Yes' to any of the questions in the letter.
- Contractors will make determinations of non-excepted care when a provider responds 'No' to all of the questions in the letter.
- Contractors will make an excepted/non-excepted determination based on the evidence presented by the claim itself if the provider does not reply in a timely manner to the development letter.
- For claims for which no timely response was received, contractors will make a determination of non-excepted care if the claim contains durable medical equipment or prosthetic/orthotic devices.

Instructions for Contractors Other Than the RNHCI Specialty Contractor, continued

- For claims for which no timely response was received, contractor staff with a clinical background will use the diagnoses and procedures reported on the claim to make their best determination whether the services were excepted or non-excepted care.
- For claims for which no timely response was received, contractors will make determinations of excepted or non-excepted care within 30 days of the end of the timely response period.

For RNHCI Providers

CR 4218 provides complete instructions for completion of claims to Medicare. RNHCIs should review the instructions in CR 4218 and ensure their current billing processes are consistent with these instructions. The "Related Instructions" section of this article provides information on accessing the transmittals that comprise CR 4218.

Implementation

The implementation date for the instruction is May 11, 2006.

Related Instructions

For a beneficiary to receive benefits under section 1821 of the Social Security Act (the Act) and payment under the Medicare program upon admission to a RNHCI and prior to the RNHCI billing for services, the beneficiary must make a written election.

The document detailing the process for a beneficiary to elect RNHCI care or to terminate that election is attached to transmittal R45BP of CR 4218. CR 4218 may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R45BP.pdf* on the CMS website.

The ten qualifying provisions that must be met for a provider to be defined as an RNHCI, as contained in Section 1861 (ss) (1) of the Act for RNHCIs, are defined in transmittal R35GI of CR 4218. The transmittal may be viewed at *http://www.cms.hhs.gov/Transmittals/downloads/R35GI.pdf* on the CMS website.

Chapter 3 of the *Medicare Claims Processing Manual*, Inpatient Hospital Billing, was also completely revised and is contained in transmittal R851CP of CR 4218.

Transmittal R851CP is available at *http://www.cms.hhs.gov/Transmittals/downloads/R851CP.pdf* on the CMS website.

Additional Information

The official instructions issued to the RNHCI intermediary regarding this change can be found in three parts, i.e., the transmittals parts as shown in the Web addresses provided above.

If you have questions, please contact your carrier/intermediary/DMERC at their toll-free number which may be found at *http://www.cms.hhs.gov/apps/contacts/* on the CMS website.

Extension of Transitional Drug Coverage

A new fact sheet, describing the recent extension of transitional drug coverage to 90 days, can be found at *http://www.medicare.gov/Publications/Pubs/pdf/11193.pdf* on the Web.

On February 1, 2006 HHS Secretary Mike Leavitt announced that plans would be extending the 30-day transitional drug coverage period, extending it from the 30-day period to an additional sixty more days. That means that the plans are providing a full ninety days of drug coverage (through March 31, 2006).

Announcing a New Name for Medicare's Provider Education Articles—MLN Matters

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

All Medicare physicians, providers, and suppliers

Background

The Medicare Learning Network is pleased to announce a new name for our very popular provider education articles. To more closely associate these articles with the Medicare Learning Network, i.e., the official educational information source for Medicare Fee-for-Service (FFS) providers, the articles previously known as "Medlearn Matters" articles will now be known as *"MLN Matters"* articles (the MLN standing for "Medicare Learning Network").

You will also notice a new logo at the top of the articles indicating the name change. The Centers for Medicare & Medicaid Services (CMS) knows that you have come to rely on these articles to help you more easily understand new or changed Medicare policy and to help you gain quick access to accurate Medicare program information.

The articles can now be accessed from *http://www.cms.hhs.gov/MLNMattersArticles* on the CMS website. If you have previously bookmarked the "Medlearn Matters" page, please update your bookmark to the new URL.

We hope that you will continue to utilize these articles that are always prepared with the affected provider audience in mind.

In conjunction with the above referenced change, the urls for the Medicare Learning Network (MLN) web pages have also been changed. You can reach our MLN web pages from the cms.hhs.gov main page - just click on "Outreach and Education." The full URLs to access the various MLN sections on the CMS website are:

MLN General Information – *http://www.cms.hhs.gov/MLNGenInfo*
MLN Products – *http://www.cms.hhs.gov/MLNProducts*

Additional Information

Also, note that if you know the specific number of an article you are after, such as SE0620, you can go directly to the specific URL for an article by using the format below. For example, the website for SE0620 is *http://www.cms.hhs.gov/MLNMattersArticles/downloads/SE0620.pdf*.

For any other article, just substitute its number for the SE0620 in this URL to go directly to the PDF version of the article on the CMS website.

Note: CMS issued a reminder of this change via the Contractor Provider Education Resources Listserv on: April 10, 2006, posted to our provider education website on April 17, 2006.

MEDICARE PRESCRIPTION DRUG COVERAGE

Provider Part D Fact Sheet

The Centers for Medicare & Medicaid Services has assembled a fact sheet for use in prescriber's offices regarding the new transition policy, as well as the exceptions and appeals process for the Medicare Prescription Drug Benefit. This resource fact sheet is designed to provide ready-links to tools that will streamline the prescribing process under the new benefit. We continue to work with groups representing physicians, pharmacists, patients and Part D plans to simplify and standardize the information that physicians need to provide to plans.

The URL for the physician fact sheet is:
http://www.cms.hhs.gov/MedlearnProducts/downloads/Part_D_Resource_Factsheet.pdf.

We have consolidated most of the resources for prescribers into the provider website at *www.cms.hhs.gov/center/provider.asp* where offices can get access to direct phone numbers to the plan's coverage determination people, as well as copies of model forms that will help speed the process. Of course, information is always available through our Medicare Learning Network at *www.cms.hhs.gov/medlearn/drugcoverage.asp*.

We are hopeful that you will share this fact sheet with your members and feature it in your electronic and print outlets so that as many prescriber's offices know about the processes and tools we have designed to make it easier for them and their patients.

Medicare Prescription Drug Coverage, continued

Medicare Prescription Drug Coverage: Essential Information and Resources for Prescribing Health Care Professionals – The Eleventh in the MLN Matters Series on the New Prescription Drug Plans

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals. This information was previously published in the Second Quarter 2005 Medicare B Update! pages 54-55.

Note: This article was revised to contain Web addresses that conform to the new CMS website and to show they are now MLN Matters articles. All other information remains the same.

Provider Types Affected

All health care professionals who prescribe prescription medications for Medicare beneficiaries

Impact on Providers

The new Medicare prescription drug coverage began on January 1, 2006. Already, pharmacists have filled millions of prescriptions for people with Medicare. During this important transition period to the new prescription drug coverage, the Centers for Medicare & Medicaid Services (CMS) understands that there is much that prescribing health care professionals need to know about this new coverage in order to help their Medicare patients.

Essential Information for Prescribing Health Care Professionals

CMS has compiled a list of information, resources, and tools that will allow health care professionals and their support staff to help their Medicare patients during this transition period.

Finding Formulary Information

CMS has a formulary finder that provides direct access to all plan websites at *http://formularyfinder.medicare.gov/formularyfinder/selectstate.asp* on the Web. In addition, we have worked with Epocrates to provide free software, which makes the formulary selection process very simple. You can load this program into your PDA or run the software on a desktop. This tool is available at *http://www.epocrates.com/* on the Web.

Coverage Determination

CMS defines a coverage determination as the first decision made by a plan regarding the prescription drug benefits an enrollee is entitled to receive under the plan, including a decision not to provide or pay for a Part D drug, a decision concerning an exception request, and a decision on the amount of cost sharing for a drug.

An exception request is a type of coverage determination request. Through the exceptions process, an enrollee can request an off-formulary drug, an exception to the plan's tiered cost sharing structure, and an exception to the application of a cost utilization management tool (e.g., step therapy requirement, dose restriction, or prior authorization requirement).

CMS does not have the authority to mandate a standard exception process for each Medicare drug plan or MA-PD; however, the Agency is working to simplify the exceptions process. Like typical commercial payers, health care professionals may occasionally need to help a patient file a prior authorization for a medication or appeal a medication's tier. CMS is working with medical specialty societies to address these issues.

A form has been created by a coalition of medical societies and advocacy groups that can be faxed to your office by a pharmacist when he or she is given a prescription that is either not on the formulary or on a higher tier.

This form streamlines communication between the pharmacist and the physician and reduces the need for time consuming telephone calls to the doctor's office.

The form is located at *http://www.cms.hhs.gov/PrescriptionDrugCovGenIn/Downloads/PartDPharmacyFaxForm.pdf* on the CMS website, as well as at several medical society websites.

Expedited Review Process

There is an expedited review process that CMS has outlined to ensure that drug plans can move an appeal quickly, i.e., within a 24-hour turnaround time, to provide medicines to patients with an immediate need. Beyond this expedited review process, the standard appeals process to challenge a plan's coverage determination has five levels:

- Redetermination by the plan;
- Reconsideration by a Medicare drug coverage qualified independent contractor (QIC);
- An Administrative Law Judge (ALJ) hearing;
- Review by the Medicare Appeals Council; and
- Review by federal district court.

Visit *http://www.cms.hhs.gov/PrescriptionDrugCovGenIn/04_Formulary.asp* for a list of plan contacts you can use to query your patient's plan should you need to pursue an appeal or require clarification on an issue.

Part B Drugs vs. Drugs Covered under Medicare Prescription Drug Coverage (Part D)

A previous MLN Matters article explains the difference between drugs covered under Part B versus those covered under Part D.

This article can be found at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/SE0570.pdf* on the CMS website.

Medicare Prescription Drug Coverage, continued

Additionally, a chart explaining specific drugs can be found at *http://www.cms.hhs.gov/pharmacy/downloads/partsbdcoverageissues.pdf* on the CMS website.

Verifying Beneficiary Enrollment in a Medicare Drug Plan

Office staff can use the Medicare Prescription Drug Plan Finder, located at *http://www.medicare.gov*, to verify a beneficiary's enrollment in a Medicare drug plan. By entering all information provided on a beneficiary's Medicare card, the Plan Finder will identify the plan in which the beneficiary is enrolled.

Pharmacists have access to a new computer tool called "E1" that provides real time enrollment and eligibility information. This tool provides both eligibility and billing information at the point of sale and is constantly updated by CMS.

Obtaining Prior Authorizations

A prior authorization can only be obtained by calling the drug plan directly. 1-800-MEDICARE cannot process a prior authorization.

Ensuring Coverage for a Dual Eligible Beneficiary Who Needs to be Enrolled in a Plan

CMS has ensured that people with Medicare and full Medicaid benefits (full dual) will have drug coverage by enabling customer service representatives at 1-800-MEDICARE to enroll these beneficiaries in WellPoint, a national plan.

If these beneficiaries have **immediate prescription needs**, they should visit their local pharmacies. The pharmacist can enroll them in WellPoint at the pharmacy.

To find out more about what happens with Medicare prescription drug coverage in certain situations, visit *http://www.cms.hhs.gov/Pharmacy/Downloads/whatif.pdf* on the CMS website.

Providing a 90-day Supply of Transitional Prescription Medication

CMS has instructed all Medicare-approved plans to extend the original 30-day transitional coverage period by an additional 60 days. This means that a Part D beneficiary will be able to get a 90-day supply of all of his or her medications when they enroll in Part D, even if some of the medications are not on formulary. This 90 day period will give the patient's doctor and pharmacist time to adjust the patient's drug regimen, or request exceptions to the plan's formulary, so that the next refill of medications will be consistent with the plan's coverage rules. Beneficiaries who enroll after March 31st will get a 30-day transitional fill so that they have time to adjust their medication regimen to the plan formulary.

Important Contact Information to Report Problems with Medicare Prescription Drug Coverage

Health Care Professionals: E-mail *prit@cms.hhs.gov* with problems and issues encountered. Please take advantage of CMS' regular conference call at 2PM EST every Tuesday. This call gives health care professionals an opportunity to ask questions of CMS staff. Call 1-800-619-2457; Passcode: RBDML.

Pharmacists: Call 1-866-835-7595, a CMS dedicated line designed to help answer questions regarding billing and beneficiary enrollment information.

Additional Information

Health care professionals can visit *http://www.cms.hhs.gov/MLNProducts/23_DrugCoverage.asp#TopOfPage* on the CMS website. The redesigned Web page contains all the latest information on Medicare prescription drug coverage.

MLN Matters Number: SE0603 *Revised*	Related Change Request (CR) #: N/A
Related CR Release Date: N/A	Effective Date: N/A
Related CR Transmittal #: N/A	Implementation Date: N/A

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. 2006 Standard Medicare Prescription Drug Coverage: Understanding Costs to Beneficiaries- The Twelfth in the MLN Matters Series on Drug Plans

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

Physicians, providers, and suppliers, and their staff who provide service to people with Medicare

Important Points to Remember

Key points to remember about the new Medicare prescription drug coverage include the following:

- Beneficiaries can join a Medicare Prescription Drug Plan that covers prescription drugs only and keep their Original Medicare coverage. Or, they can join a Medicare Advantage Plan or other Medicare Health Plan that covers doctor and hospital care as well as prescriptions.
- Medicare prescription drug coverage is NOT automatic - people must join a plan to get coverage
- Your patients have an initial opportunity to join a Medicare drug plan now through May 15, 2006.
- Most people will have to pay a higher premium that includes a penalty if they wait to join a Medicare drug plan until after May 15, 2006, unless they have other coverage that, on average, is at least as good as Medicare prescription drug coverage.

Medicare Prescription Drug Coverage, continued

This penalty consists of an additional 1% of the base premium for every month the person went without coverage, and is levied as long as the person is enrolled in a Medicare drug plan.

- People who do not join a Medicare drug plan by May 15, 2006, may also have to wait until November 15, 2006 for their next opportunity to join.

If your Medicare patients ask you questions about the new coverage, you can refer them to *http://www.medicare.gov* and 1-800-MEDICARE for additional information and assistance.

General Information

One of the issues that may be most important for your patients involves what Medicare prescription drug coverage means to them in terms of cost. This article focuses on the out-of-pocket expenses that your patients will incur under this new program and highlights the costs covered by a standard plan.

Actual costs of the specific Medicare Prescription Drug Plans and the Medicare Advantage Plans or other Medicare Health Plans in each area are available in the "Medicare & You 2006" handbook and at *http://www.medicare.gov* on the Web.

Costs Covered by a Standard Plan

Costs for your patients who join a Medicare drug plan will vary depending on their financial situation and which Medicare drug plan they join. All Medicare drug plans will offer at least the standard level of coverage described below.

Medicare drug plans may design their plans differently as long as what their plan offers is, on average, at least as good as the standard coverage. Some plans may offer more coverage for higher premiums.

Patient costs under standard Medicare drug coverage as defined by the MMA for 2006 will include the following:

- A monthly premium (average of $32 in 2006);
- A $250 deductible;
- Person pays, on average, 25% of allowable drug expenses up to a coverage limit of $2,250 (plan pays the other 75%);
- After $2,250 in covered drug costs, person pays 100% of covered drug costs until $3,600 limit in true out-of-pocket spending is reached;
- About 5% coinsurance for covered drug costs after $3,600 out-of-pocket limit is reached.

Individuals with standard coverage will pay the full cost of their prescriptions for drug spending between $2,250 and up to their true out-of-pocket limit of $3,600.

However, plan enrollees will still be able to obtain their plan's discounted price for prescription drugs in this coverage gap.

Alternate Coverage

Plans are able to offer alternative coverage structures. For example, a plan can offer a deductible lower than $250, or use tiered copayments rather than coinsurance – provided that the alternative coverage structure meets certain tests of actuarial equivalence.

Also, plans may offer additional drug coverage that supplements the standard coverage. Medicare payments to plans do not subsidize such supplemental coverage.

Costs for Patients With Medicare and Full Medicaid Benefits

Under Part D, starting in 2006, Medicare will provide primary drug coverage for individuals who are dually eligible for Medicare and Medicaid. Dually eligible individuals who earn incomes up to 100% of the federal poverty level will have Medicare prescription drug coverage with no deductibles, no premiums, nominal co pays, and no coverage gap.

Beneficiaries who do not qualify for Medicaid, but whose incomes are below 150 percent of poverty and who meet an asset test, will qualify for extra help paying for Medicare prescription drug coverage. Beneficiaries who qualify for extra help can join a Medicare drug plan with full or partial coverage for premiums and cost sharing and no coverage gap.

Specific Information on Out-of-Pocket Expenses
Medicare Drug Plan Premiums

Medicare drug plan monthly premiums vary, depending on the plan; however:

- All regions of the country have multiple plan options with premiums significantly below $30.
- There will be at least one prescription drug plan with a premium below $20 per month in every region of the country except Alaska.
- The average monthly beneficiary premium is $32.20, about $384 per year.

True Out-Of-Pocket Costs

The cost to beneficiaries with Medicare for Medicare prescription drug coverage over and above the monthly premium is often referred to as "true out-of-pocket expenses" or TrOOP.

The TrOOP represents the amount a beneficiary must spend on Part D covered drugs until catastrophic coverage begins. That catastrophic coverage begins when the beneficiary's out-of-pocket expenses reach $3,600 in a year.

In addition to paying the base premium for their plan, Medicare beneficiaries will also pay TrOOP costs including the following:

- A deductible amount ($250) and coinsurance (25% of covered drug costs during the plan payment + coinsurance stage);
- All costs during the coverage gap stage; and
- Five percent of covered drug costs during the catastrophic coverage stage.

Medicare Prescription Drug Coverage, continued

These additional TrOOP expenses are explained as follows:

Deductible (From $0 to $250: A net value of $250)

Under standard coverage, plan enrollees pay a $250 deductible each calendar year out of their own pockets for Part D covered drugs.

Plan Payments + Coinsurance (From $251 to $2250)

Once the annual ($250) deductible is met, standard coverage pays for 75% of the next $2,000 (or up to $1,500) for covered (allowable) drugs and biologicals. The remaining 25% (a maximum of $500) of the cost is covered by the beneficiary via coinsurance/copayments.

Coverage Gap (From $2,251 to $3,600 TROOP limit)

Once covered drug costs have reached the plan payment + coinsurance +deductible limit of $2,250, the plan does not pay again until the plan enrollee has reached the $3,600 limit in out-of-pocket spending. The beneficiary pays all covered drug costs incurred in this "gap." The total out of pocket cost (not including premiums) to this point (deductible + plan payments + coinsurance + coverage gap) is $3,600 for coverage through the full "gap" (see TrOOP discussion below.)

Catastrophic Coverage (Costs over $3,600 TROOP limit)

Once the individual's true out-of-pocket spending reaches $3,600, costs for necessary covered drugs are covered as follows:

- Reinsurance – 80% of covered drug-related costs are covered by Medicare;
- Plan payments – 15% of covered drug-related costs are covered by the drug plan;
- Coinsurance – 5% of covered drug-related costs are covered by the individual.

What Counts Toward True Out-of-Pocket (TrOOP) Costs?

Beneficiaries must adhere to their plan's formulary, prior authorization, and formulary exceptions processes in order for their out-of-pocket spending to count toward the $3,600 limit.

