Appendix C
Inpatient-Only Procedure Codes

The data in this Appendix is based on the OPPS/ASC Proposed Rule for CY 2022. Please check the CMS website at www.cms.gov for final updates. Codes appearing in this Appendix may contain a placeholder “X.” According to the AMA, the codes with placeholder “X” are used to provide the proposed placement of where the codes may fall in the code set once the code set is finalized. CMS used the placeholder “X” codes for the proposed changes because the final code changes were not released before the proposed changes were implemented. Please check the CMS website at www.cms.gov for the Final Rule for OPPS/ASC CY 2022 to ensure that you use only codes that are complete codes and do not contain the placeholder “X.”