The following types of spending count toward the $3,600 threshold:

- The beneficiary's own out-of-pocket spending;
- Spending by a family member or official charity, on behalf of the beneficiary;
- Supplemental drug coverage provided through qualifying state pharmacy assistance programs (SPAP) or Medicare's extra help; and
- Under the Centers for Medicare & Medicaid Services' (CMS') demonstration authority, supplemental drug coverage paid for with MA rebate dollars.

In summary, the amount that a beneficiary must spend on part D-covered drugs until catastrophic coverage is reached, based on the 2006 standard coverage, is as follows:

$250 deductible
+ $500 plan enrollee coinsurance during initial coverage
+ $2,850 coverage gap
= $3,600 (plus the monthly premium, which averages $384/year)

Once this cost has been reached for covered drugs, catastrophic coverage begins.

PREVENTIVE SERVICES

Medicare Provides Coverage for Many Preventive Services and Screenings

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

All Medicare fee-for-service physicians, providers, suppliers, and other health care professionals who provide and bill for preventive services and screenings provided to Medicare beneficiaries.

Provider Action Needed

This article serves as a reminder that we need your help to ensure that Medicare beneficiaries receive the preventive services they need. Become familiar with the preventive services and screenings covered by Medicare. Help the Centers for Medicare & Medicaid Services (CMS) spread the news about the many preventive services and screenings covered by Medicare.

Talk with your Medicare patients about preventive services and screenings and encourage use of those services, where appropriate. Order and use the educational products developed by CMS to educate your staff about these benefits. The information found in these products will also help you communicate with your patients about Medicare preventive benefits.

Introduction

Medicare provides coverage for many diseases that are preventable through immunization or amendable through early detection, treatment, and lifestyle changes. This special edition MLN Matters article informs health care professionals about the preventive services and screenings covered by Medicare and highlights the educational and informational products developed by CMS for health care professionals to promote awareness and increase appropriate utilization of these services.

Medicare provides coverage for the following preventive services and screenings (subject to certain eligibility and other limitations):

- Adult Immunizations
  - Influenza (flu)
  - Pneumococcal polysaccharide vaccine (PPV)
  - Hepatitis B virus (HBV)
- Bone Mass Measurements
- Cancer Screenings
  - Breast (mammography)
  - Cervical & vaginal (Pap test & pelvic exam)
  - Colorectal
  - Prostate
- Cardiovascular Disease Screening
- Diabetes Screening
  - Self-Management Training
  - Medical Nutrition Therapy
  - Supplies
- Glaucoma Screening
- Initial preventive physical exam (IPPE) ("Welcome to Medicare" Physical Exam)
- Smoking and Tobacco-Use Cessation Counseling Services

CMS needs your help to get the word out about the many preventive services and screenings covered by Medicare. Each of these benefits presents an opportunity for health care professionals to help Medicare beneficiaries learn if they have an increased risk of developing certain diseases.

CMS recognizes the crucial role that health care professionals play in promoting, providing, and educating Medicare patients about preventive services and screenings. As a trusted source, your recommendation is the most important factor in increasing the use of appropriate preventive services.

Talk to your Medicare patients about the benefits of preventive medicine, detecting disease earlier when outcomes are best, reducing infectious disease, and improving the quality of their lives.

Educational Products and Informational Resources for Health Care Professionals

CMS has developed a variety of educational products to:

- Help increase your awareness of Medicare's coverage of disease prevention and early detection
- Provide you with information and tools to help you communicate with your Medicare patients about these potentially life saving benefits for which they may be eligible
- Give you resources to help you effectively file claims.

Print products may be ordered, free of charge, from the Medicare Learning Network (MLN). All print products are available to download and view on line and may be reprinted or redistributed as needed. Some print products are only available as a download and will be notated as such.

Product Ordering Instructions

You may click on the title of the publications below to view them online.

Brochures

The Medicare Preventive Services Brochure Series for Physicians, Providers, Suppliers, and Other Health Care Professionals – This series of tri-fold brochures provides an overview of Medicare's coverage for preventive services and screenings including the new benefits: diabetes and cardiovascular disease screenings and the initial preventive physical examination (IPPE). (See *Expanded Benefits* brochure.)

- Adult Immunizations [PDF 279KB]
- Bone Mass Measurements [PDF 269KB]
- Cancer Screenings [PDF 295KB]
- Expanded Benefits [PDF 255KB]
- Glaucoma Screening [PDF 242KB]
- Smoking and Tobacco-Use Cessation Counseling Services [PDF, 562KB] (available in download only at this time)

Guides

The Guide to Medicare Preventive Services for Physicians, Providers, Suppliers, and Other Health Care Professionals [PDF 2MB] – This guide provides information on Medicare's preventive benefits including coverage, frequency, risk factors, billing and reimbursement. (May 2005. See the errata sheet for corrections identified since May 2005 printing.)

Determining a Medicare Beneficiary's Eligibility for Medicare Preventive Services [PDF 304KB] – This guide provides information on interpreting the Medicare beneficiary preventive services "next eligible date" data and is intended to supplement the educational materials already available for the HIQA, HIQH, HUQA, ELGA, ELGB and ELGH eligibility inquiry screens used to access common working file (CWF) records. (September 2005; Available in download only)

Medicare Preventive Services CD ROM

Medicare Preventive Services Resources for Physicians, Providers, Suppliers, and Other Health Care Professionals – This CD ROM contains The Guide to Medicare Preventive Services for Physicians, Providers, Suppliers, and Other Health Care Professionals; six brochures: 1) Expanded Benefits, 2) Glaucoma Screenings, 3) Cancer Screenings, 4) Bone Mass Measurements, 5) Adult Immunizations, and 6) Smoking and Tobacco-Use Cessation Counseling Services; and a Quick Reference Information: Medicare Preventive Services chart.

These resources are useful for Medicare fee-for-service physicians, providers, suppliers, and other health care professionals that bill Medicare for preventive services. (See errata sheets for corrections identified since May 2005 printing of these products. See product ordering instructions above.)

Quick Reference Information Chart

Quick Reference Information: Medicare Preventive Services [PDF 74KB] – This two-sided laminated chart gives a quick reference to Medicare's preventive services and screenings, identifying coding requirements, eligibility, frequency parameters, and copayment/coinsurance and deductible information for each benefit. (May 2005. See errata sheet for corrections identified since May 2005 printing.)

Video Programs

Flu Billing Made Easy – This video explains the process of billing for flu and pneumonia vaccinations. (January 2004) (English and Spanish) Ordering and other relevant information can be found at the following Web pages:

- ***Flu Billing Made Easier – Order (English and Spanish video)***
- ***Flu Billing Made Easier – Video Transcript [PDF 91KB]***
- ***Flu Billing Made Easier – Video Errata [PDF 13KB]***
- ***Flu Billing Made Easier Recommended Dial-Up***
- ***Flu Billing Made Easier Recommended DSL/Cable***
- ***Flu Billing Made Easier Recommended T1/DS3***

Web-Based Training Courses

Web-Based Training Modules (WBTs) – Three Web-based training courses covering coding, billing, overage and reimbursement for Medicare preventive services and screenings. (To access these WBT courses, go to the MLN Products Web page at *http://www.cms.hhs.gov/MLNProducts/*, scroll to the bottom of the page to "Links Inside CMS" and click on Web-based training modules.

Web Page

MLN Preventive Services Web Page – This Medicare Learning Network (MLN) Web page, for Medicare fee-for-services health care professionals, provides links to all of the provider/supplier specific preventive services educational and informational products mentioned in this article.

Other Useful Provider Resources

Other useful provider resources include the following:

Prevention Toolkit – This online toolkit contains resources that you may find useful when talking to your patients about Medicare preventive benefits.

Immunizations Toolkit – This online toolkit contains printable resources that nursing home providers can use to help improve the influenza and pneumococcal immunization rates among their residents, staff, and volunteers.

CMS Prevention Web Pages

CMS has created individual web pages for each of the preventive services and screenings covered by Medicare. For additional information visit *http://www.cms.hhs.gov/home/medicare.asp* and scroll down to the Prevention section.

Medicare Learning Network (MLN)

The Medicare Learning Network (MLN) is the brand name for official CMS educational products and information for Medicare fee-for-service providers. For additional information visit the Medicare Learning Network's Web page on the CMS website at *http://www.cms.hhs.gov/MLNGenInfo*.

We encourage you to order and use these provider-specific products to:

- Increase your awareness of preventive services covered by Medicare
- Equip you to talk with your patients about Medicare-covered preventive services and encourage utilization of these potentially life saving benefits
- Help you file preventive services claims more effectively.

Note: These products have been developed for you, the health care professional.

Provider-specific products are not meant for distribution to Medicare beneficiaries. See below for where to obtain beneficiary specific information.

Preventive Benefit Information for Medicare Beneficiaries

Medicare beneficiaries may obtain information about Medicare preventive benefits by going to *http://www.medicare.gov/* and clicking on "Preventive Services."

They may also call 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048.

GENERAL EDUCATION

Cultural Competency: A National Health Concern

CMS has issued the following "MLN Matters article. Information for Medicare Fee-for-Service Health Care Professionals.

Provider Types Affected

This article is for informational purposes only and does not affect Medicare billing processes.

Background

The increasing diversity of the racial, ethnic, and linguistic composition of the U.S. challenges providers as they strive to deliver health care services. Cultural and language differences between patients and providers may generate miscommunication of critical health care information, a lack of compliance with prescribed treatment or medication, or other factors that negatively influence clinical situations and health outcomes. The existence of racial and ethnic disparities in health has been well documented by organizations such as the Institute of Medicine and the Agency for Healthcare Research and Quality.

Cultural competency, or the ability of health care providers to work effectively with colleagues and patients in cross-cultural situations, is a vital component of professional competence. Culturally competent practice can offer a variety of benefits to health care providers and their organizations, including:

- Improved patient care and satisfaction
- Decreased malpractice risk
- Enhanced operational efficiency
- Increased compliance with State and Federal regulations
- Reduction in health disparities

Highlights of the Centers for Medicare & Medicaid Services' (CMS) Activities to Address Health Disparities

To ensure that providers are prepared for the challenges they face to deliver the right care to every person every time, CMS's Quality Improvement Organizations (QIOs) are working with healthcare providers to become more effective and culturally aware of how they provide care to diverse populations. As part of a national initiative, QIOs are recruiting health providers to participate in a FREE online (web-based) program *A Family Physician's Practical Guide to Culturally Competent Care* to ensure that Medicare providers are prepared to effectively serve the increasingly diverse patient population. QIOs have adopted the Guide as the "Program of Choice" for health care provider cultural competency education. The Guide is an innovative educational product designed to equip health care providers with the cultural and linguistic competencies required to improve the quality of care for minority, immigrant, and ethnically diverse communities.

A Family Physician's Practical Guide to Culturally Competent Care is anchored in the three themes of the National Standards for Culturally and Linguistically Appropriate Services in Health Care (CLAS) and serves a key initiative in helping the Department of Health and Human Services' Office of Minority Health to achieve its mission of "improving the health of racial and ethnic minority populations' through the development of effective health policies and programs that help to eliminate disparities in health care."*A Family Physician's Practical Guide to Culturally Competent Care* is a case study based curriculum, featuring video vignettes and a diverse group of providers and clinic staff at a fictional practice setting that reinforce learning points throughout the modules. Participants can also share their reactions to the case studies in an online bulletin-board feature. This program was designed with the busy health care provider in mind, offering "anytime, anywhere" continuing education credit in an engaging and innovative format.

This curriculum is available to all health care providers at *http://www.thinkculturalhealth.org*. The program is accredited for Continuing Medical Education (CME) credits for physicians and Continuing Education Units (CEUs) for nurses and pharmacists.

Please visit *http://www.thinkculturalhealth.org* to access the free accredited continuing education program, *A Family Physician's Practical Guide to Culturally Competent Care*, and to view updates about the nursing program.

Additional Information

To access the free program, *A Family Physician's Practical Guide to Culturally Competent Care*, please visit *http://www.thinkculturalhealth.org*.

The National Standards for Culturally and Linguistically Appropriate Services (CLAS) in Health Care are available at *http://www.omhrc.gov/templates/browse.aspx?lvl=2&lvlID=15*.

For more information about the QIO cultural competency initiative, please visit *http://www.qsource.org/uqiosc/*.

Additional information about the Office of Minority Health is available at *http://www.omhrc.gov/*.

Revised Health Insurance Claim Form CMS-1500

Effective October 1, 2006 the Centers for Medicare & Medicaid Services (CMS) is revising the Form CMS-1500 (12-90) to accommodate the reporting of the national provider identifier (NPI) which is scheduled for implementation in May 2007

To receive copies of the revised Form CMS-1500 (08-05) with the specifications needed for testing purposes, contact TFP Data Systems at *JRMagdaleno@tfpdata.com*.

Although the new version will be effective October 1, 2006, providers will not be mandated to use the revised form until February 1, 2007.

The following is the Form CMS-1500 implementation timeline:

- **October 1, 2006**: Health plans, clearinghouses, and other information support vendors should be ready to handle and accept the revised Form CMS-1500 (08/05).
- **October 1, 2006 – January 31, 2007**: Providers can use either the current Form CMS-1500 (12/90) version or the revised Form CMS-1500 (08/05) version.
- **February 1, 2007**: The current Form CMS-1500 (12/90) version of the claim form is discontinued; only the revised Form CMS-1500 (08/05) is to be used. All rebilling of claims should use the revised Form CMS-1500 (08/05) from this date forward, even though earlier submissions may have been on the current Form CMS-1500 (12/90).

IMPORTANT: **All claims re-billed on/after February 1, 2007 should be on the revised Form CMS-1500 (08/05), even though earlier submissions may have been on the current Form CMS-1500 (12/90). Claims submitted on/after February 1, 2007 utilizing the Form CMS-1500 (12/90) version will be returned unprocessable.**

The various changes made to the Form CMS-1500 (08-05) version can be viewed at the NUCC website at *http://www.nucc.org/images/stories/PDF/change_log.pdf*.

Additional information is available via Medlearn Matters article MM4293 at *http://www.cms.hhs.gov/MLNMattersArticles/downloads/MM4293.pdf*

New eLearning Course Now Available!

First Coast Service Options, Inc. (FCSO) is pleased to announce the posting of one new online course titled "The Appeals Process." The goal of this course is to provide you with information regarding the 2006 Medicare Appeals Process.

In order to give you a complete picture of the appeals process, this course will include an overview of the electronic claims filing process, unprocessable claims, and explain the differences in denied, partially paid, and paid claims. You will learn the different levels of the appeals process along with the specific guidelines for appealing a claim denial at each level.

This is just one of the many online courses that are available 24 hours a day, 7 days a week, at no charge, through our provider education website. Click "Education" on the top navigation menu and "eLearning" on the left navigation menu. Courses currently available include:

- Ambulance Services
- Beneficiary Name and Medicare Number Mismatch
- Chiropractic Services
- Comprehensive Error Rate Testing (CERT)
- Introduction to Global Surgery
- Medical Documentation Requests
- Modifier 24
- Modifier 25
- Modifier 58
- Modifier 78
- Modifier 79
- Part B Duplicate Claims
- Progressive Corrective Action (PCA)
- Split Care
- Unprocessable Claims

Be sure to regularly check our provider education website for upcoming online courses on Medicare secondary payer and evaluation and management (E/M) services.

CMS Electronic Mailing Lists (listservs)

The Division of Provider Information Planning and Development (DPIPD) within the Centers for Medicare & Medicaid Services (CMS) has developed a mailing list fact sheet informing providers about the advantage of receiving Medicare updates through the listservs.

CMS electronic mailing lists (listservs) can help you with your business! For more details, download the fact sheet from the following URL: *http://www.cms.hhs.gov/MLNProducts/downloads/MailingLists_FactSheet.pdf.*

GENERAL MEDICAL REVIEW

Articles in this section apply to both Florida and Connecticut.

Angiojet Thrombolytic Therapy: 37799 or 93799

Background

First Coast Service Options, Inc. (FCSO) has seen an increased billing of Angiojet Thrombolytic Therapy. The purpose of this article is to describe the service and outline coverage. This therapy can be performed on peripheral or coronary vessels. Angiojet Thrombolytic Therapy has not been FDA-approved for use in the carotid vessels.

Description of Service

The AngioJet shoots jets of high-speed saline solution through tiny openings in the tip of a surgical instrument called a catheter. Plaque and clots then dissolve into small pieces that are vacuumed back through the catheter. Unlike earlier technology, the AngioJet removes the clot entirely, eliminating the possibility that tiny pieces could move downstream and cause additional complications. Because Angiojet destroys blood clots (also known as thrombi), the Angiojet System is classified as a type of *thrombolytic therapy*. It is important for the beneficiary to be thoroughly educated about the benefits and risks of this modality.

Regulatory Information

At this point and time, there is no National Coverage Determination (NCD) about this service, and FCSO has not published a local coverage determination (LCD).

Billing and Coding

When billing a peripheral AngioJet procedure, CPT code *37799* (unlisted procedure, vascular surgery) must be used. When AngioJet is applied in the coronary arteries, the applicable CPT code is *93799* (unlisted cardiovascular service or procedure). The description "AngioJet" should be noted in Item 19 of the CMS-1500 claim form or the free form line of electronic claims.

Documentation

Providers should not submit any medical record documentation with the claim. FCSO may request this by means of an additional documentation request (ADR) letter, as appropriate.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

Billing and Coding of 26040 and 20550

It has come to the attention of First Coast Service Options, Inc. (FCSO) that providers may not be billing *CPT* code *26040* correctly.

CPT code *26040* **Fasciotomy, palmar (eg, Dupuytren's contracture); percutaneous** and *CPT 26045*, **open partial**, have a clear descriptor referring to palmar fasciotomy. There is no reference to one or multiple tendon releases and there is one palmar fascia per hand. The fascia covers the tendons of the palm of the hand. Therefore the code should be billed once per hand.

CPT 4 coding is based on Level I and II procedure coding terminology. If a bilateral procedure is performed, then the *CPT* code *26040* or *26045* should be billed with modifier RT, LT, or 50. *CPT* code *26040* or *26045* cannot be billed more than once per hand and the use of certain modifiers would be inappropriate, i.e., F1, F2, etc.

When *CPT* code *20550* Injection(s); tendon sheath, or ligament, aponeurosis) is billed in addition to *CPT* code *26040* or *26045*, it must be a separate service. *CPT* code *20550* Injection(s); tendon sheath, or ligament, aponeurosis (e.g., plantar "fascia") has editing related to CCI (and is considered a column 2 Code to *26040* or *26045* – a component of *CPT* code *26040* or *26045*). Documentation must support the appropriate use of a modifier 59 to bypass CCI edits. The documentation should be available to FCSO upon request.

There is no local coverage determination (LCD) for *CPT* code *26040* or *26045*, but FCSO does have an LCD for *CPT* code *20550* that further defines medical necessity, which is the focus of a LCD.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

Billing Compounded Drugs, Service Date on/after March 20, 2006

This article addresses and provides clarification for the billing and reimbursement of compounded drugs. There continues to be a pattern of inconsistent billing and handling of these type claims resulting in an increase in appeals and hearings.

Background

Compounded medications created/processed by a pharmacist in accordance with the Federal Food, Drug, and Cosmetic Act may be covered under Medicare when their use meets all other criteria for services incident to a physician's service. Since the compounded medications do not have an individual NDC number, the specific HCPCS Level II "J" codes may not be used. Instead, providers should use J3490 (unclassified drug) as appropriate for reimbursement of the drug (s).

The use of compounded medications has been especially prevalent in the filling of implantable infusion pumps, (*CPT* codes *95990* or *95991*). Whether a single agent or a combination of agents is used, the compounded medication must be billed under HCPCS code J3490 with the KD modifier even though the compound was similar to a specific HCPCS code (e.g., J2275 for preservative free morphine). Of course, providers who document and use the true "off-the-shelf" product from their office supply may continue to use the specific HCPCS code.

Definitions

Compounded Drug: A compounded drug is a blend of other drugs mixed (compounded) by a pharmacist. This mixture is delivered to the physician or qualified non-physician provider ready to instill into an implantable pump. At times, the pharmacist may reconstitute only one substance and deliver it to the provider in a ready to instill form. An example of reconstituting is adding saline solution to a medication that is supplied as a powder and then turning it into a liquid. A drug that is reconstituted outside the provider's office and is delivered to her/him for instillation into an implantable pump is a compounded drug. In summary, any agent that has been processed by a pharmacist outside the provider's office is a compounded drug.

Off the Shelf Drug: An off-the-shelf drug is a drug that a physician or qualified non-physician provider stores in the office in the original vial or other packaging form, as supplied by the manufacturer. Any such agent that is mixed or reconstituted in the provider's office, (i.e. taken off-the-provider's shelf), will be considered an off-the-shelf drug.

Procedure Codes

HCPCS J3490: Unclassified drugs.

***CPT* Code *95990*:** Refilling and maintenance of implantable pump or reservoir for drug delivery, spinal (intrathecal, epidural), or brain (intraventricular).

***CPT* Code *95991*:** Refilling and maintenance of implantable pump or reservoir for drug delivery, spinal (intrathecal, epidural) or brain (intraventricular); administered by physician.

Effective for services rendered on or after March 20, 2006, the following guidelines should be followed:

EMC/Paper Claims

The following information should be reported in block 19 of the CMS 1500 claim form or comment screen for electronic billers.

- Name(s) and dose (s) of drug(s) administered into the implantable pump
- Volume of refill in ml
- Pump reservoir size (ml)
- Exact invoice price for that individual patient

Claims for infusion drugs furnished via implanted DME, with dates of service on or after January 1, 2004, shall be identified using the modifier KD. Units billed should be (1) in the quantity billed (QB) field (Item 24G) on CMS 1500 form.

NOTE: If any of the above information is omitted from the initial claim, the claim will have to be developed. In that situation, First Coast Service Options, Inc. (FCSO) will request specific documentation by means of an additional documentation request (ADR) letter. This will slow down processing and payment.

Billing Compounded Drugs, Service Date prior to March 20, 2006

This article addresses and provides clarification for the billing and reimbursement of compounded drugs. There has been inconsistent billing and handling of these type claims causing an increase in appeals and hearings

Compounded medications created by a pharmacist in accordance with the Federal Food, Drug, and Cosmetic Act may be covered under Medicare when their use meets all other criteria for services incident to a physician's service. Since the compounded medications do not have an NDC number or an average wholesale price (AWP) the specific HCPCS Level II "J" codes may not be used. Instead, providers should use J3490 (unclassified drug) as appropriate for reimbursement of the drug (s).

The use of compounded medications has been especially prevalent in the filling of implantable infusion pumps *CPT* code *96530*. Whether a single agent or a combination of agents is used, the compounded medication must be billed under HCPCS code J3490 even though the compound was similar to a specific HCPCS code (e.g., J2275 for preservative free morphine). Of course, providers who document and use the true "off-the –shelf" product from their office supply may continue to use the specific HCPCS code. The powdered form of these medications should also be mixed / compounded by the pharmacist for the physician.

Effective for services rendered prior to March 20, 2006, the following guidelines should be followed when submitting your claims:

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

EMC claims

Name and strength of drug administered via the implantable pump should be reported in the electronic equivalent field for block 19 of the CMS 1500 claim form or the comment screen.

- The name and phone number of the pharmacy, if applicable.
- The number (1) should always be entered in the quantity billed (QB) field.
- The supplier invoice must be available upon request and the total number of "cc" instilled in the pump and what drugs were provided.

If any of the above information is omitted from an electronic claim, the claim will be developed for the requesting the supplier's invoice and the total number of "cc" instilled in the pump and what drugs were provided.

Paper claims

The term "compounded prescription, invoice attached" must be indicated in block 19 of the CMS-1500 claim form and a copy of the invoice from the pharmacy or supplier.
The invoice should include the following information:

- The name, NDC#, quantity, and strength of each drug in the mixture
- The suppliers invoice
- Documentation of the total number of "cc" instilled in the pump and what drugs were provided

The claim will develop for the invoice if one is not received with the claim.

In either case, the invoice cost may include a reasonable compounding fee and state tax if applicable. **Medicare will reimburse the lower of the invoice cost or 95 per cent of AWP of all components in the mixture.**

- Claims for infusion drugs furnished through implanted DME, with dates of service on or after January 1, 2004, shall be identified using the "KD" modifier.

Cardiac Computed Tomography and Computed Tomography Coronary Angiography 0144T-0151T—Emerging Technology

Background information for Category III Codes

Emerging technologies that do not have specific HCPCS/CPT codes are submitted to the contractor for review with **unlisted codes**. In 2002 the CPT Editorial Panel established Category III CPT codes as temporary codes used to collect data for certain emerging technology, services, and procedures. Prior to the implementation of Category III codes, there has been no way to collect data for these services and procedures since unlisted codes lack specific descriptors. Category III codes are different from typical CPT codes in that they are for services that may have limited use by health care professionals, may not have complete FDA approval, and the service/procedure may not have proven clinical efficacy in the peer-reviewed literature. Category III codes are also different from typical CPT codes because they are 5-digit alphanumeric codes as opposed to 5-digit numeric codes. If a **category III code** is available, this code **must** be reported instead of a category I unlisted code. Per CPT, the inclusion of a service or procedure in the category III code section neither implies nor endorses clinical efficacy, safety or the applicability to clinical practice.

Category III CPT Codes for Cardiac Computed Tomography (CCT) and Cardiac Computed Tomographic Angiography (CCTA) are effective January 1, 2006. The use of Category III CPT Codes is mandatory.

CCTA using multislice (multidetector) scanner

There have been significant developments in the field of Cardiac Computed Tomography with new applications for conventional scanners, emergence of helical (spiral) and electron beam technologies, and multislice (multidetector) CT utilizing 16, 32, 64, and more slice acquisition. —In regard to coronary artery disease, there currently are not clinical algorithms that are strictly followed that define the current variety of atherosclerosis imaging modalities and associated test. The issue is not just the sensitivity, specificity, PPV, and NPV of an emerging technology in the diagnosis of coronary artery disease, but the use of the imaging modality in serial monitoring, subsequent medical management, or risk-reducing strategies.

Consideration for coverage of this modality for coronary artery assessment is limited to devices that process thin, high resolution slices (1 mm or less). The multidetector scanner must have at least 32 slices per second capability.

Calcium scoring

Cardiac computed tomography (electron-beam or multislice [multidector] CT) used to demonstrate the presence of coronary calcification in patients with atherosclerotic heart disease is not a Medicare covered service. Currently the value of this test appears to be that of 'screening' for the presence of atherosclerosis. Medicare does not cover screening services in the absence of signs or symptoms unless Congress adds a specific benefit.

Coding in 2006

Effective January 1, 2006, category III codes *0144T, 0145T, 0146T, 0147T, 0148T, 0149T, 0150T,* and *0151T* must be reported instead of procedure code *76497* (unlisted CT procedure). The use of category III CPT codes is mandatory to report cardiac CT and coronary CTA.

- ***0144T*** *Computed tomography, heart, without contrast material, including image post processing and quantitative evaluation of coronary calcium*

  ***0144T* is noncovered as investigational effective 01/01/2006 and is included in The List of Noncovered Services local coverage determination (LCD).**

  (Do not report *0144T* in conjunction with *0145T-0151T*)

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

Cardiac Computed Tomography and Computed Tomography Coronary Angiography, continued

- ***0145T*** *Computed tomography, heart, without contrast material followed by contrast material(s) and further sections, including cardiac gating and 3D image post processing; cardiac structure and morphology*

(For cardiac structure and morphology in congenital heart disease, use *0150T*)

- ***0146T*** *Computed tomographic angiography of coronary arteries (including native and anomalous coronary arteries, coronary bypass grafts), without quantitative evaluation of coronary calcium.*
- ***0147T*** *Computed tomographic angiography of coronary arteries (including native and anomalous coronary arteries, (including native and anomalous coronary arteries, coronary bypass grafts), with quantitative evaluation of coronary calcium*

(Do not report *0147T* in conjunction with *0144T*)

- ***0148T*** *cardiac structure and morphology and computed tomographic angiography of coronary arteries (including native and anomalous coronary arteries, (including native and anomalous coronary arteries, coronary bypass grafts), with quantitative evaluation of coronary calcium*
- ***0149T*** *cardiac structure and morphology and computed tomographic angiography of coronary arteries (including native and anomalous coronary arteries, coronary bypass grafts), with quantitative evaluation of coronary calcium*

(Do not report *0149T* in conjunction with *0144T*)

- ***0150T*** *cardiac structure and morphology in congenital heart disease*
- ***+0151T*** *Computed tomography, heart, without contrast material followed by contrast material (s) and further sections, including cardiac gating and 3D image post processing; function evaluation (left and right ventricular function, ejection fraction and segmental wall motion)*

(Use *0151T* in conjunction with *0145T-0150T*)

Coding Guidelines

The following codes should not be billed to describe CCT and CCTA or billed in addition to category III codes. If a separately identifiable service is performed on the same day of service, documentation has to support this as well as the medical necessity.

71275	Ct angiography, chest
71250	Ct thorax w/o dye
71260	Ct thorax w/ dye
71270	Ct thorax w/o & w/ dye

The following codes should never be billed for CCT or CCTA.

76376 *3D rendering with interpretation and reporting of computed tomography, magnetic resonance imaging, ultrasound, or other tomogrpahic modality; not requiring image post processing on an independent workstation*

76377 *3D rendering with interpretation and reporting of computed tomography, magnetic resonance imaging, ultrasound, or other tomogrpahic modality; requiring image post processing on an independent workstation*

The guidelines of the Correct Coding Initiative (CCI) are applicable as implemented by CMS.

The administration of contrast material is included in the category III codes.

Billing for these Services

Providers should submit claims EMC as usual. If CT scanner is hospital based (in or outpatient) the hospital should bill the fiscal intermediary (FI) and not the carrier. Prior to the April Update to the 2006 Medicare Physician Fee Schedule Database, (CR 4399), dated March 29, 2006, Category III codes *0144T-0151T*, did not allow billing of the professional and technical component modifiers on the line item; and providers were instructed to bill the carrier with the appropriate Category III code and note in block 19; 26 or PC, TC, or global as appropriate. Since that time, professional and technical components have been established for Category III codes *0144T-0151T* and should be billed with the procedure codes, effective January 01, 2006. The global and technical (TC) components are payable in the following places of service: office (11) and independent clinic (49). The professional component (26) is payable in the following places of service: office (11), inpatient hospital (21), outpatient hospital (22), emergency room - hospital (23), ambulatory surgical center (24) and independent clinic (49). Of course all state and federal anti-kickback and self-referral regulations are applicable to free standing facilities billing the carrier.

Coverage Issues

It is expected that CCT or CTCA be used in necessary decision-making and not merely to add a new layer of testing. The services could be evaluated either prepayment (request for medical records prior to payment) or post payment (request for records in the future after adjudication). Records must support the medical necessity of the service.

Since these codes describe emerging technologies and FCSO currently does not have an LCD, it is recommended that patients receive an advance beneficiary notice (ABN) of the possibility of noncoverage and the **modifier GA** be appended to the codes on a claim. The beneficiary may be liable in this situation.

Cardiac Computed Tomography and Computed Tomography Coronary Angiography, continued

0144T, quantitative calcium score is noncovered as noted and will result in a denial. If other CAT III codes used for CCT or CCTA are clearly performed for screening (i.e., in the absence of signs, symptoms or disease), the **modifier GY** may be applicable. It is the intention of the Centers for Medicare & Medicaid Services (CMS) to allow providers to use the **modifier GY** to bill for items or services that are statutorily non-covered or not a Medicare benefit. The **modifier GY** triggers a denial.

The **modifier GZ** (no ABN given) may be applicable if the provider recognizes that medical necessity may not be met but does not want to hold the beneficiary liable for a not medically necessary service.

For further details about CMS' Beneficiary Notices Initiative (BNI), please point your browser to this link: *http://www.hhs.gov/BNI/*.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

Coverage of less than 500 cc of D5W

It has come to the attention of First Coast Service Options, Inc. (FCSO) that providers are billing less than 500cc of D5W using unlisted procedure code J3490. This is considered incorrect billing. If less than 500 cc of D5W is provided to a patient, it is always bundled in the other services billed on the same day by the same physician and is not billed separately.

Intravitreal Bevacizumab (Avastin®) for Neovascular Age-Related Macular Degeneration

Bevacizumab, FDA-approved for intravenous use in combination with intravenous 5-fluorouracil-based chemotherapy, is indicated for first-line treatment of patients with metastatic carcinoma of the colon or rectum. The United States Pharmacopeia (USP) supports one unlabeled indication: advanced/metastatic non-squamous non-small cell lung cancer.

Early observations indicate that bevacizumab may be useful in the treatment of age-related macular degeneration (AMD). Ophthalmologists have been using intravitreal bevacizumab increasingly in the treatment of wet AMD. Even though the intravitreal administration looks promising and may be cost effective, there are still a number of concerns, specifically about safety. Currently, publications in peer-reviewed literature are not sufficient to support a positive coverage statement by means of a local coverage determination (LCD).

Until appropriately designed and powered studies are published and evaluated, bevacizumab for the treatment of age-related macular degeneration (AMD) will be considered on an individual case-by-case basis.

HCPCS code J9035 (Injection, bevacizumab, 10 mg) does not apply to the intravitreal administration, as a pharmacist has processed the agent. Providers billing for intravitreal bevacizumab should use CPT code *67028* for the intravitreal injection and HCPCS code J3490 (unclassified drugs) for the bevacizumab. Please enter "Intravitreal bevacizumab" in Item 19 of CMS 1500 Form or its electronic equivalent. The applicable ICD-9 code is 362.52 (exudative senile macular degeneration of retina). Documentation in the medical record must support the following:

- The diagnosis of neovascular (wet) macular degeneration has been firmly established (fluorescein angiogram).
- The patient does not have any contraindications to bevacizumab.
- The patient has been thoroughly educated about the benefits and risks of this therapy and that it is being used "off-label."
- Actual dose administered in milligrams.

When billing Medicare, the intravitreal injection and the drug injected should be billed on the same claim. Remember to use the appropriate modifiers when performing the service on both eyes.

Providers should not submit this information with the claim. First Coast Service Options, Inc. (FCSO) may request it separately with an additional documentation request (ADR) letter.

Any time there is a question whether Medicare's medical reasonableness and necessity criteria would be met; we recommend the use of an advance beneficiary notice (ABN) and appending modifier GA to the billed HCPCS codes. If and when a denial should be received, providers may collect from the beneficiary based on the fee schedule. For further details about CMS' Beneficiary Notices Initiative (BNI), please point your browser to this link: *http://www.cms.hhs.gov/BNI/*.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

Modifier 50 – Bilateral Procedures

First Coast Service Options, Inc. (FCSO) Provider Contact Center has been receiving numerous inquiries regarding the usage of modifier 50. The purpose of this article is to provide clarification on how modifier 50 should be billed.

Bilateral surgery is defined as a procedure performed on both sides of the body at the same operative session or on the same day. This definition does not include procedures that are bilateral in nature or include the terms "bilateral" or "unilateral/bilateral" in their descriptors.

When submitting claims for bilateral surgery, use modifier 50 with the procedure code. Claims for bilateral surgical procedures should be billed on a single claim detail line with the appropriate procedure code and modifier 50.

When billing for claims that are bilateral in nature, whether the services are performed unilaterally or bilaterally, providers should bill the surgical procedure code as a single claim detail line item without the modifier 50.

To determine if a procedure can be billed with the modifier 50 as a bilateral procedure, providers may access the on-line Medicare Physician Fee Schedule Database (MPFSDB) at *http://www.cms.hhs.gov/apps/pfslookup/*.

Vagal Nerve Stimulation for Intractable Depression

Effective July 15, 2005, the Food and Drug Administration (FDA) has given post-marketing approval for the use of vagal nerve stimulation (VNS) for intractable or refractory depression in patients 18 years of age or older who have not had an adequate response to four or more "adequate" antidepressant treatments.

There are several CMS national coverage determinations (NCDs) about nerve stimulation procedures; one is related to vagal nerve stimulation for seizure disorders (160.18 – Vagus Nerve Stimulation for Treatment of Seizures, *http://www.cms.hhs.gov/manuals/downloads/ncd103c1_Part2.pdf*); another is related to implantation of neurostimulators for pain control. At this time, there are no NCDs referencing the use of vagal nerve stimulation for the treatment of depression or other psychiatric disorders.

Currently, publications in peer-reviewed literature, position statements by technology assessment organizations, and the communication released by the manufacturer are not sufficient to issue a positive coverage statement by way of a local coverage determination (LCD) based on Medicare's medical reasonableness and necessity criteria. There have been no closely controlled clinical trials conducted to date or studies focusing on comparison with other treatments generally available.

Until appropriately designed and powered studies are published and evaluated, claims for vagal nerve stimulation for depression will be evaluated individually on a case-by-case basis. Any time there is a question whether Medicare's medical reasonableness and necessity criteria would be met, we recommend the use of an advance beneficiary notice (ABN) and appending modifier GA to the billed CPT/HCPCS codes. For further details about CMS' Beneficiary Notice Initiative (BNI), please point your browser to this link: *http://www.cms.hhs.gov/BNI/*.

Please note that services that lead up to or are associated with non-covered services are not covered as well. The beneficiary should be thoroughly educated about the benefits and risks of this modality.

Billing and Coding

Providers billing for this procedure should use the following CPT codes, as applicable:

61885 Insertion or replacement of cranial neurostimulator pulse generator or receiver, direct or inductive coupling; with connection to a single electrode array
61888 Revision or removal of cranial neurostimulator pulse generator or receiver
64573 Incision for implantation of neurostimulator electrodes; cranial nerve
64585 Revision or removal of peripheral neurostimulator electrodes
95970 Electronic analysis of implanted neurostimulator pulse generator system (e.g., rate, pulse amplitude and duration, configuration of wave form, battery status, electrode selectability, output modulation, cycling, impedance and patient compliance measurements); simple or complex brain, spinal cord, or peripheral (i.e., cranial nerve, peripheral nerve, autonomic nerve, neuromuscular) neurostimulator pulse generator/transmitter, without reprogramming
95974 complex cranial nerve neurostimulator pulse generator/transmitter, with intraoperative or subsequent programming, with or without nerve interface testing, first hour
95975 complex cranial nerve neurostimulator pulse generator/transmitter, with intraoperative or subsequent programming, each additional 30 minutes after first hour (List separately in addition to code for primary procedure)

As there is no specific code for "intractable" or "refractory" depression, the following ICD-9-CM code should be used:

311 Depressive disorder, not elsewhere specified

Providers should not submit any medical record documentation with the claim. First Coast Service Options will request this by means of an additional documentation request (ADR) letter. The required information will include details about the pharmacotherapy and non-pharmacologic interventions (psychotherapy, ECT, etc.) over the past 18 months, documentation of a second opinion of a psychiatrist who is not involved in the care of the beneficiary, the patient's compliance, response to treatment, and other factors, as necessary.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

Vertebral Fracture Assessment - CPT Code 76077

Background

First Coast Service Options, Inc. (FCSO) currently has a local coverage determination (LCD) for Bone Mineral Density Studies. This LCD is based on 42 CFR, Section 410.31 and the CMS Manual System. Therefore, vertebral fracture assessment (VFA) (CPT code *76077*) is outside the scope of this LCD, and this LCD does not apply to it. It is the intent of this article to inform providers about FCSO's approach to this service.

Description of the Service

Lateral spine dual energy x-ray absorptiometry (DXA) (CPT code *76077)*, or vertebral fracture assessment, is a relatively recently developed technique for imaging vertebral fractures that are not clinically evident. It assists in the diagnosis of prevalent vertebral fractures using less radiation than the anterior-posterior technique. If it is accurate in identifying vertebral fractures, when combined with bone mineral density measurement, it potentially could offer a method for more accurately determining risk of future fracture. Such risk assessment may help determine whether a patient is an appropriate candidate for pharmacologic treatment.

Regulatory Information

Medicare coverage of bone density measurements is defined in 42 CFR, Section 410.31 as reflected in First Coast Service Option's LCDs on this subject matter . There are five qualifying criteria:

- A patient with vertebral abnormalities as demonstrated by an x-ray to be indicative of osteoporosis, osteopenia (low bone mass), or vertebral fracture.
- A patient being monitored to assess the response to or efficacy of an FDA-approved osteoporosis drug therapy.
- A patient with known primary hyperparathyroidism.
- A patient receiving (or expecting to receive) glucocorticoid (steroid) therapy greater than 3 months, on the equivalent dose of 30 mg cortisone or 7.5 mg prednisone or greater per day.
- A woman who has been determined by the physician or a qualified non-physician practitioner treating her to be estrogen-deficient and at clinical risk for osteoporosis, based on her medical history and other findings.

A local contractor does not have discretion of decision or authority to expand or contract this list.

According to 42 CFR, Section 410.31, "Bone mass measurement…is performed for the purpose of identifying bone mass, detecting bone loss, or determining bone quality" and does not include a provision for diagnosing a fracture. Therefore, vertebral fracture assessment is outside the scope of Medicare's bone mass measurement benefit, as defined by the law. It is a separate modality.

Contractor's (FCSO) Observations

It is the standard of practice to identify and evaluate vertebral fractures with traditional radiological techniques. However, screening for detection of vertebral fractures is generally not performed. As a result, diagnosis occurs either incidentally or as a result of symptoms. Traditional radiological evaluations for signs and symptoms have not been considered as a screening test. Importantly, screening for vertebral fractures is not a Medicare covered benefit. Therefore, VFA performed for screening for vertebral fractures is never covered.

Current literature has not demonstrated that treatment decisions based on VFA, along with bone mineral density measurements, have resulted in better patient outcomes than treatment based solely on bone mineral density and clinical risk factors. There is a lack of clinical trial evidence showing that patients with vertebral fractures on DXA but with bone mineral density levels above treatment thresholds benefit from pharmacologic treatment. There have not been an adequate number of closely controlled clinical trials conducted to date or studies focusing on comparison with other modalities generally available, and currently publications in peer-reviewed literature, as well as position statements by technology assessment organizations are not sufficient to issue a positive coverage statement by way of a local coverage determination (LCD).

Because in situations when there is no National Coverage Determination (NCD) or LCD, services are evaluated individually based on Medicare's general medical reasonableness and necessity criteria, claims for VFA will be given individual consideration on a case-by-case basis until appropriately designed and powered studies are published and evaluated.

Providers should not interpret the process of individual consideration as synonymous with coverage and payment by Medicare. This means only that the claims will be reviewed against the background of the presently available evidence and specific patient circumstances.

Any time there is a question whether Medicare's medical reasonableness and necessity criteria would be met; we recommend the use of an advance beneficiary notice (ABN) and appending modifier GA to the CPT code. For further details about CMS' Beneficiary Notices Initiative (BNI), please point your browser to this link: *http://www.cms.hhs.gov/BNI/*. Please note that services that lead up to or are associated with non-covered services are not covered as well.

Billing and Coding

The applicable CPT code is *76077* - Dual energy x-ray absorptiometry (DXA), bone density study, one or more sites; vertebral fracture assessment

Documentation

Providers should not submit any medical record documentation with the claim. FCSO will request this by means of an additional documentation request (ADR) letter. The required information will include details for the current episode of care about symptoms, signs, and findings suggestive of the presence of a vertebral fracture, other diagnostic modalities utilized, and the rationale for choosing VFA. Like any diagnostic test, the VFA must be specifically ordered by the treating physician, for which there must be documentation in the medical record.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

CONNECTICUT MEDICAL REVIEW

This section of the *Medicare B Update!* features summaries of new and revised local coverage determinations developed as a result of either local medical review or comprehensive data analysis initiatives. These initiatives are designed to ensure the appropriateness of medical care and that the carrier's medical policies and review guidelines are consistent with accepted standards of medical practice.

In accordance with publication requirements specified by the Centers for Medicare & Medicaid Services (CMS), carriers no longer include full-text local coverage determinations (LCDs) to providers in the *Update!* Summaries of revised and new LCDs are provided instead. Providers may obtain full-text LCDs on our provider education website, *http://www.connecticutmedicare.com*. Final LCDs, draft LCDs available for comment, LCD statuses, and LCD comment/response summaries may be printed from the Part B Medical Policy section.

Effective and Notice Dates

Effective dates are provided in each policy, and are based on the date of service (unless otherwise noted in the policy). Medicare contractors are required to offer a 45-day notice period for LCDs; the date the LCD is posted to the website is considered the notice date.

Electronic Notification

To receive quick, automatic notification when new LCDs are posted to the website, subscribe to our *FCSO eNews* mailing list. It's very easy to do; go to

http://www.connecticutmedicare.com , click on the "eNews" link on the navigational menu and follow the prompts.

More Information

For more information, or, if you do not have Internet access, to obtain a hardcopy of a specific LCD, contact Medical Policy at:

APBI: Accelerated Partial Breast Irradiation – Correction to Article

An article was published in the 1st Quarter 2005 *Medicare B Update!* (page 87) that addressed coverage guidelines for APBI. Since that time, it has been determined that the indications in the article did not match the local coverage determination (LCD) indications. A correction has been made to the indication that the size of the lesion should be "less than or equal to 3 cm.". The original article stated the lesion should be "greater than or equal to 3 cm." All other information remains the same.

Survival after breast-conservation therapy (BCT) is equivalent to survival after mastectomy for patients diagnosed with tumors categorized as stage I or II. The standard of care for local management is breast-conserving surgery to excise the tumor with adequate margins (lumpectomy), followed by whole-breast external-beam radiation therapy (WB-EBRT).

Accelerated Partial Breast Irradiation (APBI) differs from WB-EBRT in two ways. First, the radiation targets only a segment surrounding the tumor rather than the entire breast. Second, since the duration of treatment is 4 to 5 days rather than 5 to 6 weeks, radiation is delivered in fewer fractions at larger doses per fraction. APBI comprises several techniques, including interstitial brachytherapy via catheters, the MammoSite radiation treatment system, accelerated external beam radiotherapy, and intra-operative radiotherapy delivery.

When compared with whole breast irradiation, APBI offers the potential advantages of convenience and decreases radiation dose to healthy breast tissue. However, published studies are limited in patient size and follow-up period. Given access to care issues, an LCD has been developed to define the indications and limitations of coverage, establish a procedure to diagnosis relationship, and clarify the appropriate use of APBI after breast-conserving surgery for early stage breast cancer. In addition, a coding guideline has also been developed to assist in billing this type of service.

APBI after breast-conserving surgery is considered medically necessary for patients with early stage breast cancer when all of the following criteria are met:

Age: ≥50 years old
Diagnosis: Invasive ductal carcinoma or ductal carcinoma in situ
Size: Less than or equal to 3 cm.
Margin status: Negative – at least 2mm in all directions
Nodal status: Negative axillary lymph node dissection or sentinel lymph node evaluation

This LCD is effective for services rendered on or after January 1, 2005. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

REVISIONS TO LCDS

J1950: Leuprolide Acetate – Revised Coding Guideline

The coding guideline attachment for this local coverage determination (LCD) was effective on April 11, 2005. Since that time this coding guideline has been revised.

First Coast Service Options, Inc. (FCSO) implements the least costly alternative (LCA) policy for Leuprolide Acetate. Medical literature indicates there is no demonstrable difference in clinical efficacy between J9217 leuprolide acetate (for depot suspension) and J9202 goserelin acetate implant (Zoladex) in the treatment of malignant neoplasm of the prostate (ICD-9-CM code 185) and malignant neoplasm of female breast (ICD-9-CM codes 174.0-174.9). If there are medical indications that require the use of J9217 instead of J9202, Medicare will consider payment at the higher rate if documentation to support the medical necessity of the use of the more costly agent accompany the claim.

The coding guideline attachment of this LCD has been revised to include instructions for those providers who submit electronic claims and want to provide documentation to support reimbursment at the higher rate (J9217). These instructions state that those providers who bill electronically, and have documentation that supports reimbursement of the more costly agent, can populate field 19 or the electronic equivelent with the following statement: Supporting documentation available for J9217**.** By doing this, providers will receive a development letter with instructions to submit the claim for review. Providers are not mandated or required to populate block 19 or its electronic equivalent for claim development. FCSO recommends that providers who wish to have claims reviewed for reimbursment for the use of the more costly agent, implement these instructions for those claims.

These revisions will be effective for claims processed on or after January 24, 2006. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

Revisions to LCDs, continued

J2430: Pamidronate (Aredia®, APD) – LCD Revision

This local coverage determination (LCD) for Pamidronate was last updated on October 11, 2005. Since that time, this LCD has been revised to update the verbiage and dosages under the "Indications and Limitations of Coverage and/or Medical Necessity" section to correspond with the FDA indications and recommended dosages.

Under the "ICD-9 Codes that Support Medical Necessity" section, the dual diagnosis requirement for osteolytic lesions of multiple myeloma (code range 203.00 – 203.01) was removed because the involvement of bone and/or bone marrow may be part of this disease process. In addition, the "Sources of Information and Basis for Decision" section was updated.

This revision is effective for services rendered on or after April 10, 2006. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

J2505: Pegfilgrastim (Neulasta™) – LCD Revision

This local coverage determination (LCD) for Pegfilgrastim was last updated on October 1, 2005. Based on current literature, this LCD has since been revised to include an additional indication and ICD-9-CM code regarding prophylactic use of Neulasta.

The following statement was added under the "Indications and Limitations of Coverage and/or Medical Necessity" section:

- Prophylactic use of Neulasta in patients undergoing chemotherapy reduces the risk of febrile neutropenia and infections. Prophylactic therapy can be considered for patients receiving myelosuppressive chemotherapy if the risk of febrile neutropenia is 20% or greater.

Under List II of the "ICD-9 Codes that Support Medical Necessity" section, the following diagnosis code was added:

- V07.8 – Other specified prophylactic measure

Coverage of Pegfilgrastim requires the billing of dual diagnoses. Under the "ICD-9 Codes that Support Medical Necessity" section, the appropriate primary diagnosis code under List I, which represents a non-myeloid malignancy, and the appropriate secondary diagnosis code under List II, which represents an encounter for myelosuppressive chemotherapy, must be billed.

In addition to the above, the "Sources of Information and Basis for Decision" section was updated.

This revision is effective for services rendered on or after March 13, 2006. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

J9000: Antineoplastic Drugs – LCD Revision

This local coverage determination (LCD) for Antineoplastic Drugs was last updated on October 1, 2005. Since that time, based on FDA approved indications and/or off-label indications published in the USP DI, the following revisions have been made to the HCPCS codes listed below under the "Indications and Limitations of Coverage and/or Medical Necessity" section:

- J9000 – Doxorubicin HCl (Ewing's sarcoma was moved from the off-labeled section to FDA approved indications)
- J9015 – Aldesleukin (under off-labeled indications, "acute" was added to chronic myelogenous leukemia)
- J9170 – Docetaxel (FDA approved and off-labeled indications were corrected)
- J9181 & J9182 – Etoposide (Ovarian germ cell tumor was indicated for ovarian carcinoma and Myelodysplastic syndromes (MDS) was added to off-labeled indications)
- J9200 – Floxuridine (Carcinoma of the ovary and kidney not responsive to other antimotabolites was added to the off-labeled indications)
- J9201 – Gemcitabine (FDA indication of Gemzar in combination with Paclitaxel for first line treatment of patients with metastatic breast cancer after failure of prior anthracycline-containing adjuvant chemotherapy, unless contraindicated was added. Off-labeled indications of epithelial for ovarian carcinoma was indicated, and ovarian germ cell tumor was added)
- J9263 – Oxaliplatin (FDA approved indication stating "Oxaliplatin is indicated in combination with 5-FU/LV or capecitabine for first line treatment of nonresectable advanced or metastatic colon or rectal carcinoma" was added)
- J9265 – Paclitaxel (FDA approved indication stating "Adjuvant treatment of node-positive breast cancer when administered sequentially to standard Doxorubicin-containing combination chemotherapy" was added. In addition, under off-labeled indications, "First line therapy for treatment of metastatic breast cancer" was added)
- J9300 – Gemtuzumab (under FDA approved indications, "other" was added to cytotoxic chemotherapy for treatment of patients with CD33 positive acute myeloid leukemia in first relapse who are 60 years of age or older and who are not considered candidates for cytotoxic chemotherapy)

In addition to the above, under the "ICD-9 Codes that Support Medical Necessity" section, the following HCPCS codes have additional diagnoses added:

- J9015 – Aldesleukin (added diagnosis code range 205.00 – 205.01 – acute myeloid leukemia)
- J9160 – Denileukin (added diagnosis code range 202.80 – 202.88 – Other lymphomas)
- J9181 & J9182 – Etoposide (added diagnosis code 238.7 – Other lymphatic and hematopoietic tissue)

The "Sources of Information and Basis for Decision" sections as well as the "Coding Guidelines" section were also updated.

This revision is effective for services rendered on or after March 1, 2006. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

Revisions to LCDs, continued

J9212: Interferon – LCD Revision

This local coverage determination (LCD) for Interferon was last updated on January 18, 2005. Since that time, this LCD has been revised to include ICD-9-CM code 184.4 (malignant neoplasm of vulva, unspecified) for HCPCS codes J9213 and J9214. This code will be used for malignant melanoma of the vulva for this LCD.

In addition, the "Sources of Information and Basis for Decision" section was updated.

This revision is effective for services rendered on or after March 27, 2006. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

17304: Mohs Micrographic Surgery (MMS) – LCD Revision

The local coverage determination (LCD) for Mohs Micrographic Surgery (MMS) (*17304*) was effective on January 1, 2006. Since that time, it has been determined that additional ICD-9-CM codes 173.5, 173.6, 173.7, and 232.0-232.8 would give providers more specific diagnosis codes to bill for the MMS procedures; therefore, these codes have been added to the LCD.

This revision is effective for services rendered on or after April 25, 2006. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

62263: Epidural – LCD Revision

The local coverage determination (LCD) was last updated on October 1, 2004. Since that time, the LCD has been revised to include additional ICD-9-CM codes.

ICD-9-CM codes 781.0 (abnormal involuntary movements) and 728.85 (spasm of muscle) were added to the "ICD-9 that support Medical Necessity" section of the LCD. These diagnosis codes should only be used with procedure codes *62310, 62311, 62318* and *62319*.

This revision was effective for services rendered on or after February 13, 2006. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

97001: Physical Medicine and Rehabilitation – LCD Revision

The local coverage determination (LCD) for physical medicine and rehabilitation – 97001 was previously revised on January 1, 2006. Since that time, the following changes have been made to the LCD:

Per CMS Transmittal 805, Change Request 4226, "Annual Update to the Therapy Code List," the documentation requirements were updated for unlisted procedures and the coding guideline section was updated to clarify codes that are always considered therapy services. These revisions are effective for **services rendered on or after January 1, 2006**.

Per Change Request 4364, "Therapy Caps Exception Process," the following changes have been made to the LCD: Added national language to the Indications and Limitations section of the LCD to clarify the therapy cap exception process. The documentation requirements, treatment encounter notes, and progress report/notes sections of the LCD have been updated to include instruction for the therapy cap exception process. The coding guidelines section has been updated to clarify the use of the KX, GO, GN, and GP modifiers, as well as, clarification of the use of the Notice of Exclusion from Medicare Benefits (NEMB) and advance beneficiary notice (ABN) forms. These revisions are effective for **services rendered on or after January 1, 2006.**

Per BESS data, procedure code *97001* was identified as being billed inappropriately. Therefore, a recommendation was made by our Statistical Medical Data Department to clarify the use of the evaluation (*97001*) and re-evaluation (*97002*) codes. A revision was done to the "Specific Procedure and Modality Guidelines for Physical and/or Occupational Therapy" section of the LCD to clarify the difference in an evaluation versus a re-evaluation. This revision is effective for **claims processed on or after April 11, 2006**.

The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

ADDITIONAL INFORMATION ON LCDS

Hemophilia Clotting Factors—Billing and Coding

An article addressing the inconsistent billing and handling of hemophilia clotting factors was published in the First Quarter 2006 *Medicare Part B Update!* The article contained information that would ensure that providers would receive correct payment.

Since that time, HCPCS changes have occurred that require additional instructions for providers to ensure that they continue to receive correct payment for services rendered.

The applicable HCPCS codes are:

J7188 Injection, Von Willebrand factor complex, human, IU **(effective 01/01/2006)**
J7189 Factor VIIa (antihemophilic Factor, recombinant), per 1 mcg (**effective 01/01/2006)**
J7190 Factor VIII (antihemophilic factor, human) per IU
J7191 Factor VIII (antihemophilic factor [porcine]), per IU
J7192 Factor VIII (antihemophilic factor, recombinant) per IU
J7193 Factor IX (antihemophilic factor, purified, non-recombinant) per IU
J7194 Factor IX complex, per IU
J7195 Factor IX (antihemophilic factor, recombinant) per IU
J7198 Anti-inhibitor, per IU
Q0187 Factor VIIa (coagulation factor, recombinant) per 1.2 mg (**for services rendered prior to 01/01/2006)**
Q2022 Von Willebrand factor complex, human, per IU (**for services rendered prior to 01/01/2006**)

To ensure that providers continue to receive correct payment for these services, the following guidelines must be followed:

The claims for HCPCS codes J7188 (for services rendered **on or after** 01/01/2006), J7190-J7198, and Q2022 (for services rendered **prior to** 01/01/2006) must include the following information for EMC or paper claims:

- **EMC**: Number of international units provided/supplied in the electronic equivalent field of Item 19 of CMS 1500 Form or the comment screen. In the electronic equivalent of the Days/Unit field (Item 24G), the number of units must be one (1).
- **PAPER CLAIMS**: Number of international units provided/supplied in Item 19 of CMS 1500 Form. In the Days/Unit field (Item 24G), the number of units must be one (1).

It is very important that special notice be given to HCPCS codes Q0187 and J7189. Even though HCPCS code J7189 replaces Q0187 for services rendered on or after January 1, 2006, it must be noted that the unit of measurement for the two codes is different. Therefore, the billing of each of these codes is different

Q0187 dosage is 1.2 milligrams (mg)
J7189 dosage is 1 microgram (mcg)

The paper or EMC claims for HCPCS code Q0187 must include the following information:

- The number of supplied units should be placed in the Days/Unit field (Item 24G) or its electronic equivalent. For example, if 4.8 mg was supplied, the number of units billed must be "4", because one unit billed corresponds to 1.2 mg.
- No entry is required in Item 19 of CMS 1500 Form or its electronic equivalent when billing for HCPCS code Q0187.

The EMC or paper claims for HCPCS code J7189 must include the following information:

- The number of units billed in the Days/Unit field (Item 24G) or its electronic equivalent should be a "1". The field would not be adequate for placing the actual number of micrograms administered. Therefore, an entry is required in Item 19 of CMS 1500 Form or its electronic equivalent when billing for HCPCS code J7189. The entry should accurately reflect the total amount provided/supplied in micrograms.

When billing for hemophilia clotting factors, providers should not be submitting additional documentation with the claim. If necessary, First Coast Service Options, Inc. (FCSO) will request this information by means of an additional documentation request (ADR). The response to such a request must include the following information to support the medical necessity and reasonableness of the services:

- A letter/attestation of medical necessity from the treating physician. This must include the statement that he/she is the treating provider, the patient's diagnosis, and the patient's usual or anticipated dose requirement over time. If a patient requires unusually high doses of a particular clotting factor, the reason for this must be documented in this letter (such as a high antibody titer, extraordinary frequent bleeding episodes, etc.); and
- From the treating physician, the dosage prescribed for the claim in question. This information must be indicated in the above letter, in a separate statement, or in a current prescription; and
- Supplier invoice.

Local Anesthetic Agents Used for Anesthesia or Therapeutic Injection

First Coast Service Options, Inc. (FCSO) has observed irregular billing related to local anesthetic agents. Local anesthetic agents can be used for anesthesia or therapeutic injections. Examples of local anesthetic agents, include but are not limited to: Lidocaine, Xylocaine, Articaine, Bupivicaine, Chloroprocaine, Levobupivicaine, Mepivacaine, Procaine, Marcaine, and Tetracaine.

For this article all brand/generic names of "caine drugs" are considered local anesthetic agents. In most instances Medicare does not allow separate reimbursement for the "caine drugs"

Providers usually bill these agents with an unlisted procedure code J3490. Remember that J2001 is used only for the intravenous administration of Xylocaine/ Lidocaine.

The cost of local anesthetic agents is included in the practice expense of procedures whether used as local anesthetic or part of a therapeutic injection and are not separately payable.

Wireless Capsule Endoscopy of the Esophagus

The wireless capsule of the esophagus is a wireless diagnostic video capsule specifically designed for the visualization of the esophagus. The wireless capsule endoscopy of the esophagus is based on the same clinically proven technology as the wireless capsule endoscopy of the small bowel.

Wireless capsule endoscopy of the *small bowel* received approval from the FDA on August 1, 2001, through a 510(k) approval process. The FDA clearance provided for the capsule's use "along with" -not as a replacement for other endoscopic and radiologic evaluations of the small bowel. In July of 2003 a supplemental 510 (k) pre-market notification was cleared and the labeled indications were modified by removing the "adjunctive use" qualification. The diagnostic system associated with wireless capsule endoscopy was intended for visualization of the small bowel mucosa. However, in November 2004 the FDA approved the diagnostic system for use with wireless capsule endoscopy for visualization of the *esophageal* mucosa.

First Coast Service Options, Inc. (FCSO) currently has a local coverage determination (LCD) for wireless capsule endoscopy. This LCD provides coverage guidelines for the use of *wireless capsule endoscopy of the small bowel* only. The full text of this LCD may be viewed at *http://www.connecticutmedicare.com*

To date, there have not been an adequate number of closely controlled clinical trials conducted or studies focusing on a comparison between wireless capsule endoscopy of the esophagus and other diagnostic modalities such as conventional endoscopy. Current publications in peer-reviewed literature, position statements by technology assessment organizations, and the communication released by the manufacturer are not sufficient to issue a positive coverage statement by way of a LCD.

Currently, there is no National Coverage Determination (NCD) for *wireless capsule endoscopy of the esophagus*, and FCSO has not published a LCD. When there is no NCD or LCD, services are evaluated individually based on Medicare's general medical reasonableness and necessity criteria. Claims for wireless capsule endoscopy of the esophagus will be given individual consideration on a case-by-case basis until appropriately designed and powered studies are published and evaluated. Providers should not interpret the process of individual consideration as synonymous with coverage and payment by Medicare. This means claims will be reviewed against the background of the presently available evidence and specific patient circumstances.

Anytime there is a question whether Medicare's medical reasonableness and necessity criteria would be met, we recommend the use of an advance beneficiary notice (ABN) and appending modifier GA to the billed CPT code. For further details about CMS' Beneficiary Notices Initiative (BNI), please point your browser to this link: *http://www.cms.hhs.gov/BNI/*. Please note that services that lead up to, or are associated with, non-covered services are not covered as well.

Effective for claims processed on or after April 20, 2006 for services rendered on or after March 23, 2006 providers should use *CPT* code *91110* with modifier 52 when submitting a claim for *wireless capsule endoscopy of the esophagus.*

Providers should not submit any medical record documentation with the claim. FCSO will request this by means of an additional documentation request (ADR) letter. The required information will be included in the ADR letter.

76514: Ocular Corneal Pachymetry—Coding Guideline Development

This local coverage determination (LCD) was last revised October 24, 2005. Since that time coding guidelines defining acceptable places of service (POS) for performing *CPT* code *76514* (Ophthalmic ultrasound, diagnostic; corneal pachymetry, unilateral or bilateral [determination of corneal thickness]) have been developed.
Ocular corneal pachymetry may be performed in the following POS:

21: inpatient hospital	22: outpatient hospital
11: office	32: nursing facility
31: skilled nursing facility	81: independent laboratory
24: ambulatory surgical center	23: emergency room - hospital

This coding guidleine development is effective for claims processed on or after April 11, 2006. The full-text of this LCD is available through our provider education website at *http://www.connecticutmedicare.com* on or after this effective date.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

CONNECTICUT MEDICARE PART B MAIL DIRECTORY

Connecticut Medicare Part B welcomes any questions that you may have regarding the Medicare Part B program. Always be sure to clearly explain your question or concern. This will help our staff to know exactly what issues to address when developing a response to your inquiry.

Please submit your questions to the appropriate department. This will ensure that your concerns are handled in a proper and timely manner. This can be achieved by including an Attention Line below the address on the envelope. Listed below is a directory of departments that includes the issues that you would address to their attention.

With the exception of Redeterminations and Medicare EDI, please submit all correspondence with the appropriate attention line to:

Attention: (insert dept name)
Medicare Part B CT
P.O. Box 45010
Jacksonville, FL 32232-5010

Attention: Correspondence

The Correspondence attention line is used for inquiries pertaining to general issues regarding Medicare Part B. Some examples of these issues are deductibles, assignment, and beneficiary address changes. Do not use words such as *REVIEW* or *RECHECK* when sending general correspondence.

Attention: Financial Services

Use this attention line to return duplicate payments or overpayment refunds.

Attention: Fraud and Abuse

If you encounter what you believe is suspected, potential, or possible fraud or abuse of the Medicare program, we encourage you to contact this department.

Attention: Freedom of Information (FOIA)

This department handles requests for information available under the Freedom of Information Act.

Attention: Medical Review

Questions regarding LMRPs/LCDs and correct documentation for evaluation and management services are handled by this department. Documentation for off-label chemotherapy use should also be submitted to the Medical Review Department.

Attention: MSP

Write to the Medicare Secondary Payer (MSP) department when submitting an Explanation of Benefits from a primary insurance, Exhaust letters from Auto Liability claims, and MSP calculation review requests.

Attention: Pricing/ Provider Maintenance

Address your envelope to this department to apply for a new provider number, change a business or billing address of a provider, or to make any changes in the status of a provider. This department also handles fee schedule requests and inquiries, participation requests, and UPIN requests.

Attention: Resolutions

Use the Resolutions attention line when inquiring or submitting information regarding dates of death, incorrect Medicare (HIC) numbers, incorrect beneficiary information, etc.

MAILING ADDRESS EXCEPTIONS

We have established special P.O. boxes to use when mailing your redeterminations and hearings requests, paper claims, or to contact Medicare EDI:

Redeterminations/Appeals

Please mail only your requests for redeterminations to this P.O. Box. *DO NOT* send new claims, general correspondence, or other documents to this location; doing so will cause a delay in the processing of that item.

If you believe the payment or determination is incorrect and want a claim to be reconsidered, then send it to the attention of the review department. Requests for redeterminations must be made within 120 days of the date of the Medicare Summary Notice. These requests should not include redetermination requests on Medicare Secondary Pay calculations. Claims that are denied for return/reject need to be resubmitted and should **not** be sent as a redetermination. These resubmitted claims should be sent in as new claims.

Hearings

If you believe that your redetermination was incorrect and want it reviewed by a Hearing Officer, send your inquiry to the attention of the Hearing Department. A request for a hearing must be made within six months of the date of the Review Department determination and at least $100.00 must remain in controversy from this decision.

Post Office Box for Appeals/Hearings:

Medicare Part B CT Appeals/Hearings
First Coast Service Options, Inc.
P.O. Box 45041
Jacksonville, FL 32232-5041

Electronic Media Claims/EDI

The Electronic Data Interchange department handles questions and provides information on electronic claims submission (EMC).

Post Office Box for EDI:

Medicare Part B CT Medicare EDI
P.O. Box 44071
Jacksonville, FL 32231-4071

Claims

The Heath Insurance Portability and Accountability Act (HIPAA) requires electronic submission of mpst types of Medicare claims. We realize, however, that on occasion it is necessary to submit a paper claim. When this happens, submit your claims on the approved red-and-white Form CMS-1500 to:

Florida Medical Review

This section of the *Medicare B Update!* features summaries of new and revised local coverage determinations developed as a result of either local medical review or comprehensive data analysis initiatives. These initiatives are designed to ensure the appropriateness of medical care and that the carrier's medical policies and review guidelines are consistent with accepted standards of medical practice.

In accordance with publication requirements specified by the Centers for Medicare & Medicaid Services (CMS), carriers no longer include full-text local coverage determinations (LCDs) to providers in the *Update!* Summaries of revised and new LCDs are provided instead. Providers may obtain full-text LCDs on our provider education website, *http://www.floridamedicare.com*. Final LCDs, draft LCDs available for comment, LCD statuses, and LCD comment/response summaries may be printed from the Part B Medical Policy section.

Effective and Notice Dates

Effective dates are provided in each policy, and are based on the date of service (unless otherwise noted in the policy). Medicare contractors are required to offer a 45-day notice period for LCDs; the date the LCD is posted to the website is considered the notice date.

Electronic Notification

To receive quick, automatic notification when new LCDs are posted to the website, subscribe to our *FCSO eNews* mailing list. It's very easy to do; go to

http://www.floridamedicare.com , click on the "eNews" link on the navigational menu and follow the prompts.

More Information

For more information, or, if you do not have Internet access, to obtain a hardcopy of a specific LCD, contact Medical Policy at:

CORRECTIONS

APBI: Accelerated Partial Breast Irradiation – Correction to Article

An article was published in the 1st Quarter 2005 *Medicare B Update!* (page 87) that addressed coverage guidelines for APBI. Since that time, it has been determined that the indications in the article did not match the local coverage determination (LCD) indications. A correction has been made to the indication that the size of the lesion should be "less than or equal to 3 cm.". The original article stated the lesion should be "greater than or equal to 3 cm." All other information remains the same.

Survival after breast-conservation therapy (BCT) is equivalent to survival after mastectomy for patients diagnosed with tumors categorized as stage I or II. The standard of care for local management is breast-conserving surgery to excise the tumor with adequate margins (lumpectomy), followed by whole-breast external-beam radiation therapy (WB-EBRT).

Accelerated Partial Breast Irradiation (APBI) differs from WB-EBRT in two ways. First, the radiation targets only a segment surrounding the tumor rather than the entire breast. Second, since the duration of treatment is 4 to 5 days rather than 5 to 6 weeks, radiation is delivered in fewer fractions at larger doses per fraction. APBI comprises several techniques, including interstitial brachytherapy via catheters, the MammoSite radiation treatment system, accelerated external beam radiotherapy, and intra-operative radiotherapy delivery.

When compared with whole breast irradiation, APBI offers the potential advantages of convenience and decreases radiation dose to healthy breast tissue. However, published studies are limited in patient size and follow-up period. Given access to care issues, an LCD has been developed to define the indications and limitations of coverage, establish a procedure to diagnosis relationship, and clarify the appropriate use of APBI after breast-conserving surgery for early stage breast cancer. In addition, a coding guideline has also been developed to assist in billing this type of service.

APBI after breast-conserving surgery is considered medically necessary for patients with early stage breast cancer when all of the following criteria are met:

Age: ≥50 years old
Diagnosis: Invasive ductal carcinoma or ductal carcinoma in situ
Size: Less than or equal to 3 cm.
Margin status: Negative – at least 2mm in all directions
Nodal status: Negative axillary lymph node dissection or sentinel lymph node evaluation

This LCD is effective for services rendered on or after January 1, 2005. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

Stereotactic Radiosurgery and Stereotactic Radiotherapy – Correction to Article

An article was published in the 1st Quarter 2006 *Medicare B Update!* (pages 112-113) that addressed coding/billing guidelines. Since that time, new 2006 CPT/HCPCS codes have been published. This article updates those added/deleted codes. All other information remains the same.

Stereotactic radiosurgery is a form of external beam radiation that delivers a high-dose during a single session to shrink or destroy lesions while leaving tissue surrounding the lesion unaffected. Initially restricted to intracranial lesions, advances in technology have extended interventions to other parts of the body for lesions inaccessible or unsuitable for open surgery. The stereotactic techniques have incorporated single session high-dose, hyper fractionation (currently defined as 2-5 high dose sessions), and conventional fractionation collectively referred to as stereotactic radiotherapy (SRT). Stereotactic radiotherapy relies on reproducible spatial correlation of the target of interest and the radiation source; using computer generated three-dimensional simulations. This can be accomplished with several methodologies including specially designed external frames, implanted fiducial markers or imaging techniques. Currently FCSO does not have a local medical policy addressing stereotactic radiotherapy. Specifically, body radiation therapy (therapy outside the CNS) is considered an emerging technology as indicated by the assignment of a Category III Code in 2005. Review of current literature and discussion with Radiation Oncologists suggest that there is no consensus on the optimal technology (planning and Rx delivery) for given indications. Currently there are satisfactory coding and billing guidelines for hospitals to submit claims to the FI for stereotactic radiotherapy treatment planning and delivery. Free standing facilities that bill the carrier should use this article as a guide to coding and billing the carrier when applicable given there are no active HCPCS codes with pricing in the Medicare Fee Schedule for claims administration of stereotactic radiotherapy treatment planning and delivery. Claims to the carrier will continue to be developed for documentation and evaluated for coverage and payment on individual consideration. The documentation must show what was done. Also it must support that the intervention was medical necessary and reasonable for the condition as well as superior to conventional radiation therapy or IMRT given the risk and benefit to the beneficiary.

This coding article addresses:

- Physician *treatment management* services: Stereotactic radiation therapy & radiosurgery is an emerging technology and involves a process of care directed by radiation oncologist, in some cases neurosurgeons, and other allied health care professionals.

- Stereotactic radiation therapy & radiosurgery *treatment planning* and *delivery* given with either Co 60 gamma rays or with mega voltage photons from a linear accelerator for claims submitted to the carrier from a free standing facility. The goal of these treatments is great accuracy and precision in the delivery of dose to the planned target.

The conduct of a course of radiation therapy includes an episode of care with steps of consultation, clinical treatment planning, establishment of treatment parameters, and treatment delivery and management. All of the coding encompassed in an episode of care is not addressed in this article. However, it is expected that professional and technical components billed to Medicare on behalf of a beneficiary are medically necessary and reasonable with no duplication of services within the episode of care unless the medical necessity of the repeated or duplicated services is clearly documented. If multiple providers are involved in the patient's episode of care, clinical treatment planning, establishment of treatment parameters, and treatment delivery and management should be appropriately coordinated.

Coding of CPT/HCPCS Codes

SRT Treatment Management:

61793 Stereotactic radiosurgery (particle beam, gamma ray or linear accelerator), one or more sessions.

- Reported for work attributed to neurosurgeon or surgeon
- Same physician cannot report *77427-77432*

77432 Stereotactic radiation treatment management of cerebral lesion(s) (complete course of treatment consisting of one session):

- Generally reflects the work by the radiation oncologist

0083T Stereotactic body radiation therapy, treatment management, per day

- SRT per day management of non cerebral lesions
- Do not report *0083T* in conjunction with *77427-77432, 61793*

Free Standing Facilities billing technical work to the Carrier

SRT Treatment Planning:

77295-TC Therapeutic radiology simulation-aided field setting; three-dimensional, per course of treatment; ***OR*** one of the following, as appropriate:

LINAC based

77261-77370 Linear accelerator based stereotactic radiosurgery plan, including dose volume histograms for target critical structure tolerances, plan optimization performed for highly conformal distributions, plan positional accuracy and dose verification, all lesions treated, per course of treatment

Cobalt 60-based

77261-77370 Multi-source photon stereotactic radiosurgery (cobalt-60 multi-source converging beams) plan, including dose volume histograms for target and critical structure tolerances, plan optimization performed for highly conformal distributions, plan positional accuracy and dose verification, all lesions treated, per course of treatment

SRT Treatment Delivery:

0082T Stereotactic body radiation therapy, treatment delivery, one or more treatment areas, per day

Use G codes as outlined below, if appropriate, unless more than five sessions, then use *0082T* (per day) as noted.

The work should reflect the following descriptors currently used in the hospital setting:

LINAC based

- Image-guided robotic LINAC treatment

G0339 Image guided robotic linear accelerator base stereotactic radiosurgery, complete course of therapy in one session, or first session of fractionated treatment
G0340 Image guided robotic linear accelerator base stereotactic radiosurgery, delivery including collimator changes in custom plugging, fractionated treatment, all lesions, per session, second through fifth sessions, maximum five sessions per course of treatment

- Non-robotic LINAC treatment

G0173 Stereotactic radiosurgery, complete course of therapy in one session
G0251 Linear accelerator based stereotactic radiosurgery, delivery including collimator changes and custom plugging, fractionated treatment, all lesions, per session, maximum five sessions per course of treatment

Cobalt 60-based

G0243 Multi-source photon stereotactic radiosurgery, delivery including collimator changes and custom plugging, complete course of treatment, all lesions

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

REVISIONS TO LCDS

J0640: Leucovorin (Wellcovorin®) – LCD Revision

This local coverage determination (LCD) for Leucovorin was last updated on September 29, 2003. Since that time, the LCD has been edited for FDA and off-label indications. The following ICD-9-CM code has been added under the "ICD-9 Codes that Support Medical Necessity" section:

- 186.9 – Malignant neoplasm of other and unspecified testis

In addition, under the "Indications and Limitations of Coverage and/or Medical Necessity" section, "Malignant neoplasm of testis" was added. References were updated under the "Sources of Information and Basis for Decision" section.

This revision is effective for services rendered on or after March 1, 2006. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

J1745: Infliximab (Remicade®) – LCD Revision

The local coverage determination (LCD) was last updated on August 23, 2005. Since that time, the Indications and Limitations section and the ICD-9-CM section of the LCD has been revised.

For services rendered on or after February 13, 2006:

Under indications and limitations, bullet #2 was revised to include coverage for rectovaginal fistulas and to maintain fistula closure for fistulizing Crohn's disease. Bullet #3 was revised to read active arthritis in patients with psoriatic arthritis. Bullet #4 was revised to remove the requirement that the patient must have had an inadequate response to methotrexate. A fifth bullet was added that allows coverage for the following: To reduce signs and symptoms, achieve clinical remission and mucosal healing, and eliminate corticosteroid use in patients with moderately to severely active ulcerative colitis who have had an inadequate response to conventional therapy. The following ICD-9-CM codes were added to the list of "ICD-9 codes that support medical necessity" section, related to the above revisions: 556.0, 556.1, 556.2, 556.3, 556.5, 556.6, 556.8, 556.9 and 714.2.

For services rendered on or after March 21, 2006:

Bullet #5 was revised to read that patients can receive the infusion at 0, 2, and 6 weeks and every 8 weeks thereafter.

The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

J2430: Pamidronate (Aredia®, APD) – LCD Revision

This local coverage determination (LCD) for Pamidronate was last updated on October 11, 2005. Since that time, this LCD has been revised to update the verbiage and dosages under the "Indications and Limitations of Coverage and/or Medical Necessity" section to correspond with the FDA indications and recommended dosages.

Under the "ICD-9 Codes that Support Medical Necessity" section, the dual diagnosis requirement for osteolytic lesions of multiple myeloma (code range 203.00 – 203.01) was removed because the involvement of bone and/or bone marrow may be part of this disease process. In addition, the "Sources of Information and Basis for Decision" section was updated.

This revision is effective for services rendered on or after April 10, 2006. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

J2505: Pegfilgrastim (Neulasta™) – LCD Revision

This local coverage determination (LCD) for Pegfilgrastim was last updated on October 1, 2005. Based on current literature, this LCD has since been revised to include an additional indication and ICD-9-CM code regarding prophylactic use of Neulasta.

The following statement was added under the "Indications and Limitations of Coverage and/or Medical Necessity" section:

- Prophylactic use of Neulasta in patients undergoing chemotherapy reduces the risk of febrile neutropenia and infections. Prophylactic therapy can be considered for patients receiving myelosuppressive chemotherapy if the risk of febrile neutropenia is 20% or greater.

Under List II of the "ICD-9 Codes that Support Medical Necessity" section, the following diagnosis code was added:

- V07.8 – Other specified prophylactic measure

Coverage of Pegfilgrastim requires the billing of dual diagnoses. Under the "ICD-9 Codes that Support Medical Necessity" section, the appropriate primary diagnosis code under List I, which represents a non-myeloid malignancy, and the appropriate secondary diagnosis code under List II, which represents an encounter for myelosuppressive chemotherapy, must be billed.

In addition to the above, the "Sources of Information and Basis for Decision" section was updated.

This revision is effective for services rendered on or after March 13, 2006. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

J9000: Antineoplastic Drugs – LCD Revision

This local coverage determination (LCD) for Antineoplastic Drugs was last updated on October 1, 2005. Since that time, based on FDA approved indications and/or off-label indications published in the USP DI, the following revisions have been made to the HCPCS codes listed below under the "Indications and Limitations of Coverage and/or Medical Necessity" section:

- J9000 – Doxorubicin HCl (Ewing's sarcoma was moved from the off-labeled section to FDA approved indications)
- J9015 – Aldesleukin (under off-labeled indications, "acute" was added to chronic myelogenous leukemia)
- J9170 – Docetaxel (FDA-approved and off-labeled indications were corrected)
- J9181 & J9182 – Etoposide (Ovarian germ cell tumor was indicated for ovarian carcinoma and Myelodysplastic syndromes (MDS) was added to off-labeled indications)
- J9200 – Floxuridine (Carcinoma of the ovary and kidney not responsive to other antimotabolites was added to the off-labeled indications)
- J9201 – Gemcitabine (FDA indication of Gemzar in combination with Paclitaxel for first line treatment of patients with metastatic breast cancer after failure of prior anthracycline-containing adjuvant chemotherapy, unless contraindicated was added. Off-labeled indications of epithelial for ovarian carcinoma was indicated, and ovarian germ cell tumor was added)
- J9263 – Oxaliplatin (FDA-approved indication stating "Oxaliplatin is indicated in combination with 5-FU/LV or capecitabine for first line treatment of nonresectable advanced or metastatic colon or rectal carcinoma" was added)
- J9265 – Paclitaxel (FDA approved indication stating "Adjuvant treatment of node-positive breast cancer when administered sequentially to standard Doxorubicin-containing combination chemotherapy" was added. In addition, under off-labeled indications, "First line therapy for treatment of metastatic breast cancer" was added)
- J9300 – Gemtuzumab (under FDA approved indications, "other" was added to cytotoxic chemotherapy for treatment of patients with CD33 positive acute myeloid leukemia in first relapse who are 60 years of age or older and who are not considered candidates for cytotoxic chemotherapy)

In addition to the above, under the "ICD-9 Codes that Support Medical Necessity" section, the following HCPCS codes had additional diagnoses added:

- J9015 – Aldesleukin (added diagnosis code range 205.00 – 205.01 – acute myeloid leukemia)
- J9160 – Denileukin (added diagnosis code range 202.80 – 202.88 – Other lymphomas)
- J9181 & J9182 – Etoposide (added diagnosis code 238.7 – Other lymphatic and hematopoietic tissue)

The "Sources of Information and Basis for Decision" section as well as the "Coding Guidelines" section was also updated.

This revision is effective for services rendered on or after March 1, 2006. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

J9212: Interferon – LCD Revision

This local coverage determination (LCD) for Interferon was last updated on January 18, 2005. Since that time, this LCD has been revised to include ICD-9-CM code 184.4 (malignant neoplasm of vulva, unspecified) for HCPCS codes J9213 and J9214. This code will be used for malignant melanoma of the vulva for this LCD.

In addition, the "Sources of Information and Basis for Decision" section was updated.

This revision is effective for services rendered on or after March 27, 2006. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

OOS: Outpatient Observation Services – LCD Revision

The local coverage determination (LCD) for Observation Services was last updated on January 1, 2006. Since that time, the LCD has been revised to include updated language pertaining to the ending time for observation care in the "Indications and Limitations of Coverage and/or medical necessity", and Documentation Requirements" sections of the LCD.

This revision was based on CMS Change Request 3632, dated January 6, 2005 and was effective for services rendered on or after January 1, 2005. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

THERSVCS: Therapy and Rehabilitation Services – LCD Revision

The local coverage determination (LCD) for therapy and rehabilitation services – THERSVCS was previously revised on January 1, 2006. Since that time, the following changes have been made to the LCD:

Per CMS Transmittal 805, Change Request 4226, "Annual Update to the Therapy Code List," the documentation requirements were updated for unlisted procedures and the coding guideline section was updated to clarify codes that are always considered therapy services. These revisions are effective for **services rendered on or after January 1, 2006**.

Per Change Request 4364, "Therapy Caps Exception Process," the following changes have been made to the LCD: Added national language to the "Indications and Limitations" section of the LCD to clarify the therapy cap exception process. The documentation requirements, treatment encounter notes, and progress report/notes sections of the LCD have been updated to include instruction for the therapy cap exception process. The coding guidelines section has been updated to clarify the use of the KX, GO, GN, and GP modifiers, as well as, clarification of the use of the Notice of Exclusion from Medicare Benefits

THERSVCS: Therapy and Rehabilitation Services , continued

(NEMB) and advance beneficiary notice (ABN) forms. These revisions are effective for **services rendered on or after January 1, 2006**.

Per BESS data, procedure code *97001* was identified as being billed inappropriately. Therefore, a recommendation was made by our Statistical Medical Data Department to clarify the use of the evaluation (*97001*) and re-evaluation (*97002*) codes. A revision was done to the "Specific Procedure and Modality Guidelines for Physical and/or Occupational Therapy" section of the LCD to clarify the difference in an evaluation versus a re-evaluation. This revision is effective for **claims processed on or after April 11, 2006**.

The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

11000: Debridement Services—LCD Revision

The local coverage determination (LCD) for debridement services (*11000*) was previously revised on January 1, 2005. Since that time, it has been determined that the ICD-9-CM code ranges 946.20-946.29, 946.30-946.39, and 946.40-946.49 were added to the LCD as fifth digit specificity in error. These ICD-9-CM code ranges have been corrected to 946.2, 946.3, and 946.4, respectively, for *CPT* codes *97597* and *97598* only. This revision is effective for claims processed on or after March 27, 2006 for services rendered on or after January 1, 2005.

The following change has been made to the coding guidelines section of the LCD based on change request 4226 – Annual Update to the Therapy Code List: Clarifying therapy modifier usage with *CPT* codes *97597, 97598,* and *97602*. This revision is effective for services rendered on or after January 1, 2006.

The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

17304: Mohs Micrographic Surgery (MMS)—LCD Revision

The local coverage determination (LCD) for Mohs Micrographic Surgery (MMS) (*17304*) was previously revised on January 1, 2006. Since that time, it has been determined that additional ICD-9-CM codes 173.5, 173.6, 173.7, and 232.0-232.8 would provide more specific diagnosis codes to bill for the MMS procedures; therefore, these codes have been added to the LCD.

This revision is effective for services rendered on or after April 25, 2006 The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

32491: Lung Volume Reduction Surgery—LCD Revision

The local coverage determination (LCD) for lung volume reduction surgery (LVRS) (*32491*) was effective on September 30, 2004. Since that time, the LCD has been updated per CMS Transmittal 768, Change Request 4149, updating the protocol for determining approved facilities for LVRS and removing language regarding the National Emphysema Treatment Trial (NETT) protocol. In addition, the coding guideline section was updated to include national non-covered indications.

This revision is effective for claims processed on or after March 2, 2006 for services rendered on or after November 17, 2005. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

43644: Surgical Management of Morbid Obesity—LCD Revision

This local coverage determination (LCD) was last revised January 1, 2006. Since that time, CMS issued change request 4399, transmittal 889, dated March 17, 2006 which noncovers *CPT* code *43842* (Gastric restrictive procedure, without gastric bypass, for morbid obesity; vertical-banded gastroplasty) for services rendered on or after February 21, 2006. The LCD has been revised to reflect this change.

The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

93025: Microvolt T-wave Alternans—LCD Revision

The local coverage determination was last updated on November 8, 2005. Since that time, there has been a national coverage determination for the evaluation of patients at risk of sudden cardiac death, only when the spectral analysis method is used. (National Coverage Determinations Manual, Chapter 1, Section 20.30).

Based on Change Request 4351, dated March 24, 2006, this LCD has been revised. Language has been added to the "Indications and Limitations" and "Documentation Requirements" sections of the LCD. Prior to March 21, 2006, Microvolt T-wave Alterans was covered based on contractor discretion.

This revision is effective for services rendered on or after March 21, 2006. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

93303: Transthoracic Echocardiography – LCD Revision

The local coverage determination was last updated on October 1, 2005. Since that time, the "ICD-9 Codes that Support Medical Necessity" section has been revised.

ICD-9-CM codes V42.1 (Heart replaced by transplant), V42.2 (Heart valve replaced by transplant), and V43.3 (Heart valve replaced by other means) have been added to the "ICD-9 Codes that support Medical Necessity" section of the LCD for *CPT* codes *93307* and *93308*. These ICD-9-CM codes are secondary diagnosis codes and should not be billed as the primary diagnosis.

This revision is effective for services rendered on or after May 12, 2006. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

ADDITIONAL INFORMATION ON LCDS

93042: Rhythm ECG, one to three leads; interpretation and report only

A review of utilization data of *CPT* code *93042* (Rhythm ECG, one to three leads; interpretation and report only) has revealed that providers are billing interpretation of EKG rhythm strips obtained from telemetry or cardiac monitoring equipment within hospitals or other facilities.

Electrocardiography (ECG) is the graphic tracing of the variations in electrical potential caused by the excitation of the heart muscle as detected at the body surface by electrodes placed on the patient's limbs and chest. The monitoring electrodes detect the electrical activity of the heart from a variety of spatial perspectives. The rhythm ECG lead system is composed of two electrodes that are placed at varying sites on the chest. It provides information regarding rate, rhythm, and the conduction system.

The ECG tracing is appropriately billed when performed as a stand-alone test, on a dedicated machine specifically for the purpose of the diagnosis of an arrhythmia or during its treatment.

Interpretation and/or performance of a rhythm strip performed as a separate service from continuous cardiac or telemetry monitoring with the result being an official interpretation and written report would be considered for Medicare reimbursement. The appropriate rhythm strip *CPT* codes (*93040-93042*) should be used and the documentation should support the medical necessity.

Interpretation of a rhythm strip from a cardiac monitoring equipment in settings including but not limited to inpatient hospital, emergency room and ambulance is not separately allowable. It is included as part of the medical decision portion of a physician's evaluation and management (E/M) services. Simply signing the report printed out by the ECG monitoring equipment is not acceptable documentation for billing and interpretation of a rhythm strip.

76514: Ocular Corneal Pachymetry—Coding Guideline Development

This local coverage determination (LCD) was last revised October 24, 2005. Since that time, coding guidelines defining acceptable places of service (POS) for performing *CPT* code *76514* (Ophthalmic ultrasound, diagnostic; corneal pachymetry, unilateral or bilateral [determination of corneal thickness]) have been developed.

Ocular corneal pachymetry may be performed in the following POS:

21: inpatient hospital	22: outpatient hospital
11: office	32: nursing facility
31: skilled nursing facility	81: independent laboratory
24: ambulatory surgical center	23: emergency room - hospital

This coding guideline development is effective for claims processed on or after April 11, 2006. The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

Italicized and/or quoted material is excerpted from the American Medical Association *Current Procedural Terminology. CPT* codes, descriptions and other data only are copyrighted 2005 American Medical Association (or other such date of publication of *CPT*). All rights reserved. Applicable FARS/DFARS apply.

Hemophilia Clotting Factors-Billing and Coding

An article addressing the inconsistent billing and handling of hemophilia clotting factors was published in the First Quarter 2006 *Medicare Part B Update!* The article contained information that would ensure that providers would receive correct payment.

Since that time, HCPCS changes have occurred that require additional instructions for providers to ensure that they continue to receive correct payment for services rendered.

The applicable HCPCS codes are:

J7188 Injection, Von Willebrand factor complex, human, IU **(effective 01/01/2006)**

J7189 Factor VIIa (antihemophilic Factor, recombinant), per 1 mcg (**effective 01/01/2006)**

J7190 Factor VIII (antihemophilic factor, human) per IU

J7191 Factor VIII (antihemophilic factor [porcine]), per IU

J7192 Factor VIII (antihemophilic factor, recombinant) per IU

J7193 Factor IX (antihemophilic factor, purified, non-recombinant) per IU

J7194 Factor IX complex, per IU

J7195 Factor IX (antihemophilic factor, recombinant) per IU

J7198 Anti-inhibitor, per IU

Q0187 Factor VIIa (coagulation factor, recombinant) per 1.2 mg (**for services rendered prior to 01/01/2006)**

Q2022 Von Willebrand factor complex, human, per IU (**for services rendered prior to 01/01/2006**)

Florida local coverage determination (LCD) J7188 regulates Medicare coverage of hemophilia clotting factors locally. It can be accessed at *http://www.floridamedicare.com.* Select the Part B section and click on the "final" link located under Medical Coverage/Local on the navigational menu.

To ensure that providers continue to receive correct payment for these services, the following guidelines must be followed:

The claims for HCPCS codes J7188 (for services rendered **on or after** 01/01/2006), J7190-J7198, and Q2022 (for services rendered **prior to** 01/01/2006) must include the following information for EMC or paper claims:

- **EMC**: Number of international units provided/supplied in the electronic equivalent field of Item 19 of CMS 1500 form or the comment screen. In the electronic equivalent of the Days/Unit field (Item 24G), the number of units must be one (1).
- **PAPER CLAIMS**: Number of international units provided/supplied in Item 19 of CMS 1500 form. In the Days/Unit field (Item 24G), the number of units must be one (1).

It is very important that special notice be given to HCPCS codes Q0187 and J7189. Even though HCPCS code J7189 replaces Q0187 for services rendered on or after January 1, 2006, it must be noted that the unit of measurement for the two codes is different. Therefore, the billing of each of these codes is different

Q0187 dosage is 1.2 milligrams (mg)
J7189 dosage is 1 microgram (mcg)

The paper or EMC claims for HCPCS code Q0187 must include the following information:

- The number of supplied units should be placed in the Days/Unit field (Item 24G) or its electronic equivalent. For example, if 4.8 mg was supplied, the number of units billed must be "4", because one unit billed corresponds to 1.2 mg.
- No entry is required in Item 19 of CMS 1500 form or its electronic equivalent when billing for HCPCS code Q0187.

The EMC or paper claims for HCPCS code J7189 must include the following information:

- The number of units billed in the Days/Unit field (Item 24G) or its electronic equivalent should be a "1". The field would not be adequate for placing the actual number of micrograms administered. Therefore, an entry is required in Item 19 of CMS 1500 form or its electronic equivalent when billing for HCPCS code J7189. The entry should accurately reflect the total amount provided/supplied in micrograms.

When billing for hemophilia clotting factors, providers should not be submitting additional documentation with the claim. If necessary, First Coast Service Options, Inc. (FCSO) will request this information by means of an additional documentation request (ADR). The response to such a request must include the following information to support the medical necessity and reasonableness of the services:

- A letter/attestation of medical necessity from the treating physician. This must include the statement that he/she is the treating provider, the patient's diagnosis, and the patient's usual or anticipated dose requirement over time. If a patient requires unusually high doses of a particular clotting factor, the reason for this must be documented in this letter (such as a high antibody titer, extraordinary frequent bleeding episodes, etc.); and
- From the treating physician, the dosage prescribed for the claim in question. This information must be indicated in the above letter, in a separate statement, or in a current prescription; and
- Supplier invoice.

Local Anesthetic Agents Used for Anesthesia or Therapeutic Injection

First Coast Service Options, Inc. (FCSO) has observed irregular billing related to local anesthetic agents. Local anesthetic agents can be used for anesthesia or therapeutic injections. Examples of local anesthetic agents, include but are not limited to: lidocaine, xylocaine, articaine, bupivicaine, chloroprocaine, levobupivicaine, mepivacaine, procaine, marcaine, and tetracaine.

For this article all brand/generic names of "caine drugs" are considered local anesthetic agents. In most instances Medicare does not allow separate reimbursement for the "caine drugs"

Providers usually bill these agents with an unlisted procedure code J3490. Remember, J2001 is used only for the intravenous administration of xylocaine/lidocaine.

The cost of local anesthetic agents is included in the practice expense of procedures whether used as local anesthetic or part of a therapeutic injection and are not separately payable.

Wireless Capsule Endoscopy of the Esophagus

The wireless capsule of the esophagus is a wireless diagnostic video capsule specifically designed for the visualization of the esophagus. The wireless capsule endoscopy of the esophagus is based on the same clinically proven technology as the wireless capsule endoscopy of the small bowel.

Wireless capsule endoscopy of the *small bowel* received approval from the Federal Drug Administration (FDA) on August 1, 2001, through a 510(k) approval process. The FDA clearance provided for the capsule's use "along with" -not as a replacement for other endoscopic and radiologic evaluations of the small bowel. In July 2003 a supplemental 510 (k) premarket notification was cleared and removing the "adjunctive use" qualification modified the labeled indications. The diagnostic system associated with wireless capsule endoscopy was intended for visualization of the small bowel mucosa. However, in November 2004 the FDA approved the diagnostic system for use with wireless capsule endoscopy for visualization of the *esophageal* mucosa.

First Coast Service Options, Inc. (FCSO) currently has a local coverage determination (LCD) for wireless capsule endoscopy. This LCD provides coverage guidelines for the use of *wireless capsule endoscopy of the small bowel* only. The full text of this LCD may be viewed at *http://www.floridamedicare.com*.

To date, there have not been an adequate number of closely controlled clinical trials conducted or studies focusing on a comparison between wireless capsule endoscopy of the esophagus and other diagnostic modalities such as conventional endoscopy. Current publications in peer-reviewed literature, position statements by technology assessment organizations, and the communication released by the manufacturer are not sufficient to issue a positive coverage statement by way of a LCD.

Currently, there is no National Coverage Determination (NCD) for *wireless capsule endoscopy of the esophagus,* and FCSO has not published a LCD. When there is no NCD or LCD, services are evaluated individually based on Medicare's general medical reasonableness and necessity criteria. Claims for wireless capsule endoscopy of the esophagus will be given individual consideration on a case-by-case basis until appropriately designed and powered studies are published and evaluated. Providers should not interpret the process of individual consideration as synonymous with coverage and payment by Medicare. This means only that the claims will be reviewed against the background of the presently available evidence and specific patient circumstances.

Any time there is a question whether Medicare's medical reasonableness and necessity criteria would be met; we recommend the use of an advance beneficiary notice (ABN) and appending modifier GA to the CPT code. For further details about CMS' Beneficiary Notices Initiative (BNI), please point your browser to this link: *http://www.cms.hhs.gov/BNI/*. Please note that services that lead up to, or are associated with, non-covered services are not covered as well.

Effective for claims processed on or after April 20, 2006 for services rendered on or after March 23, 2006, providers should use *CPT* code *91110* with modifier 52 when submitting a claim for wireless capsule endoscopy of the esophagus.

Providers should not submit any medical record documentation with the claim. FCSO will request this by means of an additional documentation request (ADR) letter. The required information will be included in the ADR letter.

The full-text of this LCD is available through our provider education website at *http://www.floridamedicare.com* on or after this effective date.

Reader Survey—*Medicare B Update!*

We want readers of this publication to find it to be a helpful tool that is easy to use and understand. This survey is your opportunity to suggest ways we can better meet your needs. After the survey closes, we will publish the results on our websites and work to implement suggested enhancements as appropriate. Thank you for taking the time to complete this survey!

Please complete the questions below and return your reply to us by July 31, 2006.

Please Indicate Your Location: ❑ **Connecticut** ❑ **Florida**

Overall Satisfaction

On a scale of 5 to 1, with 5 being very satisfied and 1 being very dissatisfied, how satisfied are you with the publication overall? Please ***circle*** the number that best applies.

5 4 3 2 1

Accuracy

"When I read the *Medicare B Update!* I feel comfortable that the information presented is accurate."

5 4 3 2 1

"When I read the *Medicare B Update!* I am confident that the information is up-to-date."

ORDER FORM — 2006 PART B MATERIALS

The following materials are available for purchase. To order these items, please complete and **submit this form along with your check/money order** payable to BCBSFL – FCSO with the account number listed by each item.

Note: Payment for fee schedules cannot be combined with payment for other items; separate payments are required for purchases of items from different accounts.

QUANTITY	ITEM	ACCOUNT NUMBER	COST PER ITEM
❒	***Medicare B Update!* Subscription** – The *Medicare B Update!* is available free of charge online at *http://www.connecticutmedicare.com* and *http://www.floridamedicare.com*. Hardcopy or CD-ROM distribution is limited to individual providers and professional association groups who billed at least one Part B claim (to either Connecticut or Florida Medicare) for processing during the twelve months prior to the release of each issue. **Beginning with publications issued after June 1, 2003**, providers who meet these criteria must register to receive the *Update!* in hardcopy or CD-ROM format. Qualifying providers will be eligible to receive one hardcopy or CD-ROM of each issue, if a valid reason can be shown why the electronic publication available free of charge on the Internet cannot be utilized. Nonprovider entities or providers who need additional copies may purchase an annual subscription. This subscription includes all issues published during calendar year 2006 (back issues will be sent upon receipt of order).	700395	$25.00 (Hardcopy) $20.00 (CD-ROM)
❒	**2006 Fee Schedule –** The revised Medicare Part B Physician and Non-Physician Practitioner Fee Schedule, effective for services rendered January 1, 2006, through December 31, 2006, is available free of charge online at *http://www.connecticutmedicare.com* and *http://www.floridamedicare.com*. Providers who do not have Internet access may purchase a hardcopy or CD-ROM. The Fee Schedule contains calendar year 2006 payment rates for all localities. These items do not include the payment rates for injectable drugs, clinical lab services, mammography screening, or DMEPOS items. Note also that revisions to fees may occur; these revisions will be published in future editions of the *Medicare B Update!* Nonprovider entities or providers who need additional copies at other office locations may purchase additional copies.	700400	Hardcopy: $5.00 (CT) $10.00 (FL) CD-ROM: $6.00 (Specify CT or FL)

Coverage Guidance

Coverage Indications, Limitations, and/or Medical Necessity

There are several treatment options for basal cell carcinoma (BCC) and squamous cell carcinoma (SCC) of the skin including surgical excision and radiation therapy. This local coverage determination (LCD) will focus solely on radiation therapy (RT) for basal cell carcinoma (BCC) and squamous cell carcinoma (SCC) stage T1 (see 'Limitations' section for statement on Tis lesions). Stage T1 lesions are defined as lesions ≤2 cm.

Non-melanoma skin cancers (NMSC), also known as basal cell carcinoma (BCC) and

squamous cell carcinoma (SCC) are the most common forms of skin cancer. Basal cell carcinoma develops from the deep epidermis skin cells and can most commonly be found on sun exposed areas such as the face, ears, hands and forearms. Basal cell carcinomas are generally slow growing. Squamous cell carcinoma, like basal cell, typically are found on sun exposed areas of the skin, but can also occur on areas of the skin that have had previous trauma (burns, scars) or areas that have inflammatory conditions. Squamous cell carcinoma develops from the middle layer of the epidermis and can be slow or fast growing and can invade surrounding structures.

External beam radiation therapy (EBRT), also known as teletherapy, is therapy aimed at the lesion/tumor from an x-ray source outside the patients' body, usually a linear accelerator ("linacs") which produce X-rays (photons) or electrons. Electrons are useful in treating superficial lesions because the dose is aimed at the surface and dissipates as it goes deeper, thus sparring underlying tissue. Electrons usually have an energy range from 4-25 MV. Therapeutic x-rays (photons) can have energies in the kV range (at least 50 kV or greater) or, more typically, in the MV range. EBRT treatment is usually given over a series of daily treatments called fractions that can span over a few weeks (2-9). There are several methods used to administer EBRT: conventional, 3D conformal, intensity modulated radiation therapy (IMRT), tomographic, and stereotactic radiosurgery.

Brachytherapy unlike EBRT administers radiation therapy within or in contact with the body. Brachytherapy can be low dose rate (LDR) or high dose rate (HDR). LDR involves placing the radiation source directly into or next to the tumor. HDR treatment is delivered with dose rates greater than or equal to 1200 cGy per hour. The high intensity radio elements used in HDR have a radioactivity level high enough that prevents manual handling and loading of the applicator.

Indications

External Beam Radiation Therapy (EBRT)

Medicare will consider medically reasonable and necessary radiation therapy (RT) for Stage T1 (≤2 cm) basal cell carcinoma (BCC) and Stage T1(≤ 2 cm) squamous cell carcinoma (SCC) lesions treated with EBRT when the documented standard process of care supports the indications as outlined below:

- As a primary or secondary treatment for lesions located on the eyelid, nose, ear, lip, face, hands, genitalia, or feet if surgical treatment is not indicated due to function, cosmetic outcome or patient preference; or
- Radiation therapy (RT) of basal cell carcinoma (BCC) or squamous cell carcinoma (SCC) on the torso may be considered medically reasonable and necessary when the patient is already receiving RT for BCC or SCC for the areas outlined above; or
- Radiation therapy (RT) of basal cell carcinoma (BCC) or squamous cell carcinoma (SCC) on the torso, scalp, or below the knee may be considered medically reasonable and necessary if the patient has co-morbidities that would prevent surgical intervention of the lesion (e.g., MRSA; current anticoagulation or anti platelet treatment that cannot be discontinued); or
- Radiation therapy (RT) for basal cell carcinoma (BCC) or squamous cell carcinoma (SCC) below the knee, or on the scalp may be considered medically reasonable and necessary when surgical intervention to remove the lesion would require a skin graft and/or the closure would be complicated, for example due to chronic heart failure with lower extremity edema or due to difficult closure on the scalp.

For the above indications, accepted treatment protocols for single daily fraction EBRT include planned doses in the 3500 to 6400 cGy range with electrons/photons in 5-32 fractions.

It is the expectation that fractionated protocols may not be reasonable and necessary for certain patients. For example, to relieve symptoms (palliative treatment) or to improve quality of life of patients with certain performance status (ECOG 3 or 4 related to other medical conditions), a complete fractionated protocol may exceed the patient's medical need. For such patients, one fraction of 1000-2000 cGy dose (one treatment delivery) should be considered the treatment of choice.

High Dose Rate (HDR) Brachytherapy

Medicare will consider radiation therapy (RT) for Stage T1 (≤2 cm) basal cell carcinoma (BCC) and Stage T1 (≤2cm) squamous cell carcinoma (SCC) lesions treated with HDR brachytherapy medically reasonable and necessary when the documented standard process of care supports the indications as outlined below:

- As a primary or secondary treatment for lesions located on the eyelid, nose, ear, lip, face, hands, genitalia, or feet if surgical treatment is not indicated due to function, cosmetic outcome or patient preference; or
- Radiation therapy (RT) of basal cell carcinoma (BCC) or squamous cell carcinoma (SCC) on the torso may be considered medically reasonable and necessary when the patient is already receiving RT for BCC or SCC for the areas outlined above; or
- Radiation therapy (RT) of basal cell carcinoma (BCC) or squamous cell carcinoma (SCC) on the torso, scalp, or below the knee may be considered medically reasonable and necessary if the patient has co-morbidities that would prevent surgical intervention of the lesion (e.g., MRSA; current anticoagulation or anti platelet treatment that cannot be discontinued); or
- Radiation therapy (RT) for basal cell carcinoma (BCC) or squamous cell carcinoma (SCC) below the knee, or on the scalp may be considered medically reasonable and necessary when surgical intervention to remove the lesion would require a skin graft and/or the closure would be complicated, for example due to chronic heart failure with lower extremity edema or due to difficult closure on the scalp.

Accepted full treatment protocols for HDR brachytherapy include planned doses of 4200 cGy in 6 fractions or up to 5000 cGy in 20 fractions. The typical case is 10 fractions or less.

As noted under EBRT indications, it is the expectation that fractionated protocols (EBRT or HDR) may not be reasonable and necessary for certain patients. For example, to relieve symptoms (palliative treatment) or to improve quality of life of patients with certain performance status (ECOG 3 or 4 related to other medical conditions), a complete fractionated protocol may exceed the patient's medical need. For such patients, one fraction of 1000-2000 cGy dose (one treatment delivery) should be considered the treatment of choice.

Eastern Cooperative Oncology Group: Performance Scale

Grade and ECOG

0- Fully active, able to carry on all pre disease activities without restriction

1- Restricted in physically strenuous activity, but ambulatory and able to carry out work

of a light or sedentary nature, for example light housework/office work

2- Ambulatory and capable of all self care but unable to carry out any work activities; up and about more than 50% of waking
hours

3- Capable of limited self-care, confined to bed or chair 50% or more of waking hours

4- Completely disabled; cannot carry on any self-care; totally confined to bed or chair

5- Dead

Limitations

Pre cancer skin lesions such as but not limited to actinic or solar keratosis are not covered. Cancers limited to the epidermis- Tis, for basal cell carcinoma (carcinoma in situ) of the skin and for squamous carcinoma (squamous carcinoma in situ or Bowen's disease) of the skin can be covered if indications in the coverage section are met and the documentation supports the use of radiation therapy in lieu of other standard interventions. Claims for Tis lesions may be subject to medical review.

Basal cell carcinoma (BCC) and squamous cell carcinoma (SCC) of the skin > 2cm are not addressed by this LCD, though it is the expectation that radiation therapy for such lesions would meet standards of care and all aspects of the relevant Medicare regulations.

External Beam Radiation Therapy (EBRT)

It is not expected that the treatment delivery codes 77407, 77408, 77409, 77411, 77412, 77413, 77414, and 77416 will be utilized for treatment of BCC or SCC stage T1 lesions. Claims for such services may be developed (records requested when claims submitted) for prepayment medical review.

Hyperfractionation (BID treatment delivery) is non-covered for treatment of BCC or SCC stage T1 lesions.

Grenz rays (< 30 KV) is non-covered for any skin cancer condition.

Radiation treatment delivery, superficial and/or ortho voltage is defined as 50 KV or greater. Energies less than 50 KV are non-covered.

Intensity modulated radiation therapy (IMRT) (77418) for the treatment of BCC or SCC stage T1 is non-covered.

Stereotactic radiation treatment delivery and proton beam treatment delivery for the treatment of BCC or SCC stage T1 is non-covered.

High Dose Rate (HDR) Brachytherapy

Electronic brachytherapy (0182T) describes HDR brachytherapy that delivers radiation from a non-radionuclide source and is currently non-covered for any skin cancer indication.

Hyperfractionation (BID treatment delivery) is non-covered for treatment of BCC or SCC stage T1 lesions.

CPT code 77787 (Remote afterloading high dose rate radionuclide brachytherapy; over 12 channels) is non-covered for treatment of BCC or SCC stage T1 lesions.

Additional limitations

In order to be covered under Medicare, a service shall be reasonable and necessary. When appropriate, contractors shall describe the circumstances under which proposed LCD for the service is considered reasonable and necessary under 1862 (a)(1)(A). Contractors shall consider a service to be reasonable and necessary if the contractor determines that the service is:
Safe and effective; not experimental or investigational (exception: routine costs of qualifying clinical trial services with dates of service on or after September 19, 2000 which meet the requirements of the Clinical Trials NCD are considered reasonable and necessary); and
Appropriate, including the duration and frequency that is considered appropriate for the service, in terms if whether it is:

- *Furnished in accordance with accepted standards of medical practice for the diagnosis or treatment of the patient's condition or to improve the function of a malformed body member;*
- *Furnished in a setting appropriate to the patient's medical needs and condition;*
- *Ordered and furnished by qualified personnel;*
- *One that meets, but does not exceed, the patient's medical need; and*
- *At least as beneficial as an existing and available medically appropriate alternative.*

Supervision and Training

The CMS Manual System, Pub. 100-08, Program Integrity Manual, Chapter 13, Section 13.5.1 (http://www.cms.hhs.gov/manuals/downloads/pim83c13.pdf) outlines that *"reasonable and necessary" services are "ordered and/or furnished by qualified personnel." Services will be considered medically reasonable and necessary only if performed by appropriately trained providers.*

A qualified physician for this service is defined as follows: Training and expertise must have been acquired within the framework of an accredited residency and/or fellowship program in the applicable specialty/subspecialty.

Free standing facilities (office or clinic), hospital based practices and mobile delivery units affiliated with a Place of Service (POS) must meet Federal and local (FL, PR, USVI) radiation protection guidelines in regard to patient safety and quality assurance as well as the Medicare physician supervision requirements. For example, regulations require a medical physicist presence for HDR brachytherapy and direct supervision by the Radiation Oncologist. For teletherapy, regulations require qualified physician supervision and the presence of a qualified medical physicist. It is expected that all personnel involved in administering, supervising, and treating patients for the indications outlined in this LCD meet the regulations set forth for the state of Florida and for Puerto Rico and for the U.S. Virgin Islands as well as Medicare and the Nuclear Regulatory Commission (NRC), as applicable. These personnel include the radiation oncologist or other qualified physician, radiation/medical physicist, radiation technologist and radiation assistant. These regulations include:

Coding Information

Bill Type Codes

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

Revenue Codes

Code Description

CPT / HCPCS Codes

Group 1 Paragraph

General Information

Associated Information

Documentation Requirements

The following documentation must be included in the patient's medical record and be made available to Medicare upon request:

- History and Physical;
- Any consultation notes;
- Pathology report;
- Physician note that outlines planned process of care for the lesion being treated which will include the planned modality, dose and duration;
- A digital photo of lesion with ruler should be available on request;
- Necessity and frequency of treatment must be supported in the patient's medical record;
- Medical record documentation of the patient's functional status and a description of current performance status (Eastern Cooperative Oncology Group [ECOG] Performance Scale). See the ECOG Performance Scale listed under the Indications and Limitations of Coverage and/or Medical Necessity section of the LCD above; and
- The patient's record demonstrates why EBRT or HDR brachytherapy is considered the treatment of choice for the individual patient. Specifically, the record must address the lower risk to normal tissue, the lower risk of disease recurrence, and the advantages of the treatment over destruction or surgery. Dosimetric evidence of reduced normal tissue toxicity and/or improved tumor control must be included.

In addition, it is expected that documentation demonstrating the certification and qualifications required by Federal and State regulations as well as Medicare with regards to training and supervision of all personnel involved in the radiation treatment are maintained and made available to Medicare upon request.

This LCD includes the radiation treatment delivery codes that are appropriate for the treatment of certain T1 BCC and SCC skin cancers if indications are met. Other radiation oncology procedures performed during the episode of care must be consistent with the standard process of care for the radiation therapy of T1 lesions. These procedures must be reasonable and necessary for the care of the patient and meet CPT as well as ASTRO/ACR coding guidelines. Documentation should support the professional and technical components (as applicable) by identifying the place of service, the date of service, the supervising physician, and the proof of work.

Utilization Guidelines

It is expected that these services would be performed as indicated by current medical literature and/or standards of practice. When services are performed in excess of established parameters, they may be subject to review.

Radiology FAQ

If you have a question you would like to see addressed in the newsletter, please e-mail clinex@acr.org. The editorial staff will pick the most frequently asked questions for publication.

Question:	Answer:
reporting for the radiation oncology delivery codes? Does the number of treatment areas determine the level of complexity?	CPT codes for radiation treatment delivery, 77402-77416, are reported based on two factors: (1) the energy level used in the treatment expressed in megavolts (MV) and (2) the complexity of the treatment. While the number of treatment areas is one of the factors to be considered when determining the complexity of the treatment delivery described by codes 77402-77416, it is not the only determining factor when choosing the correct code. The number of sites alone does not reflect the actual complexity of most radiation therapy treatments. The use of custom blocking, tangential ports, wedges, rotational beam, compensators, or electron beams or other elements of treatment delivery can increase the complexity involved. Therefore, the appropriate treatment delivery code to report is not based solely on the number of treatment areas but rather on all of the factors that contribute to the complexity of radiation treatment delivery. The following guidance comes from the *ASTRO/ACR Guide for Radiation OncologyCoding 2007*: These two selection criteria allow for the following matrices for determining which code to use. In the table below, any one criterion within a subsection should be met to code for that complexity level. Simple Treatment Delivery (77401, 77402, 77403, 77404, 77406) • single port • parallel ports • no devices

The following guidance comes from the *ASTRO/ACR Guide for Radiation OncologyCoding 2007*:

These two selection criteria allow for the following matrices for determining which code to use. In the table below, any one criterion within a subsection should be met to code for that complexity level.

Simple Treatment Delivery (**77401**, 77402, 77403, 77404, 77406)

- single port
- parallel ports
- no devices
- simple devices

Intermediate Treatment Delivery (77407, 77408, 77409, 77411)

- 2 separate areas treated
- 3 or more ports on a single area
- multiple non-complex devices

Complex Treatment Delivery (77412, 77413, 77414, 77416)

- 3 or more separate areas treated
- custom devices
- rotational beam
- compensators
- electron beam (eg, electrons, neutrons)
- tangential ports
- wedges

Tier	Superficial and/or Orthovoltage Kilovoltage	≤ 5 MV	6-10 MV	11-19 MV	≥ 20 MV

Index 425

Introduction

Current Procedural Terminology (*CPT*®), Fourth Edition, is a set of codes, descriptions, and guidelines intended to describe procedures and services performed by physicians and other health care providers. Each procedure or service is identified with a five-digit code. The use of CPT codes simplifies the reporting of services.

Inclusion of a descriptor and its associated five-digit code number in the CPT codebook is based on whether the procedure is consistent with contemporary medical practice and is performed by many practitioners in clinical practice in multiple locations. Inclusion in the CPT codebook does not represent endorsement by the American Medical Association (AMA) of any particular diagnostic or therapeutic procedure. Inclusion or exclusion of a procedure does not imply any health insurance coverage or reimbursement policy.

The CPT code set is published annually in the late summer or early fall as both electronic data files and books. The release of CPT data files on the Internet typically precedes the book by several weeks. In any case, January 1 is the effective date for use of the update of the CPT code set. The interval between the release of the update and the effective date is considered the implementation period and is intended to allow physicians and other providers, payers, and vendors to incorporate CPT changes into their systems. The exception to this schedule of release and effective dates are CPT Category III and vaccine product codes, which are released twice a year on January 1 or July 1 with effective dates for use six months later. The CPT Category II codes are released three times yearly with effective dates for use three months later.

The main body of the Category I material is listed in six sections. Each section is divided into subsections with anatomic, procedural, condition, or descriptor subheadings. The procedures and services with their identifying codes are presented in numeric order with one exception—the entire **Evaluation and Management** section (99201-99499) appears at the beginning of the listed procedures. These items are used by most physicians in reporting a significant portion of their services.

Section Numbers and Their Sequences

Category I

Evaluation and Management 99201-99499
Anesthesiology 00100-01999, 99100-99140
Surgery 10021-69990
Radiology (Including Nuclear Medicine and Diagnostic Ultrasound) 70010-79999
Pathology and Laboratory 80048-89356
Medicine (except Anesthesiology) . . 90281-99199, 99500-99602

Category II 0001F-6005F
Category III 0016T-0170T

The first and last code numbers and the subsection name of the items appear at the top margin of most pages (eg, "11010-11306 Surgery/Integumentary System"). The continuous pagination of the CPT codebook is found on the lower margin of each page along with explanation of any code symbols that are found on that page.

Instructions for Use of the CPT Codebook

Select the name of the procedure or service that accurately identifies the service performed. Do not select a CPT code that merely approximates the service provided. If no such procedure or service exists, then report the service using the appropriate unlisted procedure or service code. In surgery, it may be an operation; in medicine, a diagnostic or therapeutic procedure; in radiology, a radiograph. Other additional procedures performed or pertinent special services are also listed. When necessary, any modifying or extenuating circumstances are added. Any service or procedure should be adequately documented in the medical record.

It is important to recognize that the listing of a service or procedure and its code number in a specific section of this book does not restrict its use to a specific specialty group. Any procedure or service in any section of this book may be used to designate the services rendered by any qualified physician or other qualified health care professional.

Instructions, typically included as parenthetical notes, with selected codes indicate that a code should not be reported with another code or codes. These instructions are intended to prevent errors of significant probability and are not all inclusive. For example, the code with such instructions may be a component of another code and therefore it would be incorrect to report both codes even when the component service is performed. These instructions are not intended as a listing of all possible code combinations that should not be reported, nor to indicate all possible code combinations that are appropriately reported. When reporting codes for services provided, it is important to ensure the accuracy and quality of coding through verification of the intent of the code by use of the related guidelines, parenthetical instructions, and coding resources, including *CPT Assistant* and other publications resulting from collaborative efforts of the American Medical Association with the medical specialty societies (eg, *Clinical Examples in Radiology*).

77336 Continuing medical physics consultation, including assessment of treatment parameters, quality assurance of dose delivery, and review of patient treatment documentation in support of the radiation oncologist, reported per week of therapy

77370 Special medical radiation physics consultation

▸Stereotactic Radiation Treatment Delivery◂

● 77371 Radiation treatment delivery, stereotactic radiosurgery (SRS), complete course of treatment of cerebral lesion(s) consisting of 1 session; multi-source Cobalt 60 based

● 77372 linear accelerator based

►(For radiation treatment management, use 77432)◄

● 77373 Stereotactic body radiation therapy, treatment delivery, per fraction to 1 or more lesions, including image guidance, entire course not to exceed 5 fractions

►(Do not report 77373 in conjunction with 77401-77416, 77418)◄

►(For single fraction cranial lesion[s], see 77371, 77372)◄

▸Other Procedures◂

77399 Unlisted procedure, medical radiation physics, dosimetry and treatment devices, and special services

Radiation Treatment Delivery

(Radiation treatment delivery [77401-77416] recognizes the technical component and the various energy levels)

77401 Radiation treatment delivery, superficial and/or ortho voltage

77402 Radiation treatment delivery, single treatment area, single port or parallel opposed ports, simple blocks or no blocks; up to 5 MeV

77403 6-10 MeV

77404 11-19 MeV

77406 20 MeV or greater

77407 Radiation treatment delivery, two separate treatment areas, three or more ports on a single treatment area, use of multiple blocks; up to 5 MeV

77408 6-10 MeV

77409 11-19 MeV

77411 20 MeV or greater

77412 Radiation treatment delivery, three or more separate treatment areas, custom blocking, tangential ports, wedges, rotational beam, compensators, electron beam; up to 5 MeV

77413 6-10 MeV

77414 11-19 MeV

77416 20 MeV or greater

77417 Therapeutic radiology port film(s)

77418 Intensity modulated treatment delivery, single or multiple fields/arcs, via narrow spatially and temporally modulated beams, binary, dynamic MLC, per treatment session

(For intensity modulated treatment planning, use 77301)

(For compensator-based beam modulation treatment delivery, use Category III code 0073T)

77421 Stereoscopic X-ray guidance for localization of target volume for the delivery of radiation therapy

►(Do not report 77421 in conjunction with 77432, 77435)◄

►(For placement of interstitial device[s] for radiation therapy guidance, prostate, use 55876)◄

Neutron Beam Treatment Delivery

77422 High energy neutron radiation treatment delivery; single treatment area using a single port or parallel-opposed ports with no blocks or simple blocking

77423 1 or more isocenter(s) with coplanar or non-coplanar geometry with blocking and/or wedge, and/or compensator(s)

Radiation Treatment Management

Radiation treatment management is reported in units of five fractions or treatment sessions, regardless of the actual time period in which the services are furnished. The services need not be furnished on consecutive days. Multiple fractions representing two or more treatment sessions furnished on the same day may be counted separately as long as there has been a distinct break in therapy sessions, and the fractions are of the character usually furnished on different days. Code 77427 is also reported if there are three or four fractions beyond a multiple of five at the end of a course of treatment; one or two fractions beyond a multiple of five at the end of a course of treatment are not reported separately. The professional services furnished during treatment management typically consist of:

- Review of port films;
- Review of dosimetry, dose delivery, and treatment parameters;
- Review of patient treatment set-up;
- Examination of patient for medical evaluation and management (eg, assessment of the patient's response to treatment, coordination of care and treatment, review of imaging and/or lab test results).

77427 Radiation treatment management, five treatments

77431 Radiation therapy management with complete course of therapy consisting of one or two fractions only

(77431 is not to be used to fill in the last week of a long course of therapy)

Introduction

Current Procedural Terminology (CPT®), Fourth Edition, is a set of codes, descriptions, and guidelines intended to describe procedures and services performed by physicians and other health care providers. Each procedure or service is identified with a five-digit code. The use of CPT codes simplifies the reporting of services.

Inclusion of a descriptor and its associated five-digit code number in the CPT codebook is based on whether the procedure is consistent with contemporary medical practice and is performed by many practitioners in clinical practice in multiple locations. Inclusion in the CPT codebook does not represent endorsement by the American Medical Association (AMA) of any particular diagnostic or therapeutic procedure. Inclusion or exclusion of a procedure does not imply any health insurance coverage or reimbursement policy.

The CPT code set is published annually in the late summer or early fall as both electronic data files and books. The release of CPT data files on the Internet typically precedes the book by several weeks. In any case, January 1 is the effective date for use of the update of the CPT code set. The interval between the release of the update and the effective date is considered the implementation period and is intended to allow physicians and other providers, payers, and vendors to incorporate CPT changes into their systems. The exceptions to this schedule of release and effective dates are CPT Category III and vaccine product codes, which are released twice a year on January 1 or July 1 with effective dates for use six months later, and CPT Category II codes.

The main body of the material is listed in six sections. Each section is divided into subsections with anatomic, procedural, condition, or descriptor subheadings. The procedures and services with their identifying codes are presented in numeric order with one exception—the entire **Evaluation and Management** section (99201-99499) appears at the beginning of the listed procedures. These items are used by most physicians in reporting a significant portion of their services.

Section Numbers and Their Sequences

Category I

Evaluation and Management 99201-99499
Anesthesiology 00100-01999, 99100-99140
Surgery 10021-69990
Radiology (Including Nuclear Medicine and Diagnostic Ultrasound) 70010-79999
Pathology and Laboratory 80048-89356
Medicine (except Anesthesiology) . . 90281-99199, 99500-99602

Category II 0001F-6020F
Category III 0016T-0183T

The first and last code numbers and the subsection name of the items appear at the top margin of most pages (eg, "11010-11306 Surgery/Integumentary System"). The continuous pagination of the CPT codebook is found on the lower margin of each page along with explanation of any code symbols that are found on that page.

Instructions for Use of the CPT Codebook

Select the name of the procedure or service that accurately identifies the service performed. Do not select a CPT code that merely approximates the service provided. If no such specific code exists, then report the service using the appropriate unlisted procedure or service code. In surgery, it may be an operation; in medicine, a diagnostic or therapeutic procedure; in radiology, a radiograph. Other additional procedures performed or pertinent special services are also listed. When necessary, any modifying or extenuating circumstances are added. Any service or procedure should be adequately documented in the medical record.

It is important to recognize that the listing of a service or procedure and its code number in a specific section of this book does not restrict its use to a specific specialty group. Any procedure or service in any section of this book may be used to designate the services rendered by any qualified physician or other qualified health care professional.

Instructions, typically included as parenthetical notes with selected codes, indicate that a code should not be reported with another code or codes. These instructions are intended to prevent errors of significant probability and are not all inclusive. For example, the code with such instructions may be a component of another code and therefore it would be incorrect to report both codes even when the component service is performed. These instructions are not intended as a listing of all possible code combinations that should not be reported, nor to indicate all possible code combinations that are appropriately reported. When reporting codes for services provided, it is important to assure the accuracy and quality of coding through verification of the intent of the code by use of the related guidelines, parenthetical instructions, and coding resources, including *CPT Assistant* and other publications resulting from collaborative efforts of the American Medical Association with the medical specialty societies (ie, *Clinical Examples in Radiology*).

77336 Continuing medical physics consultation, including assessment of treatment parameters, quality assurance of dose delivery, and review of patient treatment documentation in support of the radiation oncologist, reported per week of therapy
CPT Assistant Fall 91:15, Oct 97:4, Nov 98:21

77370 Special medical radiation physics consultation
CPT Assistant Fall 91 14, Oct 97:4

Stereotactic Radiation Treatment Delivery

▲ 77371 Radiation treatment delivery, stereotactic radiosurgery (SRS), complete course of treatment of cranial lesion(s) consisting of 1 session; multi-source Cobalt 60 based
CPT Changes: An Insider's View 2007, 2008

▲ 77372 linear accelerator based
CPT Changes: An Insider's View 2007, 2008

(For radiation treatment management, use 77432)

77373 Stereotactic body radiation therapy, treatment delivery, per fraction to 1 or more lesions, including image guidance, entire course not to exceed 5 fractions
CPT Changes: An Insider's View 2007

(Do not report 77373 in conjunction with 77401-77416, 77418)

(For single fraction cranial lesion[s], see 77371, 77372)

Other Procedures

77399 Unlisted procedure, medical radiation physics, dosimetry and treatment devices, and special services
CPT Assistant Nov 98:21

Radiation Treatment Delivery

(Radiation treatment delivery [77401-77416] recognizes the technical component and the various energy levels)

77401 Radiation treatment delivery, superficial and/or ortho voltage
CPT Assistant Apr 03:14, Aug 03:10

77402 Radiation treatment delivery, single treatment area, single port or parallel opposed ports, simple blocks or no blocks; up to 5 MeV
CPT Assistant Apr 03:14, Aug 03:10
Clinical Examples in Radiology Spring 07:7-9, 12

77403 6-10 MeV
CPT Assistant Apr 03:14
Clinical Examples in Radiology Spring 07:7-9, 12

77404 11-19 MeV
CPT Assistant Apr 03:14
Clinical Examples in Radiology Spring 07:7-9, 12

77406 20 MeV or greater
CPT Assistant Apr 03.14, Aug 03:10
Clinical Examples in Radiology Spring 07:7-9, 12

77407 Radiation treatment delivery, two separate treatment areas, three or more ports on a single treatment area, use of multiple blocks; up to 5 MeV
CPT Assistant Apr 03:14, Aug 03 10
Clinical Examples in Radiology Spring 07:7-9, 12

77408 6-10 MeV
CPT Assistant Apr 03:14
Clinical Examples in Radiology Spring 07:7-9, 12

77409 11-19 MeV
CPT Assistant Apr 03:14

77411 20 MeV or greater
CPT Assistant Apr 03:14, Aug 03:10
Clinical Examples in Radiology Spring 07:7-9, 12

77412 Radiation treatment delivery, three or more separate treatment areas, custom blocking, tangential ports, wedges, rotational beam, compensators, electron beam; up to 5 MeV
CPT Assistant Apr 03:14, Aug 03:10; *CPT Changes: An Insider's View* 2006
Clinical Examples in Radiology Winter 06:20, Spring 07:7-9, 12

77413 6-10 MeV
CPT Assistant Fall 91:14, Apr 03:14
Clinical Examples in Radiology Spring 07:7-9, 12

77414 11-19 MeV
CPT Assistant Apr 03:14
Clinical Examples in Radiology Spring 07:7-9, 12

77416 20 MeV or greater
CPT Assistant Aug 03:10
Clinical Examples in Radiology Spring 07:7-9, 12

77417 Therapeutic radiology port film(s)
CPT Assistant Fall 91:14, Dec 97:11, Feb 06:14

77418 Intensity modulated treatment delivery, single or multiple fields/arcs, via narrow spatially and temporally modulated beams, binary, dynamic MLC, per treatment session
CPT Assistant Mar 05:1, 6, May 05:7; *CPT Changes: An Insider's View* 2002, 2005

(For intensity modulated treatment planning, use 77301)

(For compensator-based beam modulation treatment delivery, use Category III code 0073T)

77421 Stereoscopic X-ray guidance for localization of target volume for the delivery of radiation therapy
CPT Changes: An Insider's View 2006
Clinical Examples in Radiology Winter 06:18

(Do not report 77421 in conjunction with 77432, 77435)

►(For placement of interstitial device[s] for radiation therapy guidance, prostate, use 55876)◄

Introduction

Current Procedural Terminology (CPT®), Fourth Edition, is a set of codes, descriptions, and guidelines intended to describe procedures and services performed by physicians and other health care providers. Each procedure or service is identified with a five-digit code. The use of CPT codes simplifies the reporting of services.

Inclusion of a descriptor and its associated five-digit code number in the CPT codebook is based on whether the procedure is consistent with contemporary medical practice and is performed by many practitioners in clinical practice in multiple locations. Inclusion in the CPT codebook does not represent endorsement by the American Medical Association (AMA) of any particular diagnostic or therapeutic procedure. Inclusion or exclusion of a procedure does not imply any health insurance coverage or reimbursement policy.

▶The CPT code set is published annually in the late summer or early fall as both electronic data files and books. The release of CPT data files on the Internet typically precedes the book by several weeks. In any case, January 1 is the effective date for use of the update of the CPT code set. The interval between the release of the update and the effective date is considered the implementation period and is intended to allow physicians and other providers, payers, and vendors to incorporate CPT changes into their systems. The exceptions to this schedule of release and effective dates are CPT Category III and vaccine product codes, which are released twice a year on January 1 or July 1 with effective dates for use six months later, and CPT Category II codes. Changes to the CPT code set are meant to be applied prospectively from the effective date.◀

The main body of the material is listed in six sections. Each section is divided into subsections with anatomic, procedural, condition, or descriptor subheadings. The procedures and services with their identifying codes are presented in numeric order with one exception—the entire **Evaluation and Management** section (99201-99499) appears at the beginning of the listed procedures. These items are used by most physicians in reporting a significant portion of their services.
